

Wild Fire 861

Chapter 861 - Rain of Tranquility Exercise

The lord of this purely physical attack system has very low damage after the player's hardware is equipped, not to mention that Lu Yang already has the skills to wait here.

"Forbidden Curse Master, Tsunami Army, Archdruid Army, all prepared." Lu Yang said loudly.

The Tsunami Corps was arranged on the north side of the Sea Emperor City, which is closest to the seawater, and there are many tributaries nearby. The Great Druid Army used the weather to provide them with a considerable amount of rain. .

"Tsunami." A roar of the deep sea, 500 people cast at the same time, a group of 100 people, a giant tsunami with a diameter of more than 1,000 meters hit the ice and snow crowd.

Different from the past, all 500 people in the deep sea this time wore the 80-level gold equipment that Lu Yang snatched from General Fire Spirit.

The normal use of tsunami skills with more than 10,000 points of damage is 75% of the damage. Now it is used in places with seawater, and the damage is 150%.

Ignore magic resistance data on level 80 gold gear allows them to almost completely ignore the magic resistance of level 60 lords.

Roger the Ripper has only 5 million HP, and this attack alone killed more than 2 million of his blood.

In just three attacks, all tens of thousands of tearers within 1,000 yards were killed, and a large amount of gold equipment was dropped.

“The shooter is leading the monster to the position of the Tsunami Corps by the sea,” shouted Zhuoju.

A large number of ice giants were killed by the Tsunami Army on their way to the main city. The rest went to the shield battle and attacked. They could not deal too much damage in the face of the shield battle of the Blood Demon Temple. live.

“Hash arrows, let go,” the hairball shouted.

Hundreds of archers released the Hash Arrow to hit the Snow Giant. Without shield attacks, the Snow Giant did not have a hatred target. He was attacked by the Hash Arrow and immediately turned towards the Archer.

“Run, go to the beach.” Mao Qiu led the team behind the shield battle, and tens of thousands of ice giants ran towards the beach.

“Boss, the North Gate was held up, there is no problem.” Zhuo Jiu said intently, watching this scene.

“I’m fine,” Zhou Tianming said.

East Gate of Sea Emperor City.

Zhou Tianming was responsible for defending this area. He sat on a large stone and watched the scenes of the 500-star Fury Druids at the back of the shield warrior collectively releasing Starfury, saying boringly: “It’s so easy.”

The 500 Star Fury Druid also wore the mage equipment stolen from the Temple of Fire, and the jewelry was a set of five red sand town jewelry redeemed from the soul soul stone of the Wanhun Temple, dark gold.

The damage of Star Fury is lower than that of Tsunami Mage's tsunami ability, which is half the magic damage, but the range of Star Fury is larger, reaching 500 yards. A druid can control a 500-meter area, 500 people, each 50 people. A set of release abilities that damage 250,000 per second. Killing blame can't even get close to the shield warrior wall.

Lu Yang's South Gate was no problem. A total of more than 600 secondary forbidden spells were thrown together, plus 500,000 elites were here, which ended the battle faster than the two sides.

Lu Yang said: "Pick up your equipment and put them all in the guild warehouse."

"Good," Tu Feng said.

Before the mobs, they took their logistics players and picked up the level 60 gold equipment and special treasures that belonged to them on the screen.

"Boss, it's not that difficult for the level 60 lord to blame, it feels much simpler than the level 50."

"Isn't it? I thought I couldn't fight for your life." White Wolf said.

Lu Yang laughed and said, "This time, we are lucky. We have encountered a lord who cannot attack remotely or magically. Otherwise, we will have a long-range attack. Our Starfury Druid and the Tsunami Army can still have Is it such a big deal? "

"Boss, your tsunami army is recruiting too much. If Li Xiuyu knows that the tsunami army is so strong, he must not be furious." Mao Qiu said.

In the same words, Dubin in the live broadcast room also said that he said with emotion: "In the beginning, for such a small salary, a group of such powerful players were released, and this Li Xiuyu lost to the Tsunami Army."

Hitomi snorted and said, "I thought that when Lu Yang attacked Li Xiuyu, the Canglang Fortress was shot down by the Tsunami Masters. If he had a Tsunami Legion in his hand, even if it was a giant wave master, Lu Yang would not want to fight Canglang. fortress."

“Everything in the past has been commented on by posterity. Let’s watch it. This game is definitely different from the traditional online games in the past. He can create a history that will make people remember this event forever.” Dubin said.

In the comments in the live broadcast, a large wave of people brushed Li Xiuyu’s deserved words. It is undeniable that the giant wave master group was fired by Li Xiuyu, no one can blame it.

“Go ahead and see what kind of miracle Lu Yang can create.” Dubin said.

At the south gate of St. Gall, the monster has reached the 64th wave, and immediately it is the 65th boss monster. Lu Yang said: “Send a shooter in one direction and pull a monster to protect it. Don’t let the system brush monsters.”

As long as one of the monsters that has been brushed out has not been killed, the system will not launch the next wave of monsters. The cooldown time of the secondary forbidden spell is 6 hours. Lu Yang does not want to take risks. He wants to wait for the 6 hours to pass. Resist bosses at level 65.

“Received,” said Zhujiu.

“OK.” Zhou Tianming said.

Countless players in the Imperial City are enjoying the bonuses brought by the Brotherhood of Iron and Blood. The lord monster just got a lot of good equipment.

Suddenly, no more monsters, and mobs are protected. Many players found the Brotherhood of Iron Blood and asked why.

After Lu Yang used the big speaker city to explain clearly, no players complained any more, and accompanied Luyang to wait.

“It’s nothing more than waiting for more than 3 hours, wait.”

“It’s better than the main city being broken.”

“It’s a rare opportunity. Let’s listen to Jagged Brothers.”

...

Players have expressed understanding.

After knowing the news, Du Bin said: “Lu Yang’s approach is correct. Let’s see how other guilds are. Let’s look at Mai Lizhe first.”

Tongtong switched the lens, and Mai Lizhe of Red Moon City was still the same, taking players outside the city, easily killing monsters and waiting for the improvement of experience.

The same is true for the edge of the Shadow City, as is the ancient king of the Green Jade City. The progress of the three is very synchronized, and they have just reached the 41st wave.

“Don’t be motivated,” Dubin said with contempt, “look at Liu Jie and Tian Yao.”

The pupil can switch the lens, which can be switched several times in a row. Dubin found that only the Jagged Brothers Alliance is doing this, and other guilds are step by step, and they are not united with other players.

“Let’s just watch the Jagged Brotherhood,” Dubin said.

Forty waves of monsters have been killed by Lu Yang just now, and it doesn’t make much sense to look at it again.

Hitomi said, “See what.”

Dubin said: "It's better to look at the mobs that are controlled by the Iron Brotherhood."

"It makes sense." Tongtong switched the lens, just to see Lu Yang was trapping a frozen troll in the middle with 4 shield battles, and he couldn't move in one step.

"I have never watched what a troll looks like before, take a good look this time." Hitomi said happily.

In this way, Dubin took the pupils and millions of boring players between the live broadcast to watch the troll for more than three hours.

"Well, the troll is dead," Hitomi said.

Inside the game.

Four violent battles with decapitation axes killed the trolls, as did the other two directions.

System prompt: The 65th boss monster is coming

Lu Yang looked forward worriedly. He was afraid of the remote boss monster. The most annoying thing was this monster. He attacked 70 meters away from you. Your original formation was immediately broken. Once he approached without hatred, he Not necessarily who to attack.

The boss monster also has a high attack power, and non-shield war professions are hard to resist in this large-scale attack.

Lu Yang said: "All special forces are prepared. Once it is a long-range monster, do not attack, and hide behind the shield."

"Okay," everyone said.

While Lu Yang was anxiously waiting, suddenly a large number of dark snakes appeared in front of them. Their reminders were huge, with a length of more than ten meters, a snake head with long horns, and a horrible face.

Black Python King (boss)

Level: 65

Qi and blood: 30000000/30000000

Seeing this, Lu Yang breathed a sigh of relief and said, "It's okay, it's not the hardest."

He sent a message to Zhou Tianming and said, "Leave 2 of your Grand Druids who understand the curse, and send 3 of the turbid wines. I will have 2 of them."

The main attacking ability of the black python king is to spray poison, and Lu Yang's least fear now is poison.

Zhou Tianming said with a smile: "Oh, here it is."

He and De didn't taste the corpse to explain the situation. Soon, the two druids came to Lu Yang's formation. At this time, the front of the python king and the shield team had already engaged in battle.

"Treatment plus blood adds, the toxin is too fierce." Shield war shouted.

"The back row treatment is adding blood to us, our blood is falling too fast." The front row therapy shouted.

...

The Anaconda King 's blood volume is 30 million, and he will not be able to kill at a short time. However, the Anaconda King spit a large range of poisonous mist at a short distance, and the players can't bear it.

Lu Yang said to Germany without a corpse: "The two of you are scattered around, 10,000 meters apart, to release your skills."

"Look at us." De said without a taste of the corpse, he and another druid ran away quickly. When the two reached a distance of 10,000 meters, they stopped.

"Tranquil Rain"

The two men chanted a spell at the same time. In an instant, countless transparent energy bodies fell into the sky and entered the player's body. Some of the anti-war blood dropped to less than 10,000. They found that the blood was even faster than 2000 Picking up, the damage of toxins becomes a joke.

"What skill is this and how did my blood return?"

"Who put it, so strong."

...

Players of the Jagged Brothers League looked around, but when they looked around, they discovered that there were only two people who released the change of skills. The two were released 10,000 meters apart, covering all players within 20 kilometers.

Some healing players said in surprise: "Is it possible to change the output, it is enough to have these two people."

Lu Yang shouted with a loudspeaker: "All output to speed up the kill of the python king, be sure to end the battle within half an hour."

"Oh." Everyone excitedly output.

“Is it forbidden?” Hei Yan asked.

Lu Yang shook his head and said, “The python king is only poisonous, but he doesn’t stack up. The physical attack is also very poor. It has a thicker skin. It is difficult to kill, and there is no need to put a forbidden spell.”

Hei Yan looked forward, and as Lu Yang said, under the treatment of the quiet rain, no matter how many python kings sprayed poison, he could not kill the players of the Jagged Brotherhood.

On the other hand, after the anaconda king, players do n’t need to worry about the amount of blood, the players output crazy, and a lot of magic is covered on the anaconda king.

Half an hour later, killing the monsters ended, and Lu Yang did not release a curse!

Chapter 862 - Ambush

Remember [...] in a second, popular novels are free to read!

System prompt: The 66th wave of monsters is coming

The next wave of monsters came, but Lu Yang did not go to see the monsters, but leaned on the back of the chariot’s seat back easily to rest, he could easily wait for the 70th wave of monsters.

He was relaxed on the other side, and on the other side, Mai Lizhe, Gu Wang, and Weng Wu were frightened.

“What are you talking about?” Gu Wang excitedly pointed at a player and asked, “You said someone on Lu Yang could release a huge range of recovery magic?”

“Yeah, Boss of the Ancient King.” This player is the spy leader of Mai Lizhe who specially arranged to monitor Lu Yang. “There is a video, please see the three bosses.”

A ray of light appeared in front of everyone. Mai Lizhe, Gu Wang, and Bian Wuji looked at the screen. It was a video of Lu Yang’s defense level 65 black python king. Suddenly, their blood volume rose rapidly, more than 2,000 per second.

The perspective changes, and only two people release such super skills, one is far away on the left and one is far away on the right.

“This, how can this system have such restraint skills.” Said the ancient king in shock.

McLeod frowned and asked, “Do you know what skills this is?”

“It seems to be called Rain of Tranquility, which can restore health in a wide range for half an hour,” said the spy leader.

“Isn’t that just restraining me?” The ancient king said silently.

Bian Wuji said: “What to do now, we are all ready to fight with Lu Yang. Now Lu Yang has such a skill, how can he fight?”

Merritt said: “It doesn’t matter. The ancient king’s poison is fast and highly toxic. As long as we attack quickly, we can poison a player in the fortress before the enemy responds.”

The ancient king said, “That must be done with a whole poisonous orb.”

Merritt said: “Then you don’t release the poison in the near future. Hurry up and recharge Orb, otherwise you will be restrained by these druids who know the rain of tranquility.”

The ancient king recently sprayed poison using a lot of toxins in the highly toxic orbs. The three poisonous **** were not full. He knew the seriousness of the situation and said, "I'll go and soak the highly toxic orbs."

"Um." Ma Lizhe said: "We are going to fight against Lu Yang this time. There must be no mistakes. The two big brothers must pay attention."

"I'm fine," Bian Wang looked at the ancient king and said, "You can do that. Your poison ball has to be soaked every time. Don't let people discover it."

"Rest assured, my place is special. No one knows. Besides, I also bring a bunch of people who protect me every time I go. Besides, who killed me." The old king said uneasily, for people like them Being questioned is the most unpleasant.

"Well then, the ancient king will go first, and I will continue to fight against the boundless." Mai Lizhe said.

"Okay." The ancient king turned and left.

The player responsible for monitoring the ancient king of Tu Feng was waiting for the appearance of the ancient king. Suddenly, he found that the leader had become a vice chairman of the original ancient king.

"Where is the old king boss?" The player asked curiously.

"Don't ask, don't ask." The vice chairman said casually with a cold face.

The player stopped speaking and sent a message to Tu Feng.

Tu Feng's eyes brightened and he looked at Lu Yang and said, "Boss, the ancient king has disappeared."

“What?” Lu Yang looked excited and said, “Are you sure that the ancient king has disappeared?”

“I’m pretty sure, just now the people have reported. Since the Druid released the rain of tranquility, the ancient king has not appeared again.” Tu Feng said.

“You stay here for me,” Lu Yang said.

“What are you doing?” Tu Feng asked in surprise.

Lu Yang said with a smile: “I’m going to meet the ancient king in person.”

“Can you kill him?” Tu Feng asked.

Lu Yang said: “I scared him to death.”

Tu Feng: “...”

Lu Yang sent a message to Han Fei, Han Ying, Ding Dong Mao and Han Yu, as well as members of the Paladin Knights such as Mu Feng, a total of 24 people.

“Gather at the inner city of Red Fort.”

The light flashed, 24 people disappeared in situ, their departure was not conspicuous, and Lu Yang’s disappearance was also normal. No one connected these two things.

Red fortress.

Han Fei asked, “Brother, what’s the matter?”

Lu Yang said: "The ancient king disappeared after seeing us release the rain of tranquility. I suspect he was worried that he had sprayed too much poisonous mist these days and could not cope with the subsequent wars. Now. "

Han Fei's eyes brightened and he said, "Let's kill him?"

Before Han Feilin left the Poisonous Swamp, he built a sentry tower nearby, and Lu Yang could fly over at any time.

Lu Yang said: "Try it out, we are a demon heart, a moon **** personality, a killing heart and a destroying heart. 4 hit 1 and fight for him."

"How much blood does he have?" Han Ying asked.

Lu Yang said: "About 500,000 or so, I can't be sure. For a while, the cat will stun him with a meteor breaking moon, let's kill him together."

"I try," said Ding Dong Cat.

"Walking."

Lu Yang took out the telegraph scepter and flew 24 of them to the poisonous swamp to ambush.

Poisonous Swamp.

The ancient king took his guard to the entrance to the swamp, and he said, "Keep outside, Lao Cao will accompany me in."

Cao Huan nodded and accompanied the ancient king into the swamp.

“Well, that’s **** bad.” The ancient king cursed curtly: “Tomorrow is going to fight Lu Yang. Lu Yang has a skill such as quiet rain, which hurts Lao Tzu. “

Cao Huan is a very calm person, and said with a serious expression: “Don’t underestimate Lu Yang, I heard he got the heart to kill God.”

“How do you know?” Gu Wang asked in surprise.

Cao Huan said: “I heard that Qin Yong lost the spirit of killing God and was not dismissed by Liu Jie.”

“Who got it?” Asked the ancient king.

“do not know.”

...

The two chatted all the way to the Poisonous Marsh Pond. What they didn’t know was that Lu Yang was carrying a jingle cat standing more than 200 meters away from the marsh pond.

Dingdong Cat raised his bow and arrow and aimed at the ancient king’s heart. As the ancient king’s steps began to make a judgment, Han Fei was using space stealth to stand at a distance less than 5 meters from the ancient king.

“1.” Han Fei sent a secret signal in the simulation group.

Ding-Dang Cat looked at Lu Yang sideways to signal that he had mastered the distance, and Lu Yang nodded and said, “Kill.”

The Ding-Dong cat turned his head, and aimed at the bow 13 centimeters in front of the ancient king with a long bow and full moon, and launched special skills to popularize the broken moon.

“崩”

With a crisp sound, the black arrow with a silver streamer broke through his heart when the ancient king did not respond.

“109862”

The ancient king was shot back two steps in a row, watching his blood volume and the bow and arrow shot in the distance, he shouted panicky: “Protect me.”

Cao Huan had just stepped forward to protect him, and suddenly a dagger appeared behind his head.

“Unscrupulous Strike”

Cao Huan was instantly killed by 150,000 health and fell to the ground and died.

The ancient king looked at Han Fei with a stunned look. He knew Han Fei and said, “You, why are you here?”

“Ancient King, I’ve been waiting for you for a long time.” Lu Yang came to his second stage, and fisted in the left hand, hit him in the abdomen heavily.

“The Sun Fist”

The ancient king was knocked down and flew out, hitting a big tree.

“90182” (triple crit)

Before he landed, Ding Dong Cat’s second arrow shot, right in the head of the ancient king.

“39186” (Critical Strike)

In an instant, the ancient king's blood was killed by more than 200,000, but he was not dead. Looking at the stunned ancient king, Lu Yang said: “Continue to beat him and kill him.”

Han Fei, Han Ying, Lu Yang, Ding Dong Mao, and Mu Feng have control skills. 24 people take turns to control, playing the ancient king for 1 minute.

Suddenly, Gu Wang's body shone with a terrible white light, and three poisonous **** spinning in front of him exploded.

“Everything back,” Lu Yang said.

The light flashed, and the ancient king showed his figure, but at this time, the ancient king's appearance changed from a normal person to a dry corpse, and a green light surrounded his body.

“Hey, can't think of Lu Yang, you can't kill me.” The ancient king said proudly.

Lu Yang said, “I know what's going on with you, isn't it that the poison ball bleeds for you? I will break your poison ball and see what else you can do.”

Gu Wang's face showed a little panic, and he turned and ran outside.

Mufeng jumped in front of the ancient king and tried to stun the ancient king by using the judging skills, but the ancient king's body did not even stagnate and continued to run forward.

“Dizziness doesn't work?” Mufeng said.

Lu Yang said: “Continue to fight, leave the rest alone, it is best to kill him. If he can't kill him, he will also break his 3 poisonous balls.”

“Yes.” Han Fei and others chased the ancient king all the way.

Many players in the last life thought that the ancient king in the form of corpses could not be killed. Legend has it that the corpses can bury the heart somewhere. Only by finding the heart can the ancient king be killed, otherwise he is immortal.

At first, players thought it was a poisonous swamp. Later, a foreign player with a poisonous heart decrypted it and gave the answer.

The ancient king’s corpse form can use venom instead of health. A venomous orb can resist 3 million damage. Counting the defense of the ancient king, this caused him to be unable to be killed many times.

Lu Yang didn’t even think about killing the ancient king this time. He has 3 highly toxic orbs, which is equal to 9 million health. If there is no way to bring a team of men to chase him down, he can blast him. 3 One orb is enough.

The ancient king didn’t expect that Lu Yang knew the biggest secret of the poisonous heart on him. He didn’t mention it to anyone, let alone Lu Yang took four masters with artifacts to ambush. he.

He only has a poisonous heart. How can he fight against the heart of destruction, the heart of killing the gods, the spirit of the demon and the moon god, and can only escape.

“嘭”

Another poisonous orb exploded. He now has only one. Fortunately, the entrance of the poisonous pool and the poisonous swamp is not far away. It is only half an hour away. The last poisonous orb was cut. When it exploded, he finally saw his men.

“Come and save me and kill the people behind.” Shouted the ancient king.

Hundreds of level 70 and above masters of the Blood Elf Island suit rushed towards the landing sun.

Lu Yang raised his right hand, signaled to Han Fei that they should stop attacking, and said with an arched hand, "Ancient King, we will meet again tomorrow."

From the fog, Lu Yang disappeared into the forest of the poisonous swamp. When the fog disappeared, Lu Yang had disappeared.

Chapter 863 - Warlord's Armor (Gold)

Sea Emperor City.

People like Xia Yuwei and White Lion are anxiously waiting for the news from Lu Yang.

Lu Yang stepped out of the security zone and said in the simulation group: "I am back."

"Boss, did you succeed?" Xia Yuwei asked.

Lu Yang said: "I didn't grab the poisonous heart, but I blasted the ancient king's 3 poisonous orbs."

"What?" Xia Yuwei and others were very surprised.

"Boss, do you mean that when we start a war against Mai Lizhe tomorrow, the ancient king will have no poisonous orb to spray?" Bailang asked.

Han Fei said unpleasantly: "I can't think of the ancient king's poisonous orbs that could replace health. Each one can replace several millions. We chased him for more than 20 minutes, the control skills were invalid, and I let him run away. Go out, or you will definitely grab the poisonous heart. "

Zhou Tianming said: "It's enough. Without the highly toxic orb, the ancient king can't spray drugs. We have won this war."

During large-scale group battles, Zhou Tianming and others were most afraid that they had already played an advantage. When they were about to chase, the ancient king sprayed a poisonous shot, and the advantage instantly turned into a disadvantage. This change has a great chance to change. The direction of a war.

"Boss, will we be able to declare war against Merritt tomorrow!" Bitter Ai asked excitedly for a long time.

Lu Yang said: "That's right. Starting tomorrow, we will be ready to destroy Merritt within a week."

After 7 days of anniversary, the major guilds were basically ready for the external war. Tianyao's opponents did not put much pressure on him. Liu Jie's opponent was Liang Yun. Live Liu Jie for 5 days.

If Liu Jie killed Liang Yun, the remaining main cities would be a flat horse to him, and a wave of attacks would sweep all the main cities of the elves.

Once Liu Jie unified the race before Lu Yang, then Liu Jie would make peace with Tian Yao, and then lead his troops out of Tianji Mountain, sweep down the Bingshan City and Benliu City, and join forces with Mai Lizhe to attack him.

Lu Yang couldn't let that happen, he had to kill Mai Lizhe before Liu Jie, let

"Yes," said Zhujiu and White Lion with excitement.

System prompt: Sea Emperor players please note that the 70th lord monster is about to launch an attack

...

...

The red system news was released three times in a row, so that everyone's heart mentioned his throat.

Lu Yang said: "First fight monsters, kill level 70 lord monsters, get level 70 gold equipment, and then talk."

"Yes." Xia Yuwei and others said together.

Lu Yang came to the south wall and looked far away. Countless **** trolls, wearing blue capes, ran towards the gate with a pair of short axes.

Scarlet Troll King Iron Hand Sapa (Lord)

Level: 70

Qi and blood: 100000000/100000000

Lu Yang shook his fist vigorously and said, "Good luck."

The Iron Hand Sapa is ranked seventh in all 70 copies. The guard lord of the first level is one of the killing ones. Although his health is 100 million, it is quite a lot, but this guy's attack power Not high, just the attack frequency is fast.

Lu Yang shouted: "Attention all cursed mages, throw me skills together and kill the lord monster at Nanchengmen first."

More than 600 forbidden mages chanted spells at the same time, and Lu Yang also chanted them. For a time, the entire Nancheng Gate was covered by clouds.

The dark cloud has reached down to the wall. When 30 seconds pass, millions of Scarlet Trolls have just arrived in front of the Shield Warrior Wall.

“Heaven and Earth”

“Icy Roar”

“Meteor Fire Rain”

“Space-Time Cutting”

...

More than 600 secondary forbidden spells were thrown into an area of 5000 yards in diameter, plus the normal magic released by other mages, the entire South City Gate exploded like a firework.

The blood of the Scarlet Troll King dropped rapidly. The first batch of lords within 200 yards left blood before walking to the shield battle, and all died within 10 minutes.

The second group rushed to the wall of the shield warrior, and attacked the shield war shield with two axes in his hands.

“8618”

“7862”

...

The back row was desperately adding blood, the two druids started a quiet rain, and there was no pressure to defend the shield.

If it is in the copy, wearing a level 60 dark gold suit to fight the lord monsters at level 70 is completely unworkable, but these lord monsters are now siege monsters. Ten thousand people hit him, and his health is also There is no change, and by the same token, 10,000 people have not changed their blood.

In the past, there were only 2 treatments that added blood to the defense. Now there are 20 treatments that use group skills to add blood. As long as the blue supply is on, they can't die.

The shield battle is not dead, and the output is casual. Even if the lord has 100 million health, tens of thousands of lords were killed on the ground in the first wave of the strongest forbidden spell and conventional spell attacks, and a large amount of gold burst out Level equipment.

Warlord's Armor (Gold)

Level: 70

Defense: 597—693

Magic resistance: 585—690

Strength: +330

Constitution: +420

Stamina: +225

Additional physical attack: +408 points

Additional physical crit: +299 points

Additional physical penetration: +549 points

Suit 1/8

2 piece set: full skill level +1

4 piece set: Physical critical strike chance + 5%

6-piece set: 5,000 extra blood points

8-piece set: Increase physical attack power by 800 points

Zhang Zibo is on the front line I picked up a piece of gold equipment and sent it to the simulation group, saying excitedly: "This time we make a lot of money, this lord explodes the level 70 gold equipment. A level 60 excellence kit is too much. "

"If we had 100,000 people wearing such a suit to fight Merritt, he wouldn't be able to carry it," said bitter love for a long time.

Lu Yang said with a smile: "More than 100,000, there are millions of lords here, enough for us to form a large-scale army."

"Is there any other professional equipment." Zhou Tianming asked, this equipment is obviously suitable for soldiers.

Lu Yang said: "This lord only drops the equipment of the soldiers, but don't you have jewelry and weapons? Put on a mana gem, and you can have enough blue with this set of equipment."

"So too," Zhou Tianming said.

The crowd resumed excitement.

Lu Yang said: "With all your strength, you can kill as many as you can. Remember, at the critical moment, you will retreat below the city wall, relying on the city wall attack, anyway, it is the last day. The anniversary is over.

"Yes." Xia Yuwei and others said excitedly. With Lu Yang's words, they dared to let go.

The walls of the imperial city.

Countless players are watching from the top of the city, but unfortunately, all they see is a dark cloud and countless gorgeous magic skills.

"Iron Brotherhood is a bit overwhelmed. Kill level 70 lords. These are all 100 million blood."

"Hey, look at it, the Brotherhood of Iron and Blood is going to be unlucky now."

"It's a shame. I have to do it. I said it was impossible before. They don't believe it."

Chapter 864 - Reaping Lord

No one is optimistic that the Brotherhood of the Iron Blood can fight the lords, especially those who stand at the North City Gate and the East City Gate. These two gates do not have the Iron Man Brotherhood's Forbidden Mage, only the Tsunami Master and the Druid Army. Facing the lord's strange attack, they retreated one after another, with a large number of deaths, and were soon forced to the wall.

The Nancheng Gate where Lu Yang is located is also not easy to fight. After more than 600 spell-casting mages have thrown away their skills, they have also faced a setback in the face of the Lord's strange attack. However, the players of the Iron Brotherhood have None of them showed timidity and obeyed Lu Yang's arrangement.

At the same time, at the outer periphery of the sparring site, Sun Yu, Mao Qiu, Han Yu, Ding Dong Mao, and other top masters in various studios are pulling them at the speed of 100,000 lords at a time. Lu Yang had already prepared the three fortresses around the imperial city.

The fortress has more defensive capabilities than the main city, and each piece of granite can withstand millions of magical attacks from players.

Lu Yang knew that the main city couldn't keep it. He didn't want to use Haihuangcheng to defend at all. His purpose was to pull these lord monsters into his fortresses one after another, and among these fortresses inside each fort, there were 3,000 flesh-mother females waiting there.

Lu Yang used all his contacts this time, and borrowed 10,000 dreamy rings from the old man, the elves, and Tianyao.

Using this ring he caught 10,000 flesh-mother females. After these 7 days of preparation time, each flesh-maternal female's level rose from 0 to 7 and he vomited 3 worms per second.

Sun Yu took more than 500 shooters, and the first batch rushed into the Dragon Fortress with more than 5,000 lords.

Unlike before, today's Hailong Fortress has been transformed by Lu Yang into a straight, 50-meter-diameter avenue, with walls up to 80 meters on both sides.

The level 70 lord chased Sun Yu and they rushed into the fortress channel. Suddenly, Sun Yu accelerated again with a rocket ejector, and more than 500 people quickly ran to the middle of the channel at a speed faster than one third of the lord's movement speed.

"Hurry up, jump on the wall with me." Sun Yu threw out the rope and quickly climbed towards the upper part of the wall.

"Come here." More than 500 people took out the ropes and jumped along with Sun Yu to the city wall. On the wall, there are many flesh-and-blood females facing the city wall with their tails, and under the city wall, there are several Billions of explosive bombs piled there.

Sun Yu looked at the 70-level mage next to him and said, "How many self-destructive bugs have you made."

"Hey, I don't know, anyway, we've been hitting Fleshwomen here since we woke up, letting him cubs for 7 days." With a wave of the mage, more than 600 mages took out sticks and beat them one by one to control The flesh-and-blood mother vomits small bugs.

"Roar ~!" The roar of the lord's monster came from not far away.

"Successfully, let's continue to run." Sun Yu waved and took more than 500 shooters to continue running along the outside of the city wall.

The lord blame didn't choose a change course under the condition that he could continue to hit the players, and still ran forward, but when they ran to the middle of the passage, they were discovered by the self-explosive worms who didn't know where to go in the city.

"Squeak ~ squeak ~"

Suddenly, countless blood red blasters rushed towards the Level 70 Lord Scarlet Troll.

"Second World" game design, npc of different races, most of them will attack each other, not to mention these self-exploding worms have no IQ.

"Boom, boom, boom ..."

Countless flames lit.

"5000"

"5000"

“5000”

...

Self-explosive insects are explosion damages. Ignore the magic, and the Scarlet Troll rushed to the front has been attacked by millions of self-explosive insects. Even if he has 100 million health, 20,000 self-explosive insects can ask him. Life.

In just a moment, the first Scarlet Troll was killed by a self-explosive worm, followed by the second, third, fourth ...

The same thing happened in the other three fortresses, the lord blame the team was killed and killed one by one.

Lu Yang shared the video with Xia Yuwei and others, saying, “Our plan is successful.”

He spent half his life watching the 100-million-year-old blame blame him for 3 seconds in front of the self-explosive worm, and said excitedly, “Boss, your plan is really great.”

“In this way, we only need to let the shooter lead the blame to the three strongholds,” Jiang Ze said.

Lu Yang nodded with a smile and said, “The lords who come to attack the siege are probably more than 6 million. If you are lucky, we can equip 1 million people with Qi magic suits.”

Zhou Tianming said: “This time Ma Lizhe is definitely over.”

“I guess they thought we were going to be overrun by monsters,” said bitter love for a long time.

Everyone laughed.

On the other side, Ma Lizhe is watching the live video of Haihuangcheng with more than a dozen people including Bian Jiji and Gu Wang.

“啧啧 啧啧 If Lu Yang’s command fails this time, the players of the Iron Brotherhood will definitely shake Lu Yang’s war abilities.” Mai Lizhe said.

“Let him be overwhelmed and deserve it.” The ancient king cursed. When he returned, he told Me Li Zhe and Bian Wuji that he was ambushed by Lu Yang. The two immediately panicked, missing an ancient king The impact on them is too great.

The three quickly covered the incident and started secretly mobilizing players to prevent Lu Yang’s sneak attack tonight, but when they watched the live broadcast over Lu Yang’s side, they were relieved that Lu Yang’s strength was obviously not war.

“Tonight we should be all right, what to do tomorrow, we are ready for war, Lu Yang must be ready, and we will come to fight us tomorrow.” Bian Wuyuan asked.

Ma Lizhe said: “To this day, the ancient king has no fighting ability. If we want to win, we must equip the ancient king with a poisonous orb. Those who have the poisonous orb in the national costume have only the poison of the beast Tianyao. The king and the eldest boss in the main city of the elves have them in hand. I’ll contact them. “

“I have no choice but to do so,” said the ancient king angrily.

Mai Lizhe contacted Tianyao and Tianyao shouted a high price of 30 million. Mai Lizhe did not make a counter-offer and went directly to the boss of the elves, but the elves told him that the war was about to begin and they could not sell it.

“War?” McLeod asked inquisitively. “What battle are you fighting?”

“I don’t know about your people. Now the bosses of the various fortresses of the Elves are starting to threaten themselves. Liu Jie is about to unify the Elves.”

The voice just fell.

[World Channel] Liu Jie: As of today, Liu Jie officially attacked Liangyun. Please do not intervene if you are irrelevant. At the same time, I would like to warn your friends that Liu Jie will not hit any unofficial fortress. Boss who has a wild fort Not my enemy, I only hit Liangyun.

Chapter 865 - Locust Tactics

[World Channel] Liang Yun: Liu Jie, you mean, shameless villain, you won't end well, we will never let your eternal glory ...

A large section of Liang Yun's scolding of Liu Jie was attached to the back, which surprised Lu Yang who had just seen the news of the two.

"This thing is wrong, there are problems." Lu Yang said.

Tu Feng said: "Liang Yun is not such a person without quality, something must have happened."

"I asked Ye Nantian." Lu Yang said.

He dialed Ye Nantian's phone. After nine consecutive beeps, when Lu Yang thought Ye Nantian had no time to answer the phone, the call was connected.

"Boss Lu Yang, what's the matter?" Ye Nantian's hurried voice came from the intercom.

Lu Yang frowned and asked, "What happened, why did Liang Yun scold Liu Jie on World Channel?"

Ye Nantian sighed and said, "Boss Lu Yang, we are over forever."

Lu Yang asked, "How do you say that?"

Ye Nantian sighed again and said what happened just now ...

It turned out that when Lu Yang started defending the city this evening, Liu Jie gathered more than 5 million players to raid the Emerald City.

Yaowu Yangwei, Ruyi Taishan, Apache and Qu Han each took 1 million players to attack from four directions, and Liu Jie personally led 1 million people to dispatch in the middle.

Although Liang Yun had a large number of people, they were all participating in the anniversary monster siege. In the face of Liu Jie's sudden attack, although Liang Yun was fully resisting, they were still unobstructed, and Liu Jie's four army commanders swept three The main city, more than 160 fortresses.

After Liu Jie occupied the fortress, he used the locust tactics and sold the occupied fortress as soon as possible. This was more than 10 o'clock. Liang Yun had fewer than 20 remaining fortresses.

Establishing a fortress requires at least 8 million to 10 million credit points. This money cannot be taken out by Liangyun, and ordinary shareholders can't get it. They collectively collect 50% of the money, and the remaining 50% is a bank loan.

It was only a month from the establishment of these fortresses that Liang Yun did not even earn a fifth of their money, so being sold by Liu Jie was equivalent to destroying the foundation of eternal glory.

Lu Yang said, "It's cruel."

Ye Nantian said with a sorrowful smile: "Not only do we owe a large amount of loans to the bank, we cannot pay the main group players next month, and now we are only 3 days away from paying the wages, and it is eternally brilliant."

Lu Yang lamented that the eternal glory is really over. Liang Yun borrowed a huge amount of money from the bank. Nearly one billion yuan in cash, they simply did not have the ability to repay.

“How is Liangyun?” Lu Yang asked.

Ye Nantian said: “Since the boss of Liangyun’s God of War was taken away, he has been unable to get up and drink and get drunk every day. This time he was hit by such a big blow. The boss of Liangyun has lost a square inch. Loyal, the rest in the guild urged us to take the initiative.

Suddenly Lu Yang felt sympathetic to Liang Yun’s condition, why was he the same as Liang Yun in the last life?

The guilds were created by virtue of their own faith, because the appearance of artifacts made them stronger, so that they depended more on artifacts.

After the test of life and death in the last life, Lu Yang reacted. What artifacts were nonsense. What really made him strong was the word of righteousness.

It was because of his fairness and morale that brought together a large group of people who were willing to accompany him when he was in a state of weakness, help him pay off debts, and help him cheer up.

Looking back at the situation of the last life, if Lu Yang can cheer up and slowly lead the remaining players to develop, using Liu Jie’s method of doing things, he can definitely make a comeback.

Lu Yang asked, “Where is Liang Yun?”

Ye Nantian said: “My elder brother is mad, he is gathering players to prepare for a decisive battle with Liu Jie, we do not agree, but the guild is his, and no one can stop him.”

Lu Yang said, “Don’t you go to death? If you can win this battle, you will be a hell.”

Ye Nantian said helplessly: "We also know, but what can I do? At this time, my elder brother needs me, and he wants to die, and we must accompany him."

In the end, Ye Nantian's voice contained a decision, which was a decision that he knew he would have nothing, and that he had to look back for the sake of justice.

Lu Yang was touched and said, "Go, I do n't advise you, I know I ca n't advise you, but one thing is, when the battle is over, you tell Liang Yun that I owe him the money I owe him also."

Ye Nantian froze and said with a choked voice: "Boss Luyang, what do you say?"

Lu Yang said, "Don't talk about this for the time being, see how many people are truly loyal to Liangyun through this incident."

"Yes, but why?" Ye Nantian asked.

Lu Yang said, "Explain later."

In this matter, Lu Yang has his own selfishness Because Liangyun is just a small part of his life.

"Dididi"

Lu Yang's intercom sounded. He saw that Xue Yiming was calling. He pressed the connection button with a smile and asked, "What's the matter?"

Xue Yiming said: "Boss, don't blame me for this incident. Liu Jie gathered all players above the group leader into an office building. No one is allowed to have any contact with the outside world. All players participating in the battle are also required. The talker was turned off. "

Lu Yang said, "I guess Liu Jie would do this. What's wrong with me?"

Xue Yiming said: "I just want to say something to you, and this time I played a bit fiercely, and may be rewarded again."

Lu Yang Yile asked, "Why?"

Xue Yiming said proudly: "When I assembled the team, I deliberately took a step slower than the others. When the war began, Liang Yun's main forces went to resist the others. The people who fought with me were all black people. I All the way through, it took more than 60 forts. "

Lu Yang really admired Xue Yiming this time, saying, "A total of more than 160 seats have been beaten, and you have beaten more than a third by yourself?"

"Yeah, Liu Jie said he would be rewarded. I don't know what to do." Xue Yiming said.

Lu Yang said: "Try to get closer to Liu Jie, where there is more money, less things, and more news."

"Understand, I know how to do it." Xue Yiming said.

Lu Yang laughed and hung up the phone. He looked back inside the Sea Emperor City. At this time, the outer walls of the Sea Emperor City were all broken. Almost 300,000 lords stormed into the security zone. Fortunately, the Sea Emperor Few players in the city hung up to sell things today. Most of them exited the security zone in a timely manner, and the others hid behind to watch the high-end NPCs of the Emperor City fight against the lord.

Once a lord monster was killed and the equipment just dropped to the ground, countless players rushed to grab the equipment.

Originally, he complained that Lu Yang had let the emperor's city fall. They praised Lu Yang for doing a good job.

Lu Yang was too lazy to have general knowledge with these ordinary players. He dialed in the old man's phone and asked, "How are you over there?"

The old man in the twilight proudly said, "The preparations for war are almost the same. I have almost 1.5 million blood elf suits."

Since the end of the war, the old man uses his more than 3,000 studio masters he recruited to bring his elites, buried in the Blood Elf Island day and night to brush equipment.

If the account level exceeds level 70, immediately change the account and continue to brush. In the absence of war and enemy threats, he is not in a hurry to upgrade his level. At present, the average level of his players is only level 60, but the equipment is better than the Iron Brotherhood. Even better.

Of course, this is not counting the 70-level gold equipment just now! If Lu Yang didn't know this way, he would also learn to upgrade step by step like the old man, but he is a rebirth and turned the old man into a guild shareholder. Many basic things, he can let the old man come do.

Lu Yang asked, "I'm going to attack Mai Lizhe. How many days do you need to prepare?"

The old man in the twilight laughed and said, "I guess you have this idea. You don't need to give me extra preparation time. It will be tomorrow."

Lu Yang said: "Don't hurry, don't fight first. This war is not only a matter for Me and Li Zhe, but also for the Poseidon Army and the hegemon who are far away in the double islands."

The old man in frost frowned, and said, "Do you think they will make trouble?"

Lu Yang said, "What do you think, if Meilizhe and I fight to the death, the Poseidon Army and the hegemon appear, what should I do?"

The old man in the twilight said, "According to the character of the hegemon, he will surely mediate between the two sides. It will be good on both sides, or he will unite Mai Lizhe or even me to destroy you."

Lu Yang said with a smile: "One hundred percent, how could he miss such a good opportunity, and if he wanted to destroy me, Merritt must have broken his muscles and used his power to call on the holy city, the city of sunshine and the capital of freedom. In the end, it must be him, and the bully will not miss this opportunity. "

"You want me to use my tactics against the hegemon." The twilight of the old man's voice was distressed.

Lu Yang sighed and said, "I must know each other, and I don't want him to lose too badly. If he really wants to unite you against me, you tell him the truth and let him retreat."

The old man in the twilight breathed a sigh of relief, and said with a smile, "I have written down this old man, and I have also written down for Xiongba. He dare to look for me, and I will warn the stink boy."

If Lu Yang really forces the old man to steal the hegemony, the old man will certainly do it. After all, this is the best opportunity to destroy the two remaining enemies at once. Hot spring city will become very difficult. Lu Yang is equal to a huge sacrifice for the old man to keep his name intact.

Lu Yang said, "Get ready, I built a fortress near a lake on the right side of Runcheng City leading to Bingshan City, and you send someone to take over."

"Okay," said the old man.

Lu Yang closed the talker and sat in a chair with his eyes closed for contemplation. He was wondering if he had missed anything. This decisive battle is of great significance. As long as he lays down Ma Lizhe, Lu Yang equals the entire human race.

The remaining Bingshan City, Binghuo City and Hot Spring City can be piled down by people.

Then he can wholeheartedly prepare to attack Liu Jie, and it is time for him and Liu Jie to finish.

“Dididi”

Tianyao sent a call application.

Lu Yang pressed the connect button and said with a smile, “I’m looking for you. You called first.”

Tian Yao said with a smile: “It looks like our two have the same idea.”

Lu Yang laughed and said, “Yeah, it’s time for both of us to play. Not Liu Jie can do all the good things by himself.”

The power in Liu Jie’s hands was too huge. Although Wang Teng’s defeat made Liu Jie hurt his muscles, he sold Liang Yun’s fortress. All the money he had previously lost was earned, and there was still a lot of surplus.

Not only that, he also brought the elite of Wang Teng, such as the curse-proof mage and special troops, from Qu Han to the elves.

In the Orc, his cousin Luo Cheng has also accumulated millions of players. Based on strength alone, Liu Jie is much stronger than Lu Yang and Tian Yao.

Tianyao said: “I will play Troll City early tomorrow morning.”

Lu Yang said, “I hit Merritt.”

“That’s it.” Tian Yao said with a laugh.

Lu Yang also laughed. This is considered a hero and a hero. Both thought of going together, both of them are afraid of attacking here, and the two are messing with each other behind.

If this happens both of them have collapsed, this decisive battle is definitely not possible now, it is to wait for a long time, after the two agreed, they turned off the interphone.

Xia Yuwei sent a message in the simulation group, saying, "A complete set of magical suits is available for me."

Lu Yang's eyes lighted and he asked, "How does the full set of attributes compare to the Underworld suit?"

Xia Yuwei said: "The attack power of the Undercover is 3944, the attack of the Magic Set is 5726, and the attack power is 1800. In terms of defense, the physical resistance is 4876 and the magic resistance is 3432. This photo is about 1000 points less than the Undercover However, in terms of qi and blood, the Menglei suit is 40820, and the magic suit is 58760, which has 18,000 more blood. According to the truth, the magic suit is much better than the Minglei suit. "

Lu Yang's mind was settled. Now he can see how many magic suits can be played. He took out the fortress and returned to the city to fly to the sea dragon fortress and personally supervise the battle.

More than 3,000 flesh-and-blood females are desperately throwing up worms. Inside the passage, countless lords are lining up to rush inside.

Every time I rushed in, I was killed instantly, and three types of equipment would be dropped on the ground, all of which are sets of the magic general series.

From night to early morning, more than 5,000 of Lu Yang and Sun Yu persisted for one night, pulling most of the 6 million lord monsters into the fortress.

5 in the morning.

Tu Feng said to Lu Yang, "Go to bed. The following things can be left to me and my brethren. You can deal with the war in the afternoon."

"Yes." Lu Yang nodded in agreement, quit the game and fell asleep for a while. On the other side, the heads of muddy wine and white lions, who had fallen asleep early, woke up at 6 in the morning. Prepare for war.

The war is about to begin!

Chapter 867 - Binglin Iron King City

?

10:55 am.

Lu Yang, who had just slept for less than 5 hours, did not wait for the alarm clock at 11 to call him. He woke up by himself.

"Brother, you are awake." Han Fei waited. He was responsible for calling Lu Yang to get up.

Lu Yang stood up with a smile and said, "Is there anything special?"

"Everything is normal. After the ancient king's poisonous orb was destroyed by us, Mai Lizhe can only passively defend. He is currently gathering players." Han Fei said.

Lu Yang sneered and said, "Let's go into the game."

When he came to the downstairs studio, Lu Yang put on his helmet, opened the game interface, and entered the Second World.

Bourbon City, Canglang Fortress.

Xia Yuwei, white lion, muddy wine pouring, Jiang Ze, Zhou Tianming, Sun Yu, bitter love for half a life, a total of 7 vice presidents are standing on the east wall to gather players.

In front of them, more than 5 million players from the Brotherhood of Brotherhood are gathering there. They have already formed a team, and everyone has an excited look on their faces.

The light flashed.

Lu Yang appeared at the head of the East City Wall. The original momentum suddenly reached its peak. Everyone looked at Lu Yang with an uncontrollable excitement.

“Boss, you are here.” White Lion and Xia Yuwei and 7 others said together.

Lu Yang nodded and asked, “Is the assembly finished?”

“The total number of people currently assembled is 5.82 million, of which the elite group, the cursed mage group, the special forces and the guard group are all full, and none are missing.”

Lu Yang nodded, looking at the players below the city, more than 5.8 million people, can't see the end at a glance, only to see all the dense people under the city.

“Brothers, we are here again today. There are old brothers who have been with me for a year, and new ones who have joined. Do you remember what I said to you at the beginning?” Lu Yang loudly using a full-screen loudspeaker. Asked.

More than 5 million Jagged Brothers players looked at each other, all recalled that there was a quick response, remember what Lu Yang said.

“Boss, you said, take us to dominate the game so that everyone dares not look down on us.”

Lu Yang said, “Yes, I said at the beginning that I would take you to dominate this game. Today, it is our most crucial battle. Defeating Merritt, we are the strongest guild of the human race. In the future, the entire human race, no one, any guild can bully us again, no one dares to buy and sell us, and no one screams in our presence. If so, tell him, who are we? “[... Aiqi literature...! Free reading]

“Iron Brothers Alliance!” At this moment, more than 5 million people shouted in unison, the kind of inner emotions, like the volcanic eruption, made every player’s irresistible urge to the extreme.

Lu Yang said in a loud voice: “Listen to my order, the whole army will enter the Iron King City and kill Mai Lizhe.”

The muddy wine dumping and Xia Yuwei and others collectively arched their hands and returned to the city. The entire army of more than 5 million people slowly moved towards the Iron King City like a steel torrent.

[World Channel] Lu Yang: Beginning today, the Brotherhood of the Iron Blood formally wages a war against Mai Lizhe, irrelevant guilds should not participate in it.

In just one sentence, the entire human race is boiling. Starting this morning, Lu Yang’s gathering of players in the running city has been known by the full service. Everyone knows that Lu Yang is going to start a war of unified human race, and they are curious about what he will be Time to go to war.

“It finally started.”

“Who will win in the end?”

“Quickly go to the official live broadcast channel, where there is live broadcast, Lu Yang hits Iron King City first, brothers who can’t make it go quickly.”

...

Messages on the World Channel were instantly swiped by players.

[World Channel] Mai Lizhe: If you want to fight, talk nonsense. My Mai Lizhe is afraid that you will not succeed. My 5 million brothers and I are waiting for you under the hammer fort.

The name of the fortress on the north side of the Iron King City is the Heavy Hammer Fortress. Under the city, Ma Lizhe gathered 5 million players.

Boundlessly gritted his teeth and cursed, "Lu Yang is so crazy, he dare come to hit us. I must let him know how powerful my skeleton army is."

Ma Lizhe said: "This time it's all about the big brother. Our 3 million people are not Lu Yang's opponents. Only your skeleton army can pose a threat to Lu Yang."

"Relax." Boundlessly proud of leaving the fortress, summoned a million skeletons on the west side of the hammer fortress.

After 2 hours.

Bian Wuji just finished organizing the Skeleton Army. In the distance, a black line across the sky blocked most of the rising sun.

More than 5,000 meters away, Lu Yang sat on the flame chariot, with 600,000 flames of the fire lion army burning on the left and right sides, and then, more than 5 million lineups of the Iron Blood Brothers Alliance.

"There is no ambush on the left, safe."

"There is no ambush on the right, safe."

...

Han Fei and the dumb handsome guy arrived with thousands of thieves ahead of them and were searching for enemy sneakers around the fortress.

Lu Yang observed the overall defense of the Hammer Fortress through a synchronous video transmitted by the spy, and said to the muddy wine around him: "This battle, Mai Lizhe will lose."

Inside the video.

McLeod's 5 million soldiers are very complex. The number of players above level 60 is at most 3 million, and the remaining 2 million is less than level 60.

On the west side of the Heavy Hammer Fortress, Bian Wuyi took 1.5 million Skeleton Warriors alone to become a legion, while Bian Wui himself stood in the middle position, his face was extremely proud.

After this one month, he killed in Iron King City and made 200,000 of his 1.5 million skeletons turned into platinum skulls. Three of the skeleton kings reached the gold level. The rest of the skeletons were all gold. From a distance, his entire army was golden.

Zhuo Jiu poured in a peeping look at the Borderless Forces and said, "Are we looking for a chance to sneak into Borderless and grab the heart of death?"

He knew that Lu Yang had the matter of Rev. Tianru.

Lu Yang said: "I also have this idea, this depends on Lan Yu and her 300-day rage priest."

Lan Yu said: "Look at me As long as Lu Yang can surround the boundless side, the boundless boundless side will be defeated by him and win the heart of death.

"Lan Yu, you and Zhuoju go to the west side, ready to attack." Lu Yang said.

"Yes." Lan Yu left with the muddy wine. In the entire army of 5 million people, 800,000 people marched toward the west side of the fortress.

When I saw Wuzhuo bringing 800,000 people himself, his face was still very proud. He could n't beat Zhuojiu in the international war, but at this time, he had a heart of death, but he was not afraid of Zhuojiu and his men. 800,000 people.

"Would I like to attack first," Bian Wuyuan asked.

"Don't fight first, I have already ordered the Poseidon Army and the Hero, they are rushing here from Iceberg City." Mai Lizhe said.

Boundlessly, he said in surprise: "When is the matter, brother, you did a great job."

Ma Lizhe looked directly at Lu Yang, who was close to 2000 meters, and said, "Lu Yang wants to unify the people, but he is not qualified."

Chapter 868 - Late Twilight

"Lu Yang, you, a mean and shameless villain, made a sneak attack." Mai Lizhe pointed to Lu Yang and cursed.

Lu Yang sneered, pointing at Ma Lizhe and yelling, "Mercy, you do n't have to fight any more now. I stopped playing this routine a year ago. I tell you plainly that Lu Yang wants Leading the Jagged Brotherhood to unite the people, either, you admit defeat or surrender, or you will be destroyed by my Jagged Brotherhood, there is no third way. "

Mai Lizhe originally wanted to describe Lu Yang as a villain who sneaked into the attack, so as to reduce the overall morale of the Iron Brotherhood. He and his guild players.

“Huh, what strength do you have to unify the people, don’t think that the sneak attack on the ancient king has a complete chance of winning. We also have a boundless heart of death and 5 million players. You want to destroy me, it’s too naive.” Mai Lizhe Lengheng said.

“I’ll know it before I try.” Lu Yang raised his right hand, and the eyes of the 7 vice presidents revealed their fine light at the same time.

“The whole army is attacking.” Lu Yang pointed forward with his right hand and roared.

“Iron Brotherhood, kill ~!” The White Lion, White Tiger, Zhang Zibo, Zhou Tianming and others led their millions of players to storm the army of Mak Lizhe, and the turbid wine poured 800,000 people to attack the endless skeleton army. .

For a while, the city outside Tiewang was in a chaos, but during this chaos, Lu Yang had a unit standing behind him steadily, without participating in the war.

The leaders of this group are Zhou Tianyan, Bailang, Jiang Ze, and Hansha. They have a total of 920,000 players, of which 620,000 are wearing a 70-level magic suit, and the remaining 300,000 are all healing professions.

The reason why he didn’t move was because Lu Yang was waiting for the news of the old man. Once the bully did not listen, he would immediately send the 920,000 people back to Benliu City and attack the bully with the more than 5 million people of the old man. Be sure to fight him. The army was defeated.

He called the old man, and asked, “Where’s the hero?”

The old man in the twilight said, “He just sent me a message. He was on his way to Bing Liucheng from Bingshan City. I set up an ambush halfway, and he should be there in a few minutes.”

From Bingshan City to Benliu City, although the second half of the river is narrow, the first half of the Poseidon Army can use ships to transport players, saving more than half an hour.

Lu Yang said, "I would like to admire the bully for me. This is the last time I tolerate him. After this time, I no longer owe him anything."

In the case of such a large army, Lu Yang did not take advantage of the sneak attack of the hegemon to eliminate his hidden danger. He has given him the face of the hegemon. If the hegemon is not awake, then the next time he meets, all the sentiments will be gone. .

The old man Chi Wu sighed. Why didn't he know how dangerous Lu Yang was facing? Looking at the large troops appearing in the distance, the old man said, "It's time we got on the field."

Liquor Qingfeng and Luo Siyu nodded, and each led their elite troops to the foot of the mountain with the twilight old man, welcoming the hegemon and the Poseidon Army.

far away.

Xiongba saw the old man coming, and said proudly to the two bosses of the Poseidon Army around him: "I guess this old fox has not lost his ambition to dominate."

Xiaoxiao Muyu said: "This time we have set Luyang and Mai Lizhe, no matter who wins, we will help the losing side."

Changkong Xizui said, "When the fight between them is exhausted, we will destroy them both with the old man's team."

In the eyes of outsiders, the strengths of Mai Lizhe, Ancient King, and Bian Wujie are not much different from Lu Yang, because they do not know that the poisonous orb of the ancient king has been broken by Lu Yang, nor do they know the Boundless Skull Army. Also restrained by Rev. Luyang's Skywrath.

Xiaoxiao Muyu frowned and said, "The only thing I worry about now is that I can guarantee that the old man betrays Lu Yang? The two of them are in alliance."

Externally, Lu Yang announced that he and the old man of the twilight entered into an agreement worth 300 million credits. If the old man betrayed, he would pay the price of 300 million credits.

Xiongba said: "Compared to the entire human race, what is that money for him?"

The old man at the end of the evening is 100 meters ahead. After the bully has finished speaking, he jogs to the old man at the end of the evening, and arches his hand and says, "Brother, you are here."

"Thank you for your help," said Xiaoxiao Muyu.

"In the future we will fight the world together." Changkong Xi said with a drunk smile.

The old man in the twilight smiled and said, "I'm old, I don't have that mind."

Xiongba said: "You are not old, there is no way to say that you are old in the game, you only want to do it."

The old man in the twilight shook his head and said with a long sigh, "Oh domineering brother, it doesn't work if you don't want to be old, these two are Changkong Xizui and Xiaoxiao Muyu."

They arched their hands.

The old man at twilight smiled freely and said, "Brother, I am not here to fight Lu Yang with you, I am here to persuade you to go back."

If the bully was hit by the Five Thunders, his face changed dramatically and he asked, "You, what do you mean?"

The old man said, "I have no ambition to compete for the hero. I just want to play the game. You are not Lu Yang's opponents."

The last time he was seriously ill and was hospitalized by Mai Lizhe, the old man knew that his body really could not keep up with the rhythm of the young people, and he resigned willingly.

Xiongba said in disbelief: "But you, are you still here?"

Twilight said, "Do you know how I came here?"

"How come?" Xiongba asked.

As soon as the old man waved his hand, millions of players suddenly appeared on both sides, surrounding the 3 million people brought by the hegemony.

"Late, you, what do you mean?" Xiongba asked in horror.

The old man said, "Lu Yang built a fortress near this place, and specially sent 5 million people here."

"You betrayed me," Xiongba scolded in anger.

Changkong Xizui said: "Late Boss, this is a rare opportunity. The two of us together have 8 million people. At this time, we are going to fight Lu Yang and Mai Lizhe. It is us who are in the unified national service."

"Yeah," Xiaoxiao Muyu said.

The old man in the twilight laughed and said, "How ignorant are you two, do you know how strong Lu Yang is?"

"What do you mean?" Changkong Xizui frowned and asked The old man said, "Don't have any fantasies, go back to your Binghuo and Hot Spring City. You are not Lu Yang's opponents."

Xiongba looked at the old man, and asked, "Late, do you really want to be Lu Yang?"

The old man Twilight shook his head and said, "I don't want to."

"Then why don't you fight Lu Yang with me." Xiongba asked.

The old man asked, "Did I tell you the reason today, and you will withdraw your troops?"

Xiongba said, "It depends on what happened."

The old man in the twilight said with a smile: "Because I spent 1 billion yuan and the current guild, I changed 10% of the shares of Jagged Brothers, which is me. I am now one of the major shareholders of Jagged Brothers. You said that I can Will you go to the Jagged Brotherhood? "

Xiongba was stunned, and said, "Lu Yang actually asked you to buy shares?"

Chapter 869 - Endless battle

The old man Chi Wu smiled helplessly and said, "Instead, you, do you have the courage of Lu Yang? To be honest, I don't have the courage. Where does the Brotherhood of the Iron Blood send me 1 billion yuan in the twilight, but he Lu Yang really dares This made me buy 10% of his shares for 1 billion yuan. With such a mindset, I can't do it later, so what else can I fight against him? "

Xiongba's whole body sweats came down, Qiang Zi calmly asked, "What do you mean this time?"

The old man in the twilight said, "Lu Yang told me to say one thing, go back to Binghuo City, don't participate in the war. I also want to advise you that the national service is no longer the national service that just opened the server. Now. "

Xiongba sneered and said, "Did you just let me give up the hegemony?"

The old man in the twilight said, "Brother, domineer, wake up, Lu Yang is enough. If he asked me to come here today, not to negotiate with you, but to ambush you, how many of you 3 million people can go back safely?"

Xiongba, Xiaoxiao Muyu and Changkong Xizui are silent.

The old man said, "Lu Yang said this is the last time he persuaded you. If you still do n't listen, there will be no more love between you and your brother. Lu Yang is already so powerful. You can't beat it. "

Xiongba was speechless, took a deep look at the old man, and his opponent said, "Let's go."

Changkong Xizui and Xiaoxiao Muyu each sighed and left with their players. The overall situation of the human race has been determined. They have no meaning to stay here.

The old man in the twilight took 5 million people along the way and watched them use the fort to return to the city roll. Then he called Lu Yang and said, "Everyone is gone, there is no one left."

Lu Yang smiled and said, "You are responsible for attacking the Red Moon City," forcing "Ma Lizhe to help."

"Oh, well, the old man wanted to get revenge." The old man still remembered the fact that Mai Lizhe had vomited blood, although the incident was over, those people were also expelled from the guild, but people said that People re-established their accounts, and Ma Lizhe spent a lot of money to upgrade them, and once again assumed important responsibilities in the guild.

"The whole army turned around, and I went to fight the Red Moon City with the old man." The old man in the twilight waved and shouted, 5 million people turned around towards the Red Moon City under the leadership of spirits Qingfeng and others.

Under Iron King City.

Lu Yang looked at the two players in the melee in the distance, and looked at the muddy pour troops on the west side of the fortress who were fighting the borderless army. He personally drove the flame chariot to the side of the muddust.

“Boss, is there any news over there?” Zhuzhuo asked slightly excitedly.

Lu Yang smiled and nodded, saying: “The tyrants and the Poseidon army returned to the city using the fortress.”

“That’s great,” Zhuoshu said excitedly.

Lu Yang asked, “Are you ready for the assassination? The plan to capture the heart of death?”

“Everything is ready, I’ve already opened the boundless formation, and I’ll wait for your news,” said Zhuoji Qingping.

In front of the battlefield, in order to prevent himself from being attacked by a lot of magic and forbidden spells, he pulled the front of the Skeleton Army far away.

The Platinum Skull and the Gold Skull are very powerful. Players in the Iron Blood Brotherhood Level 60 wearing Blood Elf suits can’t do much damage to them.

Skeleton’s own healing ability is stronger. As long as there is no battle for 1 minute, when returning, the health will be restored.

From the endless sky, Lu Xiang stared at Lu Yang. He hid in the bone wall and laughed. He said with a loud speaker: “Lu Yang, today you are doomed to fail, can you break my skeleton army?”

This sentence is very deterrent, and it is very distressing for the Jagged Brothers players who are fighting with the skull in front of them. It is really difficult for them to kill a skull.

The most hateful is the Gold Skeleton King. Their attacks can't cause a little damage to the Skeleton King. He is like a meat grinder. As long as he is hit, the non-defense war will definitely die.

Lu Yang looked back at Lan Yu and asked, "Are you ready?"

Lan Yu stood with Lu Yang with 300 days of Rage behind him and said, "You can attack at any time."

"Very good, we don't care about the other skeletons, the target is boundless, we hit all the way from the front." Lu Yang said.

"No problem," Lan Yu said.

Lu Yang said to Xiao Liang: "The Guards are well protected, and a Skywrath priest cannot be killed."

"Boss rest assured." Xiao Liang said, he has been waiting for orders with the most elite 900 Prismatic Shield armor fighters and 1000 healing knights.

Lu Yang summoned the chariot of flames and said aloud, "Pastor Sky Rage, come in with me and kill boundless."

"Kill." Reverend 300 days and Xiao Liang's legion roared at the same time, followed by the landing Yang slowly forward.

When I saw Lu Yang coming over in person, he laughed and said, "You thought I would be afraid of your devil's heart, and wanted to kill me to fulfill you, platinum skull, and killed Lu Yang."

Tens of thousands of platinum skulls rushed towards the location of the landing sun at the same time.

"Li Dun." Xiao Liang shouted.

900 Prismatic Shield Armored Warriors picked up a large shield and set up a defensive formation. The Rev. Skywrath stood behind the shield and looked around.

“Holy Word”

The 300 Holy Lights fell on the platinum skull that rushed to the front at the same time. For a moment, the original skeleton was so powerful that even the Level 60 Blood Elf Island suit could not be beaten, and suddenly became a pile of dead bones.

Holy Word’s attack range is 5 * 5, and 300 Skywrath Priest casts once, covering the area of more than 5,000 square meters, and more than 5,000 platinum skeletons are killed.

The players of the Jagged Brothers League watched Lu Yang rush into the skull group. They were still very worried about Lu Yang’s safety, but the anger Rev. cast a spell that day, and they were instantly excited.

“The Platinum Skull was killed in seconds.”

“What kind of skill is this Boss Niu” forces “, such skills are available.”

...

The player strength of the Zhuoju Legion increased instantly, but boundlessly dumbfounded. From the perspective of the sky, he was horrified to see that more than 5000 platinum skulls were killed in seconds.

“This, how is this possible?” Bian Wuji said.

A piece of holy light reappeared. When the light disappeared, Bian Wu suddenly discovered that the Platinum Skull Legion that he had sent to attack Lu Yang was killed out of a large area.

“Quickly plug in.” Boundless cold sweat DC, quickly ordered the platinum skull to seal the open space, but at this time what does it make sense.

After the resurgence of light, another skull was killed, whether gold or platinum, all were killed instantly.

“This, how is this possible?” Boundless frightened with despair, this unreasonable attack method released a group of spikes at once.

Chapter 870 - Win the heart of death

10 huge gold skeleton skull kings ran over from a distance.

“Holy Word”

The light flashed, and the skeleton king with more than a million bloods turned into a pile of dead bones in the light.

“So strong!”

Not only were they stunned, but the players of the Brotherhood of Iron Blood also showed their unbelievable expressions. If the Platinum Skull can be spiked to make them understandable, then the Skeleton Skull King was also spiked, giving them a heart to the artifact **** With great suspicion.

“How could it be so fragile.” Xiao Liang asked.

Lu Yang said: “This is called absolute restraint. Just as a water mage can kill me, Lu Yang, the 500 tsunami mage fights with me, and I can’t kill any of them, because water spells are born to restrain fire spells, especially over a large area. Water spells. “

If the deep sea uses a tsunami, even on the ground, unless Lu Yang uses the mixed physical and spell skills of the meteor fall, even if he is forbidden, he hides in the water, and Lu Yang can take him.

In the same way, the Holy Word of the Holy Light spell has the ability to control the death. It may not be able to kill a group of skeletons, but 300 nn masters can restrain him in the face of boundlessness. Damn it.

Otherwise, how could it be possible for the heart of death to make 1.5 million skeletons at level 3, wouldn't he be able to destroy a guild alone?

Everyone heard Lu Yang's explanation, and then they came to understand that it turned out that there would never be an absolutely invincible profession in the second world.

Lu Yang saw that the Platinum Skull and the Gold Skeleton King in front were killed, and he waved his hand and said, "Go forward, you must seize the boundlessness and get the heart of death."

"Yes." Xiao Liang waved his hand, Master nn continued to advance under the protection of Prismatic Shield Armor, and there were gold skulls nearby. He did not wait for 100 meters to be killed by Holy Word.

Seeing Lu Yang getting closer and closer, his heart became frightened, without regard for dignity, and ordered the last skeleton king who stayed around to lift his bone wall cage and ran towards the city.

"No, he has to run." Xiao Liang said.

"He can't run." Lu Yang sneered and raised his left hand.

Not far from the edge, suddenly more than 100 druids changed from cheetah form to human form.

"Natural control of vine twine"

More than 100 druids, such as Despicable Corpse and getting upset, simultaneously released right-handed spells, centering on their 100 people, and a large number of vines grew on the grass within a range of 1,000 meters, winding all the legs of the skull.

Skeletons are undead, and stun spells do not work for them, but control spells are very effective.

The Gold Skeleton King was running back, and was suddenly entangled by vines, leaving a boundless heart who could escape successfully cool for most of it.

“Get out of here.” He shouted boundlessly, but unfortunately, the vine had already reached the waist of the Skeleton King, and he couldn’t break free.

“Damn.” Bian Wuchi yelled, watching Lu Yang’s flaming chariot less than 200 meters away from him. In desperation, he opened the side of the bone wall at risk, and pointed the vine with his right hand.

“Death Withering”

The black “color” energy spell hit the vines on the ground. In a blink of an eye, the vines withered, the Skeleton King broke free, and continued to run towards the fortress.

Bian Wujian was relieved. He retreated back to the bone wall and just about to close the bone wall. At this moment, two black “colored” bs were accurately inserted into the boundless neck.

“Unscrupulous Strike”

With the emergence of the sound, Bian fell to the ground without even responding.

Han Fei appeared, looking at the edge lying on the ground, and said, “Get up, you have three lives, don’t hit me to death.”

Bian Wu looked up at Han Fei, frowned, and said, “I never thought that the heart of killing God fell into your hands, what do you want.”

Han Fei said, “Give up. You thought you were surrounded. You don’t think you can escape back to the safe area of the main city in this state.”

Using the sky perspective to observe, Lu Yang even took Lan Yu and Rev. nn to his feet.

“Holy Word”

The Skeleton King turned into a pile of dead bones in the Holy Light, and the endless bone wall cage fell from a height of 5 meters to the ground.

Bounded by a violent collision force, he fell out of the cage. He ignored the others, and quickly rolled up and stood up, looking around, and found that he had been surrounded.

“Lu Yang, you secretly calculated me.” Bian Wuxi stubbornly scolded.

Lu Yang looked at the boundless and said, “Give you a choice and take the initiative to surrender the heart of death, I will give you 5 million.”

This is Lu Yang’s bottom line. In the last life, he was anxious after being robbed of the devil’s heart. He didn’t want to repeat it on irrelevant people. His goal was only Liu Jie. Others had no enemies against him.

Boundless in dilemma, he didn’t want to sell the heart of death, let alone sell this low price, but he was almost controlled by Lu Yang and had no ability to escape.

“Chairman Lu Yang, can you let me continue to hold the heart of death, I can join your guild,” Bian Wuji said.

Lu Yang shook his head and said, “Sorry, I will face Liu Jie and the international war next. I don’t want any accidents to happen.”

“No, I, I” Boundless struggles, but Lu Yang raises his right hand, aiming his staff at Boundless’s head.

“Pyroblast”

For two consecutive pyrotechnics, while leaving the second life without boundaries, the last one was left. Facing Lu Yang's wand raised again, he said frankly, "Okay, I give up the heart of death."

An extremely beautiful heart of the black crystal appeared in the boundless hands, and Han Fei stepped forward and took the heart of the black crystal to Lu Yang.

Grim Reaper Level 3

Lu Yang put the heart of death in his backpack and said to the boundlessness, "Go back to the city, you have lost."

The moment when the heart of death left from the boundless body Down skeletons were all turned into powder.

"Boss got the heart of death!"

"We have defeated boundless!"

"Win!"

Jagged Brothers players cheered.

Mai Lizhe is gathering more than 5 million players to fight with Lu Yang. There are top commanders such as Bai Shisanxiong, Zhou Tianming, bitter love half-life and Xia Yuwei. Mai Lizhe let alone distractions, even supporting the battle seems difficult.

Suddenly the cheers made Merrie feel bad, and he and a group of vice presidents discussing the game looked at the west side of the fortress. When they saw that more than 1 million skeletons had all disappeared, Merrie was almost Did not stand still.

"Bian Wujie lost?" Mai Lizhe sent a terrified message to Bian Wuji and asked, "What's going on, your skeleton army?"

"It's gone, it's gone." Bian Wu sitting on the ground watching the dregs of the western side of the fortress and the skull scum everywhere. His eyes were dull. 1

Chapter 871 - Tie King City

"How is this possible? You are holding the heart of death. Your platinum skull can't even beat the 60-level excellent gold player. How could it be gone?" Mai Lizhe asked almost in a shouting tone.

In the original battle ideas of Ma Lizhe, the Borderless Skull Legion was the main force in the main force. He blocked the troops of 6yang on the front, and attacked from the side while boundless, he must defeat 6yang, but he lost at the beginning of boundless, The ancient king's poisonous orb is gone, Mai Lizhe has only more than 50 million players, he does not know what to do.

"No, 6 Yang came over with muddy wine troops." The ancient king shouted.

Ma Lizhe looked up, and a flaming chariot was slowly entering the battlefield in the distance.

"Flame Aura"

6 Sun opens the flame effect on the chariot, all fire spell damage increases by 20%, originally there are many fire methods inside the Brotherhood of Iron Blood, with this buff effect, the fire damage is more powerful.

"What do we do now?" The ancient king asked in a guilty conscience, and the boundless death was lost, and he was afraid that his toxic heart would also be lost.

Mai Lizhe stared coldly at the 6 Yang in the distance, and said to the ancient king and others around him: "Don't worry, I wore jewels and enchants to increase fire resistance to the brothers, and the 6 Yang fire unit It won't hurt us too much. "

Among his 500 million players, about 3000 is a main force of 60 level or above, and all the equipment is the blood demon temple suit. He thinks that he is no worse than 6yang.

"Rest assured, even if we don't have the heart of death, we won't be able to distinguish between the 6 and a half at 6 Yang." Mai Lizhe said.

Gu Wang and others were slightly relieved.

Ma Lizhe said proudly: "Furthermore, it won't be long before the hegemonic troops will enter the Benliu city, and the old man's army will add tens of millions of people together. This time the 6-yang loss is set. "

"Hey, that would be great." Gu Wang said.

Mai Lizhe sneered, looking at the 6 Yang who supervised the battle in the distance, shouted with a loudspeaker: "6 Yang, you lost this time."

6 Yang looked at Mai Lizhe and said, "So confident, who gave it to you, domineering?"

Mai Lizhe originally wanted to disintegrate the morale of the 6 yang and let the 6 yang divided into troops to stop the hegemony, but when he heard the words of 6 yang, Mai Lizhe was stunned and said, "You, how do you know it is the hegemon?"

6 Yang sneered and said: "Originally, you wanted to deal with the old man and the old man, and tell you that the old man has returned to the iceberg city, and the old man is rushing to Hongyue City with 500 people. Your hometown is not guaranteed. Now. "

"Is this impossible?" Merritt said excitedly.

As soon as the words fell, the vice president around him said anxiously: “No good, the spy reported that the old man in the twilight has taken more than 500 million people to the territory of Red Moon City.”

[World Channel] Old Man in the Twilight: I announced that the Zijin Dynasty was officially merged into the Jagged Brotherhood, and the two guilds have since become a guild.

Ma Lizhe almost spit out blood, and he looked at 6 Yang and said, “You, you are cruel.”

6 Yang raised his right hand and said loudly: “Zhou Tianyan, Bai Lang, Jiang Ze, Han Sha, attack.”

The white wolf suddenly pulled out the long knife in his hand, raised it high, and shouted sternly: “Iron brothers, kill ~!”

crazy!

Totally crazy!

When the roar of the white wolf appeared, 920,000 players who had been unable to hold back their inner impulses completely fell into madness, riding the fire lion and rushing to the army leader Mellie.

This is a group of violent battles wearing 70-level gold suits, starting with 3000 magic warriors. When this group of lunatics rushed into the crowd, the whirlwind was used for all, and Li Lizhe’s army began to collapse.

“Boss, there is something wrong with the equipment of this group of people. We can’t stop them with the defense equipment of the 60 Blood Elf Island suit.”

“I can’t stop this either.”

“The damage is too high.”

“There is too much blood, and they have injured more than 30,000, and they are not dead.”

...

A lot of news came back to Merritt’s office, and Merritt was panicked and didn’t know what to do.

Just this time.

“Flame chariot advances,” 6 Yang said.

Xiao Liang controlled the flames of the chariot. Hei Yan and Nanfeng Zhiyi and other mage who did not release the curse jumped on the chariot.

6 Yang said, “Target Lilizhe’s army, ready.”

Hei Yan and others nodded, and began to recite the spell. After 30 seconds, the spell was released from the crowd. It happened that Xiao Liang drove the flame chariot to the attack distance.

“Black hole”

“Crazy Thunder Prison”

“The flames burn out”

...

A series of five forbidden spells were in the position of Merritt, and Merritt and others immediately evacuated from the original position. The surrounding healing players desperately brushed their blood. Although these people survived, Merritt had no idea what to do.

Now 6 Yang and him are not evenly contested, but one side crushes the other.

There are 500 people in the hands of the elderly, and 500 people in the 6th year, which is equal to 1000 people in the two together, and the late has the ability to direct the battle alone. Experience is a long way off from 6 Yang and Late Twilight, and the rest of the players can't compare with the two.

"What to do?" The vice-chairman asked Mai Lizhe.

"We returned to Red Moon City. We must not let the Moon Shadow Fortress be lost. That is my hard work." After all, Mai Lizhe couldn't rest assured that he spent nearly 200 million to build the Moon Shadow Fortress. The resurrected player did not order to return to Iron King City. , But back to the Red Moon City.

"Boss, Merezer is gone." Tu Feng said.

6 Yang said: "It's a loss to go. The old man will not let him go. Let's go. We swept the Iron King City and completely occupied the surrounding fortress."

"Yes." Xia Yuwei and White Lion followed 6 Yang.

Bian Wuji's heart hasn't responded yet, and he has no courage to fight. Xia Yuwei and Zhuoju took Tiewang City into their pockets in just two hours. Bian Wuji's men did not resist at all.

6 Yang stood at the head of the cold water fortress and looked at the time. Before 4 pm, he said, "Continue to attack and lay Shadow City tonight."

"Yes."

...

Xia Yuwei responded with the vice-chairmen such as Zhuo Jiu. The vice-chairmen were divided into three teams by 6 Yang. In addition to the 6th army, the left was led by Zhuo Jiu and the right by Zhou Tianming Team, storming all the fortresses of Shadow City.

“Boss, you say something, quickly gather the players, 6 Yangzheng leads the team to attack the Shadow City.” The vice chairman of Bian Wuji saw that Bian Wuji was still sitting on the ground thinking about his death, and worked hard. Shaking his boundless body.

Boundlessly suddenly came to his senses and said, “What, 6 Yang is going to hit Shadow City?”

Shadow City is a boundless hometown. How can he tolerate 6 Yang entering like this, stand up and shout: “Gather, gather all.”

Chapter 872 - Lu Yangyi is boundless

He flew back to the fortress outside the shadow city to gather players, but only when he gathered, the total number of people he could gather was less than 10 million.

“Why so few, why don’t others come.” Bian Wuji scolded in the guild channel.

It’s a pity that no one is boundless. Just like the ancient king, the boundless heart with the heart of death is even more mad than the ancient king.

When he beckons, he will have millions of skeletons to follow. Anyone with a platinum skeleton can make all his players irresistible. Does he need them?

The reason for the establishment of such a huge guild is that he wants to occupy the fort to make money, and someone needs to show him the door.

Does he need to care about his feelings?

The boundless arrogance and arrogance are even more powerful than the hegemony. Those who are unwilling to do anything under his control and disobey his arrangements are kicked out of the guild.

There are not many people with real strength under his hands, only the Forbidden Mage and the elite group around him, but these people are only well equipped, and their own skills are not much stronger than normal players, because they rely more on The flattering and walking relationship came in.

To put it bluntly, these people are a bunch of wall grass. When the border is strong, they are willing to follow, but when the border is bound to fail, they are the first to run.

I can gather more than one million people, but these people are habitually obedient and boundless, and there are some guild honors in their heads.

“How can these people stop 6 Yang?” Bian Wuzhe was angrily and angered, and asked: “Your people, come and help me defend the Shadow City, 6 Yang is here.”

Mai Lizhe looked at the smiling old man in the shadow of Moonlight City, and said, “My Moon Shadow Fortress is surrounded by the old man in the darkness. He brought 500 million people, and I can’t protect myself.”

“Old man late?” Bianwu felt a sense of powerlessness. He closed the phone and called the ancient king. “Brother, you can bring someone to help me keep the city.”

The ancient king said embarrassingly: “More than 100 guild rebellion in Green Jade City is invading my fortresses everywhere, brother, we are going to lose this time.”

“This, this.” Bian Wuji didn’t know what to say.

“Woo ~~~”

The murmur of low and distant horns came from afar, and when looking at it, millions of Jagged Brothers players appeared in the sky.

Their lineup is neat, everyone's face has an excited look, and it is the 6 Yang himself who is standing in the forefront.

“Boss, can you say that we can defeat Mai Lizhe completely today?” Hei Yan asked excitedly.

6 Yang said: “Look at the situation, Ma Lizhe has some difficulties, but Bian Wuji and the ancient king are unpopular, and they will be defeated.”

Jiang Ze rode the Red Flame Lion and said, “I have confidence in defeating the ancient king and boundlessness, but I worry that the ancient king will not hide in the green jade city, so we will not be able to get the poison in his hand. In the end, having this thing is ultimately too bad for us. “

6 Yang said: “Now the ancient king has been hiding in the Green Jade City.”

“The poisonous heart is too powerful. In the future, when we hit Liu Jie, he and Liu Jie will make troubles in the back, which is too bad for us.” Xia Yuwei said.

6 Yang said: “Don't worry, the ancient king won't come out now because I didn't go to war with the boundless side. When I fight with him, he will immediately take someone to **** the fortress occupied by other guilds. One fortress 10 million , He can't bear so much money for others to take away. “

The white lion said: “The boss is still a clever trick for you, allowing all players in the Green Jade City to **** the wild fortress opened by the ancient king. Whoever snatches it will belong to whoever.”

6 Yang said with a smile: “It is a reality that everyone pushes against the wall. It also warns us that we must not relax our vigilance at all times, otherwise the end of the ancient king is us.”

Everyone nodded.

During the chat, 6 Yang took more than 500 people to the first wild fortress outside the shadow city, looked at the edge of the city, and said, "Don't resist, you have lost."

Dilemma, admit defeat? He still had more than 100 thousand followers to follow him. He couldn't dissolve the guild like this, but he didn't admit defeat. He couldn't stop 6yang. The end result was that the fortress was robbed by 6yang, and he couldn't leave any.

6 Yang saw the boundless expression with struggle, and continued, "There is no hatred between you and me, because you and I are both fortress bosses. It is inevitable that I will hit you. It is the same for you, but you I don't want to kill everything. You sell all the fortresses that belong to you. I won't let you live with huge debts. "

Xia Yuwei, White Lion, and others looked at 6 Yang with a daze.

"Boss, if it were him, he wouldn't show mercy to our men." Said bitterly for a long time.

6 Yang smiled and said, "Brothers, now I can really wipe out the boundless world and take all his fortresses, but you have not thought about the consequences."

"Consequences?" Xia Yuwei was puzzled.

6 Yang said: "Boundlessly, to be able to build these fortresses, we must have borrowed a lot of money. If we take up his fortress and sell money, it is equivalent to driving him to death. If he jumps off the building because of this, how about the money? flower."

Everyone was speechless.

6 Yang went on to say: "After one year, or two years later, there are new capitals entering the game. They urge players to confront us. Based on this, Shadow City, Green Jade City, Red Moon City, Sunlight City, and Freedom Yes, these main cities have to rebel.

If at this time another Tianyao or Liu Jie came to attack, and both sides attacked, I was forced to die again and boundlessly. Do you think that the Brotherhood of the Iron Blood can sustain it? "

Shaving his head bitterly for half a life, he said, "The Brotherhood of Iron Blood started to resist injustice, but if we are bound to die, then we will become the object of our resistance, and there will be problems within the guild."

6 Yang smiled and patted his half-life shoulder for a while, and said, "Yeah, what I am worried about is this problem. It does n't matter if I lose hundreds of millions of income. We take the entire human race. We can earn this money again. But if these hundreds of millions have lost the soul of the Jagged Brotherhood, we have no future. "

"The boss is right, I agree." The murmurous wine that was receiving the 6 Yang news at the simulated group moments poured out.

Zhou Tianming also said, "Boss, I agree with you."

Yang Yang nodded, looking at the boundlessness of the city, and said, "My other two troops have stopped attacking your fortress. Sell it. I don't want to be too good."

Bian Wuji just received the news that the other two troops of 6 Yang were approaching the fortress. Hearing 6 Yang said this, Bian Wuji could not help holding the fortress with his hands, opened the column of the fortress, and sold each of the fortresses as a whole.

It takes more than 3 hours for the own guild to sell a fortress. This is to give the attacker a chance to attack, and the attacker can sell immediately.

Bian Wuji sold all of his 72 fortresses at once. He jumped off the city wall and walked in front of 6 Yang alone. He thanked 6 Yang and said, "Thank you President 6 Yang for not killing them all."

6 Yang jumped off the flame chariot and came to the boundless front, saying: "The guild can keep it, but it can only have 10 million people. As long as you don't fight for hegemony, we can still be friends."

Bianchi shook his head and said, "I don't have as many offenders as the ancient king. I can only be killed by other guilds if I keep one guild. It's boring. I quit the game and retrained."

Bian Wuji arched his hand at 6 Yang and said freely: "Brothers admire, Chairman 6 Yang, I am."

6 Yang patted his boundless shoulder. He didn't know what to say, and said with emotion, "Goodbye in the future."

After speaking, 6 Yang signaled Xiao Liang to drive the flames chariot, he jumped on the flames chariot, and headed toward the shadow city with 500 million people.

At 6 Yang, he said: "The muddy wine cooperated with the old man to attack the Red Moon City. If Ma Lizhe concedes, the treatment is the same as the boundless, Zhou Tianming went to Nikko City, beware of the domineering attack, and the rest will occupy the Free Capital. "

"Yes," the crowd said together.

A clear applause suddenly sounded in the live broadcast room.

Du Bin, Tong Tong, and two senior game commentators were stunned looking at what Yang had just done from a live broadcast perspective.

"Three hundred million, at least three hundred million, 6 Yang is so unnecessary, terribly." Du Bin applauded.

Hitomi's eyes were full of amazement and said, "It's incredible, 6 Yang is so boundless."

Dubin said: "Please call me a fan of 6 Yang in the future. If this person can't unify the national service, no one has this qualification."

Commentator Lao Yang helped the glasses and said, "Just after looking at the information, Liu Jie laid all the fortresses in Liangyun and sold them. Tianyao sold 5 fortresses and also sold the wild fortresses. The only one. What is not sold is 6 Yang. "

Commentator Erlong said, "Well, I support Tianyao and Liu Jie being able to unify the human race."

"well said."

"well said."

...

Du Bin and others laughed and said that Erlong had a law, and whoever he supported when explaining, who would be finished.

"You support Mai Lizhe again, I think he will soon." Hitomi said with a smile.

"Well, I support Mai Lizhe to win." Erlong said with a smile on his face.

in the game.

The 50 million people of the old man have surrounded more than 2 million people of Mai Lizhe in the Moon Shadow Fortress Xiao Wang Ba Zi, dare to scold me, I must kill you today. "The old man in the twilight stood under the city and yelled.

Mai Lizhe was stunned. For the first time, he saw the old man in such an ill state, not only him, but also Roth Rain and the strong wind of spirits.

"It turned out that the boss kept burning in his heart." Liquor Qingfeng said quietly.

"Old people can't mess with them, they're so old," Luo Siyu nodded in agreement.

Then the two came to understand why the old man in the twilight had to kill the Blood Elf Island with his men and buy the potion at the Song of Blood and Fire pharmacy to expedite the copying process at a high price. All the original reasons are here.

Chapter 873 - Merritt exits the game

“Master of the 150 10,000 Blood Elf Island suit, I see what Mak Lizhe used to resist this time,” said Liquor Qingfeng.

“Siege the city, siege it to Lao Tzu.” The old man in the twilight roared, “Whoever killed Mai Lizhe first, Lao Tzu rewarded him 10 million.”

“Nima, kill ~!” The 500s who followed the old man from the twilight went crazy instantly, and rushed towards the Moon Shadow Fortress like their lives.

Meilizhe on the city is stunned. This is a game. He killed him once and gave it to ten million. He looked around and was stunned. The players around him looked a little weird.

“Give me everything you want to do,” Mai Lizhe scolded.

The players around him were deterred by Mai Lizhe’s usual power, and his eyes looked down the city, but what he thought, Mai Lizhe did not know.

The dark clouds cover the sun, and the old man of the twilight has more than 300 forbidden mage himself. Among the people participating in this battle, all the affiliated guilds and studios who have the forbidden mage have arrived at the old man of the old man. There are more than 600 mage.

When the player reaches 60 level, special skills can increase the level through the task. Although the secondary injunction is difficult, it is very easy to upgrade with the help of the guild. At present, all mages who know the secondary injunction above 60 level will be 2 Level curse.

Level 2 forbidden spells have twice the attack range as level 1. 600 individuals simultaneously release the forbidden spell, covering the entire Moon Shadow Fortress.

“Come with me.” Liquor Breeze rushed to the fortress first. The people he carried were all Blood Elf Island suits. They easily occupied a favorable position on the fortress, and the two sides quickly fought on the wall.

When the murky wine rushed down to the Moon Shadow City, the old man of the twilight had broken the gates on all sides of the fortress, and the two sides started fighting in the city.

“It’s so fierce,” Mao Qiu said.

The old man in the twilight learned from the muddy wine that he came with 80,000 people’s support and ran out of the city with people. At this time it was dark, the sky was bright, and the city was full of war.

The old man in the twilight illuminated it with a crystal lamp, and Tongzhuo said, “It’s just here, help me rush in and kill Mai Lizhe.”

Zhuoju said: “How many of you are warriors above 70.”

The old man said, “It’s about 10 million people.”

Zhuo Jiu said: “I let my soldiers first lend you 70-level equipment. We will not participate in the siege.”

“What’s wrong?” The old man asked, surprised.

Zhuo Jiu said, "Did you not give the order that whoever kills Merritt will get 10 million rewards. Our two guilds have just merged. In case someone of mine kills Merritt, let us take it away. A ten-million bonus would be detrimental to the substantial merger of our two guilds. "

The old man in the twilight patronized Mai Lizhe, and forgot about it. He patted his head and said, "The thoughtfulness of your kid, it makes sense, you have the equipment ready, and I will call someone over."

"Okay." Turbid wine poured out and ordered his soldiers to change their equipment.

The old man in the twilight ordered the strong liquor Qingfeng to take 10 million violent battles out of the city to get the equipment, and the two sides exchanged the equipment. The 10 million people were very grateful for the drunk wine.

"Enough."

"I thought they were grabbing money."

"It is indeed a brotherhood of iron and blood. We will not suffer from the merger."

...

The strong liquor breeze changed from the muddy liquor to the 70-level magic general suit, and said to the muddy liquor, "Thank you very much, I will definitely return it after the fight."

Zhuoju poured out, "Come on, I'll go and occupy the other three strongholds, and not give Merritt a chance."

"Okay." Elderly Twilight led the team away.

Inside the Moonshine City.

Merritt is selling all the decorations in the inner city, these decorations alone are worth tens of millions.

“Persist, hold on.” Mai Lizhe said nervously, he felt that the 300 people under his control would not have any problems if they persisted for 3 hours.

“Brothers, the 10 million bonus is in front of me. Rush with me.” The spirits breeze roared, and the player wearing a 70-level magic suit was rushed towards the city wall in the inner city.

Hong Yingxue, a member of the defending mage, is casting her spells at full strength. His spell has injured 6000 points. She has formed a habit of killing. With her companions, she only needs to release 4 range magic. Enemies in the inner city will still be killed.

Seeing a new wave of enemies rushing up, Hong Yingxue and her companions collectively released 4 magics. As they were preparing to hit other players, Hong Yingxue was surprised, and the player who had just been attacked by him did not die.

“How is that possible?” Hong Yingxue frowned, he shouted, “Continue to kill this wave of people with me.”

More than a dozen mages continued to release spells with Hongyingxue, but this time, the 70-level demon with a blood amount of 50,000 will let the players who rushed up to the city to be killed, and at this time, the follow-up players But hardly hurt.

“Siege the city, rush up.” Liquor Qingfeng was resurrected by his men, and stood up and shouted.

I want to kill 50,000 health, magic resistance and more than 2000 magic players to set players, it is very difficult, and soon, the breeze of spirits rushed to the inner city, and killed the players of the noose that guarded the city gate, The door to the inner city opened on the south side.

“Rush in.” Elderly Twilight led the team and rushed into the inner city, and he saw Mai Lizhe standing under the shrine at a glance.

“Xiao Wang Ba Zi, your grandfather taught you to be a man.” The old man in the twilight, holding the holy sword, rushed towards Mai Lizhe.

The surrounding players immediately guarded, and Merrie had no morale when he was breached in the inner city.

Although the old man in the twilight was strenuous, he still rushed to Merlech’s presence. When Merlech was at a loss, a sword was inserted into Merlech’s neck.

Moritz, die!

“It’s finally out of this bad breath,” the old man said lately.

He called 6 Yang and said, “The Moon Shadow Fortress has been beaten. What should we do next?”

6 Yang Gang arrived at the Freedom City, and the fortresses here were sold by him. 6 Yang easily occupied 4 official fortresses, declaring that he possessed the Free Capital.

“Are you angry?” 6 Yang asked with a smile.

“Out, I have a broad mind, just kill him once, and then I will be ridiculed. What do you want to do?” The old man asked.

6 Yang said, “You’re going to lose your breath. I asked Zhuoju to talk to Ma Lizhe and let him take the initiative to quit, which saved us a lot of trouble in the future.”

The old man in the twilight has grown old and insisted on his life. He has a thorough understanding of life and society. He is very satisfied with the practice of 6 Yang, and said, “Go ahead, I agree with your approach. We are not Tianyao and Liu Jie. We have all the righteousness we should have. “

“Okay.” The 6-yang message pours over the muddy wine.

The main city of Red Moon City, the Guild Hall.

Mai Lizhe just resurrected from death, scolded angrily and angrily: "Player gather, hurry up and follow me to grab the Moon Shadow Fortress."

Hong Yingxue and the vice presidents and legionnaires looked very ugly. How did they fight? When there were fortresses, they were not defended. Without the fortresses in the wild and the elderly, they did not have an advantage in numbers or equipment. , Forbidden spell masters have finished their skills again.

However, they dare not say this. Everyone knows that the total value of the Moon Shadow Fortress is nearly 200 million, and it was thrown like this. Mai Lizhe couldn't do it. Who dare to make this request, Mai Lizhe can scold him.

"Gather your men, what are you waiting for?" Mai Lizhe scolded angrily as he saw his men bow their heads and said nothing.

A deputy chairman said, "Boss, where do we gather, the remaining three fortresses of Red Moon City have been poured down by muddy wine."

Mai Lizhe scolded: "Waste, gather outside the city, is there no place in the large open space outside the city, quickly gather people, I will retake the Moon Shadow Fortress."

Lin Kai walked up to Me Lizhe, and said, "I just received the message, and I want to talk to you."

"He talks to me? What does he want to do?" Mai Lizhe scolded.

Lin Kai shook his head and said, "You better talk to him in person."

Ma Lizhe took the talker and asked coldly, "What are you looking for?"

"The boss asked me to tell you that he could not sell your fortress."

Melissa's anger instantly disappeared by two-thirds, and asked, "What's the price?"

Zhuo Jiu said, "It's not a price, but our boss doesn't want to be too terrible. President Ma Lizhe, give it up. He has already dismissed the guild he merged with, and now he has dissolved the guild. Offending too many people, Green Jade City is too busy taking care of yourself. Do you think you can stop the 10 million attacks of the Brotherhood of Iron Blood and Zijin King City by yourself? "

Zhuo Jiu added: "The key is that these 10 million people are all players above 60 level. To tell you the truth, we still have a violent battle team of 60 million people in all 70 level gold suits. You can't beat me. . "

Mai Lizhe groaned for a long time and asked, "I understand what you mean. You want me to dissolve the guild."

Zhuo Jiu said: "You can't dissolve the guild, but you can only keep up to 10 million people. The boss said that you can do all the wild fortresses you build, and he allows you to sell them to the system."

"Can you give me some time?" Ma Lizhe asked.

"Of course." Zhuo Jiu said Mai Lizhe turned off the phone, looked at Hong Yingxue, Lin Kai and others in front of him, waved and said, "It's all gone, I want to take a break . "

The Red Wolf wanted to speak, but was stopped by Lin Kai, and left with Hong Yingxue and others, leaving only Ma Lizhe alone.

Mai Lizhe thought for a long time, and finally he gave a message to Zhuo Jiu, saying, "Speak for me and 6 Yang, this time I lost my conviction, and the guild disbanded. I quit the game like Bian Wuji."

I do n't know how to respond to Zhuo Jiu, but Xiong Xiong's ending is the most inconsolable word.

Three hours later, all fortresses outside the Red Moon City disappeared, all fortresses outside the Shadow City disappeared, as did the Sunshine City and Liberty City.

Chapter 874 - Poseidon\'s initiative to peace

Lu Yang has done his best, and Ma Lizhe and Bian Wuji are also very knowledgeable about the current affairs. Both of them handed over the special forces in their hands to Lu Yang.

Red Moon City, chapter hall of the Brotherhood of Iron and Blood.

Hong Yingxue took 300 forbidden spell masters to announce his acceptance of Lu Yang, and officially joined the iron spell brothers' forbidden spell masters under the management of Hei Yan.

"There is only one main city left." Lu Yang looked at the green jade city on the map and asked, "how is the ancient king?"

Xia Yuwei smiled and said, "The ancient king is unlucky. More than 100 guilds have rebelled and are robbing his fortress."

Tu Feng said, "The ancient king just came to us and he wanted to sell us the poisonous heart for 200 million yuan."

Lu Yang sneered and said, "What does he want? Drowning must hold the BRIC."

"What do we do?" White Wolf asked.

"Simple." Lu Yang called the ancient king's phone and asked, "I won't accept the price you sold to my demon heart. I can allow you to sell the fortress yourself is the bottom line. You think about it, Now I take the player to you, don't think about selling the fortress secretly, if you dare to do this, you will get nothing. "

The ancient king originally wanted to lie a bit. Hearing Lu Yang said this, he said, "Do n't say, President Lu Yang, you are not bad at money. The boundless one was stolen by you. I am still here. "

Lu Yang laughed and said, "You can't see the coffin and you can't cry. Are you still in the mood to buy something on the street of Luyucheng?"

The ancient king froze, and he said, "How do you know?"

Lu Yang sneered, took out the teleportation scepter, and flew to Luyucheng Street, where a sentry tower was just completed.

"flicker"

"Escape The Dagger"

Lu Yang's body continued to shine, and when the light was over, he appeared in front of the ancient king, watching the ancient king's frightened expression, he slammed with his right hand.

Hundreds of players strolling around the ancient king suddenly changed into the logo of the Brotherhood of Iron and Blood, raised their staff and said a spell.

Thousands of rays of light flashed, and more than 3,000 flesh and blood females appeared at the same time as the ancient king, surrounding him in a circle.

"This, what is this," said the ancient king in horror.

Lu Yang said: "This is a level 50 mob."

"What do you do with this, they can't hit people in the safe zone." Gu Wang said.

“You’re wrong.” Lu Yang laughed. He gave an order in his mouth, and a flesh-and-blood female standing next to the ancient king immediately spit out three small self-exploding insects.

“叮叮叮，~~”

The self-explosive insect dropped on the ancient king.

“5000”

“5000”

“5000”

The ancient king looked in horror at the amount of blood that he had dropped, and said, “This, how is this possible?”

Lu Yang asked, “Did you surrender the poisonous heart by yourself, or did I let the self-explosive insects kill you?”

The surrounding self-explosive insects pointed their tails at the ancient king one by one, as long as he said nothing, immediately died.

The ancient king was completely panicked, hesitated for a long time, and finally took out the demon heart from his body and handed it to Lu Yang, saying, “I confess.”

Lu Yang took the heart of the demon and said with a smile: “You, why have I been so active so long ago, ask the guilds of other races, who did Tian Yao and Liu Jie let go, and which one was not robbed of the stronghold and robbed again Artifact, I have enough righteousness. “

The ancient king, like a discouraged ball, said, “I will quit the game like Bian Wuji and Merritt, and I will leave.”

Lu Yang raised his right hand, let his men make way, watching the lonely back of the ancient king left the safe zone.

Three hours later, the ancient king sold all the wild fortresses and announced the dissolution of the guild. At this point, the union guild formed by Mai Lizhe, Bian Wuji, and the ancient king disappeared, leaving only a strong concentration in the history of the Second World. Thick strokes.

Nikko Castle Head.

Looking at Binghuo Island and Hot Spring Island in the distance, Lu Yang said, "There is only such an enemy left in the human race."

The White Lion said, "Boss, we can't fight."

Lu Yang shook his head and said, "But we can't fight. We don't have a ship. Continue to develop."

The old man asked, "If we don't make peace with the Poseidon Army, I will go to the bully. The old boy knows the importance. We let him go this time, and he owes us kindness."

Lu Yang said, "Maybe, he didn't come to hit you when you fought with Ma Lizhe. It's kind of human kind, but you can go to him and stabilize him first. I want to hit Liu Jie. If the hegemony and the sea god's army don't make trouble, I have no intention to hit them. "

"I'll try." The old man in the twilight contacted the bully.

Soon, the old man at the twilight stopped the interphone and said to Lu Yang: "Xiaoxiao Muyu, Changkong Xizui and Xiongba want to communicate with you in person."

Lu Yang said: "Yes, special space still allows me to go to Binghuo City, I can."

The old man and his wife exchanged with the three, and said, "Sunlight City, Drunk House in Sunlight City."

"I'll choose a place," Lu Yang said to Zhuo Jiu and others. "You stay here, and I will meet these three people at the evening."

At present, Lu Yang is equivalent to occupying all the human fortresses on the land. There are 13 main cities and a total of 7 vice-chairmen. In addition to Jiang Ze, Lu Yang lets them manage 2 of them. Xia Yuwei and Zhuoju have many fortresses. The defense needs to be changed and the defeated players need to be dealt with. There are too many things to deal with, and 7 people leave in succession.

Lu Yang came to Zuilaige with his twilight, and when he arrived at the door, he saw the sky drunk and Xiao Xiaoyu standing at the door waiting.

"Chairman Lu Yang, you're here." Changkong Xi greeted him with a smile.

Lu Yang said with a smile: "You two are so kind, why are you still waiting for me at the door?"

"Yes, it should," Xiaoxiao Muyu said. Now Lu Yang is the boss of the entire human race. The only enemy of the human race is them. They don't want to have a good relationship with Lu Yang. They are fools.

The four of them politely went to the third floor of Zuilaige. In a private room, Lu Yang saw a dull male domineering.

Lu Yang took the initiative to say: "Brother, do you still angry with me?"

Xiongba looked at Lu Yang and said, "Your boy is OK, I'm afraid to be angry. Let's talk about it, what do you want to do in the future?"

Changkong Xizui and Xiaoxiao Muyu quickly persuaded the bully, but Lu Yang stopped the words of the two men and said, "Let's sit down and talk slowly."

The old man said, "That's right, talk slowly."

With five people seated, Lu Yang looked at the three heroes and said, "Let's go on peacefully in the future. Don't come out and hit me. I don't want to hit you either. My enemy is Liu Jie. I just want to defeat him."

"Peaceful development must be peaceful." Changkong Xizui said.

Xiaoxiao Muyu said: "We promise to develop in three main cities in the future, and we will definitely not be against you."

Lu Yang said: "Can Iceberg City be sold to me and let me be a front-line base to fight against the Elves?"

Changkong Xizui and Xiaoxiao Muyu's faces were obviously reluctant, but both said at the same time: "Yes, of course, you can give a price."

Lu Yang said: "50 million, let's not bargain, there are no auxiliary fortresses around Bingshan City, I only buy these 4 fortresses for these 50 million."

"Why?" Xiongba asked, the price far exceeded the value of Iceberg City.

Lu Yang said: "Because I want to hit Liu Jie, I really want to kill him."

"Okay, we accept." Changkong Xizui said immediately.

Lu Yang said, "Okay, let's settle."

Soon, Lu Yang and Xiongba signed a purchase contract. The Poseidon Army withdrew from the Ice Mountain City. Jiang Ze took the main force into the camp. Among them, it was near the nearest glacial fortress of Tianji Mountain. Lu Yang spent 100 million yuan to fully arm it.

All the elite troops of Luyang, including the Tsunami Army, the Ice Magician, the Druid Army, and the Prismatic Shield Armor, were all transferred to the Glacier Fortress.

“Finally hit the Elves, so excited.” Bai Lang said eagerly.

Lu Yang also laughed and said, “Yeah, it’s time to fight the elves.”

He said to Tu Feng beside him, “What’s going on with the Elves?”

Tu Feng opened the three-dimensional map to cast the screen and said to the table, “At present, Liu Jie has twelve of the 16 main cities of the Elven family, and the remaining four have not been beaten. We learned that we defeated Mai Lizhe and Liu Jie. The 2 million people led by Yue Taishan and Apache, who are the most elite in their hands, have been transferred back to the Purple King City. Currently, they are building a line of defense on the side of Tianji Mountain that belongs to the elves. “

Elf clan.

* In the hall of the guild inside, Liu Jie punched on the table and scolded: “Lu Yang’s speed is so fast. Mai Lizhe is really a waste. I used him as an opponent.”

The dead grass said: “I watched the video of the war, I can only say that Lu Yang is too strong. I don’t blame Mai Lizhe. The ancient king was attacked and restrained. Lu Yang gave the old man 10% of the shares. With 5 million people retreating from the hegemony and the Poseidon Army, and attacking the Red Moon City of Meilizhe, they are not defeated. “

Yaowu Yangwei asked: “Then what do we do, there are less than 4 million people, and it is impossible to hit these four forts.”

Liu Jie looked at the dead grass.

The dead grass said: “There is only one way now, but the price is a bit high.”

Liu Jie said, "I know what you mean Yes, I can transfer back Luo Cheng's troops in the orcs to participate in the attack on the last four main cities. I would rather not have the fort occupied by the orcs, also Beat them before tomorrow morning. "

"Yes," Yaowu Yangwei and others said together.

The dead grass said: "I think we should inform Tianyao and give him a main city for free, and he must thank us."

Liu Jie said, "Yes, I can't just make Lu Yang look righteous. I will do it too."

Liu Jie directly called Tianyao's phone and told Tianyao to send him a main city for free. Tianyao was worried that Lu Yang was one step ahead of him. If Lu Yang attacked behind him at this time, Tianyao's all Efforts are gone.

Bank loans will not require players to repay so quickly. If you see that players have the ability to repay, they will be graced, especially if such a fortress is breached, it means bankruptcy.

Chapter 875 - 3-party confrontation

If 6 Yang secretly took advantage of this opportunity to contact those players who were defeated by Tian Yao, and united, Tian Yao is likely to lose everything.

"Enough, I accept your favor, and I will help if something happens in the future." Tian Yao said to Liu Jie.

"Okay, you will soon be able to repay this favor." Liu Jie said.

Tianyao hung up the phone, and ordered the players who possessed the space-time totem to end in sadness and took hundreds of people to fly to the monster city.

After Luo Cheng finished the handover with sadness, he led the main members of the 500 beasts to the territory of the elves.

Sadly ended and gained control of the main city, Tianyao immediately sent 200 million players to teleport behind only the remaining 4 main cities, and stormed the last 4 main cities in a pinch.

The 6 Yang side is gathering players, and suddenly, the official prompts to celebrate with fireworks.

[System Tip]: Congratulations to Liu Jie for unifying the Elves and becoming the first uniform player in the national costume.

6 Yang looked at Tu Feng, and Tu Feng contacted the spy, and said, "Liu Jie gave Tian Yao his fortress in the orcs, and let Luo Cheng charge more than 5 million orcs to the elves, and the rest Players in the four main cities couldn't resist it and were destroyed. "

6 Yang asked, "Where is the beast?"

"Tianyao ended the battle one step ahead of Liu Jie, but we occupied Sirius City. Tianyao did not have this official celebration. Now, I am afraid that Tianyao has an idea in his heart." Tu Feng said.

Suddenly, Tu Feng's eyes widened, he said: "It's not good for the boss, Liu Jie and Tian Yao took the main troops into the Purple King City and the Beast King City, respectively."

Opposite the Purple King City is Tianji Mountain, and opposite the Beast King City is Sirius City. Obviously, the two have devoted themselves to annexing him.

"How many people brought here?" 6 Yang asked.

"Tianyao has about 300 million people, and Liu Jie is also 300 million people." Tu Feng said.

6 Yang sneered and said, "Don't worry, they don't have the ability to attack, they just pose."

The White Lion was already desperately prepared, and asked in surprise: "Why."

6 Yang said: "Civil strife, we just settled all the main cities, we resolved it peacefully, and the two of them pushed hard. Although they laid all the forts, they also made a lot of money, but too many people offended. He They are not capable of sending all their troops to the border. "

Tu Feng said: "It makes sense that Tianyao and Liu Jie grabbed a fortress and sold it. The money made a lot, but the bosses of the guild who were forced to go bankrupt by them are not a minority. Now they are waiting for a chance to fight They dare not fight. "

6 Yang said: "That's right. The 300 million people don't have the ability to attack at all. They don't want to fight, they just do it and threaten me."

"What do you do now?" The old man asked.

6 Yang said: "I'm on duty tonight, and my father will be on duty for me tomorrow, so that players don't have to rush to rest first, and insist on talking until the middle of the night."

"Yes." The old man in the twilight was running out of energy, and quit the game and went to sleep.

6 Yang looked at the remaining vice-chairman and said, "Tonight, Zhuo Jiu and Zhou Tianming are responsible for assisting the shooting of Sirius to defend the wolf tribe. You come one night before the middle of the night, and some of us here are responsible for the iceberg city.

"Okay." The crowd said together.

There is not only Sirius and Huo Tianhua in Sirius City. The two players together have more than 60 million players, plus Zhuo Jiu and Zhou Tianming's elite troops of 160,000. There are 760,000 people. Defending Sirius no problem.

The remaining people on the 6 Yang side and the player in the twilight old age together have nearly 900,000 people. However, after fighting all day, they are tired and need to rest.

Glacier fortress city head.

Xia Yuwei, Lan Yu, half-hearted and so on came to 6 Yang's side and saw 6 Yang standing on the city head and looking into the distance.

Xia Yuwei said: "Don't worry, there will be stealth investigations in front of thieves and spies in Zijin King City.

6 Yang smiled and said, "All players are settled."

Jiang Ze nodded and said, "Everything is arranged properly. Shall we fight tomorrow?"

6 Yang shook his head and said, "I have been thinking here for a long time, and I won't be able to fight tomorrow."

Although the elimination of Liu Jie was the ultimate goal of 6 Yang, Tian Yao was always staring at one side at all times. Without destroying Tian Yao, 6 Yang could not let go to fight.

"It's cheap Liu Jie." Xiao Liang said.

6 Yang said: "You must be prepared to fight in the future, I am afraid that such a large-scale war is difficult to have again."

"Why?" Xia Yuwei asked.

6 Yang said: "At the 80 level, the upgrade experience has exceeded 100 million. With so much experience, ordinary players want to upgrade a level for at least one month, or even two or three months."

Xia Yuwei reacted and asked, "Do you have a way to upgrade?"

6 Yang smiled, took out the poisonous heart from his backpack, and said, "It's up to this baby."

“Very poisonous heart?” Xia Yuwei asked: “But we don’t have a poisonous orb, can we solve it?”

6 Yang said: “The ancient king knows too little about this game. He doesn’t know that there are other ways to synthesize the Orb of Poison. Come with me.”

6 Yang took out the teleportation scepter and flew everyone to the 30-level underground map-the entrance to the Ottoman temple.

“Boss, what are we doing here?” Xiao Liang asked.

6 Yang said, “Follow me.”

He led the team toward the deep part of the map, and walked for more than an hour. After killing a 30-level mob on the 9th floor underground, suddenly, near the corner, a skull crawled out on the ground .

White Skull (elite)

Grade: 30

Qi and blood: 20000 / 20000

6 Yang killed a skull with a skill and said, “There is an entrance. Follow me.”

“This is also the entrance?” Xia Yuwei and others looked at the tiny place not far away and said.

6 Yang nodded and took the lead in jumping down.

System prompt: You are now in the ancient battlefield

“Ancient battlefield?” Lan Yu asked curiously.

6 Yang said: “There are a lot of such ancient battlefields in this game. If you are lucky, you will be able to get rich when you get in.

Xia Yuwei looked around, and she said, “It looks like nothing here.”

6 Yang smiled and said, “Be careful, it’s not so peaceful here.”

He brought the heart of death to his body, and with a right-handed trick, a small skeleton appeared beside him.

“Go forward Yang ordered.

The little skull stepped away from the white calf, and a rattling sound walked towards the front, but before walking 5 meters away, the ground suddenly shuddered.

“噤”

The dust splattered, and in the midst of a cloud of smoke, a huge man-eating man over 5 meters rushed out of the ground, biting the little skull.

System prompt: your skeleton is dead!

“What is this,” said bitter love for a long time.

6 Yang said: “Venomous cannibal flowers, special explosive explosive orb production materials.”

Chapter 876 - Feng Wangling

?

Venomous Man-eating Flower

Level: 60

Qi and blood: 90286/90286

There is no absolute difficulty or absolute simplicity in the game. The poisonous heart releases a large range of poisonous mist more than any forbidden spell. The price is the poisonous orb.

Poisonous orbs need to collect a lot of rhizomes with highly toxic plants and poisonous sacs of highly toxic animals.

This quantity is extremely huge, and must be highly toxic. Monsters with toxic properties in the world map are very rare. To create a poisonous orb requires 100,000 poisonous sacs or 100,000 poisonous cannibals. rhizome.

Lu Yang raised his hand and hit a crit with Pyroblast and said, "I'm just idle and bored. Let's start collecting tonight and see if we can get a poisonous orb."

Xia Yuwei, Xiao Liang, and others all showed an interesting look. Everyone knows how strong the poisonous orb is with the poisonous heart. They all want to make a few poisonous orbs to enhance the team's strength.

After being killed, the highly toxic cannibal flower will quickly wither and become a withered vine that is only one meter high. You can pull it out of the soil with a single pull. The root is the raw material of the highly toxic orb.

Shooting Sirius suddenly called and said: "Boss, Tianyao has come to the Beast King City in person and is communicating with Liuguang Meteor, which may be against us."

"How do you know?" Lu Yang asked with a smile.

"Uh, the streamer Fei Xing was just chatting with me. He got a cold. He couldn't cure it. When he enters the game, he always sneezes and interferes with the connection between the brain and the game. He is thanking me and Tianyao is here. "

Lu Yang said: "You two are also a good story. You couldn't make a copy of it a while ago, so I'll ask someone to fight it for you."

"Hey, the game is not an enemy," said Sirius.

Lu Yang said with a smile: "Good job, guard carefully, Tian Yao is unlikely to attack, but it is not ruled out."

"Dididi"

Lu Yang's interphone rang again. He picked it up and looked at it from Tianyao.

"Tianyao is looking for me. I asked him what happened?" Lu Yang hung up to shoot Sirius, connected Tianyao, and asked, "I heard that you have come to the city of Beastmaster."

"The news is very well-informed. I didn't tell anyone about it, who was lying in ambush beside me." Tian Yao asked with a smile.

Lu Yang said, "Where am I going to ambush beside you, what are you looking for?"

Tianyao said, "Can you sell me the main city of the wolf tribe?"

Lu Yang smiled and said, "Let's say that, if you can help me eliminate Liu Jie, I will send you all the city of St. Gall."

"Don't make fun, let's be serious, I really want Sirius, and this is not what I want alone. The unified orc is my ideal, and also the ideal of my men. From the establishment of this guild The purpose of leading the brothers to the Northern Expedition was to unify the orcs. You occupied Sirius. My brothers let me fight. I'm blocking it now, but I can't stop it for too long. "Tian Yao said.

Lu Yang said, "I can understand what you think, but I can't give it to you right now. I gave you how to shoot Sirius and Huo Tianhua."

This is a dead end. This is the way life is. Some people are born to be your enemies, not because you have enmity against him, but because you are in that position, blocking others.

Tianyao said, "Then you just want to fight with me, right?"

Lu Yang said: "What about our proposal? I'm holding Liu Jie's main force here. If you go to fight the elves, let's not unite one race."

What Tian Yao doesn't hesitate about is that he was not the first to unite the race, but Liu Jie was unified. Compared to unifying the orcs and destroying the popularity of Liu Jie's unity, he hoped to do the latter first.

"This proposal is good, how do you want to fight?" Tian Yao asked.

Lu Yang said, "I hold back all the main forces of Liu Jie. As many main cities as you can lay down, I will occupy as many main cities as I give you."

Tianyao was silent.

Lu Yang then said, "Have you heard of Feng Wangling?"

“Feng Wang Ling?” Tian Yao frowned, and asked, “Is there really this thing?”

Wang Wangling, a tribal unified special token, all players holding this token can make the main city change camp.

Lu Yang said: “Of course it is. This is a must-have item for the gang boss to want to unite across races. If you use this thing to occupy the elf fortress, this fortress is really yours.”

“How to get it?” Tian Yao asked with interest.

Lu Yang said: “The 100th-level map of the orc’s ancestor totem land, there is a chance to drop the lord monster inside it.”

Tianyao said: “Well, let’s get along peacefully. As for how to fight, I will discuss with the players.”

“I’m waiting for your news,” Lu Yang said.

Lu Yang bet that Tianyao would still come to fight himself, but he was not able to attack for the time being. He came to find himself this time, but he wanted to make peace, but he couldn’t show weakness.

“Boss, Tian Yao is a confidant, we can’t believe him, he will come to hit us.” Said bitter love for a long time.

Lu Yang smiled and said, “Your boy is smart. The analysis is very correct.”

“Boss, you don’t believe it,” bitter love scratched his head and said, “I guess it’s pretty accurate.”

Xia Yuwei said: “I also think Tianyao will hit us in the next step, but we must not give up Sirius City. If Tianyao thinks we are bullying, he will definitely hit us with Liu Jie.”

Lu Yang said: "For the time being, he can hold him back for a while. Tianyao's attack must be a thunder strike, and he will not easily operate before the thunder strike."

"Boss, when do you expect him to do it?" Xiao Liang asked.

Lu Yang said: "Everyone knows that we are going to fight with Liu Jie to the end. Tianyao will definitely wait for me and Liu Jie to be exhausted."

"So what do we do?" The White Lion asked.

Lu Yang smiled and said, "Don't worry, I will hurt the Poseidon first, to avoid this trouble."

"Poseidon Army Xia Yuwei was surprised.

No one expected that Lu Yang would go to the sea **** army.

"Did we just make peace with them?" The White Lion asked.

Lu Yang said: "Let's make a bet. When we are playing Liu Jie, the two wastes of the Poseidon Army will definitely think of sneaking at our back road-Iceberg City."

"This is really possible, they have warships." Bai Hu said.

Lu Yang said: "Xiaoxiao Muyu and Changkong Xizui are both villains, Liu Zhuaiqian, they are out of the crowd, relying on their own 100 warships, they dare to run wild, thinking that no one can cure them."

Xiaoxiao Muyu and Changkong Xizui were confirmed in the previous life. Both were downright innocent villains. Lu Yang didn't need to guess what they would do.

"This is a difficult problem, what should we do?" Bailang asked.

Lu Yang looked at the poisonous cannibal flowers collected in front of him and said, "It depends on the poisonous heart. I am going to ambush the Poseidon Army in Iceberg City and take away dozens of warships."

Chapter 877 - Showdown Liu Jie

?

"Drip, drip, drip"

Lu Yang's speaker suddenly rang. He picked it up and looked at Huang Xiang.

"Sure enough I can't relax tonight, Huang Xiang came to me." Lu Yang said.

"He came to you to get ready." Lan Yu said.

Lu Yang laughed, pressed the connect button, and asked, "What's the matter?"

Huang Xiang was sitting on the living room sofa of Liu Jie's villa, and said, "Brother, it's terrific, even if you almost unified the people."

Lu Yang said, "Okay, what's wrong?"

"I want to ask you what to do next. Hit Liu Jie or not hit him. If I do, I will contact the people who have been drawn to me. If not, I will continue to stand by." Huang Xiang said.

Lu Yang said: "Fight, this battle must be fought, I must destroy Liu Jie, immediately contact your people, and when I defeat Liu Jie's troops in front of you, you take them inside to coax and let Liu Jie fall apart . "

Huang Xiang's phone was public. He glanced at Liu Jie. Liu Jie found a piece of paper and wrote: "Let you join in and help."

"How about I join in too, it's too easy to coax this little thing. I'll show you how the truth and reality of Yue Taishan line up. If possible, I will bring you in." Huang Xiang asked.

Where did he dare to let Huang Xiang take him to fight like Yue Taishan? That's not to send sheep to the tiger's mouth. He knew that Liu Jie wanted Huang Xiang to take him into the encirclement like the last life, and he resolved himself in one sentence, but how could he possibly be fooled.

"Farewell, like Yue Taishan, but he was born as the head of the group. Do n't look for him. I've left you with such a nail on Liu Jie's side. If you are found, I don't know Liu Jie's news at all." Lu Yang said.

Huang Xiang did not expect that Lu Yang would reject him in this way, some did not know how to answer.

Liu Jie looked at the dead grass and shook his head.

Huang Xiang said, "All right, I'll wait for your news."

He hung up the phone and said to Liu Jie, "This Lu Yang is quite shrewd."

If Yue Taishan sneered, he said, "It's not that he is smart, but that he is treating you as a brother."

Huang Xiang's face was suddenly flushed with red.

Liu Jie looked at Ru Yue Taishan and motioned him not to speak, but he found that Yaowu Yangwei, Apache and Xue Yiming all looked with scorn.

At 4 to 1, the generals around him looked down on Huang Xiang. At this time, he couldn't say anything more. He coughed and said, "Let's think about how to deal with Lu Yang's attack. This time Huang Xiang made great achievements."

The dead grass said: "Xiao Huang contributed a lot this time, we must be ready to defend."

Liu Jie sighed and said, "Although the elves are unified, there are too many hidden dangers. So many guilds are waiting to attack me. I can't push all the troops to Tianji Mountain."

Luo Cheng said: "My orc army's defense against the elves is also a big problem. We can't teleport. I have to run for hours for a sneak attack in the main city. When I arrive, everyone runs away."

This is the biggest drawback of forcibly unifying the race. Those guilds that were forced to bankrupt by Liu Jie, the boss can not pay their debts, and some people even want to jump off the building. These situations are in the eyes of other guild players.

Those with a little conscience will take revenge for the boss, not to mention those brothers who have been good friends in a weekday, a game, but not the real world, dead and unable to live, can not fight the guild of Liu Jie directly, but I sneak attack your fort Alright.

Elves have 16 main cities, 65 official fortresses, and more than 800 field fortresses. If you want to defend them all, how much manpower and material resources are required.

The dead grass said: "I heard that Tianyao didn't know where to learn the news of the king order. This king order can allow players of different races to enter the same guild and can also teleport."

Liu Jie said: "I also heard the news, but something like Wang Ling must be very difficult to fight. We don't have that ability for the time being, and time is too late."

The dead grass said: "There is only one way now. In the next few days, let Luo Cheng take these 5 million people to the Purple King City and go to Tianji Mountain to defend Lu Yang."

Luo Cheng said: "It's too difficult, 5 million people. It's okay to fight temporarily. It takes several days to run from one end of the elves to the other. Not many people want to run with me."

Liu Jie said, "You must let them come over. You are responsible for this. I will ask you if you can't come."

Luo Cheng reluctantly said, "I try my best."

Xue Yiming said: "I have an idea to tell those people of the Orcs, let alone defense, tell them that they are going to rob the human race, they must be willing."

At the same time, Liu Jie, Luo Cheng, Sum dead grass and Ru Yuetaishan looked at Xue Yiming.

"This is a good statement, so I changed it. The orcs are absolutely willing to come." Ruo Taishan praised.

The dead grass nodded, Yaowu Yangwei and Apache gave affirmation.

Liu Jie looked at Xue Yiming with a smile and said, "Your boy really has an idea."

The dead man said with a smile: "This kid is a member of the General Staff. He has broken the most fortresses on this way. Others killed and killed him. He didn't even encounter the main force."

Mentioning this incident, such as Yue Taishan and Yao Wu Yangwei, are a little speechless, but they are grateful for the words of dead grass.

Indeed, they faced the enemy's main forces along the way. Only Xue Yiming, with 50,000 people, played the same way. He collapsed the enemy's various second-line troops along the way, robbing and selling forts along the way. It was also completed. The feat of sneaking on the enemy's last fortress to get to the top of the city.

Xue Yiming scratched his head and said with a smile: "Who made a few big brothers so famous? They are all masters from the army. The major guilds will be the main force to deal with you I'm a little pawn, of course They hit me with second-line troops. "

Everyone laughed.

Liu Jie said: "That's the case, Luo Cheng, immediately led someone to run here, and strive to run to the place within a week, I will stand with all my strength first."

"Okay." Luo Cheng left. After logging into the game, 5 million orc players are celebrating. He shouted a slogan of attacking the human race and started a long journey with 5 million people.

However, although the imagination is beautiful, the facts are a bit cruel. Five million people followed him for 2 hours, and after seeing the middle of the night, they went off to sleep.

Luo Cheng had no choice but to stop moving forward and waited until the next morning to continue advancing forward.

This evening, Lu Yang harvested more than 100,000 rhizomes of highly toxic cannibals. At the same time, he received at least more than a hundred calls.

Every affiliated guild, big material merchant, every celebrity company boss ... Everyone congratulates Lu Yang, because now he has actually become the ruler of the national service national race. Anyone who wants to be in the national race When it comes to big business, Lu Yang cannot be avoided.

Chapter 878 - Collecting cool clouds

?

"You take a break, and you have another wave of people to come and fight, I will make a highly toxic orb." Lu Yang said.

He observed the situation inside the poisonous swamp through the sentry tower and determined that no enemy had flew past.

The poisonous marsh here has been arranged by Lu Yang for players to level up outside. It is almost impossible to dive into the swamp. Furthermore, with Lu Yang's current ability, fewer people come, only to let Lu Yang practice his hands.

Nine series element ball, level 3 demon heart, flame chariot, level 14 phoenix, world destroyer set, any one of them will make the player feel despair.

Lu Yang came to the Poisonous Pond of the Poisonous Swamp and put in the roots. After waiting for two hours, a dark green poisonous orb emerged from the Poisonous Pond.

After getting the poison ball, Lu Yang returned to the Green Jade City and rested in the hotel. He hadn't slept all day and night. In order to deal with the upcoming war, he needs to take a good rest.

From the daytime to the evening, when he woke up to enter the game, Mufeng said, "Boss, we made 100,000 more poisonous rhizomes."

Lu Yang let Mufeng continue to collect and went to Bissell to buy a lot of fog of war.

"Drip, drip, drip"

The voice of the intercom sounded, and Lu Yang picked it up. Ye Nantian called. He said to Lu Yang, "Chairman Lu Yang, my boss and I have come to Donghai City."

Lu Yang said, "Give me the address, and I'll send someone to pick you up."

"Okay." Ye Nantian sent a picture.

Lu Yang quit the game, drove to the station, and saw a cold cloud full of vicissitudes but full of energy.

“Brother Lu Yang, I’m sorry for you.” Liang Yun walked in front of Lu Yang and was about to kneel on the ground with his legs. Just yesterday, Lu Yang paid 300 million bank loans for him, so that he should have committed suicide. He has hope of living.

Lu Yang hurriedly supported Liangyun and said, “Don’t do this. I can’t stand this gift. You are still my elder brother.”

Liang Yun felt guilty and looked at Lu Yang. “Brother, you saved my life. My parents will have to sell a house to pay my debts. If it weren’t for you, my home would be over.”

Lu Yang instantly remembered the scene of his bankruptcy in the last life, grasping Liang Yun’s arm vigorously, and said, “Let’s go back and talk.”

“Um.” Liang Yun nodded heavily.

Ye Nantian came up and said, “Boss Luyang, thank you.”

Lu Yang patted him on the shoulder and drove the two back to the studio. He called out Xia Yuwei and Vice Chairman of the White Lion and introduced it solemnly in the meeting room: “This is Liang Yun, this is Ye Nantian. The place is Ye Nantian.”

Zhuoju pouring and others knew that Lu Yang spent 300 million to save Liang Yun and Ye Nantian, and they all stood up and welcomed them.

“I’m ashamed, it’s my guilty spirit, I’m sorry when I got Liu Jie.” Liang Yun said shamefully.

With a sincere smile, Zhuo Jiu said to Liang Yun: “In the future, we will be a family. We all agree with the boss to save you, and we welcome you.”

Touched by Liang Yun’s heart, he thought it was Lu Yang’s personal behavior, but did not expect all vice presidents of the Iron Blood Brothers Alliance to agree.

Ye Nantian said with a sigh, "It turns out that you have been living together all the time. No wonder Liu Jie and the dead grass have used so many strategies that they have not divided you."

The White Lion laughed and said, "We have lived together for half a year, and we have spent the New Year together."

The crowd laughed loudly.

Lu Yang said: "Iron brothers are not alone, he is everyone, today you are here, you are the eleventh vice chairman of the iron brothers union, shares, salary, everything is the same as them."

Liang Yun came this time not only to thank Lu Yang, but also to loyalty to Lu Yang. Lu Yang paid 300 million yuan for him, which is equivalent to working for Lu Yang in his life, but Lu Yang made him a vice-chairman. Chang, this is something he never thought of, let alone that Lu Yang gave him so many things.

"This, this is too much." Liang Yun said, the casual players in the game are not clear, but the president like Liang Yun has channels to understand the share composition of the Jagged Brothers Alliance.

Just now Liang Yun heard clearly. If you give him 1% of the shares and add 50% of the fortress, as long as he defeats Liu Jie and reoccupies the elves, it will take less than a year to pay back the three hundred million. After that, he owed the money to his brothers and could repay it within two years.

Lu Yang patted Liang Yun's shoulder and said, "I believe you have this ability. Gather your players and join me to fight with Liu Jie."

"Brother, we can't just admit defeat, we must make Liu Jie pay." Ye Nantian said.

Liang Yun's eyes became sharp, and he said, "Okay, I promise you, I will go back to gather my subordinates, and I will find a lot of my affiliated guilds before. The total number will be no less than 3 million."

Lu Yang's eyes suddenly became sharp, and he said, "I'll make a deal with you first. I can't win this time."

“Can’t you win?” Liang Yun asked in surprise.

Lu Yang said: “This time my purpose is to destroy the Poseidon Army, playing Liu Jie is just a cover.”

Liang Yun nodded clearly and said, “Do you mean to let me cooperate so that Liu Jie cannot gather a large number of troops?”

Lu Yang nodded.

“No problem, I know how to do it, and I will never disclose information to the outside world. I will focus on interference in this war, and I understand with my men.” Liang Yun said.

Lu Yang watched Liang Yun return to the previous state and said, “Into the game, we will do it tonight.”

“Yes,” Liang Yun and Zhuo Jiu said together.

Lu Yang brought Liangyun to the studio and entered the game. At this time, Xia Yuwei had all taken a rest. The Iron Blood Brothers League and the Zijin Dynasty added up to more than 10 million players.

[Guild Channel] Lu Yang: “Gather all together, tonight.”

An air of killing pervaded the entire guild in an instant, and 5.6 million main players of the Brotherhood of Iron and Blood gathered at the Glacier Fortress.

The old man asked, “Would you like me to take someone there?”

Lu Yang said: “No need for now optimistic about Tianyao, don’t let this kid get muddled.”

“Well,” said the old man.

[World Channel] Lu Yang: Today, the Jagged Brothers Alliance officially launched an attack on Liu Jie. In order to avoid accidental injury, the remaining guilds should not approach Tianji Mountain.

...

After saying it three times in a row, the World Channel exploded again, and everyone locked their eyes on Iceberg City and Glacier Fortress.

“Lu Yang is brave enough to really fight Liu Jie.”

“This game is so good. You can’t fight on either side.”

“Can this be fought? Tianyao is watching from the side.”

...

No one saw Lu Yang’s attack. They all thought that Lu Yang was too reckless. Tianyao was integrating the fortress and the main city that he captured. Those sneak attackers made him overwhelmed, and suddenly he was caught in the news.

Chapter 879 - Poseidon attack

?

“Lu Yang really dares to fight, he is not afraid of me attacking him.” Tian Yao said.

The vice-chairman on the side said: "Just watched. Shooting Sirius and Huo Tianhua are gathering players to stay at the Blood Wolf Fortress. More than 5 million elderly people are guarding the level 60 map at the holy city border to upgrade."

"Lu Yang still don't worry about me." Tian Yao smiled and stretched a lazy waist, said, "I'm not going to fight Lu Yang at this time, I'm free, and I'm hard and positive with his main force."

Another vice-chairman said with a smile: "Well, they don't get exhausted. Why are we going to have fun?"

Everyone laughed.

"What's going on with Liu Jie?" Tian Yao asked.

"It is estimated that it is already busy and mad, the internal needs defense, and the external needs to deal with Lu Yang. He has suffered." A vice chairman said.

King of Purple Gold.

Liu Jie is really crazy. "Apache, I only give you 2 million people. Be sure to let the restless guilds give me the truth."

"Yes." Apache said with a frown, learning that Lu Yang was about to attack the elves, dozens of guilds gathered more than 3 million people, and they were planning to attack their original fortress.

"Not good, Liang Yun has started to gather his men." Said dead grass.

"What a hell, Liang Yun still has a face alive in the game, how did he do it?" Liu Jie cursed, "Apache, I will give you one million more people, and they must be defeated."

Apache was helpless and how strong Liangyun was. He was very clear. In the case that most of the main forces were assembled in Tianji Mountain, he was brought to the Liangyun who has been famous for a long time with a small amount of elites and second-line troops. This will not be generally difficult.

For example, Yue Taishan saw Apache's embarrassment and said, "Give Apache another 500,000 people, Liangyun will not deal with it."

"Is Lu Yang just right?" Liu Jie asked.

Ru Yue Taishan said with pride, "I have the confidence to defeat him."

Liu Jie hesitated and said, "Okay, I believe you, and then transfer to Apache 500,000 people, this war depends on you."

Ru Yue Taishan said: "It's just a child, see how I can pack him."

In his 40s, Yue Taishan has served as front-line positions at all levels of the field forces. He went to the military area and served as a combat staffer for a period of time. He has a wealth of troop experience and strategic thinking. Since entering the game, he has gradually become familiar with the game. After the role, it became completely invincible.

Liu Jie believed in Yue Taishan, not only in him, but also in his team. At first Liu Jie dug Ru Taishan and his retired soldiers to serve under him. That was a team with few weaknesses.

"It's all up to you," Liu Jie said.

The dead grass suddenly laughed and said, "Maybe, we can rely on two more people."

"Who?" Liu Jie asked.

"Xiaoxiao Muyu of the Poseidon Army and the sky is drunk." Said dead grass.

Liu Jie's eyes lighted and he asked, "You have a way to get the two of them to cooperate with us to attack Lu Yang from behind?"

"Hey." The dead grass smiled proudly, and said, "Lu Yang thought he was good enough, but these two people of the Poseidon Army were not convinced. There are 14 main cities in the Terran. They can only watch but can't do it. How uncomfortable. . "

"They both agreed?" Liu Jie asked.

The dead grass nodded and said, "As long as we and Lu Yang are fighting head-on, 100 warships of the Poseidon Army will shell the Glacier Fortress and break Lu Yang's retreat."

"What are the conditions?" Liu Jie asked.

"The five fortresses west of Red Moon City returned to them, and at the same time let us pay them 50 million war costs." Said dead grass.

"Very greedy." Liu Jie snorted coldly, "Promise them."

The dead grass smiled and called Xiaoxiao Muyu and Changkong Xi drunk.

"Okay, that's it." Changkong Xi said with a smile.

Xiongba stood not far from the two, with a deep frown, and he looked down on the bosses of the two sea gods in front of him.

Words must be believed, and actions must be fruitful. This is the basic moral code of life. They just sold 50 million icebergs to Lu Yang in front of them. They turned around and joined Liu Jie to fight icebergs. Accusations of unbelief and injustice can't stand the hegemony.

"I don't agree with this battle," Xiongba said.

Changkong Xizui just hung up the phone and saw the appearance of Xiongba. He came to Xiongba with a smile and said, "Xiongba brother, we are not fighting for cheap this time."

Xiaoxiao Muyu proudly said, "The real intention of our two is to muddle this pond."

"What do you mean?" Xiongba asked.

Changkong Xizui opened the map and pointed to all the main cities of the three national costumes, saying: "Now the national costume is almost unified by the three of Tianyao, Luyang and Liu Jie. If you let them three stay for two months, , Other guilds will inevitably lose the ability to compete again, only now is the best opportunity. "

Xiaoxiao Muyu said: "Lu Yang and Liu Jie are deadly enemies. We helped Liu Jie enter the human race. Lu Yang and Liu Jie will inevitably fight to the end. The major guilds defeated by them will definitely take advantage of the opportunity to develop, and Tian Yao will not This opportunity will be missed, and the orcs, there are so many main cities that do not accept Tianyao, and then the whole national service will be in chaos again. "

Xiongba thought about it and said, "It makes sense."

Changkong Xi drunk his shoulders and said, "Brother, isn't your ideal to dominate the national costume? If they are not chaotic, how do you dominate."

Xiongba was understood and asked, "What do you two want to do? If you send a team player, Lu Yang's spies in our guild will definitely find it."

Changkong Shizui said indifferently: "We are just shelling the Glacier Fortress this time We don't need so many people, as long as we have 100 warships and your elite troops."

The players on those 100 warships were all elites under the sky and the drunk, Xiaoxiao Muyu. The number of wage-earning players is not large. There are a total of 600 people. In fact, a warship can be controlled by 6 people.

Xiaoxiao Muyu said, "The real world time is from 8 to 11 pm. The wind direction from Binghuo Island to Bingshan City is downwind. After 11pm, the direction from Bingshan City to Binghuo Island is downwind, and it is downwind. We only need to be at 11 Before sending a warship to the Glacier Fortress, lay down the fortress and cut off Lu Yang's reinforcement road for one hour, Liu Jie could defeat Lu Yang, and we can escape at any time. "

Xiongba said: "Yes, I will gather my elite troops, they will never leak."

He had a 3,000-strong guard, all of whom were carefully screened before passing.

But his people have no problems, Xiaoxiao Muyu and Changkong Xi have a problem with the Poseidon Army. As the saying goes, money can make the ghosts grind, not to mention Lu Yang does not lack money now, he can spend 10 million to accompany Huang Xiang. How could a traitor go to play, and how could he not be willing to buy hundreds of thousands of dollars to buy players under Xiaoxiao Muyu?

Chapter 880 - Battle of the Moon

?

"Boss, the Poseidon Army has action tonight. They will sneak into the Glacier Fortress before 23 o'clock and break your back road." Zhang Liang, the vice chairman of Xiaoxiao Muyu, secretly sent a message to Lu Yang.

After two mergers of the Poseidon Army, Zhang Liang changed from the first deputy chairman of the guild to the tenth deputy chairman. The power in his hands changed from one person to 9 people, and the management staff was only left. Several broken ships, which made him extremely upset.

Qing Qian Zimeng, the fiancée who shoots Sirius, is currently under the spy agency of Tu Feng, collecting intelligence in major cities under the name of Zimengong.

The first time he learned about Zhang Liang, Tu Feng sent someone to contact Zhang Liang. On the same day, Zhang Liang promised to rebel, shaking out all the information he knew inside the Poseidon Army.

Lu Yang was able to understand every move of the Poseidon Army, all because of Zhang Liang. He replied: "How many ships do you control?"

Zhang Liang said: "There are about nine."

Lu Yang said: "Keep in touch, I will have a task for you in a moment."

He turned off the intercom and dialed Jin Buhua's intercom, and asked, "What are you doing?"

Jin Buhuan said, "It's okay. I'm bored."

Lu Yang smiled and said, "Give it to you baby, do you want it?"

"What baby." Jin Buhuan asked.

Lu Yang said: "Very poisonous heart."

King, who didn't change his eyes, said in shock, "You really want to give it to me."

He already knew about Lu Yang's poisonous heart, but he could see that anyone with real power was not eligible to take the artifact, and only the individual players with superb skills were eligible.

Lu Yang said: "I didn't really want to give it to you, but playing the game, after all, the picture is a cool word, how about making you cool?"

“It’s so cool.” Jin Buhuan blinked and asked.

Lu Yang said: “How about a poisonous mist killing thousands of people?”

“This is fine,” Jin Buhuan said excitedly.

Lu Yang laughed and said, “You joined the guild anonymously and came to Glacier Fortress.”

Jin Buhua nodded and flew to the inner city of the Glacier Fortress. Lu Yang and Han Fei, and the 100 elite thieves of the Light and Dark Thieves were waiting there. He gave Jin Buhuan the poisonous heart and two poisonous orbs, saying: “In a while, the Poseidon Army will enter the harbor for a sneak attack. Your responsibility is to spray poison on their warships when they spread them out horizontally.”

“Okay,” Jin Buhuan said.

Lu Yang said to Han Fei and the light and dark thieves: “When the warship came over, you jumped into the sea to get the ship.”

“Yes.” Han Fei and others said together.

Jin Buhuan is also a thief player. This was the occupation he chose for the convenience of collecting herbs. Later, Lu Yang gave him a transfer certificate for the space thief, and he also possessed the ability of the space thief.

Han Fei also possesses the spirit of killing the gods and the ability to quickly escape into the space of the gods of killing. The light and dark thieves are even more special. With such a unit responsible for sneak attacks, whether they win or lose, they are at ease.

“Boss, the sentry tower is ready.” Mufeng sent a message.

“I see.” Lu Yang patted their shoulders and said, “In the future, whether we will be attacked by the Poseidon Army again depends on your battle and come on.”

“Boss rest assured.” Jin Buhuan said.

Lu Yang nodded, and flew back to the tower built by Mufeng using the teleportation scepter. Here, it was the entrance of Tianji Mountain. Zhuo Jiu and Xia Yuwei and others brought together more than 5 million players to regroup here.

In the Mingyue Plateau on the inner side of Tianji Mountain, Bai Hu and Zhou Tianyan each took 200,000 people to conduct a patrol in a squad of 20 people.

“Boss.” Zhuoju came to Lu Yang and said: “At present, we have found out that Yue Taishan is setting up a formation on the Xueyue Plain next to Shen tear Lake.”

Crossing the Mingyue Plateau is the Xueyue Plain, and there is a lake on the south side of the center of the plain, which is the Lake of Tears.

“We have the Tsunami Masters. I really don’t understand what Ru Taishan thinks, and they will fight against us there.” Xia Yuwei said.

Lu Yang said: “He is forcing us to reach the battlefield quickly, confident enough.”

“Do you mean he wants us to think we can take advantage of it, and fast marches lead to chaotic formations?” The White Lion asked.

Lu Yang nodded and said, “The Great Druid Army is here with us, and the Tsunami Masters are here with us. Why did he fight with us where there is water? Explain that there are only two types. One has a large number of water-based curses. One is that he wants to trick us into marching fast. “

This is a small trick. Large-scale teamfights of the last generation are very common. Such wars with more than 5 million players have very few people who can command them, and most of them are swarms.

However, there are also a few, such as the Jagged Brothers Alliance, such as Liu Jie's three retired soldiers and military-qualified players.

"What shall we do?" Xia Yuwei asked.

Lu Yang said: "March as usual, this kind of large-scale war is no coincidence. The two sides compete against each other for real hard power. Whoever has the strength can crush the other.

"Yes," the crowd said together.

A total of 5.6 million people were divided into 28 200,000 people by Lu Yang's 7 vice presidents and 21 army commanders.

200,000 people were divided into 2 10,000 regiment heads, 200 large team captains, and thousands of small team captains.

More than 5 million people in the Jagged Brothers League acted like a giant assembled from countless screws and parts, and did not act stiff at all.

Ru Yuetaishan watched the team of the Brotherhood of Iron Blood through a live video, frowning and said, "Before I looked down on him, I was not fooled."

Liu Jie said: "We should advance the team and not stay by the lake. A decisive battle here is not good for us."

Ru Yue Taishan said: "Can't move, if you move, it will have a great impact on morale."

Liu Jie said: "Do you have every confidence to win Lu Yang by the lake?"

Ru Yue Taishan said: "I dare to issue a military order I will definitely win him."

Liu Jie shook his head and said, "You still don't set up a military order. Listen to me. The troops move forward. We will fight Luyang at the entrance of the Mingyue Plateau."

If Yue Taishan is helpless, Liu Jie is the boss. He just works and says: "Well, I order the team to move forward."

Yaowu Yangwei also went.

"Boss, Liu Jie's team moved, they moved forward, you guessed it, they didn't dare to fight against us by the lake." Said bitter love for a long time.

Lu Yang also watched the video and said with a smile: "I bet this must not be the idea of Yue Taishan, it is Liu Jie's order."

"What's wrong?" Xia Yuwei asked.

Lu Yang said: "How could a person such as Yue Taishan be guilty of making such self-doubts in his heart, but unfortunately this battle is not yet finished, otherwise I must kill Liu Jie first."

Do not use people without doubt, Liu Jie dare to question Ruyi Taishan's decision at such a crucial moment, when Ruyi Taishan still dare to let go of his arms and legs?
