

Chapter 56: city

The nursery rhyme found that she couldn't answer the question about which telegraph pole was so sharp. So after she squatted on the screen of the mobile phone for a while, she decided to turn off the mobile phone... At this time, the rest time came to an end, Lu Sicheng pushed the door and came in. Holding a large bouquet of brightly colored flowers in his hand, the nursery rhymes turned his head and watched him enter the door and handed the flowers to his assistant.

The photographer behind him took pictures.

Xiaopang tears: "I have given you two years of assistance, to be a baby, to be a nanny, and finally to come today. Come and come to the photographer's big brother to give a close-up. In this sacred moment, I have to respond loudly. Cheng Ge: I don't want to go to Nimade."

Lu Sicheng glanced at him and sneered to close the door behind him.

The noise outside the back was shut out. The old cat shook with a cup of coffee on the chair. He heard the movement stretched out his neck and looked at the big bunch of flowers in the chubby hands. The packaging was advanced and the variety of flowers was so high. A bunch of flowers is not cheap... The old cat asked: "Who gave the flowers? Fans? Fans in the background?"

Lu Yue raised his eyebrows: "His fiancée."

Lu Yue's words just fell, and the entire lounge was in a very strange silence.

Old cat: "????"

Old k: "Do you have a fiancée?!"

Xiaopang: "Then we are virgins? Even if we have a pillow together?"

Nursery rhymes: "Hey?"

The old cat twisted his head and looked at the nursery rhyme with sympathy: "I heard the raindrops fall on the green grass."

Old k: "I heard the sound of the derailment in the distance."

Old cat: "But I didn't hear your voice."

Old k: "Serious, say sorry."

Old cat: "I said that when I washed my hands on the first floor of the base, the water was so green. It turned out that the nursery rhymes were washing their hair upstairs."

Nursery rhymes: “Roll.”

“You are almost done,” Lu Sicheng took the notebook in the hands of Mingshen and slammed it on Lu Yue’s head.

“Fiancée? The brain has made up a play.”

Old cat: “I don’t want to say it. Chengge, are you calm and calm, and you are stealing music? Do you have a girlfriend and tell us? Isn’t it because we are teammates? We can’t put ourselves in this game. The back of the rest assured you...”

The teammates looked very excited, probably because they felt that Lu Sicheng could not fall in love with human beings before.

Lu Sicheng is trying to say “Where are you and my friends together?” At this time, the door of the lounge was pushed away from the outside - Li Shuoshu, who should have been sitting in the auditorium, was drilled. Come in, he also put a Starbucks takeaway box in his hand, put two cakes inside, he appeared, until he could understand most Chinese Lu Sicheng had to swallow his stomach without saying anything.

The mobile team’s wild look looked like it’s coming. At this time, the chest was still a little short of breath. The door into the lounge greeted everyone inside. He went straight to the nursery rhyme and put the cake in his hand: This is delicious, for you.”

After thinking about it, I tried to squeeze out the sentence:

“Hungry after the game, it is not good for the body.”

Nursery rhymes: “.....thank you.”

After that, turn around and look at Lu Sicheng. Lu Sicheng looks at his cake box and then looks at the nursery rhymes. He thought about it directly in Korean:

This time, Lu Sicheng turned his eyes and did not hide his eyes. He raised his fist and made a pose for the little boy. Li Shuoshuo “Yah” sounded, turned his head and emphasized to the nursery rhyme “It is delicious, very hard.” Buy it, then turn around and hurry and run away -

Leave a lounge of the operator team and staff.

Xiaopang: “What happened? We have to wait for the micro-signal because we have it all, but there is no one hand to send the cake today!”

Old cat: “There is a play without brain filling.”

The nursery rhyme put the cake box up and wanted to say

something. At this time, Xiaorui pushed the door in. “When time is up, you will almost come out. - I am so embarrassed? It is a flower and a cake, ten minutes. During the break, you have to hurry and open a carcass? It is very inflated.”

Xiaopang: “There are boundless charms in our team.”

Xiaorui: “You?”

Xiaopang: “Besides me.”

Xiaorui looks to the nursery rhyme: “What happened?”

Tong Yu is trying to answer, Xiaopeng is interjecting: “The next-door mobile team will fight for the girls to do the door-to-door niece.”

Xiaorui: “Catch us virginity? The last game was mad in the middle of the road to take our niece on the dog’s head, but also hope to be able to swear? Oh, I said that the romance of your professional players is really not...”

The players joked and went out. Lu Sicheng was at the forefront. The nursery rhymes were at the end. They couldn’t have time to say a sentence within ten minutes of the rest time. Although this is quite normal, the nursery rhymes always feel that it is not right.

Can’t say awkward.

When I got to the outside competition table, the audience below had already sat down. The nursery rhyme glanced at the front row. Lu Sicheng’s blind date had already returned to his seat and sat down, but there was no big bunch of flowers at the foot; Li Xiaoshuo’s little devil also sat back. On your own seat.

The second game begins.

Because the first win is very easy, everyone’s emotions are more relaxed, and ban~pick is not too targeted at the opposite side. Everyone is directly taking the hero they want to use. The nursery rhyme hesitated to choose a moon goddess- Because this hero has not appeared in the game for a whole season, plus the number of games that lpl is now playing back and forth to return to the list of heroes, so when the nursery rhymes return to the battlefield with this new face, choose It’s a sensation that comes out...

Although the players could not hear, the cheers on the scene were loud.

Commentary b:

Commentary a:

Commentary b:

In the voice of the tune, Lu Yue, who was sitting next to the water dispenser in the background, made three or four sneezes in a row. After the painting, he rolled his eyes and accidentally remembered the dialogue in the base.

Lu Yue:

Nursery rhymes:

Lu Yue:

Nursery rhymes:

the above.

Obviously the road people don't know that all the melon skin operations are a id "law" guy trying to expand his hero pool, and the so-called occasional "spiritual operation" is that the real master can't look down on himself. Grab the strength of the mouse and keyboard teaching...

Lu Yue held his face with one hand, while eating a mobile phone team to play the cake for the nursery rhymes, while watching the live broadcast of the game on the TV screen in front of him -

At this point, the ban~pick session ended, and ten people from both sides entered the Summoner Canyon.

The previous month is really not a suitable hero for online fights. Her most powerful one should be the tank used to break into the back of the team in the back of the team, and directly cut the crust on the opposite side, for the operator. This hero requires quick response, good position and flexibility. It is a hero whose success or failure lies in a moment and can change the situation.

After the nursery rhymes went online, they also carefully added the knife, did not give the other party too much opportunity, until the opposite is also the whole China class, communication is good, the whole process of the afterglow has not left the small map in the lower right corner -

Until the nursery rhymes reached the fifth and a half, she suddenly saw the opposite of the single and the single and double delivery, the next light on the road -

Nursery rhymes: "????"

Old cat: "I am going to do it? What are you doing under the

road? No one has grabbed the 6th level and how is it **** collectively?"

The old cat was also busy with the mess.

There is no way for the nursery rhyme to find an eye position that is slightly deep in the back of the place, and it is also transmitted.

In the inexplicable way, the two teams and ten people were all together.

"I just looked at them and I took a look!" Xiaopang shouted innocently. "Nyima can be pregnant and sensitive. Can you open a group without a word?"

"You not only took a look, but you also hooked it with a hook."

Lu Sicheng said lazily, and he walked sharply to hide the opposite skills of 800. At this time, the nursery rhymes and the old cats have already transmitted them. The old cat trolls rushed over and stuck a pillar to accurately put them in the middle. The single and adc are separated from the front row, and the nursery rhymes keep up, and the hand quickly harvests the adc whose original blood line is not healthy!

Opposite to see their own adc dead, they did not continue to pursue and want to go back and retreat, but Lu Sicheng did not give them this opportunity, the hand of Weien suddenly turned a head, followed by the opposite order chasing **** archery - this At that time, everyone did not have the equipment, and the level of the tanks on the order was the same. After a few kills, the remaining assistants, wilderness, and singles faced the zgdx five people, and they were unable to return to heaven...

What's more, Lu Sicheng's blood line is still very healthy.

In the end, the situation of reluctance to maintain peace was directly defeated by the other side of the road, and the situation was opened.

In the end, the head of the other party's singles, the nursery rhyme left a skill, and gave the head to Lu Sicheng. Lu Sicheng glanced at the person sitting next to him with a short head: "So generous today?"

The nursery rhyme ignored him.

At this time, the old k and the old cat and the chubby three people went to the way to take down the first element dragon.

Lu Sicheng was holding three heads in his hand and was

thinking about returning. He turned his head and looked at the opposite line of the line. It's not a good thing to prepare for the return of this wave of soldiers. It's just like this. When I was planning this way, at the same time that the line was pushed forward, he saw that he had suddenly hit the home in the grass. Broke the reading, qaaaaaa, a series of operations, the freshly entered soldiers line to eat clean.

Lu Sicheng: "..."

Hey, there are countless question marks from your own adc in front of the map of the nursery rhyme: I heard that the people who dared to be dirty, the grass before the grave was three feet tall.

The nursery rhyme seems to be blind and deaf. I have never seen Lu Sicheng's question mark. I am leisurely re-hiding back to the grass and continuing to return. Finally, at the moment when the game characters disappeared into a large number of question marks, they left the three words of indifference. : "Tolls."

God **** the toll.

Seeing all this chubby music can not breathe, the dragon does not hit the direct smile on the chair, Lu Sicheng back to the city when watching the girl who has returned to the city to buy equipment to re-enter the line on the line, helpless: this is the usual In the rankings, some people dare to dirty his soldiers. When he returns to the city, he will never come out of the spring again.

But now he didn't say a word, he was dirty when he was dirty, and he bought equipment from the spring.

Xiaopang: "Finally find someone who can bully you."

Lu Sicheng: "Don't talk."

This is just an episode.

The game is still going on.

However, although the cooperation of the opposing teams is indeed very high, but in the one-on-one operation level of the players, in addition to the singles, the newcomers are still not worthy. Others are slightly worse than the zgdx, so they were arrested in the early stage. In the case, they have little chance to fight backhand -

The zgdx team relied on **** and quickly won the game.

Today is still a relatively easy 2:0 victory over the opponent.

According to Lu Sicheng's rough statistics, from the beginning of the game to the end of the game, Tong Tong said to him from the beginning to the end the word "tolls" - communication is less, but cooperation is no problem, he is actually the captain. There is no reason to pick her fault. After exploding the other party's big crystal, the players took off the headphones and went to the other side of the player's seat to shake hands with the opponent. The nursery rhyme did not go back in front. Lu Sicheng could only see her side face, the other side's silent It made him feel a little twisted, but he couldn't say where he was.

Five people from the team walked to the stage and screamed at the fans below.

The whole man was absent-minded, and when he finished, he turned his head and went back. Just as he wondered when the person behind him was ready to be silent, suddenly he heard the person behind him "ah", he subconsciously Turned around -

The scene that the audience at the scene looked at was like this: zgd finished five people, turned and walked back, Lu Sicheng walked in the first one, nursery rhyme second, chubby third, then old cat and old k... Xiaopeng walked back and talked with the old cat behind him, laughing at one foot, stepping on the heel of the nursery rhyme shoes, the nursery rhyme shook, and the eyes would fall to the ground...

At this time, Lu Sicheng, who was walking in front, seemed to have a long eye behind him. He returned to God in one second and directly picked up the person who was half empty behind him. He lifted it up on his shoulder like a giant toy.

At that moment, the air solidified.

The person with one foot hanging on Lu Sicheng's shoulder and facing down, stunned.

The chubby who stepped on a shoe for a nursery rhyme stunned.

The audience under the stage also stunned.

Until the screams screamed under the stage, the nursery rhymes supported Lu Sicheng's back, only to see the numerous mobile phones and cameras and the flashing lights like the stars.

Lu Sicheng put down the nursery rhyme from his shoulder: "If

you walk well, you can fall, lack calcium?”

The voice of the man is low, and the nursery rhyme is even too late to argue that it is his mother who assisted in stepping on my shoes.

.....

According to the audience who later watched the game, it was described as follows: Originally, we thought that we were watching a game. Until the end, we found out that it was actually a Korean drama... oh, at the time, 啧啧I am embarrassed to say that I only dared to dream of such a scene when I was fourteen.
