

Wonder Doctor

Chapter 1211

Lin Ran was also happy to see Qin Feng.

He had met him a few times before in Tanjiang City, and then twice when Lin Ran went to the imperial capital.

At that time, like Li Sheng, Qin Feng was also a martial arts practitioner, but only later on, as the encounters became less and less frequent, he gradually lost contact.

He had never expected to meet here now, and Lin Ran had a vague feeling that Qin Feng's strength had now reached the Realm of Creation.

This speed of improvement was really a bit terrifying.

One should know that the current Li Sheng was only barely comparable to a Heaven Seizing Realm Earth Seam, and could only spar with a Creation Realm one.

“What exactly did Qin Feng manager?”

Lin Ran couldn't help but be a little curious in his heart.

And with Qin Feng's appearance, the selection of the General Order on the General Pointing Platform was gradually approaching its end.

After the last minute had passed, there was no one left to choose at the bottom of the entire General Order Platform, at this moment, all the General Order owners had already made their choices, and all that remained were those who did not have the token.

“Cao! I knew it would be like this!”

“Ai, no way!”

“It's really suffocating!”

Wang Yifeng Li Ba and the others couldn't help but curse.

At this moment, underneath the two marshal character orders, the number of those general character orders was not proportional at all.

Underneath Long Yang's marshal character decree, there were more than a dozen general character decrees, while on the contrary, on Lin Ran's side, there were only a pitiful six?!

They were, respectively, Fire One Sword, Li Mu Di, Li Sheng, Qin Yin, Qin Feng, and another person who arrived later, Fire Three's!

As for the dozen or so General Orders on Long Yang's side, apart from those from his own squad, there were many others that came out of Blazing Sun Mountain, and the rest were those that joined on their own this time around.

Seeing this result, Wang Yifeng and the others were furious, but Lin Ran had a bashful smile on his face, seemingly not taking it to heart at all.

“Alright! The will-word token owners have finished choosing, the following will be the choice of those without tokens!”

Yu Du swept his gaze over the crowd before instructing.

“The General Character Order holders follow me, the others have to finish choosing within ten minutes and follow whoever is standing under the handsome character collar, lining up in order!”

After saying that, Yu Du jumped straight down from the General Order Platform, and then a kind of General Order holders followed him towards the interior of Xingwu Mountain.

“We’re going first!”

The Fire One Sword Six and Long Ya Ling Sa greeted each other, and immediately followed Yu Du into Xingwu Mountain!

As there were many people without tokens, there was no end to the selection for a while, so Lin Ran and Long Yang also had a moment to rest.

Lin Ran walked straight down the pointing platform and came into the crowd.

“Brother Qin Feng, long time no see!”

With doubts in his heart, Lin Ran directly found Qin Feng.

“Why have you come down?”

Lin Lin and Long Ya asked busily.

“There’s no point in bringing it up there now, it’s all up to those people how they choose!”

Lin Ran laughed lightly.

“Boss! But we already have very few General Word Order owners, if the number is even smaller!”

Li Ba was a little worried.

“Don’t worry, it’s easier to manage with fewer people!”

Lin Ran smiled blandly, not bothering to explain, and turned his head to look at Qin Feng.

“Brother Qin Feng! With all due respect, I’m really curious as to how you suddenly reached the Realm of Creation?”

“It’s a long story about this matter!”

Qin Feng laughed.

“Actually, when you returned to the village before, I had already followed my master to the mountains to cultivate¹”

“Back to the village before?”

Lin Ran was stunned,? He hadn't returned to the village much before, so he didn't know when Qin Feng was talking about.

"It was before Lin Jiawan developed, you went back to the village for a year, I still heard about this from my sister!"

Qin Feng laughed.

Lin Ran was stunned at his words, wasn't that the time when he had returned to his village to consider whether or not to join the Mysterious Alliance.

Dare I say that at that time, Qin Feng had already followed someone from the Mysterious Alliance up to the mountains to cultivate.

"So that's how it is!"

Lin Ran dawned on him, Qin Feng had started cultivating a year earlier than himself, so it was understandable that he could have this achievement today.

"Actually, I shouldn't have come here this time! The area my master is in isn't within the boundaries of the Xingwu Mountain Point, but another battlefield! It's just that I wanted to be closer to home, so I asked to come to Xingwu Mountain!"

Qin Feng laughed.

"Hmm! It's quite nice here too!"

Lin Ran laughed.

Xingwu Mountain was not too far from Tanjiang City, whereas the place Qin Feng had gone to before was a bit far from Tanjiang City.

As the two of them were talking, a group of people had come out from inside Xingwu Mountain on one side, led by Yu Du.

"Lin Ran! Why are you down here!"

"Yes!"

Li Sheng and the others who had come out, including Fire One Sword, were all stunned when they saw Lin Ran.

"I'm fine now, I came down to talk to Brother Qin Feng, but what did you guys follow Yu Du for?"

Lin Ran asked.

"Staying alive lamp!"

Li Mu Di laughed.

Lin Ran nodded at his words.

At this time, Yu Du had already jumped onto the pointing platform once again, swept his gaze across the bottom and spoke.

“It seems that everyone has already made their choice, I’m giving you one last minute, if you haven’t thought about it, hurry up, after one minute, you won’t be able to choose!”

Yu Du said aloud, while taking out two white formation flags and looking towards Long Yang and Lin Ran.

“Hm? Where’s Lin Ran?”

Suddenly, Yu Du didn’t even see Lin Ran on the pointing platform, so he couldn’t help but frown slightly.

“Where is this!”

Lin Ran leisurely and slowly walked up from the stairs.

“Who told you to go down there!”

Seeing that Lin Ran had actually walked up from below, Yu Du was furious.

“I don’t think Tutor Yu said that he wasn’t allowed to go down either!”

Lin Ran blandly, not bothering to say much to him.

From the very beginning this guy had targeted himself, and he had long since gotten used to it.

Yu Du glared at Lin Ran with resentment in his eyes and didn’t say anything more.

The previous fight with Lin Ran had caused him to suffer a secret loss, and he also knew that Lin Ran was not to be messed with.

Coming out in the open would definitely not work, so he could only hold back his spleen and make trouble in secret.

“Alright! Come here if you’re even up here!”

Yu Du said in a cold voice, and then only then did he take the two white formation flags and hand them over to the two men.

At the same time, his gaze once again looked down at the stage, and by now the crowd had already made their choice completely.

On Long Yang’s side, it was densely packed with people, at least 400 to 500 people as far as the eye could see!

On the other hand, Lin Ran’s side was a bit miserable, compared to Long Yang’s, it was simply a bit miserable.

Roughly speaking, if we added Wang Yifeng and his own cronies, there would be barely a hundred people.

There was a gap of four or five times in between.

Yu Du was so full of satisfaction at the sight that a smile appeared on his face.

“Alright! The counting of generals is complete, next the generals of the two camps, start collecting the essence blood and ignite the life lamps as I instructed before!”

Yu Du shouted once again.

At the same time, Lin Ran then saw that the General Order holders in the two major legions that he and Long Yang were in began to get busy.

They were going to collect the essence blood of all the people within their own legions.

This was something Lin Ran had expected in his mind.

Last night, he had met Elder Feng on the fifth floor of the Martial Layer Building, and Elder Feng had come to collect his own and Long Yang's essence blood.

If they had guessed correctly.

The essence blood of the Marshal's Order was collected by Elder Feng himself, while the General's Order possessor was collected by Yu Du.

As for the others who did not have the token, they were collected by those who had the General's Word Order Possessor, and so on.

Chapter 1212

After all, it is to go out to the battlefield.

And on the battlefield only, the situation changes rapidly, so if one cannot do it by collecting the essence blood of each person to light the life lamp, it is likely that one may not even know that one has died in battle.

Therefore, this process is one that the Mystic Alliance cannot possibly skip.

With so many General Order holders collecting the essence blood, it didn't take long and soon everyone's essence blood had been collected.

After Yu Du got the essence blood of these people, he directly handed it to one of his men below and asked him to light the Life Lamp.

"Alright! The whole process of lighting the lamp has been completed!"

Yu Du announced in a loud voice.

"I'm sure you all know already that after the end of the general counting stage, it is time for you to run off to battle!"

"Here, I would like to remind you! Protect yourself, how many of you go! How many of us will return!"

With that said Yu Du turned his head to look at Lin Ran's personal, pointing to the order pieces in their hands and said.

"This is the teleportation order! Later on, you will each take your legions of men and head to the back of Xingwu Mountain, where there will be a teleportation formation! Since the formation is limited in the number of people it can teleport, we'll start with Long Yang's legion first! Lin Ran your group will teleport later!"

Yu Du said blandly.

Lin Ran smiled but frowned slightly.

There were only a limited number of people to teleport, shouldn't the smaller ones go first?

This doubt was shared by many of the people below.

In particular, those who stood in Lin Ran's command were also puzzled at this moment, according to Yu Du, it should be his own legion that went first, right?

"Instructor Yu, I wonder what the limit is on the number of people this teleportation will take?"

Lin Ran looked up at Yu Du and asked.

"One hundred and fifty people once!"

Yu Du said indifferently without hiding anything.

"Then I don't understand Instructor Yu, my legion is only one hundred people, shouldn't I be allowed to go first? Are you planning, to let us wait for Long Yang's group to teleport four or five times before leaving?"

Lin Ran asked directly.

"What do you know! It takes half an hour between uses of the teleportation array to continue using it!"

Yu Du chided.

"Then, am I wrong?"

Lin Ran looked at Yu Du.

"Long Yang's group of four to five hundred people would have to teleport at least three to four times, while my group could all leave in one go! What? Are you afraid that I will reach the battlefield ahead of Long Yang?"

"You!"

Yu Du's face turned blue, this was exactly what he was thinking, only to have it spoken out by Lin Ran at this moment.

"If you have a problem with my arrangement, you can go to the Mystic Alliance to react!"

Yu Du said in a cold voice.

Lin Ran smiled at his words but smiled blandly.

"React? Forget it, it's not that big of a deal! Since you like it, Instructor Yu, then let's just do what you say! I'm not in a hurry anyway!"

"Besides, does it make a difference if you go early or late? I'm just afraid that some people will be unbalanced in their hearts because I'm going first!"

"You!"

Yu Du's face was ice-cold, he was just deliberately giving Lin Ran small shoes to upset him.

But Lin Ran was also fierce in this nature,? didn't give him any steps to take at all, just a deadly fight!

"Tutor Yu, how about this, I'll have a match with Brother Lin Ran!"

Suddenly Long Yang, who was standing next to him, spoke up.

"A match? How can we compete?"

Yu Du's face looked ugly as he kept giving Long Yang a wink.

He himself had suffered a loss even when he fought Lin Ran before, let alone Long Yang, and I was afraid that he was no match for Lin Ran.

However, Long Yang was smiling with a clear mind.

"Tutor Yu, how about you throw our order pieces in the air, and we get them now, and whose team will go first?"

Long Yang laughed.

He wasn't stupid either, at this moment, he naturally couldn't possibly compete with Lin Ran in a fight, otherwise if he lost, it wouldn't just be himself who would be humiliated, but also the 400 or 500 generals watching below.

Moreover, he was not really sure that he could beat Lin Ran at this point.

So this was the most cost effective way to fight.

A win would be good, a loss would be fine.

The key thing was that he couldn't keep silent and always let Yu Du help him, otherwise if this always went on, those of his own followers would, I'm afraid, think that he had risen to power by doing so.

Now they were different from before, before they only had themselves, but now they were the commander-in-chief of the army, and they still had to consider the thoughts and feelings of their men more.

"Long Yang have you thought about it?"

Yu Du looked at Long Yang with a feeling of hatred.

In this matter, as long as Long Yang kept his mouth shut, his own power could definitely suppress Lin Ran so much that he wouldn't dare to let out a single fart, but now Long Yang was actually proposing to compete with Lin Ran.

"I've thought about it!"

Long Yang opened his mouth and said.

"We support Commander Long!"

Suddenly, Long Yang's subordinates below him also spoke up and shouted.

“We don’t want connections, we want to prove strength!”

These people who followed Long Yang were clear before that it was Yu Du who had been helping.

However, if they let Yu Du help even with the matter of who would send the troops first at the end, not to mention Long Yang, they were all a little upset in their hearts.

Couldn’t they use their own strength to fight for it, and had to rely on connections?

“War!”

“Battle!”

Suddenly, Wang Yifeng led the way and shouted, and at once the crowd behind them all echoed in unison.

Unlike the people on Long Yang’s side, those who followed Lin Ran were all holding their breath in their hearts, why should everything be tight to Long Yang first, just because you Yu are his mentor.

One side was unconvinced of this unfairness, while the other side was trying to prove themselves with their own strength.

And before it was even sent, the struggle between the two legions had already begun.

“Good! Since you demand it, then we will do as you say!”

Seeing this, Yu Du did not bother to say any more, and immediately flipped his hand and took out another white token chess piece and addressed the two men.

“Whoever grabs it first will go first!”

After saying this, Yu Du lifted his palm, and the white token directly flew up.

“Up!”

Long Yang jumped up with a flourish almost as soon as the token was thrown away, heading straight for the token.

Lin Ran, on the other hand, was standing still, seemingly with no intention of fighting for it at all.

“Ow ow ow!”

Seeing this scene, Long Yang’s people all became excited and shouted one by one.

Lin Ran’s side, on the other hand, was silent, each with speechlessness and disappointment on their faces.

However, just when everyone thought that Lin Ran had given up the fight.

Suddenly, his palm actually lifted straight up.

At that moment, Long Yang in mid-air was already on the verge of grabbing the Order Chess.

At this critical moment, everyone held their breath and followed with a clear sight.

Lin Ran's palm grabbed fiercely, followed by the token which was already close to reaching Long Yang's hand, but it changed direction instantly.

Then, as if it was being grabbed by something, it flew straight towards Lin Ran.

"Damn it!"

Long Yang cursed at the sight of this and turned around to chase after him.

But his speed was too slow, and he watched as the order chess flew straight into Lin Ran's hands.

"Good!"

In an instant, thunderous applause erupted from the stage, and all the people who had followed Lin Ran were thrilled beyond measure.

Some of them even shed tears of excitement.

Then someone shouted, and a roar rang out from below.

"Too damned! Relief!"

Lin Ran was stunned at the sight, then couldn't help but laugh as he turned his head and threw the order chess to Yu Du, then smiled at Long Yang as he arched his hand.

Chapter 1213

"Humph!"

Long Yang's face was ugly as he flung his sleeve robe and instantly jumped off the point platform.

Lin Ran didn't care either, turning around and shouting at his own people on the stage.

"Let's go! Back Mountain!"

"Yes!"

The crowd shouted in unison, following all of them towards the back of the mountain.

And by now, Lin Ran's legion had taken shape, only that it was still unstable, and everything had to wait until they reached the place of engagement to make an accurate count of their deployment.

At the back of Xingwu Mountain, a very large open space was built on top of an open square.

This open square is normally covered by a formation.

From the outside, one could not see the inside at all, and it was only now that the formation made contact that all could see the true appearance of this teleportation formation square.

On top of the huge teleportation array stood a full five stone pillars, which were evenly scattered in five directions of the square.

In the middle of the formation, there was a one metre projection with a jack on it, which was supposed to hold the transmission flag.

And beneath the bulge were many intricate patterns that covered the entire square, looking divinely enchanted.

“Did the boy feel that?”

Suddenly the pillow’s voice rang out.

“Felt what?”

Lin Ran’s brow furrowed slightly.

“This bulging socket!”

Pillow Book said.

“If I’m right? There’s a space-time stone down there!”

“A space-time stone?”

Lin Ran was stunned and couldn’t help but look at it twice more.

The Time and Space Stone had been an important reason for Lin Ran to join the Mysterious Alliance in the first place.

Only through it could he travel to the world where the Pillow Book was located, and the Time and Space Stone was only available in the Mysterious Alliance.

“Wang Kun!”

Thinking about this, this lingering name popped up in Lin Ran’s mind.

“Our guess was right, the Mysterious Alliance already knows how to use these space-time stones, so maybe we can use the Mysterious Alliance’s power to return to my homeland again in the future!”

The pillow was very excited.

Lin Ran, however, didn’t say anything, he hadn’t even thought about it until now.

If there really was a day when a teleportation array that could lead to the Pillow Book world was placed in front of him, should he go up there or not.

Once he went up there, when would he be able to return, and what would Song Nuan and the girls do.

Whenever he thought of this question, Lin Ran’s heart was in turmoil.

“Forget it, let’s not talk about that, Yu is all here!”

Lin Ran said.

And at this moment, Yu Du had already rushed over.

“What are you still waiting for,? Insert the token flag into the formation, and the formation is activated!”

Looking at Lin Ran on the teleportation formation, Yu Du’s face was hard to see.

“Everyone stay within the formation and prepare to activate it!”

Lin Ran didn't bother to pay attention to Yu Du as he swept his gaze over the crowd and shouted.

Rather, there were still some people outside the formation, who rushed over at the sound of the words.

A moment later, after everyone had gotten into the formation, Lin Ran then took out his banner.

“Prepare to teleport, no one is allowed to move back and forth!”

Lin Ran said, while slowly inserting the token flag in his hand towards the bulge.

“Weng!”

As soon as the token flag was inserted, a buzzing sound instantly came out.

Following this, everyone saw a white light rise above the token flag.

And below, the complex patterns on the formation were all lit up in an instant.

Countless white lights instantly rippled out.

“Weng!”

Suddenly, another tremor followed all the white light rushing up into the sky, and suddenly everything around them turned white.

Lin Ran and the others standing on the teleportation array all covered their eyes for fear of being blinded by the white light.

But then, the space around them was violently black, and suddenly nothing could be seen.

“Kid! Than get a quick feel for the eyes, the power of the Time Stone's teleportation is magical!”

The pillow book was busy speaking.

Lin Ran also closed his eyes directly without any nonsense and felt it with his heart.

But soon he noticed a problem and was busy asking.

“Why does this teleportation feel the same as Granny Meihua's teleportation that time!”

“Nonsense!”

The pillow spoke up.

“You think the Plum Blossom Sect can get out a teleportation formation by themselves? That teleportation formation must have been made by their old ancestor, for such use of space-time stones, ordinary people simply can't do it, I'm afraid that even in the Mysterious Alliance, there are only a few people who can design such a teleportation formation!”

“So you can do it?”

Lin Ran suddenly asked.

“Of course I do, Master Shu! It’s just a pity that the ones I know how to make are made using high grade materials, and I haven’t used this lowest grade of space-time stone to make them”

Pillow Book said awkwardly.

“Then that means that even if we wanted to go to your world, we would have to rely on someone else to make the teleportation array?”

Lin Ran asked.

“We’ll talk about that later, if you give me a bunch of space-time stones, I can figure out how to get back even if I fumble!”

The pillow said without good humour.

Lin Ran saw this and was too lazy to tease him, at this point he could already feel that the power of the formation was weakening and they seemed to be coming to the end of the road.

.....

This is a dimly lit space.

Everything around was grey and dull, and thunder clouds rolled above the sky,? From time to time there were flashes of lightning, and the earth around was a mess, without any greenery.

There were only ruins and desolate walls.

But on this desolate land stood a high mountain.

On top of the high mountain, a made formation stood alone.

“Weng!”

Suddenly, a white light shot up into the sky, illuminating the entire dim space.

All at once, immediately below the great mountain,? Within a city called Heavenly City, a middle-aged man dressed in armour snapped open his eyes.

A red light faintly flashed within his eyes, that was the fury, the fury that comes from killing too many people.

And he was none other than the General of this Heavenly Wolf Pass, Long Mo!

“Back to the General, the white light of Heavenly Mountain is bright, a new trial team has arrived!”

One of his men rushed in, kneeling and saluting to report back.

“I can feel it! Send someone to greet them immediately!”

The middle-aged man spoke, with anticipation in his eyes.

Only after the men left did the middle-aged man then whisper to himself.

“Little Yang is that you?”

....

At the same time, ten thousand miles away from Heavenly City, within a city with corpses forged in it, an old man dressed in blood-red robes slowly stood up as he looked at the white light in the distant sky, his face gloomy.

“Wolf King! There’s a new trialist coming from Heavenly City!”

A man wearing a red robe and a mask on his head next to him said in a hoarse voice.

The old Wolf King nodded, with killing intent in his eyes.

“When will the Wolf Lord’s stuff arrive?”

The Wolf King opened his mouth and asked.

“Three more days at most!”

The man with the mask returned.

“Good! Pass on the order that no one is allowed to answer the battle for seven days, after that! We’ll go and slaughter the city!”

The Wolf King said in a cold voice.

“Yes! Wolf King!”

The masked man respectfully returned, and immediately left to give orders.

The Wolf King was the leader of this Wolf City, and the masked man next to him was his military advisor, as well as the only way for him to contact the Wolf Lord!

The Wolf Lord! That was the true supreme commander, and the Wolf Lord here was merely one of the ten Wolf Lords he sat down with.

.....

Ten million miles away, on a lonely island.

“Third brother! We have received news that Lin Ran has already entered the trial land, and the great general guarding the gate there is none other than Long Mo of the Dragon Family!”

The fourth elder said excitedly.

The Third Elder opened his eyes at his words, killing intent dancing in his eyes.

“Good! Good! Here’s your chance, act according to the plan we set out before! In half a year at the latest, I want Lin Ran’s body to die in another country!”

The Third Elder chided in a cold voice, following which he directly got up and left the isolated island.

But then, the Fourth Elder flipped his palm and a figure appeared next to him, with the same appearance as the Third Elder!

“Where is this?”

“Why is it so depressed!”

“Yes!”

A large group of people appeared at the top of Heavenly Mountain, looking at the earth around them, and their hearts couldn't help but tense up.

The land in front of them looked devastated, and there was no telling how many years it had been swept away by war.

Just looking at it made them feel their hearts palpitating.

“Marshal Lin! What do we do now?”

A henchman next to him busily came over and asked.

Lin Ran frowned slightly as he swept his gaze over the crowd and spoke.

“Organise everyone to rest in place, and Leng Zhan will lead the men to the front to check out the situation!”

Lin Ran said.

“Yes old Marshal Lin!”

Leng Zhan respectfully led the order and immediately led Old Cat and Ah Zhan away.

Fire One Sword and the other generals then organized the men to rest in place.

Lin Ran looked at the land in front of him and only felt an incomparably heavy burden on his shoulders.

“I only hope that I can bring them all out of here alive!”

Lin Ran vowed secretly in his heart.

Lightning surged in the sky, and soon Leng Zhan returned with his men.

“Marshal Lin, someone has been spotted coming ahead!”

Leng Zhan said.

“Good!”

Lin Ran nodded at his words, while shouting.

“Everyone go on alert!”

The words fell, and all the resting men all got up and gathered together, looking ahead vigilantly.

Soon the sound of footsteps came from ahead, followed by a group of ten people appearing in front of the crowd.

“Are you the new trialists?”

The already golden-armored sabre guard in the lead looked at Lin Ran and the others and barked out a question.

“Yes! Who are you?”

Lin Ran frowned and asked the trialists? What did he mean by calling himself that? Could it be that these people of their own were just trialists? Not really here to fight?

“I am the Golden Armoured Blade Guard under General Long Mo, declare your name!”

The golden-armored sword guard shouted.

“Lin Ran!”

“Lin Ran?”

The golden-armored blade guard asked with a slight frown.

“Where’s Long Yang?”

“Long Yang?”

Lin Ran’s face couldn’t help but look stunned, and everyone behind him also froze, why did it feel like this golden-armored blade guard had come specifically to pick up Long Yang, and not them?

“Long Yang will arrive later!”

Lin Ran returned, but his heart was alert.

“Got it! You guys come with me!”

A hint of disappointment clearly swept through the Golden Armoured Blade Guard’s eyes,? Immediately, he turned his head with his men and left.

“Follow me!”

Lin Ran didn’t say much, and immediately led his men to follow behind.

At this time, far away in the Heavenly City at the foot of the mountain, the great general of the guards, Long Mo, had already received the news.

“Lin Ran? This brat has actually come here, what an ingrate!”

Long Mo had a cold smile in his eyes, and immediately waved his hand and shouted.

“Send the adjutant over!”

“Yes General!”

The guard at the door answered and immediately ran out.

Just a moment later, a young man wearing armour and a five-horned wolf’s tooth on his head walked in.

“Adjutant Hu Chong sees the general!”

The youth saluted respectfully.

“Hu Chong! You immediately take your men to the city gate and wait there, as soon as Lin Ran’s group arrives, you arrange for them to go and carry down the supplies from Tianshan!”

Long Mo said.

“Yes General!”

Hu Chong nodded respectfully, then asked.

“General, is it their own supplies, or all of them?”

“Nonsense! Of course it’s all of it!”

Long Mo scolded.

“Yes General!”

Hu Chong understood and left at once.

.....

“I wonder, what is this friend’s name?”

Lin Ran stepped forward and chatted idly with the golden-armored sword guard.

“Just call me Golden Armor!”

The golden-armored blade guard glanced at Lin Ran, not bothering to say his name.

“Brother Golden Armour, I wonder what exactly this place is?”

Lin Ran asked.

“See for yourself!”

The golden-armored in place fished a book out of his arms and tossed it to Lin Ran, not bothering to say a word!

This action made Wang Yifeng Li Ba and the others at the side furious.

However, they were new to the area and dared not speak out in anger, so they could only break their teeth and swallow them in their stomachs.

Flipping open the books, Lin Ran read them.

He soon learnt.

This place was called the Heavenly Wolf Domain.

The two forces in it were the Heavenly City, where the Mysterious Alliance was located, and the rival force was the distant Wolf City.

This was the place where the Tenth Wolf King, who sat under the Wolf Lord, was guarding, and there was constant strife all year round.

However, because this Tenth Wolf King is not too strong, only at the peak of the Creation Realm, he is not too powerful. Even at full power, it is only comparable to the pre-Dan Creation Scripture, so the fights here are actually the easiest.

After all, the forces are not strong, so the loss of personnel is the least among all the battlefields.

That was why this place was also known as a place of trial.

“The name of Heavenly City’s town guard general is Long Mo!”

Upon seeing this introduction, Lin Ran frowned slightly.

He could already sense that this trip to the trial would not be too good, he feared.

And apart from this information, he didn’t know anything else, because that was all that was written in this book.

Lin Ran handed the book over to Fire One Sword and the others, and they dispersed the information so that everyone would know it.

In the meantime, the group of people had arrived halfway up a mountain, led by the golden-armored sword guards.

“What’s that?”

Lin Ran suddenly asked, pointing at a few buildings on the mountainside next to him.

The golden-armored blade guard glanced blandly at them, then said.

“That’s the supplies depot! Supplies are brought in every so often!”

Lin Ran nodded at his words.

The golden-armored blade guard, on the other hand, had a slight movement in his eyes, as if he had thought of something, but he didn’t say anything.

The other party’s attitude was not salty, and Lin Ran did not bother to make small talk with him, he already knew the general situation here, and he could wait until he reached the Heavenly City and send someone to pry.

Half an hour later, the group finally arrived at the entrance of the Heavenly City.

The Heavenly City was built on a mountain, and originally, it was possible to enter it directly from the Heavenly Mountain, but in order to show respect, the golden-armored sabre guards led Lin Ran and the others out of the Heavenly City first, and then came to the main gate, ready to enter through the main gate of the Heavenly City.

The main gate of the Heavenly City loomed large and looked extremely imposing.

At this moment, Lin Ran and the others were standing at the main entrance of the Heavenly City, and each one of them could not help but feel a sense of pride and ambition to serve the motherland.

“I’m going to be here for a long time, I hope I can leave behind a good memory!”

Lin Ran said with emotion in his heart.

“Alright! Enter the city!”

As the golden-armored saber guard’s words fell, all of them immediately headed towards the city.

Within the Heavenly City, apart from the many generals, there were also many ordinary people.

Some of these people were those who had been discharged from the army, and some were the families of those who had fought in the war. Since this was a town garrison point, the supplies here also needed to be looked after and maintained, so naturally many ordinary people would also be derived.

Of course the lives of the ordinary people who live here are completely different from those who live in the metropolis.

“Stand still! But Commander Lin Ran?”

As soon as Lin Ran and the others entered the city, a voice came from ahead.

At the same time, everyone saw a young man wearing armour with a five-horned wolf’s tooth on his head standing not far in front of them.

“My subordinates have met Vice Admiral Hu Chong!”

The golden-armored sword guard saw Hu Chong hurriedly baggage.

“No need,? I’m here to pass on orders!”

Hu Chong said blandly, while sweeping his gaze over Lin Ran and the others, and spoke.

“Receive General Long’s collar, order Lin Ran’s affiliates to go to Tianshan to carry supplies from now on, all must be moved down before dark! If you fail to do so, you will be severely punished by military law!”

“What? Carry supplies?”

When they heard this order, everyone, including Lin Ran, was confused!

Chapter 1215

“Vice-Admiral Hu Chong, you are still mistaken, we have only just arrived at Tiancheng, we don’t even have a place to rest yet, and we are going to carry supplies?”

On the side, Wang Yifeng asked with an ugly look on his face.

“Isn’t what I said clear enough?”

Hu Chong’s face was icy cold as he chided.

Whirling around, he looked at Lin Ran and said in a cold voice.

“Commander Lin, is there a problem?”

“I want to know if this is what you mean, or what General Long Mo means!”

Lin Ran looked at the other party and asked blandly, the thing he was most worried about had still happened.

“Didn’t I just say that?”

Hu Chong looked at Lin Ran and said in a cold voice.

“I know!”

Lin Ran nodded, turned around and left.

“This

On the side, Fire Three was suffocating in his heart.

“Forget it, let’s go!”

Fire One Sword patted him, followed by turning around and walking back.

“It’s really their too suffocating!”

“Cao! That’s it!”

“Not even your ass has touched the ground,? And we’re told to carry supplies, what fucking rules are these!”

On the way up the mountain, a bunch of people complained.

Lin Ran, however, did not say a word and walked silently at the front.

He was also angry in his heart.

But there was nothing he could do about it? When he had learned that the guards here were members of the Long family, he had already expected this situation in his heart.

It was just that he hadn’t expected this Long Mo to be in such a hurry to deal with himself, not even allowing himself to enter the city completely!

As the crowd spoke, they had already reached the mountainside at the back of the hill under the leadership of the golden-armored sabre guards.

It was the very place where Lin Ran had curiously asked about the building earlier.

“Brother Golden Armour, did you know before that we would come to carry supplies?”

Lin Ran asked as he looked at the Golden Armoured Blade Guard.

The golden-armored blade guard was stunned and said.

“Indeed, every time new trialists arrive supplies need to be carried by themselves, it’s just that I didn’t expect that this time the supplies would be for your army to carry all of them away!”

He said with a small smile on his lips and continued.

“But you should have been able to think of that already!”

“Thought of what?”

Lin Ran asked, frowning.

“Our great general of the guards is General Long, so when the other commander is Long Yang, your treatment in this Skywolf Domain is already predetermined!”

The golden-armored sabre guard laughed, following which with a wave of his hand, the three warehouse doors in front of him swung open in unison, revealing the densely packed supplies inside.

“No use talking more, hurry up, it gets dark at five in the afternoon in this Skywolf Domain, and it’s already two o’clock, you hi love have three hours!”

“Don’t blame me for not reminding you, what General Long hates most is delaying, especially those who haven’t completed their tasks by the time it gets dark!”

After saying that, the golden-armored sword guard stopped talking nonsense and turned around to rest aside.

Lin Ran gave him a bland look and followed before walking inside towards the warehouse.

He had seen the three warehouses outside before, but when he actually entered the warehouses, Lin Ran realised that he had thought too simplistically before.

There was something else inside the three warehouses, and the space inside was much bigger than it looked from the outside.

After a cursory glance, Lin Ran found that for just one warehouse, his hundred men would not be able to finish moving it all at once, it would take at least two trips, while the three warehouses together would be six trips.

It took at least an hour to carry the supplies back and forth from the mountainside of Tianshan to the city.

And six trips would be a full six hours.

Even if they were all cultivators and some of them possessed spatial-type magic weapons, I’m afraid that even if the time was subtracted, it would be compressed to three hours at most.

Trying to move it all in two hours was almost an impossible task.

“Commander Lin, what should we do? We really have to move it!”

“Yes!”

“Commander Lin, come up with a solution!”

The crowd looked at Lin Ran with longing in their eyes.

Lin Ran was a bit helpless, but what could he do?

But at this moment, he had to say something.

So, Lin Ran was silent for a moment, then jumped onto the highest supplies and looked at the crowd and spoke.

“As your commander-in-chief, I’m sorry for running into this kind of thing!”

“The reason why General Long treated us like this is mainly because of me, I have some problems with their Long family, plus Long Yang is a member of the Long family, so that’s why we were treated this way!”

“And now that we’re new here, we can’t get in touch with the outside world at all, let alone sue or anything,? So there’s nothing I can do! The only thing I can do is to honestly carry supplies!”

When he said this, there was some guilt in Lin Ran’s eyes as well, and he looked to the crowd and said.

“I’m sorry about this, but I still say the same thing, those of you who followed me here, I will bring you back as much as I can!”

“Bring back? Holy shit! We’re here to fight, not to do hard labour!”

“That’s right!”

“What do you call this!”

A few of them grumbled in discontent.

Lin Ran frowned slightly and spoke a moment later.

“I don’t want to go on about it, if anyone doesn’t want to move they can! You can all go straight back to Celestial City, and when Long Yang’s group arrives, you can choose to join them, but it’s none of my business if they want to or not!”

“But those of you who choose to follow me, I hope you will understand, this situation is not what I want to see now either!”

“That’s all I have to say, those who wish to follow me, carry the supplies! Those who don’t want to can leave at any time!”

“But I’ll say it up front, it’s easy to leave, but don’t blame me for being narrow-minded if you want to come back, in front of the battlefield, all I can do is to protect everyone’s safety as much as possible.

Lin Ran said, then no more nonsense, immediately from the pocket to feel a ring, this is from the pillow book to get the space ring.

Immediately, he began to load the supplies.

“Hey! Do it!”

Wang Yifei sighed and started to carry them as well.

Naturally, Li Ba also had nothing to say.

Ling Sa Long Ya also looked at each other and began to carry them.

Although Fire One Sword and Li Mu Di were a little upset, they didn't say anything.

Many people also started to join in the carrying process.

But there were also those who stood still.

In a group of 100 people, there were nearly 30 people standing still.

"Damn it's too suffocating, I'm quitting! I'm from the Blazing Sun Mountain and have some friends with Long Yang, I don't believe he won't accept me when the time comes!"

One of the youths said, turning around and leaving.

"Damn it, I'm leaving too!"

"I'll go too!"

A relationship was laid out here, and soon attracted a full thirty people, who left the place together and returned to Heavenly City.

As he watched these people leave, Lin Ran merely revealed a bitter smile, followed by no more words as he continued to carry the supplies.

Trip after trip, as the number of people dwindled, the final number of people left behind, together with Lin Ran and the others, only barely reached sixty-two.

Lin Ran divided these people into six groups.

The five men, Fire One Sword, Li Mu Di, Fire Three, Qin Feng and Qin Yin, each led ten.

Li Sheng, on the other hand, led a group with Leng Zhan, Old Cat and Ah Zhan.

The rest were Lin Ran, Wang Yi Ming Ling Sa and Long Ya.

Although the number of people was reduced by thirty, but under Lin Ran's arrangement, at least the remaining sixty-two people were still working in an orderly manner, and their efficiency had increased.

Chapter 1216

However, even though the efficiency had increased, it was not enough to offset the large amount of supplies.

In the end, Lin Ran's group was busy until 7.15pm, when they finished carrying all the supplies.

When they got back to the city, they hadn't even been allocated accommodation yet, but everyone was so tired that they didn't even want to walk anymore.

"No, I can't walk anymore! Damn I feel like I could eat ten cows right now!"

Wang Yifeng sat down on his buttocks, panting heavily with exhaustion.

"Ten cows? I feel like I could eat a hundred!"

Li Ba likewise plopped down on the ground and echoed.

The others, who were not as strong as them, were lying on the ground without even the strength to breathe.

“Everyone rest in place, I’ll think of a solution to the accommodation problem!”

Lin Ran said.

Everyone had worked so hard because of himself, which made him feel bad in his heart as well.

But when it came to the problem of accommodation, Lin Ran was also speechless.

The supplies had only been carried halfway when the golden-armored sabre guards had left with their men.

Now he didn’t know where they were going, and he didn’t even have anyone to turn to for accommodation.

It was only his first day here and he had been tossed around like this. He dreaded to think how he would have to spend the rest of his days.

Just as Lin Ran was thinking of going to find someone to ask about accommodation.

Suddenly, the golden-armored sword guard actually came over with someone.

“Commander Lin, the general is calling you over!”

The golden-armored sword guard shouted aloud before he even reached close.

This couldn’t help but cause Lin Ran to frown slightly.

What he said was shouting at you to go over, not inviting you over, a difference in words but a world of difference in treatment.

Lin Ran didn’t say anything and stepped forward to leave.

However, the golden-armored sword guard did not move a muscle and opened his mouth to say again.

“The general is asking your entire legion to go over, not yourself!”

Lin Ran’s steps were halted at his words, and his silver teeth were clenched.

But he knew clearly that now was not the time to explode, and until he contacted the Mysterious Alliance, he would have to hold back.

At the back, Wang Yifeng and the others had also understood this truth after a long afternoon of hard work.

This truth was that the sky was high and the emperor was far away.

The one who was truly in charge of the Skywolf Domain was not the Mystic Alliance, but he, Long Mo.

Here, even if Long Mo had killed them all, the Mysterious Alliance would not even know the truth.

The so-called truth was nothing more than a word from Long Mo.

Dying in battle with the enemy, dying from a sneak attack, anything could be a reason.

So, at this moment, even though Wang Yifeng and the others were also angry, there was nothing at all they could do.

“Go! Go see the general!”

Lin Ran shouted through clenched teeth.

The crowd at the back, who were resting, could only drag their tired bodies and get up once more.

“That’s more like it!”

The golden-armored sabre guard nodded in satisfaction, and with a swirl of his hand, he turned around and led the way in front.

At this moment, the entire Heavenly City was dimly lit, with only the lamps within the city lit up, reflecting the town in red.

Previously, Lin Ran and the others had all been resting near the city’s warehouses.

And at this point, as the golden-armored sabre guards headed towards the centre of the city, it didn’t take them long to hear the bustling noise.

And as they got closer and closer,? The clamour grew louder and louder.

Eventually they could clearly hear the sounds of singing and dancing, as well as the pushing of glasses and clinking of cups.

Finally, when they entered a gate in the middle of the city, the scene that appeared in front of them made them completely furious.

It turned out that at this moment in the middle of the city, a grand banquet was actually being held, and the one put on the banquet was who else but Long Yang.

Many people even noticed that within these people, there were actually the thirty or so people who had just left Lin Ran’s legion in the afternoon.

“Yo! Commander Lin, you’re finally here, I thought you were lost!”

Seeing Lin Ran, Long Yang immediately walked over with a smile, while carrying a cup of wine.

“Commander Long, you don’t know anything about that, what’s lost, other Commander Lin is leading everyone to do voluntary work, our supplies were all carried down by him!”

A young man next to him laughed and said.

Lin Ran recognised him, he was the same youth who had led the thirty men of his own troops away in the afternoon.

“Shao Guang, then why didn’t you carry it this afternoon!”

Long Yang looked at the youth and asked with a smile.

Where he didn't know, it was just that at this moment, he was deliberately disgusting Lin Ran and exposing his scars in front of him.

"You're not joking, Commander Long, my brother chose something blindly before, and now he's not hanging back, so he's brought his like-minded brothers to join you!"

Shao Guang said, busy greeting the thirty men, and in front of Lin Ran, he saluted Long Yang respectfully.

"Commander Long, Shao Guang has brought thirty men to join us, I hope that Commander Long will accept us regardless of our past grudges!"

"Haha! Well said!"

Long Yang said with a smile.

At this moment, it was as if all the stifled grievances from before were released at this moment.

Having suffered defeat at Lin Ran's hands twice before, this moment was finally his turn to be proud for once, Long Yang.

"Commander Lin, what do you think?"

Long Yang asked with a smile as he looked at Lin Ran with his glass of wine.

"Not much to say, I won't stay if I want to leave! I just hope you can take responsibility for each of their lives!"

Lin Ran said indifferently.

"Haha! Responsible for our lives?"

Shao Guang laughed at his words.

"Commander Lin, we are here to fight and have long been prepared to die on the battlefield, at least that would be glorious!"

"We don't want to die of exhaustion from carrying supplies before we even go into battle! A suffocating, unexplained death!"

"Right!"

Shao Guang's words immediately caused a group of people around him to agree.

Even among the only sixty people left on Lin Ran's side, there were some who couldn't help but agree.

"Commander Lin, as you can see, it's not that I had to steal someone from you, they volunteered, so there's nothing I can do about it!"

Long Yang said with a smile.

"By the way! Thank you for leading the men to carry the supplies this afternoon, I'm not late, otherwise I would have helped you for sure!"

“Commander Long is joking, it’s just a coincidence that you’re late, it also saves you from having to carry supplies!”

Shao Guang laughed at the side.

Lin Ran looked at the two indifferently, not bothering to make conversation, and turned his head to look at the golden-armored sword guards at the side.

“Where’s the general!”

“This is not coming!”

The golden-armored sword guard pointed to the side, and indeed, at that very moment, a tall and stout middle-aged man wearing all purple and gold armour had already walked over.

There was a fierce aura in his eyes, and even just standing there, he gave people a sense of oppression, making them not dare to look at him.

At this moment, his face was cold as he walked over, even more so as the crowd around him fell silent, not daring to utter a single word.

“Who is Lin Ran!”

A thick voice rang out as his feet fell.

Lin Ran looked up at the other party, his eyes dancing with anger as he arched his hand.

“Lin Ran has met the General!”

Long Mo slowly turned his head, his gaze falling on Lin Ran as he spoke.

“You are Lin Ran?”

“Precisely!”

Lin Ran suppressed his anger.

“Humph! Rice bucket!”

Who knew that Long Mo would just curse out.

“What does the general mean by this!”

Lin Ran’s gaze was icy cold as he looked at Long Mo.

“Put away your icy stare, this is Laozi’s city, but there are only two kinds of people who dare to look at me with such a look,? One is a dead man, while the other is someone who is on the road to death!”

Long Mo chided.

Lin Ran smiled at this but sneered.

“General Long Mo, that will have to disappoint you, I was born with that kind of look, so are you going to kill me?”

Lin Ran did not want to confront Long Mo right now, but at this moment, with so many people watching, he was really not afraid that Long Mo would dare to kill himself on the spot.

After holding his temper all day, he needed to explode at this point.

Chapter 1217

At this time, Wang Yifeng and the others standing behind Lin Ran also knew Lin Ran's character and knew that he must have his own reasons for doing so.

In addition, they had been holding back their frustrations all day, and when they saw Lin Ran's sudden hardening of his attitude, they all felt a lot more relieved.

They were all on the same front as Lin Ran, and at this moment, Lin Ran and Long Mo were talking like this, which naturally let out all the discontent in their hearts.

"Haha!"

Suddenly, Long Mo actually laughed.

The look he gave Lin Ran didn't change in the slightest, but his face was marked with a leathery sneer.

"Lin Ran is no less than Lin Ran, this boldness is truly unmatched by anyone!"

"But speaking of which, your army clearly set off before Long Yang, why are you only coming now?"

Said Long Mo with a distant finger, pointing to the dozen or so empty tables next to him.

"Causing the reception banquet I worked so hard to prepare to be cold for a dozen tables, what do you mean by that? Looking down on me?"

Hearing Long Mo's words, the group of people standing behind Lin Ran instantly quit.

Damn it, you were late on purpose?

You don't know what you've been doing?

It was still your fucking orders!

The crowd cursed in their hearts.

But on their lips, they didn't dare to say anything.

Lin Ran looked up at Long Mo and said in a faint voice.

"Wasn't it you, General, who told us to carry the supplies?"

"Nonsense!"

Long Mo scolded in a stern voice.

"When did this General ask you to carry the supplies? The supplies were only moved after all the men had arrived!"

“How could we let you go alone on such an important matter! If the enemy intercepts you, who will bear the responsibility?”

“Intercepted?”

Lin Ran smiled at his words.

“This Heavenly City Dragon General is afraid of being intercepted by others, and he’s actually throwing a big reception banquet, don’t you think it’s ridiculous?”

“Are you questioning me?”

Long Mo’s eyes were icy cold, and his palm was already gripping a huge sword at his waist.

“I am questioning Heavenly City’s defensive capabilities!”

Lin Ran said indifferently.

“As for you, General, who says you didn’t give the order, do you dare to ask your adjutant Hu Chong to come out and confront you? My legion as well as the Golden Armoured Blade Guards were all informed by him before they went to carry supplies!”

“If I remember correctly, he was talking about taking orders from you!”

“Hu Chong! Did I say that?”

Long Mo didn’t bother with nonsense and shouted directly from his spot.

Following that, a young man ran out from the crowd next to him, none other than Adjutant Hu Chong.

“Your Excellency, you didn’t say that! I have never met this Lin Commander either, I don’t know why he would say that, you can ask the Golden Armoured Blade Guard if you don’t believe me!”

Hu Chong arched his hand and said.

“You say!”

Long Mo looked to the Golden Armoured Blade Guard at the side.

The golden-armored sword guard was clearly stunned, at this point he had understood all of it at once and said with an arch of his hand and a smile.

“In reply to the General, I have not met Vice Admiral Hu Chong today, and even this Commander Lin and I are meeting for the first time!”

“You!”

“Full of shit!”

“You’re fucking lying!”

“Bastard!”

Wang Yifeng and the others finally couldn’t help themselves and one by one, they opened their mouths to curse.

While at the side, Long Yang was watching quietly with a teasing look in his eyes, laughing coldly in his heart.

“Lin Ran, Lin Ran, aren’t you a bully? You were all kinds of pretentious at the General Pointing Platform, why don’t you pretend now? You are still too young to fight with me!”

“Hehe!”

Lin Ran laughed.

“If you want to add insult to injury, there’s no excuse! This dumb loss, I, Lin Ran, admit it!”

“Haha! You say that, although you acted without listening to the deployment, I, Long Mo, am not an indiscriminate person!”

Long Mo laughed.

“For the sake that you did a good deed this time, and that the material handling was successful, I will not hold you responsible!”

Long Mo said with a big wave of his hand and laughed.

“All right! Grab a seat, the reception banquet has already started!”

“I don’t think the reception banquet is necessary!”

Lin Ran spoke.

“If the General is really sympathetic, we just want to know where we’re staying, plus a normal dinner!”

“Right!”

“That’s right!”

The crowd at the back also shouted.

They were already exhausted to the point of weakness at this point, and they were still going to some reception feast; the ones now just wanted to go back and get some rest.

“Simple! Leave the golden armour to you!”

Long Mo said as he rushed to the golden-armored sword guard.

“Yes!”

The Golden Armoured Blade Guard saluted respectfully.

“Come with me!”

After greeting Lin Ran, the Golden Armoured Blade Guard led the way ahead and left the place.

A few moments later, after Lin Ran had all left.

Only then did Long Yang come over.

“Uncle Long, just let this kid go?”

“Don’t be anxious! This is just the beginning!”

A cold smile tackled the corners of Long Mo’s mouth.

“When it comes to my territory, it’s not up to me to decide how I want to play!”

“Then, Uncle Long, how are you going to deal with him! He stirred up our Dragon Family a while ago, we can’t let him off lightly!”

Long Yang said.

“Haha! Don’t be in a hurry, you guys came to this Skywolf Domain to hone and prepare for holding up a side of the battlefield in the future, so this time he won’t get a single battle merit in this Skywolf Domain of mine!”

Long Mo laughed coldly and proudly.

“Battle merit? Speaking of which, Uncle Long! When can we start to grind on the battlefield!”

Long Yang asked busily.

Long Mo smiled blandly at his words and said.

“Don’t be in a hurry, we’ll have the chance tomorrow!”

“Tomorrow?”

Long Yang was excited at his words.

“Well, I have to leave first, you guys have fun at this reception banquet!”

Long Mo said with a smile, and then turned around and left the place.

A few moments later, Long Yang returned to the crowd, at this moment a large group of people gathered around, each one wanted to know what Long Mo and Long Yang had said.

Long Yang swept his gaze over the crowd, his face full of smugness.

“Brothers! Tomorrow! We’ll be able to go to battle and kill the enemy!”

Long Yang shouted aloud.

The crowd shouted in awe at his words.

“Commander Long is mighty!”

“Commander Long is so handsome, we can finally go to battle and kill the enemy!”

“It’s too good!”

“Cheers!”

The crowd shouted, so happy.

.....

On the other hand, on Lin Ran's side, after returning to his residence, Lin Ran ate something casually and then hurriedly rested.

After a busy day, even he was feeling tired.

Just before going to sleep, he was constantly thinking about the current situation.

This Skywolf Domain was Long Mo's territory, and he could not directly confront him at all.

Although this Long Mo was only at the peak of the Creation Realm in strength, he himself wasn't afraid of him.

However, Lin Ran understood that behind Long Mo stood the Mysterious Alliance.

If he, a newcomer to the world, were to get into a fight with Long Mo, it would be himself who would suffer in the end.

Therefore, the most urgent task was to find a way to contact the Mysterious Alliance, such as Elder Feng.

As long as one could get in touch with Elder Feng, by then, the matters of this Skywolf Domain would not be something that he, Long Mo, could decide alone.

At least the Mysterious Alliance would have to be shown the truth about what was going on here.

Thinking about this, Lin Ran couldn't help but sigh, having just arrived here and bumped into Long Mo of the Dragon Family.

I'm afraid that this trial journey to the Heavenly Wolf Domain would not go well for a long time.

After that, Lin Ran thought about the current situation of his command team, there were only sixty people, while Long Yang's had reached nearly six hundred.

This tenfold difference was really not as simple as talking about it!

"Hey! Let's take one step and see what happens!"

Lin Ran sighed and didn't think about it much before he fell asleep.

Chapter 1218

Early the next morning, an urgent trumpet call broke the quiet of Heavenly City.

Lin Ran and the others were awakened by the sound of the trumpet, and one by one, they hurriedly got up.

But when they arrived outside the door, the golden-armored sword guards were already standing at the entrance.

"What's happening"

Lin Ran busily asked, but before he could finish his words, he was interrupted by the golden-armored sabre guard.

“What time is it! This is a military camp, not your home,? Don’t assemble yet!”

Lin Ran’s face was icy cold as he immediately greeted the crowd and gathered them.

He was then led by the golden-armored sabre guards to the martial arts arena in the middle of the city.

At this moment, the martial arts arena was already overcrowded.

The many generals had all lined up.

Even Long Yang’s group was already standing neatly together, and it was actually the only one left that Lin Ran’s group had not yet made its way.

“General, Commander Lin’s party has been brought in!”

The golden-armored sword guards came forward to report back.

“Hmm!”

Long Mo stood up from his chair, his face ugly.

“Today is the first day you arrived at this Skywolf Domain to officially start accepting missions, is this how you are coping?”

Long Mo scolded.

“If there was a time of war, you guys would have died an unknown number of times!”

Lin Ran and the others had ugly faces, it wasn’t that they didn’t want to get up, but they hadn’t been informed at all.

“The notice went down last night to gather at seven o’clock in the morning for a few days, look at yourselves what time it is?”

Long Mo scolded.

“General Long, may I ask who informed us?”

Lin Ran retorted.

“Or is this another one of those things that no one admits to?”

“Unbridled!”

Long Mo scolded in a stern voice.

“Still making excuses even now!”

“Long Yang! Have you been informed?”

Long Mo looked at Long Yang.

“In reply to the General, I received it!”

Long Yang said, but there was a smile in his eyes.

“Why did you guys not receive it even after Long Yang received it, is your army so special every time?”

Long Mo scolded.

Lin Ran, however, smiled blandly, not bothering to say more.

“In that case, General Long will send it down, what else is there to say!”

“Heh!”

“Bull shit!”

“Really invincible!”

A kind of general behind Lin Ran sneered.

If they had been lucky on the first day yesterday, this Long Mo would not have been able to keep giving Lin Ran little shoes.

But today, they sort of completely understood that this Long Mo simply did not spare any opportunity to clean up Lin Ran.

Even if it was just a collection, he would try to humiliate and make things difficult for him by all means.

And by now, they were all curious as to how their own commander, Lin Ran, had offended the Dragon Family and would incur such retribution.

“All right! This won’t be an exception! Next time you’re late, don’t blame me, Long Mo, for being unforgiving!”

Long Mo scolded.

Lin Ran then led his men back into line this time!

“Alright, next you will all receive, your first mission into the Skywolf Domain!”

Long Mo swept his gaze over the crowd, then with a wave of his palm, a military order flew out of thin air and appeared in the hand of Hu Chong, the deputy general next to him.

“Next, I will read out the military order!”

Hu Chong shouted aloud.

“With immediate effect, Long Yang’s team, under the command of Long Yang, will be stationed at the North Gate of Heavenly City, with Long Yang as the main force and the North Gate as the resident force, to hone the team as soon as possible!”

“With immediate effect, the team under Lin Ran’s command, stationed at the South Gate of Heavenly City, with Lin Ran as the main focus and the South Gate resident South Gate is not resident, sharpen the team as soon as possible!”

“No permanent presence? What do you mean?”

“Holy shit! Why does it feel like we’re being punked again!”

The people on Lin Ran’s side all said secretly in their hearts.

The current ones no longer believed that Long Mo would be so kind as to assign them the same thing as Long Yang.

This sentence alone of not being resident had already been exposed.

I was afraid that Lin Ran’s treatment this time would be worlds apart from Long Yang’s again.

“Depart!”

As Hu Chong’s words fell, at once the golden-armored sword guards came before Lin Ran and greeted him.

“Come with me, Commander Lin!”

“Go!”

Lin Ran greeted, ? Not bothering to say much, he immediately led the men to follow the golden-armored blade guard out of the martial arts arena.

A moment later, Long Mo then walked off the pointing platform and personally led Long Yang to the northern gate of Heavenly City.

....

The North Gate of Heavenly City was the second most important hub of Heavenly City.

Apart from the main gate of Heavenly City, this north gate is where the largest number of soldiers are stationed in Heavenly City.

At this moment, at the north gate of Heavenly City, Long Yang looked down and saw the endless plains in front of him, but at this moment, the plains were all desolate.

Not to mention birds and beasts, there was not even a single green weed.

“Long Yang, look ahead!”

Long Mo pointed ahead and laughed.

“Five hundred miles ahead of the North Gate is where the enemy’s garrison is!”

“Five hundred miles?”

Long Yang frowned slightly, this distance was not far for cultivators, and this was still a battlefield, a garrison 500 miles away, definitely considered a thorn in the flesh.

“Uncle Long, wouldn’t this place be unsafe then?”

Long Yang asked busily.

Long Mo smiled at his words but smiled.

“Don’t worry, their Wolf Clan wouldn’t dare to come to our Heavenly City to cause trouble, just like we never dare to break into their Wolf City either!”

“Although our two forces are neck and neck, each city is carefully designed, and once you enter it you will die in nine ways! Even I am not absolutely sure that I can walk out of Wolf City alive!”

Saying that, Long Mo fished out a token from his bosom and threw it to Long Yang.

“Now you think it’s dangerous, but when you refine this token, you won’t think so, and by then the garrison 500 miles away will all be a battle in your eyes!”

“O?”

Long Yang was curious and couldn’t help but glance at the token in his hand.

He saw that there were two words written on the token, “Battle List!”

“Battle List? What is this?”

Long Yang frowned slightly, and immediately began to refine it.

.....

At the south gate of Heavenly City, Lin Ran was standing on the city tower at this moment, helpless.

The entire South Gate was empty, and the one person that was there, or an old man who was in charge of cleaning the South Gate’s pavilion, was a former retired general.

“Ranzi! Fuck this Long Mo is too bullying, giving us such a place to guard, not to mention the enemy, I’m afraid we can’t even see the shadow of the enemy.”

Wang Yifeng was upset and said.

“Yes! Boss, look at that plain outside, the rest of the place is desolate, but we’re lucky to have greenery here, how long has it been since there’s been a fucking war!”

Li Ba also said from the side.

Lin Ran naturally noticed that another layer of greenery had sprung up on the plain outside his southern city gate, it had obviously been too long since there had been a battle!

“Commander Lin! The old man sweeping the floor outside is looking for you!”

Suddenly, one of Lin Ran’s own men came running in awkwardly at the door.

“What’s he doing here? Blast him away!”

Wang Yifeng said in no good humour, he was angry at the moment.

“Don’t!”

Lin Ran hurried to stop.

“Bring him in!”

Lin Ran said.

“Yes!”

The henchman busily retreated and soon, the old man was brought in.

“My subordinate pays respects to Commander Lin!”

The old man wasn't young, he had to look to be in his seventies, but his entire essence looked, well, good!

“Senior, you're looking for me for something?”

Lin Ran got up and asked.

Although the other party was only a sweeper now, he had retired from the war after all, and Lin Ran still had great respect for such people!

“Senior, I dare not, I have an object to give to you! It was left behind by the last commander of the Southern City!”

As the old man said this, he took out a quick token from his pocket and handed it to Lin Ran, which was the “Battle Ranking” token.

Chapter 1219

“This?”

Lin Ran was stunned, he hadn't seen such a thing at all, let alone heard of such a thing.

The old man, however, smiled as if he had already guessed it.

“It's normal for Commander Lin not to know about this item, because this kind of thing will not be given to you at all in this Skywolf Domain!”

“What do you mean?”

Lin Ran frowned slightly.

At the same time, he gestured to Li Ba, who understood and hurriedly helped the old man up and sat down on a chair at the side.

“This is a long story, so let's forget about this seat, if Commander Lin doesn't mind, you can follow me, old man, and I will go down for a walk, and then it will all be understood!”

“Good!”

Lin Ran nodded, although this old man was only a floor sweeper, he had obviously been at this South City Gate for quite a few years, there were many things that he might be able to learn from him.

The two of them went down the stairs at once, and Wang Yifeng and the others followed.

Underneath the city tower were the fortification buildings of the South City, a place where those stationed in the South City would rest during the week.

For example, now that Lin Ran's army was stationed in the South City, those who had to stand guard on weekdays naturally rested in this South City building.

When the crowd arrived inside the building, the old man led them to a courtyard.

The gate of this courtyard was very dilapidated and when pushed open, there was even a "creaking" sound, making people very uncomfortable.

When the door was opened, a wide courtyard appeared in front of the group.

But what was inside the courtyard made the crowd frown slightly.

It turned out that the whole courtyard was empty and there was nothing but a very strange shed not far ahead.

That's right, a shed.

And underneath the shed, there were wooden plaques placed, each with a person's name written on it.

"The wooden plaques here are all the men who died in the battle at the South City Gate, a total of two hundred and ninety-nine whole since I got here! That's one short of three hundred!"

The old man said, while using a cloth to gently rub and test these wooden plaques with great care.

"Senior, what do these battle deaths have to do with these tokens?"

Lin Ran asked, puzzled.

The old man smiled blandly and then turned one of the tokens over, followed by Lin Ran, who saw that behind this token, there was actually a token that was identical.

The words "Battle Ranking" were written on it.

"What is this all about?"

Lin Ran couldn't help but ask.

If this situation was anything to go by, I was afraid that there were at least two hundred and ninety-nine of these tokens here.

"This token is a list of lists!"

The old man said, sitting down on a stone to the side and recalling.

"This Battle List token was first issued by the Mysterious Alliance, and once you refine it, you can view a list of lists, and this list is called the Battle List!"

It turned out that back then, the Mysterious Alliance had just started a war with the enemy, and the hearts of the people were still unstable according to the time.

In addition, the battle lasted too long and the battle line was stretched out.

As a result, a lot of news and supplies were communicated very slowly, and gradually the hearts and minds of the people became disorganised.

After a fiasco, the Mystic Alliance took out such battle lists and distributed them.

At that time, the number of people in each war zone was at least tens to hundreds of thousands.

And the battle list was distributed with at least 200,000 pieces in each war zone, in order to ensure that each person had one in their hands.

As for the function of this Battle List token, it was even simpler.

The Mystic Alliance used its own and what it obtained from its enemies as a reward for those on the Battle List.

The ranking of the Battle List was based on the number of enemies killed on the battlefield and the strength of the opponent.

This Battle Ranking token was a great effort by the Mystic Alliance, even if you only helped to build a common cause, he could automatically record the score based on your contribution!

It was considered the fairest kind of contribution ranking at the time.

Once such tokens appeared, the warriors on the front line were visibly motivated to fight.

Some did it in exchange for money, others for merit and glory, while many more did it for advanced gong methods and resources.

To put it bluntly, as long as you held a Battle Ranking token and contributed on the battlefield, the things you could exchange for would definitely satisfy you and even drive you crazy for it!

“In the earliest days, the Skywolf Domain also had Battle List tokens! Unfortunately, ninety percent of the tokens have now been lost!”

The old man sighed.

“What about the remaining ten percent?”

Lin Ran asked.

“The remaining ten percent? Some of it is here, the rest is all in the City Master’s Palace!”

The old man said.

“Over 200,000 tokens, ten percent is not bad, why did Long Mo never mention this?”

Lin Ran frowned.

This clearly didn’t make sense.

“It’s simple! He doesn’t want you guys to have contact with the outside world!”

The old man said.

Lin Ran and the others were instantly shocked at his words.

Sure enough, this Long Mo really did not want them to have contact with the outside world.

Only then would he be the absolute hegemon of this Skywolf Domain, and everyone would have to obey his orders!

“Then these tokens, Long Mo doesn’t even know about them?”

Lin Ran asked once again.

The old man smiled at his words, however.

“How would he know, it’s been almost ten years since he’s been in this Southern City!”

Said the old man with a bitter smile, and then recounted.

It turned out that this South City used to be a military fortress as well, and its importance was no less than that of the North City.

But later, because the terrain of the South City was easy to defend and difficult to attack, the people of the Wolf Clan gradually gave up their attacks on this place and all gathered at the North City Gate, causing the status of this South City Gate to gradually decline.

It eventually became a ghostly place where no one came.

Later, it became a place for Long Mo to send his men.

Some of his men had achieved great success in battle and it was not convenient to deal with them openly, so they would be sent here.

Those who were used to fighting on the battlefield were suddenly sent to this shitty place, where they could only sunbathe and drink tea every day, and they would soon make mistakes.

So Long Mo had a reason to get rid of the other side.

Over time, this South City also had a name, the South City Prison.

But almost no one who was sent here, be they soldiers or commanders, ended up in anything good.

And as more and more battles were fought at the North City Gate, those war list tokens from back then were either lost on the battlefield or taken away by the Wolf Clan.

Eventually only ten percent remained.

Ten years ago, there was a new commander named Liu Feng!

This Commander Liu Feng, who was upright by nature, had offended Long Mo and was eventually sent here as well.

But before Long Mo could find a reason to kill him, the battle started.

The northern city gate was almost breached and Liu Feng was urgently called to fight at the northern gate.

This Liu Feng commander was so strong that he froze with less than 200 men and repulsed the other side's 1,000 men.

In the end, he even got a war general token from the other side.

This was something that even Long Mo did not know.

It was by virtue of the Station General Token that Liu Feng knew that such a thing existed, so he left the token behind secretly and used it anonymously.

Unfortunately, Long Mo didn't intend to let him go in the end and found a reason to have him arrested.

But Liu Feng was prepared and used the battle records he had accumulated in exchange for a death-free token, so until now he was still imprisoned in the dungeons of North City!

"So many years have passed? I'm afraid there must be 200 to 300 people being held in the North City dungeon nowadays! All of these people used to be brave and good fighters on the battlefield, but unfortunately, they were all captured because they offended Long Mo!"

Speaking here, the old man looked towards Lin Ran and spoke.

"So, ever since Commander Liu Feng was imprisoned, this Southern City has had its own rules, but any new Commander who comes here will get a Battle Ranking token until all the tokens here are given away!"

Chapter 1220

Speaking here, the old man turned his head and pointed to one of the tokens next to him and said.

"They could have taken these battle ranking tokens with them, but they all chose to keep them, this is something they risked their lives to get out!"

"That's why their tokens are enshrined here!"

Lin Ran looked at the plaque in front of him and a wave of respect rose in his heart.

There were no battle list tokens apparently only found in this Skywolf Domain.

But these people who were supposed to be on the battlefield, bathing in blood and killing the enemy, had all ended up dying here because of Long Mo's selfishness.

And this Battle General's Token was their counterattack.

They were unwilling to accept it, and even more so, they did not want to believe that they would end up like this.

It was just like Lin Ran now.

If Nan Cheng hadn't set up such rules, I'm afraid that he wouldn't have known about the existence of this Battle Ranking Token until he left the Skywolf Domain himself.

"Senior, can I take these tokens with me? I only need Liu's piece!"

Lin Ran said.

“Yes! You’re the commander here now, no one can stop you even if you have to hand them all over!”

The old man said helplessly.

“Don’t worry, I won’t!”

Lin Ran said solemnly.

At the same time, he turned his head and rushed to Li Mu Di behind him.

“Brother Li, these tokens are entrusted to you for safekeeping, and the generals above the Strength Creation Realm will each receive one!”

“The others can only exchange for them later when their battle records arrive!”

“And this matter must not be told to the public, anyone who leaks it will be killed without amnesty!”

“Yes!”

Li Mu Di respectfully replied.

“Also inform it down, but anyone who gets the token is not allowed to use their own name on the battle list for only one wisp, in case Long Mo learns about it!”

Lin Ran said.

“Understood!”

Li Mu Di nodded respectfully, and then immediately docked the token with the old man.

Lin Ran, on the other hand, left with his people.

Only before he left, he deliberately instructed Li Ba to assign someone to guard this courtyard, and that no one was allowed to enter without his orders, including Long Mo!

Of course Long Mo would probably not come to the South City either.

.....

When he returned to the city tower, Lin Ran immediately sat down on his knees and refined this token given by the old man.

The token only had complex patterns on it, so Lin Ran put a drop of blood on it and then poured it in with his Medical Daoist True Qi.

Soon a thick true qi gave a response from within the token.

“Weng!”

Suddenly, in front of Lin Ran, an invisible white light emerged, followed by a list of names.

On top of the list, the first name was “Wind Elder”.

After the merits were three question marks, with no exact numbers.

It was clear that numbers could no longer replace Elder Feng's contribution.

After Elder Feng, there were "Elder Fire and Elder Li!"

Again, there are three question marks.

And further down the list of people, this is where the exact numerical value is available.

Of course, Lin Ran had basically never seen any of these people's names before.

"The Heavenly Ranking?"

Lin Ran looked at the introduction next to the list, and it became clear!

It turned out that this battle ranking was divided into two parts, one was the Heavenly Ranking, which was specifically used to count the contributions within the Mysterious Alliance.

And the other was the Earth Ranking, this was the one used to count the contributions of the first tier warriors.

On the Earth Ranking, the top ten were all Township Generals.

Lin Ran also saw Long Mo's name, which happened to be in tenth place.

"General of the Heavenly Wolf Domain Town Guard, Long Mo! One hundred and thirty thousand whole contributions!"

"What a great show with only one hand!"

There was anger in Lin Ran's eyes.

He didn't know it existed before, but now that he knew about it.

Then he would definitely not stand by and watch!

Looking at his information, Lin Ran then realized that his current information was called Mountain Peak, so he thought that it should be the token that Commander Liu Feng had used before, so the name was similar to his.

As for the contribution level, it had now become zero, and he hadn't even been able to enter the Earth Ranking.

"From today onwards, I, Lin Ran, will reveal Long Mo's true deeds!"

Lin Ran said secretly in his heart.

As long as he brushed up the ranking of this battle ranking and caught the attention of Elder Feng and the other senior members of the Mysterious Alliance, the Skywolf Domain, where Long Mo only had his hands on the sky, would have to be rewritten from scratch.

"Whoosh!"

With a wave of his hand, he erased the original mountain peak's name, followed by Lin Ran writing down two words.

“Break the Sky!”

“Break through the Heavenly Wolf and return a domain of light!”

Lin Ran muttered, before putting the Battle List token away.

.....

And at this moment, on a distant mountain peak, two old men were sitting looking at each other, and in front of them, a wooden table was set up with a pot of old wine, and two small dishes.

“Old man Feng, I haven’t seen you for so long, why did you want to get up and run to me today?”

An old man in full fire-red robes asked with a smile as he sipped his wine.

“Old man Feng, don’t talk nonsense here, you only have one Fire Family to manage, but I am in charge of the whole Mysterious Alliance!”

Old Man Feng said without good humour.

“A new legion should have been formed recently, how about that? Is that boy you like so much the commander-in-chief!”

Old Fire asked with a smile.

“That goes without saying, there is no weakness in the strength of the people I have taken a fancy to!”

Elder Wind said smugly.

“Who was sent to whom?”

Fire Elder asked with a smile.

“The Heavenly Wolf Domain!”

Elder Feng said as he drank a cup of wine, his eyes deep.

“The Heavenly Wolf Domain? You’re crazy, a young man you like so much, you’re sending him to the Heavenly Wolf Domain, isn’t that going to ruin him!”

Elder Fire was surprised.

“You don’t understand, even the best jade needs to be carved, and it’s time for this Skywolf Domain to be sorted out!”

Elder Feng said blandly.

“Just shoot some random overseer to go, instead you just send this good disciple of yours straight away!”

Elder Fire said without good humour.

“He’s not my disciple!”

Elder Feng laughed.

“What’s the difference? I’m afraid your own disciples aren’t even treated so well!”

Fire Elder said helplessly.

“Don’t worry, it’s not a good thing to grind!”

Elder Feng laughed.

“Hey! I don’t care about you! What a pity for Liu Feng back then eh!”

Elder Fire sighed.

“Yes! That’s why I’m letting Lin Ran go this time, this kid will definitely be able to break the sky of the Skywolf Domain!”

Elder Feng laughed.

“I hope so, but you better be careful, have you forgotten the information I gave you the other day?”

Elder Fire suddenly said with a slight frown.

“I know, but it should be fine, isn’t it that easy to build a passage, besides they were supposed to be there to try it out!”

“That Long Mo is ruthless, he wouldn’t let Lin Ran break into the Wolf Clan’s lair all by himself! I think it’s fine!”

Elder Feng said.

Fire Elder shook his head helplessly at his words and concluded with a reminder.

“I advise you to read more information on the battle ranking, if this precious disciple of yours can break the sky of the Sky Wolf Domain! Then this battle ranking would think that it would also shake something!”

“Mm!”

Elder Feng nodded his head and touched the Battle Ranking token in his arms.

.....

And at this time, far away in Nanyang, the inner clan of the Dragon Family.

An upper figure entered the inner clan under the leadership of the Long family.

And at this time following in a secret room of the inner clan of the Dragon Family, Long Yu woke up from his seclusion.

“Clan Chief Long, the Third Elder of the Chao Heavenly Pavilion has arrived!”

“Let him in!”

Long Yu said indifferently.

Following this, the door to the chamber opened wide and a figure wrapped in black robes flashed into the chamber.

The door of the chamber then closed again.

No one heard the conversation between the two people inside the chamber.
