

## The Yun Family's Ninth Child is an Imp! Chapter 100

Yun chujiu bared her little white teeth, with a smile, she said, "Senior brother Feng Ming, you came at the right time. Please come and judge! Clearly, the person in front of you can just take elder Xiao's token of West Peak, but I can't take elder Sun's token of middle peak. It's really too much of a bully!"

When Feng Ming heard this, his expression turned cold. "Qi Hua, what do you mean? It's good to take elder Xiao's token of West Peak. Why Can't this little girl take elder Sun's token of West Peak?"

When Yun Chujiu heard this, she instantly had an idea. It seemed that this flirtatious man should be from the middle peak.

Qi Hua secretly complained. How could he be so unlucky? Not only did he meet a little girl who was pestering him, but he also met this Feng Ming. How was he going to end this? !

When Feng Ming saw that Qi Hua did not speak, he was even more certain that what Yun Chujiu said was true. "Qi Hua, can you give me a straightforward answer? Otherwise, I'll bring this little girl to invite elder Sun over."

"Senior brother Feng Ming, since you have spoken, then I will give you face. Little Girl, you can bring one person over. You can choose one!" Qi hua gritted his teeth in anger. Elder Sun Bo Zhong was famous for being unstingy. Even if he was unreasonable, he could still stir up some trouble, if he was really invited over, he would definitely not be able to do well.

"One?" Yun chujiu shook her head. "I can't do one. These are all my brothers and sisters. I can't miss any of them!"

"Little girl, don't Push Your Luck. I'm already giving senior brother Feng Ming Face by asking you to bring one. If you don't agree, then don't bring any of them!" Qi Hua sneered. This little girl really didn't know the immensity of Heaven and earth, she actually wanted to use a token to bring six people? No Way!

Yun chujiu looked at Feng Ming. Feng Ming shrugged and obviously didn't intend to interfere. It was already good enough to bring one person, but six people really didn't make sense.

Yun Chuwu and the others all thought that this was the best outcome. After all, it was already good enough to bring one more person along. As for who to bring along, it was up to Little Jiu to decide.

Yun Chushan secretly gritted her teeth. Yun chujiu would definitely bring Yun Chusi or Yun Chuwu along, so she definitely would not be part of it.

"This senior brother is right. It is indeed enough to bring one person along with a token. But back then, besides elder Sun, the peak master of Middle Peak also had three other elders of Middle Peak. They might have promised to register me with a token, but they did not bring it along with them back then. That was why elder Sun acted as a representative and gave me a token." Yun Chujiu said nonsense with a serious face.

"The peak master of Middle Peak and the other three elders? Don't spout nonsense! You are just a little girl without spirit energy. How can you get the peak master of Middle Peak to sign up for you?" Qi Hua's face was full of disdain. It was obvious that he did not believe him.

"Tch! "I Do you think those mighty figures are as blind as you? More than twenty days ago, in the Demon Beast Forest of Donghua Country, the peak master, Elder Sun, and the others saw that I was smart, kind, and cute. Not only did they save me, but they also wanted to bring me directly back to the Spirit Flower sect! However, the peak master said that the spirit flower sect had rules and had to participate in the test. Otherwise, I would have taken elder Sun as my master long ago. Why would I need to look down on you? ! If you don't believe me, you can ask elder Sun!" Yun Chujiu's small face was full of arrogance.

This? Qi Hua was somewhat skeptical. More than twenty days ago, all the mighty figures in the sect had indeed rushed to Donghua nation. It was said that the nine-colored immortal sparrow had appeared. Could it be that what this little girl said was true?

“Oh right, if you don’t believe me, ask that person called Bai Moyu just now. At that time, I was inside elder Sun’s flying spirit tool and even greeted him.” Yun chujju pointed at Bai Moyu who was not far away.
