Chapter 941 - Decisive battle with Liu Jie

“You stare here for me first, and I’ll contact the other people.” Lu Yang stepped aside, called Qi Yun and asked, “How are you all prepared?”

Qi Yun said: “Everything is ready. I will hunt down the Liu Jie family company immediately after the investment bank declares bankruptcy tomorrow morning.”

Lu Yang said, “I’ll leave it to you all over there. Early tomorrow morning, I will officially start a war against Liu Jie. We will take a two-pronged approach to officially declare war on the Liu Jie family.”

Qi Yun had Qi Qixin in his heart, and sighed, saying, “I never thought I would declare war on the Liu’s consortium one day.”

Lu Yang smiled and asked, “Why, a little bit reluctant?”

Qi Yun shook his head and said, “You let me reach a height far higher than that given by the Liu family. I just have some emotions. No, I should say I am lucky. Since I let him take off, I should be I fight back to its original shape and even destroy it. “

“Okay, that’s it.” Lu Yang hung up the phone and called Liang Yun again.

“What’s the matter?” Liang Yun asked.

“Are you ready, tomorrow is the decisive battle.” Lu Yang said.

“I’m always ready. You ask me to fight, I can summon more than 3 million players at any time.” Liang Yun said.

At the beginning, Liu Jie’s method of unifying the elves was no better than Tian Yao. The two were enemies everywhere. With a little encouragement from Liang Yun, countless presidents would follow him to find Liu Jie.

However, there are also guilds who have trusted in Liu Jie secretly. For these changes, they were reported to the dead reckoning. Although dead reckoning is the top master planner, he can’t count Tianyao’s trust in Lu Yang, even less. Lu Yang dares to start a war tomorrow like Liu Jie.

It doesn’t matter if they can’t figure it out. Lu Yang has a way for them to figure it out. In order to prevent the dead grass from planning time as much as possible, Lu Yang decides to preempt and he finds Huang Xiang.

During this time, Huang Xiang was very busy. He continuously passed on the news about Liu Jie to Lu Yang, as if he was a loyal subordinate, and passed back every detail of Liu Jie’s war against Tian Yao.

But none of these messages was useful. Lu Yang knew that Liu Jie had deliberately passed Huang Xiang back, otherwise Huang Xiang would never say. In this case, Lu Yang would be happy to use Huang Xiang to pass the message back.

“Boss, what’s new, Liu Jie and Shimao Cao took all the senior commanders to the party.” Huang Xiang called Lu Yang.

Lu Yang said: “Yes, from now on, I will increase your budget by 10 million, and you will buy me master Liu Jie.”

“Also increase the budget? Ten million?” Huang Xiang asked in surprise.

“Yes, brother, I’m going to fight against Liu Jie. The time is tomorrow. Although I’m in a hurry, you must buy me more advanced men under Liu Jie.” Lu Yang said.

“Hit tomorrow?” Huang Xiang was even more surprised, and asked, “How can Tianyao do that, you fight with Liu Jie, and don’t take the opportunity to regain territory.”

Lu Yang said proudly: “No, I just convinced Tianyao that he is now the thirteenth vice president of my guild.”

Huang Xiang was stunned, he couldn’t imagine how Lu Yang did it, and said, “Oh, okay, I’m going to go now.”

Lu Yang hung up the phone, he sneered, and said, “Go and tell Liu Jie and let him hurry up and let that Liu Ruoshi go.”

Huang Xiang called Liu Jie the first time he hung up the phone, and said in a panic, “Jie Young, big things are bad.”

Liu Jie was drinking, with a three-point drunken laugh, and asked, “What is not good, is there anything else that is not good now?”

Huang Xiang said anxiously: “Just now Lu Yang told me that he wants to go to war with you early tomorrow.”

“Lu Yang fought against me. Don’t listen to him nonsense. Tianyao hasn’t solved it yet. How can he fight me?” Liu Jie didn’t believe it at all.

Huang Xiang was even more anxious, saying: “Tian Yao has surrendered to Lu Yang and officially became the thirteenth vice chairman of the Iron Brotherhood.”

“What?” Liu Jie sobered up and asked, “Are you sure?”

“Okay, Lu Yang told me personally, you must find a way to prepare for the challenge.” Huang Xiang said.

He was really anxious. If Liu Jie failed, he would be exposed. At that time, his life would be over. When he thought of Lu Yang’s revenge on him, he shuddered.

Liu Jie set the phone aside and looked at the dead grass and others with horror in his eyes.

The dead grass immediately found the problem and asked, “Jie Shao, what’s wrong?”

Liu Jie glanced at the girl in the room and said, “You go out first.”

After all the outsiders had left, Liu Jie said, “Huang Xiang just called me and said that Lu Yang will start a decisive battle with me tomorrow morning, and come with him to fight me, and Tian Yao.”

“How is it possible, how could Tianyao unite with him.” Yaowu Yangwei said.

“It is not a union but a surrender. He said that Tianyao officially surrendered to Lu Yang.” Liu Jie said.

The dead grass eyes suddenly became sharp and said, “Are you sure?”

Suddenly, a burst of news was broadcast on the TV in the room, and the host said: “The latest news, Tianyao officially announced his surrender to Lu Yang and brought 5 million players into the Iron Brotherhood.”

“How can this be?” Yaowu Yangwei said unbelievably.

“Tian Yao will surrender?” Ru Yueshan could not believe it.

Looking at dead grass, Liu Jie asked in a panic, “What can I do? If they are united, I can’t beat him.”

The dead grass said: "I suggest to enable Liu Ruoshi in advance. If Lu Yang dares to attack us early in the morning, Luo Cheng will play Tian Yao with the main force, and we will defend Lu Yang."

"Defending Lu Yang?" Luo Cheng asked.

"Yes, Liu Ruoshi's affairs are out, Lu Yang's side must be chaotic, but if we attack them immediately, they will unite in order to protect themselves, and to maximize Liu Ruoshi's destruction of their interior, we must Defend Lu Yang first, Luo Cheng, you must take the main force to defeat Tianyao as soon as possible. "Said dead grass.

"No problem, it's too easy for me to hit Tianyao now." Luo Cheng said confidently.

Tianyao's three traitor vice presidents joined Luo Cheng's guild with 1.5 million people. These 1.5 million people's equipment is front-line, plus 2 million players in five orc main cities, and he owns Of the 3 million people together, he owns 6.5 million people.

Liu Jie said: "That's the case. Everyone is going to go. Tomorrow morning, I will let Liu Ruoshi and Lu Yang make their identity public."

Soon after, Liu Ruoshi received Liu Jie's order, the girl smiled happily, and she could finally end this uncomfortable time.

"Although you are a nice and nice person, you shouldn't block Jie Shao's way. For your good to me this month, I would advise Jie Shao not to be too much of you." Lu Yang said in his bedside.

"噫"

He threw the photo into the trash can.

late at night.

Lu Yang and all the vice presidents did not rest. Everyone's face was excited, because this was the first time they had participated in such a large-scale war.

In terms of the orcs, Yunyu, Hao, arrogant, Liu Yunpeng, and Tian Yao smiled at each other, and they decided to help Lu Yang unify the orcs to attack Liu Jie.

Several of them cooperated to remove the second-tier players, leaving only the first-tier players, with a total of 5 million people.

There are 5 million people in the old man's hands, Liang Yun gathers 5 million people in the Elves, and Lu Yang can also mobilize 6.5 million people.

"If we continue to fight like this, we may defeat Liu Jie tomorrow," Lan Yu said.

Everyone nodded together.

Lu Yang said, "Pour some cold water on you first, don't get too excited. First of all, this world has a sky-eye alliance."

"Tianyan Alliance? What?" Zhou Tianyan asked.

Lu Yang said: "This is an alliance formed by the elites of various countries in the world. Every year, it recruits talents from all over the world and some universities."

"Boss, you have joined the club." Asked bitter love for a long time.

Lu Yang shook his head and said, "I did not join the club, but my old enemy, Liu Jie, is a member or an important member of it."

Zhuojiu frowned and asked, "Is this sky eye tissue strong?"

Lu Yang thought for a while and said, "5% of the world's wealth is in their hands. You say they are not strong."

"I depend." Everyone was a little hesitant.

Lu Yang said: "The Second World is so hot that they will naturally send people in. Liu Jie is one of them and the most successful one. He also used money to establish branches in various countries. We must start before the national war, first kill Liu Jie, or the national war will begin, the Skyeeye Alliance will gather players from more than 20 countries to help Liu Jie. "

Only then did Tian Yao, Zhuo Jiu, and others come to understand why Lu Yang was so anxious to hit Liu Jie. It turned out that there was still such a powerful organization threatening them behind.

Lu Yang went on to say: "The members of this organization have no nationality. You have to recognize this. They don't identify with the country, they only agree with this alliance. In other words, all members who join this organization do not have the concept of the state only knows how to make money.

When the national war begins, they will take the fleet to sweep across the world. Not only Huaxia, any country will be attacked by them. Of course, we are the first choice. After all, it is the largest country and the least united country. "

"Boss rest assured that we must defeat Liu Jie before the national war begins." Tian Yao said first.

Lu Yang nodded and said, "Tian Yao, I need to tell you one more thing. I will not take back the totem of the gods in your players' hands, but they must turn in after the war is over."

Tian Yao nodded and said, "I know, you can rest assured."

The rules set by Lu Yang for the Brotherhood of the Iron Blood, all the commanders and vice presidents of powers are allowed to take the totem of the gods, and masters with artifacts can not hold any position within the guild.

Anyway, power and money still need strength, and they can only choose one from the other.

“After the meeting, everyone will have a good night’s sleep. We will start the war tomorrow morning.”  
Lu Yang said.

Chapter 942 - Tits 4 Sisters

Early the next morning.

As early as eight in the morning, when most players just came online, Lu Yang posted a video in all the main cities of the national clothing.

In the video, Lu Yang stood solemnly in front of the screen and said, “All the brothers of the Iron Brotherhood, it has been a year and a half since the establishment of our guild.

For more than a year, we have been bullied from the first weak, from bullied by the weak, to resistance.

We defeated the black blood, defeated the bloodthirsty domineering, defeated the eternal spirit, defeated the sword and killed the god, defeated Li Xiuyu, and defeated Wang Teng. Finally, no one in the human race dared to bully us. Finally, those who have money The scum of ours has been driven out of the human race.

But is this over? I want to tell you that, in the Elves, there is a greater threat to Liu Jie. All the exploitation and bullying of the human race were led by Liu Jie behind the scenes. He let Wang Teng went to exploit our ordinary players to make money.

Now, Tianyao of the Orcs has officially announced joining the Jagged Brothers Alliance. I hope the brothers of the human race can join me to eliminate Liu Jie, remove the maggots in this game, and get the game back on track.

Let’s play the game without worry, let us be free to fight monsters, there is no bullying by the guild, there is no monopoly of price, let us grab the game that belongs to us by ourselves.

At noon today, at 12 noon, I will officially launch an attack on Liu Jie. If you are willing to help, please sign up at the Jagged Brothers Alliance. “

The video ends and the world shakes.

“Lu Yang is going to fight Liu Jie?”

“A decisive battle.”

“How many people participated in the war.”

“Who is the boss of the national service is finally revealed.”

“Grassroots counterattack.”

...

The entire national service, and even foreign server players, stopped the idea of fighting monsters and discussed the war.

Liu Jie was mobilizing players. Suddenly, he received a mysterious call and saw the number. He smiled and pressed the answer button.

“What’s the matter, I need to bother you to come and call me in person.” Liu Jie asked.

“Stay for 2 days, we will force the Second World official to open the national war tomorrow, and our fleet will arrive at Hot Springs tomorrow night.” No. 1 said.

“Thank you very much.” Liu Jie felt a proud feeling in her heart, and she really leaned against the tree to enjoy the cold. Such an organization could make the official concession of an international organization such as the Second World open his eyes.

The dead grass came to Liu Jie and asked, "Lu Yang has declared war, do we also want to declare war?"

"Okay, tell me about the draft, and by the way tell Ruo Shi, you can start." Liu Jie said.

The dead grass sent a message to Liu Ruoshi.

Liu Ruoshi was anxiously waiting. When he saw the news, he immediately called Lu Yang.

Lu Yang was preparing for the battle. When he saw the phone, he said, "Liu Ruoshi called. It seems that he is about to show me a showdown."

Lan Yu said, "Brother, I'll accompany you to find her."

For the first time, Lu Yang saw the small appearance of Lan Yu, who was fierce and fierce, and said with a smile, "Okay, I'll take you there."

"I'll go too," Xia Yuwei said, rubbing her fists.

Han Liu said with frost on his face, "I'll go too."

"And me." Said the wife of shooting Sirius Qing Qian Zimeng.

A group of girls aggressively followed Lu Yang to look for Liu Ruoshi, and for the first time, women and others felt the horror of women.

"I wipe, this momentum is fiercer than our fight." White Wolf said.

Zhou Tianming said: "Women's anger is really scarier than men."

“Yes, that’s right.” Sun Yu nodded again and again, the first time he saw Xia Yuwei so angry.

Lu Yang brought the two cars to the hotel, and he said to Lan Yu and others, “Let me go in first and tell him. It’s too boring for you to find a chance to go in.”

“No problem,” Lan Yu said.

Xia Yuwei said: “Sisters, move your hands and feet, don’t give yourself a cramp while fighting.”

Lu Yang went upstairs with an ellipsis in his head, came to Liu Ruoshi’s room, knocked on the door, Liu Ruoshi came quickly, opened the door, and said gently, “Brother, you are here.”

Lu Yang looked at Liu Ruoshi’s appearance, exhaling a breath, with a faint smile on his face, and said, “Yeah, here I am, what’s the matter, call me in such a hurry.”

Liu Ruoshi said: “Brother, other fans found that I was with you, my fans’ value dropped wildly, and you are responsible for me.”

Lu Yang asked: “How responsible?”

“You marry me,” Liu Ruoshi said.

Lu Yang said, “Will you marry me?”

“Of course I do.” Liu Ruoshi felt that Lu Yang was a little different today, and asked, “Do you want to repent?”

Lu Yang said: “Of course I don’t want to repent. How can I be willing to repent if you are such a beautiful woman?”

“Then you announce it now,” Liu Ruoshi said.

Lu Yang shook his head and said, "No, I'm fighting against Liu Jie. How can I announce it now? After the announcement, will my guild not be split? In this way, wait for me until I defeat Liu Jie. Announce it."

Liu Ruoshi resolutely said, "No, you have to announce now, I'm afraid you won't want me anymore."

Lu Yang shook his head and said, "How come, rest assured, I won't change my mind."

Liu Ruoshi felt disgusted when listening to this sentence. Since she can say this to her and also to Lan Yu, but he has changed his heart towards Lan Yu, how can he not change her heart?

"No, you have to say." Liu Ruoshi said while driving the live broadcast device. In the game, he broadcasted to the whole world. On the other hand, on the official forum, news and pictures of Liu Ruoshi and Lu Yang's love have been flying.

While declaring war, Liu Jie rebuked Lu Yang's ruthlessness and injustice. The entire Brotherhood of Iron Blood was stunned by Liu Jie's words and this live broadcast.

Not only are they stunned, but all players are stunned.

"Well, Lu Yang is so powerful, even goddesses like Liu Ruoshi have come to their hearts."

"Sure enough, she is a poor woman. Once she became rich, she abandoned her girlfriend and went after the actress."

"I look down on such rubbish. This kind of person still has a face as the president and gets out of the Iron Brotherhood."

"Liar, scum."

"Lu Yang is romantic enough. There is one outside the house, and this one is still a popular star."

“Good show, good show.”

“The Huaxia server is just different. It is so exciting to play games.”

...

With abusive and watching the voice, Liu Jie finished the live broadcast and watched the video very proudly, saying, “This time, Lu Yang’s guild will definitely fall apart.”

The dead grass laughed and said, “As long as Luyang is in chaos, we can attack Tianyao and defeat Tianyao easily. It will be too easy for you to unify the national service when the fleet of Tianyan Alliance arrives.

Liu Jie laughed, and his eyes were also full of hope. Lu Yang’s attack put too much pressure on him, and now he has finally been released, making him a lot easier.

“We continue to watch Ruo Shi’s performances. When this time comes to an end, you and Ruo Shi are first-class, I will not forget you.” Liu Jie said.

I was so overjoyed that he followed Liu Jie and looked up.

Live.

Seeing Lu Yang still disapproved, Liu Ruoshi resentfully said, “Are you also going to abandon me like the blue feather?”

Lu Yang said, “How come, I never thought about abandoning Blue Feather. Why would you abandon you like Blue Feather?”

Liu Ruoshi was about to continue playing, and when he heard Lu Yang’s words hesitated and asked, “What do you mean?”

Lan Yu, Xia Yuwei and others have already received the news of the live video. Xia Yuwei said, "It's time we played."

Lan Yu rolled up the sleeve on her small arm and said, "This woman is so bad, you must teach him."

Han Liu and other women nodded together.

Xia Yuwei bit her red lips and said, "Sisters, come on."

The four women stood at the door, pushed open the door and rushed in, standing next to Lu Yang.

Liu Ruoshi froze and asked, "Who are you, how can you break into my room without permission?"

Lan Yu stunned and said, "I'm Lan Yu."

"I'm Xia Yuwei."

"I'm Han Liu."

"I am Qing Qian Zimeng."

Liu Ruoshi was dumbfounded and said, "You, you?"

Xia Yuwei said to the camera: "Our boss already knew that you were the spy sent by Liu Jie, specifically to destroy the relationship between the boss and Lan Yu."

Lan Yu opened the transfer contract that Lu Yang gave him and said to the video: "My brother never betrayed me. After learning that Liu Ruoshi was sent by Liu Jie, he gave me the Brotherhood of Iron Blood as a gift to show his heart. . "

Liu Ruoshi was dumbfounded, and the players watching the live broadcast were all stunned.

“what’s the situation?”

“It’s too fast to reverse the story.”

“I wipe, the entire Jagged Brothers League as a gift? How much is this?”

“Boss is awesome, it really is love.”

“I knew I didn’t talk to the wrong person. The boss would never do that kind of thing. The boss did a good job.”

This is what domestic server players say.

“Oh my God, the boss of the Huaxia server is terrible. What does this head do and come up with so many strategies.”

“During the opening of the national war, don’t rush to Huaxia first. We have to make plans before moving. Huaxia’s Lu Yang is too terrible to easily fight.”

...

This is what foreign players say This contest between Lu Yang and Liu Jie made them look cold all over, one used the popular star as a bait, and the other did not get fooled, and also used this Tactics to make the guild more united, they were afraid.

Lu Yang looked at Liu Ruoshi, who was stunned in the same place, and arched him and the camera.

“Thank you, and thank Liu Jie. If it weren’t for you two, I wouldn’t be able to unify the national service so quickly. Your mission is over. Sorry, I don’t want to do this, but you should have someone to teach you something. “

“Sisters, come on.” Xia Yuwei stepped forward, and Liu Ruoshi fell to the ground with a shoulder fall.

“Shit him.” Lan Yu shouted, a small voice was fierce.

“Let you seduce someone else’s husband.”

...

There was a mess, and players around the world looked cool on the back.

#### Chapter 943 - Attacking the Purple Gold Fortress

“The goddess Yu Wei is so violent.”

“It’s so beautiful. It’s so beautiful to punch.”

“It turned out that Liu Ruoshi was just like this. Look at the beauties around Lu Yang. One is more beautiful than the other.”

...

The players in the Jagged Brothers League are very happy.

Lan Yu and Xia Yuwei played for a while before they ended. Xia Yuwei pointed at Liu Ruoshi lying on the ground and said, "Let's be lucky, there are webcasts, so I will spare you today so as not to damage the image."

Everyone watching the video: "..."

Lu Yang finally glanced at Liu Ruoshi. He was lying on the ground blankly, not knowing what he was thinking. Lu Yang was too lazy to care about Liu Ruoshi. Since he was involved in the war between you and me, no one can easily withdraw.

"It's better to do it yourself, don't do this kind of wicked thing next time." Lu Yang took Lan Yu and others and turned away.

Sitting in front of the Internet watching the parents of Lan Yu seeing Lu Yang's behavior, they finally breathed a sigh of relief. They were really afraid that Lu Yang would be taken away by Liu Ruoshi.

Lu Yang returned to the studio and said to Black and White: "Reinforce your defense in the near future and be careful of enemy attacks."

Black and white face nodded solemnly, so that Liu Jie lost such a big face, he would never forget it, black and white is very clear.

Lu Yang and the four women returned to their respective rooms, logged in to the game, and came to Sea Lion City. All the main players of the Iron Brotherhood and the main players of the orcs such as Tian Yao were gathering at the fortress at the fortress. When they came to Dianjiangtai, a group of vice presidents greeted them.

"Welcome to the triumphant return of the boss and the four women." Bitter love applauded for half a lifetime.

The white lion and the shooting wolf clapping hard, and everyone's expressions of admiration on their faces made Xia Yuwei and the four women with blue feathers show shy expressions.

The players below are cheering even more.

“The boss is doing a good job.”

“Dasao is terrific.”

“The goddess is amazing.”

...

Lu Yang laughed, stretched out his hand to signal that everyone should stop, and said, “Beginning today, we will officially start the battle for the unification of the national costume.”

The eyes of all the players are brightened. It is such a glorious thing to unify the national service. This is not a server in a small country, but a super server with 700 million players.

With so many people, how many local tyrants, how many elites, how many rich bosses, how many wealthy second-generation guilds, the three clans together add up to hundreds of thousands. Which guild does not want to occupy a fort.

From small to several people’s guilds to hundreds, thousands, tens of thousands, tens of millions of people, all kinds of guilds have, the Brotherhood of the Iron Blood has defeated all guilds of the two races of human and orc, now only There is one Elf clan left.

“Brothers, I posted videos in the major cities, I believe you have seen how glorious it is to unify the national service. Besides, you still fight behind the scenes that have been oppressing us. Would you like to join me in unifying the country? Service.” Lu Yang asked loudly.

“willing!”

“willing”

“willing!”

With more than 10 million players, the tsunami-like sound of the mountain shouted so that the Sands City at half an hour away could hear it clearly.

Liu Jie stood on the city face with a cloudy and uncertain look, and the dead grass next to him looked sad. How could they never have thought that paying a big killer like Liu Ruoshi did not have a slight effect on Lu Yang, but it was even more United Brotherhood.

Xue Yiming ran over and said with high morale: “Report Jie Shao, the players are all assembled and ready to fight.”

Liu Jie was infected by Xue Yiming, and the expression on his face stretched out, saying, “I say a few words to the players.”

Just came to the player, a system prompt made Liu Jie look ecstatic.

Full Service Announcement: All players please note that the national war originally scheduled at the end of the month will start tomorrow, and the national war is coming. Please prepare for the game. At the same time, new expansions will also be launched. Welcome to explore new gameplay and new map .

Lu Yang heard the news, her eyebrows were twisted together, and Xia Yuwei and the White Lion were all surprised to look at Lu Yang.

“Why did you open it in advance? It’s just at this time.” The White Lion frowned.

Lu Yang immediately contacted Dubin to inquire about the situation. On the other side, Dubin was also curious about the reason, and when he learned the reason, he looked stunned.

“Eight of the eight nations in the Group of Nine have demanded that the national war be started ahead of time. As for? What is it?” Dubin asked.

No one could answer him. Some people reacted and pointed at Lu Yang and Liu Jie who were fighting.

Dubin hurriedly inquired about the situation in various countries and found that there were a large number of guilds in the seven countries of the United Kingdom, Japan, France, Spain, Germany, the Netherlands and Italy, and the goal was directed at China.

“It’s not fair. Doesn’t this make it clear that foreign players invaded China?” Dubin said.

No one can answer, after all, it is a joint request from eight countries, only the Huaxia family, even if the objection is invalid.

Just at this time, Lu Yang sent a message. Du Bin immediately called Lu Yang and said, “Stop the war. Seven countries are gathering maritime forces. They will attack Huaxia at noon tomorrow. You and Liu Jie can’t fight anymore. “

Lu Yang smiled helplessly and said, “The players in these 7 countries are both invaders and also to help Liu Jie. I can’t fight without them.”

Dubin froze and asked, “What do you mean?”

Lu Yang said, “To tell you the truth, this is an organization called Sky-Eye Alliance. Liu Jie is one of the members. The remaining seven countries help Liu Jie, but they only help.”

Dubin stunned, he did not expect such an organization in the world and said, “What can I do for you?”

Lu Yang said: “Help me spread this alliance’s affairs, I will give you detailed information, the rest can only look at God, he asked me to eliminate Liu Jie before noon tomorrow, and I won. If not, my situation will be bad. “

“Okay, I’ll give you the propaganda and believe what you say.” Du Bin did not hesitate to choose to believe in Lu Yang.

Lu Yang quickly sorted out the basic information about the Skyeeye Alliance and sent it to Dubin. He returned to the game and his opponents said, "Brothers, let me tell you a bad news. The national war will start tomorrow. Liu Jie will be supported by tens of millions of players in 7 countries. "

"what?"

"impossible?"

...

Tens of thousands of players outside the fortress were stunned.

Lu Yang said: "If tens of millions of foreigners come and Liu Jie helps, we can't beat them, and the national clothes will definitely be looted. If the main city is looted, all taxes will be doubled. We can't afford this price, and the only solution is that we defeat Liu Jie today and leave foreign players with no inner skills. "

"Boss, tell me how to fight," said White Lion.

Lu Yang said: "Tianyao took the main force of the orcs and attacked Jinsha City. I took the main force of the humans to attack the King of Purple Gold. The old man and Chen Mo took the navy to attack the city of Yinsha. Liangyun took the man back to the inside of the elves. The city and the city of ancient trees wage war. "

"You can rest assured that before 12 o'clock tonight, I must capture the Sands City." Tian Yao said.

Lu Yang patted him on the shoulder and said, "The beasts will give it to you, brother."

Tian Yao focused on the head.

Lu Yang took out the fortress and returned to the city roll, and flew to the ice fortress of Bingshan City with 5.6 million players. Just after landing, Lu Yang said: "The muddy wine, White Lion, Xia Yuwei, Jiang Ze, bitter love half-life, Sun Yu, Zhou Tianming, each gathers players. "

"Yes." The players of the Jagged Brothers League have not yet made a clear impression of the invasion of foreign players. No one has played the National War before, nor has it been to the game. No one knows what the National War means. They only know Now we need to unify the national service and kill Liu Jie.

Soon, 5.6 million players gathered, and Lu Yang took them straight to Tianji Mountain.

Lu Yang's sudden transfer hit Liu Jie by surprise. The players under his hands were not as efficient as Lu Yang's players and could only be forced to mobilize players.

"Qu Han, Xue Yiming, such as Yue Taishan and Apache, the four of you took the main force to defend the Zijin Fortress. You must not let Lu Yang enter." Liu Jie said.

"Yes." The three Xue Yiming immediately mobilized their players to fly to the Zijin Fortress. This is the closest fortress to Tianji Mountain. Originally, there were 1 million Liu Jie players on the defense. For example, Yue Taishan and the four of them brought 1 million each. At the Zijin Fortress, a total of 5 million people defended.

There are two wild fortresses next to the Zijin Fortress, only 10 minutes away. The three fortresses almost blocked the entrance of Tianji Mountain into the Elven clan by a third.

For example, after Yue Taishan set up the defensive task, he called Xue Yiming to the side and said, "Since we have a fortress, it is easiest to rely on the fortress defense. I took someone to defend the middle fortress myself. Xue Yiming's right side and Qu Han's left side Apache, your assault ability is the strongest. You wait for my order. If the enemy makes a mistake, I will arrange you to attack. "

"No problem," Apache said.

Ru Yueshan said, "In order to make your assault more effective The four of us will give you all the violent battles and physical druids. Whether this battle can be won or not, you are the key . "

Apache had a proud look on his face and said, "Rest assured, Lu Yang is something, and dare to play against us, I will definitely give him some lessons."

Yue Taishan is also proud of his face. He already knows this game thoroughly and will not make any mistakes. He doesn't believe that Lu Yang can beat him.

Xue Yiming looked at the two of them, and thought to himself, "Like Yue Taishan, I am afraid that you will be very defeated in this battle."

He secretly sent a message to Lu Yang, telling him the layout just like Yue Taishan, with a thick smile on Lu Yang's face, saying, "Your mission will end after this. Congratulations in advance."

"Hey, don't forget what you promised me." Xue Yiming said.

Lu Yang said: "One hundred million has arrived in your account, I can do it, check it."

Chapter 944 - Tauren, attack!

This battle is worth more than 100 million yuan. It broke through the Zijin Fortress. Lu Yang's 300,000 thief army can instantly plunge into the elves. Within the elves, Liu Jie spent 2.6 billion in cash to build the fort. Selling all the fortresses within it can also destroy Liu Jie's morale.

Xue Yiming checked the account for the first time, and it turned out that there was an extra 100 million yuan. He was completely relieved. "The boss is interesting, we can't lose face."

Xue Yiming murmured to himself, saying to Ru Yue Taishan: "Boss, forbidden spells are placed on my side, you are too easy to be attacked by dense firepower, placed on my side, the effect of sneak attacks is better . "

For example, Yue Taishan was thinking whether to put it on the left or the right, and heard Xue Yiming's words, saying, "It's on you."

Xue Yiming nodded and led away.

Qu Han has not spoken. He is the last promoted among all commanders and is the least watched. He has been a regular defeat general. This time, he finally had the opportunity to fight Lu Yang again. He decided to do well. Get revenge on Lu Yang.

Xue Yiming saw Qu Han's expression, patted his shoulder and said, "Rest assured, I will help you this time."

Qu Han thanked Xue Yiming gratefully and said, "Thank you."

Qu Han left.

Apache smashed Xue Yiming with his shoulder and said, "Take care of him less. This person is too utilitarian. Like a dog, it's not good for him."

"Oh." Xue Yiming said with a smile.

Ruyi Taishan came over with a large number of mages behind him and said, "A thousand spell-banning mages have been given to you, it's up to you."

This is two-thirds of Liu Jie's members of the spell-casting mage. They were all handed over to Ruyi Taishan, and now Ruyi Taishan was all turned over to Xue Yiming.

"Rest assured, boss, you can give orders at any time, I will let them go to war at any time." Xue Yiming said respectfully.

Xue Yiming had worked under Ruyue Taishan before, and both of them were born as soldiers, and the relationship was very harmonious.

For example, Yue Taishan was very satisfied with Xue Yiming's performance. He was equal to him and was so respectful to him. He patted his shoulder and said, "I'm going to prepare."

Xue Yiming waited for Yue Taishan to leave, turned his head to Lie Xia, the head of the mage regiment, and said, "Follow me, we are going to go too."

The fortress on the right is called No. 1 garrison. It is 2,000 meters long from left to right, and 1000 meters wide from front to back. The fortress inside it is all Tibetan barracks except for the resurrection points.

Xue Yiming pointed to 10 Tibetan barracks and said, "You are all hidden inside. When I let you out, you will come out again."

A Tibetan barracks can hold 1,000 people, but Xue Yiming divides them into 10 Tibetan barracks, and the head of the cursed mage regiment asks, "Why is it so scattered?"

Xue Yiming said with a smile on her face, "These 10 Tibetan barracks are all near the stairs on the city wall. Once something happens, you run out of the 10 Tibetan barracks faster than one out."

The head of the forbidden mage found himself making a common-sense mistake, and said embarrassedly, "I'll arrange it."

Xue Yiming patted his shoulder and said, "Fight this battle together, and I will ask Jie Shao for the brothers."

Everyone knows that Xue Yiming is now the big celebrity beside Liu Jie. If he is responsible for asking merit, he will naturally give more credit.

"Thank you brothers, we must do our best." Said Lie Xia.

Xue Yiming smiled, and after sending them into the Tibetan barracks in person, he came to the city and found his 20 personal guards. These 20 were all special occupational time and space thieves. Lu Yang

arranged for him. Everyone knows the special skills of time and space chaos, but he has never said to outsiders that these 20 people are also very low-key, never revealing that he is a time and space thief.

“After a while, you will be responsible for trapping these 1,000 mages,” Xue Yiming said.

There is not much space in the Tibetan barracks. It may be impossible to kill these people by using time and space to chop, but it is still possible to prevent them from using the fort to return to the city and leave.

“Rest assured that we have practiced this technique for a year, and there is no problem in continually chopping for five minutes,” said the leader of space-time thieves.

Every minute of delay on the battlefield will affect the change of the battle situation, especially this kind of battle, which is even more precious, making the enemy’s curse-less mage unable to move within 5 minutes, which is enough to change the direction of this war.

“Tough brothers, I really don’t know where you guys came from, I really admire.” Xue Yiming said.

He didn’t know that these people were found by Jin Buhuan for Lu Yang, not Huaxia people, but they were all top-level masters. They were found by the poor people at the border.

The leader of the space-time thief did not speak, and took his men to the entrances of 10 Tibetan barracks in stealth. Two people were waiting at each entrance.

Xue Yiming saw that they were ready and returned to the city wall, waiting for Lu Yang’s arrival.

After 20 minutes.

A thin black line appeared on the sky. People such as Yue Taishan and Xue Yiming, who were standing on the wall, took a closer look and found that Lu Yang was walking towards this side with countless players.

“Woo ~~~”

“Woo ~~~”

The low-pitched horn sound echoed on the map. Players accelerated their pace, and when they were 1,000 meters away from the fortress, Lu Yang shook his finger in front of him and shouted, “Iron blood brotherhood ~!”

“Kill ~!” The three males of the Bai family, Zhou Tianming, Zhuojiu dumping, Jiang Ze, bitter love roared for half a lifetime, more than 4 million players instantly entered the runaway mode, and followed five of them crazy towards the fortress.

For example, Yue Taishan also wanted to talk to Lu Yang before the war and destroy Lu Yang’s morale, but he did not expect that Lu Yang would order the player to launch an attack without saying a word.

“Keep the fortress, you must not let them rush in.” Ru Yueshan shouted, and then he gave an order to Apache, saying, “Fight them hard.”

“Yes.” Apache also did not expect that Lu Yang’s attack suddenly became so fierce in silence, too late to mobilize his men, and shouted, “Fill me and block their attack.”

More than 2 million people rushed out with Apache. The main defense direction of these people was the gap between the three fortresses. When they counterattacked, there were three fortresses with long-range support.

Lu Yang watched as the Jagged Brothers players collided with each other, but with the support of the opponent’s head, Jagged Brothers died too quickly.

For example, Yue Taishan stood on the wall and looked at the battle conditions below. He was very satisfied. The two fortresses were proposed by him. At that time, many people were criticized for wasting money. But now he has the advantage. His players are standing on the wall. There is a large cross-section to attack, but the Jagged Brotherhood does not have such a large range.

Lu Yang also found this out, and he said to Liu Yunpeng next to him: "Take your 500 war tauren, go to the fortress on the right, and give me a way out. All treatments will give you priority to add blood, rest assured Go fight. "

"Leave it to me." Liu Yunpeng patted a totem pole and shouted to the 500 men behind him: "Follow me, it's time we played."

"Hoo ~!" 500 people roared in unison, and walked towards the far right side of Guard No.1.

The war tauren, who is nearly three meters tall, stands out among the players, and everyone clearly sees the approach of these giant warriors.

"The firepower is concentrated on those tauren, that must be Lu Yang's special forces, and they cannot give them the opportunity to attack." Ru Taishan ordered.

Xue Yiming raised his hand to signal that he understood clearly and shouted, "All the shooters are aiming at the tauren, and they are ready to scatter arrows."

This is what Lu Yang and Xue Yiming agreed to let them use the hash arrows to attack. Although the hash arrows have a wide range of attack, the damage is low. Even if there are tens of thousands of shooters, these shooters are between 60 and 70. , Rarely equipped with level 70 dark gold.

Liu Yunpeng, these 500 people, are all level 82 players. They are equipped with level 80 dark gold parts, and their defensive power exceeds 10,000 points. Among these shooters, many of them have an attack power of just over 10,000.

Few people inside the Jagged Brothers Alliance know this group of tauren troops. Watching them come forward, everyone makes way, they are very curious what these tauren who carry 5 meters long totem poles have When the front players arrived, the front row players gave way, and the tauren were immediately attacked by enemy players.

Liu Yunpeng didn't care about these injuries. Just when they were attacked, Lu Yang ordered 10,000 heal occupations, all using range magic to add blood to them. The frequency of such blood addition was even less than 0.5 seconds.

“In a row.” Liu Yunpeng slammed the totem pole to the ground, rushing to a level 60 player with dark gold-level equipment in front of him, only feeling that a huge pillar fell down, and then everyone was shocked. In his eyes, he fell to the ground.

“-78786”

“The damage is so high.” Players nearby looked stunned.

The players in the Jagged Brothers League originally looked down on these tauren. Seeing this injury, they quickly cleared the way. The 500 war tauren quickly lined up, with a distance of 2.5 meters between each person.

Liu Yunpeng shouted, “Brothers, we all knew what we were like at the beginning. The boss changed our destiny and gave us such good equipment. When it was time for us to repay him, everyone and I were ready to push it. “

“Hello ~!” 500 people roared together.

“The ground hammer.” Liu Yunpeng shook the totem pole in his hand, smashed to the ground, and killed a player who came over.

500 people in “Scramble to the Ground” followed Liu Yunpeng to throw up the totem pole, and hammered the totem pole to the ground twice in a row.

At this moment, as if time was still, everyone was curiously watching what they were going to do.

In the next second, the 500 tauren madly hit the surrounding ground with a totem pole at an attack speed of 5 times per second like crazy.

“Tauren, attack!” Shouted Liu Yunpeng.

Chapter 945 - Sorry i\m a spy

500 people just rammed around like crazy, shattering everything in front of them like a smasher.

If only one or two people are okay to say, but this is 500 people, each person is still 2.5 meters apart, and the parallel position is more than 1,200 meters.

The Tauren's own attack power is more than 40,000. Each hit on the ground still has 5,000 earthquake wave damage. Pushing it in parallel, no one can resist it. It advances more than 100 meters in one breath and kills. Tens of thousands of players almost broke Apache's right line of defense.

"Let the forbidden mage come up and kill them." Ru Yue Taishan shouted.

Xue Yiming shouted: "No, they are magically immune."

Ru Yue Taishan was stunned and said, "That will also bring them up and kill the players behind the tauren."

Xue Yiming uttered a whisper, but the following text was lost. Not only that, he also issued an order to his subordinates. He had just received notification from the boss that an enemy had attacked our wild fortress in Silvermoon City, and the 1-10 army immediately flew to Silvermoon City.

"Yes." The head of the 1 to 1 regiment immediately executed the order.

In this super war state, all players are forbidden to speak in the team, and the only ones who can speak are the commander and a few heads.

In order to avoid the players in the war and the chaos of the command system, Apache, Ruyi Taishan, Qu Han, and Xue Yiming all use their respective command channels and cannot see each other.

Xue Yiming issued an order at this time, which is equivalent to their highest order of 1 million people. More than 300,000 players in 10 legions all flew to the Silver Fortress of Silvermoon City to start defense.

Xue Yiming continued to issue orders, arranging the 11-20 army to Druid City, and the 21 to 30 army flying to Stormrage City.

The fortress originally defended by 1 million people instantly turned into a defense of 100,000 people, but the 100,000 people were asked by Xue Yiming to open the gate and rushed out of the fortress support from the back door. The entire fortress became an empty city.

These orders were issued by Xue Yiming in a very short period of time, and all the commanders of the army were convinced of his orders, because he was a popular player around Liu Jie, with a monthly salary of nearly 50,000, and no one thought he would rebel. .

For example, Yue Taishan didn't respond at first, but when he found that Xue Yiming had fewer and fewer players on the side of the city, he was a little hesitant.

"Xue Yiming, what about your people?" Ru Yueshan shouted.

Xue Yiming stood alone on the head of the empty fortress city, and looked at Ru Yue Taishan with a faint smile, and said, "Sorry, I'm a spy."

"What?" Ru Taishan widened his eyes in horror, and his body became cold for a while. He couldn't imagine what would happen next.

System prompt: Your Guardian Fortress 1 is occupied by the Brotherhood of Iron

Lu Yang saw the news for the first time and said to Xia Yuwei around him: "Order the thief army to enter the city, quickly rushed out of the back door and sold me all the wild fortresses of Liu Jie."

“Yes.” Xia Yuwei looked back at the light and dark thieves.

“Brothers, we’re here, come and follow me.” Looking up at the dim light, he took out the fortress teleportation, and took 300,000 thieves straight into the Guardian Fortress No. 1. As soon as he landed, he replaced the Red Flame Lion. With the team rushed out of the north gate of the fortress, at this point, the Brotherhood of the Iron Blood opened the door of the elves.

Such as Yue Taishan, Qu Han and Apache were all stunned.

“Xue Yiming has rebelled?”

“He turned out to be a spy?”

They still can’t believe it, but in reality, Lu Yang has already escorted Guard No. 1 and players killed by the Brotherhood of Iron Blood will no longer need to run from the Frost Fortress to Tianji Mountain, only need to resurrect at Guard No. 1 Already.

Lu Yang stood at the head of the city, pointing to the hundreds of thousands of players on the side of the fortress and under the city wall, saying, “Hei Yan, the Forbidden Spell Masters blasted me to this group of people, and cleared the barriers for the White Lions to enter the city. . “

“Good grin.” Hei Yan immediately took 1,000 forbidden spells to the city.

“1 to 10 groups aim at the city head, 11 to 20 groups aim at the city, the first wave of the secondary forbidden spell.” Hei Yan said loudly.

1,000 forbidden mages chanted the spell at the same time, and the entire east and west walls of the Zijin Fortress were covered by dark clouds, and the low clouds almost reached the gate tower.

Yue Taishan looked at this scene in horror and shouted, “Hurry up and be ready to resist the curse, Apache, hold on.”

Apache was so embarrassed that he was personally leading someone to fight against Bai's Sanxiong in the middle of Zijin Fortress and No.1 Guard Fortress, but he was disadvantaged. He only needed to defend the Baixi Sanxiong who rushed over to the south. Defend the attack on Guard No. 1 on the east side.

The key is that the formation has been set up, and it is also fighting with the enemy. If he wants to change the formation, he can't do it. He can only watch the flanking healing and remote output being destroyed by the Sun Yu Corps on the city. Now the enemy's forbidden spell It is about to be released, and Apache has no way at all.

Thirty seconds later, dazzling nine-color rays suddenly appeared in the sky, ice, fire, lightning, earth, light, dark, time and space, and other secondary forbidden spells fell from the sky. The east and bottom of the purple gold fortress were all enveloped by magic.

The white lion and others who were charging suddenly felt that they were sent in front of them, and then looked carefully. The enemies in front of them were all dead. The elves did not have the profession of paladin. In the absence of the protection of invincibility, except for the use of refrigerator technology The mage and the stealth thief, the rest of the players were killed.

The white lion, the white tiger, and the white wolf rushed down the city easily. When they climbed the fortress, no one attacked them. When they reached the wall, they found that there was no one on the wall.

Lu Yang shouted, "The White Lions have a good formation. Don't forget to hold me back. The curse will end."

"Boss rest assured, I will not go down when I come up." The white lion slashed a mage to the refrigerator in time.

"Come up with me and call me in." Shouted the White Lion.

The fortress of Zijin Fortress is 50 meters wide and 3000 meters in length. There are 10 stairs that can get players up.

“Flame Knife, you take the magic warrior to hold the 5 stairs on the left, and I take someone to guard the other 5.” shouted the White Lion.

“No problem.” The Flame Knife shouted to the 3,000 Divine Warriors behind him. “Brothers, you can’t just let the war tauren make them shine. Our Divine Warriors were not given in vain. Follow me and keep these 5 entrances.”

For example, Yue Taishan was hiding in the highest tower in the inner city of the fortress. From the top, he could see clearly.

“Come on, grab the fortress.” Ru Yueshan shouted.

Apache, who was killed and resurrected in the inner city of Zijin Fortress, immediately regrouped and attacked the city wall with people. But the magic warrior held a two-handed sword with an attack power of more than 40,000. He used the swoosh to cut blood. Under the circumstances, no one was able to get close, Apache rushed with three times without rushing up.

“Where’s our forbidden mage group?” Apache cursed Ru Yue Taishan.

“My \*\*\*\* wants to know where.” Ru Yuetaishan was depressed and anxious, said: “Before the war, Xue Yiming was handed over, this grandson has betrayed, and I don’t know where to hide this group of people.”

Apache was mad, but helpless.

Inside the Tibetan barracks, Liu Jie’s deputy head of the cursed mage regiment walked around the ground anxiously, saying, “Strange, this has been playing for such a long time, and we are not allowed to go, nor do we know what is outside Happening.”

Lie Xia said with a look of calmness: “Calm, Xue Yiming is a master of war. He thinks we should be called when we should go. Besides, we are the strongest troops. We should play at the most critical moment and go out so early. , Is n’t it boring to use the curse? ”

“That’s right.” Sit back and go.

Like everyone else, they were asked to forbid to open any of their contacts. They could n’t even make phone calls. They could not receive text messages. In the game, unless Xue Yiming told them to cancel, they could forcibly cancel and deduct half a month’s salary. This is Liu Jie’s rigid rule, since they choose to work here with Liu Jie, they will not deduct their wages for this purpose.

For example, Yue Taishan tried every means to contact Lie Xia and others. If there was no way, he suddenly thought of a problem. Since Xue Yiming betrayed, he should immediately tell Liu Jie.

Ru Yue Taishan quickly took out the interphone and called Liu Jie.

“What’s the matter?” Liu Jie was fighting against Tianyao in the Sands City. The two players were playing in the dark with more than 10 million players. Without the help of Yue Taishan, Liu Jie was gradually being beaten.

For example, Yue Taishan said excitedly: “Introduction, Xue Yiming is a traitor, and he has rebelled.”

Liu Jie was about to direct his men to attack. Hearing this sentence, he stayed still and said, “You say it again?”

“Xue Yiming is a traitor. He is the spy Lu Yangan inserted next to you. Just now he rebelled and gave Lu Yang a protective fortress.” Ru Yue Taishan shouted.

Liu Jie was stunned, and he could never imagine that Xue Yiming, who was so valued, promoted and given such good treatment, would betray.

“Xue Yiming, tell Lao Tzu clearly, such as Yue Taishan said that you are a traitor, are you or not?” Liu Jie picked up the phone and called Xue Yiming. Seeing that Xue Yiming was connected, he almost asked with shouting words.

Xue Yiming sighed and said, "Sorry, Jie Shao, since I joined your guild, I am the spy arranged by President Lu Yang."

Liu Jie covered his chest with his right hand. He clearly felt a sharp pain in his chest. The dead grass next to him heard Liu Jie's words and said quickly: "Quickly expel him from the guild and let Ru Yue Tai Shan take over his 1 million. People, or something will happen. "

Liu Jie then reacted, hesitating to others, and first expelled Xue Yiming from the guild.

System prompt: Xue Yiming was fired from the guild

Lie Xia and a hundred-mand medium-forbidden mage who are on standby in the Tibetan barracks are still waiting for Xue Yiming's order. When they see the system prompt, they are all stunned.

Chapter 946 - Break into the Elves

"What's going on, how did the commander get fired from the guild?" He asked.

Lie Xia shook her head.

System prompt: Ruitaishan took over the commander of the third group.

"Fucking people fly to Zijin Fortress for Lao Tzu, Xue Yiming rebels, you were pitted by his wrong order, and you all came back to me." Ru Yue Taishan shouted.

"I rely on it." Lie Xia responded for the first time and said, "Hurry up, fly back to the fortress."

"I want to leave now, I'm afraid it's too late." Lu Yang pushed in, and brought hundreds of mages, warlocks and shooters.

"Change Sheep"

“Fear”

“Frozen Trap”

...

The 100 cursed mages in the room were frozen in place by various control skills, as were the cursed mages in the other 10 Tibetan barracks, all of which were kept in place.

Lu Yang said: “Unless they go offline, they are not allowed to let go.”

“Yes,” said a thief of time and space, who originally arranged for 20 people to control them. I did not expect this group of people to listen to Xue Yiming so much until Lu Yang came and found no problems.

“Boss, what about the one million people who are returning to Zijin Fortress?” Xue Yiming asked.

Lu Yang said, “Leave it to me.”

Returning to the west wall of the No. 1 garrison, Lu Yang stood at the head of the city, watching that a large number of players were teleporting back from the teleportation point. As soon as they landed, they all ran to the position of the wall where the white lion and others were.

At present, the white lion on the city wall has just taken 30,000 people to stand firm. The entire city wall has been guarded by them, the gate of the fort has been opened, and the muddy wine is leading people to rush into the fort.

“You must stop their counterattack.” Xia Yuwei said.

“Look at me.” Lu Yang kept his curse unused, just waiting for this time.

“The Great Lord of Fire ...”

Thirty seconds later, a cloud covered the sky above the resurrection point of the Zijin Fortress. Suddenly, the temperature of the entire world became extremely hot, and a white skull with a diameter of 2,000 meters rose slowly on the ground.

“78860” Critical Strike

“78780” Critical Strike

...

More than 100,000 people flew back to live at the same time, all gathered together. The curse of Lu Yang just enveloped them all, and more than 40,000 spell injuries caused the 100,000 people to die instantly.

The next batch of players who flew back had just landed and also died.

The same goes for the third batch.

The same goes for the fourth batch.

Ru Yue Taishan almost stared at the scene and shouted, “Don’t go back to the Zijin Fortress, all the members go to Guard Fortress 2.”

But the players are using the fort to return to the city at this time, and no one habitually stops. The commander of the legion is too late to send orders. For example, Yue Taishan and Apache can only watch the players fly in batch by batch, and then they are instantly Flames killed.

When the curse ceased, Lu Yang watched his killing number of 781,862.

“Blood brothers alliance, kill!” Bai Shi Sanxiong roared at the same time, after killing the enemy of the siege, seeing that there are no follow-up enemies to stop them, the three led the team down the fortress.

White Tiger went to the city gate to pinch Apache, which blocked the muddy wine. The white wolf went straight to the inner city. The defense force of the inner city was almost zero. No one expected that Lu Yang’s curse could cause such a large amount of damage. Hundreds of people around Yue Taishan.

White Wolf rushed to the fort with 30,000 people. For example, Yue Taishan stood inside the tower and could only watch his player completely killed by 30,000 people of White Wolf.

The white wolf leaped forward to the deities in the inner city, smashed the fortress order, and replaced it with the token of the Jagged Brotherhood.

System prompt: White Wolf sold Guild Hall

System prompt: White Wolf sold Guild Warehouse

System prompt: White Wolf sold the inner city walls

...

Everyone saw for themselves that the entire Zijin Fortress could be sold cleanly by the White Wolf, and even the tower was sold by the White Wolf. Ruyi Taishan, who was using the fortress back to the city to fly away, had no time to escape and fell off the tower. Was arrested.

“There’s another old guy here,” shouted Flame Knife.

The white wolf walked over and smiled. “This is not like Yue Taishan, you are throwing yourself into the net. Don’t think about going back, I won’t leave your account to leave.”

If Yue Taishan didn’t say a word, forcibly quit the game and changed his account to Liu Jie.

The white lion laughed and said, "Go, go to support Zhou Tianming and Jiang Ze and kill Qu Han."

800,000 people turned to Guard 2 fortress with the White Lion. The muddy wine wiped out the enemies in the fort, and also led 800,000 people towards Guard 2 fortress.

At this point, Qu Han, the commander in the 2nd garrison fortress, was stunned. Since Xue Yiming announced the rebellion, Qu Han was in a confused state. Facing the attack by Jiang Ze and Zhou Tianming, he had neither a curse-free mage nor Advanced players, originally Apache defense, he was the weakest link, but Apache was transferred to Zijin Fortress by Ruo Taishan to help, he can only deal with 1.6 million Jiang Ze and Zhou Tianming alone.

Now Yue Taishan is off the assembly line. Apache is difficult to stop outside the city. Although he has a large number of players flying in here, no one listens to his command.

Xue Yiming's incident made Liu Jie a bird who was frightened by bows. He did not believe anyone except Yue Taishan. Therefore, these millions have fallen into chaos.

For example, Yue Taishan used the trumpet to go online, and quickly found Liu Jie to report the situation. He said, "The Zijin Fortress has fallen. Two of the three fortress defense lines I built were taken away by Lu Yang. Tianji Mountain fell completely into Lu Yang's hands. "

"Give me a solution, don't just tell bad news." Liu Jie cursed.

Just as Yue Taishan was about to speak, the dead grass said: "Chen Mo and Elder Twilight attacked Yinsha City with 300 people, and the four forts were lost at the same time."

This was within their expectations. Liu Jie's shipyard had not reached level 3, and there was no official warship. He could not stop Lu Yang's navy. He arranged 3 million people under the guidance of his guard. Sixteen wild fortresses were designed on Silver Sands' only halfway to the Eternal City.

"Don't worry about him first, tell Lu Yang what to do now?" Liu Jie cursed.

The dead grass looked helpless and said, "I can't ignore it. Of the 16 fortresses, one was occupied by the old man."

"Fuck." Liu Jie yelled, pointing at the dead grass. "What's wrong, can 3 million people hold onto a fortress?"

The dead grass said: "It's still Xue Yiming. A player named Tiger King under his command was assigned by one of those 16 fortresses to be the person in charge. When the old man brought his soldiers over, he quit the guild and joined the Iron Brothers. Union, replaced with the token of the Jagged Brotherhood. "

The Tiger King was not designed by Xue Yiming before. In order to keep it to the greatest extent, he did not tell anyone about himself. After Xue Yiming was fired, the Tiger King actively found Xue Yiming. After asking the reason, the Tiger King was grateful. Following Xue Yiming's constant care, he decided to help Xue Yiming and took the initiative to rely on Lu Yang.

System prompt: Your Fortress 197 is occupied by the Brotherhood

System Prompt: Your Fortress 168 is Occupied by the Iron Brotherhood

...

Hundreds of system prompts stunned Liu Jie, saying, "What's going on, why did I lose my fortress?"

"No, Lu Yang must have taken advantage of Xue Yiming's efforts to open the fortress, and sent a large number of thieves to sneak into the elves. Jie Shao, quickly sold the rest of the fortress, otherwise your loss will be great."

"How do I sell? It takes me two hours to sell the fortress. Lu Yang's people sold all the fortresses east of my son, Starlight Fortress. Now the fortress outside Yinsha City has also been broken, even if the old man is late It 's for the sister-in-law, and in the case of a mount, he can run the rest of my main city with the acceleration scroll. "Liu Jie said.

Originally, a tight line of defense, because of a Xue Yiming, put Liu Jie into a state of complete despair. Three defense points were penetrated through two. Liu Jie didn't know what to do.

The Gold Fortress is on a high mountain in the distance.

Tianyao and Sirius were discussing the battle of Lu Yang with excitement.

"Boss is overwhelming. Xue Yiming, one of the enemy's five commanders, turned out to be the boss' spy!"

"Liu Jie was destined to fail this time. Once Lu Yang's 300,000 thieves entered, it was just like me at that time, he couldn't prevent it."

"The late twilight was also penetrated, which is also due to Xue Yiming. It is estimated that the late twilight will also attack the fortress."

"It won this time," Tian Yao said.

The light flashed, and Lu Yang appeared beside them, asking, "What are you talking about?"

"I'm talking to you, it's amazing." Tian Yao said sincerely.

"Boss, why are you here?" Asked Sirius.

Lu Yang said: "The war on the front of Tianji Mountain has ended, and the fortresses east of Star City have been sold by me. come and see."

Tianyao said, "I haven't found any extra players from the enemy. Is it for the old man?"

Lu Yang said, "It's bad to go. I have to ask Liu Jie to come back. What about Liu Jie?"

Tian Yao pointed at Amina, a distant fortress, and the two sides were still fighting. Liu Jie sat on the tower of the fortress and watched the battle.

“Let the brothers stop for a while I’ll go and talk to Liu Jie.” Lu Yang said.

Tian Yao and Sirius nodded, causing the players to withdraw.

The already anxious Liu Jie saw the player of the Jagged Brothers League retreat, making him look puzzled, but when he saw Lu Yang sitting slowly on the chariot, Liu Jie’s expression became fierce.

“Come out with me,” Liu Jie said coldly.

The dead grass and Ru Yueshan nodded, and quickly followed Liu Jie to the fortress, replaced the mount and ran to the front.

Lu Yang just came to his side and saw Liu Jie, 50 meters away, with a mocking smile on his face.

“Liu Jie, this result is unexpected.” Lu Yang said.

Liu Jie said: “Don’t think you won, I haven’t lost, as long as my reinforcements arrive from the sea tomorrow, the loser will be you.”

Lu Yang smiled and asked, "But you have no fortresses now. How do you pay your men?"

Liu Jie laughed and said, "My family is rich. The Lao Tzu family is taking advantage of hundreds of billions. Is n't it just a guild. I ca n't afford a fortress."

All players on the side of Liu Jie's face showed an excited look. The reason they were willing to follow Liu Jie was to see his family. What a huge family that has hundreds of billions of assets.

"Lu Yang, Jie Shao is rich, what can you do?" Yao Wuyangwei shouted.

Liu Jie showed a proud look, his family is where he is most proud.

Lu Yang sneered and asked, "What if your family has no money?"

Liu Jie laughed and said, "How could my family have no money?"

Lu Yang said, "I advise you to call your father now to see what kind of dilemma he is facing."

Liu Jie hesitated and asked, "What do you mean?"

Lu Yang didn't bother to give Liu Jie time to ask, pointing his right hand to the sky, a huge display screen was projected into the sky, enough for players on both sides to see clearly.

In the picture, a female host of the CCTV news channel is reporting: "According to the news of this station, the fourth largest investment bank in the United States officially declared bankruptcy, and Wall Street was severely affected by the company. Several institutions said that the financial crisis has officially come."

Everyone was stunned.

Liu Jie also froze and asked, "Lu Yang, what do you mean by showing me this news?"

Lu Yang Yile asked, "Don't you know your company's business?"

Liu Jie had a bad idea and asked, "What do you want to say?"

Lu Yang laughed and said, "Liu Jie, Liu Jie, you don't even know how you died. Let me tell you that 40% of your family's funds have been invested in the fourth largest investment company in the world."

"What?" Liu Jie was stunned.

Lu Yang went on to say: "Your family is a bank and accepts credit loans, but your family also buys high-quality bonds from other companies. It happens that this fourth largest investment bank in the world is the main purchase target of your family. At present, this company is completely bankrupt. That equals 40% of your family's cash. "

How horrible 40% of cash is for a 100 billion family, it is equivalent to the evaporation of all the family's liquidity and even a large amount of cash in the bank.

Liu Jie said: "This is impossible, you bullshit."

Lu Yang said: "Why do I nonsense, you know, Qi Yun, your family 's original heir, was fired because of your presence, now is the vice chairman of my company, I will wait to attack your company this day Now, I have invested 19 billion yuan in cash to snip you, and I have made Liu Jie's family penniless. "

Thousands of people were uproaring in the audience, and players from all countries watching the live broadcast were uproaring. Who could have imagined that a game has evolved into a real struggle.

"It's impossible, you wait, I'll call and ask." Liu Jie quickly took out the phone, facing the eyes of all his players, he knew that he must give a clear answer, if not, Those who followed him because of money would no longer die for him.

The phone was answered and Liu Jie asked quickly: "Father, has the economic crisis spread to our house?"

Liu Jie's father was sitting in the office anxiously smoking, and told Liu Jie: "Our family is in crisis."

In just this sentence, Liu Jie hung up the phone quickly, but everyone around him heard it, and everyone at the scene also found the problem.

"Jie Shao, your family really has no money." Yaowu Yangwei asked.

Lu Yang said, "Liu Jie, tell everyone what kind of situation your family is in now, tell everyone, your dad's old \*\*\*\* is still able to support your spending in the game."

Liu Jie was panicked. For the first time in his life, his family's wealth was his greatest dependence and the source of all his confidence. Now that his family's money is gone, how can he control the more than 10 million players in the guild. They Why listen to yourself?

Lu Yang really hated Liu Jie. He hated this life from the previous life. He knew that he was serious about the situation. In fact, the stocks that Qi Yun could short were limited. After all, the Liu Jie family did not invest so many stocks to play. Go short.

In the end, the effect that can be achieved is to remove three of Liu Jie's five banks and change from an international bank to a bank in a certain country. However, he now frightens Liu Jie, and now is the time.

"Iron Brotherhood." Lu Yang's staff in his tone.

Tianyao, shooting Sirius, Yunyu, Huo Tianhua and Hao raised their weapons at the same time.

"Kill ~!" Lu Yang yelled, Tian Yao and others yelled together, and the 5 million brothers of the Iron Blood Brothers rushed to the side of Liu Jie.

On the other hand, if one understands that the player has no fighting spirit at all, if Liu Jie has no money, how many people are willing to give him his life. From a high altitude, it can be clearly seen that Liu Jie's nearly 6 million players have collapsed as a whole.

Lu Yang found Tianyao in the crowd and said, "The main thing is to hunt down those with godheads, don't let them run away."

Liu Jie has a total of six players with godheads, and now all are beside Liu Jie.

"The airspeed star marks, with your space-time mage, killed me with those godheads and grabbed them back," Tianyao said.

The player called the Airspeed Starscarf is the mage who has a space-time totem in Tianyao's hand. He has a team of 100 space-time mages around him. Hearing Tianyao's order, he nodded and chased after several of Liu Jie .

Lu Yang personally took people to chase Liu Jie. Eventually, he and the dead grass were blocked under the city of Jinsha City. Looking at Liu Jie with panic, Lu Yang said: "Liu Jie, we finally use this Met in this way. "

In the previous life, the positions of the two were transferred.

"What do you want?" Liu Jie asked anxiously.

Lu Yang smiled and said, "I want you to sweep the floor with majesty."

He raised his right hand and used the most basic 1st-level spell flame bombs, hitting Liu Jie's head one by one.

"-100"

"-132"

"-268" (Critical Strike)

...

Liu Jie's blood volume was 200,000. Everyone looked at Lu Yang in surprise, but no one dared to persuade. Everyone knew that Liu Jie almost instructed Wang Teng to destroy Lu Yang. Wang Teng almost assassinated Lu Yang. The hatred between two people cannot be described in a sentence or two.

But they do n't know that the hatred of the previous life is deeper than that of this life. If there was no Liu Jie, how would Lu Yang ruin his family? Now he uses this method not to avenge himself, but to hate that he has no ability to defeat Liu Jie completely. This can only be used to slightly ease the internal pain.

Liu Jie didn't expect that Lu Yang dared to insult himself like this. He rushed towards Landing Yang as hard as he could, but just rushed forward.

"Resistant Fire Ring"

A fiery fire flew Liu Jie to the wall, and the two were 10 levels apart. How could Liu Jie be close.

"噔"

"噔"

The flames then hit Liu Jie's head one after another. This is a live broadcast from around the world. Liu Jie was crazy and he launched another shock to Lu Yang.

"boom"

Liu Jie was blown back to the wall again.

"Flame bomb"

“Flame bomb”

...

In this way, Lu Yang played continuously for 10 minutes, and Liu Jie suddenly became weak and fell down.

“What’s going on?” Lu Yang asked.

Tianyao said, “He forced to quit the game.”

Lu Yang sneered and said, “Leave 10,000 people to follow him here to guard him, and the rest occupy the entire territory of the Elves.”

“Yes.” Tian Yao left with 10,000 relatives to accompany him, and the rest were arranged by him to occupy various forts.

The old man in the twilight appeared under the city, came to Lu Yang, and said, “Brother, you are really strong.”

This sentence was uttered from the bottom of his heart. He didn’t reach Lu Yang not only in the game, but also in business. In fact, he was able to use the economic crisis to attack Liu Jie.

Lu Yang said with a smile: “It’s just good luck.”

The old man asked, “What are you going to do next?”

Lu Yang sighed and said, “It’s not easy. If I don’t start the national war tomorrow, I have the confidence to completely eliminate Liu Jie, but the national war will start tomorrow. Fleets and millions of players from all countries will remember us, I can’t completely eliminate Liu Jie.”

The old man in the twilight said: "Okay, after all, the Liu Jie family is an old-fashioned family that has continued for 5 generations. The forces are intertwined and not easily broken. You can do this, it is not easy."

Lu Yang nodded and said, "Forget it, let's unify the national clothes before I say it. I don't guard this fool anymore. He doesn't know that their family is not ruined to the extent I said."

"Co-authored you?" Tian Yao asked with a smile.

Lu Yang said, "Can it be so easy to win?"

Everyone smiled.

After Liu Jie exited the game The dead grass also exited. The remaining commanders such as Yue Taishan and Yaowu Yangwei wanted to gather players, but found it difficult to gather. Most of the players were because of Liu Yang's Liu Jie family. It went bankrupt and chose to wait and see.

Neither quit the game nor find Ruyu Taishan to gather.

For example, Yue Taishan and the only players who can gather are those who are paid, but it seems that it is time to pay. Now the wild fortresses are lost, and Liu Jie 's family is bankrupt. Liu Jie is left in each main city. Real estate, if those things are sold, Liu Jie will never use him to pay, so players who pay are not very active, but for the sake of passing, they still come.

Evening wind city.

For example, Yue Taishan and others saw that there were less than 300,000 people to gather, and a few of them had no idea of continuing to fight, but the soldiers were more gracious. Since they ate Liu Jie's meal, they still have to be responsible.

“Qu Han, you are responsible for gathering, we several quit the game to find Jie Shao and count dead grass, what should we do in the future, we still have to get Jie Shao to take the idea.” Ru Yue Taishan said.

Qu Han indifferently said, “Notify me first if there is news, so I can tell the players.”

## Chapter 948 - National war is imminent

### The other side

After Liu Jie was offline and quit the game, the first time he went home to find his father, but he just arrived at the company, but found that the entire company was busy.

On the US stock market, Qi Yun is sniping the Liu Jie family's stock. After more than half a year's preparation, Lu Yang collected \$ 4 billion for Qi Yun. Qi Yun recruited many Wall Street dignitaries and used their connections A total of more than 20 billion US dollars were collected at one time, and a total of 24 billion US dollars were all purchased by Qi Yun a month ago, called a cds.

This thing is called a credit default swap bond. An analogy is most suitable for him. If you have a house, you insure him, the house burns, and you go to claim. The meaning of the credit default swap bond is, You don't have the house, but you insure the house, and the beneficiary writes your name.

Qi Yun smashed into the bank of the Liu Jie family, and the bank that bought them would be “burned”. Sure enough, when the financial crisis broke out, their bank was really “burned”.

The Liu Jie family must now pay the defaulted bonds. They can only mortgage the remaining liquidity in the family and a large amount of real estate and business. Therefore, Liu Jie's father's company is busy with these things.

“What else do we have left?” Liu Jie asked nervously.

“Up to two American banks can be left, and all the remaining assets will no longer be ours,” said Liu Jie’s father.

“We’re not broke?” Liu Jie asked.

“Who told you that you went bankrupt? Our family is not so easily knocked down.” Liu Jie’s father said.

“Fucked.” Liu Jie exclaimed, he couldn’t help talking to his dad anymore, ran out of the company, and just came downstairs, he saw the dead grass and Yue Taishan and others after him.

“Jie Shao, you ...” Yao Wu Yangwei didn’t wait to ask. Liu Jie cursed: “I was fooled. My family was not bankrupt. Although the loss was serious, it was still the Liu family.”

“Lu Yang lied to us?” Ru Yueshan said.

Liu Jie nodded and said, “We were all fooled by him. This time it was my fault. You should not believe Xue Yiming, nor should you trust the family so much.”

The dead grass first saw Liu Jie admit his mistake and asked: “Jie Shao, what shall we do now?”

Liu Jie said: “Wait, re-recruit players. After the national war is opened tomorrow afternoon, there will be players from 7 countries to help me. Then it is time for us to re-occupy the Elves.”

“Great, relieved.” Yaowu Yangwei said.

Liu Jie also breathed a sigh of relief, returned to the studio to go online again, and found that there was no one around him. He quickly used the city roll to fly back to Evening City.

“All the commanders and deputies of the army gathered at the guild hall. There was no problem in my house. Everything was a lie from Lu Yang. The salary next month will be paid as usual.” Liu Jie said.

In just this sentence, the entire guild regained confidence, and all the chiefs and vice presidents came to Evening City for the first time to prepare.

Lu Yang quickly got the news and said, “Looks like Liu Jie has discovered that I lied to him.”

“So what, we have occupied the entire elf clan fortress.” Liang Yun laughed.

After this battle, Liang Yun recaptured the Emerald City and the City of Starlight. Lu Yang gave both of these main cities to him, and the rest of the main cities, like Orcs, were sealed off by Lu Yang.

“Boss, as long as you give an order, our 7 vice presidents of the Elves can mobilize more than 7 million people. If you give us a period of time and fight Liu Jie in the future, we will be enough.” A new post The vice chairman said with a smile.

Lu Yang also laughed and said, “You are now very morale. I will give you a task to show me Liu Jie and his men. If anything happens, report it to me immediately.”

“no problem.”

“I’ll go now.”

...

Liang Yun and 7 other people answered in succession that they had just restored their guilds and fortresses. The morale of their players reached a peak, and they were willing to work hard for all these things that they had to get back, even if they didn’t sleep overnight .

Lu Yang watched them leave, and the only people left in the room were Tian Yao, Chi Du, and Zhuo Jiu. He said, “Tomorrow’s national war will start. It is estimated that the first to come to us is the British.”

“Britain?” Everyone asked curiously.

“How could it be them, isn’t it Japan?” Jiang Ze asked.

Lu Yang said: “Japan can’t come. Someone will delay the players who live in Japan tomorrow.”

“Who?” Everyone laughed.

Lu Yang said: “K, not only him, the elites of Laos and Myanmar have formed a fleet. Early tomorrow morning, they will attack Japan. Compared to those countries, Japan’s servers are too rich.”

“Boss, how did you do that, so that players from these three countries can listen to you?” Asked Zhuzhuo.

Lu Yang said, “As long as they are allowed to have the Skyeeye Alliance, are they not allowed to establish an international alliance?”

“What? You also have an international alliance?” Xia Yuwei asked.

Lu Yang smiled and said, “Remember when the Chinese New Year, the disadvantages of cooperation with the masters of the world?”

“Remember, the materials for the drawings of the Holy Sword were obtained through them.” Jiang Ze said.

Lu Yang said: “I have been investing in them to develop guilds, gather players, and mainly develop the navy. The guilds formed by these elites on land may not be able to beat those big guilds. Compared with the sea power, they are not weaker than A super guild. “

Everyone nodded.

“But British players are not easy to deal with, and players from Italy, France, Germany, the Netherlands and other countries must also come over.” Xia Yuwei said.

Lu Yang opened a world map with a smile and pointed at the map and said, “This is my own drawing, but it is similar to the world map after the opening of the National War. Except for the Netherlands, several other countries want to come here. Not easy. “

This world map is almost the same as the map in reality.

Lu Yang went on to say: “You may not know much about the history of the world. In short, when the national war started, not the whole world came to fight us, but the world scuffle.”

Xia Yuwei said, “I still don’t understand.”

Lu Yang laughed and said: “First of all, he wants to come, but the players in Argentina have promised me that they will send troops to fight Britain tomorrow.”

“Argentina? What does this country have to do with Britain?” The White Lion asked.

Lu Yang said with a smile: “The feuds of the world are still irresolvable.”

Because of an island, the two countries have fought formally. The key is that Argentina has lost. The island has not yet recovered.

“But can Argentina pose such a big threat to Britain?” Zhou Tianming asked.

“Remember the eight-armed spider?” Lu Yang asked.

“Remember, British players,” White Wolf said.

Lu Yang shook his head and said, "He is a Scottish player."

"Is there any difference?" Sun Yu asked.

Lu Yang said: "I haven't taught you this in the textbook. I tell you that Scotland doesn't want to stay in Britain. The eight-armed spider promised to help me contain some of the British main forces."

These are national hatreds, and it is troublesome to explain them in detail. Many people think that Europe is united and that countries in the world are bullying China, but this is actually not the case.

Not to mention the other, the Austro-Hungarian Empire in the Eight-Power Allied Forces was disbanded that year. France hated the British most. The two countries looked down on each other for hundreds of years. The whole of Europe is now in a mess.

"Tomorrow can really come, only one Netherlands, the rest can not come, we have to find a way to destroy the 300 warships in the Netherlands." Lu Yang said.

"If that's the case, the war will be much easier." Jiang Ze said.

Lu Yang said, "Yeah, now there is a question left. How can we let the tyrants and the Poseidon army on the hot spring island join forces with us. The two of us have 250 warships. If we are under the command of Chen Mo, we have a lot Chance to win. "

After all, they are fighting offshore, and Chen Mo knows the surrounding environment. He also knows the situation at sea. Even if he can't win, he won't lose.

Luyang's shipyard has risen to level 4, and it is only 7 days away from level 5. As soon as it reaches level 5, he can build the Black Devil. When the level 5 warship appears, Dutch players can only get out.

"I'll talk to the bully." The old man said.

Lu Yang said, "I'll go with you."

Nodded late, the two came to the teleportation team and flew to Hot Springs.

There is a bustling scene in the hot spring city. During the civil service of the whole country, the hot spring city was not affected by a little bit. Players should upgrade and upgrade and earn money.

The Xiongba and the Poseidon Army currently build another 100 warships, which are parked not far from the sea. According to the information received by Lu Yang, Liu Jie once invited the Poseidon Army to participate in the war. There is no poisonous heart in the players who Jie fights, they break the idea of participating in the war.

“Brother Xiongba, I’ll come to the hot springs, can you come out and talk about it.” The old man called Du Mu called.

“Is there anything to talk about? I said that we won’t give up the hot springs initiative, and if you have the ability, you will call Xiongba said.

The old man in the twilight sighed and said, “Why is this so, come here, Lu Yang is here, the national war is about to start, let’s sit down and talk.”

Xiongba heard Lu Yang and said, “All right, I called Xiaoxiao Muyu and they came together.”

“Okay, the place is in the hotel next to your guild.” Said the old man.

“Dudu”

The call was placed, and the old man looked at Lu Yang helplessly and said, “I can’t wait to see you now.”

Lu Yang shrugged his shoulders and said, “No way, who made you a major shareholder of the Jagged Brothers Alliance now? It has become his enemy.”

The old man in the twilight smiled and said with a smile: "After you and Lan Yu are married, are you going to work for me?"

Lu Yang was speechless.

#### Chapter 949 - Captain Blackbeard Mission

If Lan Yu signs the transfer contract, the guild will really be Lan Yu in the future. Lu Yang becomes a wage earner, and the old man is a shareholder of the guild, which means that Lu Yang has become a worker for the old man. Pass.

"Part-time job, you can fire me." Lu Yang said.

The old man in the twilight was very happy. There were not many places to clean up Lu Yang in the game, and finally found one.

The two stumped for a while, coughing at the door, and the two bosses of Xiongba and Poseidon came.

Xiongba looked cold, Xiaoxiao Muyu smiled, and asked, "President Lu Yang, congratulations, you unified the whole inland."

Lu Yang smiled and said, "Three please sit down."

Xiongba said, "If you want our hot spring island, this is impossible."

Lu Yang said, "Oh, domineering man, what time is it? You only care about the hot spring city. The national war will start tomorrow. The Netherlands will call first. He has 300 warships."

“300 ships?” Xiongba and Xiaoxiao Muyu and others frowned.

“so what?”

Lu Yang said: “The hot spring island must be their first target.”

“How is it possible that Dutch players have publicly stated their position in order to support Liu Jie’s visit and have nothing to do with us.” Xiaoxiao Muyu said.

Lu Yang froze and asked, “They said they were going to hit me?”

“Just said, you watch the video.” Xiao Xiao Muyu opened the video, which was said by the head of the Dutch First Association Slade.

In the video, Slade said, “Chinese players listen, I have no hatred with you, but just to help my good brother Liu Jie, irrelevant people please don’t participate, we don’t want to be hostile to anyone.

Not only Slade, but also the guild bosses of servers in Britain, Germany and other countries have published dialogues, just to help Liu Jie and have nothing to do with others.

Lu Yang secretly broke, saying, “Don’t believe what they say.”

Xiongba said: “We don’t believe you. Since Slade is here to hit you, then you will go. Why do you want to drag us to the back and say goodbye?”

Xiongba stood up and gave a humorous look at Lu Yang and the old man in scorn, and left.

“Oh, you are so anxious to go.” Xiaoxiao Muyu stood up quickly and said, “Sorry, I really can’t help with this busy, you guys hit you, I develop my, I hope that the two of us will not be with each other. Violation.”

Xiaoxiao Muyu also left.

Twilight looked at Lu Yang and said, "It's not going to happen now."

Lu Yang said: "Look at it, I bet the Dutch players will definitely play Hot Springs first, using this as their frontline fortress and supply station for attacking our country."

"How can you be so sure?" Chi dusk asked.

Lu Yang said: "The entire national service is such a host city that is hostile to us. Foreign players have to take a boat for half a day to reach the national service. Is it possible to find a main city and fight with us for tens of millions of people? Have you ever done that? The best way is to hit the hot spring city. This city has only a few million players and can be won in one battle. "

"That makes sense," said the old man with a helpless expression. "This is also the bully. Why doesn't his head turn? We have to save him if he is beaten. What's the matter?"

They are all national uniforms. Naturally, when foreigners come, they must unify to the outside world, but the hegemon has to be beaten first. If his warship is lost, there will be 100 warships in Lu Yang. This battle will not be easy to fight.

Lu Yang sighed and said, "Go to the shipyard first."

The old man at the twilight nodded, and the two flew to Binghuo City through the teleportation array. At this time, the shipyard was still level 4 and Chen Mo was taking thousands of players to do the task.

"Boss, why are you here?" Chen Mo just completed a task and returned to the shipyard, seeing Lu Yang and the old man walking around outside the shipyard.

Lu Yang asked: "How long will it be before Level 4."

“It will take 7 days as soon as possible,” Chen Mo said worriedly.

Lu Yang said: “It’s still too slow. In this way, I will add 100,000 to you to fight naval battles with you.”

Chen Mo asked: “Boss, many people are useless and need ships.”

Lu Yang said: “It doesn’t matter. You only need to be a level 2 warship and a level 1 troop carrier for the mission. I will give you the money and build 500 level 2 warships and 1,000 troop carriers. You and the big shark will take They train and do tasks. “

“No problem, I have trained as many people as possible. The players on the previous 100 warships are almost trained, and they can also teach others with me.” Chen Mo said.

Offshore warfare is different from the deep sea. The offshore waters are relatively calm, the wind and waves are small, and the ship’s swaying amplitude is not so large. It is not difficult to control the ship only by knowing how to control the sails and rudder.

Lu Yang nodded.

Chen Mo kept talking and thought, and said, “Boss, I have one more thing to tell you.”

“Say, tell me immediately if there is a problem, I will find a way to solve it for you.” Lu Yang said.

Chen Mo said: “Can you get some first-rate guns? The fortress guns are only level 3 guns. If our black devil builds them, we need at least level 5 guns.”

The first requirement of a ship gun is range, the second is power, and the third is the rate of fire. All three aspects of the fortress gun are not superior.

“You have a point. The Black Devil must have a good ship gun. Have you found any related tasks?” Lu Yang asked.

Chen Mo took out a treasure map and said, "This is a reward given to me by doing missions, and said that there might be a level 5 gun in this place."

Lu Yang took the treasure map and looked at it.

Pirate's Treasure Map:

Treasure map of the legendary pirate black-beard, hey, young man, if you get the treasure map, you have the courage to look for it. See if I do n't hit you, your mother does n't know you, and there is a fierce drawing Expression.

"Amazing, you got all the black-bearded treasures. This reward is quite good." Lu Yang said.

He knew the mission of Blackbeard's Treasure. In the list of previous guns, Blackbeard ranked 11th, second only to the top 10 guns.

"I went to this place. I need to destroy the black-bearded warship to enter. I can't beat him," Chen Mo said.

Lu Yang said: "I'll think of a way, you can continue to do the task."

This blackbeard may not be able to fight him even if you reach level 150. As one of the strongest representatives of the sea, although his level is a level 100 lord, his ship is a level 7 battleship with 120 7 on it. Class guns, and two class 8 guns.

In the last life, I didn't know how many guilds had even lost all their net worth to fight Blackbeard, because his warship was too strong.

Later, someone accidentally figured out that Blackbeard is not for players to play, but for missions. In fact, Blackbeard is one of the pirate captains of the Seven Seas Alliance and can open its reputation.

As for the location, there are Terrans, Elves and Orcs, which are Binghuo Island, Silver Sand City and Sky Fox City.

Lu Yang remembers that among the three main cities, the easiest to start the mission is the elven tribe. As the most proud race, they are the most disdainful to trade with pirates. Therefore, the pirate business there is the most difficult to do.

Lu Yang found the teleportation team and flew to Yinsha City. On the romantic street of the city, he found a man wearing a cape and a big hat. His face was very tightly covered, making it difficult to see the looks, and his name was also very special. He is called Mysterious Man.

The mysterious man only appears on this street during the daytime on Fridays, and he will leave when the backpack is sold out.

At the beginning, players saw the mysterious name of this npc, and it only appeared on Friday every week. They thought he could trigger special tasks or buy some superb equipment from him.

But what he sells are gold necklaces, emerald earrings, agate and other items. The prices are extremely expensive, but they do not have additional attributes. Many people have come to him to buy them, but after they find that they have no use, no one buys them. Already.

When Lu Yang came to Romantic Street, there were many stalls around him, all of which were selling low-sale signs. Now this place has become a place for players to sell at low prices, because those who bought gold necklaces found that they could not sell them. The players who went out started the stall here.

“Gold necklace, as long as 1 gold coin, the next person needs 10 gold coins, the last day was a big sale.” A player saw Lu Yang shouted after passing.

The mysterious man left the player, shrugged helplessly, and continued to look at the sky.

“You still look at me and refund money,” the player scolded.

The mysterious man pretended not to hear.

Lu Yang was happy and said, "Why are you scolding with npc?"

The player asked me to make money, and said to Lu Yang speechlessly: "This npc is too cheap. You see he is not paying attention to you right now. You have to tell him to buy things. He will introduce you a lot of benefits immediately, and I will show you. a bit."

I want to make money and say to the mysterious person: "I want to buy something The expression of the mysterious person immediately became very enthusiastic and said:" I am a mysterious person, especially mysterious, very mysterious, extremely mysterious, I sell All things are top-level things, you earn it when you buy it. "

"I buy your sister, go." I canceled the purchase interface to make money.

The mysterious man ignored him again.

"Look, this product is cheap. When you sell the product to npc, it's only one silver coin, which is 1,000 times worse. He is a liar." I want to make money.

"How much jewelry did you buy," Lu Yang said.

"Not much. There are two in total. Listen to this guy saying that his things can be used for tasks. Otherwise, I didn't find it." I said to make money.

Lu Yang Yile said, "You are quite real, you won't say so when you change someone else."

I had no choice but to make money, and said, "I'm a real businessman. I've made a lot of money, but I've lost all money with him. I'm so unlucky."

## Chapter 950 - Shipyard accelerator

“You are really willing to buy it, I thank you.” I want to make money and immediately gave the two pieces of gold jewelry to Lu Yang and took the two gold coins.

The players selling jewellery next to each other saw that Lu Yang was willing to buy them, they were all excited, and ran over.

“Boss, I have one here.”

“I have three here.”

“Everything needs one gold coin.”

...

Lu Yang said with a smile: “Okay, I bought them all.”

A total of more than 100 people, Lu Yang spent more than 200 gold coins, and bought their jewelry.

When these players have dispersed, Lu Yang said to the mysterious man, “I want to buy jewelry.”

“You are so enlightened.” The mysterious man who was originally indifferent immediately became enthusiastic about Lu.

Lu Yang smiled. This time the mystery sells a total of 30 pieces of jewelry, each with 10 gold coins, which adds up to 300 gold coins.

"I bought everything." Lu Yang said.

"Oh, you really have a vision." The mysterious man gave all the accessories in the backpack to Lu Yang.

After Lu Yang gave him 300 gold coins, he used the scroll to fly back to St. Gall's City of Humankind. Each main city has a rich area. Many people in the rich area will issue missions.

In the early days of the game, the guilds that sent people to explore all had these news records, but after the demise of the early grand guilds, these messages were forgotten.

Although ordinary players also play games, they rarely pay attention to the situation of all npcs in a main city. Many people have never been to the rich area since they started serving.

Lu Yang sent people to explore these missions as soon as the guild expanded. While watching the mission introduction, he entered the courtyard of the third villa in the rich area.

A middle-aged woman is playing with her child in the yard, but there is always a trace of sorrow in his eyes.

"Ma'am, is there anything I can do for you?" Lu Yang asked.

"My heirloom necklace was stolen by the \*\*\*\* pirate. It was passed to me by my grandmother. Although he is not valuable, it is my only spiritual sustenance," said the middle-aged woman.

The system prompts: Are you willing to accept Ms. Igers's commission and retrieve the necklace for him? Quest reward: 10 gold coins and 50 copper coins.

Lu Yang chose to accept it, then took the necklace out of his backpack and asked, "Is this necklace?"

"Oh, this is it. Thank you for helping me find him. This is a reward for you." The middle-aged lady gave 10 gold coins and 50 copper coins to Lu Yang.

Lu Yang took over the copper coins. This is an official small task of making money. If the player is willing to spend time and a little capital, he can receive such small tasks all over the world and spend a lot of time to earn some income.

After Lu Yang walked from one house to the next, he had to sell more than 300 pieces of jewelry in order to trigger the pirate mission.

For a whole day, Lu Yang ran all over the map and exchanged out the necklaces in his hands. After that evening, he returned to the romantic street and found the mysterious person asking: "Do you have any jewelry there, I still have to buy . "

The mysterious man froze and asked, "Have you sold it?"

"Yes, your items are selling well and I have made a lot of money. I want to work with you for a long time." Lu Yang said.

The mysterious man said, "Okay, wait a minute, I'll go back and fetch, there are many more of these corpses."

Lu Yang grabbed the mysterious man and said, "You might as well take me there, just to see your boss."

"What do you mean?" The mysterious man asked.

"You are pirates, right? When I sold things, they all said that this was an item stolen by a pirate." Lu Yang said.

"It was discovered by you," said the mysterious man in horror.

"Don't be afraid, I'm not malicious to you, I just want to take over your business. Since you can't sell these things, you sell them to me. I'll help you sell them. In addition, I can give you inside information, such as Whose fleet is going to go to sea and what route to take. "Lu Yang said.

“Really?” The mysterious man asked.

Lu Yang said: “Of course it is true, but I have to talk to your boss about this kind of thing, you have to take me.”

“Yes, you can go with me.” The mysterious man took out a teleportation scroll from his backpack and flew into the room with the landing sun instantly.

System prompt: You found Blackbeard Island

You found the Blackbeard Tavern

Lu Yang looked up and found that he had entered a dark tavern, which was a rock-made tavern, surrounded by only a few woods, and there were many torches around the wall.

There are many pirates in the tavern. They are drinking wine in a large blackjack made of oak. The pirate’s race includes fishermen, humans, and orcs. All kinds of people are mixed. Although the races are different, they are all tough.

The pub is large, containing hundreds of pirates. The pirate sitting in the top position is human, but his body is very exaggerated. He is more than 2 meters tall. His muscles are stronger than the orcs. There is a trimmed face on his face. Very delicate black beard, he is a black beard.

“Big ear, who is this person, and how do you bring an outsider to the island.” Blackbeard asked, knocking on the table.

The mysterious man said: “Sorry Boss, my identity was discovered by him and he wants to talk to us about cooperation.”

“What?” Bearded stood up and walked in front of the mysterious man. He punched the mysterious man with one punch, turned his head to look at Lu Yang, and said fiercely, “You want to talk to me about cooperation, believe it or not, and kill you.”

Lu Yang said, "It's better to listen to my cooperation before deciding to kill me or not kill me."

This is a task trap. Do n't think it 's a game. You can talk casually. In a word, it 's not good. Blackbeard really killed you. Then you do n't want to take on this task in your life. Many people in the last life were here. There was a mistake here and the mission failed.

"Oh." Blackbeard paused and asked, "How to cooperate?"

Lu Yang said, "Everything you robbed was given to me for sale. In addition, I will provide you with information on all the sailing ships of the three major races."

"It's up to you? How could you do that?" Blackbeard said mockingly.

Lu Yang replaced the camouflage mask and said, "I'm Lu Yang. I don't know if I have this qualification."

Unify the orcs and elves, allowing Lu Yang's reputation to reach a level known to all npcs in the game.

Blackbeard changed his face and said, "You are qualified. You are the king of land. I am the king of the sea. You asked me to cooperate, and I refused for no reason. Please sit down."

System prompt: You have Blackbeard Pirate Fleet reputation turned on

"Thank you," Lu Yang said.

"I will grant you the right to purchase all items. If you have news about the ship going to sea, you can tell me at any time," Blackbeard said.

Lu Yang found the mysterious man who was beaten. He was responsible for selling things. The items sold included weapon drawings and equipment drawings, but his reputation was not enough to buy, and there were no drawings of ships and guns in it.

He patted his head and remembered, took out the black-bearded treasure map from his backpack, and said, "I found this by accident. I don't know if it will work for you."

"This?" Blackbeard took the treasure map, and said with a laugh: "Thank you very much. This is a treasure map that I made in the early years. I was afraid I forgot it, but was stolen by a traitor. Thank you for returning him, this is your reward. "

Plans: Abyss Cannon

Level: 5

Damage: 50000

Range: 1500

Rate of fire: 10.0 seconds

That's what Lu Yang wanted, saying, "Thank you, how can I come here in the future."

"This is a transfer token. You are welcome to come to us at any time." Blackbeard handed Lu Yang a black token.

Lu Yang was about to leave. Suddenly, he saw a npc wearing a black diving suit and carrying a red backpack on his body. His eyes were green. This npc was called a deep-sea salvager, who dived into the sea to find the sunken ship Treasures are a very difficult npc to encounter. As long as you encounter them, you will definitely be able to buy extremely precious goodies.

"Damn it, give me a glass of wort, I want the best." The deep-sea salvager said loudly.

Blackbeard laughed and came to the salvager, holding his shoulders and saying, "Let me know if I have found something good."

The salvager said proudly: "Boss, this time you are going to invite me to play in Yinsha City for a month. I found a lot of treasures."

Lu Yang asked quickly: "May I see?"

Blackbeard said: "Of course, you can buy it if you like it, but the price is not cheap."

Lu Yang looked at the goods, but when he saw what was inside, his heartbeat accelerated.

Shipyards Upgrader, Description: A shipyard that can be built for players is immediately upgraded by 1 level.

Lu Yang pointed at the item and said, "I'll buy them. There are a few."

"10," said the deep-sea salvager. "Each worth 100 gold coins."

Lu Yang took out 1,000 gold coins and said, "I bought them all."

Isn't it 300,000? He can afford the money. After taking over the shipyard upgrader, Lu Yang's excitement is hard to restrain. He bid farewell to Blackbeard and immediately flew back to Binghuo Island.

There are 10 shipyards at the seaside shipyard all in the state of level 4 and a half. Chen Mozheng looked anxiously at the sea.

Lu Yang came to his side and asked, "What are you looking at?"

Chen Mo said, "Boss, I did my best. Today's tasks have been completed, but it's too early to upgrade."

In reality, Chen Mo's mouth blistered. He was anxious about the national war. The sudden start of the national war left him a little mentally prepared. If the national war started half a month later, at that time his shipyard had reached level 5, and he took With 100 Black Devil, you can race against the sea in the sea.

But half a month in advance, not only did the shipyard not build to level 5, players from seven countries, thousands of warships are gathering at the seaside, and they will rush forward together when the national war is opened at noon tomorrow. He does n't know how to respond. .

Lu Yang originally wanted to tease him, but seeing his anxiety, he couldn't bear to say anything, he took out 10 shipyard upgrade accelerators and said, "Look at this."

Chen Mo took a look at the items, and his eyes showed an incredible surprise.

#### Chapter 951 - Attack

"Boss, where did you get it?" Chen Mo asked.

Lu Yang said with a smile: "Thanks to you, I got the black-bearded treasure map, and I opened the black-beard reputation, and bought it with the treasure map."

"Great, this shipyard can be upgraded to level 5 and I can build a ship." Chen Mo said excitedly.

Lu Yang said, "Go, upgrade the shipyards to level 5. Don't rush to build ships. Abyss giant artillery early."

He handed over the drawings of the Abyss Cannon to Chen Mo and said, "This is the new artillery."

"Boss, you got the artillery drawings, it's awesome." Chen Mo was incoherent, and the surprise came too suddenly. Everything that was originally worried was solved by Lu Yang.

Lu Yang said: "First build 2,000 abyss cannons and place them on the fortress of Binghuo Island."

There is only one place on the Ice Fire Island where a large number of players can log in. On the seagull beach on the east side of the island, there is a 5,000-meter-long beach.

Lu Yang established a wild fortress on the rock behind the beach. It was originally used to prevent the Poseidon Army from sneaking into the orcs while Landing Sun let Chen Mo attack the Orcs. I did not expect that the Poseidon Army did not come to sneak attacks, but it just happened to prevent foreign players from attacking Above.

This fortress has 1,000 fortress guns, plus 2,000 abyss cannons, and a superior advantage. The enemy can never attack. As for the four fortresses outside Binghuo Island, Lu Yang decided that if Dutch players dare to attack, he would first Give up, these four seaside fortresses, he couldn't keep it.

"No problem, I plan to go." Chen Mo said.

"I'll go with you." Lu Yang followed Chen Mo to the shipyard.

Chen Mo handed the accelerator to Arhan and said, "Trouble helps us speed up the construction."

"Oh, you have such a baby, of course, there is no problem." With a wave of his hands, Arhan raised ten of the four shipyards to five in an instant, and the entire appearance was one third larger than the original, and the factory buildings were much more beautiful.

Lu Yang used the drawings and saw the Black Devil in the shipyard's construction interface. He resisted the mood to build a ship and said, "Make a gun."

"Um." Chen Mo chose to build.

The construction of the Abyss Cannon is fast, one can be built every 10 minutes, and then players pull the Abyss Cannon to the fortress behind the seagull beach.

Lu Yang and Chen Mo each brought a cannon to the east wall of the fortress, watching the sunset at the seaside in the distance.

“The scenery is so beautiful. How about changing the name of this fortress?” Lu Yang asked.

This fortress was originally called the Seagull Fortress, and it was set up casually.

“What name?” Chen Mo asked.

Lu Yang said, “The Abyss Fortress commemorates the abyss cannon we just got.”

“Good idea.” Chen Mo smiled. He leaned his body against the wall and said, “I really hope to build the Black Devil soon. Then even if the Seven Kingdoms fleet comes, I can rely on the advantages of ships and guns. Fight against them. “

Lu Yang smiled. Originally, he wanted to tell Chen Mo that there would be 300 Dutch warships in total, but Slade of the Netherlands announced that he would only fight Lu Yang. He could not confirm the news for the time being, and can only wait.

late at night.

Lu Yang still has no rest, and he is discussing with k, eight-armed spider, Thor and other players to discuss how to deal with the Skyeeye Alliance.

The eight-armed spider said, “Boss, are you sure you want us to attack the whole line? If this is the case, it will expose our full strength. The Sky-Eye Alliance will do our best to deal with us. The guild that we have worked hard for more than half a year is likely to be attacked by the enemy Completely destroyed. “

Lu Yang provided limited support to him. He did not understand foreign countries before he was reborn. These guilds were originally developed secretly and did not compete with the super guilds of the Skyeeye Alliance. If this confrontation is positive, they will lose. It’s miserable.

“It doesn’t matter if the guild is ruined, I will keep them, and I will pay their salaries later.” Lu Yang said firmly.

“But this money is too huge. We have dozens of guilds and tens of millions of players.” Black Friday said.

Lu Yang said: “It doesn’t matter, I will give this money.”

As long as he can avenge Liu Jie, Lu Yang doesn’t care how much he spends.

“Well, if you insist, we will go all out tomorrow and not let their warships go to Huaxia.” Thor said.

Lu Yang said, “You are in trouble.”

Dozens of people on the screen nodded and quit the video.

Lu Yang was lying on the bed, Germany had thunder, Germany had eight-armed spiders and Argentines, France had God of War IX, Japan had k them, Spain had Arab allies, Italy had silver violin, they were left One Netherlands.

“Let me lose so much, the Netherlands and the Skyeye Alliance, I will not let one go.” Lu Yang gritted his teeth and fell asleep.

At noon the next day, after Lu Yang confirmed with the parties again, he entered the game and waited for the national war to begin service.

Liang Yun said: “Boss, there is news from the Elves, Liu Jie is gathering players in the eternal city. Perhaps the enemy’s target is really Silver Sand City.”

As soon as the words fell, Tian Yao said, “Luo Cheng’s players assembled in Sky Fox City.”

“Strange, where are they going to fight?” Zhou Tianming frowned.

Tu Feng said to Lu Yang, "Boss, look at the channels of various countries."

Edward No. 1 British President said: "Our goal this time is to attack Sky Fox City, Lu Yang, are you ready?"

The sword of the first president of France, the Angel Sword, said: "Our goal this time is to attack the Empire of the Sea, Lu Yang, are you ready?"

Japan 's first president, Ono, said, "Our goal this time is Yinsha City. President Lu Yang, please give us your advice."

...

The presidents of 7 countries and 7 super guilds each announced that they would attack the main coastal cities of Huaxia Server with their main forces.

"It looks like the battle is not small." Lu Yang said.

"Not really, because the players in their national clothes are divided into two factions." Xia Yuwei said angrily.

World Channel.

"It's all blame Lu Yang. If he hadn't won Liu Jie with treacherous schemes, we wouldn't have been invaded by so many countries."

"Fart, these people are here to rob, just playing the banner of helping Liu Jie, are you stupid?"

...

Both sides scolded fiercely.

Lu Yang said with a smile: "Don't worry about those fools. At 12 o'clock, I will let them know the true face of players in various countries."

Everyone nodded. They already knew what Lu Yang ordered the branches of various countries to block, and how much Lu Yang's loss was.

"Tianyao, shooting Sirius, Yunyu, you take people to the Sky Fox City, as long as Luo Cheng's people dare to go out, all killed." Lu Yang said.

"Yes." The three of them left.

"Liangyun, twilight, you two took people to Yinsha City." Lu Yang said.

"Yes." Liang Yun and Twilight also left.

Only Luzhu and Tu Feng were left beside Lu Yang, saying: "The rest is to wait and see how many people can be stopped in the end."

He opened the video, a total of 7 pictures, the guilds of 7 countries are broadcasting live they gathered players to prepare to attack China.

In the video, the faces of each of the guilds and players are filled with happy smiles, as if they can grab countless things as soon as they arrive in Huaxia.

"It's disgusting to look at this group of people," Han Liu said.

Lu Yang said: "Most of these people have a level of 90 or higher. The average level is 10 levels higher than our national clothes, and the equipment is much better than ours. Not surprisingly."

Xia Yuwei asked: "I'm afraid that Liu Jie hopes that the Tianyan Alliance can sweep through the national clothes this time. Their family's loss is so great. He will definitely want to use the national clothes to make up for the loss of their family."

Lu Yang nodded and said, "He can do this."

They guessed right, Liu Jie did have this idea, he is actively contacting the No. 1 of Tianyan Alliance.

"I asked the Huaxia server this time, and my splitting ratio was 40." Liu Jie said.

No. 1 said: "It's too much. You can only get 20 by reason. I give you 25, which is great."

Liu Jie said: "I have fought so long in the national service, spent so much money, and suffered so much damage. In this battle, I will also organize more than 8 million people to cooperate with you. This will cost you money. You must give I pay extra. "

No. 1 thought for a while and said, "The labor in your national clothes is very cheap, so let me give you 27."

"No, it must be 40. If you promise, I can promise you, and in the future, I will send at least 3 million people to fight with you every time." Liu Jie said.

"Are you sure?" Number One was a little emotional.

"I said Liu Jie did it."

No. 1 thought for a while and said, "So, plus your condition, I will give you 33, no more, the organization will charge 5, and the remaining 7 super guilds will have the remaining 62. After all, they are It's not fair for them to do their best to save you. "

Liu Jie thought for a while and said, "Okay, then it's up to them."

No. 1 smiled and said, "Watch the video, you will feel a different mood, relax, young people."

Liu Jie looked at the video. In the picture, the time entered the countdown bit by bit, when the time was exactly 12 noon.

System Tip: The national war is officially started. You are welcome to explore the new world.

United Kingdom.

Edward shouted excitedly at the seaside, "The glory of the British Empire Navy will once again be glorious from us."

France.

The angel's sword shouted, "Huaxia, a beautiful country, our soldiers from the French Republic are here."

Japan Germany.

...

The presidents of the super guilds in seven countries have issued their final offensive declarations. With the attention of the media from various countries, they have jointly sailed towards Huaxia.

In the British media, a male host shrugged his shoulders on the TV and said, "Obviously, Huaxia is in danger of escaping this time. Although we don't want to do this, this is public opinion."

French media, a middle-aged male host said: "I really apologize for that country as beautiful as porcelain and hope God bless them."

Japanese media.

...

The media of the seven countries spoke at the same time, and many of them were official mainstream media. As for the invasion, they thought of it a lot, but they also took for granted arrogance and prejudice.

#### Chapter 952 - 6 countries retreat

The Six Kingdoms retreat Lu Yang watched the media's speeches in the video and scolded: "Pretend to be your sister's superiority, a group of poor and small countries, thought it was 100 years ago? what."

The aggression more than 100 years ago allowed them to give such high domestic benefits, but after 100 years, they have already spent all their money. Greece was the first to go bankrupt in the form of a state. Until now, it has not paid off Europe's debts. paragraph.

The four most famous golden pigs in the European Union, Portugal, Spain, Italy, and Greece. The first letters of the four countries together are exactly pigs, which means a group of pigs.

It is led by Italy and Spain in particular. It is a developed country in name, but it is actually the country with the largest debt. It is one of the most hindered in the European Union. It needs Germany to subsidize a lot of money every year. Not to mention China, they are even Japan. Can't compare.

France is even more miserable. In recent years, there have been many popular revolutions in France. The country has had to raise wages many times. This has caused the country's economy to be very tense.

There is an international practice that once you colonize any country, you will be responsible for the future security of that country.

In order to help this country counter the civil unrest, France chose to send troops. However, when transporting equipment, France did not even have a strategic transport plane. In order to quickly transport the equipment in the past, it spent money to find a strategic transport plane borrowed by the United States.

The grand French Republic, there are no strategic transport planes. They need to be borrowed from other countries, and the whole world looks at jokes.

This is the case internationally. Domestic thieves are in large groups. People who complain about the poor welfare of the country march almost every day. According to official data, France marches more than 1,000 times a year, and on average, it marches three times a day.

Japan is even more of a joke. Among the world's fertility rates, the normal ratio is 2.2, which means that a family normally has 2.2 children to ensure that the population of this country has not changed, but how much is Japan, 1.4.

According to the number of Chinese people officially released by Japan, they die hundreds of thousands more each year than they were born. Now there are only 110 million people in Japan's total population. The ageing is serious, and there are more elderly people than young people. .

Instead, 20 years ago, players from these countries joined together to play Huaxia. Lu Yang was still afraid of their three-pointers, but now it is 2040. Except for the other two superpowers, these small nations are only a group of black people.

Their only strong point is that the domestic population is small and server wars are small. A few capable people can quickly calm down a country and quickly lead players to upgrade their level and equipment.

The national service has a large population and a long time of unification. There are too many wars, resulting in lower player levels than foreign countries. These foreign players can only succeed in joint attack at this time. In other words, when everyone has reached the full level and the equipment is the same, Huaxia Of players can sweep across Europe.

Lu Yang stared at the video for 2 hours. He felt almost the same. He took out the phone and launched a mass message prepared in advance.

“action.”

In the video.

Edward, the British guildman, is doing a live broadcast. He is wearing a helmet standing at the bow of the ship, without a helmet. His short golden hair is blowing in the wind, making his handsome face even more handsome.

“My friends, I am on my way to Huaxia. I will arrive in Huaxia in another six hours. Although the time is long, everyone will not feel lonely. I will accompany everyone with the live broadcast situation.” Edward smiled. Said.

Suddenly, a call was made to his communicator. He saw that the vice-chairman responsible for staying in the country pressed the connect button and joked to the screen: “Honest, knight, I know this war has not I’m sorry to take you there, but you are my most trusted brother. What’s wrong with you, do you want to say hello to everyone? “

The player named The Knight of Integrity said anxiously: “No, the eight-armed spider launched a surprise attack on us with more than one million players. All of them are from Scotland. Come back soon. I can’t hold it for too long.”

“What?” Edwards stunned his face, and asked violently, “How did the eight-armed spider come to hit me? Are you sure?”

In this battle, Edward brought all the guilds with good relations with him. In total, he dispatched more than 3 million people, more than 300 warships, and 600 large personnel carriers. Only less than 600,000 people were responsible for defending the fortress, or some Second-line equipment players.

“As soon as an hour, we will lose two-thirds of the wild fortress. You cannot afford this loss. Come back soon,” said the Knight of Integrity.

“How can he do this?” Edward yelled at the eight-armed spider, hesitating to sail back to the ship, and ordered: “The whole crew used the roll back to fly to Queen City, and the ship turned around and returned to Britain.”

British players watching the broadcast were surprised to hear the news.

“Why do the eight-armed spider hit Edward at this time? The two are not of the same level?”

“I don’t know, this game is dead, the guild of eight-armed spiders is about to die.”

...

Liu Jie was watching the live broadcast. He knew the news of Edward’s retreat for the first time, but he didn’t care, but within a few minutes, the Argentine player announced the attack on Britain, and the German player Thor announced the challenge to the First Guild.

The Arab states announced their invasion of Spain and threatened to restore the glory of the former Arab empire.

Players from Thailand, Laos, and Myanmar also announced the formation of a joint navy to attack Japan. Ono, who has come to the national service territorial waters, hastily returned with 3 million players.

For a time, more than five countries announced their withdrawal, and Liu Jie was stunned.

“What’s going on?” Liu Jie called and questioned No. 1.

“We are looking for the reason,” No. 1 replied.

“They must be returned, I am their shareholder, and I have reasons to make this request.” Liu Jie said.

Number one said: “Sorry, they can’t lose their hometown for you. Hold on, and France, Italy and the Netherlands are still approaching you.”

The voice just fell.

Italy and France announced their return to China at the same time, for the same reasons as other Britain, and were attacked by other domestic guilds.

“There is only one Dutch left.” Liu Jie angered.

No. 1 had a touch of helplessness on his face. He also felt a little sorry for Liu Jie. Yesterday, he agreed to come over from 7 countries, and now there is only one left.

In the game business organized by the Skyeeye Alliance, Liu Jie invested 13% of the total proportion and is one of the major shareholders. The so-called No.1 in the Skyeeye Alliance is the secretary-general responsible for managing the game business and is directly responsible to the headquarters. He can't care less Liu Jie's attitude.

“Sorry, it looks like we are going to change the game.” No. 1 said.

“How to fight?” Liu Jie asked.

“I have seen that the power of these countries to oppose us is not strong. It only takes 7 days and we can annihilate, and insisting on 7 days is not a problem for you.” Number One said.

“No problem within this month.” Liu Jie said.

No. 1 shrugged his shoulders. He knew that the Liu Jie family had been hit hard in the economic crisis and said, “I suggest that the Dutch fleet first attack the Hot Spring Island according to the original plan. He is with the United Army and has 300 Ten thousand people are all masters of level 90 and above. After standing there, they are waiting for us. “

Liu Jie said, “Yeah, I suggest you make an illusion first, move in the direction of Sands City, and then bypass half of the elves and attack the hot spring city from top to bottom.”

“Good idea, I'll tell Slade.” Number One said.

Slade has brought 3 million players with 300 battleships and 5,000 troop carriers to the Huaxia waters. He has learned about the withdrawal of guilds in several other countries. He is a bit worried and wonders whether to move on or not. retreat.

No. 1 called and said: "Change the target and attack Hot Springs. There is a hostile guild against Lu Yang. Lay down there as a supply station. We will come to support 7 days later."

"It works, I'm afraid I can't hold on for 7 days," Slade said.

"Don't worry, Lu Yang's navy has only 100 Tier 3 warships. Your warship is Tier 4 and you don't need to be afraid of him. Hot spring city is an island. As long as you keep the sea, Lu Yang cannot come." No. 1 said.

"How strong is defending Hot Springs?" Said Slade.

"You're in luck. The defensive players in Hot Springs have only 150 level 3 warships. The level of players is between level 60 and level 80, of which only 10,000 people have level 80 gold equipment." No. 1 said.

Slade said unbelievably: "How could it be so weak? Only 60 to 80?"

No. 1 said: "Huaxia's war frequency is too high. Players spend half of their time fighting. Naturally, there will not be a high level. Your chance is here. I heard that killing players from other countries will have national war points. This thing. You can change a lot of good things. "

"Leave it to me." Slade closed the dialog box proudly, saying, "The whole army moved on and attacked Sands City."

300 Tier 4 battleships and 5,000 troop carriers continued to sail towards Sands City. There are more than 1 billion players watching the live broadcast in the world, but today's events make them feel like a roller coaster ride.

At the beginning, players from 7 countries jointly attacked, but after 2 hours of walking, civil strife appeared in 6 countries, and all the attacking players returned.

The only Netherlands left was that everyone thought that the Netherlands would also retreat, and thought that when the war ended in this way, the Netherlands announced that it would continue to attack, which focused the whole world on the Netherlands.

In the guild hall of Hot Springs, Xiaoxiao Muyu was just excited again and shouted with joy: "It's great, the Netherlands hasn't retreated yet. Hurry up and let Liu Jie and Lu Yang continue the war, preferably several others. The country is coming quickly, and both sides lose each other, then we will have a chance."  
“

The strength of Lu Yang is obvious to all. If the seven countries come in, Lu Yang will not be crushed, and the two sides will only enter the melee. In the end, whoever can't stand it will end it. On the verge of collapse, at that time, all these domestic guilds were all thinking.

#### Chapter 953 - Battle of Hot Spring Island

Xiongba said: "Don't be too optimistic. The Dutch fleet may not really attack Sands City. I suspect they will attack our hot spring island as Lu Yang said."

Changkong Xi frowned drunk and said, "It shouldn't be, but what you said makes sense, and I want my brothers to be more vigilant."

Xiaoxiao Muyu said: "It's strange to say, where is Lu Yang's navy? Although his only 100 warships can sneak on the sea, he can also destroy many enemy troop carriers."

"I don't know, let's strengthen the defense first." Changkong Xizui said.

Xiongba and Xiaoxiao Muyu nodded, and the two came to the beach together with the sky drunk. The 150 warships of the Poseidon Army were anchoring to rest one nautical miles from the port.

"Get anchored, patrol the sea, watch out for enemy attacks." Changkong Xi ordered drunkenly.

Carrying a ship at sea are the relatives of the drunken sky and the drizzling twilight, the silent moon and the ocean, and the best naval general in their hands.

They also knew that the Dutch had entered the Huaxia waters, and they were looking for the sky to be drunk and Xiaoxiao Muyu to worry about the problem.

“Big Brother, rest assured, there will be no problems with the fleet,” Luo Yue said silently.

Changkong Xizui trusted his cousin very much and said, “Suppose, what I’m talking about is that if the Dutch really come to fight us, they must never fight against them, and immediately flee with the fleet. The Dutch have 300 ships. A level 5 warship is not something we can win. “

“Okay,” Luo Yue said silently.

“This is just a hypothesis. Don’t be too nervous. After all, the chance of the Dutch coming to us is very small. How do they know our place?” Xiaoxiao Muyu said with a smile.

Changkong Xizui also laughed, which eased the tension.

Luo Yue said silently: “Don’t say it, I really want to compete with the Dutch. The battleship is not only useful at high light levels, but also depends on the commanding ability of the battlefield. The T-shaped tactic is the most useful. If they really Dare to come, I don’t mind teaching them. “

“That is, we have been practicing the T tactics for several months. We are waiting for a decisive battle with Chen Mo. The Dutch are also good. They are just used to regain the prestige of our Poseidon Army.” Said Ocean Miles.

Speaking of this incident, Changkong Xizui and Xiaoxiao Muyu are more proud. In order to counterattack the ice and fire island, the two took the Navy to practice hard for several months, specializing in studying T-tactics at sea.

The so-called T-shaped tactic is that one party can quickly lead the fleet to the bow of the enemy’s fleet, so that all the warships of its fleet will face the enemy’s first ship sideways to form a T-shape.

The artillery of the sea ship is arranged on the side, and only one cannon can be put on the bow. In this way, all the firepower of the enemy can attack the enemy's sea ship, and the enemy's sea ship cannot fire without the firepower.

In this area of the sea, the drunken sky and the drizzling rain have seen every day's wind direction, wind speed, and current direction. The players in charge of the ship have also reached a very proficient level in handling the ship. If they fight in this area, they are confident Will not lose to anyone.

Just when the four were confident, Lu Yang had sent a reconnaissance ship from Sands City, Sky Fox City and Binghuo Island to find the Dutch fleet.

"It's weird. Where did more than 5,000 ships go?" Lu Yang asked with a frown.

No one could answer his words. Since entering the China Sea, Dutch general Slade closed the live broadcast and disappeared with 5,000 warships.

For the orcs and elves, Liu Jie started the war ahead of time. More than 5 million people launched counter-attacks in the Silver Sand City and the Great Shark City of the two races, which matched the Dutch attack on the main coastal cities.

But the more they did, the more Lu Yang did not believe that the Dutch would hit the main coastal city. As he researched, the players responsible for the investigation successively reported.

"No enemy was found within 10 nautical miles around Silver Sand City."

"No enemies were found within ten nautical miles around Sky Fox City."

"No enemy was found within 10 nautical miles around the Imperial City."

There were no three places that worried Lu Yang the most. Lu Yang looked at the map and pointed at the hot spring city and said, "It's over, the hot spring city really falls into the hands of the Dutch."

“How do you know?” Xia Yuwei asked.

Lu Yang looked at the time and said: “It has been 2 hours since the Dutch entered the China Sea. They should have arrived at Sands City an hour ago, but they haven’t come to call us yet. This hour, at the speed of their fleet, should be approaching Hot Springs. “

“Shall we remind them?” Asked Zhuzhuo.

Lu Yang said, “Changkong Xizui, Xiaoxiao Muyu, and the bully ignore me at all, what can I do?”

“It’s better to send a message on the World Channel.” Jiang Ze said.

Lu Yang nodded and said, “This sentence makes sense. I shout on World Channel.”

[World Channel] Lu Yang: All players on Hot Spring Island have taken note. The Dutch fleet is likely to go to Hot Spring Island. Please take precautions.

...

Lu Yang shouted three times in a row.

The players of Hot Springs soon noticed his words.

“The Dutch will come and hit us? How could it be that we couldn’t hit us with eight poles.”

“No, we are so remote here. What does this war have to do with us?”

...

Hardly anyone believed.

Changkong Xizui and Xiaoxiao Muyu also saw the news of Lu Yang.

Changkong Xi sneered drunk and said, "This Lu Yang is still thinking about inviting people to buy."

[World Channel] Shizui in the sky: Although the brothers of Hot Spring Island are assured, there is our Poseidon Army, Xiaoxiao Muyu, and all of our brothers. If the Dutch dare to come, we must destroy them at sea.

Xiaoxiao Muyu gave the thumbs-up to Changkong Xizui and said, "Good job."

"What Dutch will come is purely nonsense, who can't speak big words." Changkong Xizui said.

Xiaoxiao Muyu and Xiong Ba both smiled and nodded, both eyes were looking at the sea at the same time, but at this moment, the two eyes widened in horror, and their whole bodies were numb like an electric shock.

"What's wrong with you?" Changkong Xizui asked.

"At sea, at sea, the Dutch fleet!" Xiaoxiao Muyu saw.

The tidal sky looks drunk towards the sea. In the mist on the sea surface, 300 class 4 warships burst out of the mist, and each of them is 50 meters apart. come.

The Tier 4 battleship Black Pearl is 20 meters tall, 5 meters higher than the battleship of the sky drunk side, 6 sails, and 2 sides of the battleship of the sky drunk side, and they did not wait for Xiaoxiao Muyu to react. The Dutch warship approached 300 meters from the Poseidon warship.

"Run." Xiaoxiao Muyu shouted almost exhausted.

The silent moon and the ocean in charge, who were in charge of the command, were awakened by the roar at the same time, and quickly shouted, "Run, run out of the encirclement."

The 150 warships were half-sailed. Upon hearing the order, the crew immediately filled the sails and ran quickly towards the gap in the southern encirclement in a downwind condition.

Xiaoxiao Muyu and Long Sky Shizui stared nervously at the distance between the two parties, but in their anxious eyes, 150 warships of the Poseidon Army ran for less than 2 minutes, and 100 of the Dutch warships suddenly accelerated. Overtaking from the side came to the front of the Poseidon Army. At the same time, their 100 warships pointed their wings at the bow of the Poseidon Army. The T-shaped tactics were formed!

Slade appeared on the podium of the middlemost warship, looking at the Poseidon warship getting closer and closer, and a proud smile appeared on his face.

"Don't rush to fire, the enemy enters within 100 meters and must hit the first bomb." Shred shouted.

None of the 100 Tier 5 Black Pearls fired artillery shells, and all aimed their muzzles at the ships of the Poseidon Army.

The commander of the Poseidon Army, the silent moon and the ocean, saw the 100 ships facing their black pearls on the side and the muzzle of the black hole. The two were struck by lightning.

"Not good, stop the ship quickly," Luo Yue shouted silently.

"Can't stop, rushing over, you have to rush over, or the whole army will be wiped out." Yuanyang shouted.

Whether it is at sea or under the wind, unless the sail is dropped immediately and anchored, the anchoring is to find death. The ship is stopped in place. 300 Dutch level 5 warships can pour out the shells with full force. In 20 minutes, their 150 warships will be wiped out.

Or turn to the other direction, but the side is the battleship chased by the Dutch, and the Dutch warship is behind. Unless they rush towards the beach, they will only crash into the arms of the Dutch fleet. They will also be dead. Ground.

“Fighting, rushing over.” Luo Yue shouted silently, already in a desperate situation, want to escape, can only continue to move forward, hoping to rely on the speed to escape as many warships as possible.

200 meters

100 metres

In a blink of an eye, the distance between the two sides reached within 100 meters, Slade’s face showed a sloppy look, raised his right hand and shouted: “fire.”

“Boom ~!”

“Boom ~!”

“Boom ~!”

...

100 black pearls, more than 6,000 level 5 scarlet cannons fired at the same time, scarlet cannons hurt 40,000, and the rate of fire was 7.0 seconds.

For the first volley, two warships of the Poseidon Army exploded at the same time, and they were crushed and shattered. The sky on the coast and the drunken sky and Xiaoxiao Muyu were broken.

“My boat, my boat.” Xiaoxiao Muyu shouted.

With two volleys, the Poseidon lost 4 warships and escaped from the encirclement, but did not wait for the silent moon and the ocean to breathe a little sigh of relief. The Dutch warships caught up again. After all, they had 6 sails, which was better than the Poseidon. The warship has two sides.

The two sides quickly became side by side, the Dutch warships opened the side gun muzzle at the same time, and 60 giant artillery aimed at the Poseidon's warship.

"Lao Tzu fights with them." Luo Yue silently saw that he couldn't escape, and was aroused fiercely, shouting, "Open the side muzzle and confront them.

"Fight." The players of the Poseidon Army were also aroused fiercely, and each opened the side muzzle and aimed at the Dutch warship.

Chapter 954 - 1 side down

Slade caught up from behind and watched the Poseidon Army proudly said, "Yes, this is a confrontation between men. What a skill, I like this kind of battle."

"boom"

"boom"

"boom"

The artillery on both sides of the ship was bombarded. The Neptune side used the fortress cannon, which hurt 10,000. The Dutch used the scarlet cannon, which hurt 40,000. On the ships, the Neptune's warships had 10 million blood and the Dutch's black Pearl has 50 million HP.

The two men standing in the sky and drunk Xiaoxiao Muyu stood on the high platform of the hot spring island and witnessed the sea battle with their own eyes. They watched their own battleships one by one and were defeated and sunk by Dutch players.

A battleship of 1 million ships. For each lost ship, the hearts of Shizui and Xiaoxiaoyu were slammed. When their ship changed from 150 to 50, the two could not help falling. On the ground.

On the Dutch side, none of the warships was damaged. Under Slade's perfect control, as long as the health of a warship is reduced to less than half, it will cause the warship to retreat to the far end, and in the sea \*\*\*\* Attacks outside the range of the army.

The attack distance of the Scarlet Cannon is 1100 meters, which is 600 meters longer than the fortress gun. Both weapons are not a level. The chance of hitting is lower in this distance, but the players sent by the Dutch this time are The top players, even with such a long chance, can hit more than 30.

Half an hour later, there was only one warship in the Poseidon Army, and the remaining 149 warships were all sunk. Their warships were also seriously wounded, the sails were interrupted and they were unable to sail. Can move slowly with ocean currents.

The ocean and the silent moon stood at the bow of the ship and looked at their own warships and the 300 warships of Slade, which were gradually silent.

"How could this be"

"That's how our ship sank"

"How could we lose so badly"

The confused words of the two made Slade, who drove the flagship close to the two of them 10 meters away, showed a scornful smile. The game has a high-intelligence AI translation software that can perfectly convert the words of the two into Dutch.

“Poor Chinese people, you don’t pay too much attention to naval battles. Just like 100 years ago, you are always weak on the sea,” said Slade.

Luo Yue silently and distantly stared at Slade, the two wanted to refute, but the sight in front of them did not let them know what to say.

“Kill them, they look so sad,” said Slade.

Slade’s flagship side had 60 muzzles of black holes.

“No. 1 is ready.”

“No. 2 is ready.”

“Number 60 is ready.”

Slade pointed at the live camera and said “fire” elegantly

“boom”

“boom”

“boom”

Accompanied by the loud guns and soaring fire, the ocean-going miles and the silent flagship of the setting moon were smashed.

Slade pointed elegantly and handsomely at the camera and said, “Oh, my dear friends, this is a perfect victory for China over the Netherlands. Do you know, I won more than 50,000 national war points.

Do you know what the National War Points are for? I will tell you that he can redeem his experience and redeem level 100 gold equipment and accessories. Is he excited? If he is excited, he can sign up at my guild headquarters.

I wo n't tell you, I 'm going to attack the land, my 3 million brothers ca n't wait, what are you waiting for? "

His live broadcast is for the entire Netherlands. A large number of Dutch players were stimulated by Slade's words and went to his guild to register.

Slade looked at the application for membership in the dialogue bar, his face showed a proud smile. Many players in the war took a wait-and-see attitude. They were afraid that the Chinese players were too strong, but now they see Chinese players. So weak, they all moved.

"Boss, the enemy is setting up troops to defend on shore," said the vice chairman to Slade.

Slade looked to the coast. Countless Poseidon players were gathering in the harbor to defend. He pointed at two bouncing people and said, "Who are those two?"

The vice president looked at the information in his hand and said, "That is the two guild presidents of the Poseidon Army. We are destroying their warships."

Shred shrugged his shoulders and said, "I'm sad for his ignorance. Doesn't he know that our artillery range is 1,100 yards? Does he want to use the player to fight the warship, it's ridiculous."

"It may be excessive sadness," said the vice chairman.

"Then I can only be sorry." Slade said helplessly. "We just played a fair battle. The server was started on the same day. Their warship was only level 4. Ours was Level 5, how can we blame us if we lose. "

The vice chairman said, "You're right."

Slade said proudly to the camera, "I think a gentleman must have a chivalry. Even if he loses, we must respectfully recognize the strength of the enemy, not letting his hands go down and letting him die. These two people are not worthy of being presidents. "

Xiaoxiao Muyu on the shore and Xizhuo in the sky have gone crazy. 150 battle ships are equivalent to 1.5 billion credit points. They disappeared within half an hour, making them completely unacceptable.

"The whole army assembled on the shore, I fight with the Dutch." Xiaoxiao Muyu roared.

The tyrant grabbed Xiaoxiao Muyu and said, "Don't fight by the sea, all enemy warships can't beat."

"Let's, I'm going to blow up the enemy's ship with a curse." Xiaoxiao Muyu pushed away the hegemony.

Changkong Xizui is also crazy. He desperately gathers his players and understands that they have not participated in the battle, but they are more morally deserving to go. In the end, the number of people shouted by the two was more than 1 million.

At this point 300 warships had arrived at a distance of 300 meters from the coast, and Slade said, "order the ships sideways to the coast, destroy them, and let the troop carrier land."

"Yes."

Three hundred warships lined up at a distance of 80 meters, turned a half circle on the spot, pointed the sideboards ashore, and exposed the black muzzles of 1,800 scarlet cannons.

"Fire" Shred ordered.

The 1800 Crimson Cannon emitted red light at the same time. For a moment, the shore seemed to be attacked by nearly a hundred secondary spells.

The explosion range of the Scarlet Cannon after landing was 30 yards, and 1,800 simultaneous attacks were equivalent to a length of 54,000 yards.

The damage of 40,000 caused all players on the shore to be killed except the anti-war profession. When the smoke passed, at least 200,000 players were destroyed.

The players on the shore were embarrassed. Seeing this situation, no one went to resist the damage, and all fled.

“Ready, fire” Slade continued to order fire after 7 seconds.

300 black pearls bombarded the coast in this way, and the Poseidon Army completely gave way to the port.

Shred yelled, “The troop carrier will go forward and land.”

More than 5,000 personnel carriers rushed to the beach, the cabins in front opened, and countless Dutchmen jumped off the battleship.

There are 600 people in each troop carrier. Slade does not randomly arrange people to enter the troop carrier. Instead, he chooses to make each ship a combat group, with treatment, output, and defense.

“Kill open the space, don’t give the enemy a chance to cast a spell.” Slade ordered his flagship also rushed to the beach, the first to jump off the warship, and led the player towards the port market.

The port bazaar is next to the hot spring city. Countless players in the city watched the battle at the port. They saw the Dutch destroy the Poseidon warship and rushed to the shore, all eyes red.

“Brothers, you can’t let the Dutch enter the main city and fight with them.” Some players shouted.

“Fighting, you must not let them enter the main city. This is our main city in China.”

“Kill!”

Millions of players rushed out of the city and ran into head-on collision with the Dutch at the port bazaar.

Slade was taken aback by seeing so many enemies and shouted, "Gun shields are ready."

The shielded fighters in the first row set up the big shield, and the players in the second and third rows held 5-meter long guns. These are special occupations in the Netherlands.

"Kill." The players of the Poseidon Army and the Hot Springs rushed to the front of the Gun Shield, but before they attacked, they were poked in the gun by their spear.

"69186" Critical Strike

"70138" Critical Strike

A 90-level Dutch player Facing Chinese players between level 60 and 80, there is suppression on the level and equipment. Almost every attack is a crit. No chance.

"Remote mage and hand hit them, don't get closer in melee," someone shouted.

Countless mages are gathering to speak the spell.

Slade yelled, "Care for blood."

After 2 seconds, countless magic fell on the Dutch, and Slade found that he had no blood.

"Haha, the Huaxia people's equipment is so bad, they can't move us." Slade laughed.

Dutch players have also discovered this, and they have expressed an excited look. This kind of abuse is not something they have ever experienced.

“Kill in, destroy everyone.” Shred shouted.

Three million people had all disembarked at this time, and under the command of Slade, all the members rushed into the hot spring city.

Many of the 100 special players did not follow the large troops, but rushed into the main city in the form of small troops.

These people are the top elite players in the Netherlands. Each of them has a level of 100 and is fully equipped with dark gold.

Slade said to the live camera, “Welcome players from all over the world to watch my live broadcast. This is a great war. You will witness firsthand how I conquered the hot spring city. In the future, this will be the Dutch overseas city. . “

Slade pointed his hand toward the hot spring city. This sentence made the guild leaders returning to fight civil wars angry, and their offensive against the eight-armed spider and k was even more violent.

Huaxia players watched this scene all showed their extremely angry form, gathered players on the World Channel one after another, and many people asked Lu Yang to lead soldiers to participate in the battle.

“Boss, what shall we do?” Asked bitterly for a long time.

Not only are players on the World Channel asking the Brotherhood of the Iron Blood to save Hot Springs, but even the guild has a voice to stop the war to save Hot Springs.

“I’ll take care of it,” Lu Yang said.

[World Channel] Lu Yang: Players’ attention across the country, please look at the true face of Liu Jie. Foreign players are not here to help him. In fact, Liu Jie is a Chinese traitor. Look at what the Dutch players do. I He wanted to help, but Liu Jie asked his guild player to stop the people in my guild to help. If the players in Liu Jie’s guild still had conscience, they would quit the guild and stay away from traitors.

...

In the same sentence, Lu Yang swipes the screen on the World Channel.

Liu Jie was blocking Lu Yang with all his strength. Seeing this sentence, Liu Jie’s cold sweats came down, and he quickly called the Dutch Association President Slade.

“What are you doing that will make you stand firm in Hot Springs and wait for others to come and fight, why did you take the guild into Hot Springs and rob?” Liu Jie asked.

Slade has a lot less shares than Liu Jie, but he is the boss of the First Guild of the Netherlands and does not care about Liu Jie’s ideas.

“Oh, sorry, I forgot. It’s too easy for the hot springs to attack. The players in it are mainly 60 and 70, which is almost 30 levels behind me. It’s as simple as abuse.” Si Lei De smugly said.

Anyone will be arrogant at this time. Nearly 10 million players in a main city were swept by 3 million of them. Not only did they break into the main city to kill players, but they also robbed all shops and earned national war points. Millions, and sold billions of dollars in sales.

Slade is now full of joy, and he has forgotten everything since the first store was opened.

Liu Jie knew that he was finished.

“Boss, what the \*\*\*\* is going on here, isn’t this group of people here to help us, how to ransack the hot spring city, and killed tens of millions of us.”

“What’s the matter, Liu Jie, I take you as the boss, you play us, let us be traitors, my uncle ...”

...

Ordinary players in the Liu Jie Guild were crazy, and a little conscience knew that this thing could not be done. It was to be scolded by all Chinese as a traitor. Grumpy directly scolded Liu Jie inside the Guild.

Liu Jie’s trusted players were stunned. Since Liu Jie established the guild, he has attracted countless players with the name of his Liu family. Hundreds of millions of people are willing to die for him without money. Liu Jie said, Everyone executed immediately, and never dared to disobey the orders of Liu Jie and their cronies.

But now, instead of defying orders, he dared to scold Liu Jie.

“Shut up, Liu Jie is the boss. Can you scold?” Liu Jie scolded the first guard.

“What kind of thing are you, your traitors, retreat, everyone will soon quit the guild, or they will be scolded by people across the country as traitors.” Some players shouted.

The word traitor is so heavy in Huaxia that once he is deducted from the name, he will be killed when he goes out. No one dare to memorize these two words.

In the guild, players were hesitant. The Brotherhood of Iron Blood had stopped attacking, and everyone was watching Liu Jie commanding on the battlefield.

Tian Yao pointed at Liu Jie and asked, "Traitor, you have the face to continue playing this game."

Then he pointed at the nearly one million players next to Liu Jie and cursed, "You people, if you want to continue to kill this traitor, do you want to be a traitor?"

Nearly a million players looked at Liu Jie. They habitually obeyed Liu Jie. Now they want to know Liu Jie's words, even if it makes sense.

But how could Liu Jie look? He looked at the millions of eyes around him, embarrassed for a long time, and said, "Don't listen to them nonsense, here is a traitor who doesn't traitor, give me a fight."

No one acted, none of the millions attacked.

A regiment took off the guild badge and threw it on the ground, cursing: "Still hitting, I hit you x, your dead traitor, my brother's, all retired with me. I don't want this money or traitor."

When the first legion leader retired, there was a second legion leader who withdrew from the guild. Other players who had long wanted to quit did not have to worry anymore and quit the guild.

On the spot, more than 600,000 people took off the guild badge and quit the guild, all eyes of Liu Jie were glared.

"How can you do this, don't forget how I treat you, you dare to treat me like this."

Tian Yao laughed and said, "Liu Jie, not everyone has the same sense of honour. You traitor, I call you how to stand in the national service in the future."

Liu Jie was crazy, the players around him quit, and the players in Sky Fox City quit early. The original 5 million guild left less than 800,000.

According to his earliest ideas, while controlling the national service, he discussed with other players in the country how to rob the national service. If the stock market is cut like leek, whenever the national service player is rich, he will let the players in other countries come to attack.

But the appearance of Lu Yang made his earliest ideas fail, and then the way he thought of was to take advantage of the joint attack of players from various countries, and as a matter of course, first swipe the national clothes again to supplement some of the money lost by his family.

The national wealth of a main city has the least wealth of more than 2 billion, and the most places such as the Holy City and the King of Purple Gold are worth tens of billions. This battle can almost make up for 30% of the loss of his family. It would keep his family from selling the bank.

However, Slade's non-observance made Liu Jie's all plans obsolete. Not only did he not make any money, his guild was almost abandoned.

Liu Jie, who was extremely angry, directly opened the video connection between No. 1 and the presidents of the guilds of various countries. After the connection, he pointed at Slade and cursed, "Slade, you waste, ruin everything."

The players in Hot Spring City that Slade just killed were dead everywhere. They were proud, and they said, frowning, "You have a clean mouth, what do you say?"

"I said you ruined everything." Liu Jie said.

"No, I'm fine. After sweeping the hot spring city, I will occupy Tianquan Fortress and wait for players from all over the world to finish it." Slade's look and elegant and handsome image in the live video are completely different, it's more like a hooligan.

"But you can win the hot spring city because I dragged Lu Yang, otherwise Lu Yang's main force passed, how could you fight it down." Liu Jie cursed.

"Lu Yang? Is he as strong as you say?" Slade asked.

“He now has 15 artifacts, his demon heart has risen to 4th level, and the damage is close to 40,000. Even if he goes alone, you can’t beat the hot spring city.” Liu Jie angered.

“Hehe, I also have 15 artifacts. Not only do we reach the level 4 of the demon heart, the other artifacts have also reached the level 4. I have sent someone to ambush him before, but he is a coward and dare not come.” Slade Said.

Liu Jie has gone mad and cursed: “Okay, anyway, I can’t resist Lu Yang anymore in the national service, so you should face Lu Yang’s offensive.”

Shred shrugged his shoulders and said, “It doesn’t matter. Dutch players saw that it was so easy for me to play here. More than 2 million people signed up. Two days later, they will rush here by boat. Oh, I am really Too great. We have a population of only 30 million in the Netherlands, and even more than a fifth of us obey my assignment. “

No. 1 signaled Slade not to go too far, he said to Liu Jie: “You take a break first, and then look at us, the proportion is the same as what we talked about before, and you won’t get a penny less.”

Liu Jie was speechless and quit the server. He was unwilling to fail. He decided to contact the foreign guilds he invested in.

“Why is this man so uneducated that he won’t even say goodbye when he leaves, really.” Slade shook his head and sighed.

Edward and Angel Sword all smiled. No one cared what Liu Jie thought.

“Hold the Tianquan Fortress for 5 days, and I will arrive in 5 days.” Edward said.

“No problem, I’m waiting for everyone to come here, oh, it’s time for me to go and trigger the guardian of the angel.” Slade said.

The so-called guardianship of the archangels is a protection mechanism after the start of the national war. Once the plunder of the city has reached its limit, there will be countless archangels coming.

In the next 7 days, the hot spring city will be protected by the archangel. After 7 days, the archangel will disappear.

“Guys, attack the Tianquan Fortress with me, and that will be our base camp for some time to come.”  
Slade said.

Three million players quit the Hot Spring City and ran to the Tianquan Fortress. The fortress is the official fortress. Already people have gone to the sky. Slade easily occupied the fortress and opened the construction page to strengthen the fortress.

At this time, the players in the hot spring city dared to resurrect. Looking at the corpses of the players in the city, many players were crying, crying angry.

I have never fought such an aggrieved battle, and I have no power to fight back. I was killed by the enemy into the safe area of the main city, and I was killed again and again by the enemy at the resurrection point. They will be forcibly resurrected by the system, and will be killed after they live. This kind of pain and misfortune has caused them a great deal of pain in their hearts Brothers in National Services, come and help us. “

“Who can destroy these Dutch people, I will follow him later.”

“Netherlands, I’ll never die with you.”

...

The World Channel is full of hot spring players calling for help and swearing. At this time, everyone is looking at the Jagged Brotherhood.

“Where is the Brotherhood of the Jagged Brothers, Liu Jie’s guild is no longer playing, why don’t you come to help?”

“Chairman Lu Yang is quickly organizing a counterattack. We must not let the Dutch bully us like this.”

...

Just when players were looking for Lu Yang, Lu Yang had already reached the city of ice and fire. Liu Jie's guild completely died down this time. Lu Yang finally took the energy to deal with the Dutch with all his strength. People came to him.

#### Chapter 956 - Abyss Fort Artillery

On the sea 1,500 meters away from the hot spring island, more than 100 black pearls are stopping there, and nearly 1,000 troop carriers are behind the warship.

Slade stood on the flagship podium and looked at Binghuo Island, and said to the deputy next to him: "Liu Jie said that this is the main city occupied by Lu Yang. I am curious what this player who unified the national service has any skills. "

"You know when you hit it, it's nothing more than a bunch of roosters." The vice chairman said that the recent war had swelled their self-confidence to the limit and looked down on anyone in the national service.

"That makes sense," said Slade. He picked up his binoculars and looked at the fortress on the beach. He found a group of people standing around one person. He asked with interest: "Is that person Lu Yang?"

The vice chairman looked through the telescope, compared the photos sent by Liu Jie, and said, "Should be."

"The ship is near, and I want to talk to the chairman," Slade said.

“As you wish.” The vice chairman knew that Slade would taunt his opponent again.

100 black pearls gradually approached a distance of 500 meters from the fortress. This is the maximum attack distance of the fortress gun. The scarlet cannon on the black pearl is within the normal range.

Slade could clearly see Lu Yang at this distance. He asked with a loudspeaker: “Is President Lu Yang on the fort?”

Lu Yang was standing on the stage, watching Slade enter the attack range of his Abyss Cannon. There were a total of 2,000 Abyss Cannons. If an attack was launched, at this distance, it would be enough to kill 5 of them before Slade ran away pearl.

“Boss, fire it,” said bitter love for a long time.

Lu Yang shook his head and said, “Don’t worry, I’ll talk to this Mr. Slade first.”

Lu Yang cleared his throat and said to Slade with a loud speaker: “You must be President Slade, I’m Lu Yang, what’s the matter?”

Seeing that Lu Yang agreed, Slade showed a handsome smile on his face, and said, “For a long time, my name was this cross-border war. I thought it was a \*\*\*\* battle. It was so easy to attack Hot Springs. It was too weak for me to lay down a main city of Huaxia Server after less than 300 people died.

Everyone said how powerful President Lu Yang was. I wanted to come to ask for advice with a learning attitude. I wonder if President Lu Yang could give me this opportunity. “

This remark came to Slade’s mouth, from a predatory robber to a gentle scholar, so that the muddy wine and Xia Yuwei and others around Lu Yang showed an angry look.

With a smile on Lu Yang’s face, he said, “Of course you can. If you want to learn, I can teach you, but I’m afraid you can’t afford my tuition.”

Slade laughed and said, "My tuition is here. If you want, I'll send you over."

Lu Yang said loudly, "No need to worry so much. I'll take it myself and fire."

2000 long-prepared abyss cannons aimed at Slade's flagship and the remaining four warships at the same time.

Chen Mo growled and shouted, "Fire, sink their flagship."

"Boom ~!"

"Boom ~!"

"Boom ~!"

...

Violently strong light from the fortress, Slade widened his eyes in horror, and quickly shouted, "Use an absolute barrier to stop the attack."

The three players in the Dutch player array who have a guardian heart, a guardian totem, and a guardian spirit light up fiercely at the same time, supporting a huge barrier and wrapping up the front 20 warships.

The shouting shells were in the middle of the barrier. The shells that could normally hit 50,000 damage did not kill 1 point of blood, and all burst on the barrier.

"Retreat, the enemy has heavy artillery," Shred shouted.

One hundred warships quickly retreated, and the personnel carrier preparing to land also fled back at full speed.

“Ah,” Zhuojiu and the White Lion sighed with regret.

“Unexpectedly, Slade had collected three guardian artifacts.” Lu Yang said.

“Boss, what kind of skill is this? It can block hundreds of millions of injuries.” Asked Zhuzhuo.

Lu Yang said: “If a player can gather three kinds of guardian artifacts, the three can trigger the absolute barrier of joint skills, eliminating all damage within 10 seconds.”

“Fuck, no wonder he dared to come close to us, unfortunately.” Jiang Ze said.

Lu Yang smiled and said, “Unfortunately, yes, they have wasted this skill and saved me a lot of trouble.”

“Did you figure out how to hit them?” Jiang Ze asked.

Lu Yang said with a smile: “I have long thought about it, the big shark is responsible for keeping here, Chen Mo went with me to prepare, I guess Slade was hit this time by me, and I dare not come again, but I still have to deal with his night attack Preparation. “

The big shark nodded. He is now the actual person in charge of the fortress. He trains the player on how to fire the cannon and hit the target. The reason why he hit it so accurately is that he practiced for several days before. Within 1500 meters, he can hit anywhere.

“Boss rest assured, give it here to me.” Big Shark said.

Lu Yang nodded, and brought Chen Mo back to the fortress conference room. Just sitting down, bitterly loved and said excitedly: “Boss, I just posted the video of us running Slade on the Internet. Players praise us. . “

World Channel.

“The Brotherhood of the Iron Blood is good.”

“Kill this garbage.”

“Push them out of the hot spring island.”

...

Lu Yang glanced at the players' chat and said with a smile, “This is not enough. I want to keep the 3 million people in Slade on this island.”

“Any way?” Zhou Tianming asked excitedly, and he found that Lu Yang always had a way.

Lu Yang said with a smile: “Before that, I'd like to talk to the heroes and the Poseidon Army.”

“Dominance?” Tu Feng frowned. “The two bosses of the Poseidon Army have declared the guild bankrupt.”

“Both of them are quite rich. Why are they broke?”

Tu Feng said: “All the assets of the two were invested in the hot springs shops. The Dutch ransacked the hot springs. Now they have nothing.”

“Where's the bully?” Lu Yang asked.

“His situation is not very optimistic, the Dutch attack on the bully was a big blow, and now he is offline.” The old man said.

“Can you contact him?” Lu Yang asked.

“What are you going to do?” Chi Mu asked.

“I want to make sure that after I’m beaten down by the hot spring city, will he come to me to ask for it, or else we’re not playing for nothing.” Lu Yang said.

Chi Wu nodded and said, “It makes sense, I’ll talk to Xiongba about this. Don’t look for him anymore. I guess the person he doesn’t want to see right now is you.”

Lu Yang shrugged his shoulders, letting him contact him, he said to Chen Mo, “Is everything ready for you?”

“It’s worse.” Chen Mo asked with a worried look: “Boss, can this play really work, and are you sure you want to do this, it’s too expensive.”

Lu Yang looked at the hot spring city on the map with an angry look on his face, and said, “This Dutch is too mad and bullies us without a high-level warship. We dare come to this set. I will not let them see how powerful I am. He really treats me as a bully. “

Chen Mo said: “Well, now that you are willing to be the boss, I will give you this task if I try my best.”

Lu Yang nodded and said, “Ready to go, it must be completed within three days.”

“I issued a military order and I couldn’t complete the task. I jumped into the sea.” Chen Mo turned away and left.

Xia Yuwei, Bai Shi, and others listened to the cloud cover of Yunshan, and Xia Yuwei asked, “What are you talking about, so mysterious?”

Lu Yang smiled badly and said: "You will know after three days. You continue to go back and bring players to upgrade in the past few days. Although we can't beat them in terms of level and equipment in the short term, we are better than no effort."

"Yes." Xia Yuwei and Bai Shi and others said together, each using the fortress to return to the city roll and continue to take their men to level.

The old man in the twilight answered the phone and said to Lu Yang: "The tyrant said that if you can drive away the Dutch, the hot spring city is ours, and he will never rob us."

Lu Yang said: "Count him on current affairs, how is he now?"

The old man in the twilight sighed and said, "The state is worse than mine. Fortunately, he is in good health and didn't go to the hospital. This game is really not affordable for ordinary people."

Lu Yang said with a smile: "His magic is here. You hate him, but you can never let him down. Rest assured, the hegemon will have to come back sooner or later."

After the naval battle, there was the New World, that is, the counterattack of the other world. After the previous hegemony was defeated, he rose again in the New World. At that time, he was very successful. He played until he accepted the family trade in full, and stopped when he had no time to play.

Counting, the hegemonic family has not been affected by this economic crisis. After this crisis, their family has also annexed many joint-stock companies that originally had a competitive relationship with them.

The old man asked, "I am a shareholder of the guild. Tell me what the plan is. I feel itchy."

Lu Yang Yile said, "Then you keep tickling, I will be distressed for a while."

"Distressed? Well, tell me, you must play differently this time, tell me how you want to play." The old man in the twilight chased after him.

However, Lu Yang never talked to the old man of the twilight again and went off to rest, and the angry old man scolded in the game.

Because of this victory by Lu Yang, players in the national costumes are no longer so pressing on the Iron Brotherhood.

In fact everyone knows that the Jagged Brothers League can't beat these 3 million Dutch players, all of them are level 90 players, wearing level 90 gold gear, more than one level higher than them.

"Upgrade, everyone goes to upgrade. The national war is not a matter of the Brotherhood of the Jagged Brothers. We have to step up the upgrade. Now that the country is unified, there is no internal conflict, we will upgrade with all our strength."

"Yes, make a copy, make a copy together for healing, mage."

"Upgraded, upgrade together, rush to level 75 today."

...

The whole national uniform is filled with the atmosphere of rushing equipment.

## Chapter 957 - Showdown Slade

The construction speed of the Tier 5 warships was very slow. One took 8 hours, and 10 shipyards had enough horsepower to build 4 ships a day. He took a look inside the shipyard and just built 10 ships.

"Hurry up, it's really anxious." Mufeng said.

When Chen Mo heard Mu Feng's words, he knew that Mu Feng was also unclear about Lu Yang's tactics against the Dutch. He was somewhat surprised and flattered. He couldn't think that Lu Yang really only talked to him about it. The success or failure lies in him. One's body.

“You are here, and within 2 kilometers, no one is allowed to enter without our permission.” Chen Mo said.

“Rest assured that there will be no mistakes, and the defense is all the elite we have selected.” Mufeng said.

“I’ll go out first.” Chen Mo left the shipyard, returned to the main city, and spent 5 gold coins to transfer to Sands City. There are 10 shipyards built by Liu Jie, all of which are level 2.

Lu Yang’s sudden declaration of war, coupled with the old man’s raid on Jinsha City, caught Liu Jie off guard. He had no time to sell the shipyards. As a result, all these shipyards became Luyang’s.

Different from shipyards in other places, the shipyard in Sands City is next to the main city, right next to the port. At present, the 10 shipyards are closely manufacturing an item called fire thunder. After 60,000 pieces, the quantity is still not enough. According to Lu Yang’s requirements, at least 150,000 pieces must be built.

During the mission, he hit many construction accelerators, which can increase the production speed of the machine by 100%. He took all of them and used them to build fire mines.

three days in a row.

默 Chen Moduwo built a fire mine in Jinsha City. In the morning of the fourth day, Lu Yang called Chen Mo and asked, “Have you reached 150,000?”

Chen Chen said proudly to Lu Yang: “Boss, I made 200,000 fire mines, which is 50,000 more than you asked for.”

“Good job.” Lu Yang said, the more things he asked for, the better.

“How do we send it over, do we use a sea boat?” Chen Mo asked.

Lu Luyang said: "Take the land and let the Holy Knight Knight transport me over. I let the Tu Feng send 3000 elites to protect along the way. There must be no problems."

In recent days, Slade warships have been cruising around the beach of the national service, looking for places to attack, but these major coastal cities have a large number of 80 Masters in Lu Yang's defense. Slade tried to land once. Sky Fox City, all lured back by Lu Yang's forbidden spell group, costing him thousands of people.

These dead foreign players can choose to be resurrected in the domestic cemetery, but after the resurrection, they must be chased by countless national service players, so they can only choose to return to the Netherlands, and the transnational resurrection is very costly, and there will be a day of weakness So, recently, Slade also became quiet, no longer thinking about attacking the mainland alone, but his ship was always wading in the sea, and Lu Yang was worried that he would be hit, and all his plans were finished.

"Okay, I'll arrange for Mufeng to come over them." Chen Mo said.

Lu Yang said, and hung up the phone to arrange for Tu Feng to find 3000 elites to \*\*\*\* along the way.

"I personally escorted." The White Lion knew the news and took the initiative to lead the Warrior Legion from Sands City to Bingshan City.

The other side.

While Lu Yang was making final preparations, Slade was still watching the abyss fortress with 100 main battleships still in the sea outside the city of ice and fire.

"No, there must be a problem in this fortress, otherwise Lu Yang will not build a fortress to defend it." Slade said, he sneaked in this fortress several times during the night, but every time this fortress was defended by tens of thousands of players, He couldn't get closer than 1500 meters.

Vice Chairman Wu said, "Did we ask our allies to help us find out, he should be able to detect the information inside."

“Make sense.” Slade picked up the phone and called Liu Jie.

At this time, Liu Jie was still in a state of rage. Slade didn't listen to him, making his guild completely decay.

It turns out that there are still many players thinking about Liu Jie giving more money, and this matter will be over after a period of fermentation. Just when Liu Jie is in the most critical time, they stay to help and get more money and higher Post, when things are over in the future, Liu Jie can still remember their goodness and let them go to the next level.

不在 There are not a few players holding this idea. Even when Liu Jie was recruiting players, there were masters of level 80 and above who applied for membership.

However, this kind of thing only lasted for one day. From the night of the first day, Lu Yang sent a spy into the game and recorded the names of all the players still in the Liu Jie Guild, and recorded their names. Posted directly to the World Channel and Forum.

From the vice chairman and legionnaire to the elite group and then to the ordinary players, Lu Yang exposed a good all, and the first sentence was the traitor list.

The players who don't take national war and honor seriously are instantly besieged by players in the full service. Not only ordinary players chase them everywhere, but also server elites and masters are chasing them.

These people even got copies, the main city could n't get out, and there were countless people standing in the city pointing their noses at them, even if they wanted to change the main city, even if Liu Jie gave them money, Lu Yang also asked for the Iron Brotherhood And all affiliated guilds will hunt them down with a full map, so that these lucky players will know the importance of this event.

On the third night, Liu Jie 's ordinary players either went offline or quit the guild. Senior players had less than 50,000 people. The grand guild, once a brilliant tens of millions, became like this. Liu Jie Anxious to tear Shred apart.

“Dididi”

杰 Liu Jie picked up the phone and saw the phone call from Slade, forcing his anger to press the connect button and asked, “What’s the matter?”

“My best friend, I took the liberty to disturb you. I want to ask for your help. Can you inquire what Lu Yang is doing behind the abyss fortress in Binghuo City, why did you build such a huge fortress there?” Secretary Red asked.

杰 Liu Jie said: “Sorry, that fortress does not allow any player to enter, I don’t have that ability.”

He had eaten a closed door, and he knew that Liu Jie was hating him, but he didn’t care. When he saw that Liu Jie didn’t help, he didn’t care, and said, “Forget it, goodbye.”

杰 Liu Jie listened to the busy voice, he knew that Slade had despised him, which made him even more resentful, but there was no way.

Gu Ma dead grass said: “Should we inquire about it, this thing is good for the Skyeeye Alliance.”

Liu Jie pointed at the dead grass and said sharply, “You have only one task now. Find me Xue Yiming and his family and bring them to me. Don’t worry about other things.”

I nodded dead grass, and retreated.

This defeat was all counted on Xue Yiming by Liu Jie. He wanted to make Xue Yiming’s whole family unable to survive, but he didn’t know. Xue Yiming has now taken his family to Northern Ireland, bought a villa, and lived a leisurely life. Yes, it is impossible to find it in China.

Mr. Seidry hung up Liu Jie’s phone and switched to live broadcast. He laughed at the camera and said, “My friends in the Netherlands, hello, I’m Seidred, your most powerful guild leader.”

I passed away a reward.

“Tonight is the day when the ship set sail. I believe everyone is ready. I am looking forward to your arrival here,” said Slade with a smile.

All 5,000 personnel carriers have returned to the Netherlands and are preparing to transport a second batch of players to prepare to attack China with Slade.

“Slade, how are you doing there?” No. 1 suddenly connected to Slade’s intercom.

“I’m fine here, there are no enemies that can threaten me, and I’ll wait for your arrival,” said Slade.

“For two more days, the French Angel’s Sword will defeat the opponent as soon as possible tomorrow. He will immediately take you with the fleet, and at the same time he will bring a star cannon with a longer range to deal with the abyss fortress you said “Said No. 1.

“Wow Awesome, I continue to stick to it, seriously, you better let them hurry up, the angels are leaving, my second slaughter is about to start, I can’t keep up Don’t blame me for not waiting for them, “Slade said.

No. 1 laughed and said, “I will tell them.”

After the call, Slade continued to use video to talk to Dutch players.

Lu Yang was in the guild hall of Binghuocheng at this time, watching the video of Slade with all the vice presidents, and the AI translator translated every sentence clearly.

“The events of the Tianyan Alliance were reported, and they were no longer hiding, and Slade even answered the number one when he was broadcasting.” Zhou Tianming said resentfully.

“They even want to hit the hot spring city, the players there are afraid to go out of the city now, have not upgraded for several days.” Sun Yu’s eyes were burning.

Slade laid the Tianquan fortress. In addition to finding an inland breakthrough, he sent players to kill Chinese players around the hot spring island. The levels on both sides are too different. The senior players on the hot spring island were small in the beginning. After resistance, they could be killed by the Dutch for a long time. Nearly ten million people in the entire main city were trapped in the main city and could not leave the city.

Lu Luyang said: "Their arrogance is the last day, and I will surprise Slade tonight."

"Hit tonight?" Zhuoju looked at Lu Yang in surprise, and asked, "Our black devil has only built 120 ships, can we wait a few days."

Lu Yang shook his head and said, "Wait for people from other countries to attack. I have been informed that our French allies can't support it anymore, and they can block up to another day at most. The sword will come to help. "

Chapter 958 - Lu Yang

Ruthless Lu Yang "How can this be?" Xia Yuwei and others were stunned.

Lu Yang said: "I can't predict so many things. Now I can only bet one. If the bet wins, the victory scale of this war will tilt to us. If it fails, then we can only deal with it. The land of the G-7 has invaded. "

"Boss, how do you fight, you say." Tian Yao asked.

"Yes, boss, you said, we can't let the seven countries join us to attack us for a few days," Liang Yun said.

Lu Yang smiled and looked at them and said, "There is only one way to defeat them. You first select the players who are most loyal to you."

"No problem," Liang Yun said.

After so many wars, Tianyao, Liangyun, and loyalty have no other, but it is very easy to find players who are absolutely loyal to them, but they now have many brothers who speak of morality.

“Boss, how many people do you want, less than 500 I have won.” Tian Yao said.

“I wipe, I am no less than you.” Yun Yu said.

Lu Yang smiled and said, “It’s nothing compared to this. I have to find someone quickly. I need to find 10,000 people.”

“So much, I’ll look for it.” Tian Yao went for it.

A total of 32 vice presidents went to their subordinates and found nearly 20,000 people. Lu Yang saw this group of players gathered in the abyss fortress.

“Boss, say it, let us do it.” Tian Yao said proudly.

Lu Lu said with a smile: “The mission is very simple. Tonight, I will let you go to sea with a warship.”

“How come to sea tonight? The enemy’s ship is still outside.” Zhou Tianming asked.

Lu Yang said: “Tonight, there will be 1 million players in the Netherlands on board troop carriers. These people will pass along the coasts of many countries such as Russia, Turkey, etc. Without the protection of warships, it is difficult to guarantee that players in these countries will not attack, Tonight Slade will personally take all warships to protect these one million people. “

Everyone nodded.

“Go and prepare, the ship has been built, don’t touch the contents of the ship, Chen Mo will be there to teach you how to control the ship to the sea.” Lu Yang said.

Wu Tianyao said, “Boss, I applied to join this battle.”

“me too.”

“me too.”

多个 More than 30 vice presidents requested to participate in the war at the same time.

Lu Yang thought for a while and said, “Yes, let’s get on board. The battle is special tonight. I will show you what a real naval battle is.”

Wu Zhuojia and others saw Lu Yang’s expression with a look of surprise. Once Lu Yang showed this expression, it meant that he was really angry.

If you think about it, Slade slaughtered the city. He also talked about the city, blocking the hot springs. Nearly ten million players were prevented from letting them out of the city. How much pressure did the national service players put on him? These days, the call for the Brotherhood of Iron Blood has been reduced, but there are still countless people scolding Lu Yang for being incompetent, foolish, civil war insider, outside war, layman, garbage, and so on.

“I really look forward to this war, I don’t know what the boss wants us to do.” Tian Yao said.

“I’ll know in a while.” Chen Mo smiled coldly, and they were extremely curious when they saw the White Lion.

More than 10,000 people entered the shipyard area, and at first glance, saw the Black Devil, which was more than 30 meters high. A total of 120 ships were quietly docked beside the dock.

我 “I rely, tonight we are just driving these ships, isn’t it? It’s so cool.”

“This boat is bigger than black pearl at first glance, and its performance must be much better than black pearl.”

“Can’t wait.”

Uh ...

Chen Mo listened to the players' chat without talking. When he reached the shore, he signaled everyone to be quiet and said, "I know that everyone wants to be a black devil, but today we are not going to be him, but over there."

Chen Mo pointed a finger next to the black devil. There were a total of 5,000 Tier 2 warships and 100 Tier 3 warships. The Tier 3 warships were fine. The Tier 2 warships were less than 5 meters tall. Too much difference.

"I'm dizzy."

"Fuck."

"Bai is excited."

"What are you doing?"

Uh ...

All complained, Tian Yao and Liang Yun and other vice presidents looked back at the player at the same time.

Tian Yao said sharply: "This is a war, it is a war between nations. Don't treat him as a game. Think about it. Now how do players in other countries in the world laugh at us and listen to Chen Mo? of."

多 More than 10,000 people were quiet for a moment, everyone's eyes became red, and his scalp was waiting for Chen Mo, just like a beast who chose to eat.

Chen Mo took a grateful look at Tianyao and said, "Please everyone on board. My navy brothers and I will teach you this time. We are calling you here on the one hand. On the one hand, we have insufficient navy personnel. On the other hand, the boss trusts everyone. Believe me, after this war, you will be heroes, and you will understand the boss, his sacrifice is great. "

"Rest assured, we absolutely obey your orders." Tian Yao said.

Vice-chairmen such as Bei Liangyun also agreed.

Chen Mo nodded, called Mufeng and Wasteland, and 3,000 navy players. These people were the most loyal players recruited from within the Brotherhood of Iron and Blood before. The national war that can suddenly start and the invasion of the seven nations navy. The number of naval forces in Lu Yang's war was stretched.

"Take everyone on board and tell them where they are." Chen Mo said.

The wasteland and others nodded, and began to arrange in an orderly manner.

"Woo ~ Woo ~"

The sound of the clarion horn came from the sea, and unhappy expressions appeared on the faces of Chen Mo and Bai Shi, and this was Slade again.

上 On the shore.

Lu Yang was using a telescope to look at the Dutch battleship in the distance. Slade stopped the ship 1,500 meters away, and a total of 300 warships came.

"What are they doing?" Tu Feng asked.

Lu Yang shook his head and said, "Wait a minute."

On the sea, Slade used a telescope to look at Lu Yang on the fortress in the distance, showing a proud sneer, using a big horn and saying, "Chairman Lu Yang, tonight I will hold a grand party to celebrate my 100 Wan Holland players log in to Tianquan Fortress, and I sincerely invite you to participate, I don't know if you have the courage. "

"Too \*\*\*\* bullying." Tu Feng was angry.

Lu Yang signaled him not to be angry, and replied with a loudspeaker: "President Slade, I accept your invitation, but I hope your party can be held in Bingshan City or Sands City. I will personally host this party for you. Banquet, sincerely welcome all players in the Netherlands. "

Mr. Reed laughed and said, "Why don't you come to Hot Spring Island? This is your country, your fortress. You don't have to be afraid. I promise you that I will not hurt you in any way."

Lu Yang laughed and said, "We Chinese players have always been hospitable. Hot Spring City is not my hometown. It is better to be in Bingshan City. I promise not to attack you and celebrate with you."

Slade did not expect that his conversation with Lu Yang would not be cheap, and sneered, saying, "Chairman Lu Yang, you are afraid to say straight, I will not look down on you, although we Dutch look down on cowards, but You are the strongest of widowers, and I will still give you some respect. I hope you will consider my suggestion carefully. At 10 o'clock tonight, my 1 million reinforcements will arrive. I hope you will come by then. If you do n't come, the next time you meet, you are really on land, haha. "

300 ships turned around, leaving only Slade's arrogant laughter, and Slade's video of mocking Lu Yang. Soon, this video circulated in the national service.

"Too asshole."

"This Slade is too bullying."

"How can there be such a person, strong but not graceful, is this their knighthood in Europe?"

“The chivalry is dead, they are a bunch of hooligans and robbers.”

“Lu Yang hits them. How can I beat foreign players, this humiliation is acceptable.”

Uh ...

Words on the World Channel make it difficult for players of the Brotherhood.

“Boss, don’t be angry.” Tu Feng advised.

Lu Yang smiled and said, “I’m not angry. I never put Slade in my eyes. He is just a jumping beam clown, a Dutch, what is it.”

He sent a message to Chen Mo, saying: “Let the patrol ship come out and take a look around the sea to see if Slade’s ship really left. Chen Mo nodded and let his more than 30 close friends, Controlled 6 patrol ships out of the sea. This is a modified class 2 boat that moves extremely fast and cannot even catch up with Black Pearl.

The most worrying thing about Bisred was that his troop carrier was attacked by such a small class 2 artillery ship from Lu Yang, which ordered 300 warships to collectively dispatch to protect the new 5,000 warships.

Soon, the watcher on Slade’s flagship spotted the following patrol ship and shouted, “Chairman, Lu Yang’s patrol ship has appeared. Would you like to order the fleet to hunt them down?”

Bass Reid turned to look at the patrol boat with a telescope and found only six ships. He said, “Don’t worry about them, be careful of Lu Yang’s ambush, first transport everyone to the Tianquan Fortress, and talk about other things.”

300 black pearls continue to move towards the open sea. Players on the patrol ship have been driving live video broadcasts. Through their perspective, Lu Yang can clearly see the 300 warships of Slade.

The puppet patrol ship chased to the open sea, watching the Dutch battleships converge with 5,000 troop carriers, and then returned to Huaxia.

At the time of the reunion, Bass Reid protested and shouted at the patrol ship.

Lu Yang has come to the sea at this time, he did not take the Black Devil, but stood on a class 3 warship.

Chen Mo stood beside Lu Yang and said, "Boss, the brothers' tasks have been arranged, and I will wait for your order."

Lu Luyang said, "Let the brothers wait quietly, I will wait for the one million people to disembark and start the party before launching an attack."

"The Dutch are not so stupid, there must be precautions," White Lion said.

Lu Yang smiled and said, "I know they have a way, but they don't know how hard I am."

## Chapter 959 - First Battle at Sea

The first battle at sea, Tianquan Fortress Port, 3 million Dutch players stood densely on the shore, cheering and watching the arrival of 1 million reinforcements.

"All of us in the Netherlands are here."

"Huaxia is nothing."

“Did Huaxia.”

“Loot every main city and get rich.”

“Cheers for Captain Slade, this is what he brought to us.”

“Captain Slade is good.”

Uh ...

Slade stood at the bow and watched the 4 million players cheering for him collectively. His face was full of pride, and he reached out and gestured to the players below, shouting with a loud speaker: “Today, we are Let’s cheer and celebrate this moment when the Dutch hegemony rises again. “

The joyful singing and sky-high fireworks made the Dutch players extremely happy. Two beautiful girls took the initiative to walk in front of Slade, opened up the prohibition of strangers to touch and meet, and took the initiative to snuggle into Slade’s arms.

“Haha, beauties, you guys really have a vision.” Slade laughed proudly.

“Handsome guy, can we talk to another place,” said a Dutch beauty.

“No problem.” Slade said to the vice president around him: “Don’t forget to give benefits to the brothers in charge of the vigilance. They can’t participate tonight, I owe them.”

Vice President Wu posed a saluting gesture and said, “The great Captain Slade, you are always so wise.”

“Haha.”

Uh ...

The entire Tianquan fortress has become a sea of joy for the Dutch, but the vigilance of the Dutch has not disappeared. Slade arranged for 3,000 players to stay on board.

The puppet ships all docked in the port. The 300 warships and 5,000 troop carriers were divided into two parts. The warships were on the west side and the troop carriers were on the east side. The entire port had no inner bay and was built on the seashore.

When the players of the last generation attacked Huaxia, they stayed at the Tianquan fortress, because even if they were attacked here, they could not be blocked in the port, and the ships could enter the sea quickly to fight the enemy at any time.

Since this time, Slade was still selected here, and he was also conscious of this. The vice chairman came to the port to inspect it in person.

“Are there any traces of Lu Yang’s warship?” The vice chairman asked.

A chief of the regiment in charge of the duty shrugged his shoulders and said, “I didn’t see it, but tonight the wind is heading up. Ships can only use the spinnaker to go out from the east side to the sea.”

“Don’t worry too much, you know how long it takes to build a Tier 4 warship. We have only been here for 4 days. The Brotherhood of Iron Blood should not build too many warships,” said the vice chairman.

“I think so, the Brotherhood of the Iron Blood, cut ~! It is a waste alliance.” Said the head of the Dutch army.

Vice Chairman Wu laughed and said, “I’m going back. It’s hard for you here. Right, don’t forget to probe underwater. Enemies may sneak into our warships from underwater.”

“Rest assured, the tracking hunter has been standing on the bow of the ship to start the exploration function, there will be no dead ends,” said the head of the Dutch army.

Vice-President Xi then left with satisfaction. The head of the Dutch regiment continued to lean on the flagship command tower to look outside, and the rest of the crew also continued to patrol the sea.

The patrol continued until 12 pm. The Dutch players were still carnival and the patrolling players were not slack. When all the Dutch players were still very energetic and very energetic, Lu Yang was carrying 100 on the sea from Tianquan Fortress. There were battleships and 10,000 Tier 2 personnel carriers there.

Xia Yuwei asked: "Boss, are you sure you want to do this?"

"This is crazy, boss, let's not reach this point." Zhou Tianming asked.

"Boss, you are thinking."

Uh ...

On the flagship, more than 30 vice-chairmen and the heads of special legions such as Hei Yan were persuading Lu Yang. Just when the fleet was traveling, they learned about Lu Yang's plan. After listening, everyone felt that it was too It's crazy.

Lu Yang said, "Everyone is not allowed to persuade me anymore. Remember, what the Dutch lost me today, in the future I will take back from them a hundred times, and sail the boat. I will have a decisive battle with the Dutch during the night. "

People like Xia Yuwei and Zhuojiu saw that they could no longer persuade Lu Yang and sighed.

"I asked to direct a Level 3 warship myself," Xia Yuwei said.

"me too."

"me too."

Uh ...

More than 30 deputy chairmen collectively requested to lead a class 3 warship to participate in the battle.

Lu Yang said: "Yes, remember, this time we are more fierce than anyone else, give me a life-threatening fight."

"Yes." More than 30 people answered together.

Lu Luyang said to Chen Mo: "You, me, Big Shark, the three of us each led 3,300 Tier 2 warships to prepare at the back, and the offense began. All the vessels launched an offensive for me. No one was allowed to stay.

"Yes," Chen Mo said.

Lu Luyang evacuated from a Tier 3 warship and went to a Tier 2 boat. After everyone was ready, he said, "Let's go forward and target the Tianquan Fortress port."

100 class 3 warships and 10,000 class 2 troop carriers lifted the sails and sailed downwind towards the Tianquan Fortress. The distance of 50 kilometers was not far. In the state of downwind, they came outside the port in half an hour.

At this moment in the game, the sky was twilight. The Dutch players were still cheering and celebrating, while the hot spring city was dead. Only the white angels can be seen. The players on the city can only stare angry at the Tianquan Fortress in the distance. , Thinking afraid to leave the city.

The harbor, the Dutch player in charge of the lookout found the warship of the Brotherhood of Iron Blood from 10,000 meters away.

"An enemy attack, an enemy attack, an enemy sneak attack, everyone pays attention, the Chinese team's sneak attack came." The Dutch player shouted.

Slei, who was joking with the beauties in the room, stood up instantly, with a smug sneer on her face, and said, "I know that Lu Yang can't help it, but the chairman of this iron brotherhood is just that."

Vice President Wu just broke in and said, "Have you heard? Go to the port."

Mr. Redhead nodded, turned around and jumped out of the window. The outside was the port. He and the vice president jumped directly onto the flagship and asked, "What's the situation?"

"The enemy's fleet is approaching quickly," said the watcher.

Slade took out his telescope and looked at the fleet of Lu Yang. He found that there were only 100 Tier 3 warships, and many Tier 2 patrol ships and troop carriers. He laughed on his face and said, "This is not the case. Do we have all the warships in Lu Yang?"

Vice-President Wu also stunned and said, "Lu Yang actually hit us with these 100 Class 3 ships. What did he think?"

"Presumably we thought we were all having a celebration party, and our defenses were lax. Come on, haha." Slade laughed loudly and shouted with a loudspeaker: "President Lu Yang, you are welcome to join us in the Netherlands. Party."

Lu Luyang said using a loudspeaker, "Slade, I'm here in person."

"Stupid, don't you think I'll guard against your sneak attack? My ship is full of people and ready to go to war." Slade laughed.

Lu Luyang said: "I like to face off with others. You can be ready. I am very happy. I hope you will be happy in a while."

Bian Shilei only regarded Lu Yang's words as dead ducks. He was about to speak, and his men sent messages to ask.

“President Slade, how can we fight?”

Slade said: “The 100 warships still use the fortress guns with the least damage. There are only 100 large ships. There is no need to evade. I ordered that all the sides of the warships should be aimed at the Iron Brotherhood. I want him to see How vulnerable his warship is. “

“Yes.”

“Yes.”

“Yes.”

Uh ...

300 black pearls stowed the anchors and rotated half a circle with the help of wind. The entire flank was aimed at the warship of the Iron Brotherhood.

“Fire”

Shrew yelled.

“Boom ~!”

Uh ...

300 black pearls also had a strong red light on the side, and the Scarlet Cannon flew towards the Brotherhood of the Iron Blood.

Two warships were hit \*\*\*\* the spot, but this did not stop the momentum of the Brotherhood of Iron Blood, and the ship continued to approach the Black Pearl.

Mr. Reed knew that the fortress guns on Luyang's 100 warships had a range of only 500 meters. He ordered: "Continue firing. I'd like to see how many ships can be left at 500 meters."

1000 meters

900m

800m

Uh ...

500m

Ten iron brothers' ships were sunk with 10 ships left, and 90 were left. Slade laughed wildly and said, "Ready, the enemy is going to fire at us. Tell me, you are not afraid."

荷兰 All Dutch players on 300 warships laughed at the same time.

"How could we be afraid of Chinese people."

"Their battleship is vulnerable."

"What are they at sea battle?"

Uh ...

The mocking voice, the sarcastic voice, and the disdainful voice spread across 300 warships. Slade heard laughter from his reply, and at this time, nearly 4 million Dutch players on the shore arrived. Watching

the battle by the port, this time alone, the Dutch fleet destroyed 10 Jagged Brothers warships, which made them cheer with excitement.

Hearing heard the cheers behind him, he also took the opportunity to turn back and greet the players on the shore.

The vice chairman kept staring at the Brotherhood of the Iron Blood Brothers. Suddenly, he frowned and pulled Rasred's clothes, and said, "Chairman, something is wrong, the Brother Iron Brothers ship has not reached a distance of 500 meters. stop."

"Don't stop?" Slade turned to look at the sea. For a while, the ships of the Brotherhood of the Iron Blood had reached a distance of 200 meters from their ships by the wind, and still did not stop, the sails hung. It was full sails, and under the force of the sea breeze, the whole sails bulged.

"What do they mean, do they want melee combat?" Slade asked.

At this time, among the remaining 87 warships that rushed over, the first one that had been blown up was standing on the ship about to be silent. The white lion suddenly raised his two-handed sword and shouted, "Iron blood brothers ~ ! "

"Kill ~!"

87 warships, 10,000 personnel carriers, all the players on the ship shouted madly at the same time. At this moment, the neat roar shocked the 4 million Dutch players on the shore. They had never seen such a desperate Roar.

In this roar, Slade watched the white lion's warship getting closer and closer, at this time he understood that the white lion was not going to hit you with a battleship at all, but to hit directly Here comes the boat.

## Chapter 960 - Shelling Tianquan Fortress

“Quickly sink the warship against people.”

“Sink him.”

Shred yelled, but it was too late at this time. After a wave of volleys, Shred stared at the white lion’s smirking expression clearly.

“噠”

The White Lion’s warship crashed heavily into Slade’s flagship, and the collision angle and steel nails at the front of the ship were inserted into Slade’s side.

After a violent shaking, Slade stood firm and shouted, “Ready to fight.”

The Dutch players on the ship immediately put up a defensive formation, but when they looked at the white lion, the white lion had a stronger smile on his face, raised a fire thunder barrel in his hand, and said with a smirk: “Dutch, \*\*\*\* go . “

“Fire thunder ~! Stop him.” Shred shouted.

But it was too late at this time, and the fuze on the fire thunder barrel burned into the barrel in an instant.

“boom”

Fire thunder barrels exploded instantly, and even a whole ship of fire thunder barrels exploded. Each fire thunder barrel could cause 200,000 injuries and range 50 meters.

Lu Yang brought 11,000 ships this time, and each ship carried an average of 20 fire buckets.

When the White Lion detonated, all players on the ship, including the White Lion, were all killed, but at the same time, Slade's flagship bombed 4 million points of blood.

Slade's ship was higher than the White Lion. He was not harmed on the podium, but at this time he understood how the Brotherhood of Iron and Blood was played, and he was frightened. Lu Yang actually used 1 million Tier 3 warships are used for self-explosive ships.

“boom”

“boom”

“boom”

...

A series of explosions rang, and 87 class 3 warships led by the vice presidents of White Lion, Xia Yuwei, Muddy Wine, Old Man, Tianyao and other vice presidents. Blasting, originally an unobstructed port, was blocked by sinking black pearls.

The game is 99% restored to the real world. After the ship is blown up, it will not disappear, it will only sink to the bottom of the sea, but this is a port. It is an offshore shallow water port. The sunken ships completely block the sides of the Dutch fleet. The ship was forced into a narrow range of less than 3 kilometers in diameter.

“Chairman, think of a way, we're stuck,” the vice-chairman shouted.

Shred suddenly realized, shouting: “All warships turned their bows and left the port.”

“I just want to leave now, isn't it too late?” Lu Yang shouted using a big horn standing on a Class 2 boat in the distance.

Just behind him, more than 6,000 Tier 2 personnel carriers were rushing towards the Dutch fleet at full speed.

“Crazy, you lunatic.” Shred yelled.

Who would have thought that the Brotherhood of Iron Blood or Lu Yang was so crazy that all the warships were self-exploding ships. On the entire sea, the spectacular scene of tens of thousands of self-explosive ships crashing wildly, Slade never dared I thought that such a thing would happen, but now he really appeared in front of him.

“boom”

“boom”

“boom”

...

Slade ordered the attack, but the shortcomings of the large warship were here. He was difficult to hit the small and flexible Tier 2 ship. The 6,000 self-exploding ships came to the Dutch fleet in an instant, and a sound of explosions sounded at 400. Under the witness of 10,000 Dutch players, all 300 Tier 4 warships were blown up in the port.

Another 5,000 personnel carriers were bombed on the port by another 3,000 self-explosive ships led by the Great Shark. The entire port was sunk, and it was almost impossible for the ships to enter.

When the smoke cleared, the Dutch players on the shore found in horror that their warships were gone and the troop carriers were gone, but Lu Yang had 100 self-explosive ships left.

Lu Yang approached 500 meters from the port, with a smirk on his face. Slade had just resurrected, ran out of the crowd, and was standing at the forefront of the port.

“Crazy, Lu Yang, you lunatic, you are really a lunatic.” Shreid hysterically shouted that he had gone mad, 300 Tier 4 warships, spent 450 million credits, and 45 million euros. Although it is not a huge number for him, it takes a long time to build another 300 ships.

Lu Yang snorted coldly, watching Slade arch his hand and said, “There is a famous saying in Hua Xia, it is not rude to come and go, Slade, it’s my turn now.”

“What are you doing?” Slade scolded.

Lu Yang didn’t speak, he turned and took the fleet away, leaving only Slade and 4 million Dutch players staring ashore.

“The boat is gone, how can we go back.”

“What can we do? The Brotherhood of Iron Man is a group of lunatics, and we have actually provoked them.”

“Who can tell me, what can we do without the boat?”

...

Four million people are lost.

On the other hand, the Brotherhood of Iron Blood has a high spirit of fighting.

Xia Yuwei and the White Lion were resurrected in Binghuo City, and all the members came to the Abyss Fortress, just to see Lu Yang had flew back.

“Boss, it’s so cool,” shouted bitterly for half a life.

Lu Yang smiled and said, "You are so cool, my boss is bleeding. I have never been so bad in my life."

The old man asked, "How much did it cost?"

Lu Yang shook his head. He didn't tell the specific amount of money. The meaning of Jiu's words was clear. He wanted to share some of Lu Yang's share, but he wouldn't let him do it, let alone the other vice presidents.

"This matter has been revealed, let's discuss the next play." Lu Yang said.

He wants to say, but he is stopped by Lu Yang, saying, "Tell you the good news, the national war kills have points, this point can be converted into experience points, 1 point, 1000 experience."

"Not much," Lan Yu said.

Lu Yang said: "It's not much, but it can't hold up a lot of people. Look at the Tianquan Fortress. Isn't there 4 million people?"

"The four million people didn't fly back to the city." Xia Yuwei asked.

Lu Yang said with a sneer: "Can they make it? Unless they are killed in battle, they need to transfer a lot of gold coins directly. If they haven't made much money yet, who is willing to leave?"

Tu Feng said: "Furthermore, the French fleet will arrive the day after tomorrow, and they only need to persist for one day."

"Four million people persist for one day, and they can really do it." Zhou Tianming frowned.

Lu Yang shook his head and said, "They can't do it, follow me. I still have 500 Class 2 ships. At first they hit the hot spring island with a cannon. Now it's time for us to lay down his Tianquan fort."

The eyes of Xia Yuwei and Zhuojiu were all on.

“That’s a good idea, blast them to death.” Sun Yu said.

Lu Yang said with a smile: “Unload 1,000 abyss cannons from the defensive fortress and install them on the ship.”

The troop carrier had a bow and a stern that could be equipped with artillery. Lu Yang and Chen Mo took the 10,000 players who had just joined the battle to replace the guns, and took the ship back to the Tianquan Fortress.

At this time, the 4 million players in the fortress all turned their eyes on Slade’s face, and Slade was in contact with all the guild leaders of the Skyeeye Alliance.

“I need support. My ship was blown up by Lu Yang.” Slade told the guilds of the remaining countries in a special space.

The national war begins, and special spaces can be used worldwide.

“How is it possible that you are using black pearls? Lu Yang has only 3 level warships and only 100 ships. How can you lose all warships and warships?” Edward, president of the British Guild, asked.

“Lu Yang is a lunatic, a complete lunatic. He was so willing to let the 100 warships be filled with fire buckets. There were 100 tier 3 warships and 10,000 tier 2 warships. All the warships were blown up.” Slade said indignantly.

Liu Jie sneered without answering.

“What are you laughing at, I’m all here to help you.” Slade scolded.

“It’s not enough to lose more than defeat. What did you do for me? You helped me dissolve the guild,” Liu Jie cursed.

Slade was speechless for a while, scolding: "I lost all the ships, you are responsible."

"Then you are responsible for my guild. My ten million guild because you made me a traitor, now there are only 50,000 left. Well, if you are willing to pay for my loss, I will compensate you" Liu Jie asked.

Slade was speechless.

No. 1 said: "Don't argue, we are an alliance, all glory and glory, all losses. Now both Slade and Liu Jie are in trouble. I hope you five will send your fleet to rescue."

"The day after tomorrow, my fleet can set off." Angel Sword said.

No. 1 looked at Slade and asked, "Two days, can you hold on?"

Slade thought for a while and said, "It should be possible. Originally, I planned to keep these 4 million people on the island for 2 days. You will attack the inland when you come."

"Okay, that's it. The rest of the presidents should also end the war as soon as possible. We can't give Huaxia too much buffer time. The longer it is, the worse it is for us," said No. 1.

"Ok."

"I try my best."

...

Seven people withdrew from each other. Slade breathed a sigh of relief, looked at the 4 million pairs of eyes in the fortress, and said loudly, "Don't worry about this accident, 2 days, 2 days later, France Angel's Sword will lead 300 level 5 warships and 3 million players to help us. In the past few days, everyone is going to find players from Hot Springs to kill them, and they will be on vacation. "

Four million people are relieved. French players have joined them, making them feel a lot more relaxed, but at this time, someone shouted loudly: "Look, there are ships on the sea, all are level 2 boats."

Slade looked at the sea, he recognized the ships as Lu Yang, and frowned, "What is he trying to do?"

The vice chairman shook his head. Since Lu Yang played and exploded their fleet, they could not guess Lu Yang's behavior.

On the sea.

Lu Yang stood on top of a Class 2 boat, using a large horn, and said, "President Slade, I've got gifts, 1,000 abyss cannons. Please keep them."

500 Tier 2 boats have pointed their sideboards to the fort, and each ship has 2 guns, all aimed at the players in the fort.

"Fire." Lu Yang shouted.

"boom"

"boom"

"boom"

...

The fire lighted up, and 1,000 cannonballs crossed a beautiful parabola in the air and fell into the fortress with a whistling sound.
