

Wild Fire 81

Chapter 81 - Special items

He looked at the other things on the ground, and the bone tyrant roared with a 4 * 4 range explosion.

Among the potions, Lu Yang saw another golden bow and arrow.

Hunter's Bow (Gold)

Level: 30

Damage: 64-122 (second injury 54.2)

Strength: +22

Constitution: +12

Physical damage increased by 22

Increases physical crit chance by 12.

This is one of the best bows and arrows at level 30. He is taller than any other bow and arrow in pure output.

"Just for Sun Yu."

Lu Yang put the hunting bow in his backpack and continued to pick it up. Generally speaking, the two kinds of equipment that the boss burst out are already the limit. When he picked up the potion stacked on the ground into his backpack, suddenly, a cricket A small golden box appeared in front of him.

“Pandora’s Box” Lu Yang could not help but exclaim, he did not expect that he could hit this thing.

Don’t look at this small thing, only the size of a potion bottle, but this thing is a baby that makes all players fall into crazy.

Pandora’s Box: This is a magical little thing, he always gives you a desire to open him, try to open him and see, you will get unexpected surprises.

The explanation of Pandora’s Box makes the player more open to his thoughts, but what is obtained after opening is not necessarily.

After being tested by countless players in the last life, there are 6 results of opening the Pandora’s Box. The first is to obtain equipment of any grade within level 30; the second is to obtain special equipment; the third is to have a chance to improve attributes. Are the best three chances.

Similarly, there are five kinds of bad chances. The first is to die instantly; the second is to permanently reduce the attribute; the third is to be teleported to any level 30 boss. It may be a duplicate boss or it may be Boss in the wild; the fourth is to instantly summon a boss above level 50 to appear in front of him, which is almost fatal; and the worst one, all the equipment in the body and backpack disappears.

The odds are completely random. There is no controllable method. Lu Yangshengsheng I felt that he was lucky. He tried to try, but he did not dare to test it now.

A series of equipment such as the Devil’s Heart (level 1), the magic staff of fire, and the arsonist’s staff are all on the body. In case he has the last one of this luck, he will really return to liberation. .

He quickly pressed down the idea of trying, put the Pandora’s Box in his backpack, and continued to pick things up. All that remained was the magic recovery potion (large bottle) and the life recovery potion (large bottle).

Elixir of Mana Recovery (Large Bottle)

Level: 0

Description: After using it, you can recover 2400 mana in 5 seconds.

The health recovery potion has the same properties as the magic recovery potion, except that the magic is replaced with health.

After Lu Yang picked up everything, he sent a message to Duzhuo, "Are you still at the door?"

The duo drunk and Mao Qiu were discussing what Lu Yang was going to do when he entered the king's hall. When he saw a message from Lu Yang, he immediately replied: "We are all there."

Lu Yang said: "All return to the city, wait for me at the east gate of St. Gall, and I will take you to upgrade."

He originally wanted to bring the muddy wine dumping and others to continue to upgrade here, but the Eternal Sword Guard died, facing the skeleton elves that were trapped inside the skeleton heavy hammer soldiers. The skeleton elves had high resistance and were running fast. He was singled out, so he had to take them home first and then find a place to upgrade.

"Okay, let's go to the east gate." The turbid wine poured was quite happy. Before that, he asked Vulcan M16 to send things back to the city by himself. If Lu Yang brought them here to upgrade, their four levels would be Much higher than Vulcan. Now go back to the city and go to the upgrade site, you can take Vulcan together.

When the four flew back to the city, Lu Yang had already returned to the holy city. He first ran to the bank, saved the magic staff and Pandora's box, and then ran to the east gate. Waiting at the door.

Zhuoju also poured in Lu Yang and waved, "We are here."

Lu Yang ran to the turbid wine and said, "I'll take you to level 15 map upgrade. Don't be afraid, just follow me."

As soon as the eyes of Zhuoju pouring and fur **** were bright, they guessed that Lu Yang would take them to leapfrogging.

Crossing the Huayu Plain and the Orc Hills, Lu Yang took them to the Troll Forest.

At this point, Lu Yang has been playing in the game for more than 26 hours, and Xiao Liang and Sun Yu are back online.

Lu Yang sent a message to Sun Yu and asked, "How is the technical training?"

"Boss, I can barely escape four blame at the same time." Sun Yu was talking while avoiding the spears thrown by the four trolls, and seemed very skillful.

Lu Yang sent the picture of the hunter's bow to Sun Yu and said, "Look what this is."

When Sun Yu saw the attributes of the weapon, she almost escaped the mistake, and hurriedly said to Lu Yang, "Boss, is this for me?"

Lu Yang smiled and said, "Of course it is. Wait for me at the gate of the forest. I will give you a bow and arrow. By the way, I will bring a few people over to upgrade."

"Good boss, I'll go back." Sun Yu left 4 trolls and ran to the forest entrance.

When Lu Yang brought the turbid wine to the forest entrance, he just saw Sun Yu waiting there.

After introducing the people on both sides to each other, he gave the hunter's bow to Sun Yu ~
www.mtlnovel.com ~ Sun Yu almost robbed him, but after getting the bow and arrow, Sun Yu wanted to equip him. I found that the equipment was not available. After a closer look at the level, I discovered that it was a level 30 weapon.

"Boss, I have to work hard to upgrade." Sun Yu said without tears.

Lu Yang laughed. He understood Sun Yu's feelings. When you saw a superb weapon in front of you, but you could n't bring it because of low level, you also wanted to upgrade desperately.

"Rest assured, the boss will take you to upgrade, go and pull the monster." Lu Yang said.

"Good boss, I'll go in here." Sun Yu ran into the forest full of ambition.

Soon, the first 20 trolls were pulled out of the forest by Sun Yu, and Lu Yang laid a sea of fire on the ground 30 seconds ago.

Zhuoju poured into Lu Yang's side and asked, "Master, don't you need me to stand in front of you."

"No, these monsters won't hit me. I have the equipment to reduce hatred, and Sun Yu pulls the monsters very well." Lu Yang said.

The turbid wine slumped for a while, and this was the first time he encountered such a fire method, and he found that Lu Yang was completely different from the fire method in his impression.

The hair ball is different. When he saw Sun Yu pulling a monster, his eyes radiated a strong color, which was a kind of excitement when he met a master.

After Sun Yu's guidance, when pulling monsters, he was no longer just sprinting, but was able to turn his head and run while shooting arrows to stabilize his hatred.

Chapter 82 - Recruiting experts

Lu Yang saw that the monster had entered a distance of 60 yards from him, and began to chant a spell. The violent flame power radiated from Lu Yang. After 10 seconds, the trolls almost rushed into the sea of fire in three rows. And about to run out of the flames.

The staff in Lu Yang's hand was pointing forward, and suddenly a flame 3 yards wide and 15 yards long was ejected from the front of the staff.

The violent flame power stunned the turbid wine and others.

System Tip: You have gained 126 experience points (among which, 36 points are the experience of leveling monsters)

...

A series of 20 system prompts to make Zhuoju pouring and others wake up.

“There is so much experience!” Said Zhujiu Qingping, a few of their brothers are only 5th level. Although they usually beat the level, they can only cross the 3rd level at most. They do n’t dare, but they form a team of 5 people. The level 3 or higher is not much experience and it is very difficult.

I saw 7 people teaming this time. They didn’t feel that they had too much experience, but when they saw the experience, they were all very excited.

“This experience is so cool.”

“In this case, we will be able to upgrade soon.”

“No wonder the Lu Yang brothers can rank first in the rankings. This experience is too easy.”

Lu Yang said: “I will play with you for 4 hours today, and your level will soon be close to 10.”

Mao Qiu looked at Lu Yang’s fire wall and asked, “Master, how long can your fire wall last.”

Lu Yang thought about it and said, “About 3 minutes.”

He has more than 200 spell injuries, plus Level 2 of Fire Wall, which can basically support it for 4 minutes.

Mao Qiu's eyes showed a hint of excitement, and asked: "Master, then I also learn how to pull monsters like Sun Yu."

Lu Yang said, "It would be nice to be able to do this, but can you do that?"

Mao Qiu said: "I may not be as perfect as Sun Yu, but it is almost the same."

Zhuo Jiu said, "If you just pull the monster here, I feel I can try it."

The Paladin has a crusader aura, which can passively increase the movement speed of 15% and the mount's movement speed. The turbid wine pour is also very confident in his posture.

Lu Yang said: "Then we can try. If the three of you enter the sea of fire every 20 seconds, there will be basically no problems."

Sun Yu, Zhuo Jiu Qing, and others are a little excited. If they can do it, their upgrade speed is equal to 3 times.

After some discussion, several people set a strategy. The fur ball entered first, and the turbid wine ranked second. Sun Yu's technique was the best. He ranked third.

These are the top great gods of the last life. Although the cooperation at the beginning was a bit sluggish, after three times, the cooperation of the three players was like comrades who had been practicing for several years.

Lu Yang is even more powerful. The time for the three to pull the monsters is controlled by him. At the same time, he must release the flames of light energy and control the time of the fire wall under his feet.

In this way, the speed of their upgrade was greatly improved. In 5 hours, the turbid wine pour and others rose from 5 to 9 and Lu Yang reached 11.

While waiting for the mobs, a few sat on the ground and resumed while chatting.

“Happy, today is really too happy.” Zhuo Jiu said to Lu Yang excitedly.

“After five days of hard work, our brother was worthy of being the first master of the national service. I served it.”

Mao Qiu and Vulcan were all excited, thanking Lu Yang for their help.

Lu Yang said: “A few of your brothers are very good at it, otherwise we can’t upgrade so fast.”

The turbid wine poured out and the fur ball quickly quit.

Sun Yu interjected, “Big ball and big brother Zhuzhuo are really good at it.”

Mao Qiu had some mentality about Sun Yu. When he heard Sun Yu so much, he felt ashamed and happy.

“I’m still a little brother. You must be great. Brother and I have to admit, I’m a lot worse than your body style,” Mao Qiu said.

Zhuo Jiu nodded his head and said, “Brother Sun Yu’s posture is really good. If I was singled out now, I don’t have any chance to face you.”

Vulcan and others nodded their heads, and they could all see that Sun Yu’s technique was much smarter than them.

Sun Yu was a little embarrassed when he was praised so much, scratching his head and saying, "My masters and consciousness were taught by my master, so I am similar to you."

The muddy wine dumplings and fur **** were all together, and they looked at Lu Yang at the same time.

"Master, no wonder Sun Yu calls your master. It turned out that you taught him." Mao Qiu said.

"This is unscientific. The close-range and long-range evasion of the fire method is better than us." Saiwai Kuangdao said, he is a thief, but he is a bit shy now.

Vulcan and fur ball are also confused.

Lu Yang said: "I know some family skills, so I am better than the average person in terms of body style and consciousness."

Only then did the people like muddy wine and hairballs understand.

"No wonder you dare to enter the 30-level map to fight monsters." Mao Qiu said.

The turbid wine dumped and others recalled that his head was numb when the bone-heavy soldier with screen level 30 was full, and saw Lu Yang ran in like this ~ www.mtlnovel.com ~ I was worried for him, I could not think of Lu Yang has a family tradition, and he is not afraid at all. A few people have a little sigh for a while.

Lu Yang smiled and didn't answer. He looked at the expressions of a few people. He just took the muddy wine and waited for such a long time with strange people. On the one hand, he thanked them for help, and on the other hand, Lu Yang also wanted to test it. Just look at their character.

Although the contact time is still a little short, Lu Yang feels that the turbid wine and wool ball are indeed rumors of his life, justified and enthusiastic.

Lu Yang became solicited.

“Have you ever thought about joining the guild.” Lu Yang asked.

The muddy wine dumplings and the hairballs were all together.

“Our brothers are used to five freedoms, and haven’t thought about it yet,” said Zhuoji Qingping.

Lu Yang said, “After a while, I wanted to build a small team of about 40 people. Usually, everyone didn’t interfere with each other, and each was very free. Only when the next copy came together, we specially challenged the difficult copy to get equipment. How? kind.”

The dumb wine poured out the eyes of five people, and they were deceived several times by some bosses of the guild in the previous game, so that their heart to join the guild became cold, so this time when they entered the game, five people It is agreed not to enter the guild, only to be a free and idle player.

However, this game is different from other games. He has a huge copy system and bosses that require more people to play.

Chapter 83 - Subdue

If there is such a team, everyone is usually free, and when you need to make a copy, it is really a good way to get together again.

In addition, the five people who saw the turbid wine can see that Lu Yang’s strength is very strong, and the apprentices around him are also very strong. The most important thing is that Lu Yang is good enough, and it is a very good choice to form such a group.

Five people in Zhuojiu poured out a few words in private and concluded that Zhuojiu said on behalf of Mao Qiu and others to Lu Yang: "We agree to join your team."

Lu Yang said, "Welcome."

It happened that the refresh time was up, and Lu Yang said to Sun Yu, Zhuo Jiu, and Mao Qiu: "You will pull out 100 monsters together this time."

"Why." The dull wine dumplings and the four fur **** were surprised.

Sun Yu's face showed an excited expression and asked, "Boss, are you ..."

Lu Yang nodded.

Sun Yu was more excited and said, "Great."

Zhuoju listened to the conversation between the two of them, and asked with a smile: "Master, what are you doing?"

Lu Yang said: "I have a special skill that can be released every 6 hours. Just when the time is up, you can pull the monster."

The expression of Zhuoju's face was changed, and he was surprised and asked, "This game still has the ability to destroy 100 weird skills at once?"

In the case of no strategy, the people who know about the game have very little knowledge about the game, and they don't know that the game has a curse.

Lu Yang said with a smile: "Go and pull the monsters. The three of you will try to pull the monsters in front of me together."

“Well, let’s try as much as possible.” The dull wine dumpling and the fur ball ran into the forest.

Sun Yu also ran in.

The three had previously assigned their respective areas for pulling monsters. This time it was easier to pull monsters together. Soon, 100 trolls were pulled by the three from three directions in the forest.

The three met together a distance of 100 yards in front of Lu Yang, and the trolls were merged together.

The 100 trolls ran up and even shook the ground. The unrelenting killing momentum made ordinary players look scared, but Sun Yu’s three hearts became more excited.

Sun Yu and Mao Qiu continued to use the scatter arrows toward the rear. Every 30 yards of muddy wine dumping released a sacrifice in situ. All three pulled the strange hatred very stable.

When he was about 50 yards away from Lu Yang, Mao Qiu couldn’t help but asked Sun Yu around him, “What kind of trick does your master have? Is it a curse?”

Sun Yu nodded and said, “Yes.”

When Mao Qiu was stunned, he just said it smoothly, but he did not expect Sun Yu to admit it.

Just at this time, a violent energy that Mao Ball never felt before burst out from Lu Yang’s body.

Lu Yang began to read the scales, and every simple scale seemed to come from thousands of years ago.

“The Great Lord of Fire, please accept the faith of your humblest servant, and grant me the power to burn all fire.”

Meteor falls!

The clouds were densely packed in the sky. Suddenly, a gap appeared in the clouds. A house-sized fire meteor suddenly dropped from the air with a long tail of fire.

The whistling air sounded like the call of hell, and the fur ball that ran 10 yards in front of Lu Yang was stunned.

“It’s really a curse,” Mao Qiu said, looking up in shock.

Vulcan M16 is even more dumbfounded.

Fire meteor hit exactly at the center of 100 trolls. When the fire meteor landed, a golden ring spread rapidly to the surroundings.

It was a shock wave caused by a huge impact force.

“boom”

The fire meteor burst suddenly, and the violent power enveloped all 100 trolls.

“3288”, “3166”, “1649”, “1594” ...

System Tip: You gain 121 experience points (among which, you have +33 experience in leveling monsters)

...

Countless damage numbers emerged from the top of the trolls, while countless system tips prompted to flip through their dialogs.

After the beep was over, they looked at the field, and there were less than 40 alive trolls, but even if they were alive, they all had blood.

Lu Yang's white light flashed in front of the troll group. He chanted a spell in his mouth. After the 10-second stun was over, the troll was about to attack the landing sun, and Lu Yang's staff pointed forward. A flame three yards wide burst out suddenly.

Lu Yang swiped with his staff in place, and when the flame jet was over, all the monsters disappeared.

The five people in Zhuojiu were completely stupid. Only Sun Yu had seen Lu Yang release this skill before, but he was also excited.

"So handsome, Master." Sun Yu shouted.

The turbid wine was awakened by Sun Yu's words, and he hurried to the front of Lu Yang with the fire **** M16.

"Brother Lu Yang, what kind of skills are you from, and where did you learn from it." Zhuo Jiu asked excitedly.

The damage caused by this skill is completely beyond the cognition ability of others such as Dusty Wine Pour.

Lu Yang said: "This is a forbidden spell skill, which I learned by accident."

"This skill is too strong, how can the system set up such skills." Mao Qiu asked puzzled.

Lu Yang laughed and said: "Even with the skills plus 2 equipment, there is nothing strange about a curse."

"That's right." The fur ball was relieved.

Vulcan M16 is also a fire method. He saw Lu Yang several times and stopped talking.

Lu Yang knew Vulcan's thoughts, and he patted each other's shoulders and said, "Sorry, this task is the only one ~ www.mtlnovel.com ~ You can't do it."

Vulcan M16 sighed and became a little lonely, but this can not blame him. Any fire method sees Lu Yang's curse and wants to learn.

"Well, your levels are basically at level 10. I have been playing here for more than 30 hours, and my body is a bit tired. I am offline to rest." Lu Yang said.

"Okay, then you go down first, let's continue to play for a while." Zhuo Jiu said quietly.

"If you want to practice your level, just practice with Xiao Liang for a while."

After finishing talking, Lu Yang patted Xiao Liang's shoulder to encourage him to continue his efforts. He then returned to the city of St. Gall by using the back to the city roll.

For 30 hours of continuous fighting, Lu Yang's spirit was exhausted, but he still exercised before going to bed.

In this sense, he slept for a full 16 hours. After waking up and washing, he returned to the game again.

At this point, it is already the sixth day of the game.

Lu Yang looked at the player's level. Many grand guild players exceeded level 5, and some of them even reached level 8.

These people are basically professional players of major trade unions. Many people have heard of their names in the last life.

This made Lu Yang feel a sense of urgency. Obviously, everyone is making progress, and Lu Yang cannot afford to relax.

Chapter 84 - Camouflage coat

He got up and walked towards the goblin camp. When he brought the muddy wine and waited for others yesterday, he hit 2376 troll bone chains, took it to Bissell, and exchanged a generous sum of money.

It takes 10 minutes from the square to the goblin camp, and several streets have to be turned.

Lu Yang had just stepped out of the square and found two people behind him all the time.

He wasn't sure of the identity of the two men, and looked around. Just in front of the residential area of St. Gall, he turned and walked in.

The houses in the residential area are very high, basically three-storey houses built of brick and stone. If you are not familiar with the surrounding environment, you will follow the maze.

I did n't know how many times Lu Yang ran this past life. Some people tracked him in, and some people ran in when he avoided others. He was extremely familiar with the terrain here.

He habitually came to a residential area composed of red three-story houses, turned around and entered the gap between the two houses. Here is a dead end, in front of which is a 3 meter high wall, with the walls of the house on both sides. .

Lu Yang came here, using the flash, appeared on the other end of the wall, and then leaned against the wall to eavesdrop.

The two people who followed Lu Yang were always behind Lu Yang. When they saw Lu Yang walking into the corner, they followed quickly, but they walked around the corner and looked dumbfounded.

“How can it be a dead end? People?”

“It shouldn’t be. The two of us came in behind him and shouldn’t disappear.”

“Are there any secret doors?”

The two found them around, but they couldn’t find the hidden door after touching the wall, which made Lu Yang hiding behind the wall grinning.

“It’s over, I’ve lost people, how can I explain to the boss of Lone Star?”

...

The so-called Lone Star Boss, the bloodthirsty No. 1 brawler who wanted to grab his boss in the Serpent Canyon and was picked and counterattacked by him.

There was a sneer in the corner of Lu Yang’s mouth, but unfortunately he could not kill in the city, otherwise Lu Yang must jump back to kill the two pawns.

However, since the other party wanted to kill him, he couldn’t just let it go. Lu Yang walked to the auction house and placed the 2 pieces of silver equipment and 6 pieces of bronze equipment that Ye Guxing broke out on the auction house. .

Bronze equipment is priced at 10 gold coins, silver equipment is priced at 100 gold coins, and the description of the equipment is written to kill the night lone star and the **** tyrant who kill the bloodthirsty alliance.

This price can never be sold, but Lu Yang doesn't care. His purpose is not to sell equipment, but to challenge the Bloodlust Alliance and Ye Guxing.

When the second world chooses equipment, the system provides many ways for the convenience of players to choose, including the way that prices are arranged from high to low.

When players buy or view things, they will habitually click on the price from high to low. These equipments are easy to see. By that time, people like Bloodlust and Night Lonely will become a joke .

"Wow, there is silver equipment!"

"Come on, everyone, the auction house is actually equipped with silver."

"It's so expensive. It costs 100 gold coins. Who can afford it?"

"Look at the introduction next to you, it was actually the night lone star that killed the Bloodlust Alliance."

"Who is Ye Guxing?"

"The bloodthirsty number one thug."

"This guy didn't sell equipment at all, but he slammed his face, and it hurt too much."

"The large union of 30,000 bloodthirsty leagues has a good show."

...

A large number of players gathered in front of the auction house to discuss who dared to offend the Bloodlust so much.

Lu Yang did not expect that this incident caused a sensation so quickly, he put on a cloak with a sneer and headed for Xicheng District.

He came to the parliament hall of the Goblin camp and found Bissell.

“Brother, welcome you back.” Bissell saw Lu Yang enter the door and greeted him.

“Did you kill the trolls again?”

“Of course.” Lu Yang came to Bissell and gave the troll bone chain to the other side by group.

System prompt: you get 19 silver coins and 80 copper coins

You gained 99 reputation

System prompt: you get 19 silver coins and 80 copper coins

You gained 99 reputation

...

After a series of 24 reminders, Lu Yang harvested 4 gold coins, 75 silver coins and 20 copper coins. At the same time, Lu Yang’s golden light flashed.

System Tip: Your Prestige in Venture Capital Camps Respects

Your reputation in the Goblin race is friendly

“Brother, you are the hero of our venture capital company. We are willing to open more purchase options for you. There are many special things, don’t you want to take a look.” Bissell said.

Lu Yang’s eyes lit up and he said, “Of course.”

Generally speaking, special items are treasures that players can’t make, and the game output is also limited. They are only kept for one day, and they are wiped out the next day.

Lu Yang came to the Goblin Trade Hall, found a trader and clicked to buy, and many icons of items appeared in front of him.

Among the many items, a thing called a camouflage coat appeared on it, priced at 1 gold coin.

Camouflage Vest (Orc)

Level: 0

Use times: 3/3

Description: In order to trade, goblins always need to deal with various races. Some races do not like to talk to foreigners. However, smart goblins can always find a way, camouflage coat is one of them.

This is a baby ~ www.mtlnovel.com ~ With this camouflage coat, human players can be disguised as orc players and mixed into hostile orc camps.

Lu Yang did not hesitate to spend 1 gold coin to buy this camouflage coat, although it is not used now, but it may not be available at any time in the future, and this thing is not bought this time, it will be refreshed tomorrow.

He took another look at the other items and found nothing useful to him until now. Lu Yang turned back and returned to the auction house. He was going to buy some raw materials for anti-toxic drugs.

Just arrived at the entrance of the auction house, Lu Yang found that the entrance of the auction house was all people, and the auction house could not be fast-forwarded.

Lu Yang scrambled to the crowd at the door and found nothing special. He asked a warrior-like player nearby: "Brother, what happened inside?"

"Don't you know?" The soldier said excitedly: "Tell you a secret, a player declared war on the Bloodthirsty League, he hanged the equipment of his bloodthirsty boss on the auction house, and gave 1,000 gold coins. Price, now the boss of the Bloodthirsty League has taken people to the auction house, you see the one in front. "

Lu Yang sighed that the ability to create rumors in the game is really powerful. He wrote that he clearly killed Ye Guxing and others, and the price of the equipment he exploded was only 100 gold coins. When he reached the mouth of this brother, it became kill After the boss of the Bloodthirsty League, the explosive equipment cost 1000 gold coins.

However, this is also good, at least you can make bloodthirsty domineering face lose.

Chapter 85 - Declare war

He looked inside. Bloodthirsty Batian was taking Ye Guxing and dozens of players standing on the trading desk of the auction house. At this time, they had seen the equipment sold by Lu Yang and the news released.

"Chairman, I'm sorry." Ye Guxing said to the bloodthirsty bully with his head down in fear.

Yuxue Bawang is also cautious, and dare not look up to see the face of Bloodthirsty Batian.

The face of Bloodthirsty Weather is almost purple. The chairman of the grand guild of 30,000 people is actually provoked by an unknown soldier, and in such a public place, it is like a war between the two countries. After the seizure, put it in the exhibition hall to publicize the general.

Bloodthirsty Batian can guess how the presidents of the major guilds, such as Xiongba and Late Evening, are laughing at him at this time.

“Check me, find this person, kill him.”

“Yes, boss, I must kill him next time.” Ye Guxing said in horror.

“We are now carrying 40 elite players at any time, and we must kill him.” Yuxueba said nervously.

The bloodthirsty Ba Tian Lengheng didn't say a word, turned and walked towards the door of the auction house. He didn't buy these pieces of equipment because he didn't have enough money, which was what made him even more angry.

The originally congested gate instantly gave way to a road, and Lu Yang stood beside the road, staring at Bloodthirsty Domineering.

Bloodthirsty Batian walked in front of Lu Yang and felt his eyes, looking at Lu Yang, Lu Yang did not evade to look at him.

The bloodthirsty tyrant Lengheng left and ignored Lu Yang, and the night lone star and Yuxueba who followed behind the bloodthirsty fighter did not dare to look up from beginning to end, nor did they see Lu Yang.

The crowd quickly returned to normal order, and the players' discussions became excited. Everyone was wondering who this dare to challenge the Bloodlust.

“Will it be dominated by the hegemony, I heard that yesterday the hegemony just had a fight with Bloodthirsty Batian on a level 5 map, and the two sides convened 5000 people each.”

“Maybe it’s the old man who is late, and he deliberately planted stolen money to provoke the war on both sides of them.”

“I feel like it was done by Jianwu sky.”

“I feel like black blood.”

...

Lu Yang listened to their discussion with a sneer. Perhaps no one could think of it. An ordinary person who did not have any guild or consortium background recalled the contemptuous glances of the other side when he looked at the bloodthirsty bully. Lu Yang could not help but raise his fist.

“Wait, it won’t be long, bloodthirsty, I will destroy your bloodthirsty.”

Lu Yang ignored the discussion of the players around him, went straight to the auction house, and found a self-service auctioneer to select herbal items.

The prices of the three herbs, sedge grass, dead leaf grass and silver leaf grass, are still a minimum of 3 copper coins and a maximum of 10 copper coins.

Lu Yang bought all of these herbs. There are about 900 groups of each herb, and a total of 2 gold coins and 70 silver coins were spent.

At this point, there was only a little more gold left in his hand, but he was not distressed. After half a month, a large number of players will reach level 10. By that time, the herbs made from these herbs The potion will make Lu Yang a rich man.

This money is his first fund to compete for the world, allowing him to quickly establish a union, attract ordinary players, and also allows him to give confidence to those recruited masters.

However, Lu Yang did not go to remedy immediately, but instead stored the herbs in the warehouse and walked out of the auction house. He found an unoccupied corner outside and chanted the spell that returned to the demon temple.

A crimson light shrouded him, and after 5 seconds, Lu Yang appeared in the hall of the Demon Temple.

Lu Yang still has a Pandora's Box unused. He wants to try his luck, but after opening the Pandora's Box, there are too many changes.

The player with the best luck has ever developed a set of dark gold-level equipment. At the worst, all the equipment on the body and in the backpack disappears, and it is even possible to summon a boss of level 50 or higher.

He was worried that if something unlucky happened, he returned to the demon temple first, and put all the equipment of the demon heart, magic fire staff and arson staff on the table in the temple hall.

The demon temple is his private space, and no one else can enter, but he is afraid that if it is a lord boss, he will return to the outside of St. Gall.

Because once the boss boss, the demon temple is not his personal space, it is the boss boss.

Although Lu Yang was able to single out bosses, he was not able to single out every boss boss.

Looking at no one from side to side, Lu Yang took out the golden gold Pandora's box from his backpack and put his right hand on the lid to pull it upward.

A golden light burst out of the box, and Lu Yang couldn't help moving his head and closing his eyes, but when he saw it was golden light, Lu Yang's heart couldn't help getting excited.

Jin Guang represents equipment. He succeeded this time.

Two seconds later, the golden light disappeared, and even the Pandora's Box disappeared into the air. Three transparent crystal dice appeared in Lu Yang's hands.

"Fate Dice." Lu Yang could not help but screamed out. He did not expect that his luck could be so good that even things like Fate Dice could be obtained.

Destiny Dice

Level: 0

Cooling time: half an hour

Effect: If the player rolls the dice of fate, if the number of points exceeds 10 points, within the next half hour ~ www.mtlnovel.com ~ the player's lucky value will increase by 10 points, if the point is lower than 10 points, the player's lucky value will decrease by 10 points.

The initial lucky value of the player is 0, and the role of the lucky value is used when the player upgrades items such as equipment and gems.

A piece of equipment can be upgraded up to 19 levels, with 1 level of primary attributes (damage, magic damage, defense) increased, and the level of gem setting is +1.

Normally, there is a 50% chance that the equipment will be upgraded from level 0 to level 1. As the level increases, the lower the probability of successful equipment upgrades, when level 5 is reached, the probability is 10%.

However, if the player's lucky value is higher than 10 points, the player's chance is 100% before the equipment is upgraded to level 10.

Lu Yang wanted to equip the staff of the magic fire, he had to upgrade the equipment on him and then set gems. He was still worried about this matter. He didn't expect that his luck was so good and he easily solved the problem.

Moreover, the meaning of this fate dice is too important for Lu Yang. With this thing, he can let his men quickly upgrade the equipment level, which is equivalent to an extra war artifact.

Now, the only thing Lu Yang lacks is the upgrade materials and upgrade gems.

Just when Lu Yang was excited, Didi sound came from the intercom. Lu Yang opened it and saw that it was from the old man in the twilight. He pressed the connection key.

“Brother, are you interested in accompany me to the next epic Yongye Castle?” The old man asked.

Chapter 86 - Eternal Night Castle

Level 5 Castle of the Eternal Night happens to be the source of intellectual gems. Normal difficulty to expert difficulty only gives gem fragments, and epic difficulty gives broken gems.

Lu Yang smiled at the corner of his mouth and asked, “Why, what’s wrong?”

The old man in the twilight said, “Don’t mention that the output is not enough. You can’t fight it from the beginning. Now you have the highest output in the full service. I can only ask for your help.”

There is an epic-level video of Lu Yang breaking through the death cave. The old man gathers the power of the gang to equip his elite team with black iron and some silver level 3 equipment.

At this point, their levels are at level 6. The old man with confidence is full of confidence. He takes the team to wasteland level 5 copies. Normal, difficult, and expert levels are cleared, but they are stuck at epic level.

According to the rules of the game of “Second World”, if there is the first team to get an epic copy, the official broadcast will be in the full service.

This full service is a joint broadcast of all countries including Europe and the United States. The honor it brings is unprecedented.

The old man in the twilight wants to recruit more masters through this glory, but the difficulty of the level 5 epic is far beyond his imagination. The output is not enough in the old age. The whole group killed 4 times and almost lost the grade. Below, I can only come to Lu Yang for help.

Lu Yang had to go to the epic book of Yongye Castle. Only when he got through the copy can he get the gem fragments. Before that, he also wondered whether to find Lan Yu and Xia Yuwei to help them. Now the old man from the twilight comes to his door. Let the twilight old man work for himself.

Lu Yang said: “Help can, but I have a request.”

“You said.” The old man at dusk was ready to be slaughtered.

“I’ll help you get the copy, and you give me 8 intelligence gems.” Lu Yang said.

“Yes,” the old man said without hesitation.

4 fragments for 1 fragmented gem, 4 fragments for a gem, but only 128 fragments, compared to the world’s first glory is not worth mentioning.

Lu Yang knew the old man would agree, but when he thought of what he wanted by the bloodthirsty bully, he said, “There is one more thing to tell you.”

The old man asked, “What’s the matter?”

“See the silver equipment worth 100 gold hanging on the auction house?” Lu Yang asked.

The old man was happy, and he had just learned about it. He was told by the spies he arranged in the Bloodlust League.

“See, this time, Bloodthirsty Bully fell a big heel this time, the chairman lost all his face, even the people who joined them in the guild are much less. If you ask me this, you won’t do this. . “

“That’s what I did.” Lu Yang said, “Although you are the leader of the regiment this time, having me in the team may cause a war between you and the Bloodlust because of me.”

The old man Twilight said indifferently: “It doesn’t matter, what a bloodthirsty bully is, how dare he mess with me.”

Lu Yang said, “That’s good, when will it start?”

“Time is up, we can fight at any time here,” said the old man.

Lu Yang happened to be fine, saying, “It’s better to choose a day than to hit the sun, then today.”

What the old man in the twilight wants to hear is this sentence, saying, “My person is in the copy. Do we need anything else?”

Lu Yang thought for a while and said, “No, just wait for me at the entrance of the copy.”

The epic level of Ever Night Castle is not difficult, just buy something to make it easy.

He came to the trade hall of the Goblin camp to find the trader, bought 5 scrolls of sheep-changing sheep, and then came to the door of the castle of the night.

At this time, there are also many players gathered near Yongye Castle, most of them are elites of various guilds, and the logo on each chest is clear and easy to identify.

Lu Yang saw the bloodthirsty man at a glance, and the bloodthirsty man also saw him. However, with the exception of a few people such as Ye Guxing, no one knew he was Lu Yang.

Lu Yang had the intention to kill, but the players of several major guilds were very alert to each other. After he came, everyone's eyes were on him, and there was no chance to shoot.

Thinking of the twilight still waiting for himself in the copy, Lu Yang decided to let it go, the advanced copy said.

In the copy, the old man and his spirits Qingfeng and other people are sitting together to study how to hit the boss.

Suddenly, Lu Yang appeared in the copy, and the old man showed his iconic smile and said, "Brother Lu Yang, welcome to you."

Liquor Qingfeng saw Lu Yang's eyes brightened and said, "The boss said that the master you invited is you. This is great, there is a copy you can definitely live by."

Lu Yang said, "Where I come is to help give it a try."

Late twilight haha said with a laugh: "Brother Lu Yang is humble. Come, let me introduce you to the main force of our guild."

He waited for Lu Yang to come in front of him, pointing at the two soldiers and two mages around him and introduced: "I will not talk about you before seeing the breeze. These two soldiers are Silver Wolf and Jun Zhantian, respectively. They are the bosses of the top domestic studios. These two beauty mages are Silver Light Dance and Luo Siyu, and they are also the bosses of the studio. "

Lu Yang said, "You have a lot of elites."

The old man is most proud of this, he recruited the most when competing with several other consortia for top studios.

He introduced the four to him: "This is Lu Yang, the best player in the ranking."

Silver Wolf and Luo Siyu and others frowned at the same time and looked at Lu Yang. They did not welcome the arrival of Lu Yang.

They can't get a copy of them, they will naturally think of a way, but now Twilight has found an outsider to come in ~ www.mtlnovel.com ~ apparently do not trust them.

"Chairman, what do you mean?" Silver Wolf took the lead and Lu Yang was able to come in and be replaced by Silver Wolf's younger brother.

After a moment of twilight, I did not expect such a great response from his men, and asked, "What's wrong."

Silver Wolf said dissatisfied: "What is the use of this person, can the copy be replaced by another person?"

Jun Zhantian said: "I mean the same thing, and you should discuss with us first if you come in as an outsider."

Late evening showed a standard smile, he knew that these people had their own arrogance, and did not want to make the copy as an outsider.

"Sorry, everyone, I made my own claim this time, but you also know that the goal of our guild is the largest guild in the world. For this purpose, you are wronged for the time being, okay."

Silver Wolf said coldly, "No."

With a smile on her face, Qi Mu asked, "What do you say then?"

"I tried with him. It wasn't a fight against him. He could stop me for 1 minute, and I counted him win." Silver Wolf said.

Lu Yang hesitated and typed in the spirits Qingfeng around him and asked, "Did your boss show him my video, where did he have the courage."

Liquor Breeze quietly typed and said, "Don't ask, there are a lot of things involved here, you will know later."

Chapter 87 - Singled out

Lu Yang slightly realized that this might be a problem within the guild. He took a closer look at the silver wolf and the annihilation of the war. Suddenly, he recalled that the guild in his old age seemed to have a major rebellion. It is these two men who take the lead.

At the beginning of the game, in order to get up as soon as possible, Chi Wu gave excellent conditions when recruiting elite studios, and also gave many other guilds the unwillingness to leave, so that Silver Wolf and King War later Mie Tian did not hesitate to betray the twilight when other consortia gave more favorable conditions.

As for how Lu Yang was later, it was unclear, because at that time he was still an unknown little pawn, and he didn't know anything about the upper level of the game.

"Boy, what about you, dare you single out with me." Silver Wolf asked with his axe at Landing Yang.

Lu Yang was thinking about the matter just now. He didn't notice the question from Yin Lang. He looked at the old man, and typed and asked, "What should I do?"

Chi Mu sighed and said, "Compare it. In this way, the two sides apply for a fair duel and they can't lose experience."

Silver Wolf sneered and said, "Yes, I just want to test his jealousy, and I don't want to make the boss embarrassed."

Lu Yang said: "I am casual, so I add a condition, Silver Wolf, if you can hit me within 1 minute, even if you win."

"What?" Everyone around was stunned, and even brought in more than 10 members around him.

Luo Siyu Meimu looked at Lu Yang carefully and said, "Don't underestimate the silver wolf. His position on the ranking list is 19, which is not too bad for you."

Liquor Qingfeng also said in a hurry: "Master, this is not fair. Silver Wolf has a lot of skills and it is easy to hit you."

Lu Yang laughed and said, "It doesn't matter, it's just fun. If it fails, I will live up to the expectations of the late boss, and I will quit."

After speaking, he initiated a duel application to Silver Wolf.

There was a smirk in the corner of the silver wolf's mouth, and he took the huge axe in his hand and walked to 30 yards of Lu Yang, saying, "This is what you asked for."

Lu Yang said, "It's useless to say more. See the real chapter under your hand."

"Okay, then I'll see how you can't be attacked by me within 1 minute." During the talk, Silver Wolf launched an attack on Lu Yang. At the same time, Silver Wolf raised his two-handed axe high. If his charge hits Lu Yang, falling axe can cause 1.5 times damage.

Obviously, Silver Wolf is also a player who has started free combat, and has already seen the door.

However, in Lu Yang's eyes, like a child's play, he could avoid the charge of the Level 30 Lord Monster Skeleton Tyrant, not to mention this silver wolf.

He watched as the other came with a phantom charge, just as the silver wolf was about to hit him, the white light flickered and disappeared in place.

Silver Wolf seems to have known this for a long time. The charge didn't hit. Silver Wolf immediately looked for it. At the same time, it was ready to launch a second charge interception.

But when he looked around, he found that Lu Yang was standing 4 yards behind him, which happened to be within the minimum distance that Silver Wolf intercepted.

The silver wolf stopped in place. After 1 second, he reacted. He only ran 2 steps forward. The two-handed axe was a long-handled weapon, and he could hit a distance of 2 squares. But he went forward and Lu Yang stepped back. , The distance between the two is still 4 yards, the silver wolf still can't hit him.

Silver Wolf couldn't find a chance and immediately ran backwards, trying to pull away from the charge, but he ran backwards, and Lu Yang ran forward.

Silver Wolf ran more than 10 steps and found that the distance between the two was still 4 yards. This time the Silver Wolf was stunned. He tried to stop and turn to attack again, but Lu Yang stopped and evaded as if he was within milliseconds. Always return without success.

The confused look on Silver Wolf's face showed Lu Yang's unsmiling smile, but at this moment, the silver wolf's expression suddenly appeared sloppy.

"A heroic leap, I see how you can hide."

The silver wolf jumped up suddenly and jumped towards Lu Yang with a distance of 4 yards. This is the third skill of the warrior restraining mage, but the book explosion rate is extremely low.

Lu Yang didn't expect that Silver Wolf had this skill, but he wasn't afraid at all. Suddenly, Lu Yang took two steps to the right, and avoided the attack of Silver Wolf.

The Silver Wolf did not expect that Lu Yang could escape in this way, and immediately after landing, he raised his axe in both hands and hit the ground.

“Thunder Shock”

Within 3 yards of the silver wolf's feet, a white crack appeared on the ground. Lu Yang saw that the silver wolf raised his axe and knew that he was going to release this skill. Then he easily escaped the silver wolf's attack.

In just ten seconds of battle, the surrounding players watched breathlessly, Luo Siyu and Silver Qingwu looked at Lu Yang with surprise, they did not expect that Lu Yang's strength was so high.

Silver Wolf also did not expect that at this time all his long-range attack skills were used up, and the CD time exceeded 30 seconds, that is, within 1 minute, he no longer had long-range attack skills. Immediately, Silver Wolf's eyes There was anger in him, and he felt like he was being shamed this time.

At this moment, the old man in the twilight suddenly laughed and applauded to the two of them, saying, “The fighting between the two is really wonderful. It is better to end here, presumably the silver wolf has already tried Lu Yang's Shallow depth, let 's make a copy. Do n't let other guilds grab the lead. www.mtnovel.com ~ Silver Wolf looked at the twilight. He knew it was twilight. He gave him the steps and put away his axe. : “I heard the chairman arrange. “

Lu Yang naturally had no opinion and said, “Of course, I came here to make copies.”

Everyone was relieved when they heard Lu Yang said this. They were really afraid that Lu Yang would not choose to continue to fight in the face of twilight. In that case, the silver wolf would be ashamed.

The old man in the twilight and the breeze of spirits both expressed their gratitude to Lu Yang. The silver wolf's look at Lu Yang also eased a lot, and Luo Siyu and others saw Lu Yang even more favorably.

Luo Siyu stepped in front of Lu Yang and said, “Master, I am also a fireman. Can you guide me when you are free?”

Luo Siyu is a big beauty, and she has a beautiful figure. She stands in front of Lu Yang and speaks with a coquettish tone, so that the players around can't help but look at it.

However, Lu Yang knew the beauty of this beauty. The famous “killing silent” Luo Siyu from the last generation was not a white name, and he did not dare to judge by appearance.

“It’s an honor, but I’m also a beginner. If we have the chance, we will love that discussion.” Lu Yang said.

“That’s it.” Luo Siyu was very satisfied with Lu Yang’s answer.

Silver flying dance also came over and said, “And me, masters can’t be as good as others.”

Lu Yang laughed and said, “It must be.”

Chapter 88 - Heartfelt

Silver Wolf was awkwardly standing in place, he did not expect his two allies to betray him so quickly.

The spirits breeze saw the problem and said, “It’s better that we go to the boss first, and while everyone’s enthusiasm is there, we beat the boss in a rush.”

He said with a smile on his face: “After that, we will give the command to the brothers Lu Yang. Let’s cooperate sincerely and get rid of this boss.”

Now let Lu Yang come to command. No one in the regiment is dissatisfied, and the silver wolf can’t let go of the trouble before looking for Lu Yang. Luo Siyu and Silver Light Dance also admire Lu Yang. Although Jun Lin destroyed the sky, he was not convinced, but he could only nod in agreement.

Lu Yang said, “Well then, I’ll do my best to take everyone to play this boss. Let me first say, if I command wrong, you will call me a copy, but in the copy, everyone must listen to me.”

The crowd did not object, but Luo Siyu and the silver light dance looked at Lu Yang's eyes more brightly.

Lu Yang couldn't stand the eyes of the two, and turned his head to ask Du Mu, "Where is the copy now?"

Twilight said, "It's the first year we have cleaned up the mobs in front of him."

Lu Yang said, "Okay, let's go to the first one. When you're on the road, tell me that you can't beat the difference."

"Okay." Late twilight explained the reason to Lu Yang on the road. When playing Boss within 5 minutes, the boss would release a full-screen attack and kill everyone instantly.

Lu Yang clicked the team template to see the number of viewers, and 10 of them were fire methods.

"Yes, there are a lot of people in the fire method, so it's better." Lu Yang said.

Chi Mu said: "The purpose of my coming to you is because there are so many fires in my hand, but no one will burn. Brother, how can this skill burst out, how can it be so difficult to obtain."

Lu Yang laughed. The skill book of this game was hard to explode, not to mention that only the young golden dragon exploded in the level 10 map. The golden young dragon was also lucky to be killed, and no one else had a chance.

"This is a hidden task, I only hit it by accident." Lu Yang said.

At this point has come to the boss, this is an undead warrior wearing plate armor and holding a two-handed sword.

Bart Kanter

Level: 10

Qi and blood: 150000/150000

The castle of the night was originally the castle of the Duke Yuris of the Fars Empire, the predecessor of St. Gall. Unfortunately, the castle was breached during the war, and the Duke's family and his subordinates were all killed.

After the Duke and his soldiers were killed, he was resurrected by an undead mage. The Fars Empire should have been sent to annihilate, but at this time the Fars Empire was broken by King Garr and replaced by the dynasty. This castle was forgotten in the mountains.

The old Baron Kanter in the copy was originally a light cavalry captain under Duke Ulysses. He did not have any special skills and could pass by a mammoth.

Lu Yang said: "Everyone is ready, Qingfeng listens to my instructions to open the monster."

Luo Siyu showed a surprised expression and asked, "Don't think about the position or something?"

Lu Yang replied with an indifferent expression, saying: "This boss is simple. You can just follow my instructions to fight monsters."

Everyone: "..."

Luo Siyu felt that Lu Yang had something to say. The so-called simple boss in his mouth had killed them four times. However, since he had agreed to be the conductor, Luo Siyu was not good at this time and rejected it immediately.

Junlin Mietian and Silver Wolf also had the same idea. The other members of the group also felt dissatisfied with Lu Yang. They were the first time they saw a commander saying so casually when he was playing a boss.

Liquor breeze feels normal, because if it is really difficult, Lu Yang would not say so.

“Master, do I need to turn my back on the mob?”

Lu Yang said, “Of course, pulling monsters on your back is a must, otherwise the mage won’t be easy to hit. The five treatments in the regiment only look at the breeze. Don’t add blood, open the monster.”

“Good grin.” Liquor Qingfeng rushed towards the boss, then pulled the boss and turned around.

Lu Yang said, “Don’t rush out. Everyone waits for the breeze to go through three layers of nail-breakers before hitting. The five treatments only look at the breeze, and others don’t care.”

This is the basic common sense. Silver Wolf and others all know that after three layers of armor breaking, Silver Wolf and other melees rushed up.

Lu Yang continued: “The mage player stopped and waited for my shout to output, and Qingfeng continued to deepen his hatred skills.”

“Okay.” Liquor Breeze is the main MT of the guild. He has six anti-war hatred skills. Whenever his rage is enough, he uses it immediately.

Luo Siyu and others watched that the time had passed 30 seconds. Lu Yang had no instructions yet, and the masters were a little anxious.

“Master, don’t you let us fight? Be careful not enough time.” Luo Siyu said.

Lu Yang didn’t say anything. After the spirits and breeze used the hate pulling skill three more times, he chanted a spell in his mouth and burned the boss every 1.5 seconds. After 7.5 seconds, Lu Yang said: “All the mage Full output, breeze, now it depends on whether you can pull the hatred. “

“Rest assured, I didn’t ...” Liquor Qingfeng didn’t wait to say the last two words, and saw a ball of fire hitting the boss’s head precisely.

“928” (Critical)

“I’m dizzy.” Lie Qingfeng hurriedly shouted, “Master, tap, the output is too high.”

The silver wolf is outputting with full force. He was still curious why Lu Yang didn’t fight, but when he saw the injury that Lu Yang hit, he took it.

Because the total blood volume of Silver Wolf is not enough for 500 points. Obviously, just now Lu Yang said that letting him shoot freely within 1 minute was intentional to let him. If Lu Yang just output when he PK with him, Lu Yang does not need to dodge , Standing two fireballs could kill him, maybe a crit would also solve him, which made Silver Wolf feel very ashamed.

Luo Siyu and Silver Qingwu looked at each other and saw the surprise in each other’s eyes. They never thought that Lu Yang’s output was so high.

In fact, Lu Yang ’s output can be even higher ~ www.mtlnovel.com ~ Because he just used fireball, not Pyroblast, and he deliberately slowed down his thoughts so as not to expose himself to instant spells. The speed of the spell.

Lu Yang said: “Breeze doesn’t have to worry about my hatred. I have the equipment to reduce hatred. Others don’t stand stupid and output with all their strength.”

Luo Siyu and others showed embarrassed expressions at the same time. They were really scared by the output of Lu Yang.

Ten mages used fireball at the same time. In a blink of an eye, 10 fireballs hit the boss’s back at the same time.

“257” “254” “251” ...

More than 250 points of damage emerged from the boss's head, and Luo Siyu and others were stunned.

"Why is our output so high?" Luo Siyu asked.

Lu Yang said: "This is the effect of my burning skills. Breeze, if you feel hatred is unstable, say a word, I will let everyone stop output."

"Oh, okay." Spirit Breeze said.

Everyone in the whole group is not worried about whether the boss can pass. They all understand the significance of calling Lu Yang late, and no matter how high the output of Lu Yang, this burning skill alone is equivalent to more. The output of 10 fire methods is also higher than the output of the mage in the regiment.

A copy of 20 people has become a 30-player fight. It is too easy for an elite group like them to want to fight.

Chapter 89 - The favor of the last life

In just one minute, Lu Yang hit a total of more than 60,000 injuries in 11 fire methods, including that they were worried that the hatred was too high, and that the breeze could not hold the monster and slowed down the output speed.

"It's too easy for Lu Yang to hit the boss." Luo Siyu said easily.

Silver Light Dance said, "Yeah, it's much simpler than when we played before."

While talking, the silver light dance fireball hit the boss, causing a critical strike effect.

"526"

"I'm dizzy." Liquor Qingfeng looked at the boss and was about to turn around, and hurriedly mocked the thunder to attract hate, and it took a lot of effort to attract the boss' hatred back.

"Beauty, you lightly, I can't pull it anymore." Liquor Qingfeng suddenly turned her head and turned her neck to look at the silver light dance, which was simple for others and a torture for Liquor Qingfeng.

"Ah, I'm sorry." Silver Qingwu spit out his tongue playfully. His crit chance is less than 10%. The crit chance is not high. It is an accident to hit the crit.

"Well, all blame Lu Yang. His skills are too strong, and our output feels boring." Luo Siyu said.

The silver light dance and other mages nodded together, clearly an epic boss, so that Lu Yang's boss became a regular boss.

Lu Yang laughed. It was not easy to do this. Thanks to the +1 effect of the Devil's Heart skill, after burning became level 2, he increased 150 fire damage, which is especially great for the fire method.

"Well? Lu Yang's output is more than 500 every time. What is his hatred-reducing equipment? Why doesn't it seem that there is no hatred?" Luo Siyu asked.

Lu Yang wouldn't tell him about this. Spore's cloak is too significant for the player. Except for his gang members, he wouldn't say it.

"This is a secret." Lu Yang said.

"Cut ~~~" Luo Siyu and the silver light dance are selling adorable.

Unfortunately, Lu Yang didn't get fooled or look at the expressions of the two. He said to everyone: "There are only 20,000 points left in the blood of the boss, and all the mages stop for 10 seconds to stabilize their hatred."

Baron Kanter is best known for his attack power. Except for Lu Yang, no mage can resist his attack. Once the hatred shifts, the mage team may die instantly.

Luo Siyu and others also knew that they stopped and waited. After 10 seconds, everyone output again.

After 10 seconds of breathing, the spirit breeze has steadily caught the strange hatred. Even if the silver light dance hit two consecutive crit, it did not produce the hatred shift.

The output of Lu Yang was even more relaxed. Soon, the boss was killed by them on the ground, and a level 5 silver dagger burst out.

"It's out, who is it for?" Lu Yang asked.

"I, I, I." A thief-like player ran over.

"This is the Elder Hidden Knife of our guild," the elderly Elderly introduced.

Lu Yang knew this man, a veteran of the guild who founded the guild together with the twilight, and the 80s of the last century.

"I'm all 7th level, I finally have 5th level silver weapons." The hidden sword was extremely excited.

Lu Yang laughed, gave the weapon to the hidden knife, and said, "Everyone restore it in place and we continue."

After a two-minute break, the crowd continued to move forward. Compared with the expert level, the epic version has not changed much, but it has a strange amount of blood.

Lu Yang deliberately did not go to the command team too much, and let the members of the regiment output according to the way of playing expert books, so that people would not find that he had played this copy before, so as not to cause unnecessary suspicion.

People like Luo Siyu and Silver Wolf were observing Lu Yang along the way, but they all had their own pride. Lu Yang helped them to make copies and aroused their excitement. They just thought that their equipment and skills were worse than Lu Yang. , Do not think that the technique is worse than Lu Yang, so they played very **** this way.

From the gate of Yongye Castle all the way into the castle hall, met the second boss-butler Afrey.

Afrey

Level: 10

Qi and blood: 80,000 / 80000

With a beard and a face, a tall butler of about 2 meters, Afrey was an lieutenant of the army of the Duke of Ulysses. The weapon in his hand was a double hammer. After turning into an undead, his appearance did not change much. A butler suit, but the skin is a little dark.

Liquor Breeze came to Lu Yang and introduced: "Master, we almost didn't hit Afrey when we hit the expert. He has 4 skills, one is evil strike, the damage is increased by 100% and the target healing is reduced. Effect 50%;

The second is to summon the undead maid. The maid ignores the pull monster skills. If it is not destroyed, it will be more and more, and the attack power is very high. The third skill is disease pollution, which randomly causes pollution to players in a certain range. It drops blood at 80 points per second for 5 seconds. This skill is very pit, and it is often released with evil forces. The treatment is very laborious. The skill is to add blood, and every time he loses more than 10%, he will release the blood addition skill to himself. "

Chi Mu asked: "The hardest thing is the disease pollution skill. Epic was afraid that it would lose about 120 points of blood every second. The regimen's treatment is not enough. I need to change it."

The wounds to be treated are around 70 points. If you add skills, you can add more than 90 points of blood. Afrey's evil strike can knock down more than 400 damage. The treatment can only be used to

rescue the strong spirits. Time Afrey uses disease pollution, any other non-defensive occupation is undoubtedly dead.

If it was before, they would not dare to touch this boss, because there is no treatment and no blood, and there is no output to fight the undead monster. Now with Lu Yang, they can swap out several mages.

Both Rose Rain and Silver Light Dance were a little uneasy. Although they understood this, they didn't want their men to be replaced.

Lu Yang said: "I don't need to change the treatment to come in, I also have the ability to add blood."

"Ah, you will add blood too?" Luo Siyu asked in surprise.

The old man at the twilight and the spirits Qingfeng also looked at Lu Yang in surprise.

"Brother, you are a hidden profession." Old Man asked.

"no."

"Then how can you add blood skills?" Asked the captain of the priest team invincible commandments.

Lu Yang shrugged his shoulders and spread his hands, saying, "My apprentice gave me a healing ring, which can release a first-degree cure. I am injured by 247, so I can add MT."

Everyone: "..."

Silver wolves and others almost spit out old blood and hurt 247. This also let others play. They were no longer jealous, but desperate.

Luo Siyu's beautiful eyes came to Lu Yang in front of him and asked, "Master, can you tell us how your legal wounds became so high?"

Silver light dance and other legal professions came together, and the old man also looked at Lu Yang.

Lu Yang took a look at Luo Siyu, a smile appeared on the corner of his mouth, and said, "This thing has to start with the hidden task I did."

"Hidden tasks?" Everyone's eyes shone, but every hidden task represents a great benefit.

Lu Yang nodded and said: "Yes, it was a hidden task. I met an old man in the city. The old man told me that this hidden task is ~ www.mtlnovel.com ~ You must not tell a person named Luo Siyu. People. "

"..."

Everyone was speechless.

Luo Siyu's small face flushed suddenly, and a pair of beautiful eyes stared at Landing Yang. "Dare you lie to me."

Everyone laughed. It was the first time they saw Luo Siyu show such an expression. Obviously, Luo Siyu was really angry.

Lu Yang smiled, but he secretly sent a message to Luo Siyu.

Seeing this news, Luo Siyu lost his eyes, and then said, "Forget it, this girl doesn't know anything about you today."

Liquor Qingfeng and others were surprised, but Luo Siyu was usually a well-known ghost, and now he was not resisted by such a great grievance.

Liquor Qingfeng asked, "Master, you are really my idol, how did you do that?"

Lu Yang said: "Beauty adults have a lot of shackles, let's go fight."

In fact, Lu Yang told Luo Siyu a secret mission clearance method in private. The reward was very generous. In the last life, Luo Siyu became the city owner in the late evening. He once helped Lu Yang once, but also played him once.

Lu Yang avoids Luo Siyu also because he was a little depressed by Luo Siyu at that time, otherwise he would not be indifferent to a big beauty like Luo Siyu. This time teasing him is like revenge for his elder life. "As long as telling him to hide the task, it can be regarded as repaying her favor.

Chapter 90 - Avery's Rage

A group of people came to the place 50 yards from Avery, Lu Yang began to allocate a station, the distance between people is 5 yards, every three players form a small triangle, and all remote occupations form an arc.

Lu Yang was standing in the middle of the arc, standing in front of him was the spirit breeze.

"The breeze ran over to open the monster, and the others were waiting in place. After the boss arrived, the breeze had the monster back to us." Lu Yang said.

"Okay." Liquor Qingfeng ran to charge and blame, pulling the boss to a position 30 yards away from Lu Yang and others, and then let the boss back to everyone.

Lu Yang shouted: "Full output, the priest looks at MT, others are infected and I will be responsible for adding blood."

After 5 consecutive layers of burning, the output damage of 10 fire methods such as Roth Rain appeared again. In less than 1 minute, Afrey's health dropped to 60,000 points, during which Afrey wanted twice. Add blood, were interrupted by Lu Yang with countermeasures.

"Damn invaders, I want you to be punished." Afrey's twin hammers glowed with black light, and at the same time he lifted up into the strong breeze.

"574"

"Add blood," shouted the spirits Qingfeng.

Five priests added healing to the spirits breeze at the same time, but the healing effect was reduced by 50%. Five people only restored spirits breeze to more than 200 qi and blood.

Just as they released the cure, Afrey had a green light on his body, and the three mages around Lu Yang were contaminated by the disease at the same time.

"-100"

"I'm going to die, the damage is too high." A mage player shouted, his total health was only over 200 points, and he would be dead in 2 seconds.

The other two mage players also shouted, but just here, Lu Yang raised his hand and hit three consecutive cures on them.

The three of them saw their qi and blood go up and down for a while. They were very nervous. After 5 seconds, the three saw that they were still full of blood, and they were relieved.

"Thank you very much," said the three gratefully to Lu Yang. They will lose 10% of their experience when they die, which is very uncomfortable for them.

Lu Yang said: "Concentrate on fighting monsters and hurry him to the second stage."

"Okay." The three nodded and output with full force. After 1 minute, the boss entered the second stage.

"Come out, my slave, kill these **** invaders for me." Eight white ghosts flew from Afrey's body, and floated towards the player after landing.

Lu Yang shouted, "All long-range professional attacks on ghosts, look at my burning mark output, melee continues to output bosses."

Each white ghost has 8000 blood and an attack power of more than 80. Their attack method is to release the white rays, which will produce refraction after hitting the player, which can refract 4 units in total.

The melee is thick and can withstand temporarily, but the long-range is not working. Once two or three ghosts fly to the long-range side, one attack can kill 4 long-range occupations.

Liquor Qingfeng and others have a headache when they see these ghosts. They almost didn't pass when they were experts. The reason is that they started to get busy.

On the one hand, the ghosts have more blood than they die, on the other hand, after the ghosts approach the player, they need to disperse and avoid to be refracted, so that the player's output will slow down.

Afrey releases evil strikes and disease pollution at any time. Once they are disturbed by the ghosts, they will definitely destroy the group when Afrey releases his skills.

Lu Yang also knew this, but he didn't worry about it. There were only eight ghosts with 5000 blood, and he burned the ghosts with the fastest speed.

He just burned, and immediately changed to a ghost after 5 layers. After 10 fires such as Luo Siyu were burned with 5 layers, he could deal more than 2500 damage in one attack, and he could kill 1 in 5 seconds. Just a ghost.

In this way, in less than 40 seconds, all eight ghosts were killed. It happened that Afrey once again raised his double hammer to release evil forces and disease pollution.

“No, the disease is polluted in me.” A priest player shouted.

Everyone thought that this boss move would be okay, so it was unexpected that the boss chose 3 priests as the goal this time.

The three priests immediately panicked, and used the healing technique to add blood to themselves. As a result, the evil power of Afrey hitting the spirits and breeze dealt 566 first damage, followed by the second ordinary attack. Smashed it down.

There are more than 700 qi and blood in the strong liquor breeze. Once hit, it will undoubtedly die. Lu Yang is adding blood to the priest. When he sees the priest adding blood to himself in a panic, he knows that it is going to be bad. The second attack of the boss is about to fall. For a moment.

A flash of white light appeared on Lu Yang’s body in front of the spirits Qingfeng, changing the attack mode to all attacks.

“Resistant Fire Ring”

Liquor Qingfeng found that the treatment did not add himself, and he closed his eyes, but suddenly a huge thrust came from his body. He couldn’t help but step back more than 10 steps in a row. It happened that the moment he retreated, Afrey smashed with two hammers.

“MISS”

Afrey didn’t expect that he would miss it, and chased after the strong wind.

Worried about the instability of Liefeng Qingfeng’s hatred, Lu Yang immediately shouted: “Everyone stopped exporting, the priest returned to add blood to Qingfeng, and the three layers of Qingfeng’s armor broke to establish hatred.”

Liquor Qingfeng did not expect that Lu Yang could save him under such circumstances, and he roared excitedly.

“Look at me.”

Watching that the boss was 8 yards away from him, Liquor Qingfeng launched the second charge interception and rushed to Afrey with a phantom.

Old man in the twilight, Luo Siyu and others thought that this time they would destroy the regiment, and they were ready to give up, but when they saw Lu Yang’s operation ~ www.mtlnovel.com ~ everyone had a kind of madness a feeling of.

What is the reaction speed to achieve this, and Lu Yang resisted the ring of fire just now, and they did not know whether it was intentional or unintentional. Not only did it crash into the strong breeze, but also all other melee players. The collapse collapsed and retreated, just to let them avoid the shock of hate shift caused by the sudden loss of the boss.

“This trick is so handsome, everyone, come on, we can fight this boss.” Luo Siyu encouraged everyone.

Members such as Yin Wolf and Jun Lin Mie Tian also admire it. With a team commander like Lu Yang, this boss is not a problem at all.

Suddenly, the team’s momentum increased, and everyone’s output was extra hard. After 2 minutes, Afrey’s health was reduced to 30%.

“Invaders, you irritated me.” Afrey’s body suddenly turned red.

“No, he’s furious.”

“No, the experts weren’t violent this time.”

...

The team is turbulent. The fury of bosses will bring extra strength and speed. Their confidence in playing bosses has been greatly reduced.

“Damn it all, give it out, kill these enemies for me.” 24 white ghosts suddenly appeared behind Afrey.

“Not good, you can’t beat it. Why are there so many ghosts?” Shouted Jun Lin Mi Tian.
