

The Yun Family's Ninth Child is an Imp! Chapter 1217

Manager Luo looked at the flying spirit tool that was almost completely plundered. She wanted to find a rope and hang herself. Forget it, she was just a servant. It was better to let the palace master's wife ask for it from the little pervert! Yun Chujiu took advantage of him, so she was naturally in a good mood. She said with a smile, "Manager Luo, you have served my aunt hard. This 200,000 high-grade spirit stones is just a small token." "No, no, Miss Jiu, I appreciate your kindness. I don't dare to accept this spirit stone." Manager Luo was so scared that she almost sat on the ground. Damn, what was this little pervert trying to do? Would she be kind enough to reward me with spirit stones? Stop joking! It would be good if she didn't blackmail me! Yun Chujiu's small face fell. "Manager Luo, are you looking down on me? "Although I'm not as rich as the three senior sisters, my aunt has given me a lot of spirit stones. I don't care about these spirit stones. If you don't accept them, you're looking down on me." Manager Luo was about to cry. It was the first time he felt that spirit stones were so scary, but he didn't dare not accept them. He then said, "Thank you very much, Miss Jiu." Yun chujiu said with satisfaction, "That's right! You should be rewarded for taking good care of your aunt. I'm the most generous person. Three Senior Sisters, don't you want to express your gratitude?" Yun chujiu changed the topic and looked at Qin Mingzhu and the other two, then, she said, "Aiya, I'm sorry. There's something wrong with my question. You will definitely reward me for my kindness. Don't blame me. Don't take it to heart. Just pretend that I didn't say anything." Qin Mingzhu and the other two's faces stiffened. Pretend that you didn't say anything? Since you said it, can we pretend that we didn't hear it? Moreover, you've already rewarded us with a pauper. If we don't reward you, how will manager Luo View Us? After hearing what she said to the palace mistress, will she have a good impression of us? Most importantly, you're usually the most stingy. This time, you actually offered 200,000 high-grade spirit stones. How much do you want us to reward you with? It Can't be less than you, right? However, manager Luo was the wife's right-hand woman. It was worth it to curry favor with her. Qin Mingzhu was the first to speak. "Manager Luo, what Junior Yun said makes sense. You have served the wife without complaint. You are indeed a meritorious person. This, this 300,000 high-grade spirit stones can be considered as a small token of my appreciation." Although Qin Mingzhu said it casually, her heart ached terribly. 300,000! However, it couldn't be less than Yun Chujiu. Otherwise, manager Luo might think that she wasn't as sincere as Yun chujiu. Just as manager Luo was about to decline, yun chujiu said, "Manager Luo, you have to treat everyone equally. If you accept mine, how can you not accept Senior Sister Qin's? Quickly put it away. Otherwise, senior sister Qin will be unhappy." Qin Mingzhu also said with a slightly sullen face, "Junior Sister Yun is right. If manager Luo doesn't accept it, then you are looking down on me." For the first time, manager Luo felt that accepting gifts was such a terrible thing, so she could only accept Qin Mingzhu's 300,000 high-grade spirit stones. Since Qin Mingzhu had already given it to them, Baili Yan and Yin Sulian naturally couldn't be reconciled to others. Each of them also gave manager Luo 300,000 high-grade spirit stones. Manager Luo felt that these spirit stones were simply a hot potato. After thanking her, she went to another room and prepared to report this matter to the palace master's wife. Just as she entered the room, before she could organize her words, she heard someone knocking on the door. "Manager Luo, open the door. I'm Looking for you for something. Can you help me see why this lamp isn't lit?" Yun chujiu held the lamp that she had stolen and muttered.
