

## The Yun Family's Ninth Child is an Imp! Chapter 1211

Those students had drawn a few students from the yellow class and calculated it once, but it turned out to be exactly the same. They were unwilling to accept it, so they had drawn a few more students from the yellow class, but the results were still the same. Their faces flushed red, and they didn't say anything. Yin Sulian rolled her eyes and snorted coldly at the side, "Actually, Yun Chujiu and the other twenty-five people should be ranked last. They must not have gotten much." Deputy Dean Xiao said with a sullen face, "Yun Chujiu was attacked in Scarlet Cloud Valley. Feng Ming and the others came out to report for the safety of their classmates, so they naturally have to give rewards. Therefore, their results are not included." Most of the people heard deputy dean Xiao's words and expressed their understanding. After all, the situation was special, but those students who were about to be eliminated would not do it. If Yun Chujiu and the others' results were included., they might not have to be eliminated. Therefore, someone said, "Who knows if what they said is true? Maybe they made it up so that they wouldn't be eliminated!" "That's right! Other than these people, no one else has seen any black-clothed people. Who knows what's going on?" "Feng Ming and the other two are only at the second level of the Spirit sect. If they were to participate in the grand competition normally, they would definitely be eliminated. That's why they came up with this idea. It's really too cunning!" .. Deputy Dean Xiao frowned. Not only were these students weak in spiritual power, but their character was also extremely bad! Yin Sulian stood at the side, she gloated and said, "Yun Chujiu, some things will be discovered as soon as they are done. Your little tricks aren't always useful! You Don't have to be eliminated, but those students will suffer! How despicable!" Yin Sulian's lackeys also joined in the commotion, and the scene immediately became chaotic! Yun chujiu suddenly laughed, and her clear laughter stunned everyone. Was this Yun chujiu crazy? "Deputy Dean Xiao, don't make things difficult for us. Although we don't want to lie, we are willing to participate in the results statistics to shut some people up," Yun Chujiu said indifferently. Deputy Dean Xiao frowned. Aren't you looking for trouble yourself? How many things can you get if you keep evading the pursuit? Not to mention that the things Feng Ming and the others found were even more limited in order to report the news. Mo Hanxun, the teacher-in-charge of the heaven class, said, "Deputy Dean Xiao, since Yun Chujiu has taken the initiative to participate in the results statistics, let them participate. After all, it's more fair to the other students." The teachers-in-charge of the other two classes, Ji Bingyu and Cheng Yuande, also echoed, "Yes, since they have agreed, let's do the statistics!" They naturally had their own plans. Never in their wildest dreams did they expect that there wasn't a single person in the bottom 50 in the Huang class. This was simply a slap to their faces. They had actually been suppressed by the Huang class. It was simply a great humiliation. How could they have known that after Yun Chujiu estimated everyone's results, she had secretly given the Huang class many things. That was why the Huang class's results were so good. Ji Sha had originally wanted to persuade Yun Chujiu, but when he saw Yun Chujiu's crafty eyes, he knew that he did not need to say anything else. This little girl must have made preparations. Deputy Dean Xiao couldn't say anything else at this time, so he could only get people to count the results of Yun Chujiu and the others. Yin Sulian was very proud at the side. Yun Chujiu, I didn't expect you to boast that you're smart, but in fact, you're a fool. You actually agreed to participate in the results statistics? You're really stupid to the core! Not only you, Feng Ming and the others will also be eliminated. When that time

comes, they will definitely resent you. If it wasn't for you, they wouldn't have been eliminated. Just wait for everyone to turn their backs on you!
