

## The Yun Family's Ninth Child is an Imp! Chapter 1199

For the next few days, everything went smoothly. After the battle, the tacit understanding between everyone was getting better and better. Moreover, their confidence was also getting stronger and stronger. Everyone's harvest was also quite plentiful. On the eighth day, everyone arrived near a mountain stream. "Junior sister Little Nine, Look! There's actually a piece of earth grade high-grade beaded jade flower over there. These are all points!" Everyone looked in the direction that Feng Ming was pointing at. Sure enough, there was a stretch of red in the distance. It really was a jade pearl flower. Everyone immediately cheered. Yun chujiu stopped everyone from rushing forward rashly. "There must be a powerful companion beast next to such a spirit herb. Everyone, be careful." Yun chujiu picked up a stone and threw it over. The scene that she saw caused everyone's back to feel a cold breeze. Fortunately, they didn't rush forward rashly. Otherwise, they would be dead for sure! They saw dozens of scarlet twin-tailed serpents jumping out from the jade flowers. The scarlet twin-tailed serpents were demonic beasts of the nineteenth level, and they were extremely poisonous. If they had rushed forward rashly just now, they would have been dead by now. Most of these people were at the fifth level of the Spirit sect. Feng Ming and the other two were only at the second level of the spirit sect, while the scarlet twin-tailed serpents were equivalent to human cultivators at the seventh level of the spirit sect. If both sides fought, the result would be obvious. "Junior sister little jiu, let's retreat. These scarlet multicolored twin-tailed snakes are really hard to deal with," Feng Ming said in a low voice. Yun chujiu nodded. She herself wasn't afraid of poison, but the others weren't. If they were really bitten, their lives would be in danger. Thus, the group headed in another direction. They never imagined that they would actually be blocked by twenty masked men. "Yun chujiu stays behind. The rest can leave. Otherwise, none of them will be left behind," the leader of the masked men said in a hoarse voice. Yun chujiu realized that she couldn't see through the other party's cultivation. This meant that the other party was at least at the ninth layer of the spirit sect, and they were probably all at the level of a spirit saint. The people from the tenth group immediately panicked. Wasn't Crimson Cloud Valley already blocked by the Academy's Array Formation? Why would a masked man come in and take the class monitor's life? Yun Chujiu's heart stirred. These people were probably related to the Yin family. As the Academy's Deputy Dean Yin, it wouldn't be a problem for him to tamper with the array formation. Moreover, the Yin family was most famous for its array formation., cracking the Academy's Protective Array Formation was a piece of cake. "Feng Ming, bring them to another place to continue the trial. I'll send them off before coming to look for you," Yun Chujiu said indifferently. Feng Ming was anxious. "Junior Sister Little Jiu, what are you talking about? ! How could we leave you behind?" The people from the tenth group also said, "Class monitor, we're not cowards. At worst, we'll just fight them!" Yun chujiu waved her hand and said to Feng Ming, "Senior brother Feng Ming, think about what happened in the ancient mine. If you stay, you will only drag me down. You can go." Hearing Yun Chujiu's words, Feng Ming's heart was moved. Yes, Junior Sister Little Jiu had many secrets. If they were here, perhaps she would not be able to use her full strength. They might as well hurry back to the exit and ask teacher Xiao and the others for help. "..."

Feng Ming thought of this and nodded. "Alright, Junior Sister Little Jiu, you be careful. Let's Go!" Although the people from the tenth group didn't understand why Feng Ming had changed his mind, they could only follow Feng Ming and leave. After Feng Ming and the others had gone far away, Yun Chujiu

said to the masked men, "You are from the Yin family, right? Deputy Dean Yin should have sent you here, right? Do you need to be so arrogant to deal with a second level spirit sect disciple like me?"
