

The Yun Family's Ninth Child is an Imp! Chapter 1226

The next morning, Yun Chujiu was still asleep when she heard manager Luo's voice from outside the courtyard, "Miss Jiu, the palace mistress has sent you over." Yun chujiu shouted impatiently, "I haven't woken up yet! Why are you shouting? Wait outside!" Manager Luo shrunk her neck. When the three ladies heard that the palace mistress had summoned them, which one of them did not rush over? This person was not only not attentive, but also impatient. Although manager Luo was complaining in her heart, she did not dare to say much, especially when she thought of the two ghostly symbols on Liu Ye's face. After an hour, Yun Chujiu finally came out. While yawning, she said, "Do all of you from the Hall of Immortals Wake Up so early? It's not easy to have a holiday, and you can't even sleep in. I haven't even eaten breakfast!" Manager Luo Thought for a moment and said, "Miss Jiu, Liu Ye came to the palace master's wife in the morning to cry and complain that you ruined her appearance. The Palace Master's wife was furious, so she summoned the four of you." Yun chujiu naturally understood that manager Luo was trying to please her. She nodded and said, "My aunt is probably anxious to see me, so she used this introduction to summon me. She really put in a lot of effort." Manager Luo's face stiffened. There was no one else who could be so narcissistic! Forget it. Anyway, I've already reminded her. I Can't help it if you don't take it to heart. At this moment, in the living room, the palace mistress's face was as dark as water. She slammed the table, and three pearls jumped, the palace mistress said angrily, "Outrageous! Outrageous! It's really outrageous! It's already been an hour, and this Yun Chujiu still hasn't come! She really doesn't put me in her eyes!" Qin Mingzhu and Baili Yan didn't say anything, but Yin Xinlian said gently, "Palace mistress, Junior Yun may have overslept. After all, she caused a big scene in the canteen yesterday." Hearing Yin Xinlian's words, the palace mistress was even more furious. "She went to other people's house as a guest and didn't stay well. She actually caused a big scene in the master's canteen and beat up the maids. This is really too unruly!" Liu Ye, who was kneeling on the ground, had a flash of pride in her eyes. Yun Chujiu, you're really courting death. You've been dawdling for so long and still haven't arrived. Just wait to suffer the palace mistress's Anger! Just as the palace mistress was about to send a voice transmission talisman to manager Luo in a rage, she heard someone shout cheerfully, "Aunt, I've missed you to death! Aunt, come on, let's have a loving hug!" As she spoke, a delicate figure rushed in and rushed all the way to the front of the palace mistress. Seeing that she was really going to hug the palace mistress, the palace mistress was scared silly and hurriedly shouted, "Stop!" Yun chujiu suddenly stopped and looked at the palace mistress with an aggrieved expression, "Aunt, little jiu has missed you so much! Why Are You So Cold to me? It's really too heartbreaking!" The palace master's wife regained her senses and angrily shouted, "Don't give me that trick! Step Back!" Yun chujiu pursed her lips and took a few steps back as she said aggrievedly, "Aunt, we haven't seen each other for just over a month and you already don't Dote on Little Jiu?" "Don't flatter me! Let Me Ask You, why did you beat up Liu Ye Yesterday? A guest like you actually beat up the master's maid. You really don't have any rules!" The palace master's wife sternly shouted, she did not hide her disgust and dissatisfaction towards Yun Chujiu at all. Yin Xinlian's heart rejoiced. The palace master's wife really did not like Yun Chujiu. As long as I add fuel to the fire, Yun Chujiu would definitely be driven out of the Palace of Immortals. Qin Mingzhu and Baili Yan had the mentality of watching a show. They did not Hate Yun chujiu as much as

Yin Xinlian did. They felt that she was just a little girl with no background and was not a threat to them at all.
