

Wild Fire 921

Chapter 921 - War crisis

"I do doubt Lu Yang. Don't forget, he has caused the slaughter of the city. He used flesh flesh worms. This thing is different from flesh flesh worms. Maybe it is the flesh flesh worm's upgraded form. Tian Qiong patted the table and said.

Tianyao gasped in anger and violently, picked up the phone and called Lu Yang.

"Drip, drip, drip"

Lu Yang was sleeping. He pressed the ON button and asked, "Who is sleeping?"

"I'm Tianyao."

Lu Yang was instantly energized, but his tone of speech and state did not change. He still did not wake up, and asked, "What's the matter, call me so early."

"What did you say? Was it a good thing you did?" Tian Yao asked.

Lu Yang frowned, and asked, "What are you talking about, what are you doing well?"

Tian Yao originally wanted to test Lu Yang. When he heard that, he knew that the test had failed. Angrily said, "Between 1 am and 5 am today, someone used a special monster called Lightbox King Worm to slaughter me. Did you do it in the city of Beamon? "

Lu Yang said: "What are you talking about, where is King Beamon, how can I get there?"

"How do you explain the light box king worm? You slaughtered the city with flesh and blood female worms." Tian Yao asked.

Lu Yang said with a smile: "President Tian Yao, we have to officially talk about this. First, Flesh Mother is a level 50 monster, unless I can bring a team of Terran players to cross Sirius, Beast King, Only three cities, Dragon City, can reach Beamon City, otherwise he can't move over. Second, what exactly is this Light Box King Worm, and what is it to do with Flesh Flesh, how can you rely on me? "

Tianyao said: "Since you say it's not you, then I believe it, but I hope it really isn't you. After all, you said it yourself, but if I find out that you did it, don't blame me War on you. "

Lu Yang said, "Don't play with the questions, it's not me."

Tianyao was speechless, hung up the phone angrily, and cursed: "Who on earth is it?"

The chief staff member frowned and said, "Boss, look at the forum and you are almost discussing this matter. We are shameful."

Tianyao opens the forum.

"Whether Tianyao is qualified to manage the orcs, how could a slaughter happen?"

"Pleasure for the revenge, you should clean up the \*\*\*\* Tianyao."

"Poor, Tian Yao's 180,000 main force was slaughtered clean."

...

Almost all of them were ridiculed and satirized at the forum, and some people called the city slaughterer shameless. Suddenly, Tian Yao found a new post.

“Report the City Slayer, please click to know who it is.”

Tian Yao frowned and nodded. There was nothing in it, only a video.

Fenglin Mountain Fire looked at the east market of Beamon City and scolded angrily: “Liu Jie put us back to the Orcs to make us trouble, and one day I will give him a hard one, let him know I’m amazing. “

“I’m so \*\*\*\* fucking?” Tian Yao kicked the chair next to him, cursing: “Liu Jie, Mu Huali, you dare to plot me.”

Several vice-chairmen and heads of the army also saw this video, and Prism Sky frowned and said, “Will this be a ghost of Lu Yang?”

“Although I also want to believe that Lu Yang did this thing, but the \*\*\*\* legion belongs to Liu Jie. He has been messing with the orcs and killing some small guilds. We didn’t care about him before, but they didn’t expect to get another chance , Dare to come to slaughter the city. “Another vice chairman said.

Tian Yao looked fiercely at each army chief, and said with a wild voice: “Call Qi people, Liu Jie must give me an explanation.”

“Yes.” A dozen or so vice-chairmen and chiefs of the army were preparing to go.

Even if Tian Yao did this, he had to do it. Otherwise, the video was displayed on the forum. He didn’t say a word. He couldn’t explain to the players inside the guild, and he would let others see the joke.

On the other side.

Liu Jiezheng and other people are discussing this matter.

“Then Tianyao is out of luck.” The dead grass said with a smile.

“The equipment of the main group of 180,000 people, as well as the loss of Beimeng City, is a shame.” Yaowu Yangwei said.

Liu Jie said: “I was trying to find Tianyao trouble. I didn’t expect him to be attacked. Who said you did it?”

Xue Yiming asked: “Will it be Lu Yang?”

Liu Jie shook his head and said, “It’s possible, I’ll ask Ruo Shi to ask for a chance. Unfortunately, even if he did, I can’t expose Ruo Shi, but I don’t feel like him, this level of Summoning beasts is not something that can be summoned by the Ring of Dreams, or boss monsters, nor can it be summoned by hunters. It is estimated that a small studio got a special transfer job. “

“Who would it be?” Apache said curiously. “This group is making a lot, at least a few hundred million.”

For example, Yue Taishan said: “According to the news on the forums, players are worth at least one billion.”

The dead grass smiled, and he was about to close the forum to see other news. Suddenly, his eyes showed a horrified look, and said, “Jie Shao, please ask Mu Huali, is it the man who slaughtered King Beimeng? . “

Liu Jie Gujing’s face showed a horrified look and said, “What’s going on, how do you think it’s him?”

The dead grass quickly shared the video link to everyone. When Liu Jie and Ru Yuetaishan saw the video, they were panicked.

“Asshole, dare to do this kind of thing.” Liu Jie scolded angrily, took out the phone and called Mu Huali.

Mu Huali also slept, and asked, “Who?”

“I’m Liu Jie.”

Mu Huali quickly woke up, Liu Jie is his gold master, this time he should mess up in the game, should not sleep.

“Jie Shao, what are you looking for?” Mu Huali asked in a serious voice.

“Did you bring someone to attack Beamon City last night?” Liu Jie asked.

“Yeah, I killed a lot of people.” Mu Huali said proudly.

“I ...” Liu Jie almost scolded out, holding back angrily and asking: “You are brave, there is a new opportunity, I let you trouble in the orcs, you dare to slaughter Beamon City, yes Do n’t you feel able to make money, you do n’t need my boss? Ah? ”

Mu Huali turned dizzy and said, “Jie Shao, I don’t understand what you said. I just beat a middle-level guild and won them. I didn’t do anything else, what a slaughter city.”

Liu Jie hesitated and asked, “Do you mean that you did not kill Beamon?”

“How can I have that strength? Besides, I am an orc, and I cannot slaughter my main city. What is going on?”

Liu Jie breathed a sigh of relief, and said, “Go to the forum and see for yourself, then call me to explain.”

Mu Huali watched the phone that was hung up a bit dazed, entered the game to open the forum, and on top of it was a video of him chatting with Zhebei Fenglin Shanhuo, and then he saw the news of the murder of King Beamon.

He was dumbfounded and quickly called Liu Jie and said, “Jie Shao, this is definitely not my job. Our Red Army Corps does not have this ability at all.”

Liu Jie sighed and was driving two phones at the same time, the other was a call he made to Tian Yao.

“President Tian Yao, you heard that, this is really not my Red Army Corps.” Liu Jie said.

Tianyao was in a rage, cursing: “You say no, don’t you? You can let us all lose in one sentence, Liu Jie, do you treat me as a fool?”

Liu Jie has been explaining for a long time, and even whispered to ask Tianyao to give him the opportunity to explain, but this matter is not Tianyao’s solution, and the Beimeng player who saw this video on the forum is crazy.

Beamon City has nearly ten million players, and almost two-thirds of them have suffered losses in this city. The biggest losses are those guilds that have a relationship with Tianyao. Now they are asking Tianyao to attack Liu Jie. revenge.

Liu Jie was most afraid of this situation. He said, “Give me some time and let me think of the best solution, okay?”

“You don’t have much time, you can do it yourself.” Tianyao hung up the phone.

Liu Jie turned to look at dead grass, such as Yue Taishan, and asked, “What to do We must think of a solution as soon as possible. Otherwise, we will face more than 50% of the players and sky in Mongolia. Yao’s main attack. “

Even the dead grass looked down and thought, even if he couldn’t figure out a way, this matter was too sudden, such as Yue Taishan and Yao Wuyangwei, their army leaders did not know what to do.

“Speak, you can’t fight with Tianyao now.” Liu Jie asked loudly.

After thinking about it, he said, “Jie Shao, let the old ghost investigate and see what’s happening with the Brotherhood of the Iron Blood.”

“What do you mean?” Liu Jie asked.

“I suspect this was done by Lu Yang, with the intention of framing us into a war with Tianyao.” The dead grass combined this conclusion with all the recent events.

The old ghost is Huang Xiang. At present Xue Yiming is not qualified to know this level of things, so the dead grass is replaced by the name of the old ghost.

Liu Jie nodded, walked aside, called Huang Xiang with a phone call, and asked, “Did you have any strange behaviors last night?”

Huang Xiang said quickly: “Jie Shao, I also saw the video on the forum. I’m checking it for you. There is still news, don’t worry, I will have news soon.”

Liu Jie had a lot of comfort in his heart. He found that Huang Xiang’s dog leg was still very loyal to him. At least at this critical moment, Huang Xiang really worked hard to help and thought of going in front of him.

“Very well, don’t worry, don’t expose yourself, call me immediately if there is news.” Liu Jie said.

“Ah, yes.” Huang Xiang hung up the phone and sighed, sitting helplessly in the hall of the guild, he didn’t check at all, because now he can’t reach any high-level brotherhood of the Iron Brotherhood, except Lu Yang. Except he could call directly, everyone else blocked his phone.

Chapter 922 - The \*\*\*\* legion was abandoned

The \*\*\*\* legion was abandoned awfully. For this matter, he also sought the theory of Lu Yang. At that time, Tu Feng asked to do so. Tu Feng stated in the regulations of the Guild that the president His classmates and relatives refused to have too close contact with the legion chief.

Not only him, but also Mo Long, Li Qiang and others. Huang Xiang was angry at the time, but Lu Yang accepted Tu Feng's approach and Huang Xiang could only give up.

Today, he has been separated from the Jagged Brothers Alliance. Among the senior executives he knows, there are only Mo Long and their classmates. After a contact, he did not find any useful information. He can only call Liu Jie. Hu made up a message.

"Jie Shao, the news came out. It was not Lu Yang's job. Last night, there were no problems with the schedules of the several vice-chairmen and the head of the army." Huang Xiang said.

Liu Jie was speechless, looking at the dead grass, and said, "It wasn't made by Lu Yang. It looks like we were framed."

The dead grass said: "As soon as we got the news, Tianyao began to gather players, and as soon as they can gather more than 5 million people in the afternoon."

Liu Jie was a little panicked. Now he is standing on three legs. Any two parties can go to war, and the third party can take profits.

"You must not go to war. If Tian Yao comes to hit me, Lu Yang will definitely come." Liu Jie said.

The dead grass said: "The \*\*\*\* legion's reputation is too fast. This kind of thing is not credible to others. It is put on them. Even if they don't do it, people will think that they did it. It's not easy."

"What I need is a solution," Liu Jie said.

Dead grass hesitated for a long time, just as Liu Jie could not wait, he said, "Now there is only one last solution."

“What way?” Liu Jie asked.

“Abandon the \*\*\*\* legion, just say this thing was done by the \*\*\*\* legion privately. It has nothing to do with us. You know, Tianyao needs an excuse to ease the relationship between you and him. He wants to find Lu Yang’s trouble is not trouble for you. As long as there is an excuse, he won’t come to hit us. “Said dead grass.

Liu Jie’s expression was frozen. He didn’t speak. He turned to look out the window, and the room became extremely quiet.

Counting dead grass continued: “It is time to abandon this legion. They are a problem of character. When the sky is angry, we will get rid of it.”

Luo Cheng said, “I agree.”

Liu Jie thought about it and said, “Well then, just give up the \*\*\*\* legion. Unfortunately, his value has not yet been maximized.”

Such as Yue Taishan, Yaowu Yangwei and Apache, the faces of the three changed instantly, and then they were forcibly restored.

Liu Jie didn’t notice his own words. After all, he was not very young, and his head was full of the war. He picked up the phone and called Tian Yao.

“If you are sure this thing was done by the \*\*\*\* legion, then go to their troubles. From now on, I will fire the \*\*\*\* legion from my company. They will not be my employees anymore. Nothing.” Liu Jie said.

Tianyao said, “You make a statement.”

“Yes,” Liu Jie said.

“That’s it.” Tianyao hung up the phone. At the same time, he was relieved. After being furious, he also found that he couldn’t fight with Liu Jie. Once the war started, Lu Yang could only be cheaper, but his arrow was on the string. Had to post unless Liu Jie apologized.

Now, Liu Jie not only took the initiative to apologize, but also fired the \*\*\*\* legion, so he would only need to get revenge from the \*\*\*\* legion.

“Observe my orders, all orcs chase down the \*\*\*\* legion, and must kill them all back to level 0,” Tian Yao said.

Jie Tianqiang froze and asked, “Don’t hit Liu Jie?”

Tianyao said, “Liu Jie apologized to me just now and assured me that he didn’t know about it, and that the \*\*\*\* legion didn’t give him any money. He will soon issue a statement announcing that the \*\*\*\* legion will be fired from his company. In the future, his guild and the \*\*\*\* legion will never have any more relationship. “

The chief staff had a good time and said, “Liu Jie admit it?”

Tian Yao nodded and said with a smile, “I recognize it.”

“Haha, that’s good. I will announce this on the Internet and let everyone point their finger at the \*\*\*\* legion,” said the chief staff officer.

“Yes,” Tian Yao said.

The chief staff was relieved, and his commander issued an order.

On the other side, Mu Huali gathered Zhebei and Fenglin Shanhua together, and the three were discussing what to do about it.

[World Channel] Liu Jie: From now on, the Red Army will be expelled from my guild. I hope you all know that we are a cooperative relationship with them. I was also a victim of this incident. One piece of me, from now on, everyone wants to get revenge on them, please don't bring my guild and mean people.

The three Mu Huali were stunned.

"Liu Jie ..., how could he, he?" Feng Linshan Huo scolded.

Mu Huali rushed to call Liu Jie, but before the call was over, the manpower supervisor called.

"Trouble going to the company headquarters to settle your wages, you were fired."

"Asshole." Mu Huali yelled.

"Who's calling?" Zhebie asked.

"Human resources director, let's settle the salary and say we were fired." Mu Huali said.

"How can Liu Jie do this? He doesn't give us support, wouldn't we have no way out?" Feng Lin Shanhuo said.

"Look at Liu Jie." Zhebie said.

"Go together," Mu Huali said.

...

On the TV channel, with the popularity of the game, TV stations began to broadcast some major events of the game.

What happened last night was too serious. The entire Bemon City player lost as much as 2 billion, and it attracted the attention of many TV media and countless online media, and followed up and reported the incident.

When Lu Yang woke up in the afternoon, he just went to eat in the cafeteria, and just happened to see the news on the cafeteria TV.

“This station reports: The three Mu Huali refused to accept Liu Jie’s expulsion, went to Liu Jie’s villa to cause trouble, and were expelled by security. The three interviewed by our station said that this matter had nothing to do with them, but they were treated as scapegoats ...

Coincidentally, they also came over and saw the news.

“Deserve it, look at how these \*\*\*\* will get mixed up later,” said White Wolf.

“Without Liu Jie’s support, they can’t survive in the orcs, the characteristics are too obvious.” Zhuojiu said.

The 3,000 people are all red names. The guilds that originally gave Liu Jie a three-point face will now go to their troubles because they now have a wealth of 2 billion.

Lu Yang said with a smile: “They are considered to be revenge, deserved bad luck.”

In the video, looking at the grievances of the three people, no one feels that they are pathetic. Instead, they think that they deserve it, the cycle of nature and retribution are unsatisfactory, and they are responsible for their actions.

“Boss, you can’t use your account to go to the orcs anymore, now the orcs’ vigilance has improved a lot.” Shooting Sirius said.

Lu Yang nodded and said, “I’ll use that new name to recruit people from the Orcs. What’s your situation?”

Shooting Sirius said, "I have recruited about 100 more Berserkers. There are no more Tauren recruits from the old cows. This Tauren war is too scarce. The skill books are almost full. Up to 2 more days. "

Lu Yang said, "Okay, we can match their equipment two days later. I will contact the defeated guild presidents of the Orcs to see what they think."

The boss of the Ziyu Fortress is in the city of Beamon. Lu Yang has determined his position and can contact him at any time.

Logging in to the game, Lu Yang used the orc trumpet to appear in Beamon King City. Nowadays, there are very few people on the trade street in Beamon King City. There are only a few people on the street. same.

The only shop that was still open was on both sides. Lu Yang came to the No. 9 shop with the address he gave him with lofty sentiments.

The shape of the store is five storeys high, and the appearance is gorgeous, but the sign hanging on the door of the store is for sale now, and the eternal and brilliant players should not enter these words.

Lu Yang walked in curiously. The first floor was a hall. There should be all kinds of rare equipment, but now there is nothing inside, only one player is standing behind the counter.

"Sir, it's closed here," said the player.

Lu Yang said: "I know, I want to buy this store, what about your boss?"

"Ah I'm awkward, come with me, the boss is on the third floor." The player's words are sophisticated, and at first glance he understands the human nature, and then he went to the third floor and entered an office.

A lion player is sitting on a chair and calling, seeing his men bring Lu Yang up and begging them to wait.

“The price is too low and I can’t accept it.”

“I don’t need to think about it, even if I lose money, I won’t sell it for such a low price.”

“噫”

The Lion player hung up the phone and looked at his men and asked, “What’s the matter?”

“This gentleman wants to buy our shop.” The old player said.

The lion players took a look at Lu Yang, calmed down and said, “Please sit down and talk about who you sent from.”

Lu Yang smiled and asked, “Why do you ask that?”

“It looks like you don’t have special skins or top-level equipment. Either you’re here to make trouble, or you’re the trumpet,” said the lion player.

Lu Yang nodded and said, “You’re quite sharp, I’m a trumpet, but can we talk about it separately.”

The old player said, “I’m leaving.”

“Talk now,” said the Lion player.

Lu Yang shrugged his shoulders and asked, “You’re called Hao, right? The boss of Yiqi League, once controlled the Ziyu Fortress.”

“Yes, but what do you say about this, I’ve lost, I admit it.” Howe said.

Lu Yang shook his head and said, "You don't recognize it. If you do, why not write eternal glory at the door?"

Howe looked at Lu Yang angrily and asked, "Are you here to buy something or to expose my scar? Is it interesting?"

In general, Lu Yang was out of anger long ago, but this one was so conserved, so Lu Yang was surprised.

Chapter 923 - How and proud

"I didn't mean to harm you, I just talked to you. Not only did I want to buy your shop, I also wanted to buy your guild." Lu Yang said.

"Buy my guild?" Hao glanced at Lu Yang and said, "Don't make fun, now the guild players are less than 10,000. Only more than 5,000 people are willing to listen to my command. The rest are zombie accounts and too lazy to change guilds. Player, buy what he does. "

Lu Yang said, "Because of you, I want you to join my guild."

"Sorry, not interested," Howe said.

Lu Yang said: "I know you don't lack money or owe anything to others, but I believe you can't swallow this breath. After all, Tianyao did not defeat you positively, but used a conspiracy."

Howe still looked indifferent, saying, "You know what I know, but I don't know anything about you. This is a bit inappropriate."

Lu Yang said with a smile: "It doesn't matter if I tell you, I'm Lu Yang, chairman of the Iron Brotherhood."

"You? Don't tease Xiongtai, you don't seem to be." Howe said.

Lu Yang said: "The account I just bought is just for you. If you don't believe me, add an account that shoots Sirius, and he will tell you whether it is true or false."

How dare he searched blankly, found the account that shot Sirius, chose to add, he opened his eyes fiercely and said, "I actually added it."

Generally speaking, their friends' application system for shooting Sirius is closed, mainly to prevent someone from disturbing them.

Shooting Sirius is waiting, click to pass the certification, he said to Howe: "I am Sirius, brother, sitting opposite you is our old brother Yang of the Jagged Brothers Alliance, who is the most lofty recommended by our boss, He said he was sorry for you and I am sorry to call you and let me speak to you for him. "

Hao's eyes could not help becoming bigger and said, "Thank you for helping me and arrogantly. Brothers never blame him. It is not his responsibility to lose, but the enemy is too powerful."

Shooting Sirius conveyed pride to him, his eyes turned red.

"Talk to the boss, I have to persuade pride, the big man is still crying." Shoot Sirius.

"Your sister, you just cried, I lost my eyes."

"Oh, this is the game, where's the sand?"

"I ..., go away."

...

With a smile, Hao shut down the intercom, stood up and said to Lu Yang, holding his fist, "Chairman Lu Yang, he was rude just now."

Lu Yang stood up and said, "You're welcome, talk now, and don't want to."

Howe said, "Look how do you want to buy?"

Lu Yang said: "Your personal strength ranks 12th in the national service. It is also the president of the guild. With such a high level of connections, I can grant you a position of vice president, which is equivalent to Zhuojiu and Xia Yuwei. All the fortresses I build within your sphere of influence will have half of your shares. "

This is a very favourable condition. How surprised he was speechless. He didn't expect that Lu Yang gave him such a good condition. Normally, a vice chairperson only gives 1% of dry shares and a relatively high price. wage.

"That's too much," Howe said.

Lu Yang said: "I did n't give it to you for free. I have investigated before. You have a strong network in Beamon City. You were once against the commander of Tianyao, the joint president of 22 guilds. I hope you can Take them all to your hands, and when you fight against Tianyao, you can take them to attack Tianyao from the flanks. "

Howe said: "I can do this. Give me a week, I can gather at least 16 guilds, at least 3 million players above level 60."

Lu Yang said: "I will solve the problem of equipment, mainly to keep those top players, do not let them go."

These players mainly refer to mage classes that understand secondary forbidden spells and special skills, and they have played too much in the war.

"You can rest assured that although our guilds have been defeated, players with top skills all have contracts with us. We pay them a day's salary and they will fulfill the contract." Howe said.

Lu Yang said with a smile: "You really aren't disappointed, and you're ready to make a comeback."

Howe said with a smile: "Of course, you, Liu Jie and Tian Yao will definitely fight. I certainly think I have a chance."

"Then are you willing to follow me now?" Lu Yang asked.

Hao sighed and said, "If Liu Jie came to me, I really didn't agree with him. You came to me, and I served you. At least I couldn't do it in the case of winning the opponent, and let him sell the fortress. Retreat."

Lu Yang laughed. He didn't expect that the original concealed heart had such a great benefit, and said, "There is another problem. When you gather these guilds, the first task is to distinguish whether there are spies in the guild. This must be clearly distinguished, otherwise, as soon as you gather, you will be dealt a devastating blow by Tianyao."

Howe scratched his head and said, "I'm not good at this."

Lu Yang said: "Simple, you first tell the guild bosses you are looking for. You have to sneak attack on a fortress in Tianyao one night at a time and make a look for everyone. When that day, which fortress has Tianyao's ambush, the guild boss is a traitor.

When these bosses who are not traitors are brought together to let them assemble players, they still use this trick to quickly find traitors."

Howe said, "This trick is beautiful."

Tianyao built a large number of wild fortresses after laying down 15 main cities of the Orcs, but he did not want to use too many people to guard the fortresses, because the cost was too great, and no one would keep him for free.

At that time, in order to solve this problem, Tianyao chose to buy those guild players who were defeated by him at first, and only gave one person money to monitor the guild's enemies, which was very appropriate.

“What a beautiful trick.” A familiar voice came downstairs, and Howe heard an angry look on his face.

“Don’t go up, you are not welcome here,” the old player said angrily.

“Why can’t I come, I still have a tenth of the shares here.” A snorting cry, Ao came up alone.

Howe walked to Ao in two steps and said, “What are you doing?”

“Nothing, see if you sell the shop,” Ao said.

“If I sell it, the money will definitely be for you, traitor. Now you are not welcome here, please leave.” Howe said.

A proud glance at Hao turned to Lu Yang and said, “Who are you?”

“Related to you?” Lu Yang asked.

“This is Beamon City. You are advised not to buy this shop if you are aware of current affairs, otherwise I will make you unable to do business.” Ao said.

Lu Yang laughed and said, “Only you?”

“Just me?” Ao said.

“Did you just die with 180,000 men, Tianyao didn’t scold you?” Lu Yang asked, turning sarcastically.

Ao’s face turned wild, staring at Lu Yang, cursing: “You are the oldest, dare to care about our guild affairs, are you associates?”

Lu Yang said: "Oh, you go out and tell people, it's an 80-level boss monster summoned by a 30-level trumpet, who slaughtered Beamon."

Howe and the old player did not hold back, and smiled.

Pride was extremely embarrassed, snorted angrily, and turned away.

Lu Yang said, "It's so proud to scold."

Howe sighed and said, "He just has this character and can't help it."

Lu Yang said, "Why does he still have a tenth of your stock in this shop? What's wrong?"

Howe sighed again and said, "Unfortunately, I'm depressed when I mention this. I'm not afraid of your jokes. Let me tell you."

"I met a girl by chance when I was playing a game. I was the chairman at that time. I had a bunch of brothers. The technique was still good. Many girls welcomed it. One of the girls was very beautiful and quite pure. I liked her. .

But who knows that this girl is the pretty girlfriend that Ao has always said before. When she saw that Ao was not capable at the time and had no money, she chose to break up with Ao. During that time, Ao didn't go online very much. It was a frustration and I didn't know. Because of this reason, I fell in love with this girl. Later, Ao returned to the game and saw that we were together, thinking that it was because I disregarded the brotherhood and turned over with me. At that time, I was ashamed. But, am I the kind of person? I broke up with this girl immediately. When the girl saw that I didn't want her, she turned to look for Ao, and she cried to Ao to tell her that I seduce her. What's the matter? "

"This guild was established by me and Ao and many brothers. I took most of the money, but I said that everything I have is my brothers. I gave Ao and other brothers one tenth. One of the guild shares, I bought this shop in the name of the guild, so there is also a tenth of his shares here. "

Lu Yang asked: "Is this clear now?"

Howe said: "I'm in trouble with this dirty water. I can't explain it clearly. Fortunately, my brothers trust me and know who I am. Unfortunately, I don't believe it."

Lu Yang thought about it and said, "Let's tell you who this woman is. I'll solve it for you and see if I can let Ao come back."

Howe said, "It's useless."

Lu Yang said, "Believe it or not, if this woman is the kind of person in your mouth, you have to break up with Ao even after a while, maybe he will go to Tianyao directly. This is all possible. You say this time, What should Pride do? "

Hao thought, and said, "I'm afraid I can't stand this kind of stimulation."

"Are you still a brother?" Lu Yang asked.

"Of course, the most depressing thing for me is that I lost his brother, and I still lost it this way." Howe said.

Lu Yang said: "Then tell me, then I will help you solve the problem."

It's too easy to deal with this kind of woman. As long as you find a female friend, she will soon reveal her heart and say everything in her heart. ...

If you find a more capable man, he will naturally stick a new man. This kind of green tea, he has seen more in the last life.

Howe said: "Well, his name is Zhong Yanting. He is currently a female player in Tianyao Guild and is responsible for bringing a team of female players. I don't know exactly where I am now, I have to check it."

Lu Yang said: "What we have is that you organize the players first, I will go to the next station, and then find a few masters to join."

"I try my best," Howe said.

Lu Yang left the shop and flew back to Sirius City, changing his equipment back to his Terran account.

He still feels more comfortable using the Terran account. Besides, the next stop is a bit special and he may want to participate in the war.

Among the main cities of the Orcs, the most rebellious is the Tide City. He is also near the sea, but it is impossible to develop a navy here. There are only many small islands.

Tianyao defeated the boss of the tidal city-the liver and the gallbladder shine together, but this boss has more money than the hero. He is a wealthy man himself. He is also the tenth best player in the ranking. Although he was defeated, he is still not convinced and takes his hand. The next player upgrades the equipment in the copy and is always ready to fight back.

Tian Yao was most worried about him. In order to destroy him, he specially arranged his vice chairman of the Tiger tribe, Blood Roar and 100,000 senior players in the tidal city.

Blood Roar itself is a rare professional second-turn master. The national service is ranked seventh in the heads-up. There is a team of Tigers, all of whom are top-level masters.

Flying from Sirius City to the Tide City, just after landing, Lu Yang felt the killing atmosphere here, and a group of people gathered around and scolded.

Lu Yang walked over and saw that the group was divided into three distinct groups.

The most people are scattered players, all looking at the human brain, followed by the liver and gallbladder guild players. There are many people, but at a glance, they are not strong.

Fewer people are the players of the Tianyao Guild. At this time, the players of the Tianyao Guild are facing the players in the liver.

Lu Yang patted a lively player and asked, "What happened?"

The player looked at Lu Yang and asked, "You're new."

Lu Yang said, "Yeah, I just arrived in this main city."

"Hey, then I'd like to persuade you, don't leave the safe zone easily, especially if you are a fox, all outsiders are treated as Tianyao Guild. As long as you leave the safe zone, you will be attacked." The player said.

Lu Yang Yile said, "I heard that the original boss here didn't agree with Tianyao."

"Hehe, if Tianyao gathers people here, the liver and gallbladder can't beat him, but Tianyao has unified the 15 main cities. There are more places to be managed, and fewer people are arranged here. There are 200 livers and gallbladders here. Brother Dowan, all listened to his command. Now the two sides have become deadly enemies. The blood roaring army easily dared not go out of the fortress, and only took a small number of elites to chase the liver and gals with their brilliance. "This player said .

Lu Yang was surprised. He thought that it belonged to the rule of Tianyao. He could not imagine that Tianyao's strength was so weak.

He understands it, and this is not to blame Tianyao. Liu Jie built a naval base in Sands City and sent nearly 2 million people, nominally defensive. But who knows what to actually do, Tianyao can only follow the same dispatch. Player.

Tianyao still has to go to war. He has been outfitting in the elite of Beamon City. The remaining wild fortresses in other main cities need to be guarded. More importantly, he needs to arrange a large number of players in the main city of the orcs to deal with the sky at any time. Wolf City.

In this way, it is no wonder that Tianyao's troops are stretched out here, and it is no wonder that Tianyao is still recruiting a large number of players.

Lu Yang asked, pretending to be curious: "This blood roar is not enough to catch the liver and gallbladder directly. With his strength, it is not difficult to find the liver and gallbladder."

"Hey, you asked me if I really asked the right person. I'm not afraid to tell you that the liver and gallbladder had just called the blood roar duel, and it was in the evening wind forest on the 60-level map outside the city," said the player.

Lu Yang nodded in admiration. The goods were so fierce that they had already lost the fortress and dared to fight with each other. Obviously they wouldn't fight if they didn't have any real skill.

"Thank you brother, in the future I will join you in the guild, I am optimistic about you." Lu Yang threw him a badge, which is the internal mark of the Brotherhood of Iron Blood, but he did not know because he was near the elves in Tide City Clan, at least 20 gold coins are needed for the people to spend money.

Lu Yang found a place where no one was, using a camouflage coat to look like a tiger player, and ran out of the city.

After running along the avenue for more than two hours, he came to the Evening Forest, and just after entering the periphery, he found that there were players everywhere. Obviously, these people were all sentinels.

"Who? Who?" A player found Lu Yang and asked, pointing at him.

Lu Yang said quickly: "Sorry, passing by, look at the lively."

“Looking lively to the north, there are stands there, and everyone who comes today is a witness. This player said.

Lu Yang made a whisper, walked towards the north side, waited for him to get behind a big tree, he drank the stealth potion, turned back, and walked through the players under the liver and gallbladder, and walked towards the center circle.

There must be a lot of people over the stands and you can't see anything. It's better to go into the war in stealth. Depending on his strength, these people can't beat him.

“Be prepared for a while. In case our boss loses, let's go together and kill the gang.” A man who looked at him like a vice chairman looked back and said to the player behind him.

“Rest assured, absolutely yell at you to the end.”

“Yes.”

...

Lu Yang laughed and continued to move forward. It didn't take long for him to come to the central area of the Evening Wind Forest. Just now, the blood roar and the liver and gallbladder had expired, and the two were preparing, or swearing.

“If you have the courage, go out and fight with me. What kind of skill is it to hide in the city every day?” He scolded.

Blood roared, “Come less of this, when you're afraid I won't do it, I'll kill you every minute when the boss can pull out the manpower.”

“It's up to you, I killed you in minutes.”

“Don't you just rely on your lack of fortification and mobility, what a skill.” Blood roared.

“Who made you \*\*\*\* grab my fortress ...”

...

The two were angry, and the players behind them also joined the scolding battle. If it wasn't for the two who agreed to single out, they would have been fighting.

Lu Yang carefully observed how the blood roar and liver and gallbladder looked at each other. He found a problem. The equipment of the blood roar seemed unusual?

The accessory worn on his waist is an upgraded version of the ancient animal head. This thing is called the statue of Shengfu, which can increase the player's health by 100,000. It is the top anti-war and anti-riding equipment.

## Chapter 925 - Rooster

If both of them are warrior players, the blood roar is the shaman of the physical output department. The skill point is mainly to increase strength, and the blood volume is not outstanding.

The liver and gallbladder are also shamans. If the two fight like this, the liver and gallbladder will definitely suffer. He feels that if the blood roar chooses to use this Holy Blessing Statue PK, he will be the seventh in the country, and it is not true.

But the game is about to start. He is not an orc and cannot show up. He is not a member of the two guilds. He can't figure out the way. If he can't make himself, he will be attacked by two people.

When he was in a hurry, all of a sudden, he reacted. Isn't there a prop in the game?

Looking left and right, he found a large tree on the right, and climbed up in stealth. When he reached the top of the tree, the following battle was about to begin. He shouted with a big horn: "Blood Roar China It's shameless to be in seventh place, but to wear a statue of Shengfu with an additional 100,000 blood when we are alone. "

As soon as the words fell, the entire forest of the evening wind became extremely quiet. Everyone looked at Blood Roar, especially the casual players standing on the sidelines. Everyone looked at Blood Roar with a strange look.

Liver and gallbladder put down the weapon in their hands, looked at the blood roar accessories, and asked, "What is the one you are wearing?"

The blood roar's face did not change at all, and said, "This is the accessory that the guild has given me. What's wrong?"

"You use this accessory to compete with me. You're called competition." He asked with regret.

"Is there any problem? My guild benefits are good. The boss gave me such a baby. Why can't I use it?" Xuehou asked.

Liver gallbladder was asked.

Lu Yang gave a cold hum and said using a loudspeaker: "What is heads-up is that the two sides compare their respective fighting skills and win by their own abilities. Some differences in the equipment of the two sides of the battle do not count as your violation, but you have 10 more blood than others. Wan, what is this competition? This is simply a fool.

The heart of the liver and the gallbladder succumbed, as if there was a Ganquan flowing over the side of Xintian, Haha said with a smile: "Yeah, that's what I mean, I only have 30,000 blood, you wear an accessory 130,000 blood, you made it clear to play ."

"Dying."

“Can’t afford to play.”

...

The liver and gallbladder shouted angrily at the Guild.

The casual players at the battle platform have become scornful to see the blood roar. Lu Yang is right. What is PK? It is a trick. Now you become richer than anyone else. Is that still a test?

“Who, who is talking there, there is a seed.” Blood roar looked around but could not find the person who spoke.

Lu Yang said, “What’s the point of not coming out, you either unload the equipment to PK, or just get out of the way. Don’t be ashamed of it and make people look down on you. What national service is seventh, I think it depends on the number one. If this year you are allowed to participate in the national war on behalf of the orcs, you will be ashamed to go abroad. “

“That’s pretty beautiful, haha, this brother, when I’m done here, you must come to me, and we should have a few drinks.” He said with a smile.

“Sure.” Lu Yang said.

He looked at the blood roar and asked, “You can’t compare. Take the jewelry off the game, don’t rely on it.”

The blood roar is afraid, his seventh in the national costume was played in the New Year’s PK battle rankings, and it is now September. In the past few months, the war has been so frequent. He played in team battles and did not deliberately train himself. Battle, and liver and gallbladder is a well-known PK madman, who does not love the management of the guild, and likes to stay in the arena. The ranking this month, liver and gallbladder is the fifth in the national service, two higher than his new year.

This time PK, he deliberately looked for this equipment borrowed by Tianyao, but it was not from Tianyao. Tianyao had only one of these things.

I thought it would be easy to win, but I didn't expect to be punctured before the war, and this time I was ashamed to the entire Tidal City.

He opened his eyes fiercely and pressed a glance at each other, and said, "The task of Lao Tzu today is to destroy you. Since you dare not fight with me, then don't blame me. You will be noticed by the eternal and brilliant people, with me on."

Thousands of \*\*\*\* roaring elites were ready to go, roaring and rushing towards the liver and gallbladder.

"I knew you guys were uneasy, brothers rushed together to protect the boss," the vice chairman shouted.

Tens of thousands of players who rushed to each other also rushed up.

Lu Yang stood on the top of the tree and watched. His level was 100. The highest level of both sides of the battle was blood roar and liver and gallbladder. Both were 80 and the rest were players between 60 and 70.

Even if the blood roar and the liver and gallbladder look at each other, the equipment of the two is not particularly good. It is still a long way from the 80-level Destroyer suit in his hand. In his view, the following battle is the rookie pecking each other.

However, on the whole, the blood roar side is better, and in the situation, the blood roar side has more advantages.

"That's not okay, I'll help my future brother." Lu Yang sat on a tree branch, with a big fireball in his hand.

In the most central battlefield, Blood Roar is losing its liver and gallbladder. The blood roar is very rough, that is, it is hard and rigid, forcing the liver and gallbladder to match his blood volume, and the liver and gallbladder are not fooled. He constantly uses technology to avoid.

“Come on, fight with me, what are you hiding?” Blood roared.

“You don’t have to shame. You have 100,000 more blood than me. Why should I fight you head-on?” He said scornfully.

“Do you think you are hiding, let you see my new skills.” The blood roar screamed, and the body glowed red blood.

“Blood Rage”

“In this state, my movement speed and attack speed are both increased by 20%, and the damage is increased by 40%. How can you hide it?” Said Bloody Roar proudly.

Liver and gallbladder flickered inwardly. If the blood roar speed increased by 20%, he really couldn’t hide away. When he was anxious inside, suddenly, the sky accurately fell a red golden flame.

“98000”

The blood roar was left with only 30,000 points left.

“What the \*\*\*\* is this.” Blood Roar roared angrily.

Liver and gallbladder covered his stomach and laughed, and said, “Let you pretend that you have as much blood as I do now, come and come, we both single out.”

How dare to single out the blood roar, he improved various attributes in the state of blood rage, but this skill is not without its disadvantages, while the damage is increased by 40%, the damage he has taken is also increased by 40%.

Lu Yang's magical damage was only more than 30,000, but the crit was only 70,000, but the damage was increased by 40%, which caused nearly 100,000 damage.

"I don't want to fight with you. You can't afford to play. You can only find someone to help." Blood Roar turned and ran.

Lu Yang said using a loudspeaker: "Are you singled out? Do you still have less help from your teammates? Just help you freeze the liver and the gallbladder, the blood roar is really shameless."

He said, "That's right, don't run, let's bother, I have to burst your amulet."

This is what the Blood Roar was afraid of, shouting, "Hurry me up."

In the distance, he was about to release the blood treatment. A meteorite with a diameter of 3 meters descended from the sky. In the middle of the treatment group, the meteorites were crushed forward without impact. The 70,000 damage from the critical strike instantly took more than 10 heals. Spike.

"What harm is this, so high?" Liver and gallbladder stunned.

Lu Yang said, I am an excellent set of level 80. After the second turn, the level of 100, there are nine elemental \*\*\*\* and level 3 demon heart. It is easy to kill the lord, let alone kill you level 60 trumpet. .

The liver and gallbladder were still a little afraid that the treatment would add blood to him, and he dared not rush too hard, but he was relieved to see the treatment, and he was relieved and shouted, "Thank you brother, thank you for your help."

Lu Yang shouted, "You can rest assured to kill him. I guarantee that no one will affect your coming PK, kill him, and explode his statue of Holy Blessing."

"Good." Liver and gallbladder rushed towards the blood roar.

Blood roar is not without a fight against liver and gallbladder. In fact, the gap between the two's skills is not so great, but Lu Yang's threat made him afraid to fight against liver and gallbladder. Another thing, the statue of Shengfu on his body is Tianyao. If it explodes, he cannot explain to Tian Yao.

If he is allowed to make his own compensation, this thing is worth hundreds of thousands of dollars he can't afford it! Therefore, he can only run away constantly, and at the same time keep calling for treatment around him to give him blood.

However, every treatment within 50 yards of him was killed by the red gold flames and huge meteorites falling from the sky without waiting for blood, and the blood amount of Blood Roar still had more than 30,000 points.

At the same time, due to his constant retreat, he thought that the entire formation in his center had begun to retreat. There were many players who were far away and thought they were defeated. They immediately ran away.

Liver and gallbladder did not notice the situation in front of him, but a vice chairman of his team noticed, and a clever, shouted: "Eternal glory is defeated, brothers rush."

Others reacted and shouted in succession.

"Eternal glory is defeated, Chong."

...

The players far away from the Blood Roar heard their own defeat and ran away. As a result, a battle that should be able to win turned into a great defeat.

The worst thing was the blood roar. When he was panicking, he was surrounded by a gallbladder and surrounded by a big rock.

"Let you run, let me see where you are going now?" He said with a smile.

The blood roar gasped fiercely, looking to the left and right, all enemies. He had no retreat, and his blood volume was still more than 30,000 points. He said, "Heart, you dare to challenge me now."

"Dare, I'm looking forward to this test." Said the same.

Blood roar said: "Then let's say, if I win, you let me go. Your men are not allowed to kill me or grab the statue of Holy Blessing from me. If I lose, all the equipment that belongs to you will belong to you. "

"You still play tricks."

...

Players in the surrounding area despise each other, but Bloodroar doesn't care, just looks at the liver and gallbladder.

"Okay, then I'll compare to you," he said.

Chapter 926 - Shaman surrender

"The boss is good." The players around said.

Blood Roar looked at the liver and gallbladder and said, "You turn off the acceleration skills first, otherwise it is still unfair."

Both of them belong to the rare shaman class. Within the range, if the target health is less than 50%, their movement speed will increase by 40%. The liver and gallbladder can keep chasing the blood roar just because the blood roar is too little Sake.

“No problem.” Liver and gallbladder shut off the killing skill.

Blood roar sees no problem this time, taking the initiative to fight against each other, the two of them are very troublesome to fight, the shaman is a second-class mixed profession created by Paladin, and the characteristics of this profession are No features.

For all occupational skills, they can understand that human mage understands the elements of ice, fire, lightning, and soil, and the shaman also has the corresponding totems of ice, fire, lightning, and soil.

The two first put a bunch of totems on the ground because they had the same occupation, and they knew what the other party had. Then the two players competed.

In this respect, the liver and gallbladder are stronger than the blood roar, which is a faint trace. When both men are fighting with blood, the liver and gallbladder insert the two-handed sword into the head of the blood roar.

Blood roar, die!

A statue with a golden light fell to the ground. He took a look at him with his liver and gallbladder and said with a smile: “The statue of Holy Blessing really made me burst.”

The players around laughed.

“Boss, you are so lucky, this thing is worth hundreds of thousands.” The vice chairman said with a smile.

He smiled and said, “Save him.”

The vice president nodded and resurrected the blood roar using resurrection.

Immediately after standing up, Blood Roar immediately looked at his equipment and found that the statue of Shengfu was dropped. Then he looked at the statue of Shengfu holding in his liver and gallbladder. His face was as pale as death.

“What else do you save me for and laugh at me?” Blood roared.

He laughed at him, and he threw the statue of Shengfu in his hand, throwing it away, and the statue of Shengfu crossed an arc in the air and fell into the hands of the dumb-eyed blood roar.

“You, did you even give me back?” Blood Roar asked incredulously.

He said with a smile, “Take it back to Tianyao. I’m not interested in this thing.”

Bloody Roar’s embarrassed complexion turned red and left with his head down.

“Brother who just helped me, are you still there, can you meet up?” Asked Ganzhanxiangzhao.

A flash of light flashed, Lu Yang appeared in front of the liver and gallbladder, and said: “It’s bold enough, such good PK equipment is unnecessary.”

He laughed loudly and said, “I was singled out with him, not to grab equipment.”

Lu Yang smiled and said, “You have a personality, no wonder you can gather so many brothers to follow you.”

This person has a bit of the temperament of Bai Shisanxiong. There is no problem with dry stand, and there is no problem with morale. It is not suitable for being the president of the guild, because this profession needs too many things to think about.

He said to Lu Yang, “This brother, you are so strong, I want to play against you.”

The vice president covered his face and said, "Boss, they just saved us."

"That doesn't delay PK, haha." Liver and gallbladder said.

Lu Yang said: "It's okay to compare with you, but let's talk about something else first."

"Talk?" He asked curiously.

Lu Yang said: "You let the brothers go first, let's find a place where nobody talks."

"Yes, it's all gone. Empty this place and don't let the thieves come in," he said.

"Okay." Several vice presidents took the guild players to watch the players early in the morning, and emptied the surrounding area, leaving 100 meters of space.

"Let's talk now," he said.

Lu Yang said, "I want to invite you to join my guild."

He looked at each other and said, "Today you are the second one to invite me. What's wrong today, someone will always ask me to join their guild?"

"Who is the first one?" Lu Yang asked curiously.

"Liu Jie, he called me in person." He said with anger.

"Did you agree?" Lu Yang asked.

"How is it possible that I have no interest in being a younger brother to others." He said with regret.

Lu Yang said silently, "Do you know who I am?"

"I don't know, and I'm not interested in knowing," he said.

Lu Yang found that the goods were somewhat different, and said, "Let's do this. Let's try a match. If you can hit me, even if you win this game."

"What? You win even if you hit it?" He asked incredulously.

Lu Yang said: "Yes, even if you hit me, even if you win, the result is I give you a hundred million, but if you lose, you have to join my guild with your men."

"A billion?" He asked.

Lu Yang said, "Yes, dare you gamble?"

"You want to give me money in vain," he said with regret.

Lu Yang asked, "Don't you dare?"

"Who dares not? Than than Than." He said daringly.

Lu Yang smiled and said, "Let's get started. If you can hit me, even if you win, let me tell you first, I am a fireman."

"I knew it just now, so don't blame me for being rude." Liver and gallbladder raised his big sword and rushed towards the landing sun.

"Barbaric Fight"

The liver and gallbladder body turned into a phantom, and suddenly moved a distance of 30 meters forward behind Lu Yang, and the two-handed sword dipped into Yang Yang's head.

“flicker”

A white light appeared on Lu Yang's body, as if he had known that he would do so. He jumped back a distance of 1 meter, and appeared behind the liver and the gallbladder one second before the sword fell.

The liver and gallbladder responded very quickly, immediately jumping to the side to prevent Lu Yang from using any control skills, but he just landed.

“Fire Snake Bondage”

Lu Yang pointed his liver and gallbladder in his left hand, and a flame snake appeared under the liver and gallbladder in a prejudged form, entangled him.

“-10000”

Liver and gallbladder saw each other's blood loss, and he quickly used the badge to unlock the control and continued to charge towards the landing sun.

Lu Yang has a lot of control skills. Taking the level 100 he against the level 80 liver and gallbladder, normally, he only needs a set of three regular moves, which is the simplest way to resist the fire ring and the fiery storm.

But he really wants to do this, he won't be convinced by his liver and gallbladder, so Lu Yang chose to avoid by physical method. He knows all the skills of the Bloodfury Shaman. In terms of reaction speed, after more than a year of exercise, he has Breaking to another limit, he was confident to dodge all attacks.

Liver and gallbladder are wary of Lu Yang's release of skills, but Lu Yang has not released a skill. Even if he comes close, his eyes light up, and he has no time to think about it, using all his abilities to attack Lu Yang.

What surprised him was that he slashed more than 30 knives in a row, and Lu Yang avoided using only his physical skills. He didn't hit a single knives. He used a large range of skills to force Lu Yang back, and he asked the same question. "How did you do that?"

Lu Yang asked with a smile: "Want to learn?"

"Can I learn?" He asked.

"It depends on whether you are willing to persist, if you are willing to persist, you may be able to improve, but this persistence requires years of exercise, very painful." Lu Yang said.

"I do, I confess my defeat," he said.

Lu Yang said joyfully, "It's not over yet, how can you give up?"

He said, "If I don't know who you are now, am I not stupid? You are Lu Yang, right?"

Lu Yang smiled and took off his camouflage coat, revealing his original appearance, and said, "I did not read you wrong."

"I thought I was close to you, and I can challenge you. I can't think of such a big gap." He Xiangdan said.

Lu Yang said: "Your fighting skills are no problem, the only difference is the exercise reaction speed. This method is currently the most effective for me. If you want to learn, come to the East China Sea to find me."

"I'm going to fly today," he said.

Lu Yang said: "Don't worry, you can organize the guild first. We haven't signed the contract yet, we haven't said the treatment yet."

"Oh, yes, I still have to ask my brothers about their welfare." Liver and gallbladder scratched his head and said.

Lu Yang took out the contract with a smile, signed the names of the two parties after discussing the details with him. On the afternoon of the same day, Gandan carried his backpack to Donghai City and reported to Lu Yang's studio. Lu Yang led him to meet Zhuo Jiu and the White Lion one by one.

"It turns out that you are all together," he said in surprise.

Lu Yang said, "You are welcome to join."

"Boss rest assured, I will fight the world with you in the future." He said excitedly.

He is about 16 years old, dyed red hair, and looks sincere.

Xia Yuwei watched him frown and asked, "Are you Yunyu?"

He looked at each other and asked, "How do you know my name?"

Xia Yuwei looked at Lu Yang and said, "No wonder this kid is so rich, do you know who he is?"

"Who?" Lu Yang asked.

"The Yun's Consortium, Yun Tianfan's grandson." Xia Yuwei said.

"No wonder," Tu Feng said with a smile.

"It's not my fault to be rich." Yun Yu said.

Everyone: "..."

"You are not good at inheriting your family business. Why come here to play games?" Lu Yang asked.

"My dad is my grandfather's youngest son. Now my grandfather is 80, and he is physically strong and personally with the company. The position of my heir is the general manager. It will take 30 years for me to inherit the property. What am I doing now?" Yun Yu said, rolling his eyes.

Everyone: "..."

Lan Yu said, "Xiao Yunyun, welcome to join us."

Yunyu said, "Why do you give me a nickname? My name is liver and gallbladder."

"Your grandpa just called you that, you forgot. I met you and Sister Yu Wei 10 years ago. At that time, you were still so tall and called our sisters."

Yunyu was stunned and said, "Is that still the case, why can't I remember."

"Go back and ask your parents to know, you were so young then." Lan Yu said with a gesture.

Chapter 927 - Dead grass visit

Lu Yang did not expect that Yun Yu and Xia Yuwei and Lan Yu still knew each other. In this way, Yun Yu would be more easily integrated into the team.

In the embarrassment of Yun Yu, he was too young at that time and had no impression of Lan Yu and Xia Yuwei.

“Uh, I went back and asked my dad.” Yun Yu scratched his head and said.

Everyone laughed.

Lu Yang said: “Since everyone is here today and everyone is online, let me tell you about our next play.”

At present, the only people who come to the Luyang Studio are the same, but the rest Liu Yunpeng, Hao, Hu Haoran, and lofty sentiments all have ideas, but there are not many places. If they want to come, they will bring their players together.

He also gave up his brother, and he ran over first, causing his brothers to complain a lot about him.

A group went online. Lu Yang and the White Lion came to the junction of the human race and the orc together. At present, it is guarded by Lu Yang’s heavy soldiers. More than 300,000 players have upgraded nearby. There are sentry towers and roads set up by Lu Yang. In the wild fort, it is absolutely impossible for orc players to enter the human race from here.

In a hall called the War Fortress, Lu Yang and others came with lofty sentiments and Liu Yunpeng.

“Boss, are you going to hit Tianyao?” He asked with pride.

Lu Yang smiled and asked, “It looks like you’ve gathered a lot of people.”

“The 16 guilds of the four main cities, Cat, Tiger, Night Demon, and Dragon, are all willing to attack Tianyao with us, waiting for you.”

Lu Yang asked, "How many people are there?"

"There are 1 million together. They used to be super guilds, but there are only so many players who can be gathered after being defeated by Tianyao, but most of them are elite. However, the current equipment is missing."

They have just failed in less than 2 months. Many elites have contracts and cannot leave.

Lu Yang nodded.

Yun Yu said, "I have more than 3 million people here, but I'm not very strong."

Howe said: "I'm looking for someone. I can gather about 15 or 16 guilds, about 1 million people."

Lu Yang asked, "How many guilds have spies found?"

"There are 12 in total, and they are currently conducting self-examination." Howe said.

According to Lu Yang's method, when Hao convened these guild bosses, he issued a sneak attack mission to them that night. As a result, each boss who received the mission went to a different place, and these different ones were either boss rebellions. Or his mutiny.

Lu Yang said: "Continue to let them track down. While this time, everyone gradually stopped and let Tian Yao think he successfully cleared the civil strife. You guys all went to upgrade equipment and wait for me to finish the final work. We Just clean up Tianyao. "

"Yes," the crowd said together.

Lu Yang went on to say: "I now have a group of surplus 60-level excellent gold and dark gold suits. You can count how many masters in each guild, and then find Tu Feng to pick up equipment, but not necessarily enough for everyone, but Allow them to quickly return to combat effectiveness. "

Tu Feng said, "I will fully cooperate with you."

Hao and Yunyu and others looked at Tu Feng with relief. They all knew Lu Yang's name, but the other person, Tu Feng's name, was even more thunderous. All the guild bosses in the game knew it. The most mysterious and powerful person in the Brotherhood is Tu Feng, and Lu Yang trusts him most.

"Dismissal." Lu Yang said.

Hao and lofty sentiments let them go, and Lu Yang took Xia Yuwei back to the island, and took them to upgrade in person.

They are not far away from the 100th level and can be reached within a few days. In these days, Hao and lofty people also counted the number of equipment. A total of 200,000 sets were needed. Lu Yang did not hesitate to let Tu Feng Send the equipment to them.

On the other side, Tian Yao found that among the main cities under his control, the number of rebel guilds had fallen sharply these days.

"Strange, how can these guilds not resist?" Tian Yao asked during the meeting.

"Boss, have we all been defeated by us?" A vice chairman asked.

"This is possible. Our attack intensity is so great, and they have no financial support, how can they always resist." Another vice chairman said.

Tian Yao looked at the chief staff officer.

The chief staff member frowned and said, "Give me some funds. Let me step up and check. I don't think it should end so soon."

Tianyao asked, "How much is it?"

“How can it cost 10 million a month? The cost of the cable people is also the cost of buying the middle and high-level elites of the guild. They are found to be rebellious and have to pay liquidated damages,” said the chief staff officer.

Tian Yao frowned, thinking.

A vice president saw a play and said: “Boss, I also apply for funds. If we start a war against Lu Yang, there are more than 10 million players in his hands. At least I have to recruit 500,000 people to talk to them. One of the vice-presidents of the company is desperate. “

“Me too.”

“me too.”

...

All were asking for money. Tian Yao’s brows were twisted together, and he calmly said, “No, I can’t increase your budget anymore. You have to find ways to recruit people, and you have to find ways to investigate intelligence.”

He is building a lot of wild fortresses. These fortresses are all money, and each one is built, the daily income is crazy. At present, in the absence of war among the three parties, in order to recruit more players and make money, Tianyao can only Constantly build wild fortresses.

The chief staff officer secretly sighed. Whenever it was mentioned that he would increase the budget of his intelligence force, Tian Yao always had this attitude, which made him very uncomfortable.

Horizontal comparison, whether it is Tu Feng under Lu Yang or Liu Jie’s dead grass, the intelligence funds in his hands are several times, or even dozens of times, he does not understand why Tian Yao does not pay attention to intelligence so much.

Where did he know that Tian Yao could not afford to see the Chief Staff and his intelligence department in his heart? In his opinion, the war was fought, it was just a game. These conspiracy and scheming were useless.

Leaving the conference room, the chief staff officer Fang Yuan came to Sea Lion City. He wanted to inquire about his intelligence personnel and what happened to Liu Jie's side, but he ran to the main city, but was informed by his men that Night Magic City, Hades and The defeated guilds of Ironback also stopped attacking.

"What the \*\*\*\* is going on?" Fang Yuan murmured to himself.

He didn't know that these people had been bought by Liu Jie. When Lu Yang went to recruit the orcs, Liu Jie personally went to the orcs and joined his cousin Luo Cheng to recruit the defeated guilds of the orcs. Set off, along the unicorn city, the tidal city all the way down, and Lu Yang almost equalized the defeated guild of the orcs.

"Haha, now we just need to raise our arms, and half of the orcs are ours." The dead grass said proudly.

Liu Jie said: "Unfortunately, the other half is afraid of getting into Lu Yang's pocket."

Through Liu Ruoshi, he knew what Lu Yang was doing secretly in the Orc, and it happened that Liu Jie was doing the same. The two were tantamount to eating Tian Yao.

"Afraid of what he is doing, isn't he already the meat on your chopping board? Whenever you want to pack it, you can do it." The dead grass asked with a smile.

Liu Jie laughed and said, "We have to figure out a way now, and let Lu Yang send troops with us."

The dead grass said: "This is easy to handle. I personally lobbied Lu Yang and asked him to play Tianyao with us."

"Okay, I'll wait for your good news." Liu Jie said.

The dead grass laughed and called Tu Feng and said, "I want to talk to President Lu Yang personally. Can you trouble my brother Tu Feng?"

Tu Feng asked alertly, "What's up?"

"Tiantian Yao." Said dead grass.

Tu Feng's unwavering expression showed a surprised look, and said, "Okay, I'll ask."

Lu Yang was right next to Tu Feng and said, "Let him go into a special space, I'll talk to him."

He has been waiting for dead grass or Liu Jie to call him, he guessed that Liu Jie couldn't help it. The national war officially started one month later, after Christmas in December. He wanted to start before Kill Tian Yao, lest the national war begin, he exposed his family and let Tian Yao and Lu Yang hit him.

The light flashed.

Lu Yang entered a special space. This is a special space that looks like a conference room. Dead grass is standing opposite the desk.

"Chairman Lu Yang, we have met again." The dead grass smiled sincerely and greeted Lu Yang also looked sincerely and said, "Yes, I can do like Brother Liu The elite chat is a very happy thing. "

Counting the dead grass with a smile, and even talking uplifted, the two humbled him for a while, and finally calculated that the dead grass did not endure Lu Yang. What do you think about it? "

"Tian Yao? Really?" Lu Yang asked in surprise.

"Of course it is true. I know that the two of us will have a fight in the future, but before we can fight, can we remove the other obstacles, and if we want to fight, we will have a happy fight." Said dead grass.

Lu Yang said: "Of course I hope this is the case, but how can you guarantee that it is not me? You and Tianyao have negotiated and come to hit me together?"

The dead grass said: "In this way, you and I and my family Jie Shao announced the attack on Tianyao, how?"

Lu Yang said, "This is fine."

If the two of them announce together, it proves that there is no black box operation inside, and Tian Yao can only face the simultaneous attack of him and Liu Jie.

"What time?" Lu Yang asked.

"Seven days, seven days later," said the dead grass.

Seven days later is the best time for the National Day to officially fight. At the same time, it takes time to prepare potions and gather players.

Lu Yang said, "Yes, it will be 7 days later."

"Okay, then I'm leaving." The dead grass signaled slightly, withdrew from the special space, and went back to tell Liu Jie to go.

"Haha, that's great, then it will be 7 days from now. We will defeat Tianyao in the current state without any problems. Then we will announce the affairs of Liu Ruoshi and Lu Yang, and let the Brotherhood of Iron Blood disintegrate and unify the national service." Liu Jie said with satisfaction.

Chapter 928 - Undead Sovereign-Zu'an

After Liu Jie had finished speaking, he conveyed a word to Lu Yang through Tu Feng. "I hope we have a happy cooperation this time."

This article is really a hypocrite, at this time said such a thing.

Lu Yang sneered and said, "You go ahead and upgrade, I have to pretend to go."

"What's wrong?" The White Lion asked.

Lu Yang said: "Liu Ruoshi asked me to eat out tonight."

"Go, it doesn't matter, we all believe in you." Xia Yuwei said.

Lan Yu didn't speak, but smiled at Landing Yang. Lu Yang smiled, quit the game, changed his clothes, and went to Liu Ruoshi.

Liu Ruoshi is indeed beautiful. At this time, he was taking a photo of the evening dress under the sunset on the East Coast. The elegant and elegant evening dress set his body tall and straight, coupled with his perfect face and delicate makeup, plus the sunset Make her look extraordinarily beautiful.

Lu Yang waited beside the dock and took sunglasses to sit on the front cover of the newly bought sports car, deliberately posing a cool gesture. In the eyes of outsiders, he was particularly handsome, and soon he caught Liu Ruoshi's attention.

Liu Ruoshi looked at him while shooting. His eyes were full of strong emotions. Lu Yang didn't take off his sunglasses. This was the case during this time. He and Liu Ruoshi said that the reason is that they are afraid of being discovered and the guild is fighting At a critical juncture, he cannot be separated from Lan Yu. As long as the war is over, he must kick away Lan Yu and be with him, so Liu Ruoshi didn't care about it.

"Boss, there are no snipers or suspected targets in the surroundings suitable for attack." Black and white told Lu Yang through headphones.

It happened that Liu Ruoshi was blowing a kiss at him, and Lu Yang's face showed a smile. He waved at Liu Ruoshi, and said to black and white, "Let the brothers not relax their vigilance, my goal is too obvious."

Recently, in order to prevent Liu Jie from assassinating him, Lu Yang followed him secretly with more than 20 bodyguards.

"Okay," said Black and White.

Lu Yang pretended to continue to pay attention to Liu Ruoshi, but what he thought was attacking Tianyao, attacking a giant like Tianyao, but also pay attention to Liu Jie, too much to think about.

Liu Ruoshi came to Lu Yang in an evening gown after taking the photo, pulled Lu Yang's arm, and said, "Brother Lu Yang, I'm so tired. Let's go eat."

Lu Yang nodded, took Liu Ruoshi to the hotel, and chatted with her for a long time. Such a day passed two days in a row. On the third night, Han Ying called.

"Brother, I'm at level 100."

"I'll go back now." Lu Yang said.

Liu Ruoshi was having dinner with Lu Yang. It was only 8 o'clock in the evening. Liu Ruoshi asked curiously, "Is there anything wrong?"

Lu Yang said, "Isn't this going to be a decisive battle with Tianyao, there are a lot of things that need to be prepared recently, don't blame me."

Liu Ruoshi shook her head and said happily, "Go and go. I like your success."

Lu Yang smiled and turned and left. If this was told to a otaku, this otaku had to be fascinated by Liu Ruoshi, but what did Lu Yang experience in the last life would be a person who was fooled by such inferior lies.

Back in the studio, Lu Yang logged in to the game, just as Han Ying was waiting for him.

“Brother, I’m at level 100.” Han Ying said happily.

“A few of us have reached level 100.” Xia Yuwei said.

All the deputy chairmen such as Zhuojiu, White Lion, and Twilight rose to level 100.

“Boss, what are we going to do next?” Bitter Ai asked curiously for a long time.

Lu Yang said, “I’ll take you to a place and be sure to surprise you.”

“Where is it?” Bitter love asked for a long time.

“I’ll know when I get there.” Lu Yang took out his teleportation scepter and flew them to the Temple of Ten Thousand Souls. The 300-day wrath priest of Blue Feather was leading the Warrior Legion to upgrade in the Temple of Ten Thousand Souls.

“Boss, why are you here?” Asked the Divine Warrior Flameknife.

Lu Yang looked at the opening next to him and asked, “No one has gone in?”

“No, you keep me here, I haven’t left the place, I lay down here,” said Flameknife.

Lu Yang smiled and said, “Good brother, now you don’t have to guard, 300 days of wrath mage and 3000 divine warrior, follow me.”

“Go all?” Asked Zhuoshu in surprise.

Lu Yang said, “Everyone goes in. These people may not be enough. Try it first.”

The last floor of the Temple of All Souls is called the Temple of the Undead. In this layer, there is only one strange, Level 100 Undead Sovereign, and one of the Demon Gods of the Other World.

Lu Yang and his team entered the Temple of the Undead. This is a temple of war with white bones everywhere. The temple is as big as 6 football fields, and more than 3,000 people enter, not even one tenth is full.

In the center of the temple, there are three huge coffins, each of which is 50 meters long. In front of the coffin, there is an undead mage who is 3 meters tall and shining black light all over his body.

With a bone-bone staff in his hand, he was facing the three coffins to release the undead magic, and this magic seemed to be drawing energy from it.

Undead Lord Zu’an Lord

Level: 100

Qi and blood: 60000000006000000000

“This guy looks very strong,” Flame Knife said.

Lu Yang said: “Very strong. When I fight, he will summon the white bones on the ground. Be aware that these bones will become skeletons and generals between level 80 and 100. All divine warriors must be timely Use Deadly Throw to kill General Skeletons, Rev. Skywrath uses Dispel to kill Skeletons, and try to kill them in the shortest time possible. “

General Skeleton is very resistant to such skills as Holy Word. Fortunately, they are not many, and 3000 soldiers can throw them in a deadly throw.

“Okay,” said Flame Knife.

Lu Yang looked at the crowd and said, “This is the most important lord monster before our war. Must kill him. Are you ready?”

The crowd said, “Ready.”

Lu Yang nodded came 50 meters away from Zuan, the undead monarch, and pointed his right hand to the heart of Zuan.

“Blazing Heart”

A fiery flame burned on Zu’an’s black robe, interrupting his absorption magic.

“2600000”

“Damn, there were humans breaking into here, my soldiers, destroy them.” Zu An turned back and glared at Lu Yang, pointing a bone to the left of the ground in his hand.

You Fei’s green light covered an area of 100 yards. After the light, nearly 10,000 skeleton warriors stood up from the ground, including dozens of skeleton generals.

“Brothers, rush.” The flame knife roared and rushed forward with the Legion of Warriors in person.

“Unexpectedly, you also brought the army, and you all will become my undead.” With a wave of the bone-bone staff in Zu An’s hand, a cursed magic was launched towards the landing sun.

## Chapter 929 - Super strength

“flicker”

A flash of white light Lu Yang jumped back 100 yards away, the words in his mouth were spoken, and the chariot of flames appeared.

“Ding-dong cat, Mu Yu, Han Yu, Han Ying, Xiao Liang, Zhang Zibo, muddy wine, blue feather, black inflammation, muddy wine get on the car.” Lu Yang said.

Eight people immediately jumped onto the chariot. Xiao Liang was in charge of driving, and Zhuojiu and Zhang Zibo set up shields and blocked the rear of the chariot.

“Poor humans, you even want to run away.” The undead monarch laughed, and a series of spells were uttered in his mouth.

The system prompts: Undead Sovereign is about to use a large range of magic. Please pay attention to all players.

Countless resentment spirits suddenly appeared in the sky, the number seemed to be hundreds of millions, and they were entangled. The original light green turned out to be dark green due to overlap.

They gradually fell from the top of the hall. The faces of the undead were terrifying, as if they kept crying and roaring. Each undead had no arms, only one or two faces, and faced more than 3,000 people, such as Lu Yang and Flame Knife. They eat the same.

“What is this.”

“Why so many.”

“It’s going to fall. How do I feel this thing hurts so high that it can’t be carried?”

...

The top of the hall is more than 20 meters above the ground. At this descent speed, it only takes 5 seconds.

Lu Yang said to Han Ying around him, “Use new skills, doomsday judgment, interrupt his skills.”

Level 100 Han Ying can learn the top-level skills of Level 3 Destruction Heart because of his special profession. This skill is too special and should actually be called too buggy, so there are many restrictions, and you must learn to level 100.

This skill is called Doomsday Judgment. It has only one effect. He can control a player instantly. He cannot use any skills or passive skills. During the controlled time, the target player loses 2000 points of blood per second. The time is 60 seconds.

In other words, once you are hit by this skill, you will not be able to use any skills during these 60 seconds, you can only escape.

Even if you are an anti-battle or anti-riding player with a level 80 excellent golden suit, you will be killed if you are hit by this skill.

At the same time, this skill is also the only one that can be released to the lord monster. He cannot control 60 seconds, but can control 15 seconds. This is the special feature of God’s Heart.

In order to kill the undead monarch this time, Lu Yang brought three hearts of gods, all of which are \*\*\*\* hearts of level 3. At the current level, it is quite extravagant.

Han Ying pointed at the undead lord in his left hand, and a dark green light hit his body. The light instantly enveloped his body and interrupted his spells.

“This is the power of destruction, human beings, you have to pay for it.” The undead monarch was furious and ran towards the landing sun.

“Xiao Liang, drive fast.” Lu Yang said.

“Good grin.” Xiao Liang whipped his horse, and drove towards the distance in a flame chariot.

“Everyone outputs, kill him together.” Lu Yang said.

“Look at me.” The Ding Dong cat turned on the three-level state of Luna Godhead, and his blood volume instantly changed from 80,000 to 1.

“Moon of the Moon”

A silver-gray light burst out from the cat’s bow and arrow. When it shot out, the arrow began to swell instantly. In less than 1 second, it expanded into a huge silver-gray light ball with a diameter of 10 meters. .

It looks like a moon. The undead monarch chasing him in the middle of it has taken back five or six steps in a row. After stopping, the undead monarch’s movement speed has been reduced by 30 for 30 seconds.

“What kind of skill is this?” Zhuzhuo asked in surprise, being able to slow down the lord for such a long time, which he could not imagine.

“This is called Moon Moon, which can reduce the moving speed of the target 90. It is unexpected that it will only be reduced by 30 when hitting the lord.” Ding Dong cat looked disappointed.

Lu Yang said with a smile: “It would be nice to have this.”

The last master who possessed the moon \*\*\*\* personality, a person can hold a barrier, with the ultra-high deceleration of the moon's awn, a skill to fight, in addition to using the city roll, the player is extravagant to walk, only like a target Waiting to be killed.

"Look at me." Mu Yu said, she just received the Nine-series elemental ball and the heart of the demon \*\*\*\* from Lu Yang. Now she is also wearing a suit of the destroyer, and the snail is flying to give her from the Fire Spirit Hall Stolen.

The little girl used the Thunder of Penalty to hit the Undead Sovereign and killed more than 2 million of his blood.

Lu Yang took out the elemental ball and the heart of the demon god, read a spell in his mouth, and the fire cross hit the undead monarch one by one. After 30 seconds, he released the flame of the heart again.

After 15 seconds, the undead monarch resumes magical attacks, but he is the undead monarch. His main attack skills are summon skeletons and undead creatures.

During the period when he was under control, the thousands of skeletons successfully destroyed by Rev. Skywrath, and the skeleton generals were also killed by deadly throwing by the magic warriors.

"Your runaway makes me sick. God said that you will be pursued by undead souls until you die." The undead monarch threw his staff into the air.

A light from the staff turned into hundreds of bone masks, each of which contained an undead.

"I said his wand looked so awkward. It turned out to be a mask." Zhang Zibo said.

"How to fight this?" Asked Zhuzhuo.

Lu Yang said, "Run in the direction of the magic warrior."

“OK.” Xiao Liang drove the flame chariot in the direction of the magic warrior.

When the undead monarch summoned the undead, he summoned a skeleton, the priest of skywrath was killing, and 3,000 divine warriors were looking for the skeleton general.

“Boss, there are no skeleton generals in this wave,” shouted Flame Knife.

Lu Yang said: “All the magic warriors aimed at the masks flying behind me and used deadly throws to hit them all.”

Undead Undead has only one drop of blood, but this one-dead Undead armor is invincible, and the only thing that can break invincible is lethal throwing.

“Yes.” Flame Knife turned his head, a spear appeared in his hand, and threw it at the undead flying in the air.

In an instant, 3,000 people threw spears at the same time. They used the automatic mode. Although the masks flew fast, it was not easy to hit. The conventional hit rate was only 10, but there were 3,000 spears. They just hit hundreds of masks. Come down.

“Good job.” Lu Yang waved his fists at them, and 3000 players such as the Flame Knife also waved their fists at Landing Yang.

“Boss come on.”

“Look how the boss abused this 100-level lord.” Lu Yang said loudly.

Breaking the mask skills of the undead monarch is equivalent to playing over half. The mask’s health is only 1 point, but the attack power is more than 100,000. Non-defense class occupations must die.

In the last life, I didn't know how many top studios worked hard in order to crack this skill, and they could finally practice it.

There are only such a few people in the magical warrior. Until the official release of the limit on the number of special occupations, many players can be transferred to become magical warriors. After the professional skills are gradually interconnected, the undead monarch becomes much easier.

There are three of the most difficult skills of the undead monarch. The first is the Wraith Roar, which is the ability to drop a large group of undead in the sky. This skill will destroy all players' health and only 1 point of blood is left. Desperately brushing blood can resist the lord's attack.

The second is a mask. Now these two skills are cracked by the doomsday judgment, one is cracked by the magic warrior, and the only one is the wrath of the undead.

"Humble human, you will bear the wrath of the undead." A pale green light suddenly appeared in the hands of the undead lord, and ran towards the chariot of flames.

"Run right." Lu Yang shouted.

Xiao Liang immediately drove the chariot towards the diagonal right side, almost letting the chariot avoid the green light.

"What skill is this?" Xiao Liang asked, looking at the skill he had avoided.

Lu Yang said: "This skill has 10,000 points of damage on its own. He will stick to the player's body. After 30 seconds, the number of sticky abilities will explode and continue to the right."

Xiao Liang quickly turned his horse and avoided the second skill.

If at this time the official sees Lu Yang and Xiao Liang cooperate, they will be shocked. Starting from the release of the lord's skills, the flight time of the Wrath of the Undead is only 1.5 seconds, and the distance traveled is 80 yards, that is, From the release of skills, to the talk of Lu Yang, to the turn of Xiao Liang's reaction, it must be completed within 1.5 seconds.

How can an average person do this kind of thing, even a master is difficult, let alone two people.

But who can think of how hard Lu Yang and Xiao Liang exercise every day, especially Xiao Liang, in order not to drag Lu Yang back, he secretly asks Han Zhong to help strengthen the intensity of the exercise every day.

It is not scary to have a master in this world. What is scary is that a group of masters are gathered together and willing to do one thing under the leadership of one person.

The people in this car, Lu Yang, Han Ying, Han Yu, and Xiao Liang, have all gone through a rigorous exercise for more than a year. Lu Yang has the foundation of the previous life, and Han Yu and Han Ying have had hard training from childhood to age. .

Lu Yang can predict the attack position of the skill as soon as the lord blame the shot Xiao Liang's reaction speed is slower than Lu Yang, but it also reaches 0.55 seconds, leaving the direction to change for almost 1 second Just right.

The Undead Sovereign released dozens of green rays in succession without hitting Lu Yang. His big move interval was 2 minutes. When the time came, he summoned the undead at the top of the hall again.

Unfortunately, the cooling time of Han Ying's doomsday trial is also 2 minutes, and he is released again according to the lord monster.

The cooldown of Moon Moon is also 2 minutes, and the undead monarch can no longer be controlled and can reduce the movement speed by 30.

When he was able to cast the spell, he summoned the undead again. The mask just flew out, and before spreading, 3000 spears flew over and broke the mask.

"Good job." Lu Yang shouted with a smile. He just wanted to shout just now, but his spirit was concentrated on the lord, fearing that he suddenly released other skills. I did not expect the speed of the flame knife to be realized so quickly that the staff changed. The moment you become a mask, it is easiest to focus with a spear attack.

## Chapter 930 - Level 4 Death Heart

The Undead Sovereign can only continue to use Undead's Wrath to attack without skills. Xiao Liang and Lu Yang cooperated to easily burn his blood to 5 billion.

"Your life will be extremely weak." A dark green light appeared on the top of the wand of the undead monarch.

Lu Yang said: "The muddy wine is ready to launch invincible resistance skills."

After 3 seconds, the undead monarch pointed at Lu Yang's chariot with his left hand, his eyes drastically widened, and his shield was blocked in front of Zhang Zibo.

System prompt: You are in the curse of weakness

The effect of this skill is to increase all damage to the player by 100%, and it is also a signal that the undead monarch releases his second skill.

"Contribute your life to me." The dead monarch's right-hand staff pointed at the muddy wine, and a dark green beam of light caught him instantly.

This skill is called soul siphon. If hit, it will draw 50,000 points of blood to the player every second, and restore 500,000 points of blood to him.

"Invincible." Lu Yang shouted.

There was an instant holy light on the body of Zhuoshu, and the skill was activated at the same time that the green beam of light hit him.

“Miss”

System prompt: Undead monarch skill failed to use

Lu Yang said, “Pretty, keep fighting.”

The Undead Sovereign will only release this ability after each drop of 1 billion HP. When the next 1 billion HP is dropped, it is estimated that the muddy wine can be released again.

The fighting returned to its previous state. The undead monarch was controlled by Han Ying and Ding Dong Cat’s skills. He could not release the spells and could not catch up with the chariot. He used a long distance to release the undead wrath.

After grinding for more than 10 minutes, his blood volume dropped to 4 billion, and the soul siphon was released again. This time, Lu Yang blocked in front, using an ice barrier to block this attack.

The flame knife stood by them, watching Lu Yang with their own top-level operation, the extreme evasion skills and control of the lord, opened the eyes of these 3000 magic warriors and 300 days of anger priest.

“It’s awesome. One person speaks, and the other person is in charge of the operation. It can really achieve such a rapid cooperation and such trust.” Flame Knife said.

As long as Lu Yang gives an order, Xiao Liang can respond immediately. Han Ying, Han Yu and Ding Dong Cats also output without any scruples. When support is needed, Zhuojiu and Zhang Zibo can be topped at any time. This is only at the top. Only in top studios and teams.

That is the unconditional trust that everyone knows that the other party can complete those actions and can give the teammates other time.

As long as one of the links is wrong, the driver will be killed, but from the beginning to half an hour to one hour, none of Lu Yang made a mistake.

Finally, the blood of the lord's monster dropped to 2 billion. At this time, the undead monarch released more skills.

"Taste this extreme toxic pain." Dark green magic appeared on the wand of the undead monarch. For a moment, everyone in the audience was hit by magic.

"-10000"

"-10000"

...

In less than 10 seconds, everyone's health dropped to 1 point.

"Add blood, you're going to die," shouted the head of Rev. Tiannu.

When the amount of blood reached 1 point, he stopped and did not continue to drop it, but as soon as the priest added blood, he would be forced to drop to 1 point.

Lu Yang said, "The time has come to test our strength. Continue to fight. As long as we still do not let him hit, we will not die."

"Okay." Zhuo Jiu shouted together.

"I rely, this pressure is too great," said Flame Knife.

The next Rev. Skywrath said, "Everything is wrong at this time, everyone is finished."

"Look at the strength of the boss." The flame knives can believe that Lu Yang can play them. It is really that the undead monarch has released his skills too quickly. As long as there is a mismatch, the previous ones will be vain.

Lu Yang stared closely at the wand of the undead monarch. As long as he had action, Lu Yang could predict ahead of time and let Xiao Liang dodge the moment the opponent released the magic to determine the trajectory.

The Flame Knife watched the green undead wrath passing by Lu Yang's chariot from a distance. Everyone squeezed sweat for them, but that's it, Lu Yang didn't get hit by the opponent once.

After 10 minutes, the toxin effect ended, and Lu Yu replenished Lu Yang and the whole group with blood. At this time, the blood of the undead monarch had only the last 1 billion, which was not a problem for Lu Yang. .

"I really want to record this video and post it on the Internet, so that those studios who have professed themselves on the forum will have a look. What is cooperation and what is strength." Flame Knife said.

"I don't think so, haha," said a priest in skywrath.

They were still worried about Lu Yang just now, but they are not worried anymore, waiting for the death of the Lord Monster.

9 billion

800 million

...

100 million

To 90 million, until the last 10 million, the undead monarch helplessly watched by the slowness of Moon Moon and the doomsday judgment on his body, no matter how he summoned the skeleton, it was no help. In the end, his health remained The last 30,000.

“Give me to death.” Lu Yang jumped out of the chariot suddenly, condensing a spell in the volley, and a flame cross appeared in his left hand.

“flicker”

The white light flashed, and Lu Yang appeared instantly in front of the undead monarch, and the flame cross slammed into his head.

“62186” (Critical Strike)

System prompt: You killed the undead monarch

You are the first server in the world to kill a level 100 lord. Are you in full service?

Lu Yang refused. He didn't want to be in a horrible situation at this time, watching the undead monarch's huge body slowly fall. He looked back at Ding Dong Mao and Zhuo Jiu, etc., and said, “Win.

“Lord 100, we succeeded.” Dingdong cat jumped excitedly.

Zhuoshu was also excited.

The white lion and bitter love half-life standing by the side rushed over excitedly.

“Boss, it's amazing.” Zhou Tianming said.

“We’re still the first in the whole service,” said bitter love for a long time.

“Look at what’s breaking.” Sun Yu said anxiously.

Lu Yang looked at the ground, and the undead monarch exploded a large area of 8 \* 8, and dropped a total of 64 things.

Among all the items, a black skull token stands out.

Soul of the Undead

Description: Symbol of Death

“What is this?” The White Lion asked.

Lu Yang looked at the token with emotion and said, “Finally, he got it. Do you know that this token is one of the rarest treasures on this server? It has only one role to upgrade the heart of death.”

After watching the road show, he handed the token to Han Yu and said, “Take this upgrade and go back, then I will tell you how to use it next.”

Han Yu nodded and said: “I said that I had a familiar feeling with this token. It turned out to be an upgrade for me, and I will come back.”

Other upgrade materials have been prepared for a long time. Only in this way, it must be hit by the level 100 lord. Just like Lu Yang’s demon heart, it also needs to kill the level 100 fire element lord to drop.

Everyone watched Han Yufei go back, Xiao Liang asked: “Boss, I remember you told me once, you said that there was no stopping, if he can persist to raise the heart of death to level 4, it will be difficult for us Win him. “

Lu Yang said: "Yes, if Bian Wuji had the ability to raise the level of death to level 4, we would not be his opponent at all."

"Is the 4th level of death so strong?" Xia Yuwei asked.

Lu Yang said: "It is so strong that no one of you can imagine. When he comes back, I will let you see his strong reasons."

"The first time the boss spoke in this tone, it looked really strong." Zhou Tianyan said.

Lu Yang revealed his recollection and said, "If you want to talk about the power of war, the magic heart of the element system is best used to fight position battles, but when it comes to raids, the heart of death is absolutely first."

"Boss, I can't wait anymore, it's too appetizing." Bai Lang said.

Lu Yang laughed, didn't speak, and continued to wait.

After 2 minutes, a flash of light flashed, Han Yu returned from the special space, looked at Lu Yang and said, "Brother, I don't feel that there is any strength in Level 4 death."

Lu Yang smiled and asked, "Tell me what skills you have?"

"Summoner Summoner, said to be able to resurrect the dead higher-level creatures, what does this mean?" Han Yu asked.

Lu Yang pointed at the three huge 50-meter-long sarcophagus in the distance and said, "Go there, use the summoning to the sarcophagus, and let me see the true power of the heart of death."

Han Yu blinked, and he was still a little hesitant, but came to the first sarcophagus in the words of Lu Yang.

Zhuo Jiu, Xia Yuwei and others followed him and walked together.

Han Yu chanted a spell in his mouth, pointing his left finger at the first of three juxtaposed sarcophagi.

“Call of the Underworld”

An extremely intense black-gray light burst out from Han Yu’s hands and shot straight into the sarcophagus.

“Hello ~!”

An earth-shattering roar frightened everyone, and they looked at the sarcophagus with a sting in their eyes.

At this time, the sarcophagus shook violently, and the runes on the sarcophagus emitted a dazzling golden light, as if fighting fiercely, but the dark gray light and the power inside the sarcophagus were too powerful, and everyone saw the golden runes being broken and broken ,at the same time.

“boom”

The sarcophagus burst, and numerous stones splashed around. In the sarcophagus, a huge bone dragon 50 meters long and 20 meters high stood up.

“What is this?” Ding Dong Cat asked in surprise.

Han Yu said ecstatically: “This is my new summoned beast, a high-level creature.”

Lu Yang said: “Share the panel, I look at the properties.”

“Okay Han Ying shared the property with everyone.

Necromancer-leaving

Level: 100

Qi and blood: 1000000/1000000

Physical Defense: Physical Immunity

Magic Defense: 20000

Attack: 100,000—100,000

Special Skills:

Magic Defense Shell: Resist 36% Spell Damage

Ghost Dragon Breath: Deals 80,000 damage to a 200-yard cone

“Others don’t say what this physical immunity means,” White Wolf asked in amazement.

“It means that using physical attacks against him is invalid.” Lu Yang said.

Chapter 931 - 3 dragons

“The attack power is still 100,000. This is too much. Such a summoning beast can make Han Yu no opponent.” Zhou Tianming said.

Lu Yang said, "More than one summoned beast, Han Yu, continued to summon the second sarcophagus."

"Can it be summoned?" Everyone exclaimed at the same time.

Lu Yang said: "Of course, he can summon three special monsters. The three most valuable monsters of the entire human race are here."

Han Yu was in a stunned state. He couldn't accept such a sudden change. He came to the second sarcophagus and asked, "Brother, what can this call out?"

Lu Yang said, "You know when you call."

Han Yu made a sigh, pointed at the second sarcophagus with his left hand, and launched the call of the Underworld.

"boom"

The second sarcophagus exploded instantly. In the midst of a cloud of smoke, a four-winged gray dragon with a length of 50 meters and a height of 20 meters stood proudly upright.

"Another dragon ?!" The White Lion was stunned.

Han Yu shared attributes.

Hell Dragon-Hellfang

Level: 100

Qi and blood: 1000000/1000000

Physical Defense: 30,000

Magic Defense: Magic Immunity

Special Skills:

Spiked Shell: Resists 50% of Physical Damage

Breath of Destruction: Deals 80,000 Chaos damage to a 200-yard cone in front.

Lesser curse:

Hell falls

“This dragon will have a secondary curse?” Jiang Ze said in surprise.

“Summoning beasts have a secondary curse, how strong is he?” Sun Yu said.

“That’s not the main thing, the main thing is that this guy is magically immune, and this kind of strange.”  
Hei Yan said.

Han Yu said: “One physical immunity, one magic immunity. I can make my baby resistant in the future.”

Lu Yang said with a smile: “It’s not over yet, the last sarcophagus, keep calling.”

Han Yu and everyone looked at the last sarcophagus, and everyone looked forward to it.

“what is this.”

“Summon, call, you know.”

...

Han Yu aimed at the third sarcophagus and called Summoner.

“boom”

The sarcophagus burst with a three-headed dragon, blue on the left, red on the right, and purple in the middle. His body was extraordinarily large, as if there was infinite magic in it.

Ancient Dragon-Nabis

Level: 100

Qi and blood: 1500000/1500000

Physical Defense: 35000

Magic Defense: 35000

Special Skills:

Restoration Floating Jump Absolute Barrier Time Distortion

Dragon Breath Blazing Blazing Dragon's Reverse Scale Fury

Ice Burst

Lesser curse:

Space-time cutting

Meteor fire rain

Frozen Roar

“Well, this one will have three secondary banned spells,” said Zhujiu, pouring out even the lightest turbid liquor in the game.

“Why are there so many skills in this dragon?” Xia Yuwei asked.

Lu Yang said: “This dragon is a three-series dragon. Three heads can release magic at the same time. Each head is released instantly. Only the banning spell needs 10 seconds to read. It is very powerful.”

“Boss, how could there be such a strong summoning beast, which is a little unreasonable.” Zhou Tianming asked.

Lu Yang said: “These three summons are not very strong. When you reach the level 100 excellent gold equipment, you will know that the three of them are just more blood. Their origin is a copy from the official library. I saw it in the book.

These three sealed dragons, Li Li, Teeth, and Nabes are the guards around the ancient dragon \*\*\*\*  
Twelve Winged Dragons.

The dragon \*\*\*\* was severely hit in the battle of the ancient times, and entered a dormant state. The three of them venged for the dragon \*\*\*\* and were also sealed here.

After countless hours, their strength has greatly diminished. They were discovered by the undead monarch, absorbing energy from them, and reducing their strength a lot. “

These words are the official explanations of the last three of them. Perhaps when the players have reached level 100 and are wearing dark gold or above suits, these three are just ordinary summoning beasts. At present, the entire population is below level 80. A small number of players reached the age of 80 or more, but no equipment, these three dragons are gods!

“These three dragons are so cool,” said Flame Knife.

3000 magic warriors and 300 days of wrath mage watched Han Yu summoned out three dragons one by one.

Looking at the three dragons 50 meters long and 20 meters high standing behind Han Yu, everyone had a feeling of looking up.

“It’s too domineering,” Sun Yu said.

Han Yu said excitedly: “Brother, this is so handsome, I like it too much.”

Lu Yang said with a smile: “There are more you like.”

He picked up a long black bow from the ground and threw it to Han Yu. “Hold on, now, you are the strongest attacker in the suit.”

“What is this?” Han Yu took the black longbow, and when he saw the attributes, he showed an unbelievable look.

“Legendary bows and arrows!” Han Yu exclaimed.

“Legendary, send it out soon,” Sun Yu said.

Divine Bow-Night (Legend)

Level: 100

Damage: 36999—49800

Strength: +5000

Stamina: +3840

Additional attack power: 16656 points

Additional physical penetration: +16656 points

Additional physical crit: +16656 points

Special effects:

Dark Curse: Every time you attack, the target will be dark cursed. When you kill the player, a skeleton will appear from his body to fight for you.

Increase range: Your attack range will increase by an additional 400 yards.

Increased rate of fire: Your attack speed will be increased by an additional 30%

No arrows needed: When the night is opened, an energy arrow will automatically appear, causing a corrosive effect and reducing the target's 5000 armor.

Description: It once killed an ancient god, hence the name Gao Shen bow.

“There are more than 70,000 of such weapons,” said White Lion.

“There is an additional 400 yard bonus,” Sun Yu said enviously.

Han Yu is a little embarrassed.

Lu Yang said: “I didn’t expect that luck was so good that I lost the legendary weapon for the first time.”

There are 37 legendary weapons at level 100, each of which is very difficult to obtain. In order to be able to obtain a legendary weapon, I did n’t know how many players stayed at the lord’s refreshing point, let alone imagine how many pk battles they would have to do every day to snatch. Lord, as for killing, it is more difficult.

Lu Yang’s idea was that it was enough to get these three dragons. I did not expect that this weapon burst out unexpectedly. It can be seen that when the land was opened up, the equipment provided was really good.

“Don’t be envious, let’s go and fight the lord. With Han Yu’s three dragons and this long bow, all of you don’t need to worry about the equipment.” Lu Yang said.

“OK.” Everyone was excited.

Lu Yang said to the flame knife beside him: “Continue to lead the team to upgrade and be prepared. I will replace the first batch of equipment for you.”

“Yes,” said Flame Knife.

Lu Yang took out his teleportation scepter and flew everyone to the Fire Elemental Temple in Elemental Space.

Looking at the Elemental Temple directly ahead, Lu Yang said, “Finally, it is possible to kill the ancestor of the Elemental Fire. I have been looking forward to it for too long, let’s go.”

The Fire Elemental Temple is on the top of a volcano. This is an active volcano that flows constantly throughout the year. The top of the mountain does not smoke, but magma will flow down the gully formed in the valley.

The only road up the mountain is only 1 meter away from the magma. The hot temperature and the redness peculiar to the magma make people look daunting.

At the top of the mountain, a beautiful white temple appeared in front of everyone. The central area of the temple was a magma lake. Near the lake, thousands of fierce monsters were walking by the lake.

Troll (elite)

Level: 100

Qi and blood: 2000000/20000000

The shape of the fierce monster is a demon creature burning with flames all over his body. He has a body of 5 meters high, with four horns on his head, and it glows red.

“It feels very strong,” said bitter love for a long time.

They are still wearing Level 70 magic suits. In the face of Level 100 elite monsters, everyone does not know what to do.

Lu Yang said: “These monsters are very difficult to kill. Their attack method is mixed, with both fire and physics. Their own defense and magic resistance are particularly high. To kill them, only Han Yu’s dragon will go up.”

The fangs are magically immune and have high physical defenses, which can be used to resist monsters.

Han Yu asked, “Did you pull it all at once?”

Lu Yang nodded and said, "Pull it all over and leave the rest to me."

The fangs fluttered their wings and took off. They fell to a large rock beside the lava lake and faced the surrounding trolls. He opened his mouth and sprayed out the devastating breath.

"-80000"

"-80000"

...

Destroying Dragon Breath is chaotic damage. Ignoring magic resistance, the 200-meter-long Dragon Breath brings nearly a thousand fierce monsters around.

"Hello ~!"

The Trolls couldn't speak, only roared. They ran to the front of the fangs, and their fists with burning flames slammed into the fangs' body.

"19716"

"18912"

...

Each attack is accompanied by a magic attack, but this damage is not much to 1 million blood of the fangs, but the only drawback is that the fangs cannot be added to blood. He is a dark creature, a priest and a paladin's healing magic pair. They are invalid.

The only thing that can add blood to the fangs is the recovery of the three-headed Long Nabis, which recovers 20,000 HP per second. However, there are 8 trolls surrounding the fangs, which drop 80,000 HP per second.

“Lava Eruption”

Lu Yang creates a large area of lava around the fangs. The fierce fire spell defense is up to 67%, but the lava eruption skill comes with intellectual damage. Lu Yang has a demon heart and can break 45% of the spell defense.

Soon, the blood volume of the surrounding trolls decreased rapidly, but the blood volume of the fangs also decreased rapidly.

Lu Yang said, “Hei Yan uses control magic.”

“Flame Mucus”

Hei Yan wields a wand in his hand and sprays a large amount of mucus. This mucus will reduce the attack speed and movement speed of the troll, reducing it by up to 80%.

“Flame Storm”

“Thunderbolt”

...

Lu Yang, Mu Yu, and Hei Yan used control skills in turn. Without letting the fangs take too much damage, they persisted for half an hour, and thousands of fierce demons were killed and dropped. Lots of 100-level gold mage equipment.

Tough Magic Robe (Gold)

Level: 100

Defense: 3000-3333

Intelligence: +3868

Stamina: +2886

Spell damage increased: +6000

Increased Spell Penetration: +6000

Increased spell critical strike: +6000

#### Chapter 932 - Ancestor of fire element

Lu Yang searched on the ground and found a total of 8 pieces, all of which were replaced on his body. He gave the set of the World Destroyer to Hei Yan. The weapon in Lu Yang's hand was replaced with a magic bone staff, and the team continued to go forward and cross the lava lake to the main hall of the temple.

This is an open-air hall. At the back of the hall is another lava lake. This lava lake is twice as large as the previous one. On the lava lake, there is a 5-meter-wide road without knowing what stone it is made of.

Extending from the lobby to the center of the lake, at the center of this lava lake, there is a huge flame demon more than 30 meters high. His right hand is holding a great sword, and his body is burning with red flames.

Phil the Fire Elemental (Lord)

Level: 100

Qi and blood: 6000000000/6000000000

“He is the ancestor of the flame? What skills are there?” Jiang Ze said.

Lu Yang said: “He will release 3 fire-blocking spells, and his movement speed will be faster than my hot blazing speed, and the magic damage is 300,000.”

“So have we ever fought?” Jiang Ze asked silently. Such an injury, even if it hit Xiao Liang, would instantly kill, let alone others.

Lu Yang said, “Don’t worry, we can fight with these three dragons.”

“How to fight?” Han Yu asked.

Lu Yang said: “The ancestor of the flame has two forms. The first form is a spell attack mode. You use the fangs to resist. At this time, he will summon the monsters of the physical department. You must run away to take them to 1000 meters. To fight outside, we quickly destroyed the summoning beast of the physics department.

In the second stage, he will use physical attack mode to summon magical creatures. You have to leave to resist, and use fangs to resist magical creatures. “

The ancestor of the fire element only has these two forms, which is considered a bug play, but anyone who can use this play must have the heart of death, and no one else can.

Lu Yang asked Hei Yan and Mu Yu to stay 1,000 meters away, and took Han Yu to a location 50 meters away from the ancestor of the fire element.

“Human, can you come here and prove your strength, but do you want to challenge the dignity of the father of fire?”

With a sneer on Lu Yang’s face, a flame cross appeared in his hand, aiming at the head of the ancestor of the fire element.

“Flame Cross”

The spinning flame cross hit Phil’s head with a gorgeous crimson glow.

“40186” (Critical Strike)

“Since you’re looking for death, I’ll do it for you.” Phil’s face remained scornful, and he slightly raised his left arm.

“My servant, obey my call, destroy this group of ignorant humans.” Portals appeared on both sides of Phil’s body.

“Quack ~”

A harsh sound came from the portal, and a large number of infernal demons holding a two-handed sword jumped out of the portal and chased towards the landing sun.

“Mingfang against the lord.” Lu Yang released a burning flame at Phil and turned and ran.

Han Yu ordered Mingya to resist the lord, and ran with Lu Yang towards the distance. He ran for 1,000 meters and took hundreds of purgatory demons to Mu Yu’s side.

Purgatory Demon (Elite)

Level: 100

Qi and blood: 20000000/20000000

“Let’s get out of the way,” Lu Yang said.

Han Yu ordered the release of the Nether Dragon Breath, and attracted hundreds of Purgatory demons all around him.

Lu Yang they hid behind, all wearing spore capes to reduce hatred.

“Lava Eruption”

“dark Fire”

“Thunder Shock”

Lu Yang, Hei Yan, and Mu Yu all covered the ground in a very short time.

“Use Nabis’s group to hurt.” Lu Yang said.

The three-headed Ronabis has 12 skills, most of which are offensive.

“OK.” Han Yu immediately ordered Nabis to participate in the battle.

“Ice Blizzard”

“Ice and Fog”

“Dragon Breath”

“Furious Fury”

...

A series of 7 skills were thrown out, each of which caused 50,000 magic damage per second. Nabis also had the ability to penetrate magic, and the magic resistance had little effect on him.

“-48168” (Critical)

“-50182”

“-2029”

“-3027”

...

Huge pieces of damage fell on these hundreds of purgatory demons, and within five minutes, hundreds of purgatory demons were all killed.

Lu Yang said, “Stop, don’t go forward.”

“Ignorant humans, you have killed my slave, you will be punished.” The ancestor of the fire element roared, his right hand pointed at the sky.

“Stars Fall”

Suddenly it turned red in the sky, and a harsh sound of breaking air came. Everyone looked up, and countless house-sized fire meteors descended from heaven.

After 3 seconds, the meteor slammed heavily on the ground. The area of 1,000 yards in front of Lu Yang and others was like hell.

Lu Yang saw that the skill was released, and had no time to look at the shock of the technical effect, and shouted: "Follow me, he will release the second forbidden spell in 5 minutes, and he must rush out some of his blood before that."

Han Yu, Mu Yu and others rushed to Landlord with Landing Yang.

"Blazing Heart"

"God punished Sky Thunder"

The two have successively exported more than 4 million hit points to the ancestor of the fire element.

Han Yu used the bow of the God of God—Night Shot. His output damage reached more than 100,000 points per second. In 30 seconds, he lost more than 3 million qi and blood of the lord, which was more harmful than Lu Yang's Blazing Heart Flame. Both are high.

Dingdong Cat ambush uses Moon Moon in the distance, and can deal more than 30,000 damage per second. Counting the black poison, the three-headed dragon Nabis, the poison of Jin Buhuan, and Han Fei's vicious blow, 5 minutes later, The ancestors of the elements were killed by 200 million points.

"Skyfire Extinct"

The ancestor of the element of fire was enraged, his left hand was raised above his head and he began to release the curse.

Lu Yang said, "Run, we only have 10 seconds."

“Yes.” Han Yu and others ran towards the distance along with Lu Yang.

After 10 seconds, they ran a distance of 1,000 yards. At this time, countless flames fell in the sky. Each flame was as beautiful as a blooming flower. It was very beautiful and could be very harmful. Lu Yang remembered this trick. The second injury was 300,000.

“He’s going to change form and let the fangs come on.” Lu Yang said.

The fangs standing beside Han Yu immediately rushed forward, and they could take off when they left. When the fangs hit the Lord of Fire, they had to retreat from the beginning and retreat not far.

“My servants, come out and destroy these enemies.” The Lord of Fire Elemental made a left-handed move, and two portals appeared beside him, and a large number of crimson demon mages came out of the portal.

Demon Mage (Elite)

Level: 100

Hit points: 10000000/10000000

Without Lu Yang talking, Han Yu ordered to spit the dragon breath and pull all the demon mage together.

“You don’t have to run backwards, it’s near the lord. Everyone uses range skills to fight with the lord.” Lu Yang said.

The Lord of Fire Elemental in physical attack form will not release magic. He only uses his big sword to chop the fangs, and the fangs are physically immune and completely unharmed.

Zhuojiu and White Lion could not help but stood up beside each other. Several people looked at Lu Yang with some emotions.

“The ultimate blame of this 100-level is too difficult, so calling back and forth, the strength is almost unbeatable.” Sun Yu said.

“It’s really too difficult, the 100-level lord, I hope to finish it soon.” Xia Yuwei said.

This is the simpler one of the elementary lords. If you replace it with the earth lord or thunder lord, the difficulty factor is one third higher than this.

Lu Yang didn’t know much about other lords, but he knew the lord in front of him very much. He didn’t know how many times he played in the last life. That was what happened after most guilds had entered the new continent to compete.

At that time, Lu Yang was not high-level. He took the elite in the guild and occupied this place for a period of time. Although this lord is difficult to kill, every skill and release time is in Lu Yang’s head. You can hit it with your eyes closed, but it’s very handy.

An hour later, the lord’s health dropped to more than 4 billion points.

Two hours later, the lord’s health dropped to more than 3 billion points.

...

Four hours later, the lord’s blood was only 100 million. At this time, everyone’s face showed an excited look.

“Come on, you’re about to succeed.” Xia Yuwei and White Lion cheered Lu Yang from a distance.

Lu Yang was concentrated, and when the lord blame the last 10,000 blood points, he threw out the flame cross in his hand.

“40186” (Critical Strike)

The Lord of the Elements of Fire looked at his cracked chest, his eyes full of wonder, fell to the ground, and said, “I am not willing.”

System prompt: You killed the ancestor of the fire element

Lu Yang, Han Yu and others all collapsed to the ground, watching the 8 \* 8 big explosion falling in front of them, they had no strength to pick up.

“Boss, are you all right?” Zhuoju waited for someone to come over and asked.

“It’s okay I finally insisted, help me get the flame token over there.” Lu Yang said.

For half a life, I ran to the fallen equipment to pick it up, picked up a token and handed it to Lu Yang, Lu Yang read the spell and flew back to the demon temple, placed the token on the altar, and gathered other materials before Putting it all together, after taking out the heart of the demon \*\*\*\* and combining them, the fourth level of the heart of the devil was formed.

The light flashed, Lu Yangfei returned to the ground and looked at the crowd and said, “I have succeeded in synthesis. Tell me what equipment you want in the future, I will give you all.”

“Boss, I want a legendary two-handed sword.” Said bitterly for half a life.

Lu Yang laughed and scolded: “Then hit the two-handed sword first, but half of your vice-chairmen can use two-handed swords. When that time comes, you can compete for the highest point.”

“Roll a little God and bless me, and let me throw 100 points.” Praying for half a life.

Lu Yang took out his scepter and took everyone to the junction between the human race and the orc. He replaced him with the golden lion king and said, “Follow me, I will take you to the new map.”

## Chapter 933 - Assault Tianyao

This map drops equipment that can be used by both humans and orcs. It contains not only a two-handed sword, but also a totem pole.

Along the steep mountain road, Lu Yang led the team for more than an hour and came to a high mountain, and a huge main city appeared in front of them.

System prompt: you found the city of war

This main city is very special. Within a huge wall, it contains two castles, one near the wolf and one near the human.

According to the official official history introduction, the orcs and human races each occupy a castle, and each month to the middle day, there will be a duel match between the orcs and human races.

This tradition continued until the invasion of the blood race, when the blood race invaded humans, the middle area between the beast and the human race was separated.

This was originally the base camp of the blood race, but the invasion of the demon from the other world began, and the place was beloved by the demon from the other world, and he chose it as his nest.

Lu Yang led the team to the door, and two six-armed demon stood at the door.

Dobby Elite

Level: 80

Qi and blood: 1000000010000000

“Looking at this weird, suddenly it feels easy to fight.” Said bitter love for a long time.

Recalling the scene where Lu Yang just hit the level 100 lord, White Lion and Xia Yuwei and others felt that this elite monster’s blood was too close to the people.

Lu Yang said with a smile: “Han Yu told you to leave and block the door with fangs. I put a forbidden spell to clear the strange.”

“Okay.” Han Yu let the two dragons slam into the dooby, and slammed the two dooby into the door. Then he blocked the two dragons in the door.

Lu Yang stood in the distance and began to meditate on the spell. The heart of the demon \*\*\*\* rose to level 4 with a lot of special skills. For the time being, the intelligence of the heart of the demon \*\*\*\* at level 4 increased by 5000 points.

Lu Yang’s intelligence now exceeds 25,000, including nearly 40,000 French damage, releasing lava eruption on the ground, causing more than 80,000 crit damage to the monster every second. The elite monster with 10 million health is nothing but Killed clean in a few minutes.

These are mobs, and they can’t afford the equipment above the gold level. Lu Yang is too lazy to kill them, and takes the team directly into the castle on the human side.

In the castle hall full of killing spirit, there are a large number of dooby elites and some dark green demon monsters with particularly large stature and wings.

Abyss Demon boss

Level: 80

Qi and blood: 10000000 100000000

Lu Yang was looking for the Abyssal Demon King and said, “Three dragons block the corner, I’ll export.”

A group of people came to the corner, three dragons blocked the front, and Lu Yang said a spell.

“Lava Eruption”

A large amount of magma filled the castle hall, and countless boss monsters were attracted. They had high attack power and could face three dragons, causing minimal damage.

5 minutes later.

System prompt: you killed the abyss

System prompt: you killed the doobby

...

In a hall, thousands of monsters were killed and cleaned. The three dragons gave way, and everyone saw in front of them that there were only equipment and bodies on the ground.

“Drop the drawing,” White Wolf said, picking up a drawing.

Plans: Ghost Stinger Dark Gold

Level: 80

Damage: 27963599

Strength: 380

Stamina: 300

Additional attack power: 1566 points

Additional physical penetration: 1566 points

Additional physical crit: 1566 points

Attack speed 1.05 seconds

“This weapon hurts so low.” The White Lion frowned.

Lu Yang said: “This is specifically for thieves and some special occupations.”

This is specially prepared by Lu Yang for the Devil Wolf Legion. The purpose of his coming here is to change outfits for the Devil Wolf Legion. To fight for half a lifetime, they will be equipped with 100 weapons.

“There are drawings here, too,” said Zhuoju pouring.

Lu Yang saw the picture sent by the turbid wine, which is a ring of dark gold physical attack.

“Then look for it,” Lu Yang said.

“Oh.” A group of people searched in the hall, and finally found 6 drawings, all of which were from the physics department.

Lu Yang said, “We continue.”

Continue to walk along the hall, Lu Yang killed all the way to get drawings, and played here for three consecutive days. In the end, he obtained drawings of 17 pieces of equipment in the physics department, all of which were handed over to him by Han Zhong. He came to play equipment.

On the morning of the fourth day, Lu Yang said, "There are 2 days left in the war. We have to gather players."

"Is it too hasty to fight like this, our player equipment is not ready yet." Xia Yuwei asked.

At present, the main units of the Brotherhood of the Iron Blood players are around 69, and even 70 are rare. Only 3,000 magic warriors, 1,000 forbidden mage regiments, 300 days rage priest, 500 tsunami mage regiments, and 500 druids have reached At level 80, the remaining few to 80 players are rich players in the guild, or Xia Yuwei's personal guard.

Lu Yang said: "It's enough, everyone to prepare."

Chen Mo asked: "Boss, do we want to participate in the war?"

At present, the shipyard has only been upgraded to level 3 and can only build general warships. It is at least one month away from the level 5 black devil.

Lu Yang said: "Take your 100 warships to fight, this time I will destroy Tianyao as a whole."

"What about the hot spring island?" Chen Mo asked.

The hot spring island is still under the control of the hegemony and the Poseidon army. Lu Yang gave them a month to think. They made up their minds to coexist and die with the island, and resolutely did not surrender.

"Don't worry about him, the poison king of the war won't follow this time, he will stay in the city of ice and fire, as long as the sea \*\*\*\* army dares to come, I can only say thank you to the hero, and come to send our warship again." .

Everyone laughed.

Lu Yang went on to say, "Lady, twilight, this time you gather 5 million players and leave them on Binghuo Island to make them look like a defensive hot spring city."

"You don't need me to fight?" He asked in surprise.

Lu Yang smiled and shook his head, and said, "No need."

Late twilight showed a strange look, but did not ask much, because in private, Lu Yang sent him a message, which would be explained to him in reality.

"Well then, I'll take someone to guard the Ice and Fire Island." Said the old man.

Lu Yang said, "Let's go and gather our troops. This is a decisive battle. For our brotherhood, it is also a war about survival. We must do our best."

"Yes." Vice-chairmen such as White Lion and Zhuoju knew the importance of the war and left the gathering players.

When Jagged Brothers gathered here, Liu Jie gathered players at almost the same time on the other side.

Orcs, Tianyao Guild Hall.

"Boss is not good, Lu Yang and Liu Jie are gathering players a lot." The chief staff officer said to Tianyao in horror, just as Tianyao was in a meeting at this time.

"Lu Yang and Liu Jie are gathering players in large numbers?" Tian Yao, who didn't know what was going on, was instantly stunned by the words of the chief staff.

“What’s going on?” He Tianqiang asked.

“Just now, the spies that I arranged in Terran and Elf came back. Lu Yang and Liu Jie started to allow their players to set aside time for National Day at the same time.” Said the chief staff officer.

“We also let our men set aside time for National Day. Will it be like we are ready to open a new map for wasteland.” A vice chairman asked.

“It’s impossible. They gather all players. What map can let two people gather everyone at the same time?” The chief staffer asked.

Tianyao was furious and said, “No, they are coming to hit me.”

“What?” A dozen vice chairpersons looked irritated at the same time.

“how can that be?”

“Aren’t they both deadly?”

...

Tianyao said, “I’ll ask.”

Tianyao immediately called the two of them. Lu Yang saw Tianyao’s phone and smiled, and ignored him.

Tian Yao called Liu Jie and Liu Jie directly hung up. In the eyes of Liu Jie, he is about to unify the national service, and there is no need to go with Tian Yaoxu to confuse the snake.

“Fuck.” Tianyao watched that both of them got through, but one of them answered the phone that was hung up and yelled. He watched his vice chairman say, “Gather me the players and get ready to fight.”

A dozen vice chairmen stood up quickly, and each of them was ready to go in horror. This time, they were really scared. Two guilds of the same level went to war with their family. This kind of war is impossible to win. of.

12 noon.

When all the players were busy all morning, preparing to return to the fortress or the main city to rest, the big screen of each main city of the human race, the beast and the elves suddenly changed into a unified video.

In the picture, Lu Yang and Liu Jie stand side by side, and the two announce at the same time.

“I announced that the Brotherhood of Iron and Blood and the Alliance of Wansheng formally form an alliance. Two days later, we will attack the orcs together and destroy Tianyao.”

The whole national service was a sensation, and the foreign service also made a sensation after receiving the news.

“My God, what kind of war is this.”

“How many people have to participate, 10 million? 20 million?”

“I bet at least 30 million people. This is the biggest war.”

“Hua Xia is full of people. This war must be watched. It is wonderful.”

...

Everyone put aside their things and discussed the war with the players or friends next to them.

There are 600 million players in the national service entering the game. This war involved three guilds with a population of more than 10 million, dozens of guilds with tens of thousands or more, and hundreds or even thousands of top studios participating. among them.

Inside the Jagged Brothers Alliance turned out to be Tianyao, no matter what, the boss said who to beat, we will follow whoever beats the Orcs! “

“Iron Brotherhood!”

“kill!”

Tens of thousands of players shouted their bloodline slogans and started to gather, looking for reports from their respective teams.

On the first day, Lu Yang gathered more than 2 million people, and the old man gathered 2 million people. On the second day, the two together brought together 6 million players.

The same is true of Liu Jie, who gathered more than 7 million players, 2 million defended in the Purple King City of the Elves, and the remaining 5 million gathered in the Sands City at the junction with the Orcs.

Wolf Clan, Blood Wolf Fortress.

With 3 million players, Lu Yang set off from the point battlefield outside the Blood Wolf Fortress and headed towards the main city of the orcs.

“Boss, we cooperate with Liu Jie, can he really fight with us, don’t fight on our side, but he will not fight, let Tian Yao’s main force fight with us.” Bitter love asked for a long time.

Xia Yuwei, the White Lion, and others also looked at Lu Yang with curiosity. This war, they were a little worried.

Collaboration with Liu Jie is equivalent to seeking skin with a tiger, the shrewdness of the dead grass and the huge size of the Liu Jie family make their hearts not always feel safe.

With a confident smile on Lu Yang’s face, he said, “Do you know, in fact, I can destroy Tianyao alone?”

“What?” Zhuo Jiu and Zhou Tianming and others looked at Lu Yang in surprise.

“Boss, what other killer do you have?” Zhuzhuo asked.

Lu Yang smiled and said, “Follow me, Tianyao is in front of me. When I get there, I will give you the answer.”

The faces of everyone showed a surprise look, and continued to move forward with Landing Yang.

Facing the simultaneous attack by Lu Yang and Liu Jie, Tian Yao arranged his cousin and the first vice chairman to take more than 3 million people to Sea Lion City to guard against Liu Jie’s attack at any time. He personally took more than 3 million The player arrives at the Dominion Fortress of the Orcs.

When Lu Yang brought 3 million people to the front of the Dominion Fortress, Tianyao was posing under the fortress. When he saw Luyang coming, Tianyao’s face was irresistibly angry.

“Lu Yang, come out and answer.” Tian Yao cursed coldly.

“You set off the attack formation, I’ll talk to Tian Yao.” Lu Yang rode the Red Flame Lion King to a position 50 meters away from Tian Yao.

“Lu Yang, why did you come to hit me?” Tian Yao asked angrily.

With a faint smile on Lu Yang’s face, he said, “Tian Yao, this is not what you deserve.”

“What do you mean?” Tian Yao asked.

Lu Yang sighed and said, “Tian Yao, I will give you one last chance. You give up. This time, I let you go, so you can take away all the money you earned in the game, sell those strongholds, and be an ordinary player. Right. “

Tian Yao was stupefied by Lu Yang’s headlessness and asked, “What are you talking about? Do you think I will be afraid of your alliance with Liu Jie?”

Lu Yang shook his head and said, “Of course you are not afraid. Even if I and Liu Jie attack you together, depending on your current strength, even if we fight you for half a month, we will not be able to hit the orcs.”

In such a large corps operation, it is almost impossible to win under the circumstances that the strengths of the two sides are not much different and the numbers are very balanced.

In particular, Tian Yao holds 6 totems of gods in his hand, as many as the hearts of gods in Lu Yang’s hands. Even if he is only three here, Lu Yang wants to defeat him. This is possible, but he wants to charge into the beast. Clan is absolutely impossible, he can mobilize a large number of players to support various places at any time.

“You know you can’t beat me, and come hit me, I advise you to go back as soon as possible,” Tian Yao said.

Lu Yang still shook his head and said, “I can’t beat you, but you know what, I don’t need to attack you directly at all. Do you know how many guilds the Orc has been destroyed by you, and how much they hate you.”

Lu Yang contacted more than thirty guilds with lofty sentiments, Liu Yunpeng, and others, with a total of more than one million people. They were gathering in Jusha City.

“Lu Yang, don’t be smart yourself. Do you think I don’t know that you secretly gathered more than 1 million people? They have been surrounded by my affiliated guilds. As long as they dare to come out, I dare to destroy them. Liu Jie’s side It’s the same, you want to beat me with this, you are too tender.”  
“Tian Yao said sarcastically.

Lu Yang said: “Then I ask you now, is this all your strength?”

Tian Yao said, “No, I still have studio players. They are defending wild forts around me. You have no chance.”

Lu Yang smiled and said, “How do you know which studios can live in defense?”

Tian Yao frowned and said, “These studios I’m looking for are all top studios in Orcs. Do you want to sneak attack?”

Lu Yang sighed. He knew that Tianyao would not give up. In this case, he didn’t want to delay time anymore, and said to the pride, Liu Yunpeng, Han Yu, the light and dark thief and shooting Sirius, “Go ahead, give me All the fortresses in Tianyao’s hands were sold, and one was not left. “

“Yes.” Looking at the tauren fortress in the distance with a look of coldness, he said, “The mad wolf guard, with Lao Tzu, it’s time for revenge.”

A total of 500 crazy wolf guards should be called devil wolf guards, but they still like the name of the wolf, collectively fighting wolf form, and rushed towards the fortress.

Including the arrogance and passion, each person held two ghost stabs in his hand, and all were equipped with 80-level dark gold parts. This is a drawing made by Lu Yang in the city of war. The blacksmith’s shop rushed out these nights.

Although these pieces do not have a set effect, they are 80-level dark gold equipment after all. There are 17 pieces of equipment in total. Each person has 150,000 health, more than 30,000 attack power, more than 20,000 defense, and 20,000 magic resistance. many.

Even if Lu Yang wants to kill them, he needs to release 5 magics, not to mention the “studio elite” on the city.

The city head of the Barbarian fortress, at this time the gate of the fortress has been closed, and only more than 500 players are standing in various positions in the city head.

In the form of crazy wolf, the 30-meter-high fortress strengthens ability, but it can jump up by jumping.

“Look at me.” In an invisible state, he launched his jumping skills and leapt to the city.

He glanced back at the invisible men under the city, waved his hand, motioned them to keep up, and the other mad wolf players nodded and jumped up like he was.

In less than 3 minutes, all 500 people got to the top of the city. The 500 players on the fortress were defended on the four walls, which should reasonably be patrolled back and forth, but after two laps and no salary, there was no one. Willing to move, all resting in the towers of the inner city.

“Well, really, the boss fights over there, and even arranged for us to defend the city, I really hope to follow the dry rack.” Said a tauren player defending the city.

“Well, even if they call Lu Yang and Liu Jie together, we are not afraid of them, their strength is here.” Said another Tauren player.

“Why are you resting again, go out on patrol, don’t get into trouble,” a leading player frowned.

“Captain, we have selected brothers to patrol outside, nothing will happen.” A player said.

“Really?” The prideful voice sounded like the ghost of \*\*\*\* made the players in the gates feel the coldness of hell.

“Who?” The captain responded the fastest, returning an axe, but just before the axe hit the lofty pride, he had already inserted a claw into the opponent’s neck, including skill damage, up to 40,000 attack power. With the effect of three times the critical strike, the captain was killed in seconds.

“An enemy is attacking.” A player who responded just shouted, but was killed by another crazy wolf with a paw.

But this player still shouted out, and the defending players resting near the gates of the city stood up one by one, but without waiting for them to participate in the attack, a mad wolf more than two meters tall appeared beside everyone.

“Crazy Wolf Funeral”

A cyan light flashed, and 500 defensive players, including the so-called studio elite, were all seconds.

“Don’t pick up equipment and sell the fortress with me. The boss said that part of the money for selling the fortress will be shared with us. This is more than before the equipment. Please rush with me.” City, came to the deity, turned into a humanoid, broke a token with a claw, and placed the token of his guild on it.

The wild fortress is based on the guild token. Changing the token is equivalent to the fortress changing its owner.

System Prompt: The Wild Wolf Legion Occupied the Bull Fortress

With a strong fist, he opened his fortress purchase interface and sold all the things that can be sold in the fortress.

System prompt: you sold the fortress hall

You sold the fortress bank

You sold the bricks on the fortress

...

Tianyao, who was confronting Lu Yang, received the news from the system for the first time. His face changed suddenly, and he could not talk to Lu Yang. He immediately sent a message and asked, "What happened, why was the fortress lost?"

The captain of the defensive city cried and said, "Boss, the enemy is too fast, all are invisible occupations, there are 500 people, and before I react, we are killed, and we just lost the resurrection fortress."

"Waste." Tian Yao scolded.

In order to prevent the fortress from being attacked, he made a very complete preparation. An elite army of 20,000 was always preparing in the city of Beamon. As long as the fortress was attacked, the 20,000 would immediately fly over to kill the enemy.

But he didn't expect that the opponent's speed would be so fast, he even snatched the fortress at a moment. He looked at Lu Yang with \*\*\*\* eyes and cursed: "You are too despicable."

Lu Yang also received the news sent with pride, and said to Tianyao with a smile: "There is nothing despicable or despicable. This is a race war. It is a war that determines who can dominate the national service. You are not good enough. You lose. Can't blame anyone."

Tian Yao laughed and said, "Just because you destroyed one of my fortresses, and I lost? I have more than 600 such fortresses. Now I have sent someone to destroy your hands."

Lu Yang looked at the time with a smile and said, "Looking at the time, I will teach you a tactic. If you want to make a comeback one day, this can be used as a reference."

“Tactical?” Tian Yao frowned.

Lu Yang said: “This game has a tactic called locust tactics, you should know.”

Tian Yao said, “Who wouldn’t know this.”

Lu Yang said: “But there is another tactic. You must not know. He is an advanced version of the locust tactic. The play is very simple. It only aims at robbing your fortress and selling it, and does nothing else. “

#### Chapter 935 - Bottom pay

“You, what do you mean by that?” Tian Yao asked.

Lu Yang smiled and did not speak. He had nothing to say. The light and dark thieves had taken 300,000 thieves to the Blood Wolf Fortress and entered the orcs. The center of the beast city was Beamon City. All fortresses are being watched by the players of the Brotherhood.

There are 1,000 thieves outside each fort. Their role is nothing more than to sneak into the fort and replace the fort token.

“Boss, you’re ready,” said looking at Weiguang.

“Ready,” Han Sha said.

...

Each team reported to Lu Yang, who said, "Push off the fort."

300,000 thieves rushed into the fortresses of their respective targets at the same time. Their attack method was very simple, they did not fight with people, they just sneaked into the inner city.

Han Sha personally led a group of people to climb the outer city wall easily. He boarded a 70-level map fortress outside the main city of the cat tribe.

There are hundreds of arrow towers in the inner city of the fortress, which almost turned the inner city into a hedgehog. On the inner wall of the fortress, there are 500 defensive players, but that's it. Han Sha they are immune to magic by opening the cloak of shadows. With evasion skills, improve 80% of evasion ability, then sprint, cover by a group of people, and several other teams rushed to the wall at the same time.

The arrow tower can easily kill the thieves in the 70-level suit. The studio master of 500 people, although facing the demons and high dodge thieves, can kill many people, but each fortress has 1,000 thieves rushing in, they hold The purpose of this is not to push away the fort.

The defensive player can only watch as they quickly ran into the inner city of the fortress and came to the position of the god. Han Sha replaced the fortress order. At the same time, he opened the interface and sold everything in the fortress at a fast speed.

Although he was quickly killed, the fortress was sold out at this time!

The players of the Jagged Brothers Alliance are confronting Tianyao, and suddenly, they all open their eyes in surprise.

System prompt: Blackwater Fortress occupied by the Iron Brotherhood

Player Han Sha sells the fortress hall ...

System prompt: Jagged Brothers captures the fortress of wisdom

Players look to the glimmer and sell the fortress walls ...

...

...

300 wild fortresses were sold by these thieves at the same time. Lu Yang got more than 300 million yuan. On the other side, Tianyao's angry eyes were about to burst into tears.

"Lu Yang, you bastard." Tian Yao growled wildly.

Lu Yang saw the system prompt over there, and he saw the system prompt there too. Tianyao, who had no fear of this war, now became frightened.

Not only him, but also the players under Tian Yao were stunned. Suddenly, more than 300 of his fortresses were occupied by Lu Yang. They wanted to know what happened.

Lu Yang looked at Tianyao and said, "I have sold half of your field fortresses. I ask you a word. Do you still have the ability to pay your subordinates?"

Taking a salary at the bottom of the kettle, Lu Yang will not be able to beat Tianyao at 1:30, but he can let Tianyao have no money first. As long as he has no money, why should his men give him back to work.

These 300 fortresses spent 900 million Tianyao, just pointing to these fortresses to make money to pay their players, but now 900 million yuan has evaporated, and the income of the other 300 fortresses is simply not enough to deal with this. Huge guild spending, not to mention, in addition, the 300 fortresses, it is not certain whether they can survive.

There are more than 3 million players who belong to Tianyao. At this time, they have no intention to fight. How important is the fortress to lose? They know very well. If you do n't have a fortress, why should ordinary players fight with you? City roll, fast travel between the main city and high-level field maps?

No more than 3 million people went to see the Brotherhood of Iron and Blood, and they looked curiously at Tian Yao. They wanted to know how Tian Yao would fight.

When 3 million eyes are focused on a person's face, if it's worshipped eyes, it will make a person swell to think that the world is his. But when these 3 million pairs of eyes become doubtful and frightened eyes, Let a person fall into boundless fear.

The cold sweat on Tianyao's face flowed down, not only in the game, but also in reality. His back was densely covered with sweat.

"Lu Yang, you can't do this, this is my hard work." Tian Yao's voice was trembling.

Lu Yang looked at Tianyao and said, "I give you a choice. Give me your guild. You follow me. I will give you all the money I just got."

The money was not enough to make up for Tianyao's construction of the fortress, but it was enough to pay the bank. Lu Yang just took all of Tianyao's net worth.

"Impossible, this is my guild. I won't give it to you. Besides, you are a human race. I am an orc. How can you get my guild?" Tian Yao said incoherently.

A token appeared in Lu Yang's hand. He raised his arm flat, pointed the front of the token toward Tianyao, and said, "Look what this is."

"Feng Wang Ling?" Tian Yao said in horror.

Lu Yang right-click to open.

[Full Service Announcement]: Congratulations to player Lu Yang for successfully opening the Wang Fengling. He is the first player in the world to have a Wang Fengling. All three players can join his guild.

...

Ten full service announcements in a row, this is for the world, not just the national service, all the orc players present were all stunned.

“Fei Wangling?”

“Can Orc players join the Jagged Brotherhood?”

“This, race can no longer isolate war?”

...

The players whispered excitedly.

Tianyao is even more panicked. He no longer knows what to do, and several vice presidents are panicked. Originally they thought very well. As long as they persisted for 7 days, the National Day ended, and the players will definitely get back on track. It is time to go to work, go to school, and the crisis of racial war will be lifted automatically, but who can think of it, it happened only in the first day.

Lu Yang shouted from the loudspeakers of the World Channel: “All players of the Orcs, I welcome you to join the Jagged Brotherhood. Has it always been difficult for you to make a copy, because the three clan did not have their own special occupations? Get together to play a copy. If the orcs can play a copy with the holy knights of the human race, the invincible at the critical moment can save lives. In turn, the shaman of the orcs can start accelerated attacks and save lives, which is the most powerful complement. “

Players from both sides can participate in the game at level 60 or above. After level 60, it is obvious that everyone is particularly difficult to copy. Many people will imagine that if the orcs join the Paladin, Will it become easy for Terrans to join the shaman?

Lu Yang’s ban on the king just happened to pry what they longed for most. The ordinary players showed their longing look.

Lu Yang then shouted: "After joining my guild, orc players can buy things in the human race. Many orcs have very expensive raw materials on one side, but they are very cheap. Originally doing business on both sides to make money, I also welcome . "

It is equivalent to having the opportunity to make money. Many of the studios that are helping Tianyao directly withdrew from the war and turned to the contact methods of the Brotherhood of Iron Blood.

Pride and Yunyu are taking millions of players to fight against Tianyao's affiliated guilds and studios. Suddenly, the two feel relaxed at the same time.

"Strange, why did many of the enemy's studio masters withdraw?" Asked with lofty sentiments.

Yun Yu said: "It's not easy. I'm going to talk to the boss to talk about business. What is the studio doing, not just making money."

"Then we are not going to win?" Asked arrogantly.

"Yeah," Yunyu said.

"Fuck, for the first time to participate in such a big war, it was over in a day, it was amazing." Pride said.

Yun Yu felt a little bit emotional, saying, "It's not just you, no one can think of it."

On the other side, Liu Jie and counted dead grass did not expect that Liu Jie's team was confronting Tian Yao's cousin. Their strategy was very clear.

Since Tianyao first took people to fight Luyang, it proved that Tianyao would fight with Luyang, and they just had to wait and see what changed.

If Lu Yang wins, they will pass in a wave, and they will win. If Lu Yang loses, they don't need to look for nothing.

But at this time, when Lu Yang used a thief to raid Tianyao's 300 strongholds, and when Lu Yang's full-service suit with Wang Wangling was announced, Liu Jie's expression changed dramatically.

"Lu Yang has such a thing?" Liu Jie frowned.

The dead grass expression remained unchanged, saying: "Don't worry, no matter what he has, it's yours."

Thinking of Liu Ruoshi, Liu Jie thought that his violent beating heart was slightly relaxed, and said, "We can't wait any longer. Tianyao's defeat this time is set, let's attack."

The dead grass nodded and said, "This is reasonable, fight it."

He still felt a little early in his heart, but now that the victory has been set, playing early is more damage and has no effect on the overall strategy.

"Such as Yue Taishan, Yaowu Yangwei, Apache, Xue Yiming, Qu Han with your men, rush to me, destroy Tianyao's troops, and occupy the orcs." Liu Jie ordered.

"Yes." Liu Jie's five commanders each took nearly a million players and rushed to Tianyao's army.

At this point, Tian Yao's side was already unstable. In the face of Liu Jie's attack, Tian Yao's cousin could barely support it.

"Brother, what's going on with you, Tianyao has launched an attack on me, and our men are a bit messy. I can't stand this for a day." Tianyao cousin said.

Tian Yaowang landed in the sun, gritted his teeth and said, "We must hold on, we must not give in."

Lu Yang shook his head and said, "Are you still not giving up?"

“Why should I admit defeat?” Tian Yao cursed.

Lu Yang never wanted to do everything, especially when he got a huge advantage, and he didn't even want to do it, but now it seems that it won't work.

“Father late, it's your turn.” Lu Yang said.

#### Chapter 936 - Head-to-head

“Just wait for you to say this, and stop me from playing, this drama is over, haha.” The old man in the twilight laughed and shouted, “The ship is on the shore, and Lao Tzu finally made his debut.”

100 battleships and 500 troop carriers. At the moment when the old man gathers players, when everyone thinks they are to guard against Liu Jie, everyone knows that Lu Yang asked the old man to take the 1 million most elite players on the ship and Together, Chen Mo's fleet quietly emerged from Binghuo City, bypassing the entire Elves and reaching the Golden Fox City of the Orcs.

At this moment, the fog was thick on the sea 500 meters away from the Sky Fox Fortress in Jinhu City. Tianyao did not have a navy. When he laid down the Golden Fox City, he did not capture the opponent's fortress as Lu Yang did with Binghuo City. Forcibly broke the main city. The original defender owned the fleet. In the face of this situation, the other party directly sold the fleet and the dock when the casual players went.

Sky Fox Fortress City Head.

“I don't know what's going on with the president, have you lost? Do we still have to defend?” Asked a defender.

“Don’t talk nonsense,” said a captain guarding the fort.

“Captain, it is not a nonsense. The 900 million worth of wild fortresses have been lost. It is estimated that Tianyao has no money to pay our defending wages, and at most can give some points.” Another defending player said.

“Don’t watch the studio players run away, it’s just us.”

...

The whole fortress was filled with lost emotions, and the heavy fog on the Shanghai surface made people even more depressed.

The captain couldn’t answer his questions, and the city was silent for a while. At this time, a player stood up boringly and moved his body, but when he looked at the sea, he was stunned.

“ferry?”

“What ship?”

“Looking at the sea, it’s not good, there are enemy warships approaching,” the player shouted in horror.

The captain looked up, and just saw 100 warships breaking through the mist and coming to the sea. What they saw was the scene where the warships turned their bows and aimed the side muzzle at the fortress.

The old man in the twilight stood on the ship and directed: “Fire.”

Each battleship has 50 fortress guns, and 100 battleships are 5,000 guns. When they volley together, the entire northern wall of the Sky Fox Fortress was completely shrouded in gunfire. Players on the city’s head were in a system prompt, All killed.

The old man in the twilight jumped onto the troop carrier and shouted, "All go ashore, rush me into the four strongholds of the Fox clan and gather with Linghu Chong."

The defeated guild boss named Linghu Chong is one of the many bosses summoned by the enthusiastic and arrogant. Among the foxes, he has the highest prestige, and after enthusiastic recommendations, Lu Yang appointed him to be the four foxes. The boss of the fortress.

At this time, his guild had applied to join the Jagged Brothers Alliance when Lu Yang opened the King's Order, and obtained the consent of Lu Yang. That is to say, the Linghu Chong Guild officially became a subsidiary association of the Jagged Brothers Alliance.

Now he was waiting outside the city with 5,000 players who were truly loyal to him, and saw the Jagged Brothers attack, and he shouted, "Come with me and rush into the fortress."

"Chong!" Liquor Qingfeng took the lead in attacking, and one million people swarmed up.

Only one wave of attack broke into the fort, and did not give Tianyao that 20,000 support player response time. Looking at the outer city and inner city that had been occupied, the old man stood in the city and laughed.

"Boss, there are a group of orc players outside the city, the leader is Linghu Chong, said to be coming in to occupy the fort." Luo Siyu said.

"Hurry them in, no, I'll go in person." The old man with a smile laughed and ran out of the city. He was really happy. Although the guild was not led by him, he was the second largest shareholder of the Iron Brotherhood. .

The Brotherhood of the Iron Blood is his guild. Now he needs to win over the Orc players. The old man is willing to put down his face.

"Oh, my brother, you're Linghu Chong." The old man said with a smile.

“Chairman Twilight, you, why did you come out in person, this is not dare to be.” Ling Huchong said flattered.

It turns out that Linghu Chong is the boss of a super guild with millions of players, but now he only has 5,000 brothers, and the old man at the twilight summons 5 million people, which is far from a level. Even before he fails, the old man at the twilight must respect There are plus.

“Dangdang, Dangdang, ha ha, let’s go in and occupy the fortress first, don’t let Tianyao react.” Said the old man.

“Okay,” Ling Huchong said.

The old man in the twilight brought Linghu into the inner city, and after changing the fortress token, the Sky Fox fortress officially became the fortress of the Jagged Brotherhood.

Tianyao was thinking about how to deal with Lu Yang. Suddenly he learned that Tianhu Fortress was struck down by the old man Lu Mu, the vice chairman of Lu Yang, from the sea, and he panicked.

Now all his strength is dealing with Lu Yang and Liu Jie. Suddenly, a late old man, he doesn’t know what to do.

Lu Yang also received a message from the old man. He said to Tianyao: “Give up, don’t stick with it, sell your remaining fortresses and assets, and be a casual player.”

Tianyao did not answer, he was trying to find a solution.

Lu Yang was not in a hurry. In this case, he did not believe that Tian Yao had a way to turn the whole war.

People such as Zhuojiu and White Lion also waited, and everyone’s face was relaxed.

“Now I understand why the boss gave those defeated guilds such good treatment and let them take the money away. Tianyao lost too badly this time.” Zhou Tianming said.

All the 16 main cities of the Orcs all had defeated guilds to launch counterattacks. Half of them belonged to Lu Yang’s side and the other half belonged to Liu Jie’s side.

The chief staff officer looked at Tianyao and said with a bleak expression, “Boss, let’s fight it once, otherwise we’ll be finished.”

Tian Yao looked to the left and right, and each vice president, including Hell Sky Dome, looked bleak, and his players were even less morale.

“Okay, that’s the case, I’ll fight, big deal as a casual player, I don’t need your Lu Yang’s charity, all players pay attention.” Tian Yao roared back on his horse and returned to his team.

3 million players were awakened by Tianyao’s roar, just like the slogan of the Brotherhood of the Iron Blood, Tianyao’s words are the best way to boost the morale of the guild.

“Lu Yang, I want to see. Your brother-in-law brothers have a few pounds and a few two.” Tianyao raised the sword in his hands and shouted, “Eternal glory, red!”

“Kill!” At the same time, 3 million people rushed towards the Jagged Brothers side frantically.

The two parties are 1,000 meters apart, and it takes a while for Tianyao to rush over. Vice-chairmen such as White Lion, Zhuojiu, and Zhou Tianming look at Lu Yang in succession.

“Boss, I’m applying for a positive shock with Tian Yao.” Zhuo Jiu Qing said.

“Me too,” said the White Lion.

“Me too.” Zhou Tianming said.

Lu Yang guessed that a few of them would not let go of this positive hard opportunity, and said, "Okay, take the team to face Tianyao face-to-face, and I will provide forbidden support at any time."

Hei Yan came to Lu Yang and asked, "Boss, the cursed mage regiment is ready to go into battle at any time."

1000 secondary forbidden mage, all of them wore the suit of the Destroyer. This was stolen by the running snail in the Fire Spirit Hall with 99 time and space mages. 100 people stole 7 consecutive days, lasting 16 hours a day. Everyone fought this war.

The Destroyer suit plus the remaining spare parts can provide nearly 15,000 magic damage. If they release the second forbidden spell, they can cover one-tenth of the battlefield, which is equivalent to instantly destroying one-tenth of the main force of Tianyao. force.

Lu Yang looked at the battlefield and said, "Don't worry, wait for Tianyao to get closer."

Tianyao turned on the fearless ability of the God of War totem the first time he rushed in. With the blessing of this skill, he was immune to magic within half an hour and increased physical damage by 100.

With his 80-level dark gold equipment, the attack power is definitely more than 30,000, which is doubled to 60,000. This kind of damage, combined with skill damage, can instantly kill a non-defense war class occupation with just one shot.

Soon, Tian Yao personally brought 3 million people and the white lion and muddy wine led by Lu Yang side into a collision.

Tianyao and his 500 guards, as arrows, rushed towards the location of the landing sun.

The position of Luyang Station is relatively high. He can clearly see that there are 3 arrows on Tianyao's side, one is Tianyao, and the second is a shaman player who has a Thunder Totem. The spells he releases are all high-level mines. As a skill, this Thunder Spirit Totem and Thor's Heart are a level item.

The third arrow is the owner of a space-time totem. The air explosion that is released by hand can kill a large number of players in the Brotherhood of Iron and Blood.

Han Ying looked at Tian Yao in the distance and said to Lu Yang, "Brother, do you need me to control Tian Yao?"

Lu Yang shook his head and said, "Don't worry, wait for an opportunity."

He beckoned, and three players around him holding the deer horn walked to the front, and at the same time, a low horn sounded.

The white lion, Zhou Tianming, and Zhuojiu who rushed to the front and battled with Tian Yao and others immediately understood and ordered the players who were in front of Tian Yao to gradually retreat to both sides.

In front of Tian Yao, anti-war players blocked him, leading him to kill a person by cutting several knives, which made him even more unhappy.

Suddenly, he felt that the enemy in front of him had become irresistible, and he could kill one with only one stroke, and he showed his joy.

"Brothers rushed at me and the enemy's defense front was broken." Tian Yao shouted.

More than one million people rushed towards this gap opened by Tianyao, and at least 300,000 of them passed through the gap.

Players in this gap are either shooters or mages, completely unable to block Tianyao's attack.

Lu Yang watched as Tian Yao pulled a cone with 300,000 people and the troops behind him, he knew it was time.

“Hei Yan, the 1,000-forbidden mage regiment, all aimed at the 300,000 people around Tianyao, must hit them in a second.” Lu Yang said.

## Chapter 937 - Surrender Blood Roar

Hei Yan nodded, returned to the Forbidden Mage’s formation, and ordered: “Aim at 300,000 people around Tianyao, and press the arrow I marked to attack in groups.”

“The Great Lord of Fire ...”

“Icy energy ...”

...

1,000 mages chanted spells at the same time. Thirty seconds later, a thousand secondary forbidden spells of various departments shrouded Tian Yao and the 300,000 people around him.

When the skill attack was over, Tian Yao was shocked to find that there was no one around him, and 300,000 people had no chance to respond, so he was killed by Lu Yang’s secondary injunction.

“Boss, come back soon,” the chief staff officer shouted from behind.

Tian Yao nodded, glancing at Lu Yang with a sneer, and turned to leave, but at this moment, a green light appeared in front of Tian Yao.

“I want to leave now, is it too late?” Han Ying pointed Tianyao with his right hand, and a dark green flame surrounded it instantly.

“Doomsday Trial”

Tian Yao’s face was arrogant, he said, “I’m magically immune now. Your skills don’t work for me.”

“Really?” Han Ying asked.

Tian Yao had just launched his jumping skills to leave, but found that all his skills were unavailable. He looked at Han Ying in horror and asked, “How can you control me?”

Han Ying said: “I also have magic. It happens that my artifact restrains all other professions. You are included.”

Six people, White Lion, White Tiger, White Wolf, Zhuoju, Zhou Tianming, and bitter love came round.

“President Tianyao, our boss said, to give you a chance to fight with us fairly. We don’t need to challenge you with your skills. You win, we let you go, you lose, and let go of the God of War totem.  
“Said muddy wine.

Tianyao can’t release a skill now, but he is not stupid. The few in front of him are either the top ten in the world or the top ten in China, which is far stronger than his strength.

“You don’t have this qualification, you have to single out and let Lu Yanghe treat me.” Tian Yao said.

Zhuoju and others looked at each other.

“Boss Tianyao, let’s choose quickly. If you don’t choose, we will go together.” Said bitter love for a long time.

“I won’t tell him, let’s fight together, kill him first, and then I want to single him out and then find him,” said Zhuju.

After all, he was afraid of prolonging the problem for a long time. Zhuojiu would rather give up his sense of honor rather than delay Lu Yang's affairs. The first one took the lead and attacked Tianyao.

"No way, for the boss, I can only recognize it." The White Lion rushed up.

When the others saw it, they also besieged Tianyao.

"Quickly save the boss, you can't let his God of War totem out." The Master of Time and Space anxiously rushed the player towards Tianyao.

Jiang Ze and Zhang Zibo, who are in charge of the defense on the outside, organized the shield formation very tightly, and the space-time mage and the thunder shaman couldn't rush in.

Tianyao knew that he had entered the trap and tried to escape towards the surroundings, but the six men of Zhuoju cooperated to attack and did not give Tianyao a chance to escape.

Fortunately, at this time, Tianyao had enough blood totem, or he was killed long ago, but even so, he only persisted for 2 minutes, and was killed by 6 of them, including the turbid wine and the white lion. A God of War totem fell to the ground.

The turbid wine picked up the totem and said, "You fight first, I'll give it to the boss."

The White Lion and others nodded and ran back to their respective teams to lead the team. After the war began, they were not controlled by any commander, and nearly 7 million people on both sides became melee.

Tianyao leaned on the fortress of dominance. He died and can immediately resurrect to participate in the battle. The distance from Lu Yang is not too far. The blood wolf fortress is only half an hour away. Soon, Lu Yang saw Tianyao The fortress ran out, and rejoined the battle with some people, and the situation became anxious.

On the other hand, the old man in the twilight played very easily. After winning the Sky Fox Fortress, he divided one million people into three parts, and attacked the other three fortresses at the same time, easily turning the Golden Fox City into the chassis of Linghu.

Then, the old man bid farewell to Linghu Chong, along with Chen Mo, raided Jusha City, the main cat city, and the Tide City along the coastline. By the time of the Tide City, he was carrying more than 2 million players and Blood Roar. Battle of more than 3 million affiliated guild players.

There is a lot of blood roar on one side, but morale is a little sluggish. On the other hand, there are few people and poor equipment, but the morale is high. The two sides were tied at first.

“Iron brothers, how did they get here?” Blood Roar asked.

No one can answer his question. Unlike the main battlefields of Orcs and Sea Lion City, Blood Roar brings second-tier players and affiliated guild players. These people rarely have top-level equipment, as well as one side, and two people. It is equivalent to pecking at each other, but the old man brings the best of the best. Putting it in Tianyao’s team, this one million people is also the top player.

Hitting second-tier players with top players is like crushing. The 3 million people of Blood Roar only broke through the morning, and more than 20 affiliated guilds announced that they would no longer participate in the war, leaving only 100 with Blood Roar. Million players.

“Boss, do we still fight?” The deputy head asked with a look of frustration.

At present, the four official fortresses outside the Tide City have been knocked down by the old man. It has become a fortress. The blood roar can only gather players outside the Tide City, but as long as they have the idea of gathering, they will be met. s attack.

“Must fight, we must find a way to grab the fortress back, can’t be sorry for President Tianyao,” said Blood Roar.

The light flashed and suddenly appeared in front of the Blood Roar, asking: “What if Tian Yao was defeated?”

“How do you know where I am?” Bloodroar asked angrily.

Said: “I don’t know if I’m burying nails in your guild. Don’t take this attitude. Don’t you also bury nails in my guild?”

Bloodroar asked, “What are you doing here, are you looking at my joke?”

Shaking his head, he said, “I respect you, you are a master, but Tianyao has always refused to believe in you, and will send you against us.”

“Enough, I don’t want to listen to these words, I’m the vice chairman appointed by him,” said Blood Roar.

He said, “But why are all your men from your guild? What are the benefits of having them fight with me?”

Blood roar was speechless.

Then he said, “Let’s stop fighting, you and I, we are watching here. If Tian Yao is defeated by the boss of Lu Yang, you do n’t have to follow him anyway, he can no longer pay you anyway, There are still 9 days before the salary is paid. As long as it cannot be paid, your contract will be automatically terminated. “

The blood roar did not speak, and several deputy heads around him cast their hopes. Everyone knew that this battle could not be won.

“Boss, listen.”

“I agree.”

“I agree.”

...

Facing the unanimous consent of his men, Blood Roar could only nod his head and said, "Well, I agree."

"Hey, that's right, you disbanded, and I also disbanded. Let's find a place to watch the live broadcast of the situation, how good it is to drink a few drinks." Said happily.

Bloodroar said: "Let the brothers go, there is a twilight, I really can't beat you."

Several vice presidents nodded, dismissing their players.

Then he went into a hotel with a blood roar, but when he entered the door, he saw the old man in the twilight.

"How are you here?" Blood Howl asked.

The old man in the twilight said, "Blood roar brother, I have been waiting for you for a long time, sit down, my task is over, and the rest is to watch the live broadcast."

"Aren't you going to hit other main cities?" Blood Howl asked.

Of course, the old man wants to continue to fight other main cities, but he fancy Blood Roar and the 1 million players in his hands. If he wants to recruit, he naturally finds an excuse to stay.

Players of the Brotherhood of the Iron Blood have a King of Kings order, and whenever the four official fortresses of a main city are controlled by them, players of the Brotherhood of the Iron Blood can freely enter and exit the main city without being attacked.

"I do n't need to do anything, Lu Yang 's thief army has been triggered from the fortresses around the tidal city, along Nocturne City, Bone Imperial City to Ironback City, and then back to Sea Lion City and Unicorn City for half an hour In the future, the wild fortresses of these main cities will all disappear.  
"Said the old man.

With the base station of Tide City, the wild fortresses of the remaining 8 main cities will also be sold clean by Han Sha and the light and dark thieves.

The blood roared and stood up, but then he sat down again and sighed, saying, "You guys are so hard. You hit Tian Yao's underbelly, Tian Yao lost."

The defensive forces of these main cities are here in the Blood Roar, but there are old people and watching, Blood Roar has no way to help these forts.

Sea Lion City was again attacked by Liu Jie's full force and could not draw a little manpower. Those studio players mostly withdrew from the battle when Lu Yang took out the king order. Tianyao only left his own strength to go. Fight against these two behemoths.

If he can still support it when he has money But Luyang's trick is to take a salary at the bottom of the tank, destroy all the wild forts in Tianyao, and cut off his channel of earning money. Tianyao insists on opening up to 10 The day of the salary.

The old man in the twilight said with a smile: "Don't sigh. This matter has nothing to do with you. It is Tianyao's own problem. How about it? Are you interested in joining the Jagged Brotherhood?"

"Joining the Brotherhood of Jagged Blood?" Blood Roar looked surprised.

The old man in the twilight nodded and said, "We are all aware of your strength. If you want to, Bone Imperial City and Ironback City are yours."

The blood roar occupied the Bone Imperial City and the Iron Back City at the beginning, and was defeated by Tianyao before being sent to the Tide City to deal with it.

Blood roar thought about it and said, "Wait a minute. If Tian Yao can't pay, our contract will be terminated. I'm willing to find a good guild for the brothers. Let's talk at that time."

The old man in the twilight nodded indifferently, opened the live video, cast the screen into the space, and watched it together.

## Chapter 938 - traitor

Outside of the city of dominance, Tianyao has gone crazy, and Liu Jie has gone crazy. He also wants to send a thief like Lu Yang to attack Tianyao's main city, but Tianyao is very strong against him. He couldn't even get into the area of Sea Lion City.

"As long as I still have half of the wild fortress, I can still live on it." Tian Yao gritted his teeth and cursed, "Follow me."

Without the heart of God of War, and not letting Tian Yao lose his fighting spirit, he led the team to attack Lu Yang for the third time, but he just rushed to half, Night Demon, Bone Emperor, Tiebei, Unicorn and Sea Lion, Shaman, At the same time, the news of the wild fortress of Beamon City was captured and sold by the Iron Brothers Alliance, which made Tianyao dark and almost fainted.

The fort worth 900 million cash is gone, and it is difficult for anyone to accept it. The vice chairman around him quickly helped Tian Yao, and the players who followed him stopped.

"Boss?" The vice chairman wanted to speak but didn't know what to say. The system message of the lost fortress had just swiped the screen in their conversation bar.

300 forts, just lost!

Tian Yaoqiang resisted the urge to vomit blood, looked at Lu Yang in the distance, and cursed: "Lu Yang, you are cruel."

Lu Yang's face remained the same, and he said using a big horn: "Tian Yao, you still admit it, I will return the money to you, and the national war is coming. I will do my best to deal with the battle of foreign players. I hope you will accept this reality.

Tianyao just glared at the sun and didn't say a word. His 3 million men were also standing by. At this time, it depends on what Tianyao thinks.

What they don't know is that Tianyao was not thinking about how to do it at this time, but was facing the dunning of bank loan officers.

In order to make the fastest cash, Tianyao borrowed a large amount of cash from many banks to build wild fortresses.

Today, these outdoor fortresses have been sold by Lu Yang. He was also attacked by Lu Yang and Liu Jie. There was another mess inside, and major banks sought him for payment.

Facing their persecution, Tianyao still did not bow his head, insisted on his teeth, and continued from day to night. When the first night ended, Liu Jie was still blocked by the Sea Lion City and did not move forward.

Lu Yang had 7 main cities here. The Tauren main city was handed over to Liu Yunpeng by the Lu Yang. The lion gave the hero, the fox gave the Linghu Chong, and the giant shark city, the cat main city and the tidal city gave it. After the rain and rain, the main city of the Tigers gave them lofty sentiments. Counting the main city of the Wolf tribe, it was equal to the beasts being beaten by Lu Yang.

late at night.

Lu Yang personally took part of the players who went online at night to stay outside Sirius City. He had to guard against Tian Yao's counterattack.

"Boss, you can take a break. There are not many people on Tianyao's line. There will be no war tonight." Xia Yuwei said.

A smile appeared on Lu Yang's face, saying, "I am betting. I sent players who defended on the side of Liu Jie here. I bet Liu Jie would not invade the human race at this time. Although I am very confident, but there is still fear in my heart, go and rest, I call you if something happens. "

Xia Yuwei stopped talking, and turned away, leaving only the old man to stay with him. The old man was very optimistic and said, "Fortunately, the old man, I am older and I have less sleep, or there is no one to talk to you, haha. "

Lu Yang also laughed. He knew that the twilight was unlocking him, so that he didn't have to be so nervous, and said, "It depends on what Tianyao thinks tonight. If he figured it out, we can still relax in this battle. If he can't figure it out, it's another tough battle. "

Nostalgic nodded and said, "This boy is even worse than the heroic character. You just have to wait for a tough battle. Don't be fanciful."

Lu Yang said silently, "I don't know what happened to Liu Jie's side. We have achieved such great results, but he has no effect. Will this kid have an unbalanced mentality?"

"Don't underestimate him. I have been studying Liu Jie for a long time. This boy likes night fights. Look at it. Tian Yao's side is not peaceful tonight." Chi Mu said.

Tu Feng came over and said, "Boss, I have received the news that Liu Jie needs action tonight."

Lu Yang said: "Sure enough, we are going to fight at night. Let's sit here and watch a movie. I don't know if Tianyao can live on."

Command Center outside Sea Lion City.

Liu Jie looked coldly at the five commanders and said, "We didn't do our best during the day to let Lu Yang take advantage and lay down 7 main cities. Tonight I hope you will completely defeat Tian Yao. City, I want it all, I understand it. "

“Yes.” Yao Wu Yangwei and others such as Yue Taishan replied.

“Departure, no matter what method you use, give me the main force of Tianyao, and let our people unite with the players of Night Demon City and Bone Imperial City.” Liu Jie said.

More than 3 million elite players, at the request of Liu Jie, went to bed in the afternoon. For example, today’s main force is off the line to rest, Tianyao can only lead more than 2 million players, and the remaining 1 million or more Be prepared for Lu Yang.

“Brothers, it is not easy for us to lay down the orcs. For the guild, please help me, but also for yourself. We must insist on it. We must not let Liu Jie win. Come with me and fight against Liu Jie.” Tian Yao Shouted.

“Fight it!” Shouted 2 million players together.

Tianyao roared, the first one led the player towards Liu Jie’s side, and the two players quickly fought together.

Lu Yang watched the video live. The war lasted a whole night. In the end, Sea Lion City, Unicorn City, and Night Magic City were beaten by Liu Jie.

Tianyao has only five main cities, including the Bone Emperor, Iron Back, Dragon, Shaman, and Orc. In fact, he has been defeated.

Early the next morning.

Tianyao is still playing against Liu Jie. At this time, there are less than 500,000 players in his hands, and the rest are offline and not participating in the game. Liu Jie still has more than 2 million people and his morale is high.

Below the Black Dragon Fortress.

Liu Jie looked at Tianyao who was standing on the city's defense and was afraid to fight, showing a mocking expression, and said, "Why, isn't Tianyao known as a battlefield meat grinder, why didn't you dare to come down to fight?"

Tianyao was furious and scolded: "When my men go online, when they go online, I will certainly retake the fortress that belongs to me."

Liu Jie smiled and said, "Is it right? I'm standing here waiting to see how many players you can gather."

Tian Yao sneered, sitting in the city waiting, the time soon reached 8 o'clock, and players came online one after another.

"set."

"All members, if you still recognize me as the boss, you will all come to the Black Dragon Fortress."

...

Tianyao fights.

Most of the players in the guild did not quit the guild. After hearing Tianyao's words, more than 6 million people flew to the Black Dragon Fortress at the same time.

Tian Yao personally brought people to the array outside the city, looking at Liu Jie on the opposite side, Tian Yao proudly said, "Lao Tzu will fight you now."

The number of players gathered on Liu Jie's side also reached 5 million, and said, "Okay, let's start playing."

Tian Yao turned his head to the head of the cursed mage regiment around him and said, "The person who will take you for a while will aim all the skills at Liu Jie's flank. There is his main force. As long as his main force is killed, this We won. "

“Boss rest assured, I know how to do it,” said the head of the forbidden mage regiment.

“Clash with Lao Tzu and kill Liu Jie.” Tian Yao raised his weapon, the first one rushed to the front, and 5 million people rushed down like he was crazy.

With a sneer on Liu Jie’s face, he said, “All offense, lay me a black dragon fortress.”

More than 10 million players from both sides quickly collided together. At the same time, large dark clouds appeared in the sky on both sides, which was a precursor to the release of the forbidden spell and the secondary forbidden spell.

The players on both sides have adapted to all of this for a long time. None of them feared and avoided, and continued to attack. They knew that even if they ran, they could not get out of the scope of the large-scale curse attack.

There are more than 1,000 players in the forbidden mage group on both sides, and the secondary forbidden spell levels released are all above level 2, which is equivalent to destroying about 300,000 players in one attack. If the target is accurate, you can kill the opponent. The absolute main force.

Tian Yao had a night with Liu Jie last night and had a clear understanding of Liu Jie’s main force. He knew that as long as this strike could kill 300,000 Liu Jie’s main force, he would send another one hidden in the Chinese army. Main force, he can win this game.

After 30 seconds, the forbidden spell in the sky fell down, and when the hopeful light was revealed in Tianyao’s eyes, the large block forbidden spell hit the main player of his army, and more than 300,000 were caught in the middle, for 5 seconds Zhong’s reaction time was short, and all were killed. From a high altitude, it can be clearly seen that Tianyao had been shot short.

“How is this possible?” Tian Yao stared blankly behind him, unable to understand how Liu Jie did it.

Liu Jie said to the dead grass around him: “Good job, it’s time for you to buy people’s hearts.”

The dead grass laughed and said, "It's not because of your money, Jie, what is my credit for that?"

Liu Jie laughed. Last night's war ended, dead grass told him that there were three vice presidents of Tian Yao want to rebel, Liu Jie naturally welcomed with both hands, not only giving money to things, but also promises, everyone When he came to his guild, he was still treated as vice chairman.

"Tian Yao, wasn't you surprised? Tell you that many of your people have already betrayed and you have lost." Liu Jie said using a loudspeaker.

Tian Yao turned to look at the vice presidents around him but found no abnormalities. He looked at Liu Jie and said, "Don't provoke the relationship between me and my brothers, they will not betray them. ..."

Without a word, the chairman of a thief occupation pierced two daggers into Tianyao's neck and said, "Sorry Tianyao, we have to make plans for our brothers."

"Fifth child, what are you doing?" The chief staff officer couldn't believe it and looked at the thief.

"Nothing, Tianyao has lost, so don't pull us anymore. Originally, we were also a guild created by six people. He was recommended by us as the boss. Now he can't do it anymore, and he should be replaced." The fifth person said.

"Yeah, you've lost to that level, what else do you fight?"

"I also agree not to fight."

The other two vice-chairmen also stood up.

The chief staff officer looked at the three in disbelief and said, "Is the three of you the traitors in Liu Jie's mouth?"

The three smiled indifferently.

## Chapter 939 - Explanation

This departure was a heavy blow to Tianyao. The external enemies were not terrible. The terrible thing was the internal cracks. Now it is not just the cracks, but brothers separated. More than 1.5 million people have been asked to withdraw from the war.

After Tianyao's resurrection, his anger was full of finding three accounts for them, but when they left with 1.5 million people, Tianyao even lost his anger, because he was directly fainted.

"Boss, Tian Yao was fainted." Tu Feng ran and said.

Lu Yanggang gathered 5 million players, hesitated at the news, and asked, "What's going on?"

Tu Feng will buy dead grass to buy Tianyao's vice chairman, let the three men defect, and kill Tianyao.

Lu Yang exhaled resentfully, cursing: "Counting dead grass is a despicable villain, and I like to use this dark method of calculating people."

"What shall we do?" Tu Feng asked.

Looking at the distant dominance fortress, Lu Yang was in charge of defending his cousin Tianyao, who was already offline, and the players who defended him were completely out of control.

"Abandon this fortress no matter what, go to the other fortresses first, and strive to grab a few more in front of Liu Jie." Lu Yang said.

“Yes.” Zhuojiu and the White Lion and others immediately split their heads and rushed to the rest of the orc’s fortress with their players. Several main city fortresses remained.

It happened that Lu Yang’s regiment of thieves was around the fortresses of Beamon and Shaman. Taking advantage of this opportunity, Han Sha and the light and dark thieves raided these forts and Lu Yang won two fortresses in the main city.

Xia Yuwei and Sun Yu immediately brought the player in and guarded the entrance to prevent Liu Jie’s players from entering. In the end, all the main cities were divided by Lu Yang and Liu Jie except the Black Dragon Fortress and the Dominion Fortress.

Among them, Lu Yang occupies 10 main cities, and Liu Jie occupies 6. From a numerical point of view, Lu Yang’s side has won all.

“It’s strange.” Sun Yu frowned.

“What’s wrong?” Lu Yang asked.

“Liu Jie’s men have just hit under my fortress, and saw that it had been occupied by me, and retreated without a word.” Sun Yu said.

Lu Yang sneered and said, “This is what Liu Jie thinks he has eaten me, so I don’t need to conflict with me at this time.”

“What do we do now, it’s too difficult to defend, the front is too strange.” Xia Yuwei said.

Lu Yang and Liu Jie now split the orc into 45 irregular figures at an angle of 45 degrees, of which Lu Yang accounted for more than half and Liu Jie accounted for a small part.

Looks like Lu Yang is suitable, but small has small benefits. He has fewer defense places and a wide range of attacks. Lu Yang has more places to defend. Among them, Tidal City, Beamon City, Lion City, and the Orc main city all need defense. .

“Now it’s the National Day. We have enough people on the line. If we wait for the festival to pass, we want to defend so many main cities and fortresses. It’s difficult,” said Zhujiu.

Tu Feng said: “The strength of these orc guilds that entered our guild is much worse than Liu Jie’s main force. Only by them, Liu Jie cannot be prevented.”

Both Zhuojiu and White Lion were worried.

Lu Yang said: “Don’t worry, I didn’t want to end here. I want to attack and take out Liu Jie during the holiday.”

“Hit Liu Jie?” Everyone asked in unison.

Lu Yang nodded and said, “Yes, the time is ripe and I can let it go.”

“When is it?” Xia Yuwei asked.

Lu Yang smiled, he did not say, because this matter can not be said, Qi Yun just called him, it can be confirmed that as early as tomorrow morning, the fourth largest investment bank in the world will declare bankruptcy, ten trillions The US dollar subprime loan business will be wiped out. It is only the first outbreak, which is equivalent to the disappearance of a year of GDP in a middle-developed country.

The Liu Jie family will be hit hard in this crisis. Qi Yun has already bought a large number of Liu Jie family banks’ stocks in advance to be short.

Now that Liu Jie’s stock has risen continuously because of his victory in the game, it is time for Lu Yang to make Liu Jie’s stock in the game into waste paper.

“You rectify the players first, I’m going out.” Lu Yang looked at Lan Yu and said, “Sister, is the transfer contract I gave you still alive?”

“At my mother.” Lan Yu said depressed.

Xia Yuwei said, “Boss, don’t blame Lan Yu, her mother is a little worried.”

Lu Yang said: “Am I the kind of person, I said the guild is that my gift to Lan Yu will never change. I mean this transfer contract may be of great use in these two days. You let you Mom is ready to make him public at any time. “

“Oh.” Lan Yu said.

Lu Yang rubbed her little head and said to everyone, “I’ll be back tonight as soon as possible.”

After exiting the game, Lu Yang changed his clothes, and took more than 10 people, such as black and white, to the magic city by plane. He found a frail man in the hospital where the old man trained.

“Boss, who is this man?” Black and White asked.

Lu Yang said with a smile: “Tian Yao.”

Black and white: “...”

“Boss, you owe it again.” Black and white said silently.

Lu Yang laughed for a while and walked into the room. At this time, several people were staying beside Tian Yao. It looked like his family was talking about something.

Seeing Lu Yang coming in, a middle-aged woman stood up, said to Lu Yang with a smile, “I’m here to see our family.”

“No, mother, he came to see me jokes.” Tian Yao almost yelled at Lu Yang.

Lu Yang said, "Your boy is full of energy and looks okay."

"I'm fine if you die." Tian Yao cursed.

"Son, don't talk like that, may I ask you?" Tianyao mother asked.

Lu Yang was also a little embarrassed. The black and white people standing behind him felt even more embarrassed. What is it called, just after the people's guild was extinguished, they came over to see them, hit their face and hit home.

"I'm Lu Yang." Lu Yang said apologetically.

The Tian Yao family showed a surprised look. A little girl even walked to Lu Yang and kicked him angrily, saying, "Bad guy."

Lu Yang said helplessly, "I didn't mean anything else. I wanted to talk to Tian Yao about the future. I hope you will understand."

Tianyao's parents are very cultural and literate people, took a look at Tianyao and said, "Then we go out first, you two talk."

Lu Yang glanced at them gratefully and said to Black and White, "You also quit first."

"Okay." Black and White led away.

There were only two people in the room, Lu Yang and Tian Yao.

"Say, what do you want me to do in advance? If you are persuading me to join your guild, then stop talking nonsense, I won't agree." Tian Yao leaned on the bed and said angrily.

Sitting in a chair by Tian Yao's bed, Lu Yang said, "Sorry, it was not my intention to fight with you."

"What do you mean?" Tian Yao asked.

Lu Yang said: "I didn't mean to shirk responsibility. Originally, I just wanted to eliminate Liu Jie, but he offered to divide the orcs with me."

"So you agreed?" Tian Yao asked uneasily.

Lu Yang sighed and said, "You can't promise it."

"Why not? You have taken over my wolf tribe. I haven't turned my face with you. Instead, you hit me first." Tian Yao said.

Lu Yang said, "You have no idea what Liu Jie did to deal with you?"

"What does this have to do with Liu Jie?" Tian Yao angered.

Lu Yang said, "Liu Ruoshi, do you know Liu Ruoshi?"

"Liu Ruoshi?" Tian Yao pointed to the mv on the TV, although it was muted, and asked tentatively, "Who are you that actress?"

Lu Yang smiled and nodded, and asked, "It looks like you quite like her."

"What's wrong, does Lao Tzu's star chase have anything to do with you?" Tian Yao cursed.

Lu Yang said: "This woman gave me your chips to be beaten by Liu Jie."

“What?” Tian Yao sat up straight and asked, “You said that Liu Ruoshi was the chip that Liu Jie gave you? How is this possible? He is a star. He earns at least 8 digits a year. How can he do it? Such things. “

Lu Yang said, “Why did Liu Jie join Liu Ruoshi?”

Tianyao was shocked and looked at Lu Yang in disbelief and said, “Is this true?”

Lu Yang said: “Since I unified the inland of the human race, Liu Ruoshi appeared inexplicably. Someone once sold me a message. I thought it was useless, but I didn’t expect to use it. That’s Liu Jie’s production company A former employee sold it to me, and he told me that the boss behind his company was Liu Jie, which happened to be Liu Ruoshi’s. “

“What if that employee lied to you?” Tianyao asked.

Lu Yang said: “Unfortunately, just when I doubted, the legal person of this company changed from one person to two, and the other was Liu Ruoshi, who also held 35% of the shares.”

Lu Yang gritted his teeth and said, “This Liu Jie is so generous. In order to deal with me, give this girl at least 20-30 million more a year.”

Tianyao didn’t know what to say, but just stared at Lu Yang with a stun and said, “How can there be such a thing Lu Yang said:” Because Liu Jie thinks you are harder to deal with than me. “

“What do you mean?”

Lu Yang said: “What is your Tianyao identity, but how can you be a decent child who is deceived by a female star? No, I now think you will be deceived.”

Tian Yao blushed and said, “Run less on me and talk.”

Lu Yang smiled and said, “This is a scam designed by Liu Jie and dead grass. They think that I have developed from a grass root. Today, if I have money, I will be confused by this flowery world in front of

me. The eyes, the words of the former lovers, the Shanmeng oath, will be shattered by ruthless money.  
“

“They think that as long as there is a beautiful woman who is on the stage and has a higher level than Blue Feather, I will be arrogant because of the situation, leaving Blue Feather to chase this woman.”

Tianyao said, “So Liu Ruoshi appeared.”

#### Chapter 940 - Conquer Tianyao

Lu Yang nodded and said, “Yes, Liu Ruoshi stayed in Donghai City for a month. In the name of working here, she came to me every day. If I didn’t know this, I would think that Liu Ruoshi was my talent and ability. Impressed, but he is actually bewildering me with beauty. “

“Before that, I couldn’t think of how to solve the situation of our three confrontations, but Liu Jie made his move first, and let the dead grass find me to negotiate with you to deal with you. I had no better way but to agree to his request.”

Tian Yao nodded and said, “I understand. It turned out to be the case. I believe you must have found a way to solve Liu Ruoshi’s beauty trap. Please go. I thank you for your sincere notification.”

Lu Yang shook his head and said, “I haven’t spoken yet. If you don’t listen to me, you will regret it.”

Tianyao said, “I have any regrets. I lose in the game and I lose. My family is not bad for that money. I just go back to inherit the family business.”

Lu Yang said, "I'm talking about your family. In this way, I will make an agreement with you first. If I can save your family and prevent your family from bankruptcy, you will join my guild. . "

Tian Yao was interested by Lu Yang and asked, "I still have a relationship with my family. The total value of my family company's stock is more than 100 billion. How can it go bankrupt?"

Lu Yang said: "Don't you dare to bet on me, you dare, I'll say, you dare, I don't think you're a seed."

"You haven't planted it, let's talk, I listen to it." Tian Yao said uneasily.

Lu Yang said, "Did your family just take a big order worth \$ 3 billion?"

Tian Yao hesitated. He had just heard about it from his parents, and his parents told him to relax his heart.

"This is a trade secret. How do you know?" Tian Yao asked.

Lu Yang said, "I naturally have my channel. I can tell you that the other company's company is about to go bankrupt. If you take this 3 billion order, something is done, and their company is gone."

This is a batch of special aluminum processing business. There are very few companies that need materials in this area. The only few companies have their own channels. There is no need to buy from Huaxia companies. This business is not Tianyao. The home was hit by the pie that fell from the sky, but the company that placed the order could not pay the high prepayment. The original supplier was unwilling to accept the order. Tianyao 's family deliberately snatched this business in order to open the US market. .

In the last life, Tianyao's family was bankrupted and liquidated because of this business, and the family became deprived of everything. Fortunately, Tianyao had not been defeated by Liu Jie at that time, relying on the income from the game, his life was OK.

Later defeated, Tianyao exited the game, sold all assets, and the family had a good life, but in this world, Lu Yang defeated Tianyao before the economic crisis. Now the economic crisis is coming, no matter

whether it is moral or to buy people's hearts, Lu Yang Du thought he had an obligation to inform Tianyao, even if Tianyao didn't join his guild, he had to say this.

Tian Yao was completely stunned by Lu Yang's words, saying, "Wait a minute, I told my parents to come in, and they must talk to you about it."

Tianyao didn't know much about the family business. He quickly called his parents and others to come in and repeated what Lu Yang had just said.

Tian Yao's father is Liu Tiande, a middle-aged Sven man with glasses, and asked, "Xiaolu, is your news accurate?"

Lu Yang said, "I'm not afraid to tell you until now. The Qi Yun who was kicked out of the Liu Jie family, which was once regarded as the future successor of the Liu Consortium, I received him from my Majesty. In the past six months, I spent more than \$ 1 billion to recruit a large number of elites from Wall Street to the company I and he co-founded. "

Tian Yao was stunned, not knowing who Qi Yun was, but Liu Tiande knew it, and Tian Yao's mother also knew it.

"Qi Yun was taken away by you?" Liu Tiande asked.

Lu Yang said: "My purpose is to defeat the Liu Consortium. He and I have the same purpose. When Qi Yun dug people, he dug up the CFO of Merrill Lynch Group. Now Merrill Lynch's book cash is less than 1 billion. There are more than 6 billion in debts outside. If you invest in it, you are investing in a bottomless pit.

Even if Merrill Lynch is not bankrupt, Tianyao's family will not be able to recover the payment. The raw materials of 3 billion US dollars will only have a net income of 3.3 billion US dollars after the sale, which is not enough to pay back the money. "

The Tianyao family lost 1 billion credit points in the game. This is only a small amount of money. However, if they lost 3 billion US dollars, they lost 17 billion credit points. His family stock is worth more

than 100 billion. It's just stocks. His family doesn't have much cash. Most of them are fixed assets. Stocks are just speculated prices.

Liu Tiande was shocked by Lu Yang's words and said, "Xiao Lu, thank you for your words, you saved our family."

Lu Yang smiled and said, "I respect Tianyao. Although we are enemies in the game, I always think that we are friends, and it is right to help you."

Tianyao's mother said: "This is not an ordinary friend who will be willing to help, you saved our family, I thank you."

Tian Yao's mother bowed to Lu Yang, and Lu Yang quickly shied away and said, "This can't stand it."

"I went back and returned this order. I wouldn't say much about thank you. I must let Xiaolu tell you the news." Liu Tiande's payment will be sent to the next family today. Leaving the hospital.

Tianyao's mother, the company's chief financial officer, said, "I have to go too."

Watching the two men leave with a confused little woman, Tianyao was sure that what Lu Yang said was true. He looked at Lu Yang and sighed, saying, "I owe you an adult."

Lu Yang smiled and said, "Don't talk about these useless things. Hurry up and pack up and follow me to the East China Sea. It's your turn."

"I'm still sick." Tian Yao said.

"Take care of that as soon as possible," Lu Yang said.

Tian Yao rolled his eyes and said, "You are too capitalist, and I have to work when I am sick."

Lu Yang laughed, pulled Tian Yao back to Donghai City by plane that night, and returned to the studio. Xia Yuwei and the White Lion saw the surprise when Lu Yang brought a stranger back.

“Who is this person?” Asked Zhuzhuo.

Tianyao was wearing a rucksack, ripped jeans, and a baseball cap.

Lu Yang leaned over his shoulder and said, “Give everyone a grand introduction, this is the sky ~ Yao ~.”

“What?” Xia Yuwei and the White Lion were dumbfounded.

Tian Yao smiled awkwardly and said hello: “Hello everyone, I’m Tian Yao.”

“I’m gone,” half-life went to Tianyao, looked up and down, and said, “how did you get tricked by the boss.”

Everyone laughed, and everyone in the black and white behind them also laughed.

Lu Yang was speechless and said, “While going, why did you lie? He was moved by my sincere words and came to take the initiative.”

Tian Yao said with a black line on his head, “You are all together. I’m sorry before, it’s a problem for everyone.”

Zhuo Jiu rubbed Tianyao’s shoulders and said, “Don’t say that to us. Brothers are here. We all admire you. I’ll introduce you.”

No matter what Tianyao has done before, no one can deny that Tianyao’s personality charm, gathered so many masters together, also got so many \*\*\*\* totems, and almost unified the orcs.

Zhuoju took Tianyao to know each other, and both the White Lion and Zhou Tianming were willing to make friends with Tianyao, and a group of people soon chatted happily together.

Lu Yang arranged accommodation for Tianyao. A group of people had eaten and said, "Go online, gather your players."

Tian Yao nodded and logged into the game.

At this time, the national uniform was still in a mess, and the players under Tianyao did not admit defeat. He had many loyal supporters. In the face of the lost fortress, they continuously attacked everywhere.

"Revenge on the boss."

"If the boss doesn't go online, our attacks will continue."

...

More than a hundred loyal players followed the remaining vice-chairmen to make troubles throughout the orcs. Although they were defeated, they could not lose much equipment. Facing the second-line equipment of other orc guilds, these people killed a lot of people.

System prompt: Your friend Tianyao is online

"Boss is back." The commander of the First Army quickly called Tian Yao, "Boss, are you, are you back?"

"Nonsense, of course, Lao Tzu, all gather for Lao Tzu." Tian Yao said.

"Boss, there's only one fort left."

"Then go to the fortress and gather." Tian Yao said.

“Good grin.” Hundreds of army commanders received Tian Yao’s orders and flew to the Dominion Fortress with their men.

Obviously, the number of players loyal to Tianyao is very large. Many players who were too lazy to fight saw that Tianyao returned, and quickly flew to the fortress of domination, and gathered nearly 2 million people within a short time.

“Boss, we’re here, let’s talk, we’ll fight with you whoever fights, and fight with you without any money.”

“Fight with them and take back everything that belongs to us.”

“I’ve followed you since I entered the game, and we’re not afraid of anyone.”

“If you do n’t have anything else, you will have time. Whoever you say, we will fight with you every day.”

...

Tianyao looked at the players, tears appeared in his eyes, and when he was in trouble, he saw the true feelings. At this time, he knew who was the closest.

“Brothers I thank you first.” Tian Yao bowed to everyone.

“Boss, you don’t have to do this.”

“No need.”

...

A mountain shouted the tsunami.

Lu Yang stood not far from the fortress, listening to the call inside, and said, "Tianyao still has a very important position among the players."

Xia Yuwei asked, "Boss, how did you subdue Tianyao?"

Who can imagine that a person like Tian Yao would surrender to a person of the same level as him, and even if defeated, such a person should not give in, but should continue to fight.

Lu Yang smiled and didn't speak. This is the secret between him and Tianyao. He won't make Tianyao even more embarrassed. He won't say anything about it.
