

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 813

Hearing Andrea's words, Wendy frowned slightly. "How do you know this?"

'In my opinion, with the way those two people get along, I'm afraid they have already been together a long time ago.'

Wendy was jealous to death the last time Andrea filmed the two of them going to the theater together for the musical.

'But now, Andrea said that the two were not together yet.'

'If they were really together, how good would Byron be to that b*tch!'

Just the thought about it drove Wendy crazy!

Andrea rolled her eyes. "If that sl*t already accepted Byron, what would he ask my brother all that for? The estrangement between them seems to have not been resolved yet!"

After speaking, she thought of something, and added. "I also heard what my brother said. Rosalie is going to be the technical consultant of Heronial Corporation, so he told Byron to not be angry. Heronial Corporation seems to have signed a contract with the Lawrence Corporation, but was pried away at the last minute by the Lancer Corporation."

After Wendy listened to what she said, there was enough rationale for her to finally believe Andrea's account.

Wendy felt a bit of fluke in her heart again as she thought about how that sl*t Rosalie did not accept Byron yet.

'As long as the two of them are not together, then I have a chance!' 'Moreover, according to Andrea, there was even a gap between them.'

From the other end, Andrea spoke again, "since that b*tch is so ignorant, even if Byron wants to pursue her, I'm afraid it won't be so easy! Sister Wendy, think of a way to cut off that bitch completely!"

Then Andrea complained again. "Because of that b*tch, my brother and Byron, were so mean to me! And it keeps getting worse!"

Wendy smiled and tried to comfort her. "I want to do that too, but we have to figure out a perfect plan. Now tell me, why is Byron angry with that b*tch again?"

Andrea replied. "It seems that she is going to be a technical consultant for Heronial Corporation. I also think that sl*t is quite close to Young Master Xander. There was so much public opinion over that scandal the last time, but I have yet to see her come out to clarify it."

Hearing this, Wendy's heart moved slightly, and there was a hint of coldness in her eyes. "I know what to do now, thank you for reminding me."

Andrea was confused and wanted to ask further, but Wendy did not give her a chance to speak again.

“Haven’t you always liked my limited-edition bag? I’ll give it to you later, as a thank you for reminding me.” Wendy said with a smile.

When Wendy mentioned the bag she liked, Andrea instantly forgot about Rosalie. “Really! I remember that you liked that bag too...” Wendy put on her fake smile again. “You are my sister, there’s no yours or mine between us. If you hear anything about Byron and that b*tch again, remember to tell me as soon as possible, when I marry into the Lawrence family, would this little thing even matter?”

Andrea agreed without hesitation. “Sister Wendy, you are still the best to me!”

Wendy smiled absently, thinking about what to do next to Rosalie.

‘If it wasn’t for Andrea’s reminder, I almost forgot the scandal last time, and Stacy Hudson seemed to have called me personally.’

‘The conflict between Stacy and Rosalie seems to be caused by the terribly ambiguous relationship between Rosalie and Xander.’

‘If Byron knew that the relationship between that b*tch and Xander were not as simple, would the man still spend so much effort to pursue her...’

Wendy’s thoughts turned her eyes cold.
