

Chapter 72: city

Lu Sicheng put the shopping bag in the nursery rhyme and took off his shoes to see his son.

The nursery rhyme opened the bag and stretched his head to look at the eyes. There was no cockroach inside. Just a pack of potato chips and a band-aid band-aid, like a sign that hangs a “virginity special”... This makes the nursery rhyme more guilty, squatting He followed Lu Sicheng’s **** and watched him squint at the fish tank with one hand, and the nursery rhyme screamed—

Lu Sicheng turned around.

The nursery rhyme took a big step back: telling the truth, still a little afraid of the man wrathing the fish tank on her head.

She looked at Lu Sicheng with a stern look, and squeezed out the words “I am wrong” from the teeth. At this time, I realized that what happened to Xiaopang was very good for teammates to come to the rescue field: “Lee point of view, Think about it, if your fish has wings flying away - there is a fish in the North, it is called 鯤...”

Lu Sicheng glanced at his eyelids and glanced at him. He closed his mouth very unremarkably. Lu Sicheng put the fish tank back, put on the earphones, and plugged the device back into the mainframe: during the period of action, there was a very pleasant atmosphere between the gestures.

- The nursery rhyme is holding the tail as the king, and the fart is not willing to put one.

When Lu Sicheng sat down and opened a game, she sat down in her position and moved the chair to the side. At the same time, she heard three words from Lu Sicheng: “Band-Aid.”

Nursery rhymes: “...”

Looking up at the person around her eyes, staring at the screen and not moving it away, she “squeaked” two out of the shopping bag to take out a band-aid, put his **** fuzzy heel paste, and then open the live broadcast -

The live broadcast room was very lively. The audience in the camera found that today’s silg is very embarrassing. The whole person is sitting very embarrassed, almost falling out of the camera edge, so they have asked her this is awkward.

Nursery rhymes: “There is murderousness in the side, and the breath is smashing, and I am about to cut me.”

Nursery rhymes: “Yes, yes, I have come back from the ice
**** for a moment, but now I am going back again - but this
time it is not my pot, it is the little hairy animal of your cake -
it is that only Dead cat, it squats at the base, no one gank the
captain’s fish.....”

Tong Tong said, looking at Lu Sicheng, who was wearing a
pair of headphones, and swallowed a saliva, and swept his
eyes again.

Nursery rhyme: “I apologize, an apology must be necessary, or
else?”

Nursery rhyme: “However, if the apology is useful, what
should the police do?”

Nursery rhymes: “So your cake is in jail, um, I put it in a cage.
- I thought about it, ordered it to be corrected, and then I will
send it back to the country next time... Not my heart, the
goldfish came first. I’ve been swimming around for centuries,
and you haven’t eaten a word, right?”

As the nursery rhyme said, she looked at Lu Sicheng’s fish
tank. There were still a few cat hairs on the surface of the fish
tank. The nursery rhymes saw a guilty conscience and reached
out and dragged the fish tank. Lu Sicheng took off the
headphones: “What?”

The nursery rhymes stirred up on the water with his fingers,
and then took it out: “Cat hair... I will give you a change of
water.”

Lu Sicheng said with no expression: “Let’s go down.”

The nursery rhyme put the fish tank end upright.

Before going to sleep at night, she used Lu Sicheng to hear the
voice with the earphones and told everyone that the big cake
was closed and closed. There was no freedom and no cans
until it realized that it was wrong. When the cat cage was
passed, the cat’s face was squeezed. In the cat cage, the fat
flutters and screams, and the nursery rhyme bites his teeth and
passes by it. At this time, if you still protect the scorpion, you
won’t see the new sun tomorrow.

The nursery rhyme went upstairs to take a shower, and after
bathing, I saw the WeChat of this yang -

Nursery rhymes: “...”

.....

This night is a sleepless night for nursery rhymes.

Not only must she get used to the loneliness of “the cat is not sleeping around”, but also worry about whether her cat and her captain will be locked upstairs alone and will not have any *** incidents anytime –

I had a nightmare all night, so she got up early the next morning.

When I went downstairs, I found that the cage of the big cake was empty. The cat that had thought about it inside was missing. The nursery rhyme was stunned and afraid that I could see the cat rushing down half of the body in the toilet. I found a circle in the end, and finally found her cat on the public sofa: at this moment, his body is full of skin, and he is quietly squatting on a person’s body and licking the virginity of the tongs who put it into the cage yesterday... ..

A stupid little white-eyed wolf.

Prison breaks dare to swear.

The pie is so arrogant that it may also be related to the noble floor mat at the foot of it at this time - now under its furry fart, the captain of the Chinese telecom team is lying on the sofa, he closes his eyes, and there is a faint cyan under his eyes. The abdomen is evenly undulating, and each undulation will cause slight tremors in the eyelashes.

He is about to sleep well...

Even a cat with a dozen kilograms didn’t know how to use him as a foot pad on his stomach.

The nursery rhyme looked at his computer and the computer account was still open. The game account also stayed in the rank of the rank mode... It was probably a few times that there was no confirmation relationship, and his number had fallen out of the queue list.

Estimated to be overnight, after the discovery, dawn, and find a place to fall down and sleep.

... Internet addiction old man.

The nursery rhymes walked to the computer and gave him a game to close the computer. He turned and took a small blanket from another sofa, waved away the big cake, and the cat slammed into the man’s belly and jumped to the ground. The nursery rhyme bent down and was about to cover the blanket on the man -

At this time, a big hand reached over, □ her hair clasped her

back of the head, a woman squatting down her head, and the virginity was prevented from being smashed into the man's firm belly. At the same time, I heard not far away. The man's voice was confused: "If you want to squat, you will be okay, then you will roll again."

Finished, like a sly cat, grabbed the hair of the nursery rhyme. The nursery rhyme was stiff and the hands were clasped on the edge of the sofa. The face was buried on the man's lower abdomen. There was a blanket and a thin layer of clothing. The two layers of cloth with no eggs were ineffective. She breathed and covered her nose. It is the taste of a man.

- If you come to the individual at this time, Laozi probably jumped into the Ganges...

The nursery rhyme still didn't want to understand how "all". Suddenly, the upstairs was put on the door, the chubby sleepy, wearing a white vest and Altman's big pants, and the hand was tucked in the crotch and scratched his buttocks: "Cheng Ge, you haven't slept yet, I I wake up and wake up -"

The chubby voice suddenly stopped.

Because the big hand of the back of the head is still steady, the nursery rhyme does not even have the opportunity to raise his head and explain to Xiaopeng. In the next second, Xiaopang has muttered "I haven't woken up yet, now it is sleepwalking" and turned to answer the room.

A few seconds later, Lu Sicheng's cell phone rang.

The nursery rhyme struggled to reach out and grabbed his mobile phone from the sofa and looked at it -
