

The Yun Family's Ninth Child is an Imp! Chapter 1202

"Boss, even if this person is dead, there should still be a corpse. Why is it gone? We can't use a concealment talisman here. Where did she go?" The masked leader was also puzzled. He had searched everywhere he could, but there was still no trace of that smelly girl. How could this person disappear into thin air? He suddenly looked at the bottom of the cliff. Could it be that the girl had died of poison and fell to the bottom of the cliff? He walked to the edge of the cliff and looked down, but he could not see anything in the clouds, he gritted his teeth. "Let's split into two groups. Half of us will continue to search on the top, and the other half will follow me down from the other side to the bottom of the cliff. The girl must have died of poison and fell to the bottom of the cliff." Yun Chujiu, who was lying on the cliff wall, heard the masked man who was leading the group and cursed in her heart. F * ck! How cunning! She had to think of something. Otherwise, when they reached the bottom and there was no cloud to hide them, they would discover her! Yun chujiu brought Xiao Hei out and let it start to dig a hole on the cliff. When the hole was dug, Yun Chujiu hid in it and blocked the hole with the gravel inside the hole. She even pulled a few vines as cover., she looked out through the small gap. The leader of the masked men took a detour to the bottom of the cliff but did not find Yun Chujiu's body. He was even more suspicious. Where did this stinky girl go? He really looked at the cliff wall. Other than the vines and sparse herbs, there was no sign of Yun Chujiu. Besides, it was forbidden to fly here, so the stinky girl could not be hanging on the cliff wall! The leader of the masked men searched for a while more before leaving in disappointment. Yun Chujiu was not in a hurry to go out. Who knew if these people were hiding somewhere waiting for her to walk into their trap? She would stay in this cave. Feng Ming and the others would definitely send a letter to deputy Dean Xiao and the others. She would only go out when they were in the vicinity. Only then would she be safe. In order to stay in the cave for a long time, Yun Chujiu had Xiao Hei expand the cave a little. Xiao Hei dug the cave wide without complaint, and Yun Chujiu stayed in the cave. Every day, she would eat, sleep, and cultivate. In the blink of an eye, three days had passed. This fellow was a little bored staying in the cave, so she decided to relax and took out a story book from her storage ring, she sat on the innermost cliff and read the story book. When she saw something interesting, she stomped her feet in excitement, and then she was miserable! The place where she stomped her feet actually collapsed, and Yun Chujiu fell straight down. Just as Yun Chujiu was about to use the sticky silk to climb up, a white light flashed in front of her eyes, and she couldn't see anything. There was only one thought in this fellow's mind. How miserable! When Yun Chujiu opened her eyes, she found herself in a cave. The cave was very spacious, but what made her hair stand on end was that there was a large coffin in the middle of the cave. It was pitch-black, it looked very creepy. Of course, Yun Chujiu didn't want to stay here any longer, but she found that she couldn't find the exit at all. She thought that there must be a formation here. Then, she could only find the formation disk. However, where could the formation disk be? Yun chujiu searched the entire cave but could not find the formation disk. She then fixed her gaze on the large coffin. She was afraid that the formation disk was inside the coffin or under it. Although she did not want to touch this thing, in order to get out., she could only do it.
