

Chapter 50:

If Lu Sicheng catches the nursery rhyme and doesn't return to the team and finally walks out of the men's bathroom, this is not the worst. The worst thing is that when the nursery rhyme stands in front of the bathroom and Lu Sicheng makes a silent confrontation, the king team fights. Wild A light eyes came out from behind and came out -

He glanced at the virginity and smiled at her, and politely called Lu Sicheng a "sincere brother." ㄥ

Lu Sicheng calmly "hmm" the voice is a response.

Just looking at my own singles.

A Guangdun paused, turned his head and said to the nursery rhyme "Thank you, I left." Then I turned and left... When Aguang went farther and farther, the last back disappeared into the eyes of the two, Lu Sicheng The phone rang, and he blinked. The call was Xiaorui. The man picked up the phone and said nothing but waited for it. "Find her, come right away."

After that, the phone was directly deducted.

At that time, nursery rhymes felt that it might be bad.

Because Lu Sicheng stared at her even when answering the phone, the eyes were like a leopard in the hunting staring at the lamb today. When he put away the phone, he finally said something amazing: "You put the team of others into the wild. Are you crying in the men's room?"

The most singer is that he has a calm tone and a calm face, not at all joking.

Nursery rhymes: "?????????"

Nursery rhyme black question mark face.

Lu Sicheng: "But why should he look at you with that look?"

Nursery rhymes: "..... Just when he was in the bathroom, I did. He just cried, but - even if - I am - I will say good words to me. What do you cry for?! Mouse or keyboard?!!!!!"

Lu Sicheng: "But why should he look at you with that look?"

Nursery rhymes: "Do you not think that is the eyes of worship?!"

Lu Sicheng: "That is the tamed look."

Nursery rhymes: "..."

Lu Sicheng turned and walked outside the door, and the

nursery rhymes quickly followed up... During the period, Lu Sicheng reached out and took the bag of her shoulders and took it to her hand. The nursery rhyme was thankful, and he heard the person on the top of his head chilling: What kind of resentment do you have with the position of playing wild, playing two games to collect the two teams' wild play, collecting stamps? 2016lpl limited edition wild stamps?" Nursery rhymes grabbed their peripheral kits back: "Shut up." Lu Sicheng gave a light smile and let go.

When they arrived at the parking lot, they climbed into the car. The nursery rhymes got on the bus and said hello to the teammates who had been waiting for a long time. Xiaorui stretched his head from behind the seat and asked, "Why are you going?"

Tong Tong is trying to answer, Lu Sicheng first said: "Philate." The nursery rhyme wrapped the peripherals on his stomach. Lu Sicheng stepped back. The nursery rhymes "snapped" and sat down in the position behind Xiaorui. Xiaorui turned back: "The captain came back to see you after the interview." I am not looking for you when I risk being caught up by fans. I have been calling you and I have thought that you were kidnapped."

The nursery rhyme squinted backwards at Lu Sicheng, sitting behind several rows of windows behind her. The man was taking out the earphones and stuffing them into his ears. It seemed that he was going to sleep on the way to the restaurant... The nursery rhyme regained his gaze and stood up in the small Rui's back whispered next to him: "When I went to the bathroom, I accidentally found that the king's team was crying in the toilet. I comforted him. The bar was too embarrassing, and let's blow it into God. I am very upset." "Don't dare to look at the post?" Xiaorui squatted. "On the day of the Spring Games Finals, I uninstalled all the stickers in their mobile phones before returning them to them."

"The new driver is on the road. I heard that King was strong in lspl before. It has always been a team that has been praised." Nursery rhymes sat back.

"And you are going to comfort others, what the **** is, it is the enemy."

"Oh."

“In case you are comforted to fly someday -”

“Flying high again can’t beat us.” Tong Yu smiled. “We are also taking off.”

Xiaorui closed his mouth, stared at the nursery rhyme and looked at it for a while and then threw the next sentence, “You are also very inflated” and turned to sit firmly. The team bus opened the parking lot, and the teammates went into a state of drowsiness... The nursery rhymes sat in the car and played.

Weibo, during the accident, turned to the interview of Lu Sicheng, who was recorded by Weibo before the Weibo push. Although I heard it at the scene, at this time, the nursery rhyme was still casually listening and listening again. When she heard Lu Sicheng say, she rolled her eyes and made a face to the captain who was indifferent to the screen. Then, I clicked on the video and wanted to close it. I found that there was still a section of the progress bar -

Nursery rhymes: “Hey.”

Did you talk about other things later?

The nursery rhyme let go and stop the action of closing the video. At this time, the man in the picture just stopped, and he did not know what he thought of. The indifference of the corner of his eyes faded slightly, his eyes became softer. He lowered his head and continued:

Nursery rhymes: “.....”

The nursery rhyme bit his own middle finger.

Biting on the joints of the phone, there was a slight pain -

This means she is not dreaming.

The mind was empty, and in the video, the cheering screams of the fans below, she blinked blankly, looked up and looked at her eyes, then the head was holding the window and closing the eyes of the man... After a few seconds She shook her head back and forth, and when the host said something, she couldn’t hear a word.

Open the following forwarded comment and you will see a highly praised comment at a glance -

The nursery rhymes paused and muttered “boring”, but the hand was like a magical pull back the progress bar - when Lu Sicheng said that they were not familiar, stopped and bit the lower lip. Staring at the man’s lips...

The video is three minutes and eleven seconds. When Lu

Sicheng said, "I am very happy to have such a teammate as the captain," his head moved, then the corner of his lips... picked up in an almost invisible arc and quickly flattened. .

..... It's really a smile.

The nursery rhyme put down the mobile phone, and the cheeks quickly warmed up at a terrible speed. She grabbed the mobile phone and stood up from the position. She turned around in the same place and finally grabbed the team manager who was watching the Korean drama in front: "Rigo! Ruige!"

"What's wrong?" Xiaorui looked back at the look of the nursery rhyme. The look of the reddish eyes was shocked.

"Would you like to go to the bathroom?"

"Which toilet, you see this," Tong Yu held a mobile phone to show Xiaorui.

"What a ghost thing?" Xiaorui also put down the Korean drama and stretched his neck -

The two are coming together.

Suddenly, a long arm was stretched out to take the cell phone in the nursery rhyme. The nursery rhyme "Ah" turned his head in dissatisfaction, and immediately looked at a pair of dark brown eyes without emotions... Lu Sicheng looked down at the phone The phone screen, snorted: "Just the interview? What is good."

The nursery rhymes want to get back their mobile phones - Lu Sicheng raised his arm.

The virginity hit his elbow: "You are not sleeping?!"

Lu Sicheng: "Wake up."

Nursery rhymes: "Mobile phone still me!"

Lu Sicheng: "What else do you do?"

Nursery rhyme: "You praised me when you interviewed! I want to show Ruige!!!"

Lu Sicheng: "...what's what you are saying, it's all the interview words written by the staff, I just read it - I handed me a small note before the interview and didn't see it?"

The virginity slammed down, violently retracted his hand and turned to ask Xiaorui: "Really?!"

Xiaorui: "Fake, only the interview question was written on the small note."

Lu Sicheng: "..."

The girl's eyes are bright and stunned. I take off my slippers

and jump on the car chair to grab my mobile phone: “The phone is still me! I want to send a friend to the video screen —”

At this point the car made a sharp turn.

The person standing on the chair swayed, and the originally tilted body steadily fell to the side of the person who was standing on the phone and grabbed her mobile phone. The hand reflexively buckled the wide shoulder of the latter while feeling the other hand’s hand on her waist. I helped one:

“What do you jump up and down in the car? Why don’t you just squat on the roof?”

The man’s voice came close to his ear.

The distance between the nursery rhymes can almost feel the vibration of his chest.

She groaned, and when the car was moving smoothly again, she quickly supported Lu Sicheng’s shoulder to open the distance between the two: “Who will let you not let me see the interview?”

“What kind of interviews do you see in front of you?”

“The real person will not praise me.” The nursery stared at the dark brown eyes. “Then you praise me again.”

Lu Sicheng: “...”

Nursery rhymes: “...”

Lu Sicheng was silent. The nursery rhymes only felt that the pocket was sinking, and the mobile phone was stuffed back into the pocket. At the same time, the man said faintly: “You still have to interview.”

Nursery rhymes: “...”

The author has something to say: One meeting and two more.
