

Wild Fire 761

Chapter 761 - Amulet of Time and Space

“Neighing ~~~”

The Beast King of Muge found Lu Yang and waved his tentacles violently. Lu Yang felt only shaking at his feet, and he immediately felt bad.

“activation”

A crimson light enveloped him, and flew towards him with a speed, and at the same time, he was just in the standing position, and a large 5 \* 5 range thorn appeared.

“30699”

The system prompts: You have been petrified.

Lu Yang sighed at the amount of blood she lost, and said, “This is just an abrasion. If you are hit, you will be finished. Fortunately, I will keep my hand.”

Obviously, this animal husbandry beast is a trap designed by the official game. Before playing so many skill books, anyone will be curious to see what else is here. If the reaction speed is slow, it will be seconds after that.

Ten seconds later, the petrification effect of Lu Yang was lifted. He measured the distance. It was about 80 meters from him to the wall, and a spell was spoken in his mouth.

“Destroy the Sky”

A crimson flame fell into the room at Lu Yang’s instructions, right in the head of the animal husbandry.

“28696” (Critical Strike)

Lu Yang was very satisfied with his prediction, and continued to use the annihilation fire to grind it up. After 2 hours, the beast-killer in the room fell to the ground with a cry.

System prompt: You successfully killed Muge Beastmaster

You gained 69886 experience

“Unfortunately, the skill has been cooling down for so long.” Lu Yang was a little bit emotional. If it was a lightning mage, it would be better to use the thunderbolt once a second, much faster than he used Skyfire.

Leaving a flame shadow in place, Lu Yang walked into the room. The Beastmaster Muge had turned into a pile of copper blocks. There were two skill books next to the copper blocks.

“Brilliant Wisdom”

Occupation: Mage

Cost: 500 magic

Description: For players within a diameter of 50 \* 50, it can increase the player’s 500 intelligence.

Sunfire Armor

Occupation: Fire Mage

Cost: 500 magic

Description: Use on yourself to increase your spell critical strike by 5%.

Lu Yang's spell crit now reaches more than 40%, including Yangyan armor, the crit exceeds 50%.

The glory of wisdom is the most important. When there are team battles in the future, all his spell damage can be increased by 500 points, which is too important for him.

"Unfortunately, nothing special came out." Lu Yang shook his head. It stands to reason that he came here to open up wasteland, and killing this kind of wild lord would give some good things. He exploded two books. Still let him down.

Out of the labyrinth, Lu Yang walked along the road on the left side. When he got out of the labyrinth, he reached the front of a hall.

There is a crystal coffin in the middle of the hall. Inside the coffin lies a human with full body armor, and beside him is a talisman flashing pure white light.

Lu Yang wanted this amulet. He pushed away the coffin and picked it up and equipped it to him.

Amulet of Time and Space

Grade 1

Description: Flashing skill +5

This is the treasure of the last life who got Heinrich's amulet and only found it in this underground palace.

The amulet of time and space has actually improved the flashing skill by level 5. This kind of baby can only be obtained by the earliest group of people who opened up wasteland. It is almost impossible for others to get this kind of baby, because the system will not invest too much. This is an item that breaks the balance of the game.

As a fire mage, Lu Yang has only 1 level of flashing skills, which can flash beyond 30 yards. Put on this time and space talisman, his flashing skills are level 6, and then put on a set of mage sets produced by the Blood Elf Island. The skill level is +1, and the flashing skill is level 7.

Level 7 flicker can jump beyond 110 yards and disappear from the map in an instant. Why are there so few space mage in the game? Because it can be transferred to space mage, every 10 levels can increase the blinking skill. However, before the second turn, the highest level is 7 levels. Only those who possess special items such as the heart of the devil, the amulet of time and space, and the ring of time and space can increase their skills.

If he can jump a distance of 110 yards at a time, Lu Yang can do a lot of things. It turns out that where he always wanted to go, he can go.

"Yes ~~ who ~~ , disturbed me ~~~" The armored soldier in the crystal coffin made a dull voice. He only had the bones of his paw to slowly push away the crystal coffin, and he slowly stood out of the crystal coffin. When I got up, I drew the knife in my right hand, suddenly jumped, and hacked toward the landing sun.

"flicker"

A white light appeared on Lu Yang. In the maze 110 meters away, Lu Yang showed his figure.

"Damn, you stole my amulet, I won't spare you." The armor warrior roared. He couldn't find Lu Yang's position, only roaring remained.

Lu Yang sneered, took out the city roll and flew back to the city of St. Gall. The player from the previous life wrote it in the Raiders. This lord is a lord and knows long-range skills.

After 10 seconds.

Lu Yang's light shone, and when he reappeared, he landed in the safe area of St. Gall.

"Wow, the boss of the Jagged Brotherhood."

...

The surrounding players recognized him from Lu Yang's burning armor.

Lu Yang smiled. After 20 seconds, he jumped out of the safe zone using the flashing skill.

"What about people?"

"I go, why do I jump so far all at once?"

"It is indeed the boss of the Jagged Brotherhood. It must have special equipment on it."

...

Immediately, players on the forum broke the news, and countless players followed.

The player responsible for monitoring the forum immediately reported the incident to Tu Feng. Tu Feng took a rare break and called Lu Yang's phone. He said, "What's the matter, what's going on in the city? You are all discussing in the forum."

Lu Yang sent the attribute map of the time and space amulet to Tu Feng, saying: "Just got it."

Tu Feng saw that the skill map was choking, and said, "There is this baby."

Lu Yang nodded and said, "Is there anything like an amulet or ring that adds flashing skills?"

Tu Feng said, "There is an auction in Benliu City today ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I was told that someone sold space-time rings at that auction."

Lu Yang said, "I'll go and see."

The space-time ring is the same as the flame ring, only increasing the flashing skill level 1, but having this level 1 is enough.

"Where's Hei Yan, where's this kid going?" Lu Yang asked.

Tu Feng said, "The team is leading a copy of Blood Elf Island. Our drawings are not enough. He went to the drawing."

Lu Yang used the scepter to fly to the superior Elven Village, and sent a message to Hei Yan, "Come out of the copy, I'll change the equipment with you."

Heiyan froze and said, "Boss, are you going to give me your Asian Legendary equipment?"

Lu Yang said, "Of course."

"Here it is." Hei Yan ran out of the copy happily. He wore a mage's suit, plus 1 skill for the entire department.

Chapter 762 - Abandoned Giant Wave Mage

Lu Yang replaced Hei Yan's equipment, and the flashing skill reached level 7. He and Hei Yan explained why he wanted this set of equipment, and said, "This set of Asian legends sent you."

"Thank you, Boss." Hei Yan was so excited about this set of gear that he had long dreamed of it.

Lu Yang laughed and flew to Hannibal City using the back to city roll. This time he was not so noticeable, especially when he turned off the special effects of his clothes and put on a cloak. At that time, no one knew him.

This is the second time he has come to Benliu and walked out of the transfer station. He walked towards Nancheng, where Li Xiuyu's guild was located. The guild was opposite the auction house, because it was not a safe zone, and there were 6 players at the gate.

Lu Yang glanced at Li Xiuyu's guild headquarters and was about to turn to the auction house. Suddenly, the door of Li Xiuyu's guild headquarters opened, and more than 10 players were knocked out.

"Give me out, the boss's opinion is clear, you have been fired." Fetish Forest frowned.

"How is this possible? Our relationship with the boss is so good, how could he fire me, you give me up, and I'm going to find the boss." Deep Ocean said unbelievably.

The fascinated forest showed a helpless expression, and said, "Brother, the boss doesn't want to see you, you go, you can live a good life in another guild."

Deep Ocean said excitedly: "Why, what happened to my job dereliction of duty? Why did I fire me? I want to ask the boss to understand, you leave, boss, boss ..."

The other more than 10 players shouted together, each with an expression on his face.

"What happened?"

"Liu Xiuyu's headquarters, what's the noise?"

“Go and see!”

Players passing by saw the situation around them, and the fascinating forest saw more and more people, and then saw more than 10 people shouting constantly, with annoyed faces on their faces.

“Brother, for the sake of our brothers, let me make it clear to you, don’t shout.” Fetish Forest said.

“You say!” Deep Sea angered.

The fascinated forest sighed and said, “Brother, your 500-man giant wave master group is a decree issued by the boss himself.”

“Why, we are the giant wave master!” Said Deep Sea.

Enchanted Forest said: “Just because you are a giant wave master group, brother, where do you still have output.

Yes, you have a large area and can brush up monsters. In the early days, the brothers relied on your level. However, the elite monsters at level 60 are so resistant, and your output is even equipped with the gloves of the blood monster temple. Can’t do any harm. “

At level 60, the monster’s lowest magic resistance also has 3,000 points, usually around 4,000 points. When the wave skill is used, only 50% of the magic damage bonus is added. All the wizards equipped by a blood demon temple are replaced. Gemstones above level 5 only have more than 6000 injuries. Half of them are removed, leaving only more than 3,000 points of damage, and dozens of points of blood.

If you want to cause damage to the monster, you can only buy the magic sound reverberation at the Blood and Fire Song Pharmacy Store. However, the range of the magic sound reverberation is only 30 yards. If you want to match the 150-yard vertical wave range, use 5 Each, one magic sound resounds to 30 silver coins. If you use 5 at a time, it is 1.5 gold coins.

Li Xiuyu's guild was already spreading such a word, the huge wave sounded, and the gold was extremely ambiguous. After seeing several attacks by the giant wave master group, Li Xiuyu was discouraged and did not want to continue using the giant wave master group.

Another thing is that the giant wave master group was restrained by Luyang's water system absorbing gemstones, and all major guilds also have a lot of water system absorbing gemstones. The giant wave master group has completely lost its role in combating people.

The fascinating forest said: "You have no harm in hitting people, no harm in hitting monsters, but your salary is so high, alas, how can our guild have so much money to support you?"

A giant wave master beside Deep Sea said excitedly: "That's not right. When the boss dug us out of various guilds, he didn't say that. He signed a five-year contract with us. He was kicked out in six months. "

At first, these people were not cultivated by Li Xiuyu himself, but Li Xiuyu dug up from other guilds with a salary of 3,000 yuan a month. There were a total of 500 giant wave masters, a salary of 1.5 million a month, Li Xiuyu was unwilling to pay .

Mysterious Forest said: "I can only say so much. You can do it for yourself. If you can't, just re-train your account. Julang Master is really useless."

He can only say so much, would he tell these people that Li Xiuyu's contracts with them are flawed? He couldn't say such words, so he could only say so much.

People in the deep sea waited to see that the fascinating forest was about to leave, and quickly surrounded them, making noisy noises.

"You must give a statement."

"Can't just kick us out."

"We have a contract."

...

The fascinated forest shook his head, looked at the guard who followed him, and said, "Take them away."

The players inside Li Xiuyu's Guild have long been unhappy with the giant wave master group, and usually give priority to them for any benefits. Others can only wait for the second and third batches. The guards who are fascinated by the forest usually belong to the second group. Today A chance to get revenge, a group of mages approached and turned on the guild attack mode.

"Resistant Fire Ring"

"Resistant Fire Ring"

...

A blaze of fire lit up, and the deep sea and others were quickly bounced to a distance of five or six meters. A more unfortunate encounter was encountered in a serial resistance fire ring, which was ejected a dozen meters away.

Where in the deep sea they had suffered this kind of wrath, their eyes suddenly red.

"Love Forest ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ How dare you let your men hit us?" Deep Sea angered.

The fascinating forest glanced deep into the ocean and said, "I've told you what to say, what else did you stop me from doing?"

"You!" Deep Sea was furious.

A fascinating forest guard said sarcastically: "Hurry up and keep arguing. Don't blame us for it."

"I'll kill you." A giant wave mage released a water bomb at this guard.

The guard taunted and walked towards them, saying, "I'm standing here today for you to fight. I lose blood and count you as a winner."

The equipment worn by Julang Mage is only level 40 gold equipment. A large miss symbol appeared when the water bomb hit the guard.

"You, this?" Master Julang choked.

The guard said: "The water system that I wear is full of equipment that absorbs gems, and you still want to defeat me, and with a bunch of garbage, I can kill all of you alone."

Chapter 763 - Space Time Ring

The giant wave mages bowed to the extreme, and a cry broke down and yelled: "You are too much, in order to kick us away, they even absorbed gems into the useless water system."

"Who made you so crap." The other player said.

"you!"

Deep-sea eyes blood-red held the giant wave master's shoulder and said, "Don't be ashamed here, he Li Xiuyu doesn't want us, we go to other guilds, brothers, follow me."

A group of mages showed confused eyes. They didn't know which other guilds were willing to accept them. When they left their respective guilds, the president did not retain them. However, it was only three months after they got here. If you contact the original guild, you will only get ridicule, but what use are they to the other guilds?

Who would want the Master of the Wave?

For a while, these people didn't know what to do.

"Listen to the deep sea, let's go."

"Let's think together, we don't believe we can't find a place."

More than 10 people left, leaving only the crowd.

"It's all gone, it's all gone, there's nothing to see." A guard said to the players around him.

"Oh, this Li Xiuyu is ruthless."

"Sure enough, the children of the family are assholes."

"These 500 people are finished, I'm afraid they have to delete numbers."

"If you retrain, it will take a few months for a guild to help."

"Well, unfortunately, in the final analysis, Li Xiuyu is not authentic and does not want these 500 people."

...

The surrounding players dispersed while chatting.

Lu Yang finally glanced at the deep sea. Although the giant wave master group was abolished at the current level, it was not useless, but Li Xiuyu would not use it. He had the intention to recruit these people, but now is not the time.

In the final analysis, these people were fired because of him. Now that he appears, he is expected to be scolded first, but he will not look for scolding, so he decides to go to the auction house first, anyway, these people will never have the guild willing Their.

“Well, sir, the auction will begin soon, please come in quickly.” A manager-like player at the door said to Lu Yang with a smile, and he saw that Lu Yang was coming in just now.

Lu Yang smiled and nodded, and walked into the auction house.

In the lobby of the first floor of the auction house, various small items are placed, all of which are expensive special equipment or things that do not know the effect.

There were many people in the hall. Lu Yang looked at the counters with the crowd. Suddenly, he saw Li Xiyu holding Li Xiyu’s arm, and the two came in together.

“Well, isn’t this President Lee and Silk Yu?”

“...”

The players around him complimented.

Li Xiyu looked in a good mood and greeted everyone and said, “Welcome everyone to my auction house, I wish you all can buy your favorite baby.”

The silky expression showed an expression of attachment, and said softly, “Husband, let’s go in, it’s about to start.”

Li Xiyu said: “Okay, let’s go in here. If you like it, I will buy it for you. Really, I have accompanied you to buy hundreds of thousands of things in luxury stores today.”

“It’s something you should reward me for,” she said quietly.

Li Xiuyu laughed and entered the auction venue with a whisper.

When the two had gone away, everyone started talking.

“Hey, Li Xiuyu is really about to die. He has money to buy things for women, but he has no money to support his subordinates.”

“I see, he did it, and most of his men were chilling.”

...

Lu Yang felt that Li Xiuyu was not very popular in the running city. If Li Xiuyu continued to fire such heroes, he was confident that he would destroy Li Xiuyu in the first battle.

When he came to the auction hall, the auction was just beginning. It was a bronze accessory. Lu Yang was not interested. He wanted to buy it in the middle auction. During this time, he took a closer look at Li Xiuyu and the silk language.

According to Lu Yang’s understanding, to be able to make Li Xiuyu bleed so much, it must be Li Xiuyu’s great help, and this is not a job to expel people from the deep sea. This kind of thing will not be done, Bacheng is about upgrading bugs and blood Things about the demon temple.

At this time, Huang Xiang should have found Liu Jie’s invitation. Liu Jie and Li Xiuyu were two families and two guilds after all. According to Liu Jie’s personality, they may not be willing to directly give two things of such high value to Li Xiuyu.

The silk language must have helped Li Xiuyu negotiate, and obtained these two materials that are very important to the guild at the lowest cost.

“Friends, the next item to be auctioned is a special equipment, a space-time ring, and the effect is a blinking skill level +1. This is a treasure. For those players who are not space mages, it can increase the blinking level, which is equivalent to one more. Whoever wants life-saving skills, the starting price is 50 gold coins. “

Lu Yang held up a sign and bought this thing for fifteen thousand. Lu Yang felt worth it. Other players looked at Lu Yang and felt like a fool.

Li Xiuyu and Yan Siyu also looked back at Lu Yang.

Lu Yang ignored the two and continued to look at the auctioneer. The auctioneer also knew that no one was willing to buy this thing, and quickly dropped the hammer to end the transaction.

“This gentleman, let’s check out at the back office,” an auction house staff member said to Lu Yang.

Lu Yang nodded, followed the man to the backstage, delivered the ring, got the thing, and left the auction house.

Space Time Ring

Grade 1

Description: Flashing skill level +1

Lu Yang wore the ring on his body, and now his flashing level has reached level 8 ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ using flashing can jump to a distance of 130 yards, this distance is enough for him to complete the next task.

To escape the dagger, this dagger has been with Lu Yang for half a year. Lu Yang has always wanted to upgrade him, but the upgrade material of this dagger is on the bottom of the quiet lake.

Lu Yang is a fire mage. It is equivalent to waste under water. Let others go to him without worry. Once the quiet lake opens, it will be sealed if it fails. If you want to go in again, you do n’t know when.

Now that his flashing skill reaches level 8, he can finally upgrade the escape dagger, take out the city roll and fly to St. Gall, and send a message to Jin Buhuan, asking: "Is there a potion that can breathe underwater for a long time. "

"Yes, I'll post it to you." Jin Buhuan said indifferently, he turned sharply and asked, "Boss, tell you something?"

"What's the matter?" Lu Yang asked.

Jin Buhuan said: "Well, I have prepared a total of 1.2 billion cash. You give me the card number and I let the bank transfer it to you."

Lu Yang Yile asked, "Where's your kid so much money, it's not like selling the real estate."

Chapter 764 - Escape Dagger Upgrade

Jin Buhuan smiled and said, "Yeah, I sold it."

Lu Yang said with a smile: "Yes, your boy is brave. I guess people in Danjiang City are calling you stupid, right?"

Jin Buhuan said with a smile: "Yeah, the assets of Riverside City are getting more and more valuable, and they call me stupid."

Lu Yang said, "Don't worry about them, call the money, and post it."

"Okay," Jin Buhuan said.

Lu Yang did n't tell Jin Bubu what he did, because he could n't say anything. He came to the post office. After a while, the system reminded that the items had been delivered. Lu Yang opened the warehouse he opened at the post office and got a set of 30 bottles. Underwater breathing medicine, at the same time, the bank prompted the completion of 1 billion transfers.

He replaced the Blazing Lion King and ran out of the city.

The quiet lake is not in a particularly difficult map. He is not far outside the city of St. Gall, running along the avenue to the north of the city. After a while, an extremely beautiful lake appears in front of him.

System prompt: you found a quiet lake

The range of the lake is very large, and you can't see it at a glance. There is a mountain in the middle of the lake. Lu Yang jumps into the lake and heads downstream.

A grey note appeared in front of Lu Yang. This was a time that could last underwater. Lu Yang took out a bottle of underwater breathing medicine, and the grey note disappeared.

System prompt: You can continue to walk underwater for 2 hours

Lu Yang continued to dive downwards. When he reached a depth of about 200 meters, an abandoned gazebo appeared underwater.

This pavilion is the entrance to the prison at the bottom of the quiet lake. The last generation did not know how many players got the escape dagger, but they could n't find a way to upgrade the dagger.

Until a casual player, he was interested in traveling through every map of "Second World" and enjoying every scene. Because of his reasons, he only exposed this place.

Players understand that many places in the original game that they have not visited may produce some special items.

Lu Yang came to the middle of the pavilion, and a rotating stream of water appeared beside him. The next second, he appeared in a building full of water.

System prompt: you found the underwater prison

Lu Yang looked around. He is now at the entrance of the prison. Crystal lights are everywhere on the walls on both sides of the prison to brighten the whole prison.

He slowly swam toward the front. In the Raiders interviewed by the player in the previous life, there are no mobs in this palace, only a water dragon.

“Hoo ~!”

There was a dull breath in the depths of the prison. This was the sound of a river dragon.

Lu Yang slowly walked towards the front. At the end of the prison passage, in a huge room, he saw a giant water dragon with no wings lying in the middle of a teleportation array to rest.

Water Dragon (Lord)

Level: 60

Qi and blood: 30000000/30000000

Lu Yang saw a weird expression on his strange blood, not to mention being in the water, even if he was on land, he couldn't beat it. There was also a danger of being killed.

He walked around the body of the water dragon to the back of the teleportation array, and there was a treasure chest with golden light on the ground.

“That's the thing.” Lu Yang glanced back at the water system dragon, and he still slept soundly. He came to the treasure chest and slowly opened it.

In the treasure chest, there was a jewel shining blue and purple, and Lu Yang slowly picked it up. At this time, suddenly, Lu Yang felt an abnormal flow of water in his neck.

He looked back, and the water dragon had woken up. He revealed that he was behind Lu Yang, with an angry expression in his two huge eyes.

“Hello ~!”

The water system dragon roared, and opened its huge mouth to bite Lu Yang’s body instantly. If Lu Yang was bitten, he would undoubtedly die, and the demon heart on his body would also fall.

After Lu Yang’s death, this special space will be closed for a month. Lu Yang is equivalent to having no demon heart within a month, which is totally unbearable for Lu Yang.

“flicker”

At the moment when the water dragon Yukou bite, white light flashed, and Lu Yang appeared 130 meters away. He just swam toward the exit just after landing.

The water system Yulong didn’t bite, and looked around humanely, looking back to find that Lu Yang was running away, roaring, and chasing after him with his eyes glaring.

The swimming speed of the water system dragon is 2.5 times that of the player. Lu Yang can obviously feel that the water flow behind him is getting more and more turbulent. Just when the water system dragon is about to bite him, Lu Yang escapes and escapes. dagger.

The fast-rotating dagger with a blue-violet light, when reaching the 30-yard limit, the river dragon caught up with Lu Yang and bit it, a blue light flashed, and Lu Yang successfully flew 30 meters away.

At this point, Lu Yang had arrived at the entrance. He glanced back at Yu Long who chased him again, waved his hand and walked out of the entrance.

Nine colors flashed, the seal opened, and the underwater space was closed.

Lu Yang breathed a sigh of relief and finally succeeded. He returned to the shore, flew back to the demon temple with the devil spell, and placed the gem and the escape dagger on the altar to choose a composition.

A light flashed.

System prompt: Escape Dagger upgraded successfully, now it is first order

Escape Dagger (First Order)

Level: 0

Description: Flashes forward for 40 yards and cools down for 30 seconds.

Level and level are two concepts. Originally, Lu Yang raised the dagger to level 10, and the cooling time was reduced by 10 seconds. After this level upgrade, the original level was emptied and needed to be upgraded again. Do, but return to St. Gall, and continue to the next special map with water gems.

For a whole day, Lu Yang found 10 space-time gems, and raised the escape dagger to level 10, and now the escape dagger has a flashing distance of 130 meters.

Lu Yang raised the escape dagger to level 10, and the cooling time became only 20 seconds. Now if Lu Yang uses the flicker and escape dagger together, he can jump to a distance of 260 yards, and can almost avoid anyone's pursuit. And, the escape dagger is now the same as the flashing skill, there is no need to throw the dagger to determine the position, just use the eyes to determine the position.

Tu Feng called and said: "Just got the news, Liu Jie is paying a high price for the punishment knight transfer certificate. He has already acquired 100 copies, and he has given them to Wang Teng."

Lu Yang sneered and said, "It seems that Liu Jie was scared by my Prismatic Shield Armor, and he bought it at a great price."

Tu Feng said: "It's not easy. The Prismatic Shield Armor mainly relies on defense and magic resistance. The punishment knight has the skill of punishing angels and ignores physical defense. In the next war, they rushed invincibly with the punishment knight. used."

## Chapter 765 - Divine Dwarf Warrior

Lu Yang said: "I will have a solution to this matter. I will give you a task and send someone to pay attention to the deep sea of Li Xiuyu's giant wave master."

"Watch what he's doing? Aren't he and all members of Julang Masters fired by Li Xiuyu?" Tu Feng asked.

A smile appeared on the corner of Lu Yang's mouth and said, "I am ready to receive them."

Tu Feng asked, "Is there any use for Julang Mage now? No blood will be lost when playing Level 60."

Lu Yang said: "Look, it will be this giant wave mage who will help me to run down the city in the future. It is not that the giant wave mage is useless, but that Li Xiuyu will not use it."

Tu Feng's eyes brightened, he knew that Lu Yang must have found a way to increase the damage of the giant wave mage, and said, "I immediately send someone to watch the deep sea."

Lu Yang shut down the intercom with a bang. This is a great killer. Why is there more than 200 secondary fire-forbidden fire mages in St. Gall, and why only Ben Liu City has mega mage. Is it the characteristic of each main city, can ordinary people see that it is useless?

If he can get the giant wave master group, it is equivalent to winning the entire runaway city, but these are the last words, what he is going to do now is to crack off Liu Jie's punishment angel knight group.

According to the official history of the game, the creator \*\*\*\* did not know where he was after he created this world. He left this world to the Titan caretaker he created before leaving.

Titans don't care about the evolution of humans, the greed of the dragons and the pride of the elves, and they don't care about the invasion of gods from other worlds. They just follow the will of the creation god. If this world is not destroyed, they will never shoot.

There are a total of 28 Titans. They have no desire, but just quietly guard the world. However, one of them has a desire for power in his heart. He used his ability to create a race-the giant spirit deity.

Each member of the Giant Spirit Protoss is over 50 meters tall, infinitely powerful, and numerous. Once born, even the Dragons are not their opponents, and they set off a killing on the entire continent.

The remaining 27 Titans did not feel this, but one day, in order to gain the supreme command of the 28 Titans, they sneaked in and killed another Titan who opposed him, causing the anger of the remaining 26 Titans.

They joined together to seal the Titan, preparing to wait for the return of the creation \*\*\*\* before trial, and the Titan Protoss tried to rescue the Titan many times. The other Titans originally intended to let them go and decided to punish the Titan Protoss and send them Become a race shorter than humans, but three times more powerful than humans-magic dwarves.

The divine dwarves who lost their original strength and magic have split, some choose to submit to reality and obey the command of the Titan Protoss, while others are still determined to save and create their Titans, leave the tribe and go underground, in an underground palace Secluded inside.

After countless generations of racial reproduction, these divine dwarfs have grown from hundreds to tens of thousands, and now a city has been formed underground.

Lu Yang's target this time was these divine dwarfs, running along the north side of the city of St. Gall, and there was a cave in the mountains in the middle of the mountains at the border with the orcs.

After walking down the cave all the way for 2,000 meters, a huge artificially excavated underground space appeared in front of Lu Yang's eyes.

System prompt: you found the giant cave

Lu Yang walked towards the front with the light of the crystal ball. Soon he walked to the front of a cliff. There were two torches on the opposite side of the cliff to illuminate the road opposite. The distance between the cliffs was almost 200 yards.

Seeing the two torches, Lu Yang showed a familiar smile. In the video posted by the player in the last generation on the forum, this place was recorded.

For a 200-yard super long distance, only the top space-time mage can jump over it, and to reach that level, at least after the second turn at level 80 and at level 60, the only thing that can jump over is only Lu Yang. Person with level 7 blink and level 10 escape dagger.

At this time, Lu Yang's surroundings were only bright, and there were bright lights more than 200 meters away from the opposite side. The rest of the place was dark, and the hollow cliff in the middle was even more terrible.

In such a dark and secluded environment, Lu Yang didn't have the slightest fear. He stepped back 10 meters to the sighted position, speeded up his run, and stepped on the edge of the cliff with the last foot, he leapt with high acceleration.

“flicker”

When Lu Yang jumped forward to the highest point, Lu Yang's body appeared a white light in the middle of the cliff on both sides. Just before he was about to fall, he launched the escape dagger in his hand and instantly appeared on the opposite cliff. Next to the torch.

System prompt: You have found the Giant Dungeon

From here, he officially entered the area where the magic dwarf was. Lu Yang looked back at the cliff, and he walked down the cliff towards the bottom.

Behind the cliff, a dark, bearded dwarf stood guard halfway up the mountain.

Divine Dwarf Warrior (Elite)

Level: 80

Qi and blood: 50000000/50000000

The elite mobs have 50 million blood. It is conceivable that if they are struck by these monsters, if they are hit twice, Lu Yang will die.

“After all, it is the elite of level 60 and level 80.” Lu Yang moved his muscles, his feet burning, and the sound of the magic echoed and threw it on the magic dwarf warrior.

System Tip: You have reduced Magic Dwarf Warrior’s 3000 Magic Defense

The magical dwarf warrior saw that his whole body became dark purple, and looked up to Lu Yang with a surprised look.

“Damn, enemy attack, enemy attack, follow me, kill him.” Shouted the dwarf warrior roared, and with his roar, his bearded jaw trembled.

Lu Yang turned around and ran. He had a level 6 blazing speed ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ more than twice as fast as the Dark Iron Dwarf. He ran to the edge of the cliff. After he released a 5 \* 2 flame in place, , The black iron dwarf caught up.

“Look where are you going?” The Dark Iron dwarf sneered cruelly, and the spear in his hand ran forward toward the landing sun.

Lu Yang smiled, flashed white light, jumped into the middle of the abyss, threw out the escape dagger and jumped to the other side of the cliff.

Twelve divine dwarf warriors ran to the wall of fire near the cliff and watched Lu Yang, standing opposite, stunned.

“Damn humans, I’m going to kill you.” The dwarf warrior roared and roared around the cliff to find a road, but there was no road to go at all. Instead, he walked frequently in the wall of fire, and their health quickly dropped.

“Destroy the Sky”

Lu Yang used the fire spell to attack. Although the cooling time was long, it was better than nothing. After a few minutes, 12 divine dwarf warriors fell to the ground.

Chapter 766 - Lethal throw

Lu Yang used the second paragraph to come to the opposite cliff, next to the bodies of 12 soldiers, two Divine Warrior Transfer Certificates fell to the ground, and a book shining silver.

Deadly Throw

Class: Divine Warrior

Distance: 30 yards

Consumption: 10% upper blood limit

Description: Throw a carry spear at the target with power \* 1 damage. It can break through special defense skills such as the ice barriers of the mage and the invincibility of the paladin. The cooldown is 1 minute.

Seeing this book, Lu Yang's face showed a smile. What he wanted was this fatal throw. Wasn't Liu Jie buying a transfer certificate for the punishment knight? OK, this time, Lu Yang wants to let him know what it is Deadly Throw of Wonder Warrior.

The game of "Second World" has never been absolutely invincible. Every profession has a profession that restrains him. Liu Jie thinks he can be invincible with money. Lu Yang will tell him what a wrong judgment.

"Boss, according to the news we have received, Liu Jie, Li Xiuyu, Wang Teng, Tianyao, Ma Lizhe, Liangyun and others have got upgrade bugs, and now they are all upgrading their subordinates, do we want to take the next step." Tu Feng asked.

Lu Yang's eyes showed a cold look, and said, "Since it has already been rolled out, it is time for us to perform. Send the method of upgrading the bug and the strategy of the Blood Demon Temple to the forum, so that all players of the national service Upgrade. "

"Yes," Tu Feng said.

Since this time, Lu Yang has gone through dozens of wars alone, and the entire national service has counted hundreds of battles. No server in the world has such a fierce battle.

Soon the national war will come. When the national war begins, the countries around the national service will be the same as in reality. Russia to the north, South Korea and Japan to the east, Vietnam and Myanmar to the south, and India to the southwest.

Deep in the ocean to the southeast is Australia, and the Indian Ocean to the south is the naval and pirate regiments of Spain and Northern Europe.

None of these countries is as terrible as Huaxia. Elite players in Europe, America, Japan and Russia have more time to study upgrade methods and copy strategies. At present, the average level of players in these countries has reached about 60, far exceeding National service player level.

In the future, once the national war begins, players in the national service will take their own steps and kill each other. When the enemies come over, Lu Yang will not avenge himself, even the invasion of foreign players will not be able to resist it.

Now that he has announced this method, the level of all players in the national service can be quickly raised. On the one hand, in the future national war, Lu Yang will organize players in the national service to resist those who are available, and on the other hand, it can be sold to the full service. Players, let everyone remember the news that Lu Yang, the Brotherhood of the Iron Blood, gave them for free.

One more thing, although this news was announced, it's easy for players to upgrade to level 60, but they do n't have level 60 equipment. Unlike them in the Jagged Brothers Alliance, all players who contribute to work and earn points can use points for free. Redeem outstanding gold equipment.

Senior players in the guild will also take them to the Blood Demon Temple to play equipment. Don't say that they want to work hard. The guild fears that their upgrade speed is slow, and they will help them work harder.

It won't be long, when they reach level 60, they find that they have no equipment, and the Jagged Brothers Alliance can redeem the equipment for free, and scattered players and other guild players want to get the equipment for free, and naturally they will join the Jagged Brothers. Alliance.

[World Channel] The first glance: Thanks to the old brother Yang of the Jagged Brothers Alliance. At level 60, he must apply to join the Jagged Brothers Alliance.

[World Channel] Heart-to-heart love: The Brotherhood of the Iron Blood is indeed a scattered group of the year. President Lu Yang is really the boss of conscience. This kind young brother remembers it.

[World Channel] Self-made passion: ...

...

Within half an hour, on the World Channel, a large number of players posted words of thanks to Lu Yang.

[World Channel] Mr. Nerve: What are you talking about? Why thank the boss of the Jagged Brothers Alliance, the Judge Brothers's PR will not be so shameless.

[World Channel] Prosperity in this life: mental retardation? moron? Tell me where you are, I'll kill you back to zero.

[World Channel] Meng Peng: How can there still be such a bastard? The leader of the Jagged Brothers Alliance has voluntarily posted an upgrade bug and a level 60 Raider of the Blood Demon Temple on the forum. Thank you for being too late. How dare you call him Are you a spy who sent Liu Jie and Li Xiuyu?

...

There was a scold on the World Channel.

[World Channel] Mr. Nerve: I'm dizzy, I apologize for what I just said, President Lu Yang, my brother really didn't know you said so, I was wrong, I sincerely apologize, and thank the chairman of the Iron Blood Brothers Association for free posting The upgrade method, if the Jagged Brothers League recruits, the younger brother must fight to death.

Originally, I was curious about why these players thanked Lu Yang on the World Channel. It was crazy to hear these words, and they started to open forums. At this time, Lu Yang's strategy has been pinned on the forum. video.

One is to upgrade the bug card strange method, the other is Lu Yang personally led the team to lead the White Lion and others to push out the nightmare difficulty of the hundred-person Blood Demon Temple Raiders.

For a while, the world was in an uproar. At present, most players are trapped at level 37. A few guild players have reached more than 40 levels, and fewer players have risen to more than 50 levels, less than one in 100,000. Players spend money to level 60.

Further up, even Lu Yang has just reached level 63, and Liu Jie and others have only spent money to level 62. Upgrading has become a very difficult thing for players in national costumes. There are decryption and upgrade bugs in foreign server strategies, but Unlike the copy of the national service, the national service cannot be used.

There are also some upgrade bugs found in some studios and guilds within the national service. However, they only serve the boss and their internal elite players. They do not say outside. Now, Lu Yang will announce the strategy. National service players will upgrade again. It's not difficult. In less than a month, all players can reach level 60.

Inside the guild.

The players of the Jagged Brothers Alliance are very supportive of Lu Yang's decision. As a guild that was originally formed to fight against power, the most loathing is the selfishness and arrogance of those grand guilds.

Especially the earliest group of people who followed Lu Yang, they resolutely followed Lu Yang for the common belief, not because Lu Yang gave them money, or because of power, just to fight the hegemony of the Bloodlust Alliance.

With the destruction of the Bloodlust Alliance and the destruction of \*\*\*\* guilds such as the Shenwu tribe, they gradually laid down one main city after another. However, these players, like Lu Yang, never bully ordinary players and have no thought of power.

Originally, they thought that Lu Yang would gradually become bigger and bigger, and their net worth would gradually rise to become the same as Liu Jie and Li Xiuyu. Now they see that Lu Yang still maintains the original mentality, which makes them more aware of Lu Yang. Respect, even more believe that he did not join the wrong guild.

[Guild Channel] Flame Knife: Boss fights for justice, praise the boss, haha.

[Guidance Channel] Hongye Feiwu: The boss 's move has benefited the whole country. There are so many guilds in the whole server. Only our boss has this mind. The boss is mighty.

[Guild Channel] Black Note: This game is too enjoyable, haha.

...

Lu Yang looked at the messages inside the guild channel and shook his head with a smile. He could guess the doubts of these brothers. Now he has proved with actual actions that his guild will never become the ruthless and innocent of Liu Jie and Li Xiuyu. This is enough, no need to say extra words.

Tu Feng was in the simulation group, saying, "Boss, the number of players that our guild applied to join has suddenly increased."

Lu Yang said: "Good thing, it is in short supply."

"Hey, Liu Jie and Li Xiuyu are half annoyed. It took so much effort to get something that actually made the boss public."

Everyone laughed.

On the other side, Liu Jiegang was very tired after watching two videos posted by Lu Yang on the forum.

"Brother Liu, please help me analyze, what does Lu Yang mean and what does he want to do?" Liu Jie asked.

Wang Teng frowned and said, "I knew he was going to announce it, so why let Huang Xiang find it? It cost him three legions in vain."

The dead grass shook his head with a smile and said, "Don't mind, Lu Yang was able to announce the incident, it is estimated that he felt this secret could not be hidden, and released it in advance before we released it, selling personal information."

Liu Jie and Wang Teng nodded.

Wang Teng said, "It makes sense."

The dead grass said: "As for Huang Xiang, he didn't disclose it to us. It is estimated that Lu Yang would not be announced so generously. Huang Xiang is still very useful to us."

Liu Jie and Wang Teng looked at dead grass.

The dead grass said: "I observed Lu Yang this day ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I found that he was full of chivalrous sentiments, was faithful to others, and also believed in the people around him because of this advantage. In a short time, he can gather so many high-willing and willing to use for him, such as the muddy wine dumplings and Bai Shi Sanxiong, Sun Yu, even if Lu Yang suddenly no money, one day I bet these Most of the legionnaires will not leave, and they will still follow suit and die. "

Liu Jie nodded and said, "I agree with you, this person is willing to trust his subordinates, and the players below are willing to work hard for him for this trust."

The dead grass said: "This is also his shortcoming. It is because he trusts others that only a \*\*\*\* such as Huang Xiang can appear and can be used by us. Continue to give Huang Xiang a high salary and a high position. One day, maybe he can It was him who defeated Lu Yang. "

Liu Jie and Wang Teng nodded together.

Huang Xiang didn't know that his fate had been arranged. He was actively helping the master Liu Jie to obtain Lu Yang's information.

"Brother, where are you?" Wang Teng asked.

Lu Yang just killed the tenth wave of magic dwarf warriors and got 10 transfer certificates and 20 deadly throwing skill books.

## Chapter 767 - Forbidden Boom

"I'm upgrading outside, what's the matter?" Lu Yang asked.

"Why did you disclose such important news? Such a valuable news is a pity." Huang Xiang said pretendingly.

Lu Yang said: "Leave you a task and find out how Liu Jie got the upgrade bug and copy strategy."

Huang Xiang felt guilty, and he didn't know how to say the words he had prepared. Only Weinuowo nodded and promised.

"Okay, I'll check it now, I'll check it out." Huang Xiang said.

Lu Yang sneered and shut down the intercom. Even if Huang Xiang didn't look for him, he would look for Huang Xiang. When Liu Jie got the strategy, he had to ask Huang Xiang to investigate. If he didn't investigate, it would indicate a problem.

"Huang Xiang, Huang Xiang, continue to pretend for me." Lu Yang sighed resentfully.

He was killed by the magic dwarf warriors on the road along the underground mountain. Lu Yang walked to the foot of the mountain. There is a magic dwarf tribe. All the dwarves live in the caves dug above the mountain.

There are thousands of dense caves on the mountain wall. Lu Yang avoided the cave wolf and aimed at a cave at the border.

“Destroy the Sky”

A blaze of flames flew from his hands into the sky and fell into the furthest cave two seconds later.

“3642”

The sleeping dwarf warrior was attacked and woken up by attack. He jumped out of the cave, looked left and right, and saw Lu Yang two hundred meters away, his eyes became blood red.

“Roar ~! All up, there are human invaders.” The magic dwarf warrior roared and rushed towards the landing sun.

With every step he ran, the dwarf warrior roared loudly, waking up every sleeping dwarf warrior along the way.

When he ran to the position where Lu Yang had just stood, thousands of divine dwarf warriors had gathered behind him. At this time, Lu Yang had already rushed to the top of the mountain with a fiery sprint, leaving 10 \* 10 in place. The area of the fire wall jumped to the cliff on the other side using a second flash.

The dwarf who rushed to the cliff position at the beginning still couldn't pass through the cliff, but could only be blocked on the mountain road. Thousands of magical dwarf warriors who came behind blocked the mountain.

“The Great Lord of Flames ...” Lu Yang said a spell, and after 10 seconds, a large hole was opened in the upper space of the cave, and a flame meteorite larger than the house appeared.

“Meteor Falls”

The flame meteorite dragged the long fire tail into the group of divine dwarf warriors, and after a moment of silence.

“boom”

A fierce flame ignited, accompanied by the shock wave visible to the naked eye, and passed through the whole mountain. The magic dwarf warriors within the shock wave range were all stunned.

“5686”

“5866”

...

Lu Yang kept spelling in his mouth and continued to seduce magic. After 10 seconds, a cloud of clouds appeared over the cave.

“Meteor Fire Rain”

Balls of fire dropped from the clouds and smashed into the middle of the magic dwarf warrior.

The spell in Lu Yang’s mouth kept on, and he continued to release magic. After 30 seconds, the clouds over the cave became thicker.

“The flames burn out”

A huge miserable white skull appeared on the hill, and the super high temperature killed a lot of magical dwarf warriors.

“6888”

“6688”

...

After running out of three spells in a row, Lu Yang moved his body for a long time. He did n't use the curse for a long time to blame him. This time he took advantage of the various forces in the server to upgrade madly. Skills with super long cooling time are used here, and they were used to fight at any time.

Two continuous stacks of forbidden spells and fire wall on the ground can cause damage of about 15,000 per second. This damage is not enough to drop the magic dwarf warrior.

"Inflammation"

Lu Yang's body turned into a flame, and his right hand pointed at the sky.

"Destroy the Sky"

"Destroy the Sky"

...

One second of ultra-long-range destruction of the sky fire was released by Lu Yang, four skills attacked at the same time, not long after, the front row of magic dwarf soldiers could not hold on, and began to appear a large number of casualties.

Unfortunately, there are too many blame in the back, and Lu Yang feels that he is too strenuous to kill by himself.

"Hei Yan, Nanfeng Zhiyi, Black Knight, Mu Yu, what are you four doing?" Lu Yang asked in the simulation group.

"Trumpet."

“Trumpet.”

...

All four are carrying trumpet.

Lu Yang said: “Let others bring the trumpet, the four of you will be on standby in the inner city of Red Fortress, and I will take you to a place.”

“Yes.”

The four agreed to each other and began handing over with their men.

Lu Yang built a sentry tower inside the cave, and then used the fortress to return to the city and flew to the inner area of the red fortress. It happened that the four members of Heiyan had arrived.

“Boss, what task?” Hei Yan asked.

Lu Yang took out the teleportation scepter and said with a smile, “I found a good place and follow me.”

A flash of light flashed, and Lu Yang took the four to the underground cave.

The four members of Heiyan adapted to the light of the crystal ball in the dark, and looked at the monster at the cliff opposite 200 meters away.

“Elite at level 80?” Hei Yan said in surprise.

Nanfeng said deliberately, “Boss, you really are different from others. I guess you brought us a level 80 map.”

Lu Yang laughed and said, "Even if I kill these monsters, it is a bit laborious. The four of you use the secondary forbidden spell to surround the opposite hill. I just drew more than a thousand monsters."

"Ok."

The four men spoke their own spells. When the last black knight used a black hole, more than 1,000 divine dwarf warriors were all absorbed into the black hole.

System prompt: you have 38168 experience

...

A long list of experiences did not surprise everyone, but the special effect of the black hole surprised them all.

"The black hole is so arrogant ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ sucking the monster directly to kill it?" Hei Yan said.

The knight in black said proudly: "Special effect, as long as the system determines that the monster must die, it will be directly sucked into the black hole. Just now the boss has killed a lot of blood from these monsters. We four have released the secondary forbidden spell and the system determines the damage if you exceed the upper limit of blood loss, you just \*\*\*\* it in. "

"It's amazing," Mu Yu said.

Lu Yang said, "Fly back first, I will jump over and pick up things myself."

"Ah?" Hei Yan asked in surprise: "Boss, can you jump over a distance of more than 200 meters?"

Lu Yang said, "Look."

Two white lights lit up, and Lu Yang appeared instantly on a cliff 200 meters away. He turned his head and said to Hei Yan, "How?"

Hei Yan and Nanfeng Zhiyi all looked dumb.

"Boss, you can't do it." Hei Yan asked, and it is the dream of all their mage players that a mage can jump to 200 meters in an instant.

#### Chapter 768 - Divine Crisis

Lu Yang gave them a flashing skill +5 space-time amulet and a 10th-level escape dagger, and said, "First return to the city and wait for me. I'll need some of you in a while."

"Oh." The four took out the city roll and flew back to the Red Fort.

Just after landing, the white wolf came over.

"Don't you guys fight with the boss? How come back?" White Wolf asked curiously.

Heiyan said silently: "The boss's strength is too strong, we can't keep up, he asked us to come back and wait for him first."

The white wolf looked surprised and looked at Hei Yan and said, "The boss has given you a sub-legend equipment, isn't there a demon heart between you and him? Is there such a big gap?"

Hei Yan shared the pictures of the amulet of time and space with the dagger to the white wolf, and said helplessly: "The boss jumped over a cliff more than 200 meters wide in a second stage, and I couldn't get through."

The white wolf was speechless, saying, "Uh, boss, this equipment is too much."

Heiyan sighed helplessly, and the three Mu Yu shrugged their shoulders. They all wanted to help Lu Yang share the pressure. Unfortunately, they couldn't.

The white wolf said, "I won't talk to you anymore. I'll take a step first, and I'll take the new level 60 to fight equipment. How can this magic warrior transfer certificate be so scarce, if you give me 500 more magical powers? Fighter, I can double my equipment speed. "

A flash of light flashed, Lu Yang stepped out of the teleportation array, listening to the words of the white wolf, smiling, and said, "Why, there is no magic warrior."

The white wolf immediately showed a "good" smile, scratching his head and saying, "Well, boss, I'm not complaining, it's not anxious."

Lu Yang smiled and said, "I think your boy is lucky. I got 300 Divine Warrior Transfer Certificates."

The white wolf saw that Lu Yang took the transfer certificate from his backpack and his eyes turned green, and he rushed to the certificate and said, "I want it."

Lu Yang shook his head with a smile and said, "Don't make trouble, give 150 pieces of muddy wine."

A flash of light flashed, and the muddy wine that was just notified by Lu Yang to get the certificate came out of the teleportation array. Seeing that the white wolf was getting the certificate, he hurried over and said, "Boss, I'm here."

Lu Yang's anxiety made Lu Yang laugh even more. After testing the strength of the magic warrior, the Iron Blood Brothers had a consensus on the magic warrior. The output of this profession is not under punishment of the knight.

Lu Yang divided 150 books and gave them to Zhuoju, and said, "Relax, I can't forget you."

Zhuoju put his skill book in his backpack, and breathed a sigh of relief, saying, "Fortunately, I came early, or the white wolf is going to \*\*\*\* it again."

White wolf is embarrassed ...

The benefits of group life, the shortcomings of each person are exposed to the other's eyes, the white wolf child's personality, speaking morale but like to grab things, muddy wine is a big brother type, always humble.

"Boss, nothing happened." The white wolf started selling cute.

Lu Yang and Zhuo Jiu laughed.

Zhuo Jiu said, "I'm gone too, and the upgrade over there is too anxious."

Lu Yang said, "Don't worry, there is baby."

"What baby?" White Wolf asked.

Lu Yang took out the "Deadly Throw" skill book from the backpack and gave it to the two, saying, "Look what is this?"

The white wolf flushed with excitement at the description of the fatal throw, and said, "There is still this skill that can break the invincible and the ice barrier?"

Zhuoju poured his eyes and widened his eyes, and said, "With this thing, punishing the knight is worthless."

Lu Yang said: "I heard that Liu Jie is buying Wang Teng a large number of disciplinary angel transfer certificates. The purpose is to break my Prismatic Shield Armor Corps. When he fights next time, he dare to send disciplinary angels. I will use lethal throws to entertain he."

"Hey, Wang Teng can't be furious." White Wolf said.

Everyone laughed.

"I'm going to equip my men." Zhuo Jiu said excitedly.

"I'll go too," said White Wolf.

Lu Yang nodded and sent a message to 12 of Han Ying's three siblings, Xiao Liang, Ding Dong Mao, and Han Sha, as well as 60 new guards such as Xiao Chengfeng, saying, "Come at the Red Fortress."

This is the most combat power he can gather at present. At present, the entire guild is spinning like a machine. Every advanced player is like a part. Whoever is missing, the machine will have problems.

All 100,000 level 60 transfer players are responsible for leading the team to upgrade the ranks. Lu Yang's 150 private guards who punish the guards of the knights, Xia Yuwei and White Lion, as well as Hei Yan's forbidden mage are all busy giving the guild Internal player upgrades.

The original 3 million people and the newly added 2 million people of the entire guild were all stuck in the copy. They either upgraded, played equipment or attacked the fortress in the wild. The manpower was seriously insufficient.

Xiao Liang's 20,000 prism colored shield armor fighters were separated by 10,000 and entered the copy to fight the monsters. The remaining 10,000 were responsible for defending the fortresses in the field, so that Tu Feng had to hire studios such as Xinghun and Broken Sky. He Yueban and other guild bosses sent people to help defend the fort.

The entire Jagged Brotherhood and its affiliated guilds were bustling outside the three main cities of St. Gall, Neptune, and Hannibal.

White light flickered in the teleportation array, three sisters Han Ying, Xiao Chengfeng and others came out of it and came to Lu Yang.

“Brother, we are here.”

“Boss, here we come.”

...

Lu Yang nodded, took out three sets of camouflage coats from his backpack and handed them to Han Ying and Xiao Chengfeng, saying, “Send them.”

The two nodded and took the camouflage coats and distributed them one by one.

Dingdong Cat asked curiously, “Brother, where are we going?”

Lu Yang said: “Hearing the news, the level 70 wild monster area outside Zijin King City can drop high-level natural spells, and Shenhua can’t hold on, we have to help him.”

Everyone nodded.

Lu Yang and other Han Ying and Xiao Chengfeng finished their camouflage coats, took them back to the city of St. Gall, and flew straight to the Purple King City through the teleportation array.

Just coming out of the teleportation array, Lu Yang saw a team of players in the distance hurriedly walked past. The headed player Lu Yang knew that it was the head of the Star Anger Druid Corps De Shen not taste the body. The amusing player, young, has strong abilities and has won the trust of Shenhua.

“You go to the meeting point first, I will be there in a while.” Lu Yang said to Xiao Chengfeng around.

Xiao Chengfeng nodded and led the team away.

Lu Yang quickly caught up with Germany without tasting the corpse, and asked, "You don't upgrade in the copy, how come back to the city?"

De Bu tasted the corpse and saw Lu Yang's eyes brighten, looked around, pulled Lu Dingyang to the hotel next to him, found a private room, and said in surprise: "President Lu Yang, why are you here?"

Lu Yang said, "I heard of your plight. I brought someone to help you with skill books and equipment."

With a grateful look, De Bu tasted the corpse and said, "Thank you President Lu Yang, alas, we have been a bit sad recently."

Lu Yang asked: "Tell me specifically, I haven't gone to Shenhua yet."

De Buqi nodded and said with a sigh, "Since Liang Yun chased Liu Jie and was ambushed by Ruyue Taishan with 2 million people, Liang Yun was injured on his side, and he could not threaten Liu Jie's fortress again. Liu Jie At this time, there was no strength to threaten Liang Yun, and the two sides stopped fighting. The threat from the west, Liu Jie began to deal with us with all our strength. "

Lu Yang asked, "Did he send someone to fight?"

De Bu tasted the corpse and shook his head, saying, "Liu Jie's tricks are too bad. We are not afraid of hitting us with a knife and a sword. But Liu Jie didn't fight with me. He recruited a lot of people at the recruitment office of Zijin King City. He also contacted the previous ones The guild we were chased against killed us. Fortunately, the boss of Lu Yang told us in advance the upgrade bug and the copy method, so that our people entered the copy in advance, otherwise, the guild will be disbanded now. "

Lu Yang didn't expect that the situation here was so serious, he shook his head and said, "At the beginning, I advised him not to kill these wall grass associations. While Liu Jie's energy was in Liangyun, he accumulated more strength, but unfortunately. "

De Bu nodded his head in depression, and said, "I also persuaded the boss, but the boss hated the guild's betrayal, and I was okay."

Lu Yang asked, "Why did you get out of the copy? Is something wrong?"

De Bu tasted more dead, and said, "Liu Jie spread the news that he was going to hit us. He also sent tens of thousands of people to protest outside our fortress. The boss was afraid that the fortress would be lost and transferred us back, but that 10 The tens of thousands of people left when they saw us, and humiliated the boss. The old downline sulked, and Lanyi elegantly presided over the conference for him.

A few of us wanted to return a copy, but at the entrance of the Blood Demon Temple, all of Liu Jie's men were killed. As long as it was our people, they would be killed. My brothers and I had just returned from death, and we were trying to get revenge. "

Lu Yang took out a set of camouflage coats from his backpack and said, "I don't have much left on this thing ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ I can only give you so much. Use this camouflage coat to copy it."

De Wu tasted the body and saw the effect of the camouflage coat gratefully and said to Lu Yang, "Thank you to President Lu Yang for your help."

Lu Yang said, "Go ahead, I'll look for the blue clothes to flow."

Thanks again to Lu Yang for leaving the hotel.

Lu Yang sent a message to Lanyi Piaoyi. After a while, Lanyi Piaoyi entered the private room and saw Lu Yang said excitedly: "Brother Lu Yang, you are here, we have encountered a major crisis."

Lu Yang asked: "I just met German and didn't taste the corpse. Why is the situation here so serious?"

"Ye ~!" Lan Yi said helplessly: "I am vengeful, and the dozens of guilds saw that Liu Jie was dying. They asked me to bow their heads and concede and want to reattach him. I hate them for betrayal and rejection. They apologized and continued to chase them down. As a result, Liang Yun was defeated. These guilds regained the support of Liu Jie. We are now internally and externally troubled and weary.

Lu Yang also felt a little helpless and said with a bitter smile: "The world is impermanent, don't talk about those, and think of a solution."

#### Chapter 769 - Evil tree spirit

Who would have thought that Liang Yun was hit by Liu Jie in a perfect ambush under such a big advantage, and the God of War God who had killed him had fallen off. It was not because his men were desperately trying to \*\*\*\* him back. Liangyun's guild may be because of this The godhead was disbanded on a large scale.

The affiliated guilds of Liu Jie killed by Shenhuang in the city mourned and dared not to leave the city. Immediately, these guilds would collapse and dissolve. In the end, Liu Jie escaped, and these guilds regained support.

Lan Yifei said: "We can only passively defend now, there is no good solution."

Lu Yang said: "Starting today, I will collect advanced skill books and transfer certificates for you on the Elf's advanced map. You must hold on. As long as you are still, Liu Jie will not dare to act arrogantly. If you lose Liu Jie can hit Iceberg City, and Liang Yun can hit him. No one can stop him anymore. "

Lanyi elegantly nodded and said, "Brother Luyang rest assured, as long as you don't give up on us, I will lead the team to resist Liu Jie's troops."

Lu Yang patted him on the shoulder, and the elegant blue coat left Lu Yang's room.

Lu Yang changed into a camouflage coat and became an ordinary elf-type player. He jumped to the hotel lobby next door using flashing skills, Shi Shiran went out, and faced with the elegant blue coat. The elegant blue coat did not recognize Lu. The sun is coming.

“Summon Horned Deer”

A ray of light flashed, and a horned deer appeared next to Lu Yang. This is a mount unique to the Elven clan. Any rich Elven player will buy one.

Lu Yang rode a horned deer and ran towards Dongcheng Gate. He found Han Ying, Xiao Chengfeng and others in a house beside the doorway, and took them to the level 60 tree demon shrine.

The last time Lu Yang came here to fight monsters, there was no one here. This time, there are several groups of players around the tree demon temple who are fighting monsters and PK each other.

When Lu Yang came here, several parties could not help but stop and look in the direction of Lu Yang at the same time. One of the soldiers frowned and asked, “Which group are the brothers?”

“Uh ...” Lu Yang watched hundreds of people aiming at himself at the same time, and said with a smile: “Passing by, you continue, I don’t participate, I’ll change the map to blame.”

“Kill you.” The warrior who just spoke turned and slashed at the enemy player around him.

“Sneak on me, you’re looking for death.”

...

Several groups continued to fight.

There was a familiar feeling in Lu Yang’s heart. He really wanted to go up and do one. He had never encountered this situation thousands of times in his life. He was not a god, not a studio. Ordinary players faced the situation of routine upgrades. The most common problem is grabbing monsters. At this time, the opponent must be killed first.

“Why can’t you upgrade peacefully?” Ding Dong Cat said.

Lu Yang smiled and said, "Why do you want to upgrade peacefully? Here I take my brothers alone to occupy the Daguai explosion equipment, okay, what do I share with these strangers, then I have to do it, for the equipment In order to be one step faster, we have to fight like this. "

For the first time, Han Ying, Han Sha, and others saw Lu Yang speak in such a tone, and they were a little surprised for a while.

Xiao Chengfeng likes Lu Yang's tone of speech very much, and said with passion: "Brother, why don't we destroy these groups and rob the lords inside?"

Lu Yang said: "I also think, but then we shouldn't expose the target. Once the camouflage coat is damaged, it will show its original shape. Now we are in Liu Jie's territory, we should still be careful."

Xiao Chengfeng made a noise and nodded.

Lu Yang said, "Let's go, we can't rest assured that they will continue to fight here, we will take care of business."

He patted the antlers, led the crowd and continued to run forward, running along the avenue to the edge of the 60-level map. In a large mountain, he broke into a gourd-shaped valley.

Lu Yang led his team to the innermost part of Hulugu. At this time, all around Hulugu were cliffs.

"Brother, there is no way out," Han Fei said.

Lu Yang walked to the lower left corner of Hulugu and patted the gray rock in front of him. In the eyes of everyone's surprise, Lu Yang's arm passed through the rock without photographing anything.

"Here, there is a secret enchantment!" Han Fei said in surprise.

Lu Yang smiled and said, "Come with me."

A group of people followed Lu Yang through the enchantment, and a grassland and a forest of birds and flowers suddenly appeared in front of them. The ground was full of blooming flowers.

System prompt: you found the Emerald Dreamland

“Why is this place so beautiful?” Han Yu said.

Lu Yang also feels that this place is particularly beautiful. Of course, if there is no elite strange, this place is definitely the most beautiful place.

A sharp arrow suddenly shot from the forest. The target was Han Fei. When the bowstring sounded, Han Fei felt wrong. When he saw the cold light flying towards him, he slashed forward from the sword. go with.

“when”

The blade is centered on the tip of the arrow, splitting the arrow in half.

“Be careful, an enemy sneaks in.” Han Fei shouted.

Lu Yang said: “Everyone be careful. The strange people here are all 80-level elites. If they hit, they will die. After listening to my order, they will retreat to the side.”

In the distant forest, a green-skinned, horrifying creature walked out of the tree with a bow and arrow.

Evil Tree Spirit (Elite)

Level: 80

Qi and blood: 30000000/30000000

Lu Yang said: "Everyone step back and continue to lead him out."

The crowd and Landing Yang continued to retreat against the wall, and they receded 50 meters in a row. There was no road behind them. Lu Yang said to Han Sha beside him, "Get on 3 people and trap him."

"Yes." Han Sha took Han Yu and Han Meng to jump behind the tree spirit with a surprise attack. The tree spirit is just an elite monster, which can be restricted by the control skills. Han Sha has used sneak attacks to stun the tree spirit in place. .

"Mage and shooter set fire, do not move the rest of the profession." Lu Yang said.

The people attacked together, and the tree spirit was soon killed on the ground.

"What a weird thing, how disgusting it is," said Ding Dong Cat, looking at Shu Ling's body, and the dead Shu Ling is rapidly decaying, turning into a pile of dead bones and merging into the soil.

Lu Yang said: "According to the official records of the game, here are the descendants of the creatures created by the creation god."

The official record of the game, when the creation \*\*\*\* created this world, he gathered all elements to create this planet, and planted a creation \*\*\*\* tree on this planet. This \*\*\*\* tree has branches and leaves, which are derived from All the flowers and trees in this world.

The Genesis God Tree and the Titans and the Nine Elements together constitute the most basic material of this world. The first generation of the God Tree, the descendants of the ancestral tree are the ancestors, and the descendants of the ancestors are the tree spirits.

The tree spirit should not have appeared. However, the civil war between the nine elements and the power struggle for the Genesis Titan destroyed the world very seriously. The first bad luck was flowers and trees. In order to prevent more trees from being destroyed, the first generation The ancestral tree

created the spirit of the tree, which protects the ancestral tree and the \*\*\*\* tree that are about to enter a long dormancy.

Unfortunately, any intelligent creature, no matter what the purpose is, will eventually fall into war. The tree spirit faces insufficient strength in the face of the Nine Elements and the Genesis Titan, and faces the severely damaged world of vegetation in the face of Japan and Israel. , A tree spirit uses the seeds of evil to greatly improve its ability to keep the ancestral tree and the \*\*\*\* tree.

Later, after the end of the Nine Elements civil war, the Titans detained the usurpers, the ancestral tree and the \*\*\*\* tree awoke, and found that the tree spirits they had created turned out to be evil trees, and expelled them from the Wanshu Garden.

The creature named Evil Tree Spirit was deeply embarrassed by the banishment of the ancestral tree. They could not be forgiven no matter how to explain it. They were far away from the Wanshu Garden and hid in the emerald dream. This is in the Second World "Official records in the official history can be found in the game library.

If the player has the heart, you can find this position from the book. However, how can there be so many players, the official official history records have tens of millions of words for each race. Who has the time and energy to see that thing? .

Lu Yang was able to find this place because of the last two guild battles. One of the guilds was buried in an ambush and was trapped here. Just when they were almost killed, a player was kicked in by a hostile guild player. With the Emerald Dream, it was here that it was exposed.

In this life, Lu Yang deliberately hired more than a dozen players to study the official official history in order to camouflage himself, to record every suspicious news, and after demonstrating and testing, Han Sha was responsible for searching.

Ding Dong Cat, Xiao Chengfeng and others heard the official official history of the game explained by Lu Yang, and they all showed emotions.

Dingdong cat said angrily: "The creation \*\*\*\* tree and the ancestral tree are too confused. These tree spirits use the seeds of evil for them. Why should they be removed? They are so pitiful that I can't bear it. "

Lu Yang shrugged his shoulders and said, "Because the bad is bad, even if he does a good thing, he can't change the fact that he is evil in nature."

He picked up a black demon fruit from the ground ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said: "You can't bear to fight against them, they can bear against you, Han Fei, Han Yu, Hei Yan, Ding Dong Cat, you 4 Responsible for attracting monsters, one for each, Han Sha, 12 of you are responsible for stunning, and the mage and shooter are responsible for output. "

The four nodded and slowly entered the forest to blame. Soon, the four of them pulled out four evil tree spirits, and they all exported together. The evil tree spirits were quickly killed.

A silver book fell to the ground.

Wrath of the Stars

Class: Starfury Druid

Description: Releases a target within 500 yards, inflicting spell damage per second to the enemy / 2 damage, duration is 2 minutes, cooldown is 1 hour.

Lu Yang picked up the certificate and said, "This is what I want. As long as there is the wrath of the stars, the fortress of Shenhuang will never be lost."

Starfury is the ultimate skill of Starfury Druid. It is stronger than their signature skills Starfury. The large range of natural starlight damage can be resisted without any magic resistance. Although the damage is not high, multiple people are standing above the fort Use, the enemy can not even rush to the foot of the fortress.

## Chapter 770 - Yaowu Yangwei sneak attack

“It’s better than the secondary ban.” Han Yu said.

Lu Yang said, “Let’s continue and see how many copies can be printed.”

Everyone nodded.

From the afternoon to the evening, Lu Yang led the team for a day and got more than 200 Stars’ Wrath Skill Books.

He was about to call Shenhuang. Suddenly, Shenhuang called him first and pressed the connect button to ask: “What’s wrong?”

Shenhuang said excitedly: “Yaowu Yangwei suddenly surrounded my fortress with a group of 300,000 people, all of them are more than 50 players.”

Lu Yang felt bad, and said, “Hurry up and send a credible person to the Nuanxing Hotel in the Zijin King City security zone. I just hit more than 200 Star Wrath Skill Books, which should help you keep it fortress.”

“I’ll send someone here,” Shen Huang said gratefully.

Lu Yang had no time to run back to the Purple King City from the 60-level map. This took several hours. He directly used the back to the city to fly back to St. Gall, and spent 5 gold coins to fly to the Purple King City.

Just arrived at the Nuanxing Hotel, and saw that Debu Xie was waiting anxiously at the door. Lu Yang handed over 200 skill books to Debu Taste. He said: “Learning this new skill can help you keep the fort. I asked Han Ying to continue playing, and they could send over 200 copies tomorrow morning. “

“Thank you very much.” De Bu was very grateful for the dead body. He knew that Lu Yang’s words meant to let Han Ying play all night.

Lu Yang said, “Go back first. I’ll go to your fortress and see if there is anything I can help you with.”

“The fortress is full of enemy troops. You can’t get in.” De Bu tasted the corpse.

Lu Yang said with a smile: “Rest assured, this will not hurt me, I have my own way to go in.”

The biggest problem between the two armies is that once the war is fought, the ghost knows which team the people around are in.

Not to mention 300,000 people, even 10,000 people will make it difficult to find troops.

Lu Yang watched Debu taste the corpse and use the fort to return to the city and leave. He flashed into the hotel and jumped to the hotel next door using flashes. After ensuring that no one recognized him, he changed his face and walked out of the hotel to the gate , Replaced the horned deer and ran towards the fortress of Shenhuang.

Half an hour later, when he came near the fortress, a hillside was already full of players watching the show.

“This time, the \*\*\*\* world is over. Liu Jie suddenly attacked, and Shen Huang was not prepared at all.”

“Deserve it, let Shenhuang kill people, Liu Jie cheer up and kill this bastard.”

...

Lu Yang listened to the voices of the players around him, and almost all helped Liu Jie to speak. He was even more worried. This situation proved that during the period when Lu Yang was fighting in the human race, Shenhuang did too much in Zijin King City. pass.

“Look at it, fight, and start siege.” Some players shouted.

Lu Yang looked up, Yaowu Yangwei ordered his players to attack at the same time in four city gates, the largest number of which was the West City Gate, while the other three gates also had about 50,000 people.

There are not many more players in charge of defense on the city than there are people on the city. There are only about 500,000 on the three city gates that can be seen, and most of them are not enough.

As soon as the two sides started the battle, the defense on the city's head fell into a great crisis. The strength of the two sides was not a level. .

Only after this wave of attack was the enemy hit the city wall. The blue clothing elegantly took the 60th-level guard troops to fight the attack on the west city wall. This defeated the enemy. At this time, the other three city walls came in anxiety. According to the news, the elegant blue clothes can only run towards the other three walls.

Lu Yang had the heart to help, but he could n't go up now. His spell had been used and the cool-down time had not yet come. Although the secondary spell was fine, he was also exposed if he used it at this time. People were all around, afraid. It didn't wait for him to spell out and let the players around him die. He could only observe calmly.

The battle was fought from night to late at night. When it was almost 11 o'clock, the blue clothes were flowing and couldn't resist, and a group of 500 Starfury Mage who sent the tasteless corpses was sent.

The long-awaited German devil tasted the corpse and ran to the designated place, gritted his teeth and asked, “Report the situation, all groups are ready.”

“1 set is ready.”

“2 sets are ready.”

...

“Eight sets.”

“Very well, groups 1 to 8 let the wrath of the stars let them taste the new skills.” De Bu tasted the anger of the dead.

“Yes.”

At this time, the blockbuster on the city wall was Yaowu Yangwei’s men. At this time, he was considered to have laid the outer wall of the fortress, and the distance to the entire fortress was just one occupation transfer station.

Yao Wu Yangwei stood on the head of the city and looked down at the city, saying proudly: “The whole army attacked, lay down this fortress, and asked the boss to go for me.”

“Kill ~!”

300,000 people attacked fully, because the team had druids, and death could be resurrected immediately. As long as Yaowu’s troops were not defeated, they could always attack the enemy.

Just as Yao Wu proudly watched his 300,000 men ascend the city wall from all sides and rushed into the fortress, the starlight over the fortress became extremely bright, as if watching the fortress.

Suddenly, tens of thousands of stars simultaneously emitted dazzling rays of light on the fortress, and Yao Wu Yangwei, who was in the starlight, was astonished to see his blood loss.

“3816”

“3618”

...

“Withdraw, all withdraw from the fortress, and follow the previous exercise, orderly evacuation. Whoever dares to escape without permission will get out of the guild.” Yao Wuyangwei shouted.

Most of the 300,000 players were attacked. After the initial panic, the expected defeat did not occur, and a large number of deaths did not appear.

Regardless of their own health, anti-battle and anti-riding rushed to the priest and healed druids, using shields to block their damage.

Healing immediately uses the group’s blood addition skills, which will protect him from fighting and riding, and then add blood to the characters such as thieves and mages.

All mage professions have ice barrier skills. In this case, all mages use ice barriers to protect themselves.

The entire army was evacuated in an orderly manner. Lanyi Piaoyi wanted to make a big kill, but was blocked by the guards led by Yaowu Yangwei himself.

In the end, Yao Wuyangwei withdrew 270,000 people, leaving only 30,000 bodies on the wall.

Players of Yaowu Yangwei saw that their own team had achieved a survival rate of more than 90% in this defeated battle. For a time, not only did they not lose momentum, they became more crazy.

Yaowu Yangwei stood proudly looking at the players at the front of the team and said, “I have sent someone to tell the 30,000 people so that they don’t need to be resurrected. When the enemy’s skills are exhausted, we rush up, kill the enemy, and resurrect. They are not too late. “

“Boss mighty.”

“Boss mighty.”

...

Among the many people chanting slogans, a strange player gradually walked towards the front of the team, no one recognized him, and no one ignored him. This person was Lu Yang.

Just when Lu Yang was walking to the front row, a defensive and powerful guard noticed that Lu Yang was wrong, and frowned and asked, "Which part are you and how did you run here? I don't know if this is an elite." Where is the station? "

Lu Yang looked at the other side with a sneer look. At this time he was less than 300 meters away from the city wall. He said: "You are not a small official, you are just a small guard who dares to scold others at will."

"You, you look for death." Guards angered.

Lu Yang was happy, but Liu Jie's men turned out to be this situation. He said, "You hit me, you can fight me. I won't fight back here."

Fighting here is tantamount to infighting, letting hostile guilds and the majority of players look at jokes out of thin air, the guards are afraid to do anything.

Lu Yang stared directly at the other side, landing his angry finger at Yang, and cursed: "Leave a name, you wait for me, wait for a while, and see how I can clean you up."

"Okay, I'll wait and tell you my name. You listen, my name is Lu Yang." Lu Yang's flame appeared in his hand, with Pyroblast in his left hand, and punched the head of this elite player with a punch.

"22698" (Critical Strike)

This elite player fell straight to the ground and died!

The players around were watching the show. Several guard players were unhappy with Lu Yang's actions. When they heard Lu Yang's name, these people had not responded yet, but when Lu Yang released his signature instantaneous Pyroblast, All reacted.

"Lu, Lu Yang, Lu Yang mixed into our team." A guard shouted in horror.

Yaowu Yangwei was encouraging his morale. Suddenly he heard his shout and looked at Lu Yang's location. It happened that he saw Lu Yang's sneer.

"Come on, catch me, he is Lu Yang." Yao Wu Yangwei shouted, his voice was a little stubborn, so suddenly, he couldn't believe that Lu Yang dared to risk such a dangerous situation to join his team, and Dare to attack his guard at the end of his guard.

The surrounding guards immediately surrounded Lu Yang, and the mage's tacit technique was almost subconsciously dropped on Lu Yang's body. Unfortunately, a white light burst out of Lu Yang's body before the first 1 second of their skills. Ground.

"What about people?"

"Hurry up, he can't run ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ his flash is only 30 yards."

...

Yao Wu looked up and down, but found that 60 yards behind him, Lu Yang was running fast.

"It has to be 100 yards away, how did he get there." Yaowu Yangwei's eyes were unbelievable. Suddenly, he reacted and shouted, "Silver Moon Shooter, give me a second to him, the boss said, Who killed Lu Yang directly as the army commander, rewarded 30 million. "

More than 100 Silvermoon shooters in the team bent their bows and arrows at the same time to shoot at Lu Yang. Unfortunately, before they shot, Lu Yang had run out of the 70 meters away with a blazing speed, beyond their attack range.

Some space thieves are unwilling to run away from Lu Yang, launch space shuttle skills, and quickly catch up with Lu Yang.

Lu Yang was running, and suddenly felt that there was space fluctuation in his back. He turned and jumped back, just to meet a space killer who came to him in front of the space.

“Flame Shock”

Lu Yang pointed the head of the space thief with his left hand. The space thief was about to dodge and was stunned.

Chapter 771~774 - Stronghold offensive and defensive battle

The left and right spatial fluctuations appeared at the same time, and two thieves broke open space and appeared on the left and right sides of Lu Yang.

“Resistant Fire Ring”

A crimson ripple gushes out of Lu Yang’s body, crashing two thieves who have just stepped out of the space back into the space.

The ripples in the space above his head appeared, and Lu Yang was too late to react. This man was extremely accurate in his time, just when he was falling down and couldn't look up.

“Emerald Heart”

Lu Yang's body turned into nothingness. The thief passed through Lu Yang's body with a dagger without causing any damage to him.

Immediately after landing, the thief immediately wanted to hide into the space, but half of his body was about to enter, and Lu Yang's body was red.

“Yan Yang Suo”

The thief was stuck in place.

“Pyroblast”

Lu Yang's staff smashed the thief's head.

“23688” (Critical Strike)

Thieves die!

More than 100 mad warriors have ran to a position about 50 yards from Lu Yang. Just before the charge was launched, Lu Yang's body glowed a reddish light.

“Remnant Flame-Activated”

Lu Yang turned into a red light and flew 60 meters away in the direction of the fortress. Just after landing, he threw an escape dagger towards the city.

The high-speed rotating blue dagger crossed a perfect blue arc in the air, and was steadily inserted on the fortress wall.

Lu Yang just turned back to look at Yaowu Yangwei, a space thief appeared around Lu Yang at the same time, unfortunately, the moment they came out, Lu Yang spread his hands, and turned into a blue light on the wall. .

All the players who saw this scene were dumbfounded. The morale of the Yaowu Yangwei party has just been greatly reduced, and the morale of the elegant blue party has been greatly improved.

“Chairman Lu Yang, doing a good job.” Lan Yi elegantly ran to Lu Yang and said excitedly.

Lu Yang said: “Little bit.”

Yaowu Yangwei under the city wall was so angry that he pointed to Landing Yang and cursed: “Lu Yang, you’re looking for death. Since you entered this city, don’t try to run out.”

Lu Yang sneered and said, “Just because you still want to keep me? You’re not qualified.”

Yaowu was furious and shouted: “The whole army siege the city, the enemy’s skills are gone, lay me a fortress, kill Lu Yang, and grab his demon heart.”

270,000 players saw Lu Yang’s eyes red, and rushed to the fort with a shout of killing.

“The Great Lord of Flames ...” Lu Yang said in his mouth. Ten seconds later, the enemy had just attacked below the city wall, the sky was overcast, and numerous fireballs descended from the sky.

Yaowu Yangwei has only 20 forbidden spell mage, who have all used the forbidden spell just now. In the face of Lu Yang’s forbidden spell, he can only order the troops to retreat, surrendered hundreds of corpses and returned, and the two sides returned to the confrontation situation again. .

Lu Yang said, “Yao Wu Yang Wei, you have the courage to continue to attack the city, and I have not released the flame of the banned magic flame, I see how many people you can run back this time.”

Yao Wu is very anxious. His players do not have the Fire Resistance Legion. The troops with Fire Resistance Gems are currently in Liu Jie’s hands. A lot of Fire Resistance Gems are also in Liu Jie’s Guild Warehouse.

The deputy commander asked: “Boss, what do you do now?”

Yaowu Yangwei is also hesitating. At this time, a large number of players rushed over from a distance. Who can not see who is far away, but the banner carried by the first row of players is very clear.

It was printed on the flag for one and a half months. This was one of the three officers recruited by Liu Jie, Apache, known as anger. The number of players he led was 300,000 like Yaowu Yangwei.

Yaowu Yangwei watched Apache walk in front of him, frowning and asked, “Why are you here?”

Apache was very small and short, and said with a smile: “The boss is afraid that you can’t make it alone. He sent me reinforcements. Sure enough, you didn’t get it.”

Yao Wu was very angry and said, “Then you come to siege, I just finished a game and I’ll give it to you now.”

Apache sneered and said, “You’re stupid, I’ve seen Lu Yang on the city’s head, so I won’t attack the city alone.”

Yaowu snorted loudly and said, “Don’t talk cold words here, you won’t be able to beat down the fortress of God’s glory, you and I have no good fruit to eat.”

Apache touched his jaw and nodded. “It’s true, like Yue Taishan’s battle was too beautiful, neither of us is as good as him now.”

Yaowu Yangwei saw that Apache was soft, and his inner anger subsided, and said, "You should be familiar with the situation here. Tell me, how do you fight?"

The placement of spies in the adversary's army was an introductory course for them to go to the military academy. They knew each other well and Apache was embarrassed. As long as you and I attack the city together, 600,000 people will be able to lay this fort too easily. "

Yaowu nodded his head and said, "I agree with you. You take the team to hit the Nancheng Gate. I concentrate my forces on the Xicheng Gate. You and I attack at the same time and lay the fortress in World War I. It is best to trap Lu Yang.

"Don't dream any more. How could Lu Yang be trapped?" Apache smiled sarcastically and led the team away.

Yao Wu snorted loudly and turned back to organize his troops.

Ramparts.

Lu Yang and Lan Yi looked at Apache's large troops slowly moving towards the south gate. The entire army formation was stable, and the occupational mix was reasonable, which did not give people a chance to attack.

Yaowu Yangwei ordered the troops to shrink from the four city gates and gather to the west gate, with more and more personnel.

Lan Yi fluttered frowning and said, "Chairman Lu Yang, it's not easy to fight. The enemy now has 600,000, all of them are level 50 or higher players. I can gather up to 1 million people temporarily."

Lu Yang said, "Hurry up, you would rather let them lay down the fortress than you do, and you should let him go online."

Lan Yi elegantly said, "I haven't woken up after drinking too much. I'll go and see."

System prompt: Your friend Shenhuang login game

The light flashed, and Shen Huang appeared in the teleportation array in the inner city. Lu Yang looked sideways, and Shen Huang was running towards him.

“Sorry, sorry, I drank too much.” Shenhuang apologized to Lu Yang and Lan Yi elegantly.

Lu Yang saw the strong look in Shenhuang’s eyes and patted his arm. He didn’t want any more blame, and said: “Now the enemy is attacking the South Gate and the West Gate. Yi Piaoqi followed me to stay at Ximen. Shenhuang, you are the boss. You take half of them to guard the south gate.”

“Okay, listen to you.” Shenhuang said, he was just awakened forcibly by his wife, he was angry, and learned that the fortress had been attacked for several hours, and the fortress was lost without Lu Yang’s help. Now, he is totally unclear about the situation in the game, what Lu Yang said and what he listened to.

Lan Yifei is a little uneasy, and said, “Let me and my uncle defend the South Gate, President Lu Yang, and I will let you deputy corpse and Yueluo Nantian Corps to assist you.”

Lu Yang said: “Either way, I summon some people to come and help you and open the inner city area so that I have permission to enter.”

“Okay.” Lanyi elegantly opened permissions.

Lu Yang entered the inner city and used a goblin robot to build a sentry tower. He brought 24 members of the Forbidden Mage Corps who were leading the upgrade to the inner city.

The German corpse is setting up defensive forces, and he sees Lu Yang with 24 whole-body 60-level Blood Elf Island Mage players.

“President Lu Yang, are these people?” De Bu tasted the corpse.

“Member of my forbidden mage group, 24 space mage.” Lu Yang said.

De Wuwei said gratefully, “Thank you, thank you President Lu Yang, and thank you all.”

Lu Yang said, “You’re welcome. I will let your fortress be beaten by Liu Jie anyway. Your fortress is very important. Every half an hour, I will summon 24 forbidden mages. 300,000 enemies, I promise he won’t be able to attack. ”

Germany doesn’t taste the corpse and nods. He believes that Lu Yang can do it because Lu Yang has never been defeated!

“The whole army is attacking!” Yao Wu Yangwei shouted loudly.

The first 100,000 people attacked the city.

The players inside the city are tight, and they are a bit afraid. They only have more than 40 levels. They have a height difference from the opposite 50-level players. When they attacked before, they looked ashamed of their three-digit injuries. give up.

Lu Yang discovered this situation and said to the space mage around him: “The first 8 mages, cut in time and space, prepare.”

“Yes.” Eight mages chanted spells at the same time. Each of them had a magic damage of around 5,000 points. According to Shenhuang’s 40-level mage, the damage was nearly 3,000 points.

Soon, 100,000 people rushed to the bottom of the city, and the Germans who couldn’t hold the body couldn’t hold it, and were attacked again. At this time, countless purple-blue sprites appeared around the wall.

Yao Wu frowned and said, “Not good, it’s a secondary forbidden spell.”

The deputy legionnaire said: "It's okay, their legal injuries are not high, and our human legal resistance is very high."

Yaowu Yangwei's troops have a resistance of more than 800 points. If it is a secondary injunction released by level 40 players, the damage to them is really not high ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Yaowu Yangwei is also hesitant. It is the moment of hesitation. In the sky A secondary curse was formed, and most of the city walls were surrounded by time and space cutting.

The cheerful space-time elf jumps freely in space, and each time he touches a powerful and powerful player, he causes more than 4000 points of damage.

Level 50 players have only about 10,000 points of health. In the face of such an attack, 30,000 of 100,000 people were directly killed in the city.

When the remaining people automatically retreated, they were killed more than 10,000 under the city, and eventually only 50,000 people fled back to Yaowu Yangwei.

De Bu tasted the corpse and looked at Lu Yang, then looked at his troops, and said to Lu Yang, "Chairman Lu Yang, your magician troops are too strong."

Lu Yang shrugged his shoulders and said, "They are too weak."

Germany doesn't taste the dead ...

These non-main forces almost laid the fort.

Chapter 775 - Can't hold it

Lu Yang found that he was hurting his self-esteem when he spoke, and he patted the shoulders of the dead body and said, "Don't mind, you just do n't have enough grades and equipment. It's good if you have a high level."

De nodded his body.

While the two were chatting, Yaowu Yangwei under the city was so angry that he pointed at Landing and cursed: "I will definitely lay the fortress and kill you with my own hands."

Lu Yang said: "Even if you have the ability to come, you're afraid you don't have the ability. There are too many people who want to kill me on the full server, and you can't rank."

Yaowu was furious and pointed at the mage around him and said, "Bad me with a forbidden spell. They can't look up if they suppress it."

"After the curse was released, the shooter group followed, and the earth mage arched them to a height of 30 yards with the ground dragon. The rest of the raid mage used skills to build the slope. Lao Tzu did not show his true ability today. Time to rescue those who died in the city. "Yaowu Yangwei ordered the orderly release.

"Yes." The leaders replied in unison.

Thirty seconds later, the city was overcast with clouds.

Lu Yang said: "It's not easy. The old man's spell-blocking army skills have cooled down. He has at least 20 wizards who know the secondary forbidden spells, and it's not easy to play."

Not only is it difficult to fight, when the next war began, Lu Yang really saw the power of Yaowu Yangwei.

The first wave of 10 mages covered the city walls with a secondary forbidden spell, and the shooter group followed closely. The earth mages used the earth dragon to send the transferred shooter to a height of 30 meters and level with the city head. They were remote at a distance of 70 meters. Lu Yang and others on the sniper fortress.

Level 60 Blood Elf Island parts and Blood Demon Temple set of shooters, each arrow attack is more than 8,000, even Lu Yang has no ability to resist.

The rest of the ordinary shooters came to the city to use bows and arrows to suppress the city head players. They are all level 50 shooters. The attacked city head has no counterattack ability.

The most deadly is the continuous long earthquake of the land mage. Under the fortress city, four large slopes with a diameter of 20 meters were created, and the top of the \*\*\*\* reached the city wall.

This is equivalent to opening four fortresses with a diameter of 20 meters in the fortress walls. Yaowu 's troops no longer need to attack the city. Running directly on the \*\*\*\* is equivalent to entering the city.

“Where did he have so many marksmen.” Lu Yang frowned, and Yao Wuyangwei's marksman had more than 200 people. Just a wave of arrow rain sniped, and a space mage around him was seconds.

De Bu tasted the corpse watching the enemy's troops on the wall, and asked anxiously: “What now?”

Lu Yang said: “Don't worry, Space Master, according to those four breakthroughs, time and space barriers, let go.”

Four mages simultaneously use special skills space-time barriers to seal the tops of the four soil slopes with space barriers.

Yaowu Yangwei's men who were on the charge were dumbfounded, looking at the space-time barrier in front of them, not knowing what to do.

Yaowu Yangwei was also dumbfounded, did not expect Lu Yang to have such skills, and quickly said: “Withdraw, temporarily retreat.”

There were only 10,000 players who rushed to the top of the city, and the rest were just resurrected by him. He can still accept such losses. He sent a message to the head of the city and said: “Full attack, the follow-up troops cannot temporarily cooperate with you. , Kill as many as you can, wait until the skills are gone, I will attack again. “

“Boss rest assured that Shenhuang’s men are all garbage. I took this group of people to lay down the walls and destroy the enemy.” The head said.

“Brothers, kill, open the gates and destroy the enemy,” the commander shouted.

“boom”

A meteorite fell heavily in the sky, right in the head of the head.

“15868” (Critical Strike)

The leader is dead!

Lu Yang flickered at the head of the regiment. He was about to release the fire resistance ring. When he saw the other party was dead, he shook his head. The meteorite impacted and crushed a channel with a diameter of 5 meters.

“Chairman Lu Yang is careful.” De Bu tasted the shout.

Lu Yang looked sideways, countless arrow rain shot from the marksman outside the city.

“Escape The Dagger”

With a flash of blue light, Lu Yang jumped back to Debu taste the corpse and said, “It’s not easy to fight. With these marksmen in, I can’t transform into attack.”

The attack distance of the transfer fire method is only 50 yards. The marksman is 70 yards. There are 50 marksmen on a mound platform. Lu Yang’s Skyfire damage is evenly distributed. The 50 people averaged almost no blood loss.

If Lu Yang can transform, he can be transformed into a fire monster state. He can easily kill all enemies with a meteorite impact without cooling down. But now he is transformed into a living target for the 200 shooters. He will surely die in a wave of arrow rain.

De Bu tasted the corpse even more anxious, and said, "If I let my men use the wrath of the stars, I can use it again."

The rest of the druids who know the wrath of the stars are all in the blue garments. Without this skill, Shenhuang and the blue garments can't carry even a wave of Apache attacks.

Lu Yang thought for a while and said, "No need to see it. Yaowu Yangwei has a strong understanding of the game, but unfortunately there are too few people available to him. people."

In this way, although the enemies on the city wall are dead, his spell-casting mage is equal to 8 secondary spells, and there are still 20 minutes before his next wave brings people, which is too difficult. Already.

De Bu tastes the corpse and does not find the problem. He spends all his energy on defending the city and sees that the enemy is repelled by the curse again. De Bu tastes the corpse and is very excited.

Yaowu Yangwei under the city wall was not discouraged. After 30 seconds, when the curse was over, he launched his attack again.

Lu Yang put a secondary injunction again, and insisted on it for 30 seconds, but at this time, he no longer had a secondary injunction, and only the defensive skills of time and space barriers remained.

Looking at the enemies rushing up again, Lu Yang said to the deceased corpse around him, "Brother, prepare for the \*\*\*\* battle."

De nodded his body.

Yaowu Yangwei finally waited until Lu Yang's banned troops had run out of skills and shouted, "Lu Yang, don't run, I must kill you myself."

“The Sun Fist”

More than 30 people in front of Lu Yang were killed by this move. He looked at Yaowu Yangwei under the city and said, “Come up and fight with me, and look like a deep lady complainant below.”

“Wait until you defeat my men.” Yao Wu Yangwei remained unmoved and continued to ridicule Lu Yang.

Lu Yang had no problem and could only continue to attack. He barely persisted for 20 minutes. Lu Yang’s scepter’s cooling time was over. He flew back to the red fortress and flew back to the city wall with 24 mages already prepared.

Enemies were everywhere on the West City wall at this time, and De Bu tasted that the corpse had just returned from the battle to die from the teleportation array, and anxiously said to Lu Yang, “What can I do, I can’t keep it.”

Lu Yang said to the ice mage around him: “Release the secondary forbidden spell, fight me.”

“Icy Roar”

...

Eight ice roars covered the head of the city. Yaowu Yangwei had just arrived on the head of the city and was beaten down again. Unfortunately, this time, nearly 80,000 corpses were left.

“Great, we’re holding it.” De Bu tasted the corpse.

Yao Wu was so mad that he didn’t expect that Lu Yang suddenly changed into a group of ice mage, scolding: “Lu Yang must have the equipment of the teleporter, and the interval is only half an hour.”

Apache was next to Yaowu Yangwei, saying: "It makes sense for you to analyze. The attack cannot be stopped. After a while, the skills will end. You will send someone to attack, and you will withdraw the curse without leaving a corpse."

Yaowu nodded.

The war started again.

Lu Yang then ordered his men to release the curse, Yaowu Yangwei retreating as a whole, a body was not left.

"Well," De said without a taste of the corpse's depressed wall.

Lu Yang said: "Don't worry, Shenhuang still has the appeal. It has returned 500,000 people. Now there are more than 1 million people inside the fortress. It is almost impossible for the enemy to lay the fortress."

De Wuwei said: "It's all over 40 levels. It's useless. The opponent's level 50 players can play 3 of them, and the level 60 players can kill a group."

The game is like this, the equipment is stronger than you, you can't break the defense, the opponent can kill 10,000 by himself.

"Don't be discouraged," Lu Yang said.

Germany did not taste the corpse and nodded. The two leaned against the wall to chat. After the skill time passed, the enemy attacked again.

For the first time, Lu Yang fought such a wacky battle. With millions of experts in his hand, he couldn't get over, and could only take the hard to block the enemy's attacking forces.

In this battle, the enemy took back all the corpses. Yaowu Yangwei had another 300,000 fighting power. Some of the 50-level equipment was quickly re-equipped.

Below the city, Yao Wu proudly said to Lu Yang, "Is the new summoning mage summoned, right? I'd like to see how many corpses you can leave me this time, and the whole army will attack."

Lu Yang knew that things were going to happen. Yaowu Yangwei guessed that he had teleportation magic, and now it is almost impossible to leave the enemy's body.

Sure enough, [www.mtlnovel.com](http://www.mtlnovel.com) ~ This time, Yaowu Yangwei started to use the attack. If the Iron Brotherhood is defending the city, the enemy's attack will not have any effect. The defender of the city is Shenhuang, a group of more than 40 Account, slam attack and formal attack are no different.

Lu Yang barely supported the enemy's five offensives. Just before the transmission of the scepter was about to cool down, Lan Yi sent a message to Lu Yang and said, "Boss Lu Yang is going away, we have been breached."

Lu Yangmeng frowned and looked at the South City Gate. At this time, the South City Gate had been broken. Apache's troops were pouring into the city frantically. Apache's troops also occupied the fortress.

"Quickly ordered his men to retreat into the inner city, and everyone retreated in." Lu Yang said.

De Bu tasted a bit embarrassed, and shouted, "Everyone advances into the inner city."

The fortress that had been defended for more than half of the night was so broken by the enemy. The morale of the players in the city was greatly affected. Many players retreated with the flow. A small number of people ran away secretly. Pudge and siege Yaowu Yangwei forces pursued.

There were less than 300,000 people who actually evacuated to the inner city. Lu Yang helped the blue clothes elegantly tap the number and said, "I can't keep it."

## Chapter 776 - Recruit Starfury Druid Army

The light flashed, Shenhuang stepped out of the teleportation array, and looked at the 300,000 players around him. Shenhuang's wine was completely awake. He didn't know how to solve it, and lowered his head and entered the fortress hall.

The chiefs of the army, such as Lanyi Piaoyi and Debu taste corpses, wanted to ask, but didn't know how to speak.

Shen Huang lowered his head and said, "President Lu Yang, please enter the fortress hall. I have something to tell you."

Lu Yang did not expect that the first person Shenhuang was looking for at this time was himself, saying, "Okay."

Entering the fortress hall, Shenhuang's hand gently stroked the oval long table in the hall, his nostalgic expression revealed in his eyes.

"Well, it looks like I've done too much," Shen Huang said.

Lu Yang knew what he was saying and said, "It's all a thing of the past, don't think about it, you don't have no chance. I suggest you withdraw from Zijin King City first, and wait for Liang Yun and Liu Jie to confront you in the future. Back to the fort. "

"No." Shenhuang shook her head and said, "I know myself. This failure was due to my own personality. I am not suitable for the president. I am too persistent about hatred. If I had listened to you, I would not have met For the situation now. "

Lu Yang asked: "You want to give up? What about your million followers who follow you? Are you worthy of them?"

Shenhuang laughed at himself and said, "I can't even care for myself now, how can I care for them?"

Lu Yang said, "I still have a chance. I said to Liang Yun, I will not invade the Elves, and I have said this to you. Now I have dismantled Merritt's Quartet Alliance. The next step is It's time to hit Wang Teng and Li Xiuyu. As long as you can stand for six months, I will definitely hit Bingshan City to support you. "

Shenhuang glanced at Lu Yang and said helplessly with a smile: "Brother, you are interesting, but I don't have that courage."

Lu Yang had to persuade him, but Shenhuang stopped Lu Yang and said, "Do me a favor."

Helpless, Lu Yang asked, "What's busy?"

Shenhuang said: "I'm going to quit the game completely in the future. My nephew of the guild will take over, but he has no ability to feed so many people. Take away the 500 star druids who don't taste corpses. In the future, if my nephew They have the ability, and they are willing to return, and you will return it to my nephew. "

The monthly salary of these 500 people is 5,000, which is the highest paid person in Shenhuang. 500 people will spend 2.5 million credits of Shenhuang every month. If the fortress is broken, the blue clothes are not so much to feed him, but God Huang did not want to let these people be recruited by Liu Jie.

Lu Yang said: "This is okay. These people are masters. Taking them in will only strengthen me and not become a burden."

Shenhuang nodded and said, "Thank you very much."

Germany will not be accepted by Liu Jie, etc. As players gradually rise to level 60, the number of rare transfer jobs will be much larger than the original.

It is impossible for Liu Jie to spend 2.5 million a month supporting these 500 druids. He can spend 15 million to buy 500 transfer certificates and give them to players within his company. Those people only need one or two thousand yuan a month. It is also necessary to help Liu Jie to repay the money for the transfer certificate, which is more suitable than directly raising the 5 million people.

The biggest possibility is that the German corpses and other people were chased and killed by Liu Jie's men, and they were angry at the affiliated guilds that were originally chased and killed by Shenhua.

Shen Huang called De Buwei to the room, and after explaining the matter clearly, De Bufe said to Lu Yang gratefully, "Thank you President Lu Yang."

Although Dewei doesn't taste corpses, although his personality is interesting, he knows the general situation. He knows the situation of these people. It is very interesting that Lu Yang can treat them like this.

Lu Yang took 2,500 gold coins from his backpack and handed them to Debu Taste, saying, "Fly with my brothers to the guild headquarters of St. Gall, and I will be there."

De left without a corpse.

Shenhua said, "Let's go, I'll stay here alone."

Lu Yang saw the sword killing God lastly looking at the fortress. Now Shenhua looks like this. He shook his head and sent a message to the members of the forbidden mage who came to support, saying: "Return to the fortress and continue to lead the team Upgrade. "

Lu Yang took out the city roll, looked at Shenhua and said, "Brother, take care."

Shenhua did not look at Lu Yang, and his eyes were all focused on the decorations in the fortress hall at this time.

...

At the last glance, Lu Yang saw the back of Shenhuang Xiongxiang, the light flashed, and he appeared in the city of St. Gall.

“Brother, are you okay.” Han Ying sent a message to Lu Yang.

“It’s okay, it’s just a bit helpless, and Shenhuang’s defeat is too bad.” Lu Yang said.

Shen Huang had many opportunities to destroy Liu Jie, but he didn’t grasp it once, and ended up in such a state of affairs. Lu Yang didn’t know what to say.

The seemingly sudden failure is actually the inevitable result of so many missed opportunities for Liu Jie to rise again.

Lu Yang returned to the hall of the guild, and as soon as he entered the door, De Buwei was standing there waiting with 500 star druids.

“Boss, you’re here.” De Bu said the corpse was depressed.

Lu Yang patted him on the shoulder and looked at the 500 druids behind him, saying, “Brothers, you will follow me in the future. Are there any people who do not want to go back, I will not stop them.”

The crowd shook their heads, and they were also confused. They were making money to play the game and were comfortable. Suddenly the guild was gone and they became Liu Jie’s wanted criminals.

De Bu tasted the corpse instead of the crowd and said, "Boss, no one wants to go back. We will follow you later. Thank you for keeping us."

"Yes, boss, we'll follow you later."

...

500 people said one after another.

Lu Yang nodded and said, "Okay, your arrival is an enhancement to the Jagged Brotherhood, and I welcome you."

The 500 people were relieved. They were afraid that Lu Yang would also reject them.

Lu Yang said, "In this way, you are responsible for the trumpet upgrade in the guild. You choose 24 people to come out. I will take the German corpse and these 24 people to give you a skill book."

De Bu tasted the corpse and turned back and said, "The original squad leader is out of line."

The 24 squadron captains came forward.

De Bu tasted the corpse and said, "These people were originally team captains, exactly 24 people."

Lu Yang asked: "I'll take a rest tonight and I'll be meeting in the guild hall tomorrow. We will go out to play the skill book. I will let Tu Feng arrange the rest of you. I hope you can integrate into the Iron Brotherhood as soon as possible."

Germany and other people nodded together, who has never heard of the name of the Brotherhood of the Iron Blood, the atmosphere of the guild, solidarity, and bureaucracy have always been the motto of the Brotherhood.

“Then we are offline.” De Bu tasted the corpse.

500 Druid players have gone offline.

Lu Yang stepped into the guild meeting room on the second floor. Tu Feng, White Lion, and Zhuojiu were still asleep, waiting for Lu Yang’s arrival.

“Boss, we know the situation over Shenhuang.” Tu Feng said.

Lu Yang nodded and said, “Don’t worry, Liu Jie won’t be able to fight, nor will he be able to launch another war of 4 million people against our fortress. The things you need to pay attention to now are the same as before and do not need to be changed.”

At present, the major concern of major guilds is to upgrade and fight equipment. Liu Jie destroys Shenhuang and will not provoke Lu Yang in the short term. He will definitely fight equipment.

White Lion and others have just calculated this view.

“Boss, what about the new 500?” Tu Feng asked.

Lu Yang said: “The team will not be dismantled. For the time being, they will lend them 7 team leaders to take the team to upgrade.

“That’s good, it’s short of manpower,” said bitter love for a long time.

Lu Yang laughed and let everyone go to rest. He also quit the game, fell asleep after moving his body.

the next morning.

Lu Yang re-logged in to the game, Han Ying said to Lu Yang, “Brother, hit the wrath skills of more than 200 books.”

Lu Yang said, "Place it in the guild warehouse and let Tu Feng send them to them."

Han Ying nodded. Last night Lu Yang participated in the battle and he kept the team outside. Seeing that Lu Yang was okay, they went back to play the skill book and did not fall asleep until the early morning.

When Han Ying was busy here, he saw a group of 25 people led by De Bu taste corpse in the guild hall.

Lu Yang introduced to both parties. Germans and other corpses admire Han Ying's three siblings and Han Sha. They are all top ten players in the world competition, and they are far from Germans. This average player can compare.

Now that I have the opportunity to upgrade with such masters, for Germans who don't taste the corpses, they would not dare to imagine it. For a time, the atmosphere of the guild's destruction was diluted a lot.

"Brother, where are you going today?" Han Fei asked.

Lu Yang said: "Continue to give these druids a skill book, their books are incomplete."

De Bu tasted the corpse and said in surprise: "Are there any more advanced skill books?"

Lu Yang shook his head and said, "No, I want to give you a special skill book."

"Special skill books?" De Bu tasted the corpse and asked.

Lu Yang nodded and asked, "Do you ask naturally?"

Everyone shook their heads ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Are there advanced wind techniques and advanced weather control? "

De Bu tasted the corpse and said in surprise: "I have never heard of it."

Lu Yang handed them a storage bag and said, "Your skill books are hard to explode. At present there are only so many of them. 25 of you follow me first, and these books will be issued to you first."

De didn't taste the corpse and opened the storage bag for observation.

"Natural ally summoning, wind making, dominating animals." De Bu tasted the corpse and handed the storage bag to the player behind him, and said to Lu Yang: "Boss, what skills are these? . "

Lu Yang said: "I guess you don't know, these are all I exploded on the secret map."

They are all products of the Corpse King's Palace. At present, the Corpse King's Palace is still occupied by Lu Yang's men, but the people who have taken possession of it have become players of the Iron Brotherhood.

"None of these books seem to be of much use?" An upset called Bian.

Chapter 777 - Polka dot

Lu Yang saw the boy's name happy and said, "You will become several forms now."

He became upset and said, "Three, bear, leopard, and human."

"As far as I know, there are three forms of dolphins, ancient trees and birds."

He became upset and said silently, "It can still change so much. It's so bad, depressing."

Everyone laughed.

Lu Yang said: "According to the information I have received, there are three other changes in the second turn: T-Rex, Phoenix and Shark."

"I wipe." He scolded and became upset and excited. He looked at Lu Yang's eyes and said, "Boss, I want a second turn."

Sharks, Tyrannosaurus Rex and Phoenix, these three species are scary to hear, which druid would not want to change.

Lu Yang said: "Then first learn the basic skills well, in order to get the recognition of the second turn NPC, Druid's requirement is to understand these things."

"I must study hard," said upset.

Lu Yang said, "Let's go, put on a mount and give you a skill book."

"Oh." Everyone followed the landing and stepped out of the door. They replaced their mounts and ran out of St. Gall, along the red fortress to the level 60 mountain.

Looking at the cliff below, Han Fei said, "Brother, wouldn't you just let us jump down."

Lu Yang smiled and said, "Of course."

Everyone: "..."

De Buwei said embarrassingly, "Boss, we don't have a slow fall device."

“I’ll take it for you,” Lu Yang said.

He flew back to the Temple of Devil, returned to the top of the mountain with 25 parachute devices, and handed it to Debu Taste, saying, “The entire staff installed a parachute system on the cloak.”

“Oh.” De Bu tasted the corpse and gave the parachute to the Druid behind him.

Lu Yang and other druids have all been installed and said, “Just follow me, don’t jump.”

“My second jump.” Han Ying said.

After arranging the order, Lu Yang and the others jumped off the cliff in turn and fell into a valley surrounded by cliffs on all sides.

The valley was surrounded by green grass and red flowers, and it looked very beautiful. For a time, everyone was stunned by the beauty here.

There is a lake in the middle of the valley, and Lu Yang takes everyone to the lake.

System prompt: You found Shuiyu Lake

It was just after dusk, and there was still an hour left before the moon was hanging. He said, “Sit down and rest for a while.”

“Oh.” The group dismounted and sat around Yang Dingyang.

Now there are more people around Lu Yang, plus the 25 newcomers such as De Bu Wei Shi, the total number has reached 101.

Seeing so many people sitting around himself, Lu Yang remembered the days when he took his brothers south and north to fight equipment.

Fortunately, most of the core players who followed him were found by him. They lived near his house. Now he either holds important positions in the guild or works in the smithy. In his life, he did not disappoint these brothers.

Lu Yang looked at Druid and waited for Druid. He didn't know these people yet. The Brotherhood of Iron Blood began when he recruited players. Although he didn't know everyone, everyone around him was familiar with Lu Yang.

"While there is still some time, you guys introduce yourself." Lu Yang said to Druid, not waiting for Druid.

"Ah?" De Bu tastes the corpse a little embarrassed, but he understands Lu Yang's intention. He smiled and stood up first and said, "My name is De Bu tastes the corpse, everyone knows me, hehe."

Everyone smiled and nodded.

Lu Yang said, "You don't remember such a name."

De Bu said proudly, "Everyone thank me for the good name, and I feel the same way."

Everyone: "..."

Lu Yang said silently, "Next."

"I'm getting upset."

"My name is Boss, are you wicked?"

Everyone: "..."

Han Ying and Han Fei laughed and got down.

"Wait." Han Yu said, covering his stomach, "you think of it, just call it that."

Boss, do you lack morality? You shrugged and said, "Look, you all laugh. How easy is it to remember my name, boss, do you lack morality?"

Lu Yang: "..."

"I don't lack morality," Lu Yang said.

Everyone laughed.

"Next." Lu Yang said.

"My name is that there must be a corpse," said a druid with a handsome look. "This name is cool."

Everyone was speechless again. In the next 20 druids, none of the names were normal, and the most normal one was called KFC ...

Facing this group of druids, everyone laughed and fell down.

"How were you selected to become Starfury Druids? Why are all their names so special?" Han Fei asked with a smile on his stomach.

"When Boss Shenhuang established the guild, it was particularly good for us brothers. We were just like a family, always playing and making troubles. Among the druids, we were the 25 most favorite people and the most special names, Boss Shenhuang has the best relationship with us. "De Bu tasted the corpse.

Becoming upset, KFC and others with loneliness, their fortress was breached, the boss was humiliated and quit the game, the guild was fragmented. If it is an ordinary player, then they are the closest people in the game. When this happens, they are the most uncomfortable and the most angry.

Lu Yang said: "Follow me and work hard. Let's work hard together. In the future, if you hit the Elves, there will be opportunities for revenge."

"Um." Debu tasted the corpse and nodded.

"Why are there no mobs around here?" Han Ying asked curiously.

"Because there is a secret place here, look at the lake."

The sun sets, and the moon that has risen in the distance reveals a white outline. The moonlight falls on the lake, and a huge circular picture with a diameter of 50 meters appears in the center of the lake.

The birds and flowers in the picture are more beautiful than here.

"Isn't this the same place as the evil tree spirit?" Han Fei said.

Lu Yang said: "This is a secret hiding place for the evil tree spirit. You stay here, I jump in to blame."

After he finished speaking, he flickered into the picture in the middle of the lake.

System prompt: You have discovered the secret place of water jade

The light flashed, and Lu Yang appeared on the grass in the secret place of Shuiyu. Looking up from here, you can clearly see the lake above.

Lu Yang gestured at ease to them, and walked into the mystery. The grass in front of the mystery was a forest.

There are no monsters in the forest. There are only some small animals, such as rabbits and deer. There is a thatched village in the depths of the forest.

The overall feeling of the village is very inconsistent with the forest outside. The forest is sunny green, and here it is dark and dark gray.

A group of evil tree spirits stood in the middle of the village. They ignited a black flame. A tall tree spirit covered with strange colors was reading a spell. The black flame swelled to a height of three meters. Stay back in horror.

The black flame gradually twisted into a human face. He glanced majestically around the terrified tree spirits, and the tree spirits knelt on the ground and prayed respectfully.

The tall tree spirits painted in color continued to pray loudly and circled the flames, and the people in the surrounding rooms gradually stepped out, throwing the bound dwarves, humans, and green tree spirits into the flames.

Every time a dwarf dies, the flames flourish, and every human being dies, the flames have more physical punishment. Every time a green tree spirit dies, the body and limbs of the flame appear.

At this time, the number of evil tree spirits reached the largest, about one or two thousand, and the black flame in the middle was also more vigorous, forming a demon form.

“Let me go, please don’t kill me, this world is going to be destroyed, how can you still have time to kill each other?” A human-like NPC struggled and mourned.

Lu Yang feels that this is a task. The player in the previous life explained in detail how his guild pushed this secret away.

After the last NPC was pushed into the flames, the demon emerged from the flames and became the final boss of the mystery. The evil tree spirits bowed down and dissipated separately.

The guild used the hunter to gradually lead out these evil tree spirits, and after they were killed, they went in to kill the demons.

A large number of Druid equipment was produced in this copy. At that time, the three major races had ceased fighting, and there was no faction difference between players. Many guilds began to compete for control of this place after they knew about it.

As a result, there was a war for a long time here. The guild that initially obtained this copy was quickly beaten by other guilds. This guild was not convinced. When the two sides fought again, an accident happened and they fought outside the mystery. Of several guilds, one of the guild's druids released the Starfury ability. The Starfury outside could fall into the mystery, but the monsters in the mystery could not rush outside.

Because it was a scuffle ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ thousands of people discovered the incident, and it quickly spread to the full service. So far, it has become a strange scene.

Super guilds come to \*\*\*\* one by one. As long as the monsters are led to the entrance to the mystery, several druids release Starfury at the same time, and they can kill all the 80 elite monsters inside.

Lu Yang wanted to pull them all out, but now the last NPC to be thrown into the flame is shouting the content of the next expansion. He feels that this human may be a disciple of the prophet, or one of the human advance member.

This is the location of the most important prestige of the next expansion. He decided to fight it once, and would rather not have this baby that the devil drop, but also save this person.

“The Great Lord of Fire ...”

Lu Yang raised his hand to release a secondary injunction, and the meteor falling super meteorite smashed down from the sky with the tail of fire, right in the center of the black flame.

“flicker”

With a flash of white light, Lu Yang appeared in front of the trapped human, pulled it with his hand, untied the rope from him, and said to the human NPC: “Go away, I can only control them for a few seconds.”

## Chapter 778 - Grand Druid Battle Skills

The human NPC player took a close look at Lu Yang, took a ring and gave it to Lu Yang. “My name is Cavalli. Thank you for your life-saving grace. If you can come to Hongsha to find me, I will definitely repay you. . “

White light flashed, Cavalli disappeared in place, Lu Yang vigorously waved his fist, and sure enough, the boy was the human advance, and Hongsha Town was the location of the human advance.

“Damn humans, dare to interrupt my sacred ritual, and you will be punished.” The sacrifice of the evil tree spirit woke up first, and saw Lu Yang let go of the NPC, extremely furious.

“Escape The Dagger”

Lu Yang didn't wait for the opposite direction to release his skills. He jumped to a distance of 130 yards and ignited a flame just after landing.

“Blazing Blaze”

His movement speed increased by 285% and he ran towards the entrance to the mystery.

The evil tree spirit sacrifice a green light in his hands, and one or two thousand evil tree spirits in the whole village woke up at the same time.

“Catch that human and complete the final ritual.” The evil tree spirit pointed at Lu Yang, who ran away, cursing.

Nearly two thousand numbers locked their eyes on Lu Yang at the same time, and caught up quickly.

Lu Yang ran to the entrance to the mystery in one breath, and looked back, nearly two thousand dark green evil tree spirits rushed out of the woods.

“He was there and killed him,” said the evil tree spirit sacrifice, Luyang Yang.

The evil tree spirit continued to chase Lu Yang, and when it was about 50 meters away, Lu Yang fled the dagger in his hand, threw it through the secret, and the water surface fell on the grass on the edge of the lake.

Blue light appeared on Lu Yang. At this time, he was only 20 meters away from his nearest evil tree spirit. When the evil tree spirit rushed to a distance of 5 meters, he was about to hit him with a punch.

Blue light flashed.

Lu Yang appeared on the grass outside Shuiyu’s secret realm. He put away his escaped dagger and said to the deceased corpse beside him, “All use Starfury.”

“Here?” De Bucha asked, surprised.

Lu Yang nodded.

De Wuwei, KFC, and others will use the Starfury skill with suspicion. For a time, the stars in the sky flickered and countless light \*\*\*\* fell, but when they fell, most of them fell into the Shuiyu secret in the middle of the lake.

The evil tree spirits in the mystery were looking up and glaring upwards, suddenly attacked, they did not move, and continued to stand there.

Han Ying and Han Fei did not understand Lu Yang's order at first, and they all looked surprised when they saw this scene.

"You can still play like this, it's great."

"Kill the monster without injury."

...

Lu Yang said with a smile: "We can just sit here and wait, and today we will brush here for a day and brush up their skill books."

Everyone nodded.

The druids of the evil tree spirit's health released the Starfury ability together, and soon killed them all.

System prompt: You killed the evil tree spirit

You get 5066 experience

...

When the last experience tip ended, Lu Yang said, "Han Ying took people in to pick things up and see what they had."

“Okay.” Han Ying understood what Lu Yang meant, telling Shangde not to taste the corpse and become upset, and Xiao Chengfeng and Ding Dong cat jumped into the secret place together.

After 10 minutes, 5 people left the secret place and returned to Lu Yang.

Han Ying said in surprise: “Brother, all are druid skills.”

“Ask Nature”, “Water Control”, “Hurricane”, “Manipulating Water Level”, “Wall of Thorns” and “Manipulating the Weather”, there are 6 skill books in total, with a total of more than 300 books.

Lu Yang nodded with satisfaction and said, “That’s the thing, a few of you have learned first.”

He became upset and frowned and said, “Boss, these skills are weird. Except for a wall of thorns, they are not output skills, and the wall of thorns does not seem to attack.”

The rest of the druids nodded together.

Lu Yang said: “Your understanding of the druid is not enough. I ask you, when you choose this druid, what is the first sentence your mentor told you.”

Everyone shook his head.

De didn’t taste the corpse and thought, and said, “It seems to be saying that Druid needs to know how to be close to nature.”

Lu Yang said, “That’s what I said. Although I’m not a druid, I’ll show you today. Listen.”

Germans do n’t taste the corpses and others nodded quickly. Who is Lu Yang? The leader of the Iron Brotherhood, the single player PK in the world. The information and views in his hands are all the best in the world. They make a lot of sense.

“Boss, don’t worry, I’ll take a note.” De Bu tasted the corpse.

Lu Yang laughed and said: “First of all, the first question is to let you know the situation within a kilometer around you. The biggest feature of this skill is hunting and anti-hunting, as well as searching for news, through contact with plants, Within one kilometer, as long as you are willing, your enemy will never catch you. If you want to hunt down the enemy, he will definitely not escape your tracking. “

Everyone nodded ignorantly.

Lu Yang went on to say: “Don’t underestimate this skill. Now you are just ordinary players without positions. With these skill books, as long as you exercise in me, I will devolve you to various legions. I can make him the deputy head, or even the head of the team. At that time, this question was naturally your housekeeping skill. “

De Wu tasted the corpses and others before they came to understand, and they all showed a surprise look. They could lead a group of 10,000 people and use the question to hunt down the enemy forces naturally. This has more advantages than others.

Xiao Chengfeng and others changed their eyes a lot when they saw Germany or not. They knew very well that they would go out to be commanders or chiefs of the army. If there were such people around them, they would have portable radar.

“Thank you, boss.”

Lu Yang said: “This is all the last word. You have to meet your strength. Besides the second water control technique, you can understand it as a water technique. There is a sentence in the battle. After you, use water control to separate the water directly. The army does not need to cross the river, just run over. “

“You can still use it this way.” It became annoying for the first time that the druids were so useful for the Corps.

Lu Yang said: “The third hurricane, this one is used alone, blowing the enemy into the air for 2.5 seconds, the wall of thorns is a very large range of skills, if you use it, you can use the Covered with

thorns, the enemy has no chance to sneak attack. As for the remaining two skills, I will tell you how to use them later. “

Everyone nodded.

Han Ying took out a green jade seal and said, “There is still this thing.”

Controlled watermark

Level: 0

Description: Water Control Skill +5

Lu Yang put the watermark in his backpack and said, “This kind of thing is a strategic material and it should be placed in the guild warehouse first.”

“Drip, drip, drip”

The voice of the intercom sounded, Lu Yang took a look, and a funny smile appeared on his face, because the person who called him was the Promise of Lakeside City.

Lu Yang pressed the connect button and asked, “President Wuji, why are you free to call me?”

Wu Wei smiled and said, “Ah, yeah, President Lu Yang, my brother is looking for you this time. You must give me a discount.”

Lu Yang asked, “What are you buying?”

“Yangyan parts and smart parts, I need 1,000 sets for each occupation.” Wuji said with a laugh.

Lu Yang shook his fist. He guessed that the lakeside city was without Lu Yang, the enemy, and that Jianyang City was in a state of civil war between the two powers, and it was bound to be civil.

The first Promise could not help but start to strengthen the army, but this kid bought a little less.

Lu Yang coughed deliberately, saying, "Well, it's okay, but I explained in advance, I don't ask anything about Lake City. I only sell equipment. If there are any problems in the future, don't blame me."

Wuji blinked and immediately responded, asking: "President Lu Yang, tell me the truth, are the three \*\*\*\* looking for you to buy equipment?"

Lu Yang smiled and said, "The lakeside city is a matter for the four of you. I don't participate. I only sell equipment. I won't say anything else."

Wuji originally thought he was the fastest, but did not expect that the three were faster than him, and said excitedly: "I buy 5,000 sets, a professional 5,000 sets."

Lu Yang said: "It can be, but there are too many, you know, my smithy and guild smithy have received too many orders. They are too busy. You have to wait nearly a month for this. . "

Where did Wuji wait for so long, he said anxiously, "No, President Lu Yang, you can't be that long, I'm in a hurry to use the equipment."

Lu Yang said: "There are lines in front."

Promise is no longer true. It just depends on tactics. After grinding with Lu Yang for a long time, Lu Yang originally wanted to agree, but just wanted to stop him from bargaining too hard. Seeing that the timing was almost up, he said, "Well, then I Give you priority ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ There is a batch of equipment to build, I will give it to you. "

"Okay, thank you very much, President Luyang." Wuji hung up the communicator and gritted his teeth. I must destroy you. "

This time, he bought the equipment at the original price. He didn't bargain with Lu Yang at all to get the equipment for the first time.

"Boss, have you completed the transaction?" The vice chairman asked.

Wuji nodded and said, "Send 500 brothers to the blacksmith's shop in Hannibal and receive the equipment."

"Yes." The vice chairman nodded and agreed.

Because the blacksmith shop currently does not have a senior blacksmith who knows how to create the parts of Blood Elf Island in its branch in Lakeside City, Wuji wants to get the material first and sends it to the blacksmith shop in Hannibal City.

It's okay to send fewer people. If you use storage bags, you can't use the city rolls and teleport arrays. You can only take more people to Hannibal City and fly back to Lakeside City.

Chapter 779 - Civil War on Lakeside

:

Soon, 500 people found them. They ran out of the fortress and went straight to Hannibal City. Wuji was very cautious. He did not let these 500 people gather to act, but pretended to upgrade the city in batches.

Unfortunately, even if he hears again, the other three guilds have spies inside the Promise Guild, and they have installed map upgrades between the lakeside city and Hannibal.

The 500 people of Promise were found out by the annihilation, domineering Hengqiu and the romantic assassins.

“No, Wuji this \*\*\*\* must be looking for Lu Yang to buy equipment.” Said Shi Shi.

“Does he want to provoke war?” Said the vice president of extermination.

Another vice-chairman frowned and said, “Don’t make such an anxious assertion, let’s send someone to the Hannibal City Blacksmith’s Shop to see if the Promise will eventually go there.”

Destroyer said: “Yeah, yes, you are also ready. I also want to buy equipment for Luyang. No matter what Wuji wants to do, we must first find Luyang for equipment and unify the lakeside city, then Follow the trend and kill Jianyang City. “

The two vice presidents smiled proudly together.

Hannibal City Blacksmith.

Han Zhong was on the phone with Lu Yang and said with a smile: “Relax, I have already prepared the first batch of equipment for the four people in the lakeside city, but I didn’t expect that they wanted so much.”

Han Zhong prepared a total of 50,000 sets, and Wuji bought 35,000 alone.

Lu Yang said, “I originally wanted to tease this old boy. Who knew he was so timid, for fear that the other three presidents would get the equipment and kill him, and they bought so much in one breath.”

Han Zhong laughed and said, “Our manpower is seriously insufficient. The smithy’s kids only sleep for 4 hours a day, and they are in short supply. I’ll do the math. And the two from Jianyang City, as well as Liu

Jie, Liang Yun, and Tian Yao, all sent people to buy equipment here. This is too much. You need to make more drawings. “

This is a money-cashing operation for the entire national service. Any player who wants to get through the Blood Demon Temple must go to Lu Yang to buy the parts of Blood Elf Island. The equipment of millions of people keeps the smithy busy. Almost had no time to sleep.

Lu Yang is also clever. He prepared nearly 500,000 sets of Blood Elf Island parts in the early stage, which allowed the first batch of business to be fully supplied. However, it is conceivable that within the next week, The demand for parts will surge in a geometric form.

Lu Yang said: “It’s okay to say that the key is the poor. I have over 2,000 drawings, and no one can use them.”

Han Zhong thought for a while and said, “When I was chatting with Black and White these days, he said that his disabled brothers in Myanmar know how to forge and tailor. See if this works, I buy a batch of forged accounts and let them first Come home to help us forge equipment. “

Lu Yang said, “This is feasible. I will look for them on K and Black Friday, as long as I can temporarily send someone to support them.”

The actual controlling person of these guilds is Lu Yang, but the person in charge is k and Black Friday. At present, Lu Yang and these foreign studios have formed a stable alliance. They are willing to obey Lu Yang’s command and are ready to prepare for the future country. Dominate together when the war begins.

Lu Yang quit the game, opened the notebook, and chose to connect remotely. The bosses of more than 20 studios such as k, Black Friday, and Tang De, clicked to access at the same time.

“Hello, boss.” Black Friday greeted.

Lu Yang has a simultaneous translator here and said to everyone: “Who has time recently, I have a project here and need your help.”

“You said, let’s see what the project is.” Eight-armed spider asked.

Lu Yang said, “I believe that you are clear in the case of Huaxia. Now I have a batch of drawings to forge equipment, but I don’t have so many people. I want to ask you to help me forge.”

k asked, “Are you good at forging, leatherworking, and tailoring?”

Lu Yang said: “I will buy you a batch of forged accounts. As long as you have these three professional players come over, the proportion will be given to you according to your country’s standards. According to the current standards, the lowest monthly No less than 10,000 Euros. “

“Wow.” Tang De said, “Good income.”

Lu Yang’s money does not need to pay taxes. Unlike them in Belgium, 10,000 euros a month will eventually have to pay more than 6,000 euros in heavy taxes. Lu Yang will send the money in batches by way of Qi Yun Give them, in the end, in their entirety, which is more appropriate than their hard work in their own countries.

“I’m fine, I can have 30 people here, 10 forges, 10 leatherworking, and 10 tailors,” said the eight-armed spider.

“I can have 61 people.”

“56 people.”

...

In the final statistics, more than 20 studios can come out with many people, including black and white brothers, exactly 1,000 people.

“I’ll buy an account, you guys wait for my news.” Lu Yang said.

There are many studios in China that specialize in selling accounts to advanced sales accounts, and many people have to abandon the game and sell their accounts because of work.

Lu Yang called Shang Hanzhong and Han Ying to buy it together. Five people bought a total of 1,000 accounts.

After Lu Yang distributed to each studio one by one, Tang De, k and others converted the server to Huaxia on the helmet login interface, and the login account entered the game.

Han Zhong sent them collectively to the headquarters of Hannibal City. While teaching them how to forge, Wuji's 500 people arrived.

Han Zhong just delivered the equipment to Wuji's deputy chairman, and the player who sent the annihilation to the gate of the blacksmith shop for surveillance discovered the incident and immediately reported it to annihilation.

"Well you're infinite, I'm not going to ask you trouble, you dare to find me." Extinct killer punched in a chair, took out the phone and called Lu Yang.

Lu Yangzheng is chatting with Han Zhong.

"Since more than 1,000 people have arrived, I suggest dividing the forge division of our smithy to major cities. After these people buy equipment, they don't have to run us. They save effort, and we also save effort." Han Zhong said .

Lu Yang said, "Yes, Beifeng City, Benliu City, and Red Moon City do not need to set up selling points in the three cities. It can be set in Benliu City. This one point can meet the needs of the four surrounding main cities."

"Drip, drip, drip"

The interphone rang, and Lu Yang picked it up and said to Han Zhong with a smile: "I answered the phone, and the killing of the world was hooked."

Han Zhong said with a smile: "Your kid is amazing."

Lu Yang laughed, pressed the connection key, and said to Shi Shi, "President Shi Shi, what's wrong with me?"

Extermination kills the anger and asks, "Chairman Lu Yang, tell me the truth. Do you support Promise to destroy us three?"

Lu Yang said, "Where do I start, why should I have this idea, I said that no matter how your lakeside city is, how can you keep your word and fat?"

Destroyer killed his heart a little relieved and said, "Why do you sell to Wuji 60 level equipment."

Lu Yang said, "He wants to buy, but I can't sell it. Besides, he didn't buy it alone."

Killing the world is speechless, but the fact is the same. Lu Yang cannot sell equipment to the outside world because of him.

Suddenly, the extermination killer came over, and not only Wuji bought it alone, but if someone else bought it, extinction said, "You mean the other two people also bought you?"

Lu Yang said: "Don't ask me, I won't say, I'm just a businessman, you can't force me to disclose the news of the buyer."

"Since you are a businessman, I also want to buy, a professional 5,000 sets."

Lu Yang said: "Yes ..."

He used Huyou Wuji's set of rhetoric for Huyou's extermination, and in the end, he was fooled and bought 5,000 sets of spare parts for each occupation at the original price.

A set of 6 Blood Elf Island parts and 5 Mysterious Tower accessories cost 5 gold coins for a total of 35,000 sets. In total, more than 50 million credits are required. Lu Yang wiped zero for each of them, as long as 50 million.

This money is not much for a guild with a fortress. A fortress can bring them 50 million credit points a month. These are just their monthly net income.

They have occupied the fortress for a year, and the four bosses of Lakeside City have money in their hands, just to see if they are willing to invest.

Gangshi Hengqiu sent someone to pick up the goods here. Domineering Hengqiu and the romantic assassin discovered the anomaly. Soon, the two also came to Luyang to buy.

In just one day, the four presidents bought equipment worth more than 200 million yuan from Lu Yang. After deducting the raw material money, Lu Yang netted 190 million yuan.

The reason why this money is made is because the material was bought by Lu Yang as early as 2 months ago. At that time, it was just when the material price was the lowest. If you buy it at the current market price, the price of so many pieces of material To more than 1 billion.

After Lu Yang completed 4 transactions, he called the old man at the twilight and asked, "What are you doing?"

There are less than 400,000 people left in the hands of the old man at this time ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ said depressedly, "What about leading the team to make a copy?"

Lu Yang said with a smile: "Tell you the good news, the four of the lakeside city couldn't help but bought the equipment here with me today, and within a week, they will definitely fight."

The old man in the twilight lit his eyes, and said with excitement, "It's finally fighting."

Lu Yang said, "Train the rest, and the opportunity is here."

The old man in the twilight said, "It's not easy to fight. They are also level 60. My people are also level 60. And the equipment you sell to them, how can I fight?"

Lu Yang said, "I'll prepare 5,000 sets of immortal equipment for you. Enough."

The old man in the twilight smashed his sword into the soil and said, "So much?"

Lu Yang said: "I didn't feel willing to equip myself, sir, enchanted nine-color dragon, 6th-level gems, I have everything ready for you, and you are waiting for the battle."

Chapter 780 - Pseudo dragon

:

"It's enough, it's enough, with these equipment, I can even push the lakeside city." Said the old man.

How powerful the immortal suit has been proved on the battlefield, 150 people penetrated the enemy position and returned smoothly, one person was not dead.

Lu Yang said: "I will give you the transfer certificate before the war. In the end, those who are left in your guild will be all senior players who transfer, wearing the immortal and the blood demon temple set, even if only 100,000 people can also sweep the lakeside city. "

The old man in the twilight said, "Be assured, I will definitely train all the people in my hand to become masters."

Lu Yang said, closed the phone, and continued to take the druids to brush the water jade secret. In the next five days, he brushed more than 3,000 skill books here, and all his druid equipment was taken by him. Brush it all.

These druids are also familiar with Lu Yang. During the five days, when the brushing ends, the 25 boys will chat with Lu Yang.

Waiting until the sixth morning, Lu Yang said to De Buwei and others and Xiao Chengfeng and others, "Beginning today, you guys, don't follow me for the time being, go to the trumpet to upgrade."

Xiao Chengfeng said for a moment, and said, "Oh, boss, we have to protect you."

Lu Yang laughed and said, "For the time being, you should take the team for a while and replace Sun Yu's Army of Lightning Marksmen. I will take them to the task. When the task is over there, you have to return."

"Oh." Xiao Chengfeng said.

De Buqi asked, "Boss, we are going."

Lu Yang said: "Your 24 are the main force, Star Wrath and Star Wrath are important brushing skills."

"Oh."

Lu Yang said, "Fu Feng is responsible for the unified staffing. You should report to him. He is on the third floor."

"Oh." De Bu tasted the corpse and Xiao Chengfeng and others went upstairs listlessly.

Lu Yang shook his head.

Han Ying knew Lu Yang's intentions and asked, "Brother, do you want to promote them to be head of the team now?"

Lu Yang said: "The war is coming. The first 10,000 people who followed us have used it. The commander is still not enough. There is no way."

Not everyone can command thousands or even tens of thousands of people. This requires a calm mind and a tolerant mind. Without these two things, when fighting, not only pit yourself, but also the team, and more likely pit the entire guild.

The more than 10,000 people who followed Lu Yang in the early days could be less than 200 people at the head level, which is only 2 million people. This week, the number of Jagged Brothers League swelled to more than 5 million, including the new members who were promoted. Advanced players, there are still more than 2 million command gaps.

Lu Yang can't wait to let Han Ying and Han Sha go down to lead the army to fight ...

Sun Yu walked into the guild hall, came to Lu Yang, and said, "Boss, 150 wind laser shooters are ready. I brought 3,000 sets of venison of more than 50 qualities."

These 150 people were replaced by Germans who did not taste the corpses. Lu Yang had previously asked Sun Yu to collect high-quality venison of level 50 or higher. After two months, Sun Yu collected more than 10,000 groups.

Lu Yang said, "Fine, follow me. Today, the boss will take you to catch your pets."

"What pet." Sun Yu asked in a hurry.

Lu Yang said with a smile: "Pseudodragon."

"Pseudo-dragon? What is it?" Sun Yu didn't understand. The dragon was the dragon.

Lu Yang took Sun Yu out of the house, and after meeting with 150 wind and lightning shooters at the door, he walked and said to them, "According to the official history of the game, the pseudo dragon is a new species formed by the subspecies flying dragon being transformed by nine elements This is like a mule born of a horse and a donkey. "

Sun Yu: "..."

A crowd of wind laser shooters: "..."

Han Ying said, "Brother, your analogy is so bad."

In embarrassment, Lu Yang said, "The pseudo dragon is very powerful."

The strength of pseudo dragons is quite powerful. In the civil war of the nine elements, in order to gain air supremacy, the nine elements chose the subspecies of dragons, the so-called dragons and other races. Make a transformation.

After being born, these subspecies dragons have the same appearance as dragons, but they are much smaller than the orthodox dragons, and the largest spread wings are only about 5 meters.

Such subspecies do not know how to use Dragon Breath. Originally, they could only use their claws to slap animals, but when they were transformed by the nine elements, their bodies did not change, but Dragon Breath could be sprayed out of their mouths.

In the last life, when the players found the false dragons, no one took them seriously. However, during the battle, the breath of the false dragons can kill one-third of the defense of the level 60 blood demon temple suit. HP.

If it is for players of other professions, the width of Dragon Breath is 3 meters and the length is 30 meters, which is enough to kill dozens of players.

Many people immediately wanted to use hunters to catch pseudo dragons. Unfortunately, no matter how skilled hunters were, they couldn't make pseudo dragons their pets, so many people thought that pseudo dragons could not catch them.

Later, some hunter players inadvertently obtained high-quality venison of more than 50 quality, and used a group to catch the false dragon.

Lu Yang previously told Sun Yu that they had been fighting venison for a while. He was afraid that the venison was not enough for the 1500 wind laser shooters.

While running and talking, Lu Yang took the team to the level 60 map Heilongshan, and he led the team along the side of the mountain to the top of the mountain.

System prompt: you found the element altar

"I don't think there is such a place on the top of Heilong Mountain." Han Sha said.

He came to Heilongshan so many times, and every time he thought that the entrance to the middle of the mountain was the highest point that Heilong can reach. He did not expect such an altar on the steep mountain top.

Han Ying asked, "Brother, does this altar have the same function as the secret place of Shuiyu?"

Lu Yang nodded and said, "When the noon is full, the jewels on the altar are full of energy, and the entrance will be opened. Take a break and prepare for it."

"Okay." Everyone rested.

Lu Yang glanced over the 150 wind and lightning shooters brought by Sun Yu, who he knew, were the earliest players in Sun Yu's career who turned into wind and lightning shooters.

Suddenly, Lu Yang noticed that one of the wind and laser shooters was struggling, as if talking to someone.

Lu Yang sent a message to the walking fish and asked, "What's wrong, what happened?"

The walking fish looked at Lu Yang in surprise. Lu Yang motioned him not to speak, and said, "Send a message to reply, what happened?"

The walking fish shook his head and sent a message saying, "It's all right."

Lu Yang said: "When I was your boss, tell me the truth, what happened."

The walking fish took a look at Lu Yang, but eventually he couldn't resist Lu Yang's eyes. He said, "My mother is ill and needs 500,000 yuan for treatment. Our family can only collect 400,000 yuan, which is still 100,000. , My dad wants to sell the house, my mom won't let it. "

Serious illness is the easiest thing to destroy a family, even in this era.

Lu Yang understands the idea of walking fish. In fact, the walking fish wants to solve this problem is very simple. He just needs to talk to Sun Yu, let alone 100,000. It is very easy for Sun Yu to get 500,000. Find a friend who is also a lightning striker You can also borrow money for help.

He is unwilling to borrow, because he has too strong self-esteem. Originally, everyone is an equal person, and no one is worse than anyone. If he borrows money from people around him, he will feel that friends around him look down on him. .

Actually who would do it, he just had too much pride.

Lu Yang said, "The card number tells me that the 100,000 yuan boss will get it for you."

The walking fish froze and looked at Lu Yang, sending a message saying, "Boss, how can this be."

Lu Yang said, "Stupid boy, tell me something later, you will follow me since the Jagged Brothers Alliance was founded, and you are like my family. Remember, if you still lack money, tell me, do n't carry it yourself On. "

The walking fish's tears twitched in the eye sockets, or he bit his teeth and refused to say, "I can't ask for your money, I don't know when I can pay it back."

Lu Yang said with a smile: "When I am the boss, you hold it, don't talk nonsense with me, talk about paying back money later."

He is not short of 100,000 yuan, and it is a very happy thing to be able to help his brother. In this life, how much money he earns is enough, and it is enough to spend. He is desperately trying to make money just to defeat Liu Jie.

The walking fish looked at Lu Yang gratefully and typed, "Boss, thank you."

"Brother, the gems are full." Han Ying said.

Lu Yang looked at the altar, and the eight gems around him were fully charged, emitting a dazzling light, and said, "Sun Yu brought people in."

"Yes." Sun Yu led the team into the altar.

As the walking fish passed by Lu Yang, he said, "Thank you, boss."

Lu Yang said in a message: "This is our secret, don't tell others, you know?"

"Um." The walking fish nodded.

Lu Yang took him to the altar, the light flashed, and he appeared on a cliff full of mountains.

Lu Yang said: "Don't catch the red dragon, just the black dragon."

The red dragon spit fire. I don't know how many people are buying fire-resistant gems to deal with his spell-casting mage group. He doesn't need to add more dragons using fire.

The crowd nodded, Sun Yu and Han Fei led the team with 6 Han Sha members, and Lu Yang and Han Ying took 6 Han Yu members behind.

The damage of the pseudo-red dragon is very high, and the shooter's legion can't carry the dragon's breath of the opponent, all the way forward, and after killing nearly a hundred red dragons ~  
www.mtlnovel.com ~, it found the gathering place of the black pseudo-dragon.

Sun Yu threw 50-quality venison forward, and the black pseudo dragon who had watched Sun Yu with contempt eyes immediately fell down and flung in front of the meat, and enjoyed it.

Sun Yu used the summoning skills, and the pseudo dragon did not respond to food. Soon, when the summoning operation was released, the pseudo dragon screamed, and Sun Yu's name was added to his head.
