

Wild Fire 961

Chapter 961 - Big harvest

The abyss giant cannon damages 50,000, and the ground damage range is 30 meters. When 1,000 shells fall in at the same time, like 10 small secondary forbidden spells, killing tens of thousands of Dutch players.

Slade stared blankly at the 500 troop carriers in the open sea, muttering to himself: "How is that possible, how can Lu Yang have warships?"

"Chairman, run away. This fortress can't stay. If you stay here, we're all done." The vice-chairman shouted.

Slade realized that he knew that if he stayed here, the 4 million people would be slaughtered by Lu Yang's artillery.

"Run, all run out of the fortress and go outside," Shred shouted.

There is no need for Shred to shout, 4 million Dutch players are already in a panic and are running frantically towards the fortress.

The Tianquan Fortress is surrounded by the sea on three sides, and only one side is connected to the land through a bridge. The name of the bridge is Tianquan Stone Bridge, which is 1,000 meters long and 70 meters wide.

Lu Yang watched a large number of players running out of the fortress rushing to the bridge and sneered on his face, saying, "All warships aim at and under the bridge. No one is allowed to be released."

“Yes.” Chen Mo issued an order, and 500 class 2 boats aimed the muzzle on and under the Tianquan Stone Bridge at the same time.

“fire.”

1,000 abyss cannons fired at the same time, at least 500 were attacking the bridge, and the dense artillery hit the denser crowd. In a moment, all the players who rushed to the bridge were killed, and they thought they were smart and jumped off the bridge. All who wanted to escape were killed, and no one could escape.

The players who ran out of the fortress were dumbfounded to see this scene. The people who ran out stopped in place, and no one dared to take a step on the bridge.

“It’s over, we can’t run away.” A Dutch player said in horror.

Slade panicked. If the player is killed in the Tianquan Fortress, the resurrection point can only be inside the fortress, but he can be resurrected in the fortress, and will be attacked by Lu Yang.

Killing a person can get 1 national war point, and the 4 million Dutch players he brings will become a broiler who provides points to Lu Yang, allowing him to slaughter at will.

1 point can be redeemed for 1000 experience. If the score is small, it will not be seen, but 4 million people will die once per person. How many points will be converted into experience.

“Chairman Lu Yang, I demand an armistice!” Slade yelled.

Lu Yang was standing on a boat, listening to the sound of Slade from the fortress, with a sneer expression on his face, saying, “Slade, you didn’t expect to have today, too. I, on behalf of Huaxia players, revenge. Now. “

Slade said quickly: “President Lu Yang, since you are here, I ask for negotiation.”

Lu Yang shook his head with a smile and said, "Slade, I know your plan very well, don't think about it. Since I wasted so much effort to trap you 4 million people, how can I let you do this? Easy to go back, obediently provide me with the national war points. "

Shred yelled, "You can't do this. You don't have any chivalry at all, you will be despised by players all over the world."

Lu Yang laughed and said, "Where are you ghosts? I know the spirit of the knight better than you, just like you. When you win, you ridicule the weakness of the Chinese players, and you dare to make it into the hot spring city. With regard to the slaughter of the city, a main city in the national service for you to slaughter, can I spare you? "

Slade was speechless, a whole main city, so they were robbed and killed millions of players. According to the truth, Lu Yang came to revenge without any errors.

In fact, the so-called chivalry in the West has long been lost. It was lost as early as World War I. Now Europeans themselves do n't talk about chivalry.

Besides, what is chivalry? At present, Crete, Greece, which is recognized as the birthplace of European civilization in Europe, is still popular with an ancient rule. If someone kills your family, you can kill a person in their family. As revenge without paying the legal price.

The local police don't care, they think this is reasonable!

At this time, what kind of chivalry did Slade talk about? Was Lu Yang young and ignorant? Not only was Lu Yang at this time, none of the players in the Jagged Brothers Alliance agreed to talk to each other about the conditions, and all of them were vengeful.

Lu Yang said, "Give me a boom, leave no one behind."

"Fire," Chen Mo shouted.

Pieces of shells fell into the fortress, killing countless Dutch players, and watching more than 10,000 Iron Brothers players on the ship stunned.

“It’s so cool, it’s over.”

“Let the Dutch pretend to play with us. Players across the country are now a waste.”

“Haha, the whole country came to attack, but all were killed here, laughing.”

...

Xia Yuwei, the White Lion, and others stood beside Lu Yang, looking at the battlefield in the distance. Xia Yuwei said: “This time the Dutch are planted.”

Lu Yang said with a smile: “I want to give a deep impression to players from all countries in the world. If you dare to come to China for trouble, you must pay a heavy price.”

Everyone nodded.

From 2 am to 4 pm in the middle of the night, 1,000 abyss cannons continued to attack players inside the fort.

Each of the 4 million players in the fortress died at least 5 times. In the case of Slade’s repeated requests for invalidity, he could only use the method of forced transnational return to the city and died back to the Netherlands.

“Lu Yang, I won’t let you go. For a week, at most, I will come back with the handsome Dutch fleet, and you wait for me.” Slade Hysterically roared.

Lu Yang sneered, and replied, “You are dead again, let’s go.”

Slade bucked to the extreme, but was helpless, and after being killed again, he flew back to the Netherlands in a state of death.

More than 4 million Dutch players also flew away, and soon there was no sound in the fortress.

“Boss, I took someone to see, I should all go back.” Said bitter love for a long time.

Lu Yang nodded and said, “Be careful.”

The half-life of bitter love came to the port quickly with a ship and 20 players, ran into the fortress, and just entered the gate of the fortress. The half-life of the bitter eyes glowed golden, not that his eyes would glow, but the full fortress Equipment, will dazzle his eyes.

4 million people, each of whom was killed at least 5 times, bursting out of a level 90 dark gold equipment and excellent gold equipment.

Hard to resist the excitement for a long time, he said, “Don’t pick up equipment, look around, there are no hidden enemies.”

“Yes.” Twenty players checked around the fortress and returned to the bitter love half-life after finding nothing.

“No one was found.”

“Not here.”

“I don’t have this either.”

...

After watching everyone report for a long time, I took a breath and shouted, “Boss, the enemies in the fortress are gone. Come on, the ground is full of level 90 dark gold and excellent gold-level equipment. .
“

Both Zhuojiu and Xia Yuwei’s complexions changed, and then they remembered that not only did they kill the country to earn national war points, but also burst out a lot of equipment. Slade brought the national elite of the Netherlands, all above 90 Dark gold and superior gold-grade gear.

“It’s time to get rich.”

“Our equipment is out.”

“Haha, thank you Slade, it’s a real mess in the snow.”

...

More than 30 vice presidents laughed.

Lu Yang also laughed and said, “Go, enter the fortress, let’s pick up our equipment.”

“Yes.” 500 ships quickly sailed to the shore, and more than 10,000 players all rushed out of the ship and entered the fortress to see the ground full of equipment and cheered loudly.

“Boss, 16 guardian hearts, guardian totems, guardian goddess, and vulcan goddess, I have found them.” I ran to Lu Yang like half a life and offered treasure.

Lu Yang was looking for this, looking at 16 level 4 gods and saying, “This battle is not a vain fight. With them, all the money you spent before will be earned back.”

The old man and the white lion nodded.

“Han Fei went to change the fortress token, Tu Feng sent your logistics troops to collect equipment, all of which were hung in the guild warehouse. Players participating in this battle can get 2 sets for free, and the rest use guild points to exchange.” Lu Yang said .

“Boss is wise.” More than 10,000 players excitedly picked up the equipment they could use.

“Huh, I finally won.” Lu Yang said with emotion.

Xia Yuwei, Zhuojiu and others surrounded Lu Yang. Xia Yuwei asked in surprise: “Boss, how do I feel like you’re relieved.”

Lu Yang smiled and said, “Of course it’s a relief. Fortunately, we won this battle. If Slade stopped the ship at sea, we would be useless, but he looked down on us so much. I was attacked successfully, otherwise, I would become a joke around the world. “

“Boss, you have worked hard,” said Zhujiu.

Lu Yang patted his shoulder with a smile, and said, “I’m off the line to rest, and then call me if something happens, I haven’t slept for several nights.”

A few people should * throw at an enemy that moves at a fast speed Also let the enemy not hide, Lu Yang patience and thinking several times, this is the situation today, otherwise, how can It’s so easy.

Zhuo Jiu, the White Lion, and others knew how much effort Lu Yang had devoted to this war, and said, “Go and rest, and leave it to us.”

Lu Yang nodded, quit the game, and fell asleep comfortably in bed. From now on, until the next morning, he does not need to worry about being attacked at home, and can sleep peacefully.

Early the next morning.

Players of the national uniforms have logged on to the game to start a new day's rush, and are suddenly stunned by two explosive news.

"God of War Lu Yang, Tianquan Fortress eliminated 300 Dutch warships and 5000 troop carriers in World War I"

"Lu Yang shelled the Tianquan Fortress for 2 hours, killed 30 million Dutch players, and the Dutch ran away."

"What happened? The Dutch were beaten away by Lu Yang?"

"I haven't heard. They were at sea yesterday."

"Impossible, where did Lu Yang come from?"

...

Everyone saw these two messages. Before that, the Dutch drew Huaxia, and the warships patrolled along the coast of the national service. Lu Yang did not dare to fight the Dutch with the Dutch. There is no one in China, and the Jagged Brothers Alliance has its own name.

But it was only one night, how could the Dutch's warships be shattered, and all 4 million players were killed back to the Netherlands.

But when they searched carefully, they found out that the news was true, and the players in Hot Springs were celebrating on the World Channel.

When they saw the news early in the morning, they dared to go to Tianquan Fortress to investigate, and found that as the forum said, all the Dutch were gone.

Some players rushed to the coast to look for Dutch ships, but saw the sunken ships all over the sea.

“Iron brothers win your fight.”

“Awesome, it preserves the dignity of our Chinese players.”

“Unified national service.”

...

Cheers are everywhere on the World Channel.

At this time, Lu Yang has replaced the tokens of the four fortresses around Hot Spring City. At this point, he has completely unified the national service, becoming the first player in Huaxia to unify all 48 fortresses.

Guild Channel.

Many players opened the guild warehouse and saw the newly emerged level 90 equipment. Nearly ten million players were crazy.

“A level 90 dark gold suit, with a full set of weapons?”

“There’s a great set here, and it’s a complete set.”

“Haha, there is no need to make a copy of this level 90 equipment.”

...

Lu Yang looked at the statement of the Guild Channel and used the authority of the chairman, saying: “Everyone can redeem points for equipment. If the points are not enough, the logistics department has a task.”

The so-called tasks are the tasks of upgrading the size and equipment such as large size upgrade with trumpet size and wasteland copy.

The chiefs of the army such as Zhuojiu and the White Lion ordered some details to the players under their hands and later came to Lu Yang’s side.

Suffering for half a lifetime, he asked excitedly, “Boss, I now have 30 million points. What do I use to do it?”

Lu Yang said with a smile: “Take out 10 million for 100 gold equipment, and the remaining 20 million for experience balls.”

This is a new function after the opening of the National War. Players open the system interface to find the National War Points redemption item, and directly convert the points into a billiard-sized experience ball.

This thing of the last life is the main channel for making money in many studios. This experience ball can be traded.

“I’m level 100. Why do you change this and continue to upgrade?” Asked bitterly for a long time.

Lu Yang shook his head and said, “Give them food, and raise the level of these 13 thousand people to 100 as soon as possible.”

“Oh.” They left each of the turbid wines.

Lu Yang also left. He came to the shipyard, found Chen Mo, and asked, “How is the battleship built?”

“The day after tomorrow, the Black Devil could build 300 ships.” Chen Mo said.

Lu Yang said: “Be prepared, the French will arrive the next day, and we will have a decisive battle with them.”

“French?” Chen Mo’s face was solemn.

Lu Yang nodded and said: “The French warships are black devil like us. They also use abyss artillery. We have no advantage over them. We may even be inferior to them in terms of player strength.”

“Is there any good way?” Chen Mo asked.

Lu Yang said: “There are ways, but they may not be successful, depending on whether the French are fooled.”

Chen Mo asked, “Boss, how do you want to lie to the French?”

Lu Yang said: “This is not a deception, but the use of the enemy’s arrogant psychology. I estimate that the current Tianyan Alliance still look down on us.”

This time Lu Yang won the Dutch, relying on the intention of Slade, not that Lu Yang’s warships are stronger than Slade. On the contrary, after the naval battle, Lu Yang revealed only the number of warships. There are 500 Class 2 boats, and none of the Class 3 warships. Lu Yang does not believe that the French do not want to take advantage of this opportunity to attack one time.

Inside the special space of Skyeeye Alliance.

The Angel Sword looked at the scowling Slade and said, "I'll take revenge for you and help you defeat Lu Yang."

Liu Jie hesitated and asked, "Since Slade has already retired, why don't you just wait, everyone is gathered before going to Luyang?"

The angel sword glanced arrogantly at Liu Jie and said, "Slade lost the big shot, but Lu Yang's warship is gone. Through Slade we also saw Lu Yang's strength. Embark on the boat to let the Iron Brothers Alliance and all players on the Huaxia server know the strength of our Skyeeye Alliance. "

"Angel, I don't think it's better to be in a hurry." Ono said.

Edward also frowned and said, "I don't think it's better to hurry, after all, you have fewer players than Lu Yang."

Angel Sword's face showed an unpleasant look. As a guild leader who unified the entire French server, Angel Sword never thought that Lu Yang was qualified to fight him, even if he was the other guild leader in the Skyeeye Alliance, Angel Sword also They thought they were worse than themselves, and now three people persuaded him that his heart was already angry.

"That's it for this meeting." Angel Sword exited the special space.

Ono, Edward, and others looked at each other and also withdrew from the special space. In the end, only No. 1 and Liu Jie remained.

The expression of No. 1 is a little awkward. Before this, these people in the Angel League have been scattered. They have never acted together. They agreed to participate in this alliance. They just wanted to have an ally, not who they really depended on. After all, they were originally people with money and status in various countries.

"It looks like they don't respect you, and they don't respect the alliance."

No. 1 shrugged his shoulders and said, "Your people are all new members, and you do n't know the actual energy of the Skyeeye Alliance. If you ask the people who brought you in, you know the status of the Skyeeye Alliance in the world How important. "

Liu Jie smiled and said, "No matter how strong the Sky-Eye Alliance is in the world, in the game, you can only rely on our guild presidents, right?"

No. 1 stunned and asked, "What do you want to say?"

Liu Jie said: "Integration, I want to unify them under the leadership of one person. When faced with a problem, one person can issue the order, and the rest do their best to cooperate."

Number one said: "Do you want to be this big boss?"

Liu Jie nodded and said, "I hope you support me."

No. 1 thought for a while and said, "Let me think about it. In addition, you also need to strengthen your strength. If you have only 50,000 people, I will not support you."

Liu Jie smiled and said, "If you need, I can mobilize five or six million people to fight for you at any time."

Number One was stunned and asked, "Where are you from so many people?"

Liu Jie snorted and said, "Do you think I only have the strength you see in your eyes? Look at this world, he doesn't just have us."

Liu Jie pointedly pointed at Mexico, the United States and Africa.

No. 1 opened his eyes wide and said, "You have people in these places?"

Liu Jie said, "We, the Liu family, are investing all over the world. Although this economic crisis has affected us a lot, some fixed investments have begun to produce returns. Now I show you my full strength and decide The power is with you. "

No. 1 thought for a while and said, "Well, since you have this strength, I believe the Alliance will be willing to let you manage all the guilds, but if you think about it, how do you persuade others?"

Liu Jie smiled and said, "Slade will definitely agree with my election. The second one is the Angel's Sword. Ono 's Guild will have 30% of my shares. The rest, I will find a way."

"Angel's sword may not listen to you. I suspect he didn't listen to me. It is very likely that he will take the battleship to fight Lu Yang tomorrow." No. 1 said.

Liu Jie smiled and said, "Do you know what a pig teammate is?"

"Pig teammates?" No. 1 asked.

Liu Jie nodded and said: "It's like Slade and Angel Sword. They think they are invincible. They have to be beaten to know their weight. Look, Angel Sword will be defeated. This time, War, our Angel League will be defeated by Lu Yang. "

No. 1 said suspiciously: "Does Lu Yang have this strength?"

"Haha, even you have this idea, you can imagine what it would be like to have 300 black demon warships and angel swords of 3 million players in your hand." Liu Jie said.

"I still don't believe it," Number One said.

Liu Jie shrugged his shoulders and said, "Let's wait and see. I happen to be free recently. Let's see if the Angel Sword can win."

No. 1 indifferently smiled and exited the special space.

Liu Jie also withdrew from the special space and said to the dead grass around him: "I did what you said. It looks like No. 1 really is what you said, and I want to end the current situation."

The dead man smiled proudly and said, "Who would be willing to run an alliance who would not listen to him."

Liu Jie asked, "What shall we do next?"

The dead grass took a drawing from the backpack and said: "This is the drawing of the Jihad, which I got from the Italian maritime market, level 2 warship."

Plans: Jihad

Level: 2

Qi and blood: 5000000/5000000

skill:

Speed: Instantly increases movement speed by 50%.

Self-destruction: End up with the enemy, causing 5 million damage.

Liu Jie smiled, pointing to the dead grass and said, "It is indeed my brain."

The dead man said with a smile: "Let Lu Yang continue to spend money to play with his enemies. Since we are determined to unify the Tianyan Alliance, we will not care about the gains and losses in front of us."

Liu Jie nodded and said, "Yes, Tianyan Alliance has already received follow-up information about the expansion. New continent will appear, and that is where Lu Yang and I are really decisive."

The dead grass laughed, and Liu Jie could rest assured that he could think so, saying, "I asked Huang Xiang to give this to Lu Yang, and I believe he will be willing to accept this credit."

Liu Jie said: "Be optimistic about this person and be careful about his mutiny."

The dead grass said: "Relax, he has betrayed Lu Yang so many times and can only follow us faithfully."

Liu Jie laughed. Now the first person he trusts is dead grass, and the second is Huang Xiang, which is funny, but the actual situation.

Chapter 963 - Jihad

Huang Xiang has been in a state of sluggishness recently. Every day is like a dead body of a companion. He never thought that Liu Dang's consortium, such a huge family, and excellent head, would be defeated by Lu Yang.

Lu Yang turned out to be so powerful and unified the entire race, whether it was Tianyao or Liu Jie, he became his background board.

He scolded himself more than once. If he had known that Lu Yang had such potential, why would he betray Lu Yang at the beginning? But he remembered countless times in his mind that he found that if he let him come back again, he would still betray Lu Yang. That is a kind of thought that can't be looked down on from the bones, and it will never go away.

When Liu Jie found him, despite Liu Jie's failure, he still smiled like a spring breeze. Huang Xiang felt that this was the master. This is the person who has the power to control China. He should not be Lu Yang at all.

"Jie Shao, rest assured, I will do everything I can to help you regain everything you lost, and I will look for Lu Yang." Huang Xiang recalled what he said to Liu Jie, with a certain contentment in his heart, this is the most loyal person .

Liu Jie 's family did not fail, only in the financial crisis, the loss was relatively large. With the connections of the Liu 's consortium, it can still be recovered. As long as Liu Jie recovers his strength in the future, he will be the first hero under the dead grass. Liu Jay will definitely reward him.

"Huang Xiang, what do you want?" Lu Yang patted Huang Xiang's shoulder with a smile, just now Huang Xiang notified him and asked him to wait in the office. There is important information to report.

When Lu Yang entered the hall of the guild, he saw Huang Xiang, and found that he was looking with pride and disgust in his heart.

Huang Xiang hesitated, and found that he had already reached the Guild Hall, and had run into Lu Yang. What he had just thought made him feel guilty, took a breath, and pretended to say easily, "You scared me to death."

Lu Yang laughed and said, "What's the matter, you have contributed to the annihilation of Liu Jie this time. Brothers will never forget you."

"Thank you, thank you, this is all I should do." Huang Xiang laughed and said, "I used to do only small things. How do you look at this?"

Lu Yang took the drawing and saw the Jihad, his face looked surprised, and said, "Where did you get it?"

Huang Xiang said, "I bought it from the Sea Emperor City."

The national war has begun, and the international routes in the game have also been opened. Players from all countries can go to any country to do business through official ships.

Lu Yang said, "You have helped me a lot this time."

Facing the French fleet of Angel Sword, Lu Yang thought that his chance of winning was less than 40%. This is still the victory rate of Angel Sword after entering Tianquan Fortress, but now with this jihad, Lu Yang feels that his victory rate is great this time. increase.

Huang Xiang was so relieved to see Lu Yang, and his heart was slightly relieved. He was told by dead grass that Lu Yang would be happy when he saw the drawings, but he did n't believe that it was dead grass. Now it is confirmed that his psychology is finally Calm down.

"Brother, can I ask you something?" Huang Xiang asked.

"Say, what reward do you want?" Lu Yang asked.

Huang Xiang grinned and said, "I want to return to the Jagged Brothers Alliance as the chief of the main army. You see, Liu Jie is overthrown. It doesn't make sense to continue watching Liu Jie."

Lu Yang nodded and said, "It's true, but the main team can't give it to you for the time being. First, your level is not enough. Second, you can't do it. You know, the Iron Brotherhood has always been promoted with strength. Although your achievements are enough Yes, but if I ask you to be the head of the main league, it will hurt you. "

"Why." Huang Xiang asked.

Lu Yang laughed. What he is most proud of now is his promotion system. All strength and insufficient strength make you ineligible. The number of players who want to be the head of the army is endless. I do n't know how many people work hard every day to expand their reputation. In order to defeat the opponent in the selection every three months to become the legion leader.

“I just let you be like this, you just wait to accept the challenge every day, nothing can be done.” Lu Yang explained to Huang Xiang in detail.

Huang Xiang had left the Jagged Brotherhood for too long. He didn't know that the guild had become like this, and said in surprise: “Is this not going to happen, it's not good for the guild's unity.”

Lu Yang shook his head with a smile and said, “Look, isn't this very united, the next face is the national war, singled out before the battle, commanded to fight, no strength, no prestige, how to lead the army, lost But something to be laughed at by foreign players. “

Huang Xiang came to understand this, he said, “What am I going to do? I don't want to be a spy anymore. I also want to take tens of thousands of brothers. That's great.”

Lu Yang smiled. He would never let Huang Xiang be the commander of the army. It would only hurt others. He said, “Let's follow me first. If there is a good position, I will transfer you directly. past.”

Huang Xiang blinked his eyes and said, “This is fine.”

His purpose was to stay with Lu Yang. Originally, he wanted to start approaching slowly from the commander of the army. Now he directly arranged to his side, which is the excess of the task entrusted to him by Liu Jie.

Lu Yang smiled, took out his teleportation scepter, and took Huang Xiang to the shipyard in Jinsha City. The caretaker players in the guild saw Lu Yang greeting each other.

Lu Yang replied one by one and took Huang Xiang to the owner of the NPC shipyard and handed over the drawings to him. The ten shipyards also had the ability to make the Jihad.

Chen Mo was checking the number of fire thunders and saw Lu Yang coming, curiously asked, “Boss, why are you here?”

Lu Yang said, “My classmate found me a new ship drawing. Look at this. With this thing, we have a better chance of winning.”

Chen Mo glanced at Huang Xiang and stopped talking about him. Huang Xiang also wanted to have a friendship with Chen Mo, and it turned out to be boring.

Where did he know that Chen Mo's first thing when he entered the guild was being informed by Tu Feng. He was not allowed to add friends to Lu Yang's classmates, let alone have too much communication with them. This is the first rule of the guild.

"Boss, you are addicted to playing self-explosion. This boat is not cheap." Chen Mo said.

A holy war requires 50 gold coins, which is equivalent to 15,000 cash.

Lu Yang said: "The naval battle of this scale is the one who beats more money than anyone else. I believe that these 10 shipyards will be fully engaged and build the Jihad."

As long as he can defeat the sword of angels, Lu Yang doesn't care about spending money. This jihad is the easiest drawing in the entire game, and it is also designed to prevent rich players from unifying the world.

Although this warship is very strong, he also has disadvantages. On the one hand, it is expensive to build a large number. Second, he can only use it in a sneak attack. The frontal attack was exploded when he could not approach. Lu Yang also needs to think A way to achieve this.

When Lu Yang was trying to find a way out, on the other side, Angel Sword did, as Liu Jie expected, did not follow the opinions of other guild leaders, and convened players in France to attack Huaxia.

Liu Jie watched the proud look of Angel Sword in the video and said: "When playing games before, the most annoying thing is this pig teammate. Obviously occupy the absolute initiative on the field, as long as the team fight must win, but this If you want to go by yourself, you think that the enemy is a fool, but you can't beat him, but you lose all the advantages. "

The dead grass said: "It is estimated that after the Angel Sword has sent this wave, the Tianyan Alliance will not dare to fight Lu Yang easily, and your plan can be gradually implemented."

Liu Jie sneered and said, "Lu Yang doesn't want me to kill him personally, let's get ready."

The dead grass nodded, and Liu Jie left.

France.

Port of Poseidon.

The Angel Sword continued to convene players. The guilds whose Lu Yang's allies had been beaten were about to disband. They could no longer pose a threat to him. He decided to go out tomorrow morning.

"Lu Yang of the Jagged Brothers League, listen, my French Angel Sword officially challenges you. Early tomorrow morning, I will personally lead 3 million French masters to attack the Tianquan Fortress, and I will have the courage to fight in the fortress." Angel Sword uses Chinese to challenge Lu Yang towards the camera.

Lu Yang was waiting for the Jihad to be built in the shipyard. A Class 2 ship could build one in 4 hours, and Huang Xiang was by his side.

He is wondering whether Huang Xiang has been rehabilitated or he is still doing things for Liu Jie. If Huang Xiang really changes, in his current position, he will not bother to continue to have general views with Huang Xiang. Give him a certain The lesson is not over, but if he is still doing things for Liu Jie, then this thing is worthwhile.

Tu Feng appeared next to Lu Yang. He saw Huang Xiang hesitated for a moment, and said to Lu Yang: "Boss, there is news from France. Angel sword officially declared war on us. We will send a ship to attack tomorrow morning. They said they would fight against us at Tianquan Fortress. "

Lu Yang raised his eyebrows and watched the video handed over to Tu Feng. After watching it, he said with a smile, "This angel sword speaks Chinese well, and there is almost no foreign accent."

Tu Feng still didn't trust Huang Xiang and didn't speak.

Lu Yang said: "I know, tell the brothers, 5 million people will be selected, and they will go to Tianquan Fortress tomorrow to prepare for a decisive battle with the Angel Sword."

"Okay." Tu Feng left, but he sent a message to Lu Yang as he left, asking: "Why is Huang Xiang here?"

Lu Yang replied: "This product came back from Liu Jie, and he also sent a Jihad drawing. I now suspect that he is a spy sent by Liu Jie, but I didn't think about how to investigate him. I looked at him first. . "

Tu Feng replied: "It can be confirmed that he is the spy sent by Liu Jie. He has done so much for Liu Jie that we are sorry. Now it is not the time for him to do what he wants, even if he wants to betray Liu Jie is no longer possible, and it is even less possible to trust us. "

Lu Yang replied: "It makes sense, I'll stabilize him first."

Chapter 964 - Meet up

Huang Xiang didn't know that Lu Yang and Tu Feng were chatting privately. After seeing Tu Feng coming, he left without saying a word, knowing that Tu Feng still hated him, he said to Lu Yang with anxiety: "Does Tu Feng have any opinions on me? "

Lu Yang smiled and said, "It's all about work. Don't think too much. You look here for me. I'll go out."

"Do I need to accompany you?" Huang Xiang asked.

"No." Lu Yang took out the back to the city and flew directly to the hot spring city. At present, the players in the hot spring city are still scarce. Most people took a boat to Binghuo City, which almost became an empty city.

In the direction of the port, in the most prosperous area, Lu Yang established a new shop in the position of the shop sold by the Dutch. The largest one is the Guild Hall of the Iron Brotherhood.

On the third floor of the hall, the deputy chairmen such as Zhuojiu, White Lion, and Xia Yuwei have gathered there to discuss how to fight the French. When Lu Yang came, they all stood up to signal.

“How about, have you come up with any good play?” Lu Yang asked.

Tianyao said: “The chances of us playing on land are not high. I watched the French recruitment video. As long as players with level 90 and above have dark gold equipment and players above the level, our average player level is still over 80 levels, only 1 More than 10,000 people have reached level 90. This is still the experience ball that has been improved. “

Lu Yang said: “It can’t be beaten on land, but I want you to have a decisive battle with the Dutch on land and rely on the city to fight the enemy.”

“Fighting in the city? You can’t beat it,” Tian Yao said.

“Boss, I do n’t think we can beat it, and I do n’t think we can keep the hot springs. Although the land is cheap now, you bought it, but this time when the French attacked the day after tomorrow, the archangels have already left, and they will definitely Breaking into the main city, these things we built have to be sold by the enemy. “Xia Yuwei said.

A smile appeared on Lu Yang’s face and asked, “Am I so stupid?”

Everyone shook his head.

“No, but I don’t see that you have any hope of victory.” Jiang Ze said.

Lu Yang smiled and asked, “If I make all the houses in the city become *, you say we can still fight.”

“All the houses in the city have become *?” Said more than 30 vice presidents in unison, and they all looked at Lu Yang with stunned eyes.

“Boss, you are crazy.” She asked Sirius.

Lu Yang said, “Yeah, I just want to go crazy. I want to let the more than 3 million people from France be killed in the city.”

“But what’s the use of this?” Bitter Ai asked half a lifetime.

Lu Yang opened the three-dimensional map, pointed to a large cemetery outside the main city of Hot Springs, and said, “If foreign players die in battle, their resurrection point is in this place. I ask you to bring 5 million people after the enemy enters the city. Quickly gather here. “

“Okay, but even if they have died once, we still can’t fight them.” Tian Yao said.

Lu Yang said: “You don’t need to worry about this, I will let you win easily.”

In the cemetery, Lu Yang placed 100,000 torpedo barrels. As long as they dared to resurrect, even though the cemetery is large, so many blaster barrels exploded at the same time. As many people as they resurrected, they would die.

“Okay, let’s prepare.” Tian Yao said.

Lu Yang looked at Xia Yuwei and asked, “Find 10,000 thieves, all of them will be time and space thieves.”

“OK.” Xia Yuwei said.

After integrating the national clothing, it was not difficult to find 10,000 space-time thieves. Xia Yuwei immediately sent someone to look for it.

Lu Yang said: "All of you should prepare for tomorrow's war. I want to let the French know that fighting with me is the biggest mistake."

The crowd nodded and each was ready to go.

Lu Yang took out his teleportation scepter and flew to the abyss fortress of Icefire City. The big shark was responsible for supervising the construction of the Black Devil.

"How many ships?" Lu Yang asked.

"240 ships, can reach 300 ships tomorrow morning." Big Shark said.

Lu Yang said, "How about the crew, how is their handling ability?"

The big shark scratched his head and said, "Our crew quality is still worse, boss, I have an idea."

"Say." Lu Yang said.

"Isn't the Poseidon Army disbanded? Can you recruit the crew in the Poseidon Army, they are all naval warriors, especially good at T-tactics," said Shark.

Lu Yang said, "I also want to recruit them. Do you know their location?"

The shark's eyes brightened and said, "Of course, if you want me, I'll take you to find them. The ocean and the silent moon are taking copies with the rest of the seafarers."

Lu Yang said, "Take me to find them."

"Okay." The big shark pulled the landing sun and ran to a copy of the 80-level map outside Hot Springs.

“I told them to come out,” the big shark said excitedly.

Lu Yang shook his head and said, “Let’s wait here, don’t worry.”

“Boss, your time is precious. You will soon be in the National War. Waiting here is too long. Let me wait.” Said Shark.

He just contacted Ocean Miles and Luoyue silently, but he did not say what happened to Lu Yang. He only said that they would bring people out to discuss the matter of joining the Jagged Brothers Alliance. In my heart.

Lu Yang said: “It doesn’t matter, I’m here to deal with things.”

The big shark had no choice but to sit and wait. At the same time, he quietly sent a message to Ocean Miles and Luoyue and said silently, “Two brothers, tell me when you’re done, I’ll wait for you both at the copy door.”

Yuanyangli and Luoyue were too lazy to talk about the big shark, each responded with a humor, and continued to play a copy.

Xiaoxiao Muyu and Changkong Xizui disbanded the guild, which caused an extremely serious blow to the entire Poseidon Army. The ocean and the moon were silent and hateful and angry. On the one hand, they hated Lu Yang for stealing their warships; on the other hand They were also angry that the Dutch were too bullying.

The two have vowed to re-establish the Poseidon Army and build up their strength. They will seek revenge on Lu Yang and the Dutch in the future, so they are not interested in joining the Jagged Brothers Alliance, but they hope to tell the Jagged Brothers Alliance through the big sharks and stop chasing them. After all, the guild has been dissolved.

Half an hour later.

The two led the team to finish the copy, and Ocean Miles said silently to the setting moon: "Let's go out, it's not good for the big shark to wait too long."

Luo Yu said in a resentful voice: "Let him send a message to Lu Yang this time. If there is a chance in the future, I must find Lu Yang to take revenge."

Ocean Miles said, "Leave, let's go find him."

The two led a team and walked towards the outside of the copy.

This is a copy of the 80-level cave. The square outside the cave is very large. The two just led the team and saw an anxious big shark on the square. They also saw Lu Yang, but when they saw Lu Yang, their faces turned wild.

"Lu Yang, why are you here?"

"Do you want to bring someone to attack us?"

...

The ocean and the silent moon quickly put on a defensive posture and looked around vigilantly.

Lu Yang didn't expect the two to think so, and signaled that they should not be too nervous, saying, "I'm not here to trouble you. I have no resentment against you. It shouldn't be like this between us."

"Then you?" Yuanyang asked.

Lu Yang said, "I'm here to help you."

"What can I do for you?" Luo Yue asked silently.

Lu Yang said: "Fight with the French."

"If it is a national war, we have to blame it, but do you have a boat?" Luo Yue asked silently.

Lu Yang said, "Early tomorrow morning, I will be able to build 300 Tier 5 warships, the Black Devil, and an abyss cannon with a range of 1,500 meters."

The ocean miles and the silent moon were stunned.

"You have a level 5 warship?"

"300 ships?"

Lu Yang nodded and said, "Yes, I have both ships and weapons, but my sailor strength is much worse than you. I hope you can help me. At the same time, I sincerely invite you to join the Iron Brotherhood."

"It's okay to help you, join the Jagged Brotherhood?" Yuanyang shook his head.

Lu Yang said: "Don't rush to refuse. The two of you know that I am very interested in Xiaoxiao Muyu and Changkong Xixi. I originally bought Binghuocheng for money, but they ran over and attacked me for Liu Jie's money. Instead, I took 100 ships, which can't blame me. "

Ocean miles and the silent moon were dumb, and in any case, it was the fault of their two cousins.

Lu Yang went on to say: "I occupied 15 main cities of the human race, and there is only one hot spring city. I do n't fight, but in the face of hegemony, I spend money to buy it, but I am facing the Poseidon Army, but your two My cousin still didn't sell. I won the Orcs and Elves and went to them again. They still didn't sell. I still didn't fight.

In the end, they were defeated by the Dutch. No matter where I speak, I am extremely kind to you, the Poseidon Army and the hegemon, you admit it. "

The ocean and the moon are silent, and they are not old. They cannot refute Lu Yang's words. In fact, as long as people who are reasonable, they cannot refute anything to Lu Yang. It is really the two bosses of the original Poseidon Army. Not authentic, nothing for the money.

"Now the guild is gone, and they both quit the game to pay off the debt. What else do you say about this, do you want us to pay off the debt for them?" Yuanyang Li asked.

Lu Yang shook his head and said, "Give me a job and I will give you a fairly high salary, enough for you two to help your cousin pay off all his debts within two years."

Yueluo opened her eyes silently and asked, "Do you know how much money my brother owes them?"

Lu Yang smiled and said, "It's just 150 million credit points. You only need to take your 3000 navy to work for me for 2 years, and I promise that you will have enough money to pay off their debts."

"I promise," Yue Luo said silently.

Ocean Miles said: "I promise."

Lu Yang knew that the two would agree, and said with a smile: "Welcome to join the Jagged Brothers Alliance, and join the guild. I will take you to the warship and start training today. You only have one day to prepare. We will have noon tomorrow Go to war. "

"No problem, the ship's control methods are the same, but there are more people on the big boat and fewer people on the boat." Said Ocean Miles.

What Lu Yang wants is their words, saying, "Let's go back together. I will take you to Chen Mo. He will be your coach in the future. I hope you can cooperate sincerely."

Yuanyanglili and Luoyue silent both gritted their teeth and nodded. Both men and Chen Mo were hostile, but for the sake of money, as long as Chen Mo didn't hesitate to leave, they both recognized.

The two brought 3,000 Poseidon players along with Lu Yang to the gate of the Abyss Fortress. Just before entering the door, they saw Chen Mo running out of it with a big smile.

Chen Mo passed directly over Lu Yang and came to the two of them, clutching their arms in excitement, and said, "With you and your Poseidon Army, we have won this war."

Ocean Miles and Luo Yue silently looked at each other in surprise, Ocean Miles asked: "Don't you hate us two? At first, we and your cousin squeezed you away."

Chen Mo smiled and said, "Hey, when did that happen? I'm not angry anymore, we will follow the boss and do well together, and let us dominate the sea together."

What kind of anger is Chen Mo? Now he has become the sole commander of the Navy. He has only one responsibility to lead the Navy to win all enemies. Now he lacks people, and he is silent and willing to help him. He was too late to be happy.

Ocean Miles and the silent Moon looked at each other again, and at the same time they looked ashamed.

"It's our villain, all right, we will follow you afterwards." Said Ocean Miles.

Luo Yue said silently: "Boss Lu Yang came to pick us up in the guild in person. You ran out to greet us. We have no resentment. What you say in the future and what we listen to."

Lu Yang said: "Great, let's go in and discuss the countermeasures together."

The three nodded together, led the team into the fortress, and saw the Black Devil. The 3,000 people boarded the ship and began to try to control it.

"Boss, 10,000 time and space thieves have been found." Xia Yuwei sent a message.

Lu Yang said, "I'll go back."

He took out the city roll and flew back to the hot spring city, entered the guild hall, and saw the 10,000 thieves and Xia Yuwei.

"Boss, everyone is here." Xia Yuwei said.

Lu Yang looked at the 10,000 thieves, all of whom are brothers of the Jagged Brothers. He smiled and said, "I will give you a task. If you do it, you will be the heroes of this national war."

"Boss, let's talk, we all listen to you." Looking up at Weiguang said.

Lu Yang said: "Tomorrow your task is to hold a fire mine barrel, use time and space to hide in the hot spring city. After hearing my order, you will appear and detonate the fire mine barrel."

"Ah !?" More than 10,000 people were completely embarrassed. They thought that Lu Yang wanted them to form an assassination team and sneak in on the French. It was unexpectedly a self-destructing team and playing with the enemy.

"Boss, it's okay for us and the enemy to share everything, but is this useful?" Looking up at Weiguang asked.

Lu Yang said: "Only 10,000 of you are useless, but you can add fire barrels in all the shops in the city."

More than 10,000 people took a breath of cool air at the same time.

"Boss, these shops you just bought, are you going to blow them all up?" Asked looking at Weiguang.

Lu Yang said, "Yeah, I'm fighting for the shops in this city. Don't you dare?"

"Dare," said looking up at Weiguang.

“Go to the abyss fortress, you will stay in the fortress tonight, shield all information, not allowed to go offline, do not do anything else.” Lu Yang said.

Everyone nodded and understood what Lu Yang meant.

“I took them to the fire thunder bucket.” Xia Yuwei said inwardly. The vice presidents of them were still feeling the day before. Lu Yang picked up the bargain this time. No one in the entire hot spring city shop bought it. For only a small price, I bought all the shops in the 4 main streets of the main city, but I didn’t expect where this was going to take advantage. Lu Yang had the idea of blowing them up at that time, which was a complete loss of money. .

“Boss, if you are short of money to tell us, we have a lot of money in our hands.” Xia Yuwei secretly sent a message to Lu Yang.

Lu Yang laughed at the news and said, “Boss, I have more money than you think. Don’t worry about me.”

He was really rich this time, and the subprime mortgage crisis broke out. Qi Yun shocked the entire US stock market with a total of nearly 20 billion US dollars. He used leverage to earn 20 times the revenue, totaling more than 400 billion US dollars.

Among them, 200 billion US dollars is fixed assets, and the remaining 200 billion US dollars is cash. After removing the share to other investors, he still has 130 billion US dollars in cash.

Lu Yang and Qi Yun discussed and waited for all the cash to arrive. He took out 10 billion US dollars to everyone involved in the sharing of the staff, and the rest went to Qi Yun to continue investing.

The Liu Jie family was not knocked down in this crisis but there were 2 banks left in the end, all in the United States. At this point, the Liu Jie family officially changed from a multinational financial group to a Chinese American family business.

“Dididi”

Lu Yang's intercom rang. He picked it up and looked at it. Qi Yun called it. He smiled and pressed the connection button. He said, "I miss you, you just called me."

Qi Yun laughed and said, "Now we are both in a good mood, but I'm not interested in men, haha."

Lu Yang said silently, "While going, it looks like you're in a good mood. How's it all going?"

"I called you just to tell you about it. It's all arrived. This time we really made a lot of money. Your inside information is too accurate. Not only did we make a lot of money, we also got a lot of investment. The friendship of the fund will make it easier for us to make money in the future." Qi Yun said.

Lu Yang asked, "It's easy to make money. Tell me if there is any way to defeat the Liu Jie family."

Qi Yun said: "At present, there is no good way. I can only find limited information. I only know that the Liu Jie family has invested in many minerals in Africa. Although the financial crisis is severe, the price of mineral resources is very low. Very high, and I suspect that at this price they will soon be able to make a lot of cash to survive this crisis. "

The economic crisis has endangered all financial assets, but the real economy has escaped in this crisis, especially the mineral resources. The subprime mortgage crisis has not affected them a little. On the contrary, the prices of many mineral resources are getting higher and higher.

Chapter 965 - Blast the Tianquan Fortress

Taking aluminum products as an example, before the economic crisis, his price had risen from more than 10,000 a ton to more than 30,000 a ton, and the price is still strong.

"I and my colleagues have discussed that the price of non-ferrous metals will continue to rise and will not fall. The Liu family has escaped a disaster. Should we also enter this market?" Qi Yun asked.

Lu Yang sneered and said, "I can tell you explicitly that the price of all non-ferrous metals will be cut off by two-thirds after 5 months."

“Two-thirds of the price?” Qi Yun asked incredulously.

Lu Yang said: “If Liu Jie continues to invest in aluminum products in Africa, then you will do one thing. For all these bidding investment businesses, you will send someone to compete with the Liu family and let Liu Jie buy these mines at the highest price. field.”

Buying mines at the current price of more than 30,000 a ton must be extremely high. If Qi Yun can pull the price to the highest point and let the Liu Jie family buy it, when the price is cut by two-thirds in the future, The Liu Jie family must be losing money.

“Okay, I’m looking for someone to run this, it’s considered cheap for their family. In the end, there was no bankruptcy, and there are billions of billions left for their own pocket money.” Qi Yun said.

Lu Yang laughed. After all, the other party used to be a billion-dollar consortium. No matter what happened, the real estate could not be turned into a poor man.

What can really make people turn into poor people is this “Second World”. If you want to be the leader in this game, if you only rely on money, you need too much money. Just buying a boat can make many people bankrupt. .

Lu Yang hung up the phone, and K called again, and asked, “Boss, I have made all the fire thunder you need. When will it be shipped?”

Lu Yang said, “Come here now.”

“Okay, I’ll send someone over here.” K said.

The production of fire thunder barrels by Huaxia servers is no longer enough. The shipyard of Jinsha City needs to make the Jihad. The shipyard of Sky Fox City has only two official ones, the level is still level 1, and it can’t undertake any work.

Lu Yang can only let K in Thailand and players in the other two countries to do this. Fortunately, Lu Yang told them in advance that the three companies cooperated with each other to help make fire thunder barrels. A total of 200,000 were produced.

late at night.

In the port of Hot Springs, ten merchant ships approached the shore quickly, and K stepped down from the ship and saw Lu Yang ran over in excitement.

“Boss, we finally met in the game.” K said.

Lu Yang patted his shoulder with a smile, and said, “You did a great job. You don’t need to work alone afterwards. With the boss behind you, you don’t need to fear anyone anymore.”

“Um.” K nodded hard.

“Continue to fight with the enemy at sea, and accelerate the upgrade of your shipyard at the same time. Once there are good drawings, I will give them to you immediately.” Lu Yang said.

When Lu Yang asked K to build a fortress, he built it in the main seaside city. Now it has become the most prosperous port in Thailand. Therefore, if he wants to do cross-border trade, the sea from his main city is the nearest and the most stormy. peaceful.

“Then I’ll go first,” K said.

Lu Yang sent K to the ship and said to the light and dark thieves around him, “Take me to the Tianquan Fortress with me and the 10,000 thunder barrels.”

“Isn’t I going to Hot Springs.”

Lu Yang smiled and said, “The hot spring is the second explosion. For the first time, I decided to entertain them at Tianquan Fortress.”

“Boss, you are terrific.” Looking up at the dim light and holding up the fire barrel, said.

Lu Yang also picked up a fire thunder barrel and led the team to the Tianquan Fortress. At this time, there was no one in this fortress, and the trumpet would not approach it. It is now late at night and no one can be seen.

10,000 thieves followed them to lay out fire thunder barrels, and when they entered the fortress, Lu Yang said, “All Tibetan barracks, guild halls, and other places where people can hide are hidden in a thief.”

“Okay.” Looking up at the gleam and pointing at a thief behind him, “You go here.”

“Yes.” The thief took a * barrel and entered a Tibetan barracks. Soon, 10,000 people were all set up.

When Lu Yang arranged it, the angel sword on the other side was also arranged. He didn't look down on Lu Yang at all, and couldn't think of any way that Lu Yang would stop him.

Early the next morning.

The Angel's Sword in the Port of Poseidon brought 300 Tier 5 warships and 1,000 advanced troop carriers with 3 million players in it, heading towards Huaxia.

Binghuo City.

Lu Yang knew the news at the first time, and looked at all the vice presidents around him and said, “Let's go.”

“Yes.” Xia Yuwei and the vice presidents such as White Lion nodded.

With Lu Mu, they returned to the Abyss Fortress, looked at the 300 Hei Devil in front of them, and said, “It's finally our turn.”

Chen Mo, Great Shark, Ocean Miles and the silent moon have long been waiting on the ship. Among them, the Great Shark commands 300 Jihad.

Lu Yang landed on Chen Mo's flagship, took 300 black devil and 300 jihad out of the abyss fortress and headed towards the Black Rock Islands next to Tianquan fortress.

On the other side.

The Angel Sword from France is in a state of great pride, especially he just learned from the number one that the Sky Eye Alliance intends to choose one of them as the boss. If he can help the Sky Eye Alliance in Hot Springs Stand firm, then his chances of being elected as the boss will greatly increase.

"Fast, no sooner, we will rush to Huaxia as soon as possible and occupy the Tianquan fortress." The angel's sword shouted.

Like the Dutch, Angel Sword chose the live broadcast method. In the cheers of countless French people, the boat drove unimpeded to the hot spring island, 500 meters away from the island. He saw a large number of players in the city defending .

"My dear French friends, it is so exciting that the Huaxia people actually want to fight against us against the main city. I can't wait to teach the Huaxia people." The sword of the angel is facing the camera. Said.

The screen has been occupied by subtitles, all of which are requested by French players to attack the sword of Angels.

"Siege the city directly? No, no, no. I need to find a rest place for my brothers. They are tired for five hours. We have to go to Tianquan Fort to take a good rest before attacking. "The sword of the angel said proudly.

On the screen was another letter drifting, all praised for the mature and steady sword of angels.

The Angel Sword was more proud, and led the fleet to the port outside the Tianquan Fortress. The Dutch sunken ship can still be seen in the middle of the port. This did not affect the mood of the Angel Sword, saying: "Away from them, Let the troop carrier dock, and the warship will remain at sea. "

When he arrived in the Huaxia waters, the Angel Sword used the Huaxia Channel to yell to Lu Yang: "President Lu Yang, I heard that you are going to fight against me. My fleet has arrived at the port of Hot Springs. I will wait for you at sea. If you If not, I will go to Binghuo. "

The voice was full of arrogance and arrogance, but as soon as his voice fell, on the distant sea, numerous Black Devil were sailing towards them.

"President, there are warships at sea, but also the black devil." The watcher shouted.

The Angel Sword's embarrassment was in place, and asked, "Are you sure you are the Black Devil? Which country?"

"Hua Xia's is from the Brotherhood of the Iron Blood, and Lu Yang stands on the first flagship." Shouting hand shouted.

The Angel Sword's face changed, shouting: "Be ready to meet, the players on the troop carrier quickly disembarked and entered the Tianquan Fortress, and must not be killed on the ship."

Once the troop carrier was detonated, all the players on the ship died by default. The angel sword brought large troop carriers, each with 3,000 players on it. Killing one was equivalent to 3,000 people. Bear.

The players in the troop carrier were still slowly disembarking, and rushed towards the beach when they heard the news.

On the sea, Lu Yang saw the scene from afar, with a sneer on his face, and Chen Mo next to him said, "Boss, you are accurate."

Lu Yang said: "The guns were fired at a distance of 1500 meters, and they carried me all the players on the shore to the fortress."

"Yes." Chen Mo issued an order.

300 black devil soon approached a distance of 1500 meters, and 300 warships aimed the sideboards at the troop carrier on shore.

"Fire," Chen Mo shouted.

More than 1,800 abyss artillery fired at the same time, and the shells whistled through the air, hitting the troop carrier accurately.

The high-level personnel carrier's health was only 800,000. In only one round of attack, more than 50 personnel carriers were broken into residual blood, and five were detonated.

"Run up and stop them," shouted the Angel Sword.

The French fleet rushed towards the landing sun fleet, and the angel's sword was also fight. He wanted to play white-bladed battle.

The two ships collided together, and the players on both sides could board the duel. The players on the French side were high-level and well-equipped. If the duel must be their victory.

Lu Yang said, "Retreat, don't fight them, we go to the Black Rock Islands."

"Retreat," Chen Mo shouted.

The 300 Black Devil turned around and drove towards the Black Rock Islands, only 10 kilometers from the Tianquan Fortress, by wind.

“President, the enemy is about to run away.” The watcher shouted at the Angel’s sword.

“Follow me.” Angel Yang’s sneak attack suffered heavy losses as soon as he arrived, which made him feel ashamed.

“Our French navy is the strongest navy in the world. The whole army attacked and killed the Huaxia people.” Angel Sword shouted.

The French fleet closely followed Lu Yang’s fleet.

ashore.

Responsible for managing these 3 million players are the vice president of the Angel Sword Guild and the bosses of the affiliated guilds.

“We are an advanced fortress. We didn’t expect that Lu Yang also had a black devil warship. We can’t fight the same way.” The vice chairman said cautiously.

“Okay.” The other presidents of the affiliated guilds also had this idea, and the shelling just shocked them too much.

“Everyone don’t have to worry about it. It is impossible for the Huaxia people to fight us in terms of naval warfare. It is estimated that they only have a navy recently. It is not so easy to control the warship.” The vice chairman said.

“That makes sense.”

“Navy battle is not that simple.”

...

Some worried French players regained confidence.

“The advanced fortress was rested. After more than 7 hours of sailing on the sea, everyone was tired. After a break, we went to attack the hot spring city and seek revenge from the Iron Brother Brotherhood slaughtering the city.” The first vice president shouted.

“Okay.” The other vice presidents and the affiliated guild nodded, and passed 3 million French people across the bridge and entered the Tianquan fortress.

“The Tibetan barracks 1 is full of Frenchmen.”

“No. 2 is full.”

“No. 3 is full.”

...

The pre-arranged thief players in the Tibetan barracks reported.

The last thief, such as Lu Yang, also reported the news, saying: “Tianyao, muddy wine, Liangyun, and our five million brothers approached the Tianquan fortress.”

“Wait for you,” the three said together.

“Brothers, go forward,” Tian Yao shouted.

The 5 million people hiding in the forest near Tianquan Fortress neatly came to Tianquan Stone Bridge, the only entrance to Tianquan Fortress.

“The people of the Brotherhood of Iron Blood really dare to come over.” Above the fortress, the first vice president of the battle God XVII said to several vice presidents around him.

“Strange, it’s all a bunch of level 70 players. What are you doing here? Are you looking for death?”

“What do we do now?”

God of War XVII did not wait to speak, but the murky wine under the city spoke.

“French people in the city listen, on behalf of our chairman Lu Yang, I would like to say a few words to you,” said Zhujiu.

“What?” Asked God of War XVII.

Voiced wine said, “Just two words, start.”

God of War XVII is at a loss, but the space thieves who can hide in the Tibetan barracks are not at a loss. This is a signal for them to launch a fire thunder barrel.

Inside Tibetan Barracks No. 1.

Looking up at the shimmering light suddenly flashing out of the light, the fire thunder barrel was yelled to a French player with nearly 300 people in a room and shouted, “Let’s die for all.”

“boom”

The French did not wait for the reaction, and the fire thunder barrel blew up. With 500,000 injuries, except for the 90-level whole body of dark gold armor, the rest were killed.

“boom”

“boom”

...

Ten thousand thieves appeared, and the whole city fell into a sea of flames. Almost all the 3 million players who had just entered the Tibetan barracks to rest were killed.

Out of the city, 3 million people, including Zhuojiu and Tianyao, instantly won countless national war points.

Tianyao looked at the points flying up and down in the dialog box and said, "Boss is really beautiful, 5 million people, all of them got 3 million points at once."

Zhuo Jiu said cheerfully: "Ready to retreat, the enemy should die."

"Well." Tian Yao waved his hand, and 5 million people began to evacuate slowly.

God of War XVII is mad, watching the 3 million players resurrected in the center of the fortress and shouting, "Find your gear and follow me out of the city. I will kill those Chinese people."

3 million players are mad. They have just arrived in Huaxia and thought it was a dish abuse, but now they are counted by the rookie.

"Out of town, kill those Chinese people."

"revenge."

"Let them know how great we French are."

...

Three million people rushed out of the fortress quickly, but when they rushed out, Tianyao already ran out with the players of the Jagged Brotherhood several kilometers away.

“Follow me, they must have fled back to the hot spring city, we attacked the city directly.” Shouted the God of War XVII.

On the strength of the land, they are stronger than the Dutch. The Dutch can easily lay down the hot springs. They think they can do the same.

“Shall we ask the Angel’s Sword?” A vice chairman asked.

“No, I just contacted him. The Angel’s Sword ordered me to attack the city directly.” God of War XVII said.

The rest of them no longer had opinions and rushed towards the hot spring city with 3 million people.

Tianyao and others have already used the fort to return to the city and return to the city at this time. More than 30 vice-chairmen of the Iron Brotherhood are standing on the south wall of the hot spring city and using a telescope to look outside the city.

“Sure enough, these French people, like the Dutch, want to rob in the city.” Liang Yun said.

“Let’s resist a little, and the dead will be resurrected directly in the necropolis and be ready.” Tian Yao said.

“Um.” Five million people gathered near the city, posing as if they were going to fight the French.

“Charge, lay down this main city directly.” Shouted God of War XVII.

Three million people did not have any formation, and launched an attack directly on the hot spring city.

The average level of the Jagged Brothers players is more than 70, and it will not cause any damage to French man-made equipment with an average level of more than 90 and dark gold equipment.

God of War XVII personally led the team to siege, and easily fell into the ranks of the Jagged Brothers Alliance player like chopping vegetables and vegetables. With almost every knife, he was able to cut a Judge Brothers player. Using group attack skills can Kill a slice.

“Haha, it’s too simple, what a blood brotherhood alliance is.” God of War XVII shouted excitedly.

Suddenly he felt a loose face and found that he had led the team into the city and looked around, his eyes were green.

“There are so many shops. Quickly kill the Brotherhood of Iron and Blood and attack the King’s Castle with me.” Shouted God of War XVII.

If you want to sell these shops Only if you enter the king’s hall and kill the king, these shops will become ownerless. All players who enter these shops have the right to dispose of them.

3 million French players quickly learned that there are a lot of shops in the city, and their eyes are green. They came to rob and kill the brothers of the Jagged Brothers even more crazy.

In less than half an hour, hundreds of thousands of players in the entire Iron Brotherhood were killed by the enemy, and God of War XVII easily took the French to occupy various commercial streets in Hot Springs.

A large number of French players rushed into the store. When God of War XVII came to the King’s Hall, he had less than 20,000 people around him, and the rest were fighting for shops.

The God of War XVII did not stop, and walked proudly into the hall, but when he saw the king, his face was surprised, because there was a Chinese player beside the king.

“Who are you?” God of War XVII asked.

Han Fei smiled and said, "Kill your people."

"Kill us?" God of War XVII laughed wildly. "What ability do you have to kill us?"

"You are only one person."

"It is said that Huaxia has no shortage of lonely heroes, and it really is."

"One person is a dragon, and one group is a worm."

"It's ridiculous, sad."

...

Han Fei patted a fire bucket beside the king and said, "How about using this?"

Chapter 966 - Battle of Black Rock Island

"Fire barrels? Everyone be careful." God of War XVII retreated quickly.

"Shatter him," someone shouted.

Han Fei quickly reached out and said, "Don't be impulsive. If you break this, you will regret it."

"What do you mean?" God of War XVII said cautiously.

“Do you know, this fire mine bucket is not used to kill you, he is responsible for detonating.” Han Fei said.

“Explode?” God of War XVII had a bad hunch, but he couldn’t believe it.

Han Fei said, “Yes, this fire mine barrel is connected to 100,000 fire mines in the city. He blew up. All the fire mine barrels in 28 commercial districts and more than 10,000 shops in the city will explode.”

“What?” The warrior XVII threw his hair upside down, and the cold sweat fell down, and the rest of the body hit a thrill.

“You crazy?”

“No, I say these things to you just to tell you that if we want to invade Huaxia, we would rather lose everything and let you be punished.” Han Fei rang a thunder barrel.

“boom”

Fire thunder barrels exploded. This is a signal. The thieves who have just returned from the Tianquan fortress to the city again appeared in various shops. Facing the French players waiting to rob the shops, they fired the fire thunder barrels in their hands. .

“Boom ~!”

“Boom ~!”

“Boom ~!”

...

Even if it was a few kilometers away, Lu Yang could see the whole explosion of the hot spring city, not only him, but also the angel's sword.

"Crazy, Lu Yang, you mad," shouted the Angel Sword.

Lu Yang heard the shouting of the Angel Sword and said with a laugh: "Angel Sword, do you think Huaxia can be invaded at will? You want to grab me. I would rather blow it up than give you nothing." "

"You lunatic, I will destroy all your warships with my own hands, leaving you with nothing," shouted the Angel Sword.

"You and I are like warships, do you think I will be afraid of you? If you have the courage, continue to chase." Lu Yang said.

"Go forward at full speed," shouted the Angel Sword.

The two battleships are the same, but the French's ship control skills are better than the Chinese players. The two parties have been driving on the sea for more than half an hour.

"Powder gun, fire it," shouted the Angel Sword.

The bows of the 300 black devil's bows fired at the same time as the black devil on Lu Yang's side. Looking at the roaring shells, Chen Mo said, "Boss, go back to the cabin first."

Lu Yang said: "I've always been on the front line of war. Don't persuade me. You continue to command. I will watch the second explosion."

Necropolis.

Countless lights are on, God of War XVII and 3 million players choose to be resurrected at the same time.

“Damn Chinese.”

“They angered me. I want to kill them.”

“I want to kill all of them.”

...

The 3 million French were all angry and were killed twice in a row, making them extremely angry.

“Look at the distance, those of the Brotherhood of Iron Blood.”

“There are Chinese people over there.”

“There are also Chinese people here.”

“No, we are surrounded.”

...

Tianyao and Zhuojiu surrounded the entire graveyard with 5 million players.

God of War XVII shouted, “Everyone calms down and prepares for battle. They stand in front of each other when they are equipped, and hide in the middle without equipment.”

Three million people immediately formed the team, but before the end of the team, Liang Yun came to the front on behalf of all vice-chairmen.

“You are called the God of War XVII, right?” Liang Yun asked.

God of War XVII stood in front of him and said with an angry expression: "I am, what are you doing?"

Liang Yun smiled and said, "I'm here to tell you, remember my name is Liang Yun, and the one who kills you here is me."

"It's up to you?" The **** of war XVII hummed.

Liang Yun said, "It's just us, we are not afraid of death."

He took out a fire bucket from his backpack and said, "Do you know this?"

"Fire thunder barrel, do you still have?" God of War XVII asked in horror.

Liang Yun said with a smile: "Yeah, not only do I have fire thunder barrels in my hands, but also at your feet, are you ready?"

God of War XVII was completely frightened and shouted, "You can't do this, you can't do this. I demand a fair duel. How can you use this rogue tactic?"

"Why didn't you think about waiting for the players in the national uniform when you came to play the national uniform? When you came, you didn't think about fairness. It is too late to ask for fairness."
Liang Yun pulled angrily There was a thunder barrel.

"Boom ~!"

Fire thunder barrels exploded instantly. At the same time that the cool clouds were killed, the last 100,000 fire thunder barrels buried beneath the entire graveyard also detonated.

"Boom ~!"

“Boom ~!”

“Boom ~!”

...

A huge mushroom cloud soared throughout the necropolis, and 3 million French players were killed for the third time. While dropping a piece of equipment, they also sent a large number of national battle points to the Iron Brother Brothers players.

Zhuoju shouted: “Quickly exchange experience **** and give them to the mage.”

5 million people did not hesitate, opened the system interface, converted the 9 million national war points obtained by killing the French three times into experience balls, and then quickly passed to the center of the crowd of 10,000 forbidden spells.

This is the strongest fighting power of the Jagged Brothers League. After Lu Yang unified the national service, he found it from the various guilds that received it. It was exactly 10,000 people, all of whom were handed over to Hei Yan.

Hei Yan also became the head of the strongest legion in the entire Jagged Brothers League. Watching the experience ball passed by 5 million people, he shouted: “Thank you brothers for your support. The mage team will quickly eat the experience ball, and give them all the levels. I mentioned level 100. “

10,000 people ate the experience **** madly, each with 9 billion experience, countless lights flashed, and all 10,000 members of the Master League rose to level 100.

“Put on level 90 equipment and return to the city to upgrade your skills.” Hei Yan took people away.

10,000 people flew away instantly. At level 100, they could raise the level of the secondary forbidden spell to level 3.

“There is also the experience ball, come here for the war tauren.” Tian Yao shouted.

Liu Yunpeng took the 1000 war tauren to the experience stadium and shouted, “Hurry up and go to level 100.”

At this time, no one can take care of the 1000 tauren at this time. The danger is in sight. The enemies will resurrect them and attack them like storms. If they want to protect their brothers, they cannot be polite.

Soon, these 1,000 people also rose to level 100, and Liu Yunpeng shouted, “Exchange 100 gold equipment and prepare for war.”

“Crazy Wolf Legion, Tsunami Mage Corps, Wind and Thunder Shooter Corps, and Grand Druid Army Corps, come together to experience experience balls, the number is not large, as many levels can be raised as many levels.” Tian Yao shouted.

The head of the tsunami mage team, the deep sea, took the 500 tsunami mage to the front of the experience ball for the first time and ate quickly.

Soon, the ranks of these 500 people reached level 100, and it happened that the enemy was resurrected.

God of War XVII is resurrected again. He is already mad and shouts frantically: “Iron Brotherhood, I must destroy your guild with my own hands, kill each of you 100 times, the French Guard, and attack.”

The death just let the God of War XVII they did not choose to resurrect immediately. In the dead state, he found the heads of various legions and discussed the offensive formation. After the resurrection, he could immediately start the war.

“Iron brothers alliance, ready.” Shouting shouted.

The cemetery is too big. After the third fire thunder bucket was put out, they no longer have fire thunder. They can only fight with the enemy. Although the enemy’s equipment is not complete, even if

there are only half sets of level 100 equipment, they still have to It is more than twice as powerful as the full set of 70 and 80 level equipment attributes, and the two sides are still not a level battle.

At this time, the Tsunami Masters had exchanged the 100-level gold mage suit, and the deep sea shouted: "Tsunami Master prepares, tsunami."

The 500 tsunami mage spelled the spell at the same time, and the sea was not far from the cemetery. When 500 people mobilized the seawater at the same time, the sea surface rose wildly within 200 meters. In less than 10 seconds, the giant wave surpassed 50 meters in height. Pressing one side and forcing it towards the cemetery.

Both players who have been fighting together are attacked by the sea water at the same time, and the French players are instantly killed by the tsunami.

Dozens of special legions such as the Wonder Warrior Legion, the War Tauren Legion, and the Mad Wolf Legion rushed to the front to fight with French players.

But there are too many French players, the cemetery is too large, and there are still a large number of French people fighting with other players in the Iron Brotherhood.

These players are all level 70. They are regarded as high-level in the national service, and they can be as vulnerable as tissue paper to the Frenchmen at level 90.

The French spell-casting mage team also began to read the spell, but these people just got together to be released. Mu Yu's precise super-magic electromagnetic storm covered them, and tens of thousands of spell-casting spells were interrupted.

"Good job." Tian Yao and Liang Yun and others looked at Mu Yu with excitement, and the little girl showed a shy smile.

"Hold on, never fall back," shouted Zhuzhuo.

Five million people were firm-minded, and even if killed, no one backed up, still maintaining a siege formation, 5 minutes later.

A flash of light flashed, hundreds of sentry towers built near the necropolis light up at the same time, when the light disappeared, Hei Yan appeared with 10,000 forbidden spells.

“Great, the encirclement has not been broken, brothers, the curse is ready, the first group.” Hei Yan shouted.

5,000 forbidden mages came to the front of the battlefield, and they began to read the spell. They were reading a level 3 secondary forbidden spell, with a range of 500 yards, and the damage was 1.2 times that of the spell. Now they are wearing 100 level gold equipment. .

The bantering curse sounded through the hot spring island, and the entire cemetery was covered with overcast clouds. The low clouds seemed to be only 30 meters high.

The players in the Jagged Brothers Alliance heard the forbidden sound and understood that this is

A French army chief shouted, “No, the enemy is about to release the curse.”

God of War XVII cursed: “What are you afraid of? The forbidden spells released by a group of level 70 and 80 mages can kill us. Maybe we can’t even break the defense.”

The French players calmed down, no longer afraid of this incident, everyone’s face had a proud look, and they were excited that they were level 90 players.

After 1 minute, Hei Yan and others cast their spells.

“Meteor Fire Rain”

“Space-Time Cutting”

“Lightning Storm”

...

5000 secondary forbidden spells fell from the sky, covering the entire necropolis, and French players in the encirclement were instantly damaged by spells.

“17612”

“19816”

“36782” (Critical Strike)

...

The extremely high damage fooled French players.

“Why such high damage.”

“Treat, give me blood, I can’t hold it.”

“Add blood.”

...

A large number of French players have died. Faced with so many forbidden spells and such scattered formations, the treatment can only protect very few people, and most of the French players have been killed.

God of War XVII looked at his blood loss in horror, and asked Zhu Zhuo, who was currently fighting against him, "Why are your legal injuries so high?"

Zhuo Jiu said: "Thanks to the national war points you sent, if it wasn't for your 3 million idiots who died 3 times in a row, how could we have such high national war points and how can we get so much experience? . "

God of War XVII threw back two steps in horror, and then he reacted. He really became a stupid pig. Originally, he was only a 70-level Jagged Brothers player, and they were given three national war points to a small number. Raised to a higher level than them.

"You, you." God of War XVII did not know what to say.

Zhuo Jiu said, "Our boss asked me to thank you for your generosity, because you, next time no matter who of you will attack Huaxia, we have the capital to face them."

The God of War XVII was speechless. He no longer knew what to do. This death gave the other party 3 million points of national warfare. He needed to find the sword of the angel.

Black Rock Islands.

The Angel Sword took over 300 ships of the Black Devil to catch up with Lu Yang's fleet. When Angel Sword urged his warships to prepare for the T position, he received a call from the God of War XVII.

"What? You can't even beat the Brotherhood of Iron Man? How is this possible?" The Angel Sword cursed.

"We can't beat it. We were killed three times with fire thunder buckets. The Brotherhood of the Iron Brothers exchanged a large number of experience **** with their national war points for their forbidden mage groups. Now these forbidden mage levels are all 100 and their equipment It is a level 100 gold equipment, and the damage is higher than us. "Said God of War XVII.

The Angel Sword was stunned when he heard this, and said, "How can this be?"

“It was the three fire thunder arrays. Lu Yang was a lunatic. He not only bombed the Tianquan fortress, but also hot spring city.” Said God of War XVII.

The angel’s sword is silent.

“What do we do now? If we are resurrected, we will be attacked by the enemy’s curse.” God of War XVII asked.

Angel Sword looked at Lu Yang’s fleet, which was less than 300 meters away, and said, “Don’t revive for now, wait for me to defeat Lu Yang’s fleet and go back to rescue you immediately.”

“Okay,” said God of War XVII.

Angel Sword hung up the phone and shouted with a loudspeaker: “Chairman Lu Yang, your conspiracy on land has succeeded. Do you dare to fight me now?”

Lu Yang has seen the necropolis killing French players through the live broadcast. Looking at the Angel Sword behind him, he said, “It’s time for a decisive battle.”

Chen Mo asked: “Boss, shall we fight?”

Lu Yang asked, “Are you ready?”

“Everything is ready, and the Great Shark’s Jihad fleet is ready.” Chen Mo said.

Lu Yang said, “Okay, then fight them.”

He shouted with a loudspeaker: “Angel’s Sword, since you want a decisive battle, I’ll do it for you, ready.”

Chen Mo shouted: "All the warships' sideboards are aimed at the enemy ship, and the spinnaker is ready to control the direction."

The role of the jib is to allow the vessel to advance in a predetermined direction in any wind direction.

The 300 Black Devils all pointed the side of the ship towards the 300 Black Devils of the Angel's Sword.

The angel's sword lightened, and shouted, "Ready to fight, and meet the enemy on the side."

"Boom ~!"

Chen Mo took the lead in firing, and the sea next to the Black Rock Islands was instantly caught in a fire. The big shark took 300 Jihad and hid in a harbor deep in the Black Rock Islands. He sent a message to Lu Yang and asked: "Boss, would you like to come out now?"

Lu Yang said: "Don't worry, I have to exercise our navy first, only after facing the French and rigid, they will know where their flaws are, and there is room for improvement."

This naval battle was almost inevitable, not because of Chen Mo's failure, but because the crew could not reach the strength of French players.

On the commanders of both sides, Chen Mo was actually stronger than the Angel's Sword, but the order he issued was not executed as fast as the French side.

Soon, the warships of the Brotherhood of the Iron Blood were sunk by 6 ships, and none of the other ships was silent. People watching the oceans and the silent moon were worried, but their own player ability is only so much now, only Beat your head and fight.

The crew also discovered their problems and continued to fight against the enemy. This naval battle was fought from afternoon to night. When there were 160 ships remaining in the Iron Brotherhood, there were 260 ships on the Angel Sword. The eyes of the players who watched the Jagged Brothers Alliance were glaring.

The only benefit is that the battleship of the Brotherhood of Iron Blood is less injured, and the Angel Sword is more injured.

“Lu Yang, you lose today, I will wipe out your navy.” Angel Sword cursed at Lu Yang across 500 meters.

Lu Yang snorted and said to the shark, “Come out, it’s okay.”

The morale of the Brotherhood of Brotherhood is about to collapse, and these lessons are enough to let them know the gap and no need to waste money.

“Come here,” said the shark excitedly.

“Brothers, it’s time we came on and crashed the French grandchildren.” Shark shouted.

The 300 Jihad lifted its sails, stowed its anchors, quickly sailed out of the Black Rock Islands and appeared behind the French fleet.

Coincidentally, at this time, the French fleet was traveling against the wind and was very slow. The big shark shouted, “Brothers, it is a rare opportunity to go together.”

The watchers on the French fleet spotted the 300 Jihad for the first time and ran into them.

“Run fast, change sailing, the enemy’s reinforcements are coming, Jihad.” Shouted the watcher.

The Angel Sword was looking proudly at Lu Yang’s remnant army. He heard the watcher’s shout and looked behind him in horror. When he saw 300 Jihad rams colliding, he was already dumb.

Chapter 967 - Great country style

“Blast them, change course, and retreat,” shouted the Angel Sword.

The French fleet is in the headwind area. It is not easy to temporarily change the course, but it is even more impossible to blow up all the Jihad. The Angel Sword can only shout in vain, but there is no way.

When the Jihad was 100 meters away from the French fleet, the French fleet completed its U-turn. Looking at the enemy fleet that was almost within reach, the big shark laughed and said, "I just want to leave now, don't feel a bit Are you late? Jihad is accelerating. "

All 300 Jihads accelerated by 50% and crashed into French warships at extremely fast speeds.

"Boom ~!"

The first Jihad hit a smoking warship of the French fleet, and the already **** ship was sunk instantly.

"My boat." The Angel Sword yelled loudly.

Unfortunately, the ship has sunk.

"Boom ~!"

"Boom ~!"

"Boom ~!"

The Jihad crashed into the Black Devil in France one after another. None of the more than one hundred **** black devil escaped the impact of the Jihad.

After all the 300 Jihads had been wiped out with the enemy, there were only 120 remaining Black Devil of the Angel's Sword, which was 40 less than the Brotherhood of Iron and Blood, and the warship on the side of Lu Yang also reached the best design position.

“fire”

160 warships hit a ship at the same time. In an instant, the ship sank to the bottom of the sea, and the Angel Sword lost another black devil.

“Dammit, Lu Yang, I fight with you.” Angel Sword scolded Lu Yang looking at the distance.

“President, we are going to retreat and we can’t fight anymore. This is Huaxia. The construction of Jihad is fast. If we delay any more time, there will be another batch of Jihad.”

The Angel Sword was persuaded and slammed the podium hard, shouting: “The whole withdrawal from the battle and return to France.”

The 120 ships then took advantage of the downwind and immediately fled towards the distance.

“Boss, they ran away.” Chen Mo shouted.

Lu Yang said: “Chasing, can’t let them go.”

The 160 ships turned around together and chased after the French’s broken fleet. When they were hunted down here, the muddy wine on the shore called.

“Boss, have you won?” Asked Zhuojiu.

“Yes, are you chasing the enemy, how about you?” Lu Yang asked.

“Three million French have used their forced return to the city to escape back to France.” Turbid wine said.

Lu Yang Yile asked, “How about the harvest?”

“Great harvest, there were 12 artifacts dropped from France, and the rest of the equipment was countless.” Said Zhujiu.

Lu Yang said, “Your entire team, I will return.”

He ordered the hunt to stop and returned to the hot springs with the team. Before waiting for the port, Lu Yang saw more than 5 million players gathered there to cheer.

“Boss, we win.”

“Win the French.”

“Win.”

...

Lu Yang waved their hands at them, feeling deep inside, how difficult it was, finally, to win the French. If it were not for the arrogance and care of the French, it would be difficult to separate the victory and defeat in a short time. Tianyan Alliance sent ships over, then China will be out of luck.

Fortunately, he won. Not only did he win the French, more than 5 million people also won tens of millions of national war points, and a lot of 90-level dark gold equipment.

Guild Hall.

Suffering for half a lifetime, he asked excitedly: “Boss, how do we fight next, should we go abroad and ask the Dutch and the French for trouble?”

Lu Yang said: “I have this idea, but our fleet is not enough, and the level of the ship is also low. I need to go out to sea to find some higher-level equipment.”

“Are you going to sea?” Xia Yuwei asked.

Lu Yang nodded and said: “After this war, the Sky-Eye Alliance did not dare to have any other country alone, and even the United Army did not dare to log in easily.”

Everyone laughed. After this battle, at least 2 million people upgraded their level to 90, all of them were wearing dark gold equipment, and nearly 20,000 were upgraded to level 100. In terms of levels and equipment, The fraternal alliance is already worth more than half of the Skyeeye Alliance.

“Let’s go with you?” Bitter love said for a long time.

Lu Yang said: “Okay, just go out and relax and give you a benefit. All vice presidents can bring an artifact. Anyway, we have a lot of artifacts this time, enough for you to divide.”

The Netherlands contributed 16 and France contributed 12, and Lu Yang himself had 16 and a total of 44 artifacts. The existing artifacts were removed, and the remaining artifacts were enough for the vice chairmen to share.

“Thank you, boss.” Liang Yun took back his God of War.

“My God of War Totem.” Tian Yao said.

“This is a good thing. I want a Vulcan heart.”

“I want a Vulcan totem.”

“I’m a Vulcan godhead.”

...

Soon, all the artifacts were finished.

Lu Yang said: "We have a day off today and we will go to sea tomorrow morning."

"Yes." More than 30 vice-chairmen have gone back to rectify the players. This battle is over and what they need to do.

Here Lu Yang took a break from the inside. On the other side, the Angel's Sword found the Sky-Eyes Alliance in shame, and told them what happened.

"I told you not to go, but to listen."

"This is all right. The Brotherhood of Iron and Blood must be leveled and equipped with equipment. It is not only a fish maggot, it has also become a big problem for us."

"Now any of our guilds are not qualified to single out with Lu Yang, and we must guard against being attacked by him."

...

Edward and Ono were angry.

"Sorry, I need some time to rest. I hope you can help me protect the sea. When my new ship is built, I will act with everyone." Angel Sword said.

He now has to ask others for help, or Lu Yang will come over, his 3 million main force is in a weak period, and he cannot stop Lu Yang's attack at all.

Ono, Edward and others are still reluctant to take care of the angel's sword.

Liu Jie suddenly said: "Forget it, after all, no one can think of Lu Yang being able to build the Black Devil, and there are 300 ships, so let's buy a lesson and go together next time."

Ono and Liu Jie are classmates. When he saw Liu Jie talking, he stopped talking.

Edward also knew what Liu Jie said was reasonable and stopped talking.

"Anyway, we are a whole after all, and we will take action in the future. Let's discuss together." Liu Jie said.

Slade and Angel Sword looked at Liu Jie at the same time, both of them showed gratitude.

Ono said, "Let's go back and clean up our domestic enemies. Take care of them."

Ono is gone, Edward and others are gone.

The Angel Sword and Slade stayed, and both looked embarrassed at Liu Jie.

"Jie Shao, you have offended a lot before. At this time, you can still intercede for us, thank you very much." Angel Sword said, he knows more about Chinese culture and speaks closer to China.

"Yeah, thank you very much," Slade said.

Liu Jie laughed and pulled them away.

When Liu Jie was thinking about how to unify the Skyeeye Alliance, all the servers in the world were surprised by Lu Yang's two wars and two vicissitudes.

"I can't think of Huaxia's Jagged Brotherhood being so strong, it doesn't look like it should be provoked."

“Three million people have returned in a state of weakness. It is too miserable and the equipment is gone.”

“Don’t mess with the Brotherhood of Iron and Blood. Lu Yang is a lunatic who blew up a main city.”

...

The world is rumoring the news about Lu Yang. Because the information is developed, soon the details of Lu Yang’s confrontation with the Angel’s Sword will be known to everyone. When the world players knew that Lu Yang was willing to blow up a main city, Lu Yang officially entered the world stage.

Lu Yang didn’t know this yet, early the next morning.

Lu Yang brought 5 ships and more than 30 guild leaders into the sea. Looking at the scenery on the sea, everyone was shocked by the scenery, especially when they saw the chart.

“The sea in the game is so vast,” Second World “is amazing.”

“China and Japan are 5 hours apart, as far as France and the Netherlands?”

...

Listening to their chat, Lu Yang pointed at the navigation chart and said, “The map in this game is similar to the Mediterranean Sea. All countries surround this sea. There are many islands on the sea. Everyone who has residents on the island has a mission. . “

The inhabitants of the island are called aborigines. Most of them are special creatures, some are amphibians, some are marine, and some are flying. They all have a common feature, they are ancient creatures, and they are very powerful.

Generally speaking, the levels of these monsters are all above 100, and the monster strength closer to the center of the sea is stronger, and the highest level is 140.

There is a portal in the middle of the sea. It is a place to teleport to the new continent, which is the place where the next expansion pack is opened. On another island not far from the portal, it is the most in the entire ocean world. Strong city, pirate kingdom.

There are pirates on the entire island, and all the pirate kings at level 140 are lords. Some of them are humans, some are orcs, and there are various races. Anyone who can become a pirate king has a body on them. There is a special item called Power of Bloodline.

The power of bloodline has a popular name in the previous group of players, called the three-turn certificate, whoever has the power of bloodline, their strength will not be lost to players with artifacts.

One of the more rare bloodline powers is called thunderbolt bloodlines, and anyone with this bloodline can fly freely in the air.

World naval battles will not last for a long time. The naval battles of the previous world were criticized by countless players because the naval battles were too expensive. They all called "Second World" a shameless game.

A Tier 5 warship requires 2 million credits, which is still cheaper than a top-tier warship. The most expensive Tier 7 warship requires 5 million.

Lu Yang speculates that after a major decisive battle at sea, "Second World" should open up the new continent. When the new continent is reached, it is time for Lu Yang and Liu Jie to battle.

"Boss, where are we going?" Asked bitter love for a long time.

Lu Yang was drawn back to his thoughts by the bitter love words. He pointed to a sea area at the junction of Huaxia and Japan on the navigation chart and said, "Explore here. Generally, there are good things at the junction of the two countries."

Zhuo Jiu and Tian Yao, their vice-chairmen, are all highly playful. They have watched a lot in the game, and once they heard what Lu Yang said, they knew what it meant.

“It makes sense, we should explore this sea area, maybe there are any special gains,” said White Lion.

“I don’t know if Japan has come here to explore. I need to be ready for battle. What if I meet Japanese players?” Chen Mo asked.

Lu Yang said, “Be prepared first, but don’t go to war easily.”

Now there is not so much hatred between Huaxia and Japan, and Huaxia is even worse here. Young people in Japan no longer remember the hatred in this regard.

There have been many professional Chinese media who interviewed a new generation of Japanese young people and asked them about the war.

“That war of more than 100 years? Haven’t we lost?”

“Did not the sins against the Chinese people, the invaders, be killed?”

“Fight? I don’t care about fighting, who can tell me how to make money.”

...

The entire mainstream world in Japan has changed. High-intensity working environment, ultra-low fertility rate, declining population every year, severe aging of the country, difficulty in finding a job for the new generation, higher and higher housing prices, more and more otaku, Japan It has changed from a desperate country to a debilitating country.

Huaxia has also discussed this issue many times. One of the most famous conclusions is that if we keep revenge on the Japanese, then the various surnames Murong and Sima will be assimilated to Huaxia. Are the nations and countries in the territory also seeking revenge against China?

Throughout the history, it is not that Huaxia has been bullied by the Japanese. It is only in the past two hundred years that Huaxia's technology lags behind and has been invaded by foreigners. Looking at history, we can look up the history. , China Huaxia has been bullying people.

To give the most obvious example, since the Han Dynasty, since Zhang Jian brought news of the Western Regions back to China, the Han Dynasty has always used power to control the Western Regions, just like what the United States did today.

The most famous incident was that Ban Chao went to a country in the Western Regions and took more than 100 people in this country, killing the envoys of another country. This country did not dare to complain.

Afterwards, Ban Chao swept 51 countries in the Western Regions with these 100 people. None of them dared to oppose Ban Chao. Can Ban Chao and these more than 100 people be invincible Supermans in martial arts, in fact, the 51 countries in the Western Region are afraid of Huaxia and dare The super class is just over 100 people.

Such things abound in the history of China. Otherwise, where does today's territory come from? There is a point of view in world history. In the recent 100 years, these are the emerging empires and the three big empires.

The so-called three major empires, the first is Turkey, which was originally called the Ottoman Turkish Empire. It used to be a superpower around the Mediterranean with a territory of 5.5 million square kilometers. At the end of World War II, 780,000 square kilometers remained. Almost a fraction of the original territory remains.

The second is the Austro-Hungarian Empire, which is now gone and this country no longer exists.

The third is Huaxia. Over 10 million square kilometers of land has been invaded by so many countries and so many civil strife. There are still 9.6 million left, which is a miracle in the world.

Especially now, China's naval power has only 8 aircraft carriers, dominates Asia, suppresses Southeast Asian countries, and has the ability to maintain international order. Like Japan and South Korea, in general, it has no qualifications equivalent to China's. Already.

At present, the attitude of Chinese players towards Japanese players is also quite good. The previous hatred has not been brought into the game too much. However, after this Japanese Ono, after unifying Japan, he still wanted to fight against Huaxia, and his slogan was restored. The glory of yesteryear.

Lu Yang was still very enthusiastic about Ono. If he met this time, he wouldn't mind teaching Ono.

At present, the situation in Japan is not very good. K is taking the three navies around Ono. He has not hit them directly, but only a side ambush. As long as Ono's navy goes to sea, more ships go out, ports are attacked, and less ships go out. Then, he will be ambushed at sea, giving Ono a headache.

Now Ono can only build a warship desperately, and when there are enough ships to be able to prepare for the port and the sea together, he will want to destroy K's maritime power.

Lu Yang and his team spent 2 hours in the sea at the junction of Huaxia and Japan. He stood on the watchtower half-heartedly and shouted, "Boss, there is an island in front of us. Should we go up and take a look? "

"Okay, the ship leans over," Lu Yang said.

Five warships approached the coast quickly, and there was a simple port on the shore to dock. After Lu Yang and other ships arrived at the port, they led the men off the warship and walked towards the shore.

The system prompts: You found the Three-faced Island

"Three faces? What is this?" Asked bitterly for half a life.

Lu Yang pointed to a human who was more than 3 meters tall with a bamboo pole, not far from the forest, and said, "Then there is Three-faced person (elite)

Level: 100

Qi and blood: 20000000/20000000

“It doesn’t look like a lot of blood,” Sun Yu said.

Lu Yang said, “Go try it, can you beat it?”

“I’ll take a look.” The White Lion rushed up.

“Guru ~!”

Three people found the white lion, two heads on the sides opened from the neck, and three faces looked at the white lion together.

“I’m going.” The White Lion was startled, stopped abruptly, and shouted, “Boss, this is something special.”

Lu Yang grinned from the inside. He had met three faces in the last life. He had no special ability. When the three faces were directed at people together, the player could not use them.

Zhuo Jiu and Xia Yuwei went up to help. They were all masters in class 100 wearing gold suits and carrying artifacts, and killed a three-sided person in a few clicks.

“Fuck, it looks scary,” White Lion said.

Lu Yang smiled and said, “Since it’s not difficult, let’s go on and take a look on the island to see if there is anything special.”

Chen Mo said: “Boss, I’m not going ashore, I look at the fleet.”

Lu Yang nodded, he was more relieved when Chen Mo was on the boat, and said, “I’ll go up then.”

Chapter 968 - Stateless corps

This time, Lu Yang brought 5 ships with 5,000 people, including the magic warrior, the wolf guard, the tauren legion, the tsunami mage, the great druid army, and the forbidden mage.

These people are currently the top players in the national service. In the face of 100-level three-faced people, there is no difficulty in killing them. They quickly advanced to the three-faced people's nest and saw the leaders of the three-faced people.

Three-faced God (Lord)

Level: 100

Qi and blood: 6000000000/6000000000

"It looks average," said the White Lion.

Lu Yang said with a smile: "Try it for another person."

Except for the 100-level players in the Jagged Brothers League, no other guild in the national service can fight, not because of the lord, but because they are too strong.

"Also." The White Lion smiled and scratched his head.

Lu Yang said, "Come on, kill this lord and see what can burst."

Any of the three-faced gods' skills are not effective for them. All 32 vice-chairmen have the heart or the godhead, especially the heart of destruction, the goddess of destruction, and the totem of destruction. France and the Netherlands, which happened to attack, have all three things. Now it's all in Lu Yang's hands.

Destroyed Heart has reached level 4 and players can learn Doomsday Judgment at Level 100. This skill is effective for the Lord and can control the Lord's attack. There are 12 Doomsday trials. Whenever the Lords want to release their skills, they are directly beaten by Han Ying's Doomsday Trial Off.

From the beginning to the end, the three-faced **** did not release a skill, and the entire physical attack, while Zhang Zibo, Xiao Liang, and Debuweishi each had a guardian heart, guardian totem, and guardian spirit, all of which are level 4 and easy to resist. simple.

"I don't believe that new humans can kill me." Three sides of God fell to the ground and burst into an 8X8 explosion.

"It looks like no one has been here before, we are the first." Lu Yang picked up a staff and said.

Three-faced Staff (Dark Gold)

Level: 100

Damage: 2818—5612

Intelligence: +4272

Constitution: +3184

Spell damage increased: +7944 points

Increased Spell Penetration: +6648

Spell critical strike chance increased: 6512

Description: His appearance looks like a key.

“It is indeed a level 100 dark gold equipment, and the attribute is strong.” White Lion said.

Lu Yang thought, this staff is the first level weapon after level 100, the real good weapon is behind, this weapon is just like his description, it is a key.

“Is this description a follow-up task? Look at the appearance really looks like a key.” Sun Yu said.

Lu Yang said: “It is recorded in the library that after the creation of the main continent, God created a lot of islands at sea. He hid some of the world’s rare treasures on an island. Island, and then find the key to open the treasure. “

“This is the key,” said bitter love for a long time.

“Finished with the keys,” said White Wolf.

Lu Yang laughed. The player in the previous life also called this task called the key to perfection. The so-called creation **** task is in the island kingdom. Holding this key can get access to the pirate kingdom.

“Boss, we found a player at sea, it seems to be Japanese.” Chen Mo sent a message.

Lu Yang frowned and asked, “Is there only one person?”

“Yes, he is surrounded by us, but it looks like he is very weak. He seems to have been swimming for hours. He is very exhausted, not like a Japanese player who deliberately explored it.” Chen Mo said.

“I’ll go back and see.” Lu Yang said.

“A Japanese came out, and you can continue to explore. I will go back and see what happened.” Lu Yang explained and returned to the coast.

On the beach, Chen Mo is taking more than a dozen players to watch the Japanese player lying on the ground with vigilance. He looks very special, wearing an ancient Japanese kimono, obviously a suit bought, with two on his waist * It looks like they are all level 100 weapons.

The appearance of this player makes Lu Yang look familiar, his hair is very long, and he is tied into a ponytail with a rope.

There is a scar on the lower jaw of the left face. The skin is very white and the appearance is very handsome. The scar not only did not make his appearance ugly, but also more manly, but his eyes were very cold, making people look very Uncomfortable.

“What do you think I do?” The Japanese player asked.

Lu Yang asked, “What’s your name?”

“My name is Tsukuhisa,” said the Japanese player.

Lu Yang suddenly realized that he knew who this person was. The pirate pirates of the last generation, who traveled across Southeast Asian waters, only recognized money but not the country. The reason was miserable. His father was a Chinese and his mother was Japanese.

He was born in Japan and has Japanese nationality. However, after entering the game, he was found to have offended because of offending Ono. Because of this identity, he was suspected of being abandoned by Japanese players.

Forced to helplessly, he left Japan and arrived at Huaxia, but the Huaxia people did not tolerate him, neither side gave him a sense of belonging. He declared in the game that he gave up his nationality, and he was just a pirate.

At this point, a super thief was born. No one had defeated him since he traveled across the sea. His fleet later became very large, and his main crew members were similar to his origins.

Each person has the nationality of at least two countries and is not accepted by players from any country in the game, so they are particularly united and never have a betrayal.

There is another thing that cannot be explained by science. These people have high IQs, fast response times, and very strong strengths.

Especially after entering the pirate kingdom, they have a specific foothold, they no longer worry about trading issues, and no longer have scruples. Although the overall strength is not as good as the Skyeeye Alliance, the Skyeeye Alliance has been attacked by them many times.

Until the opening of the New World and naval warfare no longer prevailed, Jin Jiuwu gradually withdrew from the stage of the game and became obscure, but it is undeniable that Jin Jiuwu's strength is unmatched in this large area of Southeast Asia.

Their legions are also very famous. Some people once called them "heterogeneous legions", but even louder were the stateless legions.

Lu Yang didn't expect to meet the boss of the future stateless legion here. He asked, "Why are you here?"

Jin Jiuwu poked his lips and said, "I was just drowned out by your Huaxia people, and I almost didn't drown. If you want to kill me, you can just do it without using nonsense."

Lu Yang took a sigh of relief. It was really time for him to meet him. Fortunately, he encountered it, otherwise this is the first trouble in the future.

Lu Yang sat beside Jin Jiuwu and asked, "Because of what."

“I was called by a Japanese player to be a Han dog because my father was Chinese, so I went to you Hua Xia.” Jin Jiuwu laughed at himself and said, “But in yours, they called me Japanese dog again, I I don’t know who I am, but I can confirm that I am a dog. “

Lu Yang sighed and said, “Why do you care so much about what other people think of you?”

With a stunned look, Jin Jiuwu looked at Lu Yang coldly, and asked, “Why don’t you care about other people’s views? Aren’t we living in this society?”

Lu Yang nodded and said, “You’re right, you can live in the society, and you don’t need to care about how others see you. We just need to pay attention to our family, loved ones, and loved ones looking at us, others No matter what his mother thinks of me, I live to show him. “

Jin Jiuwu opened his eyes wide. In fact, Jin Jiuwu was still a high school student, and he was in the blood of a young boy. He was very concerned about the opinions of others in the society. There is no settlement yet.

Hearing Lu Yang’s words, Jin Jiuwu found out that there was another choice in his life. He took a closer look at Lu Yang and said, “You are the president of Huaxia Server Brotherhood, Lu Yang, aren’t you?”

Lu Yang nodded and said, “It’s me.”

Jin Jiuwu asked in confusion: “Are you really indifferent to the eyes of others?”

Lu Yang smiled and said, “If I care about what others think of me, how can I have what I am today. Without saying anything, I just said that I just beat France and I blew up Hot Springs.”

“I’ve heard of this, and it’s beautiful.” Jin Jiuwu said excitedly.

Lu Yang said with a smile: “You feel pretty, don’t you know how the players scolded me before?”

“Scold you?” Jin Jiuwu said incredulously, “How is this possible?”

Lu Yang said: "Why is it impossible, the hot springs were sold by the Dutch to all the shops. In order to deal with the French, I bought these shops first and it cost me tens of millions. But domestic players scold me. Vampire, shameless, stinking, because I bought all the shops and didn't keep them. "

Tsukumu took a nap and said, "There is still such a thing."

Lu Yang said: "Yeah, if I care about their opinions, tens of millions of people in China scold me, I must not die, but if you don't care about their opinions, then it's just a matter of whim, no matter what they say What I should do is to keep my family, brothers, and loved ones from being bullied, which is enough. "

Taking a long breath, Jin Jiuwu stood up and bowed to Lu Yang respectfully, and said, "Thank you, I know how to go in the future."

Lu Yang asked, "What are you going to do?"

"I want to build a stateless maritime army." Jin Jiuwu said: "I will not care about nationality in the future, I will only care about my family."

Lu Yang stood up and patted his shoulder. He guessed that Jin Jiuwu would still do this. After all, this status is the most embarrassing in the state of war in the game. There is a way to survive.

"Do you have a boat?" Lu Yang asked.

Tsukumu shook his head and said, "No."

"Anyone?" Lu Yang asked.

"No." Tsukuhisa said.

Chen Mo laughed aside and said, "Brother, you have everything, how to form."

"I believe I will be able to succeed," Jin Jiuwu said.

Lu Yang said, "I believe in you. In this way, how about I invest in you, the stateless legion you established, I own 60% of the shares."

"So much!" Jin Jiuwu asked in surprise.

Lu Yang said, "Don't worry, after listening to me, I will be responsible for providing you with ships, news, supply bases and sales of robbed items. You are only responsible for recruiting players and going out to sea. How about it?"

"It's not appropriate for you," Jin Jiuwu said.

Lu Yang shook his head and said, "Nothing is inappropriate. I believe you can recruit a lot of people like you. You set up a stateless army, and I am optimistic about you."

Jin Jiuwu thought about taking a drawing from his backpack and said, "Okay, I promise you, I have nothing now, only this drawing, as my share, I will give you more in the future. of."

Lu Yang took a look at the drawings, his eyes widened in surprise, and asked, "Where did you get them? This is one of the top artillery drawings."

Plans: Thor's Wrath

Level: 7

Damage: 100,000

Range: 1800

Rate of fire: 5.0

“Is it okay? I don’t know. When I came back from Huaxia Tour, I went through the sinking water once and found it in a treasure box on the bottom of the sea.” Jin Jiuwu said.

Lu Yang shook his head in sigh. Some people were destined to be extraordinary in their lives, just like Jin Jiuwu. With this kind of weapon drawings, it was just at the beginning of the naval battle.

“This weapon has doubled the damage of the abyss giant artillery we are using now, and has doubled the rate of fire. It also has a range of 300 meters, which is not only very good, but very good.” Lu Yang said.

The two are actually not comparable, one is a top-level weapon and the other is a high-level weapon.

“It looks like I’m pretty lucky.” Jin Jiuwu said.

Lu Yang smiled and said, “Get on the boat and rest. Come back to Huaxia with me in a while. I will send you 10 black devil.”

Jin Jiuwu shook his head and said, “No, I want to swim back to Japan and finish my trip. In the future, I am not a Chinese, nor a Japanese, just a wanderer.”

Lu Yang knew that Jin Jiuwu’s inner anger had not disappeared, and said, “Well, I support your actions.”

He took 1,000 gold coins from his backpack and gave them to Jin Jiuwu, saying, “This is your starting capital.”

Jin Jiuwu pushed out the gold coins and said, “I recruit people without money. If I can recruit enough people, I will go to you. If not, I will send you the drawings for free.”

After finishing his talk, Tsukumu turned and jumped back into the sea, and swam towards Japan.

Chen Mo and Shark looked at Jin Jiuwu in shock, both shaking their heads.

“This man is so strange,” Big Shark said.

Chen Mo asked: “Boss, are you really going to invest in him? If he really established a stateless legion, it would be no different from the Sky Eye Alliance. I think we should have less contact.”

Lu Yang shook his head and said, “It’s different in nature. The Skyeye Alliance actively abandoned its nationality and only recognized money. They were abandoned by all countries and only their brothers. If Jin Jiuwu could really recruit me a National Army, Ono will never have the opportunity to attack Huaxia, he can only wait for me to beat him. “

Chen Mo and Shark were right.

“Boss, we seem to have found a strange place. Come over and take a look.” Xia Yuwei sent a message.

“Come here.” Lu Yang guessed that they should be the place where the power of blood was found, the altar of five faces.

Sure enough, Lu Yang found the five-faced altar according to the coordinates sent by Xia Yuwei. The white lions were standing around the altar, looking at the five super-high-level lord monsters that looked exactly the same.

Tenjin Sacrifice (Lord)

Level: 150

Qi and blood: 10000000000/10000000000

Lu Yang said: “This should be the force that will lose blood.”

The white lion and the muddy wine looked at each other.

“Boss, it looks like he can’t beat it,” White Lion said.

There are 5 level 150 lords with 10 billion health. Do n’t talk about hitting them. They may go up and they may be attacked by the opponent with just one skill.

For every 10 levels in “Second World”, the equipment attributes are more than doubled. The 150-level lord in front of him can not win by people alone.

Lu Yang said: “It’s really hard to fight. In this way, you take the boat back first. Mu Yu and I stay and see if we can find a bug and kill him.”

“Okay,” said Zhuzhuo.

It’s good that they have seen the sea. There are still a lot of things on the land that they need to deal with. After coming out for a while, countless people will send them messages.

“Then we go back,” Tian Yao said.

In fact, there is no difference between their vice presidents and presidents. During the race war, Lu Yang rarely managed the guild affairs. Now he unified the server, what kind of original, and what kind of national service.

Whoever manages the main city, who still manages it, is willing to build a fortress in the wild. He bears 50% of the cost. He does not care about the rest of the matter. Cloud them.

More than 30 vice-chairmen took the fleet away Only Lu Yang and Mu Yu remained beside the altar.

“Brother, let’s try to play with a kite and see if we can pull them while running.” Mu Yu asked.

Lu Yang shook his head and said, "Don't look at them as five people, but if you kill one, you win."

"The five of them share their lives?" Mu Yu asked in surprise.

Lu Yang said: "It's life sharing, but they don't share 5 blood, just kill one."

This way of playing becomes simple, just find a way to kill one of them.

"How do we fight?" Mu Yu asked.

Lu Yang said, "It depends on luck."

The celestial sacrifice does not move fast or attack fast, but the physical damage is very high, and they can teleport to each other, and the only way to kill them is to lead one of them to the bottomless pit not far from the altar.

"You go to a distance of 30 meters in front of a sacrifice, they will find you all five, and then you take them to the beach." Lu Yang said.

"Okay, let me try." Mu Yu came to the sacrifice.

"Do not approach the altar." A celestial sacrifice found Mu Yu, ran after him, and the remaining 4 also ran over.

Mu Yu turned and ran, and now the little girl with the heart of Thor is running as fast as Lu Yang. The lightning speed allows her to easily escape the attack range of the **** sacrificial offering.

Chapter 969 - Power of Bloodline

At the moment when the remaining four gods sacrifices decided to chase Mu Yu together, Lu Yang appeared in front of a gods sacrifice.

“Do not approach the altar.” A celestial sacrifice turned to chase Lu Yang, and the remaining four were still chasing Mu Yu.

Lu Yang turned on the blazing speed, ran quickly to the right, and reached the entrance of a large hole.

System prompt: you found a bottomless pit

“No one can touch the place where God came.” Tianshen Sacrifice No. 5 held a huge holy sword and split over towards the landing sun.

Lu Yang leaned back to the entrance of the cave, his body was facing the sacrifice to the **** of heaven, and when the other party launched an assault, when he was about to come in front of him, Lu Yang said a spell.

“Remnant Flame”

A red afterimage coincided with him.

“flicker”

Lu Yang jumped into the bottomless pit. During his rapid fall, he stepped on a step under his feet, and just after it landed, the sacrifice of the **** of heaven jumped down, and the holy sword in his hand was chopped down.

“The Sun Fist”

Lu Yang hit the lord with a strange punch.

“噤”

The lord blame was backed up more than two meters.

“Damn, you dared to hurt me.” The **** of sacrifice anger, his body slowly rising and falling.

“My brothers, come and help me,” shouted from the **** offering.

Lu Yang fiercely opened his eyes and counted down 2 in secret.

“Fire Shadow Activation”

A flash of light flashed, and Lu Yang jumped out of the bottomless cave instantly. At the same time, 4 pure white lights shone under the bottomless cave, and the other four **** offerings appeared in the cave at the same time.

This is the unique ability of the **** of sacrifice. Five people can fly to any person at any time. When they land and fly away, they will release 50,000 pure damage, and they will kill non-defense occupations with a single blow.

Mu Yu sent a message and said, “Brother, the four guys chasing me have disappeared.”

Lu Yang looked at the five sacrifices in the cave and said, “Now it’s all with me. I’ll send you coordinates. Come here. Let’s fight together.”

“Oh.” Mu Yu said.

Lu Yang marked one of the gods with a sacrifice, and then a burning flame hit him.

“7800000”

With a level 100 gold equipment, level 4 demon heart, own attributes and nine series of elemental **** put together, Lu Yang’s actual intelligence reached 60,000, killing the lord became extremely easy.

Mu Yu chased the coordinates of Yangfa and saw the five gods in the cave. He said happily, "Great, they can't come out."

Lu Yang said, "Export together, hit the one I marked."

"Okay." Mu Yu released a divine punishment to the lord.

"7800000"

Mu Yu, like Lu Yang's equipment, is also a 100-level gold suit with a level 4 Thor heart. From the French players, a nine-element elemental ball burst.

The output of the two was quite horrible, and it took only 3 hours to kill the sacrifice of the **** of 6 billion lives on the ground.

"I am dead." One of the gods sacrificed to death, and the other four gods sacrificed to the ground.

The system prompts: You have successfully killed the Lord's creature, Tenjin Sacrifice.

Lu Yang jumped out of the bottomless pit, came to the side of the sacrifice of the gods, looked at the equipment on the ground, and found a strange golden energy block in it.

Power of Bloodline

Description: He will give you multiple avatar abilities.

Lu Yang shook his fist vigorously, this is what he wanted. He had read the materials in the last life, and some players in the studio mentioned it specifically, that is, the power of the gods to drop this blood.

Don't look at this simple introduction, but this bloodline power is the strongest bloodline power in the world, there is no one, but this bloodline power is also one of the most wasteful bloodline powers by players around the world.

The reason is that the power of this bloodline has a particularly high response speed to the player, or the highest, and only the top group of people are eligible to use this bloodline power.

The reason is that after you have this blood power, you will have 4 extra avatars, of course, not all at once, he will slowly let you have more and more avatars, but this avatar intelligent AI Very low, the order you give will be strictly enforced. For example, if you ask him to hit a monster, he will rush to release it according to the skills you choose, but if you do not control the tower, someone will hit him on the road, he will not evade or Will fight back.

If the avatar dies, the subject will surely die!

Normally, players can't control their own body, they can't control their bodies. Fighting with others, fearing that their spirits are not concentrated enough, the other party can find loopholes. They can control 4 avatars at once, and counting the body is equivalent to controlling 5 people.

The spirit is constantly changing back and forth among these 5 bodies. One of them is not well controlled, and the enemy touches the back and inserts a sword into the back of the neck. The violent battles and thieves after level 100 are very high. Once they are played, Critically tripled, undead and residual blood.

In the previous life, a top player had controlled three avatars at the same time to participate in the World Competition. That player became famous in one battle and swept all the players in the world. For his reason, players around the world followed suit and tried to use three avatars. , Awesome, super awesome, one person can play five or six people without problems, garbage, really garbage, with three avatars, sometimes even players 30 levels lower than him can not beat.

It's not that the equipment is not enough. The equipment of the opponent is three levels worse than him, but he can't control so many people and was attacked by one of them, killing one, and all died.

As a result, the power of this bloodline changed from a credit worth hundreds of thousands to a junk that no one bought for 10,000 yuan.

Many people yell when they are hit by blood, but when they see the avatar, they will yell.

Lu Yang was a poor light egg in the last life. The only advantage is that he has good skills. In poor circumstances, he bought a blood power of avatar. Even when he did not go to Southeast Asia to train homicide, he could control 2 It's a double.

In this life, he has exercised rigorously for nearly 2 years, in order to wait for the power of this blood, the second world competition of the first world in this world is about to start again. Other players compete.

At present, the simplified spell has been understood by everyone. Pyroblast instantly becomes the most basic magic. If the 1st level of the secondary forbidden spell cannot be released within 8 seconds, he will not dare to identify himself as a master.

The gap between other players and Lu Yang is getting smaller and smaller, leaving only a mental reaction speed, but Lu Yang believes that he is now one of the fastest responding people in the game.

After 2 years, more and more masters have emerged. This time the contest is approaching, and many people have publicly clamored to challenge Lu Yang's number one position in the world.

“With this, I can maximize my reaction speed. I'd like to see who wants to challenge my status.” Lu Yang took the power of blood.

System Tip: You have learned the avatar skills. At level 1, you can summon an avatar to participate in the battle.

Lu Yang looked at a new button on the skill bar and chose to activate it. A light flashed on Lu Yang's body. In his body, a player identical to him was split.

The avatar is not just a body, but a new player. His level is 1 and his occupation is none. You can choose any profession for him, either a mage or a warrior.

Lu Yang had long thought about what kind of profession to cooperate with this avatar-Water Master.

“Let’s go back to the city.” Lu Yang said.

“Oh.” Mu Yu said aloud.

The two flew back to the hot spring city using the teleportation scroll. At this time, the hot spring city had restored his original appearance. After Lu Yang blew up all the shops, all the land in the main city was auctioned publicly.

This allowed Lu Yang’s reputation to rise to the next level. At the same time, the entire hot spring city has a look of rejuvenation. There are a lot of players selling and selling in the city.

Because there are few people, Hot Spring City has become the main gathering place for new players, and many trumpet can be seen in the city.

Lu Yang asked Mu Yu to find Han Ying. They went to the mage tower, summoned a clone, and turned him into a water mage.

“Boss, we have 200 warships. If we replace this 7th-level Thor’s wrath, I think we have the strength to find the Dutch trouble.” Chen Mo called.

Lu Yang said, “I have this idea too, so it’s settled. Let’s attack the Netherlands tonight.”

This is good for many people, when I want to hit you, when I want to hit you, when you want to hit me, you have to see if you have enough people.

“I’ll prepare now.” Chen Mo said.

Lu Yang opened a special space and invited all vice presidents such as Tu Feng and Zhuojiu to participate in the meeting.

The light flashed, and more than 30 people entered the special space.

“Boss, what’s the matter?” Bitter Ai asked half a lifetime.

Lu Yang smiled and said, “Good thing, everyone gathers 50,000 players, and they attack the Dutch with me tonight.”

“Wait for you,” Liang Yun said.

“We’re going to go now,” said bitter love for a long time.

Lu Yang said, “Don’t worry, don’t tell them what we are going to do tonight, let them keep silent from now on. I want the enemy to know that we are here just before we get to their door.”

“Yes.” Zhuojia and Tianyao said together.

Lu Yang nodded. There were 200 black devil and hundreds of newly-made 7-level artillery Thor’s wrath, enough to run across the sea. Even if they encountered the main naval forces of Germany and Italy, they could still escape. of.

And this time, more than 500 high-level personnel carriers were seized from the French, enough to transport 1.5 million people.

Lu Yang watched everyone leave. He also exited the special space and sat in the fortress by the seaside. At present, Tianquan Fortress has become one of the main fortresses of the Brotherhood of Iron and Blood, and no other guild players are allowed to approach.

Soon, 1.5 million people gathered, and they all waited in the Tianquan Fortress. At 8 pm, Lu Yang appeared in the outer area of the fortress. Looking at the 1.5 million players in the city, he said, “To bring you together, only For one purpose, let’s go to the Dutch’s obscurity and get on the ship. Tonight is the last day of weakness for Slade’s. After this day, there is no opportunity for this. We must not miss this opportunity. “

The face of 1.5 million people showed an angry look. How Slade mocked Lu Yang and the Jagged Brothers before. This was only three days ago. Everyone remembers it clearly, even though they were run away. However, Slade still clamored at the World Forum. The next time they gather, they will also seek revenge from Lu Yang, and threatened to rob China's 48 main cities.

The entire Jagged Brothers Alliance was struggling to find revenge on the Dutch, but they also knew how difficult it was for Lu Yang to face not only the Netherlands, but also 7 countries including France, Japan, Italy, and Germany.

It is not easy to protect themselves, let alone fight, but they did not expect that Lu Yang really dared to fight out, which made them very excited.

1.5 million people quickly boarded the troop carrier, and Lu Yang boarded the flagship. Taking advantage of the night in the game, more than 1.5 million people sailed straight into the sea.

From Huaxia to the Netherlands, you must pass through Russia, Britain, Italy, Turkey, and France to reach the Netherlands. This is still only the waters of hostile countries, and it has not included the waters of non-hostile countries.

As long as these 1.5 million people come out, almost all enemies will be around!

Fortunately, the game is late at night. The time difference between Europe and China is very different. The Netherlands and China are 7 time zones apart. It is noon in Lu Yang's reality, and it is midnight in the Netherlands.

The fleet moved quickly. After 5 hours, at 5 am Dutch time, Lu Yang took the fleet to Lukang, the Netherlands.

Unlike Huaxia, the map of the Netherlands is not divided into three equal parts by a circle, but on an area of the sea, two-thirds of the main city is based on the sea.

Tu Feng read the information aside, saying: "At present, there are more than 30 million players in the Netherlands who have entered the game. We are now arriving at their first major city, Lugang City, with 2 million players."

"A main city is just like this?" White Wolf asked.

Tu Feng said with a smile: "A lot, you think. There are a total of 36 main cities. On average, there are only 830,000 people in a main city. It is good to have 2 million people in this."

"Hey, what country do I think is so powerful, co-authoring a small country like this, how much effort was spent to gather 4 million people." White Wolf said.

Lu Yang said: "The Slade invasion gathered all the high-level players in the Netherlands. These people are still in a weak period. As long as we play fast, we can rush into the main city within 20 minutes and sell all the shops. "

"Okay, I'm going to go now." Bai Lang said resentfully.

The looting of Slade slaughtered the white wolf, and he wished the same thing would happen to the Dutch once.

On the sea, no one found the problem here, and the only one who found the problem was not in the Netherlands, but in Huaxia.

Liu Jie looked at the information sent by the spies he arranged in the Jagged Brothers League, and found that a large number of players above level 90 inside the guild had disappeared, which made him feel wrong.

"I suspect Lu Yang may have attacked the Netherlands or France." Liu Jie said.

The dead grass frowned and said, "It's impossible. Unless he gets new weapons, I don't think he can attack the Netherlands."

Liu Jie smiled and said, "Based on my understanding of Lu Yang, he will definitely go. Don't believe us to make a bet."

The dead grass said: "Jie Shao, you still have the mood to talk to me about this, don't you tell Slade?"

Liu Jie said: "Some people just do n't know current affairs. I talked to Slade about it, but Slade rejected me. He also thinks he has the ability. I think he should have a big loss before he can know. To your place."
“

The dead grass shrugged his shoulders and said, "Then you want Lu Yang cheap."

Liu Jie said: "It doesn't matter. My family will soon be restored to life. The war between me and Lu Yang will not be resolved in a short time."

The dead grass eyes brightened and asked, "Did you talk about the master's intention in Africa?"

Liu Jie nodded and said, "We originally had eight aluminum mines. This time we decided to start mining. African countries have allowed it. Now the mine is so good. My father plans to continue to invest more and buy some minerals."

The dead grass nodded and said, "It's great. We only paid so little for it when we bought it. At the current price, it was equivalent to nearly a hundred times the turnover. The Liu family could soon recover its vitality."

Liu Jie said: "Don't despise Lu Yang in the future, we will treat him as a real enemy of life and death. You must know that he now has more than 100 billion US dollars in cash and more than 200 billion US dollars in fixed assets. My family Even in the heyday, we have to look up at each other. Now that I have control of the Sky-Eye Alliance, I have the confidence that he will win. Let's continue to think about what to do after Slade fails. "

“A sneeze”

In his sleep, Slade sneezed suddenly. He scratched his nose, opened his eyes uncomfortably, and prepared to continue to sleep.

But without waiting for him to fall asleep, the door was slammed madly, Slade frowned, and walked to the door and asked, "Who is it?"

"President It's me. Open the door and something is wrong." Shouted Vice President Obi.

Slade opened the door and saw not only Obi, but three other vice presidents. He looked at the time, and at 5 am, he asked, "What's the matter, why are you all four here?"

Obi breathed a sigh of relief and said, "Big event, Lu Yang came in with the Brotherhood of Iron and Blood. Now that he has slaughtered Lugang City, come online soon. We're finished this time."

"What?" Slade sat up sharply and said, "How is that possible, he ..."

Before he could finish talking, Slade discovered that it was really possible. The distance between the two sides was only 5 hours. Now it is not only possible, the other party has already called.

He saw several people coming with helmets and said, "You come to the game to log in first, and I also go to the game to find my allies to help."

Slade quickly logged in to the game, and the light flashed. He appeared in the hotel, but found through the window that there were Huaxia players everywhere in the city, and a lot of people were attacking the hotel.

"Bug me, grab it, smash that, yes, smash it, and smash it if you can't sell it." The bitter love commanded loudly for a long time.

Suddenly, he saw a head on the third floor of the hotel. During the game, it was daylight, and he recognized this as Slade.

“Give me this hotel, Slade is in it,” shouted bitterly for half a life.

Players of the Jagged Brothers Alliance, like bees who found flowers, exposed spikes at the tail and rushed towards the hotel.

Chapter 970 - Pain in the Netherlands

The hotel's blood volume was less than 10 billion, and it was quickly smashed by hundreds of thousands of players with skills. Slade, who had nowhere to escape, instantly fell out of the room and fell heavily to the ground.

He just wanted to say a few words, but before he talked, more than 100,000 players rushed towards the 100,000 people who fell out of the hotel.

The number of players in the Lugang City security zone is too small. They did not grab anything and pointed to the person who fell out of the hotel. Who cares what Slade wants to say or what he wants to do, now the robbery is First place.

In just a moment, the people who fell out of more than 100,000 people were killed, Slade also died, and bitter love had found him in the corpse for a long time without looking for him, so he gave up and called Lu Yang said: “Boss, Slade hangs up, I don't know who to kill, this group of animals is too fierce, and Slade does not even say a word.”

Lu Yang laughed and said, “No way, who makes the Netherlands too small? There are only so many people in the city. I really don't know what it means to set up a server for them?”

At this time, Lu Yang had entered the King's Hall. He originally expected it to take 20 minutes to rush in, but he overestimated the number of players in the Dutch at night, and there were no 100,000 people in the entire Lugang City. Most of them were still stalls. of.

Zhuojiu and the White Lion broke into the city in just one wave of attack. It took Luyang and the Wolves Guard to enter the King's Hall in 10 minutes and saw the King.

“For the honor of the Netherlands,” the king yelled out his sword.

“Go to death.” Han Fei Yijian inserted into the king’s neck, and the king with only 100,000 blood directly hung up.

System prompt: Huaxia kills King of Lugang City

Lu Yang took the king’s scepter and obtained a trading interface. More than 20,000 shops in Lugang City all appeared in front of him.

“Sell it all,” Lu Yang said.

More than 20,000 shops disappeared instantly, and Lu Yang received more than one billion euros.

“Chong, it’s all high-level equipment and treasures.”

“I wipe, I can get an escape dagger.”

“This has a transmission staff.”

“There are nine elements.”

...

A large amount of treasures fell to the ground, and 1.5 million Iron Blood Brothers players were looted, and the battlefield was cleaned up in less than 10 minutes.

Lu Yang said: “The whole team, go to the next main city.”

1.5 million people quickly returned to the port and boarded the ship.

“Boss, in the next main city, Slade seems to be deploying defensive forces.” Tu Feng said.

Lu Yang smiled and said: “Then look at his defensive strength. How many people can he gather.”

Everyone laughed.

In fact, Slade can't gather many people. His 4 million main force is sleeping. During this time, not many people wake up. The only people he gathers are the guild players and casual players in the game at night.

When they learned that the Huaxia people came to take revenge, they gathered in the second largest city, Europa, for the first time.

Slade counted only a total of more than 500,000 people, ranging from more than 10 levels to 90 levels, uneven.

“It can't be held at all,” Slade said.

As soon as the words fell, 200 black demon warships and countless troop carriers appeared at sea level in the distance. Soon, Lu Yang's flagship came to a place less than 200 meters from the Europa port.

Lu Yang could clearly see Slade and the troops he gathered on the city head, he smiled.

“Slade, you can't think of it, we met again.” Lu Yang said loudly.

Slade said angrily: “Lu Yang, you mean man, sneak attack in the middle of the night, do you still have a knight spirit.”

Lu Yang laughed and said, “When you came to China in China, wasn't it the daytime in your country, late at night in our country, what did you pretend to be?”

Slade was embarrassed.

Lu Yang said sternly: "Listen to all Dutch players. I am Lu Yang. Revenge is here. You dared to take the lead in attacking our main city in China and slay our players in the whole city. Do n't blame me. All ready, siege. "

At the same time, 200 warships pointed their sideboards towards the city's head.

"Boom ~!"

"Boom ~!"

"Boom ~!"

...

Thousands of shells roared in the cannon, whistling and landed on the head of the city of freedom.

A fierce light lit up, and more than 200,000 Dutch players defending the Iron Brotherhood from being attacked were instantly killed. The remaining 200,000 people were dumbfounded and attacked by the main gun. This was their first encounter. Here.

500 troop carriers were docked, and the ship's board was lowered. The white lion jumped out of the shipyard first and pulled out the sword in his hand and shouted, "Iron brothers, kill ~!"

"Kill ~!" 1.5 million people instantly went crazy and rushed into the city.

Xia Yuwei stood beside Lu Yang and said, "The players of our Huaxia server seem to have a passive skill under the leadership of the boss."

“What skills?” Tu Feng asked.

Xia Yuwei said: “Furious, you will become violent in an instant. Seeing this desperate momentum, most people can’t compare.”

Lu Yang smiled and said, “Who made it difficult for us to get started? The earliest group of people who followed us are now the heads and legionaries of these people. Under their influence, the entire Iron Brotherhood has a group it’s fierce, most people can’t compare.”

The system prompts: you get 1 National War Points

...

Lu Yang said, “Let’s get into the city. Unfortunately, there are too few Dutch people who won’t get National War Points if they don’t go in.”

Xia Yuwei: “...”

Tu Feng: “...”

...

Lu Yang jumped off the warship and led people into the city, but slaughtered a main city in less than half an hour.

Slade had no way to face Lu Yang’s strong attack. The Dutch players resurrected in the necropolis looked angry at Slade.

“It’s you asshole.”

“I’m going to kill you. All my assets are in the shop.”

“You liar, coward.”

“damn it.”

“Say, what now?”

...

Slade was stabbed by his mother. He was a Dutch hero two days ago, but two days later he became a **** liar, coward, and asshole.

Facing the accusations of everyone, he lowered his head, hurriedly quit the game, picked up the phone and called Angel Sword, Edward and others.

But it 's 5:30 in the morning. Edwards and others go to bed late at night. They have to rest during the day until about 9:00 in the morning and wake up three and a half hours in advance. answer the phone.

By the time he woke up several of the presidents of the Sky-Eye Alliance, it was more than 6 o'clock.

“What, Lu Yang went to attack the Netherlands?” The Angel Sword asked in shock.

“We'll gather the fleet to save you,” Ono said.

Liu Jie glanced at him, signaled him not to worry, and said to Slade: “It is not so easy to fight Lu Yang. Do you know how many ships he has brought, what if he still carries thousands of Jihad? “

“This.” Both Edward and Ono froze. They didn't think about it.

“What do you do, you must save me, otherwise I won’t be able to establish a foothold in the Netherlands.” Slade said.

Ono looked at Liu Jie.

Slade noticed Ono’s gaze and quickly asked Liu Jie for help: “Jie Shao, help me, you must have a way, I will not forget your kindness.”

Liu Jie smiled and said, “Even if it ’s kind, it ’s all an alliance. In this way, we now gather the fleet first, and then I go to the country to check the news and see how many ships Lu Yang brought out. Even if I tried to expose the spy, I still want to get all the information from Lu Yang. “

Slade quickly said, “Thank you very much.”

“Let’s prepare, France be careful, the Netherlands is on your side, don’t be attacked by Lu Yang.” Liu Jie said.

Angel Sword nodded.

Edward, Ono, and others gathered their fleets, but it was not so easy to gather the fleets. When they woke up the sleeping players, it was already more than 7 am. When the fleets arrived in the Netherlands, Lu Yang had just robbed The last major city in the Netherlands, Palm City, was swept away.

The Netherlands has the largest number of players in the main city. It is already daylight, and the number of players resisting is almost 10 million.

However, the new fleet of the Netherlands has not yet been completed, and he did not dare to show up. Full-screen players blocked it. Lu Yang aimed the side of 200 warships at Palm City, shelled for half an hour, and killed millions of players.

Hei Yan’s 10,000 forbidden spell masters unifiedly released the stimulus forbidden spell, completely defeating the Dutch players, forcing them to dare not even return to the main city, and Lu Yang easily sold people to Palm City.

“Boss, the fleets of the four countries in the Skyeeye Alliance have entered the Netherlands, and we have to go.” Tu Feng said.

Lu Yang watched countless players hiding deep in the necropolis, with a sneer on his face, and opened a game mall to buy a stone tablet.

“Iron brothers Lu Yang led 1.5 million players to smash 48 main cities in the Netherlands in November 2041, killing 11.49 million. This is evidenced by this monument.” After writing such a sentence on the stone monument, Lu Yang inserted the stone monument in the main Before the city.

“Let’s go on board.” Lu Yang said.

“Can’t let them run away, the fleets of various countries have come to support us.” Shred shouted.

“Rush up and stop them from retreating,” shouted Vice President Obi.

A large number of Dutch players were agitated and rushed towards the port, but before they approached, the Thunder Cannon, which had a rate of fire of only 5 seconds, launched a relentless artillery attack, once covering the enemy who had rushed to kill them.

Lu Yang took 1.5 million people back to the boat easily, looking at Slade standing on the shore, he said: “The next time you dare to talk about Huaxia, I will slaughter your 48 main cities again, you be careful.”

The fleet was gone and Slade was surrounded by angry Dutch players.

“kill him.”

“Kill him.”

“Compensate for our losses.”

“Kill Slade.”

...

Slade was killed by surrounding players without even responding. He chose to be resurrected in the main city. Although he would not be killed here, the surrounding players saw him and surrounded him in anger, pointing at his nose. curse.

When Edward, Ono and others came to Palm City, they only saw a broken main city and a blank Dutch player.

“Slade, we’re here, what about Lu Yang?” Edward asked.

Slade said after a long silence, “Lu Yang is gone, and I have become a traitor in the Netherlands.”

“Chasing, keep chasing, Lu Yang is definitely not far. We have assembled 500 warships this time, and we absolutely have to seize Lu Yang.” Liu Jie said.

Edward and others felt justified and asked a player on the shore. After learning about Lu Yang’s heading, he led the fleet and continued to chase the west.

But what they didn’t know was that Lu Yang didn’t go west at all. Instead, after disappearing from the Netherlands, he made a round and headed towards Russia, preparing to bypass Russia and return to Huaxia.

On board, the players of the Jagged Brothers League were cheering. This attack almost destroyed the entire Dutch business system. Lu Yang sold the business system and earned nearly 6 billion euros.

“Too weak and too easy,” Liang Yun said.

Lu Yang said: "Originally, Europe was not qualified to compete with Huaxia. It was any age, and I wanted to compete with us, not to mention the actual strength, only in the game. . "

Everyone nodded.

"Then we are not the strongest?" Sun Yu asked.

Lu Yang shook his head and said, "I'm not afraid to tell you, in fact, the strongest is not us."

"Where is it?" The White Lion asked.

Lu Yang sighed and said: "The strongest are four, one is us, the second is the United States, the third is Russia, and the fourth you can never guess is Africa."

"Africa?" Xia Yuwei was surprised.

Lu Yang nodded and said, "It's Africa. There is a number you don't care about, but I can tell you that he really exists."

"What number?" Tu Feng asked.

Lu Yang said, "Since 2017, the African population has surpassed Huaxia at a net growth rate of 50 million per year. By 2041, do you know what the population of Africa is?"

Everyone shook his head.

"The figures given by the World Bank, the current population of Africa is 4.8 billion," said Lu Yang.

"How many people?" The White Lion was stunned.

“4.8 billion, this is the number given by the World Bank, but this is not the most surprising. The most surprising thing is that because Africa is so poor, there is only one server in Africa. But such a server is the strongest in the world.” Lu Yang said.

Xia Yuwei asked: “Boss, if you don’t say this, I have forgotten that there is an African server. This time we started the national war, why didn’t you see the African server join?”

Lu Yang said: “The official reason is that the level of African server players is too low to merge for the time being.”

Africans are lazy, poor, and lazy. They can make money by playing games, but they never pursue the ultimate, as long as they have enough money to eat, the level has not been improved.

Suddenly, Lu Yang felt that nothing was right. Liu Jie’s family was mining aluminum ore in Africa. They had very good relations with many African countries, especially those emirates.

“Will Liu Jie have a huge African legion?” Lu Yang suddenly asked such a sentence.

They both hold back the murky wine and the white lion.

“Boss, do you mean that Liu Jie has not been defeated by us, he still has an army?” Zhou Tianming asked.

Lu Yang nodded and said, “I need to check this. I need to check it carefully. Don’t pass it on. I want to confirm it.”

He took out the phone and called Jin Buhuan, saying: “Send someone to Africa and check for me. Is Liu Jie hiring African players to upgrade?”

Jin Buhuan said, “I’ll give you news in three days.”

At present, gold is not converted. It is rich. It has collected more than 1 billion yuan and handed it to Lu Yang. Under the leverage of 20 times the economic crisis, Jin Buchang 's net worth has reached more than 20 billion yuan. All of this money is cash.

“Boss, what, I want to ask you something.” Jin Buhuan didn't hang up and asked a little embarrassedly.

“What is it?” Lu Yang asked.

“Well, how can I spend this money?” Jin Buhuan asked.

Lu Yang laughed. He guessed that Jin Buhuan was now confused, and said, “It's not going to be spent anymore. You can spend as much as you want. You can't spend it in two lifetimes.”

Jin Bu scratched his head and said, “I want to make a contribution to the society, but donate it all. I can't bear it. I can do it myself, and I don't know what to do. Help me think about it.”

Lu Yang recalled it and said, “There is a good thing. Isn't that country next to you gradually opening up? You go to the development zone they built, buy land, build a house, build a school, build an entertainment place, buy a freighter, and take over. All business in this country. “

“Can you do that?” Jin Buhuan asked with some suspicion. He always felt that the country around him was unreliable.

Lu Yang said: “Let 's do this. I will give you 4 billion yuan, and you will get another 2 billion yuan. Let 's do this business together. If it is done, our future generations will follow the blessing. It will also make Danjiang's business possible. better.”

“Okay, then I will follow you.” Jin Buhuan already regarded Lu Yang as an idol He was about to go bankrupt two years ago, and after two years, he became the boss of 20 billion net worth. The difference between them He still feels like dreaming.

Lu Yang asked, “Are your relatives and the bosses who bought your land in Danjiang City still laughing at you?”

Jin Buchang smiled and said, "Yeah, he's still joking at me, thinking I'm stupid."

Lu Yang smiled and said, "The things you make money through the financial crisis must be kept secret. Never tell anyone, and your family can't say that once you leak the news, you are in danger."

Lu Yang has hired so many professional killers to protect him for tens of millions of dollars a year, and it feels not safe enough. Jin Buhuan is so remote that people do n't know who his assassin was.

"Boss rest assured, I dare to tell you the truth in this world, I will not say anything to other people, my girlfriend will not." Jin Buhuan said.

Lu Yang reassured and said, "I'm assured. Contact me. If necessary, I'll come in person."

"Oh, I see." Jin Buchang hung up the phone.

"Boss, the ship has arrived in the Norwegian waters, but our reconnaissance ship encountered a Norwegian pirate, and the other party wanted to grab our ship." The big shark sent a message.

Lu Yang Yile asked, "How many people and how many ships are there?"

"The 20 ships are all Class 5 ships. They are very strong. If we don't want to **** our warships, we will have to sink at least one ship when we meet each other," said Shark.

Lu Yang said, "I'll go and see. The big troops don't move. Those who have this strength, I want to know."

The big shark that can play in Norwegian waters thinks that it will lose a warship in the opening, and only one team can do it.

180 warships slowly reduced their speed. Lu Yang let Chen Mo drive the flagship to the front waters. When he saw the other party's flag in the distance, Lu Yang knew who he was facing.

The famous pirate diamond pirate regiment of the last generation, their leader was called diamond. According to legend, it is a very virtuous pirate. The most hated country is the United Kingdom, because he claimed to be an pirate and was defeated by the British. His ancestors returned He died in battle, and he wants to get honor for his ancestors.

"I said it before, and I got off the boat and saw that you didn't attack me just now. I can let you go."
Shark shouted.

At this point, the ships of both sides have leaned together, and pirates from the ship continue to use ropes to jump to the big shark's ship.

A brown-bearded pirate headed by a blue pirate hat with an obvious huge diamond in his hand, looked at the big shark proudly.

"Huaxia, this is the first time I've seen you. You're out of luck, don't blame me." Diamond was about to order the attack, and a flash of light flashed over. Lu Yang appeared beside the big shark.

"Another man?" Diamond looked carefully at Landing Yang.

Lu Yang smiled at the diamond and said, "You are a diamond."

"How do you know me?" Diamond asked.

Lu Yang said, "I've heard about you. Why, you want to grab my boat?"

“Yes, you have only one choice, give me the boat,” Diamond said.

Lu Yang smiled and said, “Since you want to grab my boat, can I start a duel with you?”

Duel at sea.

The most famous and oldest style of play is Lu Yang’s favorite style of play. With this style of play, I don’t know how many players have become friends with players from other countries, and how many people have become rivals. .

Because the sea duel is no longer a game where rich people use big ships and cannons to blast, it is a game where masters of various countries compete for strength at sea.

“Do you also know the duel at sea?” Diamond signaled his men to stop the attack. If one side initiates a duel at sea against the other, the opposing captain cannot but accept it. If not, the crew will look down on him.

Norwegians who started as pirates attach more importance to this honor. Moreover, this is an official duel. If the duel is successfully launched after the jetty, the ship will directly become the winner.

This mechanism of the game did not lessen the wealthy bosses at the time, but it also gave birth to the bosses to spend a lot of money to hire masters to sit on the battleship.

First, there are several prerequisites for a duel at sea. The first is that the number of players on the ship grabbing side is not less than the enemy, and even more can be triggered. A strong player can replace it.

Now the number of people jumping on the diamond side is larger than that on the big shark side. The duel can take effect. The diamond point opened the marine duel system and said, “Come on, let’s fight.”

Lu Yang smiled and said, “You can think about it, no one in the world has beaten me in the heads-up.”

Diamond looked at Lu Yang with a disdainful look, and said, "Then I will kill you with my own hands."

The system prompts: The duel at sea officially starts, and the losing side will decide the life and death of the winning side.

Diamond itself is a violent battle. His appearance is a clear Nordic, with white skin, a thick beard, a height of more than 1.9 meters, and a whole body of muscles.

This kind of person looks very strong, but in the game, it does not pose any threat to Lu Yanggou, especially when the master fights the fighter, it is impossible for the fighter to win.

"Mermaid Jump"

Diamond suddenly yelled, but instead of launching his charge, he rushed to Lu Yang with a purple shadow, and his left steel fork protruded into the heart of Luyang.

"The Sun Fist"

A fiery light was inserted between Lu Yang's body with a steel fork, centered on the diamond's abdomen, killing 100,000 health, and flying 10 meters away.

"You know I'm not an ordinary soldier?" Diamond asked in surprise.

Lu Yang shook his head and said, "I don't know, guess."

Lu Yang guessed that diamonds are not ordinary warriors. Otherwise, how could he duel himself? There must be something special. He was really guessed. He is a fish-man warrior and he can fight at sea with a special profession.

"I think you have a little eyesight, so I won't hide my strength, try my skill." The diamond fork waved in the diamond, and the water on both sides of the hull gathered on his steel fork.

System prompt: Diamond gains the power of the sea

The power of the sea can make the diamond with 10,000 physical damage. After hitting the target, it can also reduce the opponent's movement speed by 10%. Skills can be stacked, reducing the opponent's movement speed by up to 40%.

“The Murloc Remnant”

With a roar of diamonds, the body turned into three afterimages and attacked Luyang at the same time. In this skill, all three afterimages have attack power and magic immunity, which is one of the strongest attack skills of the Murloc Warrior.

“flicker”

Lu Yang jumped behind the diamond, and a spinning flame cross appeared in his hand, throwing it towards the back of the diamond.

“Murman Spike”

The diamonds do not flicker and dodge, launching the charge skills towards Lu Yang against the cross of flames.

Lu Yang knew that this spell was immune to magic, and escaped a dagger in his hand.

“flicker”

Lu Yang blinked twice, but just after landing, he found an escape dagger under his feet, and his face changed.

“Remnant Flame”

An afterglow of flames rushed back, and just ran out for a second, the diamond suddenly appeared in front of Lu Yang, still maintaining the state of stabbing of the fishman, just as the steel fork was about to enter Lu Yang's body.

“activation”

Lu Yang instantly launched his skills, jumped to a distance of 2 meters, and once again avoided the attack of the steel fork.

Diamond put away his weapon and did not continue to attack. He looked at Lu Yang in surprise and said, “You are the first person to escape from my set of moves. How did you do that?”

Lu Yang smiled and said, “You have lost, do you need to fight again?”

“What do you mean?” Diamond asked in a panic.

Lu Yang said: “Your magic immunity skills have been used, how can you fight me?”

“I’ll know it before I try.” The diamond dashed towards the landing sun.

Lu Yang did not evade this time, rushing towards the diamond, when he was about to hit, Lu Yang punched his left hand on the ground.

“Flame Storm”

The diamond was stunned instantly.

“Meteorite Impact”

A meteorite fell from the sky in the center of the diamond's body.

“Pyroblast”

Lu Yang’s mouth spelled out that one after another Pyroblast hit the diamond’s head and backed him again and again.

The diamond didn’t even have a chance to react and was killed by Lu Yang’s super high damage!

The system prompts: Lu Yang wins the duel. Now you can decide the survival or death of all the other crew members.

Diamond looked horrified, but he wasn’t too afraid, and shouted, “Don’t let me see you again in Norwegian waters, otherwise I must kill you.”

Lu Yang smiled and clicked to make the other party alive and said, “There is no hatred between us, so don’t be so.”

Diamond froze and asked, “You don’t kill me, don’t you want to take my fleet?”

They were 20 Tier 5 warships, and diamonds were rushed to Britain after the opening of the National War.

Lu Yang smiled and pointed behind the diamond. The diamond looked back, and 180 warships were approaching. Diamond said in shock: “Is this all your boat?”

Lu Yang nodded and said, “It’s all mine.”

The diamond sighed, showing a shameful look, and instead patted Lu Yang’s arm, saying, “You will be my diamond brother in the future.”

Lu Yang smiled and said, “Okay, then I recognize you, my brother. So, how about I invest in you?”

“Invest in me?” Diamond asked puzzledly.

Lu Yang said: “I invested in 100 Tier 5 warships. You help me stop Edward’s fleet and prevent them from attacking China.”

“If this is the case, then I don’t need your investment, my 20 ships are enough.” Diamond said proudly.

Lu Yang said: “I know you are highly capable, but I hope you can develop faster and truly reproduce the glory of your ancestors and enter the UK. If you can succeed, the pressure on my side will be much reduced.”

Diamond thought about it and said, “Yes, I accept your investment. What about money?”

Lu Yang said: “Three or seven sail, you seven or three, as long as you can let me recover the cost of these 100 ships, I don’t need you to make money for me.”

There is such a good thing, the word diamond no longer hesitates, and said: “Then it is decided, don’t give me the boat first, I will come to you after I have recruited enough crew.”

Lu Yang nodded and asked, “Do you have a transfer certificate for Water of Elements?”

“I know where it’s sold, it’s expensive, you want that?” Diamond asked.

Lu Yang nodded and said, “I have a clone.”

A flash of light flashed, and Lu Yang’s body was divided into a person exactly like him, saying, “I need to transfer my clone to a good job.”

“You follow me to Norway, and I will take you to buy Elemental Water,” Diamond said.

Lu Yang nodded and said in the simulation group using a talker: "I went to Norway in a couple you take my body back."

"Okay," said Muddy.

Lu Yang followed the diamond to his pirate ship and followed him to the coastal cities of Norway. Players from all countries can enter the main city of the opponent as long as they have not declared war.

The diamond landed at an auction house, pointed to the water of the element and said, "There, 500 gold coins."

Lu Yang took out 500 gold coins and bought Elemental Water, and said, "I'll go to another job. You can be busy, don't worry about me."

"I'm going to hire someone." Diamond went.

Lu Yang clicked on the system interface and used national war points to exchange a lot of element balls. This time against the Netherlands, he earned more than 10 million national war points, which can be exchanged for more than 10 billion experience. Raised to level 80.

"Sure enough, the national war is the best way to upgrade." Lu Yang took the transfer certificate to the mage tower, turning his water mage into a rare professional element of water.

Elemental Water is not a particularly strong profession, but he has a special place that can be converted into water form, integrated into any water, and avoid the enemy's tracking.

The main reason for Lu Yang to choose the Water of the Elements is that there is a Neptune Hall below the European waters, where there is a legendary class 100 weapon called the sea soul trident.

The person holding this weapon can perform a second transfer and become the king of the ocean. Of course, the avatar cannot use the power of blood, otherwise it will be too much.

Chapter 972 - Myth islands

Since Lu Yang has chosen the power of the bloodline of avatars, he must inevitably reach the extreme of each avatar.

“Have you heard that there is a marine palace on the bottom of the sea, with the legendary weapon Sea Soul Trident in it, which is the weapon of professional dreams of the water system.”

“I’ve been searching for a long time in the nearby waters, but unfortunately, I haven’t seen the Ocean Palace, nor have I heard about this weapon.”

...

The surrounding water mages gathered together to discuss. Unlike the national service, the main cities of European servers are mostly by the sea. The water mage here can borrow the power of seawater to double the damage, and the role of naval battles is the largest, so their status is very high.

Anyone who can be transferred to become a water mage is a master trained by the major guilds. If none of them can be found, it proves that several super guilds have not been found.

Lu Yang put his mind down a little. The Poseidon Palace was very special. To open it, he needed to find something called the Fallen Secret Box. It happened that he knew where.

Leaving the mage tower, Lu Yang came to a small island overseas through a system of merchant ships. This is a small island group that is the boundary of six countries.

The top players in Europe all gathered on this archipelago on the first day of the national war and wanted to find some special missions.

The same was true of the previous generation, but Lu Yang remembered that because the mission here was too special, many top players in Europe did not immediately find a solution to the mission.

“The ship has reached its destination. Welcome to the beautiful mythical islands.” The captain said in a loud voice with a pipe.

The boats are docked. This is a very beautiful small fishing village by the sea. In addition to the wooden port, there are only a few hundred houses built with dried grass on the shore. These houses are supported by logs one meter above the beach.

The sea water is blue, clear and transparent, the beach is pure white, and the sky is cloudless. These scenery together make this island look very beautiful.

There are many dark-skinned NPCs on the island doing the daily work of fishermen, going fishing in the sea, drying the fishing nets, making dried fish, and cooking with fire. It is a beautiful natural ecology.

“Stranger, do you need help?” A young NPC asked when he came to Lu Yang.

Lu Yang asked: “I want to do a task, is there any task worth challenging?”

The young man pointed at a distant bay and said, “If you want to do a task, you can go there. The village chief is posting the task and looking for someone who can help.”

Lu Yang expressed his gratitude and walked towards the bay. There was a particularly large thatched house on the edge of the bay. A middle-aged NPC with a height of 2 meters and a strong body was painted in color ink. He was standing in front of the house and looking forward. Players participating in the mission.

At a glance you can see that they are not a country, there are tall Germans and Russians, there are also people who are shorter than the Huaxia, but have deep eyes, and Italians with obvious signs on their bodies.

“Hurry up, it’s about to be successful, and two more hits will surely kill you.”

“Quick.”

“Last minute.”

“Oh, I haven’t even been killed. What the **** is going on.”

...

Through highly intelligent AI translation, Lu Yang clearly translated their dialogue into Huaxia. He came over and saw that they were carrying out a challenge.

This challenge is a mini-game, two famous mini-games developed by the system after the opening of the National War.

The first is that big fish eat small fish, allowing you to control a small fish to survive in the sea. The small fish is bleeding every moment. If you can let the small fish continuously eat smaller fish than him, His blood volume will increase.

When the blood volume reaches a certain value, he will change from a small fish to a larger fish. If the blood volume drops to 0 points, he will drop from the current level by one level. When it becomes the smallest fish, the blood volume is 0. At that time, the task will indicate failure.

The second mini-game is fishing, which can be challenged by single players or in teams. The challenge is to get the most revenue, and it is possible to catch the most valuable baby, pure pearls.

This thing can increase the level of special items, such as special equipment such as flame marks, but it is very difficult to obtain.

The third mini-game is fishing, using various fishing cannons for capture. The worst weapon is a harpoon, and the strongest weapon is a * cannon. The cost of use varies.

Of these three games, the most expensive one is the third one, but if you play it, you will make a lot of money, but currently the official setting is very difficult. Players from all countries are playing, but those who can make money Not many, even if you make money, you will lose it next time because it is too difficult.

“Hmm? Is there an Asian?” Some European players found Lu Yang.

Players discussing the game around looked at Lu Yang, everyone’s face with a bad expression, especially those who just lost, they just lost more than one million euros in a game.

“Are you Japanese?” A 2-meter-tall, fat Englishman came to Lu Yang, with a beard staring at his eyes, and asked Yang with his fingers.

“No.”

“Korean?” Another asked.

“No,” Lu Yang said, “I’m from China.”

“Huaxia people?” The chubby Briton looked at Lu Yang and asked, “Are you the Brotherhood of Jagged Brothers?”

Lu Yang nodded and said, “Yes.”

The appearance of his avatar is very different from his own. It is impossible to recognize that he is the chairman of the Iron Brotherhood.

“Damn, get out of Europe. You are not welcome here,” the British player said arrogantly.

Lu Yang looked at the fat man and asked, “How old are you, can you represent Europe?”

“You’re looking for death.” The fat man was furious, and pulled out the big sword in his hand and was about to split towards Lu Yang, but before falling, a lightning hit the fat man and killed it.

“This is the mythical island. Without my permission, no one is eligible to fight here.” The patriarch’s hands flashed a strong thunder and lightning, and all European players stopped.

“I think this guy is lucky.”

“Don’t let me see you elsewhere.”

...

Lu Yang sneered, and stood still and said, “Come and kill me if you don’t agree with me. What ruthless words do you, the Europeans, now only speak out?”

In 2040, Europe lags far behind Huaxia both economically and militarily. In the face of the rise of Huaxia, their reputation in Asia has been completely removed. Therefore, in recent years, all countries have been watching China’s unhappiness. It also shamelessly accused Huaxia, leading domestic people to have opinions on Huaxia.

Lu Yang’s sentence was equivalent to arousing the anger of everyone, and they glared at Lu Yang. Several British players scolded: “Courage to go outside with us, don’t talk empty words here.”

“I don’t have the equipment right now, you wait for me to finish the task, let’s fight here.” Lu Yang said without fear.

The suit that Lu Yang wore was only a Level 80 Destroyer suit. The opponent's level was 90, and he was also wearing a dark gold suit of level 90. Although the British were arrogant, they had the arrogant qualification. The equipment can win two or three of them, but he is worried about being besieged by the others. Only after completing the task can he get the final reward of the mini-game.

“Just because you want to challenge these three games, it is really an ignorant person.”

“Huaxia people are so ignorant and stupid.”

“Haha, to give you a chance, I would like to see how you played these three games.”

...

None of the dozens of Europeans surrounding him believed that Lu Yang could win.

Lu Yang sneered, and didn't talk nonsense to them, came to the front of the first small game, big fish eat small fish, this game was very popular 20 years ago, “Second World” added him to the game after modification inside.

Players can choose from five difficulty levels: normal, difficult, elite, nightmare, and hell. The simplest ordinary difficulty is for players' entertainment. The reward is only experience, which is a good way to upgrade.

Starting from difficulties, the game becomes difficult. Everyone starts out as a level 1 fish. In a sea that is 200 meters long, 200 meters wide, and 100 meters high, the enemy will move forward, backward, left, right, and below in five directions. The player launches an attack.

Incoming fish are basically level 2 to level 7. Only few are level 1. However, the level 1 small fish cannot be eaten. The player controlled small fish is also level 1. They can only eat from the bottom of the sea. Coming bubbles.

Bubbles appear 3 times per second. As long as you eat 20 enough, you can upgrade to level 2, but it is very difficult for players to eat 20 enough.

There are level 2 small fish everywhere, and a mistake is eaten. When you dodge, you need to be optimistic about the amount of blood that drops at the moment. At present, even elite players are stuck at the difficulty level. Few people challenge the elite level. Difficulty.

“If you have one, challenge the elite.”

“Don’t delay.”

...

Lu Yang glanced at them, and directly selected the difficulty of hell. The light flashed. Lu Yang entered the mini-game and turned into a level 1 yellow croaker.

This is another difficult part of the game, all of them are people, but now they have to learn how fish swim in the sea, it is difficult to master a good sense of balance.

Another difficulty is that unlike the player playing this game in front of the computer, there can be seen outside the screen when a fish comes over. The player himself enters the game, only two eyes look to the sides and front, and to look behind and below. No.

To get past this task, you need super fast reaction speed and understanding of the game. You can use the feeling of the current to know whether the fish rushing towards you can eat or can eat you.

The surrounding European players watched Lu Yang enter the game and watched the battle interface. Among the crowd, there was a French beauty wearing a burgundy red dress. When she looked at Lu Yang, her expression was more playful. And curiosity, not disgust.

“It’s absolutely impossible to win, I bet he can’t survive **** for 10 seconds, 10 coins.”

“I can’t hold 5 seconds for 10 gold coins.”

...

No player believes that Lu Yang can persist for more than 20 seconds, and the difficulty of **** is a level 7 big shark from the beginning.

The size of a large shark of level 7 is 50 times that of a small fish of level 1. It only takes a long time to avoid the huge size of the shark, and it also needs to avoid the attack of fish from other directions. Upgrading, they have all tried, it is almost impossible.

Several female players around the burgundy long skirt beauty are also discussing.

“Even if he is a member of the Iron Brotherhood, I don’t think he can last 30 seconds.” Aisha said.

“I don’t believe it,” Heath said.

The burgundy long skirt beauty took out 10 gold coins and said, “I also bet on a game, I guess he can pass this challenge.”

The surrounding European players were surprised, and they were even more amazed when they saw the beauty in a burgundy long dress.

“Beauty, if you lose money to us this way, you won’t think about me,” a British player asked with a smile.

The players around all showed smiles that they knew each other and looked at the beauties in burgundy dresses.

The beauties did not mind their ridicule, but instead showed a playful look, dismissive glance at the British player, the kind of scornful look, so this British player was greatly stimulated.

The system prompts: Your behavior is suspected of violations. You are not allowed to speak for 1 hour.

The British players were provoked and were about to tease the beauty with more vulgar words, but they were systematically warned.

“Second World” game rules designed for the legal standards of various countries, the system will punish this player if it involves insulting or vulgar words.

Britain is a special country. Everyone is usually gentle in real life, just like a gentleman, but when they watch the ball, the world’s most notorious football hooligan is the British.

This is a country with a deformed personality. He is different from several big countries such as China and the United States. The contrast between people’s lives and work is not too large. Like the United Kingdom, only Japan and South Korea are similar to them.

It was a vent that returned to life after being greatly suppressed at work. After the appearance of “Second World”, British players put the vent into the game, so the violations of British players are the most severe countries. one.

“Deserve it Aisha said angrily.

The beautiful woman in a burgundy long skirt gave Aisha a smile and said, “Watch the game, don’t care about their opinions.”

In the game, Lu Yang is already familiar with the swimming speed and surrounding environment of the small fish.

System prompt: countdown

Start

“Oh ~”

The huge noise came from Lu Yang's all directions at the moment when it started, all of which were the sounds of a level 7 whale.

Lu Yang's favorite game in the last life was this game. He has an extraordinary reaction speed and has an ability to adapt to this game beyond the average person. Based on the previous life's perception of the game, he knows that he has a whale.

A whale on the left is 30 meters below and a whale on the right is 60 meters below. A set of whale is below him. There is a level 7 shark directly in front of him. Although there is no sound, his water pattern is special. He ran into him head-on.

Lu Yang quickly swam to the upper right. The small fishes of level 1 swim slowly, far from the speed of sharks and whales of level 7. After 5 seconds, he avoided the first wave of sharks. Without waiting for him to rest, the second wave of attacks has arrived.

Lu Yang still relied on the surrounding water ripples. He continued to move upstream and reached a position 1 meter away from the sea surface. In only 2 seconds of free time, Lu Yang looked around and found 2 groups of bubbles, each group Three.

Chapter 974 - Magic operation

Lu Yang swam quickly towards the bubbles, and thrilledly ate 3 bubbles, making up for 3 health.

The second wave of attack came, a shark rushed towards the landing sun from directly in front of the water, and Lu Yang quickly went downstream. He was waiting for this shark. Although this game looks very difficult, there are many kinds of fish. , But one thing is certain, the number of monsters in the map is certain.

That is 197, which is a number summed up by experiments of countless great gods of the last life. When there are 197 fish in the local map, the total vacancy in the entire map is only 2 cubic meters.

If you want to use this 2 cubic meters of space to the extreme, you must let all schools of fish attack from the sea, so that a huge gap will be exposed below.

Lu Yang glanced around, around, and below, a Level 7 fish rushed towards him, and in the rest, there were countless fish swimming in the map.

Lu Yang quickly figured out his travel route. After moving to the downstream to avoid the sharks coming from the front, Lu Yang swam to the lower left and avoided two level 5 fish. Then he continued to move downstream and continuously avoided. 10 waves of fish he came to the bottom of the sea.

There are two pearl mussels on the bottom of the sea. The pearls in the clam shells can increase the health by 50 points. Two pearls can raise Lu Yang's small fish to level 2.

Many people want to take shortcuts to eat the pearls in pearl mussels. However, the opening and closing speed of pearl mussels is very fast, only about 1.5 seconds. Players need to drill into pearl mussels and eat pearls within 1.5 seconds. Run out again.

It is relatively easy under difficult difficulty, there are fewer fish, and the player may still eat pearls. Under **** difficulty, if you want to eat pearls, you want to have super high reaction speed and accurate calculation ability.

If there is a mistake, it will be eaten by big fish or pearl mussel!

It happened that the moment when Lu Yang came down, the two clam shells opened at the same time, and the beautiful pearls dazzled in the clear water.

“Hey, just guess he’ll grab the pearls and wait for death. At the current speed, when he drills into the pearl mussels to eat the pearls and then comes out, he will be hit by a whale, and he is dead.” Said British players.

“It’s only been 6 seconds and I won.” Another British player said.

The beauty in a burgundy long dress looked nervously at Lu Yang. He wondered if Lu Yang could succeed.

Lu Yang quickly drilled into the pearl mussel, and when everyone thought he would eat the pearl, Lu Yang flicked his tail and pulled it towards the pearl.

“噼”

The pearl was drawn by Lu Yang’s tail, and while flying out of the pearl mussel, it hit the pearl in the pearl mussel next to it, and two pearls were blown out at the same time.

The moment Lu Yang pumped the pearl, his body accelerated obliquely forward and swam out before the pearl mussel closed.

A whale swam towards the landing sun. According to this distance, it would be eaten by the whale. Lu Yang tried to swim in the opposite direction of the pearl.

At this time, there were all fish around. Only Lu Yang ran away without fish. After 2 seconds, the whale caught up with Lu Yang and opened his mouth. Just when Lu Yang had entered the mouth of the whale, Lu Yang fiercely Flick your tail and swim to the right.

Scratching the tail of the 3rd-level big fish on the right side escaped the attack range of the whale, and the players watching it were amazed.

“That’s fine too.”

“But he’s getting farther and farther away from Pearl.”

“There isn’t much health left.”

“I don’t believe he can live 15 seconds.”

...

Lu Yang couldn’t hear the outside voice, and he looked at the surrounding with full attention. At this moment, there was another Level 2 fish rushing in front of him. He still did not swim in the direction of pearls, but turned upstream, there was 3 bubbles and a level 3 fish.

This is the only chance. Lu Yang now has 1 point of blood left. As long as it takes 5 seconds to die, Lu Yang must pass through a level 3 fish to eat the 3 bubbles above.

Level 3 fish has not found Lu Yang. He continued to swim towards the front according to a fixed route. Lu Yang rushed towards him. Just when Lu Yang swam under the bubble, the level 3 fish arrived. In front of Lu Yang, he opened his mouth and bite at Landing Yang.

Lu Yang flicked his tail hard, avoiding the attack of Level 3 fish dangerously, eating 3 bubbles, and gaining 15 seconds of health.

At this time, the surrounding area was still full of fish. Lu Yang carefully looked around. Suddenly, he found a slash, just to eat the pearl. He rushed towards the position of the pearl.

Players from all over the world looked at Lu Yang’s charge in amazement. Every time when Lu Yang was about to hit a fish’s tail, it happened that the fish left Lu Yang to that position. Just like that, Lu Yang slashed On the bottom of the sea, I came to the two pearls, opened my mouth and ate 2 pearls.

The system prompts: You have upgraded, now it is a level 2 fish

There is no smile on Lu Yang's face. Now he is level 2 but he only has 10 seconds left. If he cannot eat level 1 fish or bubbles within 10 seconds, he will change back to level 1 fish. .

“Woo ~~~”

A 5th-level manta rushed over from his left. It happened that there were 3 first-level small fishes in front of the manta.

Lu Yang rushed towards Manta Ray quickly, Level 2 fish swim faster than Level 1 Lu Yang rushed in front of Manta Ray before Manta Ray, and ate 2 After the fish, he swam upwards.

The manta ray's body is long and flat, less than 2 meters in height, and the forehead is sloped. Lu Yang swims up against the forehead of the manta ray, and escapes sideways before the spike on his head touches him. .

It happened that there were many first-class small fish swimming in front of him. Lu Yang opened his mouth and ate 3 fish in succession, which solved the problem of blood volume. He breathed a sigh of relief and looked around.

The pearl mussel below will open again, and then there will be pearls again. Lu Yang will continue to swim towards the top according to the old method and try to open up the space.

“Why is he heading up again, and hurry up to eat a Tier 1 fish? There are so many around.”

“Strange, what does he mean?”

“He's going to eat pearls,” said the beauty in a burgundy dress.

The surrounding players reacted with an incredible look.

“I don’t believe he can succeed again.”

“I don’t believe it.”

At that time, almost everyone thought that Lu Yang was due to luck, and no one believed that he could succeed.

They do n’t know that this is a fixed routine and it ’s the best way to upgrade. Although there are many level 1 small fishes around, the same small fishes are all big level 5 and above. Let the player rise to the third level, but if the player is greedy for a while, he will be eaten by the big 5 fish behind.

Chapter 975 - Special Spell-Assassinate Water Mist

There are countless people who suffered from this loss in the last life. Although the official did not give an explanation during the carnival, everyone determined that this was an official trap.

Lu Yang also thought that this was an unavoidable trap, so he didn’t go for these little fish, and continued to open up the space according to the method of the previous life.

When it took him nearly a minute to swim to the bottom of the sea again, his blood was almost degraded to the level of a small fish.

The two pearl mussels opened at the same time, revealing the pearls inside, Lu Yang twitched his tail, drew a pearl out of the pearl mussel, hit the second pearl, and the two pearls flew out of the mussel shell together again.

A fish rushed forward, a swordfish, and Lu Yang escaped easily, rushed to the pearl, ate the two pearls, and the blood volume was greatly increased.

The surge of water ripples suddenly became strong, and Lu Yang became tense. He knew that this was a sign that the Level 3 piranha passed.

Lu Yang looked to the right and found this group of piranhas. He needed to escape quickly, but he found that there were 6 first-class small fishes in front of the group of piranhas.

Lu Yangmeng rushed towards the piranha. After eating 3 small fishes, the nearest piranha was less than 30 cm away from him. As long as there was 1 second, he would be piranha It was eaten, but at this moment, he opened his mouth and ate another small fish.

System prompt: You have risen to level 3

Lu Yang also became a Level 3 piranha, collided with the piranhas on the opposite side, neither of them lost blood, and the piranha swam away. Lu Yang successfully escaped the second crisis.

“Fuck, you can fight like this.”

“It’s incredible. I can still play like this.”

...

Players watching from the outside have become admired from contempt.

After Lu Yang reached level 3, the game still hasn’t become simpler. Level 3 piranhas are bigger in size. Although the speed is faster, it is also more difficult to avoid the attacks of large fish.

According to the design of the game, as long as you encounter it, even if you die, if you want to not encounter a level 7 fish in a level 3 situation, this difficulty has increased by at least 10%.

At this time, Lu Yang didn’t have a better way to solve this problem. At the 3rd level, due to the speed and strength of the reaction, he stopped in place, relying on the reaction ability to respond to the water pattern, constantly avoiding attacks, and Eat level 1 and level 2 fish swimming around.

In less than 2 minutes, Lu Yang ate 20 fish and escaped countless attacks, successfully rising to level 4, followed by levels 5 and 6.

The rule of this game is that even if you rise to level 7, even if you win, when level 6, there are more level 7 fishes in the map, and Lu Yang's level 6 fishes are bigger, and more operations are needed to avoid.

Lu Yang was desperate, trying to avoid small fish below level 6 while trying to avoid it.

People watching the battle outside became nervous, and they all felt that Lu Yang could succeed.

"Dodge on the left."

"Right, right."

"Pretty, up."

...

The players shouted involuntarily. Although they knew that Lu Yang could not hear it, they just couldn't help the excitement in their hearts.

Just as they were nervously watching the landing fish eating fish one by one, all of a sudden the screen was dark and everyone was forcibly left to watch the battle.

"What happened?"

"I don't know, are you dead? I haven't seen him hit a fish."

"What the system is doing, it's not because you don't want to give rewards."

...

Lu Yang looked at the players around him with a smile. He heard the words of these players and said with a smile, "I succeeded."

"you succeeded?"

"What kind of reward is given, show us soon."

...

Players asked around.

Lu Yang picked up a skill book and said, "I didn't expect the reward to be so good."

Assassination Water Mist

Category: Water System

Consumption: 50% magic +1000 points / second

Range: 5000 yards

Description: The player can release a large range of water mist. Enemies in the water mist cannot use any detection magic. The range of vision is 5. You have no visual restrictions in the water mist. At the same time, you can find invisible enemies, including space stealth. Increases your movement speed by 50% and your physical attack speed by 70%.

Restriction: Only mages who have transferred to Elemental Water can use it.

This is a special magic that is not inferior to the top forbidden spells. It is one of the most headachesome skills of water magic.

As a rare occupation in the game, the characteristics of the Elemental Water Mage are not based on output, but on control and melee.

The skills of this profession have been criticized by players. Who can understand that most of the skills of a water magician are launched from a short distance.

Such as spunlace, the attack damage is very considerable, summoning 6 spunlace at one time, and attacking the enemy at the same time, the damage is 60% of spell damage per spunlace, which is equivalent to 3.6 times the spell damage.

It looks good, but the attack range of this skill is only 2 meters, that is, you must release this skill within a distance of 2 meters, whether it is a soldier, a thief, a druid, a paladin or a shaman, you dare to go Within 2 meters of them, you will not live for 3 seconds.

But this skill is so overbearing. When the water of the element appeared, everyone thought it was a waste job. When the assassination water mist appeared, all the people understood how this job was played.

This is a melee mage class is the second world. I see that other classes have affiliated classes. For example, warriors have magic warriors and use long-range spell attacks, so they design them for mage classes. A melee mage.

Lu Yang's level rose to 80, but he didn't have any skill points. Originally, he was worried that he would not be able to play this book, but he never got it once. Now he can safely add his skill points to his strength. Properties above.

With a few clicks, he nodded his power to more than 1,000, nodded with satisfaction, and his melee mage route was more than half formed.

“Boy, how about you sell this book to us, I will give you 10 gold coins.” British players came to Lu Yang and said.

A total of 10 people surrounded Lu Yang, and the fat man, headed by him, looked at Lu Yang fiercely.

“You guys are bullies, this book is worth at least 500 gold coins,” said the beauty player in a wine red dress.

“This is a matter for the Royal Navy Guild. Those who don’t want to get in trouble get away.” The fat man finally revealed his identity.

This is the name of the Edward’s Guild. It is the first guild in the United Kingdom. It has countless top players, more than 500 ships of level 5, and is the hegemon in this area of Europe.

“You.” Aisha wanted to argue, but was stopped by the beautiful woman in a burgundy long skirt, went aside, and said, “Trust him, he has this ability.”

Lu Yang smiled and looked at Aisha and the beautiful girl in a long skirt, and looked at the British fat man. He clicked directly to study and ate the skill book. “Sorry, I have eaten.”

Chapter 976 - Head to Hand

“You dared to eat it.” A dozen British players showed an angry look.

The headed fat man pointed to Landing Yang and said, “Give up your account, otherwise you don’t want to leave.”

Lu Yang was happy and said, “You guys are assholes, aren’t you **** in your own country?”

“Speak nonsense, hand it over,” said the fat man.

Lu Yang shook his head and said, "This is impossible."

"Then you're trying to die, believe it or not, I can't let you out of the safe zone." The British fat man threatened.

Lu Yang shrugged his shoulders and said, "Do you have this qualification? I use back to the city in the safe zone. What can you do with me?"

The fat man laughed and said, "It looks like you don't know our strength yet, it has angered our Royal Navy and slaughtered this place."

Lu Yang said, "Try it, I'll wait here."

"Don't wait, we're here." A proud voice came from afar.

Lu Yang glanced over and came to a group of level 100 players. The first person was wearing a level 100 dark gold suit, and the rest were all in dark gold suits.

"This is the Guard of the Silver Hand !?"

"The most elite unit of the Angel Sword came."

...

Players in the surrounding area retreat one after another, and no one wants to get into it.

Lu Yang looked at the person he had always asked, "Who are you?"

A young man headed said proudly: "I am King Arthur, commander of the Silver Hand of the Royal Navy, who is Your Excellency."

Lu Yang said with a smile: "Unknown little pawn."

King Arthur shook his head with a smile and said, "It is rumored that the Chinese Navy sailed through the Norwegian waters, and you came from Norway, and you have such a good technique. Presumably you are the president of the Brotherhood of the Iron Blood Brother Lu Yang."

Lu Yang laughed. He didn't think that this person named King Arthur was quite clever. He could guess that he was himself, but at this time he couldn't admit that the second Global Competition was imminent, and his avatar was his killer.

"Sorry, you guessed it wrong, I'm the Brotherhood of the Jagged Brothers, but I'm a water mage, I'm the head of the tsunami mage under Luyang, deep sea." Lu Yang said.

"Deep sea?" King Arthur frowned and looked at Lu Yang. When he came, he saw a video sent by a fat man. When he found that the opponent's technique was so strong, he first felt that this person was Lu Yang.

But everyone knows that Lu Yang is a fire mage, and now he heard this person say that he is the head of the tsunami mage regiment, which made King Arthur feel a little alarmed.

If the deep sea in front of this has this strength, then the tricks of the Jagged Brothers Elite League are a little deeper.

"Friend, although there are some contradictions between our two guilds, there is no contradiction between you and me. I hope you can sell your account to us. The skill of assassination of water mist is very meaningful to us. I hope you can agree." King Arthur said.

Lu Yang smiled and said, "Don't make fun of it. The skill of assassination of water mist is not only useful to you, but also to the Brotherhood of Iron and Blood. It will be clear at a glance that this skill is of great significance to naval battles."

King Arthur smiled and said, "That being the case, then don't blame us for being rude, I won't let you go back to the city."

Hundreds of people around had already taken advantage of their positions. After hearing this, they immediately launched an attack on the surrounding NPCs. Another 10 people aimed at Lu Yang and rushed towards him.

Lu Yang seemed to have known all this before, with a smile on his face.

“flicker”

White light flashed. Before three people rushed in front of him, a white light flashed. He jumped to a position 30 yards behind him and just landed.

“Assassination Fog”

The area around 5000 meters around Lu Yang was instantly shrouded in a thick fog. While Lu Yang launched his attack, the 3 mages instantly came to Lu Yang’s second landing point and launched control skills, but they flickered in front of Lu Yang. At that moment, they found that no one around them could see them except themselves, and there was a thick fog everywhere.

“Is this the Assassination Fog?”

“Shooter, search for humanoids.”

“Warlock, perceive living beings around.”

“The thief released a whirlwind of knives.”

“The wind mage blows away the fog.”

...

King Arthur issued a series of commands. Hundreds of players turned on various skills at the same time. In a moment, the skills in the mist flew.

Lu Yang was next to a big tree in the village at this time, and there was that beautiful girl in a wine-red dress.

“Be careful, don’t get hurt by both sides by mistake, we will wait under the tree,” said the beauty in a burgundy dress.

“Sister, why do you have to look for him, that person said it was not Lu Yang.” Aisha said.

“No, he must be Lu Yang, I’m sure.” Said the beauty in a burgundy long skirt.

Lu Yang was happy, suddenly appeared in front of the beauties, and asked, “How can you be sure it’s mine?”

“You?” Lu Yang was surprised by Lu Yang and said, “Why are you here?”

Lu Yang said, “I’m looking for you to borrow equipment. I saw it. Your equipment is all a magician’s. You lend it to me first. My magic value is not enough, and the fog will soon dissipate.”

“Yes.” The beautiful lady in a long skirt did not hesitate, took out her equipment and handed it to Lu Yang, said: “I still have a magic scepter, which can quickly restore 10,000 magic values after use. “

“Thank you.” A smile appeared on the corner of Lu Yang’s mouth, and his body was hidden into darkness.

This time he came here to do the task. I never thought about fighting with people. I didn’t expect to have this problem temporarily. His national war points have bought experience points. He can only find someone to borrow equipment. If the beauty does not borrow, he You have to run away, but fortunately, he is right.

“The 80-level excellent suit is really a good piece of equipment.” After Lu Yang all put it on, the magic value exceeds 100,000. This way he can support the fog for a long time. As long as the fog is always there, his movement speed And attack speed will be faster than ordinary players, allowing him to easily kill.

“Arthur, this fog is too weird, and our exploration skills have all shown to be invalid.” Said the elite of a silver hand.

“This is me too, everyone keeps the exit, don’t let him run away, everyone gathers together, we check the village little by little.” Arthur said.

The village has only one entrance, but it has a diameter of 50 meters. In this fog, at least 50 people need to be able to hold it, but this group of people is an elite master. Only 10 people came to the entrance location and used the group-wide magic to bomb the entrance densely. .

Outside the village is the beach besides the harbor. There are ships waiting in the harbor to prevent Lu Yang from escaping through the ships.

But these precautions are not enough. They can’t see anything in the fog, but Lu Yang can see it, and they can see it without any restrictions.

Chapter 977 - Dark Sword · Jie Jiu (Excellent Gold

If he is willing, he can now use the city roll to leave, or use the skills to teleport to the body, but he does not need to do this, what he wants now is to enjoy the dominance of the Elemental Water Mage.

The violent melee attack is a very good way to attack. Lu Yang took the two-handed sword borrowed from Aisha and quickly came behind a silver-handed mage. The mage placed an order and was ready to start.

At this moment the mage was looking around in perplexity, even though Lu Yang reached the position of 5 meters in front of him, he still could not find it.

“Where are you, there are no teammates around me,” shouted the English mage.

“We’re here, come here quickly,” a small captain shouted.

It happened that the voice of the captain was behind Lu Yang, and the British mage ran towards Landing Yang.

Lu Yang turned over and passed the English mage. When he ran past Lu Yang, Lu Yang suddenly raised his sword and inserted it into the mage’s neck.

“10786” (triple crit)

“I was attacked, Master Huaxia was by my side.” The British Master shouted while using the ring of ice.

“唰”

A piece of ice burst from him and spread around, instantly freezing Lu Yang.

“Water prison”

Lu Yang didn’t even want to run at all. He pointed his left hand at a British mage, and a water prison trapped him in place.

“Release Control”

The British mage was well equipped, with medals for decontrol, splashes of water, and the British mage ran out, but before he landed, the splashes of water around him suddenly turned into spunlace and shot towards his neck.

“12198” (triple crit)

“12798” (triple crit)

“11998” (triple crit)

...

Six consecutive spunlace shot into the neck of the British mage, inflicting more than 70,000 injuries, and instantaneous blood.

“What kind of skill is this, how could it hurt so high, save me quickly.” The British mage jumped 100 meters forward with a blink and ran away.

But how could Lu Yang let him run away? The position he jumped away was still alone, which made Lu Yang smile helplessly.

He continued to chase past the mage. In the fog, his movement speed was 50% faster than normal. Within 10 seconds, Lu Yang ran behind the British mage.

The blood volume of the British mage is recovering quickly. He uses a level 9 recovery potion, which can recover to full blood in 15 seconds.

Would Lu Yang give him that chance, and the sword in his hand was stuck again.

“11986” (triple crit)

The English mage just breathed a sigh of relief and thought he had run out. Suddenly he was hurt again. He was speechless and scolded: "You just stare at me and fight, you lunatic."

Lu Yang said with a smile: "Sorry, you can only be the first person to be killed after I have the assassination water mist."

The British mage has just used all the escape skills and controls. Now he can only fight with Lu Yang to see who can kill whom first.

"If it comes out, I'm going to challenge you, what kind of man is he hiding in the mist?" The English mage scolded in anger.

"Hehe." Lu Yang launched the spunlace skills again, and 6 spunlace hit the back of the British mage at the same time.

System prompt: Player Seraph is dead.

"Damn, we have a brother." King Arthur angered.

"You still worry about yourself," Lu Yang said, walking to the side of Arthur 5 meters.

"Where are you?" King Arthur heard his voice and rushed towards Lu Yang.

"I'm right by your side." At this time, Lu Yang got behind King Arthur. There were 20 elite players beside him, all of whom were the first to follow him. At this time, he was searching for Lu in a row. Yang.

"Be careful," shouted King Arthur.

Lu Yang said around King Arthur: "In this case, you still want to fight back against me, I really don't know if you should be too confident or stupid, try my skills."

Lu Yang changed back to the beauty of the long skirt, and stood behind King Arthur, chanting a spell.

“High Pressure Water Gun”

An extremely condensed column of water continued to form in Lu Yang’s hands, eventually turning into a stick shape, and he threw it vigorously towards the back of King Arthur.

“45098” (triple crit)

King Arthur’s blood dropped a large piece, he quickly turned back, with a look of panic on his face, he was afraid, he was not afraid that Lu Yang’s attack was high, he was afraid that Lu Yang’s attack was not in the water mist The slightest fluctuation.

This skill without breaking air is the most headache because you can’t avoid it.

“How could it be so strong.” King Arthur asked in surprise.

Lu Yang said with a smile: “It doesn’t matter if I tell you, the water of elements is so strong. He is one of the most valuable categories in this rare profession in the water system. Don’t think you can avoid it, I will kill you all one by one ,get ready.”

“High Pressure Water Gun”

The second liquid water stick was in the center of King Arthur’s face, and he was hit without a chance to react.

“Give me blood,” shouted King Arthur.

“It’s late.” Lu Yang launched the flashing skills and suddenly came behind him. While the sword in his hand was inserted into his neck, six spunlace were also inserted into his head.

King Arthur, die!

“Arthur is dead, pick up his gear,” shouted a mage.

Lu Yang hadn't even noticed. Hearing this sentence, he picked up Arthur's equipment.

Lu Yang was happy said: "I can't imagine that there is such a great benefit to killing people. It turns out that you are also a magic swordsman, so I save time on equipment."

"Damn it, my weapon." King Arthur was rescued, and he found that his weapon had fallen.

Lu Yang said: "Your equipment is good, I smiled."

Unfortunately, his level is not 100, otherwise he can kill everyone here by holding this weapon.

This can also be seen, how powerful a water elemental master of the rare element is to assassinate the water mist. Such a top-equipped player, if there is no water mist, Lu Yang wants to kill him, it will cost a lot of money. Strength, and a long time, but now only for a while, was killed by Lu Yang.

"Damn, I'm going to kill you." King Arthur scolded. There was only one such weapon in his body that was excellent gold, and the rest were dark gold, let alone the other. This weapon alone made the entire guild It took a lot of time, but now it broke out, he didn't know how to explain to the chairman.

Chapter 978 - Summon Shark

Lu Yang said, "You're afraid you won't have that chance."

He did not go to control Arthur anymore, turned to find other well-equipped British elite players to kill, ordinary physical attack and spunlace attack, as long as two consecutive use, a mage will definitely die.

200 of the team he brought this time were mages, who were killed one by one by Lu Yang in the fog.

When the fiftieth man was killed, the other side collapsed, and a resurrected mage shouted, "Boss, order an evacuation. This battle cannot be fought. We don't know where he is?"

"Yeah, he can't be killed at all, he can't find his place."

...

Facing the complaints of dozens of mages around him, King Arthur looked at the white fog in front of him, and he was okay.

"Retreat, exit the village," King Arthur shouted.

More than 500 people fumbled and ran towards the gate.

"Want to leave, is it so easy?" Lu Yang continued to hunt with two-handed swords and killed 12 mages, and then King Arthur's team ran out of the village and came to the port.

"Get on board," shouted King Arthur.

It stands to reason that King Arthur could order the artillery on the ship to block the entrance to the village, but the fog filled the sea, and the port was full of fog and could not see anything.

If Lu Yang wasn't too badly equipped, he would have the confidence to take down a warship and watch the enemies all board the ship and escape to an unseen place, and he received the spell.

The village returned to normal. Elites from various countries hiding in the corner came out and looked at Lu Yang in astonishment.

"The assassination of water mist is really powerful."

"Have a report to the boss, buy this skill book."

“Did the video go back?”

“The hair videos were all foggy. Contact the boss directly to explain.”

...

A group of people talked to their associates.

The burgundy robe beauty came in front of Lu Yang. Her equipment was lent to Lu Yang, and her robes were borrowed. All that remained was a white dress, which looked very beautiful and even seductive.

“My clothes,” said the beautiful woman proudly.

Lu Yang smiled and returned the equipment to the beauties, and asked, “What’s the name?”

“Ayala.” The beauty changed her equipment, and she slicked her hair elegantly, and asked, “You are not the deep sea, are you Lu Yang, right?”

Lu Yang smiled and shook his head, and said, “No, I’m the deep sea, please call me the prince of the sea.”

“Gee ...” Aisha.

“Spit ...” Heath.

Ayala resisted vomiting, raised an eyebrow at Lu Yang and said, “Well, I believe you are in the deep ocean.”

Lu Yang snickered inside and said, "Thank you very much just now. What's the matter with you about finding our Jagged Brotherhood?"

Speaking of this, Ayala frowned, and said anxiously, "I want to ally with the Brotherhood of Iron and Blood."

"Allied? Are you?" Lu Yang asked.

"I'm the president of the Spanish First Guild Dragonwing. You know, we have enmity with the British. The British players have been looking for our troubles, but we have some internal problems, and the warship has been unable to find a good one. Built, I would like to ask you to help us build some warships." Ayala said.

Lu Yang laughed. He did n't need Arayado to say that he knew what happened to Spain and how Britain became a maritime supremacy. Did n't he just defeat the Spanish navy? Then things are simpler. One Gibraltar Strait. The two countries have been Fight for it.

From the map, Gibraltar is surrounded by Spanish territory, but it is British territory. Why is it that Britain has not taken Spain and robbed it.

How much money does a strait shipping make in a year? It is simply a cornucopia. If someone puts it in for you, it will be taken away. Can Spain not hate Britain?

The British also looked down on Spain. This time the naval battle started, Edward did not have the trouble to find Lu Yang for the first time, but took the navy to attack Spain many times. Because of this move, he was very high in the minds of British players.

Another target he was attacked on was Argentina, also for territorial reasons.

Spain also wants a shame, as long as it is to raise the war with the British, whoever shouts this slogan, whose guild can bring Spanish players together.

However, the level of players in the two countries is somewhat different. At present, the wings of the dragon have been pressed on the ground by the Royal Navy, and they have no ability to resist. All navies dare to land in the middle of the night and usually do not dare to stop on the sea.

Lu Yang knew Araya's idea. It was nothing more than building a sea boat through Huaxia and competing with the British. He said, "Yes, how many ships you want to build."

"300 ships, but I can't give you too high a price, we have limited funds," Ayala said.

Lu Yang said, "I don't want you to ask for more money. Level 5 black devil and abyss cannon. You can give me as much as I can build the shipyard."

Ayala looked at Lu Yang in surprise and asked, "Can you be the master?"

Lu Yang forgets that he is now in the deep sea, and he blindly edits: "The boss of war at sea has been given to me, not to mention the good thing of having one more ally, I can make the decision."

Ayala was surprised. She did not expect that a naval general had such great power in Lu Yang, saying, "I thank you so much."

"You're welcome, sign the contract. You give me a 30% deposit, and the ship is built. You can give me the remaining money, and you can send a person to Huaxia to supervise these warships." Lu Yang said.

"Yes," Ayala said happily.

"It's great, there are some new warships, we will definitely defeat Edward." Aisha said.

Lu Yang said with a smile: "Don't underestimate him, or you will suffer."

Ayala nodded and asked, "Where are you going now? The British won't let you go. Would you like to leave on our boat?"

Lu Yang shook his head and said, "There are three games in total. I only played the first one, and I had to play the other two."

The remaining two games are multiplayer fishing and one is multiplayer fishing.

"Which one do you play first? The remaining two are multiplayer games. We are not as good as you, but we can help you," Ayala said.

Lu Yang shook his head and said, "No need to do it first, I will play a solo fishing first."

Single-person fishing is not a simulation of the real world, but is teleported to a special map, there is a sea, you are responsible for throwing rod fishing on the boat, the fish caught can be exchanged for rewards to the village head.

The rewards of various fish are different. The most valuable item on the reward item is a skill book called "Summoning Sharks". Lu Yang went to him.

"Do you need our help?" Aisha asked.

Lu Yang said, "Okay, come together."

"My friend, support me, I'm here to help you." A roar came from the sea in the distance.

Lu Yang looked up, and the Norwegian Pirate Diamond drove over with a few boats. After docking, the diamond ran into the village with a group of people holding steel forks. When he saw nobody in Lu Yang, he blinked and asked "What about the silver hand?"

Lu Yang asked with a smile: "Why are you here?"

"I heard that you were surrounded by the silver hand, wouldn't you come over here," Diamond said.

“All of you were killed by your brother.” Aisha said with a smile.

“You alone? Kill the silver hand?” Diamond Games couldn’t believe it.

“More than 500 people have been beaten away. The group of scared King Arthur all ran back to the boat and fled,” Heath said.

“Brother, you are so strong, how did you do that?” Diamond asked in amazement.

Lu Yang quietly sent a message to the diamond, telling him that he is now using the pseudonym deep sea, and said, “Good luck, you are here, and we 5 fish together.”

“Fishing?” Diamond asked.

Lu Yang pulled him into the fishing space, accompanied by the three sisters of Ayala.

The light flashed.

Five people came to a small boat. The boat was 10 meters long and only 1 meter wide. Fortunately, the sea was calm and there were no wind or waves. Otherwise, a big wave could overturn the boat.

Lu Yang sat on the boat’s cross-arms and said, “Let’s sit side by side, listen to me and fish together. If there is money or a big fish, I will tell you how to fish.”

There are many types of fish. The most valuable fish that individuals can catch is called money maggots. Five of these fish can be exchanged for a big shark skill book.

“Okay Diamonds and Ayala and others learn to sit on the side and they are good at fishing, but they haven’t found a way to fish for money. They are curious about how Lu Yang is. Did it.

Lu Yang threw the fishhook and waited quietly. Soon, an eastern star spot bit the hook. Lu Yang pulled the fishing rod to find the feeling of fishing.

After fishing for three ordinary small fish, after finding the feeling, Lu Yang threw the fishing hook below 21.05 meters of seawater this time.

This position is the most favorite area for money 鯨, which is summarized by countless players in the last life. In fact, the method of fishing for money 鯨 in the previous life has already been polished by elite players. As long as your reaction speed is fast enough, you will I was able to catch money, so much so that "Summon Shark", a skill book that was originally worth thousands of dollars, later became 10 gold coins.

"Brother, let me tell you, you still have to go somewhere else. Fishing is not so easy, especially for the money. Many people have tried here, but they have not been successful. Don't ..." Diamond didn't wait to say After that, Lu Yang's fishhook sank.

"A fish bites," Aisha shouted.

Lu Yang fiercely pulled the hook, and he felt it from the strength. This is the money puppet. When the money bites the hook, he will struggle desperately. You can't wrestle with him. After a long time, he will break free .

You can't loose the rod, once you want to slowly pull him up in a parade way, the result is still decoupled.

The only way is to quickly pull the lever quickly to loosen it, and to pull the money out of the sea rhythmically at a super high frequency.

Lu Yang quickly pulled the rod to close it. This is a frequency that cannot be expressed in words. Sometimes money is struggling too hard. You will control the strength according to your feel. This is a kind of money that has been countless times.的 Feel that you can have later.

20 meters

10 m

5 meters

1 meter

At this distance, Diamond and Ayala both saw what kind of fish Lu Yang was fishing for, and while showing surprise expression, they cheered for Lu Yang.

“Come on.”

“It’s about to succeed.”

“It’s just 1 meter short. Come on, money is awkward.”

...

Lu Yang stared at the money cricket intently, and pulled him to a position 10 cm away from the surface. Suddenly, he pulled the fishing rod sharply, and the money cricket dehydrated and was taken to the fishing line. Mid-air.

The system prompts: You got a money 鯁

“Pretty.”

“Success.”

“incredible.”

Lu Yang grabbed the money with his right hand and put it in his backpack. He shook his fist firmly and looked at them and said, “It’s not bad.”

“It’s more than good, it’s amazing,” Diamond said.

“It worked the first time, how did you do it,” Ayala asked.

Aisha said: “There are 4 more can be exchanged for the summoning shark skill book, I look forward to it.”

Lu Yang said, “Look at me, there should be no problem.”

He continued to toss the rod and waited. Diamond and Alaia did not fish this time, focusing on the fishing rod that landed in the sun.

In less than 1 minute, there was another puppet of money on the hook. According to the method just described, Lu Yang seemed difficult, but in fact, he pulled the puppet on the boat very easily.

“The second one.”

“Three short.”

...

Lu Yang put money puppets in his backpack and continued fishing. In the surprise look of diamonds, Lu Yang quickly caught 5 money puppets.

“Wait a minute, I’ll go and exchange the skill books.” Lu Yang said.

“Come on and show us what this skill is like,” Diamond said.

Lu Yang nodded, exited the fishing map, returned to the village chief, and said, “I want to exchange the fish for the items.”

“Oh, boy, what fish did you catch? If it’s a good thing, I’m willing to buy it at a large price,” said the village chief.

Lu Yang took out five money puppets and said, “This is it.”

“Money! You guys, you caught the money, this is a treasure worth thousands of dollars. If you exchange it, only this thing will be worth to you.” The village chief gave a skill book to Lu Yang.

Summon Shark

Department: Water System

Distance: 100 yards

Cost: 1000 magic

Description: Summon two sharks with an attack power of 70% of the player’s intelligence.

Lu Yang clicked to learn skills and was about to leave. Suddenly the village chief spoke.

“Lady, I don’t know if you are interested in helping me.” The village chief asked.

Lu Yang’s eyes brightened, and the task was hidden. He quickly asked, “What task? I’m willing to help.”

“A really good young man. Seeing your fishing skills are so good, I must be a fishing expert, can you help me catch 30 split-bearded sea snakes, I am willing to use marine amulets to exchange with you,” said the village chief.

The system prompts whether you accept the task of the village chief.

Lu Yang did not hesitate to click to accept, even if he would not accept this task, because the effect of the marine talisman is to improve the water spell skills by 5 levels.

“Give me some time and I’ll be back soon.” Lu Yang clicked and teleported to the fishing map and returned to Diamond’s boat.

“How about, let us show you the sharks,” Diamond said.

Lu Yang smiled and pointed to the sea with his left hand, two strong lights flashed, and two sharks with a length of 10 meters appeared beside Lu Yang.

The shark’s fierce eyes and mouthfuls of fangs made the whole body chill, and Aisha asked, “It looks so fierce, how is his attack power.”

Lu Yang sent them the attribute map of the shark.

big shark

Grade 1

Hit points: 300000/300000

Attack: 116

Defense: 1987

Magic Resistance: 1912

skill:

Devour: Eat a unit below the boss level, inflicting 10,000 damage per second

Giant Shark Flick: The shark fiercely slaps the target with his tail, causing X1.5 times the attack damage (the damage is siege damage, and the damage to the building is doubled).

“How does this giant shark flick seem to be used exclusively against ships?” Heath asked.

Lu Yang said: “Yes, he was used to deal with ships.”

Aisha asked, “Is the damage a little low?”

Lu Yang said with a smile: “That’s because my intelligence is too low. I don’t have equipment on me, only basic intelligence.”

“Aren’t you a mage, haven’t you added intelligence?” Aisha asked.

Lu Yang said: “I am a melee mage, and all attributes are added to the strength damage.”

Aisha threw her tongue out, feeling very incredible.

“When I change into an intelligence suit in the future, the two sharks’ attack power will be higher.” Lu Yang took out the fishing rod and said, “Let’s continue fishing, I took a task, fishing for sea snakes.”

Ayala asked, “How can we catch a big fish, we haven’t caught it for a long time.”

“Yes, master, give us a pointer,” Aisha said.

After just what they have learned, they have realized that Lu Yang is extremely familiar with this task, and they have stopped trying and asked Lu Yang instead.

“The diving depth of the big fish is about 30 meters underwater. If you drop the fish line to that depth, whoever fell into the big fish, shout, others will help catch it together.” Lu Yang said.

Diamond scratched his head asked: “How to fish, I don’t understand.”

Lu Yang said, “I’m not too late to tell you when you’re hooked, go ahead.”

“Oh.” The crowd nodded and landed Yang and continued fishing.

Lu Yang lowered the fish line to a depth of 50 meters. At this depth, the depth at which sea snakes often swim. Fishing sea snakes is more strenuous than fishing for money. It requires a more sophisticated approach.

While he was waiting for the sea snake, Ayala shouted, “I caught a big fish. The system prompts me.”

“How?” Diamond asked.

Lu Yang said, “That good harpoon, jump in with me.”

He had to use a harpoon to catch a big fish. He picked up the harpoon and jumped into the sea with the diamond, Aisha and Heath, and saw a big fish 30 meters underwater.

“Put it under his fins with a harpoon.” Lu Yang finished typing, throwing the harpoon hard in his hand, and inserted the fin part of the big fish.

The system prompts: There is still 50 points in shark fin health.

The diamond threw out the harpoon, centering the fins.

“50”

The system prompts that the left fin cannot move.

Aisha learned something from Heath. The two came to the right, threw out the harpoon, and hit the fins on the other side.

The fish’s ability to struggle was reduced by two-thirds, and it was easily caught out of the sea by Ayala.

“Success,” Araya shouted excitedly.

Chapter 980 - Big business

Lu Yang said: “Who will go back and exchange the big fish, the next one is temporarily unavailable for you.”

Big fish can be exchanged for pure pearls to upgrade the equipment level, but this thing is not available. You can’t catch big fish every time. Some players have done experiments in the last life. Five players can only catch up to 7 pearls a day.

Now I’ve caught one. I’ll wait at least 3 hours for the next one. I do n’t need to continue fishing for big fish.

“I’ll go exchange.” Aisha happily flew back to the village with the big fish.

Diamond asked: “Brother, you are the first player to crack this fishing method. We thought that big fish was also fishing with a fishing rod. It turned out to be killed with a harpoon. No wonder it was never fished before.”

Lu Yang said with a smile: “Don’t spread this method. A few of you know it. If you don’t say it, you can make a small fortune.”

Ayala said to Lu Yang: “Thank you, I really don’t know how to thank you. I didn’t help you, but I have benefited you.”

Lu Yang said, “If you feel embarrassed, help me catch a split-bearded sea snake.”

“Okay,” Ayala said.

Lu Yang told them the depth of the seawater thrown by the fishhook and took some of them to fish together. A short time later, Aisha returned, gave the pearl to Lu Yang, and went fishing with her.

After waiting for several minutes, the five people’s fishhook suddenly moved together.

“It’s a split-bearded sea snake, listen to me and take 9 seconds, then let go for 2 seconds,” Lu Yang said.

“If you pull it for such a long time, you won’t get rid of it,” Diamond asked, pulling the fishing rod hard. Under normal circumstances, the deep-water fish wanted to pull him up, and said that it would be released after pulling for 5 seconds. For a long time, deep-water fish must be unhooked.

Lu Yang said: “Trust me, it won’t work for one second, it won’t work for one second, it must be 9 seconds.”

Time is decoupling and decoupling when it grows. This is the hardest part of the split-bearded sea snake, but for many people, it is also the easiest. Is n’t it a pre-read time of 9 seconds? Just open it.

9 seconds.

Lu Yang loosened, diamonds, Ayala and others also loosened. After 2 seconds, Lu Yang yanked, and Ayala also learned everything.

3 times in a row, Lu Yang successfully pulled the split-bearded sea snake out of the water.

"I succeeded," Diamond shouted, and he also pulled out a split-beard sea snake.

"I did it too," Ayala said.

Heath and Aisha glanced at each other's empty fishhook, and Aisha shouted and said, "We failed."

Lu Yang said with a smile: "It's okay, keep going, it's easy after one experience."

"Well." Heath and Aisha nodded.

Lu Yang collected three split-bearded sea snakes and continued fishing.

"Dididi"

Lu Yang's intercom rang. He picked it up and looked at it, and found that it was Qi Yun. He smiled and pressed the connect button, and asked, "What's the matter?"

"Boss, I'll tell you the good news. I found out that Liu Jie did recruit a large number of players in Africa." Qi Yun said.

"How many people?" Lu Yang asked.

“You have to be mentally prepared, there are a lot of people, at least tens of millions, and they are all free services.” Qi Yun said.

“Why is it free?” Lu Yang asked.

Qi Yun said, “Liu Jie is clever. He distributed helmets to local players for free in Africa, and worked with local patriarchs to hire these patriarchs. It took a small amount of money to get a large number of people.”

Lu Yang nodded. It is conceivable that many Africans still have tribal systems. Now the Africans are fried, but the locals are too poor to eat. As long as you give a small amount of money and food, you can hire a large number of people.

“Yes, I’m afraid he’s finished this time. It’s good.” Lu Yang said.

Qi Yun said with a smile: “Boss, you are really interesting. Who doesn’t expect the enemy to die early, you are afraid he died too early.”

Lu Yang laughed and said, “You don’t understand. I have to avenge Liu Jie’s revenge. Otherwise, I must report in the New World. Otherwise, I am not addicted.”

With a black line in his head, Qi Yun smiled and said, “Do I need to do anything else? I’m already bidding with the Liu family for minerals from Africa.”

Lu Yang said: “Can you help me find a stronger organization, I want to monitor the movement of players in various countries around the world.”

“Yes, I happen to have someone to recommend to you.” Qi Yun said.

Lu Yang asked: “Reliable?”

Qi Yun said, "It depends on whether you believe him or not. This person you know, his name is Xue Yiming."

Lu Yang frowned, and asked, "Why is he? Isn't he in Europe? How did you meet him?"

Qi Yun said: "The boy was found by dead grass. He almost died. Fortunately, his life was large and he survived, but his mother was seriously injured. I went to the hospital to see my friends and saw him in the special care ward.

There is some money in the world that is not easy to take, and if you take it, you have to bear the corresponding price. Xue Yiming is paying the price now.

Lu Yang said, "I'll talk to him."

"Okay, he's in Modu right now. I'll stabilize him first and let him not get too excited, waiting for you to come over." Qi Yun said.

Lu Yang hung up, hung up the phone and looked at the diamond, saying, "I'm going out, I'm afraid I won't be able to come back today. You can help me catch a split-bearded sea snake."

"No problem." Diamond said, he's hooked on fishing now. The role of the split-bearded sea snake is not only here, but also to take the task outside. He wanted to use this money to find a way for his brothers.

"Leave it to us," Ayala said.

Lu Yang nodded, and after exiting the game, found black and white, and said, "Follow me to the magic city."

Black and white scratched his head and said, "Boss, I have something to ask for."

"What's the matter?" Lu Yang said, and it was the first time Black and White told him to ask for the word.

“Well, isn’t our manpower enough? I want to fill a group of brothers.” Black and White said.

“Bring it here, I have believed anyone you are looking for.” Lu Yang said.

A black-and-white heart touched, saying: “This group of people is special, of which 39 are just 18 years old and are the children of disabled special forces.”

This time I changed to Lu Yang scratching his head and asked, “Why not let them enter the game and make the same money, although it is less than being a mercenary, it is not too bad.”

Black and white said: “You are raising the disabled in white, these children are embarrassed and insist on repaying this kindness.”

At first, Black and White agreed to be hired by Lu Yang. One of the conditions was that Lu Yang raised these people. It was unexpected that these children were grateful to Lu Yang.

Lu Yang said, “Well, if they are willing to do this, I will give them to you, but if they are not qualified, let them enter the game and help me manage things. They are all my family. I am assured. “
