

## Chapter 71: city

When she arrived at the nursery rhyme store, the two villains in her mind had already hit the big lobster or the eight-eighth eight-piece beef.

A villain said: “The earthen buns have not eaten lobsters?”

Another villain said: “The earthen bun has not eaten beef?”

A villain said: “Can beef not eat?”

Another villain said: “The eight hundred and eighty-eighth beef you eat every day, do you think you have not been deducted from the salary of 120,000?”

A villain said: “Can you fly 8% of the beef?”

Another villain said: “I don’t know, so try it, what if you can?”

The nursery rhymes held their heads with one hand, and the rams came out quickly. When the car stopped, she stood up from the seat and walked down. She walked two steps and was stopped by Lu Yue. She turned her head and heard that the dog’s mouth could not spit out ivory. The person asked: “What happened to your feet? Hey?”

The nursery rhymes “squeaked” and lowered their heads, and the red feet on the back of the right foot and the ankles were also blistered. There was no other reason, that is, the newly bought team shoes hit the feet and the feet were worn out.

Nursery rhymes: “Broken, new shoes and feet.”

Lu Yue: “Hey, pretentious.”

“I don’t know if you broke, are you dumb?”

Lu Sicheng came up from behind and watched the nursery rhymes get off the ground with a shallow foot. He simply picked her up and put it on the flat under the car.

“The new shoes are like this. What are you? When you go back, you can buy a band-aid on the base of the supermarket.”

Tong Yu took a look at him. “My friend set up a shopping trip in Las Vegas for twelve hours. After four hours, the foot was worn out, but she continued to walk for eight hours, like a mermaid dancing on the tip of the knife.”

Xiaorui: “There are people who shop for food.”

Ming Shen: “Is this mermaid a girlfriend in the next team?”

The nursery rhyme nodded, and a group of straight men suddenly showed a very unified expression: out of sympathy for Ai Jia.

Only Lu Sicheng and Lu Yue both performed quite calmly. It

seems that they are very accustomed to this habit of women. Lu Sicheng did not speak. Lu Yue said: "Salivating money can reduce the time for women to find things and find nothing, and make people live longer in disguise. I think this money is worth the money when I think about it."

The nursery rhyme raised his ankle and said: "Yeah, women are like this, is it very cute? Let me and I can, mainly, no money - ah, don't mention the money, suddenly feel the chest hurts."

"It."

Lu Sicheng dropped such a sentence, lifted the Tongling in front of the hot pot door, and the confined and fascinating mysterious door opened. A group of people entered and stood up and found that today it seems to be an e-sports circle. — In addition to the virginity who just entered the door, they also sat in the "huawei" team, and the "big clear five hundred years" team in the next group b, the two tables are very close, the huawei team's playing Li Lishuo is in the big The Qing army team hit the wild body, holding a wine glass in his hand, and shouting "brother" in his mouth in Korean. Behind him, he looked like a staff member and pulled his sleeves and secretly used his mobile phone. Shooting wild pictures of two teams -

A three-person sandwich biscuit like "Jiandie".

Lu Sicheng: "Look."

Nursery rhymes: "Look at you?"

Lu Sicheng: "There is always a woman around this little sister-in-law."

Nursery rhymes: "..."

However, at this time, the attention of the nursery rhyme was not placed on Li Shuoshuo. She noticed that the person who was crushed at the bottom and dressed in the uniform of the "500 years of death in the Qing Dynasty" went to the place... The nursery rhyme remembered the next week. They crossed the group in the first round and played "the Great Qing died for five hundred years." This team is the last runner-up team in the professional league - four nationals and one Korean. The only foreign aid is this time. Li Shuoshuo is the one with the thigh hanging, the id is """, known as the dragon brother, the warm male player -

Why do you say that?

The nursery rhymes have seen their game, and they feel that this Korean language seems to be better than Lu Sicheng... because at least people will tell their teammates when they are inferior: Nothing, can win, everyone cheers, don't give up. —Unlike Lu Sicheng's inferiority, there are fewer talks, and the advantage bureau speaks less. If it's not the game, there's a chubby squad. When you're in the early stage, you'll occasionally have the illusion that you didn't come to the game today.

Well, then again, because there is such a good field, so the entire team s5 in the Qing Dynasty tremble in the relegation match, this spring's spring game relies on this person to revitalize the three roads, directly took the third place. So now the full-fledged fighters how to win next week, the nursery rhymes staring at the opponent team that is about to face, the main carry point is somewhat fascinating. At this time, the head is suddenly twisted from behind, and the man behind the door is standing behind her. Expression: "Who are you staring at?"

"Dragon brother." She answered without thinking.

"What Dragon Brother, are you familiar? It is a wilderness, and you never play in the middle. You can't say that you are familiar with the line, and you want to collect stamps, you."

"...No, set a fart! I was thinking, this person came to the lpl in the spring, and the Chinese progress is so big and a team is really alive." Tong Yu said, "Do you want to consider letting people teach you Chinese?" ?..... Don't say the whole day: Xiaopeng, go ahead and sell the blood two steps to harvest."

Lu Sicheng: "..."

Lu Sicheng looked silent, standing behind the nursery rhymes and Lu Sicheng, the chubby music could not be compared to the nursery rhymes than the thumb -

At this time, Li Shuoshu looked up and found the nursery rhyme.

When his eyes lit up, he immediately opened the staff member behind him, and went to the nursery rhyme in the dissatisfied eyes of the other person. He first greeted Lu Sicheng behind her, and then caught the nursery rhyme and refused to let go:

"Sister, Why are you coming?"

“Come to dinner.” Nursery rhymes smiled.

Lu Sicheng pulled her clothes behind.

The nursery rhyme broke away from his paws.

“I was broadcast live yesterday. Someone told you about the live broadcast.” Li Shuoshuo looked straight and said in a blunt Chinese language. “I am awkward, I let them not say you, you are very good.”

The nursery rhyme looked at the face of “Quickly Boast Me”. I really touched his little head and wanted to praise him. Now there is a housekeeper standing behind her and staring. She can only say “thank you” implicitly, then Whispered: “Don’t do this next time, if they even yell at you, they will be tired of you.”

Li Shushuo smiled slyly: “I don’t understand.”

I don’t understand what the word “connected” means.

He asked Lu Sicheng, Lu Sicheng said that you guessed, there is no way to explain to others, he ran back to ask Long Ge, Long brother listened to him in Korean to explain, and looked up at the nursery rhymes they looked at them - Long Ge and Lu Sicheng are players of almost a period of time. Accurately speaking, his qualifications in the Korean Division are earlier than Lu Sicheng, so when he saw Lu Sicheng, he was quite reserved and nodded.

Then, and Li Shuoshuo did not know what to say, and Li Xiaoshuo’s little devil was screaming...

Li Shuoshuo returned to the nursery rhyme: “Tallen brother said that you are interesting, I can’t say that this is another woman of a brother, even if it is not, I am second.”

The nursery rhyme can’t smile, don’t know how to explain to the child that the white man praises the woman “fun” is equal to “having \*\*\*\* with her”. This kind of thing only lives in the overbearing president. In most cases, the other party is so proud to think of her as Ladu. Unable to hold the huskies...

Either the monkey is pleased to come.

At this moment, they bid farewell to the eye-catching Li Shuoshuo and others, and the nursery rhymes went to the table inside.

Xiaopeng heard the words of Li Xiaoshuo’s child who had just come over and said to the nursery rhyme. He said with a smile: “How do you like this group of wild people to like it? Or you

should be your former ancestor's boyfriend; or you like to drink the poisoned chicken soup you feed; I like to see you fascinatingly; now, even fighting can attract people's popularity?"

"I don't know, it looks like it looks good." The nursery rhyme sat down on the left hand side of Lu Sicheng, and took the menu with absent-minded appearance. "Don't listen to Li Shuoshuo's child."

Lu Sicheng: "He said something wrong?"

The nursery rhyme stretched his neck from behind the menu and looked up: "Hey?"

Lu Sicheng: "How many lobsters do you want?"

Nursery rhymes: "A lot."

Lu Sicheng: "The eyes are small and big."

Nursery rhymes: "I can't eat the package, the cake has not eaten the lobster, and after eating it, it becomes a cat fairy, and I can shovel myself."

Everyone: "..."

.....

It is already more than ten o'clock in the evening to return to the base after dinner.

The nursery rhymes will be full of food and want to sleep, and the car coat will be a big sleep. When did the car stop and I didn't know when I arrived at the base until she was woken up by chubby, she opened her clothes and looked around: "...Hey captain?"

Xiaorui: "I will know you when I open my eyes."

The nursery rhyme is red: "Hey."

Xiaopang: "Cheng Ge bought the cigarette."

The nursery rhyme "squeaked" and muttered "Is he not quit smoking?" Climb up, stepping out of the right foot, the tingling from the heel of the right foot made her "snap", she remembered forgetting to stop the car and buy a band-aid. .

The nursery rhyme jumped out of the car and walked into the base and smashed the shoes: "Little fat, help me call the captain and let him take it for me -"

The chubby face lifted his hands in Lu Sicheng's coat: Lu Sicheng's cell phone was placed in the most conspicuous place on the outer layer.

Nursery rhyme: "...Made, I will buy it myself."

I was so sullen that the peripherals were wrapped in a chair, and I looked at the big cake that I was sleeping on Lu Sicheng's chair. The girl's face was buried in the cat's belly and the hair was a little wet. It didn't feel relieved when it's drinking water.

Raising his head and habitually turning on the computer, and habitually sweeping the eyes of Lu Sicheng's desktop, she casually asked Xiaopeng: "Hey, chubby, honest brother's goldfish son how two left?"

Not taking care of it.

Didn't you reject all kinds of accidental deaths?

Isn't it that people are thirsty and remember to change the water for the fish tank?

"No," chubby voice came from far away. "It's still three before the game goes out this afternoon."

Nursery rhymes: "No, you see, obviously -"

Nursery rhymes: "..."

The voice of the nursery rhyme came to an abrupt end.

Suddenly she wanted to understand what she looked like and looked down at the cat lying on Lu Sicheng's chair. The cat of ten kilograms picked it up and grabbed the nose of his head and sniffed it. The full fish The smell is almost so that the nursery rhymes will spit out the lobsters in the stomach!

When it was said that it was too late, the nursery rhyme used the uniform to wipe the mouth of the cat and then took it up and rushed upstairs to open the door of the room and threw the cat to his bed and turned it to the door -

At this time, there was a voice coming from the base gate.

Lu Sicheng walked in with a bag from a supermarket. He still saw a black shadow like a whirlwind from the second floor.

He paused and lifted his shopping bag: "Dwarf, your creation-"

The words have not been finished yet.

The man had already slammed into his arms, and his hands opened him to give him an unprecedented warm embrace!

Lu Sicheng: "..."

Lu Sicheng raised his hand, and the big hand covered the face of the person buried in his arms and pushed back: "What happened?"

Tong Tong began to take a half step back: "Think carefully, I

haven't thanked our captain for my ideological education. The significance of education is as if the second parents are reborn... and our captain is full of heart and heart, like a bodhisattva. Full of love for the gods, respect for nature's law of cause and effect, respect for each of the weak meat and strong food such food chain, do not force, do not complain -"

Lu Sicheng: "Children."

Nursery rhymes: "..."

Lu Sicheng: "Speaking."

Nursery rhymes: "My cat follows the laws of nature and the basic rules of the food chain and eats your fish."

She just came back from the ice hell.

Now, she has a hunch, and she seems to have embarked on the road of returning to this hell.
