

The Yun Family's Ninth Child is an Imp! Chapter 1010

At this moment, some examinees had already discovered jade tokens. However, there were eight Iron Golems who guarded the jade token. These Iron Golems were exquisitely made. Although they did not know how to use spiritual energy attacks, however, blades and swords could not harm them in the slightest. Wind blades and fireballs were also ineffective. More than a dozen examinees were stopped in their tracks by the eight Iron Golems.

Most of the others had also found jade tokens in various locations but they were also surrounded by eight Iron Golems. Although the tokens just hung there waiting to be collected, nobody could not get past the Iron Golems.

Time passed quickly. These people did not get a single jade token.

Some of the smarter examinees remembered the situation with the illusion and had an idea. They looked around, looking for Yun Chujiu's figure. After searching for a long time, they finally found Yun Chujiu and the other three at the entrance. They saw Yun Chujiu and the other three playing cards!

"Yun Chujiu, why aren't you going to try and find the jade tokens?" A tall and thin man asked.

"Aiya, our spiritual power is too weak. We can't compete with you guys at all. So I give up. You guys go ahead!" Yun Chujiu looked like she had given up.

The man rolled his eyes. "Yun Chujiu, how about we form an alliance? If we ally with a few groups, no one can do anything to us. We can swear on our inner demons that we will never betray you."

Yun Chujiu blinked her eyes. "Are you guys in trouble?"

The lanky man smiled awkwardly. "To tell you the truth, the tokens are guarded by Iron Golems. Although those jade tokens are right in front of us, we have no way to get past those guards. You are resourceful, so we want to ally with you to help us get those Jade Tokens."

Yun Chujiu nodded. "I see. Thank you for thinking highly of me. However, if none of you have a way, what can I possibly do?"

"Yun Chujiu, we believe in you. You must have a way to get around the golems!" The people who wanted to form an alliance were also desperate. Their spiritual power was not outstanding, and only by forming an alliance could they have a chance of winning. Moreover, they felt that if Yun Chujiu could break through the illusion, perhaps she could also deal with this refined iron puppet.

Yun Chujiu thought for a moment and then said slowly, "Alright, after we play finish round, I'll go with you to take a look."

The tall and thin man was about to cry. Auntie, do you realize the situation we are in? You still want to play cards? Just how carefree are you?!

"Yun Chujiu, Great Aunt Yun, Ancestor Yun, this card game can be played at any time. Our prescribed time is almost up. Let's go over first! If we can pass the test, we will take turns playing with you in the future. Don't Play Now!"

Yun Chujiu then stood up and clapped her hands. "Alright, I'll go with you guys to take a look! Sigh, as expected, a tall tree only attracts the wind. I originally wanted to keep a low profile, but now it seems that I am too outstanding. Even if I want to hide it, I can't!"

The corners of everyone's eyes twitched. Feng Ming and the other two fared better. They were already numb to her behavior. When had the twenty people ever seen such a thick-skinned person? They suddenly felt that perhaps they were thinking too much. Did she get lucky earlier when she broke the illusion?!

Yun Chujiu was surrounded by everyone as she walked forward. Some examinees with low spiritual power saw this and thought to themselves since they can not compete with others in terms of spiritual power anyway, they might as well try their best. If they followed Yun Chujiu, they might be able to pass the final round of tests.

Therefore, when Yun Chujiu arrived at the place where the jade token was located, there were already nearly two hundred people gathered behind her, and they also took the initiative to request an alliance with Yun Chujiu's group.

Yun Chujiu did not reject anyone who came forward. As long as they swore to each other in their hearts that they would not betray each other, they would be taken in.
