

Chapter 44:

The face of the nursery rhyme, like the persimmon in the autumn wind, was white and red, and she was silent. Then she was uncertain and asked in horror: “What do you mean, are you marrying me?”

Lu Sicheng: “...”

Nursery rhymes: “...”

Lu Sicheng: “Your brain is broken? I am asking if you want to lie... forget it, I am mocking you.”

“...” The nursery rhyme slowly widened his eyes. “What lie to the dowry, you talk well, Lao Tzu is 800,000 people a year!

Rarely, you are so rude!”

Lu Sicheng sneered at her, slammed the quilt and looked down at the bed.

The voice of the nursery rhyme came to an abrupt end, and paused and asked: “What are you looking at?”

“See if you have soiled me -”

Lu Sicheng’s words were still gone, and the man who stood by his bed suddenly jumped up to a tiger’s floor and flew into his bed. The man was hit by a slammed bullet and fell backwards. He looked up and looked at him with anger. People who are nervous about themselves on the quilt: “Don’t look! Stain me and wash it for you! Don’t look!”

Lu Sicheng just said casually, seeing her so nervous, it seems that there is really a girl shame in this stuff, suddenly evoke the lips: “Where am I going to sleep tonight?”

“...” Nursery rhymes waved at the chubby bed.

Lu Sicheng glanced: “His bed is too soft, I have a backache.”

You are this elderly. The child shook his lips and couldn’t wait to smash the hard-working guy to death. He slowly got up from the bed and smashed the bed under his eyelids to find out if there was any suspicious liquid. I heard Lu Sicheng slouching outside the bed: “You can’t do things, you are less, you say how many black pots I have for you...”

“Yes, yes, the captain is tens of thousands of years old, I will make you a cow in my next life... The legs are removed, I look at this.”

As the nursery rhyme said, he lifted a leg of Lu Sicheng under the quilt.

At this moment, the door was opened from the outside, and the

voice of chubby came -

“Sincere brother, Xiaorui asked me if you want to stop eating the shrimp dumplings that you packed back...”

The chubby voice was fixed when he saw Lu Sicheng holding a leg high and squatting under the quilt as if he was suddenly squatting on someone between his legs. He suddenly disappeared -

Then the door was closed with a bang.

In the room.

Lu Sicheng raised his eyebrows calmly.

Under the bed.

The nursery rhyme threw away Lu Sicheng’s leg and opened the bed on his head: “The bed is not dirty, don’t force it...”

Who? Just chubby? He came back so much? Shrimp dumplings? I want to eat shrimp dumplings! ”

Lu Sicheng bent his legs and made a sneer: “Go.”

The nursery rhyme jumped out of bed, sorted her hair with her hand, turned around and saw Lu Sicheng slowly swallowed up. She hesitated: “Would you like to change clothes, just sweating? Be careful.”

Lu Sicheng glanced at her and did not speak.

Five minutes later, the virginity in a home uniform and Lu Sicheng who had changed a t-shirt went to the ground floor.

Looking at the people sitting downstairs and squinting at myself, the nursery rhyme scratched his head and realized that he wouldn’t say anything if he didn’t say anything today... So he said, “Sorry, just look at Chengcheng. Brother took medicine, originally waiting for him to change the towel. He squatted and fell asleep at the bedside. After he fell asleep, he was a little cold. When he was confused, he went to the quilt and climbed on the bed. ... Hey, what, scared you? Actually, I was shocked.”

“No no.”

“Normally normal.”

“Oh, why are you cold? Today is very cold, and girls are cold and normal.”

“I haven’t eaten dinner yet? Come and eat some shrimp dumplings. It’s a delicious meal to package for you...”

Everyone is indifferent to the role of acting.

At this time, the nursery rhymes know that the more questions

are said, the more they ask, the more they close their mouths and go to the table to sit down and prepare to use food to suppress the shock. She just said that she is telling the truth, she is not only shocked, she is still I feel that my soul has been unsuccessful because of my fright.

Opened a packing box and found it hot, and quickly opened the chopsticks and couldn't wait to pinch a mouth to the mouth. At this time, she saw Lu Sicheng go to the edge of the sofa and sat down. Lu Yue had just inserted the straw and had not had time to go to the mouth. The yoghurt sent in was taken over and took two.

Xiaopeng clears his throat: "You... well?"

Suddenly surrounded by death.

Nursery rhymes carrying a shrimp dumpling: "?"

Lu Sicheng glanced quietly at the people around him who looked at him silently. Apparently guessed that Xiaopeng had closed the door for the second time and said something to these people, so he looked down and said: "I am ten." five minutes?"

The surrounding atmosphere was relaxed at the moment, and everyone not only did not have any objection to this mean, but they all breathed a sigh of relief.

Nursery rhymes licking the second shrimp dumpling: "??"

Lu Sicheng: "Is it delicious?"

The nursery rhyme nodded.

Lu Sicheng said "Oh": "Eat more."

The nursery rhyme swallowed the food in his mouth, still inexplicable.

.....

the next day.

The nursery rhymes sat in the chair and slammed the index this week. Yesterday was an opening game on Thursday afternoon. There was no match on Friday and there was no Saturday. At 3 pm on Sunday, the China Telecom team will return to the group. In the round robin, they should fight their first team opponent in the group: king.

The spring game was upgraded from lspl (* League of Legends China Sub-Professional League) to the newly promoted lpl (*League League China Regional Professional League). In the lspl spring finals, King played five sets, the

last one. The performance of the Life and Death Bureau was a terrible turnaround. The inferior bureau was willing to be stubborn and dragged down. In the case of a 5,000-odd economy, the Dalong forced the group to send the opponent to the sky, and stepped into the ranks of the twelve teams of lpl. Their team is only a Korean, id ramen, hanbok king is divided into high-scoring passers-by was bought in China, the nursery rhymes ranked in the row with him, the operation is not bad, but the nursery rhymes did not match him. So other situations don't quite understand.

"Ming God, is there a video of the King Spring Finals?"

"Yes, you want?"

"Yes, let me see the ramen."

"Oh, okay," Ming Shen looked down at the instant noodles she was eating. "I will send you a while later."

The nursery rhyme sat back in the chair. At this time, Lu Sicheng passed behind her and heard her knowing that God wanted the video. She did not salty and threw a sentence:

"When is the time to pick up the index and when it is playing with the newly promoted horse, it is better to count your own live broadcast time. ——At the end of the month, when you are not enough to make a live broadcast of your time, why do you have a happy face?"

"What happened to the newly promoted horse? Looking down on the newly promoted horse?"

"At least not when the index is going to compete with them."

"..."

The nursery rhyme drums Gu Jie and refuses to continue to fight with Lu Sicheng. The atmosphere between her and Lu Sicheng after awakening this morning is a bit strange. It is probably because she had returned to the taste after last night's "same bed". ...

Unconsciously, he was short on the momentum.

Very angry.

At this time, the nursery rhymes stretched their necks and looked at the other teammates in the base. At this time, apart from Lu Sicheng, the old fritters that could break the salary from the beginning to the end, all the players were powerful and the avatars were working hard. Live time -

It is no wonder that today's chubby is particularly civilized.

It is no wonder that the old k and the old cat are so polite in the double row today.

Nursery rhymes: "...I should have not had much live time left, and I signed a few days on the contract. Rui Ge said that I can discount this month."

The nursery rhyme smashed and opened his own computer notebook, first lazy to count the live broadcast time of this month, and took out the mobile phone to add and subtract - the sound of her broken after the addition and subtraction

Disappeared, staring at the huge Arabic number "42" on the phone, she blinked.

Then I don't believe it again.

Still 42.

Next to her, the man who had just had a fever and a hoarse voice bowed his mouth and drank his coffee. He stared at his screen and faintly said: "Is it clear? Welcome to hell."

Nursery rhymes: "....."

This day is May 27.

There are still five days from the end of the month.

That is to say, even before the advent of June, even if the nursery rhymes are open every day, she will broadcast more than eight hours a month to avoid deductions.

Moreover, what is the salary of the first month of employment?

The nursery rhyme sighed deeply, but she turned on the live broadcast software. When she was ready to play the rank training for a while, it was broadcasted for a while... In less than ten minutes, the live broadcast room soon became lively, and the fans and the old drivers were more sober than her.

Start brushing frequency -

The nursery rhymes watched the barrage for a while, and they were modest and hypocritical for a while. When Yu Guangjian saw the sneer smile on the lips of the people around him getting clearer and clearer, he quickly stopped and took a deep breath to open the game client and wait for the system to match. The battle -

It was not put in for a while.

On the third floor, the nursery rhyme has the right to ban the hero. She is slightly squinting and considering what it is better to do this. At this time, she saw Lu Sicheng holding a coffee

cup with one hand and the other with his own hand. The list of friends in the game looked at the eyes... Then the man turned his head and looked at her deeply, slowly saying: "A Tai is opposite you."

The virgins slipped and banned a grave-digger who had never used it for thousands of years.

The teammate's public screen knocked a "?", and the nursery rhymes quickly typed and said that they were slippery and ban. Lu Sicheng: "You have no psychological quality."

Nursery rhymes: "..."

After entering the game, Tong Tong chose an Ike, but this is no longer important. The important thing is that a small fisherman has chosen to press her crazy. In less than five minutes, she has pressed her to fasten 15 soldiers. It's too hard to say... At that time, who is around, what the barrage says, she doesn't care, and she concentrates on playing her own game with one heart and one mind. Finally, when she upgraded the sixth level to the fifth level, the small fisherman from the first step to the sixth level jumped up and hit a set of the way. The blood of the nursery rhyme was instantly anxious, and he turned to want to retrace.

"Replenishing a soldier, there is a big move to upgrade immediately. You are also on the road, you can fight, what?"

The calm voice of the man in the ear sounded, and the nursery rhyme consciously operated the point floor to cut a small soldier. When the moment reached the sixth level, he put the skill to fix the small fisherman and then cut it into two knives. At the end of the body, the hand speed Quickly zoomed in and pulled away the distance, and at the same time, Fang Fangye arrived and received the head of the little fisherman!

When the killing prompt sounds, the nursery rhyme stands under the defensive tower of his own house and squats down. He looks at the string of "6666666666" of the barrage, "this single 20-year hand speed" and "wife is awesome 66666".

With a sigh of relief, the cup in front of him wanted to drink the lipstick and the water was crushed. It was only then that he found that his hand holding the cup was shaking.

...this is just a rank.

This subtle movement was probably seen by the man who leaned on the back of her chair at this time. The man's voice

was calm and full of enthusiasm to educate her daughter's majesty: "When you are pressed, you know what it is to run, don't look at the position of your teammates. What is the experience of your own experience? The level of silver players, Ata is eating in front of you or how scared..."

Nursery rhymes: "You shut up, don't push."

Dare to talk to our honest brother, the "6" on the barrage is more intensive.

Lu Sicheng paused.

For a long time, faintly said: "I still miss the way you shivered in bed and couldn't tell you yesterday."

Say it's going to go long.

The nursery rhyme slammed the brown sugar in his mouth back into the cup.

At this time, "66666" on the barrage has been replaced by "?????" -

To what extent is it dense?

Probably the virginity can't see where his mouse is.

The author has something to say: Come here!

Cheng Ge is really a bad man, but... the pit he dug himself is still filling himself, why bother?
