

## The Yun Family's Ninth Child is an Imp! Chapter 1087

Yin Xinlian grew so angry that her face turned red. She wished that she could kill Yun Chujiu there and then. However, she was much smarter than Yin Sulian so she sneered and said, "Yun Chujiu, I advise you not to be so ruthless. If you insist on letting Sulian carry out the bet today, I will issue a challenge to you. We will fight in the Life and Death Arena!"

The crowd immediately exploded!

"God! Yun Chujiu has completely angered Yin Xinlian! Fights in the Life and Death Arena only ends one way just like its namesake! Yin Xinlian is said to be at the first level of the spirit Saint Realm. Yun Chujiu will definitely die at that time!"

"However, doesn't the challenge order need to be signed by more than 80% of the students in the academy before it takes effect?"

"Are you stupid?! When that time comes, as long as Deputy Dean Yin pulls some strings, do you think no one will sign it? As long as 80% of the students sign it, Yun Chujiu has no other choice but to accept the challenge and withdraw from the Academy."

"Tsk tsk, according to what you said, it seems that Yun Chujiu can only let Yin Sulian off today. Otherwise, she simply can't bear the consequences."

...

Upon hearing her sister's words, Yin Sulian instantly regained her confidence. She fearlessly looked at Yun Chujiu and she said, "Yun Chujiu, as my sister said, I'll transfer you 400,000 high-grade Spirit Stones, and we'll forget about this matter once and for all. Otherwise, Hmph! No matter how powerful trash from the Huang class is, they won't be able to stir up any waves. I will forever trample you under my feet."

Yun Chujiu's eyes deepened, and she said indifferently, "Although I like Spirit Stones, I like seeing coquettish sluts like you kneel before me even more. Yin Sulian, if you are willing to gamble, you must also be willing to pay the price. Kneel and admit your mistake!"

The crowd exploded again!

That Yun Chujiu was not threatened by Yin Xinlian. Although her courage was commendable, was she not courting death?! When the challenge token came into effect, it would be time for you to lose your life!

Instructor Ji Sha could not hold it in any longer and jumped onto the competition stage. He pulled Yun Chujiu to the side and said, "Yun Chujiu, since you have already won, why are you so insistent on letting Yin Sulian kneel and admit her mistake? It's fine if you just take the 400,000 Spirit Stones! Otherwise, you will definitely die on the Life and Death Arena."

Instructor Ji Sha's words also represented the thoughts of Feng Ming and the others. That's right, they knew the consequences of not agreeing, so why should they put themselves in danger?!

Yun Chujiu's small face suddenly turned serious. "Instructor Ji Sha, I understand that you're doing this for my own good, but if I'm back down from fear today, then what's the point of my cultivation?! Failure isn't scary, the scariest thing is that I don't even dare to face it!

"Furthermore, I don't think that I can't defeat Yin Xinlian. As far as I know, once the challenge order is in effect, the challenged can accept it at any time within half a year. It's enough for me to surpass Yin Xinlian in half a year!"

Ji Sha only felt that Yun Chujiu's words were like a heavy hammer that struck him in the heart. He no longer tried to dissuade Yun Chujiu. Instead, he staggered away from the stage.

Yun Chujiu frowned slightly. Her words had probably touched a nerve in Instructor Ji Sha's heart. It would be good if she could help him get over whatever was secretly troubling him.

It was not just Instructor Ji Sha. Yun Chujiu's words had shocked many students. That's right, their cultivation was already against the heavens. Why would they still cultivate if they were afraid of things?!

However, most people still thought that Yun Chujiu was too impulsive! And she was too blindly confident! It was true that Yun Chujiu's talent was not bad, but there was no way she would reach the first level of the spiritual saint realm in half a year.. Furthermore, Yin Xinlian's spiritual power would continue to grow in that half-year. How could she possibly catch up to her?!
