

## The Yun Family's Ninth Child is an Imp! Chapter 1210

Guai Cao was feeling guilty right now, so he naturally did not dare to disagree. He eagerly followed Yun Chujiu's instructions and attracted more than ten demon beasts at a time. Yun Chujiu, on the other hand, had set up a trap. When the demon beasts arrived, she first called out to lie Yan, the three-tailed Fox King, and when the demon beasts were distracted, Yun Chujiu's purple needles also arrived. Those demon beasts were in big trouble, there was no coming back, one batch after another died. After killing a few hundred demonic beasts, Yun Chujiu felt that it was enough. She couldn't kill all of them. Otherwise, the ecological balance would be destroyed. Then, this fellow began to pick up scraps in the surroundings. The demonic beasts that she killed basically all had territories, and there were spirit herbs in their territories. Sure enough, she picked up quite a few spirit herbs in the surroundings and felt that it was enough, only then did she continue to head south. Halfway there, she met Deputy Dean Xiao and the others. When Feng Ming and the others saw that Yun Chujiu was safe and sound, they were extremely excited. One after another, they came over to ask her how she had escaped. Yun Chujiu made up a lie, saying that she had fallen down the cliff. Unexpectedly, she had accidentally hidden herself in the cave. After coming out, she did not see those black-clothed people. Those black-clothed people were probably afraid of being discovered, therefore, they all left. Deputy Dean Xiao knew that there were many people, so he did not ask in detail. He sent a few instructors to the edge to check the situation of the array formation, then, he said, "Yun Chujiu, the day after tomorrow is the day after the end of the mid-year grand competition. The few of you have been affected by the sudden incident. I will explain the situation to the academy. I will not eliminate you." Although Yun Chujiu had already gotten quite a lot of things from her storage ring, she did not say anything. After thanking him, she followed him out. When everyone was about to reach the entrance of the Crimson Cloud Valley, the students from the Huang class were waiting there obediently. This was because when Yun Chujiu entered the valley, she had told them to gather here before going out. "Deputy Dean Xiao, I will talk to them. I will go out later." Deputy Dean Xiao nodded. "The time for the trial is almost up. Don't delay too much, or their results will be invalid." Yun Chujiu obediently agreed, and then jumped to the middle of the Huang class students. An hour later, all the students of Tianyuan Academy left Crimson Cloud Valley and gathered at the entrance of the valley. Yin Sulian saw that Yun Chujiu had come out unscathed, and she couldn't help but hate in her heart. This B \* Tch was really lucky. Those secret guards were really trash, they actually didn't manage to kill this B \* Tch! However, Yun Chujiu and those twenty over Huang class students were definitely going to be eliminated! HMPH, as long as you were kicked out of Tian Yuan Academy, it would be easy for them to kill you. There were already teachers who had started to tally the results. After the results were out, there was actually not a single Huang class student who was ranked in the bottom fifty! More than half of the students from the Earth class and the Xuan class, and more than a dozen from the heaven class. The crowd immediately exploded! "How is that possible? The yellow class has the weakest spiritual power. How can they not be on the list of eliminated students?" "Some of them haven't even learned how to materialize their spiritual power. How can they be better than us?" "Exactly! is the statistics wrong?" .. The teachers who were in charge of the statistics were instantly enraged! "This is outrageous! We've been responsible for the statistics for decades, how can we still be wrong? If anyone is unconvinced, they can personally recount it!" Those students who were

eliminated naturally wouldn't let go of this chance to turn the tables. They immediately expressed that they wanted to select a few students from the Huang class. The teachers responsible for the statistics laughed coldly. "Go ahead! If there are any mistakes, we'll take the initiative to leave."
