

## The Yun Family's Ninth Child is an Imp! Chapter 1193

The four teachers in charge were obviously divided into two groups. Mo Hanxun, Ji Bingyu, and Cheng Yuande were talking and laughing together, while Ji Sha was standing at the side, expressionless. The Huang class students were also very uncertain. They felt that the person who was eliminated was definitely someone from their own class. Please don't be me! Everyone boarded the spaceship in order and headed to the destination of this year's mid-year competition — Crimson Cloud Valley. On the spaceship, all the first-year freshmen were arranged in a hall. There was no need to divide them. Every student from each class took the initiative to sit together with their classmates. At the beginning, everyone was silent. No one spoke. After a while, everyone started chatting when they saw that there were no instructors watching over them. As they chatted, they inevitably talked about the mid-year competition, Yin Sulian said, "You all don't have to worry. The person eliminated is definitely from the Huang Class! I heard that some people in their class haven't learned how to materialize spiritual power yet!" Hearing Yin Sulian's words..., someone immediately echoed, "Yeah, this cultivation relies on talent. In the end, the people from the yellow class barely managed to squeeze in. Not only will they be eliminated by fifty this time, in my opinion, in the future, there will always be people who will be eliminated in the mid-year competition. By the time they reach the fifth grade, they will all be eliminated." "Hehe, this is because they will only be eliminated in the mid-year competition. If they are eliminated every semester, they will be eliminated by the third grade." "Haha, it seems that the academy has really put in a lot of effort to set up the yellow class. This is to ensure that our three classes are not eliminated." .. When the people from the yellow class heard everyone's discussion, their faces turned green with anger. Although they also felt that their strength was the weakest, it was too much of a bully to be mocked in public! "Shut the F \* ck up! If anyone spouts nonsense again, do you believe that I won't let him participate in the mid-year Grand Competition?" Yun chujiu stood up and said coldly. Although everyone felt indignant, when they recalled Yun Chujiu's past deeds, they still shut their mouths embarrassedly. This yun chujiu was extremely daring. If she really risked it all and didn't participate in the grand competition, she would beat them up..., it was really not worth it. Yin Sulian glared fiercely at Yun Chujiu. Slut, you can continue to gloat! This time, fourth grandfather had made meticulous arrangements. Crimson Cloud Valley would be your burial ground! Crimson Cloud Valley was about five days away from the Tianyuan Academy. The first three days were uneventful. Other than resting, everyone was meditating and cultivating. Even if they were not quick to sharpen their spears, they would still be fine. On the fourth day, Deputy Dean Jiang and Deputy Dean Xiao suggested that they go to the Scarlet Cloud Valley to wait for everyone. Therefore, the two of them took the small flying spirit tool and left. No one paid too much attention to them. On the fifth day, when everyone was meditating and cultivating, they felt the spaceship jolting violently. It was as if the entire spaceship was about to capsize. At this moment, a teacher rushed into the hall and shouted in panic, "We have encountered the attack of the nine-toed golden eagles. All of you hurry up and prepare for battle. Otherwise, none of us will survive!" The students immediately exploded. At this moment, the sound of sharp attacks could be heard from outside the spaceship. In some places, the sharp beaks and claws of the nine-toed golden eagles had already reached in! "Oh my God! Aren't the nine-toed golden eagles demonic beasts on the 25th floor? That is equivalent to the first to second floor of a human spiritual

venerable. Moreover, there are hundreds of them in each species. We are doomed this time!” “Yeah, Deputy Dean Jiang and Deputy Dean Xiao are still better off, but they’re not on the spaceship now. I’m afraid we’re really going to die!” “Wuwu, I didn’t expect that the mid-year competition would be our death journey. If I had known earlier, I would have rather been eliminated!” ..
