

The Yun Family's Ninth Child is an Imp! Chapter 1043

After Yun Chujiu finished cleaning, she used a dye to mark out the area on the ground. She also repeated the same words she had said in Barbaric Bear's beast house. However, the Vermillion-beaked Long-feather Cranes did not have the same lack of self-esteem as those Barbaric Bears. After they had just been let in, they still defecated on the ground. They did not bother with Yun Chujiu's words at all.

Yun Chujiu frowned and decided to take a look at the situation when she came back the day after tomorrow.

Two days passed quickly. After class, Yun Chujiu hopped to the beast house.

She first went to The Barbaric Bear's beast house and saw that the eight Barbaric Bears were eating and excreting according to Yun Chujiu's instructions. Yun Chujiu was very satisfied.

"Not bad, not bad. As expected of a high-level demon beast. You will be able to cultivate the Great Dao in the future!" Yun Chujiu was in a good mood and casually praised them. The eight Barbaric Bears immediately cried out proudly.

After Yun Chujiu cleaned the bear house, when she arrived at the Vermillion-beaked Long-feather Crane beast house, she instantly grew furious!

The beast house was in an even more chaotic condition than the last time. Moreover, those Vermillion-beaked Long-feather Cranes had purposely spread their food everywhere. When they saw Yun Chujiu had come over, they deliberately flapped their wide wings and spread the debris everywhere, immediately, all kinds of debris flew all over the entire beast house. The Vermillion-beaked Long-feather Cranes cried out arrogantly, just like how people laughed at them.

As usual, Yun Chujiu placed the jade token on the groove outside the beast house. The Vermillion-beaked Long-feather Cranes were to be driven to the isolation area. Yun Chujiu would then put on her gas mask and began to clean up the beast house.

Except at that time, the Vermillion-beaked Long-feather Cranes did not stop in the quarantine area. They called and flapped their wings to demonstrate their power to Yun Chujiu!

A fierce look flashed across Yun Chujiu's eyes, 'Damn it, you flat-feathered beasts actually dare to provoke me. Let's see how I'll deal with you!'

Yun Chujiu quietly sprinkled some powder on the food of the Vermillion-beaked Long-feather Cranes as she cleaned up the beast house. After the beast house was cleaned up, Yun Chujiu let the cranes back into the beast house and pretended to leave.

The Vermillion-beaked Long-feather Cranes returned to the beast house and chirped a few times proudly, 'How delusional of you to think that a small first level spirit sect cultivator could command us! We'll torture you to death in the future.'

The cranes began to eat after their pompous display. They had been raised by people for a long time, so they had no vigilance at all. They ate all the food that had been added with Yun Chujiu's 'seasoning'.

After a while, Yun Chujiu returned. When she saw more than twenty Vermillion-beaked Long-feather Cranes lay asleep on the ground, she smiled sinisterly!

Yun Chujiu walked into the beast house and kicked a few of the Vermillion-beaked Long-feather Cranes. As expected, there was no reaction. Therefore, she reached out her evil paws and plucked off the tail feathers of more than twenty Vermillion-beaked Long-feather Cranes. The Vermillion-beaked Long-feather Crane instantly became Vermillion-beaked Bare-bottomed Cranes!

Yun Chujiu looked at the bare-bottomed cranes on the ground and the corners of her mouth curled up, 'Little guys, aren't you all showing off the wrong things?! Let's see if you still have the face to act arrogantly next time!'

Yun Chujiu stored all the incriminating evidence on the ground in her storage ring. Then, she retreated outside the beast house and hugged her shoulders, waiting for the Vermillion-beaked Long-feather Cranes to wake up.

Not long after, the Vermillion-beaked Long-feather Cranes woke up. They looked at each other in confusion, then turned their heads to look behind them. Immediately, they cried out in fear!

The thing the Vermillion-beaked Long-feather Cranes were most proud of was the long feathers on their tails. They did not expect for them to be all gone!

Gone, gone, all gone!!!

Where did their tail feathers go?! Why had they disappeared when they woke up?!

Just as the flock of cranes panicked, they heard a little girl say with a smile, "Aiyo, are you guys preparing to run around naked? You're really shameless birds! You actually exposed your buttocks. Tsk tsk, you're all too shameless!"
