

Chapter 84: city

The next day was a training match with the op team.

Although it was a training game, after watching the explosion rhythm of the Qing Dynasty team last night, the mentality of the players was somewhat affected. The Korean carrier team was also hit on the chest. At this time, the entire team of China Telecom Everyone is in a state of arrogance, everyone is getting up early in the morning and starting to rank hot hands...

Only one-third of the domestic leagues have been played, and the s-series global finals are still early. If you want to meet Koreans, you still need to wait patiently. Before that, you can only try to find a place in the training game.

I think so.

After waking up in the morning, chubby even made a touching and quite educational microblogging -

Inspired by Weibo, some Chinese telecom teams' Shanghai fans answered very consistently:.....Besides who you haven't seen before?

Nursery rhyme: "I haven't seen chubby at 7 in the morning, this is true."

"Don't talk, you are the latest today, only go downstairs at nine o'clock, your fat brother has played two ranks, and you said that you don't want to win." Xiaopeng slammed the keyboard and hit the side I don't lift the floor, "I'm on this ah, this ah, ah ah ah ah, dare not go to you to play what ad to play snakes is good - recommend you buy a book on "ad self-cultivation", the author Lu Sicheng ""

The nursery rhyme bypassed the chubby back, bent over and reached out and pressed the switch button to look at the chubby their ad record, 0 kill 4 death 1 assists, the game went to 12 minutes, assisted such an ad no wonder chubby this daddy To be crazy -

And when the nursery rhyme was onlookers, the ad of this kind of data was still desperately pressing the line, and then was killed by the opposite side of the field... The other line of teammates couldn't help but pick it up, saying that this ad is an actor, chubby I can't bear to type:

Nursery rhyme: "...So what?"

Xiaopang: "This is another loss."

Nursery rhymes: “Hey.”

Xiaopang: “This month’s wages have gone far.”

The nursery rhyme heard the words, closed her mouth and stepped back away from the chubby position. Xiaopang felt her silence and looked back sadly at her: “Children, you have changed, this is not the case when you first came. You are willing to fly with me in double row at that time.”

“Yeah,” the nursery rhymes pumped their lips. “Until I saw your clockwork, the Assassin and the Leflan aid... Reason, do you help me with a pool of heroes in my singles? Is it really scary? ?”

At this time, Lu Sicheng came out of the kitchen, just heard the conversation between the two, took a sip of coffee and put down the cup: “Little fat, you actually have a face that mentions the black history of bullying new.”

Chubby pouted back to continue playing his own game.

Lu Sicheng walked back to his position and put down the cup: “Get up.”

Nursery rhymes: “Hey.”

Lu Sicheng turned his head: “Double row?”

Nursery rhyme: “I can’t double the rank of the king.”

Lu Sicheng “oh” sounded, and the voice sounded very calm: “Lin Yue helped you to return to the master yesterday.”

Nursery rhymes: “...”

Lu Sicheng: “Is it not?”

Xiaopang: “You two c-bits have nothing to do every day.”

Lu Sicheng: “Go points.”

Xiaopang: “I can’t take me with this poor little assistant? I haven’t seen you so enthusiastically. You said that you are not looking for help?”

Lu Sicheng: “Which day I want to drop points and find you.”

Xiaopang: “...”

Xiaopang: “I know why nursery rhymes have changed. It’s all your fault. You made her less friendly to me.”

“Oh,” Lu Sicheng listened to Xiaopang’s words and subconsciously squinted at the side, only to see his family’s single squint in the buddy list to find an id, find a small tick next to it - look at his computer screen game right The game invitation from the bottom corner, Lu Sicheng clicked to agree, nodded and satisfied, “This pot is back.”

Nursery rhymes: “What?”

Lu Sicheng: “Nothing.”

Nursery rhymes: “?”

.....

At last.

Lu Sicheng and Lu Sicheng still opened the car to the upper road, because the two people were relatively high, and the queue was very slow before they entered it. So at 12 noon, they only played two. Just take it.

After playing two Lu Sicheng stood up and active wrists, the nursery rhyme sat in the position and looked at the data distribution chart of the previous one. While holding the mouse, he did not raise his head and asked: “When should I also rush a wave of hanbok? One... Hey, what time is the op team coming?”

Lu Sicheng: “12:30.”

When the voice of the nursery rhyme clicked on the mouse, she raised her head and looked at Lu Sicheng: “What time?”

Lu Sicheng has no emotions: “Now.”

The man said to clap his hands and use the voice that everyone on the ground floor can hear to greet everyone to prepare for the training game - Ming Shen holding the data of the nursery rhymes and a tablet to go downstairs; the coach A monkey also holds The information he made ran over; Xiaorui climbed up from the sofa with a big cake... He was purely busy.

Xiaorui: “Let’s relax, it’s the carrier team, it’s normal to lose, and failure makes people progress.”

By the way, the wind is cool.

The nursery rhymes turned their eyes into the custom game room for the training game, and soon the opposite players were also seen one after another - after politely greeting, the two sides looked much lazy and crap, directly into the ban≈pick link.

Because the hero pools of the two teams are relatively deep, it is more casual to disable the heroes. Everyone seems to be jealous of the other party’s way. Ban the three ad heroes of the ice, the 烬, the wheel mother, and then disable the version of the strong. Hero, start to choose heroes -

On the first floor, the first floor to grab Yasuo is the most arrogant.

The nursery rhyme was shocked, thinking about your Jin Yuguang hero pool deep, right, choose Yasuo, right? Then I will stabilize, and I will not be aggressive with you. At least I will not be able to guarantee the middle of the road in the early stage, so I want to find out a tsar who has just overcome the fear of Korean disease.

Probably after the nursery rhyme locked the tsar for five seconds, the opposite side of a rock bird, she was dumbfounded.

Nursery rhymes: “Mom, Rock Bird! Isn’t it Azo, haha?! That is the return of Yasuo? On the order? On the order! Let me say that the rock bird is used by several people? He actually used it out, Mom!” ”

Lu Sicheng did not hurry to lock an Izreel, his eyes moved a little: “I have heard this before, where did I hear it?” Where? Where, when someone feels the magic snake of Jin Yuguang. ” The nursery rhymes raised their eyebrows: “The rock bird and the magic snake game are not used!”

Lu Sicheng: “Before you used Sindra, the game is rarely used. Are you still proud of this? The Rock Bird passive support is fast, it consumes strong lines, has long hands, and has a high outbreak, especially as a popular tsar of the game. The Tianke hero exists. Why do you say it is useless? You shut up.”

Nursery rhymes: “...”

Lu Yue, who is kneeling on the chair of the nursery rhyme: “How is the feeling of being disliked by the hero pool? Welcome you to my world again.”

Nursery rhymes: “You shut up.”

After the ban is over, the zgdx team chooses the single troll, the wild excavator, the single tsar, the ad izire, the auxiliary bron; the op team chooses the single yasso, the wild casks, the single snail, Ad big bug, auxiliary gem.

After selecting the hero and looking at the opposite fancy choice, the zgdx team is silent.

Xiaopang: “Yasso, the rock bird, the barrel, the gems, these choices are really gay.”

Old cat: “I am convinced that I am single.”

Old k: “It seems like there are people in the barrel now, dream back to the spring game?”

Nursery rhymes: “Look at the rock bird, look at the rock bird,

something I didn't meet in the qualifying position, I met in the training game."

The zgdx team collectively silenced for a few seconds, then collectively sighed, but their captain paused with a sullen face, and behind the expressionless and ruthless: "I really want to throw you into the sweet potato."

Everyone: "..."

I have to say that the nursery rhymes have really been shocked by the courage of the op team to win the heroes. This has caused them to feel a little confused after entering the game - the feeling is very wonderful, that is, the usual ranking, you meet Opposite the op team, the lineup now may have thought it was the welfare bureau that was sent to the opposite side, but when it was really playing with the op team, it was found that it was really not good.

—Op team b≈p link does not finish exploding zgdx, but it is a one-handed Yasuo middle road to change the way of the road, so that the old cat and nursery rhymes are very uncomfortable to fight both ways... It is also unclear, it is quite wrong.

The nursery rhymes and the rock bird and the swords up to the third level found that the opposite is a more stable existence than Lu Yue. When I looked at the old k who was busy guarding my wilderness, she sighed or gave up the matter and returned to the city... At the same time, cut the lens to the next road: this is the most promising way to lead them to victory. Then I saw the big bug on the opposite side shaking like a pug. The nursery rhyme felt a desperate moment.

—The big worm is a special hero. When a player is very fast, click on the floor to move and slash at the same time. The game term is "go a". A top ad's level of a must be basically capable when they are using When the big bug is a hero, because the hand speed is fast, the big bug animation effect does not produce the actual movement itself but moves, and the attack animation walking tail animation is not in one position. At this time, the animation effect of the big bug waving tail will appear.

An ad big bug can shake his tail, indicating that he is at least a top ad in the league, and he is fully capable of handling these heroes with frequent and complicated operations and

extremely high speed requirements.

- The op player's ad is not a hard-handed worm, and he is not worthy of the line.

And the nursery rhymes they took in fact are relatively lack of output, the late group battle is only a hard output point of Lu Sicheng - and the op team seems to know this as well, the early stage hit the field frequently, although several times succeeded in success, but forced Lu Sicheng to be anxious, so in the six-level wave of more than the tower killing action failed, was blown up by the opposite barrel, contributing two heads plus a blood tower.

The disadvantages began to appear when the other side deliberately targeted the next road. The game opened the situation when the first person and a blood tower broke out in the 20th minute.

Lu Sicheng frowned: "This is my."

Everyone didn't say anything. It's just that they're stupid, and they don't care where they want to lose. They mutter "play again", trying to drag on the opposite side - and through a few waves of steady operations. Turn the line, hit back some economic gaps, and drag the game time to about thirty-five minutes...

At this time, the head-to-head ratio is still the first 2:0.

Operation and operation.

Pull the line to pull the line to grab the resources of the wild area and continue to operate.

In the past five minutes, the two sides have never even had a river line in their own wild area...

After hitting the nursery rhymes, I was really sleepy and unconscious.

Finally, it was finally dragged to a wave of team battles.

Whoever wins the team battle can win the game. It is because Lu Sicheng is too far ahead. The nursery rhymes have a large number of opposite worms directly pushing his face. Lost in the battle, was pushed down the base by a wave, lost the training game -

The sound of the big crystal bursts.

Successfully transferred the pot from the early Lu Sicheng impulse to the virginity of his body and threw the mouse to bite his finger.

borrow them from Dolly's mouthpiece."

Nursery rhymes: "..."

Dolly is a group of dishes next door to Alaska raised by the boss of the team. Ai Jia's puppet cat, A Mao, stands on its back and plays with acrobatics, and the envy of the cake is not enough.

However, this is not the point.

Nursery rhymes: "You actually want to wear a dog's cheeks!"

Lu Sicheng: "Wrong, I want to wear two dog-mouth covers for you, one for you to shut up, and the other for reinforcement."

Nursery rhymes: "..."

Lu Sicheng: "Whether other people's teams play the game against the wild, you are so optimistic. Can you go to reflect on it and make a look? You lost the previous training and you know how to cry. Now it's so joyful. Who is mad at death?"

Nursery rhymes: "...hey."

The nursery rhyme put down the phone.

The next training session was as quiet as a chicken. I opened the single-player mode and began to explore the heroine of the rock bird. I successfully played a beautiful girl in the guilty captain who would not be mad.
