

Wild Fire 881

Chapter 881 - Heads-up

?

If Yue Taishan hesitates to make decisions on the battlefield, then this war, Liu Jie will be defeated.

“Accelerate,” Lu Yang ordered.

There are very few people who can understand the game between Lu Yang and Ruyue Taishan in major live broadcast rooms around the world.

“It’s strange. When Liu Jie stopped at Shen Tears Lake, Lu Yang didn’t accelerate. When Liu Jie moved, he accelerated instead. What does that mean?”

“do not know.”

Foreign live room.

“We can’t understand the wisdom of the Huaxia people. Both sides are marching more than 5 million people. This has never been seen in history. Even games, he also made history.”

Even in the last life, with more than 5 million people fighting, less than 5 games have been fought in total. Lu Yang has made history.

Half an hour later.

He stood not far from a hillside on the Mingyue Plateau, a gentle **** with 5.6 million people scattered around the hillside.

On a further hillside, Liu Jie and his men of more than 5 million people had just arrived and were in an array.

Lu Yang saw Liu Jie again, and looked at Liu Jie's angry and anxious expression, his face sneered.

"Liu Jie, are you interested in a one-on-one match with me? You won, I retired from Lu Yang, you lost, and took your men away for me." Lu Yang shouted with a loud speaker.

More than 10 million players from both sides were stunned. This super large-scale war, Lu Yang even had to play the president to challenge.

This play is only available in the early stages of the game. The two guilds can't separate the winner and the guild heads out to single out. Whoever wins, the other party will go away. This is a convention.

Liu Jie's face changed color instantly, watching more than 5 million players around looked at himself, even if Liu Jie calmed again, he was embarrassed because he knew that he couldn't hit Lu Yang.

The first person in the global PK list is Lu Yang. Liu Jie's ranking does not even rank in the top 1,000 of the national service. He only considered this game as a money-making tool and never thought about it.

The dead grass came to the side of Liu Jie and shouted with a loudspeaker: "Lu Yang, don't play with your little clever. This is a tens of millions of decisive battles. The two sides are competing for real strength."

Lu Yang laughed and shouted, "Well, you dare Liu Jie, more than 10 million people on both sides watch it, don't ask."

“Suggest goods.”

“Suggest goods.”

“Suggest goods.”

...

The white lion, bitter half-life, white tiger, and Zhou Tianming, who stood in the first row, shouted in unison, and even took them, and the entire Brotherhood of Iron Blood was driven by them, and more than 5 million people scolded at Liu Jie.

“Suggest goods.”

The morale of the Jagged Brothers’ long-distance march was a little lower. In the face of the enemy, there were more than 5 million people, and their hearts were even lower. Many people were a little nervous, but in the words of Lu Yang, no one was afraid of the Jagged Brothers, even some Eager to try.

His boss was so aggressive, he dared to single out in front of the two armies of tens of millions of people. He was not afraid. What other reasons are there for others to fear?

Xia Yuwei, Zhuo Jiu, and other vice-chairmen and chiefs of the army successively discovered that their morale had risen, and the morale of Liu Jie’s side had dropped a lot.

The game, to put it bluntly, is playing equipment and racks. It is the so-called inconsistency. If you are unhappy, I will kill you. What can you do to me?

Liu Jie did not understand this aspect. So far, his level improvement has been spent in the game to buy experience to upgrade, let alone PK, he has not even played strange.

Dead grass does not know this. He is a think tank and is only responsible for designing strategies. Although people such as Yue Taishan and Yaowu Yangwei know a little about the game, they know but

the skills of various professions let them end the PK. They are battlefield commanders. Disdain to do such a thing.

“What shall we do?” Liu Jie asked, he clearly felt that his morale was low.

“Start the war as soon as possible, don’t continue to delay time.” Ru Yue Taishan said.

Qu Han nodded and said, “I agree.”

Xue Yiming didn’t follow this time, he followed Apache to hit Liangyun.

Liu Jie nodded and asked, “How to fight?”

There are too many people on both sides. Each side has more than 5 million. The map is full of people, and Liu Jie couldn’t figure it out on the spot.

For example, Yue Taishan said: “Now we have no weaknesses on either side. What we are fighting for is hard power. There is no need to control so much. The two sides directly rush up, and some of us in the army lead the team.”

“Okay, it’s so decided.” Liu Jie said.

Lu Yang’s voice came from the opposite side again, “If you don’t fight with me, then we have to attack. The whole army is preparing to kill me and kill this group of counselors.”

The White Lion instantly went into a state of madness, “Kill, Jagged Brothers, kill ~!”

Bai Hu, Zhou Tianming, bitter love for half a life, Xia Yuwei, Zhuojiu and others all roared at the same time, and their lives generally took the lead and rushed towards the opponent.

The only thing that didn't move was the violent battle of 600,000 level 70 magic suits and 300,000 healings standing behind the hillside. This is a force Lu Lu is stronger than other guilds at present, and is his surprise.

Lu Yang stood on the top of the mountain and watched. At the same time, four or five million people rushed down on both sides, and the two sides fought together in an instant.

"The scene is too spectacular." Tu Feng stood beside Lu Yang and said.

The most spectacular thing is the fidelity of the characters. The state is completely the same as that of a real person. During the killing process, it is full of male hormones.

Hei Yan asked, "Boss, when are we going?"

He found that Liu Jie's side began to release the secondary forbidden spell, and the Iron Brotherhood in the field was hit with some embarrassment.

Lu Yang said: "Don't worry, this kind of war, whoever puts the forbidden curse first, is unlucky, and yells see the first fight first."

Lu Yang said to the Germans around him, "Go and release the rain of tranquility."

"Yes." De Buwei rushed into the battlefield with the druids who had become upset and waiting for the rain forbidden spell. In the area where the opponent released the forbidden spell, six druids chanted the spell at the same time.

"Tranquil Rain"

At an instant, with their own as the center, within a range of 10,000 meters, all the players of the Jagged Brotherhood all received 10% health recovery speed at the same time. The formation that had been collapsed by the curse immediately recovered as before.

“This skill is really powerful.” The White Lion watched his blood speed rise rapidly and said with a sigh.

This skill was originally used to deal with the ancient king and his poisonous heart. I did not expect that the ancient king’s men Xie Bin came to surrender. Lu Xie knew the position of the ancient king to make the poisonous orb. All three of the venomous orbs shattered.

After the war, the Brotherhood of Iron and Blood became crushing. The rain of tranquility has never been used. Now it is used in the fight against Liu Jie. It has played an unexpected role. On the one hand, Liu Jie’s super strength against Lu Yang Back to blood skills, are a bit embarrassed.

Chapter 882 - Special Corps vs Special Corps

“Shall we use special forces?” Liu Jie asked.

As Yue Taishan said: “I suggest to look again, it is best to touch the bottom of Lu Yang.”

Yaowu Yangwei said: “I don’t agree with Yue Taishan’s idea. Since it is already a decisive battle, it is better to stop to the end and let Lu Yang’s 5 million people be eliminated here to let him know how strong we are.”

Liu Jie also had this idea. Yaowu Yangwei said to his heart, “Evil magicians, give me some control over their special occupation.”

“Yes.”

Several orc players rushed into the field, 600 yards away, and issued a black light at the druid that released the rain of tranquility, such as the German corpse.

“Demon Flame”

De Wu tasted the corpse’s body instantly emitting black light, blood and blood quickly fell at a rate of 2000 points per second, at the same time, their spell was interrupted.

The system prompts: You have hit Demon Fire, and you can’t release your skills within 1 minute.

“Add blood to me soon.” De Bu tasted the shout.

The surrounding healing profession discovered the problem of De Bu taste corpse and others, and quickly brushed blood. De Bu taste corpse’s blood was raised when 3000 points were left.

He looked around and found that other druids who released the rain of tranquility were attacked by this special spell just like him. He called Lu Yang and said, “Boss, the enemy’s special troops have emerged. It is a skill called Demon Fire. After hitting, the spell cannot be released within 1 minute, and it loses 2000 points of blood every second. “

“Come back, continue to control the weather in the back row.” Lu Yang sneered, looking at Liu Jie on the top of the mountain in the distance.

The evil magicians of the last generation are one of Liu Jie’s most famous special legions. This spell is a mage’s nemesis. Any mage, including Lu Yang, who possesses the heart of the demon god, cannot carry the control of the demon flame .

This skill will cause the player to lose all spell abilities, including all skills and items that require mana.

Lu Yang said to the black side around him, “Take someone to release the curse, be careful, the other party has a special army of shooters.”

He handed the nine-series elemental ball to Hei Yan, raising his spell damage by 9,000 points.

“Yes.” Hei Yan took the nine-series elemental ball and saw his own skills. He gave him a stun, took a look at Lu Yang with surprise, and took 100 sub-forbidden mage to the front.

“The second curse, 200 yards of the former army, free to release.” Hei Yan shouted.

“The great Queen of Ice ...”

“Father of the earth, please protect your devout believers ...”

...

While the banned mage was reading the spell, on the other side, Qu Han and Yao Wu Yangwei and others discovered Lu Yang’s mage.

“No, they are going to put a curse.” Qu Han shouted.

“Boss, quickly send out the shooter unit.” Yao Wu Yangwei shouted.

Liu Jie didn’t hesitate and ordered: “Aoki Archer Regiment, shoot all enemy mage who release the curse.”

A group of Tsing Yi shooters who had been lying in front of the battlefield simultaneously raised their bows and arrows and aimed at Hei Yan and others.

“The Spirit of Aoki”

Hundreds of gleaming arrows crossed an arc in the air and fell towards the mage group.

“Protect the cursed mage.”

“Don’t let their skills be interrupted.”

...

Zhang Zibo took more than 500 anti-war battles with a big shield on his front. When they didn’t think they could easily block the arrows, the cyan light was like breaking through the thin paper. The defense of the shield, then hit the inside to release the invincible guardian knight.

Zhang Zibo couldn’t believe that he was in a state of soul. He quickly revived using the resurrection stone, and saw that the mage around him was protected by the paladin with invincible skills, and he was relieved.

“Boss, you have a paper shield. Why did you wear it when you shot it?” The Guardian Knight asked with a smile.

“Ghosts know, I have more than 10,000 defensive forces, how could I not be able to carry it.” Zhang Zibo quickly sent a message to Lu Yang and said: “The enemy has special troops and specializes in restraining defense. I was hit by a second.”

Lu Yang saw clearly on the high platform. When the blue light appeared, he knew what it was.

“This is the Aoki shooter group. When you release your skills, you will drain all your blood, leaving only one drop, how much blood is drawn, and how much damage, and at the same time increase the damage value according to the range, regardless of defense.” Lu Yang said.

“So what should I do?” Zhang Zibo responded quickly. He was still curious just now. The enemy’s second wave of arrow rain didn’t shoot immediately. It turned out to be recovering qi and blood.

Lu Yang said: “Using a refracting shield, since he can’t beat him, then bomb him.”

There are no natural enemies in the Aoki shooter group. If there are natural enemies, there are only thieves and paladins. The thieves can attack at close range, and the paladins can use invincible to escape. Once other occupations are opened by the Aoki shooter, they will die.

But this skill is too bad, there are many people in this game, and the average shooter's health is only about 10,000 points, such as this one that can drop Zhang Zibo only has whole blood plus points, and the whole body gems are all above 10 Blood gems and enchants are added blood, only to support their own blood to about 200,000.

But after the Aoki Archer released the spirit of Aoki, there was only a little blood left. After being touched a little, he died. In the past, the major guilds bought a large number of refracting shields. When I could n't fight you, I With you all.

Anyway, you have fewer people and I have more!

Lu Yang now has this idea. The total number of Aoki shooters is only 500. This time, Lu Yang asked Zhang Zibo to bring the shield team to everyone.

"Ready, it's only 19 seconds before the mage releases his skills The second wave of arrow rain is coming." Zhang Zibo shouted with a refraction shield.

"Okay." Nearly a thousand resurrected shield fighters replaced the refraction shield at the same time.

"Hey, Aoki shooter is really powerful. I bet these 100 mages in Lu Yang can't release the secondary forbidden spell, who bet on me." Yao Wu Yangwei said with a smile.

The dead grass, Liu Jie and others laughed. They saw the Aoki shooter's on-the-spot combat ability and were very recognized.

"If Yue Taishan did a good job this time, he thought of getting them to add some whole blood." Liu Jie praised.

Yue Taishan was also very proud, saying: "The operations of the Great Brigade are not about individual operation. Lu Yang, who only knows the courage of a puppet, knows the true meaning of war."

Liu Jie was very satisfied, and he liked to speak like Yue Taishan.

“Skills have been cooled down, will they be released?” The head of the Aoki Archer Corps called and asked.

Ru Yue Taishan looked at the enemy shield warrior and said, “Let’s go, their time is invincible for the Paladin.”

“Yes,” shouted the head of the Aoki Archer Corps.

“The Spirit of Aoki”

500 arrows flew over to Hei Yan and the others, and Hei Yan was able to release the curse in less than 10 seconds. For the first time, I felt that the curse was so torturous.

“I really regret that I learned the second level of forbidden spells at level 2, how good it is at level 1, it will be finished in 10 seconds, and the level 2 will have to wait for 30 seconds.” Hei Yan vowed.

Just then, the cyan arrow rain fell.

Zhang Zibo shouted: “Turn on refraction and block them back.”

The light flashed, and there was a holy light on Zhang Zibo’s shield. When the green arrow rain hit the refracting shield, Zhang Zibo died and hundreds of defenses around him died. At the same time, all 500 Aoki shooters Instant death!

“How did you die?” Liu Jie asked frowning.

People such as Yue Taishan, Yaowu Yangwei, and Dying Cao were all at the scene. They had a low level of understanding of the game. Although they had a good grasp of the basic situation of Lu Yang’s side, they had no idea why.

Qu Han said: “It should be a refracting shield. I remember that in the materials about Lu Yang’s men, there was an introduction to refracting shields. The shaman totem shaman was bounced to death by the refracting shield.”

Liu Jie frowned, and said, “How many shields are there?”

“That shield is worthless. With Lu Yang’s financial resources, one can do shield warfare.” Qu Han said.

“Then we have no control over Lu Yang?” Liu Jie asked.

The voice just fell.

“Meteor Fire Rain”

“Icy Roar”

“Lightning Storm”

“Big Rock Burst”

...

In the sky, Lu Yang’s secondary injunction fell from the sky, and Liu Jie’s side was embarrassed.

Yao Wu kept his mouth shut.

Such as Yue Taishan said: "This kind of battlefield has no tricks, Lu Yang is not Liang Yun, but can only play against him with hard power."

Liu Jie nodded and said, "The main force that dispatched us to fight, don't wait."

For example, Yue Taishan said, "Yes, you can play it once and try how strong Lu Yang is."

Yao Wu Yangwei asked, "Jie Shao, I want to personally lead the team to compete with Lu Yang, I will personally kill Lu Yang."

Liu Jie looked at Yao Wuyang with satisfaction, and said, "Okay, then you direct it."

Yaowu led the way, came under the gentle slope, and shouted, "Steel Druid, follow me."

The 300,000 druids in a humanoid state showed a cold look at the same time, following Yaowu Yangwei's rapid march toward the side of the landing sun.

The observation point set by Lu Yang immediately found the situation and reported to Lu Yang, saying, "Boss, the enemy's iron druid is out."

"Just here." Lu Yang looked at the three people behind Zhou Tianyan, Jiang Ze, and Bai Lang. "Take our 600,000 magic warrior and destroy me the druid army of Liu Jie."

"Yes." The three responded in unison, and ran down the high platform, each with 200,000 magical warriors and 100,000 heals rushed towards the armored druid.

Lan Yu asked curiously: "What kind of job is the Druid of the Steel Armor?"

Lu Yang smiled and said, "That is the special unit that Liu Jie is most proud of. To put it bluntly, it is violent warfare. However, the peculiarities of the druids allow them to choose to be transformed when they change jobs. animal."

"The general transformation is to become a bear or a leopard, but there are some special things, such as these armored druids. They can be transformed into rhinos. The reason why they are named steeled druids is because they changed. The rhino horns of the body are made of pure steel, and the cowhide on the body also shines steel. "

Hei Yan happened to return to Lu Yang and asked, "Isn't that difficult to fight?"

Lu Yang said with a smile: "It 's like scaring people. In fact, their attributes are the same as violent battles, but they have 8000 more blood, armor and attack power are 20% higher than usual, but the attack speed is reduced by 10%. Now These druids are only level 60. Zhou Tianyan's 70-level gold suit, which is more powerful than steel armor druids can't beat them. "

Indeed, as Lu Yang said, Yaowu Yangwei had just taken the steel druid to bring the flanks. Before the attack, he was blocked by the magic warriors led by Jiang Ze, Zhou Tianyan, and the White Wolf.

Just after the two sides fought, although Yao Yaoyangwei turned into a steel rhino, they really scared the white wolves. When they really started to fight, they found that the Druid of the armor was far less strong than the appearance, although it was not as human as the neck. Ministry of weakness, but the attack speed is slow, the attack power is not as high as them.

After a short while, the whole army that was defeated by Yaowu Yangwei was overwhelmed. Jiang Ze, Bai Lang, and Zhou Tianyan saw the enemy killed.

"Brothers, don't go back, just pierce them through the flanks," Jiang Ze said.

"agree."

"agree."

Both White Wolf and Zhou Tianyan agreed.

Jiang Ze held up his holy sword and shouted, "Iron brothers, kill ~!"

The 600,000 demons killed the soldiers from the flanks. The flanks were the weakest part of Liu Jie's side. They were suddenly attacked and began to collapse in large numbers without reinforcements.

Liu Jie watched the flanks begin to collapse, and saw Yao Wuyangwei run back with a shameless face, cursing: "How did you command."

Yaowu Yangwei cried and cried: "The enemy's equipment is much better than ours. It is definitely a level 70 equipment, not a level 60."

"Level 70?" Liu Jie pointed at Yaowu Yangwei and cursed: "What are you talking about, I can't get my team to get so many Level 70 equipment, how can he Lu Yang."

Faced with angry Liu Jie, Qu Han said, "I suspect that it is really a level 70 equipment. I have been paying attention to it just now."

Liu Jie looked back at Qu Han and said coldly, "What's going on?"

Qu Han said: "A steel druid was actually killed by a fierce battle with 16 knives. If it is a level 60 equipment, this output cannot be achieved, even the excellent gold cannot be achieved."

The dead grass counted aside, saying, "There is indeed a problem."

"What now?" Liu Jie asked.

"Come on the curse force, kill them, and say, now it's time to hit a critical moment." Ru Yue Taishan said.

Liu Jie said, "Well, send a curse force."

More than 600 secondary forbidden spell mages came to the front and began to release the forbidden spell. Zhang Zibo, who was fighting in front of the battle, immediately sent a message to Lu Yang, saying, "Boss, the enemy's forbidden spell troops are all dispatched."

Lu Yang said, "I saw it, Mu Yu. Take control of their forbidden army, Hei Yan, and take the rest of the forbidden wizard."

"Yes," Mu Yu and Hei Yan answered at the same time.

"I'm going to take a step first." Mu Yu launched a lightning movement, and several lightning jumps came to the front. Facing the forbidden mage who was in 600 scattered positions, he aimed at the largest number of Chinese troops, where there were more than 60 Each.

"Static Storm"

After 10 seconds, an extremely beautiful electromagnetic storm covered the 60 mages and the surrounding 200 yards. While dealing a lot of damage, they destroyed all the spells they released.

"Oh." Qu Han punched hard in the other hand, he forgot.

Hei Yan brought more than 500 forbidden mage to the front of the battlefield, and began to chant the spell. After 30 seconds, the sky on both sides was completely covered by clouds, and countless large-scale spells turned the battlefield into a slaughterhouse. A large number of players died on both sides.

Lu Yang took the nine-element ball from Hei Yan's hand, drove the flame chariot to the front, aimed at the area with the largest number of enemies, and slowly spelled it out in his mouth.

Lu Yang now has 30,000 points of magic damage, and the attack of the magic flame is 85% of the damage. Even so, there are more than 20,000 injuries.

After 30 seconds, Lu Yang's staff pointed forward.

"The flames burn out"

At the center of Liu Jie's battlefield, an oversized white skull image slowly rose. When the skull appeared, more than 2000 yards, all players suffered fire damage at the same time.

"53196" (Critical Strike)

"52062" (Critical Strike)

...

Lu Yang now has a crit chance of more than 80%. Almost every attack is a crit. The health of non-defense players at level 60 does not exceed 30,000 points. The moment Lu Lu releases the curse, the diameter is 2000. Within the range of the code, more than 50,000 players were killed in seconds, and that area was cleared.

The side of Liu Jie was stunned, and the side of the Iron Blood Brothers was boiling. It was not the first time that they saw Lu Yang release the forbidden spell, but every time he released, it would make them hot.

They knew that the moment when Lu Yang released the curse was the moment they won.

The White Lion raised the holy sword in his hand and shouted, "Iron brothers, kill ~!"

The Iron Blood Brothers players who are being attacked by the secondary forbidden spell, like crazy, completely hand over the task of adding blood to the rear for treatment, and follow the white lion rushing forward.

Zhuo Jiu and Zhou Tianming were on the wings of the White Lion. When they saw the White Lion rushing, they no longer hesitated and shouted in unison.

“Iron Brotherhood, kill ~!”

More than 1 million players launched a charge as a whole. Where has Liu Jie ever seen such a fierce opponent, they can clearly see the madness in the eyes of the Iron Brother Brothers players, which is a kind of self-reliance. Take the madness.

“Hold on, hold on to me.” Ru Yueshan was also crazy. He personally led the battle to end the battle. The original unstable Jie Yi party, under the command of Ru Taishan, gradually stabilized the formation and joined forces with the Iron Brothers Alliance. .

At this point, the players on both sides have been playing for more than an hour. Liu Jie has less than 3 million left and Lu Yang has less than 4 million left. However, this time the number of players on both sides soared.

In nearly two hours, Liu Jie had only 1.7 million people left on both sides, and Lu Yang had more than 2.3 million people left, almost tied.

On a gentle slope, Ru Taishan was breathing heavily and looking at Lu Yang in the distance. He said to Liu Jie next to him: “Jie Shao, let’s order, let the Poseidon attack, it’s time.”

Liu Jie is marveling. Although he is a capitalist, seeing such a wonderful war still makes him full of blood.

“Ah, yes, I’m looking for the Poseidon Army.” Liu Jie called out to Xiaoxiao Muyu and Changkong Xizui, and said, “Two brothers, it’s time for you to play, and Lu Yang has been entangled in me. “

“Seeing it, seeing it, we have already set off, and we will reach the battlefield in a few minutes. Your people will go to the Glacier Fortress and prepare to receive it.” Changkong Xizui said.

“Thank you for your help,” Liu Jie said.

Xiaoxiao Muyu said with a smile: “Boss, don’t forget to give the 50 million, we immediately launched an attack when we received the money.”

Liu Jie smiled, 50 million is just a small number for him, and immediately allocated 50 million to Xiaoxiao Muyu.

Chapter 884 - Killing the Poseidon Army without changing the poison

“Gee, this is the attack.” Xiao Xiao Muyu said, looking at the glacial fortress in the distance.

At this point, the sky was already dark, Xiaoxiao Muyu and Changkong Xizui stood on the flagship and looked at the distant fortress to see only a black outline.

“I made another 50 million. This money is too easy.” Xiao Xiao Mu Yu said with a smile.

Changkong Xi drunk him and signaled that the money belonged to them, so saying it made the bully standing aside uncomfortable.

Xiaoxiao Muyu reacted and shut up quickly. For a while, the field was cold. Fortunately, the original sneak attack required everyone to be silent and not bad.

Glacier Fortress is a flatland fortress with no mountains to rely on. The surrounding ground has been covered by snow and ice for many years. The only thing without snow is a port 200 meters away from the east side of the fortress.

Outside the harbour is a vast river that leads directly to the sea. On the side of the river bank near the fortress, Jin Buhuan and Han Fei are hiding in the space, watching with a smile the Poseidon fleet that is slowly entering the estuary.

“One, two ... 100.” Han Fei checked the number and said, “It turned out to be a rush, it’s not courageous.”

Jin Buhuan said: “The boss is so accurate, these two really have a desire to smoke, and really dare to come.”

Han Fei nodded and said, "I must give them an unforgettable lesson this time. I took the light and dark thieves and the thief legion to dive in. You gave me a signal when I sprayed the poison, and I led the team to seize the ship."

Jin did not change his head, he sent a message to Lu Yang, saying, "Boss, the Poseidon Army is here."

With a smile on Lu Yang's face, he said: "Sure enough, there will be a duty to help you stop the enemy's warship and spray the poison at will."

His purchase spy Zhang Liang didn't send a message. Lu Yang guessed that it might be that the sky was drunk and asked everyone to be silent and not allowed to chat, but this thing can be transmitted in one direction. You can't send messages to others, but others can give You send a message.

Lu Yang said to Zhang Liang: "Be prepared, my people are already in place."

Zhang Liang was standing on the penultimate boat. He was in charge of the last team and said to his men, "I will attack with all my strength for a while. Be sure to open the gate of the fortress as soon as possible, do you know?"

The crowd nodded.

At this point, the direction was downwind, and the ship quickly reached the combat position.

When the warship appeared in the moonlight, the defenders of the Jagged Brotherhood were already in chaos.

"Not good, report to the boss quickly, the Poseidon army attacked."

"An enemy attack, everyone must convene to return to defend the city."

...

Xiaoxiao Muyu and Changkong Xizui watched the situation on the fortress and sneered at the same time. Xiaoxiao Muyu said aloud, "The Poseidon Army officially announced today that it would declare war on the Iron Brotherhood."

Long Sky Shizui ordered: "All ships set sail and anchored, and the ships faced the fortress."

This is to prevent the gale from driving the boat away.

100 warships were arranged in three rows on the river, each row had more than 30 warships, and thousands of cannons aimed at the muzzle gates at the same time.

"Ready," Changkong Xizui shouted.

However, without waiting for his typewriter to yell out, a dull voice suddenly came from not far away.

"The sky is drunk, Xiaoxiao Muyu, Xiongba, I have been waiting for you for a long time." Jin Buhuan, who changed his appearance, suddenly appeared from space. At this time, he was standing 100 meters away from the Poseidon warship.

In the horrified eyes of the three men in the sky, the drunken rain, and the dazzling rain, Jin Buhua ate a poisonous orb, turned his body into a giant monster, opened his mouth and sprayed forward.

"Breakthrough Poison"

The dark green poisonous mist instantly enveloped the river, and the foremost 33 warships were instantly engulfed.

"It is a poisonous heart." Changkong Xizui widened his eyes instantly.

"My ship." Xiaoxiao Muyu stared in horror at the warship engulfed in poisonous mist.

“Get up sail, get up sail.” Xiongba reacted quickly, his words awakened the two.

“Sail and run.”

“Get up to sail.”

...

The two ignored the silence and shouted for all warships, but it took time to raise the anchors and raise the sails.

Although they finished in less than 10 seconds, by this time the poison mist had reached the second row of ships.

“Get off the boat, get off the boat.” There are paddles on the bottom row of the boat. Dozens of sailors shake the paddles with all their strength, and the boat moves quickly towards the estuary.

“Boss, shouldn’t we also go.” At the rear of the ship, Zhang Liang’s 11 warships have not yet moved, and his men are watching him.

“We can’t go so fast, watch out for the enemy’s sneak attack, and help guard the teammate’s warship first.” Zhang Liang said.

He was right, the escape was not to run with all the members, but to be in order. Running all was tantamount to collapse.

Zhang Liang did not speak. He obeyed his instructions and continued to wait. However, the discerning person saw that Zhang Liang was not covering up. He was hindering the retreat of the Poseidon, because Zhang Liang’s 11 warships had just taken The retreats of the second and third platoons were blocked.

Changkong Xizui and Xiaoxiao Muyu's flagships are in the second row. When their warships completed their U-turns to escape, they saw that Zhang Liang was not moving.

Changkong Xi drunk shouted, "Zhang Liang, get out of here, get out of here."

Zhang Liang's eyes showed a mockery, unmoved.

When Changkong Xi drunk suddenly felt bad, he looked at Xiaoxiao Muyu beside him and said, "Let the people under you make way out."

Xiaoxiao Muyu shouted, "Zhang Liang, make way soon, what are you waiting for?"

Zhang Liang said unhurriedly, "I'm covering you, is there any problem?"

"Of course there is something wrong with you, you are blocking our way to escape, get out of here." Changkong Xi cursed drunk.

"Oh, ah?" Zhang Liang deliberately stretched his ears and asked, "Changkong Xixi is drunk. What did you scold me just now?"

Changkong Xizui did not expect Zhang Liang to settle accounts after the autumn at this time. Over this period, he and Xiaoxiao Muyu have been weakening Zhang Liang's rights. For this reason, Changkong Xizui and Zhang Liang quarreled several times, but he was the chairman Zhang Liang was just the vice-chairman. Naturally, Zhang Liang was scolded again and again. He was quite contented at first, but he did not expect this result.

"Zhang Liang, get out of the way, we are a group. How can you play a small temper at this time, you are the vice president." Xiao Xiao Mu Yu shouted excitedly.

Zhang Liang gave a sneer, and then ordered the ship to raise the anchor and sails, and the two of them were slightly relieved. They looked back, and the poisonous fog was at least 10 seconds away.

“Finally escaped.”

“Abominable, Lu Yang dare to plot us.”

“My ship, more than 30 ships.”

...

Just as the two were distressed by the ship, Jin Buhuan’s voice came from the poisonous mist.

“Two people, it’s too early to distress the ship so early.” Jin Buhuan stood on the bow of the ship, spitting out a second poisonous mist, and in time, the remaining 67 warships were all sprayed with poisonous mist.

“What poison is this and how can it hurt so high.”

“Add blood, add blood, I’m going to die.”

...

Once the Poison Fog is attached, except for the Paladin, which is invincible, only the Master’s refrigerator can be lifted, and other occupations will undoubtedly die.

But the most lacking of the Poseidon is the Paladin. On the sea, only the shooters and mages are responsible for the offense, the Paladin? What do you want for that profession? Is it standing on the ship and pointing at the opposite warship?

Zhang Liang was in poisonous mist and was poisoned in the first place. The two men, Changkong Xizui and Xiaoxiao Muyu, struggled for less than 10 seconds and were killed by poison.

The worst thing is that the tyrant and his subordinates are elite. They stayed in the cabin without doing anything and died. The remaining Paladins were poisoned after 10 seconds of invincibility.

When Han Fei took the light and dark thief and 500 assassins to board the ship and looked at 100 empty ships, Han Fei said: "Deserve it, you want to sneak in on us. You lost it, the total value. A hundred million warships belong to us like this. "

Looking up at Weiguang, he said excitedly, "Are we ready to win the Binghuo and Hot Springs?"

Han Fei said: "This is a good idea, we should advise the boss to make these two turtle grandsons unfaithful."

Everyone laughed.

Kim said happily: "I said to the boss."

He called Lu Yang's phone and said, "Boss, it was a big victory, and 100 enemy ships were seized."

Lu Yang was confronting Liu Jie at the front line. Hearing the words of Jin Buhuan, he looked at Liu Jie in the distance and asked with a loud speaker: "Liu Jie, what are you waiting for? Why not attack? com ~ Liu Jie is waiting for the news of the Poseidon Army. He did not answer when he heard what Lu Yang said.

"Strange, shouldn't Lu Yang know about being attacked at this time? Why is he still the same?" Liu Jie asked.

The dead grass said: "I guess it is strong, I suggest to launch a general attack immediately, taking advantage of this opportunity to eliminate Lu Yang."

For example, Yue Taishan said: "I agree that Lu Yang is not stable at the rear. As long as the news cannot be attacked, the players under Lu Yang must be panicked. At that time we can determine the outcome."

Liu Jie made a sigh, in fact, he now regrets a bit. If he had listened to Yue Taishan at the beginning, he would fight against Lu Yang in Shen tear lake, even if he could not win on the battlefield, it was only less than an hour away from the fortress. Unlike here, he has to walk for an hour and a half, making his men unable to reinforce in time.

Now hearing the strategy of Yue Taishan again, he said, "Listen to you."

Liu Jie cleared his throat, walked to the front of the gentle slope, and said to Lu Yang with a big horn: "Why am I attacking, Lu Yang, your rear Glacier Fortress is being attacked by the Poseidon Army, you have no retreat, as long as I continue to wait, Poseidon The army stood at the Glacier Fortress, and I changed the tokens of the Glacier Fortress. All my troops can enter the Terrans. Your more than one million people will be besieged by our regiments here. "

The players in the Jagged Brothers Alliance were surprised when they heard Liu Jie's words.

"Sneaker attack?"

"how is this possible?"

"No, the rear is finished?"

...

Just when the Jagged Brothers players were a little panicked, Lu Yang put a right-handed move into the sky and put a 100-meter large screen on it. It was the video of Jin Buhuan killing the Poseidon with two poisonous mists.

“I wipe, this poisonous spray is beautiful, so 33 warships went in.”

“Mother, I know the poison is terrible, it will die in the spray.”

“Wouldn’t it be that we have won 33 warships.”

“I wipe, another poison.”

“I’m going to run across. Let me go? The 11 boat bows in the back haven’t moved. They are blocked.”

“Come and go, the toxins accelerate.”

“Go in.”

“Go in.”

...

When all the players in the Jagged Brothers League saw the toxin engulfed all 100 warships, they burst into warm cheers.

Lu Yang looked at Liu Jie in the distance and said using a loudspeaker: “Do you think I don’t know what the two grandsons of the Poseidon Army are? What do you think I don’t have a spy inside the Poseidon Army? I’m back, Liu Jie, you are too naive. “

Liu Jie silently.

Count dead grass silently.

Qu Han was silent.

Yao Wu Yang Wei silently.

If Yue Taishan was helpless, morale collapsed. The good news that should have been able to improve morale turned into bad news. If Yue Taishan saw it, the morale of their players collapsed.

Lu Yang also saw that Liu Jie's player had a disappointed expression on his face. He raised his staff in his right hand and said aloud, "Iron Brothers ~~"

"Kill ~!" Over 2 million players shouted at the same time, and rushed towards Liu Jie with an indomitable momentum.

"What to do?" Liu Jie asked.

Such as Yue Taishan and Yao Wuyangwei shouted at the same time: "Can't control so much, fight with them, this battle cannot take a step back."

"Okay, listen to you both." Liu Jie said.

For example, Yue Taishan and Yaowu Yangwei also knew that it was not the time to fight, and they took their teams to fight against the Brotherhood of the Iron Blood.

This time the battle was fought from night to late at night, and in the middle of the night, Liu Jie's side was completely defeated, with the remaining 100,000 people defeated, and the remaining players on Lu Yang's side were only 5 or 6 million .

Lu Yang led the team to Shen Tears Lake, looking at a black spot in the farthest part of the Great Plain, where was a fortress of Liu Jie.

"Boss, we can't fight yet." Asked bitter love for a long time.

“How many people can we gather,” Lu Yang said.

Xia Yuwei and White Lion asked them on the channel. Soon, the news came back to them, and a few people could gather more than 3 million people.

Lu Yang looked at Tu Feng and asked, “What is Tian Yao doing?”

Tu Feng said: “He is leading the team to upgrade the monsters, and it is expected that we and Liu Jie’s next move.”

Lu Yang said: “Gather the troops first and rest in place.”

There is water around Shen Tears Lake, and Tsunami Masters are stationed here, and Liu Jie can’t easily beat him.

As soon as the words fell, Tu Feng looked at Lu Yang and said, “Boss, the dead grass sent me a message. He wants to talk to you.”

Lu Yang Yile, “Enter a special space.”

Tu Feng nodded, inviting the dead grass and Lu Yang to enter the special space.

The light flashed.

The dead grass saw Lu Yang, and said with a smile: “President Lu Yang, long-awaited name, you really surprised me this time.”

Lu Yang arched his hand and said, “Say, what’s the matter.”

The dead grass said: "You do n't know the purpose of my coming. Do n't fight with the two of us. Tianyao is watching from the side. We have to fight like this for a few days. Tianyao can take us without any effort. Win. "

Lu Yang also knew about this. The purpose of his fight this time was to swallow the Poseidon's warship. He said, "Yes, you can go back and tell Liu Jie. In the future, he and I will be bounded by the entrance of Tianji Mountain. Don't cross the border. "

The light flashed, Lu Yang withdrew from the special space, and said to the White Lion and Zhuoju and others, "Retreat and return to Bingshan City."

"Don't fight," asked bitter love for a long time.

Lu Yang said: "The goal has been achieved. Next we will destroy the Poseidon Army."

Now is not the best time to wipe out Liu Jie. The Poseidon Army has not been wiped out. Tianyao is also watching. The main thing is that the economic crisis is coming. At that time is the best time to wipe out Liu Jie.

Next to the Lake of Tears, after learning about Lu Yang's orders, the players of the Brotherhood of Iron Blood collectively flew back to the Glacier Fortress using the city roll.

Lu Yang returned to Bingshan City and met Han Fei and Zhang Liang in the Guild Hall.

"Brother, we won pretty or not." Han Fei asked proudly.

Lu Yang patted him on the shoulder with a smile. Han Fei did not disappoint him. The kid really grew up. Although this sneak attack was simple, if he had not been patiently discovered in advance, the result would be far from the current effect.

Zhang Liang stepped up and said with some anxiety, "Well, Chairman Lu Yang, I was fired."

Lu Yang looked at Zhang Liang and said with a smile: "Look at your account, there are already 10 million more."

This was his agreement with Zhang Liang. If he helped annex 100 warships, the money would be his. Thank you, Chairman Luyang. "Zhang Liangxi smiled openly and complimented," Then you are busy, I'm leaving. "

Lu Yang nodded and watched Zhang Liang leave.

Han Fei whispered, "Brother, why are you giving him so much money, how shameless such a person is, even betraying his guild."

Lu Yang smiled and didn't speak.

Suddenly, Zhang Liang walked back and said to Lu Yang with a smile: "Well, there is a message for President Lu Yang for free, as a thank you."

Lu Yang asked: "What news."

Zhang Liang said, "I know a naval warrior. He was originally the strongest legionnaire of the Poseidon Army, but he offended Xiaoxiao Muyu and Changkong Xizui. He has been fired. He is currently a casual player. If you can Recruiting him in his hands would be a big help. "

Lu Yang said, "Are you talking about Chen Mo?"

Zhang Liang said, "You know this person."

Lu Yang smiled and said, "Of course I know."

Chen Mo, a famous navy general of the last life, but the name of this product is really sorry for his name.

Chen Mo, it's a homophony with sinking. The navy's most taboo is the Shen, but he is also called Chen Mo. Doesn't his ship sink?

This boy was unlucky. During the confrontation between Xiaoxiao Muyu and Changkong Xizui, in fact, there were 51 warships in the sky, which was one more than 50 ships of Xiaoxiao Muyu. When the two sides fought for the first time, they were hit. Shen's only warship was a silent car.

Which incident really has nothing to do with silence, it can only be counted as his bad luck. The three battleships of Xiaoxiao Muyu attacked from the flank and fired in a round, interrupting the mast of the battleship where the silence was located, and the battleship lost power and was dozens of warships sank around the attack.

Chapter 886 - Target ice city

After this incident, Changkong Xizui felt more and more that this Chen Mo was unlucky. A battleship with more than one million credits sank so much that Changkong Xizui was relieved of Chen Mo's post.

Later, the two guilds merged. During this period, Chen Mo still did not agree with the two mergers. However, the two guilds completed the merger smoothly. In order to prevent Chen Mo from regenerating right and wrong, he was expelled from the guild by excuse. After the merger, Shizuaki of the sky made many.

Lu Yang had never paid attention to the situation of the Poseidon Army. After the first attack on the glacier fortress by Shizui and Xiaoyu Mu of the sky, he let Tu Feng send a spy into the Poseidon Army to investigate and learned the news.

Originally, he was worried that Chen Mo would be reused in this life, but he did not expect to be expelled from the guild, which made Lu Yang very excited.

In the last life, Chen Mo once led the players in the national clothing to meet British and Japanese players, the most brilliant one, playing a record of 20 to 99.

Even more famous is the ability to silently guide players in maritime operations. His family is from Fujian. His grandparents have run ships for generations. By his father's generation, dozens of ocean-going ships have been developed.

He is 38 years old and is a captain. He has rich experience in training sailors, especially newcomers.

Every ocean trade has to travel on the sea for more than half a month. "Second World", which he only played when he was idle, originally wanted to play a famous game, but he did not expect to plant the first battle.

On the road, Lu Yang told the silent family members, such as several family treasures, one by one, and greatly surprised people like Xia Yuwei and White Lion.

"Co-authoring this is really a talented man," White Lion said.

Lu Yang said: "Originally, he was not going to play this game, and returned to the shore to take over his father's company as general manager. I forced someone to keep him. We will see him here. He comes to train our navy. "

Binghuo City.

Although it's late at night, Chen Mo, who can't sleep at sea, is taking some sailors in the fleet to make a copy in the game.

System prompt: You killed Lord Todoro

Chen Mo went to the lord, picked up a long bow, and looked at the superb attributes of the bow and arrow. His face was excited.

“This copy is really good. The output turned out to be so good.” Chen Mo said.

The chief mate Shark next to him said, “Well, don’t you ask me to take care of your dad’s hurry, let’s play for another year. Your father and my father will be fine for a few more years. What did you do with them in the past? “

The big shark’s real name is Sha Yuanhang. His dad is the first officer of the silent father. The rivers and mountains laid down by the two have been passed down in their generation.

Chen Mo said, “When you think about it, it’s okay. I’m idle and playing games. How can my dad agree?”

The big shark was speechless, and his dad didn’t scold him for it.

A mage player on the side said to the two, “Two, can you please return to the city.”

“Old Lu, what’s the matter.” Chen Mo looked curiously at this mage player. This man was called Lu Yi 23. He accidentally joined their team some time ago. This man is well equipped and good at handling many copies. People who admire me very much and get along with each other during this time, their relationship becomes very deep.

Lu One Two Three said, “Go there and know. I promise I won’t make you regret it.”

Chen Mo suddenly reacted, and Lu No. 1, 2 and 3 had problems. He nodded and said, “Well, I’ll follow you.”

Lu One Two Three said, “Let ’s go with Xiao Sha, too. You both should see my boss behind the scenes.”

“The boss behind the scenes?” Sha Yuanhang asked in surprise.

Lu No. 1, 2 and 3 nodded, took out the group teleportation scroll, and flew back to Binghuo City with the two.

At this time, Binghuo City was already panicked, and there were busy players everywhere.

“Lu Yang is really strong enough. He hasn’t called yet, and it has made the Binghuo people afraid of it.” Chen Mo said.

This incident spread throughout the city of ice and fire as soon as the Poseidon Army was completely annihilated. The sky was drunk and Xiaoxiao Muyu was worried that Lu Yang would come over and sell a lot of assets. Players were also buying supplies around and preparing for ice and fire islands and hot springs. Dao and Lu Yang decided to fight.

Sha Yuanhang sneered and said, “Deserve it, let Xiaoxiao Muyu and Changkong Xi drunk have eyes and beads, and fire you out of the guild. This is their biggest defeat. With you, how can you get 100 with such an easy sneak attack? A battleship. “

Chen Mo had no expression on his face and said, “It’s also Lu Yang’s terrific. This person is not simple. He can counter Zhang Liang. It shows how strong his intelligence organization is.”

Sha Yuanhang nodded, but the silence came back, and he looked at Lu 123 and said, “Lao Lu, you won’t be Lu Yang’s man.”

Lu 123 laughed, said nothing, pointed to a five-story residential building in front of him, and said, “You two will know when you go in.”

“Chen Mo and Sha Yuanhang glanced at each other. This is a game, but it is not a reality. There can be no traps. They indifferently opened the door and walked in.

Upon entering the gate, Chen Mo saw Lu Yang standing in the middle of the hall at first glance. He opened his eyes in surprise, and Sha Yuanhang was even more stunned.

“It’s really.” Sha Yuanhang said that no one in the national service does not know Lu Yang. The scene of the global finals deeply imprinted his appearance in the minds of every player, not to mention Lu Yang won the world The champion of the finals, or the chairman of the Jagged Brothers Alliance, one of the largest guilds in the national service, has been on the official interview show, and there are many fighting videos explained by Lu Yang on the forum and simplified ways to release the spell.

Lu Yang arched his hand and said to the two, "The two brothers are sorry, and they are meeting in this way."

"Don't dare to be." Chen Mo quickly walked to Lu Yang and said humbly, "I don't dare to be in front of you. How can you find us?"

Lu Yang said: "Because I know you are capable men at sea, and I am short of two generals like me."

Chen Mo still didn't respond. He didn't know how he was discovered by Lu Yang as an obscure little pawn.

"Well, President Lu Yang, I may live up to your kindness, I can't play games anymore." Chen Mo said.

Lu Yang stretched out his hand to signal that he was not in a hurry to conclude. "To be honest, I am looking for two people. Not only do I want you to help me train the navy, but also I want them to help me fight. The national war is about to begin. The naval battle is Russia on the head, Japan on the side, Britain, France, Spain, and the Netherlands in the distance. Once they come over, our country has been beaten once in reality, and it can't be repeated in the game. Right. "

There was a look of anger on Chen Mo's face. At the beginning, he played the game for a lot of reasons. He wanted to compete with the masters of various countries at sea when the national war began in the future. In reality, there is no war. He also wanted to get revenge and hit Britain, France and the Netherlands.

"Chairman Lu Yang, you said that to my heart, it seems we have a common goal." Chen Mo said.

Lu Yang nodded and said, "What about you two as a naval general? The positions are both commanders of the army. I will build a large number of docks for you to form a sea fleet of millions."

Chen Mo's heart exploded with pride, a fleet of hundreds of people. Isn't this his original intention to play this game? He smiled and said, "I was convinced by you, I'd like to stay."

Sha Yuanhang said, "I prefer it."

Lu Yang knew that they were willing, and said, "Come upstairs with me. I'll take you two to meet the other vice presidents. They are waiting for you both."

Chen Mo and Sha Yuanhang were even more surprised. They followed Lu Yang to the second-floor meeting room, where 11 vice-chairmen, including Dusty Wine Pour, Xia Yuwei, Tu Feng, and Liang Yun, were sitting, and even the old man arrived.

"Welcome two to join." The old man in the twilight stood and welcomed everyone.

Chen Mo and Sha Yuanhang were flattered. Even if they were older, they were somewhat at a loss.

Lu Yang took the two of them to sit beside him and said, "Although it is late at night, we have to work overtime today. Let me tell you what we plan to do next."

"What are you going to do?" The old man asked.

Lu Yang said: "Starting tomorrow, this time we will compete with Liu Jie. Although I did not use all my strength, I discovered the reality of Liu Jie. With our current capabilities, it will be difficult to send everyone players over Defeat Liu Jie in a short time. "

Regarding Liu Jie's full strength, Liang Yun has detailed records. He only used about half of this battle, and the rest were responsible for dealing with Liang Yun.

"Liu Jie's character is not good, but with his money, he really wins a lot of masters and has created a few strong teams." Liang Yun said.

Lu Yang said: "Since we can't beat him for the time being, we will first destroy Binghuo Island and Hot Spring Island. How to use the warship, this time rely on Chen Mo and Sha Yuanhang."

There are ships from Bingshan City to Binghuo Island. In the past, players of Binghuo Island had to keep the port, and other guild players could not go ashore. How many people can a boat bring, but now it is different. There are 100 war ships Luyang can bring in 200,000 people at a time.

Chen Mo said: "Boss, rest assured, give me a few hours, I can teach players how to fire at sea. This battle is simple, the enemy has no ship, we have a boat, we have dozens of brothers, follow I taught together that as long as the boat is anchored, the fortress of the Poseidon Army will win. "

White Lion, Xia Yuwei and others laughed. This kind of battle they had never fought in their lives was an overwhelming advantage.

Lu Yang looked to Tu Feng and asked, "Are the players selected?"

"Once selected, there are 100 people on the Holy Knight Knight board, and the rest of the players are also selected. They are all members of the elite group." Tu Feng said.

Lu Yang looked at Chen Mo and Sha Yuanhang and said, "I'll see two of them tomorrow."

Chapter 887 - Shipyard

The next afternoon.

Lu Yang once again gathered a large number of players, a total of more than 3 million people, however, these people are not human players, but players under Liangyun.

Lu Yang only took less than 5000 elites to take aboard 100 warships to the port location of Binghuo Island.

Binghuo Island itself is composed of a large island and 8 small islands. They are not far apart. As long as you log in to Binghuo Island, the other 8 small islands can swim past.

There are three ports on Binghuo Island, which are in the east, west, and south directions. Lu Yang took a boat to the east port. There is no player on the shore, but only an empty berth.

Chen Mo stood beside Lu Yang and said with some emotion: "I thought that countless turrets and arrow towers were built here, but now they are all sold by Xiaoxiao Muyu."

Sha Yuanhang said, "Why not sell? Wait for us to smash it with artillery."

Lu Yang was unsmiling. He had previously sent people to survey the terrain here. He knew the exact location of each turret and arrow tower. Unfortunately, the Poseidon Army did not have the idea of fighting with Lu Yang at the port after the warship. He Changkong Xizui sold all the fortifications on the port of Binghuo Island.

Xia Yuwei said: "Looking back at the low light, the Poseidon Army has sold everything that can be sold on the Island of Ice and Fire, and the buildings of the wild fortress and the official fortress have also been sold."

"What's the situation," asked the White Lion, and he was stubbornly prepared to do another fight.

Lu Yang also frowned, and said, "Co-op they are going to give me Binghuo Island for free."

The old man in the twilight showed a helpless smile and said, "Well, the bully wants to negotiate with you."

"Domineering?" Lu Yang asked frowning.

The old man in the twilight nodded and said, "You talk to him or not."

Lu Yang thought about it and said, "I guess the other party's intention, let's talk."

The old man in the twilight nodded, opened a special space, and brought Lu Yang and Xiongba into it.

The light flashed.

Lu Yang entered a special office-like space. Xiongba sat across the table and looked at him unwillingly.

Xiong Ba never thought that the little man who made him not even need to take a look at his eyes in the past turned out to be the object he needs to ask for help.

Lu Yang didn't have any idea about the hegemony. He had done everything he needed to do. He had the righteousness and affection. He was no worse than the hegemony. Now he doesn't owe him anything.

"What's the matter?" Lu Yang asked.

Xiongba said: "We have sent you to Binghuo City, can you stop playing Hot Spring City?"

Lu Yang said, "Give me a reason."

Xiongba squinted his eyes and said, "We have more than 5 million people. Yes, you have 100 warships. We can't keep the fortress. But we have the financial resources to support these 5 million people for three months. Are we fighting for three months? "

Lu Yang smiled and said, "Why do you still have to stay alive? Do you still have to dream of your national uniform?"

Xiongba said: "That's my business, you choose, if you don't give us a way to live, we will die."

Lu Yang said, "Do you think I'm afraid of you?"

For three months, if they can survive for a month, even if they are powerful, paying players is only one aspect. Without the official fortress and the wild fortress, where is the player's sense of identification with the guild?

Players want to go out to upgrade, do they have to run back to other people's fortresses to replenish each time, will it sooner or later become a player in someone's guild?

"Do you dare to fight with me for a maximum of one month, I can make you lose even a penny." Lu Yang said.

Xiongba didn't say anything, just stared at Landing Yang, waiting for his final decision.

Lu Yang thought about it and said, "Don't blame me for not reminding you. Even if I don't hit you, Hot Springs is not a place you can keep."

Xiongba asked, "If you don't come to hit me, who else will come?"

Lu Yang said: "The national war is about to start. Once the national war begins, both Japan and the United Kingdom have a guild invested by Liu Jie. What do you say these foreign players will choose as a supply station."

The male domineering.

Lu Yang went on to say, "I give you a month, you choose."

The national war will start as soon as one month, and the slowest will not exceed two months. When the national war begins and the Japanese and British warships come, there is no need for Lu Yang to fight hot springs. They will ask for themselves. To receive.

"I'll discuss with them. I hope you will keep the agreement. Don't come to attack this month." Xiongba withdrew from the special space.

Lu Yang and the old man looked at each other, both of them felt helpless, and withdrew from the special space. Xia Yuwei and others were waiting.

“Boss, what does Xiongba say?” The White Lion asked.

Lu Yang said: “They exited Binghuo City and gave us Binghuo City, and the whole army retreated to the hot spring island.”

“Thinking about the beauty, I took someone to destroy him.” White Lion said.

Lu Yang stopped the white lion and said, “Forget it, don’t give him general insights. Now it is not good for us to unite the human race, wait a moment.”

If Lu Yang unified the human race, then there is only Tianyao in the national uniform, and Liu Jie is not required to do anything. Lu Yang personally pushed Tianyao to his opposite side, because the official occupation of Sirius and Huo Tianhua Sirius of the Orcs.

The national war is imminent, and the decisive battle with Liu Jie is getting closer and closer. He does not want to be distracted by too many things.

“Liangyun, Binghuo Island will be in charge of you in the future.” Lu Yang said.

Liang Yun froze and asked, “Give me this?”

Lu Yang nodded and said, “Like other vice presidents, half of all the fortress’s income belongs to you.”

“Thank you, boss.” Liang Yun said.

Lu Yang said, “Let’s go and receive the fortress and the main city, perform their duties and eliminate all the hidden dangers of this island.”

They are responsible for occupying the fortress Tu Feng is responsible for cleaning up the spies who want to take this opportunity to enter the Iron Brotherhood.

Lu Yang brought Sha Yuanhang to the city of Binghuo City. This was not the first time he entered Binghuo City. The first national battle of the previous generation before entering the New World was in Binghuo City and Hot Spring City.

Lu Yang later had the ability to establish guilds and fortresses. It was also after the first national war that he earned money through international trade at sea. He had a complete knowledge of naval battles and maritime related issues.

Binghuo City is right in the center of the main island. Outside the eastern side of the city wall is a naturally formed inner bay that leads directly to the sea. Here is Binghuo City's dockyard factory. There are three official factories managed by the ocean expedition.

Chen Mo said: "Unfortunately, there is no more stuff here. Originally there were two factories here."

The dockyard can be built by players and sold by the Poseidon when they retreat.

Lu Yang said: "It doesn't matter, aren't they sold, I'll make it again, this time I will make 10 at a time."

Chapter 888 - Expedition Pirates

The unit price of the shipyard is 500 gold coins, which is not as high as more than 30,000 gold coins compared to a warship. The trouble is that the shipyard is classified.

If you want to build a warship, you need to upgrade the shipyard to level 3. Lu Yang and Chen Mo and others came to the ocean expedition camp and found the great explorer Al Khan.

“Dear explorer, I want to build 10 shipyards. I hope your people will help me.” Lu Yang gave 5000 gold coins to Arhan.

“Of course there is no problem.” Arhan took the gold coins happily. For explorers, money was their ultimate purpose.

“My slaves, damn, all got up to work, and dare to be lazy before dying.” Al Khan turned and yelled at the dock.

The efforts of more than 1,000 human races, beasts, elves and dozens of races ran out of the dock.

“Hello, sir, where do you want to build,” Arhan asked.

“Just here.” Lu Yang pointed to the location of the inner bay near the main city gate, the area closest to the security zone.

“Your vision is really unique, and I also think it is the best place to build this shipyard.” Arhan praised and ordered 1,000 slaves to start building the shipyard.

In about 20 minutes, 10 shipyards were successfully built. Arhan told Lu Yang: “If you want to upgrade the shipyard, you can come to me again.”

Lu Yang said, “I need your help. I want to upgrade all 10 shipyards to level 3.”

“Oh, of course. You only need to do a few tasks, such as whether you can help me to destroy those **** pirates at sea.” Arhan told Lu Yang.

System prompt: Pirate annihilation mission, difficulty level is 9

Lu Yangmeng swallowed his saliva, and co-ordinating his luck was not good. The first task he received was a level 9 task.

Zhou Tianyan said, "What does level 9 mission mean? Is it difficult?"

White Lion said: "What's difficult, now we have 100 warships, and we won in the last meal."

Chen Mo looked at the two and looked at Lu Yang. He was afraid that Lu Yang would send a warship out to destroy the pirates, and said quickly: "Don't, we can't fight this."

"Can't beat?" Bitter Ai asked in surprise.

"We all have 100 warships. Do 5,000 fortress guns attack and can't beat anyone?" Zhou Tianming asked in disbelief.

Sha Yuanhang said, "Uh, I can't fight, but you do n't know. The 9th-level pirate uses 5th-class ships. Each one is three times as large as ours. The guns on each of the ships are heavy. Cannon [cannon], the power is more than 10 times greater than ours, the number of cannons is 100 more than ours, and the speed is faster than our warships, which is simply a fortress of war. "

Everyone is dumbfounded.

"There are such strong monsters, I thought our warship was already the strongest."

Chen Mo said: "When we first built the shipyard to take over the task, we received this level 9 mission. As a result, we went to 100 level 2 boats, but the pirates on the opposite side had 100 level 5 warships. One shelling, it almost wiped out the whole army. Fortunately, the second-tier boat was faster and ran out of 12. "

Everyone: "..."

"Uh, this task can be changed for another one." Jiang Ze told Arhan.

“How can you pick and choose, and don’t want to do the task and come back tomorrow.” Al Khan said angrily.

“Co-authors must do this task today,” said White Wolf.

Chen Mo said to Lu Yang: “Boss, let’s forget today, come back tomorrow to take on the task.”

Lu Yang shook his head and said with a smile: “This task is not difficult, but there are ways to fight it.”

“Ah?” The bitter love half-life just heard the narration of Chen Mo and Sha Yuanhang had given up. I didn’t expect that my boss had a way to deal with this situation. Not only was the bitter love half-life, everyone was surprised.

“Boss, are you sure?” Chen Mo asked.

Lu Yang said: “I teach you a trick to fight against warships of this level.”

The 9th-level pirate mission was a great gift from the previous life. Originally, this play was created by Chen Mo, but he didn’t have time to study in this life, and was first said by Lu Yang.

“What to do?” Chen Mo was a little unconvinced. There was no way for him to be a master of the maritime family. He didn’t believe that Lu Yang could have any way.

Lu Yang smiled and said nothing. He took out 100 gold coins from his backpack and handed them to Arhan, saying, “Troubleshoot me to prepare 10 boulder cannons.”

“can.”

Lu Yang took out another 3,000 gold coins and said, “Give me 10 more Class 2 boats.”

“Sir, this is too much. I don’t need so much money.” Arhan is an honest and trustworthy businessman.

Lu Yang said: "The remaining money is a modification fee. I hope to add an additional mast and sail to each ship. The sail on the bow becomes a spinnaker. The cannon on the ship only has a boulder cannon at the stern, and the rest is not needed. "On the ship's sailor room, there were only 2 rooms for 10 people, and the rest of the storage rooms were removed and turned into ammunition rooms."

Arhan said: "Of course, please wait 2 hours and I will build it for you."

Xia Yuwei, White Lion, and others listened to the haze, and did not know what Lu Yang meant. Chen Mo and Sha Yuanhang reacted somewhat.

"Boss, do you want to use the way of escape to fight pirates?" Chen Mo asked.

Lu Yang said: "Official records have shown that the movement speed of a Tier 5 warship is 575 points, the normal movement speed of a Tier 2 boat is 585 points, and the sailing speed of one side is increased by 30 points, which is 615 points. No problem."

"What about the gun?" Xia Yuwei asked.

Lu Yang said with a smile: "Heavy Cannon [Cannon] has an attack range of 1100 yards. Do you know what a Boulder Cannon is?"

Everyone shook their heads Lu Yang said: "1800 yards."

Everyone: "..."

The bitter love reacted for a long time, and said with surprise: "We run 40 points faster than the other party, and the attack distance is 700 yards longer than the other party, that is to say, we can't catch up with the other party if we beat them."

"It's very correct," Lu Yang said.

Chen Mo frowned and said, "There is another problem. The hit rate of the gun and the maritime combat artillery are completely based on individual methods. There is no automatic hit mechanism. It is difficult to hit the target within 1,000 yards. It is difficult to hit the target within 1800 yards. Position, using a parabolic attack, it's too difficult. "

Lu Yang said: "It is difficult to practice. Starting today, we will exercise the accuracy of naval gunners. In the future naval battles, we will not win or lose on the basis of white-blade battles, but only focus on artillery versus bombardment."

Chen Mo and Sha Yuanhang were inspired by Lu Yang's words, and said excitedly, "Yes." The violent fire method of rebirth

Chapter 889 - Black Devil

Free reading of wonderful novels without popups!

Taking advantage of this time, Lu Yang temporarily adjusted the players on the large warships, drawing pictures on the ground to teach everyone how to fire according to distance.

"Just like my mission in the battle for Goblin Kings, long-range shooting also depends on the wind speed, elevation angle and * loading amount ..." Lu Yang said for two hours in one breath.

The naval battle, especially the small and large naval battle, is mainly about shooting range and hit rate. You are more accurate than others, and far beyond the range, others can only be beaten. In other words, if you cannot shoot, others You don't need to follow the s-shape to chase you, and it won't be long before you can catch up with you.

People such as Zhou Tianming and White Lion dominate the land, but at sea they can't even figure out their minds, and they are even more disgusted with manipulating cannons with a range of 1,800 yards.

“This thing is really boring. It is far less comfortable than the big sword.” The white lion scratched his head and said.

Zhou Tianming looked at the mathematical calculation formulas listed by Lu Yang and was so confused that he cried without tears: “I haven’t passed the math since I was a child. Boss, please forgive me.”

Girls such as Xia Yuwei and Lan Yu hid their mouths and laughed. It was almost a year since they played the game. For the first time, they saw top helpers like Zhou Tianming and Bai Shisanxiong showing such helpless expressions.

Lu Yang laughed and asked, “Who else?”

Sun Yu raised his hand, and the little guy said helplessly, “I’m seasick.”

Everyone: “...”

Lu Yang rubbed his head and said, “The three of you are in charge of the defensive work on the shore. I take the rest up.”

Arhan came over and said, “Dear sir, your boat is ready.”

Lu Yang said, “All right, let’s get on board.”

The ship was placed inside the shipyard. Lu Yang took everyone into the shipyard, and 10 class 2 boats docked inside the lock.

“Chen Mo and Sha Yuanhang took control of the nine ships with their hands. I brought the muddy wine, Xia Yuwei and their vice-chairmen to a ship.”

“Yes,” Chen Mo said.

Lu Yang waved his hand and boarded the boat with everyone. He boarded the first boat. When he stood on the boat, he felt a familiar atmosphere, as if he was at sea with people in the old days. The scene of the war has reappeared.

“Open the locks,” said Al Khan on the shore opposite Lu Yang.

“Okay.” When Arhan pushed the lever, the huge lock opened, and Lu Yang waved with his right hand. The ship raised its sails and sailed towards the sea.

At this time, it was just the wind, the ship was small, the sail was large, and there were many more ships. The speed of the ship became very fast. It took less than half an hour to reach the pirate’s place.

Cancer Island.

This is a small island shaped like a crab. There are many deep-sea crabs of level 30 on the island. It is a good upgrade place for trumpet. It is strange to play and has a lot of experience.

The system prompts: You have entered the place of the pirate, please be careful.

Lu Yang temporarily set up a simulation group and said to Chen Mo: “Be prepared to escape, I will lead the pirates out.”

Chen Mo and the captains of the other 9 ships responded. Lu Yang let the boat slowly move towards the inside of the island. Suddenly, a sentry tower on the shore appeared.

“U-turn.” Lu Yang said.

They turned the boat around and turned the stern toward the distant sentry tower.

Lu Yang measured the distance, about 1500 yards. He came to the ship’s gun at the stern and manually loaded the ammunition. Then he loaded a round iron bomb into the muzzle and aimed for about 5

seconds. As the ship swayed to the left and right, Lu Yang instantly felt it, and slammed the launch button with his right hand.

“嘭”

The iron ball flew out of the muzzle in a burst of fire, crossed a beautiful parabola in the air, and hit the tower.

“boom”

The iron bomb exploded and the pirate scout inside the post was wounded.

“An enemy attack, an enemy attack, an enemy sneak attack.” The pirate scout shouted.

Lu Yang signaled that they were ready to escape. Within 10 seconds, a super huge black warship distant from the island sailed out.

Black Devil

Level: 5

Qi and blood: 8000000080000000

“This boat is so big,” Lan Yu said.

The Black Devil appears to be more than 100 meters long, 50 meters wide, and 30 meters high, while Lu Yang’s Class 2 boat is only 15 meters long, 4 meters wide, and 3 meters in height. The two are like a giant and a gnome.

“Boss, why don’t we just run,” said bitter love for a long time.

Lu Yang said, "Run."

Zhuoju and others immediately raised their sails, and the Class 2 boat ran towards the sea at a speed of more than 600.

"It has always been our pirates attacking others, and today someone dared to attack me, chase Lao Tzu, and kill them." The roar of the pirate captain was uploaded from the Black Devil.

When the first black devil sailed out of the harbor, the following battleships followed, and when Lu Yang's ship ran near Chen Mo's, the warships in the harbor were not finished.

"How many ships?" Lu Yang asked.

"There are probably more than 50." Chen Mo said.

"Hunting the horse honeycomb." Lu Yang said with a smile.

Chen Mo's face was full of excitement. On this way, he carefully deduced Lu Yang's play many times, and found that it was really feasible.

"What do we do now?" Chen Mo asked.

Lu Yang said, "Stop them, pay attention to all warships, we are downwind, and we stare at their first warship, as long as the distance is kept above 1100 yards."

"Yes." Chen Mo and Sha Yuanhang and other warships dispersed, aiming at the attack of the first Black Devil.

Lu Yang reloaded the ammunition, patted the launch button, and slammed an iron bullet across the air, hitting the first Black Devil.

“1962”

At the same time, Chen Mo, Sha Yuanhang, and others also hit their first shots. 10 warships ran away side by side and quickly fled forward, keeping the distance around 1500 yards at the same time. At the same time, they quickly fired and hit the Black Devil.

Ten minutes later, with the exception of the first Black Devil, the rest of the Black Devil retreated because they had not been attacked. Only the first ship was still catching up.

In these 10 minutes, Lu Yang hit almost every shot, and they were amazed by the Xia Yuwei and Lan Yu who watched, and Lu Yang cheered.

“Brother, you are great.” Lan Yu said.

Lu Yang was very proud He sent a signal to the rest, saying: “It is time to change the game, you go to the sides of the warship and aim at their masts to attack.”

“Yes.” Chen Mo and Sha Yuanhang were also about to make this request. The two men left Lu Yang with 4 warships each and surrounded from the outside to the position of 1500 yards on both sides of the Black Devil.

Lu Yang also raised the muzzle too high, no longer attacking the enemy’s bow, but aimed at the enemy’s mast. He pushed a shell and said, “Look at luck, can you hit it with one shot?”

“噠”

Lu Yang slammed the launch button, and the iron ball flew high into the air. When he fell, he hit the base of the main mast.

“噠”

Even after a distance of 1500 yards, Lu Yang could clearly see that the pirate's main mast fell down on his side, even with the sails.

"Pretty." Chen Mo and Sha Yuanhang shouted.

Chapter 890 - Spooky island

Lu Yang clenched his fist hard. He didn't expect to hit it with such accuracy, and shouted, "Continue to hit and interrupt all his masts."

This is a standard play of the previous life. "Second World" seeks to be realistic, and the mast design is as fragile as the real world. As long as it is hit by the artillery, it must be interrupted.

The speed of the Black Devil dropped by one-third, leaving two sails. At this time, his speed was only over 300 points, which is almost twice the speed of the boat on Lu Yang's side.

One side of Lu Yang could almost meet the black devil in a circle. In less than half an hour, the three masts of the black devil were interrupted, the sails fell to the ground, lost all power, and stopped in place to move.

"You can still play like this," Lan Yu said in surprise.

Lu Yang said, "Get closer and hit him together."

Ten Tier 2 boats dropped the anchor around the 1200 yards of the Black Devil, fixed their guns, and fired with all their strength.

After another hour, the Black Devil was on fire, and when the last iron bomb hit the Black Devil's hull, the Black Devil rolled over and began to sink.

System prompt: You successfully destroyed the Black Devil

You get 11698 experience

"Huh, I finally won. It's really tough." Lan Yu said in a breath.

Lu Yang said: "The Black Devil is a well-known anti-cricket. Let's go and see if there is no baby."

The Black Devil has a great chance to drop the drawing of the weapon, and there is a small chance to drop the drawing of the Black Devil 5th class warship. If the drawing of the Black Devil is out, there is no need to worry about Lu Yang in the future naval battle. .

Ten small boats slowly reached the place where the black devil sank, and a golden treasure chest floated on the wreckage of the ship.

Pirate Captain's Treasure Chest

"This box is very beautiful," Lan Yu said.

Lu Yang picked up the treasure chest and opened it, a golden light flashed, and a drawing appeared inside it—the black devil.

Lu Yang forced a fist and said, "God."

"What's wrong?" The White Lion asked.

Lu Yang shared the drawings of the Black Devil warship to everyone.

Chen Mo said with disbelief: "Boss, what luck do you have, you can burst out the black devil."

Lu Yang said: "I didn't expect it, it may be the reward given by the leapfrog challenge."

Challenge a level 5 warship with a level 2 warship. If you win, the official will increase the chance of rewarding rare items for this leapfrog challenge. Lu Yang did not expect that the first time luck was so good.

Chen Mo said with excitement and blushing, "Boss, you must build this kind of warship. Even if there are only 10 such warships, you can defeat the 100 warships we have seized. . "

White Lion, Xia Yuwei, and others did not understand this, and were a little surprised when they heard Chen Mo's words.

"Is the gap so big?" Xia Yuwei asked.

Chen Mo said: "The black devil photo is much stronger than the level 3 warship. There is such a big gap between ships at sea. This is just like the battle between modern warships and ancient warships.

Only then did everyone understand.

Lu Yang said: "Don't worry, let's continue to do the task and first upgrade the shipyard to level 5."

"Okay," Chen Mo said.

"Boss, look at the front. Why is there an island?" Xia Yuwei noticed that there was a small island in the distance.

Lu Yang looked in the direction of Xia Yuwei's fingers, his eyes widened with excitement, and said, "Come on, let's go over to the island."

The people were puzzled, but they still obeyed Lu Yang's instructions to put away the anchor and set sail to head for the island.

Just as the ship moved in the direction of the island, the island began to blur, which made Lu Yang very anxious.

"Hurry up, hurry up, sail the ship with all your strength, and be sure to go in before the island disappears." Lu Yang said.

The turbid wine poured and the white lion first saw Lu Yang so anxious and fully controlled the sails. Before the island disappeared, Lu Yang's ship finally washed up on the beach of the island, and Chen Mo and others were away from Lu Yang. The vessel was less than 1 meter but did not come in.

"Boss, where have you been?" Chen Mo said staring blankly at the empty sea.

Lu Yang looked at the small island in front of him and couldn't help but take a long breath. He held his arm firmly in front of the boat and said, "I've entered the small island. You can take the team and continue to brush the Black Devil. In the past few days, kill the remaining black devil, and do this task, top more than 10 ordinary tasks. "

"Oh." Chen Mo said.

The white lion was beside Lu Yang and said, "Boss, is there anything special about this island?"

Lu Yang said: "You haven't seen the official history of the Second World I sent you."

"No." Ms. Bai shook her head together.

Lu Yang covered his forehead, and he found that the scam could only kill people, and letting them think about other issues was a waste of energy.

As early as a week ago, when Lu Yang decided to hit Binghuo Island, he was doing a preliminary review in this area. Many players who went to the sea in the previous life found some special maps. The strange things in these maps would drop very good equipment and experience Very high.

Xia Yuwei has seen what Lu Yang sent him and said, "This is a map with high experience rewards and equipment rewards?"

Lu Yang nodded and said, "Go up and see what's strange."

"Oh." The bitter love half-life and others jumped off the boat with Lu Yang and came to the beach. This is a very beautiful golden beach.

There are many palm trees and coconut trees near the shore. The trees are very lush and the magic energy is very abundant. A blue buff appears on Lu Yang's head.

System Tip: Plenty of Magical Energy Increases Your Cast Speed by 30%

"It's so plentiful," Lan Yu said in surprise. "I can move the magic energy more easily."

Lu Yang said: "Be careful, the system will not give benefits for no reason. Generally, this situation is because the island is very difficult to fight."

The crowd nodded, followed Lu Yang to continue, through the forest, came to a dirt slope, and in the distance, a transparent dragon-shaped creature was floating in mid-air.

Mana Dragon (Elite)

Level: 100

Qi and blood: 10000000/10000000

“The 100-level strange said bitter love for half a life.

“I’ll kill him and see what happens.” The White Lion wanted to go up with interest.

“I’ll go too,” Sun Yu said.

Lu Yang reached out and motioned everyone to stay still, with a smile on his face, and said, “No one is allowed to kill.”

“what?”

“Why.” Jiang Ze asked.

Lu Yang said: “This is a treasure, absolutely not allowed to kill.”

Mana Yulong, the last generation has caused a great response among players. This monster is too special. When it is so popular as the official ranking monster, this monster is listed as the most controversial monster.

As for the reason? Fury of Rebirth

Chapter 891 - 9 Color Mana Dragon

A mysterious smile appeared on Lu Yang's face, saying: "You wait here for half an hour before I go out."

He built a defensive tower in situ, flew to Hongsha Town with a teleportation scepter, and found the Prophet.

"What is it, our hero?" The Prophet asked.

Lu Yang said, "I want to buy the recipe for the Symphony of Magic here."

"Of course." The Prophet opened the purchase interface.

Lu Yang pulled the purchase bar to the bottom and found the recipe in the penultimate position.

Recipe: Elixir of Symphony

Level: 100

Effect: After using, you can make yourself look beautiful.

Lu Yang purchased 800 copies, then flew back to the city of St. Gall using a teleporting scroll, and found Jin Buhua at the Pharmacy of Song of Blood and Fire.

"Boss, why are you here?" Jin Buhuan was pondering the poisonous heart.

Lu Yang handed the formula to Jin Buhuan and said, "Find 800 pharmacists and make the magic potion with all my strength. I'm anxious to use it."

Jin Bubo took the formula, glanced at it, and saw nothing special. He asked curiously, "What's the use of this?"

Lu Yang said: "Good thing, we have to take you there in a while, so that we can quickly upgrade."

"Oh, I'll find someone." Jin Buhuan went to the fifth floor and distributed the formula to the pharmacists in the laboratory.

The city of St. Gall is the largest pharmacy store in the Song of Blood and Fire, with up to 1,000 pharmacists and 800 recipes.

The method of making the magic potion is not difficult. After a few experiments, Jin did not know how to make them, and began to use large barrels.

Half an hour later.

Jin Buchang came to Lu Yang with more than 3,000 sets of potions and said, "Just made."

At this time, Lu Yang had already called over the three youngest brothers of Han Ying, Mu Yu, Xiao Liang, Tu Feng and Han Sha.

"Brother, what the **** is so mysterious." Han Fei asked.

Lu Yang said, "Follow me and you will know."

He took out his teleportation scepter and took them with him to a special map, Yulong Island.

The White Lion and Xia Yuwei were sitting and chatting together. When they saw Lu Yang returning, they stood up.

"Boss, what on earth is so mysterious?" The White Lion asked.

Lu Yang said with a smile: "Our opportunity for the rise of the Jagged Brothers Alliance is coming. Now I can tell you that this map is a map that allows us to quickly upgrade."

Lan Yu asked, "Is this 100-level mana dragon faster than the level of the Wanhun Temple?"

Lu Yang couldn't help but said excitedly: "It has been introduced in the official library materials that Mana Dragon has a way to upgrade to level 101."

"What?" Zhuojiu dumplings and Zhou Tianming's faces turned wild. They stared at each other and looked at Lu Yang incredibly.

"Boss, do you think this strange can be upgraded to level 101?" Zhou Tianming asked.

Lu Yang nodded and said, "How's it?"

"How is this possible? Isn't the level limit now limited to level 100, and it hasn't been opened above level 100?" Zhou Tianming said.

Lu Yang said: "Yeah, it's officially so, it seems this weird special. Based on your intuition about the game, you should be clear. How high will the upgrade experience after level 100 be, and the strange experience after level 100? How high will it be. "

Everyone looked at Lu Yang blankly. Now their level is over 80, and the experience they need is more than 6 billion.

If it is after level 100, the upgrade experience must be more than 10 billion, and the strange experience must also be improved a lot.

"Boss, what to do." Xia Yuwei asked.

Lu Yang took a bottle of magical potion from his backpack and threw it to the lonely mana dragon in the distance.

Immediately after the magic potion landed, the mana swimmers swam over quickly, consuming the magic potion on the ground, and the body was a light-blue translucent mana swimmer into nine light colors.

“There have been changes.”

“No change in level?”

Lu Yang smiled at the corner of his mouth. Each mana dragon had to take 30 Symphony Elixir to become level 101. He took another 29 bottles from his backpack and threw them.

The mana swim dragon almost ate 29 bottles of medicine, and suddenly, a light flashed, and the body of the mana swim dragon became nine-color light.

Mana Dragon (Elite)

Level: 101

Qi and blood: 15000000/15000000

“It has changed, changed, and the level has changed to level 101.” Lan Yu said cheerfully.

Lu Yang said: “Try it for a second, Xiao Liang rushed up and started to blame.”

“Good grin.” Xiao Liang carried an 80-level shield and charged.

“噫”

Mana Yulong was dizzy. When he woke up, a piece of lava appeared under his feet, a huge flame cross and various skills fell on him one by one. Within less than 1 minute, Mana Yulong fell to the ground.

System prompt: you get 150012 experience

“150,000 experience.” Zhou Tianming said with an expression of disbelief.

Lu Yang said: “Yes, there are so many experiences, and these monsters are only elite monsters, and we are very easy to fight.”

“It’s a bug,” said bitter love for a long time.

Lu Yang picked up a piece of nine-color equipment on the ground and said, “He is not a bug, but a new way to drop equipment. Let’s take a look at this equipment.”

Jiuyi Robe (Gold)

Level: 100

Defense: 1512-1713

Intelligence: 2012

Constitution: 1876

Additional Spell Damage: 3219

Additional Spell Penetration: 3198

Spell critical strike chance increased: 3512 points

“The attributes of this dress are too strong,” said bitter love for a long time.

Lu Yang put the robe in his backpack and said, “The thing he should have exploded was called the obsidian robe. There is information in the library. If you give Mana Yulong a magical potion, you can make him drop the obsidian robe. It becomes a robe of nine cents, with all attributes increased by 10. As for the level of Mana Dragon, it is only an additional addition. “

The official library does have this information But who has the intention to look at that, Lu Yang knows that someone has decrypted it in the last life.

At that time, it had been in service for more than a year, and all players were trapped at the level of 80. It was very difficult to improve, but a small studio, all of which had player levels of 100.

At that time, many wealthy people asked them to upgrade their ranks, and they all agreed. Later, a guild looked for them. The studio helped a guild to raise the level of more than 10,000 mains to 100, and sold them to the 100-level Jiuyi. Series equipment.

Mana Dragon not only lost the robes, but also all the gold-level parts of all professions. Lu Yang was confident that within a month, the main 3000 players in his hand would be upgraded to level 100, and they would also be able to equip them with equipment.

“Let’s go, let’s go inside, I want to find more mana swimmers.” Lu Yang said.

“Do you need to call a member of the Forbidden Mage?” Hei Yan asked.

Lu Yang held Jin Buhuan’s shoulder around him and said, “No, one poison king is enough.”

Over the past few days, someone has been collecting highly toxic cannibal flowers and making highly toxic orbs every day. Twelve have been produced.

The poisonous mist sprayed by the poisonous orb hurts 5000 points per second, and the 15 million blood mana dragon cannot be sustained for an hour and will be killed.

Jin Buchang asked: "Boss, where do I hide, spray a mist of poison, and blame must come to me."

Lu Yang said, "Let's find a place, Xiao Liang will just carry it for you."

There is a cave on the east side of Youlong Island. There are some mana dragons in the cave. The entrance of the cave can hold 2 people side by side.

Lu Yang knew the location of the cave, but he couldn't take them to find it immediately. They circled about a third of the island, and Lu Yang took them to the cave location.

System prompt: you found an unknown cave

"This place is just right." The turbid wine poured out at the entrance of the cave and measured it, just to let 2 people stay there.

Lu Yang said, "Xiao Liang and Zhuo Jiu kept at the door. The others went in, and I went out to blame."

Sun Yu said, "I'll go with you."

Lu Yang snorted and ran towards the west. From the beach to the deep forest on the island, Mana Dragons were everywhere.

These are not the main ones. In the deepest part of the dense forest, in the middle of the island, there is a source altar.

Lu Yang used the stealth potion to come to the altar. The altar is very large. It is an oversized platform made of obsidian. There are all mana dragons on it.

“The great ancestor of the flame ...” Lu Yang uttered a spell.

After 10 seconds, a large fire meteorite descended from the sky. In the center of the map, more than 1,000 mana swimmers were stunned, and countless mana swimmers were impacted.

“Hello ~!”

The stunned Mana Dragon roared in unison, flying towards the landing sun.

“Blazing Blaze”

A flame came out of Lu Yang’s feet, and he ran and ran. His moving speed reached the normal 325, which was much higher than the moving speed of Mana Dragon. The Mana Dragon behind him could not catch up with him at all.

Lu Yang didn’t run fast either. At the same time, he also attracted the mana dragons on both sides of the road. Hitting one will bring at least one team, and some hitting one will bring dozens.

When Lu Yang ran to the cave, he pulled back more than 2,000, and Sun Yu also ran over at this time and pulled back more than 1,000.

“Come in fast.” Xiao Liang gave way and let Sun Yu come in first.

“flicker”

Lu Yang jumped into the cave, Xiao Liang returned to the position, blocked the entrance, and the mana dragon was nearly 20 levels higher than Lu Yang and Sun Yu. It was difficult to remove the hatred. Seeing Lu Yang entered the cave, he could not rush in. They can only attack Xiao Liang and Zhuojiu at the door.

Xiao Liang and Zhuojiu had no problem in equipping the level 80 lords, not to mention the 100 level elites in the wild, and the mana swim dragon almost hit the two with almost no blood.

The rest of the mana swim dragons couldn't rush in, all stopped outside the cave.

Lu Yang saw the situation was almost the same, and said, "Throw the magic potion together."

"Um." Lan Yu took the potion from Lu Yang, threw a lot of it out, and the magic potion that fell on the ground was swallowed one by one by the mana swim dragon.

In less than half an hour, Lu Yang had thrown away all 3,000 sets of potions in their hands, and a large number of mana swimmers changed from light blue to nine colors.

Lu Yang said to Jin Buhuan: "It's your turn."

Jin didn't change, he ate a highly toxic orb, and a mist of poison sprayed out. Instantly, the outside of the cave was full of poison mist.

"5000"

"5000"

...

Super high damage jumped from the strange head again and again.

"Lava Eruption"

Lu Yang turned all 200 yards outside the cave into lava fields, and the monster lost more than 30,000 blood every second.

Within 20 minutes, all nine-colored dragons within 200 yards of the cave fell to the ground and circled together.

System prompt: You killed the nine-colored dragon

You get 100012 experience

...

Countless system prompts refreshed quickly in the dialogue bar. When he stopped, Lu Yang looked at his own experience and improved by more than 300 million.

This is just over an hour, or if there are not enough Symphony Elixirs, if the Symphony Elixirs are sufficient, you can see how fast the upgrade is here.

“At this speed, it won’t take a day to get to the next level.” Xia Yuwei said.

Jin Buhuan said, “Boss, I went back to get the magic potion, and for more than an hour, they made more than 6000 sets.”

“I’ll go back with you,” Lu Yang said.

The strange outside just died, and Lu Yang flew back to the city of St. Gall with the return to the city, and Jin Bu returned to the potion and continued to upgrade.

Rankings.

Liu Jie and Tian Yao have recently ranked first and second on the list. Both of them are at level 83. They are doing official money-for-experience tasks every day.

At the current level, exchanging money for experience upgrades will cost hundreds of thousands for each level, but the two don't care.

Liu Jie asked his staff, "How much experience does Tianyao have?"

"It's 300,000 less than your experience, which is about 5 tasks," answered his men.

"It's a dead dog, biting me and letting go." Liu Jie cursed.

The dead man said with a smile: "He's playing against you. Don't worry about him. At this speed, he can't beat you."

Liu Jie shrugged and continued running with a smile.

"Boss, I feel so good lately." Xue Yiming asked.

Liu Jie did not speak, but the smile on his face was indeed full. Recently, he was more and more satisfied with Xue Yiming. This kid shined in this war, sneaked into Liangyun headquarters, and killed Liangyun with his own hands boosted morale.

The dead grass was also very satisfied with Xue Yiming. The plan to attack Liangyun was proposed by him. Xue Yiming implemented it completely and successfully in World War I. From the perspective of dead grass, Xue Yiming was a good general.

He puzzled Xue Yiming and said, "Don't you know, Jie Shao also invested in two guilds in foreign servers. At present, they are the top grand guilds in those two countries. Once the national war starts, Jie Shao will order them to lead. Players from these two countries came to help eliminate Lu Yang and Tian Yao, and we won this time. "

Xue Yiming froze and asked, "Will the national war really start?"

Liu Jie said: "Internal news, at the latest 2 months, the fastest is at the end of this month."

Xue Yiming said: "Boss, will Tianya and Lu Yang be united?"

Liu Jie nodded with a smile and said, "A general who knows how to think is a qualified general."

"We thought about this for a long time." A cold look suddenly appeared on the smiley face of the dead grass and said, "So I devised a plan."

Chapter 893 - Calculate Dead Grass Calculate Lu Yang

Xue Yiming asked in surprise: "What is the plan?"

The dead grass had a smile on his face, and did not answer Xue Yiming's words. He said to Xue Yiming, Yue Taishan, Yao Wuyangwei and other senior executives who looked at him, "You know, I haven't Yang takes it seriously, including this time he fought with us, I didn't take him seriously. "

Liu Jie leaned on Erlang and said, "I agree with you."

Yaowu Yangwei blinked and didn't understand, and asked, "Jie Shao, Lao Liu, what did you say, Yunshan fog cover?"

Liu Jie laughed and died, he likes others to look at him with such blank eyes, not only Yaowu Yangwei, such as Yue Taishan expressionless, but also do not understand it.

The dead grass looked at Liu Jie, and Liu Jie motioned with a smile, and said, "Let's say, everyone here is the one I trust most, and I can tell them."

The dead grass nodded, and looked proudly at people such as Yue Taishan and Yaowu Yangwei. "Did you know that Lu Yang has a fatal flaw? As long as I do something, I can make Lu Yang's guild torn apart. "

"What are the disadvantages?" Yaowu Yangwei asked in surprise.

The dead grass said: "Do you know what is the biggest difference between family members and ordinary people?"

Yao Wu Yangwei and others like Yue Taishan shook their heads.

"Ah, old Liu, you can hurry up and say, once I finish, I'm anxious to death." Yaowu Yangwei said.

The dead grass had a proud expression on his face, saying, "The difference is their definition of a woman."

"A woman's definition?" Everyone asked, puzzled.

Counting dead grass asked: "Is the Brotherhood of Jagged Brothers looking strong, doesn't it?"

Everyone nodded.

The dead grass said: "But if the Iron Brotherhood is dismantled, it is nothing more than the support of the Jiang Ze family and the support of several small families such as Lan Yu, Xia Yuwei, Zhang Zibo, and Xia Yuwei. The reason is Blue Feather, you said, if I find a love rival for Blue Feather, what will happen to the Brotherhood of the Iron Blood? "

"You want beauty?" Xue Yiming asked.

The dead grass's eyes had a cold look in it, saying, "The biggest difference between the civilians and Jie Shao is that Jie Shao treats women as very indifferent, and Lu Yang are born ordinary people. I can only watch the goddess grow up but not be able to approach it. After being rich, I will long for the favor of the goddess, which can be seen from his pursuit of blue feathers. "

For example, Yue Taishan nodded, "It is true. Generally speaking, from ordinary people to particularly rich people, there is a great chance that they will change their minds."

The dead man shrugged his shoulders and said, "With Lu Yang's current status, one of the three major guilds of the national service, he almost unified the entire human race. He has billions of dollars in net worth and can earn hundreds of millions of dollars each year. He's hot now, more popular than first-line stars. "

Xue Yiming nodded undeniably. If Lu Yang did not fight in the game all the time, but went out to participate in the show, his popularity would surpass many first-line stars.

"What do you want to do?" Yao Wu Yangwei asked with interest.

The dead grass raised the wine glass in his hand, shook it, took a sip, and said, "I'm going to give her a big gift, a big gift that he can't refuse."

People such as Yue Taishan and Yaowu Yangwei listened to something, but did not know what the gift was. They looked at the dead grass, but they stopped talking.

Liu Jie said proudly: "I'm going to give Lu Yang's hottest female celebrity Liu Ruoshi as a girlfriend, how about it?"

Xue Yiming and Yao Wu Yangwei were stunned, even if they were Yue Taishan.

"This, how is that possible, Jie Shao, are you talking about that Liu Ruoshi who is popular all over the country? He has just been awarded the best actress at the International Film Festival after he got Jin Weiying, or was he was 7 years old How old are you? "Yaowu Yangwei asked.

It's not that Yue Taishan and Yaowu Yangwei who are in their 40s also like to watch gossip news, but this girl has been too hot recently. You can see her news when you log in to the Internet. Inside the national costume of "Second Sea World", everywhere Can see her avatar and video.

This girl is not only innocent, but she is also perfectly in shape. She is one meter sixty-seven tall, combing her long hair, and has a pair of big eyes that makes her tempted to fall into it.

Liu Jie had a faint smile on his face, and his surprise at Yao Wuyangwei was all his expectations. "Our family is an old-fashioned family, TV stations, official media, and online media. We all have a lot of resources. Stars are not difficult. "

If Yue Taishan and Yaowu Yangwei stood on the spot, the more Lu Yang downplayed, the stronger the shock in their hearts.

What a powerful family this is, the stars that can be picked up can make Chinese people crazy As Yue Taishan said: "No wonder Jay and Lao Liu have always been so well-informed, they already have plans. . "

The dead grass spread his hands and said, "So I said that the most difficult thing to deal with is Tianyao. Let's think about it, how can we destroy Tianyao."

"Then Lu Yang?" Yaowu Yangwei asked.

The dead grass looked at his watch and said, "In the afternoon, Liu Ruoshi and Lu Yang will have a perfect encounter."

"In the game?" Yaowu Yangwei asked.

"No, it's real." Said dead grass.

"Second World" is an official event that invites popular stars and celebrities in the game to advertise for the game.

Lu Yang is the best player representative, from ordinary people all the way to one of the three guilds of the national costume. Liu Ruoshi is a new goddess. She is proud and pure, but she is the dream lover of the common otaku. .

Liu Jie's family pushed back again, and Liu Ruoshi successfully won this endorsement.

Lu Yang had been notified before, but he himself didn't want to participate, but he repeatedly refused to quit. Officials put the shooting location in Donghai City for the convenience of Lu Yang. Lu Yang would not come if he didn't come.

It's exactly one o'clock this afternoon.

Lu Yang watched the time approached, and said, "I'm going to shoot commercials, you can continue playing first."

"Come on, the beauty is beautiful." Lan Yu said.

Lu Yang smiled, quit the game, changed his clothes, and he sent him to the shooting location in black and white. This is a villa manor, the scenery is very beautiful, just in August, the grass and the flowers are delicate, which makes the villa particularly beautiful. .

In the distance, a girl with long hair in a pink coat was watching the script, and she looked very focused, but she was not on the script, but all on the tasks assigned by Liu Jie.

Chapter 894 - Soft words

She was Liu Jie's favorite and Liu Jie's secret lover. Originally, she was just an obscure girl. It was Liu Jie who gave her so many resources and made her a star of much attention.

This time Liu Jie begged her for help, saying that only she could help keep Liu Jie's place at home, which made her anxious. For Liu Jie, she was willing to give everything.

“Papa” clap sounded, a man in his 30s said vigorously: “Finally check the machine, President Lu Yang has arrived, everyone to prepare.”

With a voice, Liu Ruoshi looked at a big boy standing next to the middle-aged man, and she recognized at a glance that this person was the Lu Yang in the photo.

Liu Ruoshi did not take the initiative to walk over, but lowered his head and continued to watch the script, his ear listening to the conversation on the other side.

The middle-aged man is Du Bin. He is both the host and the official behind-the-scenes planner. When he learns that he is looking for Lu Yang to shoot advertisements, Du Bin personally comes over to find it.

“President Lu Yang, we finally met again.” Du Bin enthusiastically said to Lu Yang: “The last interview was not full of fun. After this advertisement, you must give me an exclusive interview opportunity, we can get Have a good chat. “

Dubin refers to the incident in which Lu Yang was attacked in Modu before.

Lu Yang said, “Sure.”

“I’ll introduce you to a beautiful woman. It’s definitely a beautiful woman. This time your partner in the advertisement.” Dubin said.

Lu Yang laughed. There was only Lan Yu in his eyes. No matter how beautiful the other women were, he didn’t feel much in his eyes.

“Well, let me talk to my partner first.” Lu Yang said.

He wanted to get acquainted with the female partner and wait for the successful shooting of the advertisement, so as not to delay time.

“Just there.” Dubinla landed in front of Liu Ruoshi’s bench.

Liu Ruosi was not far from the two, and heard the conversation clearly. She raised her eyes and looked at Dubin shinningly, saying, "Du Ge, what are you talking about behind me, I can hear you shouting Oh my name. "

Dubin felt a clear spring flowing through his body. Haha laughed and pulled Lu Yang in front of Liu Ruoshi, and said, "Some solemn introduction, Lu Yang, the chairman of the iron-blood brothers association who is famous in the national service."

Liu Ruoshi's beautiful eyes looked at Lu Yang, stood up and politely reached out, and said, "Hello, I'm your fan."

Lu Yang didn't expect Liu Ruoshi to be so lively and generous, politely shook her little hand, and said, "Don't dare to be, I'm your fan, right now, your ads and videos are everywhere in the game. You are full of games Where is the goddess. "

Liu Ruosi was a little smug and said with a small nose: "I don't want to be a goddess. It's all done by a brokerage company. Now I have a lot of announcements every day, I'm almost tired of becoming a puppy."

The little girl's pouting mouth squeaked the scene with flowers, and countless eyes around Liu Ruoshi's body, but she was calm and uncomfortable.

Lu Yang didn't have the slightest feeling for Liu Ruoshi's beauty. Maybe she is beautiful and she is famous, but she is not Lan Yu.

"How to shoot the advertisement." Lu Yang glanced at Dubin, whose eyes were unnatural.

"Ah? Ah." Dubin responded and said, "The advertisement is very simple, that is, you and Liu Ruoshi dance a few words, and then say a few words, our advertisement is mainly for the small game dance in the game."

Lu Yang said, "I can't dance."

Dubin said: "It doesn't matter. I hired a professional dance teacher. It's time for him."

Du Bin looked around and found that Wu Mei teacher had not yet arrived, and asked, "Where is Wu Mei teacher? Who is it?"

An assistant director ran over and said awkwardly, "General Manager Du, Wumei said that the car was broken on the road and could not come."

Lu Yang: "..."

Liu Ruoshi: "..."

In embarrassment, Dubin said angrily, "Is there anything wrong, the protagonists are here, this kind of thing happened."

There were dozens of people in a venue, and one person couldn't shoot because of mistakes, and everyone looked at Dubin, making him even more embarrassed.

Liu Ruoshi raised his small hand and said, "I just watched this dance. It's very simple. Let me teach President Lu Yang."

Dubin reacted and said with surprise: "Yeah, if Poetry has won the dance competition championship, you are much better than that dance beauty teacher. You come and come, please."

Liu Ruoshi was amused by Du Bin and said to Lu Yang, "Let's go inside, I'll teach you."

There is a special training hall in the villa. Lu Yang followed Liu Ruoshi to the training hall. Next to him were Dubin and several film crews.

"Just do it here." Liu Ruoshi took off her sun coat and exposed her pink skin and pink dress.

Lu Yang was a little embarrassed. Except for Lan Yu, he hadn't touched any girls, and he came to Liu Ruoshi in embarrassment and asked, "What should I do?"

Liu Ruoshi smiled and posed in a ballroom dance, saying, "In fact, you do n't have much movement in this dance. You only need to pose two or three. The others are all dancing. You just need to make the right time at the right time. Just move, I believe that President Lu Yang, known for his speed of reaction, can learn quickly. "

Lu Yang smiled helplessly and said, "Okay, I'll try my best."

He also poses as a ballroom dance, cares for Liu Ruoshi's little hand, and the sound of music next to him, Liu Ruoshi instantly turns into a pink elf. Lu Yang doesn't need to do anything. Liu Ruoshi dances beside Lu Yang.

This kind of dance was originally a boy and a girl, but here Liu Ruoshi, she took the landing Yang without any sense of disobedience.

Lu Yang quickly grasped the essentials of this short dance. Pushing and pulling, when he pushed, Liu Ruoshi turned outwards two turns, and then Lu Yang stretched and held Liu Ruoshi, and Liu Ruoshi revolved for two weeks to return to Lu Yang.

After two attempts, in the third attempt, Lu Yang pushed Liu Ruoshi out. Liu Ruoshi fluttered out like a pink butterfly. When pulled back by Lu Yang, suddenly, Liu Ruoshi's feet softened. To fall to the ground.

Lu Yang reached out his hands subconsciously and pulled Liu Ruoshi into her arms, asking, "Are you all right?"

Liu Ruoshi blushed and said, "It's okay, maybe I've been too tired recently."

"Can you stand up?" Lu Yang asked.

Liu Ruoshi tried it and said, "Yes."

Dubin hurried over and asked, "Is it all right?"

Liu Ruoshi shook her head and said, "Du Ge, let's continue shooting, I'm fine."

"Really?" Dubin asked.

Liu Ruoshi nodded and walked outside. The shooting went smoothly. Lu Yang and Liu Ruoshi had a successful shoot.

After the filming, Dubin took a breath and said, "Frighten me, if Shi Shi can't be hurt, there are a lot of your dances in the back."

Liu Ruoshi had sweated on her forehead. Just now she was not deliberate, but she was really tired. She said, "Relax, I'm fine, you can interview, I'll just rest while I'm on the side."

Dubin said: "We went to the villa's living room and it was not an interview, just a chat."

"Okay," Lu Yang said.

A group of people walked into the villa and sat in the living room. Liu Ruoshi lay down on the sofa. An assistant covered her with a thin blanket so as not to go away.

She showed her small head and looked at Lu Yang and Du Bin with a weak expression. "You start, I'm also curious about President Lu Yang's experience."

"I'm curious," Dubin said.

Lu Yang laughed and said, "What's the experience? It's nothing more than people chasing them all the way. They were forced to fight back to this day."

Dubin shook his head and said, "You are too modest. Now that you are the first guild of the human race, as long as you occupy the hot spring island, you will unify the human race. This is not something that can be forced to fight back."

Lu Yang nodded, I don't know what, it may be that he felt more intimate in the face of Du Bin, or maybe Liu Ruoshi's weak body had a strong soul that made him feel a bit. He usually did not want to say something in his heart, inexplicable Want to say it.

"People who don't know me, what I see, I just take the player's attitude towards the west in the game, but they don't know, I get up at 5 o'clock every day and use a special training method for three hours."
"Said Lu Yang.

"Can you tell us how to exercise?" Dubin asked.

Lu Yang recalled the jungle fighting training method of Southeast Asia in the last life, saying, "It is a non-human exercise method. He can let you consume all the energy in the body within half an hour, and the remaining two and a half. Hours, all based on your willpower and cellular potential. If you can excite it, your strength and reaction speed will increase by one point. If you can't keep giving up, then you will be tired in vain. "

Dubin frowned, and asked, "Think about how difficult it is, how long have you persisted."

"It's been two years," Dubin said with an astonishing smile. "No wonder you can win that way in the final of the Global Competition."

Lu Yang said: "It's him who cares Dubin asked puzzledly:" Why do you fight so hard. "

Lu Yang said, "In order to make our families and brothers have a better life, and to prevent them from being bullied, who else dares to bully, let us kill them."

Dubin laughed.

...

The two talked for a long time, about three hours. Liu Ruoshi was with him for three hours. At the end of the evening, Dubin said, "I'll treat you, let's have a meal together."

Lu Yang said: "When it comes to me, I invite you, go to the magic city another day, you please invite me again."

How could Dubin agree that he was so much older than Lu Yang, and asked Lu Yang to treat him as a human being, and the two of them were arguing.

Liu Ruoshi has been watching Lu Yang quietly by the side. She is looking for Lu Yang's shortcomings and places that can be penetrated, but after searching for a long time, she finds that Lu Yang is like Jin Guang's indestructible body without any flaws.

Chapter 895 - 1 move to resolve

She didn't dare to reveal her idea of falling in love with Lu Yang easily. She was afraid that Lu Yang despised her and delayed Liu Jie's affairs, so she has been waiting, and now she finally waited for the opportunity.

"Two brothers, they are starving, it is better to listen to me, let Brother Luyang treat him." Liu Ruoshi said softly.

Lu Yang is not fighting Dubin. When he heard Liu Ruoshi's words, he said, "Look, our goddesses think I should treat you."

Du Bin saw Liu Ruoshi talking and said, "Well, then you come, I will come next time."

Lu Yang smiled and said, "Sure."

The three of them drove to the best hotel in Donghai City. When eating, Liu Ruoshi took out her strengths and took control of the situation at the dinner table in a few words.

After eating a meal, Lu Yang and Liu Ruoshi both had contact information of each other, and the title also changed from Chairman Lu Yang to Brother Lu Yang.

After having a meal, Liu Ruoshi first returned to the hotel to rest, and Dubin left.

Lu Yang returned to the studio after checking the account, and just logged on to the Internet, but found a large number of photos of Lu Yang with Liu Ruoshi appearing on the Internet.

The light flashed, Lu Yang appeared in the cave of Youlong Island, Xia Yuwei, they were playing monsters, and saw Lu Yang returned, and the air was frozen for a moment.

Xia Yuwei looked at Lu Yang with a poor expression and asked, "Boss, what's going on."

Tong Lanyu said, "Sister Yu Wei, I believe Brother Lu Yang, don't be so angry with him."

Lu Lu asked, "What's the matter?"

Xia Yuwei said indignantly: "Our photos are spreading the enthusiasm of chatting with Liu Ruoshi in the studio. You also went into the villa with the injured Liu Ruoshi, and said you stayed with her for more than three hours. In the evening you took her out for dinner alone, the best hotel in Donghai. "

Lu Yang said a black line in his forehead, and said, "Where can this be? Nonsense."

"Then you explain it," Xia Yuwei said.

Lu Yang looked at the crowd and found that the dull wine and bitter love half-life, and Sun Yu's faces were not quite right. Suddenly, Lu Yang reacted.

"No, I may be framed." Lu Yang said.

"Framed?" Xia Yuwei said in disbelief.

Lu Yang said: "I will explain to you a few. When practicing dance today, Liu Ruoshi was unwell in my arms. I did n't take the initiative to hug her. Second, I did n't hold her in the villa, he went in. Yes, third, I was in an interview with Dubin for those three hours, and this video will be released soon. I did not accompany her. Fourth, after the interview, Dubin will invite me to eat with Liu Ruoshi, this is in Donghai , I can't let him get the money, so I took Dubin and Liu Ruoshi together. "

Xia Yuwei's face eased and asked, "What are you talking about?"

Lu Yang held Lan Yu and said, "I will not shake my feelings for Lan Yu. You can rest assured."

The last life was the hardest in Luyang. In the darkest time, the only candlelight in his heart was the blue feather. Without the blue feather, he could not sustain the moment of revenge in the last life.

Tong Lanyu looked at Lu Yang and said, "Brother, I believe in you."

Wuzhuo wine frowned and asked, "Boss, what do you mean by being framed?"

Lu Luyang said: "Don't worry, let me investigate this matter, you still keep the look of anger just now, so this thing continues, I want to know who is making trouble behind it."

This measure is too poisonous. Apparently someone is using a beauty measure on him. What is the essence of the beauty measure? If you ca n't beat the enemy, you can only serve the enemy first, and the lowest level of service is using money. The most advanced is the use of women.

Holding a woman can easily cause resentment between the opponent's senior management, and can also destroy the foundation of a guild.

He said to Tu Feng, "Check me the details of Liu Ruoshi."

"Okay." Tu Feng has a lot of connections in his hands. Many of his players work in the household administration department. With the convenience of his post, he can easily check the files.

I happen to have a player on duty in the household administration department tonight. He checked the file and gave all the information to Tu Feng.

"I found it. The real name of Liu Ruoshi is Liu Ruolan. He lives ... Currently he is a contracted artist of Puguang Culture Media Company," said Tu Feng.

After listening to Tu Feng's words, Xia Yuwei said, "There is nothing special."

Xi Tufeng said with a smile: "The special place is in the last sentence. The boss behind this Puguang Culture Media Company is the Liu Consortium."

Xi Zhuojiu and Xia Yuwei and others looked at Tu Feng in shock at the same time.

"Are you sure?" Xia Yuwei asked.

Tu Feng said, "You know, at the request of the boss, I spent money in the server to buy any useful news. A player who left the company from Puguang Culture Media Company sold the news to me because he had no money in his hands. Five gold coins were gone, and this information was received three months ago, with specific accounts. "

Wu Tufeng opened the electronic account book and pulled out the account three months ago. It turns out that there is a record of Puguang Culture Media Co., Ltd. as Liu's consortium.

“Hey, I thought it was a bit expensive at the time. I can’t think of the real value of this money.” Tu Feng said.

Xia Yuwei’s face turned red, and she looked at Lu Yang embarrassedly and said, “Boss, I misunderstood you.”

Lu Luyang said, “I don’t blame you. I guess this strategy is the dead-handed idea of Liu Jie. We can’t count him as a strategist. This **** specialty is an accountant.”

Tong Lanyu said, “This man is too bad.”

He asked, “Boss, what’s the next step?”

Lu Yang thought: “Liu Ruoshi has a great reputation in the game. If he insists that we frame him, we are passive until there is concrete evidence.”

Zhou Tianming said: “Did this game hit this share? Women at this level have all come out to serve people.”

Lu Luyang said, “Where can we go? The wars that follow will make you more eye-opening.”

When the last battle came to the international war, it was more fierce than it is now. Not only beauties, but various conspiracies appeared. Players were amazed and the whole game rose to a new height.

Bai Shi said: “I really want to kill Liu Jie, this **** is too wicked.”

Lu Yang was pondering, and suddenly he wanted to understand, and said, “If Liu Ruoshi’s purpose is me, then Liu Jie’s purpose is Tianyao.”

“Tianyao?” Everyone was surprised.

Lu Yang said: "If I do n't fight and fight here, Liu Jie will fight against Tian Yao as soon as possible, and if Liu Ruoshi blows aside, I will probably be fooled. With Liu Jie, destroy Tian Yao first, and then Liu Ruoshi Lan Yu was forced to confess in the main room, and my brother-in-law brotherhood was torn apart. It happened that the national war would start again. Liu Jie came to hit me, and he would smoothly unify the national service. "

"Fuck." The bitter love could not help but scold it.

Not only him, but everyone 's body feeling cold, such as Xia Yuwei, Lan Yu, and Zhuojiu, this move is too cruel.

"Boss, think of a way, this, this ..." Sun Yu was a little stunned. He was too young to adapt to such things.

Lu Yang said with a smile: "I have been looking for a way to solve the current situation of three-legged standing, and now Liu Jie has given it, why don't we use it."

"You want to destroy Tianyao with Liu Jie?" Xia Yuwei asked.

Lu Yang nodded and said, "I didn't think about it, let's talk about it. I'll compete with this Liu Ruoshi first, Lan Yu, don't be jealous."

Tong Lanyu shook her head and said, "I believe in you."

Lu Yang felt relieved and said, "Let's continue to upgrade."

Everyone nodded and continued to fight monsters. In the middle of the night, Lu Yang's level rose to level 84 and returned to the first position on the ranking list.

杰 Liu Jie and Tian Yao are desperately upgrading, but found that Lu Yang was the first to raise the level, which made them very unhappy. Among them, Liu Jie was the most angry, and the top position on the ranking was very important to him.

In fact, Liu Jie joined a private international top-level organization. The purpose of this organization is to help each other rule the fortresses of the countries in the game, and then make money in the game.

At present Liu Jie is running for the leader of this organization. One of the indicators is that he must have a large influence in the country, and the ranking list is one of the influences.

清 In the early morning of the next day, Liu Ruoshi received a call from Liu Jie as soon as she woke up. She thought about it and called Lu Yang at 3pm.

“Are you free this afternoon? My feet are still a bit uncomfortable, can you accompany me to the hospital?” Liu Ruoshi asked.

This is her point of entry. Lu Yang is curious about how Liu Ruoshi is going to deal with herself. She did not think she would use this as an excuse. Any normal man with a gentleman-like attitude would be happy to help, not to mention that Liu Ruoshi was hurt when he taught him to dance. Lu Yang has a responsibility to accompany him.

“Does it hurt, you wait for me, I will come over here.” Lu Yang asked pretending to be concerned.

“It hurts,” Liu Ruoshi said softly.

Lu Yang is actually open Lan Yu, Xia Yuwei and others are next to him. He shut down the phone and said, “The other party has made a move and I will pick it up.”

“Be careful,” Xia Yuwei said.

Tong Lanyu said, “Brother, I’ll wait for you to come back.”

Lu Yang was weak. If it wasn’t for revenge, he would never go to an appointment. But the national service can’t find a solution in a short time. The economic crisis is about to come, and the national war is about to start. At this moment, he knew that Lan Yu was very disgusted with this matter, but he couldn’t help it.

Missing this opportunity, it will be harder to defeat Liu Jie in this life than to ascend to the sky, and he will face personal danger every day. Liu Jie's family has a great career and he has a little chance to fight back. He will desperately kill himself and others. For anyone who has a relationship with him, Lu Yang will never let this happen.

He took out an agreement from his backpack, gave it to Lan Yu, and said, "Save this."

After speaking, Lu Yang turned and left.

Xi Lanyu opened the agreement with curiosity, and she was stunned when she saw the content above.

Xia Yuwei came up curiously and asked, "What agreement?"

Glancing at her, she said in shock: "This, this, the boss loves you so much."

Xun Zhuojia Qingren and White Lion looked curiously at Xia Yuwei.

"What's wrong?" Asked Zhuzhuo.

Lan Yu turned the agreement to face the crowd and said, "Brother Lu Yang gave me the guild as a gift. As long as I signed it, the Iron Brotherhood, Song of Blood and Fire Pharmacy and Zhongyi Blacksmith Shop belonged to him Shares are automatically transferred to my name. "

Everybody, such as Zhuojiu and White Lion, came together in shock, and when they saw that the content above was indeed what Lan Yu said, everyone showed an incredible expression.

“How much are these things together?” Asked bitterly for a long time.

Jiang Ze said: “Roughly estimated, there are more than 20 billion.”

Sun Yu opened his mouth wide and said, “The sister Lan Yu signed this agreement, and the boss is penniless.”

Xia Yuwei, Zhuojiu, and White Lion nodded heavily. In their hearts, they thought they could not do such things.

“Boss this method of showing your heart is too shocking, I am convinced.” Zhou Tianming said with sigh.

Xia Yuwei said to Lan Yu: “It looks like I really shouldn’t have any doubts about Lu Yang. If he doesn’t love you deeply, he would never do such a thing. In Liu Ruoshi’s case, you can completely not worried.”

Tong Lanyu’s eyes were a little moist. She didn’t know why Lu Yang loved herself so much, and even treated herself without reservation. If one day she changed her heart, as long as she signed this agreement, Lu Yang would still have nothing.

From the founding of the Jagged Brothers Alliance to the present, how much effort has been included in Lu Yang, Lan Yu knows clearly. She took back the agreement, and her hands were about to work hard. Xia Yuwei grabbed her hand and said, “You do Well.”

Tong Lanyu said, “I trust him. I don’t need this.”

Xia Yuwei said: “You can trust, but if you think about what your uncle and aunt do, I know you don’t care about the money, but you have to show it to your parents, or even one day for the whole guild. It’s definitely not now that people tear it after seeing it. “

Zhuo Jiu said, "Yu Wei makes sense. Take it to your parents first. The network is so developed. Your parents must know the news. They did n't call you to ask, but they must very worried."

Bian Lanyu blinked and said, "Oh, well, I'll go home and explain to my parents."

Xia Yuwei nodded.

Yunzhuo said, "Okay, it's raining and sunny, we really misunderstood the boss. Now that we are fine, let's blame it."

"Hey, it's much more painful now," said bitter love for a long time.

The eight vice-chairmen are most worried about Lu Yanghui's inability to control himself. For a long time, Lu Yang has set a model for them, and each of them has Lu Yang's shadow in his life.

If Lu Yang can't hold himself in this matter, the image established by Lu Yang in the hearts of the 8 vice presidents will collapse, and people who love half-life and muddy wine will no longer respect Lu Yang and do n't know How to face Lu Yang in the future.

"I have to send a message to the boss, it's too good." Half-life bitterness sent Lu Yang a thumbs-up picture.

"I send it too," said Zhuo Jiu Qing and others, including Bai Shi.

Uh ...

Eight people sent messages to Lu Yang one by one. Lu Yang, who was sitting in the co-pilot's rest, heard the mobile phone ring. He picked it up and found a bunch of photos of thumbs. He shook his head with a smile and turned off the phone.

The black-and-white driver who drove beside him said with a smile: "Boss, you have really shocked everyone, including me."

Black and White knew this in advance, because of personal protection, Black and White knew that Lu Yang was very careful and saw it when Lu Yang wrote this agreement.

Lu Luyang said to Black and White: "I believe you are the one who knows me best. When you are a mercenary, there must be someone in your heart deep in your heart that supports you, right?"

Any mercenary who is a murderer is willing to do it for money, but this is also divided into two types, one is to support the family with money, and the other is to be happy and happy.

Black and white belongs to the first group, and said with a smile, "I'm for raising my brothers, and of course, for a woman."

Lu Lu smiled and said, "Why not bring it here?"

Black and white said: "I'm married, but her smile is always in my mind, and my memory will always be the smile she smiled at me innocently."

Luyang sighed, wasn't it the same as the black and white of today, that the person who supported himself at that time was the smile of Lan Yu?

"Dididi"

若 Liu Ruoshi called and asked, "Lou Yang ~, where are you? I am so scared."

Lu Yang and black and white looked at each other with a sneer on his face, but said softly on his mouth: "Don't worry, I'm going downstairs in the hotel, so I'll pick you up."

"Thank you, I'll wait for you." Liu Ruoshi closed the phone.

Lu Yang also turned off the phone.

Black and white said: "This woman is really smart."

Lu Luyang said: "Liu Ruoshi is very beautiful, but he is not blue feather, so beautiful, what is it with me?"

Black and White and Lu Yang laughed at the same time.

Soon, the car drove to the hotel entrance. Lu Yang personally went up to pick Liu Ruoshi downstairs, and then went to the hospital.

Along the way, Liu Ruoshi pretended not to be able to walk and needed Lu Yang's help. His body naturally touched. In addition, Liu Ruoshi deliberately leaned in. Generally speaking, this youthful girl body is the most unbearable for men.

Lu Luyang didn't feel anything. After so many storms and so many death tests in the last life, countless jungle fights told him that the more beautiful and the more dangerous, he would not be confused by a girl.

However, Liu Ruoshi felt that she was performing well. Generally speaking, no man other than Liu Jie has ever been undefeated under her pomegranate skirt except for Liu Jie. She does not even need to pay any more. , The man is willing to take heart and lungs for her.

Soon, after the hospital examination, the doctor just let Liu Ruoshi pay more attention to rest, and it will improve in a few days.

若 Liu Ruoshi didn't hurt her ankle at all. After pretending to thank the doctor, she said to Lu Yang, "I'm hungry, let's go to the restaurant."

Lu Luyang said, "Okay."

Since the conversation between the two, no one has mentioned the photo incident last night, and they all "tacitly" regarded this as non-existent.

Soon, Black and White drove the car to the restaurant, still in the same place, in the same room as yesterday. After ordering, the waiter left, leaving only two of them in the private room.

“You are so good.” Liu Ruoshi inexplicably looked at Lu Yang with a strange look.

Lu Lu asked: “What’s so good.”

“Come with me to the hospital and eat with me,” Liu Ruoshi said.

Lu Luyang said, “You were injured because of me. How can I ignore it? Besides, it’s my pleasure to invite beautiful women to dinner, and they are willing to come.”

若 Liu Ruoshi showed a lovely expression and said, “You really can coax people.”

Lu Yang quickly said, “I don’t, I’m telling the truth.”

Liu Ruoshi smiled.

Lu Yang sighed and said, “In fact, I am very happy to eat with you, at least it can make me forget many troubles in the game.”

若 Liu Ruoshi asked with surprise: “Aren’t you very happy playing games, how can you be annoying?”

Lu Yang said, “If I just play the game, I am very happy, but I have established such a large guild. I have to guard against Liu Jie, Tianyao, and other people. Now. “

若 Liu Ruoshi’s eyes brightened, she felt that she had opened some of Lu Yang’s heart, and she could know a lot of inside information from Lu Yang’s mouth.

“It was so troublesome, I thought it would be simple.” Liu Ruoshi asked, pretending not to understand.

Lu Luyang said, “It’s troublesome, especially the internal troubles. The intrigue is too great. It’s too difficult to understand these vice-chairmen.”

若 Liu Ruoshi asked: “No, I read on the forum. Some people always say that the Brotherhood of the Iron Blood is the most united guild. The relationship between the eight vice presidents is very good.”

Lu Luyang said, “Well, can you be okay, will Zhou Tianming serve the turbid wine and pour it? Will the bitter love half-life serve Bai Shixiong, messy, all rely on my coordination.”

若 Liu Ruoshi said, “It’s really hard for you.”

Lu Yang took a relaxed attitude and said in a half-truth and half-truth, “In fact, I really want to thank Liu Jie for this journey. I didn’t develop Wang Teng to oppress me so much, I won’t gather so many experts around me. “

“Thank you so much for Liu Jie.” Liu Ruoshi said with a smile.

Luyang laughed and said, “It’s not, I have to thank him in person when I have a chance.”

若 Liu Ruoshi smiled.

The waiter just served the food and also served a bottle of red wine After the waiters such as Lu Yang left, they loosened the loose neckline and said in a more relaxed manner, “It’s really easy to be with you These words have been lingering in my heart for a long time, and the first time I say them, it is much faster. Do n’t say them. “

Liu Ruoshi made a gesture of closing his mouth and said, “I promise not to say that, if you have something in mind, tell me later. I am also very happy to know your brother in the East China Sea. In fact, I have a lot of troubles at work. Would you mind , How about we talk together in the future. “

Lu Luyang said, "Okay."

若 Liu Ruoshi said, "Well, will you stay with me every day these days? I have several advertisements in Donghai City to shoot, and I am alone every day, which is boring."

Lu Yang said happily: "That's great, I'm on call."

"That's it." Liu Ruoshi made a hooking motion.

Lu Yang smiled and stretched out his hand. When the **** touched, Liu Ruoshi saw Lu Yang's eyes became watery, and Lu Yang was "lost."

Soon, a dinner was over.

Lu Luyang sent Liu Ruoshi back to the hotel.

For the next five or six days, Liu Ruoshi stayed with Lu Yang every night, and Liu Jie and the dead grass control the dynamics between Landing Yang and Liu Ruoshi every day.

By the seventh day, dead grass and Liu Jie felt that the time had come.

Evening.

During the meal, Liu Ruoshi and Lu Yang talked for more than half an hour. Suddenly, she turned around and asked, "Lu Yang ~, you upgrade quickly in the game, all reach level 90. Now, how did you do that? "

Chapter 897 - No one please

Liu Ruoshi was looking at Lu Yang curiously, and when she heard this, she showed an unhappy expression on her face, and said with a mouthful, "There is still a secret to me, just leave me alone."

With a look of "scared" Liu Ruoshi's unhappy look, Lu Yang said, "Of course it is not a secret to you. To tell you the truth, it is at sea. There are many special islands on the sea. There are special weirds on it, which can make players quickly. Promotion level. "

"Island at sea? Isn't that going to build a lot of ships?" Liu Ruoshi asked.

Lu Yang said, "I didn't grab 100 warships from the Poseidon Army. During the sea trials, I accidentally found a few good islands to allow players to quickly improve their level."

Liu Ruoshi whispered casually.

Lu Yang did not elaborate, but he knew that it was enough to say that the Elves had a estuary, and the location was near the Orcs.

If Liu Jie wants to build a navy to search for islands at sea, he must arrange heavy soldiers to defend the junction between the elves and the orcs, and also build more warships to deal with his and Tianyao's sneak attacks.

A Tier 5 warship will cost 1 million credits. If Liu Jie wants to compete with Lu Yang at sea, he must pay hundreds of millions of credits.

Before Liu Jie lost a lot of money in the war of the unified elves, and after the reunification, he built a wild fortress and spent a lot of money.

Even with the financial resources of the Liu Jie family, it is not so easy to persist in the face of consumption of hundreds of millions of funds each time.

Now Lu Yang is forcing Liu Jie to build a warship, and at the same time he has to spend another sum of money, he is forced to take money from his family again. In this way, when the economic crisis occurs, Liu Jie loses even worse.

“Brother Lu Yang, I have some headaches. I’ll go back to rest first.” Liu Ruoshi said.

Lu Yang looked nervous and asked, “It doesn’t matter, I’ll accompany you to the hospital.”

Liu Ruoshi said, “No, I’ll just go back and take a rest.”

“Then how to do it, or go to the hospital to see.” Lu Yang looked “anxious.”

Liu Ruoshi continued to quit, Lu Yang continued to ask, and in the face of Lu Yang’s repeated requests, Liu Ruoshi murmured in the heart, she was anxious to go back to Liu Jie to report the situation, her head did not hurt at all.

“Brother Lu Yang, really, I’ll just go back and take a rest. You don’t need to accompany me. Maybe I’ve been too tired recently. I’m particularly sleepy.” Liu Ruoshi said pitifully.

Lu Yang felt that he might have overplayed his acting. He watched Liu Ruoshi anxious and said, “Well, then I’ll take you back.”

Liu Ruoshi nodded and asked Lu Yang to accompany her back to the hotel room. Lu Yang would usually stay in the room for a while and chat with Liu Ruoshi. This time, even the chat was saved. Liu Ruoshi let Lu Yang go after entering the room.

Black and White waited not far away. He kept on the phone with Lu Yang and saw that Lu Yang was down. He let Lu Yang get in the car and got into the car. Black and White couldn’t help laughing and said, “Boss, I find you are too wicked. “

Lu Yang also laughed and said, “This girl is a student of acting, and she has a good sense of trying to figure out people’s hearts. I dare not have the slightest slackness. Every time I perform, I do my best.”

Black and white smiled and shook his head, and drove the car back to the studio.

In the game, Xia Yuwei, White Lion and others are still upgrading. When they see Lu Yang return, they say hello, Tu Feng and Liang Yun are also among them.

Lu Yang said to Liang Yun, "How many nails do you have in Liu Jie's guild?"

Liang Yun said: "There are about 30 people, 3 of them are legionnaires."

Xia Yuwei and the White Lion both showed stunning expressions.

"So much!" Zhou Tianming sighed.

Liang Yun said: "I prepared for Liu Jie for almost two years. If this is not the case, it would not be too bad."

Lu Yang said, "It's amazing."

"What do these spies need to do?" Liang Yun asked.

Lu Yang opened the world map, cast a screen into the cave space, pointed to the Sands and Gold Coast at the junction of the Elves and Orcs, and said, "Is there a way for your spy to make a probe here, let Tian Yao think that It was Liu Jie. "

Liang Yun said: "Coincidentally, I happen to have a regiment leader in Sands City, how do you want to detect."

Lu Yang said, "Isn't Liu Jie sending a female spy to confuse me, and this time I will also confuse him. I told this female spy to find a rapidly upgrading island at sea and let Liu Jie build a large number of warships."

Liang Yun asked, "But what does this have to do with detection?"

Lu Yang pointed at the Gold Coast next to Sands City and said: "This is the junction of the Elves and Orcs. Unlike Tianji Mountain, any player on the Gold Coast can swim past here. I want you to send Elven players. Keep going around the sea lions on the side of the orcs. "

He asked bitterly for half a life: "Boss, why not sneak attack directly, what is the detection?"

Lu Yang said with a smile: "At this stage, Liu Jie and Tian Yao will not go to war easily. If I send someone to attack, Liu Jie and Tian Yao will only be vigilant at the same time."

Whether it is Tianyao or Liu Jie, there are a lot of think tanks around. Once there is a sneak attack, a little analysis will reveal flaws. It can be detected differently. Once discovered, only one thing can be proved. War, otherwise no one can detect the map.

Liang Yun said, "I'll arrange it."

He sent a message to the head of the legion that he bought through. This man was called Ximen Julang and was a very funny player.

"Guaranteed to complete the task," said Ximen Julang.

Soon, Ximen Giant Wave sent a spy and began to cross the Gold Coast into the orc territory for on-the-spot detection, and Liu Jie also heard Liu Ruoshi's report.

"We should build warships," said Ruo Taishan, who has a few naval friends who have met in the military competitions of the whole army, who are all good masters and are also facing retirement.

Dead grass was hesitant, saying: "The funds are too much. We have spent billions of cash recently. If we send a warship out and the news reaches Lu Yang's ears, he will definitely send a fleet to attack us. There are fewer ships to fight, too many, and it is too expensive. Moreover, building a ship in Sands City, relying on the Gold Coast, but also beware of the attack by Tianyao and the Orcs, the cost is too high. "

Apache said, "But if we don't build a ship, in the future, Lu Yang will take the fleet to Jinshan City forcibly to land. What should we do?"

Yaowu Yangwei said, "After all, he has 100 warships."

The dead grass shook his head and said: "As long as the national war starts and Jie Shao's fleet in Europe and Japan comes over, we can just clean up Lu Yang's maritime power, and we don't have to fight with him for a long time now."

"How about the level, Lu Yang is 90." Apache asked.

At present, the level of the top players is only 84. Lu Yang is at such a high level, and Shengsheng and them have opened 6 levels.

Yaowu Yangwei said: "This is only Lu Yang's level. He has been upgraded, and his vice president must be on the side. Now Xia Yuwei and White Lion cannot be seen on the level list, proving that they have hidden the level. It is very likely They have been upgrading with Lu Yang, even higher level than Lu Yang."
"

For example, Yue Taishan said: "We are not sure about too many things now. If Lu Yang is brought up with a large number of players, the next time he leads the team to fight us, I am afraid we will face a large number of 100 wearing 100 Players equipped with gold level or above, it is very difficult for us to fight such enemies. "

Liu Jie was said to have been worried, and he clapped and said, "To build a warship, I'm looking for a family for funding, and the family will definitely give it to me."

At present, Liu Jie's family is very satisfied with Liu Jie as a whole. The national costume occupies the entire Elves. There are two super guilds in Britain and Japan. Once the national war begins, Liu Jie will become one of the top guilds in the world.

Now whether he wants money, people, or any other support, members of the family are willing to give their full support.

The dead grass saw that Liu Jie had decided, and it was not easy to persuade him, saying, "I propose to send someone to explore the situation of the Orc Sea Lion City first, and be careful of their sneak attacks."

Liu Jie said, "Come and arrange. I'll go back to the family."

After the dead grass nodded, after Liu Jie left, he directly sent a message to Ximen Julang and ordered him to determine Tianyao's military arrangement in the Golden Lion City.

Ximen Giant Wave was just detecting, and received a dead grass command with a sneer expression, and said to the thieves around him, "Come on, let's go deeper."

The thief player around him asked in amazement: "Going further inside is easy to be found."

At this point they have arrived near the fortress that is only one hour away from Sea Lion City. There are already many Orc players around them. They are all over 70 accounts. They will not be easily found by the trumpet when they are invisible. But here There are so many people that if anyone hits their invisibility, they will show up.

While talking.

Tianyao's next team of mages ran out of the fortress on a battle tiger They are the level 80 players who monitor the Gold Coast, mainly to prevent some large elves from sneaking into the elves to kill the trumpet to get honor.

"What a bad luck, today is our duty, we can't go to the scene to support the little fox." A mage player lamented.

The live broadcast industry in the game is getting more and more popular, and it has developed to the point of performing concerts in the game. At present, the hottest female player in the orcs is called Little Fox. She has an extremely high popularity of 80 million fans in the game. The celebration was also an online concert for her new album. Many people went to the game site to support it.

“It’s okay, just watch the live broadcast for a while. It is estimated that no one will come to sneak attack today. They should all be watching the little fox video.” Another player said.

The captain smiled, and just about to speak, suddenly he frowned, looking at the space not far away, where there was an abnormal space fluctuation.

“Someone, shooter flare.” The captain shouted with a finger at a distance.

Six shooters fired flares with a range of 30 yards at the same time, illuminating the area of hundreds of square meters around the captain’s finger position, and more than 10 thieves exposed at the same time.

10

Chapter 898 - One hundred

“Why so many people, do them quickly.” The captain shouted in surprise.

Ximen Julang brought over 200 thieves this time, and when he was found by his men, he showed a helpless expression. This discovery was completely unreasonable. He can be sure that in his own thief team, Other guild spies.

“Boss, what should I do?” His men asked Ximen Julang.

Ximen Julang said: “Go ahead, what else can you do, you can’t let the brothers lose experience and equipment. This upgrade is very laborious.”

“Okay, kill them.” More than 200 thieves exposed their stature at the same time. The 12 orcs of the orc group opened their invincible lives at critical moments because the captain was a paladin. Escape trumpeters, he sent a message to Tian Yao after taking a screenshot.

“Boss, a lot of thieves from the elves have invaded our sea lion city, come and rescue them.”

Bian Tianyao was watching the live broadcast of Little Fox. When he saw the screenshots sent by his men, his eyes widened and he cursed, “What’s going on?”

“I don’t know, more than 200 thieves, the logo of Liu Jie Guild is on their chests.” The captain said.

Xi Tianyao was so angry that he called Liu Jie directly and asked, “What do you mean?”

杰 Liu Jie froze and asked, “What’s wrong?”

“What do you mean by sending more than 200 thieves to my sea lion city, what do you want to go to war?” Tian Yao angered.

Liu Jie was even more dumbfounded. He felt that he might have been pitted, and said, “President Tian Yao, listen to me first. I did send someone to Sea Lion City, but my order is to let the hands go down to probe you. The troops are deployed. I am going to build a navy in Sands City. I am afraid that you will attack. I have no intention of launching a war with you. “

Wu Tianyao scolded: “What do you send more than 200 people to do?”

Liu Jie said: “You also know that I just unified the elves, and the recruits under my team are uneven. This Ximen wave may be a spy. You can rest assured that I will handle it to ensure that you are satisfied.”

The anger in Tianyao’s heart calmed down and said, “I don’t have any idea for you to build a navy. I will not sneak attack on your navy. In addition, I will start a war with Lu Yang in the near future. If you are willing to come, you will join. Don’t get involved if you are willing to come. “

Liu Jie’s eyes lighted and he asked, “Why do you want to go to war with Lu Yang?”

Bian Tianyao said on fire: "I'm bound to get Sirius. Even if I don't want to fight, my men will ask me to fight. Now the arrow is on the string. Lu Yang doesn't give me a fortress, I can only hit him."

Liu Jie laughed and said, "That's great. Of course, I am willing to participate in the war. As long as you launch an attack, I will definitely send out Tianji Mountain."

"Okay, so it's settled." Tianyao closed the phone and continued to watch the little fox's concert.

杰 Liu Jie heard the sound of hanging up the phone. He didn't discuss the decision of Tianyao to attack Lu Yang with people such as Shoucao and Xue Yiming, but concealed it.

"Boss, what did Tianyao say?" Yaowu Yangwei asked.

杰 Liu Jie's face was angrily and scolded: "Put me out of Ximen Giant Wave, and all his men, what kind of **** stuff, even dare to send more than 200 people to Sea Lion City, this person is absolutely spy."

He frowned, saying, "I'll take care of this."

Soon after, Ximen Julang was expelled from the guild, and he was not afraid. He directly used the teleportation array and came to Binghuo Island lightly. He went to Liangyun to report.

In the next few days, the game was calm and peaceful. Liu Jie established a shipyard to raise the ship's level. Tianyao added more players to Sea Lion City. At the same time, he continued to lead the team to upgrade and upgrade equipment and prepare to compete with Lu Yang.

Before Lu Yang's war of unified people, he saw how strong Lu Yang's men are. Tianyao's team confirmed that they were not worse than Lu Yang in terms of top-level combat effectiveness, but they were far behind on the basic level.

Luyang is also upgrading the level. In order to upgrade quickly, the White Lion and Zhuojiu returned to the land to lead the team to upgrade. On the entire island, only Lu Yang, Jin Buhuan, Xiao Liang, Zhang Zibo, Sun Yu and Han Yu were left.

Sun Yu and Han Yu were only responsible for pulling monsters. Xiao Liang, Zhang Zibo, Jin Buhuan, and Lu Yang did not form a team. After Lu Yang first blasted monsters with lava, Jin Buhua changed the poisonous mist and let Lu Yang eat all the experience.

Originally, there were more than 10 people fighting monsters, and each monster's experience gave 100,000. When Lu Yang beat monsters alone, Lu Yang's experience value for each monster was more than 400,000.

Thousands of monsters are pulled at a time, and each time Lu Yang can get hundreds of millions of experience points. He almost achieved the speed of rising two to three levels per day. In less than 20 days, his level rose from 84 to 100 levels.

System Tip: Congratulations to player Lu Yang for being the first to rise to level 100

Lu Luyang looked at the full service prompt, with an uncontrollable smile on his face, and he finally raised the level to 100.

“Congratulations to the boss, successfully upgraded to level 100.” Someone from bitter love half life and muddy wine sent a message.

Lu Luyang said: “Back to the city, I will take you a few to the island, and then you upgrade, I will go out to do the task.”

“Shall I follow?” Mu Yu asked.

Lu Luyang said: “You upgrade first, I will call you when you need it.”

“Boss What task are you going to challenge, it will not be a level 100 blame,” Sun Yu asked.

Lu Yang smiled and said, “I'll go get some rare second-round certificates, and give you a few men to improve your strength.”

I had a fight with Liu Jie before, so that Lu Yang knew that he wanted to defeat Liu Jie, and he needed to upgrade his special forces.

The second transfer certificate is a good promotion, but the ordinary second transfer certificate is difficult to type, not to mention the special transfer certificate.

Lu Yang's two-pass certificate memorized in his head can make him head to head, there are only a few places, but fortunately one of them can be played now.

After returning to the holy city, Lu Yang met Xia Yuwei in the guild hall, and sent them to the island with a teleportation scepter. After ordering them for two sentences, he used the teleportation scepter to fly to the cave of the magic dwarf warrior.

The last time he came here, he didn't dare go too deep, because the strange levels in those places were too high, and he couldn't use the stealth potion.

来 This time is different. His level has reached level 100, which is more than 20 levels higher than the magic dwarf warrior. After jumping to the dwarf mountain using the second stage flash, he drank the stealth potion and went down to the ground.

Just a group of divine dwarf warriors came over, and by the side of Lu Yang, Lu Yang was not found at all, and returned along the same path.

Lu Yang followed the group of divine dwarf warriors and came to the Giant Dungeon. Through the outer dwarf village, he entered the gate of the Giant Dungeon.

This is a huge underground city. The monsters guarding the gates are all level 90 divine dwarf hammermen.

Chapter 899 - Wonder Warrior 2 Turn Certificate

The heavy hammer is not the strange thing Lu Yang is looking for. He is looking for the magic dwarf swordsmen. These swordsmen are the guards of the magic dwarf king. They are all level 90 elites, and the number is about 5000.

Normally, these dwarf swordsmen are guarding the palace at all times, but some players in the last life found that the magic dwarf swordsman would send a letter to a village outside the city at regular intervals.

According to official official history, it was the Dwarven King who took a princess on the ground and wanted to make her his own woman, but this princess would rather die, he wanted to take him back to the palace to pursue slowly, but Fearing that his dwarf wife, Wang, would get angry with him, she sent the princess to a village not far from Wangcheng.

The dwarven king writes a letter to the princess every day, sometimes he is dressed up as a guard to go in person, and sometimes he is sent by the guard.

Every time Lu Yang thinks about this news, he can't help but laugh. The dwarven king's body is more special. It is only one meter five, but the body is a long creature, which looks like a cube.

He was already hard to read, but his wife was even uglier than him. If you want to use one word to describe it, it is that the gas tank is fine, fat is unreasonable.

"Well."

The sound of a uniform arm striking the beast suddenly came from the door. Lu Yang looked up. A group of 12 divine dwarf swordsmen were slowly coming from a distance. All the dwarf heavy hammers and shooters guarding the door were at the same time. The right arm banged on the breastplate to pay tribute.

Divine Dwarf Swordsman (Elite)

Level: 90

Qi and blood: 55000000/55000000

The height of the magical dwarf swordsman is also about 1.55 meters. At first glance, there is nothing special, but if you look closely, you will find that there are two-handed swords hanging on both sides of their waists.

Whenever there is a battle, the magic dwarf swordsman will use both hands to participate in the war. The attack power is not generally fierce.

Killing the Divine Dwarf Swordsman will drop the Divine Warrior's 2nd turn certificate and gain the ability to hold a two-handed sword.

Lu Yang followed in stealth behind the group of divine dwarf swordsmen, walked about 20 minutes, and came to a clearing.

In front of it is the Lock Soul Canyon, where they must pass. He arrived at the Lock Soul Canyon one step in advance, and began to arrange fire dragons on the ground.

The sides of the Lock Soul Canyon are 30 meters wide and over 200 meters long. Lu Yang released more than a hundred fire dragons in the middle of the canyon. At this time, the dwarf swordsman appeared at the entrance of the canyon in the distance.

Lu Yang pointed to the ground with his left hand.

“Lava Eruption”

Ten consecutive lava eruptions turned the gorge into a crater, and the magic dwarf swordsman who had just entered the gorge was immediately damaged by fire.

“57000” (Critical Strike)

“57000” (Critical Strike)

...

Lu Yang now has more than 20,000 intelligence, more than 30,000 magic damage, a level of 100, and a critical strike chance of 80%. The level also crushes the power of the Dwarven Swordsman at level 10, and his spell attack is a 100% critical strike chance. .

“The enemy attacked and killed the enemy.” The leading dwarf swordsman took out the two-handed swords worn on both sides of his waist, and rushed towards the landing sun with both hands.

According to the player’s actual measurement in the previous life, the magic dwarf swordsman has an attack power of about 200,000. Without losing a general level 70 lord monster, Lu Yang’s total health is more than 200,000. He was hit by the magic dwarf swordsman and died with 2 swords .

“flicker”

Lu Yang jumped back 100 yards, letting the magic dwarf swordsman rush into the soul-locking canyon. Every time he ran, the magic dwarf swordsman was hit by a lava erupting crit. When they ran to the middle position, 100 The fire dragon aimed at the first divine dwarf swordsman and blew a large fireball.

“50000” (Critical Strike)

“50000” (Critical Strike)

...

Fire Dragon has 100% of Lu Yang’s spell damage, and inherits all of Lu Yang’s critical strike levels. Like Lu Yang himself, all attacks are critical strike damage.

In only a moment, the blood of the first attacked Dwarf Swordsman was reduced by one tenth. With less than 10 attacks, the first Dwarf Swordsman was killed and dropped. An 8X8 range explosion.

Lu Yang didn't go to pick it up, he launched a fiery sprint and continued to run backwards. With the help of flashes and escape daggers, he jumped freely on both sides of the Soul Lock Canyon. After a while, the 12 divine dwarf swordsmen fell to the ground.

Lu Yang flickered in front of the falling equipment and saw three black scrolls at a glance.

Wonder Warrior II Transfer Certificate

Description: Players holding this certificate can perform a second transfer at the Titan Temple in any main city. After the transfer, players can hold a two-handed sword.

Lu Yang shook his fist, and he called the white wolf and asked, "What is the level of your Divine Warrior Legion?"

The White Wolf's Divine Warrior Legion is currently in the Hall of Ten Thousand Souls, with a total of 3,000 people, and they are upgraded by the team of Blue Feather's Skywrath Priest.

"There are 200 to 80, and the others are about 78." White Wolf said.

Lu Yang asked, "So fast."

The white wolf proudly said: "Brothers give power Usually led by Rev. Skywrath, waiting for them to go offline, these kids spend their own money to upgrade in the game."

There is also a word that the white wolves didn't say that the three brothers subsidized these people by 50% for the upgrade fee, which made them feel safe to raise the level up.

Lu Yang said: "The brothers are interesting, and the boss can't owe them any good things."

Lu Yang issued the second transfer certificate of the magic warrior to the white wolf.

“I wipe it.” The white wolf couldn’t help but cursed when he saw the contents of the second turn, and said excitedly, “What’s the output of holding the two-handed sword?”

Lu Yang said, “If I equip you with an 80-level excellent two-handed sword, you guess how much attack power it will have.”

The white wolf instantly felt like he was going crazy, hopping and saying, “Boss, when do you take us?”

Lu Yang smiled and said: “Upgrade well and raise everyone’s level to 80 or more as soon as possible. I’ll give you a certificate here. In less than a week, I can give you all 3,000 certificates. “

“Thank you, boss.” White wolf excitedly told the certificate pictures that all the magic warriors had gone. As a result, all the magic warriors went violently.

“Upgrade, fight.”

“All night, who will stay with me all night.”

“Together.”

“Go all.”

...

In the guild, there were voices of magic warriors shouting together to form a team all night, and even many priests who took Skywrath were taken to the night.

Lu Yang watched their conversation and couldn’t help showing the expression of nostalgia. He and his brothers were the same in the last life.

He continued to pick up the equipment on the ground, all of which were gold-level 80-level fighter equipment, all of which were placed in his backpack one by one. Suddenly, he saw a letter.

Chapter 900 - Dwarf Queen (Lord)

To my beloved baby:

My baby, run away, that **** old woman is going to kill you. There is an tunnel in a dead tree in Huoshi Village, which can directly lead to the ground world. Come on, I love you. Your safety, please forgive me.

Lu Luyang saw that the model was a divine dwarf king, and he was speechless, and secretly said: "It is still an affection to co-author this dwarf king."

System prompt: You triggered the innocent love story mission, whether to accept it. Note: This is a rewarding task, and it is also a very punishing task. Please consider it carefully.

"Damn bastard, dare to look for a woman behind me, and I want to kill her." A roar came from a distance.

Lu Luyang looked up and looked into the distance. More than a divine dwarf swordsman walked towards the soul-locking canyon, headed by a chubby woman who looked like a walking gas tank from a distance.

"I'm going, isn't this the dwarf queen of magical power? It came in person." Lu Yang said dumbly.

Queen of Divine Power

Level: 100

Qi and blood: 5000000000/5000000000

No one mentioned this task in the Raiders of the last generation. About the dwarf queen, he was only mentioned in the official history, and it was not described in detail, and no one said how to fight the dwarven queen.

“5 billion health.” Lu Yang thought to himself, this blood is a bit high, he may not be killed, but now he does not accept or die, lava eruption and fire dragon art can last at least 5 minutes, And the queen of the magical dwarf only walks into the Soul Soul Canyon for up to 1 minute, that is, after 1 minute, Lu Yang will surely attract hatred.

“Since you can’t accept it, take it.” Lu Yang chose to accept the task.

Quest hint: You have chosen to protect the princess, then please follow the map left by the dwarf king to not send her back to the ground. If you can do it, you will get the king order. If you fail, all your reputation in the human race will be emptied. Hunted by King St. Gall for a month.

Lu Yang is dumbfounded, co-authored Wang Wangling is so derived, since it is so, not doing this task will not work.

It is no wonder that no one mentioned the Terran King Order in the last life. It turned out that the person who did this task failed. Each King Order’s task was unique. If it failed, the task would disappear.

“Lava Eruption”

Luyang pointed to the position of Taniguchi with her left hand, while the dwarf queen had not yet walked the canyon, rearranged the lava eruption and fire dragon technique again.

After 1 minute, the dwarf queen stepped into the canyon and was burned by the lava erupting.

“21600”

“Damn, somebody dared to attack me.” The dwarf queen roared, pulled out the two-handed sword from behind, staring angrily at Lu Yang standing in the middle of the canyon.

“Kill me.” The dwarf queen led the team towards the landing sun.

Lu Yang only then re-arranged a third of the ground in the gorge with a lava eruption, and quickly turned and ran back.

The dwarf queen’s moving speed is 295% of the player’s moving speed, and Lu Yang’s moving speed is 350%, which is much faster than the queen.

In the future, he will be injured once every step in the fire, but his blood volume is not what Lu Yang can beat anyway, and his movement speed is so fast, early and behind the dwarf swordsman pull It is not so easy to open the distance for Lu Yang to use flashing dodge.

When it came time to test Lu Yang’s technique, he stared closely at the distance between the queen and the dwarf warrior behind him. When the queen ran to the middle of the canyon, only 30 meters away from him, Lu Yang began to slow down.

At this time, the distance between the back and the dwarf swordsman is more than 100 meters. Lu Yang needs to make full use of the more than 100 meters to create enough shelter for himself.

“Human, I see where else you can run.” The dwarf rushed to Lu Yang, and two big swords split at the same time towards the head of Landing Yang. If he slashed, Lu Yang would die on the spot, but Lu Yang would At that time, he concentrated all his energy on the queen.

He has figured out that the distance between the queen and the dwarf swordsman behind requires 8 seconds of running time. Within these 8 seconds, he does not need to pay attention to any actions of the dwarf swordsman.

Facing the two big swords that the queen split over, Lu Yang fiercely took a step back. At this step, the two swords were separated by 3 centimeters from Lu Yang and were easily avoided by Lu Yang.

The Queen's sword didn't smash. The two swords spun around after landing, and the two-handed sword swept towards Landing Yang. Lu Yang stepped back on the side again, avoiding the sweep of the Queen by 3 cm.

没有 Two consecutive swords missed, making the queen furious, and his left foot slammed on the ground.

“Great Earthquake”

Lu Yang jumped back 2 meters from the ground one second before his feet landed. When he just landed, there were large spikes of rock in front of him, each of which was more than 3 meters high.

Lu Yang stunned his tongue. Fortunately, he evaded quickly, otherwise he would rely on the queen's level of attack power. This time, he would pay a soul stone.

“You filthy human, when do you see where you can hide The queen put away a two-handed sword, took a huge tomahawk from her backpack, circled it, and landed Yang sends away.

A huge double-edged axe face with a diameter of more than 1 meter, flying towards the landing sun. Obviously, this is a group combat skill, which is specially released for players when they are many.

Lu Yang did not dare to use a small range of technology to evade, but could only run towards the side with all his strength, but the axe seemed to follow automatically. He chased him towards Landing Yang. Seeing that he was getting closer, Lu Yang was helpless.

“Blink”

A white light lit up, and Lu Yang jumped between the queen and the dwarf swordsman. At this time, the dwarf swordsman was only 5 seconds away from him. At this time, he also saw the number of dwarf swordsmen, about 500.

The queen's huge flying axe had returned to his hands at this time. He was about to throw a second time, and the dwarf swordsman also took out his two-handed sword and was just about not to attack him. Anyone on both sides hit himself. Lu Yang All will be spiked. At this time, Lu Yang's body emits a blue light.

“Escape the Dagger”

After a flash of blue light, Lu Yang jumped to the entrance of the Locked Soul Canyon, which happened to be the tail of the magic dwarf swordsman.

多个 More than 20 divine dwarf swordsmen ran side by side toward the front. Seeing Lu Yang ran behind them, they turned and chased after Landing Yang.

“Yang Yang Suo”

The 13th-level Yanyang cable can trap 22 units, which just happens to trap all the nearby magic dwarf swordsmen.

Lu Yang stepped back two steps, reading the spell in his mouth.

“Great ancestor of flame, please listen to your humble servant's prayer, and give me great flame power ...”
