

Wonder Doctor

Chapter 1371

Soon the night had passed.

The next morning, when Lin Ran got up, he really found that the poisonous fog at the edge of the square had weakened a lot, and I was afraid that in an hour, all these poisonous fogs would disperse.

However, at that very moment, countless figures were already flying over in the sky.

Lin Ran frowned, he knew clearly that these people were definitely cultivators who had come to enter the Misty City ruins, but at this moment, among these people, Lin Ran suddenly saw the figure of the Sky Wolf King.

He was rushing at the front, as if he was the leader of those behind him, and was exceptionally powerful.

The seven Void Sect disciples who were originally sitting at the very front of the square, however, were all looking over one by one at this moment, and then actually stood up at the same time.

These seven people stood motionless in their original positions, their faces hidden under black robes unable to see any expression.

Soon after, the Heavenly Wolf King and the others landed around the square one after another, the people at the back did not dare to move at this time, the Heavenly King Lang was in front as long as he did not move no one behind him dared to overtake him, this was the deterrent of strength.

“Greetings to the Heavenly Wolf King!”

Seven people from the Void Sect suddenly bowed respectfully and sincerely.

“Spare me the salute, your Void Ancestor and I are considered old acquaintances no more than polite!”

The Heavenly Wolf King waved his hand, with blandness in his eyes.

“Lord Sky Wolf King, please also take your seat!”

The leader of the Void Sect stepped forward and made a gesture of invitation.

However, the Sky Wolf King waved his hand and said indifferently.

“There is no need, I will not necessarily enter this relic yet, you should all know who is the so-called person who has come this time! If you know anything about this person tell me as soon as possible!”

“Understood!”

The people from the Void Sect saluted respectfully.

The Sky Wolf King, however, turned his head and swept his gaze around, saying indifferently.

“Same goes for you all, if anyone knows where Lin Ran is, tell me as soon as possible! I can help him with one thing, but if anyone knows and doesn’t tell, then don’t blame me for being rude!”

The Sky Wolf King's voice was bland and resounded in everyone's ears.

Some people were even shocked.

If they let the Heavenly Wolf King help them with one thing, wouldn't that be no problem except for killing existences above the king of the domain, which was definitely a huge opportunity.

As for knowing not to say anything, I was afraid that none of these people would do so, after all, no one knew that Lin Ran.

And to go against the Sky Wolf King for that Lin Ran, unless they didn't want to live, or were sick in the head.

"Lin Ran?"

On the side, Wolf Ba always felt a bit familiar when he heard this name, as if he had heard it somewhere, but for a while he was a bit unable to recall.

"That's right! That goon last night, that dead fatty seemed to call him something like Ranzi? Could that be him?"

Wolf Ba thought in his mind, but he soon dismissed his thoughts.

"That can't be, that Lin Ran is the one who supposedly killed the Snake King, how could it be him! If it was really him who spoke so harshly himself last night, would he still be alive?"

And just as Wolf Ba was calculating and the others were patiently waiting for the Lost City Ruins to open, not far away, the Sky Wolf King's men had already started searching them one by one.

There were even some of the Heavenly Crocodile King's men among them, not worth enough for the Heavenly Crocodile King not to come over, so only some of his men had been patted down.

After all, they didn't know exactly where Lin Ran was now, and if both of them came to the ruins and Lin Ran turned back and ran away from Liu Cheng, it would be more than worth the loss.

"Ranzi, how about this?"

Wang Yifeng was busy looking at Lin Ran, by now the searchers were getting closer and closer to them and would probably be in front of them soon!

"You enter the small world first, Flame-Yan you stay behind the Sky Wolf King doesn't know you!"

Lin Ran said.

"Alright!"

Huo Yan nodded his head.

The Sky Wolf King naturally knew Lin Ran and Wang Yifeng, but Flame-Yan hadn't appeared in front of the Sky Wolf King, so he was prepared to put himself and Wang Yifeng away and hide in Flame-Yan to avoid the search.

However, he had overlooked one thing, and when he and Wang Yifeng really disappeared into place, they immediately attracted the attention of the people next to them.

After all, two large living people had instantly disappeared, and with all the heavy people's nerves on edge at the moment, that wasn't something that was hard to spot.

"Lord Skywolf King, here..."

As expected, just as the two Lin Ran disappeared, someone spoke up next to them.

Lin Ran heard this voice and already knew that he was going to be exposed, so he was immediately busy waving his palm to instantly put away the fireflame as well, himself this was appearing out of thin air, and with a flash of coldness the Sky Wolf King's men who were rushing towards this side were immediately killed.

"Lin Ran! You really are here!"

The Sky Wolf King's eyes flashed with a cold aura as he rushed towards the direction Lin Ran was in.

This scene was also clearly seen by the people around them, especially when they saw Lin Ran's appearance, they were all taken aback.

This was because this man, who they had all noticed last night, was the very same youth who had been robbed of his place by Wolf Ba but didn't dare to resist.

Originally, the crowd had thought that he was a softy who didn't dare to fight hard against Wolf Bully.

But now that they knew that he was actually Lin Ran, the hearts of the crowd could not help but feel a pang of fear.

Fortunately, they were not the ones who were looking for trouble last night, for fear that they might not even know how they would die.

At the same time, many people also looked at Wolf Ba with a hint of sympathy.

But after offending such a big shot, will he still be able to have a good time on this treasure hunt in the Lost City of Relics?

"I Holy crap He How could he be Lin Ran!"

Wolf Ba's legs were trembling with fear at this point, especially when he saw that Lin Ran, whose strength had exploded, was actually able to fight the Sky Wolf King, making his entire body want to find a crack in the ground.

"This kid is obviously so strong, last night"

The more he thought about it, the more scared he was, and in the end, he even hid behind the crowd, not even daring to show his head for fear that Lin Ran would find him and slap him over.

At this time, in the sky, Lin Ran and the Sky Wolf King were already tangled up together.

This time, there was no sneak attack, and the rest of the Sky Wolf King did not dare to come forward, so there was only two people going one-on-one.

The two could be said to have fought back and forth.

“Quickly go and inform the Heavenly Crocodile King to let him come over!”

The Heavenly Crocodile King’s men below said busily.

“Yes!”

One of the Heavenly Crocodile King’s men instantly turned his head and went back to inform the news.

Just kidding, this mission was issued by Lord Alien Demon, if anyone could complete it, it would not only be an honour, but even the reward would be extremely eye-catching.

So at this moment, those men of the Sky Crocodile King instead hoped that the Sky Wolf King could delay Lin Ran for as long as possible, rather than him just being able to take it.

Lin Ran naturally knew that the situation wasn’t quite second, but at this point he had no choice, if he made a hasty escape at this point, once he was blocked by the Sky Crocodile King, he would inevitably have no chance of surviving when he himself faced the siege of two Domain Kings.

So he was waiting, waiting for the Mystic City Ruins to open, and only when the Mystic City Ruins opened could he win this chance.

There might be a way out if he entered the Lost City Ruins, but if he was intercepted by the Heavenly Crocodile King and the Heavenly Wolf King, then there would really be no way out at all.

Chapter 1372

“Weng!”

Suddenly, just as Lin Ran and the Heavenly Wolf King were fighting in an indistinguishable manner.

A vibration finally came from the front of the square, and following the poisonous fog that hadn’t changed for a long time finally began to change.

As if a fresh breeze was blowing through, the poisonous fog slowly retreated from the middle to the sides.

A narrow passage had appeared in front of the crowd.

“The relics have opened!”

I don’t know who shouted, following which all seven people from the Void Gate located at the front moved, they seemed to be very familiar with the relics here.

Already prepared in advance, the seven men lined up in a row towards the narrow slit in the middle of the poisonous fog and rushed in.

“Go!”

“Move!”

The other cultivators at the back were also somewhat impatient, and one by one they rushed in towards the crack in the poisonous fog.

However, there were too many people, and with such a large crowd rushing towards the crack together, chaos soon arose, and quite a few people of delicate strength were instantly squeezed and fell into the poisonous fog.

Following a series of screams, those who fell into the fog were corroded into a puddle of sewage almost instantly, unable to even struggle.

But there were still a large number of people crowding in at the back, and the scene was once chaotic.

This is the way it is in the foreign devil domain,? Only those who have the strength can get everything, and those who are weak can only desperately climb up the ladder, either by letting others be their stepping stones or by being others' stepping stones themselves.

Luckily, after a few minutes the crack formed by the poisonous mist grew bigger and bigger, and soon it was big enough for six or seven people to cross side by side, and the huge crowd was relieved.

And by now, more than half of the people had already rushed towards the ruins.

Above in the sky, Lin Ran saw the situation and felt that it was almost time to raise his hand and force the Sky Wolf King back with a sword.

“Sky Wolf King, play with me inside if you dare!”

Lin Ran laughed, and immediately turned around and rushed towards the entrance of the relic.

“Bastard!”

The Sky Wolf King had ice in his eyes when he saw this.

This relic was only open for three days, if he couldn't get out within three days once inside, even he would have to be trapped inside for ten years, and this was what he feared the most.

After all, Lin Ran's strength was there, and it was almost impossible for him to keep Lin Ran by himself.

“Sky Wolf, you're really disappointing!”

At that moment, a roar suddenly came from the sky, followed by a middle-aged man with a muscular body who had rushed over.

His hair was dishevelled and in tufts, looking very wild, and he was no other than the infamous Xizhe Heavenly Crocodile King.

“Heavenly Crocodile, you didn't even come yourself, so you blame me?”

The Sky Crocodile King's voice was icy cold as he chided.

“Humph! Wait here by yourself!”

The Heavenly Crocodile King didn't bother to talk much, and instantly dodged and already rushed in towards the Lost City Ruins.

The Sky Wolf King watched with a slight frown, and after a moment also had to rush in.

Both of them had an unspoken understanding that whether they came here to look for Lin Ran or stayed in Liu Cheng, it was only so that they could find Lin Ran first, so that they could take the credit for it.

Moreover, the Sky Crocodile King said that in the end, he had never fought Lin Ran and did not know the latter's strength, so he was confident in himself.

But the Sky Wolf King already knew very well that if he and the Sky Crocodile King did not join forces, I was afraid that they would not be able to subdue this kid at all.

The entry of the two great domain kings into the Lost City Ruins naturally caused quite a shock.

The rest of the people behind them who had not entered were all very excited, and at that moment the rest of the people also entered the Lost City Ruins.

In less than an hour's time the entire square, which was originally bustling with activity, was left in a mess, and no one could be seen anymore.

.....

But Lin Ran, after he entered the Lost City Ruins, he quickly blended in with the crowd, and he was in no hurry, just moving with the crowd towards the front.

The Sky Wolf King and the Sky Crocodile King, on the other hand, were quick to rush ahead.

But these two men were very cunning, although they rushed to the front, their men were one by one at the end.

But no one who entered the ruins could escape their sifting.

This resulted in Lin Ran being trapped in the crowd with the Sky Wolf King and Sky Crocodile King in front of him, and the many men of the two behind him.

Although the people at the back were not very strong, there were so many of them that if Lin Ran dared to turn back towards the back, the Sky Wolf King and Sky Crocodile King would inevitably have rushed over before he could rush out.

The good thing is that Lin Ran was not in a hurry at this time, he released Fire Yan and then he himself was hiding on the latter.

After all, Firebrand knew very few people, and even just now the Heavenly Wolf King had put him away before he could even see his face clearly.

So at this point it would be a good choice to let him move along with the crowd outside.

As the crowd continued to advance, there were more and more people around, and it seemed that there was something up ahead that was blocking the way.

Sure enough, after another half hour of walking, Huo Yan saw that there were all these people ahead of him, gathered together and looking ahead, not knowing what they were waiting for.

And by now, having crossed the road that had been built, the poisonous fog on both sides had disappeared, replaced by a maze that could not be seen to the end.

Flame-flame squeezed through the crowd and came to one side, and Lin Ran saw at once.

In front of the crowd, there was actually a huge hall, the door of which stood right in front of them, blocking the way of the crowd.

And at that moment, at the entrance of the temple, a huge square was built here.

What would make Lin Ran wonder was that the number of people standing in the square at this moment was very limited.

He roughly calculated that the number of people who had entered as well as the number of people who had entered was close to nine thousand, but the number of people standing in the square at this time was not even a thousand, but at most only eight hundred or so.

Moreover, above this huge square, there were ninety-nine huge dragon heads bouncing down from the walls of the temple.

The mouth of each dragon head was open, as if it was telling something.

“Why isn’t anyone going up there?”

Lin Ran frowned, although some more people had gone up one after another after their arrival, there were only about nine hundred and fifty people up there at this point.

And the seven people from the Void Sect that Lin Ran had noticed earlier were clearly up there.

At this moment, they were staring at the crowd at the back, seemingly waiting, not knowing why.

“Hey! Senior, what’s this for? I’m new here and don’t know much about it!”

Flame-Yan was very self-effacing and enquired of the person next to him.

Seeing that he was quite sincere, the other person smiled.

“Fine! Then you can listen carefully, the first level to enter the ruins after this poisonous mist is called Hundred Miles!”

Said the other party, pointing to the dragon head above.

“See? That dragon head will form a formation to envelop the square when the number of people in the square reaches nine hundred and ninety-nine, and no one will be able to rush up there then.”

“After that, that dragon head will spit out a bead, commonly known as a dragon pearl, a total of ninety-nine, whoever can get this dragon pearl for a long minute without being snatched away by others, then they will be considered to have passed the level and will go straight to the next level! And those who fail can only stay behind and continue to participate in the later contests!”

Chapter 1373

“Then won’t many people get in and only a very few will be left at the end?”

Fireyan wondered.

The other party smiled at his words but smiled.

“What are you thinking, everyone only has two chances, and the last group will also be sent out altogether if there are less than nine hundred and ninety-nine people, so you not only have to look at this first level, but you also have to find a good opportunity, if you are early there are too many strong people, if you are late it will really be late!”

“Many thanks, many thanks!”

Huo Yan said with a busy smile.

And at this moment, Lin Ran had heard the rules all too clearly.

He swept his gaze back and forth, and indeed found that the Heavenly Wolf King and the Heavenly Crocodile King were standing in front of the crowd, not going up to the square, but instead standing guard where they were, seemingly waiting for Lin Ran to appear.

“What about the boss?”

Huo Yan asked busily.

According to this process, as long as Lin Ran tried to go up to the square, he would definitely be discovered by the Heavenly Wolf King and Heavenly Crocodile King, and with their men at the back, it could be said that there was no way to break out.

“Don’t worry, didn’t that man say just now that as soon as the number of people in the square reached nine hundred and ninety-nine, a formation would come out of the square, this relic is unusual, I don’t think the two of them would be able to break through the formation!”

Lin Ran said.

“Boss difficult dao you want to”

Fire Yan had already thought of Lin Ran preparing to do it.

“That’s right, when the last three, we’ll rush up! Activate the formation, then the two of them won’t be able to make a move!”

Lin Ran said.

“But boss, can it be that coincidental? It just so happens that there are three positions left?”

Huo Yan asked.

“You forget, only one person left both of them will do, I have a small world that can move you away at any time!”

Lin Ran said.

Only then did it dawn on Flame-Yan when he heard this.

From time to time, people would rush into the ring in front of them, and at this moment, the number of people on the mountain side had already reached nine hundred and seventy-eight, which was about the same as nine hundred and ninety-nine.

At this moment, Huo Yan's face changed, only to see a big, sturdy man next to him squeezing over, who was it but Wolf Ba.

"Boss! This Wolf Ba knows me!"

Huo Yan's face instantly changed.

"Don't be nervous!"

Lin Ran was busy speaking to comfort him.

Almost at the same time, Wolf Ba had reached Fire Yan's side, and he first glanced at the ring and muttered to himself.

"Damn, this first wave has all seven experts of the Void Sect in it, what's the point of playing! I'll wait for the second wave, Master Wolf!

Wolf Ba said as he glanced towards the sides and instantly saw Fireflame next to him.

"Holy shit! You"

"Don't move!"

Before Wolf Ba's cry of alarm could even ring out, an instant later a dagger was already pressed against his abdomen.

And he was so frightened that his entire body instantly froze in place not daring to move, it would have been fine if it was Flame-flame, but he clearly heard clearly that the voice that spoke before was not Flame-flame at all, but Lin Ran.

"Lin"

"Shut up!"

Wolf Ba wanted to open his mouth to say something, but he was directly chided by Lin Ran.

"Don't Don't kill me, I didn't see anything! I didn't see anything!"

Wolf Ba was busy speaking, if it was before he would have shouted out the name Lin Ran without a second thought.

But since he had seen the fight between Lin Ran and the Sky Wolf King, he realized that Lin Ran's body was definitely on the same level as the Sky Wolf King's. Killing him was simply a matter of moving his mouth.

At this moment, being held by Lin Ran with a dagger against his stomach, he wouldn't have the slightest doubt that as long as Lin Ran wanted to kill himself, it would basically be an instantaneous matter, and he wouldn't even be able to explode himself, this was the consequence of great strength perception.

"Stay honest, or you know the consequences!"

Lin Ran's voice was icy cold.

"Know... I know!"

Wolf Ba was so frightened that he was busy nodding his head, standing still and not daring to move.

And at this moment, several more people had already rushed onto the ring, just seven short of the final seven people from the nine hundred and ninety-nine.

“Boss!”

Fire Yan asked in a low voice.

“Don’t be nervous, later on I’ll say run! Just don’t worry about anything, just charge straight up to the ring!”

Lin Ran spoke.

“Okay!”

His heart was very nervous, but Huo Yan still nodded his head.

His strength was no different from that of a mole in front of the two Sky Wolf Kings.

How he would be able to rush up safely later, that would only depend on Lin Ran’s own plan.

At this moment, in the small world of the pillow book, Wang Yifeng was sitting in boredom.

Suddenly Lin Ran’s voice rang out in his ears.

“Get ready, go out later and head straight for the ring!”

“Good!”

Wang Yifeng nodded at once at his words.

Although he couldn’t see what was going on outside, Lin Ran was telling him everything that was going on outside, just as if he was outside himself.

And at that moment outside, after a few more minutes, the first wave of people ready to enter the ring still remained at nine hundred and ninety-two, still seven people short of the end.

Lin Ran hid on Fireflame without moving, waiting for his chance to come.

“Go!”

Suddenly, someone next to him couldn’t resist rushing up.

The two of them, Lin Ran, were busy turning their heads to look and couldn’t help but frown.

This was because there were surprisingly only three people going up this time, meaning that even if they counted Flame-Yan and Wang Yifeng, there were only a mere three of them, and if they wanted to make up the 999, they would have to find another person.

Suddenly, Lin Ran’s gaze fell on Wolf Ba, who was next to him.

Wolf Ba’s whole body went cold as he felt someone’s gaze fall on him, and a bad thought instantly angered his heart.

“Don’t! Don’t! I don’t want to go up there, I want to wait”

“Wait for your grandpa!”

“Go!”

Lin Ran spoke almost instantly.

At the same time, Flame-flame spread out his stride and charged up towards the ring.

Lin Ran flung his palm and Wang Yifeng also instantly appeared beside him.

“Take him with you!”

Lin Ran shouted busily, followed by a kick to Wolf Ba’s butt, the latter screamed in his heart that he would fall, but he still threw himself towards Wang Yifeng and flew over.

“Holy shit! You are this old bastard, come here for me!”

Seeing Wolf Ba, Wang Yifei was instantly interested and grabbed Wolf Ba by the hair and rushed towards the ring.

“Don’t take me with you! I actually want to stay! I don’t want to leave!”

Wolf Ba wanted to cry, the moment Lin Ran kicked him, his strength was locked up and he couldn’t muster a bit of power at this point.

“Hm?”

Up ahead, when the Sky Wolf King and Sky Crocodile King saw this scene, their eyes were icy cold and there was joy on their faces.

“Finally unable to hold back?”

The two immediately lunged towards Wang Yifeng and the others.

“It has nothing to do with me! It has nothing to do with me!”

Wolf Ba shouted busily when he saw this.

However, how could the Sky Wolf King and Sky Crocodile King care about this and pounced directly towards the two.

“Your opponent is me!”

Suddenly, a voice rang out, and instantly countless ice crystals opened up in the sky, blocking directly towards the Sky Wolf King and Sky Crocodile King.

Lin Ran’s figure even appeared out of thin air, and his Condensing Frost Sword instantly condensed several sword maces straight towards the two.

“Shatter it for me!”

The Sky Wolf King shattered the ice crystal in front of him with a single punch, and the Sky Crocodile King even used his physical body to charge straight over.

Facing Lin Ran's countless sword maces, the two of them shot out together and blasted directly over.

"Bang Bang Bang!"

A series of loud explosions followed, followed by the shockwave from the explosions instantly pushing Lin Ran backwards before landing firmly on the ring only.

At the same time, Wang Yifeng and the three men had also reached the ring.

In an instant, nine hundred and ninety-nine people were just enough.

Chapter 1374

"Bastard!"

Seeing this scene, the Heavenly Wolf King was so angry that he gritted his teeth, while the Heavenly Crocodile King on the side was unconcerned and rushed towards Lin Ran in the ring.

But just as the Heavenly Crocodile King was about to rush into the ring, the edge of the ring suddenly lit up with a white light.

Then, with a loud "Weng" sound, the white light rapidly expanded and instantly formed a large net, enveloping the entire ring.

"Get out of my way!"

The Heavenly Crocodile King was furious and didn't care about the rules of this relic at all, instantly two crocodile claws appeared on his palms and instantly grabbed the formation.

Just kidding, the Lin Ran in front of him was someone that Lord Fey Demon wanted, if he could capture Lin Ran first, it would definitely benefit him a thousand times more, he didn't want to be the first to get his hands on him by the Sky Crocodile King.

As for this relic's formation, how powerful could it be, could he, a king of a domain, still not be able to break this relic's small formation?

"Stupid!"

He knew that the Heavenly Crocodile King had a violent personality, but he did not know that this Heavenly Crocodile King was so stupid that he wanted to destroy even the relic's formation, that was simply a death wish.

"Weng!"

As expected, the formation was forcibly torn apart by the Heavenly Crocodile King, and instantly a brilliant light erupted, sending the Heavenly Crocodile King flying backwards in an instant.

The two crocodile claws that had revealed their original bodies also instantly became bloody, clearly having received heavy damage.

"How is this possible!"

The Heavenly Crocodile King climbed up from the ground, with shock in his eyes.

“This relic is the battlefield where the Void Emissary of the Void Sect and a great power fought back then, do you think your strength can match theirs?”

The Sky Wolf King said in a cold voice.

“Humph! Sky Wolf you needn’t talk nonsense where you are, this is a mission from Lord Fey Demon, if we fail to finish it, you will be finished too!”

The Heavenly Crocodile King said angrily.

“I won’t be able to finish it? I can still finish it without you!”

The Sky Wolf King said disdainfully.

“Is that so?”

The Heavenly Crocodile King snorted coldly and stopped talking nonsense, immediately turning his head to look at Lin Ran within the formation with an icy coldness in his eyes.

“Kid! You think that just because you’ve hidden in the formation that there’s nothing I can do about you? When I enter the ruins, I’ll see where you can still hide!”

There was disdain in the eyes of the Heavenly Crocodile King.

However, the Heavenly Wolf King on the other side shook his head as he listened, saying in his heart.

“This Heavenly Crocodile King is really simple-minded!”

At that moment, he saw that the Heavenly Wolf King actually shouted towards the formation.

“The Seven Sons of the Void!”

“Lord Sky Wolf King!”

The seven members of the Void Sect within the formation saluted respectfully at the words.

“Would you all like to help me capture Lin Ran?”

The Heavenly Wolf King spoke.

All seven people were stunned at the words, and the Heavenly Crocodile King on the side was so angry that he only sent his brain, yeah! How could he himself be every item to these seven people.

Although all seven of them were only at the early stage of the Dan Creation Realm, they were after all the famous Seven Sons of the Void, seven of them were like brothers, even they would be stopped for a moment if they struck at the same time!

At this moment, as long as they could stop Lin Ran for a moment, they could wait for the test to end, and then when the Heavenly Wolf King and the Heavenly Crocodile King joined forces, they would still be worried about not being able to take Lin Ran?

“Lord Sky Wolf King, if we make a move, then this altar”

The leader of the Seven Sons of the Void spoke up, looking a little embarrassed.

“I know what you’re considering, as long as you strike and help me stop him! After I capture him, I will personally accompany you on a trip to the Lost City Ruins to help you collect and pay for that thing!”

The Sky Wolf King laughed blandly.

“Besides, if I’m right, your Void Sect shouldn’t be too sure about collecting and paying for that thing this time! With my help I think the success rate will be a lot higher!”

The Seven Sons of the Void were silent for a while, and after a moment the leader in black said.

“In that case, then I’ll be grateful to Lord Skywolf King!”

With that, the seven turned their heads to look at Lin Ran at the same time.

“Ranzi!”

Huo Yan and Wang Yifeng instantly tensed up.

The strength of these seven people was not ordinary, they couldn’t tell there!

“Hide in the back!”

The two frowned and spoke, while the Condensing Frost Sword had already surfaced once more.

“Have you all thought about it?”

Lin Ran looked at the seven men, his voice bland.

“We don’t want to offend you either, but in the current situation, it seems that it would be more beneficial for us to work with the Sky Wolf King!”

The leading seven sons of the Void Sect spoke.

“Good!”

Lin Ran’s eyes were icy cold as he said in a cold voice.

“Then let me also say this, if the seven of you dare to make a move against any of my people, I guarantee that you will return from this trip to the Lost City empty-handed!”

“You are serious!”

The leader of the other side’s voice suddenly became a few degrees colder at his words.

“You can try if you don’t believe me, if you think you’re even stronger than Snake King Black Jin!”

Lin Ran’s face was calm and his voice was ice-cold.

“Humph! A great man has to give and take, I trust the Sky Wolf King more than you!”

The leader’s voice was icy cold, and as the words fell seven men instantly drew their weapons and headed straight for Lin Ran.

“Be careful!”

Lin Ran opened his mouth to warn, and the Frost Condensation Sword in his hand had been exploded with a burst of light.

However, just as the two sides were preparing to engage just, the ninety-nine out of the dragon heads above the formation suddenly lit up.

In an instant, ninety-nine red dragon pearls were directly spat out.

“Collect!”

Lin Ran was quick with his eyes and instantly grabbed the one that landed in front of him in his hand, and then directly threw it to Flame-Yan.

“You go in first!”

Flame-Yan smiled and busily put the beads away, at this time the situation was urgent and he had time to say more.

And he was the weakest here, so he had nothing to say as Lin Ran arranged this.

The people around them were all afraid to avoid it, scattering one by one, unwilling to compete for the Seven Sons of the Void and Lin Ran’s side.

They had come to look for a chance, and if they lost their lives here because of the dragon pearl, it would be more than worth it.

The Void Seven Sons’ side, on the other hand, was extremely lucky, as there were seven of them, and they had already obtained three of the Dragon Pearls the moment they came down.

Even if they tangled with Lin Ran for a while, they could still go and fight for the others’ four more.

Facing them, the others didn’t dare not to hand them over, such was the suppression of strength.

“Go!”

Finally, after the brief calm caused by the dragon pearl, the entire ring completely exploded.

The Seven Sons of the Void spread out and surrounded themselves right towards Lin Ran.

The seven of them were holding different weapons in their hands, and the positions they occupied were very elaborate, as they looked prepared for collective combat.

“The message is out!”

Lin Ran finally spoke up and reminded Flame-Yan and Wang Yifeng.

He then turned around and killed towards the Seven Sons of the Void.

There were seven of them, so Lin Ran couldn’t just sit back and wait for them to die, and with Fire Yan and Wang Yifeng at the back, he had to leave an ample buffer zone for the two, otherwise once the Void Seven Sons came to sneak attack, he wouldn’t have time to come back to rescue them.

“Bang Bang Bang!”

Lin Ran and the Seven Sons of the Void instantly fought together, while on the other side, the many cultivators vying for the chance had also started fighting.

The entire ring was instantly stirred up.

The Heavenly Wolf King and the Heavenly Crocodile King were standing below, staring unblinkingly at the Fang Tang where Lin Ran was, and as soon as the formation would disappear, they would rush up at the first opportunity.

Chapter 1375

“Brother, what do we do?”

In the ring, in an isolated corner, two men were coming together, they didn’t bother to fight with others for the dragon pearl, nor did they participate in the battle, they just hid quietly in the side.

“Don’t be in a hurry, we’ll grab a Dragon Lord later on and we’ll be able to leave!”

A large man with a beard and a dragon head tattooed on his face spoke up next to him.

The two of them were also cultivating, only they didn’t have a sect, not strictly speaking, but their sect had been destroyed by their two brothers.

If anyone knew about this, they would definitely be able to guess that they were none other than the duo of Master Slaughterers who were very famous in the cultivation world.

The oldest of these two was named Tu Dao and the second was named Tu Long!

They had previously come from the same sect, and within the sect, the two had their eyes on the same girl.

Unfortunately, one of the sect’s head teachers at the time also coveted the girl disciple’s looks and later even went so far as to trash the girl disciple under the threat of resources.

The female disciple did not dare to repeat the humiliation and later committed suicide.

The two brothers were so incensed that, after years of enduring humiliation, they wiped out the entire sect in one fell swoop, which gave rise to the reputation of the Master Slaughter Duo.

But they didn’t care, and since then they have been in exile in the foreign demon realm, and finally settled in this Willow City, in order to come and break into the ruins of this lost city.

Speaking of which, the two brothers were somewhat lucky, for just now the ninety-nine dragon pearls scattered instantly, and one actually fell directly in front of the two.

No one noticed that they had gotten one straight away, and all they needed to do was to find another one before they could leave the formation in another minute.

“Big brother, what do you think of them?”

The second Tu Long said, pointing at a group of people who were fighting furiously together next to them.

However, the oldest Butcher Blade shook his head.

“We don’t have a division, so our strength has been stuck at the middle Qi Creation Realm, and most of the people here are at the peak of the Qi Creation Realm, so there is almost no chance for us to go and grab it from them!”

Said Tu Dao, turning his head to look first at Huo Yan who was off to the side.

“That kid is too weak, I can kill him in one shot!”

“Big brother you’re crazy!”

Tu Long saw this and was busy persuading.

“That man is Lin Ran’s, if we go and grab it, I’m afraid we’ll be slapped to death by Lin Ran in an instant!”

“I know!”

There was an icy coldness in Tu Dao’s eyes.

“So I’m waiting, when Lin Ran is entangled or killed by the Seven Sons of the Void, we can make our move, it’s only a minute, by the time he breaks through the entanglement of the Seven Sons of the Void, we’ll already be out of here!”

“But big brother”

Tu Long had some uneasiness in his heart.

However, Tu Dao did not care at all, he raised his hand and stuffed his dragon pearl to Tu Long, and then said.

“No poison, and we we come from humble origins, if we don’t take a chance when can we become the kind of existence that the Sky Wolf King is!”

“Rich and dangerous in the medium term, I have already decided, so you don’t need to say more!”

Said the butcher knife, he had already taken out his dagger.

“Wait, I’ll go by myself! You just wait here for a minute and go straight inside the ruins!”

“Big brother!”

There was reluctance in Tu Long’s eyes.

“You’ll have to grow up after all, if I succeed, we’ll meet up within the ruins, if I fail, you must survive!”

“Big brother!”

Tu Long’s eyes instantly turned red, but Tu Dao pushed him into the crowd at the back with one hand, himself carrying his dagger and already feeling his way over to Super Flame-flame.

For at this moment, Lin Ran had already been entangled by the Seven Sons of the Void.

The Seven Sons of the Void seemed to have no intention of sneaking up on him, as all seven of them were fighting around Lin Ran.

It could be said that it was seven people surrounding one.

But even so, they could only manage to fight Lin Ran head on.

Once one of them got careless and was killed by Lin Ran, all that awaited them would be their demise.

Lin Ran wasn't really prepared to kill anyone, because killing wasn't the most important thing at this point, the most important thing was to stall for time.

Everyone who got the dragon pearl had to wait at least a minute before they could enter the relic.

So he was waiting, at least to let Huo Yan enter the relic first before he could think of a way to get Wang Yifeng in as well.

In this ring, everyone who participated could not enter the small world unless they got to the end, and this was the problem he had sensed as soon as he came up.

“Bang!”

After one collision, Lin Ran was directly entangled by the long whip of one of the Sons of Emptiness.

There was a faint flash of lightning on this long whip, making it impossible for Lin Ran to break free for a while.

“Strike with all your might!”

The leader of the Sons of the Void shouted as soon as he saw the leader.

The seven of them rushed at Lin Ran with all their might.

And at this moment, the dagger in the hand of the long-awaited Slaughterer flashed and killed directly towards Huo Yan.

But at that moment, a white glow had already lit up on Firebrand's body,? It was obvious that his time was about to run out for a minute.

“Hand over the dragon pearl! Or die!”

There was an icy coldness in Tu Dao's eyes, and in the blink of an eye, he was already less than ten metres away from Huo Yan.

Huo Yan was startled, his strength was simply not a match for this Tu Dao in front of him.

“Hand it over or not!”

The fierce aura in Tu Dao's eyes intensified, but just at the moment he was about to rush in front of Huo Yan.

Lin Ran, who was surrounded by the Seven Sons of the Void, however, exploded in an instant, directly shattering the long whip that was tied to him.

In the next moment, a cold flash instantly reached the butcher's knife.

“What the hell!”

Butcher Blade subconsciously raised his hand to block it, but then he only heard a “click” as his entire mobile phone was instantly cut off in tandem and directly thrown away.

“Lin Ran!”

Butcher Knife instantly saw Lin Ran staring at him with a cold glint in his eyes.

“It’s over!”

At this moment? There was despair in his heart, even though he had been extremely careful, he had still failed in the face of absolute strength.

“Big brother!”

From afar, Tu Long’s eyes went red as he watched.

“Go back!”

Tu Dao shouted at Tu Long.

However, Tu Long turned around and rushed towards Lin Ran and knelt down with a thud.

“Please don’t kill my big brother!”

Lin Ran looked at Tu Long with bemusement in his eyes.

The next moment, with a wave of his palm, the broken tip of the dagger instantly flew backwards towards Tu Long and instantly crashed into him.

“Bang!”

The dagger hit Tu Dao’s chest heavily, and the latter instantly spurted out a mouthful of blood, before flying straight towards Tu Long.

Seeing this scene, there was wild joy in Tu Long’s eyes as he kowtowed to Lin Ran one after another, busily shouting.

“Many thanks! Thank you!”

“If there is a next time, I will kill him!”

There was an icy coldness in Lin Ran’s eyes as he turned his head and continued to tangle with the Seven Sons of the Void.

However, he did notice that Tu Long, however, seemed to have made up his mind about something with a grit of his teeth, and immediately ran towards Wang Yifeng.

“Eh?”

Lin Ran’s eyes were cold and he was just about to make his move when he saw it.

Tu Long fished out a dragon pearl from his own arms and threw it towards Wang Yifeng.

“Here you go! We brothers don’t owe you anything!”

Wang Yifeng was stunned and was busy catching the bead, feeling somewhat baffled.

Instead, Tu Long had already pulled Tu Dao, who was badly injured, and ran to the side, no longer participating in the battle and concentrating on helping Tu Dao to heal his wounds.

“Are you stupid!”

Tu Dao looked at Tu Long, with despair in his eyes.

“Brother! You’re the only family I have left, we’re not going to the Lost City Ruins, we’re going back to Willow City!”

Lin Ran looked at the two, and his calm heart couldn’t help but stir.

In a place like the Fey Demon Domain, there was actually such a deep kinship, at this moment he couldn’t help but think of his own friends, relatives, family and loved ones.

Chapter 1376

“Weng!”

Just as Lin Ran turned around and continued to fight with the Seven Sons of the Void, there was a tremor at the back and Fireyan had been wrapped in a white light, his entire body instantly disappearing from the spot.

At the same time, at the place where the other cultivators were fighting, a dozen or so rays of light also rose up into the sky, these people were all the same as Fire Yan, who had obtained the Dragon Pearl from the beginning due to better luck.

Although Fire Yan’s was given to him by Lin Ran, they all took about the same amount of time, and the first person to hold the dragon pearl for a minute since the start of the great battle had already been born.

“Kid, fat master I can go first!”

Wang Yifeng took the Dragon Master that Tu Long had thrown to him, with a smile on his face.

“Kung Congratulations!”

Wolf Ba looked at Wang Yifei and laughed awkwardly, at this moment he could not wait to rush straight out of the ring.

Damn it! His own strength was not bad, and he had wanted to make an effort to grab a dragon pearl in the second match, but who knew that he had been brought up by Lin Ran and the others by mistake.

Now, Flame-Yan and Wang Yifeng both had dragon pearls, but he was the only one who was still locked up, not to mention the dragon pearls, and his strength was still locked up, and his life could be lost at any moment.

“Weng!”

As he spoke, a white light also began to emerge from Wang Yi’s body.

At the same time, among the people fighting, white lights began to light up one after another, and it was obvious that these people had been holding the Dragon Balls for almost a minute.

“Brother Fatty! Help me, I don’t want to die! I don’t want to die! I can be a cow and a horse for you, take me with you!”

Wolf Ba was completely panicked, and was busy pulling Wang Yifeng’s coat and begging bitterly.

“Get lost! How can Master Fatty save you? It says one up here, nine hundred and ninety-nine people have no way to enter the small world, otherwise you think Master Fatty I would be willing to cool off in this place for half a day!”

Wang Yifeng said.

“But Master Fatty we don’t have any deep hatred, don’t you think so, just save me, just treat me as a fart for what happened last night and let me go!”

Wolf Ba begged bitterly.

Wang Yifeng looked at him and couldn’t help but feel amused.

This guy was such a bully last night, but he turned out to be like this in one night, and to be honest this time, pulling him down was really an accident, but when you think about it, this guy deserved his comeuppance.

His strength was locked up by Ranzi, and after being in this expert square for so long, this punishment was about right.

At that moment, Wang Yifeng laughed and said.

“This way, Master Fatty I’ll show you a way to live, see!”

Wang Yifei pointed at Lin Ran in front of him and laughed.

“You go beg him! He has a good heart, maybe he’ll really give you an extra dragon pearl after he kills the Seven Sons of the Void later!”

“Huh?”

Wolf Ba simply wanted to cry when he heard that.

“Will it work?”

Wolf Ba had a bitter look on his face.

“Do you still have a choice?”

Wang Yifei, however, laughed.

“What do you mean?”

Wolf Ba did not understand.

Wang Yifei, however, pointed to the Heavenly Wolf King outside as well as the Heavenly Crocodile King and their men, including the Void Seven Sons and others who were currently engaged in battle with Lin Ran.

“Look! These last four people, apart from the three of us, have a you! That alone makes the Sky Wolf King and the others likely to suspect that you’re one of us!”

“Secondly, you’ve been standing with us since you came up, and you were even here after the Son of the Void made his move on Lin Ran, so it’s even more likely that they’ll think you’re one of us!”

“To sum up, you’ve probably been identified as one of Ran Zi’s people by the Sky Wolf King and the others now, so even if we let you go, they won’t necessarily want you when you go back! Understand?”

“I

Wolf Ba was instantly dumbfounded.

Indeed, what Wang Yifeng said was really so true.

And in the end, he, Wolf Ba, was a small person who had no say at all in front of the Heavenly Wolf King and the Heavenly Crocodile King.

Instead of listening to your explanations, they might as well just stand and shoot to death.

“Alright brother! I can only help you so far!”

Wang Yifeng patted Wolf Ba’s shoulder, a very righteous enough swallow.

Wolf Ba, however, was a little teary-eyed, who did he invite to mess with, how did he become Lin Ran’s man.

That guy’s client, the King of the Realm, wanted to catch him, so would he still have a chance to live in Willow City or even in the Southern Border, or possibly in the Other Demon Realm?

Thinking of this, Wolf Ba completely panicked, and he busily looked outside to the Sky Wolf King and the others and shouted.

“I’m not one of Lin Ran’s people, I’m a hostage, I’m not in cahoots with them!”

Wolf Ba shouted extremely hard, however Wang Yifeng was watching quietly and didn’t say anything, at this moment he was already wrapped in white light soon he would enter the ruins.

“What’s that guy shouting?”

The Sky Wolf King quickly asked with a frown attracted by Wolf Ba.

“My lord, that kid seems to be saying that he is not Lin Ran’s man!”

“Hm?”

The Sky Wolf King frowned slightly as he listened, what the fuck time is it that this guy still has time to shout this.

“We’ll go in later and just kill him!”

The Sky Wolf King was too lazy to bother and made a chopping motion at his men, who nodded their heads.

And the Wolf Bastard within the formation froze at the sight of this scene.

“Well? I wasn’t wrong, was I!”

Wang Yi laughed beside him again, the light had already enveloped him all by now, and soon he would also enter within the relic.

“You”

Wolf Ba looked at Wang Yifeng with despair in his eyes.

“Weng!”

In the next moment, the light instantly enveloped Wang Yifeng, and following that, his entire person had disappeared in the same place.

Seeing this scene, Wolf Ba simply wanted to die.

Before, at least there was still Wang Yifei and Huo Yan around, and Lin Ran was able to protect himself in the process in order to protect them.

But now that both of them had entered the ruins, he was the only one left here, and he could clearly feel that Lin Ran’s gaze had not looked at this place since Wang Yifeng had also entered the ruins, clearly having given up on himself.

“I don’t want to die! I, Wolf Ba, haven’t lived long enough!”

Wolf Ba looked at the cultivators that had already started to surge around him, and his heart was incomparably anxious.

Following that, he actually shouted at Lin Ran, who was fighting the Seven Sons of the Void, regardless of the situation.

“Lin Ran save me! I’m one of yours! You can’t just leave me alone! You have to be responsible for me!”

“Poof!”

Lin Ran shook the Void Seventh Son back with a slap, hearing Wolf Ba’s words he simply wanted to slap him to death with fear, what do you mean you’re my man? Fuck I’m not interested in men.

“Lin Ran”

“You shut up!”

Lin Ran finally couldn’t look away and scolded at Wolf Ba.

“Any more bullshit and I’ll kill you right now!”

“Fine I won’t say anything, so don’t forget about me, I came up here with you guys!”

Wolf Ba was busy squeezing out a smile and said awkwardly.

Lin Ran didn't bother to pay him any mind, and turned his head to look at the Sukong Seven Sons, with an icy coldness in his eyes.

Wang Yifeng and Huoyan had both entered the relic, and now that there were less than fifty Dragon Pearls left on the field, it was time for him to leave.

Otherwise the further back he went the more intense the fight would become, which would only affect his arrangements.

Lin Ran turned his head to look at the Seven Sons of the Void and his eyes instantly went icy cold, having tangled for so long, it was time to end it.

Chapter 1377

"Take him! If we delay any longer, we won't be able to enter the ruins either!"

The youth leading the Seven Sons of the Void spoke up and scolded.

"Yes!"

The remaining six nodded their heads at the same time.

A cold aura also erupted in the eyes of the seven.

As if they had discussed it, they were also prepared to go all out when Lin Ran decided to go all out.

Only, the mindset was all determined, but this strength gap could not be bridged by having a mindset.

With a shake of the Frost Condensation Sword in his hand, Lin Ran's long sword was like a dragon heading straight for one of the seven sons.

From the very beginning, Lin Ran had identified this person.

This was not only because this person had a dragon pearl in his hand, but also because of one reason: his weapon had been destroyed by Lin Ran.

The Seven Sons of the Void were trying to maintain that there would always be seven of them fighting, so the dragon pearl they had been given from the beginning was constantly switching, back and forth between the seven of them, in case someone would enter the relic at the end of the minute and thus lose the seven-man formation.

And by now, the dragon pearl was once again back in the hands of this same man.

"The long whip has been destroyed by me, I'll see what other means you have to resist!"

Lin Ran's eyes were cold, and the Condensing Frost Sword had already reached the other person's body.

"Old Six be careful!"

The seven sons all saw that Lin Ran was targeting Old Six, and at this moment, each one of them was busy stepping forward to fend it off, they had also guessed that Lin Ran was most likely targeting Old Six.

After all, they all saw that Old Six's long whip had been destroyed, this long whip was Old Six's best weapon, but at this moment it was only possible to use the long sword instead.

However,? It was only when they came over to block it that they realized just how strong Lin Ran's strength was when he exploded at full power.

"Bang Bang!"

Two tremors, and in an instant the longsword had picked apart the weapons of the other three companions who had rushed in, and in an instant the Condensing Frost Sword was directly in front of Old Six.

"Roll!"

Old Six was startled and subconsciously roared in anger as the longsword in his hand rushed to pick at the Condensed Frost Sword.

However, whether it was his strength or his mastery of sword techniques, this Old Six was clearly no match for Lin Ran.

He saw the Frost Condensing Sword make a strange upward movement, instantly sending Old Six's longsword flying away.

Following this, the Condensing Frost Sword instantly rested on Old Six's neck, while a ripple of space fluctuated behind him, and Lin Ran had instantly appeared next to him.

"What?"

Seeing this scene, several other members of the Seven Sons of the Void froze in their tracks.

They hadn't even seen clearly how Lin Ran had disappeared, and in an instant he had already arrived behind Old Six.

"Stop!"

The leader of the Seven Sons of the Void was busy speaking and shouting, the seven of them were like brothers in arms, and this mission to enter within the ruins would also require seven people to join forces, if one of them died here at this moment, it would be a disaster for them,? The sea of people had not entered the ruins and one had already died, later on even if the others entered the ruins, it would be useless.

"Let him go!"

The leader of the Sons of the Void looked at Lin Ran, his voice icy cold.

"Let him go? You say you'll let him go?"

Lin Ran laughed.

"I've said before that the moment you decide to help the Sky Wolf King, I'll let you get nothing out of this trip to the ruins! And now is just the beginning!"

There was an icy coldness in Lin Ran's eyes, he never knew what mercy was for his enemies, he only knew that if you want to deal with me, then be prepared to be cleaned up by me.

With a flash of coldness in his hand, the Frost Condensation Sword instantly lit up with a burst of coldness and slashed towards Old Six's neck.

However, at that moment, suddenly, several white lights appeared out of thin air from Old Six's body.

The white lights seemed like a single arm, quickly wrapping around Lin Ran, and for a moment, they prevented him from even moving.

"Don't do anything yet!"

Old Six shouted busily at the other few companions beside him.

The other Sons of the Void saw this and one by one, the weapons in their hands were instantly raised again and they came towards Lin Ran to kill him.

"Kid! You didn't expect that, did you think that if you destroyed my long whip, I wouldn't be able to trap you?"

Old Six looked at Lin Ran with a cold smile in his eyes.

Lin Ran looked at him but also laughed.

"I can destroy your long whip, where did you get the confidence that these few rays of light would be able to stop me!"

"Humph! You're still pretending at the end of your life, old man, this is an intrinsic tendon lock, each white light originates from the true qi origin within my dantian, the true qi origin shackle of an early stage Dan Creation Sutra powerhouse, you think you can diagnose and break free in a short time?"

Old Six sneered.

Lin Ran smiled with blandness on his face and didn't explain, his eyes instantly went icy cold as a terrifying aura instantly erupted from his body.

"Hm?"

When he felt this aura, Old Six's face instantly changed.

Even the faces of the other few companions who had come to attack from afar also changed drastically in an instant.

The surrounding cultivators who were fighting at this moment, their faces turned terrified, and they immediately stopped and rushed towards the farthest distance, fearing that the aura would explode and affect them later.

But even at this moment, even when they were hiding at the far end, there was still fear in their eyes as they looked at Lin Ran, because the aura was too strong.

It was strong enough to rival the Heavenly Wolf King and the Heavenly Crocodile King.

"This fellow really has some strength!"

The Heavenly Crocodile King's eyes narrowed slightly as he muttered to himself.

“Hmph! Is that a bit?”

The Sky Wolf King smiled but coldly snorted.

Thinking back to the time when Lin Ran had just arrived at the Fey Demon Domain, the Heavenly Wolf King had brought a group of his men to sneak attack and ultimately failed to kill Lin Ran, and by now, Lin Ran’s strength had long since been beyond what any of their Fey Domain kings could fight against.

“Weng!”

At this moment, above the ring, a terrifying aura instantly erupted, centering on Lin Ran and exploding instantly in all directions.

At this moment, the entire ring fell silent.

Wolf Ba hid in a corner, with panic in his eyes.

He couldn’t help but think back to his provocation of Lin Ran last night. If Lin Ran had really taken up the fight then, I was afraid that he would have lost sight of the sun this morning.

And at that moment, the terrifying power instantly swept through the four directions, with Old Six, who bore the brunt of it, instantly being submerged in the terrifying energy.

Farther away, the Sixth Son of the Void was also instantly engulfed by the energy, his body flying backwards towards the rear.

“Bang!”

When the huge energy collided with the formation only, this was blocked back by the formation, which then quickly dissipated.

A few moments later, the surrounding crowd was able to open their eyes, but when they saw the tragic state of the entire square, they were all staggered.

The oldest six of the Sons of the Void had not even been left with dregs, with only one dragon clan being held in Lin Ran’s hand.

The remaining six of the Seven Sons of the Void had all fallen to the ground by now, and although their lives were not in danger, they had already been severely injured.

“With just you guys still daring to work with the Sky Wolf King, do you think I put you guys in my eyes?”

Lin Ran had disdain in his eyes as he turned around and walked away.

However, after taking two steps, he suddenly stopped and turned his head towards the Sons of the Void’s boss and said in a cold voice.

“Give me what’s in your arms if you don’t want to die, or you’ll try!”

“You!”

There was panic in the boss’s eyes, and although there was reluctance in his heart, he eventually pressed down a dagger in his arms and did not fling it out.

Chapter 1378

“Lin Ran! Lin Ran, I’m your man, you can’t leave me behind!”

Seeing Lin Ran standing still, obviously ready to leave the place and enter the ruins, Wolf Ba immediately panicked.

Looking at Wolf Ba, Lin Ran was suddenly helpless as well.

Just now, he didn’t know what Wang Yifeng had said to this guy, and now that this Ga Hou saw himself, he kept saying that he was one of his own, damn it, he wasn’t gay.

“Lin Ran saved my life, I have no way back, you pull me up, even if you let me go now, the Sky Wolf King will not let me go, take me away! Take me away!”

Wolf Ba begged bitterly.

Lin Ran really heard his ears hurt, so he had no choice but to throw him the dragon pearl he had obtained from Old Six.

“Many thanks Lin Ran! Thanks a lot! You’ll be my big brother from now on, I, Wolf Ba, will follow you from now on!”

Wolf Ba was so excited that he almost didn’t cry out.

Lin Ran then unsealed the seal on his body, allowing him to regain his strength.

Only after that did Lin Ran walk towards the remaining Six Sons of the Void at the back.

“Lin Ran what else do you want!”

The boss looked at Lin Ran with anger in his eyes.

“Didn’t you see it all, I’m short of a Dragon Pearl!”

Lin Ran’s expression was bland.

“Will you give me one yourselves, or will you wait for me to do it and kill and get the goods yourselves?”

Lin Ran just looked at the six men, not making a move either just watching.

As expected, the boss soon couldn’t take it anymore, and with a grit of his teeth, he instantly threw his own dragon pearl to Lin Ran.

“You’re tough enough!”

“Each other!”

Lin Ran laughed, then turned towards Wolf Bastard as the surrounding crowd looked on in surprise.

Soon, white light descended on the two, and Lin Ran turned his head to look at the Sky Wolf King and Sky Crocodile King beyond the formation, waving his hand as if to say goodbye.

“Useless things!”

The Sky Wolf King smashed the sculpture next to him to pieces with a single punch.

The Celestial Crocodile King was even more gnashing his teeth, as Lin Ran, who was about to get his hands on him, had actually run away in front of them again.

“You think you can escape, this ruin is a dead end, we’ll catch you sooner or later!”

The Sky Wolf King had madness in his eyes.

At this moment, in the ring, Lin Ran and Wolf Ba had been wrapped in white light and left the ring in an instant.

After the two men left, the entire fight in the ring became noticeably more stagnant.

Especially with the participation of the Seven Sons of the Void, no it had now become the Six Sons of the Void, the fight could be said to have become even more bitter.

The Six Sons of the Void soon obtained a Dragon Pearl each, while the remaining Dragon Pearls were even less.

“Lord Sky Wolf King, our Void Sect has gone in with our best efforts, I hope you will not forget your words, we are waiting for you within the ruins!”

The boss looked at the Sky Wolf King, and as he finished speaking the white light had emerged from the six of them, following which they disappeared into the ring here.

“Humph! Useless things!”

There was an icy coldness in the Sky Wolf King’s eyes, if he wasn’t concerned about the face of the Void Ancestor, how could the Sky Wolf King put the words of these six people in his eyes.

But he couldn’t help it, the Void Ancestor was after all also a force made by Lord Iso-Devil, and had also made a mark in the early years of the Breaking War, although some things were not as good as before now, but at least the relationship with Lord Iso-Devil was still there.

So this was what the Sky Wolf King was most afraid of.

“Weng!”

Finally, as the last Dragonball possessor above the ring left, the entire first round of selection in the ring finally came to an end.

“Go!”

Seeing this, the Heavenly Wolf King snorted coldly and instantly led his men onto the ring, while the Heavenly Crocodile King also followed almost simultaneously.

As for their men, they had only brought some of their inner circle with them, while the rest had all stayed outside.

Pursuing Lin Ran, and within such a ruin, it was the strength of individuals that counted, not the number of people.

Only once the two of them went up, the other cultivators around them were all dumbfounded, and none of them actually stood still and followed them.

The formation that originally required 999 people to activate, at this moment was an emergency with only a few dozen people standing on it.

The other cultivators, you look at me and I look at you and none of them are willing to go up.

Just kidding, to compete with the king of the realm for the dragon pearl, unless they did not want to live.

But they didn't want to go up, but the two Heavenly Wolf Kings were not equal either.

Sure enough after just a few moments, the Sky Wolf King and the Sky Crocodile King were the ones who ordered people up, one by one in reverse, pointing at the crowd of cultivators below.

"You! Get up here! And you!"

"You you!"

The two men were like naming generals, and those who were named dared not disobey, but could only go up to the ring with their heads held high.

And just as their side was busy activating the ring once again, a white and dull world had appeared out of thin air with Lin Ran and Wolf Ba.

"A relic! A relic! I've finally entered, this is the legendary relic, I, Wolf Ba, have finally entered!"

Looking at the white and cloudy world in front of him, Wolf Ba was excited.

Lin Ran glanced at him indifferently, not bothering to pay him any mind, and charged straight towards the direction the sensory stone sensed.

He could sense that Wang Yifeng and Fireflame were not far ahead.

"Hey hey! Boss, wait for me!"

Seeing Lin Ran leave himself behind and walk forward, Wolf Ba was instantly anxious and hurriedly chased after him.

"Don't call me boss,? I'm not your boss!"

Lin Ran turned his head and said indifferently, Wolf Ba calling himself boss really made him a bit awkward.

"Don't bother, didn't we both say yes before? I'll be following you from now on!"

Wolf Ba laughed.

"Besides, there's nowhere I can go if I don't follow you, the Sky Wolf King has now decided that I'm your man, so I can't even if I want not to follow you!"

"That's your own business!"

Lin Ran said indifferently.

“No, no boss,? You can’t just leave me behind like this! Besides, this is the first time you’ve come to this ruin, you need a guide too!”

Wolf Ba busied himself with a smile.

“Isn’t this strike your first time here as well?”

Lin Ran turned his head to look at Wolf Ba, feeling somewhat baffled.

“Right! But I’m different from you one, I’ve lived in Liu Cheng for a good few decades before!”

Wolf Ba laughed.

“Boss! Don’t push back, let me Wolf Ba follow you, let’s not talk about anything else, just this second level right now, you surely don’t know right, I can tell you right now first!”

“Cut the crap and speak directly!”

Lin Ran said without good grace.

“Good!”

Wolf Ba came to life when he saw that there was a show, and was busy laughing.

“The second level of this Lost City Ruins is said to be called the Yellow Spring Waterfall, which is a waterfall that is as high as the sky, and to successfully pass this level, one must climb up the stone steps in the waterfall, and within the waterfall there is the Yellow Spring Inner River, which appears at certain intervals, and if one does not go up within a certain time, they will be swept away by the Yellow Spring Inner River, and will suffer and die inside the Yellow Spring Inner River! ”

“Of course there are some powerful people who have come out of the Yellow Spring Inner River alive before, but such people are simply very few and far between!”

“Yellow Spring Falls?”

Lin Ran frowned at his words, this place sounded extremely dangerous, and he wondered what had happened to Wang Yifeng and Huoyan now.

Chapter 1379

Along the way, Lin Ran and Wolf Ba talked a lot.

They also learnt a lot of secret secrets that they did not know before.

Wolf Ba told Lin Ran that from the intelligence and information he had obtained over the years in Willow City.

This lost city ruin was probably the previous Void Sect’s old ancestor, Void Master’s chambers.

This Void Master used to be an old ancestor of the Void Sect as well, only to later retreat into hiding here.

The route they were on now was actually the path of testing set up by the Void Master to recruit disciples, which was why there were so many tests along the way.

As for why Master Void had made his residence here, it seemed that it was also to avoid disputes.

After all, this is the southernmost point of the southern border, where no one can enter at all due to the poisonous fog that envelops it all year round.

And back then, the Void Master could be said to be quite accomplished in the Void Way, so he came here and built his own chambers.

It's just a pity that the even came and the disciples hadn't received it before the Battle of the Breaking Out broke out, and eventually even the Void Master died here, except for this recruiting disciple thing which was passed down.

"Boss, it is said that above this yellow group waterfall is the bridge to the sky, the bridge to the sky leads to a total of two directions, one is the Void Master's chambers, which is where we are going, while the other is the place where the legend says it is the Void Master's cultivation, unfortunately that place has fallen and is covered by poisonous fog all year round!"

"Although the poisonous fog here is not as strong as the one outside, but if you can't break out of the fog within one incense stick you will end up dying, so after all this time, no one dares to go there anymore!"

Wolf Ba was getting more and more energetic as he spoke.

Lin Ran was also dumbfounded as he listened, if it wasn't for Wolf Ba telling him this, he would still be in the dark about this Misty City ruins until now.

"Hey hey! Boss we're here!"

Suddenly Wolf Ba pointed ahead and shouted, and at that moment, in front of the two of them, there was already a rumbling sound of water, while a huge waterfall appeared in front of everyone.

This waterfall was a hundred metres high, as if it was going straight up into the sky.

Coupled with the fact that the place was surrounded by mist, as well as the water vapour from the waterfall, the whole waterfall seemed to stand here out of thin air, surrounded by a white mist, with no end in sight.

When he looked up, he saw a suspended bridge at the top of the waterfall, and some people had already boarded it, but they all ran towards the right side without exception.

On the left side of the bridge, no one had gone over, as if they had been ignored by the crowd.

Lin Ran looked at the Yellow Spring Waterfall in front of him, there were still many people around at this time, some had just arrived, while others had been there for a long time.

All of these people were just as shocked by this Yellow Spring Waterfall in front of them as they were by themselves.

"Boss! Look, that's the Yellow Spring Inner River!"

Suddenly, Wolf Ba next to him spoke up.

Lin Ran turned his head to look, only to see that below the waterfall, in a huge lake, there was a dark yellow something that was rapidly coalescing.

It was as if it was sulphuric acid, and everywhere it appeared, a thick water vapour began to rise.

The yellow stuff soon finished coalescing, and then it actually flowed backwards up towards the waterfall.

Outside, the water from the waterfall was tilting down, while inside, this yellow stream was rocking upwards.

But soon, Lin Ran noticed that there were many raised stone pillars on the waterfall, one section of which was embedded in the rock wall behind the waterfall and one section poking out of the water, forming a ladder that snaked up to the bridge at the top of the waterfall.

And at that moment, there were quite a few people climbing up these stone pillars.

“Those people must ascend before the Yellow Spring Waterfall reaches them, or else they will either jump down from the height or be torn into the dark stream by the Yellow Spring Waterfall!”

A wave of emotion ran through Wolf Ba’s mind.

“Is that what happened to those people?”

Lin Ran suddenly turned his head and pointed at the pool of water below the waterfall on one side, where more people were actually sitting on their knees at the moment, clearly cultivating, seemingly with no intention of climbing the Yellow Spring Waterfall at all.

“These are people who are not confident in their own strength, and this Yellow Spring Waterfall is filled with very abundant true qi, so many people are afraid that they won’t be able to go up this Yellow Spring Waterfall, so they cultivate here and wait until they get out before the chance is over!”

Wolf Ba laughed.

Lin Ran smiled in a daze.

However, just as he was about to rush towards the location of Wang Yi’s life in his senses.

Suddenly his gaze was instead drawn to a figure on the Yellow Spring Waterfall.

That figure was taking advantage of the fact that the Yellow Spring Inner River had just gone up and was struggling to climb on the stone pillars outside the waterfall, climbing towards the top.

But his strength was limited, and although he was the first to set off, he soon fell behind, and this person was no other than Huo Yan

“How did he go climbing on his own!”

Lin Ran was puzzled in his heart, he could sense that High King One Life was nearby and did not seem to have gone to climb the Yellow Spring Waterfall, but Fire Yan was so weak, how could he have run off to climb it alone.

Suddenly, just as Lin Ran was thinking in his mind, another Yellow Spring Waterfall actually appeared in the pool of water below the waterfall and started flowing upwards right towards the top.

“Not good!”

Lin Ran’s face changed drastically.

The speed of that inner yellow spring river was too fast, and at this speed, Flame-flame was afraid that he would only be able to climb halfway before the inner yellow spring river caught up with him.

And at that point, either he would jump straight down from the height, or the only thing waiting for him would be to be ripped in by the Yellow Spring Inner River.

And with Huo Yan’s strength, once he was really torn into the Yellow Spring River, I was afraid that there would be no chance of survival at all.

“Ranzi, go and save him, he is being coerced!”

Suddenly, Wang Yifeng’s alarming cry came from the side, while an obese figure with three or four people ran right towards Lin Ran.

Lin Ran’s eyes narrowed slightly, and only then did he see clearly that it wasn’t three or four people running over together at all, but Wang Yifeng running over with these people.

These people were all hanging onto Wang Yifeng, clearly blocking him.

Moreover, at this moment, Wang Yifeng’s body clearly had many wounds, so obviously he hadn’t been beaten up much before?

“Get lost!”

There was anger in Lin Ran’s eyes, and with a flip of his palm, the Frost Condensation Sword instantly cut out, killing three of the four men pulling Wang Yifeng on the spot, while only one man turned around and tried to run, but his leg was cut off by Lin Ran’s sword!

“Damn it! If you want to run, come back with me! Don’t be afraid, Master Fatty, I’ll avenge you!”

Wolf Ba, who was a self-made man, stepped forward and dragged the man back.

“Damn it! These bastard calves, they actually want to drag Master Fatty to be a human ladder, how fucking fucked up!”

Wang Yifeng was so angry that he felt relieved when he went forward and slashed the other man into mush.

“What the hell is going on?”

Lin Ran didn’t dare to delay and today turned his head to look ahead at the Yellow Spring Waterfall, which at this moment was not far from the Fire Flame.

Wang Yifeng didn’t dare to talk nonsense and immediately told the story, with anxiety in his eyes.

Only when Lin Ran heard this did he react, it turned out that the person who had just dragged Wang Yifeng was also in cahoots with the person who was forcing Flame-Yan, and they wanted to use the two people as a human ladder.

Chapter 1380

It turned out that after Wang Yifeng and Huoyan came in one after another, they came to this Yellow Spring Waterfall, and the two originally wanted to wait for Lin Ran to come in before making their plans.

However, soon the others who came in were the ones who had their minds set on the two.

Here, everyone could already use their storage items.

So many of those who came in had released the servants and other people they had with them.

And the name of the man who had captured Wang Yifeng and Huoyan was Zhang Dong!

This Zhang Dong was also a ruthless person, and after entering this relic, he directly pulled out a full five strong people at the peak of the Creation Realm.

And here, it was Flame-Yan and Wang Yifeng who were the least powerful, so they had their eyes on the two.

They intended to let the two take the human ladder and send themselves up, only why they didn't go up all at once was to keep a back-up, in case Fire Yan failed, they still had a Wang Yifeng who could be used.

As for what is a human ladder, it is actually very simple.

The Yellow Spring River is underneath the waterfall, so every time it passes a stone pillar that someone is climbing it will suck the person above it in.

And if there is a person padding underneath themselves at that moment, then the Yellow Spring Inner River can only suck away the person below, and the person standing on top is in no danger.

So every time you pass through here, someone ladder appears.

Some cultivators carry their own manned ladders in their own storage space, while some cultivators are the ones who will set their eyes on others, like Zhang Dong this time.

"Ranzi, do something quickly, if it's late the Fire Flame will really return to its place!"

Wang Yifeng was busy urging, at this moment the Yellow Spring Inner River above was already less than ten metres away from the Fire Flame and would soon be at his feet.

And at this moment, Lin Ran also noticed that behind the Fire Flame, three figures had obviously approached, one of them leading the way was none other than the man Wang Yifeng said, Zhang Dong.

"Come in!"

Lin Ran's eyes were icy cold as he waved his hand at Wang Yifeng, instantly taking him into the small world.

"Boss there's still me!"

Wolf Ba was instantly anxious, how could he not see that Lin Ran was preparing to go on his own, it would naturally be most beautiful if he could hitch a ride.

“Don’t resist!”

Lin Ran spoke with a slight frown, and then he also saw Wolf Bastard take in the small world.

Following this, Lin Ran’s paws lashed out and he charged straight towards the Yellow Spring Waterfall, while at the same time the Frost Condensation Sword in his hand shook and had already surfaced.

“Hm?”

At this moment, on top of the Yellow Spring Waterfall, Zhang Dong also noticed Lin Ran who was rushing over.

There was madness in his eyes.

“What about Brother Dong?”

“Yes, Brother Dong, that kid is too strong, we are no match for him!”

The two men beside him were busy asking.

“What are you afraid of?”

There was madness in Zhang Dong’s eyes.

“How strong is that kid, when the Yellow Spring Waterfall arrives later, this Fireflame will have to fall in, then he will definitely be the first to save someone, we just follow behind the Yellow Spring Inner River and go up quickly!”

“Will it work?”

One of the men asked.

“You still can’t trust my words?”

Zhang Dong glared at him with icy cold eyes, instantly scaring him so much that he didn’t dare to keep talking nonsense.

“Go! Prepare to make a move!”

Zhang Dong greeted, and immediately led the two men to the place where Fireflame was.

At this moment, Lin Ran had already rushed to mid-air, and because it was a test, the highest he could fly here was only half the height of the waterfall.

Any further up and he would be forcibly pressed down by the prohibitions here.

At this point, the Yellow Spring Inner River was basically halfway up the waterfall, and was about to suck Flame-Yan and the others in.

But at this moment, Zhang Dong slapped Huo Yan to the ground with a fierce slap and stood directly on top of him with his two men.

It was this momentary change that the Yellow Spring Inner River had ripped Flame-Yan down, while Zhang Dong and his three men were unharmed at all and continued climbing towards the top.

“Seeking death!”

Lin Ran’s eyes were ice-cold, and the glow of the Frost Condensation Sword in his hand suddenly surged, and at once a sword mane swung out at the waist straight at Zhang Dong’s trio.

These three people had already angered Lin Ran by using the flaming flames as a human ladder, so he naturally wouldn’t have the slightest reservation in his strikes.

“Brother Dong!”

“Brother Dong help!”

Sensing the terrifying might carried by this surge of sword mace, all three of Zhang Dong’s faces changed dramatically.

“Roll!”

Zhang Dong was the first to react, and immediately slapped his palm, actually pressing it directly on the shoulders of his two men, followed by a violent leap up towards the stone pillar above.

“Bang!”

Almost at the same time, the huge sword mane had already arrived, instantly cutting down on top of the Yellow Spring Waterfall.

At this moment, the entire Yellow Spring Waterfall was directly cut off at the waist, and even the water flow was cut off for a few seconds, and as for Zhang Dong’s two men, there were not even corpses left in an instant.

As for Zhang Dong, it was with a last-minute leap that he managed to avoid this strike from Lin Ran, and at this moment, he was already not far from the Tongtian Bridge above the waterfall.

“I’ll kill you sooner or later!”

A cold aura flashed in Lin Ran’s eyes, and at this moment, he did not care to chase after Zhang Dong, and was too busy flinging the Condensing Frost Sword towards the Yellow Spring Inner River.

“Condensation!”

Lin Ran shouted fiercely, and instantly a single ice crystal on the Condensing Frost Sword instantly bloomed, freezing the entire Yellow Spring Inner River the moment it came into contact with it.

“Come out!”

Lin Ran shouted, and at the same time, his palm trembled, and the ice crystal wrapped in fire was instantly ripped out, and almost at the same time, a series of shattering sounds were heard.

The ice crystals on the Yellow Spring River shattered and once again turned into a yellow Yellow Spring River sweeping towards the waterfall.

Firebrand fell out of mid-air and landed heavily in the pool of water at the bottom of the lake.

He was also a cultivator after all,? A dive of this magnitude was not dangerous enough for him.

“Boss!”

Huo Yan ran back gasping for breath, his entire body was covered in wounds at this point, and since Lin Ran had saved him as soon as possible just now, if he delayed a swing, I was afraid that he would have to be torn to pieces by the Yellow Spring Inner River.

“All right! Go into the small world, that Zhang Dong will settle the score with him later!”

Lin Ran said.

“Hm!”

Flame-Yan nodded without any nonsense and immediately entered the Pillow Book’s small world.

After he had collected the Flame-Yan, Lin Ran felt that there were two astounding auras that had appeared out of thin air behind him.

Clearly, the Heavenly Wolf King and the Heavenly Crocodile King had also entered the ruins, and he had indeed delayed here for too long.

At that moment, Lin Ran did not stop, and took advantage of the appearance of another Yellow Spring Inner River, and rushed directly towards the Yellow Spring Waterfall.

A moment later, when Lin Ran was about to rush onto the Heavenly Bridge, he saw that Zhang Dong above him had already successfully climbed onto the Heavenly Bridge and was making a victorious pose at himself, seemingly saying that you just can’t kill Laozi, how about that?

“Bang!”

Lin Ran then also jumped onto the Tongtian Bridge, looking at Zhang Dong running towards the right side with his figure no longer visible, Lin Ran had an icy coldness in his eyes.

And after a moment of contemplation, he finally chose to dash towards the left side.

Thinking that just now the pillow book had told him to go to the left side, the triangular electric snake eggs inside his body, reacted significantly more to the left side.

“If I die, I die!”

Lin Ran gritted his teeth, and regardless of what Wolf Ba had said earlier, that this left side was obscured by the mist, he immediately rushed towards the left side.

Almost at the same time, the Heavenly Wolf King and the Heavenly Crocodile King had already rushed to the Yellow Spring Waterfall, but they were too far away to see that Lin Ran had gone towards the left side instead of the right.
