

The Yun Family's Ninth Child is an Imp! Chapter 1012

Some of the teams had already managed to get some jade tokens. When they heard Yun Chujiu's words, they could not help but mock, "Some people really overestimated themselves. Aren't they afraid that they might bite off more than they could chew? Fifty jade tokens? Do you think those Iron Golems are fools? Do you think they will let you take them?"

"That's right. A motley crew of weaklings, and you still think you can pass the test? In two hours, the test will be over. Even if you are exhausted to death, you still won't be able to obtain fifty jade tokens."

"Some people don't know their place after being in the limelight once. They dare to agree to anything and they have to be responsible for their words. They believe anything that comes out of her mouth. This is the entrance test for Tianyuan Academy, not some kindergarten game! It concerns their future!"

...

Yun Chujiu swept a glance at the people who spoke. Those people still followed her a few days ago and continuously thanked and praised her. She did not expect that their behavior had completely changed now. It was likely that the Yin siblings had done something to them. These bystanders were really too easy to bribe.

However, the Yin siblings had bribed people with high spiritual power. They probably thought that the remaining people had no value, so they did not bother with them.

When the examinees behind Yun Chujiu heard the words of those people, their hearts became even more uncertain. However, they had no way out now, so they could only place their bets on Yun Chujiu.

"Junior Sister Little Jiu, what should we do?" Feng Ming felt that the matter was getting complicated. Unless those puppets ran out of Spirit Stones, there was no way to subdue them. If they could not subdue them, then they could not get to the jade token.

Yun Chujiu smiled slyly. “No matter how powerful these puppets are, they don’t have brains. As long as we use a little trick, we can deceive these puppets.”

Although everyone felt that Yun Chujiu’s words made sense, however, they still raised their doubts. “Yun Chujiu, although what you said makes sense, these puppets fiercely protect the jade tokens. As long as someone gets close to them, they will attack. We have no way of getting to the Jade Tokens.”

Yun Chujiu’s eyes rolled. When she was watching others fighting with the Iron Golems, she took out a few pebbles from her storage ring and secretly flicked them towards the eight golems, the eight Iron Golems did not move toward her. What did this mean?

She did not use her spiritual power when she threw the pebbles. The Iron Golems could only sense spiritual power fluctuations. As long as she did not use her spiritual power, she could easily get to the jade token. However, this secret could not be revealed, otherwise, there would be no chance for her to win.

Yun Chujiu secretly took off the hidden spirit ring on her hand. Then, she began her act and walked in front of the eight Iron Golems, she smiled and said, “Everyone, we have no grudges against each other. Please do me a favor. When I get the jade token, I will thank all of you.”

After Yun Chujiu finished speaking, she tilted her ears and listened. Then, she nodded her head as if she was taking it seriously. “Since everyone has agreed, then I’ll help myself!”

Yin Sulian and the others pursed their lips. This Yun Chujiu was most likely crazy. These Iron Golems did not have any weapon spirits at all. No matter how much you said, it would be like casting pearls before swine. It would be strange if they could understand you!

However, to their horror, they discovered that Yun Chujiu had actually gotten close to the eight Iron Golems. The strange thing was that the eight Iron Golems did not attack Yun Chujiu. Yun Chujiu leisurely entered the encirclement, after taking the jade plate on the stone platform, she slowly walked out and solemnly bowed to the eight Iron Golems. “Thank you, everyone. May you cultivate toward the Great Dao.”
