

Chapter 821 - Killing board

Zhang Chao stretched out his hand and said to Lu Yang with a smile, "You can rest assured that your safety is absolutely fine with me."

Lu Yang shook Zhang Chao's hand and said, "Trouble Zhang."

"Let's not be polite with him, let's eat first."

Lu Yang nodded and followed the two to the restaurant. After having a brief dinner, he returned to the room. Lu Yang sent a message to a strange number. Did you eat dinner?

After 12 pm, Xue Yiming called and said in a low voice, "Boss, are you here?"

Lu Yang said: "Just arrived, what's going on with Wang Teng and Liu Jie?"

Xue Yiming said: "When Wang Teng just returned to Liu Jie, he gave Liu Jie a violent meal, but he was not fired. In the past few days, I learned that you were coming. Wang Teng offered to kill you for revenge. He didn't speak, just let him go and let him go home and have a good rest. "

Lu Yang sneered and said, "This Liu Jie is so good at planning. Even if Wang Teng's killing of me is exposed, Liu Jie can get rid of all charges."

Xue Yiming said: "That's right. At present I haven't got the full trust of Liu Jie. I'm not involved in this matter. I only know that Wang Teng took 2 people away and they both brought guns."

Lu Yang said, "I see. Who are your main competitors now?"

Xue Yiming said for a moment and said, "What are you going to do? My current competitor is a master. He controls a guard in Liu Jie's hand, called Li Ping."

Lu Yang asked: "Who is his opponent?"

Xue Yiming said: "It's Liu Jie's bodyguard Skyfire."

Lu Yang said, "I'll get rid of this Li Ping."

"What are you going to do?"

Lu Yang said: "Simple, just intentionally appear in front of Skyfire."

Xue Yiming blinked and said, "I don't understand."

Lu Yang said: "If I can appear in front of Tianhuo, Tianhuo must tell Wang Teng that as long as I can fight against Wang Teng, Tianhuo is the first suspect. After all, how could I appear in front of him so coincidentally?"

Xue Yiming nodded and said, "What does that have to do with Li Ping."

Lu Yang said: "There is a theory in criminal psychology called vested interests who are criminals. This theory is often used to solve cases. If they cannot find the reason why I can appear in front of Skyfire, and Skyfire is loyal enough, then they The direction of the investigation will be if Skyfire falls, who can replace him, and if it is Li Ping, then Li Ping will definitely be out. "

Xue Yiming said: "It makes sense, but how do you know where the sky fire is, the magic is so big."

Lu Yang said: "Do you think I'm just a game player, here is the Magic City, I know all the home addresses and personal preferences of Liu Jie's generals, and find them the same as playing."

Xue Yiming took a breath and said, "You are terrific."

Lu Yang said: "From now on, unless you have a special emergency situation, you should not contact me. Remember, don't let yourself be involved in this matter."

"The boss is assured, I know how to do it." Xue Yiming said.

Lu Yang closed the intercom, called Ling Zhitian, and asked, "Help me find a person called Skyfire. I want to know where he is now?"

Lexus said: "10 minutes."

In his early years, Leo Zhitian was a famous sister-in-law. They had very extensive connections in their circles, and were anxious for justice and willingness to spend money. What he wanted to check was just a phone call.

Soon, Lexus found the home address and all personal information of Skyfire. Lu Yang called Black and White and asked them to find Skyfire according to the photos and information sent by Lexus. It stands to reason that Skyfire should play outside at this time. .

Within two hours, Black and White and others found Zheng He Skyfire in a KTV. Black and White called Lu Yang and said, "Boss, this kid is making a girl in Ktv."

Lu Yang said, "I'll be here and be optimistic about him."

After closing the phone, Lu Yang taxied to this Ktv, opened a private room opposite this Ktv, let the black and white hide out, and he and the two men played inside.

“Brothers, go over Wang Teng, then go over Liu Jie, and do him XX.” Lu Yang shouted loudly using a microphone.

He deliberately opened the door so that Black and White opened the other’s door while the other party was not paying attention. Skyfire heard Lu Yang’s voice for the first time, and he came out in anger, as soon as he arrived at the door. Looks like Lu Yang.

As Liu Jie’s bodyguard, Tianhuo knew too much about Lu Yang’s appearance, and he recognized it at a glance.

Lu Yang seemed to be on his head, looked at Tianhuo and ignored him, and continued to sing and shout loudly.

Ten or more boys who followed Tianhuo looked at Tianhuo at the same time, and someone asked, “Boss, make him not.”

Tian Huo glared at him and said, “Fuck, be honest, no one is allowed to move. No one is allowed to talk about today’s things. Just roll aside and see this layer. I’ll make a call. Dare to disturb Lu Yang, I will kill you.”

Ten of the boys knew Tianhuo’s temper, and all of them lowered their heads in fright and went to the stairs to guard them.

Skyfire returned to the room, took away all the waiters, called Liu Jie’s phone, and said excitedly, “Boss, I saw Lu Yang at Ktv.”

Liu Jie was resting in the villa. In fact, he was waiting for Wang Teng’s news. He heard Tianhuo’s phone call and Liu Jie yelled angrily: “Are you **** sick? Call me what this call is, you **** think Don’t want to do it.”

Skyfire responded, and apologized. He was relieved when he heard the beep, and quickly called Wang Teng’s phone, saying, “Wang, I found Lu Yang.”

Wang Teng is ambushing outside the official hotel arranged for Lu Yang, but he has been ambushing for more than half a day. He still does not see Lu Yang appearing. When he heard the sky fire, Wang Teng frowned and said, "Where you see it, you wo n't Let's go. "

Skyfire said: "It's impossible to look away. He's in Ktv, still yelling at our guild, and he'll kill Jie Shao if he kills you next."

"I'll be here." Wang Teng's anger suddenly stunned, and took 2 men to the Ktv where Luyang was.

Both black and white men, all top-level special forces, were lying in the ambush of Ktv. When they saw Wang Teng getting off, they called Lu Yang immediately.

"It looks like we should go downstairs," Lu Yang said.

Black and white sneered, bishǒu Hanguang flashed in his hand, and led the other brothers out with Lu Yang.

Bypassing the back door of Ktv, Lu Yang let the black and white spread out. He walked on the outside road by himself. At the same time, he called Zhang Chao and said, "Zhang, I've been spotted. I suspect it is Liu Jie, please send someone to protect me. "

Zhang Chao just came home to rest, heard Yan Yan sat up and said, "Where are you?"

Lu Yang sent his coordinates to Zhang Chao, and Zhang Chao immediately issued an order to the two policemen who had met with Lu Yang to help.

"Boss, Wang Teng came to the back door with someone." One of his men called Lu Yang and said.

Lu Yang looked back at the back door. The moment the door opened, Wang Teng's appearance was exposed. Under the street light, Lu Yang and Wang Teng looked at each other.

"Lu Yang, it really is you." Wang Teng shuddered and roared, "Catch him."

Two people appeared from behind Wang Teng and ran towards the landing sun.

Lu Yang turned and ran away. The sound of a fire ox came from the headset. He was the black and white deputy captain.

“Boss, run to the right. The roads there are complicated and you can get a lot of time.”

There is a laptop in the hands of Huoniu. A small drone camera is just above Lu Yang’s head in the sky. At the same time, his laptop has a complete map of the surrounding terrain. Lu Yang is waiting inside. At that time, Huo Niu used a drone to make a good survey. He could let Lu Yang and Wang Teng go in circles for three hours without any problems.

“Brother Zhang, is really Wang Teng. He is going to kill me. He has a gun in his hand.” Lu Yang called Zhang Chao and said.

Zhang Chao originally thought it was not a big deal. He was anxious when he heard that there was a gun. “I will send more staff immediately.”

Lu Yang sent the positioning to Zhang Chao and said, “They’re chasing me. Hurry up.”

“噤”

A gunshot appeared behind Lu Yang, and Wang Teng was anxious to see that he could not catch up with Lu Yang. When he saw Lu Yang’s back, he fired.

“Damn, I dare to shoot.” Zhang Chao heard clearly. Even if the other party’s qiāngzhī had *, the sound of bullets hitting the wall, Zhang Chao, an experienced policeman, stopped.

“What now?” Lu Yang asked.

“Hurry up, my people will arrive at the scene in 5 minutes at most, you must hold on.”

Lu Yang said: “I must hold on.”

After speaking, Lu Yang closed the phone, called another black and white, and asked, “Are you ready?”

Black and white held a * and said, “Ready, if you are in danger, I will kill him first, but are you sure you want to do this, it is still too dangerous.”

Lu Yang said: “Wang Teng must die Where does Wang Teng know that Lu Yang came here to kill him, and thought he had found a chance to kill Lu Yang, chasing Lu Yang frantically.

Seeing Lu Yang turning into the corner and chasing after him, when he saw here, all he saw was the shadow of Lu Yang avoiding.

“Follow them separately. The two of you go to the left and right, and meet me to control him. I will torture him to death.” Wang Teng roared.

The two killers nodded and left and left to separate, but just when they ran into the intersection on both sides, they were attacked unexpectedly, and each was stunned by black and white men and dragged into the car.

“The mission is completed, boss, there is only one person left.” Black and white received a report from his men and said to Lu Yang.

Lu Yang glanced back at Wang Teng, who was almost exhausted, and said, “Throw them to the river, watch the camera carefully, don’t let people see it.”

When the phone was closed, Lu Yang shattered the phone card of the phone and threw it into a trash can. The phone was thrown into another trash can.

Chapter 822 - Wang Teng is dead

Lu Yang looked back, Wang Teng chased him again, and Lu Yang shook Wang Teng away in the middle of the crossroads of a house and hid.

Wang Teng ran to the crossroads and looked around, but did not find Lu Yang. He called his two men, but found that the two men's phone could not be connected.

"Damn, where are you going, why don't you answer the phone?" Wang Teng put the phone back into his pocket angrily.

At the crossroads, it seems like a village in the city. During this period, few people's homes were lit, and there were no street lights around. Only Moonlight could make him barely see the surrounding environment.

"Wang Teng, are you looking for me?" Lu Yang's voice floated from a distance.

Wang Teng frowned, looking around with a gun, but couldn't find the source of his voice. He gritted his teeth and cursed, "Lu Yang, come out for me, I will kill you."

Lu Yang said, "You are going to kill me? How brave you are, you even want to kill."

"I won't let you go. I must kill you. As long as I kill you, I will regain the trust of Jie Shao, and I will kill you." Wang Tengzhuang cursed wildly.

Lu Yang sneered and said, "Yeah, you want to kill me, you know, Wang Teng, I want to kill you too."

Lu Yang's voice was so cold, even in the early summer night, Wang Teng still felt cold.

“You are going to kill me? Why, what do you mean?” Wang Teng asked around the observation.

Lu Yang said, “Because I hate you so much, hate you for killing my father, and killing my mother. You still want to kill me. If it were not for my brother to block the gun for me, I would have died . “

Wang Teng was stunned, he said, “What are you talking about, when will I kill your father, kill your mother, and when will I kill your brother.”

Lu Yang laughed wildly and said, “Yeah, you have n’t killed this life, but you have killed it in the last life, you know, I will get revenge on you in this life.”

Suddenly, Lu Yang appeared behind Wang Teng, grabbed Wang Teng’s left hand with his right hand, pressed down hard, and pressed it against his abdomen.

Wang Teng desperately wanted to seize qiāngzhī, but Lu Yang’s arm was very powerful. He couldn’t break free. In anger, he looked at Lu Yang with a smirk expression and said, “I want to kill you.”

“噫”

With a gunshot, Lu Yang’s abdomen was painful as if his bones had been broken, but he still held back and pressed a cold gun on Wang Teng’s hand, showing a cold smile.

Wang Teng froze and said in horror: “You, why didn’t you die?”

Lu Yang pointed Wang Teng’s muzzle elsewhere. He sneered and said, “Not all the good people in this world should be damned. It should be a **** like you.”

“噫”

At the sound of a gunshot, Wang Teng fiercely flung forward, as if the strength in his body was drained instantly. He looked blankly to the side. A policeman was pointing his body with a gun and said, "Drop the gun."

Wang Teng turned his head to look at Lu Yang. His eyes were a little grim, and he asked confused: "Why are you okay?"

Lu Yang approached Wang Teng's ear and whispered, "Because I am wearing a body armor."

Wang Teng fell to the ground. The police just penetrated his lungs with a shot. He stared at Yang Yang, trying hard to speak, but couldn't say a word.

The police ran to Lu Yang and asked with concern: "Are you okay?"

Lu Yang looked at Wang Teng in fear and said, "He is going to kill me, thank you for saving me, thank you."

The policeman said solemnly, "This is what we should do."

Lu Yang nodded his thanks and asked, "Can the person lying on the ground be rescued?"

The policeman walked to Wang Teng, squatted down to examine it, and said, "It's dead, it's dead."

Lu Yang walked in front of Wang Teng, and Wang Teng stared at his eyes.

The sirens screamed in the distance, a large number of police arrived, and Zhang Chao was among them. He saw Lu Yang hurried over and asked, "Brother, are you okay?"

Lu Yang opened his clothes, pointed to his body armor and said, "This thing saved me."

Zhang Chao asked: "Bulletproof vest. Fortunately, you have this. How did you think of wearing this?"

Lu Yang said: "It's okay, here is the magic capital, Liu Jie's company is here, Wang Teng is here too, their power is too great, it's too easy to find me, I lost Wang Teng and Liu Jie more than ten million, I'm worried that they're bothering me. I bought it intentionally. I never thought it would be used. "

Zhang Chao frowned and said, "Things related to the Liu family are not easy to solve. You need to be mentally prepared. This may not necessarily involve Liu Jie."

Lu Yang said, "I'm fortunate that I didn't die, and I don't think much else."

Zhang Chao made a sound and asked the police to take Lu Yang to the Public Security Bureau. After making a record, he sent Lu Yang back.

When Ling Zhitian heard the news, he rushed to inquire about Lu Yang as soon as possible, and the old man also came over. The two took Lu Yang to live in their home, which moved Lu Yang very much.

In the early morning of the next day, someone secretly reported the incident with a gun ànshā Lu Yang to lùntán, and someone posted a photo of Wang Teng shooting a gun to kill Lu Yang, and the servers worldwide were boiling.

"Liu Jie can't afford it."

"Send someone ànshā Lu Yang."

"What **** thing is this, is his house hēishèhuì?"

"Severe punishment for Liu Jie."

"This matter must be accounted for."

...

The anger of the players was overwhelming, and the official was shaken. Lu Yang was only interviewed in the afternoon. The official interview team hired a bodyguard and an armored car to send Lu Yang to the interview building.

“I heard that you were shot last night. Could you tell us what happened?” Asked the host Dubin.

As a **** fan of Lu Yang, Dubin was really angry this time. He originally threw out the original interview draft and turned it into an exclusive interview on this matter.

Lu Yang described the whole thing in detail. The two talked for about 4 hours. That night, Lu Yang returned to the old man’s home to rest. On the TV, Dubin’s interview was broadcast. He was scolded on TV. What Liu Jie and Wang Teng did, and included some of their own words at the end of the TV.

“Game is the last piece of pure land in the real world. If this pure land is also polluted by dirty capital, then we can only live on this muddy land, and our children can only live on this muddy land. .

Not for ourselves, even for our children, and for our future generations, we hope that the police must thoroughly investigate this matter, who has been instructed by Wang Teng, and why should he want a civilian-born guild president? .

This is just a game, this is just a game. If Lu Yang did not survive by today, then who will dare to play this game and who will dare to fight against those consortia. Do we all have to be slaves and toys to these consortia in the future? ? “

The old man in the twilight watched Du Bin’s speech, and said with a sigh, “Zhu Zhe Zhu Zhu, deafening, ah, Liu Jie is going to be unlucky this time.”

Ling Zhitian said: “It is estimated that it will be unlucky in the game, and it has no effect on him in reality. Although everyone knows that Wang Teng is Liu Jie’s dog, there is no evidence to prove that this was done by Liu Jie. He even went to The Public Security Bureau does not need to take notes. “

The old man in the twilight cursed, “This boy is very clever. Let Wang Teng do everything by himself, so he is lucky.”

Lu Yang covered his ribs and said indifferently: "It doesn't matter. Let's come to Japan. The impact of this incident on Liu Jie is not small enough for him to be uncomfortable for a while."

The old man asked, "What are you going to do next?"

Lu Yang said: "The next step is to beat Mai Lizhe. This boy is not going to die. I can't hit Liu Jie."

The old man in the twilight said, "Merritt is not so easy to deal with. The poison of the ancient king and the endless skeleton are not simple. Are you sure?"

Lu Yang said: "The ancient king and the boundless are two rubbish, holding a diamond as a stone fool, see how I can clean them up."

The old man with twilight lit his eyes and said, "That's good, then I'm relieved."

Lu Yang said: "Tomorrow you will play Jianyang City. Most of the players over there will not be at level 50. If you go, you will be crushed. Take advantage of the ancient king's siege of the hegemon in Nikko City and win this place first."

The old man nodded and asked, "Don't we really help?"

Lu Yang said: "Uncle, unless we are now in full war with Melissa, but I have Tianyao behind, Liu Jie, Melissa and the Skeleton Army and the poisonous heart. We have no chance at all. "

The old man in the twilight sighed and said, "It's a pity."

Lan Yu called and Lu Yang said, "I'll take a call."

Throughout the day, Lan Yu, Zhuo Jiu, and others kept calling Lu Yang for fear that something would happen to him.

After Lu Yang coaxed Lan Yu for a while, he returned to the bottom, only Lei Zhitian was left, and the old man had gone to bed.

Lu Yang and Lexus drank a few glasses of wine. After dinner, he sent Lexus back to the room, and then returned to the room himself.

Lying on the bed, looking at the starlight outside the window, Lu Yang couldn't calm down for a long time, and finally, the one he wanted to kill was killed by the police by his design.

Those who killed him in the last life were punished again.

Now, the first black blood that has killed Lu Yang because of this failure, he was defeated by Lu Yang, and after borrowing Dongshan to repay the debt, gāolìdài was unable to repay and was being chased and killed.

The second bloodthirsty bully lies in the hospital with a fractured limb.

The third spirit is also liquidated by bankruptcy.

The fourth Wang Teng died.

The fifth Li Xiuyu was abandoned by the family.

Today, there is only one enemy, Liu Jie. As long as the Liu family is bankrupt, Lu Yang has no regrets. Unfortunately, I want to kill Liu Jie, Mai Lizhe, Tianyao, Liangyun. But it became a stumbling block. Without defeating them, Lu Yang had no chance to kill Liu Jie.

“Don't blame me, you yourself want to mess with me.” Lu Yang said secretly.

Early the next morning.

Lu Yang was lying in the old man's home using a helmet to log in to the game. The police investigation was not over yet, and Lu Yang could not leave for the time being.

The light flashed.

Lu Yang appeared in the game.

“Brother, you're online.”

“Boss, how's it going?”

“Chairman Lu Yang, are you okay?”

...

Almost everyone who knew Lu Yang sent a message to Lu Yang.

Chapter 823 - Xue Yiming

After Lu Yang responded one by one, he continued to upgrade in the Hall of Ten Thousand Souls.

陆 When Lu Yang upgraded, Liu Jie was dumbfounded on the other side. Last night, Liu Jie was responding to police inquiries with his father and family lawyers. It was only this morning that he was released by his father.

I returned to the villa, and several key members of his team, such as Liu Jie and Deadgrass, were gathering inside and waiting for him. Everyone's face was filled with fear and anxiety.

This time they did enough preparations to kill Lu Yang. Liu Jie assigned Wang Teng with two killers he supported, and his men Tian Huo met Lu Yang so lucky. In Liu Jie's view, they killed Lu Yang has been 100% successful, but the result is two deaths.

Liu Jie paced slowly in the room. He walked to the sofa made of rosewood, patted the back of the sofa with his hands, looked at the dead grass, and asked, "Who can tell me what is the reason for this? ? "

He reckoned that dead grass took off his glasses, wiped them, put them on again, and said, "I suspect we've hit Lu Yang's plan."

"Medium?" Liu Jie looked at the dead grass and asked, "What do you mean?"

The dead grass said: "Look back and think that there are too many suspicious points in this incident. How did Tianhuo find Lu Yang so lucky, and that KTV backdoor was so chaotic, how could Lu Yang be overtaken by Wang Teng, How could his two professional killers be stunned and thrown to the river, all of which have problems. "

杰 Liu Jie frowned and said, "What evidence do you have?"

The dead grass took the map of the back door out of his arms, put it on the coffee table, and said, "Look, this is where the KTV back door is so messy, even a professional killer, who wants to hunt down one in such a dark environment How can a person succeed, and he can be thrown away by just taking two turns. "

Liu Jie looked at the map. There were small cottages like villages in the city all over the back door, and they could turn around.

别 "Don't say it's Wang Teng. Unless the other person is running slower than me, I can't catch anyone," Tianhuo said.

杰 Liu Jie looked at Tianhuo with a sharp look in his eyes and asked, "Say, how did you find Lu Yang."

As soon as Tianhuo stunned, he said, "I just sang on KTV, and then Lu Yang went to the private room opposite me, and I saw him."

The dead grass took out another map and said, "The hotel where Luyang lives is a few kilometers away from this KTV. Although it is not far away, there are 8 KTVs facing the street on this way. Why did Lu Yang come to you so coincidentally? At KTV, it's still appearing in your bakery. "

Bian Tianhuo blinked and said, "Is Lu Yang intentional?"

He reacted and quickly said to Liu Jie: "Boss, I don't know how he appeared, I am not a traitor."

Liu Jie waved his hand and said, "I know you are not. You have been with me for many years. Don't care about this little thing. Wang Teng is dead. I can only rely on a few of you. Let's not be fooled."

Xi Tianhuo was relieved.

Counting dead grass asked: "Did something special happen when you went to sing before?"

Xi Tianhuo shook his head and said, "No, nothing special."

"Think again." Liu Jie asked.

Tianhuo worked hard for a long time, then shook his head and said, "No special circumstances."

Liu Jie became furious and just scolded, and frowned, saying: "Jie Shao, our enemy is very difficult to deal with. Lu Yang apparently knows that Tianhuo will go to KTV tonight, and there is a plan to let the king there. Always ambush, and framed the whole thing to Skyfire. "

Liu Jie thought and thought, and said, "The one you said is very likely."

问 He asked Tianhuo: "Who among yours knows you were going to TKV last night?"

Wu Tianhuo said: "Li Ping knows a few of them. They asked me to make a copy. I said to take them out to KTV. I also asked Li Ping whether he would come or not, and his family had a magic capital."

Gu Shi dead grass and Liu Jie looked at each other and said, "One of these people must have a problem and need to investigate."

杰 Liu Jie scolded: "I bet you can never investigate it. Lu Yang dares to do this kind of thing. He must have finished the sweeping work. These people are not used anymore. Find an excuse to fire and change for the people below."

The dead grass and Tianhuo nodded together.

"Follow me to Wang Teng's house. This kind of thing happened. His family doesn't know what to do now." Liu Jie said.

I reckon that the dead grass and Tianhuo nodded together. As Liu Jie came to Wang Teng's house and just arrived at the door, Xue Yiming was responsible for opening the door for them.

"Why are you here?" Skyfire asked.

Xue Yiming said sadly: "I'm going to see President Wang's family, and by the way give me some money. President Wang treated me well during his lifetime. He can only do this when he dies."

Qi Tianhuo was a little bit emotional, and Liu Jie patted Xue Yiming's shoulder and said, "You are very good."

Wang Teng's wife came out of the room and saw Liu Jie burst into tears. Wang Teng's wife was very beautiful. She had long hair, a thin waist, a black gauze dress, and tears on her face. expression.

杰 Liu Jie went to his wife Wang Teng and said, "Don't worry, the things in your family will be my business in the future. I will take care of you for the rest of my life."

Wife Wang Teng glanced at Liu Jie with a grudge, and cried, "I see."

Wang Teng's parents and relatives have arrived. Their faces do n't have much crying expressions. In the face of Wang Teng's active killing and being shot by the police, they do n't know what to do. In the face of Liu Jie, they do n't know How to face it, obviously, there is a shadow of Liu Jie behind the whole thing, but Wang Teng was able to climb to this step, all of which are promoted by Liu Jie.

Liu Jie didn't know what to say. He talked with Wang Teng's parents for a while, and left 100,000 yuan for Wang Teng's wife, turned around and said to Xue Yiming, "I'll leave it to you, take care of it. It's over here, you come to me. "

"I see." Xue Yiming said.

Liu Jie turned and left, Xue Yiming looked at Liu Jie's back, and looked back at Wang Teng's wife who was looking after Liu Jie's back. Xue Yiming couldn't help sneering.

"In the legend, the wealthy married a woman who they could not marry to their subordinates, and it really was true." Xue Yiming muttered to himself.

From the morning to the evening, Xue Yiming took the time to find a place where nobody was available, and took the phone to Lu Yang.

Lu Yang was killing monsters. The voice of the intercom sounded. Seeing that Xue Yiming called, he pressed the connect button and asked, "Why did you call me at this time, what happened?"

Xue Yiming said: "The plan was successful. Liu Jie came to Wang Teng's house and asked me to handle Liu Jie's funeral. Then I asked him to report after the operation was over."

Lu Yang sneered and said, "I guess he will do it."

✂ Xue Yiming shook his head and said, “No, no, no, he doesn’t care about his dog, he cares about that dog’s wife.”

Lu Yang said for a moment, “Wang Teng his wife?”

✂ Xue Yiming nodded and said: “Yeah, I can see clearly that Liu Jie and Wang Teng have problems with his wife’s designation, and they are not looking at each other correctly.”

Lu Yang smiled and said, “Check this matter carefully, maybe it will be of great use in the future.”

✂ Xue Yiming nodded and said: “Receive, you have to pay attention to safety. Liu Jie knows that you live in the twilight house, don’t let him assassinate.”

Lu Luyang said, “The security of the old man is good here. I also brought more than 20 mercenaries. He couldn’t kill me.”

“Enough, bring more than 20 mercenaries.” Xue Yiming lamented.

He feels that Lu Yang’s bottom is a bit unpredictable. Originally, he saw the description of Lu Yang on the Internet as a grassroots, but during this period of understanding, he felt that those were deceiving.

One can find the address of a stranger anytime, anywhere. Can this be done by an ordinary person? It also hired more than 20 mercenaries to kill the bureau. Obviously, Lu Yang intentionally killed Wang Teng, but it turned into Wang Teng. The murder of Lu Yang was killed by police.

Every time I think of these things, Xue Yiming feels cold in his heart, but he feels that this is also good. At least when he helped Lu Yang kill Liu Jie, Lu Yang could save his life.

Lu Yang said: “The next time you have to be more careful, as you gradually approach Liu Jie’s core circle, the stricter his review will be, and he will rub you out from time to time. I know him Be careful. “

Xue Yiming said: "I also made this call because of this incident. I may have fewer contacts with you in the future. Do n't think about it."

Lu Luyang said, "I believe in you."

义 Xue Yiming's heart warmed up Hang up the phone and continue to handle Wang Teng's affairs, while Lu Yang continued to fight.

After 10 days, the trial of the case was over. Police determined that Wang Teng had murdered Lu Yang and that the police had been killed without any problems.

Lu Yang lifted the restrictions. That night, Lexus escorted Lu Yang to the airport, and Lu Yang returned to Donghai by plane.

这 In these 10 days, great changes have taken place in the national costume. First of all, the sword killing **** and lonely half month were completely defeated by the boundless skeleton army. The two disbanded the guild and quit the game.

Jianyang City was easily beaten down by the old man, and the players in Jianyang City were also included by the old man. Now the player in the late twilight guild has reached 5 million, which is equal to the number of the Brotherhood of Iron Blood, but the only regret is these people. The levels are too low, and the Old Man needs a lot of time to take them to upgrade.

In Nikko Town, the two bosses of the tyrant and the Poseidon Army reached an alliance. After occupying the Iceberg City, the Poseidon Army found that their ground strength was insufficient to explore, and when they were looking for a way around, they encountered a person who was anxious to seek help Domineering.

The two sides hit it off immediately. With the joining of the Poseidon Army in Nikko City, it was extremely difficult for Merritt to dominate the hegemony. At one point, the fortress was almost broken. Unfortunately, the range of the fortress gun was limited and it was impossible for the Poseidon Army to hit the fortress.

Chapter 824 - Elemental Fire Elemental

At present, the hegemony still has no idea of stopping the war, and the Poseidon Army is also very morale. While separating players to upgrade, while attacking the fortress, there is no delay on both sides.

Inside a special space.

Lu Yang told the vice chairmen such as Xia Yuwei and Zhuojiu: "Everyone is ready. After 15 days, I will officially attack Mai Lizhe to eliminate this hidden danger."

"Yes," Xia Yuwei and others said together.

Lu Yang withdrew from the special space. At this time, his level had reached level 80. He flew to the red fortress using the city roll and ran into the forest at the junction of the human race and the orc.

At level 80, the player can finally make a second transfer. Among all the transfer occupations, Lu Yang remembers that there was a very domineering second-class occupation of the fire method in the previous life. His name is Fire Elemental Wizard.

In this transfer certificate, there was only one person who disclosed that Lu Yang only knew this place. This place is the element space.

At that time, the civil war of the nine series led to chaos in the world. In order to prevent the world from being destroyed by the nine major elements, the nine series returned to the elemental space created by the God of Creation for them to fight.

The lowest level of monsters in this space is 80, and the highest level is 100. At this level, Lu Yang has no strength to kill the monsters of level 100. Not to mention the lord, mobs are impossible.

Especially the Fire Elemental Temple, with Lu Yang's output, can not cause damage to ordinary fire elements at level 80, because his magic damage is not as high as the fire resistance of fire elements.

Fortunately, this certificate is not dropped on the mobs, but in the element space, which gives Lu Yang this opportunity.

After 4 hours.

Lu Yang ran to the Valley of Oblivion, which is a special gorge. He has mountains, streams, grasslands, lava, storms, lightning, snow, and beating space-time elves.

At the center of the Forgotten Valley, there is a dark brown portal. Lu Yang walks into the door, a flash of light flashes, and he appears on an empty land.

System prompt: you found element space

The land here is black and there are burnt marks everywhere. Lu Yang knows that his location is the junction of fire and wood.

Only here will the situation at the foot occur, as long as the wood element germinates the vegetation on the border, the fire element will surely burn here to ashes.

He looked around, and it was easy to find the elemental temple that he needed. The entire elemental space had nine high mountains that lined up into the sky.

No matter where you are in the element space, just look up to know where you are and how far away you are from where you are going.

On the right side is a mountain burning with flames, where the Fire Elemental Temple is located. Lu Yang took a bottle of stealth potion and walked in that direction.

“Hoo ~ 嚕 ~”

A strange sound came from a distance. Lu Yanggang didn't go far. A group of fire elements wandered slowly. When they saw grass and trees on the ground, they released flames to burn them.

Lu Yang avoided this group of fire elements and continued to move towards the fire element shrine. There were a lot of fire elements along the way, but the element space was too large for Lu Yang to avoid all fire elements.

After walking for more than 3 hours, it was late at night, and Lu Yang came to the foot of the Fire Elemental God Mountain.

Here is a group of palaces, which looks like the palaces in Greek mythology. The entrance of one of the palaces has a nine-color enchantment, which is a copy.

Lu Yang avoided the fire element and walked into the copy.

System prompt: You have entered the Fire Spirit Hall

There are no mobs in the Fire Spirit Hall. Lu Yang came to the center of the hall and saw a 10-meter-tall fire giant with red flames all over his body. He was holding a huge scorching hammer and a hammer head. There were spikes throughout.

General Fire Spirit “Lord”

Level: 80

Qi and blood: 1000000000/1000000000

This is a copy of 20 people. Although General Fire Spirit only has 1 billion health, but his defense is very high and his magic resistance is higher. With his attack power, Lu Yang only needs to hit a hammer to die.

At the foot of General Fire Spirit, there are more than twenty treasure chests made of pure gold or even dark gold, each of which has a large number of level 80 treasures.

However, it is an impossible task to get these treasure chests. When some players came here in the last life, they were very excited to see these treasure chests.

They resisted the impulse, first let the thief try stealthily to steal the treasure chest. As a result, the fire giant waved his hammer and fired within 70 yards of the fire as soon as he reached the position 50 meters away from the fire giant!

The treasure chest also turned to ashes!

The second time they entered, they were unwilling to try again, but no matter how they tried, as long as the player entered within 50 meters, the fire giant would release the flames to burn the treasure box, and the player would get nothing.

At first, only the players who entered this copy knew that many people who came in later discovered this problem. Therefore, everyone who came to fight this copy could only watch the fire giant destroy the treasure chest every time. Hit him again.

However, the players in the national costume are this special. For a long time, the players in the national costume started to study this copy when they were bored. After a long time of research, they found a way to prevent the fire giant from coming up. Destroyed the treasure chest.

The method is to jump the corner card bug. There is a bug position on the upper left of the Fire Spirit Hall. Mage, hunter, warrior and other professions can jump to it.

Fire the giant on it. The fire giant will somehow not burn the treasure chest with the flames first, but will run to the player, kill the player standing on it with a hammer, and then run back to the original position to release the flames.

Lu Yang used the bug to brush the lord in the last life, and at a glance he found the location he was familiar with, just like the last life.

“flicker”

With a flash of white light, Lu Yang appeared on the beam in the upper right corner of the palace. He moved his body, and when he was ready, he looked at General Fire Spirit and pointed his staff with his right hand.

“Destroy the Sky”

A crimson flame fell from the air, hitting the head of General Fire Spirit.

“-11”

Skyfire is currently Luyang’s highest damage skill. With the support of more than 8000 magical injuries in Luyang, the level 14 Skyfire damage is counted, and the total damage is up to 15,000. Also ignored the opponent’s magic resistance of 35%.

Even with 11 points of damage, the fire giant’s fire resistance is very high.

“Hello ~!”

The fire giant roared angrily at Landing Yang, holding a heavy stride and striding towards the Landing Yang.

The distance between Lu Yang and the Fire Giant was 80 meters. In less than 3 seconds, the Fire Giant ran in front of Lu Yang, just as he smashed into Lu Yang with a hammer.

“flicker”

A white light flashed, Lu Yang disappeared in place, and a white light flashed in the middle of a large pile of golden treasure chests on the ground, and Lu Yang appeared in the middle of the treasure chest.

For a while, dazzling Jinguang Luyang's eyes were dizzy. He didn't know which treasure box was filled with good things or bad ones. He only had 2 seconds. After 2 seconds, the fire giant would run back. At the attack distance, he could only grab it at this time, which one he caught.

System prompt: You get a dark gold treasure chest

System prompt: you get a golden treasure chest

Fortunately, these treasure chests can be placed directly in the backpack. Lu Yang grabbed two of them and felt a sound of wind behind his ears.

“Escape bǐshǒu”

A sledgehammer burning with flames, the side with a nail head slammed heavily around the treasure chest, while a crimson flame spread throughout the 70-yard area, and dozens of golden treasure chests turned into gold water.

Lu Yang jumped to the entrance. He didn't dare to look back. A flame ignited under his feet, fired his hot and fast skills, and ran outside the door before the fire giant caught up with him.

“call”

As soon as I left the door, Lu Yang sighed against the wall beside him, startled him, the lord's response was too fast, the copy of the fire system was not good at this point, the player knew how hot and blistering the lord was meeting.

Once the lord found that he couldn't hit, the player ran away and dared to chase after him. This is why the players who came out of the fire copy later, and other professional players did not dare to mess with it.

Because they are used to hard and hard, anyway, playing is just death, running is also dead, it is better to die with each other to the end.

So that when it comes to the battlefield after level 100, the commander will always ask how many copies of the fire department have his origins. Once he exceeds one-third of the total number, he knows that this game is likely to win.

Unless the counterpart of the fire department has more origin than him ...

Most of the players in his guild in the last life were from the fire department. When he thought about it, he couldn't help but think of his brothers.

Among the people who have not been found, there are only five human races. As long as these five people are found, Lu Yang does not miss the brothers of the previous generation on the human race side.

He shook his head, not thinking about it for the time being, opened the backpack and looked at the two treasure chests in his hand one is dark gold, the other is gold, he opened the dark gold first.

The system prompts: You got the Fire Elemental Elf Transfer Certificate

Lu Yang's heart was beating fiercely. He never thought that he could find this transfer certificate for the first time.

Transfer certificate: Fire Elemental Wizard

Lu Yang's transfer certificate with burning flames made Lu Yang feel the blood in his body, and the beating flame made Lu Yang feel the uncontrollable excitement.

He put the transfer certificate in his backpack. If he wants to transfer, he needs to return to St. Gall and transfer to the mage tower.

Lu Yang looked at the second treasure box and clicked to open it.

The system prompts: You have received the Staff of the Destroyer “Excellent Gold”

Lu Yang was a little embarrassed, although he was the first one to come to this copy, but this thing is not so good. Excellent golden wand, this baby is the top-level suit of level 80 He never thought he could get it here.

Chapter 825 - Under Artifact 1st Equipment

Destroyer Staff (Excellent Gold)

Level: 80

Damage 325-398

Intelligence: +1068

Constitution: +796

Spell damage increased: +1986

Increased Spell Penetration: +1662

Spell critical strike chance increased: 1628 points

Set (1 \ / 9)

3 piece set: Fire spell skill level +1

6-piece set: Fire spell damage increased by 10%

9-Piece Set: Each cast has a chance to release the power of the fire element, the fire spell crit damage increased by 50%

Lu Yang looked at the boss with a cracked mouth in the attribute of the staff. When he came here in the last life, he didn't know that it had come from millions of people. He never got such a good baby.

This piece of staff has injured more than 3,000 points, which is equivalent to half a set of Immortal legal system set plus a Guderian war staff.

He replaced the Guderian Staff that he had originally held with the World Destroyer. He originally had more than 8,000 wounds to his spells. Now, after the replacements, the wounds have reached over 111,000.

A total of 9 sets of World Destroyer suits, in addition to clothes, helmets, etc., if all can be done together, spell damage can sustain more than 20,000.

Originally this was impossible. Lu Yang never thought of going to play the 80-level excellent gold copy. Now it seems that the opportunity is good.

“Continue stealing and see if you can steal a set of World Destroyer.” Lu Yang chose to restart the copy and entered the Fire Spirit Temple again.

Walking 60 yards away from General Fire Spirit, dozens of treasure chests appeared in front of him, most of them gold, and several of them were mixed with dark colors. Lu Yang knew that it was a dark gold treasure chest.

He jumped to the bug position, this time he took a closer look at the location of the treasure chest. After determining the location of the dark gold treasure chest in a golden light, he pointed the sky with his right hand.

“Destroy the Sky”

A crimson flame descended from the sky on the head of General Fireling.

“869”

“Humans, you shouldn’t be here, accept the purification of the flames.” General Fire Spirit ran towards the landing sun with a sledgehammer.

Lu Yang didn’t look at General Fire Spirit, and counted in place.

“flicker”

The fire hammer’s sledgehammer fell a second before Lu Yang’s body. A white light flashed on Lu Yang’s body. He accurately jumped in front of a dark gold treasure chest, holding one in his right hand and one in his left hand.

“Human, dirty thief.” General Fire Spirit ran back to Lu Yang, the hammer was about to fall.

“Escape bīshǒu”

Lu Yang's white light flickered. At the moment when the flames devoured a golden treasure chest in a place, Lu Yang flickered to the far end of the hall, and just after landing, he opened the hot and rushed towards the door.

General Huoling missed twice and saw Lu Yang running towards the gate. A firelight appeared at his feet, chasing him at a speed faster than 75%.

Lu Yang's movement speed is 305%, which is like the same phantom. General Fire Spirit is faster than Lu Yang. Lu Yang can feel the footsteps behind him approaching.

When he came to the door, the wind sounded behind his head. Lu Yang knew that the Fire Spirit had caught up, and he leapt forward.

System prompt: you left the copy

Lu Yang fell heavily on the ground, he did not immediately stand up, saw that he was still alive, and sighed on the ground.

Sure enough, every time it is so thrilling.

Lu Yang shook his head, and he didn't get up either, so he lay down and took out the golden treasure chest from his backpack and chose to open it.

A flash of light flashed, and a silver book page appeared on Lu Yang's hand.

Blazing Heart

Level: 0

Cost: 3000 magic

Distance: 100 yards

Description: All original sins are caused by anger, and the flame of fire is the embodiment of this anger. He will make anger more and more prosperous. In the end, anger will engulf itself and let him die in the flame.

When Lu Yang saw this skill, he couldn't close his mouth completely. He couldn't believe that it was true. He was so lucky to come in for the first time and found this skill he had dreamed of- "Blazing Heart Flame".

This is the only skill that fire spells can use to challenge the lord. Although the description does not introduce any damage effects of this skill, the famous skill of the last life can never be forgotten by Lu Yang.

Blazing Heart Flame claims that the fire mage has the second strongest skill. It is indisputable, because his skill effect is to kill the target's current blood cap of 10% per attack, the damage to the boss is unchanged, the lord is halved, the maximum damage 50 times the intelligence.

This damage was disregarding magic resistance. When Lu Yang obtained this skill for the first time in the last life, he beat the lord to kill more than 10 million hits at a time. At that time, everyone looked down.

Lu Yang himself was stunned, because the lord ignored all other professional drag skills directly, ran to Lu Yang, and punched Lu Yang with a punch.

It was also with this skill that the guilds of the last generation of Lu Yang entered a stage of rapid development.

He put this blazing flame in his backpack. This skill can't be learned before he transfers. Only the second-round fire mage can learn this skill.

He took out the second dark gold chest and chose to open it.

System prompt: you get the entropy ball

Lu Yang lay directly on the ground, his right hand clenched tightly into a fist, he didn't know what to say, this thing would even be here.

Lu Yang was completely out of character. He couldn't help laughing, the ball of entropy energy, known as the first jewelry under the artifact.

In the previous life, nearly ten billion players from all servers around the world combined, and less than 1,000 people had the ball of entropy. Lu Yang suspected that this thing was not the server's initiative to put it into the game.

Not for others, just because this thing is too buggy.

Entropy Orb (rare item)

Level: 0

Description: Each lord killed can increase 1 intelligence for the player, up to a maximum of 1000 points.

There are a total of 9 entropy **** If the player can get together and kill 9,000 lords, you can add an additional 9000 intelligence.

If you have 9 **** of entropy energy, you can also learn the first group of attack skills under a god-level skill, the rage of entropy energy, and release the 9,000 lord souls in the entropy energy ball at a time. Players within the player cause extremely high damage. It can be said that even if a group of players with excellent gold equipment of level 100 are full of gems and release the entropy rage once, they will be able to make them full seconds.

Lu Yang didn't dare to think he could get this baby, and neither the official nor the player in the previous life disclosed where this skill came from, and it was unexpected that it was stolen from here.

Just when Lu Yang was excited, he didn't know that on a monitor of a special unit in the official system, the number changed from 0 to 1 in the column of rare equipment.

"Wow, who is so powerful, even got rare equipment at this time." A person said.

"The ghost knows that we are only responsible for recording data. This kind of system has its own consciousness. He will not allow us to watch it." Another said.

Chapter 826 - Destroyer Set

Lu Yang equipped the ball of entropy energy on his body, the light flashed, and a flaming sphere appeared beside Lu Yang, the size of which was a billiard.

If Lu Yang is willing, he can order the sphere to launch an attack skill-entropy bomb. The damage is the intelligence multiplied by 1, and the attack speed is 1 per second.

"Continue stealing and see if you can steal a few more balls." Lu Yang felt that he was in love with this copy, turned around and entered the copy.

The third time he came to the general Fire Spirit, Lu Yang stole the treasure chest with a second stage flash, this time he stole 2 treasure chests, and opened the first one, a fire skill book.

The Flying Blade

Level: 0

Cost: 500 magic

Distance: 80 yards

Description: Fires a flying high-concentration flying knife at the target, inflicting magic damage x1, ignoring magic resistance.

This is a skill book that players in the fire department can learn after the second turn. After the second transfer of the mage, most of the spells learned are related to intelligence, specifically to restrain magical high units.

The second treasure chest is also a skill book.

Lava Eruption

Level: 0

Cost: 2000 magic

Distance: 80

Description: Inject magical energy into an area, causing the underground magma to gush out, causing intelligence points $\times 0.75$ + spell damage $\times 0.45$ damage value. The duration is related to intelligence.

This is a skill that can replace the fire wall skill. The range is many times larger than the fire wall. Hitting low-level monsters does not hurt as much as fire walls, but hitting monsters above level 80 hurts much more than fire walls.

Lu Yang then stole, and then stole more than 20 times in succession. All the stolen books were skill books, "Blazing Storm", "Cross of Fire", "Dragon Wave", "Blue Flames", "Flame Load" "Wait.

Looking at the skill book of half a backpack, Lu Yang checked it, and the second turn of the skill book was completed. He used a goblin robot outside the gate to build a sentry tower, took it back to the city, and flew to St. Gall.

When I came to the mage tower, I found the Fire Magister Gaffar and said, "I want to make a second transfer."

Gaffar is a middle-aged mage. He smiled and said to Lu Yang, "Young man, I feel strong in your body. You are already eligible for transfer. If you have a transfer certificate, I can take you to the temple to change jobs. "

At the top of the fire magic tower is a temple of fire, and Lu Yang presented the transfer certificate and said, "I found the certificate."

Gaffar nodded slightly and said, "Come with me."

Lu Yang followed Gaffar's side, and the two took the magic elevator to the top of the fire magic tower. There was an altar under the idol of the temple of fire.

"Please stand on top of the altar, and Vulcan will guide us," Gaffar said.

Lu Yang stood in the middle of the altar according to Gaffar's words, and took out the Fire Elemental Elf from his backpack to make a transfer certificate.

The altar was fiercely reddish. Suddenly, tens of thousands of reddish light were sprinkled above the altar. The gorgeous red brilliance was intoxicating. In the brilliance, there were countless jumping magic elves. When they passed Lu Yang's body, Lu Yang really felt the enhancement of strength.

System prompt: you get 1 unallocated point

System prompt: you get 1 unallocated point

...

Countless tips swiped Lu Yang's dialog bar, he opened his status bar, and on top of the unadded attribute points, there were a full 1,000 additional attributes.

This is the biggest difference between the second turn and the previous player transfer. Once the player has reached the second turn, his strength is much too much stronger than the first turn.

Lu Yang added these attribute points to intelligence, and then learned all the skill books in his backpack. Lu Yang's spell damage increased to more than 12,000. This Lu Yang didn't care much. What really cared about him was the burning heart. He finally learned.

With this skill book, he can leapfrog the challenge, but before the challenge, he also needs to kill the Fire General.

Lu Yang flew back to Elemental Space with a teleportation scepter and entered the Fire Elemental Temple again.

Looking at the treasure chest full of fire in front of General Fire Spirit, he was still unwilling to steal it. Just as he hesitated, suddenly, he saw two treasure chests with more golden light in a pile of treasure chests. Next to each other.

"Steal again." Lu Yang said excitedly. He didn't respond before. When he just transferred, he suddenly wanted to understand. It turned out that the gold treasure chest he had before was not gold, but excellent gold. Otherwise it is impossible to burst out of excellent gold-level equipment.

He hated that his head was slow to respond. When he came in the last life, there were only gold and silver treasure chests left here. He had never brushed excellence gold, and there were few dark gold.

He thought it wasn't brushed at all here. Actually, instead of brushing, there were too many people stealing treasure chests. Officials lowered the level of the treasure chests.

Lu Yang was the first to come in this world, and the official version has not been revised yet. There is an excellent golden treasure chest here, but he didn't look carefully before, and didn't distinguish it carefully.

Lu Yang regretted that he almost hit the wall. He had n't got the treasure chest many times before. If he looked carefully at it several times, he would n't take the dark gold, and he would pick the excellent gold. The things he got would definitely be a suit with the destroyer Level treasure.

This time he brushed the excellent gold treasure chest again, and Lu Yang said that he had to steal again.

“flicker”

Lu Yang jumped to the bug position and led the General Fire Spirit in the previous way. Before General Fire Spirit came to him, he flickered to the treasure chest and ran desperately holding the two dark gold treasure chests.

“Damn man, don't let me catch you.” General Fire Spirit snarled at the door, watching Lu Yang jump out of the door of the copy again.

Outside the copy, Lu Yang fell heavily to the ground, and he opened the first treasure chest.

Destroyer's Hat “ Excellent Gold ”

Level: 80

Defense: 225—308

Intelligence: +568

Constitution: +502

Spell Damage: +808

Spell Penetration: +608

Spell critical strike chance increased: 608

Set: "1/9"

Lu Yang shook his fist vigorously and it turned out to be the suit of the destroyer. He quickly opened another treasure chest.

Destroyer's Robe "Excellent Gold"

Level: 80

Defense: 506—618

Intelligence: +926

Constitution: +688

Spell damage increased: +1586

Increased Spell Penetration: +1505

Spell critical strike chance increased: 1506

Set: "1/9"

3 piece set: Fire spell skill level +1

Lu Yang wore a hat and a robe on her body The flame system skill level was increased by 1 level, and there are 5 remaining immortal sets, which still triggers the effect of increasing the skill level by 1 level , Lu Yang is equal to 2 levels of flame skills.

Lu Yang looked at his blazing fast ability, now the blazing fast increased movement speed has become 330%.

“Run faster now.” Lu Yang thought with a smile, he found that the next time he went to steal the baby, he could jump out without such a mess.

Chapter 827 - Muling Temple bug

Lu Yang clicked to restart the copy, returned to the Fire Spirit Hall, and came near the general. He found that the general student had another treasure chest of excellent gold quality.

“I stole.” Lu Yang card bug used two flashes, grabbed Zhou Yue’s gold-quality treasure chest and ran out. This time, the general of the fire spirit obviously could not catch up with Lu Yang, and just chased 5 meters away from the door. Position, Lu Yang just ran out of the copy gate.

“It’s too easy.” Lu Yang said proudly, and what he got when he opened the treasure chest was a hand of the destroyer.

“I’m sorry for not wearing this suit today.” Lu Yang turned and ran into the copy again.

Normally, the official never thought that there would be a player like Lu Yang who has an empty ring, an upgraded version of escape bīshǒu, a heart of the demon god, and a flame mark that adds flame skills.

Even the presidents of major guilds such as Liu Jie and Tian Yao absolutely did not have top-level equipment like Lu Yang, which was entirely obtained by Lu Yang's memory and the luck and efforts of this world.

With so many babies together, Lu Yang can easily go back and forth to the copy of the Fire Spirit Hall. The General Fire Spirit can't catch up with Lu Yang at all. Each time he can only watch Lu Yang holding the two treasure chests and running out of the copy.

For three days, Lu Yang squatted in this copy and stole more than 5,000 items. By the fourth day, the system might have discovered that Lu Yang had stolen too much, not to mention the excellent gold, not even the dark gold treasure chest. Now, there is only a golden treasure chest.

The contents of the treasure chest also became various. Among them, Lu Yang was very fortunate to get a set of World Destroyer suits. Nine pieces of Excellent Gold were worn on his body. Lu Yang's magic damage reached more than 20,000 points.

Now he goes out to play level 60 players, except for anti-riding and shield battles, the rest of the profession can kill with any skill.

However, after all, this is a second turn player at level 80, wearing a level 80 superior gold suit to bully a trumpet at level 60. This situation can only be regarded as normal, and it is a strange thing to die.

"Second World" is very different for each 10-level equipment, not to mention 20-level difference, the difference is still excellent gold-level equipment.

Lu Yang wore a suit of the World Destroyer on his body and hit a level 10 intelligence gem. At this time, the attributes of the intelligence gem were not as prominent as before. The 9 level 10 intelligence gems only increased 540 intelligence. There is no difference.

"Boss, what are you doing these days, why are you mysterious every day?" Hei Yan asked curiously in the group.

Lu Yang smiled and said, "It's time for your kid to ask."

Hei Yan gave a surprised expression and said, "Boss, what good thing have you hit."

Lu Yang said, "Let me check it out. There are a lot of good things, just to give your fire team a boost."

"Thank you, Boss." Hei Yan issued a funny expression of thanksgiving, and now "Second World" has opened an emoticon package. Players use emoticon packages to chat, which is more interesting.

Xia Yuwei sent a cute rabbit with a look of anticipation and said, "Boss, is there any of us?"

The white wolf made a gray wolf expression and asked, "Boss, I want it even."

"I also want."

"I need to."

...

Zhuo Jiu, Zhou Tianming, Jiang Ze, and others all sent messages to inquire.

Lu Yang smiled and sorted out the warehouse. He stole these three days. He stole more than 300 fire certificates. Unfortunately, they were all fire magic teachers. There was no fire element wizard to appear, but fire The magic teacher is also a good career change, at least it is good to be able to transfer at this level.

The remaining more than 4,000 items are all equipped, including law and physics.

Lu Yang sent more than 300 second-round certificates of the fire magic teacher to the group, saying, "How about this?"

Hei Yan saw the second transfer certificate and said, "Boss, where did you find the second transfer certificate?"

Now rising to level 70, there are a lot of players close to level 80. From level 60 to level 80 is just a matter of more than 100,000 credits. Is it worth money for those local tyrants? During this time, Lu Yang upgraded Not idle, all are rushing.

Ranked second in the ranking is Tianyao, 79, and third is Liu Jie, also 79, but the experience is less than Tianyao.

The remaining 800,000 people are level 79, and more people reach level 75 and above. As long as the war stops, players will enter a crazy shock state.

All players after level 75 will learn about the second transfer from the mentor when upgrading their skills. Many people have already acquired the second transfer certificate on World Channel, but no one has ever obtained it, and no one knows it. Where did this transfer certificate explode?

On the lùntán, there were local tyrants who announced the purchase of the second transfer certificate for 100,000, and it was hung for several days, but they did not buy a second transfer certificate.

Lu Yang said: "It's quite unexpected that I can hit so many people. You first send the fire method of our curse-proof mage regiment, and the rest is given to Tu Feng and divided equally among all the vice presidents."

Hei Yan said: "This thing is too expensive. These more than 300 certificates are worth more than 30 million. Boss, you really want to give it to members of the Master League for free."

Lu Yang said: "This thing is worth it now, and I know where to fight it, it won't be worth it. Tell the brothers, don't tell other people first, raise the level to 80. After the second turn, I will take them Hit the fire special skills book twice. "

"Thank you, boss." Hei Yan said.

Lu Yang said: "By the way, don't change your job. You are a black magician. It's a pity to be a magic teacher. I'll look again and see if I can get your special second-round skill book.

Hei Yan Mage's second transfer job is the Black Jail Magister, a transfer certificate second only to the Fire Elemental Wizard, and also a super class that can single out the Lord.

"Oh, okay." Hei Yan said.

The bitter love half-heartedly made an expression of envy and hate, and said, "Boss, I want it too."

"I also want."

"I also want."

...

People such as Xia Yuwei and White Lion issued another big row.

Lu Yang found that everyone has gone a bit funny recently. It may be that there is no war pressure in the near future and they killed the great enemies Wang Teng and Li Xiuyu. All of them have relaxed a lot and are also joking.

Lu Yang said, "There are more than 4,000 pieces of 80-level gold equipment and dark gold equipment in the Guild Warehouse. You two and Tu Feng have evenly divided."

"Dizzy, it really is." Sui Ai gave a stunned expression for a long time.

"Boss, you killed more than 4,000 lords." Sun Yu asked in surprise when Lu Yang sent out level 80 gold equipment.

Lu Yang said, "No, I tell you that you can't believe that these equipment were stolen by me."

“steal?”

...

Xia Yuwei, White Lion, and a series of question mark expressions.

Lu Yang told the copy he entered in detail, and then sent a World Destroyer suit to the simulation group.

Hei Yan directly sent an expression that the heart could not stand upside down. The entire set of attributes of the deceased increased blood and blood by more than 80,000, spell damage by 16, and defense by 3084. Spell penetration and crit were more than 8,000.

Not to mention injury, the qi and blood alone are more than double the defense of the 60-level excellent golden set. In terms of defense, players below level 40 are not defensive against Lu Yang.

“This equipment is too strong.” Zhou Tianyan said.

Hei Yan said: “The attributes of a World Destroyer’s damage are equivalent to half a set of immortal, boss, I can’t fight that lord, and I want to go.”

Lu Yang said: “Not for the time being, rest assured to upgrade, and other levels come up, I will teach you how to fight.”

“Oh, I see.” Hei Yan said.

“Boss, what transfer certificate do you want to get next?” Asked bitterly for half a life.

The heads of eight legions sent the expressions of little stars together.

Lu Yang said silently: “Everyone fights, they all upgrade quickly. First come, first served. Whoever has more than 80 people will be able to make two turns first.”

“This will go up,” said bitter love for a long time.

...

All eight ran away.

Lu Yang shook his head with a smile, returned to the elemental space, left the fire elemental temple, and used the stealth potion to reach the wooden elemental temple. Similarly, on the first floor of the wooden elemental temple, there is the wooden spirit temple, and there is also a wooden spirit general .

The General Muling didn't want a pile of golden treasure chests in front of the General Fire. He didn't have anything here, so he stood there alone.

Lu Yang entered the Muling Hall and found General Muling in a forest. He was a huge tree demon with vines all over his body.

General Mu Ling “Lord”

Level: 80

Qi and blood: 1000000000/1000000000

General Mu Ling is a melee professional melee. He has a stinger shell. Anyone who hits him with physical skills reduces the attack speed by 150%. The soldier holds a large axe with 3 attack speeds. In addition to the first normal hit, think It takes 7.5 seconds to play the second knife When this copy was played, the melee of all servers around the world was rampant. At that time, melee players of all servers around the world were doing one thing. , On lùntán cursed planning.

The wood-based professions specialize in druid equipment, and the druids are mainly based on melee, so that other professions will not scold them later. The druids are still scolding, and the system is also tough. The druids all switched to the French system and came back to fight this copy.

When the druid changed to the legal system, a druid discovered a small problem while playing. General Muling attacked in two ways, one was throwing large stones on the long-range map, and the other was walking into the 70-yard range. He will stab at you.

The problem found when playing Aki was that there was a place in the Muling Hall exactly two trees away. In the oblique direction, the large stone thrown by General Muling could get stuck in the middle of the two trees.

Because the stone he was throwing was not round and edged, the player just obliquely hid behind the two trees, and the thrown stone was stuck on the tree.

As a result, this copy later became a group of 20 mages standing behind the tree collectively. Instead of fighting one defense and one healing, you can always output a copy that can be played.

Chapter 828 - Greater Druid Curse

Of course, this has a premise, the team must be all second-round careers, otherwise the blood will not be defeated.

It's also a long time since Lu Yang came to this copy in the last life. He couldn't remember the location of the tree. After looking for a long time in the Muling Hall, he finally saw the two big trees.

The two big trees are very thick, about 10 meters in diameter, and there is a beautiful little flower beside the big tree on the left. Lu Yang always looks at this flower when he comes here.

He looked at the location of the bug and General Shuling. It was about 500 meters away. Lu Yang approached 200 meters, and the mantra was spoken.

“Destroy the Sky”

A crimson flame fell from the sky, right in the head of General Muling.

“Humans dare to challenge the gods.” General Mu Ling glared at Lu Yang, raised his hands, and a huge rock appeared in his hand.

The diameter of the rock was 30 meters, and it was lost towards the landing sun.

“flicker”

Lu Yang jumped back and appeared 120 meters away.

“Escape bīshǒu”

Jumping back 110 meters, flames came out of Lu Yang’s feet and quickly ran behind the two big trees, easily avoiding the first boulder.

General Mu Ling saw that Lu Yang ran more than 300 meters away in an instant, rushed up, stopped at a distance of 70 meters away from the two big trees, and a second large stone appeared in his hand, and was thrown towards the landing sun. Come over.

The speed of the stone is extremely fast, almost in a blink of an eye, if Lu Yang did not jump and flash quickly dodge, 100% would be hit.

“Hoo ~~~”

A whistling flashed over Lu Yang’s ears, and Boulder blinked in front of him.

“嘭”

The dull collision sounded, and a boulder hit the middle of the two trees. Lu Yang easily avoided it. There is a saying that the player must hide in the middle of the two trees. If there is only one, the big tree cannot stop it. , Just broken.

Seeing that his skills did not hit, General Mu Ling picked up a huge stone and lost it to Landing Yang.

“嘭”

The second boulder hit the middle of the two big trees again.

Lu Yang experimented twice in a row, rest assured, he knew he had successfully stuck the bug.

“It’s my attack.” Lu Yang’s staff with his right hand pointed at General Muling.

“Blazing Heart”

A fiery white flare appeared in the heart of General Muling.

“boom”

The flames burst and General Mu Ling took a step back.

“255700”

Lu Yang made a strong fist, and he hit it for the first time. There is also a shortcoming in this skill. There is a chance that he won’t hit it.

“Lava Eruption”

Lu Yang pointed at General Muling with his left hand, and a 10-meter-diameter lava lake appeared at the feet of General Muling.

“13469”

“13469”

...

The lava eruption that hits blood based on intelligence and spell damage can cause great damage to General Muling.

Blazing Hearts can only be used once every 30 seconds. Taking advantage of this gap, Lu Yang has used all the skills he has learned.

“Flame Cross”

A large cross with a diameter of 1 meter appeared in Lu Yang’s left hand, and he was composed entirely of highly concentrated flames.

In the previous life, it was almost impossible for a player to instant this skill. Only a few people can do it, and one of them is Lu Yang. If it’s normal chanting, it takes nearly 10 seconds. Because of the escalation of the heart, he was exposed to a high-level method of magic release.

This skill is an upgraded version of Pyroblast, but his damage is the damage effect of Intelligence x2. With Lu Yang’s current intelligence being only 10:00, it can still cause great damage.

Another, the fire cross has a special effect, automatic tracking. After the second turn, the element elves no longer need to worry about the fire system spells being avoided by the enemy. The cross attack speed is 50% faster than Pyroblast, and it can automatically track the enemy.

Lu Yang threw it hard, and the cross crossed a gorgeous cross spark in the air, right in the head of General Muling.

“20496”

29 crosses were released in succession, and the flames of the heart had cooled down, and Lu Yang released a second shot at General Muling.

“255700”

Lu Yang felt that this number of injuries was too small, but unfortunately his level of demon heart was not enough, and there was only one entropy ball.

In fact, there are a total of nine entropy balls, and the remaining eight are respectively with the remaining eight elemental lords. Lu Yang came here to play, and also wanted to see if he could hit one or two entropy balls.

Five hours later, Lu Yang successfully killed General Mu Ling, and a cyan ball appeared on his side.

Lu Yang's eyes lit up fiercely, and a white light flashed. Lu Yang appeared beside General Mu Ling and picked up the cyan sphere.

Wooden Spirit Ball

Lu Yang shook his fist hard. Sure enough, the first wasteland was good, this is the second entropy ball.

He placed the sphere on his body, and the cyan ball instantly appeared on Lu Yang's left side, shining with the entropy ball on the right side.

Lu Yang looked at the other objects again. A golden page appeared in front of Lu Yang. He picked it up and looked at it. He couldn't close his mouth in surprise.

Quiet Rain

Type: Forbidden

Cost: 8000 mana

Distance: 10,000 yards

Description: Rain of Tranquility restores the player's upper blood limit by 10% every second for 30 minutes.

This is a veritable curse. In the war of hundreds of thousands of people, this skill will become the key to change the situation of the war, especially the situation facing Lu Yang now.

The ancient king had a poisonous heart. He sprayed a poisonous mist to destroy a main city. Lu Yang had always taken the ancient king to his advantage. Now that there was a rain of tranquility, Lu Yang felt that it was the ancient king.

He sprayed a poisonous mist for only 30 minutes, and the rain of tranquility lasted for 30 minutes. The amount of blood destroyed by the poisonous mist was not as fast as the rain of tranquility.

Lu Yang immediately sent this skill to the simulation group and said, "Brothers and sisters, see what good things I hit."

"Quiet rain?"

"Forbidden spell?"

“No, there are such spells, what kind of profession is this?”

...

Xia Yuwei, the White Lion, and others were very excited. In preparation for the next war, they were also worried about the poisonous heart of the ancient king. Now that they have it, they are not afraid.

Lu Yang said: “This is the skill of the second-round Druid, let Bai Xiao Primary School.”

Everyone: “...”

Love bitterly for half a life: “Well.”

White Lion: “...”

Bai Hu: “...”

White Wolf: “...”

Bai Xiaoxiao is the younger sister of Bai’s three males, not a close sister, but a cousin. This little guy is now in junior high school. As the only girl among the 12 children of the Bai family, Bai Xiaoxiao has got The favor of all the elders in the family.

This girl is just a little witch. She is like a younger sister in front of Yu Wei, Lan Yu and Han Ying. But in front of her brother, Ms. Bai, he bullies them so that Lu Yang feels like Ms. Bai. Poor.

“Boss, just let my sister feel at ease as an ordinary player, don’t worry too much about her.” Bai Lang didn’t want to live.

Lu Yangqiang said with a smile, "We have such a druid in the guild. This skill book cannot be given to anyone. I think only this girl is suitable."

The three brothers of the white lions made a lamenting expression together.

Lu Yang sent a message to Bai Xiaoxiao and said, "Little girl, are you there?"

"Here." Bai Xiaoxiao made a look at the recruit's report.

Lu Yang said: "There is something to discuss with you, don't you always want to participate in the war, do you want to come?"

Bai Xiaoxiao has reached level 79. The money for playing the game was given by the three brothers of the Bai family. If they do n't need it, they will sue the elders. The three brothers love the sister and give him more than 100. Let her play casually.

"I think!" Bai Xiaoxiao said.

Lu Yang sent the picture of Tranquil Rain's skill book to Bai Xiaoxiao, saying, "I will give you this skill book before playing at night."

"Quiet rain?" Bai Xiaoxiao asked.

Lu Yang said, "Little girl, the responsibility of this book is very big. It is about the outcome of a war. If I am willing to take this responsibility, I will give it to you."

Bai Xiaoxiao thought for a while and said, "No problem, I should be able to."

"Come on and upgrade. At level 80, I'll give you a two-turn skill book, so you can be a little flower with peace of mind." Lu Yang said.

“What do you mean?” Bai Xiaoxiao didn’t understand.

Lu Yang also did not explain. The Druid of the Healing Department has determined a branch after the second turn. If it is a Physics Department, he will have a variety of melee and long-range attack changes. If it is a Healing Department, the male can only become a tree monster form. , Female can only become a flower form.

After closing the intercom, Lu Yang looked at the equipment on the ground, but some ordinary gold equipment, after receiving the backpack, he left the Muling Temple and came to the Fengling Temple.

The map in the Temple of the Wind Spirit is an elemental canyon, and there is a roaring gale all around. In the center of the canyon, there is a monster with a eagle face.

General Fengling (Lord)

Level: 80

Qi and blood: 1000000000/1000000000

General Fengling’s play is quite special. He knows how to fly, and wants to trap him with a bug. There is only one way Use the ground fire to blow the general Fengling to the valley of the canyon.

This method has only one chance for experimentation. If it fails, it will undoubtedly die. Fortunately, this is in the copy. Even if it is dropped, it will not be stolen.

Following the memory of the last life, Lu Yang found the pit he used often, looking at the General Fengling in the distance, and pointing his wand with his right hand.

“Destroy the Sky”

A crimson flame fell on General Fengling’s head.

“3686”

General Fengling screamed, spread his wings and rushed towards Landing Yang. His speed was very fast, and he came to Lu Yang in the blink of an eye.

“Earth to Earth”

Lu Yang closed his eyes. He secretly counted the seconds. At 2.5 seconds, Lu Yang pointed his left hand forward.

A crimson flame blasted out of the ground, hitting the head of General Feng Ling and knocking him up.

Chapter 829 - Liangyun was ambushed

“flicker”

With a flash of white light, Lu Yang appeared on the side of General Fengling.

“Earth to Earth”

The second group of flames blasted out from the ground, and once again blasted the Wind General who had just come down. This time, he just collapsed into the pit.

General Fengling roared again and again and wanted to fly out of the pit, but this was a bug left by the system when making the map. There was no solution at all, and he couldn't get out at all.

Lu Yang hid 80 yards away, using a lava eruption, a blazing heart, and a flame cross, and struck him for 5 hours in one breath.

A bead filled with white cyclones fell out of General Fengling's body. Lu Yang shook his fist vigorously. This is the third bead Fengling.

Lu Yang looked at the other items to the ground, as well as a transfer certificate issued by the Wind Element Spirit. Lu Yang lamented that this is the same level as the Fire Element Spirit transfer certificate.

He left a sentry tower in place and flew back to St. Gall.

Inside the conference room of the guild.

Tu Feng, Xia Yuwei, and Zhuo Jiuqing, vice-chairmen, are meeting to summarize the situation on this day. When they saw Lu Yang coming, they all stood up.

"Boss."

"Boss."

...

Lu Yang motioned them to sit down and asked, "Is there anything new today?"

Tu Feng said: "The tyrants and the Poseidon army retired. In the evening they fought the final battle. Merritt completely defeated Sun City. However, they were not easy. The endless platinum skulls lost 67."

Lu Yang said: "It makes sense that Ma Lizhe's three alliances are much stronger."

Zhuo Jiu said, "Now they have one Iron King City that hasn't been integrated. It's probably something in these days."

Zhou Tianming said: "It looks like it is not too far away from our next war."

Tu Feng said: "Merritt will not start a war against us for the time being, he will increase the level. At present, the average level of his guild players is 5 levels lower, and there is still one iron king city that is not completely stable. We have at least one month left. Preparation time. "

Lu Yang said, "I think so too. I do n't care about Merlez for the time being. At this stage, the major guilds have entered a bottleneck period. Tianyao, Merlez, Liu Jie, and Liangyun have all built wild fortresses. All the methods will build the fortress as soon as possible, and there is no time for war. "

Everyone nodded.

Lu Yang took out the baby he got today from his backpack and said to Bai Shi Sanxiong: "You have Bai Xiaoxiao come over, and the rain of tranquility forbidden by the wood system belongs to him."

"Okay." White Lion sent a message to Bai Xiaoxiao, and soon, the little girl ran in happily, stood in front of Lu Yang and said, "Thank you brother."

Lu Yang smiled and handed the curse to her and said, "Next time you fight, you are an indispensable member of our guild, you know?"

"Yes." Bai Xiaoxiao made a salute gesture.

Lu Yang asked Bai Xiaoxiao to sit aside, and he put the transfer certificate of the Wind Element Elf on the table, and said, "Look at this."

Seeing the transfer certificate, Sirius was surprised and said, "Wind Element Wizard, boss, is this the same level as your transfer?"

Lu Yang nodded and said, "Same level, call your cousin, isn't he called Wudingfeng, this is his."

"Thank you." Shooting Sirius was so excited that he called his cousin over immediately. His cousin chose a human race. He was originally afraid that shooting Sirius could not meet in time with the orcs. Unexpectedly, his cousin accidentally became a rare wind mage because of his personality.

Soon, Wuding Youyou walked in, this is a very handsome guy, known as the first handsome in Shaanxi.

“Brother, what is it?” Wu Dingfeng asked Lu Yang.

Lu Yang handed the transfer certificate to Wu Dingfeng, and said, “Sent you.”

Wudefeng poked his lips and asked, “What is this, is it useful?”

Shooting Sirius can't wait to kick his cousin and talk to Lu Yang so, and I don't know what he thinks.

Lu Yang didn't care. He and the relatives of the vice chairman had already become familiar with each other. They were all a bunch of little farts who were just getting together. Some of these vice chairman were not very rich. Wine pouring and shooting Sirius, but since they followed Lu Yang, the net worth is extremely rich.

In order to enable the children in the family to have a better education, they will not allow the children of their relatives to go to the domestic universities, and they will all be sent to private international studies. They will go abroad to study in the next year after finishing high school.

These international private schools are not very academic, and the little ones have a lot of time to log in to the game every day, which is why Lu Yang dares to give the rain of tranquility to Bai Xiaoxiao.

Lu Yang said: “This is a baby, don't you call yourself the first handsome in Shaanxi? I never thought that if you add a pair of wings to yourself, flying in the sky will be more handsome.”

Wu Dingfeng's eyes brightened and he said excitedly, “Can I fly after changing jobs?”

Lu Yang said, “You can't fly after you transfer, but if you want to fly, you need to transfer first.”

“I turn.” Wu Dingfeng snatched the certificate immediately.

Lu Yang shook his head with a smile and said, "Don't go out and tell people about this. Your flight is of great use to the guild, you know?"

"Okay, I'll upgrade first." Wu Dingfeng ran away.

Shooting Sirius said sorry: "Boss, my cousin has no rules, you don't mind."

Lu Yang said: "I think they are their brothers. It's okay. Everyone continues to upgrade and call me at level 80."

"Okay." The crowd said together.

Quit the game, Lu Yang rested, early the next morning, Lu Yang logged in to the game, and just about to log in to the Elemental Temple of the Wind, suddenly, a message appeared on the World Channel.

[World Channel] Liang Yun: From today on, eternal glory is incompatible with Liu Jie. Liu Jie, you mean man, you will be punished.

Lu Yang saw this news and was stunned. Tu Feng and others were also stunned. It happened that everyone was playing in the conference room, and everyone was together.

Tu Feng said: "Not good, something must have happened, otherwise people at Liangyun level will not curse Liu Jie on the World Channel."

Xia Yuwei asked Lu Yang: "Can you still contact eternal glory?"

Lu Yang said: "Liang Yun announced that he and my guild have dismissed the covenant and blacklisted me. Now I only have the contact information of Ye Nantian, his vice president, and I will ask."

He sent a message to Ye Nantian and asked, "What happened to you?"

Elf clan.

In the emerald king city, Ye Nantian and a number of guild executives were helplessly looking at the Liangyun sitting in the chair in the conference room. At this time, where was the appearance of the guild president in Liangyun, his face was full of sullen expression. Hate.

“I want to kill Liu Jie, I must kill Liu Jie myself.” Liang Yun roared.

Ye Nantian was about to speak. When he saw the news from Lu Yang, he sighed, walked outside the door, and dialed Lu Yang’s speaker.

Lu Yang was waiting for Ye Nantian’s reply. He did not expect Ye Nantian to call. He pressed the connect button and asked, “What happened?”

Ye Nantian felt lost, and he couldn’t open his teeth, gritted his teeth and said, “Chairman Lu Yang, I made you laugh, this time we were fooled by Liu Jie.”

Lu Yang opened it, and frowned, “What’s going on?”

Ye Nantian said: “The **** of war was taken away by Liu Jie.”

Lu Yang suddenly felt scalp and asked, “How is it possible that the **** of war can be taken away?”

Ye Nantian smiled helplessly and said, “We deserve it. The boss of Liangyun really believed in Liu Jie’s alliance. When he built a large number of wild fortresses, he did not guard against Liu Jie’s sneak attack. As a result, 3 red The mist fighters and nine demon mages were instantly killed on the spot, and the heart of God of War was so lost. “

...

It took almost 20 minutes for Ye Nantian to tell the whole thing. It turned out that Liang Yun was still guarding Liu Jie after the alliance between Liu Yun and Liu Jie, and he installed a large number of spies inside his guild. The dead grass was all picked out by the sorting method, but these spies did not know.

According to the news Liang Liang got from the spy, Liu Jie left only a small number of players in the Star Fortress. The rest went to upgrade, play equipment and develop the fortress. Liang Yun decided to follow suit to develop the fortress.

One of the biggest problems in developing fortresses is the need for a large number of players to open up wasteland. Liangyun is anxious to achieve success. At the same time, more than 60 fortresses are built at one time. More than 3 million people were originally upgrading and playing equipment.

Building a fortress is not a simple matter. Many small guilds, studios, and casual players around it like to attack elite guilds.

Dead is nothing more than dropping a few junk equipment win the opportunity to burst out good equipment, so each fortress requires a large number of players.

Liang Yun gradually felt the increase in pressure. In order to solve this problem, he also joined the ranks of the wasteland, personally took 2,000 masters, let these 2,000 people **** him, he rushed into the fort to chop.

With the God of War godhead, he was able to clear a fortress within 3 hours by himself. He cleared 8 fortresses in a row. When Liang Yun and these 2000 people gradually relaxed their vigilance, Liang Yun had just entered the 9th fortress to clean up. Mobs, as a result, suddenly a group of Red Mist soldiers and demon mage appeared.

Red Mist soldiers have strong control skills, as well as super high defense skills. Although the power of Liangyun's God of War is very high, as long as he is controlled, he cannot use active skills, only physical attacks. A Red Mist soldier I can't cut it.

At the same time, even the demons he controlled could not be opened. At this time, 9 demon mages jumped out, using special skills to attack Liangyun, the finger of death * can kill 10,000 individuals, and 9 people can fight together. The cloud was instantly spiked.

Immediately afterwards, a space thief picked up the God of War Goddess. Although the others were killed by Ye Nantian who was rushed over, the God of War God has been lost.

Chapter 830 - Gratitude

Lu Yang asked, "What are you going to do now?"

Ye Nantian said: "Liang Yun wants revenge, but the vice presidents and investors in the guild do not agree, and now they are persuading."

Lu Yang said, "Persuade him, you can't fight, you can't win, you need to find a time for him to contact me, I will help him think of a way."

Ye Nantian said with emotion: "Chairman Lu Yang, thank you so much. You can see at this time. It is still your morale that you did not blame our boss for betraying his faith and helping us."

Lu Yang said: "I can't help much, you still have to rely on yourself."

Lu Yang also had Ma Lizhe and the Poseidon Army around him. He couldn't help much if he wanted to help.

Now Lu Yang has reacted. It turned out that Liu Jie and Liang Yun had no peace of mind when they formed an alliance. Liu Jie and dead grass counted Liang Yun's arrogance and set ambush to steal Liang Yun's God of War. Obviously, Liu Jie was going to start a full-scale war against Liang Yun.

Lu Yang originally planned to fight Liu Jie after leveling the clan. Tianyao also planned to level the orc first, but Liu Jie also had this intention.

In this case, Lu Yang actually relaxed a lot. Liu Jie would not be able to destroy Liang Yun at one and a half. Instead, he could use this time to destroy Mai Lizhe.

After closing the interphone, Lu Yang let everyone upgrade each other. He arrived at Saros through the teleportation team of St. Gall. He prepared to increase the intelligence of the entropy ball, the wood spirit ball and the wind spirit ball.

Although Blazing Hearts can destroy the lord's 5% blood limit per output, he has an output limit, the highest value is 50 times the damage of intelligence.

With Lu Yang's current intelligence, he can destroy more than 200,000 blood of the lord. This is no different from a lord who has a billion blood.

Each elemental ball can carry 1000 intelligence. He has 3 in his hand. After filling all 3 of them with intelligence, he can add 3,000 intelligence. Each time he uses the flame attack, it can increase the damage by 150,000. Allows him to reduce a lot of playing time.

One more thing, he must also come. To increase the intelligence of the elemental ball, only kill the lord.

The lords in the game are too rare, it is difficult to grab them in the wild, and the refresh speed is slow. Unless they are played in the dungeon, the lords in the dungeon are deep in the dungeon. Even ordinary dungeon, it takes 5 to the lord Minutes of time, including kill time and time to run out, also need more than 10 minutes.

I remember that the boss of a guild in the last life got this elemental ball, and it took a month to repeatedly kill the lord in the copy, which only filled an elemental ball with 1000 intelligence.

There is only one way to solve this problem. The element ball only needs the soul of the lord to improve his intelligence, but does not require the lord to be true or false.

There are a large number of true and false lords in the sleepy dungeon outside Saros. Some players have tested it in the last life, and the intelligence is as good as the fake ones.

The dungeon will open for one day a month. Today is exactly an open day. This time, he will not fill the three **** with intelligence first, and he will have to wait another month next time.

The light flashed.

Lu Yang appeared in the city of Saros.

“Team and team, the ancient King King copy, as long as the level 35 or higher, hurt more than 1,200 soldiers, go down the standard.”

“Whether the Red Snake Mountain has killed the snake, the dropped items are evenly divided.”

“The team that killed Golden Pig Pig is in the end. As long as only one output is available, don’t come if the damage is less than 1500.”

...

Lu Yang watched the teleportation team here with shouting players everywhere with some emotions. Today’s Sarros city is no longer the Sarros city he came from.

I thought that when he came here to fight against monsters, he was alone in the whole city. Now look at the city, there are tens of thousands of people, all of which are more than 30 trumpet.

Lu Yang was wearing a 22-level spore cape and walked out of the square. It can’t be entrusted. Everything in the game can be encountered, especially Lu Yang, who is a baby all over his body. Big.

One of the most popular game methods in “Second World” is to kill local tyrants. There are too many people in the game. Take Lu Yang as an example. If he dares to show people in true face, he rides the Red Flame Lion King out of the safety zone.

Lu Yang can use his head to guarantee that as soon as he steps out of the safe zone, the overwhelming magic will kill him.

The most common in the last life is the news that a guild boss accidentally walked out of the safe zone and was killed by countless magic spikes.

Recalling the countless number of players wearing the top gear in the last life when they returned to the safe zone, the first thing they did was to save their top gear, he couldn't help but want to laugh.

After walking out of the city gate, through a desert, and into the field map, Lu Yang replaced the Red Flame Lion King and ran quickly towards the death cave.

The players who played monsters along the way saw the unique appearance of the Red Lion King, and they recognized that the person on the Lion King was Lu Yang.

"Wow, the boss of the Jagged Brotherhood."

"No one is moving at this speed, it's too fast."

...

No one along the way dare to fight Lu Yang. These people are low-level players, and their attacks will not hurt Lu Yang.

After 20 minutes.

Lu Yang ran to the door of the death cave and entered the cave. There are also many players here upgrading, all of which are monster bodies along the way.

Came to the dark abyss at the deepest part of the cave. Suddenly, the fierce fighting in the distance made Lu Yang look curious.

Lu Yang walked curiously against the wall, and at a glance he understood that it turned out that the two were fighting for the ancient King of Kings.

There are more than 30 players on both sides, and they are also full of toxins. This is the method disclosed by Lu Yang on lùntán to fight ancient kings. With such a poison, they will no longer be poisoned by ancient kings. .

“Kill their treatment first.”

“Kill that treatment.”

“Kill the mage, kill the mage first.”

...

Both sides shouted and shouted.

Lu Yang was watching it with interest, and suddenly, he found that there were two acquaintances among them. It was the last life who helped him when he was a rookie. For more than 10 years, he could not call them by name. But they can be recognized at a glance The two are classmates, one is named Peng Yang and the other is Wei Chu. Unfortunately, the two of them did not play games because of work. Both, since this time there is a chance, Lu Yang decided to repay.

He slowly walked out from behind the corner and walked towards the center of the battlefield.

“somebody is coming.”

“Caution is the enemy’s reinforcements.”

“Caution is the enemy’s reinforcements.”

Both sides shouted at the same time so that the people on both sides froze, then both sides looked at Lu Yang together.

“Boy, just go away if you don’t want to die.”

“Get out.”

...

Lu Yang was speechless. He was wondering if an 80-level bully and a 30-level trumpet were too embarrassing. Since they scolded people first, they were not welcome.

Chapter 831 - Elemental Ball Charge

Lu Yang condensed a flame in his left hand, looking at the player who had scolded him, and said, “You look for death, dare to scold me.”

The players on both sides were stunned. They did not expect that Lu Yang would dare to challenge one of the players.

“Boy, what do I scold you for, you will kill me to fulfill you.” A player holding a big sword continued to scold Lu Yang.

“Flame Cross”

The flame in Lu Yang’s hand turned into a cross shape and spun up at high speed, and he shoved away fiercely at the soldier who had scolded him.

“What skill is this?”

“Why is it still spinning?”

...

Players on both sides are dumbfounded, this flame skill is obviously beyond their cognition.

The soldier player responded very quickly. He thought it was an ordinary fireball, and he could open more. However, the flame cross was flying 50% faster than the big fireball. He was hurried to use the backflip and was able to avoid the cross. attack.

Just when he was proud of his reaction speed, without waiting for him to land, the Flame Cross skipped his side to change the trajectory and turned back and hit his back.

“22186” {Critical Strike}

Fighter player, die!

Players on both sides automatically stand in two rows instantly. They are all trumpeters with more than 30 levels, up to 1,000 injuries, and come with more than 20,000 injuries in any one skill, which is obviously not what they can deal with.

One of the killed fighter players hurried out and said to Lu Yang, “I’m sorry, this boss, we didn’t mean it. Well, don’t kill us.”

Lu Yang said, “Let’s go.”

He was also not interested in killing a bunch of trumpeters, and he was ashamed when he spread it.

The soldiers on the warrior side thanked them very much, and quickly rescued the soldiers, and a group of people ran away.

Peng Yang saw a player running away, looked at Lu Yang and looked at the ancient king who was about to die, and reluctantly said to Lu Yang: “We are gone too.”

Lu Yang looked at Peng Yang with a smile inside, and said, "I have no resentment against you, I will not kill you, I will fight for you."

Five or six players such as Peng Yang and Wei Chu thought that the lords they had had were gone, and Lu Yang didn't think so.

"Master, don't you grab equipment from us?" Peng Yang asked in surprise.

Lu Yang said, "What am I robbing this lord?"

He took a look at the ancient King Wang's blood, and there were less than 100,000 points left. He killed the ancient King King with 5 flame crosses, and burst out a two-handed sword and a transfer certificate.

Peng Yang and others were stunned.

"Isn't the ancient King of Kings exempt?" Wei Chu asked.

"Yeah, none of our spells can kill blood. How did he do it?" Peng Yang said depressedly.

Everyone shook his head.

Lu Yang said, "Let's pick up the equipment, what are you doing?"

"Oh." Peng Yang walked quickly and picked up the equipment on the ground.

Lu Yang looked at their equipment. They were all ordinary. There was nothing too good. He thought about it and said, "Let's go, join me in the team, and I'll take you up for a while."

Peng Yang and others were ready to run. Who dared to grab a land with such a large size and heard Lu Yang say so, a few people showed surprise.

“Boss, we will organize you.” Peng Yang initiated a team invitation to Lu Yang.

Lu Yang clicked to agree.

Peng Yang and others excitedly opened the team list. When they saw Lu Yang’s name, several people were stunned, looked at each other, and looked at Lu Yang again.

“You are the old mainland Yang of the Brotherhood of the Iron Blood?” Peng Yang felt something blocked in his chest, as if he was about to erupt at any time.

Lu Yang said, “Yeah, knowing a match is a fate. Come with me and take you to upgrade.”

“Oh, thank you, Boss.” Peng Yang and Wei Chu said together, they are all ordinary players, they do n’t have any equipment on them, and they usually do n’t even have people to upgrade them. Upgrade, which made them extremely excited.

Lu Yang took them to the depths of the ground, the position of the simple teleportation circle painted with white paint.

Wei Chu looked around and found that there is no strange here, and there is also a dead end ahead. He asked curiously, “Boss, what are we doing here?”

Lu Yang looked at the sky. The moonlight above shot directly at the teleportation array. He turned to Peng Yang and others and said, “Follow me.”

Peng Yang and others watched Lu Yang enter the teleportation array with surprise, and turned into a white light before their eyes.

“There is a secret map here!” Peng Yang said in surprise.

“How come we haven’t seen it so many times before,” Wei Chu said.

“No matter what, the opportunity is rare, but this is a secret map held by the Jagged Brothers Union. Follow it soon.” Peng Yang said.

A group of people rushed into the map.

System prompt: You have entered the dungeon

“I’m dizzy, why are there so many lords.” Peng Yang just came in and saw five or six lords standing not far away.

Wei Chu and others also stepped back scaredly. Once so many lords are led by them, they are expected to be killed.

Lu Yang said with a smile: “Don’t worry, some of these lords are fake, just like ordinary mobs outside, they just look foolish.”

“Fake?” Peng Yang asked.

Lu Yang raised his hand and hit a Pyroblast on a Wind Elemental Lord.

“44168” {Critical Strike}

The Elemental Lord roared and rushed towards the landing sun.

Lu Yang: “...”

Peng Yang: “...”

Wei Chu: “...”

“Oh, this is true.” Peng Yang hurried to the rear, but he just turned around and found that there were also a group of lords 30 meters behind him. He could only hide behind Lu Yang.

The Lord of the Wind Elements ran to Lu Yang and hit him with a fist.

“2612”

Lu Yang’s blood volume is more than 100,000. This injury is no different to him than not being beaten, but this makes him very shameless.

“The Sun Fist”

He punched his left hand in the wind element lord, hitting the wind element lord level 30 more than 30 meters away.

Wei Chu: “...”

Peng Yang: “...”

They found that Lu Yang seemed more terrifying than the level 30 lord.

“Great Lord of Flames, please listen to my prayers ...” Lu Yang waved his staff and said a spell in his mouth.

After 30 seconds, he pointed forward.

“The flames burn out”

A huge skull emerged in situ with Lu Yang as the center. For a moment, all kinds of true and false lords within 2000 meters were simultaneously injured Critical Strike}

“25199”

...

The fake lord died instantly, while the real lord ran towards Landing Yang, but Lu Yang was a World Destroyer suit with more than 4,000 physical defenses and more than 100,000 health. The true lord could not beat much blood on him.

Level 30 lords generally have between 1 million and 1.6 million hit points in just 20 seconds. All lords within 2,000 yards are killed.

For a time, countless lords and ghosts flew towards the landing sun, and the three elemental **** flew out of Lu Yang's body, inhaling all the ghosts.

Lu Yang looked at the data. The intelligence value of the Entropy Ball reached 1000 points, which is full!

There are more than 20 points in the wood element ball, but not in the wind element ball.

This proves that Lu Yang just killed 1020 true and false lords in that attack.

Chapter 832 - Gemini Palace

“My God.” Peng Yang said dumbfounded: “Boss Lu Yang, your output is too high, the lord did not hold you a curse.”

Wei Chu and others nodded repeatedly.

Lu Yang said with a smile: "You will be like me when you reach level 80. Pick up your equipment and give it to you."

"Really ?!" Wei Chu said in surprise: "Thank you, boss."

Peng Yang said: "We help you blame, just wait here."

Lu Yang shook his head and said, "Your speed is too slow. I'll do it myself."

One of the characteristics of the lord monster is that he will not give up the pursuit of the player easily. Lu Yang turned on the hot and rapid speed and ran out of the sight of Peng Yang and others, rushed into the distant monster group, and took most of the map. After the monsters were attracted, he stood in the middle of the monster and chanted a spell.

After 10 seconds.

Lu Yang's staff pointed forward.

"Meteor Fire Rain"

Tens of thousands of large fireballs landed in the strange group from the sky.

"47186" {Critical Strike}

"26886"

...

After 10 seconds, the blockbuster fake lord died. Lu Yang glanced at the Elemental Ball. The soul of the Wooden Elemental Ball and the Elemental Wind were full. He glanced at the property panel and added more to the column of intelligence. 3000 points.

“Unfortunately, there are only three elemental balls.” Lu Yang sighed with regret. If he has nine, he can complement his intelligence here.

After he waited for the true lords around him to die, he returned to the entrance and built a sentry tower there.

Peng Yang and others were still picking things up and didn't return. He sent a message to Peng Yang and said, “I still have something to do. I have to go first. You should upgrade slowly here. Come in again and wait for the next month.”

Peng Yang knew that Lu Yang would not have much time to take them to upgrade, and said, “Thank you, boss.”

Lu Yang knew that Peng Yang and Wei Chu were not in the game. In the future, they will still have to quit the game and work in society. He cannot force the two to develop in the game. He can only let them be equipped at the current level. Worry-free.

“All the equipment hit here are sent to you, goodbye.” Lu Yang withdrew from the team and returned to Hongsha Town using the transmission staff.

He called Lan Yu and asked, “How is your priesthood of the Holy Light?”

Lan Yu said with a little pride: “It's level 77, not far from level 80.”

This is a group of 300 priests of the Holy Light. All of them are high-level priests who have a turn. They have superb skills. Lan Yu chooses báchūlái from the team and upgrades with him.

Lu Yang issued a coordinate positioning, saying: "Let them come to Hongsha Town in batches, don't tell them where they come first, remember to hide."

"Okay," Lan Yu said.

These priests have investigated through Tu Feng and determined that there are no problems. This time, the equipment stolen by Lu Yang from the Fire Spirit Hall, the equipment belonging to the mage department of Xia Yuwei, was given to the blue priest group.

The prophet was walking back and forth in the town, and when he saw Lu Yang, he asked, "Boy, have you killed the twin demon gods?"

Lu Yang said with a smile: "I'll go to him."

"Oh, that's really great. If you can kill the twin devil, you will get our worship." Said the prophet.

Lu Yang smiled and said, "I'll try."

This worship is a very difficult achievement to obtain. Once he is worshipped, he can purchase a level 80 dark gold ring in Hongsha Town.

Lu Yang replaced the Red Flame Lion King and ran out of the town. He ran along the avenue for more than half an hour and came to the crossroads. On the right is the Wanhun Temple, and above is the Twin Palace.

"Calling fènghuáng"

Level 15 fènghuáng emerged from the sky, and Lu Yang controlled fènghuáng to clear the **** demons all the way, and ran into an extremely beautiful marble castle.

System prompt: You found the Twin Palaces

Eight human form demons with long swords of flames guard the sides of the door.

Half Devil {Elite}

Level: 80

Qi and blood: 200000000/200000000

They have crooked horns, their faces are horrible, they are about 2 meters tall, and they are very slender and strong.

Although they are holding a fire arrow in their hands, Lu Yang knows that they know the long-range attack skills, so if he wants to fight here, he can only take part in the attack.

“flicker”

With a flash of white light, Lu Yang appeared in the middle of the gate, exactly in the middle of the two teams of half-devils.

“Human, **** it, kill him.” Six half-devils roared at the same time, and ran to Lu Yang with a flame sword.

“Yan Yang Suo”

A red-gold light appeared from Lu Yang’s body, trapping six half-devil people in place, and fènghuáng appeared in time with Lu Yang.

“Fènghuáng shock”

A crimson glow erupted from fènghuáng’s body to the surroundings. The half-demons suffered a large amount of fire damage, but they were unable to move under the control of Yan Yangsuo.

After 10 seconds, the half of the six half-devil had only half their health left. They were about to return to zìyóu, and Lu Yang jumped out of the encirclement and ran fènghuáng towards the distance.

The half-magic man just returned to the action and chased after Landing Yang. Their fire magic attack distance was 30 yards. Lu Yang kept a distance of more than 30 yards with them at all times, waiting for fènghuáng's skills to cool down.

“flicker”

Lu Yang jumped back to the middle of six half-magic people.

“Yan Yang Suo”

The 6 half-fiends were trapped in the same place again, and Lu Yang ordered fènghuáng to use fènghuáng to strike again, and Lu Yang output with full force.

After this continued for another round, 6 half-devil men were killed in place, 6 gold-level equipment were dropped, and Lu Yang was put into his backpack.

He walked towards the castle. Normally it was very difficult to find the final lord in the castle at least several hours to run to the top of the castle.

Lu Yang didn't need it. The mage profession was better than other professions. He came to the side of the castle and looked at the position above.

“flicker”

A white light flashed, and Lu Yang jumped to a prominent balcony on the left side of the castle. When he entered, he hid using a stealth potion. Inside the balcony was a promenade, and a team of half-devil patrolled the corridor.

Lu Yang did not walk into the promenade, but climbed to the roof above the balcony. The Twin Palace is a very large castle. His current position is the side hall, and the main hall is inside.

Lu Yang walked along the roof to the end, jumped to the minaret opposite the main hall with a flash, and used a bottle of stealth potion again, he walked into the main hall from the spiral staircase inside the minaret.

Through the promenade on the top floor of the main hall, Lu Yang came to a library. In the center of the library, he saw two very beautiful statues.

Lu Yang walked to the center of the two statues. Suddenly, a golden light flashed and Lu Yang disappeared in place. 8

Chapter 833 - Solo Gemini

Lu Yang blocked his eyes with his hands and waited to restore his sight. He looked around. This was a space full of flames, full of lava and red stones.

About 80 meters away in front of Lu Yang, there was a chariot with red flames. He was driven by four flame war horses, and two humanoid demons stood on the car.

Twin Demon [Lord]

Level: 80

Qi and blood: 1500000000/1500000000

This is the twin fire demon **** that the prophet asked Lu Yang to kill. According to official history, the twin demon gods are the strongest fire lords in the advancement of the **** army. Both demon can attack with fire spells.

In the last generation, the twin demon gods were a nightmare for almost all players. Countless people received the task of killing the twin demon gods, but no one person or team could do it.

The two demons in the Twin Demon share blood, but they do separate when attacking, that is, one lord is equal to two lords outputting at the same time.

The twin demon's attack method has the player's second turn skill fire load. Each time fire damage is taken, 8000 fire damage will be added. This damage will continue to stack, and it will not be capped.

An anti-riding and druid with super high magic resistance can only prevent 8000 fire damage at most, but his damage is superimposed. From the second time, anti-riding will take fire damage. Up to 4 times. You must change to an anti-riding to resist the monster, and wait for the flame load to disappear before you can fight again.

The twin demon's attack speed is very fast. If you want to use the substitution method to resist the monster, a demon needs at least 4 anti-riding, and two demon need 8 anti-riding.

The characteristic of the field lord is that the player who hits him can't exceed 20 people, and more than 20 must double his health.

The 1.5 billion HP is already very desperate, doubling to 3 billion HP is even more unacceptable, but if only 20 people are used to fight, anti-riding will occupy 8 places, and the remaining 12 There will be 3 treatments in the individual, and only 9 people will be exported.

The top-level players at level 80, even in a suit of World Destroyer injuries, were only in their early 10,000. In the face of 1.5 billion health, these nine people have no choice but to help.

In addition, these lords have super high magic resistance, 10,000 magic damage may not be able to deal 3000 damage, can not fight Gemini devil at all.

The only thing that can cause damage to the Twin Demon is the spell skills after the second turn, and an intelligence-based damage formula can.

There is also the most difficult point. The twin demon gods have no bugs. If you want to fight, you can only rely on your strength. There was a big **** in the last life who demonstrated the heads-up play. Although the twin demon gods are casting at the same time, they have one of the biggest disadvantages.

They are standing on top of a flame chariot. This flame chariot itself is a magic formation, which can provide them with an additional 30% bonus to fire spell damage. This only increases his damage so much, but this flame The chariot has a huge disadvantage, and it takes a lot of effort to move around in situ.

In the last life, a great **** once demonstrated that as long as you keep attacking this flame chariot in a circle, you can kill the twin demon gods. Of course, the premise is that your reaction speed is fast enough, and the second is that you can persist.

1.5 billion health, Lu Yang's Fire Cross only hurt more than 10,000 points each time. The reason why he didn't dare to come before is here. He was afraid that he could not keep running in such a circle. After all, the chance of output was too small. .

He moved his body a bit, and slowly walked to the position of 45 yards from the flame demon, which was the limit distance that he thought he could avoid the magic spell.

“Lava Eruption”

Lu Yang's staff pointed at the chariot at the feet of the twin demon gods, and a red lava lake surrounded the flame chariot.

“20196”

“40006” [Critical Strike]

...

With 3,000 more intelligence, and the ability to increase the skill level of the demon heart and the flame mark, the lava eruption finally hit high damage.

“Humans, how dare you challenge Hell.” The twin demon gods said the same sentence to Lu Yang at the same time, and their voices had an inexplicable deterrent that made people uneasy.

“Black Hellfire”

“Black Hellfire”

...

Both men used black flames on Lu Yang at the same time. The flames were very large, the size of a small meteorite, the shape of a roaring leopard, and a distance of 45 meters hit Lu Yang in one second.

Lu Yang was running around the twin demon gods, and the two groups of flames fell dangerously and dangerously less than 5 cm behind him.

The twin demon gods saw that Lu Yang didn't hit the skills, and Lu Yang attacked around them. Under the anger, the two quickly threw the skills, and a huge group of black prison fire went straight to Lu Yang's head.

Lu Yang didn't dare to stay at all. He ran to the side of the twin demon gods and was able to breathe. The twin demon gods were so big that they couldn't turn around on the chariot. They could only order the flame warhorse on the chariot to move sideways.

The worst thing for equine creatures is to move horizontally, which gives Lu Yang a chance to gasp, and his right staff points to the twin demon gods.

“Blazing Heart”

A blaze of flame was centered on the left demon's heart.

"1749800"

When the attack hit, the demon's blood volume dropped obviously. At this moment, the chariot was about to face the landing sun, and the twin demons continued to throw black jail fire.

Lu Yang continued to run around. When he encountered the opportunity again, he threw two flame crosses at the twin demons.

...

Blazing Hearts attacks every 30 seconds, and can only kill 1.74 million health each time. Taking into account the lava eruption and the ability to throw 2 flame crosses every 5 seconds, Lu Yang can kill the Gemini 300 every 30 seconds. Thousands of health.

This is too little for the 1.5 billion Gemini deities, and Lu Yang can only continue to grind blood slowly.

"Boss, just got the news. Regardless of his dissuasion, Liang Yun insisted on fighting with Liu Jie." Tu Feng called and said.

Lu Yang frowned and asked, "Is he stupid, what do you think?"

Tu Feng said: "No way, Liu Jie used a detrimental trick to show off the God of War **** on lùntán every day, and in the game, he continued to call Liang Yun a fool. The eternal glory of Qiu was already low in morale, and now Liu Jie is still ridiculing, Liang Yun can't stand it. "

Lu Yang said: "Liangyun Iron must be finished. Look at it. Liu Jie and the dead grass **** can play Liangyun to death."

Tu Feng said, "I agree."

“What happened to Mai Lizhe in Tiewang City?” Lu Yang asked.

Tu Feng said: “The lonely half moon and the sword killing **** can’t support it. After the retreat of the sea **** and the hegemony, Mai Lizhe’s army pressed to the iron king city. It is estimated that the sword killing **** and the lonely half moon should give up the game these two days. “

Lu Yang said: “Ma Lizhe won the hegemony and lay the iron king city. It is estimated that this boy has to float.”

Tu Feng said with a smile: “It’s not only him, Bian Wuji and the ancient king are drifting away. The two men on lùntán made a frank statement that they would hit us.”

Lu Yang laughed and said, “I will go to that post when I have time, and I will kill him. I will complete him.”

Chapter 834 - Chariot of flames

In fact, Mai Lizhe, the ancient king, and Bian Wujie did have mad capitals. Without the constraints of the hegemony and the sword killing gods, they really had the ability to fight Lu Yang.

Iron King City.

Mai Lizhe, Bian Wuji and Gu Wang are carrying tens of thousands of players in the wild to hunt down the sword and kill God and the lonely half-moon remnant army. The number of the two together is less than 10,000.

“I still want to attack us, really killing me,” said the ancient king proudly.

The Sword Killer and Lonely Half Moon cooperated for the sake of their interests and were ready to take back the Iron Fortress while the three were playing the hegemony. However, the withdrawal of the hegemony allowed the party to free up. The three took advantage of this opportunity to fight. With the sword killing God and lonely for half a month in an ambush.

Bian Wuji said: "You two go back, I can clean him up alone, just to give my skeleton a level."

If the skeleton kills, the level will increase more quickly. Although it has won the hegemony, the endless skeleton army has suffered heavy losses. There are only more than 20 platinum skulls left. He urgently needs to upgrade the skull level.

Mai Lizhe said with a smile: "Brother attacked casually, we will give you a bet, and just use this opportunity to upgrade your skeleton in Iron King City."

Bian Wuyi's eyes brightened and he said, "Do you agree with me to kill anyone?"

After taking down the city of Nikko, he wanted túshā players to raise the level of the skeleton, but was rejected by Merritt.

Mai Lizhe said: "This is not the same as Sunshine City. The Iron King City is a place of right and wrong. The forces here are too complicated. It is easy for recruiters to mix in Lu Yang's spies, and it is also easy to have a sword killer and lonely half moon Wait for the old ministry.

I thought about it, not to recruit players here, let's talk about the spirit of killing the players here, lest these people wait for Landing to prepare for rebellion. "

The ancient king said, "I agree. People here always think that Lu Yang is stronger than us. It is better that you túshā be here to make more platinum skulls, and to prepare for a fight with Lu Yang in the future."

Bian Wuji smiled and said, "I can rest assured that you and me will start túshā."

As soon as he waved his hand, more than 1 million skulls flew swords to kill God and the lonely half-month coalition. The two players gathered had long lost their morale, and they collapsed as soon as they attacked.

“Boundless, I will never spare you.” The sword killer roared with a voice of hatred and was drowned in the skeleton army.

Lonely half month also screamed, was destroyed by the skeleton army, 10,000 players died, and many gold skeletons emitted shining white lights, which was a precursor to the upcoming upgrade to platinum skeletons.

With a wave of his hands, Bian Wujie took the skeleton army to the outside of several important upgrade copies, wantonly túshā Bian Wuyou and the lonely half month of the original guild and affiliated guild players, of course, there are a lot of manslaughters, but other guild players can face Skeletons can do nothing.

5 hours later.

Ma Lizhe stopped the borderless túshā, and at this time, the number of platinum skulls under the borderlessness was enough.

“Hey, I think we can attack Lu Yang now.” Bian Wuji said.

The ancient king and Ma Lizhe were also very proud.

“It’s not working now, only your skeleton army and the ancient king’s poison can slay Lu Yang’s fortress, but the level of other members of our guild is not enough. If you can fight it during the day, you must let Lu Yang take it back at night.” Ma Lizhe said with a sigh.

The ancient king said: “At least let me save 5 more poisonous orbs.”

Boundlessly recalling the quality of Lu Yang’s players, he nodded and said, “It really needs to be prepared a bit, the players on both sides are not a level.”

Mai Lizhe said: "Half a month, you can upgrade some more skeletons, the ancient king goes to fight poison, I will take his men to upgrade equipment, half a month later we should be able to compete with Lu Yang."

"Okay." Bian Wuji said with the ancient king, and they set a time to attack Lu Yang.

Gemini Palace.

Lu Yang's last burning heart hit the twin demons.

"9168"

There are less than 100,000 points left in the twin demon's blood, and Lu Yang hits five flame crosses in a row.

"17619"

"17612"

...

"35660" "Critical Strike"

The twin demon gods on the flame chariot suddenly covered their chests at the same time and dropped the chariot.

System prompt: Congratulations to player Lu Yang, successfully killing the twin demon gods

A fragment of white flame fell from the demon on the left, and Lu Yang picked it up.

Blazing Shard

There is no description, but Lu Yang knows that this thing is the necessary material for the demon heart to rise to level 4.

Lu Yang looked at the other items.

“ Black Prison Magister Transfer Certificate ”, Black Prison Stone

Lu Yang was a little bit laughing. Yesterday he was still thinking about the transfer of Hei Yan. He couldn't think of hitting it today, and the black hellstones were all brought out. This thing is the same as the fire mark, which improves the fire skills of the black **** mage. Level, can be regarded as a weapon to kill the lord.

The biggest feature of the Black Jail Magister is that he does not see the maximum damage and the result of the damage. Even if their spell damage is not high, the incidental damage results can be continuously superimposed. When he stacks up to dozens of layers, he can Kill the lord.

Lu Yang put two items in his backpack. As he was about to go out, suddenly, he felt something was wrong.

The twin demons are dead, why are the flame chariots they are riding in still here? Looking at the flame chariots burning red gold flames, Lu Yang's heart was excited.

He tried to come to the chariot, clicked into the backpack, a flash of light flashed, the flame chariot really disappeared in place, he quickly looked at the backpack, next to his mount, it was the flame chariot.

Lu Yang hurriedly released the flame chariot, another golden light flashed, and the flame chariot appeared beside Lu Yang.

He was a little embarrassed. He never heard anyone say in the last life that killing the twin demon can explode the flames of the chariot. Isn't this thing that kills the flame lord of 100 to get a baby with a small chance, how can he here Hit?

Lu Yang jumped on the flame chariot with excitement. This car is very large, and the twin demon gods stand crowded on it. That's because the demon's body is large. For a human race player like Lu Yang, this chariot can Take 9 people.

The carriage as a whole is made of an unknown golden metal structure, carved with exquisite patterns and runes.

On the head of the chariot, there are four flaming war horses, two horses at the front and two horses at the tail. Each horse's neck has a bridle extending to the groom's position.

Lu Yang took four reins and waved them vigorously, and four flaming warhorses walked forward under his command.

War Horse Command: Walking, Running, Full Speed, Stop

Lu Yang looked at the command box that jumped out and was excited and didn't know what to say. In the last life, he dreamed of getting a flame chariot.

He looked at the attributes of the chariot.

Chariot of flames

Level: 80

Qi and blood: 500000/500000

Fire Spell Skill Level: +3

Stunt: Flame Aura

Description: Players can stand on the chariot of fire to launch skills, and death will drop.

Lu Yang couldn't help crying and sighing. He looked at his skill level. Originally, the flame mark increased by 5 fire skill levels, the destroyer suit increased by 1 level, and the demon heart increased by 3 levels. Now there is an additional flame chariot, and then increase The 3rd-level fire spell counts the 1st-level skills that he originally learned after the second turn, and his current skill level after the second turn is level 13.

This is not the most sighing for Lu Yang. The flame aura can increase the damage of spells by an additional 20%. The diameter of the range is 500 meters, which means that the fire players gathered around Lu Yang can increase their damage every time. 20%.

The last thing that excites Lu Yang is that the flame chariot can actually let Lu Yang output while on the move, that is, as long as someone drives him, he can stand on it and output continuously.

He looked at the moving speed of the flame chariot, which was 375% of the player's moving speed. Lu Yang was a little hesitant. No one could catch up with him unless someone ambushed him. With this chariot, he can challenge at any time. The level 80 lord is strange.

"Brother, we're here." Lan Yu sent a message.

Lu Yang asked, "Have you been to Hongsha Town?"

"No, it's at the entrance of the level 70 map. The monsters here are so good. They are so bloody, we can't fight them." Lan Yu asked.

Lu Yang said, "I'll pick you up and wait for me."

He flew to Hongsha Town with a teleportation scepter, clicked to summon the chariot, and the light flashed. He stood on the chariot of flames, sat in the position of the groom, waving the reins, and controlled the chariot toward the entrance of the map .

Many snake snakes came out along the way, and Lu Yang controlled fènghuáng to bring all the snake snakes on the road together, using fènghuáng to quickly kill them.

Lan Yu saw fènghuáng in the distance, but she didn't dare to come forward to help. There were hundreds of snake warriors around fènghuáng. She called Lu Yang and said, "Fènghuáng is amazing."

Fènghuáng has reached the full level under the chariot level bonus. The release of fènghuáng's impact speed is much faster than the original, and soon the snake snake fighter is killed.

Lu Yang said, "That's right I'm here."

Lan Yu stared into the distance, and saw a chariot of flames running from far and near.

"If you have a lord, don't come over," Lan Yu said anxiously, and she turned around to prepare all the priests to step back.

Lu Yang said, "How can there be a lord."

"I saw a chariot burning with flames," Lan Yu said.

Lu Yang laughed and said, "That's me."

"You?" Lan Yu watched in stun as the flame chariot approached gradually. When the chariot came near, Lan Yu really saw Lu Yang standing on it.

"It's you," Lan Yu said in surprise.

Lu Yang stood on the chariot and said with a little pride: "Not handsome."

“So handsome.” Lan Yu was so happy that she jumped onto the chariot, looked around, and said, “How did you get it? The attributes are so good.” 15

Chapter 835 - Sensation

Lu Yang said: “It took me 5 hours to kill a lord monster and it burst out.”

He sent Blue Feather out of the car, then took back the chariot of flames, and took more than 300 priests on foot to walk toward the Temple of All Souls.

“Boss, don’t you use chariots anymore, it’s so cool.” A priest player asked.

Lu Yang said, this thing pulls hatred, not only the hatred on the opposite side, but also the hatred of players in his guild.

Why do others walk you by car? A game, but not the real world, he doesn’t want players in the Jagged Brothers League to think he’s drifting, so it’s worth the money.

“Lend it to you if you like, and Lan Yu takes 8 people up at once.” Lu Yang gave the chariot to Lan Yu.

He went to clean up the mobs in front, and let Blue Feather take the 300 priests to the chariot in turn.

The target of 300 people is too big. If you want to go to the Wanhun Temple, you can only kill it. Lu Yang killed them for four or five hours before taking them to the place. At this time, 300 priests have also sat in chariots, and they are in a hurry. on.

“It’s your place to upgrade.” Lu Yang said.

“Where is this?” Lan Yu asked.

“Go in and know.” Lu Yang opened the teleportation array and took 300 priests into the interior of the Wanhun Temple.

As soon as they entered the hall, the eyes of all 300 priests shone into stars, as if they saw a treasure.

“Undead monster!”

“so much!”

...

The favorite of all priests is the undead monster, which doubles the damage and ignores the magic resistance. They are very easy to kill.

The normal outside world does not have so many undead monsters at all. There are zombies but the level is too low to be suitable for them to upgrade, and there are too few high-level zombies and undead monsters. Priest upgrades have always been a big problem.

“It’s perfect for us.” Lan Yu said happily.

Lu Yang said: “You are still wearing a level 60 superior gold suit. It is not easy to fight other monsters, but it is too easy for you to fight these monsters. Starting tomorrow, you will all concentrate on upgrading.”

“Yes,” Lan Yu said with Rev. 300.

Lu Yang asked each of the 300 priests to prepare. He took Lan Yu to the side and said, “The priest of the second turn can learn new dispel skills and specialize in restraining the boundless skeleton monsters. You take them to upgrade and I will go and give you a spin. Certificate. “

Lan Yu nodded clearly and said, "I will urge them to rise to level 80 as soon as possible."

Lu Yang nodded and flew back to the Red Fortress using the city roll. He called Hei Yan and said, "Come to the inner city of Red Fortress."

"Okay." Hei Yan has risen to level 79 and a half. He is rushing to level 80 with the fire team.

The light flashed, Hei Yan stepped out of the teleportation array and saw Lu Yang asking, "What is it?"

Lu Yang gave him the transfer certificate of the Black Jail Magister and the Black Jail Stone.

Hei Yan blinked and said in surprise: "My exclusive transfer certificate! Thank you, boss."

After Lu Yang laughed, after explaining the place where Hei Yan learned the second transfer skills, he returned to the hotel in St. Gall and rested.

In the early morning of the next day, Lu Yanggang finished his exercise and had breakfast in the cafeteria with Tu Feng, White Lion and others.

White Wolf looked at the news and said unhappily: "Who is so boring has posted a comparison of our strengths with McLee's on the forum."

"Oh, what did you say?" Zhou Tianming asked.

The white wolf said: "It is said that we could take advantage of the boss's devil's heart, and now Ma Lizhe has a poisonous heart and a death heart, and they also have special items such as ancient soul lamps and poisonous orbs. Compared with pure strength, it is much stronger than the boss. "

"Nonsense, let them compare with the boss, and the boss hits both of them alone," said Zhuoji Qingping.

Everyone laughed.

Zhou Tianming asked: "Do you have any comments from the players below?"

The white wolf said: "There are indeed many people who have doubts about us, and I don't understand what they suspect?"

Tu Feng frowned and said, "This is the enemy playing psychological warfare with us. We want to gradually dissolve our morale. The spiritual leader of the Iron Brother Brothers player is the boss. He cannot lose to anyone in any way."

"So what do you do, who knows what special equipment can match the boss." Asked bitter love for a long time.

"This must match the properties of the fire method, or they have to make a fuss." Tu Feng frowned.

Everyone frowned. They didn't want Lu Yang to lose to anyone else.

Lu Yang said, "I have this equipment. I just hit it yesterday and I haven't had time to tell you yet."

"Ah? Already." Asked bitterly, excited for half a lifetime.

Lu Yang just finished eating and said, "Go online and let you see my new equipment."

Everyone saw the mystery of Lu Yang's, and they were curious to log in to the game together.

In the safe area of St. Gall, the vice chairmen of Xia Yuwei and White Lion stood in line, attracting many players in St. Gall.

“Wow, all nine vice presidents of the Iron Brotherhood are dispatched.”

“What’s going on?” Someone asked.

“I haven’t heard of it. The boss wants to fight for us early.” A player from the Brotherhood of Iron Blood said.

“What’s the reason, is it because of last night’s post?” Some players asked.

“Cut ~! Who doesn’t know that our boss is invincible, what’s the difference between one more piece of equipment and one less piece of equipment.” Players with Jagged Brothers said unhappily.

“But Lu Yang has no special equipment supporting the heart of the devil.” A player said.

“You!” A group of Jagged Brother League players were furious.

“Look at me, there is no, there is no way to say.” The player continued to provoke.

The players in the Jagged Brothers Alliance couldn’t really argue, at this time, suddenly, there was a burst of exclamation in the distance.

They looked up, a chariot burning with red gold flames coming from a distance, and four tall chariots burning with flames made the chariot more powerful.

The chariot is very wide, and there is only one person standing on it. That person is the chairman of the Iron Brotherhood. He is holding the wreckage wand, a wreckage suit, and three dangling elementary **** behind him.

“What the hell.”

“My aunt, this is our boss.”

“What’s the situation, what kind of equipment is the boss and why did he still drive?”

“What are those three **** behind, and how do they appear to represent the three elements, flames, trees, and hurricanes?”

...

The players in the Jagged Brothers League are all embarrassed. They are too lazy to look at the players who have just refuted them. Lu Yang shocked them too much.

The players around Xia Yuwei and the White Lion were also stunned, and all looked at the chariot in shock.

“The boss of the Brotherhood of the Iron Blood fights too hard. The two are an ancient lamp and a highly toxic orb. This chariot and three orbs of different colors are not a level.”

“Ma Lizhe, what else do they compare with Lu Yang?”

“This is all right. Stealing the chicken won’t eclipse the rice. It doesn’t improve the morale of the players. It has to be reduced a lot, and there is no confidence to win Lu Yang.”

...

The voices of the players around me heard the ears of Xia Yuwei, White Lion, and others. Just now, they had seen the chariot and the orb from the picture sent by Lu Yang. At that time, they knew that this effect would be achieved.

However, when they saw this tank, they couldn’t help but be surprised, this tank was still too cool.

“Boss, you are still short of a driver, I will be the one.” Said bitterly for half a life.

Xiao Liang jumped onto the tank, grabbed the reins, and said with a smile: "I feel this position is right for me."

Bitter love said anxiously: "You grab my spot."

Lu Yang said, "Everyone comes up, and can stand still."

"We are here." Except Tu Feng and Xia Yuwei, the other seven people jumped up.

"I'm all standing. I'll try to drive first." Xiao Liang said, waving his reins and controlling the carriage to run forward.

The players in the safe zone are basically just online. They are strolling around the maps in the safe zone. Suddenly I saw this chariot and stopped to watch. There are good things I want to send this chariot to the forum. Go up.

But when they opened the forum, they found that this picture had been put on top of the forum. The poster was anonymous, but there was not only a picture of the chariot, but also an article with thousands of words, although he did not despise Mai Lizhe. However, I can see that it is in response to the previous article.

When I saw the news, I gritted my teeth and scolded, "Which **** posted the post that we didn't post."

The ancient king said, "I didn't send it either."

Ma Lizhe thought about it and said, "It's probably not Liu Jie's **** or Tianyao's bastard. I can't escape either of them."

"It's so stingy," Bian Wu cursed.

Originally, they were very happy to see the article yesterday It was only a reaction today. This was someone who provoked alienation. Now Lu Yang fights back. They either admit it or continue to fight back, but what do they take Counterattack.

On the other side.

In the villa of Liu Jie's house, the dead grass scratched his head and said, "The evil gate, how can Lu Yang always get the best equipment at the critical moment, and my scheme was wasted again."

Xue Yiming stood aside without any expression, and said, "Brother Liu, don't worry, at least this will make Mai Lizhe and Lu Yang's hatred deeper, and will also make them more vigilant. We also know Lu Yang's new killer."

The dead grass is quite comfortable, and glanced at Xue Yiming gratefully, saying, "It's just not clear about the effect of his flame chariot and the orb behind him."

Liu Jie said unwillingly: "This is simple, it is estimated that it will soon be exposed. Yiming is right, Brother Liu did a good job this time."

This strategy was deadly. He was afraid that Mai Li's philosophy would be a man. He made peace with Lu Yang and let Lu Yang fight him, adding a fire to the relationship between Mai Li Zhe and Lu Yang. Advertised Lu Yang.

Chapter 836 - General Ice Spirit

Xue Yiming said: "It is estimated that Mai Lizhe will not take the initiative to evade Lu Yang now. His previous evasion has damaged his reputation. It is estimated that his daring will not dare to fight with Lu Yang.

The dead grass is more comfortable in his heart. He gave Xue Yiming a high look and said, "Yes, I had the same idea originally."

Liu Jie's face eased a lot.

Xue Yiming took the opportunity to jokingly said: "Brother Liu just loves perfection too much. This is a shortcoming and needs to be changed."

Both Liu Jie and the dead grass laughed.

"Since they will not relax the relationship, we will fight Liangyun with all our strength, and strive to destroy him within a week, and then unify the entire Elves." Liu Jie said.

The dead grass said: "It is as if Yue Taishan and Yaowu Yangwei were there, and it is easy to destroy Liangyun, and your cousin Luo Cheng took the orc help. At the latest, we can unify the 16 main cities of the entire elves. "

Liu Jie's face showed the yearning light, saying, "As long as I integrate with the Elven tribe, I will be the first to annihilate Lu Yang at that time."

The dead grass frowned suddenly and said, "Look at the video, Lu Yang finally exposed the target. He is sitting on the chariot. Should we send a killer to ambush him?"

Looking at the image cast by the dead grass, Liu Jie was standing on the flame chariot and running in the safe area.

The dead grass said: "Usually Lu Yang could not find him with his camouflage coat. This is a rare opportunity to let God kill him. If he succeeds, he can still get the heart of the devil."

Liu Jie thought about it and said, "Is it too dangerous?"

Xue Yiming blinked and said, "Boss, I'll avoid it."

He had heard useful information, and it didn't matter if he didn't.

Liu Jie said: "Don't hide, you passed the test, we believe you."

Xue Yiming can be very difficult for Liu Jie's confidant, and not to mention other tests, the first polygraph alone can eliminate more than 99% of people.

The Liu Jie family had a whole set of ways to ask people if they were lying. Xue Yiming was almost tested out. Fortunately, he was a special forces soldier. He received professional training in this area and eventually passed the test.

The dead grass did not look at Xue Yiming, and continued: "We have actually measured that the insidious blow of the **** kills 100,000 damage. Lu Yang's health is at most about 100,000. If he can kill Lu Yang, absolutely Worth this adventure. "

Liu Jie stood up and thought for a while, and said, "Okay, let God kill him and chase Lu Yang."

Xue Yiming said in his heart, "Jie Shao, Brother Liu, I feel that it is still a bit of a struggle to follow Lu Yang. If you look for it in the past, Lu Yang ran away soon."

The dead grass and Liu Jie looked at each other and smiled. No one answered Xue Yiming's words.

The dead grass said: "Go online and lead the team to upgrade."

"Oh." Xue Yiming turned around and walked away, knowing he asked what he shouldn't.

The dead grass looked at Xue Yiming's departure and said, "This kid is pretty good."

Liu Jie said: "Wang Teng is dead. No one left by him can lead the team. It makes him look good now. This kid is not greedy for money. I gave him most of the money. The poor men have a little fame in the guild and are worthy of cultivation. "

The dead grass frowned and said, "Unfortunately, he likes to go to the net red. Such a person can't do great things."

Xue Yiming's love of Net Red is well known in the guild. Anyone who knows him knows that Xue Yi Ming always goes to Net Nini's live broadcast room. They also found out that this Ni Ni was Xue Yi Ming's first love. Elementary school classmates, unfortunately, Nini has fallen in love with a local tyrant, Xue Yiming is unrequited love, so the senior members in the guild despise him, but the bottom brothers like him because this person is in front of him and not pretentious .

Liu Jie said with a smile: "I dare to use him if he has this shortcoming. Let him go."

Xue Yiming returned to his room, logged in to the game, a group of brothers greeted him, and he replied cheerfully.

"Gathered together, they all gathered at Level 70 Map Fanfeng Gorge and upgraded together." Xue Yiming shouted in the simulation group.

"Hey, don't worry, our Ming brother must not go to Nini Beauty first." The deputy head said intentionally.

Everyone laughed.

Xue Yiming said with a smile, without hesitation: "It is necessary, brother, I just like her, but unfortunately, we are not local tyrants, doomed to single lovesickness."

"Boss come on."

"We are optimistic about you."

"That tyrant cannot marry Nini. You have to be optimistic. Don't let Nini bully that bastard."

...

A group of players commented on Xue Yiming's grievances.

Xue Yiming himself sighed a little and let everyone gather first. He came to Honggefang in a wandering manner, and sat in the position where he usually sat as usual.

Nini has just broadcasted live and is interacting with the players. When she saw Xue Yiming coming online, she said happily, "Welcome Ming, you are late today."

Xue Yiming smugly hit a 888 and said, "Open the door, my brother, let me come first."

A series of 7 888s, but more than 500 credit points, nobody cares, Nini just smiled, but no one knows that there are specialists waiting here, seeing 7 consecutive 888s, he turned to Jin Buhuan and said: "The target has signaled."

Jin Buhuan went to the computer and read the secret code. He turned his hair and gave Lu Yang a message, saying, "Liu Jie sent someone to assassinate you. He is a super expert."

The three 8s represent the meaning of super master.

Lu Yang was standing in the car and traveling the street. Seeing this news, he didn't change anything, but he was still proud to let the players around him cheer.

After running around the safety zone, Lu Yang said to Xiao Liang, "How is it, are you familiar with the operation?"

Xiao Liang said: "It's all familiar, it's too easy."

"You do the task with me, everyone else is gone." Lu Yang said.

“Oh.” Jiang Ze and the White Lion jumped off the chariot and led the team.

Lu Yang stowed the chariot and took Xiao Liang back to the guild hall. He used the teleportation scepter to take him to the elemental space.

Xiao Liang looked at the 80-level elite full of maps and asked in surprise: “Boss, what is this place?”

Lu Yang said: “This is where I usually fight.”

He took a set of stealth potions from his backpack and handed them to Xiao Liang, saying, “Drink this and follow me to get a copy.”

“Oh.” Xiao Liang drank the stealth potion and followed Lu Yang into a frosty bluestone hall.

System prompt: You have found the Ice Temple

“It’s so spacious here.” Xiao Liang said in surprise, just outside he thought the Bingling Hall was very narrow.

In addition to a circular square in the middle of the Bingling Hall, there are 8 passages. These passages were originally intended to show off the splendid atmosphere of the Bingling Hall and have no practical use.

General Bingling paced back and forth in the hall.

General Ice Spirit (Lord)

Level: 80

Qi and blood: 1000000000/1000000000

Lu Yang said: “You go to the aisle around the hall for a few laps first and ask for just one. I want you to turn with your eyes closed and time.”

This is the basic quality that a master must have. Like the NBA shooting master, even if someone covers his face with his hands, he can still rely on hundreds of thousands of exercises to throw the ball through the hand.

The same is true when playing a game. When you are in PK, you cannot watch the skills of the opponent while they are cooling down. You must always keep in mind that the skills you have released have a few seconds to cool down. For a few seconds, otherwise you can look at the skill icon and watch the opponent’s moves. The opponent can use the operation to show you doubt life.

After being trained by Han Zhong, Xiao Liang has been able to fight with time memory alone. He took over Lu Yang’s flame chariot and started running around the aisle.

There are 8 channels, each of which is connected to 7 other routes. The route is like a small spider web. It is difficult to understand, but Xiao Liang must also pay attention to avoiding the Ice Spirit General who is swimming back and forth when running, which is very difficult. .

An hour later, Xiao Liang returned to Lu Yang and said, “Okay.”

Lu Yang trusted Xiao Liang unconditionally, jumped on the chariot and said, “Ready.”

The glowing white skill lighted up in his hand, pointing his left hand at General Ice Spirit 80 meters away.

“Blazing Heart”

A fiery white flame hit the heart of General Ice Spirit.

“2422800”

General Bingling roared, pointed his right hand at Lu Yang's location, and a mass of cold rushed straight.

"frame"

Xiao Liang shouted, driving a chariot to the third channel, Kankan escaped the skill attack, and the ice fell on the ground into an ice surface.

"Don't take the same road," said Lu Yang. "The ice surface will not dissolve until it has run at least 6 times."

Xiao Liang nodded and continued to control the chariot to run forward.

"You will sleep forever." General Bingling quickly chased up with the ice sledgehammer, and every time he ran a step, he would leave a piece of ice in place. These ices will reduce the player's movement speed and will be more affected Frost damage.

Lu Yang turned to face General Frost and kept releasing the Fire Cross.

"35669"

"35669"

...

Even if it is not critical, under the 13th skill level bonus, the fire cross can still deal high damage.

Thirty seconds later, Lu Yang's blazing heart had cooled down, and it was another sight of General Bingling.

"2422800"

The distance between General Bingling and Lu Yang has been around 80 yards. This distance can not hit Lu Yang, but Lu Yang can hit him.

“Boss When did you have such a strong attacking skill, the damage is too high.” Xiao Liang took a moment to look back and asked.

Lu Yang said, “That’s right.”

He fully believes in Xiao Liang’s strength. If he doesn’t look back, if he is allowed to pass his life to someone, Lu Yang will give it to Xiao Liang without hesitation. This is trust, which was exchanged for life in the previous life. trust.

“If you fight like this, wouldn’t it take you a long time to kill the lord.” Xiao Liang said in surprise.

Lu Yang said: “At least 3 hours, you have to hold on.”

“Rest assured, there is absolutely no problem.” Xiao Liang’s head has already backed down the nodes of each turn, and he will not make the slightest mistake.

If at this time some players see Lu Yang playing monsters at this time, they will be stunned to drop their chin, Xiao Liang is driving in front, General Bingling can only chase behind, can not release a skill.

The chariot of flames kept running from one channel to another and never entered the ice surface. Xiao Liang designed the route perfectly.

Three hours later, General Bingling stopped in place, dropped the hammer with his right hand, and fell to the ground with his left hand over his chest.

System prompt: You killed General Ice Spirit

“It was really killed.” Xiao Liang shouted excitedly. He was the first time to kill such a difficult lord with Landing Yang.

Lu Yang smiled and said, “That’s for sure.”

He jumped off the chariot and came to General Bingling, picked up an elemental ball full of ice, and equipped him.

The light flashed, and an ice ball emerged from Lu Yang’s side.

Lu Yang looked at other items, one of which was a golden page.

Cryonics

Type: Forbidden

Cost: 7000 magic

Distance: 2000 yards

Description: Frozen all targets within 2000 yards, causing great cold damage to them every second, and freezing the target in place for 30 seconds. Note: Lord monsters cannot be frozen, but can slow down by 50%.

“There is also such a curse, the lord can slow down.” Xiao Liang said in surprise.

Lu Yang said with a smile: “I didn’t expect that such a curse could explode in the copy. It seems that I didn’t know enough about the game in the last life.”

Obviously, what the wasteland copy gives is really different from other times. This kind of baby can burst out. Lu Yang feels that he is really too profitable to play the Nine Elements this time.

He looked at the third item, the “Ice Element Elf’s Transfer Certificate”, and another transfer certificate of the same level as the Fire Elemental Spirit’s transfer certificate. He sent the certificate and the curse to the simulation group and asked: “ Who wants these two? “

“I.” Zhuzhuo shouted enthusiastically. He was not calm when he encountered these two things, and he called the first one.

“I want it.” The White Wolf also came to make fun.

...

Eight vice presidents plus melanitis, none of them are unnecessary.

Lu Yang said, “Fair competition, roll.”

“Mine.” Jiang Ze threw the dice first and said, “88 points.”

“76”

“92, haha.”

“99, mine.”

...

Eventually grabbed by muddy wine pouring.

"I have an account with my brothers now," said Zhuoju wiping cold sweat, and one of the legions newly promoted by his men was an ice mage, who had no curse.

Lu Yang exited the Ice Spirit Hall, built a sentry tower in situ, flew back to St. Gall, put the two things together in the Guild Hall, and then flew back to the elemental space.

Xiao Liang was standing beside him and asked, "Where are we going?"

Lu Yang said, "Go to the Earth Spirit Hall."

The Tuling Hall is next to the Bingling Hall. Lu Yang took Xiao Liang to run for 2 hours using a stealth potion and ran to the place. There were a lot of mobs at the door. The two did not dare to stay and went directly into the Tuling Hall.

The system prompts: You found the Earth Spirit Hall

The topography of the Tuling Temple is different from that of the Bingling Temple. The ground of the Tuling Temple is composed of yellow rocks. There is only one road here, except for a puddle on the left, and only a straight **** mountain road.

"Did you not see the lord?" Xiao Liang asked.

Lu Yang pointed at the bubbling puddle from time to time and said, "Maybe there, let's run without him first."

"OK." Xiao Liang said.

Lu Yang replaced the chariot of flames, Xiao Liang sat in the position of the groom, riding the chariot and started running the map.

Run along the avenue, there is a mountain in front, and you can continue to run up to the top of the mountain road. When you reach the end of the mountain road, the game enters the dusk state, and a faint light from the sun is shining on the mountain road.

“Booming”

The ground beneath Lu Yang’s feet shuddered inexplicably.

“How is it like a battlefield?” Xiao Liang said.

Lu Yang said, “Be careful, there may be a landslide here. When you run here, you will run against the wall.”

“Oh.” Xiao Liang said.

Lu Yang did not tell Xiao Liang that there would actually be a landslide there, because there was a bug location in the last life.

Xiao Liang ran two laps around the mountain, returned to the puddle, and said to Lu Yang, “They are all familiar.”

Lu Yang looked at the puddle, and spelled out in his mouth.

“Destroy the Sky”

A reddish flame fell on the surface of the water bubbling.

“-1”

“Hello ~!”

A roar came from the water, and the water surged up.

“嘭”

The water surface dropped, and the water splashed on the water surface. In the water splash, a large water turtle was exposed. His body was all made of rocks with sharp edges and corners.

Earthen General (Lord)

Level: 80

HP: 2000000000/2000000000

“This is twice as much blood as I just encountered.” Xiao Liang said while driving.

Lu Yang said, “It looks like this will take a lot of time.”

He pointed at General Turing’s head with his left hand, releasing a burning flame.

“2422800”

At this rate, he wanted to kill General Turin for at least 6 or 7 hours, but he was okay.

Lu Yang was thinking of killing him last, but now he received news from Xue Yiming that Liu Jie had sent a thief with a killing heart to kill him. This Lu Yang had to guard.

In the last life, Liu Jie's heart fell into the hands of Liu Jie. Although Lu Yang did not know who the super master Xue Yiming was referring to, he guessed it was the heart of killing the gods.

If you are the owner of the God of Killing Heart, you must know **** God's single killing skill. This skill can deal 10 times the damage.

According to the output of the current player, a killer with more than 70 levels has at least 13,000 points of damage, hits him 10 times with a critical strike, and can remove 100,000 health without defense.

Lu Yang's total blood volume is only over 100,000. Although his body is always tied with a soul stone, he cannot take this risk.

The opponent is not an ordinary person. It is a top assassin who has a heart to kill God. If he has some other special equipment to assassinate him, and Lu Yang is not prepared to deal with it, he will undoubtedly die.

If a mage with low defense ability wants to deal with such an enemy, what he can do is to support blood or support defense.

General Turin has a chance to drop the turtle's heart. This thing can increase the player's health by 50,000 points. If he can explode this, he feels that he can block an attack from the opponent.

“boom”

There was a vibration on the ground. Lu Yang woke up and found that Xiao Liang had taken him to the top of the mountain.

“The boss is ready, we are going down the mountain.” Xiao Liang said.

“boom”

Another shock came, and Lu Yang felt that time was almost up, and said, "Don't worry, get off the chariot first. I suspect there will be a collapse here. This place where we are standing will not collapse."

This side of the cliff is very obvious. There is a semi-circular area. The color of the soil is dark yellow, and there is a clear dividing line with the light color next to it. Xiao Liang also looked out and stood with Lu Yang on the dividing line. inside.

General Turin moved slowly, and was running slowly from 80 yards away, just as he was about to run 60 yards from Lu Yang.

"Booming"

The mountain road where Lu Yang is located next to the whole sinks. The area over 50 meters in diameter fell directly into the abyss below. Only the positions where Lu Yang and Xiao Liang stand can move.

General Turin was so large that he couldn't walk to the place where Lu Yang was. He could only stand in the distance and roar.

Lu Yang released a burning flame at General Turing, and said with a smile: "I can just output it now."

This is a bug of the last life. If the hunter player thought that he could take advantage of his fast movement speed and run with the turtle full of maps, then 80% of him would fall off the cliff, even if he did not fall, the next time he came He couldn't get past, because the diameter was more than 50 yards, and non-high-level space mages couldn't jump.

Only by standing in the middle and waiting for the landslide will he be unable to get around, left and right. Only when he can stand here, and the tortoise can't get over, can he output at will.

Lu Yang said to Xiao Liang: "Do something else. I slowly output it."

He released a lava eruption at the feet of the tortoise, attacking with a fire cross while the blazing heart was cooling.

Five hours later, Ling Yang was finally killed by Lu Yang.

System Prompt: You killed General Turin

Lu Yang patted Xiao Liang and said, "It's over."

Xiao Liang was watching the PK video and reacted, saying, "Oh, ah, I'll go back."

Lu Yang handed him the escape dagger and said, "Jump back."

"Oh." Xiao Liang fled the dagger and landed not far from General Turing. The light flashed and he jumped out of the danger zone.

Lu Yang then jumped out and came to the side of General Turing. After picking up the earth element ball, he looked around and found a red heart.

Turtle Heart (Level 1)

Level: 60

Qi and Blood: +50000

Description: Wearing this item will allow you to have unprecedented blood volume.

"With so much blood, it's better than the ancient animal head." Xiao Liang said in surprise.

Lu Yang said: "I took this first, he can still upgrade, it is too slow for you to upgrade, wait until I upgrade you to full level, and then give you."

“Oh.” Xiao Liang nodded to Lu Yang.

Lu Yang apologized. This thing is very difficult to upgrade. He wants to upgrade it is almost impossible, but he cannot be told Xiao Liang about being assassinated, otherwise it is easy to expose Xue Yiming.

Xue Yiming’s presence with Liu Jie means that his life and the lives of his parents are always in danger. Even if Xiao Liang misses a word, let the dead grass be analyzed. Xue Yiming’s entire family must die. Things got together.

Lu Yang looked at the other equipment on the ground, and a turtle shell fell to the ground.

Shield of Terror (Legend)

Special Effect: When attacked, there is a chance to trigger the elemental fury and fear of gaze rebound damage, paralysis for 2 seconds.

Description: They don't have the protection of God, they only work hard to survive, although they are ordinary, they never fail.

"This is baby." Xiao Liang said with bright eyes.

Chapter 838 - Guardian Oath Armor

Lu Yang was also surprised, this thing broke out here.

"It really is wasteland." Lu Yang picked up the battle shield and threw it to Xiao Liang. "It's yours."

Xiao Liang quickly replaced the shield. The shield's defensive power was equivalent to a set of immortal. He excitedly roped: "Great, my defense is higher now."

Lu Yang said: "The strongest part of this shield is not his defensive power, but the special-effect attack fear terror staring. Since this equipment is out, we can change our style of play."

Xiao Gaze has a very high chance of triggering when it first came out, reaching almost 30%. Xiao Liang also has the life stab skills, and the ability to control monsters is also very strong.

Go out from the gate of the copy of Turing Hall, walk along the side road, and come to a huge square in Turing Mountain.

The system prompts: You found the Place of the Submissive

“So many earth beasts.” Xiao Liang said in surprise, and there were monsters with hard rocks all over the square.

Rock Spirit (Elite)

Level: 80

Qi and blood: 500000000/500000000

These rock monsters have a size of about 2 meters and 5 meters, their defense is particularly high, their magic resistance is very high, and they also have the effect of attack and counter-injury. The disadvantage is that the attack speed is too slow and the movement speed is slow.

Lu Yang built a sentry tower on the spot, and sent a message to Yeyue Qingfeng, saying, “Are you free?”

“Yes,” said Yeyue Qingfeng, who was taking the team to level up in the wild.

Lu Yang said, “Wait for me in the inner city of Red Fortress, and help me kill a monster.”

“OK.” Yeyue Qingfeng said.

“You are waiting for me.” Lu Yang asked Xiao Liang to wait in place. He used the fort to return to the city and flew back to the inner city of Red Fort.

Just after landing, he saw Yeyue Qingfeng already waiting there, took out the teleportation scepter, and took him to the elemental space.

“What is this place?” Yeyue listened to the wind and saw the surrounding 80-level elite monsters surprised.

Lu Yang gave a brief introduction and said, “Get on the chariot, follow me to the card monster.”

He summoned the chariot, personally controlled the car, and rushed into the submission square with Xiao Liang and Yeyue listening to the wind, heading straight for the hillside in the distance.

“Hello ~!”

Countless earth monsters were stunned by Lu Yang, and they rushed over their legs towards Landing Yang.

“Boss, you are too fierce.” Yeyue listened to the wind and said in amazement that the earth monsters are moving slower and faster than ordinary players. Lu Yang is now racing with a group of monsters. Once he makes a mistake and is chased by the monster There is no doubt about death.

Lu Yang ran quickly under the hillside. On the left side, there was a small corner that could only accommodate a few people. He said, “Just jump off the chariot and go ahead.”

“Oh.” Xiao Liang and Yeyue Tingfeng quickly jumped off the chariot and entered the small corner. Xiao Liang topped the front, Yeyue Tingfeng stood behind.

Lu Yang drove the chariot for more than ten meters. When he saw the two men settled, the chariot was lifted, and his body fell into the corner with a white light.

“Hello ~!”

Hundreds of rock monsters immediately turned their heads and rushed towards this side. When they came to the corner, the narrow corner could only hold one rock monster.

“Sting of Life”

Xiao Liang’s left-handed sword pointed at the rock monster, and a spike was inserted into the body of the rock monster.

“1”

System prompt: You successfully paralyzed the rock monster

“I succeeded.” Xiao Liang said to Lu Yang excitedly.

Lu Yang nodded, his right hand pointed towards the wrecker’s staff, and he continued to use lava to erupt. More than a dozen lava lakes 30 meters in diameter turned the corner outside into a crater.

“17618”

“17986”

...

Hundreds of rock monsters outside were heavily damaged.

“Hello ~!”

The rock monster that had penetrated into the corner ended the paralysis state, walked in front of Xiao Liang, and slashed it with a sword in his right hand.

“23168”

“There are only so few attacks.” Ye Yue listened to the wind and easily added Xiao Liang’s blood, and the two treatment waves filled Xiao Liang’s qi and blood.

Lu Yang said: “He has a lot of attack power, more than 80,000.”

Ye Yue heard the wind and said in surprise: “Xiao Liang, what good equipment is this?”

Xiao Liang proudly sent the picture of the Shield of Terror to Yeyue Tingfeng and said, “How is it?”

“Fuck.” Yeyue said excitedly after hearing the wind: “This shield attribute is too good.”

“The legendary shield at level 80.” Xiao Liang said.

Lu Yang said: “Don’t relax your vigilance, we have to fight for hours, this strange blood is too much.”

“Oh.” Xiao Liang and Yeyue said together.

In the face of this lord-level mob, Lu Yang also had no better way to attack, and could only attack with lava eruptions, blazing flames and fire crosses.

After 40 minutes, the first monster was killed and a dark golden armor fell off.

“Boss, my equipment.” Xiao Liang said excitedly.

Lu Yang said, “Yes, put it on.”

Lu Yang wanted to come here to play Xiao Liang with a set of defensive equipment. Xiao Liang had insufficient defense power before, and he never thought of coming here. He could not believe that the shield of terror appeared beforehand, which gave him confidence.

Now luck is good, the armor was exploded for the first time, the excellent gold ore mine armor of level 60, and the equipment with 10 pieces of gems did not protect the armor of the oath.

Xiao Liang replaced the armor, and the defense increased by more than 1,300 points Yueyue sighed and said, "If you can play a set, Xiao Liang's defense is afraid that it can be broken without melee. "

"This is basically the case," Lu Yang said.

At level 80, player-specific career attributes will be revealed in an extremely strong way. The defense force of the top defense is to make the output of other physics departments unbreakable, whether it is violent battle, shooter, rogue or shaman, or Druid.

They can only force 1 point of blood on the body of this kind of defense, and top-level professions such as shooters and thieves can almost instantly kill players in the mage department.

The top killer only needs to insert a knife into the mage's neck, triggering a 3x critical strike, and with a killer's damage of about 20,000, three or four swords can kill.

Of course, the output of the mage will also be separated from the professions of various departments, especially the fire method, and the super strong fire system output will become the key to large teamfights.

"Drip, drip, drip"

Lu Yang's phone rang, and he took it for a look, and was surprised to find that it was actually Tianyao's call.

Chapter 839 - Tianyao for help

“President Tianyao, you are a rare customer. What are you looking for?” Lu Yang asked with a smile. Currently Tianyao is attacking the other main cities of the Orcs. Two of them have already been hit.

Tian Yao laughed and said, “It’s really a bit of a problem to find you. I have a mission here, and I need to kill a general in the Imperial City. Can you take me there?”

Lu Yang said: “What task is to cross St. Gall and go to the emperor to kill a general.”

Tianyao said: “I don’t hide you, the materials used to upgrade the space totem are dropped on that strange body. I can only ask you for help.”

Lu Yang knew this task, he thought about it, and said, “Yes, you can send someone over. I will **** you over this way.”

“Thank you,” Tian Yao replied.

Lu Yang closed the intercom, and he sent a message to the person responsible for shooting Sirius. “You contact Tianyao, and he will let his hand down to upgrade the emperor city. You will send it.”

“Need me to preach it deliberately.” She asked Sirius.

Lu Yang laughed and said, “I let Tu Feng do it.”

“Oh.”

Shooting Sirius contacted Tian Yao. Soon, he knew who was dealing with him. It was just the orc who had just shot down the orcs, and was responsible for monitoring the streamer meteor who shot Sirius.

"I can't think of you." He shot Sirius with a smile on the streamer meteor, "We are old friends."

In the early years, the two were old acquaintances. The streamer Meteor originally had a guild. Later, he took the initiative to join Tianyao's Majesty, and the two gradually lost contact.

Facing the enthusiasm for shooting Sirius, Liuguang Feixing said, "Thank you, Vice President Sirius for your help, and I would like to express my gratitude on behalf of my president."

"What are we two, we are friends." Shooting Sirius didn't care, he approached the streamer meteor and said, "I think the two guilds almost merged, otherwise you and I will join the Iron Brotherhood now. . "

The streamer meteor's expression was a bit ugly. He said, "Let's go, the boss values this lord very much."

"No problem, I'll take you personally." Shoot Sirius.

The streamer meteor brought a total of 50 people this time. They were all guards around Tianyao. Many people frowned when they saw that shooting Sirius was so kind to him.

One of them was the spy Liu Jiean inserted, and he reported it to Liu Jie.

Liu Jie's Mansion.

Huang Xiangse said to Liu Jie: "Jie Shao, you have to give me some information today. Lu Yang gives me millions of years a year for me to find news, which has been going for months. I have an important news. Nothing was dug. If it continues like this, Lu Yang should take me away. "

The dead man said with a smile: "It is not better to withdraw. It is better to go directly to Jie Shao as vice chairman, and it is no better to command the two legions than in Lu Yang."

Huang Xiang had a longing look, but he wasn't stupid. If he didn't help Liu Jie to bring down Lu Yang, then Liu Jie would not reuse him at all. His vice chairman might not leave today.

“I will work harder to help Jie Shao defeat Lu Yang completely, so that I can feel relieved when I come.”
Huang Xiang said humbly.

Liu Jie smiled. He was just listening to the spy's report and said, “There is a ready-made news. Please see if you are interested in this.”

Liu Jie forwarded the news from the spy to Huang Xiang.

After Huang Xiang read it again, he said with interest: “This news is OK. Shooting Sirius is one of the nine vice presidents of Lu Yang, and also the chief commander of Lu Yang who is responsible for managing the overall affairs of the orcs. The city owner Yao Yao has such a good friendship, this can definitely be a fiction. “

Liu Jie sent the news of the spy to the dead grass, saying: “I think so too. From the picture he passed back, the friendship between shooting Sirius and the streamer meteor is not very shallow, which is definitely a taboo. . “

The dead grass said to Huang Xiang: “Go and tell Lu Yang, the relationship between him and shooting Sirius, it is best to avoid the role of shooting Sirius, so the Brotherhood of Iron and Blood will be chaotic.”

Huang Xiang thought about it and said, “Can this work?”

“Second World” has been in service until today. Almost every large guild has reported that the president and his vice presidents have been in conflict or even separated. The Iron Brotherhood has never had such a thing.

The dead grass said proudly: “It must be, even if Lu Yang is more open-minded, it is not possible to allow a vice chairman and Tian Yao who are not able to restrain him to get closer and closer, that is too dangerous.”

Shooting Sirius is alone in the wolf tribe. Although it is under Lu Yang, Lu Yang is a human race and is hostile to the wolf tribe. Lu Yang cannot directly manage the wolf tribe. He can only rely on shooting the wolf. Yao, Lu Yang can't manage it.

Liu Jie said proudly: "I bet Lu Yang will pay attention to this matter, there is a great possibility that he will replace the shooting Sirius."

The dead grass said: "If it is really changed, shooting Sirius will definitely defect, Tianyao will definitely take the opportunity to attack the wolf clan, then Lu Yang and Tianyao will fight, and the opportunity for us to destroy Lu Yang will come. "

Huang Xiang came to understand and said, "I'll send a message to Lu Yang."

Lu Yang was burning rock monsters, suddenly indirectly to the news from Huang Xiang.

"Buddy, the important news is that shooting Sirius and Liuguang Meteor are friends. The two almost merged the guild before. You must take a shot of Sirius to rebel. He may be brought to Tianyao by Liuguang Meteor. Huang Xiang said.

Lu Yang hesitated and asked, "Where did you get the news?"

Huang Xiang said: "I bought a guard next to Liu Jie and listened to what he said."

Lu Yang said: "Good job, I really deserve my attention."

"Hey, this is what I should do. You are busy, I continue to probe the news." Huang Xiang said.

Lu Yang shut down the intercom, and didn't care what happened just now.

Yeyue Tingfeng and Xiao Liang were right next to Lu Yang, and they both heard what was on Lu Yang's phone.

“Boss, you really want to check out Sirius.” Yeyue asked after listening to the wind.

Lu Yang said, “I’m free.”

Yeyue listened to the wind: “...”

“Uh, I just asked.” Ye Yue said awkwardly after listening to the wind.

Lu Yang said: “I have 100% confidence in you. I checked what he did. Huang Xiang was not comfortable and wanted to divorce the relationship between me and the leaders of various legions. This method is too poor. Who does n’t understand, are you the kind?”

Yeyue was very comfortable listening to the wind, and said with emotion: “Thank you, boss.”

Lu Yang was too lazy to listen to the wind at Yeyue and said, “Continue to fight monsters, and you won’t be tired of thinking about these.”

“Oh, okay.” Ye Yue continued to add blood after listening to the wind.

Although Xiao Liang didn’t look back, he was very emotional. Since the establishment of the Brotherhood of Iron and Blood, from childhood to large, from endangered to the strongest human race, Lu Yang has always upheld his promise.

Everyone who has followed him from the start to the present should give the shares to the shares, the money to give the money. Lu Yang didn’t be sorry to anyone, but they were, they originally clanged poorly because they followed Lu Yang and did not Speaking of others, Xiao Liang has become a multimillionaire.

This is something that Xiao Liang had never dared to imagine before. Just last year, he was still a bullied person who was hiding at home and crying. All his dreams are to find a stable job in the future, even if he is a dry worker. Just don’t sell vegetables. Who can think that one year later he became a millionaire with a fortune?

Now he bought a house for his parents, bought a car, changed his clothes, stopped the parents from selling vegetables in the grocery market, and hired a nanny for them.

A year ago, he looked at his parents with scornful eyes, and now everybody praises his son's ability and filial piety. Enviously, the neighbours who saw him looked different.

But Xiao Liang knew that he really didn't do anything. All of this was given to him by Lu Yang.

Look at the major guilds in the game. How many guilds on the forum have developed. The boss finds out various carefully arranged reasons to kick the original meritorious players out of the guild. This has become the norm. There are few people in the comments below the post. Everyone regards this kind of thing as a normal thing.

Xiao Liang suddenly opened his eyes and said, "Boss, you might as well take this opportunity to shoot Sirius to recruit streamer meteors. Sooner or later, there will be a battle with Tian Yao. Let's explore the bottom line first."

Lu Yang Yile said, "This is a good idea. Your kid's head is open. I can think of this idea."

Xiao Liang scratched his head, smiled, and said nothing in his mouth, but said in his heart: "It's mainly because you are different from other bosses. This kind of thing can be done in you, and it's impossible for others."

Lu Yang communicated with Sirius' speaker, and told Huangxiang and Liu Jie the distance meter used by Sirius. Sirius could not wait to find Huang Xiang directly.

"Stabilize, stabilize, I have 100% confidence in you, we get along day and night, I don't believe who else you can believe in." Lu Yang said.

Then the heart of shooting Sirius was put back in his stomach, and said depressedly, "Huang Xiang is nothing."

Lu Yang smiled said: "If he is a good thing, if I treat him so well, can he betray me?"

“Yes, I have to beat him sooner or later.” Said Sirius indignantly.

Lu Yang laughed and said, “Xiao Liang just gave me an idea. You can see if it works. You slowly touch the streamer meteor. We have no resentment against him. War, if he can get him back into us, or if Tian Yao alienates him, that’s enough. “

Shooting Sirius looked at the streamer meteor in the distance and said, “Boss, you are very kind to him. I have been fighting with his players on the side of the wolf clan. His attitude was only because the two of us had been unlucky together. I miss that time.

At that time, we almost merged the guild together, but I had a good personal relationship with him. I was able to separate from the guild. Besides, my relationship with him is incomparable with those of us. He is a friend. You are relatives and brothers. “

Lu Yang said aloud, “The matter will be left to you. I just asked, if you need money and other support, you can directly find Tu Feng.”

“Okay,” Tu Feng said.

Chapter 840 - Grim Reaper

Lu Yang closed the intercom, turned around and dialed Tu Feng’s intercom, and told the story originally.

Tu Feng said with a frown: “If it is the news that Huang Xiang passes back, there must be backgrounds of Liu Jie and dead grass, and they will definitely write articles from it.”

Lu Yang thought the same way, saying, "You go to the forum to announce our event this time, and post it under the name of the Brotherhood of Iron and Blood. The focus is to highlight the easing of the relationship between Brotherhood of Iron and Blood and Tianyao, and there is an alliance. the trend of."

This way can confuse everyone's audiovisual. He couldn't tell Tianyao that Liu Jie had deliberately instigated alienation. If he did, he might as well say it.

Soon, the forum was overwhelmed with news that Tianyao sent the trusted orc players into the Terran Brotherhood and hit the equipment and shot Sirius himself to **** it.

For a while, the forum was "exploded". Tian Yao was the boss of the strongest guild of the orcs, and Lu Yang was the boss of the strongest guild of the human race. The two guilds cooperated and represented only one thing.

"This is an alliance between Lu Yang and Tianya. If they decide not to go to war, the other guilds of the Terrans and Orcs with strongholds will be unlucky."

"I bet they must have made an appointment. They must first calm down their own players before decisive battle."

"Hey, maybe it's about to kill Liu Jie together."

...

Not only did Lu Yang post here, Tianyao also posted on the forum. As a result, the official posts of the two guilds were released at almost the same time. Below the two posts, there were nearly one million comments.

Many are issued by two guild players. They are the happiest for the two guilds to be able to get along safely. No one wants their guild to fight on two fronts. Now the contradictions are resolved, and this level of cooperation is enough to see The determination of the two guilds to create a peaceful atmosphere.

Xia Yuwei and Bai Shi and other vice presidents called one after another, saying that because there was no two-line combat, the morale of the players in the guild had increased a lot, which made Lu Yang very happy.

On the other side.

The other guilds in the server are not happy anymore. The remaining forces of defeat such as Sword Killing God, Whispering Words, and Lonely Half Moon have been expecting the Brotherhood of Iron Blood to fight on two fronts, so they can take the opportunity to rise again.

After getting this news, they fell into disappointment again, but compared to disappointment, they were more disappointed by Mai Lizhe, Gu Wang and Bian Wujie.

“Damn, why did Lu Yang make peace with Tian Yao, but Lu Yang occupies a main beast city.” Bian Wuxi cursed.

Merritt said: “Our previous thoughts failed. If Lu Yang and Tian Yao make peace, then we are not far away from his war and we must be prepared.”

The ancient king looked at the four poisonous **** flying around and said, “Don’t worry, my fourth poisonous ball will be restored in 10 days, and the old army of platinum skulls can be formed before Lu Yang comes.”

“Shall we contact Liu Jie?” Bian Wuji asked.

Mai Lizhe said: “I contacted before. Liu Jie refused to leave Tianji Mountain without Wang Teng. Moreover, the Poseidon Army had always been hostile to us. He did not dare to leave the Iceberg City without destroying the sea boat.”

“Forget it, I will continue to kill.” Bian Wuji stood up and used the fortress to return to the city to fly to the Black Iron Fortress, and continued to lead the skeleton army to hunt down the remnant players of Lonely Half Moon and Sword Killer.

At present, the remaining players of the two guilds are gathered in the area at the junction of Iron King City and Hannibal City, which is close to the Brotherhood of Iron Blood. Lonely Half Moon and Sword Slayer think that there is no limit to being too presumptuous here.

Unfortunately, the two underestimated the arrogance of the boundless, the defensive edge of the impossibility, but the offensive, the edge alone dare to pick a fortress.

Just learned that the two gathered their idle players together to open up wasteland in the wild, preparing to build a wild fortress, and rushed over with a million skeletons.

Savage Fortress.

The sword killer looked at the fortress hall that was being cleared and felt relieved.

“Brother, thanks to you.” Sword killing God said to the lonely half-moon with emotion.

“Hey, what’s our kind, and at the same time, the end of the world, let’s slowly develop here in the future.” Lonely half month said.

A few days ago, Lonely found Lu Yang and applied for the establishment of a wild fortress so that he and the sword can have a place to stay.

Together, the two men told Lu Yang that they would no longer participate in the game hegemony, but just wanted to make some money and play the game.

Lu Yang welcomes such people. As long as he does not want to participate in the hegemony, he will not stop it. The method of the wild fortress is now known to everyone. Even if Lu Yang wants to stop them from establishing a fortress, he cannot stop it. Liu Jie beat them one by one.

In the last life, where the fortress was established in the wild, Liu Jie found one and hit another. The guild at that time was one of many small guilds, and he was also the most prestigious.

I remember when Lu Yang returned to China from the jungle of Southeast Asia, the guild of Liu Jie had been under siege. Everyone was a level 200 player. You could block one, but not 10,000. In the end, Liu Jie's guild was severely damaged , Withdrew from a large territory.

Lu Yang will not repeat Liu Jie's mistakes. He doesn't mind players building field fortresses. As long as he has no ambitions and he is willing to control the number of guilds within a reasonable range, he has no opinion.

The sword killing God sighed, his eyes had disappeared from the original fierceness, and it was so peaceful to look at the players.

"Bad boss, I rushed over with millions of skeletons." A player sent a message to the sword to kill God.

"What?" The sword killer froze. He looked unbelievably towards the entrance to the valley in the distance. A large number of platinum skulls rushed into the valley, followed by the skeleton king and gold skull. kill.

"They dare to do so in the territory of the Jagged Brothers Alliance," said Lonely for half a month in shock.

"Everyone run away with the back to the city roll." The sword killing God responded, shouting loudly with a large horn.

"It's too late." A boundless voice came from Taniguchi, and his right hand pointed at the fortress.

"Life Withering"

A huge black rune shrouded the entire fortress, and suddenly the black rune exuded a purple-black light.

System prompt: you are cursed

System prompt: you are cursed

...

All the players in the fortress who were inside the fortress were cursed, and they were using the fort to return to the city to escape and they were interrupted to return to the city.

“This.”

“Why can’t I go back to town.”

“I can’t go back.”

“What can I do?”

...

Sword killer and lonely half moon all players panic.

Looking at the scene with pride, he pointed his right hand forward, and hundreds of thousands of gold skulls rushed into the fort with a gold tomahawk.

Sword killing gods and lonely half-moon players have experienced heavy casualties before the battle, the level is around 60, the equipment is not complete with even the dark gold sleeves, they face the attack of the gold skeletons and they are strenuous to break the defense.

The Gold Skull has a low attack power, but there are a large number of them. On average, 4 Skulls kill a player, and the players who kill the lonely half moon and the sword killing God flee around.

At the gate of the fortress, there are 60 platinum skulls and a silver skeleton king standing next to him. These skeletons cannot be upgraded and do not need to kill anyone. Looking at this scene, he laughed and said, “I can’t think of the sword killing God It’s very hard to end this lonely half-month. “

The sword killer stood in the distance and looked at the boundless, glaring at him angrily, scolding his teeth, "Boundless, you will pay the price."

Laughing wildly, he shouted with a loudspeaker: "Who can bear me?"

A black light flashed.

Suddenly, a player in full black appeared behind the boundless head.

"Unscrupulous Strike"

A lacquered black dagger was inserted into his neck when he couldn't even react.

"100000"

Boundless, die!

The player in black reached out and grabbed the boundless back. If the heart of death fell, it would appear on his back, but when he waited for the boundless fall, he was surprised to find that a piece of equipment on the boundless body was also Did not fall down.

"Not good." The player in black felt bad, and at this time, the platinum and silver skeleton king standing next to him attacked at the same time, and countless swords, tomahawks, and large swords whistled. Come.

"flash"

The player in black left a residual image in place, and instantly jumped to a distance of 50 meters away. He just landed, the edge of the ground fell, and a purple-black light bloomed fiercely on his body, revived in situ.

Boundless eyes looked at the black player coldly and asked, "Who are you?"

The player in black smiled coldly, and answered the question without asking: "I have heard that the boundless death heart has the resurrection attribute. It really is true, but I don't know how many times you can resurrect it?"

Bian Wuji frowned and asked, "You also have the heart of God? The injury just was not something that normal people could fight, do you have the heart to kill God?"

Players in black didn't answer. The body shook for a while and disappeared in place.

"Bone Wall"

In the endless magic flashes in his hands, a wall made of six bones appeared around him and surrounded him tightly into a square box, with bones under his feet and on the top of his head.

Since possessing the heart of death, he has faced countless assassinations. Today, for the first time, he has been attacked so severely. He even used a resurrection of the heart of death. This resurrection is only restored once every 10 days, and there are only 3 seconds, he dared not be vigilant.

"Eye of Death"

An invisible eye appeared 30 yards above the wall of bones, and had a sky perspective.

Don't underestimate the eyes of the **** of death, this skill is not only ordinary looking from top to bottom, but also to see invisible units.

Boundlessly carefully looked around, but unfortunately found nothing. He did not care about letting the skeletons to kill. With one move, hundreds of thousands of skeletons in the space of death appeared around his body, filling the entire area.
