

Wild Fire 981

Chapter 981 - Recruit

Black and white is really touched. You are good to him. You do n't need it, but you are good to his brother. He will work hard for you.

"Boss, I thank you for them." Black and White said.

Lu Yang patted him on the shoulder and made him ready to go. Soon, 20 personal security officers arrived, and Lu Yang directly chartered a plane and flew to Modu.

Qi Yun did not pick up the plane, he went to the hospital to find Xue Yiming, and settled him in the largest hotel in Modu.

Lu Yang went directly to the hotel and saw Xue Yiming in the room. At this time Xue Yiming was full of remorse.

"What's wrong, regret helping me?" Lu Yang asked.

Xue Yiming shook his head and said, "Blame me, if you have money, you don't know how to enjoy it. If you didn't listen, you would buy a sports car and be found dead."

Lu Yang told him before that even if he got the money, within 5 years, he could not use the money to enjoy it, and could only hide in a villa abroad, but Xue Yiming was a mortal after all. With so much money, Liu Jie's family was beaten by Lu Yang again and ruined. He couldn't help the attraction of the sports car, thinking that Liu Jie was not able to trouble him, but when he bought a sports car, he revealed his identity.

Lu Yang sighed and said, "What does Tianyan Alliance do? You don't want to think about it, buy a sports car? You are spending your money to die."

Xue Yiming looked remorse.

Lu Yang went on to say: "Fortunately, your kid is savvy, he has prepared the back road ahead of time, and if something happens, you can still escape with your mother. This is a blessing."

"But my father was dead and my mother was seriously injured." Xue Yiming said with gritted teeth.

Lu Yang asked, "You need to know that today's incident is that you made mistakes first, and you can't blame anyone."

"But my father can't strangle him. I want to take revenge on him." Xue Yiming looked up at Lu Yang and said, "I don't blame you. I helped you because you saved my mother. After that, you did nothing to me. Anything owed is my fault this time, but I will never let my father strangle him to death. I want to get revenge on Liu Jie. "

Lu Yang said: "I really need someone like you. Are you sure you want to participate in this, this time you are not facing the Liu Jie family, but the entire Skyeeye Alliance."

Xue Yiming gritted his teeth and said, "I am willing, as long as I can kill Liu Jie and kill those who betrayed me in the Skyeeye Alliance, I will die."

Lu Yang patted him on the shoulder and said, "Very well, just have your courage. Take your mother to Donghai. I will arrange someone to protect your mother."

Xue Yiming nodded and said, "What do you want me to do?"

Lu Yang said, "I want to set up an organization that monitors the movement of the Skyeeye Alliance in the game on the one hand, and monitors the movement of players in various countries around the world. I give you enough money, and you want to pull me a very large piece of information. Net, can you do it? "

Xue Yiming said: "This is simple, my old business, but when can I avenge Liu Jie?"

Lu Yang and Qi Yun both laughed. The two looked at each other. Lu Yang said, "Did you see us, you want to get revenge and wait in line first, then we will finish before we report."

Xue Yiming was a little helpless and said, "I'm not willing."

"There is nothing to be reconciled to. We just started this war, and the battle is still going on." Lu Yang said.

It is a very difficult thing to completely defeat the Liu's consortium. Lu Yang relied on such a big thing as the economic crisis to collect tens of billions of funds. He only lost the Liu family and lost three banks, but he He is still a large family company in the United States, and there are still so many mineral industries that make his family a big profit.

Lu Yang handed a bank card to Xue Yiming and said: "This is 10 million US dollars. You first pull up the Asian intelligence network. The European side belongs to my guild. When you are busy with Asian affairs, I will They give it to you. "

"Rest assured, within a month, I will cover the intelligence networks of 11 Asian countries." Xue Yiming said.

Lu Yang patted his shoulders with a smile, and flew back to Huaxia with Xue Yiming and his mother that night on a chartered flight.

Early the next morning, when Lu Yang went online, the three daughters of Ayala on Mythical Island took dozens of people, and the diamonds were fishing there with a vote lower.

Lu Yang looked at the diamond five big and three thick but focused on holding a thin fishing rod and was very funny. He came to him and asked, "How about, how many split-bearded sea snakes have been caught?"

"You're back. I've fished it all for you." Diamond gave 27 split-bearded sea snakes to Lu Yang, saying, "Brother, your method is really good. I have made a lot of money with this method."

Ayala said, "So do we."

Lu Yang said with a smile: "Look for the last task with me. If you can complete it, your reward will not be worse."

The last one is a fishing mission.

Diamond said in surprise: "Brother, don't think about it, don't do that task, it's too expensive."

Lu Yang said, "I'm a master of fishing. You two each have 7 masters and go fishing with me."

"If you count the top masters, I have four of them." Ayala said.

"I have three." Diamond said.

Seven people were selected shortly. Ayala did not take Aisha, but three others. Ayala said, "They are the three vice presidents of our guild."

Diamond said: "All three of me are captains. They are the strongest and hope to meet your requirements."

Lu Yang laughed said: "Listen to my security standards, you can go with me to exchange equipment."

The 30 split-bearded sea snakes can be exchanged for marine amulets. Lu Yang took them to the village chief and gave the sea snakes to the other party.

"This is for you." The village chief gave a talisman to Lu Yang.

Amulet of the sea

Level: 0

Intelligence: +1000

Description: Wear him to gain the power of the ocean, summon skill +5.

Lu Yang shook his fist and wore the ocean talisman on his body. His summoning shark skill became level 6.

This is not enough. The water mage has sea tide chariots and tridents. They can continue to improve their skill levels. Counting their own upgrades, they can upgrade up to level 17.

However, these things all need to be found by Lu Yang, and for the time being he can't do it, he said to the village chief, "A few of us want to try fishing."

"You guys, you have courage. This requires a lot of money. Are you prepared?" The village chief asked.

Lu Yang handed out 800 gold coins to the village chief and said, "Come for each of us to exchange 800 Lightning Cannons."

"Yes." The village chief took the gold coins and sent 800 Thunder Cannons to Lu Yang and Diamond 8 of them.

"Well, you guys have enough money," Diamond said.

Lu Yang said: "If you want to win this game, you have to be willing to spend money and follow me."

Chapter 982 - Golden fish

He took the diamond and they came to the fishing platform. This is an octagonal platform with a length of 5 meters. Each corner can seat a person. There is a large screen on the platform, which is the same as the computer version of the fishing game.

After everyone sat down, Diamond asked, "Brother, I really can't play this. Don't blame me for losing your money if you don't play well."

Lu Yang said, "No, you just do what I say, and you can make money."

There are a total of more than 30 types of fish in the fishing game. Level 1 fish has only 1 point. The highest level 9 fish has 80,000 points. There is also a special kind of golden fish. Hitting one gives you 100,000 points.

System prompt: Fishing is about to start

Start

A large number of fishes appeared on the screen, starting with a slice of small fish, about 200 at a time, sandwiched between the small fish was a fish of grade 9, and then a large number of fish of grade 2 to 8 appeared.

The swimming speed of the school of fish is not fast enough for the player to slowly aim, but the swimming speed of each fish is different, and it is likely that the fish will overlap and be blocked by other fish.

Suddenly, a golden fish swims quickly, with a golden light, a 5-level screen, and it only takes about 1 second to swim past.

Lu Yang didn't rush to fire, and said a few of them to the diamond: "Did you see, our target this time is level 9 fish and golden fish."

Ayala frowned as he watched the level 9 fish that was about to swim off the screen. "It's too difficult to hit a level 9 fish, and the official hasn't stated how much damage it can take to kill him. We have tried continuously shooting him with 9 thunder cannons didn't kill him. "

"It's so difficult?" Diamond asked. Nine rounds of thunderbolts are nine gold coins. It is not cheap to convert to euros.

Lu Yang smiled and said, "Did you hit various places on his body?"

"Yeah, there were too many fish at the time, and we couldn't cooperate. We could only find opportunities to hit him from all angles." Ayala said.

Lu Yang said, "Did you ever think about a problem, if you go to hit a tank, can you kill him by firing at him from all four sides, or just kill him in one place?"

"Of course it's hitting a place," Araya said.

"How can you be sure to hit a place all the time, there are too many fish around," Ayala said.

Lu Yang said with a smile: "Just one, don't be afraid to spend money. Once someone hits a level 9 fish, everyone will continue to play according to that place. Don't be afraid to cost money. It takes about 6 times to kill a level 9 fish. Attack, let's test it first, and we should be able to break even. "

10,000 points can be exchanged for 1 gold coin. A lightning cannon can kill fishes less than 50 cm in diameter. After clearing the small fish quickly, aim at a place to storm. This is Lu Yang's method.

Diamond they heard it and said, "Try it?"

Just a level 9 fish passed by, and there was a group of small fishes nearby. The speed of the level 9 fish was faster than that of the level 1 fish. Lu Yang pointed at the level 9 fish and said, "I and Ayala 4 people are responsible for cleaning Screen, the diamond is responsible for hitting the fish head. The attack interval between two groups of people cannot exceed 1 second. Listen to my order and let go."

“嗖”

“嗖”

...

4 thunderbolts fired at almost the same time, emptying all small fish within 2 meters of the big fish, and then did not wait for this big fish to approach the level 6 fish in front, and 3 thunderbolts hit the level 9 fish accurately. Fish head.

There was a flash of thunder, and the level 9 fish did not move at all, but Diamond and others did not have any expression. After firing the first round of thunder, they quickly fired the second round.

The head of the 9th-level fish was about to touch the tail of the 6th-level fish in front, and was again attacked by the thunderbolt.

“boom”

System prompt: You have caught a level 9 fish

You earned 80,000 points

“Success.” Diamond and others shouted in excitement.

A smile appeared on Lu Yang's face. Suddenly, a small golden fish came out quickly, swimming with a golden light toward the other side of the screen.

"Golden Fish" Araya just shouted, and a thunderbolt hit the body of the Golden Fish precisely.

System prompt: You caught a golden fish

You get 100,000 points

"Pretty." Diamond shouted.

"how did you do that."

"It's all going to hit."

...

The three elites around Ayala saw that Lu Yang hit the golden fish, all with incredible expressions on his face.

Ayala was stunned and said, "How can you react so fast."

Lu Yang glanced at them with a smile and said, "Okay."

"It's more than good." Diamond said excitedly, "Brother, if you have this reaction speed, this game is not difficult for you, it can be your cash machine."

Lu Yang said with a smile: "I need your help then, go ahead, destroy the small fish around, and continue to wait for the opportunity to kill the big fish."

“Well,” Diamond and others said.

On the screen, there are more and more fishes, but the level 9 fish has not appeared for a while, but the level 8 fish and the level 5 fish continuously appear.

Ayala frowned and asked, “How do you fight now? Level 5 fish only give 10,000 points, and level 8 fish give 50,000.”

Lu Yang said: “This is a system that modified the strange program. We are afraid that we make too much money. Don’t worry, there are ways to crack this.”

“What should I do?” Diamond asked Lu Yang said: “The 5th level fish needs 3 attacks. After listening to my order, 4 people from Ayala followed me to clean up the mobs. strange.”

“Oh.” The crowd said together.

Lu Yang stared at the screen. Soon, there were more and more fishes, among which there were many level 9 fishes, but they were mixed between various level 5 to level 8 fishes, and there were golden little fishes passing by many times. Everyone watching the screen was anxious.

“What can I do?”

“So many fish.”

“If you clear the screen, it will cost a lot of money.”

...

Everyone was a little embarrassed.

Lu Yang didn't hesitate. He knew that this was a system reliance and didn't want him to make more money. He deliberately used this method to disrupt the player's mind and make the player become irritable. He didn't know how to deal with it.

"Keep waiting, don't worry." Lu Yang said.

There are thousands of fishes full of screens, and they look a lot, but if you turn them into numeric symbols, it will become much simpler, nothing more than 1 to 10. After such a change, you will find that all fishes are there. As a rule, no matter how you attack, you must get more points than you spend on coins.

Lu Yang waited for 5 minutes in a row. At this time, there were more fish on the screen. Level 5 fish began to appear in slices. There were 10 fish in the previous wave and 10 fish in the latter wave. A group of level 3 fishes, with two level 9 fishes sandwiched in the middle of the next wave.

Chapter 983 - Special Skills-Panic

Lu Yang suddenly pointed at the group of level 3 fish and shouted, "Four Ayalas hit here, and three diamonds hit the middle."

4 thunderbolts hit this group of three-level small fish accurately. All the level-3 fishes between the two sets of level-5 fish were caught. Before waiting for a second, the thunderbolt of 3 diamonds arrived and the two sets of level-5 fish were caught. Explode between.

System prompt: You have caught level 5 fish

You get 10,000 points

...

Twenty consecutive system prompts surprised everyone to see that the two level 5 fishes on the screen were all emptied, leaving only one level 9 fish.

“Pretty.” Lu Yang shouted.

No matter it is one second earlier or one second later, this 9-level fish will rescue the next wave of 10 5-level fish, but at this moment, they successfully hit the position pointed by Lu Yang and obtained 200,000 points.

This is 20 gold coins. Compared with the money they used to launch the Lightning Bomb, they have more than doubled.

Ayala asked proudly, “We’re fine.”

Lu Yang said, “It’s not just good, it’s great.”

The four Ayala finally felt relieved, and everyone was a little bit contented. Just now Lu Yang’s technique of playing golden fish made them feel too stressed, and finally found a little confidence.

“Don’t let this level 9 fish run away, Ayala continues to clear the monsters, and the diamond is ready.” Lu Yang said.

The four Ayala shot thunderbolts and cleared all the fish around the 9th-level fish. The three diamonds released the thunderbolt twice and killed the 9th-level fish.

It happened that another golden fish passed by and was hit by Lu Yang.

System prompt: you get 80,000 points

System prompt: you get 100,000 points

...

Then the game became simple. Lu Yang took seven of them to play for more than an hour, and captured nearly a hundred level 9 fish and more than 30 golden fish. When the Thunder Lightning Cannon was used up, Both Ayala and Diamond were a little bit interested.

“It’s so cool.”

“The first fishing was so cool.”

...

Diamond and Alaia and others admire Lu Yang very much. They are elite players. They can see that they are beautifully commanded by Lu Yang. There are many elite masters like them. They can analyze the game instantly like Lu Yang. People are very rare.

“Brother, how about we play here today and make more money,” Diamond said excitedly.

Lu Yang said, “Let me take a break. Analyzing this is quite exhausting. You go fishing first and I do the task.”

“Oh, okay, let’s go fishing for a split-beard sea snake,” Diamond said.

Araya smiled at Landing Yang and led away.

Lu Yang rubbed his head. He was really tired this hour. Although the numbers were 1 to 10, it was very hurting to analyze the position and distance between these numbers every second. Can’t slow down for a few hours.

“Young man, what is your record, I just saw you playing very excited.” The village chief saw Lu Yang come over and asked.

Lu Yang said: “A total of 23 million points.”

“Great.” The village chief admired heartily.

Lu Yang said, “I want to redeem a skill book.”

The village chief opened the exchange interface and said: “If you are willing to spend 10 million points, I can give you the strongest skills in the water system.”

Lu Yang wanted this skill and said, “I change.”

“You are a clever boy.” The village chief handed a skill book to Lu Yang.

Panic Rain Slash

Department: Water System

Consumption: 5000 magic + 1000 / second

Range: 1000 yards

Description: The water mage can create a heavy rainstorm. At the same time, he will add magical power to the rainstorm. Players within the rainstorm range will be harmed by intelligence * 0.3 + power * 0.9 per second.

This is a wonderful skill. No one who possesses this skill or is attacked by this skill does not denounce it.

The player who owns him scolds because of such a high magic cost, but uses strength as the basis of attack, making it clear that if you want to last, you need to reduce the damage, and if you want to make it high, you have to endure the problem of short duration.

Because of this skill book in the last life, I do n't know how many water mages have added attribute points after level 100 to their strength. However, this is a sloppy salary. In the end, they all took the path of melee mage, learned melee play, and used magic sword Weapon.

When the level reached 200 in the later period, the player's health became very thick, and the magic swordsman and melee mage were not outstanding in physical attack, and the magic damage was not high, and gradually became a passerby profession, which made many water players regret their original choice.

Lu Yang this is because the control is the avatar, otherwise he would not choose the magic martial arts double cultivation, after all, the skill points are divided into two directions to increase, and it is not the same as adding only one part.

However, there is also a benefit to choosing the magic martial arts. That is, if you don't want to die, others can't kill you easily, because you are a dual profession, and your escape skills are doubled.

As it happens, the mission below Lu Yang needs more escape skills. He sent a message to Ayala and Diamond and said, "I'll do a mission. Maybe I can't come back for two days. Call me if something happens. Do we need any help?" Ayala asked.

"I will find you if necessary." Lu Yang closed the intercom, turned to the beach, and jumped into the sea.

Elemental Water Mage's strongest abilities are in seawater, such as the ability to transform into water. Now Lu Yang is turned into a pool of water, swimming at a speed of 300% of the normal speed, and quickly swims into the deep sea.

There is an unknown palace 300 meters below the Mythical Islands. To reach this place, only the Elemental Water Mage can do it. Others want to go in and can only do a very complicated set of pre-quests on the shore. In order to open the incoming portal.

After Lu Yang jumped into the water, he quickly moved downstream in the form of water elements. Soon, the seawater became dark. He used a crystal ball to illuminate the area around 30 meters. From a distance, it seemed like a shooting star from Like falling in the sky.

There are no sea monsters under this water. Lu Yang easily swims to the bottom of the sea. After passing through a transparent black light film, his eyes are bright.

System prompt: You found the Cold Water Temple

Because of the cold, your movement speed is reduced by 50%

If Lu Yang is not in the form of elemental water, he will not be able to move here at all. The cold water temple is made of white jade as a whole, and the palace is very beautiful with corals and crystals everywhere.

At the entrance of the temple, there are half-human and half-horse-like creatures guarding. Lu Yang looked at their color, which was yellow, proving that there was no hatred, but it was not friendly.

Chapter 984 - Neptune Tomb

The temple was not large. In a prison-like room not far from the temple gate, there was a beautiful woman. Her name was green and her name was Ella.

West Neptune daughter Ella

Level: 100

Qi and blood: 1/1000000000

Lu Yang swam quickly to Aila, before he approached, Aila found Lu Yang first, with a help expression on her face, and said, "Stranger, can you help me?"

Lu Yang came to Ella and asked, "What can I do for you?"

"Please help me out. I am the daughter of the King of the Seas. I am imprisoned here by the enemy. If you can help me, my people will thank you," said Ella.

System prompt: accept rescue mission

Lu Yang chose to say, "Sure, what can I do?"

"Find the key and flee here with me to the Xihai Palace." Ella said.

Lu Yang looked at the place where Aila was imprisoned. This was a magical cage. He couldn't open the door without finding the key.

"Where's the key?" Lu Yang asked.

Ella pointed to a hill not far away, and there was a key on the top of the hill. Lu Yang knew that this hill was not a real mountain, but a petrified sea monster. If he took out the key, he would revive the sea monster.

Lu Yang came to the petrified sea monster carefully and stood in front of him. You can clearly see the face of this sea monster. This is a sea monster similar to an octopus, but the upper body is a humanoid sea monster. The key was in his hand.

Lu Yang looked around. The guards at the door didn't look at it, and the other patrolling guards just happened to be away.

He grabbed the key and slowly pulled it out of the gap between the sea monster's fingers. For each movement, Lu Yang ensured that the key ring was always in contact with the sea monster's body. This is a small operation. It was confirmed in the previous life. As long as the key If you do not leave the sea monster's body, the sea monster will not be resurrected, and you can get 1 second more escape time than if you pull it straight away.

After 5 seconds, Lu Yang successfully pulled out the key!

"Ka ~!"

The cracking sound sounded. Lu Yang looked down, and the sea monster's corals, shells, and sand cracked. His eight eyes opened at the same time and looked at Lu Yang.

"Who wants to rob the princess." The sea monster's vast voice with infinite shock.

"Elemental Water Form"

Lu Yang turned into a puddle of water and rushed towards the gate quickly. Now he has only 5 seconds. If he cannot escape the Cold Water Temple within 5 seconds, he will be dead.

A light flashed in the cold water temple, Lu Yang came to the door of the prison cage, opened it with the key, and pulled Aila to swim outside the temple.

"No, someone took the princess."

"Catch him."

The Sea Horse Guards found Lu Yang and chased him and the princess.

"No one can take the princess out of my hands." The sea monster shattered the sundries and jumped out of the sand, revealing his body.

This is a giant sea monster with a height of hundreds of meters and a tentacle length of more than 200 meters. The upper body has a humanoid form with 8 arms, and each arm has a weapon.

Sea Monster Tony (Lord)

Level: 100

Qi and blood: 6000000000/6000000000

Tony's swimming speed is 285% of the player's normal moving speed. It is not affected by the cold effect. Instead of immediately chasing Lu Yang, he wields a huge 24 tentacles and catches the landing sun.

"The king said, you can't hurt the princess, please forgive me." The polite words in the sea monster's face made it difficult to adapt.

Lu Yang felt the water flowing behind him. He knew that it was pumped by the tentacles. At this time, if he was less than 5 meters away from the cold water temple, can he escape, it depends on this wave of operation.

He took the princess to swim as hard as he could to the front. From a distance, a huge tentacle was pumping from the side towards his body. Just when Lu Yang thought he was going to be drawn, for a while The huge force of the sea water came from behind him, pushing him and the princess farther apart.

"Don't want to run away." The sea monster shook his body and chased after Dangyang.

Lu Yang breathed a sigh of relief, glanced back at the sea monster, and said to the princess with a smile: "Let's run."

"But what about this sea monster, we can't kill him, we can't take him into my tribe," said the princess.

Lu Yang said, "I'll take you somewhere to kill him."

"Where?" The princess asked.

Lu Yang said, "Tomb of Neptune."

This task is also interesting. According to official records, the King of the Seven Seas fell in love with a princess, but the princess did not love him, and the angry King of the Seven Seas plundered the princess to the Cold Water Temple with power.

On the one hand, the princess was punished, and on the other hand, she wanted the princess to beg for mercy, but no one expected that the princess would not accept it, and hardened the King of the Seven Seas for ten years.

During the past ten years, the seven seas were in civil strife, and the king of the seven seas was killed. At this point, the seven seas have their own policies, and no one is convinced.

The King of the West Seas wanted to take this opportunity to rescue the princess, but although the King of the Seven Seas died, his first pet, the sea monster Tony did not die.

The sea monster Tony is an undead. He can resurrect infinitely as long as there is water. The king of the West Sea once rescued the princess once, but the sea monster Tony also followed the West Sea and killed countless people in the West Sea. Facing the sea monster that cannot be killed, the king of the west sea had to give the princess to the sea monster.

When the players in the previous life were quite good at sea monsters, almost everyone was hiding away. On the one hand, this was the lord monster, and on the other hand, it was in the sea. Many skills and operations were restricted in the sea.

Only a small number of studios and guilds have tried to kill the sea monster, but none have succeeded. Fortunately, this is a game that is played all over the world. One studio found a way to kill him during the attempt.

When a sea monster enters Neptune's tomb, his attack power will be reduced by 30%, and his movement speed will be reduced by 20%. If he kills in the sea king's tomb, the sea monster will really die.

At the time when this strategy was released by this studio, no one was interested in the news. The reason was still in the sea. Another map of the New World at that time was open to level 140, and advanced players were too lazy to kill him.

At that time, Lu Yang's guild had just reached a large scale. Because of lack of equipment, he had studied this sea monster and found a way to kill him.

Ten minutes later, Lu Yang and Aila took the sea monster to a huge undersea grave.

System prompt: You found the Neptune Tomb

"Let's go there," said Lu Yang, pointing at a temple in the center of the Neptune's tomb. From a distance, he can see the temple's throne. There is a humanoid creature standing 50 meters tall. Holding a golden giant trident.

This trident is the sea emperor trident. Only when you kill the sea monster here can the sea emperor trident have a chance to drop.

Chapter 985 - Neptune 3 Fork

Lu Yang took Ella to Neptune's shoulder, and jumped into Neptune's ear again. He said to Ella, "Hide here, I will kill him."

"Be careful," Ella said nervously.

Lu Yang nodded and turned to look at the sea monster. At this time, the sea monster's tentacles were more than 100 meters away from him. The sea monster opened the monster at 300 meters and entered the king's tomb, and the sea monster couldn't swim.

"call"

Lu Yang uttered a spell in his mouth, a flash of light flashed, Lu Yang's body appeared next to him, and handed over a set of Level 80 Destroyer suits, nine-element elemental orbs, and five divine ornaments to the water mage Avatar.

The water mage's avatar's intelligence broke through 20,000 points in an instant, and his power reached about 5,000. He controlled the body to fly back to Huaxia, and then returned to the water body and looked at the sea monster.

"Since you can't swim fast, don't blame me for being rude." Lu Yang said a spell.

"Panning Down"

The seawater over Neptune's tomb instantly turned into a waterjet and stabbed towards the sea monster.

"10012"

"10096"

...

A large amount of damage emerged from the sea monster's head.

"Hoo ~!" The sea monster originally caught Aila, but was suddenly attacked by a spunlace. He rushed towards the landing sun.

Lu Yang is in the form of elemental water. It is not affected in the Neptune's tomb. Its movement speed is still 300%, but the sea monster has only 235%. It is a lot worse than Lu Yang. It can only chase and attack behind Lu Yang. , But could not catch up.

Lu Yang didn't leave Neptune's tomb, so he circled the Neptune's tomb. After more than 10 minutes, his magical value was exhausted.

At this level, the player will not easily consume the magic value, and possesses a set of Lu Yang with a world destroyer. The magic value is more than 200,000.

According to the official statement, this is a proof of the magician's strength. The more powerful a magician, the longer he can continue to attack on the battlefield.

Unless the magician releases special attacks, such as Panic Slash and Assassination of Water Mist, it is possible to quickly consume the magician.

Panic rain is really too expensive, Lu Yang did not resist using pharmacy while running, it is difficult to solve this problem at present.

In the last generation, when players commented on the period between 80 and 100, they gave it a name, called a level trap.

When players reach this level, there are no good potions to support their continuous battles. The good potion formulas are in the palaces under the sea. To get these formulas, you must do the pre-quest first. Finding the predecessor will take a lot of time.

Lu Yang took the sea monster to escape in the Neptune's tomb, while recovering by eating the potion, more than 200,000 mana. After taking the potion, he ate for several minutes. When he was full, he continued to start the panic and attack the sea strange.

"Chen Mo, what happened to your shipbuilding?" Lu Yang took advantage of his free time to call and ask about the situation inside his home.

Chen Mo has returned to Huaxia with the fleet and is responsible for supervising the construction of the warships for Ayala, Spain. "We have upgraded the shipyards of this imperial city and Sands City to level 5, I now have 3 main cities. Thirty shipyards started construction together. The slowest 3 days, I delivered their warships. "

Lu Yang said: "This is a beautiful thing. The warships have been built. I will continue to build the black devil. I will provide them to Jin Jiuwu and the diamonds. Each is 100."

"Okay," Chen Mo said.

Lu Yang turned off the phone, and called Zhuo Jiu, Xia Yuwei and others, and asked, "How are the players' levels in the guild?"

Zhuoju scratched his head and said, "Boss, the fighting sentiments of the brothers are very high, and they have been clamoring for us to attack these countries in Europe. Not only them, but also the guilds and studios that have a cooperative relationship with us. I want to fight. "

Lu Yang was happy and said, "I know the benefits of the national war now, I can't help it."

The first advantage of national warfare is that it can be upgraded quickly. In this regard, the official setting is not for a certain country as a welfare, but the official thinks that the fighting capabilities of all countries are similar. When you really fight, you die 10,000, the other party At least eight thousand dead.

At level 80 or higher, leveling up requires five to six billion yuan of experience. A 10% experience loss at a time is a few hundred million experience points.

If you make up for it by playing monsters, there is no half a month or even a month. The 10% experience can't make up for it. The best way is to use national war points.

Although he died, the national war points are high. As long as he does not die all the time, he can get a lot of national war points.

Maybe a player will die several times in a row, but as long as one large battle is won, all the experience points will be returned.

But the official did not expect that when the national war did not begin, the Sky-Eye Alliance appeared, which almost swept the world.

If you did not hit a nail here in Huaxia, the "Second World" national war system would have to be changed again. In the previous life, because of the Skyeeye Alliance, the official was forced to change the national warfare. No change, it is considered that Lu Yang changed the direction of this life.

But now he is not afraid anymore, and now he is no longer the poor boy who is worried about everything and fears everything. Now he is the top ten richest man in the world and still has a huge cash flow.

Qi Yun has taken away three banks from Liu Jie's house. Now these banks are opened by Qi Yun. Banks, when you open the door, make money.

Even if Lu Yang was defeated, he had Qi Yun as his backing. He would spend as much money as he wanted. Regarding the trend of international affairs in the last life, he probably remembered that he didn't know how to use it. With suggestions, Qi Yun can bring hundreds of elites hired by Wall Street to give a perfect action plan.

The thing that made him the most happy was Jin Buhuan. When he first found Jin Buhuan, he only saw his ability. He didn't expect this boy to know Entubao. Now, Lu Yang is helping him to do a lot of things.

While thinking about these things, Lu Yang beat sea monsters, and for half a day, he killed 6 billion sea monsters.

System prompt: you killed the sea monster

"Uh ~!"

The sea monster's huge body collapsed in an instant, smashing towards Neptune's body, Lu Yang quickly moved to the side of Neptune's ear, and pulled Ella to escape.

"boom"

The sea monster's tentacles smashed on the statue of Neptune, and the arm of Neptune was smashed, and the trident of Neptune held between the hands suddenly emitted a dazzling golden light, narrowed to more than two meters long and floating on the sea.

Lu Yang's eyes brightened, he quickly swam to the Trident of the Sea King and picked it up.

The system prompts: You got the Trident

"It was so easy to get it for the first time," Lu Yang murmured, looking at the trident in his hand.

Lu Yang looked at the attributes of the weapon and sighed. It was recognized by the last generation that the strongest weapon in the 100th class was the Trident of the Sea Emperor.

“Unfortunately, my level is not enough to wear.” Lu Yang sighed.

Ella came to Lu Yang and said, “You killed the sea monster and got a trident.”

Lu Yang looked at Ella and said with a smile, "It's not bad."

"Thank you for lifting the spell for me. Come back to the kingdom with me. I want my father to thank you," Ella said.

Lu Yang nodded and followed Aila to swim to the Xihai Palace. When he arrived at the entrance of the palace, he saw an old man with a full body armor standing there. When he saw Aila, he swam over excitedly.

"My daughter." The old man hugged Ella excitedly.

Lu Yang could see that this was the old West Sea King. He watched Aila and West Sea King chatting and telling the story of the sea monster's death.

"You actually killed the sea monster, he didn't rise again?" The old West Sea King asked.

"No, it turns out that the sea monster has weaknesses. As long as he is killed at the king's tomb, he cannot be resurrected. The hero standing next to me killed the sea monster and got the sea emperor trident." Ella said .

Xihaiwang looked at Lu Yang fiercely and asked, "Have you got the trident?"

Lu Yang took the trident out of his backpack and said, "That's it."

"Close it up, and don't let anyone see it," Sai Nehran said quickly.

"Father, you?" Ella froze. He thought his father would want this.

Xihaiwang looked at Lu Yang and said, "Don't let this thing trigger war anymore. I am old and can't stand the torment. The Seven Seas Kingdom can no longer be traumatized by war. Child, since you got this thing, you Yes, do n't show it to others in the future, or you will kill yourself. "

Lu Yang said, "Thank you, I will keep it well."

"That's good, thank you for saving my daughter. If there is anything I can do for you, tell me about it." Xihaiwang asked.

Lu Yang said, "I want to buy a drawing of the potion. Do you have it here?"

Xihaiwang said, "You are the right person. This one is for you. If you need anything else, you can buy it from me."

Recipe: Marine Essence

Level: 100

Description: Restore 100,000 mana instantly after use, use interval 30 seconds.

Lu Yang learned this recipe and wanted to make marine essence a little trouble. At present, the magic value of a regular magician is about 100,000. With this potion, it is equivalent to instantly returning to full magic value.

The essence of the ocean can only be obtained occasionally in the depths of the sea. If you want to move freely in the depths of the sea, only Lu Yang can do it. Others are very difficult.

Lu Yang opened the West Ocean King's purchase interface and found deep sea eel rice and steamed grouper. These two recipes, one increases the intelligence by 800, and the other restores 100 mana per second, which are the best chef recipes.

"Thank you," Lu Yang said. He bought 50 copies of each formula, and then he left the West Sea Palace and came to the bottom of the sea.

There are many marine essences near the West Sea Palace. Each marine essence looks like a small water droplet. He is very special. This water droplet is insoluble in water. His color is dark blue, like a blue ice ball. It's very pretty.

Lu Yang picked up drops of water on the seabed in the middle of the night, made 100 sets of marine essence, and then he quit the game and fell asleep.

In the early morning of the next day, after Lu Yang went online, he saw that the essence of the surrounding ocean was refreshed again. He then collected and picked it up in the morning. It was almost noon, and he stopped. There were 200 groups in his backpack. The essence of the ocean was enough for him to do the next task.

One of the biggest features in the ocean is that everything on the land is missing, but there is no shortage of treasure chests!

There are treasure chests everywhere in the ocean, depending on whether you can find them, many of them have dark gold and excellent gold level equipment.

In the last generation, a studio discovered this secret, found a large number of treasure chests, and made a lot of money. Later, when the official release of the strategy, the submarine treasure chest was specifically mentioned.

The players then knew that there was a treasure chest on the bottom of the sea, and it opened the era of people searching for treasure chests. Lu Yang was just 100 levels at that time, and he also participated in this activity. He did n't remember many treasure chest locations, but each one was Top.

There is one not far outside the West Sea Palace. After leaving the Royal Palace and continuing to swim for 1 km to the west, Lu Yang saw a sea trench. At the entrance, a large number of shark people appeared.

Shark man

Level: 100

Qi and blood: 500000/500000

It's not an elite monster. There is no difficulty in killing them. However, the experience of these monsters is considerable. Lu Yang started the panic and swam straight in.

With Lu Yang's current injury Killing non-elite monsters is only a matter of ten seconds, he only needs to swim all the time.

After swimming about 10 kilometers deep in the trench, Lu Yang saw a dense seaweed bed.

There was a smile on his face. This seaweed was the most obvious sign. He was about to swim into the trench. Suddenly, a group of players came over in the distance.

As soon as Lu Yang's eyes brightened, he was able to get here at this level, but he was not an ordinary person. He was vigilant and waiting for the arrival of the opponent.

The other party also saw Lu Yang. There were more than 100 people swimming in it, and everyone was wearing 100-level equipment.

"How can anyone be here?"

"A Chinese?"

...

The group of people who came was also very curious, and one of the players said, "No matter who he is, find a chance to kill him."

"Also, I can come here, I am alone, I must be a master, I must be well equipped." Another said.

Lu Yang didn't hear their conversation, but saw their expressions clearly. He knew that a war would be inevitable.

When the other party came 30 meters away from him, Lu Yang said, "Who are you?"

"The Australian Water Ghost President Green Water Ghost, who are you?" Said the player.

Lu Yang knew this person, a guild that had attacked Huaxia the most in the last life, and did not know how China could offend them. This country had opinions with China.

Chapter 987 - Neptune Gauntlets (Excellent Gold)

It may be the influence of the Australian domestic media, or it may be the people in this country.

The country of Australia is also ridiculous. So far, it feels like this is a country that does not understand or has no sense of existence.

Many years ago, Australia was a British colony, and has been mixed with the British. During World War II, the British demanded that Australia participate in the war. Australia and Asia gathered one tenth of the country's population to enter the battlefield, and ended up in a battle. Inside, when the batter lost, the British sneaked away, leaving the Australians to the Japanese.

It was such an asshole, Australia followed the British, and then the British failed, and switched to the United States, but also believed that the United Kingdom was the sovereign country. Twenty years ago, a pure gold carriage was deliberately given to the then Queen of England.

This is a ridiculous country. The monuments of World War II in each country are written for the survival of this country, for the honor of the country, for the peace of the people, or sacrificed. What is Australia fighting for? For what sacrifice?

Japan did not fight against Australia at that time. The British let them participate in the war. At that time, Australia did not even have a lot of troops. The current conscription was to initiate a war. But for whom did they fight?

The Australians themselves are perplexed. What they wrote on the tombstones of World War II was to fight World War II. What is this?

Some people have taken stocks. Since World War I, every war in the world, including World War II, the Korean War, the Vietnam War, and the Gulf War, has been involved in Australia. The most fierce is also Australians. However, some people have found a problem, not once The war is about Australia!

Then someone came to the conclusion that this is a second country! Even so, Australians are very proud and not friendly to Chinese people.

Since entering the naval battle, Lu Yang has always wanted to find a chance to clean up this green water ghost, and also to clean up Australia, but he has not had time to deal with them, and he never encountered them.

“Boy, you are well equipped.” A player beside Lvshuigui slowly brought more than 10 people to swim towards the landing sun.

The ninth series element ball is shining behind Lu Yang, everyone can clearly see it.

Lu Yang asked, “What do you mean, don’t get too close to me, this is to cause misunderstanding.”

“Misunderstanding?” The Australian player said with a smile: “How come, we mean very clearly, just grab your gear and let me die.”

Just 10 meters away, 10 Australian players launched an attack on Lu Yang at the same time. Water and ice spells covered Lu Yang.

“flicker”

With a flash of white light, Lu Yang jumped back a distance of 100 meters and said, “I have so many good things. I can’t beat you, but it’s enough to escape.”

“Space equipment!” Lushui’s face changed, shouting: “Kill him and blast the space equipment.”

Space equipment is the rarest treasure, even in super guilds like Lu Yang, there are less than six.

“Yes.” More than 100 people quickly chased after the landing sun.

Lu Yang looked at the more than 100 people, sneered, his left hand stood on his chest, and read.

“Panning Down”

Taking Lu Yang as the center, a large amount of spunlace appeared in the seawater within a range of 1,000 meters, and it was shot at more than 100 people, such as green water ghosts.

The green water ghost reacted quickly. When the first spunlace was about to reach a distance of 1 meter from his back, he felt the change of the water flow, and hurried to the side to avoid the first water column. Yang’s attack was so far away, but when he looked back, when he found more and more water columns, he quickly shouted: “Be careful, he is releasing a special attack, catch up with him, don’t let him continue to let go.”

“Boss, you can’t chase it. This water column hurts too much. We have more than 10,000 magic resistance, and we can be dealt more than 10,000 damage. This person’s magic damage is 30,000.”

“What?” Green Water Ghost stiffly resisted a water column and frowned when he saw the injury.

Most of the people they came this time were water, thunder, and ice mages. There were also priests and paladins. They were all level 100, equipped with dark gold sleeves, and their health was over 200,000.

Faced with such a large-scale attack, he has the confidence to resist, but has no confidence to grasp Lu Yang while resisting.

“President, what shall we do?” A player asked.

Lvshuigui thought for a while and said, “Retreat, temporarily withdraw.”

More than 100 people turned and ran.

Lu Yang sneered and said, “You want to run, do I agree?”

“Where is your knight spirit, we have given up.” Lushui asked arrogantly.

Lu Yang scolded: “When riding your sister and trying to kill me, a group of people gathered around. Why didn’t you tell you about chivalry?”

The Green Water Ghost is speechless.

Lu Yang said, “I’ll give you a chance to run, let you run for 10 seconds, after 10 seconds, I’ll trouble you, get out.”

The green water ghost turned around and ran, and now he doesn’t care about the face of the chairman of the Australian First Association. Do n’t lose the equipment is the key.

Lu Yang watched them all ran away, turned and entered the waterweed, poke away the waterweed, and found the treasure chest.

System prompt: You found Neptune's Gauntlets

Neptune Gauntlets (Excellent Gold)

Level: 100

Defense: 2066-2268

Magic resistance: 2061—2218

Intelligence: +2272

Strength: +2272

Constitution: +2008

Additional Spell Damage: +3536

Additional Spell Penetration: +3816

Additional Spell Crit: +3816

Additional physical attack: +5012 points

Additional physical penetration: +5052 points

Additional physical crit: +5218 points

Set (1/8)

2 piece set: Water system spell level +1

4 piece set: Increase physical defense by 5000 points

6-piece set: Each attack has a chance to come with the power of Neptune. Increases the critical strike damage by 50%.

8-piece set: Aquaman Shield

Neptune's Shield reduces the opponent's physical attack. It can last 30 seconds and resist 30% of physical damage.

Lu Yang wants this suit. With this set of equipment, he can really be regarded as a melee mage. He will receive the equipment in his backpack and look at the green water ghost running away. He also has a set of nine-element ball.

He had sent the good equipments obtained in the three previous national battles to his subordinates, as well as the nine series element balls. This time, he will stay and play for himself.

"Are you ready, time is up." Lu Yang rushed towards the green water ghost.

The Green Water Ghost has not run out of 300 yards, and is still within the attack range of Panic.

"Damn, how could this attack range be so far."

"This skill is everywhere."

...

The elite players on the Australian side are no longer playing watches, they do not know how to run out of this range.

Where do they know that if the Panic Slapping skill is launched on land, the attack range is 100 yards, but this is in the water, as long as the mana is enough, it can cover 1000 yards all the time. Give them a chance to escape.

Chapter 988 - Aquaman Bracers (Excellent Gold)

“Well, you swim really slowly.” Lu Yang said.

When the green water ghost heard this sentence, such as being struck by lightning, he looked back in shock and looked at Lu Yang standing only 50 meters above him diagonally.

“How can it be so fast?” Green Water Ghost asked.

Lu Yang said, “You are the first one to dare offend me in the sea. You are really looking for death.”

“You, who are you?” Lushui asked in panic.

“My name is the deep sea, please call me the son of the sea.” Lu Yang was serious nonsense. Originally, he wanted to reveal his name, but he found that using the name deep sea was fun and saved a lot of trouble.

“Our Water Ghost Army will not let you go.” Green Water Ghost yelled angrily, knowing that he could not escape the more than 100 people, especially him, this equipment must be accounted for here.

Lu Yang looked scornfully at the green water ghost that was constantly being hit by the water spiking below the diagonal, and said, "It's just you, it's not worth it."

"I killed you." A dozen players suddenly rushed towards the landing sun.

"Elemental Water" Lu Yang turned into a pool of water, and easily escaped the attack of these dozens of people at a speed of 300%, allowing them to return without success.

"Why is it so fast?"

"This is the water of the elements. Someone really uses this waste occupation."

"No, this is not a waste occupation. You must collect this transfer skill when you return."

...

Listening to their conversation, Lu Yang said, "I still have this in mind? Let me die."

Ten seconds later, two-thirds of the water ghosts died, and another 1 minute passed, leaving only one green water ghost.

"You have a lot of blood." Lu Yang smiled and approached the green water ghost.

Lvshuigui has blood, and in the face of this overwhelming skill, he can only do so as best he can to avoid it. Watching Lu Yang's approaching gradually, he gritted his teeth when Lu Yang approached him 10 meters away.

"I killed you." Green Water Ghost waved a big sword in his hand, and launched a lethal throwing ability towards the landing sun.

"Water prison"

Lu Yang pointed a green water ghost with his hand. Just as he was about to throw a big sword, the strong water pressure around him suddenly surrounded him tightly.

System prompt: You are controlled by the water cell

“What kind of skill is this?” Green Water Ghost found that he could not use the skill and could not release the control by using the badge. This was the first time he encountered.

Lu Yang stepped in front of him and said, “Don’t struggle. In the water, the water prison can’t be lifted. He can reorganize infinitely. Only the mage can escape by flashing. Other occupations must stay here.”

“You did it on purpose, you want to humiliate me!” Green Water Ghost was furious.

Lu Yang said, “Yes, I just want to humiliate you.”

“Water brake”

Six sharp water spurs appeared around the green water ghost, piercing his eyes intensively, and the scared green water ghost quickly closed his eyes.

“Keep your eyes open next time, don’t offend people you can’t mess with.” Lu Yang said.

“16816” (Critical Strike)

“15768” (Critical Strike)

...

6 spunlace, easily kill the **** green water ghost.

“噫”

More than 20 pieces of equipment fell from Green Water Ghost, Nine Elements Orb, Teleport Scepter (Level 2), Time and Space Amulet, Time and Space Ring X2, Escape Dagger (Level 10), and Aquaman Bracers.

“No wonder he came here. It turned out to be a Neptune suit. It seems that there are many people looking for this thing.” Lu Yang muttered to himself.

I want to come too, the player who reached the 100 level is more than one person. Now is the period of the national war. Many masters in various countries are not only able to find it alone, but also top players in other countries.

“It looks like I’m accelerating.” Lu Yang stowed these gear and returned to the Mythical Islands.

A total of 8 pieces of equipment, now two of them arrived in his hands, the remaining ones gathered around the ocean, the closest one is in a hidden place below the French archipelago.

It is not realistic to swim to France from here. Players can move as fast as a large ship. Lu Yang returns to the Mythical Islands and takes an official ship to France at the port.

“boom”

“boom”

...

The fierce cannon sounded, and Lu Yang, who was lying on the top of the ship, sat up curiously and looked away. On the sea not far from the port, there were more than 300 French Class 5 warships and thousands of 2 Tier 1-4 warships are decisive against more than 800 German Tier 5 warships and thousands of Tier 3-4 warships.

“Sure enough.”

“I’ve heard that Germany wants to fight France, but it’s true.”

“Hey, France is going to be out of luck this time. Just after a big loss in China, now it is attacked by the navy of dozens of German super guilds. France is dead.”

...

Players whispered to each country on board.

Lu Yang approached a man and asked, “What’s going on.”

“Huaxia?” Said the Greek player with his eyes brightened. “Thanks to you Huaxia, haha, now Europe has made it on its own.”

Lu Yang laughed and asked, “What’s going on, why can’t I understand it?”

In the Skyeeye Alliance, Germany and France are allies.

The Greek player said: “Europe, Germany and France are feuds. You do n’t know. Before the national war began, French players threatened to teach the arrogant Germans. The Germans also claimed on the forum that they would occupy France again. Chinese players have long scolded.

When the national war was started, German players had to fight against French players as soon as possible. However, the first guild in Germany was from the Skyeeye Alliance. They did not agree to fight France. The remaining guilds in Germany could only form an alliance by themselves. However, France lost so many main battleships in World War I, and the rest of the German guilds saw opportunities to build warships and go to sea for joint operations.

With so many ships, even the Sky-Eye Alliance did not dare to go to war easily. The first guild in Germany could only watch France suffer. There was no way to do it. “

“Hehe.” Lu Yang understood that co-authoring Europe is not a whole. It turned out that all the time, the grievances of hundreds of years in different countries are not a whole as in reality.

“If you fight like this, France will basically have no chance. It will definitely be attacked by Germany.” Lu Yang said.

“Yeah, look at it, France is finished now,” said the Greek player.

Lu Yang shrugged his shoulders, they had better internal problems, he saved a lot of trouble, but he also found a problem, Europe is really rich, so many warships have been purchased by players from both countries with their personal financial resources .

A Tier 5 ship is 1 million, and a Tier 4 ship is worth hundreds of thousands. “Second World” has made a fortune this time, but if this continues, soon there will be countless warships in various countries. decisive battle.

“噫”

The ship arrived at the port. This is the official port. The German players did not shell the ship, because this time it led to the official warship. They did not want to branch out.

“People, come back as soon as possible to do business. Once the Germans enter the city, they don’t care if you are French or not.” Greek players told everyone.

Lu Yang patted his shoulder with a smile, and left the passenger ship. Instead of entering the city, he turned to the seaside and found the place in his memory of the last life.

Chapter 989 - Ancient **** water bottle

I was just about to jump out of the sea, but I saw a group of people chasing after one person and running towards this side. The people who ran away were Italians, scolding in Italian while running.

“Damn, you guys are chasing me for what I said, that thing I saw first.” The Italian player scolded.

“We are going to kill you, you liar. The sea is ahead. I see where else you can run.” The French chased him.

The Italian player also found that he was running in the wrong place. Suddenly, he noticed that Lu Yang was standing in front of his eyes. He took out a treasure map from his backpack and lost it to Landing Yang.

“Brother, the equipment is over to you, my mission is complete.” The Italian tossed things and ran to the left.

The French who chased him was dumbfounded, watching the crystal ball and the people split into two directions, and the headed player shouted, “Separate and chase, you can’t let that **** run away.”

Half of them chased towards the Italians, and the other half ran to Lu Yang, surrounded by a semicircle, and the headed player said vigilantly, “Hand over the treasure map.”

Lu Yang was looking at the treasure map in his hand and grinning, saying, “I don’t know that person. If you want this thing, give it back to you.”

This treasure map is fake. This is a special gameplay of the “Second World” official. Players can lower their moral index. When it is low to a certain level, they can buy fake treasure maps from a special NPC. .

The function of this fake treasure map is to pit people. The current price of the real treasure map is 2 gold coins, and the cost of the fake treasure map is only 1 gold coin. Selling the fake treasure map can make a lot of money. People who dig fake maps can't dig anything.

"Damn, you lie to us." French players thundered when they took the treasure map.

Lu Yang reluctantly said, "I really didn't lie to you, but this treasure map was thrown to me by the kid, and I didn't know him at all."

"Nonsense, you must be a group, the real treasure map must be on your body, boss, kill him and explode the treasure map." A French player scolded.

The French player, headed by a squint, said with a trace of fierceness: "Brother, whether you recognize the person just now, since you encountered this, you blame yourself for not being lucky, we can only kill you to see what you said is true or false, go on. "

Lu Yang was speechless. He didn't have the habit of killing people randomly. He didn't want to compete with the people in front of him. He leapt backwards and jumped into the sea.

"Boss, he jumped into the sea."

"chase."

A dozen French people jumped into the sea together, but they could not enter the sea, but they found that Lu Yang had already disappeared without a trace.

"What about people?"

"I didn't see it."

"Look around and don't let him run away."

...

In the time they talked, Lu Yang had gone downstream hundreds of meters away, and had a speed of 300% in the seawater. How could this group of people catch up.

“Obviously, there are people who dare to bother me. I’m not bad if I don’t bother you. Don’t let me meet this Italian again.” Lu Yang said unhappily.

With his current equipment, almost no one can afford it. With the transmission of scepter, flashing amulet and escape dagger, he can show off any enemy.

“Forget it, first find a way to get the next Neptune suit.” Lu Yang swam deep into the ocean floor.

The Neptune suit is in a trench on the bottom of the outer island of France. It takes at least half an hour to swim from there, and you must swim to that island first.

Half an hour later, Lu Yang came to the outer island. This is a very beautiful island with a main city on it. Lu Yang used a camouflage coat to change the appearance of the French and took a rest on the shore not far from the port. .

In the distance, an official passenger ship docked, and the players jumped off the passenger ship in groups. Suddenly, Lu Yang’s eyes brightened. He even saw the Italian who had just used him as a cover in the crowd.

“I’m thinking of you.” Lu Yang stood up and walked towards the Italian player. Just before talking, the Italian player docked with several French players.

“I didn’t catch you.”

“Rest assured, my escape technology is first-rate, and I also encountered a fool in the middle, which helped me a lot, haha.” The Italian player laughed.

Lu Yang a forehead black line.

“Don’t say it here, the real map is brought back.” The French player asked.

“Brought it back, it’s in my backpack, let’s dig it out, haha, there must be a lot of treasures in it.” The Italian player said proudly.

“Assassination of Water Mist”

Lu Yang chanted a smile on his face, and the entire port was instantly filled with fog.

“what happened.”

“It suddenly fogged up.”

“It’s so foggy, why can’t you see anything?”

...

Players at the port were scared.

Italian players also felt unusual, and said to the French players in front of them, “Be careful, it is likely that the player released the spell.”

Lu Yang appeared in front of the Italian player with a smile, and said, “You are right, this is the spell I released.”

“You, who are you?” The Italian player was startled by Lu Yang.

“I’m the fool you said.” Lu Yang pointed to the Italian player with his left hand.

“Water brake”

Six spunlace hit the neck of the Italian player at the same time.

“18628” (Critical Strike)

“20000” (Critical Strike)

...

6 consecutive attacks Italian player fell to the ground and died.

A treasure map made of parchment fell to the ground, and he picked it up, jumping into the sea before several French players did not respond.

Treasure Map Ancient Water Bottle

Lu Yang looked at the treasure map with an irresistible smile on his face and murmured, “I’m looking for you. I didn’t think it was hidden in the treasure map.”

He swam towards the coordinates of the treasure map. On an island not far away, he found a wall, took out the treasure map and read a spell, and the wall collapsed, revealing a treasure chest shining golden light inside. .

Take a look.

With this ancient **** water bottle, the water system mage can be It has the same combat strength on land as in seawater.

Of course, the duration is not as long as in the sea, but it also allows the water mage to gain an advantage in a short time.

Chapter 990 - The first international naval battle

Lu Yang put the water bottle into his backpack and walked towards the depths of the ocean. When he reached a trench, he found a dark gold treasure chest, opened it, and looked at it as the Neptune suit.

After receiving the equipment in the backpack, Lu Yang returned to the outer island of France.

“boom”

“boom”

...

The artillery battle on the sea continued, but it was obvious that German players had the upper hand. A large number of Germans logged on the coast. The Germans on the sea had more than double the French warships.

“It looks like France is finished this time. Before Huaxia cleaned them up, they were cleaned up by Germany.”

“The Sky-Eye Alliance is going to be inward.”

“Strange to say, why don’t they go to China?”

...

The lively players chatted around, some people raised this question, and the others showed smirk expressions.

“Fighting Huaxia? The two idiots in the Netherlands and France sent the level of Huaxia Iron Brothers Alliance to level 100. Now Chinaxia is guarded by Iron Brother Brothers, who dares to fight.”

“Look, it won’t be long before Huaxia sends troops to fight these countries around.”

“Can they do it?” Some players didn’t believe it.

“Hehe, think about the population of Huaxia who entered the game, 700 million. As long as one tenth of the people participate in the foreign war, there are 70 million people. These people are more than the total number of most servers.

The same level 100, the same equipment, the same warship, when they land, the flat push can kill any country except Russia and the United States. “

“Fuck, isn’t Huaxia invincible.”

“Is there any way, when the scientific and technological levels of both sides are equal, whoever has the largest population, who has the developed economy, and who is the boss? Just like China now, they are the bosses in Asia, and all Japan, India, and South Korea should stand by. “

...

Lu Yang was listening to their chat, and a sneer appeared on his face. This group of elite players had a head, and they knew who the world was.

At present, Huaxia players have not reached level 100. When they have reached level 100, it is when Huaxia swept across the world. The surrounding countries have only been beaten and have no ability to fight back.

All countries want to fight against China, but the Brotherhood of the Iron Blood is there to guard it. Unless the countries of the world unite and sweep China a few times to curb the development of China, they can only wait to be beaten.

But how can countries be so united? A sacred brotherhood makes countries dare not attack easily. When the strongest cannot be shaken, the contradictions between countries will be revealed. Germany and France, France and Britain, Britain and Russia, How many centuries of hatred between these countries can be easily resolved in one or two sentences.

“Dididi”

Lu Yang’s intercom rang. He picked it up and looked at it. Qi Yun called it. He pressed the answer button and asked, “What’s the matter?”

“I’m in Saudi Arabia. The investment company is discussing a deal with the Saudi company. I heard that the company’s boss is you and wants to talk to you.” Qi Yun said.

“Talk to me?” Lu Yang asked with a smile: “What can I talk about in business with me?”

“The owner of the Saudi company is a prince. He is the largest guild in the Saudi server, but his guild does not unify the main cities in Saudi Arabia.” Qi Yun said.

Lu Yang understood it and said, “Want to ask me to help unify the main city?”

“Yes, he said he wanted to talk to you in the game.” Qi Yun said.

“Yes, I’m going to the Arabian Sea. You ask him to add my friend. I will open the friend function.” Lu Yang said.

“Okay.” Qi Yun closed the intercom.

Not long after, a player named Crescent Scimitar added Lu Yang as a friend, Lu Yang chose to agree, and then received a special space invitation.

Lu Yanggang found a passenger ship to Arabia. After finding the cabin seat, he chose to enter a special space.

The light flashed.

Lu Yang appeared in a special space. This is a desert-filled room. A young man dressed in traditional Arab clothing is looking at Lu Yang with a smile on his face.

“Hello, Lord Lu Yang.” The young man bowed slightly.

Lu Yang said, “Hello.”

“You can call me Faisal. I heard that you are in Huaxia, and I want to cooperate with you.” Faisal said.

Lu Yang asked, "What cooperation?"

Faisal opened the three-dimensional map and pointed to the Saudi map. "At present I am the largest guild in our country, but I only have 22 main cities and 26 main cities in the hands of other princes. These are some of us. A prince's bet, I hope to win in the end, but now I have become the target of all of them, and I hope President Lu Yang can help me win this war. "

Lu Yang looked carefully at the map. Faisal occupied a corner of the human race and the orcs, just like the Brotherhood of the Iron Blood of that year.

But Saudi Arabia's map is a bit special. Unlike the Huaxia server, which is divided into three parts by a Tianji Mountain, it is divided into three parts by a large river.

This river runs through the ocean, and the river is 100 meters wide. Even if Faisal occupies the critical points of the human race and the orc, the river is in danger.

"This river is too deadly for you. Six main cities along the river must defend, and two main cities of the human race and the beast. There are 8 places in total. It is too difficult Lu Yang Said.

Faisal nodded and said, "The hardest part is not here, but to attack my guilds, and also to find elite players from various countries. If I only defend my own country, I can do it, but defend foreign players, I'm a bit stretched. "

Lu Yang asked, "What do you need me to do?"

"I'm willing to spend \$ 30 million and hire you to help me kill the enemies sent by Italy and Turkey," Faisal said.

"How many people do they have?" Lu Yang asked.

"There are about 500 Tier 5 warships, 10,000 Tier 2 warships, and 5 million players." Faisal said.

Lu Yang said: "This is fine, I can help you do it, when?"

This appearance fee is acceptable. Lu Yang does not need to send 5 million people here, as long as enough warships are sent to ambush at sea.

The navies of Turkey and Italy have a common feature. It can also be said that the players of both countries have a common feature. They think they are great, but they never fight.

Let's talk about Italy first. I think that I am the blood of the Roman Empire. What I like most is the size of the country and the strength of our country. When we really fought, this country never won.

Turkey's fighting ability is even worse. It used to be the Ottoman Turkish Empire, and now there is only one Turkish Empire. In that year, China was called the East Asian Sick Man. This Turkey also had a nickname, the West Asia Sick Man. From this name, we can think of Turkey's war capabilities. How wasteful.

Chapter 991 - Naval battle

Faisal was a little surprised that Lu Yang agreed so happily, saying: "From the information we have here, the Italian and Turkish coalition forces will come to attack within a week. I can't give the specific time now."

The time of war is changing rapidly, and it can't be determined by a simple sentence or two. Lu Yang is clear. He said: "In this way, I will drive the fleet to the coral islands overseas in Arabia. You can always find me when there is a war."

"Thank you, I'll give you the money first," Faisal said.

“I hope we can have more cooperation in the future.” Lu Yang smiled and quit the special space.

The Navy of the Jagged Brothers Alliance has basically taken shape. After the last naval battle, nearly 200 warships were lost. Finally, these naval players understand how to fight the naval battle.

The next step is to test the true capabilities of these men’s naval battles, and it is also time to test the true capabilities of Chen Mo, the admiral of the last generation.

He took out the intercom and called Chen Mo, asking, “How is the Navy training?”

“If the French Navy still dares to come, I have the confidence to tie with them.” Chen Mo said.

Lu Yang said with a smile: “It looks like we have to continue fighting and training.”

Chen Mo scratched his head and said, “It’s too expensive to train soldiers. I don’t dare to practice. I don’t know how to design this game.”

A naval battle caused Lu Yang to lose 400 million credits. Chen Mo didn’t dare to do so, it was really crazy.

Lu Yang smiled and said, “It’s because of this design that this game can continue. Don’t be afraid to spend money and give you a chance to train.”

“What opportunity?” Chen Mo asked.

Lu Yang said, “A prince in Saudi Arabia asked me to help him fight a naval battle. The enemy is a coalition of Italy and Turkey. Are you confident?”

“Yes, I dare not say against England, but against Italy and Turkey, absolutely no problem.” Chen Mo said.

Everyone knows that Italy and Turkey have too many levels of war.

Lu Yang said: "Okay, gather the navy to the coral archipelago on the Arabian Sea. You go there first to familiarize yourself with the terrain. The war is likely to erupt at any time within this week."

"Yes, I'll take the team." Chen Mo said, and he asked: "Boss, is the army still taking?"

Lu Yang said, "Only with the Navy."

"Okay." Chen Mo closed the intercom and immediately assembled the navy to go. Unlike the last time, this time in the naval battle, he was full of confidence, especially the commander of the naval captain. He selected a lot of people and let him What touched me most was that Lu Yang chose whoever he used without any hesitation.

A ship is 2 million credit points. If the captain ran away with the ship, Lu Yang would lose 2 million, but Lu Yang had no idea of distrust.

In order to report to Lu Yang, Chen Mo found the retired old captains in the family fleet, all of whom were old and could not stand the body on the sea. He was a civilian pensioner at the company.

But their familiarity with the ship seemed to be engraved on the bones. As long as they stood on the ship and smelled the smell of the sea, they were still the captain without fear of the waves.

He brought the more than 30 old men into the game and distributed it to 300 ships. The battle mode of the fleet changed from the original unified command to the 30 people he commanded. The subsequent war was directed by 30 of them.

The naval combat quality of the entire Jagged Brothers Alliance has been greatly improved. Coupled with the fact that the navy has actual combat experience and is not afraid of artillery battles, he is full of confidence in this war.

Lu Yang also hoped that this war would allow Chen Mo to prove that he went through Jin Jiuwu's phone and asked, "How about, how many people are there under your control?"

Jin Jiuwu said with a deep voice: "More than 1,200 people are like me, and no country is a bad guy."

Lu Yang could feel the kind of anger of Jin Jiuwu and said, "How many boats do you want?"

"100, as long as you give me 100 boats, I will sweep Asia for you." Jin Jiuwu said.

Lu Yang said: "Tomorrow you will take someone to the dock to pick up the ship. I will give you 100 ships. If you do n't want to, come to me again. Don't be afraid of war damage."

"Thank you." Jin Jiuwu was touched. Although he knew Lu Yang's purpose in hiring him, being able to achieve such trust still melted Jin Jiuwu's cold heart.

Lu Yang went on to say: "Don't be too busy to thank you. I will give you a task. After getting the boat, I will bring the fleet into the Arabian Sea and go to Crescent Island to hide. There will be a war this week. What can it do? It depends on your own gains. "

"Leave it to me." Tsukumu said excitedly.

Lu Yang smiled and turned off the intercom, then he called the diamond and asked, "How are you?"

"Brother, I have received your 100 ships. Thank you. Is there anything I need to do?" Diamond asked.

Thirty shipyards started construction at the same time. Level 5 warships are like dumplings. On average, more than 100 warships can be built every day.

Lu Yang said: "There is a battle in the Arabian Sea. The enemy is the maritime coalition of Italy and Turkey. Is there any interest?"

"Hey, how did these two stupid pigs come together, great, tell me the time," Diamond said.

Lu Yang said: "Tomorrow will bring the fleet into the Whale Islands in the Arabian Sea. I will tell you how the war will be fought."

"I'm going to get familiar with the environment. Diamond turned off the talker excitedly.

Lu Yang also turned off the intercom and looked at the seascape outside. After a four-hour boat ride on the sea, he came to the Arabian Sea.

The ship quickly docked at the port outside Tel Aviv, Saudi Arabia's server, and Lu Yang jumped out of the ship and found the ship heading for Pearl Island.

It took more than 10 minutes to come to the sea area of Pearl Island, and before the ship docked, Lu Yang jumped into the sea.

Swim all the way to the bottom of the sea, Lu Yang found the Neptune helmet, which is already the fourth piece of Neptune equipment.

"Dididi"

Lu Yang's intercom sounded. He picked it up and saw it, Xue Yiming called. He frowned and pressed the connection button, and asked, "What's the matter?"

Xue Yiming said, "Boss, I have the news that some players in India, Indonesia, Australia and the Philippines are plotting to attack China."

Lu Yang was happy and asked, "Dare they even dare to hit me?"

Xue Yiming shrugged his shoulders and said, "It seems that there has been a plot, and it has been preparing before. This time, an Australian guild called Green Water Ghost proposed it and wanted to sneak into the Imperial City."

Lu Yang understood that this was the green water ghost who wanted to find revenge on himself. He asked, "Is there a specific offensive time?"

"Two weeks later, there were probably thousands of warships, and most of the Tier 5s accounted for most of them, mainly India and Australia." Xue Yiming said.

Chapter 992 - King of Pirates

Lu Yang said: "India has swelled again. I don't know how much I weigh."

Xue Yiming said with a smile: "Yeah, the news I gathered on the Indian forum, many Indian players are clamoring, let Huaxia players know how powerful it is."

Lu Yang smiled and shook his head. The hatred between Huaxia and India should be counted up. I think that when Huaxia had just established the country, the Indian Prime Minister made a speech nationwide, thinking that somewhere should be theirs, and they also had the ability to seize, so India assembled all its main forces, arrogantly sent troops to northwest China.

At that time, our country was startled. Alas, India sent all the main forces, and we have to fight with all our strength.

However, the distance from the northwest was too far, and it took time to mobilize troops. The Northwest Army was ordered at the time. Even if it hit the last person, it was necessary to hold the territory and wait for rescue.

At that time, the generals and soldiers in the northwest were also stunned. As soon as the main force of India came and the country ordered it again, he had to fight with them.

This fight doesn't matter. Something went wrong. With a partial force, the Huaxia Northwest Army severely damaged the main force of the Indian Army. It not only hit the Indians back, but also chased them all the way to India.

The then Indian Prime Minister delivered a speech across the country. The first was to acknowledge his failure, and the second was to be prepared for the country's demise.

On the other side of the speech, they also sent people to the United Nations to sue, saying that Huaxia sent troops to invade them and asked the United Nations to help.

At that time, Huaxia was embarrassed. This was too shameful. Didn't you come to hit me? How did it become me to hit you?

Fortunately, at the time, Huaxia was too lazy to discuss with India, and did not penetrate India too deeply. After giving India a lesson, it pulled the army back.

In the days that followed, India followed Hua Xia's, as did Jing Xia, and with the domestic media, the anger of those elites led to the Indian nationals not being friendly to Hua Xia.

After so many years, the relationship between the two countries is the same as China's attitude towards Japan, and they always want to talk to them once.

But now Huaxia meets Japan. That's too easy. India meets Huaxia.

Lu Yang said: "Continue to investigate this matter in depth and I will have a detailed war report before the war."

"Yes," Xue Yiming said.

Lu Yang closed the intercom, returned to shore, bought a boat in Saudi Arabia, and headed towards the deep sea.

Originally Lu Yang wanted to collect the Neptune suit before doing other tasks, but time is not allowed now, he had to find the high-level warship drawings first in the heart of the ocean.

Although India and other countries want to attack Huaxia, they should not rashly attack, and they will definitely find a suitable opportunity. For example, after the Chinese ship suffered a lot of damage, it was the highest at that time.

Lu Yang ordered Chen Mo to lead the navy to fight with Italy and Turkey this time. Warships must be damaged. If he fails to replenish the new ships in time, then this war may indeed be taken advantage of by India and other countries.

Five hours later, Lu Yang drove a small boat to a cloudy rainstorm. Rainstorms were common on the sea, but unusually, the rainstorm here was too big, like a super-large curse.

When many people come here, they will think that this is a natural phenomenon. Many people in the last life also thought so, but after a long time, they found that this has been the case. Some people tried to enter the storm, but they found that the storm was a Flower stand, no harm.

Lu Yang drove the boat into the storm, and soon after the storm, he saw an archipelago of extreme beauty.

This archipelago consists of a main island and 16 small islands. This location where Lu Yang enters is the entrance to the southwest corner. There is a water village at the entrance, on which stands more than a dozen 120 pirate elites.

System Tip: Welcome to the Pirate Kingdom

“What?” The Pirate Captain pulled out his sword and pointed at Lu Yang.

Lu Yang said, “I’m a black-bearded friend.”

His reputation with the pirate blackbeard has reached respect and he is eligible to enter the pirate kingdom.

“Please come in.” The captain of the pirate gestured, the gate of Shuizhai opened, and Lu Yang drove the boat into the pirate kingdom.

System prompt: The use of force is prohibited here, otherwise it will be punished extremely severely

Murder is not allowed here. Everyone must refrain. The origins of the pirate kingdom were originally a temporary home built by a group of homeless pirates who traded here.

Over time, it gradually developed into a pirate kingdom. In official history, the navies of various countries have come to destroy the pirate kingdom. The pirate kingdom has been destroyed many times, but since a mysterious naval fleet came here, the pirate kingdom has never been destroyed. After decades of development, this place has become what it is today.

When Lu Yang came here in the last life, it was only the fourth batch of players. The early players had almost opened up here, and many of the only tasks were done by them.

Lu Yang was the first to arrive in this world. He drove to the main island, and after docking, he entered the main city along the port.

“Young pirates, welcome to the kingdom of pirates,” said a pirate boss.

This is the spoken word of everyone here, don't need to worry, Lu Yang walked straight past the pirate leader and came to the city. This is a huge and incomparable main city, his huge enough to accommodate the next 500 million Players enter at the same time, and you can imagine how big it will be here.

Lu Yang found the arena in Nancheng District. It is exactly the same as the previous life. A huge place like the land arena is hosting a competition.

“Fight, fight, fight.” Hundreds of thousands of people cheered loudly.

On the VIP stage, the pirate king looked at the five NPCs on the court with a smug smile. The five looked sad and did not know how to deal with it.

“Damn, we can’t beat the Pirate King. What should we do?”

“We can’t be his slaves like this. We are famous pirates. We must be like pirates,” Blackbeard exclaimed.

Lu Yang was happy and walked towards the black beard.

Seeing Lu Yang coming over, Blackbeard asked in amazement: “Why are you here?”

Lu Yang said, “I pass by accident, why, have you encountered any problems?”

Blackbeard said angrily: “The annual pirate competition is underway, but one of our fighters has been conspired, and the competition is about to begin. We are looking for a solution.”

The King of Pirates competition is an important festival event held by the King of Pirates every year, and the champions will get rich rewards.

This task is unique. No matter which player comes from any country, whoever completes the task first will get the reward. The rest will come back, and the best prizes will no longer be distributed.

Lu Yang said: "India has swelled again. I don't know how much I weigh."

Xue Yiming said with a smile: "Yeah, the news I gathered on the Indian forum, many Indian players are clamoring, let Huaxia players know how powerful it is."

Lu Yang smiled and shook his head. The hatred between Huaxia and India should be counted up. "I'll help you," Lu Yang said.

"Really, your strength seems to be insufficient." Blackbeard said hesitantly.

Lu Yang laughed, magic was in his mouth, and a flash of light flashed over. Lu Yang's body and Flame Master appeared beside him.

"Are the two of us enough?" Lu Yang asked.

"Did you have an avatar?" Blackbeard asked in surprise.

Lu Yang said, "Yeah, my bloodline chose a clone."

"No wonder you just watched your career change." Blackbeard nodded and said, "Yes, it's up to you to fight this battle for us."

System prompt: Blackbeard agrees to participate in the arena mission for him

Blackbeard shouted to the King of the Pirate Kingdom: "His Majesty the King, I have found someone to fight for us."

“Yes,” said the pirate king with a smile.

System Tip: Your faction has become the Blackbeard faction. Next, you will face the challenge of the arena. The goal: win the Western Pirate Rogers.

Blackbeard patted Lu Yang’s shoulder and said, “It’s up to you.”

Lu Yang smiled and walked to the center of the arena. Blackbeard and others retreated, leaving Lu Yang alone in the arena.

The gate on the other side of the arena opened, and a human-like player appeared in the arena.

Lu Yang could not help but widen his eyes when he saw this man. This man turned out to be the British player Edward.

Edward was surprised when he saw Lu Yang. He said, “Lu Yang? Why are you here?”

Lu Yang asked with a smile: “I want to ask you too.”

Edward smiled, gently gathered his hair, and said, “I didn’t expect you to start the pirate kingdom mission. There must be a battle between you and me. I couldn’t think of it in advance.”

Lu Yang said: “Yeah, I can’t think of it in advance, do you have the courage to fight with me?”

Edward smiled and said, “Why didn’t I dare. Maybe I would be afraid of you a year ago, but now I have entered a new era and let you see my strength.”

Edward has short blond hair. When he speaks, he unconsciously uses his hands to soften his hair, and he wears skin on the outside of the equipment. He is a blue windbreaker-shaped military uniform that looks exceptionally elegant.

Lu Yang secretly fortunately, just in order to cause additional damage when the water body appeared, he specifically ordered the water body to follow the black beard outside the arena without revealing his strength.

“Let’s go, how about we make a bet?” Lu Yang said.

“What bet?” Edward asked with a smile.

Lu Yang said: “No matter who wins, you and I are not allowed to say anything about this game.”

Edward said, “I do.”

“Let’s start then, let me see how much progress you have made in a year.” Lu Yang said.

Last year Edward did not even qualify for a fight with Lu Yang, and he was eliminated in one-sixteenth of the global competition.

Edward originally thought he could win the championship. After that battle, he worked harder to practice his skills. This year he firmly believed that he could win the championship, especially after he got the power of thunder system, he became more confident.

“Come on, this is how I can win you.” Edward didn’t dare to care for Lu Yang, his body suddenly flew into the air, and flew towards the landing Yang with a thunder and lightning.

Lu Yang’s eyes brightened.

“flicker”

A white light flashed, Lu Yang jumped to the boundary of the arena 100 meters away, looked back at Edward and said, “I didn’t expect you to be so lucky to get the power of thunder blood.”

Edward laughed and said, "You have also heard of the power of bloodlines. I have checked the materials in the official library. Among the power of bloodlines, there is no one comparable to me. Among all the power of bloodlines, mine is The strongest, this year, I see why you beat me. "

"Thunderbolt Shuttle"

Edward flew into the air again, and appeared 1 meter behind Lu Yang like the same lightning.

"Thunder Bundle"

A whip made of lightning flew out of Edward's body, trapped Lu Yang for a moment, and pulled towards him.

"Thunder Shadow"

A shadow made of thunder and lightning emerged from his body and hit the landing sun.

"36186"

Lu Yang has more than 200,000 blood. Not afraid of this attack, he used a badge.

"Release Control"

Lu Yang returned to freedom.

"Flame Cross"

A spinning flame appeared in Lu Yang's right hand, and he threw it towards Edward.

"Thunderbolt Shuttle"

Edward turned into a flash of lightning, and fled behind Lu Yang while avoiding his skills easily. His fist with thunder and lightning suddenly hit Lu Yang's body.

"Lei Guangquan"

"The Sun Fist"

Lu Yang seemed to have known for a long time that he turned around and hit Edward's fist. The two were hit by each other's skills at the same time, each flying back more than 10 meters.

After Edward waited for his body to stabilise, he smiled and said, "I never thought you would respond so fast."

Lu Yang smiled and said, "You are not slow, it seems that you have not worked hard this year."

"I must be the world champion this year," Edward said.

Lu Yang said, "Maybe, you just can't beat me just because of your two hits."

"Really, that person?" Edward's body turned into lightning again, and he flew into the air, and a fiery electric mang erupted throughout his body.

"Not good." Lu Yang screamed above, hands folded.

"Summon Water Body"

A flash of light flashed, and Moisture appeared next to Lu Yang. At this time, Edward turned into a lightning and appeared in front of Lu Yang. He did not stop, launched a lightning attack on Lu Yang in a frenzy, and attacked Lu Yang from all directions at the same time Critical)

...

Six consecutive attacks, Lu Yang and the avatar were half blood at the same time. Looking at his blood, Lu Yang said to Edward: "It's so good, you almost succeeded in a sneak attack."

Edward returned to his place, watching the water body summoned by Lu Yang, and said in a confused way, "What are you like?"

Lu Yang said with a smile: "Separation, this is the power of my bloodline, I can make another myself."

Edward was stunned and said, "It's okay too, can you control it?"

Lu Yang held his own body and said, "This depends on personal ability. I can tell you that killing my avatar is the same as killing my body. As long as one of us is dead, we all die."

Edward asked, "What kind of blood is this, don't you want to die?"

Lu Yang said with a smile: "Not necessarily. The power of this bloodline is quite strong. You just exported it. Now it's my turn, are you ready?"

"You?" Edward laughed. He didn't think Lu Yang was capable of threatening him.

Lu Yang laughed, his soul entered the body of water, his hands clasped, and a spell was spoken in his mouth.

"Assassination of Water Mist"

The entire arena was instantly surrounded by water mist, and anyone could not see the surroundings clearly.

Chapter 994 - Pirate King reward

The King of Pirates rewards Edward staring blankly at the surrounding fog. He doesn't know what this fog can do. Normally, neither side can see in the fog. Something about it.

"You're going to beat me blind?" Edward said. After speaking, he quickly ran to the right side 5 meters away.

Lu Yang's vision was not affected in the fog, and he smiled and said, "Don't play this carefully, I can see you."

Edward was terrified and said, "How is that possible? Can you see me?"

Lu Luyang said, "Yeah, I have no visual obstruction in this mist. Your every move is in front of me, let's die."

Lu Yang's soul returned to the body.

"Blink"

A flash of light flashed, and Lu Yang jumped behind Edward.

"Flame Storm"

"Blazing Bird"

"Meteorite Impact"

“Resistant Fire Ring”

“Destroy the Sky”

A set of fire output skills was easy to play. Edward didn't have any reaction ability. Lu Yang easily hit 5 combos and killed 200,000 blood.

Looking at one-third of his remaining blood, Edward showed a helpless expression on his face. He was still in the fog, and after being attacked by Lu Yang, he didn't even know where Lu Yang was.

“Your fluid is strong, I can't beat you,” Edward said.

Lu Yang stopped the attack and asked, “Abandon the initiative, I don't mean to kill you here.”

Edward Edward smiled freely and said, “This won't be the case, Lu Yang, I will find you soon.”

System prompt: Edward announces abstention

System tip: Lu Yang becomes the winner of this game

“Win.”

“we won!”

Black beard and other pirates were very excited off the field.

Lu Yang lifted the fog. There was no one in the field. Edward didn't know where to go.

“This kid should be very angry. The failure of this battle not only limited his loss to the battle, but also lost a treasure.” Lu Yang muttered to himself, and he estimated that Edward could not help sending troops to attack He’s gone.

However, it is estimated that Edward does not have time to fight against him now. His first goal is Germany. After Germany kills France, he must find the trouble of the British. This is an inevitable thing. The British still has to solve the German matter first. Yang still has time.

The sharp voice of the pirate king sounded: “Since Black Beard is the final winner, then please choose a baby.”

10A total of 10 items appear over the arena. There are skill books and special items.

“Dude, you choose first.” Blackbeard came to the field and said Lu Dingyang’s shoulder.

“I’m welcome.” Lu Yang pointed to one of the totems and said, “I want him.”

Stealth Totem

Level: 60

Intelligence: +500

Skill: Stealth

Stealth: Duration is 30 seconds. During stealth, the movement speed is increased by 20%. When attacked or actively attacked, it becomes visible. Cooldown is 40 seconds.

Lu Luyang always wanted to get this equipment, but he couldn’t hit it. The stealth totem in the game has never been sold. Everything that can be hit is a top player, not bad money, and now he finally got it.

“It’s almost the same. If there is another skill book, you can open the treasure.” Lu Yang murmured to himself, and said goodbye to Blackbeard, and came to the pirate king city.

“What’s the matter with you?” The pirate at the door asked cautiously.

Lu Luyang said, “I want to be a formal pirate.”

正式 “Official pirate?” The pirate guard smiled. “Welcome to the pirate family, I hope you like it.”

Lu Lu smiled and said, “I will like it very much.”

Pirate, but his dream profession, of course, this is also a maddening profession, choose pirate, you can rob the official merchant ships of any country, you can also change the appearance, people do not know who you are, but you can stay Under your legend.

Puppet guards gave way, Lu Yang walked into the pirate king city, and found the task publisher on the first floor of the task hall.

听说 “I heard you’re going to be a pirate?” Britz, the mission publisher, asked.

“Yes,” Lu Yang said.

Britz took out a badge and handed it to Lu Yang, saying: “This is the pirate badge. With this, you can kill anyone outside the pirate city, of course, you are not allowed to kill people in the city, understand?”

“OK.” Lu Yang wanted this badge.

外面 Outside the cities of the islands of the Pirate Kingdom, there are many 120-level elite mission monsters, but these mission monsters can only be killed by those with badges, and others cannot attack.

精英 These elite monsters are also very special. Their profession is to make pirates blatant bastards. They are collectively known as fallen people. Although players cannot attack them, they can steal things from players.

Luyang came outside the city. A road was flanked by grass and forest. Under a big tree, a group of fallen people were grilling venison around the campfire.

“Someone is here again, brothers, go up.” The fallen found Lu Yang, and a dozen people walked towards Landing Yang together.

Many people in the last life thought that this was a task, and as a result, a lot of gold coins and equipment were stolen.

“Water Body”

Lu Yang summoned the water body, and the spirit entered the water body.

“Assassination of Water Mist”

The fog is diffused. Nothing can be seen around.

奇怪 “Strange, why is it fogging.”

“People, who saw where the guy just went?”

“I can’t see anything.”

Uh ...

The degenerates stopped in place.

Lu Luyang stood 10 meters away from them, with a sneer on his face, and read the spell in his mouth.

“Great Ancestor of Fire ...”

After stroking a series of spells, Lu Yang pointed his staff with a wand and surrounded the fallen.

“Meteor Fall”

赤 A crimson fire meteor the size of a house fell from the sky, in the middle of the fallen group.

“60286”

“62188”

“59186”

Uh ...

A series of numbers emerged from the top of the fallen, and all 12 fallen were stunned for 10 seconds.

“Lava Eruption”

“Flame Storm”

“Meteorite Impact”

Lu Yang attacked with conventional skills. Soon, in less than 30 seconds, all the fallen were killed, and a skill book fell from the fallen.

“Shadow Change”

Department of Water: Water System

Distance: 100 yards

Consumption: 5000 magic

Description: Copy the target to create an identical creature. Players can exchange positions with creatures they make at any time.

Lu Luyang was looking for this skill book, which burst out the first time he didn't think of it. He learned the skill book and no longer stayed here. He returned the body to a special space. He controlled the avatar and walked towards the port.

With the stealth totem and transfiguration, he is confident that he can do the treasure mission.

Chapter 995 - Underwater adventure

The Pirate Kingdom has a total of 128 treasures, of which Lu Yang thinks the best is a task that everyone can start.

On the second floor of the hotel in the harbor, a man was drunk in the room with the door open. He was drunk, but he kept drinking.

Lu Yang stepped in front of him and asked, "What happened?"

The drunk man glanced at Lu Yang, his eyes rolled around his eyes, showing a sad expression, and said, "My lover has been taken away, but I have no ability to save him, who can help me."

Lu Yang asked: "Who caught it?"

"Mermaids, a group of mermaids caught them, they are in the deepest part of the sea." The drunk man said.

Lu Yang said, "I'll help you find it."

"Really, thank you so much. Here are the credentials and maps. I'll wait for you here." The drunk man said excitedly.

Lu Yang took the voucher and the map, turned around and walked out of the room with a smile. This was a scam task. It was not that the dwarf of the drunk man was robbed by the fisherman, but that the drunk man had offended the sea monster Babis and escaped by chance. If you want to change back to freedom, someone must be willing to go to Babes for the drunk man.

This voucher is selling a deed!

Of course, without this certificate, nor the ability to enter Babis's lair, and came to the seaside tavern, Lu Yang found that a large number of fleets were docking in the port, Edward was standing not far from the tavern, and was disembarking with thousands of players. Saying something on the street.

When Lu Yang walked to the door of the tavern, Edward saw Lu Yang. The eyes of the two met with icy light.

"President, shall we kill him?" The vice president asked.

The elites who did not know what happened when Edward was defeated by Lu Yang in the arena.

“Can’t move him for the time being, let’s do the task first,” Edward said.

Lu Yang waited for a while, seeing that Edward did not dare to mess with him, and was too lazy to consume them, entered the tavern, opened a room, and left his own fire mage to stay in place. He used the water to come to the harbor and jumped forward. And jumped into the sea.

Below the Pirate Kingdom is the residence of the sea monster Babes. The reason why the Pirate Kingdom can be preserved is that Babes is extremely successful. He is a friend of the Pirate King and has helped the Pirate King to defeat the fleets of the nations that have come to ruin.

Every time the battle is won, Babes will get rich loot, so Babes’s nest has countless treasures.

Lu Yang found Babes’s lair through the chart. This is a space-time portal. Entering this door is regarded as entering the lair.

He looked around and found a 100-level elite monster.

“copy”

Lu Yang pointed at the elite monster with his left hand, and a creature exactly the same as the elite monster appeared beside him.

System prompt: countdown starts at 300

299

...

The existence time of the replica is 2 minutes. Lu Yang has special equipment, skill level is 6 and lasts 5 minutes. He turns and enters the portal.

A light flashed.

Lu Yang appeared inside the cave of Babis. This is a huge seabed cave. The cave is about 100 meters in diameter. There are luminous gems around the cave, which illuminate the cave brightly.

There is no strangeness at the cave entrance. After walking along the cave for several minutes, Lu Yang came to a fork in Sancha.

In the last life, Lu Yang had not been to Babes's lair, but he had read the guide and probably remembered how to get on the map.

He walked towards the fork on the right, and soon he saw a group of octopus.

Little sea monster (elite)

Level: 120

Qi and blood: 8000000/8000000

“Stealth Totem”

Lu Yang started the stealth totem, and quickly swam deep into the cave in the state of the elemental water. For the first time, he never thought of where he could find Babes, but first explored the road.

Through this group of little sea monsters, there are a lot of sea monsters in the back. Lu Yang's invisibility time has been exposed for several times in a row. He uses his moving speed to avoid it. After 10 seconds, he uses the stealth totem to continue to swim inward .

Each time I tried to use the shape-shifter to fly outside after 5 minutes, and tried three times in a row. Lu Yang found a place inside the lair that was not strange. This was a small room.

Outside the room were 120 elite sea monsters on patrol. After Lu Yang copied an elite sea monster, he continued to swim inside.

Running 5 times in this way, Lu Yang came to the deepest part of the cave and saw the sea monster Babes.

Babis (Lord)

Level: 140

Qi and blood: 20000000000/20000000000

Babis has a human body and a weird octopus-shaped head. It is over 50 meters tall and holds a staff in his hand.

This is a lord monster that no one wants to provoke. Underwater combat is already laborious. Many professional skills are restrained, such as fire, and they cannot be exported in the water.

But this strange has 20 billion health, is still a water mage, not to mention fighting against him, it is good to be able to escape.

Fortunately, Lu Yang did not come to kill him, but to steal something. He estimated the distance and launched a stealth totem before Babes could find him, and swam quickly behind him.

Around his body, there was a room in the back, in which various transparent crystal bottles were placed, each of which contained a drawing.

This place is where Babes collects loot. Lu Yang can't watch it specifically. His stealth time is only 30 seconds, and he has just spent 25 seconds. It was mentioned that the shipbuilding drawing of the level 7 Ocean Overlord found on the left shelf.

He went to the left shelf and pulled it by hand, pulling all six bottles closest to the backpack.

There is only one such opportunity. If this opportunity is missed, Babis will block the room with his body and prevent people from entering. The next time I want to enter, I do n't know when.

"Damn, who stole my baby." Babes felt that his treasure had been stolen, and he turned and looked angrily into the room.

"True Eye Gaze"

Babes' eyes burst into fiery white light, and Lu Yang was illuminated by the light, revealing his figure.

"Damn humans, dare to steal my treasure, I will kill you." Babezi's staff pointed at Lu Yang, and a water gun shot from his staff in an instant, and flew towards Landing Yang.

"Shapeshift"

Lu Yang, who dare to resist the skills released by the level 140 lord, flew into the cave 5 minutes away using shifting shadows, and then quickly swam outside.

"Don't want to escape"

Babis' roar rang through the ocean floor.

There was a smile on Lu Yang's face, he didn't need to run away, and a spell was in his mouth.

"Transfer of avatars"

After 2 seconds, Lu Yang's body disappeared suddenly and appeared in the tavern, next to Lu Yang's body fire master.

Chapter 996 - Ocean Overlord

He looked at the bottles in his backpack, three of which were drawings.

Design: Ocean Overlord

Level: 7

Blood: 150000000/150000000

Lu Yang shook his fist vigorously, this is what he wanted, and he got it, and then looked at the other two drawings.

Design: Hunting Mouse

Level: 5

Blood: 100000000/100000000

The Hunter is a power clipper. It carries magical devices that can improve its speed. Of all the warships, it has the fastest moving speed, and the Ocean Overlord cannot catch up with him, but this ship has shortcomings. Cannot load a 7-level gun, the range is not far enough, and the accuracy is not enough.

His role is to cruise at sea and find enemy ships. Another is to use his own high speed to cut the enemy's navy apart, which is equivalent to tactical forces.

Design drawing: Ocean Fortress

Level: 7

Blood: 300000000/300000000

This is a turtle speed boat, which is only one third of the speed of the Hunting Rat. The shape of the ship is similar to the oval shape, but there is a clear triangle from the top. This ship can carry a maximum number of level 7 guns. Up to 500 doors.

Equivalent to a maritime fortress, there are three such ships, as long as they fight in fixed waters, they are basically winning.

But the experience of the last life told Lu Yang that Ocean Fortress is a chicken rib boat. His movement speed is too low. Although there is a lot of blood and high defense, as long as the enemy does not want to fight you, you will never kill the enemy.

The cost of such a ship is not high, as long as 5 million credit points, but if you buy such a ship, wait for it to be operated by the enemy's warship show.

Although the last one is not very useful, the first two are enough to satisfy Lu Yang. With the Ocean Overlord and the Hunting Rat and the Thor artillery, Lu Yang dares to challenge the navies of the world.

收到 He received three drawings in his backpack and looked at the other three bottles, each of which contained a pure water drop.

Poseidon's Tears

Effect: Water system skill level +1, can be attached to any equipment.

Lu Yang smiled at the tears of the sea **** in his hand, he was a little emotional, did not expect that there is such a good thing here in Babes.

Poseidon's tears, like the enchantment, can be attached to any equipment. Lu Yang has always been interested in improving the skill level. With three drops of Poseidon's tears, he can directly increase the skill level by level 3. .

At present, only the pure water bottle in Lu Yang's equipment can be used until the end. He drops all three drops of Poseidon's tears on the pure water bottle, and increases the skill level by 3.

He looked at the time, it was already late at night. After resting in the tavern, he quit the game.

清 Early morning the next day.

Lu Yang left the studio without logging in to the game. He took his parents and people to the development zone of Donghai City.

The government is recruiting companies to open here. Lu Yang wants to change the working environment for his players.

Receiving Lu Yang is the leader of the development zone.

In the office, the leader asked his subordinates to open the drawing and said to Lu Yang: "You can choose the place, and I will give you the greatest support."

"Thank you." Lu Yang really thanked him for being able to say this sentence, and his support was really too great.

问 He asked Black and White around him and said, "Choose a place."

He has a special black and white background, and has good accomplishments in many aspects. He pointed to a wasteland in the development zone and said, "Here it is."

“It’s desolate here.” The leader of the development zone asked with a smile.

Lu Yang smiled and said, “It’s here, I’ll have such a big piece.”

“Yes, I’ll grant it to you,” said the leader of the development zone.

Lu Yang swiped the bank card to pay the cash, and said to his parents, “Parents and mother, this project will be left to you two, don’t care about the money, you want to build beautiful, beautiful.”

I was able to make 400 billion US dollars in the economic crisis. Lu Yang quietly told her parents that it didn’t slow her down for a while.

交给 “Leave it to dad.” Lu Yang’s father said with a smile.

His mother also smiled, and they were very proud of this son.

“How many floors are you going to build?” Asked the leader of the development zone.

Lu Luyang said, “Tentatively set 30 floors, and then build dormitory buildings, gyms, leisure and entertainment centers on both sides, and a park.”

领导 The leaders of the development zone are a bit messy. If Lu Yang covers all these things, there will be nothing left for their government to build.

“That’s great.” The leader of the development zone said that Lu Yang had solved the big problem for him.

“I left the rest of the work to my parents, the company still has work, I leave first.” Lu Yang left.

I returned to the studio and just entered the game. Chen Mo called and said, "Boss, our 300 warships have entered the island you specified. I'm taking them for training."

Lu Luyang sent three drawings to Chen Mo and said, "Look at this."

默 Chen Mo was stupid when he saw the drawings, and said, "Boss, where did you get it? There is such a good drawing."

Lu Yang proudly said, "Okay, don't worry about the damage this time. In the future, our warships will be based on the Ocean Overlord and the Hunting Mouse."

"With your words, I can rest assured, then I opened up and hit." Chen Mo said with a smile. Lu Yang laughed and said, "Be open and fight, don't be polite."

He is not afraid of war damage. Now he has money. Playing games has become a pastime, not for life. The only thing that keeps him from leaving is Liu Jie. He is also planning to finish the Liu Jie family.

Lu Yang handed the drawing to the body, used the spell to fly back to the city of St. Gall, and then transmitted it to the hot spring island. He handed the drawing to Arhan, and all 30 shipyards learned how to build a marine overlord.

At present, the 10 shipyards in Hot Spring Island have reached the 7th level, and more than 2 million people are doing tasks, which makes the shipyard reach the 7th level early.

Xiao Liang was in charge of supervising the shipyard. Xiao Liang, who had nothing to do for the time being, kept everyone around the shipyard every day to keep the spies from approaching.

"Boss, how old are we for this ship?" Xiao Liang asked.

"The Ocean Overlord needs 300 ships and the Hunting Mouse needs 1,000 ships." Lu Yang said.

Xiao Xiaoliang was surprised and asked, "Is it too expensive? It's too much money."

In total, there are more than ten billion credit points. Most people cannot afford to build them, but Lu Yang has no problem. He swept the Netherlands and made Lu Yang a lot of cash. He now has money.

Lu Yang said: "It doesn't matter, the boss is rich now, driving at full capacity to build a ship, don't let my brothers think that I am rich.

“诶.” Xiao Liang's heart warmed, and the shipbuilding went cheerfully.

As an ordinary person, Xiao Liang is now very happy. Even though Lu Yang is now rich, he still treats him like a brother, which makes Xiao Liang's heart warm.

Lu Luyang watched Xiao Liang leave. He flew back to Hot Springs and found a hotel to rest. There was Xiao Liang here. He was completely relieved.

Chapter 997 - Mutt turkey

Xun spirit returned to the water mage, Lu Yang returned to the pirate kingdom, swimming towards the coral islands in the form of water body.

When he arrived, it was already afternoon. In the depths of the Coral Islands, 500 ships of the Black Devil brought by Chen Mo, as well as tens of thousands of players such as Xia Yuwei and White Lion, were familiar with the terrain around them.

默 Chen Mo and Bai Shi and other vice presidents are forming a circle to discuss the war.

Xun Luyang wanted to surprise them, and said a spell in his mouth.

“Assassination of Water Mist”

A thick mist covered the entire coral island, and everything around was unclear.

奇怪 “Strange, why is it fogging up?” Bitter love said for a long time.

The mist was getting bigger and bigger, and people like Zhuojiu and White Lion were sitting around, but the mist was so thick that the people sitting around couldn't see it clearly.

Muzhuo wine frowned and said, “This mist is wrong, everyone be careful.”

Chen Mo said, “It's a common occurrence of such heavy fog on the sea, so don't be too surprised.”

A sneer came, and the creeps that scared Chen Mo were frightened. He jumped up and shouted, “Who, who is behind me.”

“What's going on? What happened?” Xia Yuwei and Jiang Ze shouted.

“Someone is talking behind me.” Chen Mo said.

“I heard it too.” Zhou Tianming posed a defensive posture.

Lu Yang knew that he couldn't be joking, and when he drove down, it was easy to call the whole staff to be vigilant. Then he had a great time. He dispersed the fog and said, “It's me.”

Everyone quickly restored their vision, and saw the fog disappearing, and then Lu Yang appeared, and Xia Yuwei and Zhuojiu took a breath.

“Boss, you scared us to death.” Xia Yuwei said angrily.

Lu Lu smiled and said, "I have good skills."

默 Chen Mo asked in surprise: "Boss, is that your skill?"

"Okay, you can hide it, I think I can use this skill in a new way." Lu Yang said.

Chen Chen's eyes were straight, and he said, "How come there is such a skill, this is too buggy."

"Isn't it just fogging, what's the use at sea?" Jiang Ze asked.

Lu Yang smiled and said: "If I followed the Turkish fleet to fog and lead him to the meeting point, but the location of the meeting point was the Italian fleet. You said that the fog was spreading out, and there were suddenly hundreds of warships in front. What will happen? "

The eyes of those who are sorrowful and bitter love have lighted up.

"Boss, what are you going to do?" Zhou Tianming asked with a smile.

Lu Luyang said, "I want to hang Turkey once."

"Can you do it? Is Turkey so stupid?" Jiang Ze asked.

Lu Yang asked everyone to sit down, and he also sat down and said, "You can try it, after all, there is this hobby in Turkish history, hit yourself."

"What's the matter?" Sun Yu asked with bright eyes.

Lu Yang said: "This is still a matter of World War II. You also know that Turkey and Greece are deadly enemies. Once, Turkey was informed that there was a Greek warship in a certain sea area, and the earth

quickly sent an aircraft to bomber. The battleship stormed with a gunfire, sinking one ship, injuring three, killing 232 people in the navy.

The news came back to Turkey, the country celebrated, the navy sent a congratulatory message to the air force, and the air force officer won the medal before waiting to return. His own navy killed his own people. “

“Is this still happening?” Everyone was interested.

Lu Luyang said, “Yeah, I can’t understand it. The communications facilities were so developed during World War II, but no one can understand this, but he just happened.”

Chen Chen asked: “Boss, what do you want to do?”

Lu Luyang said, “Find a good ambush site, and let me do the rest.”

Chen Mo pointed out three maps, pointing to an island not far from Coral Island, and said, “If you want to ambush, I suggest you let Prince Faisal spread the news and fight the enemy fleet at sea. The location is This.”

“Yes, I will bring the Turkish troops under the fog and let the Italian troops arrive first, and then you will take the warship to sneak attack on the Turkish and Italian troop carriers.” Lu Yang said.

“Okay.” Chen Mo nodded.

Lu Yang called out and called Faisal, and exchanged this idea with him. Faisal immediately agreed that Faisal was as proficient as Lu Yang in the history of the war, and he said the first time. Oolong event in Turkey.

看 “Look at me.” Faisal laughed.

Saudi server.

“The shameless and shameless Tara and Reich. This is our civil war in Saudi Arabia. You have chosen to let foreigners participate. I will never give up. I will let your shameless allies fight with me at sea. Dare to be on the volcanic island three days later, dare you.” Faisal scolded using the World Channel.

Uh ...

He scolded seven times in a row, showing Faisal’s anger, and annoyed the other two princes.

“Just in 3 days, we will make you pay, you scum ...”

Uh ...

The parties scolded the battle again.

Faisal called Lu Yang with a smile and said, “Successful Lu Yang laughed and said,” The rest is up to me. “

I took a day off the next day, and the next morning, Lu Yang took an official boat to go around Turkey and rest on the golden island.

Golden Island is the first guild of the Ottoman Empire in Turkey.

找 “Look for death, ...” A series of vulgar scolding came from the port.

Lu Yang looked over his head, a sneer appeared on his face, and was a player of the Ottoman Empire Guild. Their guild badge was three silver stars hanging on the blue night, which was very obvious.

“I just want a glass of beer. What do you pretend to be? I arrived first. Is there any problem with the waiter serving me the wine first?” A player looked at the scolding player puzzled.

“You’re just ...” was another series of scolding.

The player was angry, and spit against the opponent, causing the scolding player to stand up and scold: “Come out and be singled out.”

骂 This scolding player’s level is 100, a dark gold suit, the other player’s level is only 90 levels, although he is a master, it is obviously not a level.

“Forget it, ignore him, Ottomans will get revenge sooner or later.” Another player grabbed more than 90 level players who were about to rush out.

“Don’t pull me, they bully people too much.”

我们 “We are high-level players, we will bully you and fight if you are not convinced.”

“What are you looking at? Is it for death?” An Ottoman player found Lu Yang and pointed at him.

Lu Yang laughed. He did not expect that his opponent turned out to be such a group of people. He shook his head and stepped aside. This time he came to inquire about the information, not to cause trouble.

Chapter 998 - Turkish fleet

The date of the war is set, but the time for the ship to go to sea is uncertain. Lu Yang needs to find a player from the Ottoman Empire Guild to inquire about the information.

Entered the main city of Golden Island, Lu Yang used a camouflage coat to change a face in a remote place, and then he came to the arena.

Now the battle styles of the arena have become diversified. Not only traditional PK battles, but also goblin artillery battles, fishing competitions, and many other competition styles.

The most popular of them is the goblin artillery battle. Because of the current naval battle, who can hit the enemy the most times without any targeting props will be recruited by major guilds.

“Three-person double row of goblin artillery battles, there is still a shortfall.”

“There are still 2 people missing from the 5-man artillery battle.”

Uh ...

Among the crowded players near the arena, a large number are seeking to form a team.

Lu Yang was about to report to the list, and suddenly, he saw several players from the Ottoman Empire who had just scolded him on the shore.

“It’s so unlucky today to meet such a person without eyes.”

“Deserve him.”

“Kill him next time, look for the rubbish.”

Uh ...

Lu Luyang sneered as they listened, and followed behind them.

There are two people in this group, and two people are out after playing 5V5. The cursing player said, "Go ahead, you guys, I'll just group three savages."

也是 "Also, you have all joined the Navy. Let's go to qualifying points."

玩家 One player said, "I won't go with you. I'm going to play with the evil eyes. There are god-level masters and I can score easily."

的 The player who just scolded someone is called Evil Eye. At this time, he looks arrogant, as if he is invincible.

"Team up and team up, 2V2 game, ah, master, absolutely master." A Turkish child shouted loudly with a throat.

Lu Luyang said, "Don't shout, let's play 2V2."

"How many segments are you a master?" The child asked.

Lu Luyang said: "Absolute master, how about you?"

The kid's eyes twitched and said, "Of course I am a master. Like you said, I will return after a fight."

Lu Yang laughed. He knew he had run into a little fox and said, "Come on, I'll group you."

打开 He turned on the team mode, and after teaming with the child, he chose the 2V2 mode, a light flashed, and Lu Yang and the child were teleported to the arena, just opposite, the evil eye pretending to be abusive.

"How to divide the group, I met the evil eye in the first game." The child said depressed.

Lu Luyang asked, "Is he strong?"

“He is the 17th best player in the 5V5 game output, we are miserable.” The child said.

Lu Luyang said, “Not necessarily.”

He chose a shotgun and waited for the war to begin.

This is a semi-circular map. Both sides are on one side of the semi-circle.

“There is no hiding place for one side, this is terrible.” The child looked frustrated.

“Haha, it’s unlucky for you to meet us, but I followed the Great God.” The voice of the other side came across the semi-circular map, obviously a companion of the evil eye.

Evil Eyes didn’t say a word, Lu Yang guessed he was arrogant.

“After a while the battle begins, you are responsible for attracting firepower in front.” Lu Yang said.

“Let’s lose it,” said the child.

“Don’t, try my method first, in case you win.” Lu Yang said.

“Ok.”

The child immediately ran towards the middle of the semicircle map, and soon he appeared at the top of the semicircle, but as soon as he got there, the evil eyes arrived.

“You look for death.” The evil eye shot at the child.

After 2 hits, the child’s blood volume dropped rapidly. At this time, a shotgun suddenly dropped in the sky, punching the place where the evil eye stood, and both the evil eye and the child fell into the hole at the same time.

Evil Eyes didn’t care, and continued to output to the child, but when the two of them killed the child, they entered a pit of 2 meters.

不好 “No, we can’t jump out.”

Evil Eye said indifferently: “We are crowded now, follow me, close to the wall, he dare to show up and hit him, without showing up, we win.”

“This is a good idea.” The two rested against the wall of the pit.

But when the two thought that they were foolproof, the scattered bullets fell into the sky, but the focus point was in one place, that is, the eyes of the evil, on the top of the two, being impartial and centering on their bodies.

Evil Eye’s blood volume was instantly knocked down by one third, he was snoring, and looked blankly above his head.

“How did this happen?”

Players who watched the game from outside also watched. They could see clearly that Lu Yang chose not to play the regular 30-degree, 60-degree, and 75-degree angles, but 92-degree angles. This is an alternative angle. This angle of attack can make the fired shots concentrated on one point, and the full-screen wind and attack intensity of the falling position at the same time. At present, can master this angle, no more than 0 people worldwide.

“It must be 懵, we continue to wait.” Evil Eye said.

As soon as the words fell, another batch of artillery shells fell down and smashed the evil eyes. He ran away quickly, but he couldn't run out, and the child was in a state of soul, watching it aside, he shouted excitedly: “Master , They moved 0 cm forward. “

“Thank you.”

Lu Yang adjusted the angle and fired again. He hit the evil eye and his followers with precision for the sixth time.

System prompt: The son of the sea wins

This is the name of Lu Yang's random team.

The spirit returned to the body, the child looked at Lu Yang excitedly and said, “Master, you are really a master.”

Lu Luyang said, “It's not bad, let's continue.”

The evil eye came out of the game with a grey face and dirt face. When he saw Lu Yang, he found that it was the person who looked at him on the shore. He was so angry that he wanted to step forward and scold him, but Lu Yang entered the next game. .

Evil Eyes scolded: “Wait, I will beat you in the final.”

Evil Eye also played the game.

Lu Luyang ignored the evil eyes. For three days, he played this game. By the morning of the third day, he received an invitation from the Ottoman Empire and boarded the warship.

“It’s so easy.” Lu Yang was a little surprised. He just wanted to try it. He didn’t expect to be able to board the Ottoman fleet in this way, and he was still in the middle of the ship.

He originally thought that if this did not work, he would only be able to follow the Turkish ship in the sea to the Saudi waters, but now he has boarded the ship. In this case, he can implement his plan.

Chapter 999 - Turkey vs Italy

“Everyone has stood in their respective places. The chairman hired you to pay for nothing, and all of them cheer me up.” The voice of the evil eye came from not far away.

He is the captain of this ship.

Lu Yang ignored him and sent a message to Saudi Prince Faisal: “The Turkish fleet is about to set sail and arrive at this speed as fast as 3 hours.”

“How many people are here?” Faisal asked.

“500 level 5 warships and 3,000 advanced troop carriers.” Lu Yang said.

“Italy’s fleet is about to depart, the same is 500 warships and 3,000 troop carriers.” Faisal groaned and said, “I bought a first officer on his ship.”

“Good job,” Lu Yang said.

Faisal smiled and said, “The next step is up to you. What do I need from Italy? Ask me anytime.”

Lu Yang said, “Look at me.”

He opened the map and from the world map, Italy would reach the sea where the Saudi server was located before Turkey.

Lu Yang sent a message to Chen Mo, “In 3 hours, the Italian and Turkish navy will reach the volcanic island.”

“Received,” Chen Mo replied.

“What are you doing, don’t you hear me talking?” An arrogant voice came from behind.

Lu Yang looked back, just when he saw the evil eyes, he smiled and said, “Sorry, I just lost my mind.”

The Evil Eye said angrily: “Asian, listen to me. When the gun is fired, follow the command. I did not allow you to fire. No one is allowed to fire.”

Lu Yang shrugged and said, “Okay.”

Evil eyes stared at Lu Yang and walked away.

“This man is so crazy?” Said a gunner next to him.

“Have strength, pretend,” said another gunner scornfully.

“I look down on this kind of person the most. I don’t know who I am if I have a little ability. I am like a king,” said the third gunner.

Lu Yang smiled and said: “Take care of him, we just take money to do business, the rest has nothing to do with us.”

“Right.”

...

Several gunners chatted, but Lu Yang didn’t join in. He looked at the sea surface. After the ship sailed for 2 hours, the system prompted to enter the Saudi server sea.

After another half an hour, the Evil Eye came over and shouted, “Everyone is upset, and will soon enter the battlefield, waiting for command at any time.”

Turkish players are not stupid, knowing that after entering the Saudi waters, they may be attacked by the Saudi fleet at any time.

Lu Yang sneered, and while everyone was focusing on the evil eyes, he chanted a spell.

“Assassination of Water Mist”

A white fog suddenly appeared in front of everyone.

“Why did it suddenly fog up?”

“It’s big enough. You can’t see anything.”

“Don’t panic, keep the formation moving forward.”

“Don’t change course to avoid collision.”

...

The warships on the Turkish fleet are interconnected. No one thinks this is a skill released by the enemy, because no one has seen this skill, and they are common in the foggy sea.

Coincidentally, at the dawn of the game, the night has not completely dissipated, and it coincides with the time when the fog is blowing, and no one doubts it.

In order to better fight with Saudi Arabia, the Turkish fleet split the entire fleet into two parts. The first part was 500 Tier 5 warships, and the second part was 3,000 troop carriers. The troop carriers started half an hour later than the warships. .

The way forward of the level 5 warships is divided into 50 groups of warships, and they are advanced in parallel, and the diameter of the assassination water mist is 5000 yards, which just surrounds the 500 warships.

The ship where Lu Yang was located was near the middle, the warship was moving forward, and the fog was following, making the entire Turkish fleet always in the water fog range.

Lu Yang stood around the bow and looked around. The water mist had no visual obstruction to him. Just after 10 minutes, suddenly, he saw a large number of warships appearing on the sea in the distance and was docking on an island, this island. Is the volcanic island.

“Attention all warships. They are about to arrive at the volcanic island. At present, the fog is very heavy. All the captains pay attention to the surrounding conditions and report any abnormalities immediately.” Xingyue Scimitar, president of the Ottoman Empire Association, shouted to everyone in the group he established. .

Lu Yang knew that the time was almost up, everyone on the Turkish side was in a state of extreme nervousness, and the fleet was only 100 meters away from the Italian side.

He sent a message to Faisal, saying: "Tell you the chief mate who bought it, and let him report to the president of the Italian Guild that the water mist that appeared before it is an enemy's skill, called assassination water mist, and is unique to the Elemental Water profession. Skills to let Italy be careful. "

Faisal said with a smile: "You're bad enough, look at me."

On the Italian side, 500 warships are setting off their attack formations and watching the mist coming.

"This mist is not right. How can we move towards us?" Vice Chairman Sardin asked using a speaker.

President Milan frowned and replied, "I'm also curious."

The chief mate came over and said, "President, I remember, this is not the normal fog. His name is Assassination Water Mist. It is a skill released by the Elemental Water Mage. This is the enemy approaching us.

[World Channel] Faisal: Damn alien enemy, I'm here, let me and my fleet send you to hell.

"Close"

Lu Yang stopped magic and the fog disappeared instantly. The Turkish side clearly saw that there were hundreds of warships less than 100 meters in front of them.

The Italian side also saw hundreds of warships appearing opposite them after the fog cleared.

The two sides looked at Faisal's speech on the World Channel again. Xingyue Scimitar and Milan opened their eyes at the same time, just at this time.

"boom"

Lu Yang ran to the bow and hit the Italian warship with a shot from the bow.

Milan suddenly fell into a violent scream, screaming, "Damn, it's a Saudi warship. Hit me."

On the Italian side, the side was aimed at the Turkish side. After hearing the command of President Milan, 500 warships and thousands of artillery fired at the same time.

"boom"

"boom"

"boom"

...

The gunpowder raged around, and the two warships fell into a firing state.

Lu Yang jumped into the water at this opportunity and quickly swam towards the side of the volcanic island. After 10 minutes of swimming, he came to a small archipelago, where 500 class 5 warships Hei Dei were waiting there.

"唰"

Lu Yang jumped onto the battleship and looked at Chen Mo running over and said, "Your boy is brave enough to be ambush at such a close distance."

Chen Mo said: "I don't have this ability, and what naval battle I still command."

Lu Yang laughed and said, "Go, follow me around the Turkish carrier."

Chapter 1000 - Ambush Turkish troop carrier

“Yes,” said Zhujiu and White Lion, excitedly.

The troop carrier, what is a troop carrier? It is a level 2 and level 3 sailboat that can only transport players but does not have the ability to attack.

On the one side, there is no attack power. On the other side, each side of the battleship can carry 60 abyssal cannons. One side is 3,000 troop carriers. The other side is 500 black devil. The turbid wine and white lion are very excited. .

“Anchor and sail”

500 warships stowed their anchors, raised their sails, and sailed towards the Turkish carrier.

After Turkey learned of its war with Saudi Arabia, Turkish troop carriers stopped on an unknown island only half an hour away from the volcanic island.

“Player, you are always on the alert. We did not find the Italian Navy and watch out for a small attack by Saudi Arabia.” During the command of the war, Xingyue Machete also sent a message to the commander of the personnel carrier.

Asped, the vice-chairman of the troop carrier, stood at the highest point of the island and looked at the endless sea around him. “It’s safe here, rest assured.”

As soon as the words fell, a cloud of mist spread toward them. Aspard didn’t care. On the way, Xingyue Machete always told him that there was mist in front, but he never encountered it. He thought it was dawn. Now, when the sun shines, the fog has dispersed.

“Then I will rest assured.” Xingyue Machete breathed a sigh of relief, shouting, “Fire, kill the Saudi bastard.”

Aspad looked at the mist that was getting closer, Haha said with a smile: "President, your voice should not be so irritable, be careful to scare the Saudis, they are all women and can't stand it."

There was a shell in the flagship of Xingyue Scimitar. Looking at the precise firepower and superb technology on the opposite side, he frowned and said, "The opponent's artillery skills and ship maneuvering skills are very strong, unlike the Saudis. Strange. "

Asped said, "Yes, by the way, President, I finally saw the mist you said, and it was moving towards us."

"Mist?" Xingyue scimitar opened his eyes sharply and asked in horror: "What mist?"

"It's the mist you said. You said it opened for more than half an hour, it was all the fog encountered in the foggy day, and it was immediately in front of our fleet." Asped said indifferently.

Xingyue Scimitar blew up all his hair, and shouted desperately, "Run, it's not fog, it's the enemy, it's the enemy, and you're running with the troop carrier."

"Enemy?" Asped stared at the mist blankly. At that moment, the mist was cleared, revealing 500 ships surrounded in a semicircle, and the sideboard was aimed at the Dark Devil.

"Dangdang Dang ..." Each warship opened its muzzle, exposing the muzzle of thousands of black holes in the abyss.

"Enemy attack, enemy attack!" Aspad yelled in horror, and the distance to the black devil warship closest to the troop carrier was less than 10 meters.

"Fire." Chen Mo growled.

"boom"

"boom"

“boom”

...

Three thousand abyss cannons fired at the same time. The health of the level 3 personnel carrier is only 800,000, the black devil's damage is 50,000, and a black devil's side has 60 abyss cannons. One shot can deal 3 million damage. As a result, at least one of the two personnel carriers was sunk in one shot.

The first round of artillery was over, and the original huge fleet of 3,000 troop carriers was lost by almost a third.

Aspard shouted, “The fleet is running fast, and each is running away.”

After shouting, he shouted to Xingyue Machete: “I was attacked by a Saudi warship. There are 500 ships, all of them are black devil.”

The first reaction of Xingyue Scimitar is frustration, and the second reaction is confusion. 500 black devil cost hundreds of millions. The ship must have a large number of loyal players to command. Generally speaking, even if a large union of a country is unified, Even if it is good to find more than 10,000 people, this is only just enough for the crew of 500 ships.

If 500 black devil attacked his troop carrier and the enemy was 500 black devil, then there would be 1,000 warships in Saudi Arabia. According to his information, there are only 300 warships in Saudi Arabia. It is impossible to have so many. what.

Without waiting for him to understand, all of a sudden, he saw the enemy's flagship rushing forward, and while the two ships were doing tactical evasion while preparing for the bombardment, Xingyue Scimitar saw the surprised face of the Italian Association President Milan.

“why you?”

“why you?”

Both asked at the same time.

“No, we were deceived by the enemy, ceasefire, everyone ceasefire.” Xingyue Machete and Milan shouted at the same time.

The warships on both sides had already fired. The two sides lost at least 50 warships each in the battle. Suddenly, they called for a ceasefire. The crew on both sides were puzzled. Neither side stopped immediately, but fired a few more times. Only then stopped.

Milan asked in exasperation: “Why are you here?”

Xingyue Scimitar said excitedly: “Our calculations must be the ghosts of the Saudis. They used the mist to make the two of us go to war. Then the Saudi army went to hit our troop carrier. I lost a lot.”

“So what are you waiting for, turn around quickly, we’ll go to the Saudi fleet and not let them run away.” Milan shouted.

“Yes, go together.” Xingyue scimitar shouted.

500 warships turned around and chased in the direction of the troop carrier.

Faisal knew the situation on the sea for the first time. He watched the synchronous live video transmitted to him by Lu Yang and called Lu Yang. “My spy in Italy told me that Italy and Turkey were shooting. Destroyed each other more than 40 class 5 warships, and now both sides have discovered a problem and headed for you together. “

“Received.” Lu Yang turned off the phone and called the Norwegian Viking Diamond and the leader of the Japanese Stateless Corps Tsukuhime.

“It’s time for you to play. When we are fighting with the enemy, you sneak attack from the flanks, remember to fight the devil flag together,” Lu Yang said.

“Yes.”

“Yes.”

Diamond and Jin Jiuwu answered at the same time, two of them led 100 warships out of the Whale Islands, and one led 100 warships out of Crescent Island, heading towards the unknown islands.

“boom”

“boom”

...

The third salvo ends less than one third of the troop transport ships in Turkey are left, but at this time Lu Yang can no longer chase because they scattered and fled.

However, the results of this kind of battle are already brilliant. Lu Yang looked at his national war score of more than 1 million, which proved that they had just killed more than 1 million people.

There are 500 people in a troop carrier, and the one that blows up is 500 points, which is the most cost-effective business in the world.

“All fleets turn around and are ready to meet,” Chen Mo shouted.

Lu Yang said: “I lead a warship alone.”

“What are you going to do?” Chen Mo asked.

Lu Yang said, “I’m going to be a puppet soldier. What do you think the enemy thinks I’m driving in the fog on the side of the island?”

“Good idea,” Chen Mo said.
