

The Yun Family's Ninth Child is an Imp! Chapter 1006

Yun Chujiu walked to the array board and removed the Spirit Stones from the array board. Then, she put them into her storage ring. As soon as the Spirit Stones were taken away, the entire illusion broke.

The scene in front of them changed. Sure enough, everyone was sitting in the small square. There were a group of teachers surrounding them with frozen smiles on their faces. They were all dumbfounded.

Originally, when they saw these rookies struggling, they were just mocking them as a topic of discussion. Who would have thought that their expressions would suddenly become calm and peaceful? It was really strange!

What made them the strangest was that Yun Chujiu actually stood up!

How was this possible?! Was she not already affected by the illusion? How could she stand up?!

What made them the most confused was that the little girl actually walked straight to the array core and shamelessly took out the top-grade Spirit Stones from the array disk and put them into her pocket. Those were top-grade Spirit Stones! You f*cking greedy demon!

Yun Chujiu smiled at them and then shouted at the examinees, "Flowers bloom with one thought, flowers fall with one thought. Wake up, young people!"

The crowd was looking for the calm and peaceful state that Yun Chujiu had described. When they suddenly heard a shout, they were startled awake. Then, they were pleasantly surprised to find that the scene in their eyes had changed. They were in the small square where they exited the second round of the test. This meant that they had not used any flying spirit tools at all, nor did the so-called teacher Ouyang waste their time flying blindly. All of it was an illusion.

Everyone immediately cheered, "We're out! We've broken the illusion! We've passed the test!"

“Hahaha, I thought I was dead for sure. I didn’t expect that I would pass the test.”

“Yun Chujiu, this is all thanks to Yun Chujiu!”

“Yun Chujiu, you’re amazing! We originally thought that you were spouting nonsense, but we didn’t expect that the method you said would actually work!”

“A flower blooms with a single thought, and a flower falls with a single thought. How philosophical! Yun Chujiu, you’re too talented!”

...

Feng Ming and the other two listened to everyone’s praise for Yun Chujiu, and their hearts were filled with different emotions. Junior Sister Little Jiu was a monster! She changed everyone’s impression of her within a short time. So what if she was at the first level of the spirit sect? Junior Sister Little Jiu knew the trick to getting first place in the test, and could still receive everyone’s praise at the same time!

Yun Chujiu’s heart was filled with joy, but she was used to putting on airs, she smiled faintly and said, “Fellow students, you are overpraising us. The reason why we succeeded was because we worked together. If it wasn’t for your trust in me, how could we have succeeded?”

When everyone heard Yun Chujiu’s words, they felt a strange warmth in their hearts. This Yun Chujiu was not proud of her achievements, and she even shared the credit equally with everyone. She was not so bad after all.

The surrounding teachers could only stare in bewilderment, then, one of the older teachers coughed dryly, “Cough cough! Silence! Silence!”

When everyone saw the speaker's face clearly, they were instantly enraged, 'F*ck, wasn't that teacher Ouyang?!'

Although they knew that it was an illusion, they still felt very annoyed with Teacher Ouyang. They always felt that there was nothing good about his appearance!

"The third round of the test was supposed to filter out the first thousand examinees who escaped the illusion and obtain the qualification to enter the school. However, I didn't expect that all two thousand of you would actually pass. Therefore, we have to add an additional round to the entrance test. The fourth round of the test will be held in three days!"
