

## The Yun Family's Ninth Child is an Imp! Chapter 1161

F \* ck! She was absolutely certain that this damned trial tower's Qi Ling wanted to kill her! If she was teleported to this place, she might as well just kill her! At this moment, Yun Chujiu was pitifully lying in a pit that was about 20 feet deep. There were three level 25 bloodthirsty wolves surrounding her, eyeing Yun chujiu greedily in the pit. The three bloodthirsty wolves let out horrifying howls. Their eyes were full of green light, and their saliva dripped down. No matter how Yun Chujiu thought about it, she felt that she had no way to survive. The bloodthirsty wolves could use wind blades to attack. Apparently, they were afraid that their food would be cut into pieces, so they didn't use wind blades, otherwise, Yun Chujiu would have died long ago. Level 25 bloodthirsty wolves were equivalent to human cultivators from the first to second layer of the supreme being realm. The gap between Yun Chujiu and them was almost like a gully. Not to mention the three bloodthirsty wolves, she couldn't even deal with one of them! However, Yun Chujiu quickly adjusted her state of mind. Damn it, was the Tian Dao Strong? Was the heavenly lightning strong? ! Wasn't I still alive and well? ! The Three Little Wolves wanted to take her life? No Way! Yun chujiu blinked her eyes and started to think of a countermeasure. This pit was not deep. Logically speaking, as long as one bloodthirsty wolf jumped in, it would be easy to eat her. Why did the three bloodthirsty wolves only surround the pit and not eat her? Yun Chujiu's heart moved. It was probably because the three bloodthirsty wolves were wary of each other. If one of them jumped down, the other two would most likely hit it while it was down and attack it with wind blades. Then, it would definitely die. Yun Chujiu rolled her eyes, and then her heart was filled with joy. Haha, she had an idea! Yun chujiu smiled and waved her claws at the three bloodthirsty wolves. "Hey, three wolves, I'm really lucky to be able to meet you!" The three bloodthirsty wolves were dumbfounded. Was this little girl crazy? ! Didn't she know that she would be eaten by them? And she even greeted them with a smile? "Three wolves, you must be very strange. Why Am I so happy? Because I feel that it is my honor to die in the hands of such noble demon beasts. Come on! Which Wolf Lord jumped in and ate me!" Yun chujiu closed her eyes, she smiled and waited for her death. The three bloodthirsty Wolves looked at each other warily. Although they were drooling over the prey in the pit, they didn't move to prevent becoming the other two prey. Yun Chujiu opened her eyes in confusion. "Eh? My Lords, why aren't you eating me? My Skin is tender and my meat is very delicious. I guarantee that I won't bite. Come and eat me!" The three bloodthirsty wolves could not help but take half a step back. This guy must be sick! Who would take the initiative to ask to be eaten? "Aiya, I know. Do you think it's inconvenient to eat me in the pit? How about this? I'll climb up so that you can easily eat me." The three bloodthirsty wolves were delighted. It would be easy if this human girl climbed up. They did not have to be wary of each other. After Yun Chujiu finished speaking, she made a move to climb up. After climbing a few times, she returned to the bottom of the pit, she covered her mouth. "Aiya, three wolves, I suddenly thought of a very big problem. If I climb up now, how are the three of you going to share it? You'd better discuss how to share it with Me First! For example, who is the biggest can eat more?"
