

## The Yun Family's Ninth Child is an Imp! Chapter 1194

The teacher shouted anxiously, "Stop complaining, let's stop these nine-toed golden eagles. If they break through the spaceship, no one will be able to escape!" "You guys form a group and quickly attack the nine-toed golden eagles' beaks and claws. Don't let them get in." Hearing the teacher's words, everyone hurriedly accepted the challenge and used their spiritual power to attack the nine-toed golden eagles' beaks and claws. However, the nine-toed golden eagles' beaks and claws were extremely hard. The attacks of the students were basically useless. Very quickly, the spaceship was pecked open one by one. The nine-toed golden eagles desperately tried to squeeze in. Everyone became even more panicked. A nine-toed golden eagle pounced towards Yin Sulian. Yin Sulian was so frightened that she took out a talisman and threw it at a nine-toed golden eagle. After a loud sound, although the nine-toed golden eagle was slightly injured, Yin Sulian had blown a big hole in the spaceship. More nine-toed golden eagles rushed in through the hole! Yun chujiu stood at the side and cursed, "Yin Sulian, you little B \* Tch! You are so stupid! If we are eaten by the nine-toed golden eagle, we will not let you go even if we become ghosts!" Yin Sulian saw everyone's reproachful eyes, she shouted, "If I don't use the talisman, do I have to stand there and wait for death? ! Yun Chujiu, you don't have to blame me. Don't you always think that you have many evil ideas? Why Can't you do anything now?" When those students heard Yin Sulian's words, they had long forgotten the words that mocked the Huang class, they pleaded, "Yun Chujiu, Yin Sulian is right. You have always been the smartest. Quickly think of a way, or else we will all die here!" Yun chujiu could not help but sneer, "What can I Do? I Am the class monitor of the Useless Huang class. It is better for you students with good talent to think of a way!" When everyone heard Yun Chujiu's words, their faces were filled with embarrassment. Yin Xuecheng suddenly shouted, "Yun Chujiu, as long as you protect me from death, I will give you 100,000. No, I will give you 200,000 high-grade spirit stones!" When everyone heard Yin Xuecheng's words, they recalled Yun Chujiu's past performance. This fellow was greedy. Perhaps it was because we didn't express our feelings that she said there was no other way. She could even pass through the trial tower! What were these nine-toed golden eagles? ! Hence, they shouted one after another, "Yun Chujiu, we'll give you 200,000 as well. Think of a way quickly!" Yun chujiu curled her lips. These idiots were all fence-sitters, and the students of our Huang class were the cutest, she said with a troubled expression, "Alright, then I will reluctantly give some advice. This nine-toed Golden Condor has a strong body, but its eyes are weak. Don't attack its beak and claws, just attack its eyes. Other than that, the students with fire spirit roots will use fire to burn their feathers. This way, we can temporarily force them back." Everyone was dumbfounded. Was it that simple? Just a few words were worth 200,000 high-grade spirit stones? However, now was not the time to think about this. They all followed Yun Chujiu's instructions and attacked the nine-toed golden eagle's eyes. Although the nine-toed golden eagle's spirit power level was much higher than theirs, its huge body could not enter for the time being, only its neck and claws could reach in, so its attack power was very limited. Therefore, many of the nine-toed golden eagles were forced to retreat. Before everyone could be happy, the nine-toed golden eagles changed their strategy. They actually used their huge wings to pounce on the spaceship, trying to force the spaceship to stop. This way, when everyone came out of the spaceship., they could eat to their heart's content.
