

Wonder Doctor

Chapter 1231

The northern city of Heavenly City.

There is a dungeon here, which is used to imprison war criminals and those who have deserted from the battlefield and disobeyed their orders.

It is also known by another name, the Heavenless Pavilion! Because anyone who was imprisoned here would hardly ever see the light of day again.

Of course, Lin Ran was different from Long Yang.

The latter was obviously here as a formality, whereas Lin Ran was not so sure.

Whether or not he could see the light of day again would entirely depend on how heavy Long Mo's killing heart was towards him.

"Get in! This is yours!"

The escorting guards were very nonchalant and pushed Lin Ran straight into a cell.

As soon as he entered, Lin Ran smelled a pungent odour, it was the sour ask of thatch, apparently in this place that didn't see sunlight all day, the cell was so damp that it was on the verge of becoming mouldy.

"Where's Long Yang?"

Lin Ran asked as he stood in the doorway and looked at the escorting guards.

He and Long Yang had been imprisoned one after the other, but now there was no sign of Long Yang.

"Long Yang?"

The guard smiled at his words.

"Long Yang is right above your head! If you don't believe me, try shouting!"

Lin Ran frowned slightly at his words and didn't say anything.

"What? Don't believe me? I'll shout for you!"

The guard sneered and shouted at the top.

"Lord Long Yang, are you still satisfied with the box?"

"Satisfied! Holy shit! I told you earlier, I was so shocked, I thought this dungeon was in a bad environment!"

The sound of Long Yang's laughter soon came from above, it was obvious that his environment and Lin Ran's, were worlds apart.

"Commander Lin, to tell you the truth, this upstairs holding cell is actually a private room, not to mention a bed inside, there's even hot water, it's just short of a TV to open a flat!"

“You, tsk! I can’t help it! Who made you not a relative of General Long!”

The guard sneered, following which he turned around and left the place.

Lin Ran looked at the other side and never said a word.

He had thought that Long Mo’s departure of having Long Yang imprisoned for a month was light, but he hadn’t thought that they had moved on this imprisonment as well, Long Yang was imprisoned? This was simply a month’s rest in disguise.

“What a nest of snakes and rats!”

Lin Ran couldn’t help but curse, before turning around and preparing to find a place to settle down.

The entire dungeon was dimly lit, and Lin Ran waited for a few moments before he gradually adjusted to the environment and light.

Only then did he realise that the dungeon he was in was actually full of people.

They were all gathered in one corner of the dungeon, their eyes closed and not saying a word, huddled together.

If Lin Ran hadn’t been able to sense their scent, he would have thought that the ones here were all dead.

“Who are you?”

Lin Ran asked tentatively.

However, the other party was simply ignoring him, as if they hadn’t heard his words.

“I am the new commander of the Skywolf Domain, you guys”

Lin Ran spoke again, and this time, one of the people finally opened his eyes.

Lin Ran saw that there was a dead silence in the other man’s eyes, as if he had lost his desire to live the kind of dead silence.

In this instant, Lin Ran felt that I was afraid that nothing in the world would be able to arouse the other person’s desire.

“Kid! Stop shouting, go and stay aside, I don’t know when the next meal will be dawning yet!”

The other party’s voice said weakly, causing Lin Ran to be stunned.

I don’t know when the next meal will be dao? Could it be that

“You guys are so weak, are you all hungry?”

Lin Ran asked busily.

The other party nodded, then stopped talking and closed his eyes.

Lin Ran frowned slightly as he listened.

There was an essential difference between the cultivators on Earth and the cultivators in the world where the Pillow Book was located.

That was that Earth's cultivators had to eat, even if they were strong, they still had to eat, it was just a matter of how much they ate.

Like Lin Ran now, he could at most manage to go a week without eating or drinking, if he drank water he could last half a year, but any more than that would not be possible.

He wouldn't die of starvation, but he would go mad with the idea.

He wouldn't die if he didn't eat, the true qi in his body was perfectly capable of keeping him alive, but the human intention was very frightening.

When a person is extremely hungry, he cannot concentrate at all, let alone cultivate, and even this kind of intention can make a person go crazy.

That is why, they must eat.

In the world of the Pillow Book, on the other hand, those cultivators did not have this problem at all, their strength was completely fine without eating or drinking as long as they reached a certain level.

"Hey! Luckily, I have a pillow book!"

Lin Ran smiled lightly, and immediately found a place out and used his true qi to clean it up while doing so.

For food, Lin Ran naturally wasn't worried, there was a small world inside the pillow side book, and now Little Nine was living in it.

Not to mention just getting something to eat.

Just as Lin Ran was about to say hello to the pillow side book and prepare breakfast for himself.

"Weng!"

There was a sudden vibration that brought Lin Ran's attention back to himself.

He hurriedly fished something out of his arms, ? It was the Battle List Token that the South City veteran had given him.

"The Battle List Token is responding!"

Lin Ran's heart twitched and he was instantly ready to open the Battle Ranking Token to take a look.

But he hadn't even injected his true qi into it.

Suddenly, he felt a gaze from the side gaze over.

Lin Ran was stunned and looked over, only to find that the person looking at him was the same person who had spoken earlier.

At this moment, his eyes were looking straight at the Battle Ranking token in his hand, and there was a burning heat in his eyes, as if he had seen his most beloved thing.

“Battle Battle Ranking Order!”

The other person’s voice was excited as he slowly extended his hand, his whole body trembling.

Only after a moment did he speak.

“Can Can you show it to me?”

“Mhm!”

Lin Ran nodded and without hesitation immediately tossed the Battle List Order to the other party.

Now that the Battle Ranking Order had been refined by him, he wasn’t worried that the other party would snatch it away.

When the other party got the token, the trembling in his body gradually quieted down.

He held the token with tears in his eyes, as if he had remembered something very long ago.

“This This token!”

Suddenly, his expression changed, and his voice trembled as he pointed at the token.

“Old Liu, isn’t it just a battle ranking token, what are you getting excited about! Do you want to starve to death!”

“That’s right, hurry up and go to sleep!”

Next to them, two people who were also huddled up, opened their eyes and said.

The man known as Old Liu, however, was so excited that he pointed at the Battle List Order and said to the two men.

“This This War Ranking Order is mine!”

“Eh?”

The two people were stunned and both looked up, following which both of them froze.

“Holy shit! It’s really yours!”

“Yeah, I remember you getting this mark on it!”

Both of them exclaimed.

At the same time all three looked at Lin Ran at the same time.

And at this moment, the others next to them also opened their eyes and looked at Lin Ran.

“Senior, you said that the token was yours?”

Lin Ran was also shocked at this point, as he got up and looked at Old Liu.

“That’s right! This token is mine!”

The other party nodded his head in affirmation to.

Lin Ran forced down the shock in his heart and opened his mouth to ask.

“Then dare I ask senior, are you Liu Feng! General Liu?”

Chapter 1232

“You know me?”

The other party’s whole body shook, following which he ruffled the hair scattered in front of him, revealing a very vicissitudes face.

Lin Ran recognised this face, it was none other than General Liu Feng Liu, and this portrait of him was kept within the commander’s residence in the southern city.

“Of course I know you, my name is Lin Ran and I am now in charge of the guards of the South City!”

Lin Ran said busily.

“The guards of the South City? That’s right, then you must know me!”

Liu Feng was very excited.

Lin Ran was also a little excited, he never expected that he would run into Liu Feng here.

“Senior, why are you here?”

Lin Ran asked as he busily ran over.

Liu Feng was stunned for a moment, but then he smiled.

“How did I end up here, I had almost forgotten myself!”

“Haha!”

“Old Liu! You can’t get too excited, the true qi in our bodies now is already very weak, we have to hold back or we might not be able to carry it at any time!”

“Yes!”

The two companions next to him were busy persuading.

Seeing this, Lin Ran waved his palm, and instantly, a large steaming roast suckling pig appeared directly in front of the crowd, with two large altars of fine wine beside it.

“This

Seeing these two things, Liu Feng and the others were dumbfounded.

“Senior, I have storage things on me, feel free to eat as much as you like!”

Lin Ran laughed.

At this moment, in his mind, a voice was ringing out.

“Lin Ran, you master! You said one pig’s trotters, but you actually got rid of my whole pig, as well as my three pot heads, damn it!”

“What are you shouting for! Your little world is so big,? You can’t roast it yourself!”

Lin Ran said in no good humor.

“That’s right, Grandpa Book you’re too buttoned up too!”

Suddenly Xiao Jiu’s voice also sounded.

“I Who are you calling grandpa, how many times have I said, call me brother!”

The pillow was so angry that he was simply speechless.

Lin Ran didn’t delay much, because at this point, Liu Feng and the others were already completely excited.

“Seniors, you guys eat first, I’m going to set up a formation!”

Lin Ran said as he got up and went to the entrance of the dungeon, following which he waved his palm, and at once several to formation flags appeared, directly covering up the space inside here.

From the outside, everyone inside was huddled together, but only the people inside knew what they were doing.

“Old Liu! Eat quickly, what else are you looking at the broken token, surviving first is the most important thing!”

“Yes!”

The crowd said as they kept eating meat and drinking, looking at the way they were wolfing down their food, Lin Ran couldn’t help but feel his heart sink.

Since recognising Liu Feng, he could almost conclude that these people were probably all Liu Feng’s men back then, and even if they weren’t, they were also Liu Feng’s brothers of sorts.

But these were the people who had ended up being imprisoned here because they did not get along with Long Mo.

Remembering these things, Lin Ran’s heart felt a sourness.

In a way, the current Lin Ran and Liu Feng back then were also the same.

It was just that Lin Ran had not been suppressed to such an extent by Long Mo now.

Lin Ran stood by the side and watched in silence until Liu Feng and the others had had enough wine and food, then he slowly walked over.

“Is there still enough for General Liu?”

Looking at the roast suckling pig that was already not much left, Lin Ran asked with a smile.

“Enough! Enough!”

Liu Feng laughed, and the crowd beside him also cast a grateful glance at Lin Ran.

This meal would give them at least seven or eight more years of life in this dungeon without a problem.

There was barely anything edible in the meals on a normal day, so this roast suckling pig in front of them at this moment was the greatest boon to them.

“Your name is Lin Ran, isn’t it!”

Liu Feng looked at Lin Ran and gestured for him to come over.

Lin Ran nodded and sat down at the side.

“Lin Ran, can you tell us about the situation outside now?”

Liu Feng asked, and the others all came over, their eyes full of anticipation.

“Mm!”

Lin Ran nodded his head and whirled to narrate.

“Outside now, it’s already Long Mo’s world, the whole Skywolf Domain he only has his hands in the sky, we newcomers, we can’t even talk to the outside world”

Lin Ran narrated up, from his first day to the Skywolf Domain, to now all of it.

Listened to Liu Feng and others sometimes excited, sometimes indignant.

Especially when they heard that Long Mo was very biased towards Long Yang, they were so angry that they could not wait to rush out and kill Long Mo immediately.

However, after the indignation, they gradually calmed down.

Liu Feng lamented.

“The thing we feared the most has still happened!”

“Yes!”

“I didn’t expect this Long Mo to be so ambitious that he should now be in full control of the Skywolf Domain, and even communicating with the outside world has become his monopoly!”

The crowd sighed one after another.

“Senior, do you know of any way to communicate with the outside world? Only by finding a way to inform the Mysterious Alliance can we overthrow Long Mo and get you all out at the same time!”

Lin Ran asked.

He had been thinking of a way again, but being in the Skywolf Domain, he had no way to communicate with the outside world.

Liu Feng shook his head at his words.

“You should have seen the formations in this Skywolf Domain, they are formations that have reached qualitative levels, unless the Mysterious Alliance sends someone in, it would be impossible for any news to get out, unless Long Mo he is willing!”

“Isn’t there any way at all?”

Lin Ran asked.

Liu Feng smiled bitterly at his words but revealed a bitter smile.

“Lin Ran, you’ve only just entered the Skywolf Domain, there are many things that are not as simple as you think at all!”

“I can tell you with certainty that even if you do contact the Mysterious Alliance, it won’t be simple to overthrow Long Mo!”

“Why?”

Lin Ran did not understand.

Liu Feng smiled helplessly and fished out a pile of things from his arms, placing them in front of Lin Ran.

When Lin Ran took a look, he froze, it was a thick pile of clothes, brand new, and looking at the grain material, it wasn’t something that an ordinary person could wear.

“What is this?”

Lin Ran asked busily.

“This is the messenger robe uniform!”

Liu Feng said, with memories in his eyes.

It turned out that back then, after Liu Feng obtained the Battle Ranking token, he soared all the way up and soon entered the top ten in the Battle Ranking in the Earth Ranking.

One should know that this top ten was generally only accessible to the gatekeeper generals of the major war zones, but he, Liu Feng, had entered.

This incident alarmed the Mysterious Alliance, and they felt that Liu Feng was a buildable talent, so they sent three overseeing emissaries to come and prepare to take Liu Feng away and let him guard a large region as well.

“What I thought at first was simple: to get the Overseeing Emissaries over here and then expose the viciousness of Long Mo in this Skywolf Domain!”

“But do you know what the end result was?”

Liu Feng looked at Lin Ran.

Lin Ran shook his head.

“It turned out to be that Long Mo killed three of the Overseeing Messengers straight away, and I couldn’t be killed by Long Mo because I had a death-free token, so that’s why I was imprisoned here, along with all these brothers from my ministry!”

Liu Feng lamented.

“This Sky Wolf Domain is simply not something that two or three Overseer Messengers can solve, unless they alert the Mysterious Alliance’s top brass, any more Overseer Messengers that come will just be here to die!”

“But the Overseeing Emissary died here, and the Mysterious Alliance didn’t suspect anything?”

Lin Ran asked, unwillingly.

Liu Feng smiled bitterly at his words but said.

“Overseeing emissaries are also human, this is a battlefield, there are many overseeing emissaries who die on the battlefield every year, all Long Mo needs to do is report that the overseeing emissaries died in the war, the Mysterious Alliance won’t even care if it’s true or not!”

Chapter 1233

“Then isn’t there any other way?”

Lin Ran asked, frowning.

Was there really no way to clean up Long Mo in this Skywolf Domain?

“There is! But it’s simply impossible to achieve!”

Liu Feng suddenly spoke.

“What method?”

Lin Ran asked busily.

Liu Feng looked at Lin Ran with a flickering gaze in his eyes.

“How can I detail that you’re not a spy sent by Long Mo!”

“I

Lin Ran was stunned, not expecting Liu Feng to suddenly ask such a question.

“Then how can I prove it!”

Lin Ran looked at Liu Feng.

“It’s simple!”

Liu Feng said and fished out a talisman ground from his pocket and gave it to Lin Ran.

“This is a blood spell talisman?”

Lin Ran looked stunned, how come he hadn’t thought of such a thing.

“All you need to do is make a blood spell and not tell anyone about what happened today, and I will believe you!”

Liu Feng said.

This blood curse talisman was the same thing as a blood curse, as long as it was made, the talisman was in Liu Feng’s hand, but if Lin Ran said a little bit, this blood curse talisman would instantly ignite, and Lin Ran would directly die.

“There is no way I can directly ignite this blood curse talisman, so you have no worries!”

Liu Feng said.

“Little friend Lin Ran, this is our last card, so please forgive me!”

“Understood!”

Lin Ran smiled lightly and took the Blood Curse Talisman to make an oath at once.

“Good!”

Liu Feng put the Blood Curse Talisman away, followed by pointing to the three robes in his arms and spoke.

“Our plan is it!”

“It?”

Lin Ran was puzzled, not understanding what Liu Feng meant.

Liu Feng smiled and said.

“It’s actually quite simple, since the messenger sent by the Mysterious Alliance is of little use, then we will replace it and use our own people to venture out to oversee the messenger!”

“This

Lin Ran was stunned and said busily.

“But the Mystic Alliance’s overseeing emissaries are no match for Long Mo, let alone us?”

“You have no idea about that!”

Liu Feng laughed.

The main point that made this Heavenly City and Wolf City each other’s forbidden places was the formations within the towns.

Whether it was Heaven City or Wolf City, the internal formations had been accumulated over so many years, layer upon layer, the array of formations were extremely powerful.

“And the reason why Long Mo was able to cover the sky with just his hands was because of these formations!”

Liu Feng said.

“If we put aside the formations, Long Mo’s strength is only the middle stage of the Dan Creation Sutra, while all of us have the strength of the peak of the Creation Realm!”

“If we swarm on them, even two Long Mo’s would have to die, not to mention Long Mo!”

“But only if Long Mo can’t have the shelter of the formation, otherwise as many of us as there are will have to die!”

Speaking here, Liu Feng turned to say.

“Of course that’s just one of the problems, there’s another problem that’s even harder than that!”

“What problem?”

Lin Ran asked.

“The other problem is, how do we get out!”

Liu Feng said.

“The only way we can carry out our plan to swap the civet for the prince and use the fake envoy to kill Long Mo is to get out, but the problem now is that we can’t get out at all!”

“There are formations all over this North City dungeon, even if we rush out, all we will face is Long Mo’s forced suppression, so we have to find a way to get out! This is the second problem!”

Lin Ran was silent when he heard this.

No wonder Liu Feng would say that this plan was too difficult to realise.

Leaving aside how to get Liu Feng and the others out of the dungeon, the mere fact that a single Long Mo had control over the formation was almost impossible to achieve.

Long Mo was the great general guarding the gate here, and unless the Wolf Lord himself came, it was absolutely impossible for Long Mo to leave the city!

And the probability of getting the Wolf Lord to come in person is even lower, after all, the Wolf Lord sitting in Wolf City can also invoke the Wolf City’s formations,? And how could he risk coming to Heavenly City in person.

This alone would not allow Long Mo to leave the blessing of the formation within the city.

Not to mention, how to get Liu Feng and the others out of this Northern City dungeon!

“Now you know why we said that this plan would barely come true!”

Liu Feng sighed.

Lin Ran also felt a little suffocated, it was completely too difficult to find an exit inside the crevice.

“No matter what, we at least have a plan don’t we!”

Lin Ran said comfortingly.

“And I’m sure that an opportunity will always present itself!”

“Maybe!”

Liu Feng sighed, while taking a sip of mulled wine.

The plan was perfect, but the two vital conditions were simply unattainable, which left Lin Ran and the others with a large stone blocking their hearts.

“General Liu, no matter what I still hope that you will persevere in this belief, the sky has no limits, maybe there will really be a chance in the future!”

Lin Ran looked at the crowd and said.

Liu Feng nodded and didn't say anything.

They all knew very well in their hearts that to have these two opportunities appear at the same time was almost as likely as winning a lottery ticket.

Lin Ran also stopped talking and came across to ponder countermeasures.

But was there really a countermeasure? At least he couldn't think of any countermeasures at all right now.

.....

A day soon passed.

On the second night of Lin Ran's detention in the dungeon.

In the City Lord's residence, Long Mo sat on his throne, while in front of him stood a respectful group of ten people.

They were all wearing armour, with only two eyes leaking out.

Their eyes were dull and lifeless, but these men were the most powerful force in the entire Heavenly City, and they were Long Mo's Heavenly City Guards.

Each and every one of them was a carefully selected existence by Long Mo, and every one of them was ready to die for Long Mo at any time.

It could be said that they were the dead guards who were completely loyal to Long Mo.

“Ah Da! There are only ten of you left in the Heavenly City Guards now, and the reserve team is beyond use! I can only count on you guys now!”

Long Mo looked at one of them and spoke.

“I wish to share the General's worries!”

Ah Da bowed and knelt down, respectfully saying.

A stern look flashed in Long Mo's eyes as he spoke.

“Tonight at midnight, the North City dungeon! I want Lin Ran's life!”

Long Mo said in a cold voice.

“Yes!”

Ah Da agreed immediately without hesitation.

To them, even if they were asked to sneak into Wolf City and assassinate the Wolf King, they would not have the slightest hesitation, not to mention killing Lin Ran.

Because to them, Long Mo’s orders were everything.

“Hm!”

Long Mo nodded his head in satisfaction.

However, there was serious displeasure.

When he mentioned the North City dungeon, he could not help but think of Liu Feng.

“Ah Da! Lin Ran is of average strength, so after you kill him, go and test Liu Feng! After so many years of starvation, it really surprises me that they can still carry on!”

“Yes General!”

Ah Da still didn’t hesitate.

Long Mo, however, was a little uneasy and spoke.

“Remember, killing Lin Ran is the main task, Liu Feng is just a test, if you’re not ten percent sure don’t do it hard! I can’t afford to lose any more Heavenly City Guards!”

“Understood!”

Ah Da nodded his head.

In Long Mo’s heart, however, there was some regret.

At that time, the Heavenly City Guards had fifty members, and they were looking out of the corner of their eyes.

But because of one Liu Feng, his Heavenly City Guard had lost thirty men, and after so many years, he had lost another ten men, and now there were only ten men left.

Every time he thought about it, his heart was dripping with blood.

Chapter 1234

“I have bet a lot of my heart and soul on each and every one of the Heavenly City Guards, but the number of those who have fallen to you, Liu Feng, is thirty, I will make you, Liu Feng, pay for this debt with your life!”

There was a strong killing intent in Long Mo’s eyes.

It turned out that when Liu Feng was first imprisoned in the North City dungeon, Long Mo still had a very strong killing intent towards him.

That time he had sent a full twenty men to assassinate Liu Feng.

But Liu Feng's strength was not weak, plus there were many subordinates imprisoned with Liu Feng at that time, and they all had anger in their hearts at that time, so these twenty men of the Heavenly City Guards were actually all killed by Liu Feng and the others in the end.

It was also that time that made Long Mo understand that it was not an easy thing to kill Liu Feng.

So he began to wait.

Not feeding Liu Feng and the others, torturing their will, wanting to make their strength drop before completing the assassination.

But after so many years had passed, every time the assassination ended up with the death of his Heavenly City Guard men.

To this day after so many years had passed, he had lost a full ten more men, plus those he had lost on other missions.

In the end, the only people left in the Heavenly City Guards were these ten people.

This was also the reason why Long Mo was so careful this time.

He really could not afford to lose any more.

It was too difficult to train Heavenly City Guards, and if he lost a few more of the ten this time, I was afraid that Long Mo would want to die.

"Alright! Go down and get ready! Don't let me down!"

Long Mo said with a big wave of his hand.

"Yes, General!"

The Heavenly City Guard replied respectfully and followed, then retreated.

.....

At this time, in the dungeon of the northern city of Tiancheng.

Lin Ran, however, was listening with great interest as Liu Feng was telling the story of how Long Mo had sent the Heavenly City Guards to assassinate them over the years.

"This Long Mo is also a stupid one!"

A big, sturdy man next to Liu Feng laughed.

"This Long Mo doesn't even think about it, those Heavenly City Guards are all chosen from his men, and although they have been carefully cultivated by him, they are always his men!"

"But we are different, we are the ones who are carefully cultivated by the Mysterious Alliance, especially Old Liu's strength is no less than Long Mo's, if not for the formation, I am afraid Old Liu alone can kill Long Mo!"

"Get lost! You've been fucking locked up here,? Still bragging about it!"

Liu Feng said in no good humour.

“Holy shit! Old Liu, when did I come out of bragging, tell me yourself, how many people have died in the hands of the Heavenly City Guard over the years?”

“If I were Long Mo, I’m afraid I’d have to die of anger alive!”

“Haha! It’s true!”

“Right! We can testify!”

The crowd laughed.

In these two days, Lin Ran had nothing to do but get some food and drinks out of the little world of the pillow book.

These people, Liu Feng, couldn’t have been more nourished in the past two days.

“Right Lin Ran!”

Liu Feng suddenly looked at Lin Ran.

“Since you and Long Mo have such a big grudge? Then you have to be careful as well, although the number of Heavenly City Guards is not as big as before, but they are not afraid of death, if Long Mo lets them come against you, you must be careful! Especially since they will probably die with you, this kind of move is really very disgusting!”

“Understood!”

Lin Ran nodded his head.

He was also clear that since they were deadly guards trained by Long Mo, under certain circumstances, these people would definitely use self-destruction to complete their mission.

And the self-explosion of a Creation Realm powerhouse was as powerful as could be imagined.

I am afraid that even this Northern City dungeon may not be able to carry it.

It would only be possible for Long Mo to use the formations within the Heavenly City to perhaps deal with it easily.

As the crowd joked, the time soon came to night.

Lin Ran hadn’t seen the guards here serve food since he had entered the place, which made him understand what Liu Feng had said earlier.

“Don’t talk, save your strength, or your next meal won’t know when it will come!”

Lin Ran leaned against the wall, looking at the dim surroundings, with mixed feelings in his heart.

There were times when he really couldn’t imagine how Liu Feng and the others had managed to carry themselves through all the years they had been locked up here!

If he were on his own, I’m afraid that Lin Ran would have to rush out even if he was mad.

.....

The time soon reached the early hours of the morning, and by now the crowd had all fallen asleep.

Even the guards of the dungeon were nowhere to be seen.

In this dungeon, no one could break out, so at night these guards did not know where they had gone to sleep, and no one would even bother with Lin Ran and the others.

“Clatter!”

Suddenly, a series of sounds of chains sliding came from outside.

It woke up Lin Ran in his sleep.

Lin Ran looked up and found that Liu Feng and the others were also awake, and each of them had ice-cold faces, as if they were on the verge of an enemy.

“Be careful! The people coming are definitely the Heavenly City Guards!”

Liu Feng looked at Lin Ran and warned.

“Heavenly City Guards?”

Lin Ran was stunned, and his body unconsciously tensed up.

“These people, every time they come, it’s always this kind of commotion, they don’t know how to change it!”

Opposite Liu Feng, the big burly man said.

Lin Ran was stunned to hear this.

Dare I say that these people from Liu Feng were already so familiar with dealing with the Heavenly City Guards.

I thought that when the Heavenly City Guards used to come, it was also this sound of chains.

Thinking about it, Lin Ran soon understood.

Even if they hadn’t gone to rest, they would have received the news and would not be able to stop the Heavenly City Guards tonight.

So the sound of chains in the middle of the night was simply the sound of the death knell.

Sure enough, not long after the sound of chains rang out, the sound of Hishisho’s footsteps soon came over.

Although the other party had tried their best to keep their voices low, the movement was still stopped in Lin Ran and the others’ ears.

“Arise!”

Lin Ran’s palm suddenly flipped, and several formation flags flew out, covering the entrance to the dungeon where the group was.

“We’ll sneak in later!”

Lin Ran said as he rushed towards the crowd.

Liu Feng and the others were also clear about Lin Ran’s intentions.

For the past two days, they had just been hiding within this formation of Lin Ran’s to eat and drink and talk about the sky, and this was the perfect time to use it to ambush these Heavenly City Guards.

“Wait and see when I make my move, I’m afraid these formations won’t be able to confuse the Heavenly City Guards for long!”

Lin Ran finally reminded.

Liu Feng and the others all nodded their heads in agreement.

This formation was set up by Lin Ran, and naturally, only Lin Ran knew best how effective it could be.

The crowd hurriedly set up, while at the same time the sound of footsteps outside was getting closer and closer.

At this moment, all the people held their breath and stood motionless, their weapons already out of their bodies.

The one Lin Ran was holding at the moment was the Frost Condensation Sword he had obtained on Qiong Hua Mountain, and this was the first time he had used it.

“Here it comes!”

Suddenly, Liu Feng behind him spoke in a soft voice.

Immediately, the crowd could clearly see that outside the dungeon, ten figures appeared, each of them wearing black night clothes, with only one pair of eyes showing outside.

But the murderous intent in their eyes was not concealed in the slightest.

They crept outside the dungeon and watched the situation inside vigilantly.

However, after watching for half a day, they didn’t come in, and then actually slowly backed away from Lin Ran and the others’ sight.

“What’s going on?”

Lin Ran was puzzled in his heart.

But at this moment, suddenly Liu Feng, who was standing at the back, fiercely spoke up and shouted.

“Not good! Get down quickly!”

Chapter 1235

As Liu Feng’s voice rang out, Lin Ran and the others all fell to the ground almost by reflex.

At the same time, everyone felt a strong wind coming from above their heads, followed by the sound of “thump, thump, thump” from behind.

It was obvious that something had hit the wall behind them.

The dungeon was instantly filled with a layer of smoke and dust.

The crowd lay on the ground and turned their heads to see that the entire wall behind them had been completely penetrated, and the wall further back was inlaid with a layer of steel nails.

Some of these steel nails had already penetrated inside the entire wall, and the outside steel nails had just shot out the inside ones.

“Fuck, these sons of bitches have learnt their lesson too, they don’t even enter the dungeon anymore!”

The burly man lying next to Liu Feng cursed.

“Alright old fatty, hurry up and take the men into hiding!”

Liu Feng greeted busily.

Old Fats answered and hurriedly pulled the other weaker men into hiding behind a wall.

Almost at the same time, the ten figures that had retreated back before ran back again, their eyes glowing with coldness, and the steel swords in their hands flashed with a bright light in the night.

“Do it!”

With a command from the leader of the group, all ten figures moved at once.

Three of them were heading straight for Liu Feng, while the remaining seven were all running towards Lin Ran.

“Lin Ran be careful, theirs is coming for you!”

Liu Feng quickly warned, while mentioning the large sword in his hand, he went towards the three men and met them.

“Understood!”

Lin Ran replied, following which the glow of the Condensing Frost Sword in his hand also increased greatly, and instantly his figure had disappeared from the spot.

“What speed!”

Liu Feng was also taken aback by this speed of Lin Ran’s.

His heart was overjoyed, with this kind of speed, Lin Ran would have absolutely no problem defending himself.

However, the next moment, the move Lin Ran made was one that left Liu Feng completely dumbfounded.

He only saw Lin Ran’s figure fiercely appear behind one of the Heavenly City Guards.

Following this, the Frost Condensation Sword in his hand immediately lifted up and resigned directly towards the Heavenly City Guard in front of him.

“Bang!”

With a muffled sound, Lin Ran’s entire body actually flew straight backwards.

“You’re insane! A big part of their strength is that they’re very resistant to being punched!”

Liu Feng shouted as he looked busy, in his too much haste earlier this was something he had forgotten to mention to Lin Ran.

“Quite resistant to beating indeed!”

Lin Ran said helplessly as he knocked the dust off his body.

That blow just now, if it was anyone else, I’m afraid that he would have been killed with a single sword strike.

But the Heavenly City Guard had actually resisted hard, and when he turned his head to look, he only saw that even the Heavenly City Guard had just had a hole pierced through his back clothing by Lin Ran.

Instead, the skin inside was only a red dot, not even able to break through the opponent’s defence.

“Are these Heavenly City Guards still human?”

Such a thought could not help but pop up in Lin Ran’s mind.

The strike he had just made couldn’t even slow down a mid Creation Realm powerhouse.

But these Heavenly City Guards had actually blocked it with their own physical bodies, which made Lin Ran’s heart extremely surprised.

“Go!”

At this moment, seven of the Heavenly City Guards had surrounded Lin Ran, leaving him with no place to retreat.

And at this moment, facing the siege of the seven Heavenly City Guards, Lin Ran couldn’t help but feel a bit headstrong.

The opponent’s body was exceptionally hard and he could not fight at all.

But if he didn’t fight and just defended, I was afraid that sooner or later he would have to be captured by them, and when that time came, I was afraid that I would not be able to live or die.

Thinking of this, Lin Ran’s eyes could not help but be cold, and the Frost Condensation Sword in his hand was raised once again.

Since it was death if he didn’t resist, or death if he did, he might as well resist to the end and fight for a chance of survival.

“Lin Ran!”

Seeing Lin Ran’s situation, Liu Feng also tensed up, but right now he couldn’t even pull himself away, let alone go help Lin Ran.

“Kid, your fat brother is here!”

Just at this moment, suddenly the voice of Old Fatty came from the side.

It turned out that after Old Fatty had settled down the crowd, he had brought back people who could fight these Heavenly City Guards to kill them, and at this moment there were five of them with him.

“Make a move!”

Seeing this without delay, the Heavenly City Guards immediately split up into five men and headed straight for Old Fatty, leaving two to deal with Lin Ran.

“Two men?”

Seeing that there were only two people left in front of him, Lin Ran was instantly less stressed.

However, he only felt this way for less than two seconds before the two Heavenly City Guards in front of him were already rushing towards him.

“Bang!”

The longsword in the hand of one of them came straight at Lin Ran.

Lin Ran reflexively blocked it with his Condensing Frost Sword.

But it was this one blow? But it was the one that shook Lin Ran to the point where his tiger’s mouth felt tingly.

“Holy shit! This strength and body, how else can you fight!”

Lin Ran was somewhat speechless.

Earlier, when he heard Liu Feng talk about being so powerful, he felt as if this Heavenly City Guard was no more than that, but now? He actually shook his tiger’s mouth with a vague stinging pain when he took a hit himself.

“Lin Ran! I’ve just thought about it, these want to break through these Heavenly City Guards’ defenses, you need a pure Yang essence blood thing, I don’t have much left now, you catch it!”

Liu Feng’s voice suddenly rang out from the side, followed by a red glass bottle being thrown over from mid-air.

Lin Ran looked speechless, but he couldn’t say anything.

After all, it had been years since Liu Feng and the others had been attacked by the Heavenly City Guards, so it was normal to forget such things.

“Give it to me!”

Looking at the glass bottle in mid-air, Lin Ran was ready to pull it over with a wave of his hand.

But just then, one of the Heavenly City Guards actually jumped straight up into mid-air and? blocking Lin Ran’s line of sight with his own body.

As soon as Lin Ran realised the break, the suction in his hand was instantly broken as well.

At this moment, another Min Tian City Guard waved his longsword in his hand, and with a “pop” sound, the glass vase directly shattered into powder.

The pure Yang essence blood inside was instantly scattered.

Wherever the pure Yang essence blood was scattered, the Heavenly City Guards let out painful screams and white smoke rose from their bodies.

“Holy shit what the hell is this Pure Yang Essence Blood!”

Lin Ran looked out of breath.

He could feel that those Pure Yang Essence Blood contained a very dense masculine energy within them.

“Hurry up and kill him!”

Suddenly, just as Lin Ran was looking mesmerised.

The leader of the Heavenly Become, who was fighting with Liu Feng on the side, was shouting at the two people in front of Lin Ran.

The two men nodded their heads and instantly did not bother with the ? The injuries on their bodies, rushed towards Lin Ran and pounced directly.

At this moment, the two men were at full strength, and their strikes actually pinned Lin Ran down firmly.

The strength of the two was so great that Lin Ran could not break through their defences as he had not obtained the Pure Yang Essence Blood, so he could only defend.

But even if the defence was fast, there would be a time when it would slip away.

Sure enough, after holding out for a few minutes, one of the Heavenly City Guards caught a loophole in Lin Ran’s defences, and with a flash of the blade in his hand, he directly cut a slit into Lin Ran’s arm.

Blood spilled out immediately.

But just when Lin Ran thought that he was afraid that he would be in a bad way today.

Suddenly, the spilled blood actually dripped onto the face of one of the Heavenly City Guards.

Immediately, the latter’s cheeks sprouted white eyes, while a painful sound came out.

That Heavenly City Guard fell straight to the ground in pain, howling.

Lin Ran, who saw this scene, however, froze.

Following this, his eyes chilled as he directly wiped the blood from his own arm onto the Condensing Frost Sword.

“So old me’s blood works too, so you guys are still playing with your mother!”

Lin Ran cursed angrily as he lifted his Condensing Frost Sword and lunged towards the two men to kill them.

Chapter 1236

These two Heavenly City Guards had also not expected that Lin Ran's blood would have the same effect as Pure Yang Essence Blood.

At this moment, one of them had almost lost his fighting ability and was still lying on the ground, wailing in pain.

The other one only had to ignore him for the time being and lunged towards Lin Ran first.

However, having already been given insight into Lin Ran's weaknesses, he was no match for him.

After a few exchanges of blows, Lin Ran saw that his sword had directly chopped off one of this Heavenly City Guard's arms.

He fell to the ground in pain.

Lin Ran wasted no time and stepped forward with a killing move.

"Whoosh."

The two swords directly ended the lives of the two men.

"What?"

From afar, Ah Da, who saw this result, instantly had a cold face.

Lin Ran was just a brat who had just arrived, and although he was also a commander, he seemed to him to be about as strong as Long Yang.

Yet now, he had directly killed two Heavenly City Guards.

This battle record was enough to be classified with Liu Feng.

"I'll stop Liu Feng,? You guys go over and kill him! The mission must be completed!"

Ah Da chided.

"Yes!"

The two men beside him instantly pounced towards Lin Ran again at the word.

Of the original ten Heavenly City Guards, Ah Da was currently tangled up with Liu Feng.

Of the remaining seven, there were still five who were being pestered by Old Fatty with his men here.

At this moment, there were only five people left who could still be deployed.

If even the two of them couldn't solve Lin Ran, then I was afraid that tonight's operation would really be in danger.

"Hey! Your opponent is me, if you get distracted, I'll really kill you!"

Looking at Ah Da as he wandered off a little, Liu Feng couldn't help but sneer.

At this moment, only Ah Da was left alone, and the pressure on Liu Feng was much less.

He had been pressing Ah Da into a downward fight.

“Humph! After fighting for so many years, you can kill me?”

Ah Da looked at Liu Feng and coldly snorted.

“Is that so? Tonight will be the night of your death!”

Liu Feng said in a cold voice, followed by a flip of his palm and a bottle of Pure Yang Essence Blood appeared in his hand.

Seeing the Pure Yang Essence Blood, Ah Da’s face visibly turned to one side, but then laughed.

“Pure Yang Essence Blood again, Liu Feng you really surprised me, I didn’t expect that after so many years, you still have Pure Yang Essence Blood on you, I just don’t know how many times your Pure Yang Essence Blood can still be used!”

Ah Da said and turned around and left, not wanting to pester Liu Feng in the slightest.

He could not defeat Liu Feng with pure Yang essence blood, but if he just pestered him, he could still do it.

The first reason why Long Mo had always wanted to eliminate Liu Feng was because of the grudge between the two men, and the second reason was because of the Pure Yang Essence Blood.

The Heavenly City Guards cultivated by Long Mo had one obvious drawback, and that was the fear of pure Yang essence blood.

This essence blood, born within the pure Yang physique, had a strong innate power.

The Heavenly City Guards’ hard skin and infinite strength were most afraid of pure Yang essence blood, but I am afraid no one knew the real reason for this except Long Mo.

Liu Feng was only vaguely guessing, but the real reason? He was not sure either.

The two of them have been retreating to defend, Liu Feng could not do anything about it. The two were at a standstill.

The old fatty on the side is similar, they have more people to deal with the five heavenly city guards can still cope with, the victory is also a time can not be divided.

.....

The two of them had already suffered several cuts on their bodies after a few rounds of fighting.

Moreover, these wounds were surprisingly unable to heal, and blood was continuously flowing outwards.

“There’s something wrong with these Heavenly City Guards, we must check them out properly later!”

Lin Ran thought to himself.

Whether it was pure Yang essence blood or his own essence blood, whenever the Heavenly City Guards touched it, they would appear to be in great pain, there was definitely something wrong here.

“Bang!”

In the midst of another exchange of blows, Lin Ran took advantage of a mistake by sending his Condensing Frost Sword directly into his opponent’s chest, killing one of them in an instant.

And by this point, only seven of the original ten Heavenly City Guards remained.

“You Who the hell are you! How could the strength be so strong!”

The two Heavenly City Guards who had fought against Lin Ran were only one left at this point.

He stood in place and looked at Lin Ran in shock, he was actually a little scared at this moment.

“Who am I? Aren’t you very clear!”

There was an icy coldness in Lin Ran’s eyes.

If it wasn’t for this encounter with General Liu Feng, I’m afraid that Lin Ran wouldn’t even have known about the existence of the Heavenly City Guards, foolishly waiting for three days of military justice in this Northern City dungeon.

Now that he thought about it, this Long Mo was really ruthless, actually prepared to settle himself directly in the dungeon.

However, once this came out, he, Long Mo, and Lin Ran were also considered to have a complete showdown. Although there was no explicit card, the grudge between the two was considered to be unspoken and completely knotted up.

“Kill him!”

On the side, Ah Da was always paying attention to Lin Ran’s side.

When he saw that another one of the two Heavenly City Guard men he had sent was dead.

Ah Da was also anxious.

“Yes!”

When that henchman heard Ah Da’s order, a look of determination emerged in his eyes.

Following that, he actually lunged directly towards Lin Ran, ignoring the Condensing Frost Sword that Lin Ran was wielding over him in the slightest.

“Lin Ran be careful, that guy is going to explode himself!”

Liu Feng saw this and also hurriedly shouted.

He had dealt with these Heavenly City Guards for so many years that he knew the moment the other party pouted that they weren’t holding back any good farts.

“Self-explode?”

Lin Ran’s face also changed at the sound of his words.

The self-detonation of a Creation Realm powerhouse was definitely not even a joke.

Even Old Fatty and the others on the side stopped fighting and took their men into hiding.

Liu Feng also stopped chasing after Ah Da and was busy looking in the direction where Lin Ran was.

That Heavenly City Guard had by now rushed close to Lin Ran, who was, very unfortunately, blocked in a corner.

“Stop him for me, don’t let him out!”

Ah Da’s eyes were red at this point, counting this team member who blew himself up, he had lost four Sky City Guards tonight.

Even if he killed Lin Ran, I’m afraid that when he returned, Long Mo would be furious and heartbroken for a long time!

After all, the training of each Heavenly City Guard was very costly.

But now the number of those in Lin Ran’s hands had already reached three, and at this moment there was still one more because Lin Ran was about to explode himself.

“Bastard!”

Thinking of this, Ah Da became extremely irritated.

The long knife in his hand was clacking as he gripped it.

At this moment, the six remaining Heavenly City Guards were all standing outside the corner, completely blocking Lin Ran in.

There was no way up or down.

If Lin Ran fought against the Heavenly City Guard’s self-destruction, he would be seriously injured even if he didn’t die.

“Save Lin Ran!”

At the critical moment, Liu Feng also exploded, and with his roar, at once Old Fatty and the others also rushed out.

A group of people rushed towards Ah Da.

“Stop them, Lin Ran must die!”

Ah Da roared in anger, and immediately, he brought his sword towards Liu Feng and the others to meet them.

While Liu Feng and Ah Da and the others were tangled up again, Lin Ran was also red-eyed at this moment.

Faced with the self-destruction of a Creation Realm powerhouse, he could also be considered to be swimming on the edge of life and death at this point.

Chapter 1237

“Boy, what the fuck has gotten into you!”

At a dangerous juncture, Pillowbook finally spoke up.

As Lin Ran’s strength increased, there was less and less he could do to help Lin Ran, but at this moment, facing the self-destruction of a Creation Realm powerhouse, his instinctive feeling still made him sense the danger.

“Cut the crap and do something!”

Lin Ran said speechlessly, what was the point of talking about this at this moment, finding a way to break out was the most crucial thing.

“What should we do? What else can we do, kill him before he blows himself up,? Otherwise you’ll just have to fend for yourself!”

The pillow said helplessly.

Lin Ran was speechless at his words, this was a fucking solution?

“Ai!”

Sighing helplessly, Lin Ran picked up his Condensing Frost Sword and charged towards his opponent.

The timing of a powerful person’s self-destruction was simply beyond his control.

The more raging the true qi within his dantian, the longer the gestation process for the spontaneous explosion would be, and vice versa, the shorter it would be.

After all, it was not something that anyone dared to do in order to make these thick true qi create a shock and eventually explode.

“You still dare to come over?”

Seeing Lin Ran actually lunge towards him, that Heavenly City Guard instantly laughed.

“Old me still has to kill you!”

Lin Ran’s eyes were icy cold as the Frost Condensation Sword in his hand slashed directly towards the other party’s head.

“Kill me? In a hurry?”

The Heavenly City Guard sneered and raised his arm to block.

Right now, he wasn’t in the slightest bit anxious, as long as he waited for a few moments until the true qi in his body finished brewing itself, by then Lin Ran would only be able to die the same way as himself.

“Bang!”

With a muffled sound, Lin Ran's Frost Condensation Sword immediately sunk into the Heavenly City Guard's arm.

The Frost Condensation Sword, which was stained with Lin Ran's essence blood, was simply like cutting iron like mud.

In an instant, his arm was severed to the ground.

However, Tian Chengwei did not panic in the slightest. Instead, he laughed out loud.

"Kill! The more you kill, the more painful it will be when you die later!"

"Get lost you!"

Lin Ran was completely furious at this point, and with a lift of the Condensing Frost Sword in his hand, he rushed towards his opponent's dantian and stabbed it.

As long as he could nullify his dantian, he would still have a chance of survival.

"You're too stupid!"

Tai Tian Cheng laughed coldly and followed with his other arm to block directly.

"Poof" there was a muffled sound, and the other arm flew out in response.

But Lin Ran's blow still fell short.

"I still have two more legs, you won't be able to achieve your goal!"

Tianchengwei laughed wildly, as if he were an emotionless demon at this moment.

"Give me death!"

There was an edge in Lin Ran's eyes, and with a flip of his palm the Condensing Frost Sword flew straight out.

"In a hurry? There's no use being anxious!"

The Heavenly City Guard laughed loudly, while raising his foot and kicking at the Frost Condensation Sword.

But at that moment, a cold ray of light suddenly sliced through the mid-air and appeared behind the Heavenly City Guard in an instant.

The dagger broke the tip! At some point it was flung out by Lin Ran, aiming precisely at the opponent's dantian.

But at that moment, the Heavenly City Guard suddenly stood still, and the Frost Condensation Sword instantly penetrated the opponent's thigh, but he didn't react at all.

He looked at Lin Ran, and there was actually relief in his eyes at this moment.

"Not good!"

Lin Ran suddenly felt a palpitating heart, that was the rush of death approaching.

“It’s going to blow itself up! Quickly dodge!”

At the same time, Liu Feng’s scolding came from afar.

Following that, Lin Ran felt complete silence in his ears.

A white light lit up from afar, and instantly everything around Lin Ran turned white.

He opened his mouth to cry out, but at that moment he couldn’t even hear the voice of his pillow book.

Lin Ran knew that the other side had exploded itself, and that this terrifying power was precisely what the other side had generated by exploding itself.

The momentary power even shook Lin Ran’s ears briefly deaf, and he hurriedly closed his eyes and covered his ears.

But the immense force still made him feel the stinging pain in his eyes and the skin of his entire body trembled.

“Pfffffffff!”

The sky was filled with debris, chunks of stone and wood slag, sweeping in all directions with the other party as the centre.

Lin Ran took the brunt of it, and the clothes on his body had quickly turned into beggar’s clothes, torn and tattered.

The bare skin, too, was almost instantly covered with bloody paths, some of which were scraped out by the wood splinters, while others were shaken out by the tremendous force.

Lin Ran cowered in the corner, mobilising all the true qi in his body to protect himself, but it still seemed very faint.

He couldn’t see anything with his eyes closed, and he could only faintly hear some loud noises in his ears.

“Poof!”

Suddenly, he heard a muffled sound, followed by a feeling that his chest was a little cold and he didn’t know what was going on.

At this point he couldn’t care less, so he huddled in the corner and waited.

I don’t know how long it took, but as the bright light around him gradually dimmed, Lin Ran’s sense of sight and hearing and touch gradually returned this time.

He first heard some sounds of fighting, and then felt pain all over his body.

When he opened his eyes to look, Lin Ran’s eyes instantly turned red.

There was actually not a single piece of good skin on his entire body, and blood was flowing outwards in many places,? Some places were even crusted with blood.

The worst part was the area on his chest,? Somehow a fist-sized wound had appeared, and it was constantly pouring blood out, which was terrifying.

Lin Ran was busy ripping off part of his clothes and wrapping the wound around it, and only then did he breathe a sigh of relief.

If he hadn't cultivated the Xuan Yang Pill Canon and hadn't had the True Qi of the Healing Dao in his body, I'm afraid that the blood would have dried up by now.

After sitting in place for a few moments to rest, Lin Ran was awakened by the sounds of fighting around him.

When he looked up, he saw that Liu Feng and the others were fighting with a few of the Tiancheng guards in the distance.

And at that moment, the entire North City dungeon had almost been destroyed by a large margin.

The dungeon alone, where Lin Ran and the others were, had completely collapsed, cutting off the passage to the outside.

Lin Ran's eyes were red.

Just now, he had truly walked between life and death.

If he hadn't been lucky, I'm afraid that he would have been a corpse at this point.

"Cursed Ba Zi!"

The roar of rage in Lin Ran's heart rubbed off.

At this moment, only one word echoed in his mind, "Kill! Kill!"

Lin Ran stood up from the ground, and with a wave of his palm, the Frost Condensation Sword and the broken tip of the dagger flew directly into his hand.

The blood from their bodies instantly dyed both weapons blood red.

Lin Ran's eyes looked deadly at Ah Da in the distance, and with a single movement of his mind, the Dagger Broken Tip and the Condensed Frost Sword flew out almost simultaneously.

"Give me death!"

With a furious roar from Lin Ran.

The two magic weapons instantly arrived in front of Ah Da.

"What the hell?"

Ah Da had just reacted when he heard a "poof" sound, and the broken tip of the dagger had already pierced into Ah Da's body, instantly penetrating his dantian.

"You!"

Ah Da turned his head to look at Lin Ran, with terror in his eyes.

How had his strength suddenly increased so much.

“Run!”

When the few remaining Heavenly City Guards saw that Ah Da was dead, each of them no longer had any desire to fight and turned around to leave.

But at this moment, Lin Ran, who was already red with murder, would not let them go.

With a wave of both hands, the Condensing Frost Sword and Broken Tip stabbed towards them.

“Damn it! Spell it out and blow yourself up!”

Without knowing who shouted, the few remaining Heavenly City Guards actually prepared to explode themselves in unison.

This time, however, Lin Ran was self-destructing with almost no intention of leaving it to them.

The Frost Condensation Sword and the dagger broke the tip, carrying a series of red lights as they wandered between the group.

With the sound of “poof poof poof”, one of the Heavenly City Guards would fall each time.

In just a few breaths, the remaining Heavenly City Guards all fell into a pool of blood.

At this point, the last ten Heavenly City Guards sent by Long Mo had all died in the North City dungeon.

Chapter 1238

“Lin Ran”

Liu Feng and the others looked at Lin Ran at this point, each one so shocked that they didn’t know what to say.

Lin Ran put away his Frost Condensation Sword and Dagger Broken Tip and turned his head to look at Liu Feng and the others.

“This is an opportunity!”

“Eh?”

Liu Feng and the others were stunned, somewhat confused as to what Lin Ran meant.

Lin Ran pointed at the few corpses on the ground.

“Put on their clothes and leave, if you can find their armour, you can even pose as Heavenly City Guards so that some of you can get out first!”

“That’s impossible, even if we find their armour, but the scent won’t change! Long Mo will definitely still find out!”

Liu Feng said.

Lin Ran, however, said blandly.

“I can change your scent!”

“You can?”

Liu Feng was stunned at his words.

And Lin Ran just didn't say anything, he directly came to the corpse of one of the Heavenly City Guards, sensed it, then took out a silver needle and got up to look at Liu Feng.

“Come here and try!”

Liu Feng frowned slightly, but there wasn't much time to think about it at this moment, with such a loud noise coming out of the North City dungeon, it was estimated that Long Mo would soon be alerted.

“Okay!”

Liu Feng walked over with a grit of his teeth.

Lin Ran inserted the silver needle above Liu Feng's neck, and soon, the faces of Old Fatty and the others on the side changed.

“This scent!”

“This is Ah Da's breath!”

The crowd exclaimed.

“This is salvation!”

Joy appeared on the faces of all the people.

“Apart from the one who blew himself up here, there are still nine sets of night clothes left, how many of your men are there?”

Lin Ran asked.

“There are nearly two hundred men in total...? But only twenty or so are being held here, the others are in other areas!”

Liu Feng said.

“Then all twenty of you go, it's up to you to find the Heavenly City Guard's clothes, as for the others there is nothing we can do for now, we can only wait until later to find a way to rescue them!”

Lin Ran said.

Liu Feng nodded his head.

Immediately, he selected ten people and had Lin Ran change all their scents to those of the Heavenly City Guards.

And at that moment, there were already loud noises coming from the collapsed place, and it was obvious that the people outside had already started digging into the collapsed place.

“Go through the other side!”

Lin Ran led the crowd to the other exit and rushed behind him to Liu Feng and the others.

“You guys go first, I’ll go out last!”

Lin Ran said.

“Hm!”

Liu Feng and the others nodded at his words.

They were also clear that at this point, their escape was just a process, and the most important point was to make Long Mo think that the Heavenly City Guards were still alive, so that they could gain Long Mo’s trust when they appeared later.

The twenty of them, how they would eventually escape, it was no longer something Lin Ran could help with.

At least ten of them could not be discovered by others, or else Long Mo would definitely become suspicious.

And this was something that Lin Ran believed Liu Feng could handle on his own, he had more important things to do now.

Lin Ran found the supplies for making torches from a side cell and threw them all in the dungeon.

And then with a wave of his palm, ? The entire dungeon burst into a roaring fire.

Watching these flames engulf the corpses of the Heavenly City Guards,? Only then did Lin Ran nod in reassurance.

These flames were enough to burn the corpses of the Heavenly City Guards to charcoal, and even some of them could only be burnt to ashes, so this would sort of cut off Long Mo’s way of checking the identities of the dead.

Lin Ran turned around and prepared to leave.

But at that moment, he was the one who noticed that the puddle of blood on the ground had separated.

Normal human blood usually dried up quickly.

But at this moment, the puddle of blood on the ground had appeared in two separate layers.

The top layer was bright red blood, while on the bottom layer trended dark red.

Lin Ran frowned slightly as he watched, and was busy taking out a silver needle to test it out, but the moment he picked it up, he froze.

“This!”

Looking at the dark red substance stained on the silver needle, Lin Ran’s heart completely sank.

It was something he was all too familiar with, the Ten Thousand Treasure Spell Formation, both of Elder Feng’s trials, had this kind of stuff, the very same kind of dark red venom from the ground.

“Long Mo’s Heavenly City Guards were actually trained with this kind of stuff!”

There was an icy coldness in Lin Ran’s eyes.

Every time he had been in an important place, he had found this kind of stuff, and he had a vague feeling that this stuff seemed to be a substance that had a hostile relationship with Feng Lao.

But now this substance had actually appeared beside Long Mo.

“The Yue family’s magic weapon has something to do with this kind of thing, and Long Mo actually has it by his side!”

Lin Ran only felt a chill in the back of his don’t as a bold thought appeared in his mind.

“It’s hard to boil the Yue family and the Long family already

He didn’t dare to think about it, and there was no full proof of this, but if this kind of thing was true, I’m afraid that the Mysterious Alliance didn’t even know about it yet.

Suppressing the shock in his heart, Lin Ran then got up and walked towards the exit.

Ever since he had discovered these things, he hadn’t spoken to anyone, wrapping up Elder Feng.

But now, it seemed that these things would probably affect the direction of the war in the future.

But he had no proof, and if he spoke directly, it would probably backfire.

“Let’s ignore it for now and talk about it later!”

Lin Ran sighed, not having evidence was the hardest thing to bear.

.....

And at this time, outside the North City dungeon, inside a makeshift tent, Long Mo sat on the main seat with a cold face.

“Report! My lord, the men who just shot in through the other entrance were attacked by ten men, all of whom were wearing night clothes and have now run away!”

One of his men rushed in to report back.

“Are you sure it was ten people?”

Long Mo lifted his head to look at the other man.

“Positive, the men who survived from inside reported that there were only ten of them! They’ve already run away! Should we seal off the city to find them?”

The henchmen were busy asking.

Long Mo, however, waved his hand and said.

“No need,? Chase the dungeon first and see how the prisoners are doing!”

Right now Lin Ran's life and death as well as Liu Feng's situation was what he was most concerned about.

"Yes!"

The henchman led the order and retreated.

But soon, he came running back.

"Great My lord, Lin Ran is here!"

"Eh?"

Long Mo's face sank at his words, sure enough, Lin Ran had still survived.

But it was good that nothing happened to the ten men of the Heavenly City Guard either, that was what Long Mo cared most about, as for Lin Ran, there would be plenty of time to clean up later.

"Let him in!"

Long Mo spoke.

As the words fell, before his men could go out, a figure had already walked in.

"General Long! What do you mean by not letting your men go to track down the murderer!"

Lin Ran was covered in blood, standing in place and looking at Long Mo.

"Commander Lin, I'm not worried about your safety, so I sent my men to look for you!"

Long Mo said with a leathery smile.

"Yes! Lin Ran, don't be ungrateful, General Long is worried about your comfort!"

On the side, Long Yang was also busy saying.

Lin Ran looked over and realised that Long Yang was unharmed.

"Hehe! Worried about me? Commander Long is all imprisoned in the dungeon, so you're running fast!"

Lin Ran sneered.

"You!"

Long Yang was unable to utter a single word at Lin Ran's expense.

This kind of thing was clear in everyone's mind, and it was impossible to put it out in the open.

At this moment, Long Yang could only hold back.

With a wave of his hand, Long Mo rushed at Lin Ran and said.

"Alright, since Commander Lin has nothing to do, go back to the South City on your own to recuperate, Long Yang you also go back and go to the North City to retreat on your own for a month!"

"What about the assassin?"

Lin Ran looked at Long Mo and asked.

“I will send someone to investigate myself!”

Long Mo said in a cold voice.

Lin Ran smiled and glanced at Long Mo indifferently, without further ado, he turned around and left.

Only before he left the tent, he dropped a sentence.

“I hope General Long can investigate brother, I, Lin Ran, really didn’t expect that there would be people who dare to assassinate even in this Heavenly City, next time if I find them, I will kill one of them!”

Chapter 1239

Hearing Lin Ran’s words, Long Mo’s face clouded over.

On the other hand, after Lin Ran left the tent, a cold smile appeared at the corner of his mouth.

Naturally, he had said that for Liu Feng and the others.

Just letting Long Mo know that ten people had rushed out was not enough to convince him completely.

Instead, his own words were a way to show from the side that he hadn’t killed the other side, and the next time he sent someone, Lin Ran would not be polite.

There were already two places that proved that the ten people who escaped were the Heavenly City Guards, and the last, and most important place,? It was the dungeon.

.....

Ten minutes after Lin Ran left, inside the tent, one of his men came with news would come.

“Back to you, my lord, the area of the dungeon where Liu Feng and the others were all burned by the fire, several bodies were found all burnt to a crisp, more were not even found!”

“Where is Liu Feng and the others? Have they been found?”

Long Mo asked with a frown.

“No! I’m afraid they’ve already been burnt to a crisp!”

His men returned.

Long Mo, however, frowned slightly and tapped on his chair in deep thought.

Now that Liu Feng and the others were gone, and the bodies in the dungeon had all been burnt, he could only learn the truth when the Heavenly City Guard returned.

Just if the Heavenly City Guard really came back, would it still be his Heavenly City Guard?

.....

Leaving the North City, Lin Ran made his way towards the South City.

Many people cast awe-inspiring glances along the way.

Lin Ran was covered in blood, ? was also imprisoned in the North City dungeon, so many people knew that the events of tonight had, I'm afraid, affected him as well.

And at this moment, the fact that he was covered in blood already told the best story.

"Boss!"

A voice came over just as he was walking in the North City.

Lin Ran looked up, only to see Wang Yifei, Li Bajie, Li Mu Di Fire Yi Jian and Ling Sa Long Ya all standing not too far away.

At this moment, they were all moved as they looked at Lin Ran covered in blood.

Ling Sa and Long Ya even had tears in their eyes.

"Lin Ran!"

They ran over and jumped into Lin Ran's arms as soon as they could.

"Does it hurt?"

Long Ya's eyes were red as she looked at the wounds on Lin Ran's body.

"It's alright, go back first!"

Lin Ran squeezed out a smile.

Then, surrounded by the crowd, he returned to South City.

Most of the wounds on his body had already healed on their own, except for the one on his chest, which was a bit serious, and had been put on medicine under Long Ya and Ling Sa's care, together with Lin Ran's unique Healing Dao True Qi to repair it.

I was afraid that it would only take a day or two to heal.

"We're leaving, then? You take a good rest!"

Looking at Lin Ran, both Long Ya and Ling Sa couldn't help but have red eyes.

"Alright, I'll be fine, if you guys don't leave, people will get the wrong idea!"

Lin Ran laughed.

"What time is it, still joking!"

Ling Sa gave Lin Ran a white glance without good grace.

Only then did she and Long Ya leave the room together.

Lin Ran smiled, feeling very warm at this moment.

There were times when all he wanted was this simple, it was nice to have a group of friends with him when he was having a hard time, and a lover who cared.

Lin Ran lay in bed with his thoughts running wild.

He wondered how Liu Feng and the others were doing at this time, and whether they had found the armour of the Heavenly City Guards.

He didn't know if they would succeed in gaining Long Mo's trust and become impostor Heavenly City Guards.

Even for those Liu Feng's men who were still being held in the North City dungeon, Lin Ran did not have the slightest idea of how to rescue them later.

He could only take his time and wait and see.

"Right, the Battle List token!"

Suddenly, Lin Ran rang a bell and remembered the Battle List token.

When he had entered the dungeon before, the Battle Ranking Token had responded, only to be interrupted by Liu Feng later on.

There were so many things that happened afterwards that he had forgotten about it.

Touching the Battle List token from his pocket, Lin Ran immediately sent a strand of true qi into it.

Soon the Battle List token reacted.

"Weng!"

With a tremor, a curtain of light soon appeared in front of Lin Ran.

On the light curtain, the rows and rows of names barely changed.

On top of the Heavenly Ranking, the names of those people were still the same.

On the Earth Ranking only, on the other hand, the names had changed significantly.

At this moment, Long Mo's name had dropped out of the top ten and was in eleventh place.

The person who replaced him, however, was someone Lin Ran did not recognise.

Continuing to look down the list, Lin Ran soon found his name of Skybreaker, only this ranking was a little further down.

It was ranked at over 300.

But seeing this ranking, Lin Ran was already very relieved, at least this was a confirmation of himself in this recent period.

Moreover, after Lin Ran had used it himself, he also had a new understanding of this Battle Ranking token.

Although it doesn't speak, it can personally give affirmation for everything you've done, which is still very comforting to Lin Ran.

"I don't know how Long Mo was able to stay in the top ten for one before!"

Lin Ran was curious in his heart.

This fellow was doing wrong in the Sky Wolf Domain and only had his hands in the sky, but he was able to always stay in the top ten, along with the other guardian generals, although he was at the bottom of the tenth place, but it was from the bright side, he seemed to be very competent as well.

But Lin Ran is aware that I'm afraid Long Mo's line is something that only those in the Skywolf Domain can deeply appreciate.

As for his ability to always stay in the top ten of the Battle Ranking territory list, I'm afraid it was also by his own means.

.....

The night was deeper, and the entire Heavenly City gradually regained its calm.

And at this time, far away within the Long family in Nanyang.

Long Yu was holding a carrier pigeon in his hand, and beside him stood a man whose whole body was shrouded in black robes.

Neither of them spoke.

A few moments later, Long Yu sent the pigeon into the sky, and soon it disappeared into the vast night.

Only when they saw the carrier pigeon fly away did the two men, Long Yu, breathe a sigh of relief before they looked at each other and left the place.

Just before leaving, the dark shadow man spoke.

"I'm counting on that friend of the Long Family for this matter, and after the matter is completed, I will give you all that is due to you!"

Long Yu nodded, with a deep smile in his eyes.

.....

And at this time in Temperance City, in the luxurious villa in the garden of Panglong Mountain Resort.

Qin Bing, Song Nuan, Luo Qiqi and Su Rou, were sitting together, while in front of them, the Eighth Elder of Chao Tian Pavilion was handing them a piece of information.

"According to the information we have investigated, the Pavilion Master should be in one of the Mysterious Alliance's spheres of influence!"

"Previously, the Pavilion Master had studied at Qiong Hua Mountain for a year, and according to the rules of the Mysterious Alliance, he should have arrived at one of the battlefields by now, doing trials, and will most likely be on the battlefield in the future!"

Hearing the words of the Eighth Elder, the four women all fell into silence.

Only after a moment did Qin Bing speak up.

“How dangerous is this battlefield?”

The Eighth Elder fell silent, and only after a moment did he say.

“The trial place should be alright, but the real battlefield is very dangerous!”

“Those injured people you showed me around before should have come down from the battlefield!”

Qin Bing looked at the Eighth Elder, who nodded his head.

Qin Ming whispered something to Song Nuan and the others before looking at the Eighth Elder and saying.

“From tomorrow onwards, you must take me with you after you take charge of treating these people! At the same time, you find a way to contact the Mysterious Alliance, and say that we are willing to provide financial support, as well as other material support, plus your Chao Heavenly Pavilion’s support for their treatment!”

“But in exchange, you must tell us exactly where Lin Ran is!”

“Good! I’ll get on it tomorrow!”

The Eighth Elder nodded his head.

Chapter 1240

Every time Lin Ran had left before, he would say hello to them and at least inform them, regardless of the length of his absence.

But only this time, Lin Ran left without any news, no one even knew when he had left or where he had gone.

This caused all four women to panic at once.

It was a good thing that Chao Tiange was still around.

That was why there was that scene just now.

And this was something that Lin Ran hadn’t even expected.

The four women nowadays were not what they used to be.

Luo Qiqi controlled Luo Ran Finance, which had long since gained influence in the world, and under her drive, even the Luo family’s businesses in Tanjiang City had expanded several times.

Not to mention, the sheer scale of Luo Ran Finance now.

A word of financial support from her would make even the Mysterious Alliance have to think twice about it.

War, for money, is a terrible drain, and having the support of Luo Ran Finance would definitely be a good thing for the Mysterious Alliance.

Moreover, nowadays, Luo Ran Finance is even deeply cooperating with the company run by Liu Chen and the others in the imperial capital, and its future prospects will only get stronger.

Not to mention Qin Bing, who studied the Xuan Yin Pill Canon, her medical skills were now just a little bit inferior to Lin Ran's.

Within the entire Chao Heavenly Pavilion, only the Grand Elder could be on par with her.

Without the talents of the Chao Heavenly Pavilion to heal the wounded from the battlefield, I am afraid that the Mysterious Alliance would not be able to hold on to the present.

As for Song Nuan, although she doesn't have as much money as Luo Qiqi, and she basically doesn't know how to do medicine, her greatest strength lies in scheduling and handling interpersonal relationships.

Lin Jiawan's current achievements are considered to be a rival to Luo Ran Finance in the development world.

The annual tax revenue of the entire village is staggering.

And this village, after Lin Ran left, was managed by her single-handedly.

Although Dalong was the honorary village head, everyone in Linjiawan knew that apart from Lin Ran, Song Nuan was the one who deserved the most credit for making them what they were today.

After all, Song Nuan has always been there to help with whatever problems they have encountered over the years.

As for Su Rou, although her abilities are limited, she is still a well-known dancer in China.

She also knew that there was only so much she could do to help, so she never said anything, just prayed in silence that Lin Ran would return safely.

Like them,? There were naturally many other people who were worried about Lin Ran.

For example, Master Yu of the Xuan Sect, Lin Qiu, Lin Hong and so on.

All of them were worried about Lin Ran, but at this moment, in the Heavenly Wolf Domain, ten thousand miles outside of Heavenly City, the Wolf King's army was already on the move.

"Pass down the order for the army to move out tomorrow, targeting 1,000 miles outside of Heavenly City, and for the vanguard army the day after tomorrow, let Bajia lead it, with Mimi Ji assisting! First, go and test the reality of Long Mo!"

The Wolf King stood on his high seat and said aloud.

"Yes, Wolf King!"

A group of people led the order.

Only after the group had left did the red-robed protector at the side speak up.

“Wolf King, the master has sent word for us to take the Sky Wolf Domain as soon as possible in order to establish a two-way transmission array!”

“Mm!”

The Wolf King nodded his head.

Wolf City’s most important teleportation array had already been established, but unfortunately, because they were in the Sky Wolf Domain, the Domain Boundary Formation had already reached a qualitative level.

So their teleportation array could only be one-way at the moment, the Wolf Lord had a lot of things he couldn’t send over, which was the biggest restriction on them.

And once they captured the Sky Wolf Domain, this Sky Wolf Domain would then become completely under the control of the Wolf Lord’s seat.

“Long Mo has been comfortable in this Heavenly Wolf Domain for so many years, and we have fought for so many years, it is time to put an end to it!”

The Wolf Lord looked at the thundercloud sky in the distance, and there was a strong killing intent in his eyes.

.....

Lin Ran’s injuries had almost all healed after two days of rest.

The only injury that was somewhat serious was the one on his chest, but now that the wound had healed, it was no big deal.

And in the few days between Lin Ran’s imprisonment and his release from rest, Fire One Sword and the others stationed at South City never relaxed their training.

In particular, the last battle in which Lin Ran or the five members of the Fire One Sword teamed up to save Long Yang was also the one that made these people fully understand the importance of the combined attack formation.

Now even if the group of generals such as Fire One Sword did not say anything, their own motivation to train was obviously much higher.

While Long Yang’s men are still in the hands of Long Mo, Long Yang himself is staying in the Commander’s Palace on his own for grounding.

Perhaps because Long Yang’s transgressions were so serious last time, and because Long Mo did not want this to have too much of an impact, the one-month entry group was carried out with great determination this time.

Everything seemed to have calmed down, and Lin Ran hadn’t heard anything about Liu Feng.

I wonder how they are doing now.

On this day, Lin Ran had just arrived at the martial arts arena to check on everyone’s training.

But before anyone could say anything, suddenly the sound of a trumpet came from the distance.

This sound of a trumpet immediately made everyone tense up.

For it was the very sound of the trumpet of war.

“Commander Lin! Latest news,? The enemy has assembled a hundred miles outside the northern city gate and is calling for battle!”

Next to him, Ah Zhan ran over and said

“Calling for battle?”

Lin Ran frowned slightly at his words.

“Have everyone enter battle readiness and stand by for support!”

“Yes!”

Fire One Sword and the others immediately went down to prepare, and everyone entered a state of battle readiness.

“Isn’t the northern gate calling for battle? Do we have to go too?”

Long Ya asked as she came over at this moment.

Last time when something happened to Long Yang, Lin Ran rushed to help and eventually saved Long Yang, but what happened? Instead, Lin Ran was grounded for three days.

This incident had already made many people on Lin Ran’s side unhappy.

So when the North City was called into action again this time, they didn’t want to go.

Since the North City Gate was guarded anyway, they didn’t want to go into this mess, and it was possible that Long Mo would have another excuse to strike at them.

“Although there are people sent by Long Mo at the North City Gate, I am afraid that this time they are no match for each other!”

Lin Ran frowned and said.

“Are you worried about the other party’s Dao soldier armour?”

Long Ya asked.

Lin Ran nodded.

“These men of Long Mo’s have not practiced combined attack formations at all before? Even if they learned from what happened last time and started practicing!”

“It’s still too short a period of time by now to be a match for the Dao Soldier Armour!”

“Even when the five of us joined forces last time, we could only defend, we simply couldn’t fight hard against Baitian, so if this Dao Soldier Armour doesn’t find a way to break it, we won’t stand a chance at all!”

Lin Ran said.

“This Dao Soldier Armour is indeed a little too powerful!”

Long Ya frowned.

Lin Ran didn't really have any way to deal with the Dao Soldier Armour of Bashful and the others.

The five of them combined might be able to defend themselves, but if they wanted to defeat Baji and the others, there was not a single thing they could do.

Unless they could break through the combined art of this Dao Soldier Armour of the other party.

“Kid, why don't you ask Master Shu if there's anything I can do!”

Suddenly, Pillow Book's voice rang out in Lin Ran's mind.

“You have a solution?”

Lin Ran was stunned, the pillow side book could hear the outside world at any time, and Lin Ran was simply too lazy to say such things.

And now that the pillow book had taken the initiative to come out, it was obvious that there was a way to solve this matter.

“Dao soldier armour is just that, I used to be able to destroy tens of thousands of their dao soldier armour with a single look from Master Shu!”

Pillow Book said disdainfully.
