

The Yun Family's Ninth Child is an Imp! Chapter 1077

"Dear Prince Charming, thank you! Don't worry, I won't cause any trouble. I love you, Mwah!" Yun Chujiu suddenly had a flash of inspiration, after hurriedly sending a message to Di Beiming, she began to recall the situation in the sea.

The Pretty Boy was right. When she was in the sea, the lightning that she used could not only turn around but also disguise itself. It already had the characteristics of a high-level physical transformation spell, but why could it still not be used on land?!

Yun Chujiu thought for a long time but still could not come up with a solution. She made a big bathtub and then used her lightning inside. She then took out her hand and fired a bolt in the open air, carefully comparing the difference between the two.

After a few experiments, Yun Chujiu discovered the difference between the two. The water element in the sea was much denser than in the air. Lightning and rain had always complemented each other. Only with the help of the water element did her purple lightning have such a perverse performance.

Yun Chujiu let the Three Silly Munchkins splash some water up in the air to simulate a rainy day to test her theory. Unfortunately, it still did not work. It seemed that it needed an environment rich in the water element to work.

Then, the problem came. She could not possibly have a competition with Yin Sulian in the sea, right? Furthermore, although the lightning had the characteristics of a high-level materialization spell, it still appeared like regular lightning. Yin Sulian probably would not admit that it was a form of spirit power materialization.

Yun Chujiu's mind was once again stuck in an endless loop, but time passed quickly. It was almost dinner time. If she still could not succeed, Instructor Ji Sha would have to prostrate himself before Mo Hanxun.

The Three Silly Munchkins saw that Yun Chujiu had been frowning. Those three did not dare to play around, afraid that they would anger Yun Chujiu, so they could only hide in a corner and eat secretly.

Little Black Bird had learned to create his own storage space, and he would fill it with food from time to time. He was hungry since he did not eat at noon, so he took out a roasted snow rabbit, and the three of them ate it together.

“Boss, how can this snow rabbit be enough for all three of us?!” The Flaming Three Tailed Fox King said pitifully. Of the three of them, it was the most bullied, and the only one that was given to it was the Snow Rabbit’s head.

“Idiot! If one is not enough, won’t you eat two?! If two are not enough, won’t you end up eating three?!” Little Black Bird said with a domineering air.

Yun Chujiu, who had thought hard, suddenly had a flash of inspiration when she heard Little Black Bird’s words. However, she could not remember it clearly so she went to ask him to repeat it.

Yun Chujiu jumped in front of the Three Silly Munchkins and said with her eyes wide open, “What did you say just now? Say it again!”

The Three Silly Munchkins were so scared that they almost choked on the rabbit meat in their mouths. Little Black Bird said timidly, “Master, we were really hungry, that’s why we stole the food. Please don’t be angry!”

Little Black Rat and Little Red also said, “Yes, master, we didn’t eat lunch, that’s why we stole the food. We won’t do it again!”

It was not that these Three Silly Munchkins were usually timid, but they were really scared by Yun Chujiu. If that black-hearted master rolled her eyes and came up with a bad idea, we won’t be able to beat her!

“I’m not blaming you for stealing food. Quickly repeat what you just said. I seem to have found an inspiration!” Yun Chujiu touched her nose and thought to herself, ‘Am I that scary?!’

The Three Silly Munchkins finally felt relieved and replayed the scene from before, Yun Chujiu clapped her hands. “Yes! That’s what Little Black Bird said! One is not enough to eat two! The reason why the lightning that I struck can only be materialized with the help of the water element must be because my spiritual power isn’t high enough.. If I reduce the size of the lightning every time I use my spiritual power and increase the density, I will definitely be able to materialize successfully!”
