

## The Yun Family's Ninth Child is an Imp! Chapter 1033

Those onlookers did not know the truth. When they heard the Huang class students screaming their discontent, they all believed it and could not help but talk about it.

“Emma, this Ma Sheng has put in a lot of effort to prank us! He even used such a sinister trick!”

“Fortunately, there is a witness. Otherwise, he would have succeeded in framing us!”

...

Ma sheng shouted angrily, “All of you shut the f\*ck up! Do you know what’s going on?! All of you are spouting lies here! Be careful, or you will also be punished by the Academy’s rules.”

When those people heard Ma Sheng’s words, their discussions grew louder. They also believed in Yun Chujiu and the others’ words. That Ma Sheng was too arrogant and despotic!

Just as everyone was in discussion, a disciplinary instructor walked out.

That instructor was also stunned when he saw the Huang Class’s miserable state.

‘Didn’t this Ma Sheng say that the Huang class had beaten them up? Why were the Huang Class’s students even more miserable than them? Who had beaten who up?’

Yun Chujiu’s made a hand gesture behind her back. Immediately, the Huang class’s students started crying and wailing. It was still the same story. Not only did they recount Ma Sheng’s “Evil” behavior, but they also implicated Ma Minghua.

Instructor Qi usually had a good personal relationship with Ma Minghua, when he heard this, he frowned. "Silence! You have so many students in the Huang class. How could you all be injured by Ma Sheng and the others? This is clearly a set-up! According to the rules of the academy, if you frame and beat up your classmates, you will be given a demerit once. After two demerits, you will be expelled! Yun Chujiu! If you have been found to have incited and bewitched your classmates. You will be expelled immediately!"

The students from the Huang class were stunned. Charged with a demerit once? If they were charged even once, it would be a blemish in their records. Many of the students who were charged once were no longer qualified for the Academy's evaluation. That would be a waste!

However, compared to them, Yun Chujiu's punishment was even heavier. She would be expelled immediately. Being expelled on the second day of school was too sullen!

Just as everyone was in a daze, they heard Yun Chujiu howl. Her shout scared Instructor Qi so much that he fell on his behind.

"Oh my god! This is really unreasonable! I was clearly the one who was beaten and framed, but I'm forced to bear the crime. The academy is so unfair! Students, are we just going to let this go after suffering such a huge grievance? Let's just hang ourselves at the entrance of the disciplinary department!"

After Yun Chujiu spoke, she took out a rope from her storage ring and swiftly tied a long row of knots on a few trees at the entrance of the disciplinary department.

Yun Chujiu took out a chair and stood on it. She placed her small head into the knot, then, she said with grief and indignation, "Students, for the fairness of Tianyuan Academy and the Justice of the world, today, we will sacrifice ourselves for others and hang ourselves at the entrance of the disciplinary department. In the future, our ghosts will help everyone seek justice! We will always keep an eye on them. If they bend the law for personal gain, our ghosts will not forgive them!"

The ten team leaders saw Yun Chujiu's look and also took out chairs and other items from their storage rings and stood on them, they put their heads into the knot and said, "Class monitor is right. We would

rather die than live like this. We were bullied, yet they still want to punish us. Where the fairness? Where is Justice? We don't want to live anymore!"

The other students of the Huang class also shouted, "That's right! We don't want to live anymore either! Class monitor, there are only a few trees here. You guys go first, we will be there soon!"
