

Chapter 22: city

the next day.

“Children, what’s on your back?” The team manager who had just walked past the nursery rhyme came back and stared at the ugly flower on the back of the girl’s hand. “Are you signing a contract with a strange thing to become a magical girl?”

The girl who was holding the cat’s nest on the sofa and watching the American drama raised her eyes and wanted to vomit anything. At this time, a tall man dragging the suitcase passed through the middle of the conversation and fluttered and said: “Now become Is the magical girl a bit too old?”

The nursery rhyme sat up from the sofa: “You talk well, are the people you want to leave, and it is not good to leave a good memory for each other?”

“I will be back next Friday.”

Lu Sicheng put down the box and began to dangle on the first floor of the base to see if he had something missing.

Nursery rhymes: “wallet key phone.”

Lu Sicheng took a foot and touched his pocket: “Everything.”

Nursery rhymes: “Go, Goku.”

Lu Sicheng turned his head slowly and looked up and down the virginity who was almost squatting on the sofa. His eyes finally settled on the cat who was licking his paws in his arms... The pause stopped, and the voice was low: “Looking good You are a little furry beast. I saw it with my claws in my aquarium this morning.”

“How is it possible.” Nursery rhymes don’t take it for granted.

“Cats are afraid of water.”

“I am afraid that there is no goldfish in the water, there are cat hair in the fish tank,” Lu Sicheng took the fish tank and came over to the virgin eyelids. “Look.”

The big cake looked close to the fish tank and excitedly lifted his ass. The nursery rhyme slammed its excited **** back onto the sofa and looked at the water tank of the fish tank...

There were still a few cat hairs floating.

“Fly in.”

“My son is a hybrid of Italy and Russia. The parents’ bloodlines are purely with the certificate of the competition. One is 30,000, three 90,000, which is different from the glamorous goods on the street of the flower and bird market.

You are good at it.”

“ ... ”

A goldfish 30,000, Lao Tzu believes in your evil... This looks like a god, his mother-level bloodline, mixed with the eight countries, and what is the difference between the Chinese rural fish in the general roadside?

For someone else to say this, the nursery rhymes will only let him calm down with the door folder, but for a hot pot to eat a five-figure Lu Sicheng, she believes -

Is your son expensive or expensive?

Of course, my son is expensive.

Although I don't understand why I have to make this magical metaphor, the nursery rhyme is still sitting on the sofa, holding a big cake and holding the forefoot and holding it up. Hey, sigh: “Pie, I heard no, This fish is expensive and dirty, we must not eat.”

Lu Sicheng: “Who are you talking about?”

Nursery rhymes: “...sorry.”

“Dwarf, you have a problem with your education. You can't touch anything you can't touch,” Lu Sicheng put the fish tank back to the enemy he was in. “You can't touch it, not you don't bother.”

“ ... ”

“I am very worried about what your child will be educated in the future.”

“You will come to educate you,” the nursery rhyme threw the cat and said, “I am only responsible for life, isn't it good.”

After she said that she hadn't felt wrong, until a few seconds later she found that everyone including Lu Sicheng had turned his head and looked at her silently... She sighed: “What?”

“...you two are so close to flying to make sure you have a baby?” Xiaorui looked disheartened. “Before I said

congratulations, I think I should still remind you that the zgd team members have always prohibited internal digestion.”

Tong Tong just wants to ask you a group of big men to prepare for internal digestion, but when it comes to her mouth, she is like Leflan suddenly rises to the sixth level to open the “deliberate technique” big move, only to say something like a slide Rolled over her mind -

Lying in the trough, she just said? !

The face of the nursery rhyme was white and red, and the neck was half-day and the fart could not be said. At this time, Lu Sicheng was looking natural. Looking at his watch, it was time to go to the airport. After greeting the teammates, he said hello. Drag the box and turn to go outside the door.

Lu Sicheng just walked on the front foot, and the big cake jumped on his desk to praise the nursery rhyme scene with a wave of “cat claws to stir the big cylinder” strength to prove that the man did not lick it - the nursery rhyme took a black line and took it from the table and took it. Shoot its ass: “Three thousand one! Just kill one and you are waiting to be sent back to the countryside!”

The big cake stretched out the short short legs, and stepped on the mouth of the nursery rhyme with the claws that were wet with a fishy smell.

“You really believe it!” Xiaopeng played the game and glanced at the girl with a nervous look at the cat. “This goldfish I bought with him on the street, two ones, three five...”

Nursery rhymes: “...”

Throw the cat and send a WeChat to the name of the person - After three seconds, the phone vibrates.

The nursery rhyme turned a huge white eye toward the ceiling.

.....

After leaving Lu Sicheng, only the nursery rhymes in the base finally ended the daily chicken-dog jump between the two.

After a few days, the nursery rhymes and teammates double-checked, watched the cat, and did a quiet dumb beauty for a while. The girl anchor, the days are very beautiful...

Sitting on the bed, the virginity on the left side of the virginity changed to the right side of the gang, and slowly shared the above content with the friend Jinyang. The latter’s reality is “in the input”, which shows that for a long time, the nursery rhyme thinks she probably Write and write...

After a minute.

Wechat’s new chat record jumped out -

Nursery rhymes: “.....”

The phone in his hand was thrown out again, and the phone slammed on the floor under the bed. It seemed to be familiar. The person sitting on the bed raised his head subconsciously

and looked at the door: unfortunately, the door did not Who is pushed away from the outside.

The nursery rhyme sat on the bed and emptied for a while until the candy melted on her right side of the gang and had a thick layer of frosting. She licked the candy with her tongue and then smashed the candy like a bite. , jumped out of bed and picked up the phone, she quickly replied -

Putting down the mobile phone, the nursery rhyme irritated some of his short hair, got up from the bed and put on slippers to go downstairs, and found that chubby they all sat in front of the computer to play the game - obviously the time base for the holiday does not emphasize that they play Ranked for training, but everyone seems to have nothing else to do...

Entertainment is a League of Legends.

Going to work is still a League of Legends.

The nursery rhymes stooped to open her own computer. The people who read her curtains were absent these days. She was also more accustomed to the live broadcast. Plus, she didn't just drive her car with her teammates. Her scores have dropped from the previous tens of points when Lu Sicheng left, and gradually rose back to more than four hundred points. Today, she won a few more, and she can be a beautiful girl again.

"Children, go on the bus?" asked the old k.

Tong Yu just entered a new game: "I just entered, you don't say that, cat?"

"Ueno is out of bounds." Old K said, "This forced me to advance to the competition. The Life and Death Bureau gave me a Timo. I will never play with him again."

"..."

Timo is a hero who is about the same status as Yasuo. The powerful people who use it are really powerful and badly used people. Anyway, the old cat definitely does not belong to the former.

"When I finish this, oh."

The nursery rhymes said that they turned around and found that their teammates had a personal id called "unlwer". The assigned position was wild, and about thirty seconds ago, he posted a public screen on the team: ya?

Nursery rhymes: "..."

The road to the home is narrow, and it is actually a dog thing

in Jianyang.

Imagine the picture of the gank that I didn't come to the middle of the field. The nursery rhyme thought about whether or not to quit the game. The result is not right. If you win, you will return to the king and give it away. (*The game will be forced back.) The player of the game defaults to lose the game win points of this game, the other teammates do not deduct), so they began to pray for Jane Yang to know that they have retired -

When he was selected by Jian Yang, he did not hesitate to lock up a blind man.

In addition to the nursery rhymes, they had to choose the heroes they had chosen. The five chose the heroes and entered the game. Once the two sides loaded the game, they saw the bright red "zgd, ean" nursery rhymes on the opposite team. : "I am going to Cheng Ge, he is playing against the wild..."

"Then he is estimated to live in your middle of the road... but there is Yangshen on your side, Mofang." Xiaopeng stretched his head and glanced at him. "Whenever the brothers are playing wild, everyone is afraid, Yangshen is still divided. You can blow him up in minutes. You are stable in this game."

When the nursery rhyme heard that Lu Sicheng wanted to live in the middle of the road, he couldn't panic. As for whether there is a Yang God on his side, it's not the focus at all, because Tong Tong feels that he will not come to the middle to help – after all, "the same way, self-seeking and happiness" is the former The basic rules of survival for boyfriends and ex-girlfriends when they meet in the game.

Into the game, five people "蹦蹦蹦蹦蹦蹦" appeared at the same time in the base spring water, the nursery rhymes began to type on the public screen full channel -

However, she did not care about her.

After the game started, the third level ran to catch a wave of the middle road. Fortunately, the nursery rhymes had been wary in advance, and the soldiers were kept under the defensive tower. Lu Sicheng's small crispy skin was not good enough to kill the tower. After going around the middle road, go on the road...

The nursery rhymes gave a signal to the comrades on the road. They completed the wave of soldiers under the defensive

tower and wanted to return. At this time, the opposite Zhongdan had been interrupting her with long-distance skills and harassing her back to the city. Voice: “Don’t be too much...”

When the words just fell, I saw a visual field props inserted in the back of them. Jianyang’s blind cockroaches came out, and a roundabout kicked the other’s squad into their defensive tower. The defense tower’s damage to the hero in the early stage was still very objective. The nursery rhyme quickly released the skill to control him and prevented him from running. The two men cooperated with each other to kill the opposite one.

Jianyang left the head to the nursery rhyme and turned and walked down the road.

Looking at the cool back and the three hundred heads of bounty that came out of the body, Tong Tong suddenly felt that her ex-boyfriend was two meters a day.

But then, the days of virginity are not good... The action of Jane seems to irritate someone who doesn’t know which nerve – then Lu Sicheng is really like living in the middle, running every few minutes. To catch a wave, the nursery rhyme was killed three times in a row, one big head and two big, and continued to type on the public screen -

I ignored her.

The nursery rhyme hesitated and began to Huairou policy - When you were typing, the two sides were in the middle of the road, and there was a rush in the middle. Lu Sicheng’s crazy help to the middle road led to Jianyang’s inability to leave. Everyone did not care about living in the middle of the road. The virginity of the nursery rhyme has suddenly become the illusion of a double road.

Jianyang is the old wilderness, and the wild hero is also familiar with Lu Sicheng. However, Lu Sicheng is also a top-notch genius. This leads to the fact that after all the fires on both sides, in addition to the teammates who are going up and down, they are desperately playing signals and question marks. Outside the screen, everyone basically did not take any advantage -

Down the road, two Koreans said that the nursery rhymes can’t understand. At this time, the order of the nursery rhymes

is a Chinese. It is estimated that they can't stand it anymore. They silently type on the public screen: What about you? At this time, the nursery rhymes are still tirelessly harassing each other with spiritual pollution.

The killer is used, but the opposite person still has no response!

When the nursery rhyme almost doubted whether Lu Sicheng would not type on the public screen... However, at this moment, she suddenly saw Jianyang coolly playing a line: renjiyii.

- People don't care about you, saying so much is interesting.

“ ... ”

The hand of the nursery rhyme keyboard mouse suddenly stopped...

_____.

The voice of the cockroach of Jinyang seems to be ringing in the ear, staring at the line that Jianyang played, and the nursery rhyme is silent, feeling that he seems to be inexplicably poked something, and looked at himself almost brushing the screen. She couldn't get a punctuation with a variety of public screen typing, and she felt that she was a bit too self-sufficient.

Yes, people ignore her.

The nursery rhyme lowered her eyes and suddenly lost interest in typing. In fact, she didn't even have the interest in playing this game. It doesn't matter if she can't get on the king, she wants to finish the game. Then roll back to the bed to watch the cat and appease the girl's heart that has broken the ground. At this point, Jianyang's hateful ghost continued to lick his nose on his face—

You told him so much.

I want to win, I will take you to win.

People don't care about you.

Is it interesting for a person to talk to himself?

.....

In the game, the id is in the middle of the 30-minute development of the pressure-resistant wretchedness suddenly, and unreasonably unreasonably slammed the opposite side on the ground.

Outside the game, the girl is expressionless.

At this time, her cell phone on the table rang, and the nursery

rhyme called the game, the most annoying, and called her. The frowning did not seem to be the direct connection of the electrician. She slammed and slammed it. I want to say that I am busy for a while, then I will hear the low male voice on the opposite side -

“How can I not type?”

Nursery rhymes: “.....?”

The sound of the mouse suddenly stopped suddenly.

“I have handled the matter well. I will change the ticket and come back tomorrow. You and your cat will give me the truth.”

“ ... ”

“Bye.”

“ ... ”

Until the busy voice came over the phone, the nursery rhyme kept his phone in a posture, his head emptied and his face was arrogant.

In the game, the “unlwer” comrade who didn’t know what happened in the previous second was still brushing the screen - Cheng Ge does not like typing in games, he does not like to talk in reality.

You said that he will not care about you more.

Why do you have a cold face and a cold ass.

Hello, you guys! Dropped? Hang up?

Come, I will take you to win, know that you have to return to the king...
