

The Yun Family's Ninth Child is an Imp! Chapter 1013

The onlookers felt as if they were dreaming. Yun Chujiu managed to fool the eight Iron Golems with just a few good words? How... How was that possible?

Yun Chujiu walked to the side of the eight Iron Golems and said the same words. Then, she walked in leisurely and came out with a jade token in her hand. Throughout the whole time, the Iron Golems did not move at all.

Yun Chujiu did the same thing at the other locations and quickly obtained more than a dozen jade tokens. The others could not hold it in any longer and also imitated Yun Chujiu's words to the Iron Golems. Then, they walked in and did not get too close yet the Iron Golems moved and beat up those people.

Those people wanted to cry but had no tears. Damn it, could it be that these Iron Golems only recognized beautiful women?!

At that moment, Yun Chujiu had already easily obtained a large number of jade tokens. When Yin Sulian and the others saw that Yun Chujiu had obtained the jade tokens so easily, they were so depressed that they wanted to dash their heads against the wall! Especially those who had yet to manage to obtain a jade token, their intestines almost turned green with regret. If they had known earlier, they would have followed Yun Chujiu!

Although they wanted to grab the large number of jade tokens in Yun Chujiu's hands, Yun Chujiu was surrounded by two hundred people. She looked at them with a smile, as if they could not do anything to her.

Although everyone was gritting their teeth in anger, there was only a limited amount of time left. It was impossible for them to break through the encirclement of these people and snatch the jade tokens. If they had the time, they might as well try their luck with the Iron Golems.

However, they were very uncertain in their hearts. There was no way for them to exhaust the Spirit Stones of the Iron Golems within an hour. Could it be that they had no way to enter the Tianyuan Academy?

At this moment, a melodious voice rang out, "Hey, do you guys want the Jade Tokens?"

Everyone looked at Yun Chujiu who was speaking and hope rose in their hearts. Yun Chujiu and the others only needed fifty jade tokens, but she had more than a hundred of them in her hands now, those extra jade tokens were useless to her. Did that mean that she would give them the unwanted tokens?

As she thought of the third round of the test, Yun Chujiu was the most greedy person. She shouted, "I Yun Chujiu, will sell you one of the surplus jade tokens for 10,000 high-grade Spirit Stones."

"20,000! I'll give you 20,000! Sell it to me!"

"30,000!"

"50,000!"

"100,000!"

...

Everyone knew that this was their only chance to enter the Tianyuan Academy. They would risk everything to buy a jade token.

Yun Chujiu blinked her eyes, and her heart was already bursting with joy. This was a great opportunity to make a fortune!

Although she was eager to sell the jade tokens in her hands, on the surface, she appeared to be in a difficult position. “Everyone, although the extra jade tokens are indeed useless, with so many of you here, the jade tokens are limited. Who should I sell them to?”

“Yun Chujiu, this is a business negotiation. Naturally, the one with the highest bid will get it. I’ll offer 150,000 Spirit Stones.” A fatty shouted.

“I’ll offer 160,000!”

“180,000!”

“200,000!”

The crowd once again raised the bidding price, as if they had gone crazy!

Yun Chujiu sighed faintly. “Everyone, humans love money. Am I that kind of person who loves money? What do you mean by buying and selling the tokens? How hurtful! I’ll give you the jade tokens for free!”

What was that?

Everyone could not believe their ears. There was such a good thing? Moreover, this Yun Chujiu was very greedy. Would she give up such a good opportunity to earn money?
