

Wonder Doctor

Chapter 931

“The test results are out!”

As soon as the phone was connected, the voice of the tester came from inside.

“How is it?”

Song Nuan asked busily.

“A lot of substances were detected, I’ll talk to you from the beginning, you’d better record it I’m afraid you won’t be able to remember!”

The other party said.

“Okay!”

Song Nuan nodded and busily turned on the recording.

“Put the speakerphone on!”

Lin Ran suddenly said.

At this moment, there were villagers around, so Lin Ran was obviously doing this to let them listen to it as well.

The speakerphone was turned on, and soon the voice of the inspector came from inside.

“Many toxic substances have been detected in the water, the most numerous of which are rosin acid, unsaturated fatty acids, hydrogen sulphide, methyl sulphide, methyl sulphide and multiple medium chlorinated organic compounds!”

“You may not understand these things, but in layman’s terms, there is only one possibility that they contain so many things and are present at the same time, and that is the waste water from the paper mill!”

“A paper mill?”

Lin Ran and Song Nuan were both stunned, and the villagers around them were even more stunned at the sound of it.

“A paper mill, isn’t there a paper mill in Baigou Village!”

Dalong said busily.

At once all the villagers snapped out of it.

The master that Boss Bai found came to the village to demonize the people, and this faulty water detected the waste water of the paper mill, it was all very clear.

“Ranzi, Village Chief Song, this can’t just be forgotten!”

“Right! We must get an explanation from Baigou Village!”

“A must! It’s too much!”

The villagers were outraged, this was a premeditated persecution and they would not give in.

“What about Lin Ran?”

Song Nuan looked at Lin Ran, at this point she was a little out of options.

“The villagers are right, we have to get a statement from Bai Gou Village on this matter!”

Lin Ran said indifferently.

“You stay in the village and stabilise the villagers’ emotions, I’ll take someone to Bai Gou Village!”

“Can you do that? Boss Bai he’s so crowded, will it be dangerous?”

Song Nuan asked worriedly.

“Don’t worry, the police will clean them up for this kind of thing!”

Lin Ran laughed, he wouldn’t be foolish enough to go to Boss Bai himself for a theory, just leave this kind of thing to the police, he had all the evidence ready.

“Dalong, take some villagers with you, we’ll go straight to Bai Gou Village!”

“Good!”

At Lin Ran’s command, at once some young villagers followed, and a group of people walked towards Bai Gou Village in great numbers.

.....

In Bai Gou Village, inside Boss Bai’s office.

“What did you say? Lin Ran has brought someone with him?”

The cigarette in Boss Bai’s hand almost fell to the ground, and his face suddenly turned ugly as he listened to the news brought back by his men.

“Not only did he bring someone here, I also got the news that that bullshit master has all confessed, Boss what if he recruits you out, what should we do?”

The handlers were busy asking.

Boss Bai was also confused at this moment, if it was really the same as what his men said, once Lin Ran called the police, then he would not be able to say anything with a hundred mouths.

“Don’t panic yet, this guy brought so many people to Bai Gou Village, he might have other plans, let’s see what happens first!”

Boss Bai pretended to be calm.

“Right, right! Or else they could just call the police,? Why come to our Bai Gou Village, it can’t be that they are deliberately coming to block people for fear of us escaping!”

On the side, Meng Yu was also busy echoing the words.

“Shut the fuck up!”

Boss Bai glared at him, his eyes full of ice cold, if he had known, he shouldn't have listened to this guy, what a bullshit idea... not only did he not get Lin Ran down now, but he's just getting himself into trouble!

“Boss Bai, don't worry, I've already submitted the documents, someone will definitely come down in a week at the latest, we'll be fine as long as we hold on!”

Meng Yu was busy saying, they had more than just this one plan, and the other plan was carried out by him.

“Humph! A week, if Lin Ran calls the police, not to mention a week, I won't even have a day!”

Boss Bai glared viciously at Meng Yu, but there was little panic in his heart.

Both of them had an unspoken understanding, and naturally, they dared to do so because they already had a full retreat.

“Boss! They're blocking the entrance to the village and they're not coming in!”

Suddenly, another henchman ran over and said.

“What? They didn't come in?”

Boss White was now completely a bit confused.

“Let's go! Let's go out and meet him!”

Boss White immediately greeted with a grit of his teeth.

“Good!”

At once, a group of people followed Boss Bai and left the office directly towards the village head.

At the head of the village, Lin Ran led his men and just quietly blocked the area, not going anywhere.

“Ranzi, we're not going in?”

Big Dragon asked from beside him.

“There's no need!”

Lin Ran laughed.

“Then what are we doing here?”

Not only was Big Dragon confused, even the others at the side didn't quite understand Lin Ran's meaning.

“Just wait!”

Lin Ran laughed, he wouldn't say anything to anyone until the plan was completely bright so as not to spook the snake.

"Lin Ran! What do you want to do with so many people coming to our Bai Gou Village?"

Soon, Boss Bai appeared at the head of the village with a group of people and looked at Lin Ran from a distance and questioned.

"Village Chief Bai, you should know better than me what I'm here for!"

Lin Ran said indifferently, his face not wavering with any expression.

"Old man doesn't know what you're talking about!"

Boss Bai said in a cold voice.

"Are you bringing so many people here to provoke a brawl between Bai Gou Village and Lin Jiawan?"

"A brawl? You're thinking too much, I can beat up a village of you by myself!"

Lin Ran said disdainfully.

"What an arrogant tone, so what the hell are you going to do!"

Boss Bai snorted coldly.

Lin Ran saw this but laughed.

"What I've come to do, you should know better than me, go back and prepare, there's not much time left for you!"

"You!"

Boss Bai's face sank when he heard that, he already understood what Lin Ran meant.

"Don't get cocky, since I dare to do it, I'm not afraid of you!"

Bai La Pour coldly snorted, while turning around and leading the crowd then returned to the village.

"Ranzi, we"

Da Long wanted to say something but stopped.

"I know what you want to say, but we're just not going in!"

Lin Ran laughed, and then looked at Big Dragon.

"You lead the men to the other exit of Bai Gou Village, we must block Boss Bai in the village today so that he can't go anywhere!"

"Good!"

Dalong nodded, although he didn't understand Lin Ran's plan, he naturally wouldn't oppose it since Lin Ran had said so.

Soon, Big Dragon led his men away.

The sky was also gradually darkening, and it was already evening, but there was no movement in the village of Bai Gou.

“Ding Ding Ding!”

Suddenly, Lin Ran’s mobile phone rang, and when he picked it up, it was Song Nuan calling.

“What’s wrong?”

Answering the call, Lin Ran asked directly.

“Lin Ran, I just thought about it, there is a mistake in this matter, even if Boss Bai was really taken away by the police, with his power he can definitely find a scapegoat!”

Song Nuan’s voice came over the phone.

“I know!”

Lin Ran unexpectedly actually nodded his head.

“You know and you’re still making such a fuss?”

Song Nuan was puzzled.

Lin Ran, on the other hand, said blandly.

“Firstly, to let the people of Bai Gou Village know how Boss Bai is, secondly, to give them a warning, and thirdly, even if there is a scapegoat in the end, he, Boss Bai, will have to be taken away for a period of time for investigation, at least during this period of time our village will be peaceful!”

“But this is a complete cure for the symptoms, not the root cause!”

Song Nuan said.

Lin Ran was silent, and after a moment sighed and said.

“There is no way out of this, Boss Bai is deeply rooted in Bai Gou Village, it is simply impossible to overthrow him in one go, we can only create the time for Lin Jia Wan to develop now, as for dealing with him is not our aim, it is best if we can overthrow him, if not, then let him feel afraid, when our Lin Jia Wan develops completely and grows to the point that even he is afraid, he will naturally not dare look for trouble in the future!”

Chapter 932

As the sky darkened a little, just when the crowd was a little tired of waiting, and even the fire in their hearts had dissipated a little.

Finally, there was movement from the peaceful village of Bai Gou.

“Ranzi, Boss Bai’s figure has been spotted over at Dalong, and he seems to be preparing to run away!”

Immediately, a villager ran over to explain the situation.

“You guys stay here, I’ll go by myself!”

Lin Ran greeted, and immediately ran towards the other exit of Bai Gou Village.

The terrain of Baigou Village was somewhat complicated, with a wide river canal on both sides, and there were only two exits, one in front and one in the back, the front exit was the one after descending from Lin Jiawan, while the other was at the paper mill, which was also a new exit purposely built for the construction of the paper mill back then.

But the two exits were very close to each other, and Lin Ran arrived here within a few minutes.

“Lin Ran it’s you again!”

When he saw Lin Ran coming, Bai Lao was so angry that he gritted his teeth, and the parcel he was carrying was thrown directly onto the ground, obviously seeing Lin Ran arriving, he knew that he was afraid he wouldn’t be able to get away today.

“What is this, Boss Bai? Are you preparing to run away?”

Looking at Boss Bai’s furious look, Lin Ran was smiling.

“Running away? Do I have the need to do that?”

Boss Bai snorted coldly.

“O? No? Then what are you doing here?”

Lin Ran laughed.

“Lin Ran, don’t go too far, using the method of blocking people when you can’t fight the old man, is that interesting?”

Boss Bai’s face was grim, his anger only tickled at the pressure.

“Then is it interesting for you to cry and hang yourself in order to restrict the development of our Lin Jiawan, one plan not working and another one coming?”

Lin Ran asked rhetorically.

“Humph! As far as your Lin Jiawan’s shitty place is concerned, is it necessary for old man to restrict your development?”

Boss Bai snorted coldly.

“O? Then you mean you’re targeting our village so much because of the feud between your son and me?”

Lin Ran laughed.

“That’s right! That’s right, how about that!”

Boss Bai was completely furious.

“Not so good, the son is a coward who is afraid of weakness, and the old man is a villain who will do whatever he can, you are a family of “talents”.

“You!”

Bai Lao was speechless, and Bai Cai was so angry that he clenched his fists and said angrily.

“Lin Ran, don’t go too far, my father is the village chief of Bai Gou Village, you are really taking Bai Gou Village for granted! ”

“Huh!”

Lin Ran laughed.

“Your father is the village chief, you are so tugging, who gave you the confidence, are you the village chief?”

“You!”

“You what you!”

Lin Ran sneered and continued.

“Village chief, that’s because the villagers trusted your father before they elected him, but this son of yours is really a punk, usually relying on the fact that your father is the village chief, he runs roughshod over the village, if it wasn’t for the fact that your father got a paper mill with some performance, do you think the villagers would have put up with you all this time?”

“Unfortunately, this time you’ve messed with my head, I won’t be able to take care of you!”

As he was talking, Lin Ran’s mobile phone rang again.

“Ranzi, we’ve caught Meng Yu!”

The voice of a villager came over the phone.

“Bring it here together!”

Lin Ran said,? at the same time hanging up the phone.

“I didn’t expect that Meng Yu had even cooperated with you, your village really did surprise me!”

“You don’t need to spout blood, what cooperation I don’t even know!”

Boss Bai said in a cold voice, although he and Meng Yu had been prepared, but at this moment, if Lin Ran caught them red-handed, this matter would really be troublesome.

While the two were talking, Meng Yu had already rushed over under the escort of the villagers.

“Boss Bai, save me!”

Seeing Boss Bai, Meng Yu hurriedly shouted as if he had seen a straw to save his life.

“Save what save! They are villagers, what can they do to you!”

Boss Bai said, looking at Meng Yu and wanting to slap him to death, this guy had no backbone at all.

“Villagers?”

Meng Yu then came back to his senses and immediately broke away from the villagers and ran next to Boss Bai.

“Lin Ran what the hell do you want, I am the village chief of Bai Gou village, you let the village of Lin Jia Wan escort me that is against the law!”

Meng Yu pointed at Lin Ran and scolded.

“In normal times what you said would naturally be fine, but this is not normal times!”

Lin Ran laughed lightly.

“What do you mean!”

Meng Yu frowned slightly, not understanding what Lin Ran meant.

“The meaning is simple, because I’m here to control the suspects for the police!”

Lin Ran said blandly.

“What suspects? What are you babbling about!”

Meng Yu’s face changed, pretending to be confused.

“You know exactly what the suspect is, I’m not going to bother talking to you, whether you want to go back to the village and wait or wait here is your business, in ten minutes at most, the police will arrive!”

Lin Ran said indifferently, while taking out his mobile phone and looking at it.

“Go!”

Boss Bai snorted coldly, followed by turning around and heading back to the village.

Lin Ran continued to guard the entrance of the village with the villagers so that Boss Bai had nowhere to hide, and Boss Bai also seemed to understand this, and this time simply wasn’t thinking about how to run, instead he took Bai Cai into his office alone, not knowing what he was talking about.

Ten minutes later, the police arrived on time, and Lin Ran handed over all his evidence to the police, and then even had Big Dragon accompany the police on a trip to take his statement.

Of course, naturally, those who were taken away were also Boss Bai and Meng Yu, as the village head and village secretary of Bai Gou Village, as well as the vice president as well as the boss of the paper mill, they were definitely naturally the two most suspected.

“Let’s go too!”

Watching Boss Bai and Meng Yu being led to the car, Lin Ran then nodded in satisfaction and greeted them as he prepared to return to Lin Jiawan.

“Lin Ran!”

Suddenly, an angry roar came from the crowd, and it was none other than Bai Cai.

“Something else?”

Lin Ran looked at him with a bland expression, without the slightest fluctuation of emotion.

“Lin Ran you remember, in a few days, you will end up worse than them, and my father will definitely come out of this alright!”

Bai Cai said in a cold voice his words were full of confidence and anger towards Lin Ran.

“Is that so? I’ll be waiting!”

Lin Ran smiled at his words with disdain on his face, then he turned around and left Bai Gou Village with the villagers in tow.

Looking at Lin Ran’s back, Bai Cai was so angry that he gritted his teeth. If it wasn’t for what his father had said to him before he was taken away, I’m afraid that he would have already rushed up to fight Lin Ran to the death.

It was because of what his father had said to him that gave him the hope to hold back.

“A week at the earliest, a month at the latest, by then I will personally go to Lin Jiawan and watch you being taken away, against my Bai Gou Village, against my father, you are still too young!”

Bai Cai gritted his teeth and said in a cold voice.

Lin Ran naturally had no idea about their plans, and certainly did not also know that there was another trouble brewing in the shadows.

At this moment, he had returned to Lin Jiawan and was finally able to relax for a few days, as Boss Bai and Meng Yu had been taken away, so at least he would have a lot less trouble these days.

The villagers were also very satisfied with this result, but Song Nuan was worried, it was not Lin Ran she was worried about, but Linjiawan.

“You are now at ease, but this has also aggravated the conflict between Lin Jiawan and Bai Gou Village, what about the crazy revenge of Boss Bai once we leave in the future?”

Song Nuan was very worried.

“This is out of my hands, the development of a village cannot rely on just one or two people, if by then I really hand the village over to the other villagers and the village ends up being screwed backwards by Boss Bai, then I can only say that this is their fate!”

Lin Ran said indifferently.

“No one has the responsibility to look after you for the rest of your life, so we can only decide the fate of Lin Jiawan in the last few years, as for the future, we can only look at the other villagers and the descendants of the future.”

The incident was like a huge storm, not only in Bai Gou Village, but also in Lin Jia Wan, and the news of this incident even spread throughout the town.

The usual low-key and poor Lin Jiawan now changed its style and directly fought with Bai Gou Village, and even sent Boss Bai and his village secretary to the police station for investigation, which was really a shocking tactic.

Lin Ran was too lazy to care about these matters, and now he had already devoted his energy to two things.

The first was the model house that was under construction, while the second was the development of resources on the back of the mountain.

Herbs were the mainstay of the economy in the early stages of development, but Lin Ran didn't want this to be the main source of economy, there was still a lot of things that could be used in the back of the mountain, but in the end, no matter how the back of the mountain was developed now, it was only an industry that lived off the sky.

On the one hand, he was thinking of how to develop the back of the mountain completely, and on the other hand, he was planning the use of the back of the mountain, but this matter needed to be worked out slowly and could not be completed in a short time.

Time passed day by day.

Exactly twenty days after Boss Bai was taken away, that is, almost three months after Lin Ran returned to the village, the first model house in Linjiawan was finally built.

"Ranzi, this house of yours is beautifully repaired!"

"Yes, I can't help but want to drink tea in the courtyard and listen to a little song!"

"Hey, if I could live in this house, I'd be willing to get remarried!"

Widow Liu also couldn't help but exclaim.

"When I save up enough money, I'll build you one!"

Da Long said solemnly next to her.

"Screw you!"

Widow Liu's pretty face flushed, a little embarrassed.

"Huh What's this? A public confession?"

"It's flesh and blood!"

The other villagers just felt goosebumps.

"Ranzi, can we go in and take a look?"

Standing in the courtyard, the villagers had a look of expectation in their eyes, all wanting to go in and see what it was like inside.

“Yes!”

Lin Ran laughed, while opening the door to the room.

The villagers poured in, and what they saw was a very modern display of furniture, with a TV, sofa, coffee table, partition and so on, and the whole room looked very comfortable.

The outside was classical in style, while the inside was a modern room, which was simply one of life's great pleasures.

“Hey? Ranzi, what's this for?”

The Second Grand Master pointed at the wall with a beat of buttons in confusion, somewhat puzzled.

“Second Grand Master, this is the light switch!”

Lin Ran laughed and went up and pressed it twice, and the lights in the room followed and changed to different colours.

“Aiya, it's amazing, ours is still pulling the cord!”

The second eldest exclaimed.

“These things have been around for years, but our village is poor, so the big guys have never seen them!”

Lin Ran laughed helplessly.

“Hey hey Ranzi, what's this for? Why is there a big bucket standing upside down?”

Widow Liu asked next to her.

“This is a water dispenser, it automatically boils hot water when you turn it on!”

Dalong explained from beside her.

“Automatically boils hot water? Boy, you'll have to buy one of these when you build a house in the future!”

Widow Liu said subconsciously, but just as she finished speaking, she felt something was wrong, and her pretty face suddenly turned red again.

“And this, look what this is for?”

Old Yu pointed to the large machine on the kitchen wall and wondered, he was used to living alone, hungry and full, and when he arrived at this model room he didn't forget to run to the kitchen to see if there was anything to eat.

“This is an electric water heater, it can be used for a hot shower in winter!”

Lin Ran laughed.

“An electric water heater? A hot bath in winter? My goodness, Ranzi, there are six or seven hundred people in our village, I'm afraid you won't be able to wash them all by the end of winter!”

Old Yu exclaimed.

“The whole village washes at Lin Ran’s house, not to mention the others.

Widow Liu said, laughing.

“Haha!”

The villagers all laughed along with her.

Looking at the villagers’ envy and love, Lin Ran’s heart was very satisfied, this was exactly the effect he wanted.

.....

Ten minutes later, at the head of Lin Jia Wan village, Lin Ran summoned all the villagers to a meeting.

“Ranzi, what kind of meeting is it now, we are still waiting to go to the mountains to collect medicine!”

“Yes, your family is building a new house, you can’t delay us from making money!”

“That’s right, I want a new house too!”

Each of the villagers looked at Lin Ran with great energy.

Lin Ran and Song Nuan looked at each other, both with smiles on their faces, before the latter was worried whether Lin Ran was doing this to have any effect, but now it seemed that the effect was not ordinary.

“Folks!”

Finally Lin Ran spoke up.

“The reason we’ve got you all here in a meeting now is because we’re going to announce something, something that will determine whether or not you’ll be able to live in a house like the one you just lived in!”

“What? We can live in a house like that too?”

“Really?”

“I can live there too?”

The villagers immediately exploded into a frenzy, each looking at Lin Ran with hope in their eyes.

“This house has three floors in total, each set will cost around 300,000!”

Lin Ran looked at the villagers and said, “As soon as these words were spoken, all the villagers wilted. They couldn’t even afford 300,000, not to mention 100,000.

Seeing that the villagers looked like frosted aubergines, Lin Ran smiled.

“Villagers, I’m talking about the entire 300,000. Do you remember why I gave you five less pieces of honeysuckle before? I said then that it was to be the start-up capital for the cooperative!”

“Each house is 300,000, but our co-operative directly subsidises 150,000, so how much is left? One hundred and fifty thousand!”

Lin Ran looked at everyone and laughed.

But when the villagers heard that there was still 150,000 left after the subsidy, they were all too happy to hear it!

Lin Ran was not in a hurry when he saw this and said with a smile.

“I know what you are thinking, the remaining 150,000 is an astronomical figure for our Linjiawan, but I would like to tell you that the village chief Song has already applied for a new rural subsidy for you, and each family will receive another 100,000 yuan, which means that in the end you only need to pay 50,000 yuan per family! And you’ll be able to live in a house like this!”

“Wow!”

As soon as Lin Ran’s words fell, there was an immediate explosion, 50,000 yuan to live in a house like that, this was simply a huge deal for them.

They had to know that in the three months since Lin Ran came back, the average amount of money they had earned had exceeded fifty thousand yuan, even if they smashed it all in to build a house, that was still equivalent to getting a house in three months, which they would never have dared to think about in the past.

“Ranzi, are you telling the truth?”

Widow Liu was the first to hold back, having lived a lifetime of hardship with her daughter Tiny, if 50,000 yuan could get her into such a nice house, she would definitely do it.

“Naturally it’s true!”

Lin Ran laughed.

Seeing Lin Ran nod, a crowd of villagers couldn’t help but shout.

“I’m willing! Count our family in!”

“And me our family

One by one, the villagers shouted loudly.

But there was one person in the crowd who was very situation, and that was the old village chief, who only looked at Lin Ran and asked after the villagers’ emotions had slightly eased.

“Ranzi, the old village chief just asked you a question, living in this house, the monthly expenses are afraid to be quite a lot, right, electricity and water bills this will become a burden for everyone in the future?”

Chapter 934

Lin Ran was stunned at his words, not expecting the old village chief to ask this question, then he smiled and patted his chest.

“Old village chief, don’t worry, folks, please also rest assured, I, Lin Ran, can let everyone live in the new house for 50,000 yuan, naturally I can ensure that in the future everyone’s income can completely afford the expenses of electricity and water, or even don’t care about these expenses at all!”

“Good!”

As soon as Lin Ran’s words fell, the group of people immediately applauded in unison.

The strength of a village did not care where the village was, but whether the leader of the village had ambition or not. Even though Lin Jiawan was in a ravine, they believed that following Lin Ran would definitely make Lin Jiawan completely new.

The village voted almost unanimously for Lin Ran’s decision, and with the villagers’ handprinted consent forms in hand, Lin Ran and Song Nuan were very happy.

“Now that the villagers have all agreed, when will the work start?”

Song Nuan asked busily.

“I will go to the town this afternoon to talk to the construction company. Each family in our village basically has only one set of houses, so if they are directly stripped and built on the original site, the villagers will have no place to live.

Lin Ran said.

“Hmm! What about the school thing?”

Song Nuan suddenly asked again, the new rural subsidies applied for, not just for the houses,? There was also a part for the construction of the school.

The school in Linjiawan, no! Linjiawan has no school at all, the only one that can be called a school is actually the villagers’ home, an old gentleman who is old enough to teach everyone’s children, there are no norms to speak of, not even a file.

“Likewise talk to him this afternoon and get our village primary school set up as soon as possible!”

Lin Ran said.

Linjiawan used to be really poor, so as it continued to develop, Lin Ran also found that Linjiawan did have a lot of things that needed to be built.

.....

In the afternoon, inside the construction company, Lin Ran Xiao Zhang as well as Chen Xi met up again.

“This is how the situation is, our village is very satisfied with the model house, this project can start construction at any time, but I need you to come up with a plan, you must demolish the villagers’ old houses only if you can guarantee that they all have a place to live!”

Lin Ran looked at the two people.

“We have taken this into consideration for a long time!”

Xiao Zhang laughed, while taking out a design drawing to compare with the current layout of Lin Jiawan's houses.

"We have carefully studied it, there are discrepancies between the arrangement of the new houses and the current houses, we can modify the current vacant areas first, then let the villagers who need to be demolished next move into the new houses, then in the demolition of the vacant ones, build houses on top of the demolished ones, and so on down the line!"

"Hmm!"

Lin Ran nodded at his words, this was indeed a very good solution.

"This is no problem, there's one more thing!"

Lin Ran turned his head to look at Chen Xi.

"Our village also needs to build a primary school, this design plan"

"I know, just leave it to me!"

Chen Xi nodded solemnly, she did not have any objections when it came to her work, she was just a little sad to see Lin Ran now.

"Good! Then I'll trouble you two!"

Lin Ran got up and arched his hand, then signed a contract with Xiao Zhang and agreed that the construction team would move into Linjiawan tomorrow.

Lin Ran was relieved that the matter was settled, and all he had to do was wait for time, which would give Linjiawan a complete facelift.

.....

When Lin Ran was driving back to Linjiawan in the afternoon, he was in a good mood, but when he was about to reach the foot of Linjiawan, he suddenly saw a van that was parked on the road towards Baigou Village.

Lin Ran only took a glance at it and recognised it as Bai Cai's van.

As expected, when Lin Ran's car approached, Bai Cai stepped out of the car, seeing this Lin Ran also parked his car next to it and got out.

"Lin Ran, you're really proud of yourself!"

Looking at Lin Ran, Bai Cai gritted his teeth, wishing he could go up and directly dismantle Lin Ran into pieces.

The few days his old man had been away could be described as days and years, and the hatred in his heart for Lin Ran was growing.

"Something wrong?"

Lin Ran looked at Bai Cai and said blandly.

“Nothing, I just came to tell you a word, your good days are coming to an end!”

Bai Cai sneered.

“O? Is that so? Then when is the end?”

Lin Ran laughed, with disdain in his eyes.

“Humph! You’ll find out soon enough!”

Bai Cai said in a cold voice, while turning to meet the car door and opening it, followed by two to familiar figures appearing.

“Boss Bai? Meng Yu? Out so soon?”

Looking at the two, Lin Ran was not the least bit surprised, twenty days, two Ran came out after twenty days, obviously having already found a scapegoat.

“Lin Ran, it’s been a long time!”

Boss Bai looked at Lin Ran with anger in his eyes.

“Surnamed Lin, I’m out again, our business is not over!”

Meng Yu looked at Lin Ran with the same gnashing of teeth.

“What? Twenty days and you still haven’t understood? Still want to go in and stay?”

Lin Ran looked at the two and laughed.

“Humph! You just have sharp teeth, wait until tomorrow and you’ll know who’s going to go in and stay there!”

Meng Yu said disdainfully.

Boss Bai even had a cold smile on his face.

“A newborn calf is not afraid of a tiger, do you really think you can bring me down? Don’t measure yourself!”

“Isn’t it out of your depth, you’re not going in too, tomorrow is it! I’ll be waiting, I hope you don’t let me down!”

Lin Ran laughed, at the same time turning around and getting into his car, he wasn’t the least bit surprised that Meng Yu and Boss Bai had been released, this was something he had guessed beforehand.

This was something Lin Ran hadn’t expected, there were actually people who were willing to work for Boss Bai at the expense of convicting himself these days.

“That’s right!”

Lin Ran started the car and suddenly thought of something, turning his head to look at the two men and smiling.

“One more word of advice for you before you go!”

“The net of heaven is wide open, don’t think that a scapegoat is always good to use, be good to yourself!”

With that said, Lin Ran took off up the hill with a kick of the accelerator.

“Father! Can we really clean him up tomorrow?”

As he watched Lin Ran leave, Bai Cai was so angry that his teeth itched.

“Don’t worry, tomorrow will be the day he dies!”

Next to him, Meng Yu gritted his teeth, but his face had a smug look on it, as if he was very confident in his arrangement.

“We’ll see tomorrow!”

Boss Bai turned his head to look at Meng Yu, did not say more, and then also got into the car and left.

.....

Back at home, Lin Ran had just entered the house with his front foot when Song Nuan was busy running over.

“What’s wrong?”

“What’s wrong? How did the talk go?”

Song Nuan asked busily.

“Everything went well, the construction team will enter the village tomorrow and start construction!”

Lin Ran laughed.

“Not bad!”

Song Nuan nodded in satisfaction, then took out her mobile phone and smiled at Lin Ran.

“Then I have good news for you too!”

“What’s the good news?”

Lin Ran asked with a smile.

Song Nuan laughed heatedly and said proudly.

“With my efforts, the working group for the construction of the new countryside is coming to our village tomorrow to inspect the work, accompanied by the media, our village is going to be on fire and might even become a model leading village in the town!”

“Really?”

Lin Ran could not help but be delighted at his words, if he could make Linjiawan a model leading village in the town, it would be a very good driving effect for the development of Linjiawan.

Chapter 935

The next morning, Lin Ran got up early to prepare for the arrival of the working group.

When the villagers heard that the working group was coming today, they all gave up going to the mountains to pick medicine and absolutely greet the leaders properly, after all, medicine is picked every day, but the leaders do not come every day.

Finally, at nine o'clock in the morning, three inspection vehicles appeared at the head of the village, and soon seven or eight leaders came down from the vehicles, Lin Ran knew the one in the lead, it was the steward of the town, Lin Ran had not often seen each other on TV.

"Greetings, leaders!"

Lin Ran and Song Nuan took the lead and greeted the other party.

"You're welcome, you must be Lin Ran and Song Nuan!"

The middle-aged man looked at the two of them, then his gaze fell on Song Nuan and he couldn't stop nodding his head.

"It's true that a tiger's father doesn't have a daughter, I, Yang, am really different at first sight today!"

Song Nuan understood the other party's words, obviously knowing who her father was, and immediately laughed.

"Leader Yang, you can't say that, the development of our Linjiawan has nothing to do with my father!"

"Yo, you're still quite strong!"

Leader Yang laughed.

"Leader, welcome to our village for guidance, I am Lin Ran, the helper of Village Chief Song!"

Lin Ran said with a smile.

"I know you, although you are a helper, but you are actually the backbone of your village!"

"Well, we're not here to go through the poker face this time, we still have to see if the work is done well on the ground to know!"

With that, leader Yang waved his hand, and several media followed behind him.

"I'll say it up front, if you do a good job, we'll praise you, if you don't, then don't blame me for being ungrateful!"

"Sure!"

Lin Ran smiled and nodded, he was really afraid that this Yang leader was also an asshole, but looking at the current situation, he was relieved instead.

"Xiao Nuan!"

Lin Ran greeted, gesturing for Song Nuan to walk in front, according to the rules after all she was the village leader, so this accompanying position had to be hers.

“Mm!”

Song Nuan nodded, understanding the rules, and walked directly in front of Lin Ran.

However, a group of people had just walked into the village, which hadn't seen anything yet, but the sound of a car's horn was heard again at the head of the village, followed by a van pulling up at the entrance, and soon Bai Cai Bai Boss as well as Meng Yu and some villagers followed them over.

“Why are the three of them here?”

Seeing these three, Song Nuan's face instantly sank and he was busy looking at Lin Ran.

Lin Ran also had a frown on his face at this time, and had a bad feeling in his heart.

“Don't be in a hurry, wait and see what happens!”

Lin Ran reminded.

The three men with seven or eight villagers soon reached the front of the crowd, and Boss Bai immediately rushed to Leader Yang and said.

“Leader Yang, I am the chief of Bai Gou Village, and this is Meng Yu, the village branch secretary of our village!”

“Looking for me for something?”

Yang leader looked at the two men, the same frown, these two men brought so many people to find themselves, obviously not a trivial matter, the key is now the media is also present, this matter today may not be able to come to trouble.

“Something is wrong!”

Meng Yu immediately straightened his back and looked at the Yang leader and said.

“Leader,? Half a month ago I wrote you a report letter, you should still remember it!”

“Remember!”

Yang Leader's face sank as he said blandly.

“It's been half a month, you should give a word, do you care about this or not!”

Meng Yu questioned.

As soon as he said this, all eyes fell on the Yang leader, obviously wanting to see what he said?

“I have written clearly in the report letter, Lin Ran Song Nuan and the two of them used their power for personal gain, and applied for so much money for the new rural subsidies, but what about now? I've brought all the people from our village here today, do you care about this or not, give me a word!”

Meng Yu pressed on step by step, obviously biting down on the matter of Lin Ran and Song Nuan embezzling public money.

Hearing Meng Yu's words, the surrounding media reporters went crazy, jokingly this is a huge topic, before the Yang leader said that he was going to make Lin Jiawan a model village.

If this was true and reported out, it would be a huge news story.

"Have you finished?"

Leader Yang swept his gaze over the crowd and finally looked at Meng Yu.

"I've finished!"

Meng Yu was straightforward and undaunted.

"Good! Then I'll tell you, I'm here today to verify!"

After saying that, Leader Yang blandly glanced at Meng Yu, turned his head away from him and rushed towards Song Nuan.

"Village Chief Song, lead the way!"

"Mm!"

Song Nuan was so angry that her pretty face turned red, but she knew that arguing with Meng Yu now would not solve the problem at all; whether she and Lin Ran had embezzled public money or not, we would naturally see later.

The crowd soon arrived at the head of the village and saw the model house built by Lin Jiawan from a distance, and not far away, there were workers working on it.

Seeing this scene, Boss Bai couldn't help but frown slightly, and even Meng Yu looked a little dumbfounded.

"Introduce it!"

Leader Yang looked towards Song Nuan.

Song Nuan nodded her head and immediately pointed ahead and smiled.

"This house is the model house we have just completed, while the construction workers in the distance are the other houses being built, all of which will be for the villagers to live in in the future!"

"So where do you villagers live now? If it doesn't hurt to get out a place to build houses, your village doesn't have that much land!"

Leader Yang asked.

"That's the problem, their village doesn't demolish the original houses, they just build two houses on the vacant land, and this is called new rural transformation? You can't be fooled by them, leader!"

Meng Yu was busy arguing.

Song Nuan and Lin Ran both looked at him at his words, but neither spoke.

“Have you finished?”

Leader Yang turned his head and looked at Meng Yu, with fire in his eyes.

“Say Finished talking!”

Meng Yu said resentfully.

“You guys say it!”

Leader Yang looked at Lin Ran and Song Nuan.

“I’ll say it!”

Lin Ran said as he took a step forward.

“You’ll say it? What are you, are you the village chief or the village branch secretary, what are you is!”

Meng Yu said disdainfully, seeing the stitch.

“I’m not the village chief, and I’m not the village branch secretary, but this is something that the village chief Song gave me responsibility for, do you know better or do I know better? Or else you would say it?”

Lin Ran looked at Meng Yu and smiled blandly.

“You!”

Meng Yu was so angry that his face suddenly turned blue, let him say it, he didn’t know anything at all, what the hell could he say.

“Shut up if you can’t say it, where’s all the nonsense!”

Lin Ran said in a cold voice, making Meng Yu’s face look even harder.

“Leader, this matter is well understood!”

Said Lin Ran, pointing to the work being built and laughing.

“The reason why the houses were not demolished first, but built first, that is precisely because we have limited land in Linjiawan, the villagers all have only one set of houses, if demolished where will the villagers live? We can’t run away to live in Bai Gou Village, although Bai’s family is rich and powerful, but our village is at least a few hundred people, I’m really afraid of eating through his wife’s book!”

“Haha!”

The moment Lin Ran said this, everyone around him laughed.

Lin Ran continued, “I discussed with the construction company, that we must ensure that the villagers have a place to live before we can start construction, so we came up with the current construction plan!”

“First, we will build the houses that are designed to be vacant lots, then we will move the villagers who need to be demolished into them, then we will demolish some of them and continue to build houses, and so on!”

“Hmm! This is a good idea, but will the speed be affected?”

Leader Yang asked.

Chapter 936

Song Nuan smiled awkwardly at his words and said.

“Leader, in fact, you don’t have to worry about this, our Lin Jiawan is just this big, there is not much time to check before and after!”

“What about this house? Even if your other villagers’ houses are fine, then what about this lone one? There must be something wrong with you!”

Meng Yu was busy saying when he saw this, he didn’t want to let the two Lin Ran off so easily.

“Indeed, what is the significance of this house being built?”

Leader Yang asked, building a separate house, this was somewhat unjustified.

“This is better understood!”

Song Nuan laughed.

“The villagers of Linjiawan are afraid of poverty, although there are subsidies, but in the end everyone still has to pay, so we decided to build a model house first, so that the villagers can see the comfortable benefits of the new house, and mobilise them, and then in a collective meeting explain that the house will be renovated!”

Speaking of this, Song Nuan took out a thick pile of consent forms.

“In fact it works so well that just yesterday, all the villagers in our village have all signed the consent forms, and soon all our houses in Linjiawan will be replaced with this new rural housing!”

“Hmm! Very good!”

Leader Yang nodded in satisfaction at his words, and his previous worries were a little better at this point, apparently still satisfied with the effect of Song Nuan’s two people’s work.

“Not right! It’s not right!”

Suddenly, Meng Yu at the back spoke up again.

“Leader, think about it, she has said that the people of Linjiawan are very poor, I have also learned that their village’s average annual human income is still not more than three thousand, even if there is a subsidy, this house will cost at least two hundred thousand for a set, how can they have the money to modify such a good house!”

Yang leader frowned slightly at his words, he had also thought of this question, he just didn't want to ask it, but he didn't expect to be stabbed out by this guy Meng Yu at this time.

"This question is much better understood!"

Before Song Nuan and Lin Ran could say anything, suddenly the second eldest next to him actually spoke up.

"Leader, I'm just a farmer I don't know what a subsidy is, nor do I know exactly how much it is, but I can tell you that Village Chief Song and Lin Ran's boy only let each of us pay 50,000 yuan per family! I've heard that a house costs 300,000 yuan, so we're paying 50,000 yuan per family.

"Yes! Only 50,000 yuan!"

The other villagers around us also said.

"Leader, I am a widow I also want to say something!"

Widow Liu was also busy saying.

"Ever since Lin Ran came back with Village Chief Song, we have been following them in the back of the mountain to collect medicine, and we have already earned 60,000 to 70,000 in the past three months, originally we had never seen so much money and definitely did not want to spend it, but Village Chief Song and Lin Ran's boy gave us hope, not only can we live in such a nice house, but we are also guaranteed to earn more in the future, that's why we agreed! "

"Right! And there's one more thing I, Old Yu, must say too!"

Old Yu said as he also took a rare shower today and changed his body clothes.

"When Lin Ran and the others first came back, they said they would take the villagers to pick medicine to make money, I was still not convinced, Lin Ran obviously signed a contract with others for eighty pieces per catty, but only gave us seventy-five, short of five pieces of rebate, later I learned that people were going to set up a cooperative, saying that it was for the back of the house modification, now it seems that people did not lie, the reason why we paid so little, must also be co-operative relationship!"

Looking at the villagers you sentence and I sentence, Yang leader has already grinned openly, while the side of Meng Yu is face ugly, clenched teeth do not know what to say.

"Meng Yu village chief, don't you suspect us of embezzlement? Don't worry, I'll show you the financial statement here!"

Song Nuan said as he came to the side of the new house, and as soon as he pulled off a red cloth from the wall, it immediately listed on it where all the money had gone.

"As you can see, there are two pieces on here, one is the destination of the money from the new rural subsidies, and the other is the destination of the money from the co-operative. We are not only showing it to the people of Linjiawan, but also to you people of Baigou Village, and even more so, we are showing the leaders whether Lin Ran and I have spent a single penny more than we should have!"

Song Nuan said aloud.

“Song Village Chief and Lin Ran embezzled? I’ll laugh!”

Off to the side, Big Dragon spoke up.

“I, Da Long, am also considered to be someone who has been outside, let’s not talk about Ran Zi, when Song Village Chief arrived that outfit was definitely a high-end brand, her talk was even very elegant, she looked like a lady of the house, would people lack money?”

“Besides Ranzi, he came back in a Porsche with more than one million dollars, but that little embezzled money? I’m afraid Zhang brain people will not believe it!”

Said here, big dragon disdainful glance at Meng Yu, sneered.

“I just wonder, the same university village officials, one has come to Baicun Village for almost two years, and Baicun Ditch has not seen any changes, while the other has only come to our Lin Jiawan for three months, and we are all going to get new houses!”

“I’m really curious, is it because the houses in Bai Gou Village are so comfortable to live in that you, Branch Chief Meng Yu, don’t want to change them, or is it because our houses in Lin Jia Wan are so dilapidated that the Chief Song has to have the whole village change to new houses!”

“Pfft!”

As soon as Dalong said this, all the villagers laughed, but on the contrary, the villagers of Baigou Village brought by Boss Bai were all red in the face and had no place to go.

“Leader Yang, you can’t believe them, they must be lying, how can each family only contribute 50,000, it’s absolutely impossible, how much money can the cooperative have!”

Meng Yu was busy arguing, he definitely didn’t believe this.

“They’re lying? Can these financial public figures lie too?”

Leader Yang looked at Meng Yu and said in a cold voice.

“As a university village official, you wouldn’t be unable to read these financial data, would you? The above is very clear, 300,000 new rural subsidies 150,000, the cooperative subsidies 100,000, so the villagers only need to pay 50,000!”

“Do you still have questions?”

Leader Yang looked at Meng Yu and said in a cold voice.

Meng Yu forced down the panic in his heart, and suddenly he noticed a set of data and immediately laughed.

“Leader no, look! That co-op up there doesn’t have much money left in their books at all, there’s no way they could have paid the subsequent payments, they’ve definitely embezzled!”

“Hmm?”

Leader Yang turned his head at his words and looked, and he really found that there was very little money left in the co-op’s payments.

“This!”

The surrounding villagers of Lin Jia Wan also looked shocked in their hearts, not understanding why this was.

“Folks, leaders! Listen to me!”

Lin Ran said with a smile.

“It’s true that the co-operative doesn’t have enough money to pay the full amount in one go, but you should all know that the final payment is made after the house is built, and our co-operative only has enough money to pay the deposit, but it will take at least several months for the house to be built, so will everyone stop picking medicine in these few months? Won’t the cooperative have any money to earn?”

When this was said, it suddenly dawned on everyone.

“When the house is changed, I believe our co-op will have enough money to pay the final payment, and I, Lin Ran, am putting my word out today!”

Lin Ran said as he swept his gaze over the crowd.

“When the New Year comes, the money from the co-op will just be enough to cover the construction budget for the coming year, and the rest we will all give dividends to everyone according to what the villagers have given to the village during the year, and the extra money that comes from the villagers will naturally be given back to the villagers!”

“Good!”

Hearing Lin Ran’s words, even leader Yang couldn’t help but clap his hands and applaud, such a good village official really moved even him a little.

Chapter 937

“Village Chief Meng Yu, do you have any more questions to ask?”

Leader Yang looked at Meng Yu and smiled blandly.

“I

Meng Yu was completely dumbfounded this time,? He had asked almost all the questions he knew and suspected in one breath, where were the questions left!

“There are no more are there!”

Leader Yang looked at him and said blandly.

“No more then shut up, follow and watch and learn! Look at how they help the villagers to get rich, and then look at what you are doing day in and day out!”

Saying this, Leader Yang turned his head away from him and waved at Song Nuan, saying.

“Let’s go, let’s continue to look!”

“Good!”

Song Nuan laughed, and at the same time, together with Lin Ran, accompanied Leader Yang to continue the tour.

“The two of you, we’ve actually always known about your village’s situation, your village’s location is rather remote, but in a sense this is also an advantage, I wonder how you plan to develop in the future?”

Leader Yang asked.

“Leader, let Lin Ran answer this, he is a native of Linjiawan, he has a better say on this!”

Song Nuan laughed.

Leader Yang nodded his head, and naturally Lin Ran was not polite and laughed.

“In fact, we have planned this long ago, the renovation of the villagers’ houses is just the beginning, next we have to build the village primary school and recruit teachers, after all, the children’s education is also very important!”

“In the next we have to integrate the surrounding resources, focus on digging deeper where Lin Jia Wan has the potential, after all, medicine picking is only the first step of development, truly sustainable development is the most fundamental way!”

“Well! Very well said!”

Leader Yang couldn’t help but praise.

While at the back, Boss Bai and Meng Yu were blue in the face and did not say a word.

“Father, why don’t we leave! This is too humiliating!”

Bai Cai couldn’t bear it anymore, there were still media reporters taking pictures of them from time to time in front of them, this was simply a disgrace to the family.

When the news comes out tomorrow, I’m afraid their village will be completely on fire.

“Go? I want to fucking leave too, but who dares!”

Boss Bai said angrily, while turning his head to look at Meng Yu, angrily.

“It’s all your good fucking idea, I’m so blind, how could I trust you, you idiot!”

“You can’t say that, Boss Bai, I didn’t expect them to do it so seamlessly either!”

Meng Yu looked aggrieved, he had really tried his best, only this force was used in the wrong direction, even if he tried as hard as he could, facing the fact that Lin Ran and Song Nuan had never been corrupt, he couldn’t win after all.

“Song Nuan, Lin Ran! I am relieved to hear about your development plan, but there are two points I have to talk to you about!”

Leader Yang said in a serious tone.

“Leader, please speak!”

The two men said seriously.

“The first point is that the development of the villagers’ income is indeed a top priority, but we must not neglect the improvement of personal quality, I suggest that after the primary school teachers are perfected, we can launch an adult school, you know the situation in our village better than I do, the villagers’ education level is very low, so improving the cultural literacy of adults is also a problem!”

Speaking here, Leader Yang lowered his voice to the two people.

“Think about it, if you don’t have literacy to arm your minds, when you have money the village will be in chaos in the future, and is it good for others to say that our Linjiawan is just a dirt thug?”

“What the leader said is right!”

Lin Ran two people nodded seriously, this is indeed a problem, before it was all Lin Ran negligence.

“Don’t worry leader, we will definitely supervise this when the primary school is completed!”

“Mm! Let’s talk about the second one!”

Leader Yang continued.

“The second point is the development of this back mountain, if there is a need you can look for me, after all, the back mountain belongs to the collective property, and I am afraid that it is not easy for your village to develop it alone, but getting out of poverty and getting rich is a must, so if there is a problem with funding, you can always look for me!”

“Good!”

Lin Ran came and nodded with a smile.

In fact, about this matter, Lin Ran already had a plan, just that it was not quite appropriate to say it now, so he could only respond with a smile.

“Alright! Let’s go up the mountain and take a look at the place where the big guys usually pick their medicine!”

Leader Yang laughed aloud.

“That’s right! You two come along too!”

After saying this, Leader Yang did not forget to turn his head and say to the two of them, Boss Bai.

“Yes! Yes!”

The two men were stunned and nodded their heads.

Arriving at the back of the mountain, looking at the vast back ridges, all of them could not help but admire the gift of nature when it was really comforting, this was the kindness of Mother Earth.

“Leader, this is where we usually pick our medicine!”

“Yes, yes, let’s demonstrate to you!”

The villagers of Linjiawan were very enthusiastic in demonstrating.

The Yang leader who watched nodded his head from time to time.

A moment later, he suddenly turned his head to look at the villagers and laughed aloud.

“Villagers, what do you think of Song Nuan and Lin Ran? Are you satisfied with them being your village leaders?”

Hearing this question, the villagers were first stunned, and then they all laughed.

“Satisfied, how can we not be satisfied, we’re even happy to have come across them both as our village chiefs!”

“Yes, we didn’t have much hope for life before, we just got by, but now we are all full of fighting spirit!”

“I’m glad we have a Lin Ran and a Song Nuan in our village!”

“Right! I agree!”

“I agree too!”

The villagers all applauded and laughed.

On the other hand, the Bai Gou Village side was collectively silent, not saying a word.

Leader Yang smiled and nodded his head, then looked at Boss Bai.

“Village Chief Bai, Village Branch Chief Meng Yu, have you learnt anything?”

“Huh?”

Both of them were stunned at the words, not knowing how to return.

Leader Yang looked to the other Bai Gou Village villagers, and then turned to Old Bai Da.

“A village is not for you to be a leader, let alone for your hands to cover the sky, it is for you to lead the villagers to prosperity, if you don’t understand this truth, you don’t need to be this village leader!”

“I declare!”

Suddenly, Leader Yang looked towards the media reporters and said aloud.

“From today onwards, Meng Yu’s appointment and removal as the branch secretary of Bai Gou Village will be revoked, and at the same time, the chief of Bai Village will not hold the position of the next chief of Bai Gou Village, and a new village chief branch secretary will be arranged soon!”

“Wow.”

The moment these words came out, everyone froze, especially Boss Bai and Meng Yu, but also listened as if they had fallen into an ice cave, they were so finished.

“It’s all your fucking fault!”

Boss Bai couldn't hold back any longer, and immediately wanted to strangle Meng Yu to death.

But at this point, there were people all around, and he knew that if he really did that? I'm afraid that not only face is removed from office.

The two people have not yet reacted, but Yang leader is to speak again.

He looked at the reporter's camera and said aloud.

"Finally, I repeat, as long as it is for the development of the villagers, we firmly embrace, those who do not act on a regular basis and make small moves behind the scenes, we will definitely not let go, everything will come to light!"

The leader said, Yang even looked at the two bosses, obviously a secret reference.

"Leader, with this word from you, we are relieved!"

Song Nuan said with relief, before the release of Boss Bai and Meng Yu, some villagers in Linjiawan were still very unhappy about it, but now when they heard the words of Leader Yang, they were relieved.

The leader had said so, so it was obvious that the matter would soon be investigated clearly.

Chapter 938

The next day, early in the morning, Dalong came running to Lin Ran.

"Ranzi, something's happened! Something big has happened!"

Big Dragon was full of excitement, causing Lin Ran to be somewhat baffled.

"What's going on?"

"I just got word that Meng Yu has been taken away for investigation again!"

Big Dragon said excitedly.

"Ao!"

Lin Ran nodded blandly, as if he already knew.

"No, Meng Yu has just been taken away, why are you reacting as if you already know!"

Big Dragon said helplessly.

"It's normal for him to be taken away, a village clerk who has been removed from his job must be taken away for investigation, where's Boss Bai?"

Lin Ran asked as he washed up.

He was more concerned about Boss Bai than Meng Yu, after all, this guy was deeply rooted in Baigou Village, if he insisted on resisting I'm afraid there would be some real trouble.

"Boss Bai? I haven't heard anything about him!"

Big Dragon scratched his head, he had gone to look at the village this morning when he heard the commotion, but he only saw Meng Yu, not Boss Bai.

“Boss Bai ran away with Bai Cai last night!”

Suddenly, the door of the room next to him opened and Song Nuan ran out pressing her mobile phone.

“How do you know?”

Both of them looked at her with a bewildered expression.

“Don’t you guys watch the news? We came to catch him last night, but we ended up pouncing on him!”

Song Nuan said and handed her phone to the two of them, on it was written a big headline “Bai Gou Village Chief Runs Away, Branch Secretary Arrested, Secret Dirty Deal Behind It Revealed!”

“Okay!”

Lin Ran shrugged helplessly and turned straight away to eat his breakfast.

He had little interest in the end of Boss Bai and Meng Yu, people were doing what they were told, and if they didn’t do more than they were told, they would kill themselves.

The change in the village of Bai Gou, some people are happy and some people are worried, Bai Village Gou temporarily without the village chief and branch secretary, the group of dragons and dragons in the village of the paper mill has become the most urgent management of the place, and on the contrary, Lin Jiawan is naturally the happiest, after all, the future development of the road, there will be less of this biggest shit-stirrer!

Two months passed in the blink of an eye, five months after Lin Ran’s return, and after two months of settling down, the hustle and bustle of Linjiawan gradually returned to calm once again.

The villagers’ income had grown more and more over the past few months, and because it was close to the mountain closure period, Lin Ran had directly found a construction company and got the young and strong villagers involved in the construction of the houses, which could also make money.

After all, it was the renovation of the entire village’s houses and the construction company was also facing a shortage of manpower, so they naturally welcomed the participation of the villagers.

A few days later, the trip up the mountain to collect medicine was closed. Although the village elders had no money to earn, they had earned so much money in the previous months that the people were very happy in their hearts. With the young people being able to participate in the construction of the houses and earn money at their doorsteps, the tension in the village eased down once again.

On this day, Lin Ran packed his things and took Song Nuan with him as he prepared to go to town.

“You guys come back early!”

Dalong looked at the two, a little nervous.

“Don’t worry!”

Lin Ran smiled, and immediately drove off with Song Nuan.

“The village is in the middle of a mountain closure right now, and many villagers are a little worried!”

Song Nuan said with a frown.

“I know!”

Lin Ran nodded, he also knew about this matter, but the mountain closure had to be enforced, otherwise there would be no profit to be made in the coming year.

“Then you’re asking the villagers to switch to herbal medicine en masse, is that really possible?”

Song Nuan asked busily.

“Don’t worry, there are more big things in the village this year, so it’s a bit late, but when the New Year is over you’ll be able to sell it immediately, and you can totally let the villagers plant it earlier next year to fill the gap!”

Lin Ran laughed.

It wasn’t that he didn’t have a countermeasure, he had thought of one long ago, but he just had too many things to deal with this year, so it was delayed.

According to Lin Ran’s plan, he asked the villagers to take out some of their arable land and start planting herbs manually two months before the mountain closure period, so that once the closure period came, the planted herbs could also be sold.

This will help alleviate the problem of low income brought about by the mountain closure period, and after selling the herbs in the New Year, it will soon be time to open the mountains again for medicine.

“The most important thing right now is the contracting of the back mountain, it’s up to you today!”

Lin Ran laughed.

“Well, I’ve already fought to take it down, you go for it too!”

Song Nuan laughed.

Both of them had come with a mission today.

Song Nuan was responsible for going to talk about contracting the back mountain, while Lin Ran was going to the job market to recruit teachers for the village primary school.

The village primary school had already been built, and the teacher was facing retirement at an older age, so what the village needed now was a teacher.

.....

When they arrived at the town, the two separated and Lin Ran went directly to the talent market and hung up the exhibition stand he had prepared beforehand.

Today is the job fair of the talent market’s expertise, all of which are some educational institutions’ recruitment.

Lin Ran sat at the table, looking at the crowds coming and going, and his heart was filled up.

“Hey hey! This is Lin Jiawan’s hey!”

“That’s it, Lin Jiawan is hiring primary school teachers!”

“Linjiawan is now a model village that the town is famous for, is there anyone considering it!”

Soon a crowd of people gathered in front of the exhibition stand, ranging from freshly graduated teacher training students to teachers who had already been in the education industry for a few years, all carefully weighing their options.

With the media coverage, Lin Jiawan has now become a famous village in the town, and is even a model leading village.

However, Lin Ran understood that even with all these achievements, it would not be easy to recruit teachers, as could be seen from the hesitation of these people who shook their heads afterwards.

After all, Linjiawan was a village, but anyone who could find a job in the town would not want to work in the village, after all, it was too cold and there were no recreational facilities around.

“But the treatment conditions in Linjiawan are really good!”

“Hey! Who says it isn’t? If I were a few years older I would have considered going!”

“I can’t help it, I’m still young, I still need to struggle! Go to the mountains this

One by one, the applicants looked and thought about the job, but eventually gave up.

“Hello, retired teacher want?”

Suddenly, just when Lin Ran some helpless, ready to wait and see, suddenly a man and a woman two old people but smiling and came over.

“Uncle and aunt are retired teachers?”

Lin Ran saw this and was busy getting up to ask.

The two people in front of him were both about fifty years old, the man had somewhat white hair, with a pair of eyes somewhat blessed in physique, looked very generous, while the woman was with a bookish atmosphere, a look is literati.

The two stood together, to the extent that they really had the feel of a scholarly couple.

“My name is Zeng Xueru, and this is my lover, Zeng Lin!”

The old man smiled.

“We are both retired teachers, I wonder if we can apply for the job?”

“Of course!”

Lin Ran didn’t even think about it and directly invited the two old men to sit down and chat in detail.

After all, in a place like Lin Jiawan, what was needed were teachers who could quietly teach their students properly, and the couple in front of him were obviously very suitable.

Chapter 939

“We are both retired teachers who previously taught at the town’s central primary school, I’m good at maths and my lover is good at language and music!”

Zeng Xueru laughed.

Lin Ran was very happy at the sound of his words and was busy to.

“The two teachers this situation is exactly what our village needs, how about this!”

Lin Ran said and directly took out the contract and handed it to the two people and said.

“Two teachers, we give you a ten percent increase in salary and benefits, the contract can be signed now!”

It was hard to find a good teacher, and it was even harder to find a good teacher that suited him, this was something Lin Ran knew all too well.

His journey to school had been extremely difficult at the beginning, and when he came across Zeng Xueru and his wife, Lin Ran liked them from the bottom of his heart.

Moreover, with his current strength to discern whether a person was lying or not, it was simply a matter of looking at them, and the pair of old people in front of him were definitely the most suitable for Lin Jiawan.

“So quick!”

Seeing Lin Ran being so quick, Mr and Mrs Zeng Xueru were obviously a little surprised.

“Teacher, as the saying goes, opportunity opportunity opportunity, it is natural to seize it when it comes, I don’t want to miss out on two such good teachers!”

Lin Ran laughed.

Zeng Xueru also smiled embarrassedly at his words.

“Good then, let’s sign the contract!”

The two men said and signed the contract.

“Both of you, when can you go to serve at Lin Jiawan?”

Lin Ran smiled.

The newly built primary schools all had prepared rooms for teachers to rest inside, and the two were old, so once they went I’m afraid they would have to live in Lin Jia Wan a lot.

“Tomorrow is fine, I’ll go back with my partner and pack up later!”

Zeng Xueru laughed.

“Don’t you have to tell your children? I’m afraid they’ll be worried!”

Lin Ran laughed, after all, it was a trip to Linjiawan, he was really afraid that the other party's children would disagree.

"You don't have to worry about that!"

Zeng Xueru and Zeng Lin looked at each other, then looked at Lin Ran and said with emotion.

"We two have no children!"

"Huh?"

Lin Ran was stunned and was busy saying with an apology.

"Sorry, I didn't mean to do that!"

"It's alright!"

Zeng Xueru had clearly been relieved and said calmly.

"This whole life has been dedicated to education, just a bit uncomfortable after retirement, but now we are both satisfied to be able to go to Lin Jia Wan, we are originally from the countryside, to be able to return to the countryside in our old age, it's a return to our roots!"

With that, the two of them stood up and prepared to leave.

"Wait a moment, you two!"

Suddenly, Lin Ran also stood up, while putting away the exhibition stand.

"Senior Zeng, look! It's still early, and I heard you say earlier that Teacher Zeng Lin knows music, so why don't the two of you go around the market with me? I'm an amateur and I don't know what instruments to buy!"

"You want to buy a musical instrument?"

Zeng Lin was stunned.

"It's not that I'm buying, I want to buy some for the village primary school, after all, you know music, wouldn't it be a shame if you were delayed because our village doesn't have musical instruments!"

Lin Ran laughed.

Zeng Lin smiled but shook her head and said.

"Young man, although music can be relaxing, it's not a must at primary school level, and most musical instruments are very expensive, so it's a bit uneconomical for Lin Jiawan!"

"Don't worry, Miss Zeng Lin! Although we are still in the development stage at Lin Jia Wan, we are definitely not willing to lag behind anyone in the education of our children!"

Lin Ran solemnly said.

Looking at how resolute he was, Zeng Xueru and his wife were also moved, and immediately decided to make a trip to Lin Ran at all.

The three of them left the talent market and Lin Ran drove straight to the office equipment market.

“I know one that has all the good musical instruments, we all purchased them here when we were working!”

Zeng Lin laughed, while leading the two to a musical instrument shop on the first floor of the market.

“Teacher Zeng Lin, what brings you here?”

The owner of the musical instrument shop was a young man who seemed to be very familiar with the two Zeng Lin and greeted them with a smile when he saw them.

“Ah Xiao Liu, we’ve come to buy some musical instruments, let’s have a look first!”

Zeng Lin said with a smile.

“Uh-huh! Call me if you need anything!”

The boss laughed and immediately went about his business.

“We often purchase musical instruments here, so we are quite familiar with the boss!”

Zeng Lin laughed.

Lin Ran nodded and busily asked.

“Teacher Zeng Lin, what all do you need to buy when you look at the musical instruments?”

“This”

Zeng Lin was a little hesitant and thought about it and said.

“Or else just buy some common ones, such as flutes mouth organ or something, the others are too expensive!”

“Teacher Zeng Lin, you can choose, as long as you know what you can give to the students, the instruments are not a problem!”

Lin Ran laughed, he also knew that Zeng Lin was afraid that the instruments were too expensive for him to afford.

“Lin Ran, it’s not that my lover doesn’t want to talk about it, but she is most proficient at the piano, but a piano here costs at least several tens of thousands of dollars to start with, so it would not be worth it to spend this money!”

Zeng Xueru persuaded from the side.

Lin Ran, however, shook his head.

“Both of you, you may not understand what I mean, we are not here to buy an instrument depending on whether I have money or not, but on what Zeng Lin’s teacher is good at, as for money or not, although I, Lin Ran, am not very rich, but I still have the money to buy at least a dozen pianos, and our village attaches great importance to the children’s education, so you can just take your pick!”

“This”

Zeng Xueru both smiled and wondered a little, was this still the poor Lin Jiawan?

Although the recent publicity about Linjiawan becoming a model village was all over the place, but this buying a dozen pianos in one breath, this just seemed a bit off.

“You two don’t need to worry, I paid for this music equipment myself, it’s considered a donation from me to the school!”

Lin Ran laughed, knowing the doubts in the second old man’s mind, and spoke directly to explain a bit.

“Since that’s the case, then I’ll be polite!”

Seeing that Lin Ran had said so, Zeng Lin didn’t say anything more and immediately made a list and handed it to Lin Ran.

“I’m best at piano as well as violin, while the flute and mouth organ can be played by the students themselves, so that they can also cultivate their musical cells!”

Zeng Lin laughed.

“Good!”

Lin Ran took a glance at the list and nodded straight away to indicate that it was fine, and then he was ready to take the payment.

Looking at Lin Ran agreeing so readily, Zeng Lin’s heart also felt a pang of frustration, a person who was willing to put down such blood money for the children, why would Lin Jiawan not worry about developing.

Lin Ran quickly made the payment and the owner, Xiao Liu, got busy and started to pack the things and contact the truck.

When Lin Ran finished paying and came back, he saw a young man walking towards Zeng Xueru’s two elders from a distance.

“Who is this?”

Lin Ran’s heart could not help but be puzzled, this young man looked like he was about twenty-seven or twenty-eight, similar to himself, but his expression seemed to be familiar with the two old men.

As he was thinking, Lin Ran suddenly saw that the youth had already reached the two old men, but then an expression of wanting to eat people appeared on his face, and then he pointed at Zeng Xueru and even cursed.

“Old thing, what a coincidence, I actually let Laozi run into you here!”

“Mei Liangxin! How come it’s you!”

Seeing the youth, Zeng Xueru was also taken aback, he did not expect to run into his original student here.

“Mei Liangxin what do you want!”

Seeing the other party, Zeng Lin was also startled and hurriedly blocked in front of her old companion, as if she was afraid that Mei Liangxin would do something out of the ordinary.

Chapter 940

“What do I want? What do you think I want to do, old woman?”

Mei Liangxin’s face was icy cold, and he raised his hand as if he was about to ugly Zeng Xueru’s mouth, except that his palm was raised but did not fall, but this action still scared the two old men so much that they could not help but stagger and almost fell to the ground.

“Stop it!”

Lin Ran couldn’t stand it anymore and ran straight over.

The two old men, Zeng Xueru, were teachers he had spent a lot of money on, and if something happened here, he would be the first to disagree.

“Who are you?”

Seeing Lin Ran, Mei Liang Xin obviously frowned slightly, not expecting that someone would actually stand up for the two old men.

“You don’t need to care who I am, who are you?”

Lin Ran asked rhetorically, his tone dripping with coldness.

“You don’t need to care who the old man is, so if you’re smart, get lost!”

Mei Liang Xin said in a cold voice, so he could not afford to run into Zeng Xue Ru here, he did not want to let others spoil his business.

“O? Then what if I don’t get lost?”

Lin Ran laughed.

“Lin Ran, why don’t you go first, this has nothing to do with you!”

To the side, Zeng Xueru was busy saying.

Mei Liang Xin had some power, and his cousin was even the president of a university, they were also afraid that Lin Ran would offend Mei Liang Xin because he was in.

“Yes Lin Ran, why don’t you go first, we can handle this ourselves!”

Zeng Lin also rushed to persuade.

“Kid, did you hear that? None of your business, hurry up and get the hell out of my way!”

Mei Liangxin sneered.

Lin Ran, however, shook his head and laughed.

“No, no, no, this really has something to do with me now!”

“The Second Elder is someone I hired and is now here at my invitation to help shop for musical instruments, so the Second Elder’s safety is my business!”

“Kid! Don’t you fucking understand human language? Do you want me to beat you up as well?”

Mei Liang Xin’s face instantly turned cold, looking at Lin Ran with disdain on his face.

“A fight? That’s good, I haven’t had any exercise for a while, but have you brought any money?”

Lin Ran asked with a smile.

“Bring money, what’s the point of bringing money if you’re fighting?”

Mei Liang Xin was stunned and a little confused.

“Of course it’s to see a doctor, I forgot to introduce myself, I’m also a doctor, if you hurt your muscles later you can see me, but you have to charge for it!”

Lin Ran laughed.

This remark made even the two old men, Zeng Xueru, who were on the side, almost laughed.

“Kid! You’re fucking playing with me!”

Mei Liangxin’s face sank and he had the intention of making a move.

“Playing with you? Sorry I’m not interested in men!”

Lin Ran laughed.

“I think you’re just fucking looking for death!”

Mei Liang Xin’s face turned completely icy cold as he rushed towards Lin Ran and raised his hand to throw a punch directly.

“Bang!”

It was too late, Zeng Xueru’s two elders didn’t even see what the hair saved, followed by a black shadow flashing by, and a figure flew straight backwards.

“Bang!”

There was another muffled sound, and only then did the two of them see clearly that the one who had flown backwards was actually Mei Liang Xin, while Lin Ran was still standing in the same place without moving.

“You!”

Mei Liangxin got up from the ground, only to feel his face burning hot, as if he had been heavily smacked in the mouth.

“Get lost!”

Lin Ran looked at Mei Liangxin and said in a cold voice.

“What are you, who are you to tell me to get lost!”

Mei Liang Xin was furious and said in an angry voice.

“Don’t roll? Then I’ll send you out!”

Said Lin Ran, about to continue to strike, facing this kind of scum who even wanted to beat up the old man, he didn’t have half a bit of pity.

“Lin Ran!”

Suddenly, Zeng Xue Ru who was next to him was busy stepping forward to stop him and shook his head.

“We can’t fight anymore, his cousin’s uncle is the president of a university, we can’t afford to mess with him!”

Lin Ran smiled and looked at Zeng Xueru without saying anything, the people he Lin Ran couldn’t afford to mess with were really not bad, a university president he really didn’t put in his eyes, it was just that the two old men seemed to be very scornful of this Mei Liang Xin.

“Kid! You heard it all, you’re finished!”

Mei Liangxin pointed at Lin Ran and said in a cold voice.

Lin Ran, however, smiled blandly and said.

“Really? I’m curious as to how you’re going to finish me off!”

The anger in the scene suddenly became tense, but at that moment, Xiao Zhang, who was originally inside packing up his things, heard the commotion and ran out, and when he saw Mei Liang Xin, he was also stunned.

“Mei Liangxin why are you here? Are you coming to pay back the money?”

“Pay back the money?”

As soon as these words came out, the two old men, Zeng Xueru, were both stunned and looked puzzled.

Mei Liangxin’s family was quite well off, his cousin’s uncle was even an arrogant man from a university, and he himself had taught at a university before, so how could he possibly owe money to this place.

“Xiao Zhang, what the hell is going on here?”

Zeng Xueru asked busily.

While on the side, Mei Liangxin’s face had already changed and was very embarrassed as he tried to bolt.

“Mei Liangxin you can’t leave, you’ve come here how can you return the money!”

Xiao Zhang pulled Mei Liangxin, before turning his head to Zeng Xueru two old man.

“Teacher Zeng you still do not know? Mei Liang Xin and his cousin uncle have been expelled, this kid is now taking a test as a tutor to make money, a few days ago borrowed a violin from me and broke it for me, now he hasn’t paid me back!”

“What? They’ve both been expelled?”

Both Zeng Xueru were stunned, obviously surprised.

And Lin Ran, who was at the side, was even more confused, what was expelled, what was this?

“God has really opened his eyes!”

Zeng Xueru was immediately overjoyed and looked at Lin Ran and laughed.

“Little friend Lin Ran, you don’t know, this Mei Liang Xin was once one of my university students, he studied very well and stayed on to become a teacher after graduation!”

“But then he and his cousin uncle joined forces to embezzle and collect black money, I was so angry that I resigned and subsequently reported them, I never thought that God would open his eyes and they would really be removed from their positions!”

Zeng Xueru was very excited.

Lin Ran was also stunned as he listened, not expecting there to be so many stories in this.

“Old thing! How dare you say that, I’ll get you killed!”

Mei Liang Xin was furious when he heard that, and as soon as he broke away from Xiao Zhang, he rushed towards Zeng Xueru.

However, at this moment, Zeng Xueru was completely unafraid and looked at Mei Liang Xin and said in a cold voice.

“Fight! You come and fight! As your former teacher, I am doubly ashamed, taught you so much knowledge, how level did not teach you how to behave!”

“How dare you say that! I’ll kill you!”

Mei Liangxin was annoyed and furious, his cheeks were trembling with anger.

“Zeng Lao I’ll do it!”

Lin Ran saw this and directly blocked in front of Zeng Xue Ru, looking at Mei Liang Xin and laughing.

“Elder Zeng didn’t teach you how to behave, I, Lin Ran, will teach you how to behave instead today!”

After saying that, Lin Ran took an arrow step and directly rushed up to him, without saying a word, he gave Mei Liang Xin a slap, directly hitting him on the ground.

Lin Ran didn’t have the intention to stop, he directly mounted on Mei Liang Xin, followed by a slap and a slap.

He even scolded while hitting.

“You dog, how dare you embezzle the students’ money!”

“Slap!”

“I’ll let you embezzle!”

“Slap!”

“I hate crap teachers like you the most!”

“Snap!”

“How dare you embezzle when so many people work so hard to send their children to school!”

“Slap!”

Lin Ran received a slap on the back, hitting Mei Liang Xin, who was immediately confused and instinctively opened his mouth to beg for mercy.

“Don’t Don’t hit, I’ve already been sacked, don’t hit!”
