

The Yun Family's Ninth Child is an Imp! Chapter 1152

The sea-swallowing saber-toothed whale was out of luck. It had never met such a depraved person. Moreover, why was this little weakling's spiritual power attack so abnormal? ! She could even control the time of the explosion. Was she really only at the first level of the spirit sect? The sea-swallowing saber-toothed whale kept rolling in the sea water. Before the pain in its stomach eased up, its eyes and rear area were attacked again. The sea water was soon dyed red with fresh blood. Yun Chujiu would not let go of such a great opportunity. She waved her hands non-stop and kept ordering the purple needles to self-destruct. As for the Purple Lightning, she did not even need to command it to attack the sea-swallowing saber-toothed whale. The sea-swallowing saber-toothed whale finally could not hold on anymore. It let out a miserable cry and floated on the sea surface with its belly turned over. Then, it disappeared and the sea water returned to its original color. Yun Chujiu was wondering if she should pass when a white light flashed before her eyes. When she saw the scene in front of her, Yun Chujiu wanted to strangle the weapon spirit of the trial tower to death. Yun Chujiu was currently being hung on a cliff by a vine. Below it was a level 22 vajra earth-splitting wild bear. It opened its bloody mouth wide, drooling as it waited for Yun Chujiu to fall. On the cliff, a level 22 single-horned bull was gnawing on the vine. Judging from the speed of its gnawing, the vine that was hanging on Yun Chujiu would break in less than 15 minutes. The worst part was that not far from the cliff, there was another level 22 poison-striped double-tailed python that was slithering towards Yun Chujiu. As the saying went, it was bad enough to be attacked from both sides. Damn it, she was attacked from all angles! Yun Chujiu recalled a painting she had seen in her previous life. There was a person hanging from a tree branch. The tree was about to break. There was a snake on the tree, a lion under the tree, and two crocodiles in the river. Damn it., her situation was even worse than that person's! Yun Chujiu's brain was working quickly. She had to make a decision quickly, or there would be no room for escape. If this place was not restricted to flying, she could easily escape. However, it was precisely restricted to flying! What should she do now? Yun Chujiu estimated the distance from this place to the ground. If she jumped down, she would probably be smashed into pieces. However, if she climbed up, not only would she have to deal with a single-horned bull, but she would also have to deal with the poison-striped double-tailed python, there was no way for her to survive. The poison-striped twin-tailed Python was getting closer and closer to Yun Chujiu. Yun Chujiu could even smell the stench of the poison-striped twin-tailed python. It was not that Yun Chujiu had never thought of using her spiritual power to attack, but it was impossible for her to succeed in a short period of time, it was simply a waste of time. 'Do I really have to die first??' 'No, even if it's not true death, I don't want to experience the taste of death. There must be a way. Calm down, calm down.'. Compared to climbing up, jumping down is more advantageous. But how can I guarantee that I won't fall to my death and not be bitten to death by that earth-shattering King Kong Savage Bear? Yun Chujiu's eyes suddenly lit up. From her storage ring, she threw down the corpse of the Demon Beast. The earth-shattering King Kong Savage Bear was stunned at first, then it thought about it. After all, the little weakling on top wouldn't be able to escape from its palm, it would be good to eat some first, so it lowered its head and started to eat the corpses of the demon beasts. Seeing this, Yun Chujiu unhesitatingly released the vines and climbed down the cliff at a high speed. The poison-striped double-

tailed Python was stunned. How could this weak human chicken be better at climbing than the Pythons, the cliff was very steep. How did she climb down so quickly?
