

The Yun Family's Ninth Child is an Imp! Chapter 116

Seeing that everyone was ignoring him, elder Qu became even angrier. He raised his beard and shouted: "HMPH! So what if I've guessed it? With just these seven small dishes, they won't be able to pass this hurdle! Old Xiao, don't you think I'm Right?"

Xiao panshi frowned and nodded: "That's right, not everything can be done by taking advantage of opportunities!"

The rest of the people did not argue with them, their gazes were firmly locked onto the shadow stone.

Just as Yun Chusi leapt up, three iron bone bears suddenly appeared on the plains.

Seeing Yun Chujiu and the others, they immediately waved their huge claws and pounced forward.

Elder QU said proudly: "Did you see that? Three second grade iron bone bears, even seven fourth level spirit enhanced cultivators would find it very difficult to deal with them, not to mention these seven little vegetables! That black girl might directly faint from fright!"

Although elder Qu said so, his small eyes were staring fixedly at the shadow stone.

At the beginning, although the clear sky group had been prepared, they were still slightly flustered. Then, the black girl who was surrounded in the middle shouted something, and the six people on the periphery began to split up into two groups to deal with the three Ironbone Bears.

Elder Qu curled his lips. "They really overestimated themselves. They don't know if they have any brains. They actually let the strongest two deal with one, and the other four must be smacked to death... ."

Elder Qu's words came to an abrupt end because Yun chusi and Yun Chulu had killed the ironbone bear in a short while! Then, the two of them began to support the other two groups!

Master Xuanyuan and the other elders' expressions turned slightly stiff. Cough cough, this black lass was too despicable! She actually made them attack the ironbone bear's anus!

However, this was also a method of surprise. The most vulnerable part of the Ironbone Bear's body was only its eyes. The ironbone bear probably did not expect that someone would attack them there. It was careless and actually succeeded in one strike.

"Hey, look, what is the black girl doing?" An elder shouted in surprise.

Everyone looked and saw Yun chujiu squatting in front of the dead bear. She took out a small dagger from her satchel. As her body blocked everyone's line of sight, no one knew what she was doing!

Fifteen minutes later, the other two ironbone bears were also killed by the Qingyun Group.

Yun chujiu followed the same pattern and took out a small dagger to fiddle with it for a while.

"Humph! This is just a piece of cake. It Won't be as simple as that later!" Elder Qu said while cursing in his heart. This black girl is actually worse than me.

The three corpses of the ironbone bears on the grass suddenly disappeared. Then, another three ironbone bears pounced on Yun Chujiu and the others while howling.

The Qingyun team did the same thing. They still went against one iron bone bear in pairs. However, due to the decrease in stamina, it took much longer this time.

When the first iron bone bear died, Yun chujiu squatted in front of the bear to take a look. Then, she spread her short legs and ran far away.

“Hahaha! I told you that this black girl would be scared. Look, she must be so scared that she wants to run away alone!” Elder Qu felt very proud that he had finally moved back to a city.

Peak master you frowned. This black girl had always cared about family. She shouldn't be so selfish, right?

Master Xuanyuan suddenly asked, “Elder Qu, how do we pass this second round?”

Elder Qu raised his beard and said proudly, “We have to fight for ten rounds before we pass. Do you think that this group of small fries can survive ten rounds? Even if they have some tricks, their stamina can't keep up. I reckon that if they can't survive the fourth round, they will be finished!”

Everyone couldn't help but nod their heads when they heard elder Qu's words. Indeed, the strength of the clear sky group was still too weak. It would be very difficult for them to survive the fourth round!

It seemed that a comeback wasn't an easy matter. The clear sky group could only stop at the second round of the test!
