

My Ex-Wife and Kids Came In Like A Wrecking Ball Chapter 962

After Nox left, Rosalie and Mary began to check Nancy's resume.

When Mary saw a research institute where she used to work, her face suddenly changed.

Rosalie noticed the change in her girlfriend's expression and asked inexplicably. "What's wrong?"

Mary pointed to the name of the research institute on the screen, and said firmly, "This is one of Fuller Industries' businesses."

Mary had been in Coast City for so many years, she had cooperated with almost all of Coast City's research institutes.

She also knew the background of these institutes.

Due to the entanglement between Rosalie and Wendy, Mary paid special attention when cooperating with Fuller Industries' research institutes. Coincidentally, this was the one she once worked with.

Rosalie's brows gradually frowned at her best friend's words.

Upon a closer look, the timing of Nancy's resignation from the Fuller Industries Research Institute was also debatable. Only half a month after leaving the Fuller Industries Research Institute, she entered this new institute; worked for half a year; and left with the bacteria he developed..

Mary was displeased. "It must be Wendy! That cruel woman has the intention to harm the children, truly heartless! No wonder President Lawrence doesn't like her!"

Rosalie was also full of doubts, but she still advised her girlfriend to calm down. "We don't have conclusive evidence yet, let's not be impulsive."

If she did not speak up, with her best friend's temperament, Mary would have chased Wendy down now based on having the audacity to attack the two little boys.

As Rosalie expected, when Mary heard her persuasion, her face was full of displeasure.

Rosalie reluctantly smiled at her, "Thanks to you, I was able to find this key clue, and I will handle the rest of the matter myself."

Wendy was deeply cunning, and Rosalie did not want to let her best friend be implicated by coming into that woman's sight.

Mary knew what she was thinking, and looked at her, dissatisfied. "Lucian and Nox are my godsons, now I know that someone is hurting my godson, but you want me to stand down?"

"You've already helped me a lot, and I wouldn't have been able to find out if it wasn't for you."

Rosalie helplessly reassured her.

After that, Rosalie got up and held her best friend's hand in a calm voice. ' Don't worry, I will never let anyone who dares to bully Lucian and Nox go, and if there is a need for your help in the future, I will certainly not hesitate.'

Mary knew that she could not refute her and frowned sullenly for a while.

Rosalie patiently calmed her down for a while, before reluctantly making a compromise.

"During this time, no matter what happens, don't hide it from me!" Mary solemnly urged.

Rosalie breathed a sigh of relief when she saw that Mary finally gave in and agreed with a smile.

Mary then left reluctantly.

Rosalie did not go downstairs to send her off but just sat in the study in a daze.

'The bacteria this time was Wendy's doing, so...'

Rosalie's eyes darkened at the thought of the bacteria that infected Estie the last time.

If she remembered correctly, Wendy lived in Lawrence Manor when the little girl was infected with germs that time.

Moreover, Wendy happened to be unaffected.

At that time, Rosalie did not think much about it. But, after knowing these clues, along with what happened the last time.

Rosalie could not help but connect the two incidents.

'What a coincidence.'

'No matter from which aspect, Wendy was too deeply involved in these two matters.'

Rosalie felt that something was wrong the more she thought about it, and suddenly felt that she needed to have a good talk with Byron.
