

The Yun Family's Ninth Child is an Imp! Chapter 1022

Feng Ming and the other two's student numbers were close to Yun Chujiu's, so their dormitories were also close to each other. As soon as Yun Chujiu entered the courtyard, Feng Ming and the other two came over.

"Junior Sister Little Jiu, aren't you the most afraid of trouble? Why did you take the title of class monitor?" Feng Ming asked in confusion.

"Aiya, I naturally have my own selfish motives! Strength is important, but connections are also very important. We are not familiar with the people in Tianyuan Academy, so we must build our own network of people. Although the spiritual power of the students from the Huang Class is not comparable to the other three classes, they are more obedient. If I can take them as my own, it would be very helpful. Even if I graduate in the future, I might still be able to use them."

An Feng had advised Yun Chujiu, so she decided to train a group of her own subordinates. Feng Ming and the other two looked at each other, 'How did Junior Sister Little Jiu's brain work so fast? When we went to listen to the other instructors explain matters related to enrollment, she managed to get the title of class monitor. Moreover, she thought of everything after graduation. People really can't be compared to people, in the future, we will be able to bask in the glory of Junior Sister Little Jiu!'

Feng Ming and the other two told Yun Chujiu about some of the things that they had heard and then returned to their respective dorms.

After Feng Ming and the others left, Yun Chujiu carefully sized up her new dormitory.

This dorm was slightly more spacious than the one in the Spirit Radiance Sect. The room had a study room and a bedroom, and there was also a separate living room. It was a very complete setup.

There were also newly grown vines and flowers in the courtyard, making the place seem like it was full of vitality. Yun Chujiu felt that the only thing missing in the courtyard was a set of stone tables and chairs. It would be even better if there was a swing.

Yun Chujiu's eyes lit up. I had the two whiskers from the Illusionary Electric Eel in my storage bag, which could be used to make a swing.

Yun Chujiu took out a set of stone tables and chairs from her storage ring. Then, she hammered out a crude swing and eyed it with satisfaction. After activating the isolation array in the courtyard, she let out the Three Silly Munchkins.

Little Black Bird stared at them with his green bean-like eyes. "There are no big trees here? I have a complaint! Master, if there are no trees here, where will I land in the future?"

As the vines and flowers were easier to grow, there were no trees in the courtyard. Yun Chujiu asked Furry to get three low-grade Coral Pearl Fruit trees from the Great Void Mystic Realm. Not only were the crowns of the tree larger, but the fruit was also delicious.

Yun Chujiu dug a few deep pits and planted the three Coral Pearl Fruit trees inside. Afraid that they would not survive, Yun Chujiu shamelessly poured a little liquid from the Strange Grass and diluted it before watering the roots of the trees.

Not long after, Yun Chujiu was stunned to find that the three Coral Pearl Fruit trees were not only alive but also blooming!

Fortunately, the concentration of the liquid was very low. After they bloomed, the three Coral Pearl Fruit trees did not have any other significant changes. Yun Chujiu then heaved a sigh of relief. If the changes were too great, she would be forced to bring them back to the Great Void Mystic Realm.

After a good night's sleep, the students of the Huang class gathered at the entrance of Yun Chujiu's courtyard early the next morning. In just one day, Yun Chujiu had become the backbone of their class.

As soon as Yun Chujiu left the courtyard, a student asked curiously, "Class Monitor, where did you get the Coral Pearl Fruit Tree in your courtyard?"

“I found it when I was training in the past. I like eating this fruit, so I dug up the roots and put them in my storage ring. I planted it yesterday. I guess the spiritual energy in the Tianyuan continent is much denser than in the Azure Mystic Continent, so the three trees that were in bud bloomed overnight.”

The corners of everyone’s eyes twitched. No one would dig up a tree so casually! These three trees looked at least a thousand years old. The roots below must have dug very deep. It must have taken a lot of effort to dig them out. In order to eat, our class monitor was also quite hardworking!
