

## My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 507

For a moment, Rosalie's mind was a mess.

However, she still spoke up for the kids even with Xander doubting them.

'Young Master, you must be overthinking. The kids are still young and wouldn't do something like that. Also, I don't think they even have the strength to do it.'

"I was just guessing. As I said, I don't want to be malicious toward the children. I'd be happy to know that they didn't do it."

Rosalie plastered a smile on her face.

After Xander left, Rosalie walked back into the villa with a complex expression.

The three little ones were standing around, discussing Rosalie and Xander's relationship and how to make Xander stay away from her.

The little ones immediately stopped whispering when Rosalie got back.

On her way back, Xander's words had lingered in her mind, and her gaze on the little ones was mixed with many different emotions.

After closing the door, Rosalie sat beside the little ones.

"Mommy."

"Auntie."

The little ones approached her at once.

Rosalie did not answer or even look at them. She lowered her gaze and asked, "Do you know about Uncle Xander's tire being punctured?"

The little ones nodded innocently.

Xander had told them when he came back in, so they naturally knew about it.

"Do you know who did it?" Rosalie asked, glancing at the little ones' faces.

The little ones froze.

Lucian and Nox pursed their lips stubbornly and said, "Even though we don't like Uncle Xander, we wouldn't do such a thing!"

With that, the little ones suddenly recalled something and looked away. Then, they protected Estelle behind them.

Rosalie did not suspect Estelle. She only questioned the two little ones.

“Mommy doesn’t like kids who lie. I’m going to give you one more chance. If you don’t tell the truth, Mommy will check the camera footage. Mommy won’t like you if she finds out you’re lying.”

Lucian frowned and tugged Rosalie’s shirt. “It’s not US. Mommy, don’t look at the footage!”

Nox also said, ‘The three of US have been together all this while. We didn’t do it!’

As soon as the two little ones said this, they heard Estelle’s cute voice behind them.

“Sorry. Auntie, please don’t hate Estie...”

The little one panicked when she heard Rosalie say that.

She was not afraid of anything except her Auntie not liking her!

Rosalie was shocked. She looked at the girl behind the two little boys, bewildered.

Estelle’s face flushed red, and tears shimmered in her eyes. She looked like she was about to cry.

“It’s Estie’s fault. Don’t be mad at Lucian and Nox.”

Estelle lowered her head and sobbed. “Estie did it secretly. Lucian and Nox knew nothing about it. I’m sorry. Auntie, please don’t not like me anymore...”

Rosalie was shocked and did not know what to do.

After Xander said that to her, she had only doubted Lucian and Nox.

These little ones had always been bold and always dared to make mischief.

However, she never expected it to be Estelle who was responsible.

Whether Lucian or Nox did it, she wanted to teach them a good lesson.

However, she could not bear to teach Estelle a lesson since she was already crying so badly.

Moreover, she was not in a position to punish her.
