

## Chapter 21: city

The nursery rhyme held the swaying belly and climbed into the car. When she was sitting still, she saw Lu Sicheng, who had a low-text WeChat, raised her head and said with a look of disappointment: "I will go home on weekends."

Now it was the offseason. The players actually belonged to the holiday state and came to go free. So Lu Sicheng's decision was not opposed. Instead, Xiaorui asked very well: "Do you want to go back at home?"

"My dad said that my mother left home," Lu Sicheng said, "Hm", the voice is desperate, "The third time this year, the first trial found that my dad jumped up and had a miraculous effect, so I used it. It's a long time... the woman still can't get used to it, she can give her the ladder and she can go to heaven."

Everyone seems to have already known about the chickens and dogs jumping in Lu Sicheng's family. Everyone is looking for something to relax. Xiaorui leaned back and said: "The training game before the group and the next group of vegetables is always better. Finished?"

"When?"

"After the day after tomorrow."

"Then I will fix the ticket for the day after tomorrow."

Lu Sicheng said, the finger pressed on the phone, probably unintentionally pressed the voice, which came the voice of a middle-aged man -

Everyone: "..."

Lu Sicheng smashed the voice.

The car was silent.

"Fear inside." Lu Sicheng said with no expression, "I laughed."

"No, no, no traditional Chinese virtues, Chinese traditional virtues!"

"Yes Yes Yes!"

"How can the fear of the social high-ranking people be called fear inside, that is, it hurts to love his wife and children!"

Xiaorui waved his hand and everyone echoed. The nursery rhyme smacked his lips. "You will have a spouse in the future. You can remember what you said today. - The fear is the traditional Chinese virtue. If you don't remember, I can help

you.” Remind a wave of your spouse.”

“You don’t expect your future men to be afraid.” Lu Sicheng gave her a look.

“With the shackles, the same world has the same dream!”

“The ear is soft.”

“ ... ”

The nursery rhyme thought about it, and then the old face was red and squatting with his hands on his ears, turning his head in the darkness and licking the natural man, who was self-satisfied and brushed his finger on the screen of the mobile phone. I quickly bought a ticket... The nursery rhyme saw the landing of the plane in a southern city not far from Shanghai. I heard that in that place, a stone falling from the sky could kill three billionaires.

.....

After two days, I finally arrived at the days when Xiaorui and a group of vegetables were about training.

This time, I chose to be in the afternoon when the working day was not so crowded. Everyone sat down and went into a room where the dishes were opened earlier than the team. They are still those few people, still the ids, the opposite Knowing if they are discussing their opponents, anyway, the five people of the zgdx team never stopped when they sat down in front of the computer.

Old cat: “Little fat, you said that the Pope is going to go to this relegation team.”

Xiaopang: “Don’t call a relegation team. Where do you drink milk when people enter the world?”

Old cat: “Well, you said that the pope is going to go to this... the fallen aristocratic team?”

Xiaopang: “I heard that I want to find the best assistants and teammates to help me defeat Chengge.”

“That’s miserable,” Lu Sicheng said with no expression. “I only have a heroic pool with a bottomless acrobatic aid, and there is a 0/7/0 Yasuo single.”

Nursery rhyme: “...you talk well, and shut me down - that was a surprise, and today I saw that I blasted you.”

Lu Sicheng: “Don’t do half of the work, just explode, not carry it.”

Nursery rhymes: “ ... ”

“Li Junhe is going to start to send the tower to the head.” Lu Sicheng’s voice is low.

“The opposite is missing, you are careful.”

As the nursery rhyme said, he clicked a signal, and the system prompts the sound to start. At the same time, the disappearing enemy’s single fruit is like a ghost in the grass behind Lu Sicheng and Xiaopeng, and there is also the opposite field.

“Where, four people grabbed! When did you make a field of vision behind us?! The opposite side of the single delivery (\* Summoner skills, can be transferred from the current location to any map in the field of view) !”

In a scream of chubby, a group of dishes flocked to the team, and Lu Sicheng ran off the running skills for the first time, leaving a chubby person to be encircled under his own defense tower, and the system reminded the “d” sound. When the bell rang, the Pope got the first drop of blood.

- This balance of the swearing balance of the road began to lean towards a group of dishes.

The nursery skills of the nursery rhymes did not bring the “transfer” skill. It was less mobile than Ai Jia. It was too late to know if she was going to support. So she chose to stay in the middle of the road and settle down with her own small soldiers. Experience, then bring their own soldiers to the other side of the tower, let the other defensive tower to kill these small soldiers - this way, when Ai Jia will come back, he will find that he has no small soldiers to eat, experience and economy will be solidified, this is a single choice The inevitable flaws brought about by other roads.

However, when the game went to seven minutes or so, Ai Jia went a long way.

This time, a group of vegetables than the middle single plus the next road adc and assistant three people killed Lu Sicheng, and took the opportunity to push off the first defensive tower. The two defensive towers were lost in succession. At this time, the zgdx team entered the early stage of the minor disadvantage. The worst thing was that the main output of the other pope was two heads in the hand, and the fat was oily. At this time, it was already a small boss in the early stage. !

Ming Shen is right, a group of dishes really learned the lesson and quickly corrected in the last training session: Is it

dangerous for the Pope to bring two people to the tower? It doesn't matter, then we will take the middle and the wild together! Four people, always not dangerous?

“Where, I said that a good group of vegetables is a wretched development team than under the leadership? Today, they are so radically mad that they have to take medicines! Ah, brother, you are down the road,” said the nursery rhyme. Waiting for me, I want to — oh?”

Tong Tong said that half of the sudden surprise found that the other side of the road to go aside, Ai Jia, after an assist, did not go home to update the equipment, but saw a lot of small soldiers in the middle, actually turned around and wanted to come back. The experience of a wave of soldiers to make up for the economy and level of their own travel too much!

At this time, Ai Jia is most of the skills in the cool state, and my mana is also running out!

The nursery rhymes almost did not hesitate to give up their own pile of small soldiers on the spot. Ai Jia, who thought he was sneaking up, was a set of skills to step on. The enemy chained by the Lovelan skill chain did not have the opportunity to escape. After being beaten for more than half of the blood, she was unable to turn back and cut her twice, and she contributed to the head!

“nice!”

“Call him greedy!”

“The shooting Mailin is so beautiful!”

The teammates were consistently better. Lu Sicheng, who was waiting for the resurrection time, looked at the small map in the lower right corner and reminded: “They are coming to the wild.”

Usually, taking a personal head and seeing the other person's support to immediately retreat to retain the fruit of victory is definitely the best choice. However, the nursery rhyme does not follow the routine. She turns her head and gives a summoner skill. The flash opened the distance between the two sides, and then turned back, while running towards the direction of the defensive tower, the backhand against the group of melee than the melee field was a few slaps, the opposite side saw her killing people and still forced to run, still want to run, estimated It's also anxious, and it's also a flash to

catch up –

However, what I did not expect was that at this moment, the nursery rhymes rose to the sixth level!

LeFran, the hero of the sixth level, will get a big trick of “deliberately re-applying”. This big move can repeat the skills that it used once, so in a short time, the opposite field is once again chained by her, with The same shadow of death in the death of Ai Jia’s death has enveloped him –

The situation is changing instantly!

Last second, the zgdx team was still struggling for the economic gap between the two heads and a defensive tower; the next second, the virginity in the middle of the road, killing the enemy in the middle of the single and playing the wild, they pulled back some situations. !

At the same time, because of the killing of their own wilderness, the upper half of the yqcb wild area resources encountered a wave of crazy invasion of the old k, whether it is a blue buff or other wild monsters, all of them are collected by the zgdx team, and even the middle road The first tower was also half of the blood of the nursery rhyme!

This wave of vegetables is a blood loss from the blood of the team!

Because of Ai Jia’s mistake, Tong Tong suddenly changed from a small transparent development to a little dad who could compete with the Pope. In the next fight against Xiaolong, she steadily linked the Pope. The three slaps smashed the little crispy skin, and then only those trees that were not developed and smashed were smashed, running and dying, and the nursery rhymes successfully won the first element of the dragon and pushed the enemy down. The first defensive tower of Fangzhong Road...

The Chinese telecom team has completed the trend of changing from disadvantage to advantage!

Then there is the crazy push tower, killing, the economic snowball and the other side to open the distance, the last one to win the training game!

After playing this training game, everyone sighed in a moment and softened in their chair: the game won won, but the style of a group of dishes that changed suddenly than the team suddenly made them feel a little scared...

This team, this summer's summer game is probably not just out of the ranks of the relegation team!

At this point, Xiaorui used the paper tube rolled up by the magazine to knock on the old k, chubby, old cat, Lu Sicheng, and nursery rhymes. "Tell you to inflate! I was almost smashed by the aristocratic team! Not dare to inflate!"

"Hey," the nursery rhyme held his head. "I have a match, I beat me!"

"You are more proud?"

".....I'm wrong."

.....

Evening.

The strength of the carry team was defeated and won the training game. The nursery rhyme took a shower and was holding a bowl of soaked noodles. I walked out of the kitchen and found Lu Sicheng holding his knees on the chair. I don't know who's in the live broadcast of the scourge...

When the nursery rhyme approached, he seemed to be looking back at his head with his eyes closed, pointing to his computer screen: "The next team is killing you alone."

"..."

The nursery rhyme spit back into the bowl.

Lu Sicheng showed a disgusted expression -

The nursery rhymes quickly went over and looked at it. It was really obvious that Lu Sicheng was really playing the live room of Ai Jia. At this time, the guy was playing a qualifying game while bragging a few braggings with the audience fans...

"Right right, we have a training match with the next-door operator today... This time there is no drop, which may be dropped every day, do you think that the five-wallet wallet annual network fee package?... is lost, oh, but we are early Is the advantage, you don't believe it, we are really an advantage!"

.....

"The Pope's look at the place is the professional tower of the tower... but there is a person who is more than the pope next door, that is, the hot lady. - Yes, it is shooting Mailin, I rely on, originally we I took two people and I was very happy. Her old man didn't know where to come from and killed me! Then he

turned and talked and laughed and killed us!”

.....

“My wave should go home, no blue skills are cooling, I was caught by the opportunity, really horrible this woman... This is the turning point of the training game, my blue buff is gone, xbang’s wild There are no resources in the district, and our captain almost didn’t kill me -”

.....

“I don’t dare to be greedy. If I go home after killing people, I won’t go there. Really, the corrupt soldiers will not have a good end. I am a blood lesson.”

.....

“Sister next door, the operation is good, the xbang that killed me and killed the blood, so we can’t see her skills. Really the first LeFran!”

.....

“Who will tell me later that my sister can’t play the League of Legends game, I will put the video of today’s training game into his nostrils!”

Hey a bunch.

The virginity is blown up in the sky.

Blowing to the back of the nursery rhymes can not hear, bend down and open his computer into Ai Jia’s live room, quickly knocking words -

Enter.

Send.

After half a second, the barrage was “I saw a strange thing in the chaos” “The trough said Cao Cao Cao Cao” “smiling ah ah, I am your little fan” “Miss sister taught me how to play Fulan?” ——

A barrage will focus on the key points: ... Ai Jia, shooting Mai Lin and your wife-in-law relationship?

“Fuck friends,” Ai Jia said, “My wife and I have been in conflict with me recently. I feel that I was deliberately breaking up and getting Lily with her. It’s very angry! I lost the game today and I suddenly felt my life. Nothing is light!” The nursery rhyme stood in front of the computer and was teased.

And Ai Jia, this child continues to tirelessly tout how strong she is -

The nursery rhyme was listening to it. Suddenly, the live broadcast was shut down. She stunned and looked at Lu Sicheng. The latter did not hurry to retract her hand: "Listen to the fun, then listen to it." Swell."

"After graduating from elementary school, no one has ever praised me." Tong Yu said, "Let me listen to two more words..."

I want to throw it back to the computer.

However, the back neck was pinched by the man from the back. She turned her head hard and could only see Lu Sicheng's perfect squat. The other said casually: "Don't listen to him blowing, want to hear praise? I praise you."

"..."

The struggling nursery rhymes calmed down.

"Boiled." Tong Tong eyes, a look of expectation.

Lu Sicheng: "..."

"Taste it." Nursery rhymes.

Lu Sicheng: "..."

After fifteen seconds of confrontation with the shiny, full-looking black cockroaches, Lu Sicheng let go of the nursery rhymes, bent down, and opened the live room of Ai Jia for the nursery rhyme - the latter's noisy voice was re-transmitted into the ear, the virginity groaned, looking at the man who sat back in his position and said "Nothing happened before".

"What do you mean?"

The nursery rhyme grabbed his sleeve and shook it.

Lu Sicheng ignored her.

"I am doing well today, the captain is an adult, praise it?"

Shake again.

Lu Sicheng still ignored her.

"Is there no advantage for Laozi from beginning to end to be worthy of you-"

The nursery rhyme was still gone. Suddenly, Lu Sicheng's long hand grabbed the oily marker used in the afternoon analysis training session, opened the lid and grabbed her hand and quickly painted a huge ugly flower on the back of her hand.

Nursery rhymes: "??????"

"The little red flower from the captain's adult," Lu Sicheng threw the virgin's hand and threw the pen in his hand. He

stared at the computer screen and opened a new game while faintly saying, "I will continue to work hard and paint your brain." "

Nursery rhymes: "....."

Taking Lu Sicheng for five seconds, after confirming that he was not joking, the nursery rhyme turned silently and went to the bathroom to wash his hands.

Then I found the little red flower from the captain's adult... I couldn't wash it.

Hand soap, shower gel, cleansing oil, soap, all kinds of use, and finally face the red flaming flower that is still red and red, the nursery rhyme holds the \* hand washbasin, finally collapsed to the scream: "Go to Nimade, Lu Sicheng, This ugly flower can't be washed out!!!"

"When you want to, you have to wash it, how can you wait so hard?" The man who indulged in the game did not return.

"And, the little girl's family is not allowed to swear."

"..."

"... Don't be a little red flower, will you draw a king eight next time?"

"Hey!"

"Give you the brain."

"..."
