

# Winner Takes All Chapter 1

## Chapter 1

“I’m sorry Mr. Chen, your mother’s advanced liver cancer has .....

Looking at the doctor who shook his head in front of him, Chen Dong’s head was dizzy and his eyes swished red.

Since he was a child, he and his mother had been dependent on each other, his mother had worked hard to pay for his schooling and had fallen into this situation before he could enjoy any semblance of happiness.

“Doctor, please save my mother, is there no way out at all?” Chen Dong’s voice was hoarse with tears.

The doctor hesitated and said, “There is one last solution, a liver transplant, the hospital happens to have this resource now .....

After a pause, he looked Chen Dong up and down, his long medical treatment had made him very clear about Chen Dong’s current situation.

But, he still said, “But ..... it will cost a lot, a conservative estimate is that it will cost at least 20W upfront.”

20W?

Chen Dong’s eyes lit up and he clutched the doctor’s hand: “Save, we must save, I still have 20W!”

The money could be earned again, but if the mother was gone, she would never come back.

“Then you should raise the money as soon as possible, if you delay any further, there is no way to get a liver transplant.”

The doctor nodded, sighed and turned to leave.

Walking out of the hospital, the sky was drizzling with light rain.

Chen Dong hurried home, his wife, Wang Nan Nan, was curled up on the sofa watching TV, with crisps in her mouth.

Glancing at Chen Dong, Wang Nan Nan said, “Is Mum not going to make it?”

“The doctor said that if we can have a liver transplant, there is still hope.” As if he had grabbed the last straw, Chen Dong said joyfully, “It takes 20W, fortunately our family still has it, Mom still has one more chance.”

With that, he turned around and went inside to get his bank card.

Wang Nan Nan’s pretty face changed and she hurriedly called out, “Chen Dong, stop right there!”

Chen Dong frowned slightly, as if he had thought of something, and turned to look at Wang Nan Nan, “Where is the money?”

Wang Nan Nan looked flustered and stammered, not speaking.

“Gave it to your family again?” Chen Dong raised his eyebrows, revealing an incomparably bitter smile.

He sat down on the sofa with feeble steps, took out his crumpled cigarette case, lit a cigarette and took a puff, his whole body leaned back on the sofa.

After three years of marriage, the same thing had happened more than once.

“Nan Nan, this is my mother’s life-saving money.” Chen Dong said wearily, “Can I get it back?”

“Ask for it back?”

Wang Nan Nan raised her eyebrows and whistled shrilly, “Chen Dong, what do you mean? I’m taking some money to pay respect to my parents, how can I have the face to ask for it back?”

Chen Dong’s expression cooled down and said, “The hospital happens to have suitable liver resources, if you can give the money to the hospital immediately, the hospital will be able to perform a liver transplant for my mother immediately, with my mother’s current condition, she won’t last long at all.”

“I don’t care, it’s your own business, you figure it out yourself.” Wang Nan Nan burst into tears at once, her eyes tearing up.

“Where am I going to get another two hundred thousand for a while?” Chen Dong felt like his head was about to explode as he half pleaded, “Nan Nan, help me for once, ask for it back, my mother is waiting for that two hundred thousand to save her life!”

“Chen Dong! The money has already been given to my mother, there’s no way I’m going to ask for it back.” Wang Nan Nan cried and sat down on the ground, spilling snot

and tears, "Your mother is dying and you're still throwing money at the hospital, have you ever thought about this family?"

Chen Dong's body shook, the breath had already reached his throat.

He violently grabbed Wang Nan Nan's mobile phone, "If you don't call, I will!"

Without waiting for Wang Nan Nan to stop him, the call was answered.

"Mum, Nan Nan just gave you two hundred thousand, right?" Chen Dong pleaded, "Please give me back this two hundred thousand, it's my mother's life-saving money, her old man is still waiting in the hospital to save her life."

On the other end of the phone, his mother-in-law shrieked, "Chen Dong, what are you talking about? That money is Nan Nan's filial piety to us, how dare you ask for it back? When Nan Nan wanted to marry you, we didn't agree. With your birth, only Nan Nan would marry you because she was blinded by lard."

"The first thing that happened was that Nan Nan was filial and took money to pay tribute to us, but you, a phoenix man, still licked your face and asked for it back.

I'm telling you, Wang Hao is getting married, and we're going to take the \$200,000 and put a down payment on a house for Wang Hao. Want money? Not a penny!"

Pop!

The phone hung up.

Chen Dong was completely dumbfounded, did his mother-in-law not understand my words at all?

"Chen Dong, have you gone crazy?" Wang Nan Nan grabbed Chen Dong's collar like crazy, "How could you do such a thing, do I have to be struck by lightning if I take money to my parents?"

Chen Dong looked at Wang Nan Nan in dismay, his eyes red, "In your eyes, my mother's life is not as important as a down payment for your brother's wedding house?"

"Bullshit!"

Wang Nan Nan let go of Chen Dong and grabbed the things in the house and smashed them.

In the blink of an eye, the living room was a mess.

Wang Nan Nan sat down on the sofa with a pearly face: “Chen Dong, you heartless thing, why did I marry you in the first place? I’ve been living with you on a shoestring, even renting a house, have you ever felt sorry for me? Xiao Hao is my brother, he’s your brother too, he’s getting married, I’m a sister, can’t I help?”

“A helping hand?”

Chen Dong was completely furious: “We’ve been married for three years, how much have you helped that trash Wang Hao? Wang Hao, that loser, is a playboy, a deadbeat and an old man, all because you guys spoiled him!”

“Don’t you dare talk about my brother!” Wang Nan Nan’s features were twisted and she pointed at Chen Dong in a hideous manner.

Chen Dong sneered, “Why can’t you say that? He knocked up a classmate in college, and I paid for it, and I paid for his car. How much have I given to your family in the past three years, both explicitly and implicitly? You’re the one who really doesn’t care about our family when you’re the devil who helps your brother!”

“Ah! You shut up.” Wang Nan Nan shrieked, “What do you mean? Do you still want to live this life?”

“Your family took my mother’s life-saving money to buy a house for that trash, ignoring my mother, this is a life you don’t want to live!”

Chen Dong shrugged his shoulders and said expressionlessly, “Get a divorce!”

Wang Nan Nan was stunned, “You, what are you saying?”

In three years of marriage, Chen Dong had never used such a tone of voice to say such words.

“Get a divorce.” Chen Dong said, “Marrying me is indeed too much for you, and I am not good enough for you, I can’t afford to support your family.”

After saying that, he turned around and left.

He wasn’t a character who dragged his feet, and for the past three years, he had put up with me time and again because I thought that when Wang Nan Nan married him, it was really a kind of a commitment, and Wang Nan Nan’s feelings for him were still okay.

But this time, he finally couldn’t stand it anymore.

It was only after Chen Dong left the house that Wang Nan Nan finally came back to her senses.

Panicked, she picked up her mobile phone and called her mother, crying and howling, "Mom ..... Chen Dong is going to divorce me."

"That bastard dares to divorce you?"

On the other end of the line, the mother growled shrilly, "Just divorce! He's a poor piece of shit, and his tail is up in the air! If he divorces you, then let him have his way and let him and his dead mother cry."

At this moment, Chen Dong walked out of the house aimlessly.

In the night sky, it was drizzling, wetting his body.

He scratched his head in annoyance and kicked up the standing water on the roadside.

Money money money, it's all about the fucking money!

Now that I've fallen out with the Wang family, where the hell am I going to find that \$200,000 to save my life?

Crunch .....

At this moment, a Rolls Royce Phantom pulled up beside Chen Dong.

The window was down and an old man in a Tang suit looked at Chen Dong with a smile on his face.

"It's Young Master Chen Dong, right? Please get in and follow me to Lijin Hospital."

Young master?!

Chen Dong looked at the old man in front of him with a dumbfounded expression, not coming back to his senses for half a day.

The old man smiled faintly, "Your mother is already in hospital for a liver transplant."
