

Wonder Doctor

Chapter 721

Say goodbye to Wang Mao and Ah Zhan, Lin Ran alone took a car to the store, the clinic no one he went back by himself is also boring, so he was ready to go to the store to find Wang Yifeng.

But when he waited he realized that this guy was actually not in the store either, and the whole store was also empty.

“Now there is some understanding!”

Lin Ran helplessly shook his head, remembered the lyrics inside a song he had heard before, glory behind the carved a lonely.

“The stronger the strength, the stronger this feeling will be, slowly get used to it!”

The pillow book jumped out and said.

“You know again?”

Lin Ran laughed.

“Back then, the immortal emperor’s loneliness is not worse than yours, if not there is still a tie in the heart, I’m sure that the immortal emperor will retire early also not to end up like that later!”

The pillow book lamented.

“What kind of end?”

Lin Ran busy asked.

The pillow book heard but silent, waited for a moment before sighing.

“The guest died in a foreign country, even I don’t know where his bones are!”

“I’m sorry!”

Lin Ran busy said, at the same time no longer ask.

Nowhere to go, Lin Ran only had to find a small hotel, a room, and casually stay the night, compared to the store and clinic without people, the small hotel at least there are people.

“I don’t know how my grandmother is doing!”

Lin Ran suddenly thought of his grandmother, it is said that people often think of their families when they are also very quiet, so many years living alone, I do not know if his grandmother is also like himself, very lonely.

“Take time to go home and see!”

Think about their own after the New Year has come out two or three months did not go back, Lin Ran heart is also have self-reproach.

.....

A night without words, early the next morning, Lin Ran was woken up by the phone.

“Hey! Ranzi, where are you?”

Wang Yifeng’s voice came over the phone.

“What’s wrong?”

Lin Ran asked as he rubbed his eyes.

“Luo Cheng is here to see you, along with Li Wansan! They’re in the store!”

Wang Yifeng said.

“How did they know about the store?”

Lin Ran asked as he washed up.

“Qiqi told them, it seems that this girl hasn’t gotten up yet!”

Wang Yifeng said.

“Well, I’m going over there!”

Lin Ran packed up his things and checked out of the room and rushed to the store immediately.

It was only seven o’clock in the morning, Luo Qiqi, this girl should have gone to play with Qin Bing last night to get high, so now is still not up.

When he arrived at the shop, Lin Ran immediately saw the luxury car parked in front of the door, which was obviously Luo Cheng’s.

“Brother Lin Ran, you’re back!”

Seeing Lin Ran enter, Luo Cheng and Li Wansan immediately greeted him, especially Li Wansan had an anxious face, as if there was something very important.

“What’s wrong?”

Lin Ran asked directly.

“It’s Wan San, he’s looking for you about something important!”

Luo Cheng said busily.

Li Wansan didn’t delay and said at once.

“It’s like this, last time you asked me to ask about some strange medicinal materials? I got the news that today there will be a medicinal material tasting exchange in the city, and the people who go today are not low grade, even your Tamkang Hospital’s President Yang will also go, so I deliberately came to shout at you!”

“Medicinal material tasting exchange meeting?”

Lin Ran was stunned at his words, he did look for Li Wansan before in order to find something for the four girls to replace their bones and cleanse their marrow, he didn't expect this guy to remember now.

"Brother Lin Ran, it is said that this medicinal material tasting exchange was held every three years in the past, but this time, I don't know what happened, it was held in two years, it is said that something good appeared, or we should go and take a look?"

On the side, Luo Cheng busy said.

"No, old Luo, aren't you a businessman? How come you're also interested in medicinal herbs?"

Wang Yifeng asked curiously.

"You do not understand, this herb tasting exchange, said to be tasting herbs, but in fact is also a networking conference, can go in Tanjiang City and even the entire medical community, may be very powerful existence!"

"Although I am a businessman, but also a person, as long as a person will absolutely be sick, so make friends with some of the medical titan, is also a natural thing to consider!"

Luo Cheng laughed.

"So ah, feelings or for the body, that fat master I also have to go to a trip, recently this body ah, is really worse every day!"

Wang Yifeng said seriously.

Lin Ran but laughed.

"You go to Xiao Cui a few times less, the body will naturally get better! Every day and night plowing the fields, the body can not be tired!"

"Er Then you this, this is not right, not only fat master me, who does not love to plow the field ah!"

Wang Yifeng laughed awkwardly.

Lin Ran did not have a good temper.

"Then you have heard a saying?"

"What saying?"

Wang Yifeng had a curious face.

"There is only a tired cow, not a badly plowed field!"

Lin Ran laughed.

Once these words were out, Luo Cheng and Li Wansan next to him couldn't help but laugh, and Wang Yifeng even pointed at Lin Ran and laughed for half a day without uttering a word.

"Okay, okay! Stop fooling around, we have to hurry up, it's going to start at eight o'clock!"

Next to him, Li Wansan was busy reminding.

The crowd looked at the watch, it was already almost half past seven o'clock, immediately without any nonsense, together they got into Luo Cheng's limousine and went straight to the place.

.....

The medicinal material tasting exchange, from the store is actually not far, driving just ten minutes to arrive.

This is a five-star hotel, the venue is set in the large exhibition hall on the third floor of the hotel.

"Holy shit! There's really a lot of people here!"

When the four of them arrived at the place, they looked at the whole hall with a sea of people and couldn't help but sigh in admiration.

Only Lin Ran was looking frowning, yesterday's stone auction, today's medicinal material auction, this succession of various meetings seemed to be reminding him that this change was not simple, I'm afraid.

"This way, this way!"

Li Wansan busy greeting, outside the exhibition hall is only the reception area, after all, many experts and scholars are not alone to come.

And the real exchange venue is still in the inner area inside the exhibition hall.

"Hey hey! Don't crowd, an invitation can only let the invitee bring one person in, all have to check the ticket ah!"

The ticket inspector guarding the entrance shouted loudly.

"Brother Wan San, this ticket"

Lin Ran busy asked, but he does not have a ticket!

"Don't worry, I've made all the arrangements, a ticket can definitely take you all in!"

Li Wansan laughed, he rushed to Lin Ran, he had his reasons.

"Tickets!"

The four soon arrived at the ticket gate, and the ticket inspector shouted aloud.

"Li Wansan, said hello to your supervisor!"

Li Wansan took out his ticket and handed it over.

The ticket inspector, however, looked at the ticket, looked at Li Wansan with some suspicion, and after a moment wondered.

"How come there's only one! You are four people!"

Seeing this, Li Wansan frowned slightly and lowered his voice.

"Talked to your supervisor, don't you know?"

“What did the supervisor say? You can’t enter without a ticket, you can only bring one person!”

The ticket inspector said impatiently.

“You!”

Li Wansan was furious and was just about to take out his cell phone to call, when suddenly a voice rang out from the side.

“What’s going on!”

The words fell, only to see a middle-aged man in a suit came over, he was very fat, the flesh on his face were drooping, looking like a bulldog in human form.

“Hey! Supervisor Shen, what’s going on with this thing!”

Seeing the visitor, Li Wansan busily went forward and asked, it was this Supervisor Shen that he had approached to unblock the relationship.

“Brother Wansan? You’re here, where are the tickets?”

Supervisor Shen greeted him with a smile.

“This is not it!”

Li Wansan handed over the ticket, thinking that things would soon be resolved, but who knew that Director Shen got the ticket and looked at it, and actually asked.

“Why do you have just one ticket, four people need two tickets!”

Chapter 722

“You!”

Li Wansan was furious when he heard that.

“Shen old devil, didn’t we all talk well before, how come now we want two tickets again”

“Brother Wansan, this thing is subject to change, what era is it now, you can afford it can’t others afford it?”

Shen supervisor blandly smiled, came forward and lowered his voice and said.

“Very unfortunate, you just gave the price, others have exceeded, no way! You can only be eliminated from the game!”

“What about my money? Why don’t you give it back!”

Li Wansan was furious.

Supervisor Shen, however, laughed.

“Li Wansan, you’re kidding, you still want to return the money you entrusted to someone? You’re out of your mind!”

“You!”

Li Wansan heard the words immediately fire, so from the beginning to the end of their own is cheated, what other people offer a high price, it is clear that this old thing to take advantage of his position in cheating himself.

“Today either let us in, or return the money!”

Li Wansan looked at Supervisor Shen with a gloomy face.

“Impossible! You stay here by yourself! I don’t have time to waste with you here!”

Supervisor Shen disdainfully looked at Li Wansan, followed by turning around to leave.

“Want to leave!”

Li Wansan was really hot, stepped forward and directly pulled the clothes of supervisor Shen, a hand to pull him back.

“What for! Let go!”

Supervisor Shen was confused, he didn’t expect Li Wansan to do it in front of this crowd, saying that he would do it.

“Let go? Either pay back the fucking money or let us in, take advantage of me and still want to leave, this is Tanjiang City, not the imperial capital!”

Li Wansan said angrily.

“Bastard!”

Shen supervisor face ugly, while pulling his clothes, while shouting at the side.

“Where’s the security! Quickly come to the security guards to blow this person out!”

The voice fell, and soon the sound of footsteps came from the side, followed by a dozen people in security uniforms running over.

“Quick! Quickly blow him out!”

Supervisor Shen did not explain, and shouted at a security guard.

“Yes!”

These security guards all knew Supervisor Shen, and immediately rushed towards Li Wansan.

“Stand still!”

Wang Yi life a stride out, directly in front of a group of security guards, with a man in front of the ten thousand people!

This position, a time really will be a crowd of security guards are subdued.

“You have to kick people out without asking questions, is this the rule of this auction house?”

Lin Ran looked at the security guards and questioned.

“What rules or not, we are also following orders, where is this nonsense!”

The leading security guard said disdainfully, glanced at the distant supervisor Shen, saw that the latter also did not mean to stop, immediately rushed Lin Ran and lunged over.

“Stop!”

Suddenly, a thick voice sounded, followed by a line of people who actually walked out from the inner court, led by an old man who was over half a hundred years old and had white hair, with a powerful aura.

“Dean Yu, how come you still came out personally!”

At this time, Li Wansan had already let go of Supervisor Shen, and the latter saw that he was busy respectfully coming forward and said.

“Little Shen, what’s going on here?”

Dean Yu looked at Supervisor Shen’s ugly face and asked.

“Dean Yu, these people didn’t have tickets and wanted to rush in, I was about to drive them away!”

Supervisor Shen said.

“Bullshit, you took my fucking money and now you’re not doing anything! You really think this is the imperial capital!”

Li Wansan cursed angrily.

This time, the medicinal material exchange meeting was co-organized by the imperial capital and Tanjiang City, and the person in charge was none other than this Dean Yu, and a Dean from Tanjiang City, but apparently this Dean from Tanjiang hadn’t come yet.

“There is this?”

Dean Yu looked at Supervisor Shen, who was busy saying.

“How is it possible! Director Yu, this person just came to look for trouble, how could I possibly take his money!”

“You’re saying no! Dare to check the accounts!”

Li Wansan said busily.

Director Yu, however, was impatient to hear it.

“Enough! What kind of decency is this academic exchange in the hall, hurry up and settle it!”

After saying that, Dean Yu glared at Supervisor Shen, turned around and went back to the inner court.

They are all from the imperial capital, even if Dean Yu can see that there is something fishy here, it is impossible to say anything in public, after all, strictly speaking he and Supervisor Shen are the ones who

are together, if they find out that Supervisor Shen has problems here, he, the leader of the team, will not have a bright face!

“Humph! A group of trash, also want to fight with me!”

Supervisor Shen, with a disdainful face, waved his hand and shouted at the security guards.

“Hurry up and kick them out!”

“Yes!”

One by one, the security guards took out their guys and immediately wanted to drive them away.

“Brother Lin Ran, I’m sorry!”

Li Wansan said with an apology.

“It’s okay!”

Lin Ran smiled lightly, not taking it to heart.

“If you want to talk, get out and talk, this is not a place for you to chat!”

Supervisor Shen’s face was full of disdain, especially when he looked at Li Wansan’s attitude, which was obviously for that whatever Lin Ran, it couldn’t help but make him even more disdainful.

Lin Ran’s dress did look a little shabby, and he didn’t even look at it.

“You try one more word of nonsense!”

Lin Ran also some anger, looking at Shen supervisor face cold.

“Try? I am talking a hundred sentences, so what? As long as I’m here today, you don’t want to fucking get in!”

Supervisor Shen’s face was full of complacency, not putting Lin Ran in his eyes at all.

Lin Ran’s face was completely cold, and he was just about to take action to clean up this bastard, but at that moment, another old man’s voice came over.

“Lin Ran, what are you doing?”

Lin Ran and the others looked at the voice, and they couldn’t help but be stunned that it was Dean Yang.

“Dean Yang, it’s nothing!”

Lin Ran smiled somewhat awkwardly, he had heard Li Wansan say before that Dean Yang would come, but he didn’t expect to run into him at this ticket gate, and it was such an awkward situation.

“Why don’t you guys go in?”

Dean Yang smiled and asked.

“This Supervisor Shen won’t let me in!”

Lin Ran laughed helplessly.

“Not allowed? What a nonsense!”

Dean Yang’s face sank as he looked at the so-called Supervisor Shen.

“Why don’t you let him in!”

“Yang Dean Yang, he doesn’t have a ticket!”

Shen supervisor busy said, Dean Yang is exactly the leader of Temperance City this time, facing the latter he did not dare to toe the line.

“No tickets? Who said no ticket? I’ve already reported his name, he can enter directly, what do you need a ticket”

Dean Yang said in a good mood.

Supervisor Shen smiled with dismay and asked.

“Dean Yang, are you mistaken, just his dress like this can also enter? You can’t be mistaken, this kid is a poor bastard!”

“Say it again!”

Dean Yang’s face suddenly turned cold as he looked at Supervisor Shen and scolded.

“Do you know who he is? If he’s not qualified to enter, you so-called experts and scholars are even less qualified to enter!”

“Not Dean Yang, who the hell is he!”

Supervisor Shen’s face was ugly and he was busy asking.

He was also a doctor of great reputation in the medical field, but he was sure that he had never seen this young man in front of him, but he couldn’t think of anyone else who could make Dean Yang think so highly of him.

“Who is he? He is our little miracle doctor in Tamagawa City, the person your President Yu wants to see by name!”

Dean Yang said, in fact, he informed Lin Ran last night, but this guy was drinking at the time, did not hear! Then he didn’t look at his phone all night and got the call in the morning, so he didn’t know about it at all.

“Little miracle doctor?”

Shen supervisor smiled, but in his heart, he already understood that he could not stop this matter today.

But likewise, he couldn’t help but laugh.

“What bullshit little miracle doctor, so what if I let you in? I’ll have plenty of ways to deal with you later! I’ll let you know what a senior is in the medical world, and then I’ll let you die without knowing how!”

Chapter 723

In his mind, Supervisor Shen's face was already smiling, looking at Lin Ran and the others and smiling.

"This will not make a misunderstanding, gentlemen please come in, please come in!"

"This mouth of yours is becoming really fast!"

Wang Yifeng gave a mocking glance, immediately greeted Luo Cheng two people to follow, and entered the inner court with President Lin Ran Yang.

"I pooh! Dog stuff!"

Li Wansan did not forget to spit at Supervisor Shen as he passed by, his face filled with disdain and disgust.

"Humph! Old thing, we'll see!"

Supervisor Shen's face was gloomy, and his eyes were full of resentment.

.....

The number of people in the inner court was obviously much smaller, and Lin Ran and the others came in and found that it was very quiet, and most of them were gathered in twos and threes, discussing in low voices around an object.

There were more people who seemed to be explaining something to the people around them.

"Most of the people who come here are very reputable people in the medical field, and most of them are Chinese medicine practitioners!"

Dean Yang laughed as he led the way in front.

"It's hard to pass down Chinese medicine, you know that, and in recent years, in order to promote the way of Chinese medicine, many old fellows have started to take on apprentices one after another, and this kind of herb tasting conference is a good opportunity for them to explain live!"

"That dare to invite a place to bring in, is to bring their own disciples ah!"

Wang Yifeng said in a daze.

"That's right!"

Dean Yang nodded his head.

"Dean Yang, why does that Dean Yu want to see me?"

Lin Ran didn't think about it that much and asked blandly.

"I was the one who recommended you!"

Dean Yang laughed.

"This herbal tasting conference, there are a lot of herbs belong to just discovered, some of them have been clinically verified, but there are many that have not been verified, even we can't pinpoint them,

this Dean Yu is from the imperial capital, it is said that there are two very precious herbs in his hands, may want to ask you to help identify them!”

“Identification? But pull back!”

Wang Yifei laughed.

“Dean Yang, you just did not see that Dean Yu’s face, the old Li just said that Shen supervisor corruption, that old thing turned his face away, just he still looking for Ranzi identification herbs, fat master I first disagree!”

“Yes! And me!”

Next to Li Wansan also angry said, originally thought that Dean Yu can still do for them, but who thought that the old thing actually as if nothing happened and left, how can they swallow this anger.

“You guys are still looking at things too one-sided!”

Dean Yang stroked his beard and said.

“This way of Chinese medicine is also about the portal of opinion, each city has its development momentum, that director Shen is also a very strong Chinese medicine doctor in recent years, President Yu turned a blind eye to him is also justified, in the end, it is still a matter of strength!”

“This!”

Wang Yi life dumbfounded, before contact with the things about the strength of really little, but at this time, President Yang’s words really some woke him up.

Yes, no matter what industry, no matter what things, are capable people have the right to speak, no ability to even speak qualifications, this is the way society is.

“Fatty, forget it! Others are not benevolent we can not be righteous, for the sake of President Yang, if you really need my help, naturally will not be stingy!”

Lin Ran said indifferently.

“Well! This is the Lin Ran I know!”

Dean Yang laughed.

As they spoke, the crowd had already arrived at the middle of the entire inner court, and here was where the most medicinal materials were and where the most people were likewise.

“Ranzi, take a look at this herb, I came here yesterday and found this herb very peculiar, I can’t pinpoint it, take a look first!”

Dean Yang pointed to one of the brocade boxes that was clasped by a glass cover and asked with a smile.

Lin Ran and others looked and found that it was a herb that showed an irregular shape, the whole body was dark earth color, there were a few very bright green leaves on it, the overall look was somewhat similar to ginseng.

“Isn’t this He Shou Wu?”

Next to him, Li Wansan wondered, he deals in medicinal herbs, this is not He Shou Wu a glance to see out.

“You are taking a closer look!”

Dean Yang stroked his beard and said.

Li Wansan was stunned to continue to look, this look found that this thing and He Shou Wu is really not the same.

“He Shou Wu color is on the earthy side, but the root part of this herb, there is a faint red, although the body and He Shou Wu similar, but I’m afraid the effect is different from He Shou Wu!”

Lin Ran solemnly said.

“Can you tell anything else?”

President Yang looked at Lin Ran asked, he can only see here, but the rest is not to see.

“Not for now, unless you remove this glass cover and take a good look at what that red patch is, otherwise you can’t be sure!”

Lin Ran shook his head and said.

These red patches look somewhat bizarre, if you can’t see it up close, Lin Ran can’t be sure for a while.

“It’s a small thing!”

Dean Yang smiled blandly and immediately greeted the staff and took the glass cover over.

And the moment the glass cover was taken out, Lin Ran and Wang Yifeng both frowned separately, and both seemed to feel something.

“Ranzi, how can this thing!”

Wang Yifeng frowned and asked busily.

“Don’t say anything yet!”

Lin Ran glanced at him to indicate him not to say anything first, while his face as usual two steps forward to take out the brocade box.

When he got close to the box, Lin Ran finally had the chance to wrap his medical dao true qi around this He Shou Wu, and under the prying of his medical dao true qi, Lin Ran’s heart sank more and more, and soon his brow furrowed.

“Dean Yang, where did you get this thing from?”

Lin Ran asked busily.

“This thing came from Fengling Town, what’s wrong with it?”

Dean Yang was busy asking, while pointing to the other medicinal materials in the inner field and said.

“This infield things, eighty percent are from Fengling Town, and you are not looking, if you look more after you will find that many herbs here are very similar to our unusual favorite you see, but all have this red spot, so a time can not be sure!”

“Only a very few herbs we have not seen in the ordinary!”

“Fengling Town?”

Lin Ran smiled and frowned slightly, he had heard of this place, is very famous herbal town, Li Wansan’s many herbal materia medica are taken from there.

“When did Fengling Town start selling this kind of herbal medicine? I haven’t been there for the past few years, has it changed so much?”

Li Wansan was also a bit surprised.

“What’s going on Lin Ran?”

Dean Yang was busy asking, Lin Ran’s expression made him a little worried in his heart as well.

“Dean, this He Shou Wu cannot be eaten!”

Lin Ran looked at Dean Yang and said solemnly.

“This is a mutated He Shou Wu, the medicinal effect is not to mention, but absolutely can not be eaten, otherwise it will kill people!”

“What is going on?”

Dean Yang heard the face also changed, busy asked.

“It’s because of these red spots!”

Lin Ran said seriously.

“These red spots are poison, a very difficult poison, once a person is infected, will not live more than a moment, if not timely detoxification, subsequent even treatment is too late!”

“So powerful! What kind of poison is this?”

Dean Yang asked.

However, before Lin Ran could answer, a cold laugh came from the side.

“What kind of poison? I think it’s a poisonous mouth, you dare to say anything, you’re not afraid of people laughing off, actually saying that this He Shou Wu is poisonous, kid, have you grown a brain?”

The words rang out at the same time, Shen supervisor has disdainfully walked over, next to also happened to follow Dean Yu.

Chapter 724

“Dean Yang, don’t come back unharmed!”

Dean Yu looked at Dean Yang and smiled.

“Old Yu it’s been a long time!”

Dean Yang likewise laughed.

“And this is?”

“This is?”

Both of them said almost simultaneously, then followed by both laughing.

“Shen Evening, my student!”

Dean Yu pointed at Supervisor Shen and laughed.

“Lin Ran, our hospital’s honorary expert!”

Dean Yang laughed.

“Lin Ran? He’s the little miracle doctor you were talking about?”

Dean Yu was a little surprised, although Dean Yang said that the little divine doctor, who might be able to claim the title of divine doctor, had to be forty years old in his opinion, but now when he saw him, he realized that Lin Ran was at most twenty-six or seven years old.

“It’s true, heroes come out of youngsters, at such an age to be called a divine doctor by you, it seems that this little friend Lin Ran is really capable!”

Dean Yu laughed.

“Dean Yu, I think you think too highly of him, what little divine doctor, his age if I am not mistaken, I’m afraid he just graduated from college, a freshly graduated brat, what do you know about medicine, but also little divine doctor!”

Shen Evening disdainfully said, he has many years of clinical experience, and is one of Dean Yu’s most valued students, Lin Ran, huh he did not see in the eyes.

“Brother Luo, there is a saying you know how to say?”

On the side, Li Wansan suddenly opened his mouth and laughed.

“What words?”

Luo Cheng asked with a smile.

“Shameless!”

Li Wansan laughed.

“As the saying goes, fame is envied outside, and a family with a thousand gold is flattered by ten thousand people, people nowadays, they are really ridiculous and laughable!”

“Haha! Old Wan, usually did not see ah, you kid can still show off the literary ah, fat master I am a coarse person, but I also understand the words, is not a curse!”

Wang Yifei said laughing.

“Hey! How can this be a scolding! This is scolding the dog!”

Li Wansan said.

They this sing and listen to Shen night but face ugly, he you come to not understand, this Li Wansan is in the disguise of scolding himself it.

“Dean Yu, you have seen, what this Temperance little miracle doctor made are what fox friends, simply do not know anything about medicine, and just say he himself!”

“Just now actually talking about He Shou Wu poisonous, this is like a person who knows medicine can say out? I see him what bullshit little miracle doctor, Temperance little trash is not bad!”

Shen Evening disdained said.

Said here, he seems to feel still not relieved, but even more added.

“Moreover, the herbs are personally selected by you from Fengling Town, he actually said that it is poisonous, is this not a clear insult to your reputation of President Yu? Can’t our doctors from the imperial capital tell whether it’s herbal medicine or poison? This is a big joke!”

Dean Yu could not help but frown slightly when he heard that, although Shen Evening’s words were a bit too much, but the words were not coarse, and it was indeed so reasonable.

“Little friend Lin Ran, your reputation, I do not want to believe that it is in vain, why do you say, this He Shou Wu how toxic?”

Dean Yu looked at Lin Ran with a smile, and his words were quite polite.

“Lin Ran talk about it!”

Dean Yang to the end of the strokes of the beard to capture the smile, he to Lin Ran that there is no way to say, absolutely believe, at this time is also just curious about this He Shou Wu above in the end what is the poison, is actually by Lin Ran said that fierce.

“Good!”

Lin Ran see also no nonsense, a bland smile, said.

“There is no exact medical name for this poison, but it is commonly known as the plague!”

“Plague?”

The crowd was stunned at the words, but then Shen Evening laughed.

“Plague? Is plague a poison? How dare you say you know medicine? It’s ridiculous!”

“You laugh first!”

Lin Ran glanced at him indifferently and did not speak.

At that moment, only Shen Evening was left laughing in the field, and Dean Yang and Dean Yu couldn’t help but look at him, which immediately made him embarrassed and had to put away his laughter.

“Little friend Lin Ran, please continue!”

Dean Yu looked at Lin Ran and said.

“Plague is a general term because there’s no way to determine exactly what this poison is, but it definitely counts as a plague level! Let me give you an example!”

Lin Ran said and looked at Shen Evening.

“Join Shen supervisor ate it, within an hour must grow red spots all over the body, the best time to treat is also within this hour, if beyond this time, the red spots rupture thick water accompanied by blood flow, then no one can cure, dead end!”

“You’re fucking dead, will not speak human words!”

Shen night heard the face blue, immediately cursed angrily.

“I said for example, do not understand human words?”

Lin Ran looked at Shen Evening blandly said.

“How do you not give examples of others, Laozi”

Shen Evening just wanted to start cursing, Dean Yang and Dean Yu looked at him again, immediately screwed up the latter half of his sentence directly swallowed back.

“Good boy, you fucking give me wait!”

Shen Evening thought in his mind, how could he possibly swallow this anger.

“Little friend Lin Ran, although what you said seems very likely, but plague and poison don’t seem to be linked together!”

Dean Yu frowned and asked.

“No! To think that the root of this plague is poison!”

Lin Ran laughed and shook his head.

“If it was eaten by supervisor Shen, the only way to treat it within an hour is to detoxify it, trying to find the corresponding medicine to treat it is impossible! Thought there are too many and too mixed poison in this, and very toxic, there is no drug can control!”

Said here, Lin Ran glanced at Shen Evening and laughed.

“Moreover, if he dies of poison, his corpse will soon become a pathogen as well, so I say it’s poison, but it’s also a plague and cannot be eaten!”

Dean Yu listened with a slight frown and did not speak for half a day, so did Dean Yang.

On the side, Shen Evening, however, could not help but laugh.

“Saying as if true, but you do not forget, this medicine is personally selected by Dean Yu, and Fengling Town is also known as the township of medicinal herbs, do you really think our Dean Yu blind ah! Pick some poisonous medicine back!”

“What are you talking about!”

Dean Yu’s face sank as he scolded.

Lin Ran and the others couldn’t help but laugh, this Shen Evening was really stupid, actually daring to say that Dean Yu was blind, this was clearly a rhythm looking for a draw.

“You!”

Shen Evening looked at Lin Ran and others and became furious.

Lin Ran, however, laughed lightly.

“I do not doubt Dean Yu’s vision, but you also said that many of the herbs this time are not seen before, so these herbs must be treated with care, otherwise the consequences can not be as simple as my example, if Director Shen really ate the accident, then who is responsible?”

“You! I don’t need you to be responsible!”

Shen evening gas only gasping, he did not believe Lin Ran’s words, in his heart Dean Yu is the authority, he also expects to patronize more in the future to follow Dean Yu mix it.

“Dean Yu, your vision is absolutely right, this is a very common He Shou Wu, absolutely no problem!”

Shen Evening said actually picked up the He Shou Wu in the brocade box, followed by a glance at the crowd, directly into the mouth and nibbled.

“Ka Ka!”

The crisp chewing sound rang out, Shen Evening looked at Lin Ran disdainfully and said.

“Kid! I’m eating it now, how about it? Do I have a problem? What bullshit little divine doctor of Temperance, I think you’re just little trash! Clamoring for attention here, I’m going to poke you today!”

The crowd looked dumbfounded, especially Lin Ran, how could he not expect that he had said that it was highly poisonous, how could this guy still eat it.

“Ka ka ka!”

Soon, a whole He Shou Wu was eaten by Shen Evening, and he threw the leaf on the ground as he looked at Lin Ran, disdainfully.

“Kid, speak up! How is the old man fine now, aren’t you a bully? Where is the little divine doctor? Say something!”

“Ai!”

Lin Ran looked shaking his head, sighing in his heart “really a pig, dare to eat anything!”

“All right, you want to prove that you are okay to eat, right, come on! It’s okay to take two steps!”

“You heard me right, it’s okay to take two steps!”

Chapter 725

“Take two steps? You fucking think you’re selling abduction?”

Shen Evening was so angry that his face turned blue, but then he laughed.

“Kid, what’s wrong with you is deficient ah, old man can take the whole He Shou Wu eat, and now what? Not a thing!”

Saying that, Shen Evening also came towards his chest two punches, to show that his body is good.

“You can’t say whether there’s something wrong, take two steps! It’s okay to take two steps!”

Lin Ran still blandly laughed.

At this time around many onlookers came over, especially Dean Yu and Dean Yang two leaders are here, but also let their hearts some curiosity, what happened here.

“Hey hey, isn’t that Shen Evening? A very famous young talent in the imperial capital!”

“Yes, I heard that he is Dean Yu’s most valued student, tsk the future is bright!”

Shen Evening listened with a smug look on his face, looking at Lin Ran with a gaze full of disdain.

“Yeah, you guys were late, that kid actually dared to go against Shen Evening, I’m afraid he’s going to make a fool of himself this time!”

“No way, that young man is our famous doctor in Tamagawa City, nicknamed the Little God Doctor of Tamagawa!”

A doctor from Tamagawa City said.

“Tamagawa Little Doctor? You can pull back, did not hear what Shen said just now, that is the Temagami little trash!”

“Yes, I think it is also a little trash, the way of Chinese medicine is so difficult, that kid is only a few years old, and my students, how can he be a little divine doctor!”

Listening to the surrounding crowd talk, the smug look on Shen Evening’s face also became more intense.

“Ranzi!”

Wang Yifeng look do not want to go on, with these tug of knowledge people together, he most annoying panic, with his fist in front of this Shen Evening simply that is a punch can solve the goods, with him here nonsense is also mocked by the surrounding people, which makes him some can not suppress the fire in his heart.

“Lin Ran brother, this matter!”

Li Wansan also came over, although he believes Lin Ran, but that strain of He Shou Wu in the end whether the poison he can not pinpoint, this matter can not help but for Lin Ran some worry.

“Don’t worry!”

Lin Ran smiled lightly, actually not the slightest bit of tension.

“Shen supervisor, you go or not?”

Lin Ran looked at Shen Evening and asked.

“Go? You think you’re playing a monkey? How about if I go? So what if I don’t?”

Shen Evening sneered, not putting Lin Ran in his eyes at all.

“This is so, He Shou Wu you also ate, I am not afraid to tell you, this poison has entered your stomach, and the people present only I can treat, if you cooperate to walk two steps, I can later consider saving you, otherwise your poison is slow to appear, I do not have time to spend with you here!”

Lin Ran laughed.

“Only you can save? I pooh!”

Shen Evening’s face was full of disdain.

“Who just said that after eating it, red spots will grow on your face? Do I have any on my face? Come and see if I have red spots on my face?”

Shen Evening tilted his old face for the onlookers to see.

“No!”

“Where there are red spots!”

“This kid is talking nonsense without a draft, He Shou Wu can have what poison!”

The surrounding crowd laughed, looking at Lin Ran just like looking at a fool.

“Little friend Lin Ran, this?”

Dean Yu frowned, looking at Lin Ran, always felt some uneasiness in his heart.

“He’s not moving, this toxin doesn’t show on the surface, I can’t tell!”

Lin Ran laughed indifferently, not bothering to talk any more nonsense.

“Dean Yu, you do not listen to his nonsense, nothing happened to me, look!”

Shen Evening said reverting to the ground and jumping twice, indicating that he was really not in trouble at all.

“Well!”

Dean Yu looked very satisfied, the previous vague worry also immediately dissipated, at the same time the gaze of looking at Lin Ran also changed.

“Dean Yang, is this the little divine doctor of Temperance you said? I think it’s just”

Dean Yu sneered, from the bottom of his heart he was still on Shen Evening's side.

But before he finished his words, the whole person froze.

Only to see two jumps, Shen Evening, who was standing in place, his face actually began to flush, followed by two temples, actually really appeared red spots, and this red spot is like a plague, quickly spread in his face, just a few breaths, Shen Evening's whole face turned red, as if boiled by hot water.

"Hey! Why are you all looking at me?"

Shen Evening didn't notice at all and looked at the crowd with some confusion.

"Is it because my face hasn't changed at all!"

Shen Evening thought that everyone was surprised to see that his face did not change.

"I have long said, this kid is a liar, you still do not believe, Dean Yu your own choice of herbs how can there be problems, you are a professional"

Shen Evening also did not forget to pat Dean Yu's butt, but at this time this is simply to say how much to hit the face.

"Enough!"

Dean Yu face ugly, staring at Shen night busy said.

"Take two quick steps!"

"Huh?"

Shen Evening listened in wonder, how come Dean Yu also asked himself to take two steps.

"You take two steps quickly!"

"That's right, take two steps quickly!"

The surrounding onlookers also said one after another, as if they eagerly wanted to view the monkey trick.

"You guys?"

Shen Evening is a little confused, completely do not understand what everyone means by this.

"Shen Evening listen to me, take two steps quickly!"

Dean Yu was busy urging, he noticed that the red spots on Shen Evening's face were getting redder and redder, and it seemed like the skin was starting to swell up.

"Okay!"

Seeing that Dean Yu was urging so much, Shen Evening immediately took a step and walked.

"Hey! It's okay to take two steps, take two steps! Aren't I okay too?"

"Walk two steps, I also give you two steps to jump, watch me jump! I"

Shen Evening's smug laughter just remembered, followed by everyone was surprised to see that Shen Evening's arms actually also began to appear red spots, and soon his bare skin appeared red spots.

This scene scared the crowd hurriedly back several steps, especially Dean Yu and Dean Yang and Wang Yifeng and others, they just heard the real thing.

This is the plague, it is contagious.

"Everyone back away, this kid is going to swindle!"

Wang Yifeng shouted, at once everyone backed up a long way, looking at the still jumping Shen night, all like looking at a fool.

"What are you doing?"

Shen Evening still did not notice.

"Stupid! Look at your own arm!"

Dean Yu's face was blue and he scolded.

"Look at your arm?"

Shen Evening was stunned, immediately looked at his own arm, immediately froze, the feet did not react, the whole person "flop" fell to the ground, but this is the fall, he is how can not get up, the whole body of the pain like a knife on his head instant cold sweat, the whole person shivered in fear half a day before spitting out a sentence.

"Dean, I What's wrong with me? The body is so painful!"

"Stupid, that He Shou Wu is really poisonous! Your skin has already started to ulcerate!"

Dean Yu was so angry that his face turned blue and immediately greeted people to get the guy who cured him.

"Dean save me! Save me!"

Shen Evening looked at Dean Yu eyes full of longing, at the same time some regrets in his heart, he has nothing to be a white mouse, just to go against Lin Ran, this is simply to lose his life here ah.

"Useless Dean Yu, I told you, here except me! No one can save him!"

Lin Ran took two steps forward and looked at the two with a smile as he blandly said.

"Humph!"

Dean Yu didn't pick up on his words, he just coldly snorted, followed by taking the medical tools handed to him by others, and busily began to examine Shen Evening.

Chapter 726

"Lin Ran, are you really the only one who can cure this disease?"

Seeing Lin Ran walking back with a smile, Dean Yang was busy going up to him and asked.

“Mm!”

Lin Ran nodded, not denying it.

“Then he?”

Dean Yang pointed at Dean Yu, who was treating Shen Evening, and was somewhat puzzled.

“He’s not dying, let him try first, one hour yet, there’s still plenty of time!”

Lin Ran laughed, and then turned to look at Dean Yu and Shen Evening, muttering to himself.

“But an hour is not false, but the longer the delay, the more serious his skin ulceration will be, to more than an hour, I’m afraid that you can not see the human form!”

“Ah?”

Shen night heard almost did not pass out, busy looking at Dean Yu urged.

“Dean, you hurry up! I don’t want to die, and I don’t want to disfigure my face!”

“Shut up! Who told you to eat everything!”

Dean Yu was so angry that he glared at Shen Evening, but his hands did not dare to stop.

But the more anxious he was, the more chaotic his thoughts became, looking at the pile of medical tools that came from others, trying this and that, but never getting the hang of it.

“So many tools!”

Lin Ran at this time but was attracted to Dean Yu’s medical tools.

He used to learn these tools when he was in college, but since he got the Xuan Yang Pharmacopoeia after graduation, he basically never used them, mainly silver needles and hands, as well as a true qi.

One is acupuncture, one is massage, and another is true qi treatment, and over time are almost forgetting these medical devices.

“Small needle knife, trigeminal needle, plum blossom needle, herbal atomizer”

“Tsk!”

Looking at these apparatus in the hands of Dean Yu, Lin Ran could not help but be envious, at first in school these things although all have, but obviously and others this set can not be compared, it is simply a heaven and a land.

“Unfortunately, now I basically can’t use it!”

Lin Ran shook his head, although he felt very familiar with these things, but with his current level of Chinese medicine, these things are indeed basically unusable.

“Ah!”

Finally, after grinding for nearly half an hour, Dean Yu dropped the silver needles in his hand onto the ground, a hint of despair appearing on his sweat-covered face.

“I can’t cure it!”

Dean Yu got up and said helplessly.

“Huh? Dean can not ah, you have to save me ah!”

Shen Evening busy said, at this time he spoke a little rabbit unclear, the red spots on the face has begun to rupture, a stream of liquid with thick water flowing down, the scene can not mention how disgusting.

The more critical thing is, these flowing thick water, stained with other places, but also caused more red spots, it is as if the whole person Shen night to expand from the inside to rot open.

“Little friend Lin Ran, I believe you! Save him!”

Dean Yu turned to look at Lin Ran, with anxiety in his eyes, while his face was also very ugly.

As a famous medical master in the imperial capital, now he actually had to beg a person about the same age as his own grandson, which made his face very unbearable.

“Don’t you want to try? There’s still half an hour left!”

Lin Ran looked at Dean Yu and laughed blandly.

“If you keep trying, he’ll be dead!”

Dean Yu said, at this time Shen Evening’s situation is already very serious, if not treated, I’m afraid today really have to die here, then it is a medical accident, although he is noble dean, but this life is a matter of heaven and earth, is not something he can do nonsense.

“Get out of the way!”

Lin Ran laughed lightly and immediately went forward and squatted next to Shen Evening.

“Quickly take these things away!”

Dean Yu was busy greeting people and taking away the useless medical equipment.

But Lin Ran was stopping.

“Don’t rush, let me take a look first!”

With that, Lin Ran picked up a plum blossom needle and placed it in front of his eyes for a careful examination.

“Little Little divine doctor, you quickly cure the disease!”

Shen Evening looked anxious, this is what time, this guy is actually not anxious to cure the disease, there to see what medical equipment.

“No hurry, there’s still half an hour left!”

Lin Ran said indifferently, while lovingly looking at these medical tools and laughing.

“Tsk, I’ve never seen these tools this good, compared to our school’s, it’s simply the greatest treasure!”

“Little miracle doctor You like another day I will send you a set, OK, absolutely better than this, you first save me ah!”

Shen evening anxious almost kneel down and shouted father.

“What’s the hurry! Just now also said I was a little trash!”

Lin Ran glanced at Shen Evening and said blandly.

“No Absolutely not, you misheard me, I mean you are little God, I am little trash!”

Shen Evening was busy saying, however Lin Ran was not paying attention to him.

“Little God doctor, please save me, I don’t want to die yet, just now I was blind and didn’t know what to do, you save me!”

Shen Evening was about to cry, growing up, this was the first time he felt so close to death, the pain all over his body was making him lose his mind.

“It’s itchy! So itchy!”

Suddenly, Shen Wei shouted, lifting his hand to scratch his face.

“Don’t move, if you scratch it, it will be really disfiguring!”

Lin Ran picked up the herbal nebulizer again and looked at it.

“Ah!”

Shen Evening cure well endured the huge itch, with anger in his eyes looking at Lin Ran.

“Lin Ran, save me! I was wrong just now, but you don’t have to fix me like this!”

“Fix you? Did you?”

Lin Ran laughed.

“You’re not fixing me, you’re the only one who can cure me, you’re curing me now!”

Su Wan said angrily.

“Why?”

Lin Ran quizzed with a serious face.

“Just now it was you who called me a liar and a little trash, and I have reminded you again and again that this thing cannot be eaten, it is highly poisonous, you are the one who does not believe it!”

“Now you’ve become like this, remembering me? Don’t you think you are inexplicable?”

“Weren’t you very tough when you damaged me? Now that you’re begging me, you’re still so tough?”

Said Lin Ran, pointing around and laughing.

"I didn't force you to eat He Shou Wu, in other words, what does it matter to me, Lin Ran, if you die today? What do you say?"

"!!"

Shen Evening completely collapsed, tears immediately "wow" came down.

"Lin Ran, I was wrong, I was wrong, you save me, do not play! Time is really not much, as long as you save me, I Shen night is to you do cattle and horses are no complaints!"

Shen night busy said, at this time look at Lin Ran is like looking at the savior general, even now Lin Ran told him to eat shit, he will not have the slightest hesitation.

"Is that so? Then let me ask first, do you accept Li Wansan's money or not?"

Lin Ran laughed and said.

"Yes, I did! Originally you were able to come in, but Dean Yu had two friends who wanted to come without tickets, so I had no choice but to give them the back door!"

Shen Evening said busily.

"You!"

Dean Yu listened to the face cold, hate gnashing teeth.

"Ao! So ah, then forget it, people are after all the dean, I a small trash how can compare, all right! Let's see the doctor!"

Lin Ran said to himself, but this is to hear the old face of Dean Yu iron blue, than eat flies are unpleasant.

"Lie still, or I will not be responsible for any accidents!"

Lin Ran said, took out a longest silver needle from the pile of instruments next to him and directly stuck it behind Shen Wan's ear, followed by a stream of true qi that immediately invaded the latter's body along with the silver needle.

And with the invasion of the true qi of the medical path, at once the toxins in Shen Wan's body seemed to be pulled, along with the silver needle flowed out quickly.

"Find something to clean out these toxins!"

Lin Ran turned his head and looked at Dean Yu and said.

Chapter 727

"You!"

Dean Yu was so angry that his face turned iron for a while, Lin Ran saying this to him was simply treating him like a subordinate, but now he was the doctor who was treating the patient, so although he was upset, he had nothing to say.

"Go! Clean these things up!"

Dean Yu looked to the staff next to him and ordered.

As a dean this right still has, soon someone came forward to clean up the thick water left behind.

As more and more thick water flowed from the silver needles, Shen Evening's face gradually became better, and the pain was obviously not as strong as before.

But this face wound is already left, can only follow in the treatment.

"It's done!"

When the last red spot faded from the face, Lin Ran also released the silver needle and stood up.

"These things that are stained with venom are thrown away together, it's best to disinfect them before throwing them away, be careful of residue!"

Lin Ran reminded.

"Can't disinfection still kill these meths?"

Dean Yu asked busily.

"I don't know, you can try!"

Li Ran laughed.

"Then it's better to throw it all together!"

Dean Yu said awkwardly, try it yourself how to try? Is it possible to give yourself a shot?

Shen Evening was soon carried out of the infield and went to the hospital for treatment.

"Dean Yu, Dean Yang, what are you going to do with these herbs?"

Lin Ran looked at the many herbs still left in the field and asked, these herbs all contain the same severe poison as He Shou Wu, if left behind is also a scourge.

"This Dean Yu and I just discussed, ready to find a crematorium and burned!"

"So, how about handing it over to me, these things will also have residue after burning, I'll deal with it all together!"

Lin Ran a shocked said.

"That's great, you are willing to help naturally the best!"

Dean Yang was busy laughing, this kind of contained poison they have never seen, dealing with it is also troublesome, Lin Ran is willing to help that is naturally the best result.

"I'll have someone sort it out, you can pull it away anytime!"

Dean Yu said, and by now a smile had been put on his face.

Although what just happened made him and Lin Ran have some unpleasantness, but Dean Yu is such a person, medical skill is powerful he naturally will not be putting up any show, this is also the reason why he can achieve today's position.

"Lin Ran young friend, not satisfied with you say, before old Yang introduced you to me, I was really a little uneasy, but now a look is indeed my old eyes, vision is not as good as old Yang!"

Dean Yu laughed awkwardly, while busy saying.

"This is the case, I still have two things I want you to help me identify, one of them is also from Fengling Town!"

"Fengling Town?"

Lin Ran smiled and only then remembered this place, and said.

"This matter is naturally no problem, but I am now worried about Fengling Town!"

"I understand what you mean, but you don't have to worry!"

Dean Yu stroked his beard and laughed.

"I'm not going to hide it from you, our medicinal herb association has cooperation with Fengling Town, and this time, all these things with red spots are shipped to us, they are all here! Fengling Town no longer has such things, so there is no hidden danger!"

Saying that, Dean Yu also took out his phone and smiled at Lin Ran.

"Just now I've called the person in charge over there and told them to be sure to be careful with these things with red spots, and destroy them as soon as they are found, so as not to hurt the innocent!"

"It's still Dean Yu's thoughtfulness!"

Lin Ran smiled, so look at this Dean Yu is not so annoying.

"Little friend now go with me to see things?"

Dean Yu laughed and made a gesture of invitation.

"Not yet!"

Lin Ran laughed.

"I've got my eye on something here, after I buy it, we'll go over, two minutes is quick!"

"Good! Then we'll wait here for you!"

Dean Yu laughed, since Lin Ran had already agreed, he was naturally relieved.

"What do you fancy?"

Dean Yang was busy asking, the things that could make Lin Ran look at, obviously not mundane things he was also a little curious.

"It's not easy to say, I can't see through it for now, we can go see it together!"

Lin Ran laughed.

“Good, I will accompany you to take a look!”

Dean Yang laughed, while glancing at Dean Yu, seeking to see if he would come along.

“I won’t go, I’ll go prepare my things first, Old Yang later you guys come to my office!”

Dean Yu laughed.

“Good!”

Dean Yang nodded, and then whirled and walked over with Lin Ran.

“Brother Li, I still need to trouble you, arrange for a car to come over later and transport these poisonous herbs to this office building for me!”

Lin Ran told Li Wansan an address and asked him to help transport these herbs.

“Okay didn’t ask you!”

Li Wansan immediately agreed, while taking out his cell phone and arranging for it to go down.

“Ranzi, what do you need these herbs for? It’s hard not to make poison, it’s against the law!”

Wang Yifeng said at the side.

“You can pull back, brother Lin Ran is a good citizen, how can he make poison!”

Luo Cheng laughed at the side.

“I don’t know how to make poison, but these things are still of some use to me!”

Lin Ran laughed.

“What use? Lin Ran, what exactly are you going to do with this batch of herbs?”

Dean Yang asked at the side, this herbal medicine was of great importance, and he was afraid that Lin Ran would do something nonsensical.

Lin Ran glanced at the crowd and lowered his voice and laughed.

“Sell it!”

“Huh?”

The crowd was stunned at the words, sold? Isn’t this a pit!

“Ranzi, you’re fucking going to have an accident, ah, fat master can not see the death, you absolutely can not sell this thing, harmful ah!”

“Yes Lin Ran, how can you take it and sell it?”

Dean Yang was also dumbfounded by what he heard, only Luo Cheng looked very calm at this time.

When he saw the address just now, he already understood what Lin Ran was planning to do.

“These things, naturally, won’t be sold to ordinary people, don’t worry, I can naturally find a suitable buyer!”

Lin Ran laughed.

“Alright then, but you have to be careful, Ranzi, you definitely can’t cause an accident!”

Dean Yang was busy reminding.

“Don’t worry Dean, I, Wang Yifeng, am definitely watching him, if he dares to mess up, I’ll be the first one not to let him go!”

Wang Yiming said righteously, but Lin Ran was too lazy to pay attention to him, smiling and shaking his head, walking towards a glass tube clasped with herbs in front.

“Is this it?”

In his head, Lin Ran asked.

“That’s right, the whole infield I have seen, only this one I can not see through, there seems to be a small pill inside do not know what it is!”

The pillow book jumped out and said.

“Good! Then it’s it!”

Lin Ran smiled lightly and immediately pointed to the glass cover in front of him and said.

“This is it, take it out! I’ll take it!”

Someone next to him immediately went forward and opened the glass cover and took the item out.

“Sir this item has a price tag of one hundred thousand!”

The staff said.

Lin Ran didn’t even think about it and directly took out his bank card and gave it to the other party.

“Ranzi, what the hell is this thing!”

Wang Yifei asked, and Dean Yang and the others also came over and looked at it with great curiosity.

But the more people looked at it, the more they wondered, how this thing four square like a wooden lump.

“Ranzi, your vision is different ah, here so many ginseng you do not want to spend 100,000 to buy a wooden lump, or four square, how to prepare for the practice of lead ball ah!

“Even your sister lead ball, there is a pill in here!”

Lin Ran helplessly said.

Wang Yifeng smiled at the words.

“Pills? Isn’t that a ball? So you still want to practice lead balloon ah!”

Chapter 728

Soon, after receiving the bank card handed back by the staff, Lin Ran also finally took the four-square herb in his hand.

“Lin Ran, what is this thing?”

On the side, Dean Yang was busy asking, there were so many things in the infield, and Lin Ran had fallen for this one, which couldn't help but make him a bit puzzled.

“Dean Yang, seriously! I don't know what's in it, I'm just sure that there's a pill in it, but what exactly it is, I'll have to cut it open after we go to see for sure!”

Lin Ran scratched his head in embarrassment.

Dean Yang listened in a daze, also shook his head.

“I do not know what things, are spending 100,000 to buy down, it seems that you kid is also developed recently!”

“Hey hey, developed dare not say, also just have two free money!”

Lin Ran laughed awkwardly.

“All right, let's go find Old Yu, this guy is afraid that he is already waiting for anxious!”

Dean Yang greeted, and immediately led Lin Ran and others towards Dean Yu's office.

.....

If you don't say that Dean Yu is the leader, just this office is definitely considered luxurious, and there is even a set of independent medical testing equipment inside, obviously the necessary things that people usually use to test the drug properties.

“Old Yu is anxious to wait!”

As soon as he entered, Dean Yang flirted with a smile.

“Anxious is quite anxious, but I still believe in little brother Lin Ran's character!”

Dean Yu laughed, while personally going forward to lock the door, and then looked at the crowd.

“Let's not say any more nonsense, let's start straight away!”

“Snap!”

Dean Yu clapped his hands at the crowd, followed by seeing that in the wall behind the desk, there were actually two holes dented in, and soon two with wooden boxes were revealed.

“That's them!”

Dean Yu smiled and went forward, took the things out, Lin Ran and others saw that two notes were attached to each of the two wooden closures.

“Fengling Town!”

“Nanqi Mountain!”

“This Nanqi Mountain is?”

Lin Ran frowned and asked.

“This Nanqi Mountain is a very treacherous place, somewhat similar to the Taihang Mountains, in which herbs are rarely found, but whenever they are found they are definitely good things!”

Dean Yu laughed.

“Old Yu, you really are a big shot, it seems that the things that came out of Nanqi Mountain this time, were gotten by you!”

Dean Yang laughed.

Dean Yu but heard waved his hand.

“Come on, this Nanqi Mountain is famous, but the things that come out and gambling stones a reason, in the end is not the real thing, still have to open it to know ah!”

“Which one do we start with first?”

Lin Ran asked with a smile, he could see that this Dean Yu also had no bottom in his heart.

“Let’s start with this one first!”

Dean Yu pointed to the box labeled Fengling Town and said.

“Good!”

Lin Ran nodded his head.

Following that, Dean Yu opened the box and soon revealed a round thing inside that looked like a mass of earth.

“This is the mother earth, easy to transport, and the real stuff is inside!”

Dean Yu said, while looking for a small hammer, gently knocked a few times, and soon the outside layer of mother earth cracked open one after another, revealing what was inside.

This can be a plant still covered with soil, looks somewhat like some kind of ginseng herbs, but and ordinary ginseng, He Shou Wu also different.

The leaves on top of this plant are somewhat similar to radish leaves, and the bottom is somewhat like the predecessor of a pickle, that is, mustard, but Lin Ran knows that this thing is definitely not mustard.

“This is a held geosynth, according to reason this herb is not much precious, may Zhang so big, definitely considered rare!”

Dean Yu laughed.

“Sort of, it does look like geosheng, but this thing is so different from geosheng! For the time being, we can’t completely determine that it is geosheng!”

Lin Ran frowned slightly, because he had already noticed that there were red spots on the rhizome of this herb!

“Everyone stand a little farther away!”

Lin Ran reminded, while glancing at Dean Yu, seeing that the latter didn't say anything more, he immediately picked up a scalpel next to him and sliced down at the rhizome.

“Ka-chow!”

The rhizome ruptured, and immediately a white juice flowed out, but the white juice only flowed a little, and soon turned black, just like the black sewage flowing out after the burning of paper.

“This

The crowd looked stunned, especially Dean Yu, a bad feeling, has filled up from the bottom of the heart.

“This thing is already ruined!”

Lin Ran did not raise his head and said indifferently.

At the same time picked up the scalpel directly cut the rhizome into two, and immediately the inside was revealed.

Only to see the white epidermis inside, surprisingly has been black through the heart, inside has been completely scrapped, no matter what was inside before, now has been completely lost.

“Hey! It seems this thing is still big-eyed!”

Dean Yu sighed, but also relieved.

Even if there really is something inside, he knows that this thing is not something he can move anymore, after all, tainted with red spots already contains a strong poison, and this poison he simply can not deal with.

“Look at the next piece!”

Dean Yu is also quick, directly greeted people to take away this thing to deal with, while the wooden box produced from Nanqi Mountain brought over.

“The seller said this thing is a ginseng, but the price is more than ten times higher, it is said that there is something fishy inside this ginseng, please Lin Ran little friend eyes!”

As he spoke, the wooden box was opened, revealing a palm-sized ginseng inside!

“This ginseng seems to be nothing strange!”

Li Wansan could not help but frown, he poured herbs for many years, this kind of ginseng is also seen a lot, as if there is no difference with the ordinary.

“No, look carefully, the bottom of this ginseng, there is a tentacle is not ginseng!”

Next to him, Dean Yang observed very carefully and immediately found the anomaly.

“That’s right! Underneath this ginseng, there is a section that is indeed not a ginseng, but this thing seems to be one with the ginseng, dissatisfied with everyone, this ginseng at first I also took it to do a CT scan, but can not see what is inside at all!”

Dean Feather said, eyes full of doubts.

“Can I pick it up and take a look?”

Lin Ran asked, seeing Dean Yu nod, Lin Ran immediately picked up the ginseng and placed it in front of his eyes to see for himself.

He found that the lower part of the ginseng had indeed grown a small thing, which seemed to have grown out from the inside of the ginseng, something similar to a tender shoot, but it had obviously dried up, and it was still a little hard to touch, so he didn’t know what it was.

“Go!”

Lin Ran fingertips lightly, followed by a medical dao true qi then invaded, and soon a set of images appeared in his mind, looking at his whole person froze.

“This is a wormwood ginseng! Dean Yu, you’ve made a fortune!”

Lin Ran looked at Dean Yu and laughed.

“Wormwood ginseng? What is that thing?”

Dean Yu and the others were stunned to hear that wormwood ginseng was something they had never heard of at all, and that it really existed in the herbal world?

“How come you guys don’t know anything?”

Wang Yifeng laughed as he listened.

“Wormwood ginseng, that is not the wormwood and ginseng, according to me Ranzi this means that this ginseng inside the growth of a wormwood, to put it bluntly is the rise of a parasite, and our human body into a worm a reason!”

Wang Yifeng said with a face full of smugness, not noticing the idiotic gaze cast by others around.

Chapter 729

“I say fatty, you do not understand, do not blindly participate, what wormwood ginseng, I have only heard of winter worm, summer grass, and ginseng, you think this is engaged in biological research, but also ginseng drilled wormwood, how is this possible!”

Li Wansan did not believe it at all.

In fact, not only him, even Dean Yang and Dean Yu feel that this dead fatty is bullshit.

Luo Cheng, needless to say, was a layman, and at this point he just smiled and did not make any comments.

“Little friend Lin Ran, how exactly does this wormwood ginseng speak?”

Dean Yu asked in bewilderment, he did not believe in Wang Yifeng's bullshit.

"Two deans, Brother Wan San, Fatty is right!"

Lin Ran glanced at the crowd and laughed helplessly.

"What? He's right?"

Li Wansan immediately froze, and so did the two deans.

"Haha! How about it, Fat Master I told you that this is a parasitic relationship, and you still don't believe me, so that you laugh at Fat Master's lack of culture and get hit in the face!"

Wang Yifeng was full of smugness.

Lin Ran gave him a blank look and explained.

"Some times thinking about the problem is actually so straightforward, fat a tendon can hardly guess right!"

"Hey, Ranzi you say this fat master I do not like to hear, I am not a tendon, but seeing is believing!"

Wang Yifeng defended.

"But little friend Lin Ran, can this situation really exist? Ginseng is in Nanqi Mountain, it is not suitable for the cultivation of Cordyceps at all, it is like a polar bear to the equator, it can't live at all!"

Dean Yu puzzled, Nanqi Mountain what situation he knows best, this winter worm summer grass to Nanqi Mountain absolutely no possibility of survival.

"This is a coincidence!"

Lin Ran said with a serious face.

"As the saying goes, there is no coincidence, likewise there are no absolutes in the world, Amber you all know it!"

"Amber?"

The crowd froze and seemed to think of something.

"If I remember correctly, there was an article on amber in the language textbook, the spider preyed on a mosquito, but in a flash, was submerged by amber, and has since become a rare artifact! What do you guys think the probability of this kind of thing is?"

"This"

The crowd is silent, if you take the probability of this thing to talk, indeed, there is such a possibility.

"This wormwood ginseng is likely to be a matter of probability as well!"

Lin Ran put the wormwood ginseng down and looked at Dean Yu.

“Dean Yu, for the time being, regardless of how it was actually formed, whether someone could have grown it or not, whether someone accidentally forgot the wormwood in Nanqi Mountain and by chance this wormwood ginseng appeared or not, this is not the point of the matter!”

“The point is, now this wormwood ginseng really appeared, right in front of everyone’s eyes, then how it was formed is no longer important, after all, you are not engaged in the root of the question, you want to be identified!”

“Then what I can tell you is that this is indeed a wormwood ginseng, this cut below is part of the wormwood, the reason why CT can’t check it out is because there is a membrane wrapped around the outside of the wormwood, this thing is like a buffer zone, it blends the wormwood and the ginseng perfectly!”

“So this wormwood ginseng, it’s worth a lot! You didn’t buy it at a loss!”

Lin Ran said a lot in one breath.

Hearing Dean Yu and the others were stunned, not responding for half a day.

“Alright! Dean Yu, we’ve seen everything and it’s getting late, we have to go now!”

Lin Ran still had the thing he had bought in his mind and was ready to leave right away.

“Little friend Lin Ran, wait a moment!”

Dean Yu reacted and busily spoke.

“Dean Yu still has something else?”

Lin Ran asked suspiciously, what else did this Dean Yu want when he had finished looking at the things?

Dean Yu did not answer, instead, he calmly repackaged the wormwood ginseng and then respectfully brought it in front of Lin Ran.

“Little friend Lin Ran, I won’t ask about the value of this Cordyceps ginseng, now I want to give it to you! Please also be sure to accept it!”

“Holy shit, old man Yu, you’re really generous!”

Wang Yifeng had a wealthy face and was about to take it, but he was slapped by Lin Ran and shrank his hand back.

“Brother Lin Ran, for nothing, you don’t even want this?”

Li Wansan is also looking at the eyes of the light, this wormwood ginseng if taken out to sell, at least is also the sky price.

“Take people’s money and help them eliminate disasters, don’t you understand this?”

Lin Ran glanced at the two, before his gaze fell on Dean Yu.

“Dean Yu please say something, it’s better to listen to this thing and then decide whether you want it or not!”

“Haha! Little friend Lin Ran is really quick, okay! Then old man I’ll cut the crap!”

Dean Yu said as he placed the box on the table and looked at Dean Yang next to him, laughing.

“A few months ago, old Dean Yang was bragging to me that his medical skills had grown because of a pharmacopoeia booklet, at that time I didn’t believe it and didn’t care!”

“But at this moment, seeing little friend Lin Ran, I believe it! Old Yang once said that you gave him this pamphlet!”

Speaking here, Dean Yu looked at Lin Ran with a longing in his eyes.

“I want to observe that Pill Canon pamphlet, so please can little friend Lin Ran give the word and let old Yang lend it to me for viewing!”

Saying that, Dean Yu rushed towards Lin Ran and gave a respectful salute, immediately looking at Wang Yifeng and the others were dumbfounded.

Dean Yu what status, actually gave Lin Ran a salute, this salute is definitely many people do not dare to think about.

Seeing Lin Ran looking at himself, Dean Yang helplessly said.

“Ah Lin Ran, you gave me this Pill Dictionary booklet, I can’t possibly show it to him without your consent! So now you decide!”

Lin Ran didn’t say anything and turned his head to look at Dean Yu again.

“If little friend feels that this wormwood ginseng is not valuable enough, I can still”

Dean Yu thought it was the wormwood ginseng that wasn’t worth enough and wanted to raise the price, but before he could finish his words, he was interrupted by Lin Ran.

“That’s enough!”

“Little friend!”

Seeing Lin Ran’s icy face, Dean Yu’s heart lifted.

“Dean Yu, do you know how precious that medicine dictionary booklet is?”

“I don’t know!”

Dean Yu shook his head, he indeed did not know.

“I can well not exaggerate to say that that pharmacopoeia pamphlet is definitely a hundred times more precious than all the Chinese medicine dictionaries that have information left now, and it is still only the first half of the book!”

Lin Ran solemnly said.

“The first half of the book?”

The first half of the book alone is so powerful, he simply does not dare to think how his medical skills will reach if he gets the whole book.

“Little friend Lin Ran, incomparable please promise! What do you want you just start, I will get it!”

Dean Yu was completely frantic, he wanted to know what was written in that pharmacopoeia booklet at this point.

“Lin Ran!”

Dean Yang also looked at Lin Ran, with hope in his eyes.

“Dean Yang, greed is too much to chew, when you fully master the last book, I naturally won’t begrudge you the second half of the book, but now is not the time!”

“Understood!”

Dean Yang was busy nodding his head, and the stone planted in his heart fell to the ground.

“Let’s go!”

Lin Ran turned around and gave a greeting, and was ready to leave at that moment.

“Little friend Lin Ran, what about mine?”

Dean Yu couldn’t help but tense up and busily opened his mouth to ask.

Lin Ran’s pace gave a beat, turned his head to look at Dean Yu and said indifferently.

“Chinese medicine is different from Western medicine, the thousands of years of gateway views are too serious, I gave it to Dean Yang naturally because I want him to carry it forward, but Chinese medicine is also too vast and profound, to whom it is passed on and to whom it is not, one has to be extremely careful!”

“I believe in Dean Yang’s character, so I gave it to him, as for you, I do not understand! Whether to give it to you or not, I believe Dean Yang will have his own judgment, I will not interfere in this matter!”

“Thank you!”

Dean Yu immediately saw hope, grateful, if it is to let Dean Yang to decide, then there is hope for this matter.

“And a word to you before you leave!”

Lin Ran looked at Dean Yu and said solemnly.

“Chinese medicine is the treasure of our nation, and treasures are priceless! You really gave the wrong gift!”

After saying that, Lin Ran led people to leave the office directly.

Chapter 730

“Old Yu, how about it! I’ve said that Lin Ran is not the kind of person who is greedy for money, and you still had to send some kind of gift, which almost caused a big disaster, right!”

After Lin Ran left, Dean Yang laughed.

“Ai! I was reckless, I didn’t expect little friend Lin Ran to be young, but he is full of righteousness, it seems that the rise of our Chinese medicine community is expected!”

Dean Yu sighed with emotion, followed by a happy face, and busily rushed to Dean Yang.

“Old Yang, when will you give me that pharmacopoeia booklet to look at!”

“Give you a look? First get me two altars of your treasured daughter’s red, or else no negotiation!”

Dean Yang sat on the ground and raised the price, with a cunning look.

“You old Yang head, my daughter red is less than ten jars left, you ask for two jars, why do not you go to the strong ah!”

Dean Yu was full of heartache.

“Heartbroken? That’s fine, I’ll keep the pharmacopoeia booklet to take into my coffin, you want it, go dig my grave! Haha!”

“You!”

Dean Yu was furious and sighed helplessly.

“All right, all right! Old cunning, just two jars of wine, tonight go up to my house, let you drink enough!”

“But let’s agree first, you must bring the pharmacopoeia booklet!”

“Then again, I still have to see your character, after all, you have not yet explained the matter of Supervisor Shen!”

Dean Yang waved his hand with a smile and followed him out of the office.

.....

For the two of them, Lin Ran naturally lazy to care, the pharmacopoeia booklet has been handed over to President Yang, whether to give others to see, he believes that President Yang has this judgment to see people.

And the way of Chinese medicine wants to flourish, relying on himself and Dean Yang is absolutely not possible, so he never intended to treasure these things.

Li Zheng he had given, and so did Sai Hua Tuo, but Lin Ran still values character, so the people who are worthy of him giving the pharmacopoeia booklet are all people of very positive character.

.....

Leaving the herbal auction house, Luo Cheng left first, now the Luo family’s affairs he took over more and more, is also more and more busy.

And Li Wansan also quickly left, saying that he went to greet the delivery of those toxic herbs, after all, the matter is too important to be sloppy.

And he told Lin Ran that at three o'clock in the afternoon, the herbs could definitely be delivered to the latter's designated office building.

"Let's go! Let's go back!"

Lin Ran greeted, and the two of them went straight back to the shop.

Store, still as usual, not much popularity, Wang Mao A Zhan two people under the leadership of Master Yu, seriously studying feng shui booklet, but seems to be very motivated.

This can not be helped, do their business, in fact, and antiques are very similar, are not open for three years, open to eat three years, such as the last Meng family, Lin Ran has earned several million, such a size of the business, if every day is very busy, I'm afraid they have long earned enough to close down the business.

"Come on, are you tired of watching all day, to fight landlord!"

Wang Yifeng was bored, immediately pulled the three downstairs to fight landlord.

Lin Ran also did not bother to take care of them, went straight up to the second floor and took out the four-square strange herbal lump.

"What exactly is inside this?"

Lin Ran was curious, and immediately found a dagger and carefully cut the four-square lump open.

"Dang!"

The dagger cut through the middle and actually made a brittle sound, followed by the fact that it couldn't be cut.

"Hmm?"

Lin Ran frowned and immediately pulled the dagger out, following the method of peeling an apple, peeling off the outer skin from the outside layer by layer.

The original four-square herb lump, in Lin Ran's hands, soon became a round thing, as if it was a walnut.

"I can't peel it anymore!"

Looking at the thing that finally appeared in his hand, only the size of a large marble, Lin Ran was also helpless.

"What the hell is this thing?"

Lin Ran asked in wonder.

"I don't know, I can't tell at all! Do you think it could be this herb that has grown a tumor!"

Pillow Book also wondered, even his probing couldn't go deep enough to show that this thing was afraid of being extraordinary.

“Hey!”

Suddenly, the pillow book seems to have thought of something, busy said.

“Do you think this thing could be a wood spirit pearl!”

“Wood spirit beads?”

Lin Ran was stunned, and his heart jumped.

Before the pillow book also similarly can not probe the other spirit beads sense, in addition to the recent Lin Ran’s burst of luck, so look at it seems to have a real possibility.

“You first take out the five spirit beads to try!”

The pillow book urged.

Now there was no other way, Lin Ran just had to do as he was told.

“Weng!”

Sure enough, as soon as the five spirit pearls were taken out, the strange orb in his hand instantly took a turn for the worse and actually flew out of Lin Ran’s hand.

“Shit, it’s really a wood spirit pearl!”

Looking at the wooden lump that was floating in mid-air and began to rotate rapidly, Lin Ran only felt his heart rise to his throat.

The wooden lump quickly rotated, followed by the top skin actually slowly cracked, revealing a crystal clear green bead.

“This bead, with an incomparable emerald green body, did not have a smooth surface, but instead had a ripple, looking as if it was a walnut carved out of emerald.

“Weng!”

With a sound, that wood spirit pearl actually flew quickly towards the five spirit pearls and followed and embedded inside.

“Kid! You don’t fucking go to buy lottery tickets are losing a lot of money, this luck is simply making people jealous!”

The pillow book helplessly said.

In a short period of time, the five spirit pearls were gathered together four, this character is afraid that the Immortal Emperor his old man did not have such an unbelievable year.

“To say it is really better, but you also said, the more good things appear, the more difficult this time the calamity, afraid that the heavens are also afraid that I can not survive it!

Lin Ran laughed bitterly, while putting away the five spirit beads.

“To replace Xiao Nuan’s bones and cleanse her marrow, just one last fire spirit pearl is missing!”

Lin Ran sighed, the four women's bone exchange and marrow cleansing, now only Song Nuan was missing, as long as he found the last fire spirit bead, he could start the bone exchange and marrow cleansing for Song Nuan.

Putting away the spirit beads, Lin Ran looked at the time and saw that it was already noon, not even a few hours before 3 pm, so he got up and went downstairs.

"Fatty, I'm going out, you guys solve the meal thing by yourselves at noon!"

"Go out? Where to go ah?"

Wang Yifeng asked inquisitively.

"To see Li Sheng!"

Lin Ran is not hidden, the poisonous herbs will be shipped over in the afternoon, this thing is important he can not be careless, at the same time it is also time to meet with Prince Li Sheng, to talk about this change of affairs, so this trip he must go.

"Holy shit! How can a money-making hook be less than the fat master!"

As soon as he heard looking for Li Sheng, Wang Yifeng immediately remembered those herbs in the morning, immediately dropped the cards in his hand on the ground and greeted.

"Lunch you guys take care of yourselves, fat master I'm going to make big money!"

"Hey hey!"

Wang Mao three people have not yet reacted, Wang Yifeng has shot this ass followed Lin Ran ran out, and soon the sound of car engines rang outside.
