

Chapter 70: city

The nursery rhyme sneaked out of the rest room behind Lu Sicheng. When she came out, she happened to meet Lu Yue. She grabbed Lu Yue's uniform and pulled him back to her side: "Play well, don't drop the chain, don't be jealous, just do it." "

"What are you doing? Lu Yue looks inexplicable. "Do you want to retire? "

After I finished looking up, I asked Lu Sicheng who was walking in front: "Have you swallowed up the will of this person?"

The words just fell, have not waited for Lu Sicheng to answer, the nursery slap has been shot on his back: "less nonsense, this game won our victory record ended the first round of group matches, you see outside there is not - those waving The light stick, that is the Jiangshan that I personally laid down..."

Lu Yue: "Then you will flip your mountain and lose 120,000."

Nursery rhymes: "..."

Lu Sicheng: "There are really a lot of nonsense between you."

Lu Yue's clothes were taken back from the nursery rhymes, and the man took her head and threw her back into the lounge. After the nursery rhyme was baptized by the spirit, it was a lot easier, and the burden on the heart was not as heavy as before. So I sat down and watched the game together with other staff members: To be honest, after being trained by Lu Sicheng, I wanted to win the game opposite to Lu Yue. Now she is even more afraid of Lu Yue.

Especially if he loses the game if he and his teammates can't cooperate, the nursery rhyme feels that he may have to kneel to give his teammates a confession.

Sitting in front of the game broadcast screen, the nursery rhyme is very nervous, the second game begins to face the face and the card is banned, and because it is also necessary to prevent Lu Sicheng's Calista and chubby cow head down the road, so this The tsar was released and Lu Yue was able to get it.

Zgdx has a third defensive tower in the middle.

The nursery rhyme sees Lu Yue and gets the tsar. The whole person is relieved. He leans on the seat back to watch the game seriously and chats with Xiaorui: "What is the card of Lu

Yue?”

Xiaorui looked back at the gods and pointed to the data analyst who smiled at the chin: “You ask him.”

The nursery rhymes look to Mingshen, the latter smiles unchanged: “I taught, I told him that lpl’s domestic singles must be cards, just like lpl’s wilderness will be blind, these are the old ones. The image of the generation of players in ancient times - traditional strong heroes in the division that have nothing to do with the game version, one day, we will bring these heroes back to the world stage.”

Nursery rhyme: “I have never seen him used before.”

Ming Shen: “The card doesn’t match his style, so don’t need it - but it’s an unexpected killer, which means he cares about this opportunity.”

Xiaorui: “Also, after all, guarding the water machine position.”

Ming Shen: “Small Rui, don’t scare the nursery rhyme. - Although it is really when I said, ‘You don’t know how many cards you can see,’ Lu Yuecai is willing to learn to use cards.”

Nursery rhymes: “...”

The nursery rhyme rolled his eyes.

At this point, the game started, and the camera lens was just taken to the road, because they played a wave of blood exchanges at the second level, while the virginity eyes stared at the small map in the lower right corner, staring at the middle road representing Lu Yue. The little tsar head -

I was staring at God, and suddenly the phone vibrated. When I saw it, I found out that it was the phone call from her dad. The nursery rhymes didn’t think much about it. “Hey,” he’s still had no time to talk, and he’s got a comfortable face. —The core content is probably “Let you play the game, you go to fight”. “The first month’s salary is not too hot and it’s 60,000 people.” “A girl who learns to fight if your brain is a show is a big show”, etc., a series.

Nursery rhymes: “...”

To say that her aunt does not go online, her brother’s singer’s slogan is like a level 13 level. Yesterday she was still wondering how such a big rhythm she had at home.

It turned out to be a big move.

After the quality education of Lu Sicheng, I was caught off

guard and accepted the storm baptism from relatives. The nursery rhymes were a little embarrassed, holding the eyes of the mobile phone and staring at the game in front of the game while filtering the left ear of the phone into the right ear. - The game took 40 minutes. She took a 40-minute call. When Lu Sicheng started to redeem the base of the red arrow, her dad also began to make a final speech with great cooperation. There is an essential golden sentence: a madman like you, who will dare to ask you in the future.

Nursery rhymes: "...I am very happy myself."

Nursery Dad: "You dare to talk back."

From the time she answered the phone, now she is the only one she said except "Well", "Ah", "喔", "I know" and "I am wrong". As a result, she immediately got smashed back and she had to go back. Continue to silence until her dad hangs up and asks a question that proves that she is not coming from the trash: "Do you hurt yourself?"

The contrast between the front and back was too big, causing the nursery rhyme to be moved into a dog instantly. After denying it, the phone then dropped the sentence "Don't make trouble again" and then hang up the phone. At this time, Lu Sicheng pushed the door in and looked at her face. The captain, the nursery rhyme thought about it, only to find that he seems to have been riddled by relatives again -

Today, it seems that men all over the world will play the trick of "slap a palm to give sugar."

Lu Sicheng found his own coffee cup, drank his coffee, turned his head and looked at his own single eyes black and white, his eyes staring at himself, he acted and asked, "What?"

The nursery rhyme numbly regained his gaze.

Lu Sicheng asked Xiaorui: "What happened to her?"

Xiaorui: "You played forty minutes and she was educated for forty minutes."

Lu Sicheng raised his eyebrows.

Xiaorui added: "The one who is born."

Lu Sicheng's eyebrows were put back again.

.....

At this time, Lu Yue took the second vp, so he was doing an interview outside. The nursery rhyme went out to stand on the edge of the player channel and listened to it. He heard the host

asked Lu Yue how to feel like returning to the battlefield.

“It’s very good,” Lu Yue said with a smile in his voice. “So I used a new hero.”

“Yes, it’s really surprising that the law suddenly took out a card that didn’t match his style of play today. Is it prepared in advance?”

“Well, it’s not pre-prepared, just our data analysts.” The following screams, some people are calling Ming □ words, Lu Yue smiled and continued. “Our data analysts say that domestic singles will definitely With this hero, it is very shameful, so I practiced.”

“So silg will also play cards.”

“Yes, her card is playing very well. In fact, I always think that she can do anything. At first, the Tsar didn’t know how to do it. Later, she played well.”

“Oh, it seems that the relationship between our carrier’s starting bench is not so tight—”

“Nothing is so nervous, the style is different. Who is going to be on it? Someone may have seen my performance today. I feel that my substitute is wronged or how, but for now, she is more suitable than me, but I will become stronger later, this is for sure.”

“It seems that the lawyers are responding to some questions about China Telecom on the Internet.”

“I believe in the judgment of my teammates. If there is anything I want, I will fight for it myself.”

The nursery rhymes listened for a while, silently gave Lu Yue a hat of “brothers and madmen”, then turned to put on the coat and teammates to pack things first to go to the parking lot - there were a lot of matches on the parking lot and ran out Fans waiting in front of the car in advance also have e-sports media reporters - there used to be only fans, and today there are a few more reporters, so it seems that the team is particularly large. The reporters saw the nursery rhymes as if the pigs saw the cabbage that could be arched. When the camera was picked up, the camera was so excited that he ran over, and the camera and the arpeggio in his hand quickly reached below her nostrils.

“What do you think of this suspension?”

Nursery rhymes: “I deserve it.”

“Do you feel that you are particularly wronged? It is rumored that you are doing the same thing to protect your teammates!”

Nursery rhyme; “not wronged.”

“Speak about it?”

Nursery rhyme: “Say?”

“Would you be worried about being replaced by Lu Yue?”

Nursery rhymes: “I will ban one game.”

“Why would you hit someone? Didn’t you think that this would affect the image? Or because you know that you are the only female player, every move will cause everyone’s attention. In order to gain attention, you can’t help but do it. ?”

Nursery rhymes: “...”

Tong Tong thought that I would put Nima De banana boat chocolate ice cream fart. Do you think that I am Fan Bingbing, but I still need to keep the exposure? However, before she could wait for a slightly gentle wording to open her mouth, the microphone that stood in front of her was pushed away by the big hand that was stretched out behind her. The man’s voice was cold and passed: “It’s almost done, this kind of problem. How do you let her answer? Which media do you have?”

The reporter was so stunned by the whole question, and subconsciously shrank back. At this time, it was just pulled out by the fans who swarmed. A bunch of sisters looked like a bird. “Are you insulting people?” “What questions do you ask if there is any morality?” A little bit more fiercely said: “I am Bonimar skunk, neuropathy.”

Tong Tong’s eyes felt the warmth from the fans. After taking the pen and the book, they signed the names of several fans. They took the gift from the fans and thanked them. At this time, the crowd in front of her was slightly scattered. Tong Tong was relieved. Going to the car, the result just took two steps, I heard someone saying that -

“What professional players, do not know how to do the direct start, a little training news is not on, I heard that before the contract was signed ... even if it is really powerful, before the live broadcast did not open the camera, the ghost knows If you play it yourself, the club will give the contract directly, hey, you said ——”

It was the male reporter who was pushed away.

At this time, he leaned against the wall, and looked down at

the photo he had just taken, and spoke to his peers.
As he spoke, he suddenly felt that someone had come to him.
Before he could look up, he saw a slender hand holding a camera lens. The man looked up and saw it randomly. The person who is shorter than himself stands in front of him, and the black screams.

She raised her hand violently -

The reporter was shocked and shrank.

Unexpectedly, she just stretched out a finger and stroked it in front of his nose. At the same time, he raised his jaw and bite his back and said: "You should be thankful."

Reporter: "????"

Nursery rhyme: "Now my dad doesn't let me make troubles, let me go."

After the nursery rhyme finished, regardless of the reporter's stunned, he took back his hand and walked away with his flames. He climbed up the bus, pulled the curtains, and sat in the window by the air... until about three minutes. Later, Lu Sicheng got on the back of the car. After the nursery rhyme, she grabbed her coat and buckled her head on her head and patted her head.

The nursery rhyme slaps his hand.

Next to Xiaorui's head, he asked: "Which is it that doesn't make you trouble?"

Nursery rhymes: "..."

Tong Tong looked at Xiaorui with no expression.

In the silence of honey juice, Lu Sicheng stood in the gift bag that was suddenly sent from the fans and took out a small box of Wangzi milk. He took it out and put it on the straw to his home singly lips: "Fans let me give You drink and get rid of it."

Nursery rhymes: "..."

The nursery rhymes took the milk out of the air and threw the empty carton into the garbage bag on the car.

Lu Sicheng: "Is it still mad?"

Nursery rhymes: "气气."

Lu Sicheng: "Take you to eat hot pot."

Nursery rhymes: "Eat."

Lu Sicheng: "Is it still angry?"

Nursery rhymes: "气气."

Lu Sicheng took out the remaining row of milk in the bag and stuffed it into her hand. Then she walked back in the empty bag... Xiaorui sent it: "Hey, milk gives me a bottle."

The nursery rhyme immediately grabbed the row of milk and hid it behind him: "No."

Xiaorui: "It's not for the honest brother, what about the baby?"

The nursery rhyme thought about it, so she took out the milk behind her and watched Xiaorui's heart settle her food. She suddenly remembered what she had climbed up from her seat and looked back: "I was eating a plate of beef 888. That hot pot? I want to eat lobster."

The back row is silent.

For a long time, the calm male voice rang -

"Happy with you."
