

The Yun Family's Ninth Child is an Imp! Chapter 1082

Yin Sulian had arrived early and looked very confident.

'Yun Chujiu, that trash, actually dared to compete with me in materialization of spiritual power. It was like hitting a rock with an egg. After today, this Yun Chujiu would become the laughing stock of the Tianyuan Academy. Let's see if she still has the face to continue staying here.'

Yin Xinlian gently warned, "That Yun Chujiu has a lot of schemes. You have to be more careful or you'll fall into her trap."

"Don't worry, sister. Materialization of spiritual power isn't something that the two of us can lose to others in. Even if she has any tricks up her sleeves, she won't be able to do anything. I will definitely make that b*tch kneel and admit her mistake today," Yin Sulian said indifferently.

Although Yin Xinlian was a little worried, she thought that what her sister said made sense. After all, they were using Spirit Stones to test their attack power. No matter how cunning Yun Chujiu was, she would not be able to do anything.

Fifteen minutes before the start of the competition, Yin Sulian stepped onto the competition stage.

There was an instructor in charge of the competition stage. In every competition, both sides had to pay a fee of five hundred upper-grade Spirit Stones. After Yin Sulian paid the fee, she quietly waited for Yun Chujiu's arrival.

It was almost the end of the competition, and Yun Chujiu had yet to show her face. The crowd below murmured, "I didn't expect that Yun Chujiu, who is usually bold and reckless, to be so timid this time."

"That's understandable. I heard that the Huang class hasn't learned the materialization of spiritual power yet. Whether she comes or not, she will lose."

“She shouldn’t have agreed to Yin Sulian’s competition. She was just asking for humiliation.”

“Who said so? There are rules in this competition stage. If she is not here by that time, the instructor in charge will announce that Yin Sulian won the competition. She will still lose.”

...

Yin Sulian on the stage said proudly, “Hmph! That trash, Yun Chujiu, has chickened out! Trash is indeed trash! A piece of trash from the Huang class actually wants to compete with a top student from the Tian Class. She overestimated herself!”

Yin Xinlian frowned. This sister of hers had started to speak without restraint again.

‘If you say things like that, wouldn’t you offend the entire Huang Class? Even the students from the Di class and the Xuan class would feel uncomfortable.’

Indeed, after hearing Yin Xinlian’s words, all the students present, except for the students from the Tian Class, felt a little uncomfortable. That Yin Sulian was too arrogant.

Originally, they were here to watch the show. It did not matter who won or lost. However, the scales in their hearts now leaned towards Yun Chujiu. They hoped that Yun Chujiu could ruthlessly defeat Yin Sulian. However, Yun Chujiu if did not even dare to accept the challenge! How could she win?!

Yin Sulian stood proudly on the competition stage with her head held high. Yun Chujiu definitely did not dare to come, she said even more arrogantly, “Previously, that trash Yun Chujiu, even said that Instructor Zhou misled people’s children. I think that their Huang class’s aptitude is too poor. Even if the Dean personally taught them, they would still be trash!”

The Huang class's students were about to explode from anger from the constant taunting by Yin Sulian. However, when they still did not see Yun Chujiu come over, they started to feel that the class monitor was probably cowardly at the last minute. After all, none of them had learned how to materialize spiritual power yet so attending the competition was also asking for humiliation.

Right at that moment, a pretty little girl ran over from not far away. As she ran, she shouted, "Excuse me, Emma, I overslept during my afternoon nap. I almost forgot that there was still a competition!"

Everyone turned around and saw that the person who ran over was Yun Chujiu. The corners of everyone's eyes could not help but twitch. Your heart is really big. You actually have the mood to take an afternoon nap during such an important occasion?!
