

Wonder Doctor

Wonder Doctor Chapter 1741

The lightning eels outside were trying to save the red lightning eels by blasting the rock layer where he was hiding with their beast thunder day and night.

At first the rock layer was able to resist, but gradually the rock layer was eroded by the lightning eels' beast thunder, which was transmitted into the space and absorbed by the red lightning eels in the space.

The red lightning eels were so strong and so fast that they were a nightmare for the badly wounded Falling Sword.

He was unable to recover from his injuries, and with the beastly thunder around him, he was eventually consumed by these eels.

The scorch on his clothes was the result of the red slow attack.

The real Falling Sword had no choice but to leave these records before he died, hoping that someone with a destiny would pass the news back to the Sword Pavilion in the future to avenge the attack by his enemies.

To show his sincerity, he had even left behind a sword technique that he had learned all his life as a reward, as well as a recommendation order, which allowed him to become a disciple of the Sword Pavilion directly.

When Lin Ran saw this, he couldn't help but be shocked in his heart, he didn't expect that a real Elder of the Interval would end up being ground alive by these flash eels!

However, Lin Ran did not catch much surprise, after all, when he had just scraped open this space, the speed and power of that lightning bolt was very strong.

At that time, the Falling Sword Mortal was heavily injured and had to defend himself against the sneak attack of these lightning eels, so it was indeed a bit difficult for people.

“Sword Technique! And the Recommendation Order!”

Lin Ran suddenly remembered these two items and whirled around to look towards the remains of the Falling Sword Mortal.

Sure enough, he found a book and a Recommendation Order pressed under the thick dust on the side of the Falling Sword Mortal!

Lin Ran immediately picked it up and saw that it was an ancient book with yellowing paper and two big words written on the cover, “Sword Scripture!”

The other recommendation order was unimpressive, a very puffy jade carving, with the word “Sword” written in the middle of the order, obviously the unique logo of the Sword Pavilion.

Lin Ran put the recommendation order away, and then opened the sword scripture to check it out. He had almost reached a bottleneck in his sword dao foundation, and had to find a suitable sword method to improve his sword dao strength in the future.

This sword scripture was a sword technique that just happened to come to his door, so he naturally wanted to take a look at it.

However,? After just a few moments of looking through it, Lin Ran could not help but frown slightly.

This was because he found that all the sword techniques recorded in this sword scripture were actually all soft swords, that is, sword techniques that were suitable for overcoming strength with softness.

“Ai!”

Lin Ran sighed helplessly, while closing the sword scripture up with a hint of disappointment in his eyes.

In his heart, he knew very well that since he had come into contact with the Frost Condensation Sword, the kind of sword technique he liked was the kind of sword technique that was wide open, fast, accurate and fierce, and he had never liked the way of using softness to subdue strength.

This was not to say that it was not good to use softness to subdue rigidity, but Lin Ran’s personality was like this.

Lin Ran naturally couldn’t practice a dao he didn’t like just to improve his strength, if he did so it would be almost impossible to achieve success in the sword dao in the future!

“Forget it, let’s put it away first!”

Lin Ran thought about it and didn’t want to bother with it for the time being, he could take it and sell it in the future if he didn’t like it, but if he did, then I was afraid that he would have to make a trip to this Sword Pavilion in the future.

After all, if he had taken something from someone else, he would have to do something for them, otherwise it would be against Lin Ran’s original intention.

After putting the items away, Lin Ran then continued to look at the Fallen Sword Master.

According to the records left behind by the Falling Sword Master, the one who had consumed him to death was probably a Flash Eel King.

This was because only the Flash Eel King was red in colour.

“There’s no gap in this space, so many years have passed, I wonder if that Flash Eel King has died!”

Lin Ran thought in his mind, but he also knew that he was afraid that the likelihood of this Flash Eel King dying was very high.

After all, in this separate space, the Lightning Eel King had no food, so he couldn’t have been relying on the lightning eels outside to feed him the beast thunder!

“But those lightning eels outside are quite persistent, they’ve still been blasting this space for so many years, they’re really loyal!”

Lin Ran laughed helplessly, and immediately prepared to make a move to bury this Falling Sword Mortal.

This space wasn't too big, and he wouldn't be in the mood to cultivate if he kept leaving a corpse lying around.

As soon as he said he would, Lin Ran quickly wrapped the fallen sword real person's entire body in his robes, and then raised his hand to prepare to press his raised arm back, otherwise he wouldn't be able to get it out later.

However, the moment he touched the knuckles of the Falling Sword's finger, a sudden electric current actually passed directly to Lin Ran along the Falling Sword's fingertips.

"Holy shit!"

The instantaneous electric shock struck Lin Ran's entire body, and he hurriedly retracted his palm.

But then he saw that the corpse of the Falling Sword Mortal was actually collapsing rapidly, eventually turning into a trail of pieces.

The entirety of the robe that had originally wrapped around him fell onto the stone platform.

But what Lin Ran didn't expect was that the robe instantly appeared as a large piece of scorch as soon as it fell, and then it burst into flames with a "boom".

"What's going on?"

Lin Ran was so shocked that he pulled his robe up, and then a red light swept past before his eyes, followed by a lightning bolt that struck him directly on the head.

This bolt of lightning struck him solidly, instantly splitting Lin Ran's hair on end, and his whole body almost fell to the ground with a jolt.

Lin Ran turned around and retreated, then turned his head to see a small red snake-like beast floating in mid-air, its red eyes staring at him with a deadly stare.

"King Flash Eel!"

Upon seeing this crimson flash eel, Lin Ran's eyes immediately went straight.

"Damn it! You're actually not dead!"

Lin Ran's heart was shocked beyond belief, and at the same time, he understood who was actually sneaking up on him when he had just scraped this space open.

Who else could it be if not this Flash Eel King.

I was afraid that when he was about to enter, the Flashing Eel King had hidden within the robes of the Falling Sword Master, and that was why he had not seen it.

When he had to clean up the remains of the Falling Sword, this thing knew that he couldn't hide anymore, and only then did it emerge.

"What a way to step through iron and find it, it seems that the heavens are helping me!"

Lin Ran laughed, seeing this Lightning Eel King he knew he was on to something with this lightning quenching body!

“Silky!”

When the Lightning Eel King saw how excited Lin Ran was, he seemed to be enraged, and with a flash of his body, he charged towards Lin Ran, while the lightning all over his body was filled with lightning, and lightning as thick as a finger shot out instantly, heading straight for Lin Ran.

Lin Ran did not panic when he saw the long, but smiled.

“Yes, yes! Come and attack me! Ravage me as much as you like, the crazier the better!”

Lin Ran laughed as he turned around and sat directly on top of the stone platform, following which he ran through the Thunder Spectrum Dharma and actually began to cultivate directly.

Wonder Doctor Chapter 1742

“Silky!”

When the Lightning Eel King saw that Lin Ran was ignoring him, he could not help but feel insulted, his whole body flickered with lightning and he even started a fire.

Lin Ran saw this but the corners of his mouth smiled even wider, what he wanted was for the Lightning Eel King to become angry, how would the other party attack himself without getting angry, how could he cultivate the thunder spectrum without attacking himself.

“Bang Bang!”

In the blink of an eye, both of the Lightning Eel King’s lightning bolts had landed on Lin Ran’s body, instantly sending a tremor through his entire body.

He didn’t say a word and let the current flow through his body, and then he frantically ran his body’s true qi in accordance with the method of quenching the body as recorded in the Thunder Manual, and spread the lightning from the Lightning Eel King throughout his body as much as possible.

In the Thunder Manual, apart from the Thunderbolt and Divine Thunder, there were also the most basic body tempering techniques.

At this moment, Lin Ran was using this very method of quenching his body.

The body tempering method mentioned here was completely different from the body tempering method used by cultivators in the Immortal World at the time of their initiation.

In order to cultivate in the Immortal World, a cultivator must initially pass through the Body Tempering Realm.

This Body Tempering Realm is to enable your body to withstand the infusion of true qi, and at the same time be able to comprehend heaven and earth and drive down true qi, only then can you attract true qi into your body and thus cultivate.

This quenching realm is only the most basic change to the practitioner's physical quality, and is completely different from the quenching of the body for entering the Dao.

For example, now that Lin Ran was already at the Heavenly Mansion realm, it was impossible to go back to the Body Tempering realm; what he had experienced on Earth could already be counted as body tempering.

However, now that he wanted to cultivate the lightning article, he would have to quench his body again for the lightning article.

In fact, it was not just the Lightning Dao, but also the Fire and Flame Dao, the Wind Dao, etc. If one wanted to make a mark in these dao, one would definitely need to temper the body.

It was because only after quenching the body could one better perceive the essence of these dao.

Even in the Sword Dao, body tempering is required.

It was just that the quenching of the sword dao was so nebulous that not many people possessed such a quenching method at all.

I am afraid that only a huge sword dao sect like the Sword Pavilion has a perfected sword dao body tempering method.

According to rumours, the Sword Dao Body Tempering that required the help of a former great power with the will of the Sword Dao.

The quencher needs to gradually perceive the essence of the sword dao under the powerful sword dao intent of the former great masters, so as to quench himself as a sharp sword, with the sword sheathing its sharpness, which is the foundation of the sword dao body.

It is true that this is a bit far-fetched now, but Lin Ran belongs to the masses in the Sword Dao, as he does not have the Sword Dao Body Tempering Method either.

But compared to the Sword Dao, the Dao of Lightning, Fire and Inflammation, which were coloured by attributes, were much easier to quench the body, such as Beast Thunder, Heavenly Fire and so on, all of which were traceable!

Lin Ran sat on top of the stone platform, constantly being bombarded by the lightning released by the Lightning Eel King, and apart from his whole body trembling from time to time, there was actually no reaction.

The last cultivator had been tortured to death by it, but this kid in front of him was actually indifferent to his attacks!

It didn't know that if the real Falling Sword hadn't been seriously injured and his strength was not even 10% of his full strength, trying to kill him would have been like squashing an ant.

If he hadn't died at the hands of the Eel King, he would not have left his last words, looking for someone to avenge his death.

He didn't care to talk to such a weak beast, and he didn't want to appear narrow-minded, so he didn't leave any words to kill the Eel King.

However, Lin Ran knew that at that time, he was afraid that he had already hated the Eel King to the bone.

"Silky!"

Seeing that Lin Ran was indifferent to his attack, the Lightning Eel King became furious and instantly blasted out a lightning bolt, while it actually let out a low hissing sound.

The hissing sound was as piercing as a sound wave, and it shook Lin Ran's eyes open.

When Lin Ran looked, he saw that at the same time as the Lightning Eel King was hissing, the rock walls around him were lit up with a white glow, which instantly surged towards the stone pillar underneath his seat.

The white light instantly surged towards the stone pillar underneath his seat, followed by a direct blast on his own body.

"Holy shit!"

Lin Ran couldn't help but curse out in an instant, at this moment he only felt countless currents surging through his body, if he wasn't strong enough, I'm afraid he would have been struck to death by these lightning bolts in an instant!

"So this is how the Falling Sword Mortal died!"

Lin Ran's heart completely understood, and he immediately stretched out a middle finger at the Lightning Eel King, before directly closing his eyes and not paying any attention to him.

Seeing that he had actually been insulted by Lin Ran at this point, the Lightning Eel King became even more furious and kept on hissing and thundering, and as its hissing sounded, the entire space was black for a while and white for a while.

A stream of thunder and lightning rushed directly towards Lin Ran along the rock wall, apparently the lightning eels outside had heard the summons of the Lightning Eel King and were all attacking the space rock wall at the same time.

As Lin Ran felt the streams of lightning rushing through his body, a small smile appeared on the corner of his mouth.

This was the effect he wanted.

The lightning did not stop, there were too many lightning eels out there, one batch passed and then another, constantly blasting towards Lin Ran under the hissing of the Lightning Eel King.

And Lin Ran was completely immersed in his cultivation at this time.

He could clearly feel that his body was gradually changing under the blasts of these beast thunder, every strand of muscle and every drop of blood seemed to be gradually carrying the power of lightning.

He could feel the muscles in his arms all starting to tighten up, the feeling of being full of power.

But he knew that this was only the beginning, just a hair's breadth away from the limit of his endurance.

One hour, two hours, three hours.

One day, two days, ten days!

Lin Ran sat cross-legged on this high platform only for a month.

It was only when he felt the lightning surging around him growing weaker and weaker that he opened his eyes.

“Boom!”

The moment his eyes opened, there was actually a thunderous flash in Lin Ran's eyes, and his entire body was pulsating with lightning arcs as if he was carrying his own lightning.

Lin Ran jumped off the stone platform, feeling that his body was filled with power, which was the result of the thunder and lightning tempering his body.

His body had changed drastically in the past month, especially his flesh and blood.

However, he knew that he had only gone through less than half of the thunderbolt quenching process, as the real quenching process would not even spare the bones and muscles.

And he had only proceeded to the flesh and blood, which could barely be considered as the beginning of the thunder body.

But there was nothing he could do about it, turning his head to look at the Flash Eel King on the side, only to see this fellow lying like a dead dog, his eyes closed on the side, his eyes looking at Lin Ran in a dazed manner.

A whole month of attacks had exhausted it too, but looking at Lin Ran who was fine in the slightest, the anger in its eyes intensified.

“Alright, I'll stop playing with you for now, let's rest for a day, I'll come back for you in a day!”

Lin Ran laughed disdainfully at the Flashing Eel King, followed by turning around and walking towards the exit.

Wonder Doctor Chapter 1743

Quickly arriving at the exit, Lin Ran was ready to go out, but at that moment, he noticed a flash of red light behind him, and that the King of Flashing Eels was following him.

After being trapped here for hundreds of years, this guy was probably going crazy, so when he saw that Lin Ran could get out, he wouldn't miss it.

“Want to go? You might as well stay here!”

Lin Ran smiled lightly, followed by his divine sense immediately surging out, the invisible force of his divine sense instantly pressing the Flash Eel King back out.

“See you later!”

Lin Ran smiled blandly, following which he directly dodged and left the huge space, then backhandedly sealed up the exit again.

To be on the safe side, he then added another layer of seals to this exit before leaving the place along the tunnel.

If this Flash Eel King had only been trapped here by himself, he might have let him go after quenching his body.

But this guy had taken advantage of the danger and killed the Sword Faller, and it was thanks to the Sword Faller that he was able to have the opportunity he had today, so he couldn't let the Eel King go for reasons of reason.

Without further thought, Lin Ran quickly left the mine and returned to the loft where he was resting.

Having not returned for over a month, Lin Ran could not help but feel a little better as he sat on his own bed at this moment.

The harvest he had made in the past month in particular had made him feel very happy, for after staying in the mine for so long he had finally seen the hope of lightning.

Sitting cross-legged on his bed, Lin Ran finally took out the Thunder Dao pearl once again.

“After working hard for over a month, it's time to test the effects!”

There was a smile on the corner of Lin Ran's mouth, and with a swirl of his mind followed by his divine sense, he entered this Thunder Dao Pearl.

Inside the dao bead, it was still the same island, and when Lin Ran appeared, Lei had already revealed his form, obviously waiting for him.

“Kid, it's only been a few months, why are you here to steal thunder again?”

Lei turned his head to look at Lin Ran, the sledgehammer on his back had already been taken out, obviously fearing that this guy was here to steal thunder again.

“Don't don't, I'm not interested in the divine thunder in this dao bead of yours, I'm here to break through!”

Lin Ran laughed.

“Breaking through? It's only been three months, what kind of progress can you make, better hurry up and get out, don't say that I'm a bully again later when you can't even carry a single move!”

Ray said disdainfully.

“I'm not afraid, so what are you afraid of? No nonsense strike!”

Lin Ran didn't bother with nonsense, he was anxious to test the results of his month.

“Good boy, since that's the case then I won't be polite!”

Lei smiled blandly at his words, following which he smashed a hammer directly onto the ground in front of him.

“Bang!”

There was a loud sound, and instantly white light black lightning instantly shot out straight at Lin Ran.

At this moment, Lin Ran’s eyes were slightly narrowed as he looked at this attack with a deadly gaze, and there was actually a faint stirring in his heart.

That was the stirring of lightning, although his body had not yet been completely transformed by lightning, he was still considered to have a thunder body, and at this moment, this black lightning in front of him had vaguely triggered the aura in his body, which really took him by surprise.

“Is this the suppression of divine lightning? It’s really powerful!”

Lin Ran said to himself in his heart.

As soon as this black divine lightning came out, the lightning within his own body trembled, obviously because it was being suppressed, this was the suppression of the quality of the lightning, one was a divine lightning and the other was a beast lightning, the difference between the two was really somewhat large.

However, Lin Ran did not care about this, after all, he had just quenched his body in the lightning line, this could not be helped, now he just wanted to see how much power he could have to fight back in front of this second level.

“Stop it for me!”

Lin Ran roared, his entire body’s aura skyrocketing, and there were even faint flashes of lightning on his body.

In the next moment, his entire person to the second level charged towards that white light black divine thunder.

“Boom!”

The two collided, and instantly a huge force directly blasted Lin Ran back several steps, while the sweat and hair on his body stood back up.

But at the same time, he also blocked this attack from Lei.

“Hm?”

From afar, Lei could not help but frown slightly when he saw this scene, he still remembered that the last time Lin Ran and himself had fought all night, they were only able to just barely block this strike of theirs.

But now, only three or four months had passed, and this kid was actually able to easily block this strike of his.

“This rate of progress, I’m afraid that even the disciples of those great clans are no better than this!”

Lei thought in his mind, and a glint of appreciation flashed in his eyes.

“Now it’s my turn!”

Lin Ran looked at Lei and revealed a smile, then his palm clenched into a fist followed and he blasted out directly towards Lei.

“Rumble!”

A fist blast was made, and a fist wind instantly coalesced out, this fist wind stared as if it was a real person’s fist, and there was even a flicker of thunder on it that was extraordinary in its power.

In fact, don’t look at it as just a fist wind, but it was Lin Ran’s strongest strike nowadays, as it incorporated his own body of thunder and lightning, a strike of sword dao perception!

“Boom!”

The fist wind went straight for Lei, and where it passed, a sound of breaking air actually faintly erupted, unusually piercing.

“Come!”

Seeing the extraordinary power of this punch, Lei also roared out and swirled to meet it.

He very tacitly did not use a sledgehammer either, but merely met it with his fist.

However, just as he was about to collide with this wind of Lin Ran’s fist, suddenly this wind of Lin Ran’s fist suddenly disappeared.

“Eh?”

Lei looked startled, followed by a shudder in his heart, and the next moment he fiercely took a few steps back while rushing in front of him with a fist blast.

“Bang!”

A fist blast should have fallen short, but who knew that just as the wind of his fist blasted out, the wind of Lin Ran’s fist appeared out of nowhere in front of him.

The two instantly collided, and the tremendous explosive force actually shook Lei Du back several steps.

“Good boy!”

As the smoke cleared, Lei looked at Lin Ran with a light in his eyes.

“This punch of yours isn’t very powerful, but it’s so bizarre and vaguely contains the sword dao, it seems you haven’t been lazy these past three months!”

Lei looked at Lin Ran and laughed.

“Slacking off? Guarding the supreme treasure do you think it’s possible for me to be lazy?”

Lin Ran laughed.

“Not bad! Great progress!”

Lei laughed.

Lin Ran, however, waved his hand and said.

“Don’t talk about these useless things, tell me if I won that blow just now!”

After all, as long as he passed the three levels and helped Lei to complete one thing, then he would have his hands on the thunder daddy’s legacy.

Seeing how impatient Lin Ran was, Lei couldn’t help but laugh.

“Sloppy, it can only be considered a tie, it’s still a bit short of winning me!”

“What? A tie?”

Lin Ran was a little speechless at his words, his strike was already considered his strongest move, but he didn’t expect it to be only a tie.

“Kid! To be able to tie with me at the second level is already enough for you to be proud of yourself, but to win against me is almost!”

Lei said, following two gestures from Lin Ran and laughing.

“How do you find? Come again?”

“No!”

Lin Ran refused outright without even thinking about it.

“I’m going out to rest first, I’m just here to try the effect today, when I come in next time I can definitely beat you!”

After saying that, Lin Ran directly jumped in towards the lake to the side.

“You!”

Seeing Lin Ran leave so simply when he said he would, Lei couldn’t help but be speechless.

You can still win yourself next time you come, do you think you’re really that easy to mess with?

“Hmph! Brat, it’s only the second level, so what if you win me, I’ll abuse you on the third level!”

Lei laughed, followed by a flash of his body also disappeared on this lonely island.

Wonder Doctor Chapter 1744

As his divine sense returned to his body, Lin Ran whirled around and lay down on his bed, thinking about the scene of his fight with Lei tonight, his heart filled with anticipation.

Now he was only at the beginning of his thunder body, but he was already able to fight back and forth with Lei, if he waited until his thunder body was completely cultivated, he was confident that he would definitely be able to defeat Lei at this second level.

“I just don’t know what exactly this third level is yet, and what exactly is this thing that Lei said he would do for him!”

Lin Ran thought in his mind, but he could only think about it, there were still some things that he would not know until the time came.

The next morning Lin Ran was ready to enter the mine and continue his thunder dao quenching.

After a night's rest, the lightning eels must have almost recovered.

However, just as he left the pavilion, Lin Ran was greeted by a familiar figure.

"Tianhu?"

Seeing Tian Hu walking across the room with his head lowered, Lin Ran couldn't help but frown slightly.

Although Tian Hu had his head lowered, Lin Ran could clearly feel that this kid's entire body was depressed and his expression was abnormal!

"Tianhu!"

Lin Ran opened his mouth and called out to him.

Tianhu was stunned and looked up, and when he saw that it was Lin Ran, he couldn't help but blush, only to return to normal afterwards.

"What's wrong with you?"

Lin Ran frowned and asked, only to see that at this moment Tian Hu's two black eyes were very much in his eyes, and his eyes were actually a little red and swollen, seemingly as if he had cried.

"No .... Nothing ah!"

Tianhu squeezed out an ugly smile and said.

"It's really alright?"

Lin Ran asked with a frown, where did Tian Hu look like he was fine.

"It's really fine!"

Tian Hu said, seeing Lin Ran's slight frown, he was busy explaining.

"Maybe I'm too tired from digging lately, I'll set off first!"

With that, Tian Hu turned around and left the area.

Lin Ran watched him without saying anything, just gazing at him as he left, with doubt between his brows.

He himself had only been out for a month, how come Tianhu looked like a different person, and he obviously looked like he had something on his mind.

Seeing that Tianhu had already walked away, Lin Ran then helplessly walked towards the mine pit as well.

However, when he felt the entrance to the pit, he saw Han Seven Years preparing to enter the pit with his men to dig.

Naturally, the crowd also saw him and nodded at Lin Ran.

Only Qiu Mo looked at Lin Ran without saying a word, with a sinister resentment deep in his eyes.

“Little Fatty, come over here I have something to see you!”

Lin Ran spoke.

“Okay brother!”

Han Seventh Year sniffed and busily greeted the crowd, before he busily ran over.

“What’s wrong brother?”

When he reached close, Han Seventh Year was busy asking.

“What’s going on with Tianhu lately? I see that he doesn’t look right!”

Lin Ran asked.

“I don’t know, this kid has been in a very bad mood lately, very irritable, probably overworked, I’ll go back and let him rest for two days!”

Tianhu said, he had seen all of these people and knew something about Tianhu’s recent changes.

“Mm!”

Lin Ran nodded at his words, and then asked.

“What type of Baki Mountain Sword Technique are you cultivating?”

“Ah? Why are you asking this all of a sudden?”

Han Seventh Year was stunned, not expecting Lin Ran to ask this question, but he thought about it and spoke anyway.

“It’s sort of on the soft side of overcoming strength!”

“In the past, I was always bullied by them and didn’t dare to fight back sometimes even if I could block their attacks, I didn’t dare because it would only invite more anger!”

“That’s why the sword techniques I cultivated were all more on the softer side!”

Han Seven Years scratched his head and looked a little embarrassed.

Lin Ran’s eyes, however, flashed with a hint of joy at his words and said.

“You come in with me!”

“Huh?”

Han Seventh Year was stunned,? But at this moment, Lin Ran had already turned around and entered the mine pit,? He had no choice but to follow.

As soon as he entered the pit, Lin Ran waved his hand and set up a formation at the entrance.

“Brother, what’s wrong? So secretive!”

Han Seventh Year said with some confusion.

Lin Ran, however, turned his head to look at him and said.

“I have a chance for you, but if you want to obtain this chance, you must go out in the future!”

Lin Ran didn’t bother with nonsense and got straight to the point.

“Where to?”

Han Seventh Year hurriedly asked.

“Have you heard of the Sword Pavilion as a power?”

Lin Ran asked.

“Sword Pavilion?”

Han Seventh Year frowned slightly at his words and said a moment later.

“I think I’ve heard of it, it’s said to be a very powerful sect that’s far away from us here in Baki City!”

“Brother you’re not going to ask me to go to this Sword Pavilion, are you!”

Han Seven Years was a little bewildered, wondering what chance Lin Ran was going to give himself, and actually involved the Sword Pavilion.

“That’s right!”

Lin Ran nodded his head.

“This chance you want to cultivate, you’ll have to make a trip to the Sword Pavilion, of course! There is even a chance that you can worship in the Sword Pavilion, it all depends on your own destiny!”

Saying this Lin Ran had already taken out the Sword Scripture from the Fallen Sword Reality, along with the piece of recommendation order!

“This is the sword scripture and the recommendation order! Also take this letter with you!”

Lin Ran took out another letter and handed it to Han Seven Years.

“Brother, why am I a little confused about these things .....”

Looking at the three items in his hand, Han Seventh Year felt a bit overwhelmed by his reaction.

“This letter contains a detailed account of what happened, you can practice the sword scripture for the time being, and when you have the chance to take a trip to the Sword Pavilion in the future, you might even be able to join them, it will be a great opportunity then!”

Lin Ran said.

Han Qiqi was still a bit confused, but the Sword Sutra he was holding in his hand was a very old technique, and the yellowing of the paper alone showed that it was extraordinary.

Immediately, Han opened it and looked at it twice, and his eyes immediately went straight.

“Brother, this gong method is more powerful than any of the Eight Qi Mountains I’m afraid, such a valuable thing I .....”

“This sword sutra is not for me!”

Lin Ran did not bother to say more and said directly.

“But this is too .....”

Han Seventh Year still had some hesitation, but Lin Ran waved his hand and said.

“No matter, give it to you you take it, as for the sword pavilion matter, when you have time after the strength is strong to go! ”

Lin Ran said.

Although Baki City was very far away from the Sword Pavilion, as long as the towns were slightly larger there were actually teleportation arrays, so it wouldn’t waste much time to make the journey.

Plus, the Sword Pavilion was bound to be located in a big city, so as long as they were careful on the way, it wouldn’t hurt!

“Brother! You are my brother from now on, as long as I have something to say in the future, I will definitely do whatever I can!”

Han said.

But in his heart, he was a bit helpless, could he really help Lin Ran in the future? With Lin Ran’s strength and talent, I was afraid that I would only be able to look up to him in my lifetime.

Afterwards, Lin Ran gave a few more words of explanation to Han Qixian and then let him leave.

After arranging for the matter of the Falling Sword Mortal, Lin Ran then entered the tunnel, and later arrived at this space for cultivation.

As soon as he entered the space, Lin Ran instantly saw that the red-coloured Shining Eel King was staring at himself with burning eyes, clearly filled with anger and hostility towards Lin Ran’s arrival again.

Wonder Doctor Chapter 1745

“It’s only been one night and you’re in such a hurry?”

Lin Ran looked at the Flashing Eel King with bemusement in his eyes, and with a backhand, he sealed the exit.

“Silky!”

Lin Ran’s attitude made the Lightning Eel King furious beyond measure, and let out a series of hisses, followed by a tremor throughout his body, and a lightning bolt came straight at Lin Ran.

If it were in normal times, Lin Ran would have dodged it by dodging, but now he didn’t want to waste a single moment.

With an arrow step, he rushed towards the thunderbolt, and Lin Ran grabbed it directly into his hand, and at the same time, he flipped over and sat on it.

“Silky!”

Seeing Lin Ran’s action, the Flash Eel King was enraged, ignoring its own attack and actually sitting on the same spot where the Falling Sword Mortal was before, this was simply a provocation to itself in its opinion.

The Flashing Eel King’s entire body flashed red, and the next moment Lin Ran saw that the entire rock wall of the space actually lit up again, obviously those Flashing Eels outside had started attacking again at its greeting.

“Come on!”

There was a frenzy in Lin Ran’s eyes, this was the effect he wanted, if those lightning eels outside didn’t attack himself, that was what would give him the biggest headache.

After all, if he wanted to cultivate his thunder body, what he wanted was for these lightning eels to keep attacking.

The lightning blasted towards Lin Ran’s body, with the Lightning Eel King inside and the countless Lightning Eels outside, this inside and outside really made Lin Ran’s cultivation speed very fast.

As Lin Ran sat cross-legged on the stone pillar, he could clearly see that as the lightning continued to flow through his body, every bloodline and muscle in his body was changing.

However, soon Lin Ran saw that these beastly lightning had become less and less effective on his blood veins and muscles, and were instead surging towards his tendons and bones.

“Is it finally time to start tempering the tendons and bones?”

Looking at the countless beast thunder rushing towards his tendons and bones, Lin Ran had a vague sense of anticipation in his eyes.

However, the next moment when the beast thunder really struck his bones, Lin Ran felt a sharp pain in his bones, as if someone was chopping at his bones with a knife, causing him pain.

“Master, the most difficult part of the beast lightning quenching body is the bones, the pain is unbearable, you must persevere!”

Qing Zi was busy speaking at this moment.

“Got it!”

Lin Ran gritted his teeth and returned, what kind of pain had Lin Ran suffered along the way, he had even almost lost his life several times.

Pain? He was confident that he could get through it, he just prayed in his heart that the pain would not be too long.

Time passed day by day, and Lin Ran’s cultivation in this space continued.

He would go out once every other month, but otherwise he stayed in this space the whole time, suffering from the attacks of the Lightning Eel King day and night.

But the effect was remarkable, as Lin Ran could clearly sense that the tendons and bones in his body were being changed little by little.

Time flies like an arrow and the days and months fly by.

After Lin Ran had cultivated in the pit for five months, that is, eight months after Lin Ran had joined Baki Mountain, his muscles and bones had finally been tempered.

The next step was the final step, the tempering of his physique.

The blood, flesh and bones were only two of the external conditions for tempering, while the final physique was to temper Lin Ran's dantian, to completely transform his dantian so that his true qi would carry its own beast thunder, and the whole person would see his true qi surge wildly allied with domineering.

However, Lin Ran because he was resurrected with the help of the Suo Life Pill, so in his body Dantian had long since disappeared, Lin Ran even suffered for this, not enough soon he found that his body seemed different from ordinary cultivation.

In the location of his dantian, there was only a chaotic qi spiral, while his own body was as if it was a dantian.

Sure enough, when the beast thunder really started to temper Lin Ran's dantian, he found that these beast thunder actually surged to his entire body at once.

The Chaos Qi spiral in his Dantian was automatically ignored by the Beast Lightning.

This process, although Lin Ran did not understand, but also did not think much about it, his own Dantian why there is no, in fact, said he himself is not clear, but as long as it does not affect the quenching body cultivation, he does not care.

.....

And just as Lin Ran joined the Eight Qi Mountains for a full eight months and spent a full five months in seclusion in this mine pit.

In the attic where he lived, two figures were lying on the bed with red flushes on their faces that had not yet faded away.

"You're really a natural beauty!"

Wang En wrapped his arms around the person in his arms, with a satisfied look on his face.

Who else could it be but Qiu Mo lying in his arms at this moment?

"You still say that, you've kept me awake all night!"

Qiu Mo pouted, a full five months or so was enough to change a person completely, and the initial resistance of Qiu Mo gradually turned into enjoyment.

“What? I see you’re not enjoying yourself!”

Wang En laughed.

“You’re bad!”

Qiu Mo gave Wang En a punch in the chest before saying.

“But you’ve been getting bolder and bolder lately, this is the first time you’ve spent the night in my room, and you’re not afraid of being seen by others!”

“Afraid of nothing! We’ve already lasted eight months here, another three months and a year’s worth of work will be up, by then we’ll be completely free once we kill Lin Ran!”

Wang En had anticipation in his eyes.

Qiu Mo smiled but was silent for a moment before saying.

“According to your plan, there’s no need for us to have to leave Baki Mountain, as long as we don’t get discovered, this matter is not directly related to us!”

“What? You still can’t let go of Yaki Mountain?”

Wang En smiled at that but laughed.

“It’s not that I can’t let go, think about it yourself, Wanshou Mountain is full of magical beasts, can we fit in when we get there, I feel it’s better to stay at Baki Mountain!”

Qiu Mo said.

“What you say also makes sense!”

Wang En nodded at his words, and then said.

“We’ll see then, if no one suspects us, we’ll stay on Yaki Mountain, and anyway, I’ll have you with me at night, so I can go anywhere I want!”

Said Wang En, starting to be unfaithful again.

“Oops you’re nasty, it’s almost dawn, hurry up and go!”

Qiu Mo was busy urging.

Wang En looked outside, indeed it was almost dawn, and then he said with great reluctance.

“Alright then, I’ll come back for you tomorrow night! Wash up and wait for me!”

“Got it! Hurry up and go!”

Qiu Mo impatiently said.

Looking at Qiu Mo’s pretty face, Wang En left very reluctantly.

However, just after Wang En had left, Qiu Mo’s face instantly changed from a companionable smile to icy cold, and there was even more sinister poison in his eyes.

“Half a year, and three months to go! A full eight months, when Lin Ran is dead, you will be next!”

Qiu Mo spat out these words almost through clenched teeth, at this moment she seemed like a demon, hating to skin and skin the Wang En in front of her as well.

Only she knew that now was not the time to fall out with Wang En.

She was like a poisonous snake hiding in the darkness, always waiting for a chance to strike.

Wonder Doctor Chapter 1746

At this time, in the most prosperous city of the Immortal Emperor Domain, there was a garden that seemed like a paradise.

In a pavilion in the garden, a young man was drinking alone, with bottles of wine piled up around him, as if this young man was an alcoholic.

If Lin Ran were here, he would definitely be able to recognise that this man was none other than the youth from the Luo Ran merchant house that he had met in Beast Hunting City that day, Luo Kuo.

“Duke Luo Kuo, the master has come out of customs! You are invited to come forward!”

Suddenly a clear voice came from afar, causing Luo Lugou’s whole body to tremble as he heard it.

He got up and walked towards the back garden, not caring about the wine jug in his hand.

He crossed the garden path and soon came to a pavilion.

This loft had only two floors, and the first floor was open air, so the owner must have been resting here during the week.

He didn’t even dare to go in, he didn’t even see the shadow of the so-called master, but he still knelt down in front of the loft with a “flutter”.

He was a member of the Luo Ran Trading Firm, so no one would have dared to make him kneel down in normal times.

But at this moment, he was literally kneeling in front of the pavilion, as if he was a subordinate who had done something wrong and was waiting for his master’s punishment.

“What’s wrong with Luo Kuo?”

Just as Luo Kuo knelt down, a clear, crisp woman’s voice came through the attic, while a delicate figure slowly walked over from above the attic.

She stood at the edge of the first floor attic, dressed in a white robe, with a curtain of white veil over her face, which covered her face, but could not block her transcendent aura.

Her whole person stood there, as if she had fallen into the mortal dust of the fairy so that Luo Lue did not dare to look straight at her.

“Sister, I ..... I’ve found ..... I found Lin Ran!”

Luo Lone stammered, yes the woman standing on top of the attic at this time was his sister, only to recognize her.

“What did you say?”

Hearing Luo Lone’s words, the woman instantly emitted a terrifying aura throughout her entire being, pressing down on Luo Lone instantly as if he was being pressed down by a large mountain.

“Where is he? Are you sure you’re not mistaken?”

The woman was busy opening her mouth to ask, and at that moment the palms under her sleeve robe couldn’t help but tighten up.

“Sister ..... Your mighty pressure .....”

Luo Lulu said with a painful face.

The woman saw this and then realized that she had lost her temper somewhat and was busy collecting her aura.

Luo Lone immediately felt a lightness in his body, and then he was busy saying.

“Sister it’s like this .....”

Saying this Luo Lone then told the story of how he had encountered Lin Ran in Beast Hunting City and finally added.

“Sis, when I knew his name was Lin Ran, I had already gone looking for him, I even checked the surrounding area, but in the end, I couldn’t find him, it was as if he had evaporated!”

“Sister, punish me, I was too careless, so many years have passed, I’ve forgotten what you asked me to go to Hunters’ City for!”

Luo Kuo said with a face full of guilt.

He had been an orphan since he was young, and if he hadn’t coincidentally come across this woman in front of him, he would probably have died somewhere else by now.

And for so many years, the other party had only given him one mission, which was to go to Beast Hunt City every five years to look for a man named Lin Ran.

But after so many years, he had gradually forgotten what he went to Beast Hunting City for, so much so that one day when Lin Ran was really standing in front of him, he no longer cared who the other party was.

“You stupid bastard!”

Finally, the woman in the attic only spoke up.

“According to what you said, that Chao Beast Mountain must have already captured him, otherwise with your strength it would be hard to catch up with him!”

“Me!”

Luo Kuo was stunned at the words, yes! He himself was at the Star Realm, while that Lin Ran was clearly only at the Heavenly Mansion Realm, not to mention a few days and months, he could have caught up within an hour.

However, he had searched for Lin Ran for almost a month, but in the end, he still had not found him.

“Sister, so what now!”

Luo Lulu asked.

“What else can we do, immediately inform them to bring the Void Ship over, I want to go to Beast Hunt City myself!”

The woman opened her mouth and scolded.

“Ah? How can you go to the Beast Hunting City yourself?”

Luo Kuo sniffed and said busily.

“Cut the crap! If anything happens to him, you won’t have to call me sister anymore!”

The woman said angrily, clearly on the verge of a rage.

“Sister!”

Hearing the woman’s words, Luo Lulu’s whole body trembled, knowing that the person in front of him was really angry.

It was the first time he had seen the other party so angry in all the years since he was a child, and he couldn’t help but be a little more curious about this Lin Ran in his heart.

Who was this person, who had actually made his sister, who normally never frowned when she met an Immortal Emperor, so angry.

“Why are you still standing there! Don’t go and arrange it yet!”

The woman spoke up again and scolded.

“Yes! Yes sister I’ll let someone go and make the arrangements!”

Luo Lulu said and got up to make the arrangements.

The woman watched Luo Lulu leave but did not say a word, just standing quietly in the same place.

After a moment she suddenly opened her mouth and said to herself.

“He was found eight months ago, it would take three months to get from here to Beast Hunting City even if the Void Ship made the journey at full power, three months!”

“I hope you didn’t go too far, I hope it’s really you!”

There were mixed emotions in the woman’s eyes, hope and worry, and even more anticipation.

A few moments later, in this bustling Immortal Emperor City, the crowd of people going back and forth on the streets suddenly all stopped in their tracks.

All of them looked up to the sky and saw a huge ship rising into the sky.

The ship was so huge that at first glance it looked as if it were a huge mountain rising into the sky.

At that moment, the crowd could clearly see that on this huge ship was a powerful flag with the word "Lin" written on it.

"It's the Void Ship of the Luo Ran Trading Company, damn it's really grand!"

"Isn't it? The number one merchant bank in the world, is that just a joke?"

"Hey, I've heard that there are a total of three Void Ships of the Luo Ran Trading Firm, but they all fly the flag of the Luo Ran Trading Firm, why is this one flying "Lin"?"

"The void ship with "Lin" on it is said to be the special void ship of Miss Roy, the owner behind the Luo Ran Merchant's firm.

"Really? So you mean it's Miss Roy herself who went out this time?"

"Most likely! I just don't know who the other party is, they actually have such great face to make Miss Roy go out in person!"

The whole Immortal Emperor City was talking about this matter, but not many people really knew the truth, and even fewer knew why Luo Yi had personally left Immortal Emperor City.

Even Song Nuan, Qin Bing and Su Rou, who were in the Immortal Emperor Domain, didn't know why.

It was because Luo had left so suddenly.

Wonder Doctor Chapter 1747

Three months was not a long time, but not a short time either.

Under the non-stop rush of the Void Ship, the Void Ship with "Lin" on it was getting closer and closer to the Beast Hunt City.

"Sister, we have at most five more days to reach the Beast Hunt City!"

Luo Kuo said as he walked over from the side.

A white-clothed and white-veiled Luo Yi nodded at his words, and then said.

"Pass the order down, send a Purple Sea realm guest to rush to the Chao Beast Mountain first, if Lin Ran is really there, directly exterminate the mountain clan!"

"Yes!"

Luo Kuo immediately led the order at his words, a hint of fear flooding his heart and cold sweat breaking out on his forehead.

My goodness, the Purple Sea Realm was someone who could be ranked in the Immortal Emperor City, no one dared to mess with him in the area around the Beast Hunting City just because he was at the Star Realm.

Even if he went to Chao Beast Mountain, he could wipe out the entire mountain clan in an instant, not to mention the Purple Sea Realm, which could wipe out Chao Beast Mountain with a single thought.

However, from Luo's attitude, Luo Qiu could also tell that this Lin Ran must be very important to her, otherwise he wouldn't have made such a big deal about it, and even had to rush to Beast Hunt City himself.

And just as Roy and the others were heading towards Beast Hunt City.

Not far away was the Yaki Mountain mine.

Lin Ran's eyes, which had been tightly closed for a whole month, finally opened at this moment!

"Weng!"

The eyes opened, and instantly two lightning arcs shot out with a mighty sound.

"Silky!"

Not far away in mid-air, when the Lightning Eel King saw Lin Ran's eyes open, he couldn't help but be extremely annoyed, and with a tremor of his entire body a bolt of lightning shot out.

"Hmph!"

A cold smile appeared at the corner of Lin Ran's mouth at this, followed by a slap on the stone pillar he was sitting on and he directly stood up, before dashing forward with an arrow step.

"Bang!"

Lin Ran's body instantly collided with the Lightning Eel King's lightning bolt.

However, the lightning that the latter relied on would directly shatter the moment it touched Lin Ran's body, and then directly dissipate into the surroundings.

"Your lightning is no longer useful to me!"

There was a smile in Lin Ran's eyes, and as his body moved, there were even faint lightning arcs dancing around him, as if he was carrying a source of lightning on his body.

"Silky!"

Seeing that Lin Ran had already reached him with an arrow step, the Lightning Eel King was so frightened that he hurriedly swung his tail to the side and quickly dodged.

"Trying to run!"

Lin Ran could not help but laugh at this, followed by a grab of his palm in the air, lightning arcs filled the surrounding area, followed by Lin Ran's palm actually directly pierced through the void and instantly appeared at the side of the Lightning Eel King.

Seeing this, the Lightning Eel King was shocked and several lightning bolts instantly filled his body, heading straight for Lin Ran's palm.

However, Lin Ran simply ignored it and slapped his palm directly against the Lightning Eel King's thunderbolt.

"Bang Bang!"

The two collided, and in an instant, the Lightning Eel King's lightning was directly smashed by Lin Ran, and in the next moment, Lin Ran's palm violently accelerated, and actually directly grasped the Lightning Eel King firmly into his hand.

"Silky!"

Seeing that he had been captured, the Lightning Eel King panicked and let out a series of urgent hissing sounds.

As these hisses rang out, Lin Ran immediately heard a "thump, thump, thump" sound resonating throughout the space.

Every time the white light rose, the entire space would shake, clearly something was attacking the space frantically from outside.

"Good guy, you're really the King of the Flash Eels, you can still get those Flash Eels outside to save you at this time!"

An icy coldness flashed across Lin Ran's eyes, although he had been cultivating in this space for eight whole months, relying on the Lightning Eel King and those Lightning Eels outside.

However, in the end, it was the light of the Falling Sword Mortal that had allowed him to have such a chance, so from the beginning, Lin Ran had no intention of letting go of this Lightning Eel King.

He had just finished his retreat to test his current strength, but he didn't expect that the king would want to kill him with a fish.

As Lin Ran was thinking, he suddenly heard a loud "bang" and a huge crack appeared in the side of the space where Lin Ran was.

The lightning eels outside were like mad, each one blasting their bodies against the rock wall, actually cracking the entire space open.

"Humph! You should die too!"

Lin Ran's eyes were icy cold as he saw this, and immediately grabbed the palm of the Flashing Eel King and was about to fire.

But at that moment, Lin Ran suddenly felt a lightness in his hand, and the body of the Lightning Eel King that he was holding onto suddenly broke off in the middle.

The tail part that he was holding onto was still there, but the front half of the King's body was directly backed away.

"Broken body?"

Seeing this scene, Lin Ran couldn't help but be taken aback, he hadn't really thought that this Flash Eel King actually had such a place.

"Bang!"

Suddenly, the spatial rock wall on the side had been completely smashed apart by the flash eel outside.

Following this, Lin Ran saw that countless lightning eels outside instantly surged towards the inside, while the entire top of the space had begun to collapse.

It seemed that the space had been damaged, and the rock wall supporting it could no longer withstand the immense pressure and was about to fall with a bang.

At this moment, the distant king of the flash eels was looking at Lin Ran with disdain, as if he was extremely proud of escaping from him.

"Bastard!"

Lin Ran could not help but feel chagrined at the sight of this, this Flash Eel King was really cunning, no wonder it had been able to consume the severely wounded Fallen Sword Mortal to death.

But at this moment, the surrounding area would collapse at any moment, and the speed of the Lightning Eel King was so fast that even if he wanted to kill him, he would not be able to do so for a while.

Just as Lin Ran was considering whether he should leave first, a black light suddenly shot out from his chest, the speed of this black light was simply staggering, almost instantly he had already rushed to the Lightning Eel King.

Before the Eel King could react, he was instantly wrapped up in the black light.

A scroll flew out of Lin Ran's chest, and the black light was wrapped around the King and pulled into the scroll in an instant.

This scroll was exactly the spatial scroll that Zhen Yan had given him. Seeing this scene Lin Ran instantly understood, it was obvious that Li had taken a fancy to this Flash Eel King and used the black light to pull it into the scroll and swallow it.

"Cheap for you kid!"

Lin Ran laughed helplessly, followed by grabbing the scroll and rushing in directly towards his tunnel.

As soon as he entered the tunnel, the next moment there was a "rumbling" sound from above, apparently the space above had completely collapsed.

This layer of rock was already very thin, and after so many years of constant attacks by the flash eels, it had already become as brittle as a piece of paper, and as soon as it started to collapse, the whole space was immediately crushed.

Lin Ran waited inside the tunnel for a few moments until it was completely quiet above him, and only then did he let out a long breath of relief and climbed out towards the outside of the pit.

When he arrived outside the pit a few moments later, he looked out at the setting sun and smelt the fresh air, Lin Ran couldn't help but feel a sense of regret.

He had made a lot of money from this trip to the mine, not only had he completed his Beast Thunder Body, but he had also made complete progress in his sword dao.

Looking at the sunset in the distance, Lin Ran let out a long breath and lamented.

"It's time to leave!"

Wonder Doctor Chapter 1748

It was late at night, and Lin Ran returned to the pavilion alone. He had been in the mine for almost a year, and his sword dao had now made great progress, and his thunder dao had even been refined into a beast thunder body.

Although the quality of the Beast Thunder was not as good as the Heavenly Lightning and Divine Lightning, it was the highest lightning that Lin Ran could withstand nowadays.

In the future, after his strength had progressed, he could also continue to search for Heavenly Lightning to improve himself.

Although he had already decided to leave the mine, Lin Ran was not in a hurry, thinking that there was still a more important thing in his mind that he had to do, and that was the Thunder Dao Pearl.

The last time he had fought with the thunder inside the Thunder Dao pearl, he had only been able to complete his thunder body, and now that he had completed his beast thunder body, Lin Ran was absolutely confident that he could break through the second level of the Thunder Dao pearl.

That night, Lin Ran sat cross-legged on his bed, and then invaded his divine sense into the Thunder Dao Pearl.

It was still the same isolated island, and it was still Lei with the sledgehammer on his back.

Only this time, when Lin Ran did appear, the gaze that Lei regarded him with was a little more radiant.

"The Body of Beastly Thunder, kid it's only been a few months, I didn't think you'd actually practiced it!"

"I told you, come in again and I'll beat you!"

Lin Ran looked at Lei, and there was actually a vague battle intent in his eyes.

"Enough guts, then you come and try!"

Seeing this not only did a hint of battle intent rise in Lei as well, he immediately pulled out the sledgehammer behind him as he looked at Lin Ran and said.

"Kid, let me see what's so extraordinary about this Beast Thunder Body of yours, I won't let it slip!"

"You'd better not let it go!"

Lin Ran laughed, and immediately his whole body's aura filled with thunder arcs shining brightly, clearly mobilising his whole body's power as well.

“Come on then!”

Lei roared, and without further ado, he swung the sledgehammer in his hand towards Lin Ran with a fierce swipe.

The sledgehammer was so powerful that although it did not hit the ground, there was instantly a white light and black thunderclap coming straight towards Lin Ran.

If it had been before, Lin Ran would have panicked because he was too tired to deal with the white light and black divine thunder.

But this time, with his Beast Thunder Body, he did not panic at all.

He only saw his palm lift violently and instantly blasted his fist towards the white light and black divine thunder.

“Bang!”

A loud sound rang out instantly as the two collided, and the white light was obliterated almost instantly, while Lin Ran was also blown backwards several steps by the blow.

Although the white light was extinguished, the black divine lightning was still unhindered and blasted towards Lin Ran’s body.

“Come on!”

Lin Ran’s fighting spirit was so high at this moment that he didn’t dodge at all, and raised his hand to meet the black divine lightning with another punch.

“Kid, that’s a divine thunder!”

Although Lin Ran was a beast thunder body, it was only a beast thunder after all, whereas his own attack was a genuine divine thunder.

From the quality of the lightning alone, it was absolutely impossible for the beast thunder to compete with the divine lightning, as it was simply not on the same level.

However, just as Lei was getting complacent in his mind, the next moment Lin Ran’s fist wind had already blasted at the black divine lightning.

“Rumble!”

The arc of beastly thunder above the fist wind was immediately crushed into pieces due to the gap the instant it collided with this black divine thunder.

“How about that! I told you before, this beast thunder of yours is not ..... at all.”

Lei laughed triumphantly, yet before he could finish his words, his entire body was stunned.

Only to see that although the beast thunder on Lin Ran’s fist wind only obliterated, the next moment there was actually an even stronger beast thunder blasting out from within his fist wind.

The number of these beast thunderstorms was so great that the moment they appeared, it was as if a white torrent had instantly and directly drowned out the black divine thunderstorm.

“This!”

Lei looked stunned, he could feel his black divine thunder still crushing these white beast thunder continuously.

But there were too many of these beast thunderbolts, and as the saying went, two fists could not defeat four hands.

Even if his own divine lightning was powerful enough, it gradually began to resist somewhat in the face of so many beast thunderbolts constantly washing over him.

Sure enough, just as his divine lightning was gradually falling behind, Lin Ran suddenly threw a punch that instantly smashed into the black divine lightning, and a loud “bang” was heard instantly.

The entire divine thunder instantly disappeared and dissipated.

“Good boy, you really impress me!”

Lei not only sighed in admiration when he saw this.

Lin Ran, however, only smiled blandly and said.

“Your black divine lightning is indeed strong, but after all, this divine lightning left behind by this Thunder Djinn, and you shouldn’t be able to fully utilize its strength, which is why I was able to take it!”

“And now, I’m about to break through this second level!”

Lin Ran said with a frenzy in his eyes, ? followed by an arrow step straight towards Lei and charged over.

“If you want to break through, it depends on whether you have the ability to do so!”

Lei laughed and followed with another hammer in the air straight at Lin Ran.

However, this time Lin Ran didn’t care about Lei’s hammer, as he was already in front of Lei as he dodged.

“Give me flying!”

Lin Ran was unceremonious, and when he reached Lei’s face, he instantly threw a punch straight out.

“Kid! Do you really think that this second level of mine is paper thin?”

Lei couldn’t help but laugh at this.

However, Lin Ran was smiling even more broadly than he was.

“Pretty much, I can remember you saying that if I beat you, the second level would be counted as a win for me!”

“The point is, do you stand a chance? Turn around and see?”

Lei laughed confidently, standing still as if he knew in his heart that Lin Ran's punch wouldn't even land on him.

This time, however, he was destined to guess wrong.

Only to see that Lin Ran couldn't help but not turn around to look, instead he just smirked and followed with a punch towards Lei's chest.

"Hm?"

Lei saw this and could not help but frown slightly, although his hammer was dodged by him, but it was impossible for him to land this blow across the mountain, yet at this moment, how could the Lin Ran in front of him still ignore it, it was reasonable that he should have already sensed his attack reaching behind him.

"Not good!"

Suddenly Lei seemed to think of something, but when he was about to dodge it was already too late.

He heard two muffled "bang bang" sounds, followed by Lei's entire face changing.

He saw Lin Ran's fist hit him in the chest, followed by his attack landing directly on Lin's back.

However, Lin Ran had the Beast Thunder Body, which was already enough to resist his move hard, and what made him speechless was that his own blow on Lin Ran's back would indirectly be adding a few points of strength to Lin Ran.

Almost instantly, Lei felt a huge force coming from his chest, and his entire body instantly flew backwards.

"You brat are shameless!"

As he flew backwards, Lei couldn't help but curse out.

Lin Ran, however, stood in place and looked at him and laughed.

"How is that shameless, losing is losing, and you still want to deny it?"

"You!"

Lei was furious and his old face turned red as he said

"Fine! You want to play, right? Then I'll play with you, you've passed the second level, now let's start the third level!"

Before Lin Ran could react, he waved the sledgehammer in his hand and instantly a black divine thunderbolt as thick as his arm shot up towards the sky.

The next moment, the entire island space changed colour, dark clouds rolled over and thunder flashed in a scene of impending doom.

Wonder Doctor Chapter 1749

Lin Ran was standing on the ground at this moment, looking at the dark clouds in the sky mixed with the thunder and lightning that was tumbling around, and he couldn't help but gag.

Although the thunder and lightning above him had not yet fallen, the terrifying pressure brought by the mere appearance of it made his heart tremble, and it felt as if a supreme beast was staring at him in the thunder clouds above the sky at that moment.

"Ray, don't play! Stop it now! It'll kill you!"

Lin Ran was busy shouting, the pressure above the sky was so terrifying that it had even made him feel the threat of death.

"Haha! Kid, are you afraid of this?"

Seeing this, Lei couldn't help but laugh, the overwhelmingly large hammer in his hand was now gathered high above his head, as if he was a thunder god descending into the world.

"Nonsense, is this something that I can resist? If this is the third level of the Thunder God's legacy, I'm afraid that even if Thunder God's own son came here, he wouldn't be able to pass the test!"

Lin Ran cursed angrily, he was really a bit anxious, this third level of the test has not even begun, and Lei has made such a big show, he insisted on not jumping out of the lake until now is already considered to have a great heart.

I'm afraid that if any ordinary person saw this situation at this time, they would be so scared that they would turn around and run away.

"Kid, aren't you crazy? The second level promised me or play dirty, see how I clean you up this third level!"

Ray laughed.

"Shit, we are familiar with each other you can't accuse me if you frame me, who is playing dirty, you said it yourself as long as you win the fight you will be counted as my win!"

Lin Ran said speechlessly.

"And your rules don't say you can't resist the second level's attack hard!"

"Cut the crap and take the move!"

Lei said, not even bothering to talk nonsense to Lin Ran.

He only saw him wave his palm, and instantly the huge hammer in his hand directly induced countless lightning bolts, sweeping towards Lin Ran in an overwhelming manner.

"Holy shit!"

Seeing these lightning bolts, Lin Ran was immediately completely confused and hurriedly ran towards the back.

At this moment, there were thunderbolts everywhere above his head, and they were all black divine thunderbolts, as dense as rain, and they were directly enveloping towards him.

“Thunder! I’m warning you, if you play me to death, you’ll have no more inheritors for this Thunder Dao Pearl!”

Lin Ran shouted busily, as the black divine thunder above his head was already pouring down towards him.

“Bullshit, if I let you die so easily, then what’s the point of being an inheritor, just enjoy it!”

Lei laughed madly.

“Shit! You’re holding a personal grudge!”

Lin Ran couldn’t help but curse.

“I’m just holding a personal grudge!”

Lei didn’t bother to explain and admitted it straight away.

“Holy shit, you have no shame!”

When Lin Ran saw that Lei was actually so shameless, he was also furious.

“What’s a face? I’m a puppet! Enjoy it!”

Lei laughed.

“Cao!”

When he saw how shameless Ray was, Lin Ran was helpless, but what else could he say.

In his mind, he was thinking about how to deal with these divine thunderbolts.

Suddenly, Lin Ran heard the sound of thunder rumbling around him, and before he could react, he felt a pain in his buttocks and turned his head to look.

The black divine lightning had actually struck his buttocks and smoke was already rising from it.

“Holy shit! Are you still a human being, your ass is chopped!”

Lin Ran immediately cursed, but as soon as the words left his mouth, he heard lightning crackling around him like a tidal wave, smashing towards his body.

“Bang, bang, bang!”

Lin Ran was immediately blasted back and forth across the island like a ball of leather by those black divine thunderbolts.

It was unknown whether it was intentional or unintentional, as soon as Lin Ran landed on the isolated island, a divine thunderbolt would instantly explode beneath his feet, sending him flying backwards again.

And just when he was about to stabilise himself again, another divine thunderbolt would explode, which was like kicking him like a ball.

“Bastard, I’ve never seen such a shameless caretaker as you!”

Lin Ran cursed angrily.

However Ray was simply indifferent, where would he care what Lin Ran said, at this moment Yan Ran was just old man himself on the line.

“Bang!”

Another divine lightning blasted at Lin Ran, blowing his entire body straight to the point of flying out.

However, under this blast, Lin Ran’s entire person was instantly stunned.

“That’s not right! How could the might of this divine lightning be so weak?”

Lin Ran’s heart was instantly as if he had discovered a new continent, with both shock and confusion.

According to reason, the divine thunder he had felt before was extremely powerful, especially when it had just appeared in the sky, the power of the divine thunder was so frightening that Lin Ran was staggered.

But at this moment, he was being blasted around by these divine thunderbolts, and apart from some pain on his body and some torn clothes, he hadn’t even hurt his bones.

“You kid tricked me!”

Lin Ran suddenly came to his senses, no wonder Lei wasn’t afraid to play himself to death at all, daring to say that these divine thunderbolts attacking down and those above the sky were completely different things.

He had been afraid for so long, but it turned out that the divine thunder above the sky was just for his own eyes.

“Haha! You’re not too stupid to react now!”

Lei laughed.

“That’s right, these divine thunderbolts can’t kill you at all, but you want to get a taste of these divine thunderbolts sooner or later, because this is the third level of the test!”

“Shit! Say strike how to win!”

Lin Ran asked as he looked at Lei, who at this point hadn’t summoned thunderbolts to blast him earlier, and he was finally able to catch a broad breath.

“Winning? Simple! Under the blast of these divine thunderbolts, come to my side, but whenever you are blown backwards by the divine thunderbolts once, you will lose!”

Lei laughed.

“Shit!”

Lin Ran couldn’t help but curse out when he heard this, rushing under these divine thunderbolts to Lei’s side, how could this be done?

Leaving aside the amount of thunder and lightning around, the power of each of these thunderbolts was not so great as to pose a threat to Lin Ran's life.

However, they all required him to deal with them carefully.

Even if he wasn't careful, it was likely that he would be sent flying backwards in red, and if that was the case, he would simply lose.

"Kid, if you want to inherit the legacy of the Thunder Djinn, you don't just need to be strong enough in your tactics, any powerful cultivator will never just know how to attack, defence is also something everyone must learn!"

Lei looked at Lin Ran and said.

"And you, if I'm correct, what you lack is defence!"

"Me!"

Lin Ran was instantly dumbfounded, yes what he lacked was defence, because from the time he had come into contact with the Xuan Yang Pill Canon, he had never practiced defence at all, even though he possessed the Dao Seed of the Medical Dao, but he had never come into contact with defence either.

It was not even polite to say that Lin Ran's systematic cultivation was still after he joined Baji Mountain, only that unfortunately when he arrived at Baji Mountain he was given small shoes by Wang En, and as a result, he was directly sent to this mine pit before he could even start cultivating.

"Although what you say makes sense, how do you know unless you try! Some say the strongest defence is offense, but others say arching both, so which of the two is correct, today I, Lin Ran, will give it a try!"

Lin Ran said, figuring out the intent of this third level of testing, he would also be able to be more focused.

With this in mind, Lin Ran stopped talking and dashed out towards Lei with a single arrow step.

Wonder Doctor Chapter 1750

"Good boy, then you'll get a taste of it!"

Lei laughed at this, and then he stopped teasing Lin Ran and his face became solemn.

At this moment, there were still thunder clouds rolling above the sky, but the divine thunder inside was obviously much quieter at this moment, and even the divine thunder spilling down from the sky was much less.

These divine thunderbolts quickly filled the entire space, but to Lin Ran's surprise, these divine thunderbolts did not fall, they just filled the entire isolated island space and then did not move, all the divine thunderbolts were suspended in mid-air.

Seeing this scene, Lin Ran could not help but frown and said angrily.

"So the divine thunder of this third level are all stationary, you actually just triggered the divine thunder to blast me!"

“Did I tell you that these divine thunderbolts are immovable?”

Lei looked at Lin Ran and asked with a smile.

“You!”

Lin Ran was a little angry, but seeing that Lei did not seem to be joking, he whirled and said no more, and began to try to take the first step.

“Whoosh!”

Lin Ran had just taken his first step when instantly, several sounds of breaking wind rang out around him.

He was busy turning his head to look, and with this glance, he instantly understood.

He only saw that the three or four divine thunderbolts closest to him were actually shooting straight at him.

These divine thunderbolts were not immovable, but they were immovable until Lin Ran got close, and once he got close they would cause the surrounding divine thunderbolts to blast towards him.

Although he would have to deal with fewer divine thunderbolts each time, he knew in his heart that these divine thunderbolts were so powerful that even if he could resist them head-on, he would be blown backwards and fly out.

This is a situation where if he doesn't move, he will not be able to stop, unless he can go straight to Ray's side in one breath, otherwise he will fail at this third level at any time.

This thought only flashed in his mind, Lin Ran no longer dared to think more, because at this moment outside his surroundings three or four divine thunderbolts were already blasting towards himself.

“Come on!”

Lin Ran roared and whirled his strength to the limit, instantly dodging towards the side and avoiding a frontal divine lightning.

He had cultivated for so long if he said he didn't have a little pride it would be a lie, and as long as one was human, then one would have the heart to fight for strength and victory, Lin Ran was naturally no exception.

In his haste, he directly dodged the first divine thunderbolt, followed by the thunder arcs dancing on his arm only, and instantly blasted towards the second divine thunderbolt.

“Bang!”

His own beast thunder and divine lightning collided instantly and exploded away.

Lin Ran took this brief moment to dodge to the side of the explosion, trying to take advantage of the chaos to avoid the remaining divine thunderbolts.

Although he was fast enough to react, there were too many thunderbolts on the entire island.

He was only a sideways distance away, but he had already caused the many thunderbolts behind him to move all at once.

“Whoosh!”

Several lightning bolts rushed over behind him in an instant. Hearing the strong wind behind him, Lin Ran turned his head to fend them off, but as soon as he turned around, another lightning bolt rushed over on the other side of him.

This lightning was triggered by the very step he had just taken, and the explosion had not swept in all the lightning, so this one was the one that had slipped through the net.

“Bang!”

Lin Ran was careless and was instantly hit hard behind him, caught off guard, although he had tried his best to avoid the lightning from the front, he was still a step too late.

He heard an instant “bang, bang, bang” explosion and was sent flying backwards like a cannonball.

It didn’t matter that he flew backwards, a series of explosions followed, just like dominoes.

Everywhere he passed, countless lightning bolts were detonated and blasted towards him one by one.

Lin Ran didn’t even know how many blasts he had been subjected to, so much so that he couldn’t even look at himself anymore, and only then did he release all the beast thunder in his body, desperately trying to resist.

However, his beast thunder was no match for these divine thunderbolts, and he was instantly blasted backwards in just a single encounter.

“The quality of my Beast Thunder is too poor, plus my strength isn’t really high right now, I’m afraid these divine thunderbolts won’t be able to block them at all!”

Lin Ran sighed helplessly, knowing his current situation very well in his heart.

However, there was nothing he could do at all, his Beast Thunder Body had only just been cultivated, and this Beast Thunder was already the strongest lightning he could resist, so it was almost impossible to think of a way around the quality of the lightning.

Gradually Lin Ran began to stop being affected by the lightning around him and concentrated on thinking about how he could deal with the lightning that roamed the sky.

It was impossible to improve one’s strength in a short period of time.

And one’s own Dao was only just beginning now with both the Sword Dao and the Lightning Dao, and it was impossible to have a breakthrough in a short time.

“What the hell am I supposed to do?”

At this moment Lin Ran was somewhat desperate.

“Kid, come on! You’ve only had a few more setbacks and you don’t know what to do anymore? If you’re so easily defeated, then I really can’t look at you anymore!”

Lin Ran was thinking in his mind when suddenly there was the sound of Lei's voice in his ears.

He was busy looking up and realised that he had somehow gotten out of the lightning area and was now lying at Lei's feet.

"You have a solution?"

Lin Ran didn't care about this and was busy looking at Ray and asked.

Seeing this, Lei smiled blandly and said.

"Seeing as you still have some tempering necessary, I'll give you a reminder!"

"The Dao of Lightning is originally an auxiliary Dao, you should have already noticed that cultivating the Thunder Body only allows you to contain lightning within your body and attack more ferociously, but the Dao of Lightning cannot be the main means of attack, even the Thunder Dignitary attaches the Dao of Lightning to other Dao in order to bring out the powerful strength of lightning!"

"Thunder Zun's strongest is undoubtedly the Dao of Lightning, it is possible to bring out the power of this Dao of Lightning, but it is by other means!"

"Therefore, it is impossible for you to use your own thunderbolt to counteract these divine thunderbolts!"

"As for strength, these thunderbolts will automatically follow the strength of your strength to match, so trying to crush them by strength won't work either!"

Lin Ran despaired at hearing this.

"This won't work and that won't work, how else can I break through this third level!"

"Kid you're wrong!"

Lei laughed.

"The reason this third level is set up like this is to examine if you have any other aspects that are outstanding, if you don't have a dao that can complement the Dao of Lightning, you won't be able to play his role even if you have received the Thunder Dao inheritance!"

"What do you mean?"

Lin Ran smiled thoughtfully.

"That's right! If you want to break through this third level, you must make a breakthrough in the Dao of the Sword, and you only have this one path!"

"Your current sword dao is lacking, your attack is strong but you have no defence, if you can realize a defensive sword move in your sword dao, then this third level can be broken with a wave of your hand!"

Lei laughed, speaking with confidence.

Lin Ran was stunned as he listened, as if Lei's words had opened a brand new door for him.

That door was the Sword Dao! The Dao of Defence Sword.
